Welcome to California State University, Los Angeles.

In 1997, we observed a significant milestone: Cal State L.A.'s 50th Commencement. Our 1997 Commencement began a year-long celebration of 50 years of excellence in teaching and learning.

As we move toward our 100th anniversary, we enter a new millennium as well. Now, more than ever, students must achieve a solid foundation in the critical skills of thinking, communicating and problem-solving. The University continues to provide that foundation, considering it the most important aspect of our academic tradition. We believe that this enrichment will ensure the success of our students in the rapidly changing landscape of the 21st Century.

Cal State LA's commitment to academic excellence provides you with unlimited learning opportunities. Our faculty, considered some of the most gifted and honored educators in the nation, is dedicated to developing the potential of each student. The University works to facilitate student-professor interaction, strengthen individual learning and enhance team-building. The diversity and varied learning and social experiences that abound at Cal State L.A. are equally important for educational enrichment. We strongly believe that these conditions are essential for success in a world of formidable tasks and responsibilities.

Over the last half-century, Cal State L.A. has created an environment where graduates have become successful leaders, creators, reformers, workers, service providers, productive citizens, and supportive family members. They continue to carry on the University's mission to build a just society that is invigorating in its variety and diversity and respectful of both the individual and the values shared by the society.

In 1995, astronaut and physicist Sam Durrance ('72, ‘74) took the University beyond our earth’s boundaries when he carried the Cal State L.A. President's Medallion into space on the Shuttle Endeavour. For all students at California State University, Los Angeles, the opportunities are equally boundless. We look forward to helping you participate fully in the promise of the next century at Cal State L.A.

James M. Rosser
President
California State University, Los Angeles

For five decades, California State University, Los Angeles has been privileged to offer our students outstanding programs of academic excellence.

The University invites you to participate in our golden anniversary.

THE GENERAL CATALOG

The University’s General Catalog is prepared in the Office of the Associate Vice President for Academic Affairs in collaboration with the Office of Undergraduate Studies and the Office of Publications/Public Affairs. Editing and production support was supplied by Dorothy Gang. Special assistance was provided by Margarita Chavez. Special acknowledgements are due the following for their contributions: Virginia Hunter, Associate Dean of Undergraduate Studies, for curriculum expertise and editorial assistance; Publications/Public Affairs, for cover artwork, photographs, and editorial assistance; Lac Rios, Reprographics, for design and typesetting of title pages, tables, and grids; and Edward Fisher, Academic Affairs Administration, for developing the academic calendars and providing software assistance. Information contained in this issue is revised to April 15, 1997.

The catalog may be purchased in person or ordered by mail from the University Square Bookstore. The price, established under regulations of the Board of Trustees of the California State University, is $5.00. To order by mail, call the University Square Bookstore, (213) 343-2500, to obtain the cost for mailing. Send a request with check or money order to cover the cost of the catalog and mailing to: California State University, Los Angeles, Attention: University Square Bookstore, 5153 State University Drive, Los Angeles, CA 90032-8734.

Changes in Rules and Policies

Although every effort has been made to ensure the accuracy of the information in this catalog, students and others who use the catalog should note that laws, rules, and policies change from time to time and that these changes may alter the information contained in this publication. Changes may come in the form of statutes enacted by the Legislature, rules and policies adopted by the Board of Trustees of The California State University, by the Chancellor or designee of The California State University, or by the President or designee of the institution. Further, it is not possible in a publication of this size to include all of the rules, policies, and other information that pertain to the students, the institution, and The California State University. More current or complete information may be obtained from the appropriate department, division, school, or administrative office, or in the Schedule of Classes.

Nothing in this catalog shall be construed as, operate as, or have the effect of an abridgement or a limitation of any rights, powers, or privileges of the Board of Trustees of The California State University, the Chancellor of The California State University, or the President of the campus. The Trustees, the Chancellor, and the President are authorized by law to adopt, amend, or repeal rules and policies that apply to students.

This catalog does not constitute a contract or the terms and conditions of a contract between the student and the institution or The California State University. The relationship of the student to the institution is one governed by statute, rules, and policy adopted by the Legislature, the Trustees, the Chancellor, the President, and their duly authorized designees.

Nondiscrimination Policy

California State University, Los Angeles affirms its commitment to equality of opportunity for all individuals. This commitment requires that no discrimination shall occur in any program or activity of the University on the basis of race, color, religion, national origin, sex, sexual orientation, marital status, pregnancy, age, disability, disabled veteran’s or Vietnam era veteran’s status, or any other classification that precludes a person from consideration as an individual. This policy is in accord with Title IX of the Educational Amendments of 1972, as amended, Sections 503 and 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, and related administrative regulations and executive orders. Inquiries concerning the application of Title IX, Sections 503 and 504, and other nondiscrimination laws may be referred to the Office for Affirmative Action (Telephone: [213] 343-3040) the campus office assigned the administrative responsibility of reviewing such matters. Title IX inquiries may also be directed to the Regional Director of the Office for Civil Rights, Region IX, Old Federal Building, 50 United Nations Plaza, Room 239, San Francisco, CA 94102.

Compliance with the Americans with Disabilities Act (ADA)

California State University, Los Angeles does not discriminate on the basis of disability in admission to, access to, or operation of its instruction, programs, services, or activities, or in its hiring and employment practices. The University provides reasonable accommodation to facilitate the participation of covered individuals with disabilities.

Questions, concerns, complaints and requests for reasonable accommodation or additional information may be forwarded to the Office for Affirmative Action, the campus office assigned responsibility for compliance with the ADA. The Office for Affirmative Action is located in Administration 604C, and open Monday through Friday, 8:00 a.m to 5:00 p.m., (213) 343-3040 (voice) or (213) 343-3270 (TDD).

Familiarity with the institution’s rules and regulations published in this catalog shall be the responsibility of each student and faculty member, and of those administrative offices concerned with academic matters.

The Cal State L.A. Alumni Association

The Alumni Association was formed in 1954 to provide official representation of the alumni in matters that affect the general welfare of the University. The association serves as a vital link between the University, its alumni, and the greater Los Angeles community. Its primary purposes are to advance the University's interests, to enhance relationships among alumni, faculty, staff, and students, and to strengthen the contributions of alumni to the campus community. These goals are accomplished through many varied, ongoing activities and programs. Membership is open to all former Cal State L.A. students and those who wish to support the mission of the association.

The President’s Advisory Board

The President’s Advisory Board consists of distinguished community leaders interested in the development and enhancement of the University. The board serves in an advisory capacity, particularly in matters that affect University and community relations. Members are nominated by a committee of the board and appointed by the President.
Cal State L.A. Foundation

The Cal State L.A. Foundation was organized in 1985 as a 501 (c)3 tax exempt, nonprofit organization for the purpose of accepting charitable contributions to the University. The Foundation Board guides and advises the University administration and professional fund raisers in securing donations of private funds for use in four areas: capital campaigns, scholarships and fellowships, endowed chairs, and educational programming.

THE UNIVERSITY

California State University, Los Angeles, founded in 1947 by action of the California State Legislature, is a comprehensive university that offers programs of higher education in more than 50 academic and professional fields. The University is organized into six schools that house nearly 50 academic departments and divisions. Cal State L.A.’s reputation as a center of learning attracts students from all areas of the United States and from many foreign countries. One quarter of the campus’ 19,000 students are engaged in postbaccalaureate study in programs leading to masters and doctoral degrees; teaching, service, and specialist credentials; certificates; and other types of programs that prepare them for professional advancement.

Located at the eastern edge of Los Angeles and adjacent to western San Gabriel Valley cities of Alhambra and Monterey Park, Cal State L.A. occupies nearly 200 acres on a hilltop site that affords views of the mountains to the north, the San Gabriel Valley to the east, metropolitan Los Angeles to the west, and the Palos Verdes Peninsula and Catalina Island to the south. Ample parking facilities are available, and public transportation to and from campus is excellent. Cal State L.A.’s MetroLink commuter station, the only one on a college campus, makes the University accessible to students, faculty and staff from as far as San Bernardino, Oxnard and Oceanside. Buses and trains provide direct service to more than 35 communities in the San Gabriel Valley and to other nearby Los Angeles communities. The Los Angeles Civic Center, with numerous historical and cultural attractions, is five miles west of the campus. Industrial and business centers and several major shopping centers are located nearby. Popular mountain and desert resorts are within a two-hour drive, and beaches are less than an hour away by car.

The campus is nestled among rolling hills on a site that once housed one of California’s 36 original adobes, built in 1776 by Franciscan missionaries and destroyed by fire in 1908. These lands once were part of a Spanish land grant known as the Rancho Rosa Castilla, created by the family of Juan Batista Batz, a Basque rancher from northern Spain who settled here in the 1850s. The inspiration for the name of the rancho, according to local historians, was the wild rose that once grew near the ranch home. The main drive through the campus is known as Paseo Rancho Castilla, in acknowledgment of our historic heritage.

The Campus Setting

The academic character of the University is reflected in the contemporary design of its physical facilities. The general campus is planned in such a way that it will permanently remain a spacious, open atmosphere, created by landscaped plazas and courts integrated with contemporary concrete, brick, and glass buildings. Surrounding hillsides and parking areas are extensively planted with a variety of trees, shrubs, and ground covers that further embellish the park-like environment of the campus.

From 1947 to 1955 Cal State L.A. was situated on the campus of Los Angeles City College and shared its facilities. In 1956 construction began on the present site, and in 1958 ten newly constructed permanent buildings were first occupied. In more recent years, the University went through another major phase of master plan development that included a new administration building, major additions to several existing classroom buildings, construction of two new classroom buildings with underground parking structures, relocation and expansion of the Student Health Center, and the addition of a modern University-Student Union. Other recently completed projects include parking facilities for more than 2,700 cars; an excellent, attractively landscaped road access system; major remodeling of the south wing of the Fine Arts building; completion of the Anna Bing Arnold child care center; and of garden style apartments that provide on-campus housing for more than 1,000 students. In 1994, the University opened the Harriet and Charles Luckman Fine Arts Complex, the campus’ new northern gateway. An architectural tour-de-force, the buildings house a large theatre and visual arts gallery. A total of 19 permanent buildings, representing a financial investment by the state of California of more than $115 million, stand on a plateau that serves as a refreshing oasis in the center of the Los Angeles region.

The Mission of the University

California State University, Los Angeles has one of the most diverse student populations of any college or university in the nation. Building on the strengths of this rich diversity, our University prepares students for success in advanced studies, in their careers, and throughout their lives. Cal State L.A. graduates constitute a major leadership force in greater Los Angeles, a microcosm of the global society.

The University is committed to free scholarly inquiry, to high-quality teaching, and to academic excellence in undergraduate, graduate, and other postbaccalaureate and continuing education programs. This commitment underlies strong educational programs that are sensitive to the needs of the University’s uniquely diverse student body. These programs include research, scholarship, creative activity, and community service. With the support of the administration, staff, alumni, and community, highly qualified faculty are the keystone of the University and the basis for the excellence of our programs.

As a comprehensive university, California State University, Los Angeles offers a broad range of liberal and professional programs designed to encourage student excellence, achievement and well-being. Facilitated by close interaction between faculty and students, educational programs are designed to foster habits of disciplined inquiry and critical thinking while helping students master a body of knowledge. The University strives to promote understanding of and respect for diversity, and to serve the changing needs of a global society. Recognizing its commitment to teaching, research, scholarship, creative activities, and service, the University supports an effective library and the use of new technologies that enrich the instructional process and provide effective access to information in its various forms.

The University is committed to providing students with a balanced and well-rounded educational experience, including co-curricular activities that contribute to personal enrichment, leadership development, and institutional pride. Student organizations, campus residence life, artistic events, multicultural events, intramural athletics, and intramurals are designed to be a significant part of this experience.

The close proximity of the University to civic, cultural, and economic centers enables it to foster strong cooperative relationships with alumni, community, business, scientific, educational, cultural, and governmental constituencies. Partnerships with these constituencies will continue to grow for the mutual enhancement of academic programs and the community.

California State University, Los Angeles is committed to fostering collegial relationships among faculty, administration, students, and staff. The principles of academic freedom and professional ethics are the responsibility of the entire academic community. We take
pride in our continuing evolution as the University serving the greater Los Angeles Basin.

The Faculty

The reputation Cal State L.A. enjoys as an institution of higher learning is creditable largely to the quality of the faculty and their commitment to teaching and scholarship. These men and women have earned their highest degrees from leading universities throughout the world. Their achievements in their academic fields of specialization make them eminently qualified to teach students who possess a variety of academic interests.

The faculty's high regard for scholarship is evidenced by its continuing participation in scholarly study, research and creative efforts. Proof of commitment to teaching is found in the fact that senior faculty members regularly teach introductory courses in their disciplines and assume responsibility for academic and career advisement of students majoring in their departmental and divisional programs. Close student-faculty ties develop further through campus organizations and in University committees, on which students may serve as voting members.

The Academic Year/Quarter System

Cal State L.A. operates year round on the quarter system. Four quarters, each 11 weeks in duration, comprise the academic year. The summer quarter is a regular academic quarter, equal in all respects to the other three quarters. Students may maintain normal academic progress by full-time attendance during any three quarters of each year. Classes are scheduled weekdays from 8 a.m. until 10 p.m. and on Saturday mornings to serve the needs of full-time, part-time, and working students.

University Assessment Activities

Assessment of students, faculty, staff, alumni, and those who come in direct or indirect contact with the University is important in order to determine if the mission, goals, and objectives of the institution are being met. Therefore, all members of the learning community, visitors to the campus, and individuals from the surrounding community may be included in a wide array of ongoing assessment efforts. All individuals are encouraged to willingly participate and provide accurate information that will contribute to these assessment efforts.

Accreditation

Since 1954, California State University, Los Angeles has been fully accredited by the Accrediting Commission for Senior Colleges and Universities of the Western Association of Schools and Colleges (WASC), P.O. Box 9990, Mills College, Oakland, CA 94613-9990, (510) 632-5000. The University’s credential programs are approved by the California Commission on Teacher Credentialing. Professional degree programs offered and the national societies and associations that accredit these programs are as follows:

Art
National Association of Schools of Art and Design (NASAD)
11250 Roger Bacon Drive, Suite 21, Reston, VA 20190
(703) 437-0700

Audiology (graduate)
American Speech-Language-Hearing Association
10801 Rockville Pike, Rockville, MD 20852

(703) 683-8080

Speech-Language Pathology
American Speech-Language-Hearing Association
10801 Rockville Pike, Rockville, MD 20852
(301) 897-5700
Affiliations
Cal State L.A. holds membership in a number of national and regional organizations concerned with advancement of higher education. They include the American Council on Education (ACE), the American Association of State Colleges and Universities, the Association of American Colleges, Council of Graduate Schools, National Collegiate Honors Council, Western Association of Graduate Schools, and the Western Association of Schools and Colleges (WASC). Women graduates are qualified for membership in the American Association of University Women (AAUW).

The John F. Kennedy Memorial Library
As the primary bibliographic and information resource for the curriculum of the University, the Library emphasizes rapid access to needed materials and information. The Library actively promotes the immediate availability of textual, numeric, and visual resources. In its collections, online information resources, instruction, and other services, the Library’s emphasis is on delivering support for the curriculum and programs of the schools and departments. Access to collections is enhanced by end-user Web-based access to a variety of electronic information resources. The Library actively promotes the principle of equal access to intellectual resources regardless of format for all constituencies in the campus community. The Library strives to provide access to information appropriate to each school’s disciplines, along with needed user instruction and support.

As an essential learning and research laboratory, the Library emphasizes instruction, reference services, access to on- and off-site information in print and electronic formats, development of information competency, and management of collections. The Library provides resources and support for the University’s major functions—teaching, research, scholarship, creative activity, and community service. The Library is located at the center of the campus in two interconnected buildings—Library North and the Palmer Wing.

Collections
The Library’s collections of over one million volumes include approximately 3,000 current subscriptions to periodicals, journals, serials, and newspapers, as well as a comprehensive collection of Cal State L.A. master’s theses from the University’s inception. The Library is an official depository for U.S. government and California state publications.

Services
The Reference Center located on the first floor of Library North assists patrons with directional, informational, reference, and research questions. This includes one-to-one instructional assistance for Cal State L.A. students and faculty during peak hours on the use of the Library’s wide range of computerized access systems available from terminals and workstations within the Library. Special services available for students and faculty include access to the Internet and the World Wide Web through the Library Web available at http://web.calstatela.edu/library/index.htm. Other services include mediated online searches, interlibrary borrowing of materials, photocopying, and group study rooms. Books specifically designated as course readings may be placed on reserve (limited loan) by faculty members and may be checked out at the loan desk on the first floor of Library North.

Access to the information resources and services of all libraries within the CSU system is provided through a mutual use arrangement. By this agreement, students, faculty, and staff may use their Cal State L.A. photo-ID cards as library cards at any CSU library, thus providing access to 23 campus collections totaling nearly 15 million volumes.

In addition, Cal State L.A. and the University of Southern California offer reciprocal direct borrowing. Information about eligibility and how to apply for this privilege is available at the loan desk. Another borrowing agreement permits our students and faculty to borrow directly from UCLA libraries. Students may use this service upon payment to UCLA of $25 for a six-month courtesy card or $50 for a twelve-month courtesy card. Faculty have courtesy privileges.

Library Instruction
Cal State L.A. students can learn more about the Library through group orientation tours which often include basic instruction about effective use of Library information resources. Developing an understanding of the organization and services of the Library, along with fundamental research skills and information competency, will help build a solid foundation for academic success. This instruction is available at the request of instructors of lower division courses and as part of orientation for new students and the Summer Bridge program. The Library additionally offers a lower division library skills course (LIBR150) which concentrates on the development of information competency skills in the participants. Library faculty may also provide advanced support for upper division and graduate students through course-specific research instruction when requested by a faculty member.

Information Resources Management (IRM)
Information Resources Management (IRM) facilitates the communication process of the University, provides planning and technical guidance in the integration of campus information technologies, and provides leadership in the efficient and effective use of a vital University resource—information. IRM’s fundamental purpose is to provide high-quality information service to the campus in support of instruction; research, scholarly, creative, and service activities; and administration.

IRM units provide campuswide support in academic computing, media services, analytical studies, networking, telecommunications, office automation, and administrative computing.

Computing Facilities
Cal State L.A. students have access to various computing facilities with microcomputers. These include self-instruction laboratories, computer classrooms, and experimental laboratories with digital equipment. Through use of the campuswide network, student workstations can be linked to various network servers for file, print, and computing services, as well as to the Internet and shared CSU computing resources. A variety of computer training courses is offered each quarter.

Instructional Computing Labs
The campus operates instructional computing labs that are available to students during both daytime and evening hours. The self-instruction labs are staffed by qualified consultants who answer questions and provide assistance. Further information can be obtained by calling (213) 343-4530 or by visiting our Web site at http://web.calstatela.edu/main/guide/campmap.htm.

Media Services
Media Services provides a wide range of services and products that visually and electronically enhance the communication of information. Particular emphasis is placed on providing resources to support faculty/student communication in the classroom or laboratory environment. Campus media facilities include the Instructional Television Fixed Services (ITFS) and two-way video conference facility classroom, two television production studios, three video editing areas, and a campus cable television channel.
International Programs

Developing intercultural communication skills and international understanding among its students is a vital mission of The California State University (CSU). Since its inception in 1963, the CSU International Programs has contributed to this effort by providing qualified students an affordable opportunity to continue their studies abroad for a full academic year. More than 12,000 CSU students have taken advantage of this unique study option.

International Programs participants earn resident academic credit at their CSU campuses while they pursue full-time study at a host university or special study center abroad. The International Programs serves the needs of students in over 100 designated academic majors. Affiliated with more than 70 recognized universities and institutions of higher education in 17 countries, the International Programs also offers a wide selection of study locales and learning environments.

International Programs pays all tuition and administrative costs for participating California resident students to the same extent that such funds would be expended to support similar costs in California. Participants are responsible for all personal costs, such as transportation, room and board, living expenses, and home campus fees. Participants remain eligible to receive any form of financial aid (except work-study) for which they can individually qualify.

To qualify for admission to the International Programs, students must have upper division or graduate standing at a CSU campus by the time of departure. Students at the sophomore level may, however, participate in the intensive language acquisition programs in France, Germany, and Mexico. California community colleges transfer students are eligible to apply directly from their community college if they can meet this requirement. Students must also possess a current cumulative grade point average of 2.75 or 3.0, depending on the program for which they apply. Some programs also have language study and/or other course work prerequisites.

Additional information and application materials may be obtained on campus from International Student Services, Admin. 127, phone (213) 343-3170 or by writing to The California State University International Programs, 400 Golden Shore, Suite 122, Long Beach, California 90802-4275. Visit us on the World Wide Web at <http://www.calstate.edu/csuienet/>.

Continuing Education

Continuing Education administers Extension programs, Special Sessions, Conferences and Professional Development, the American Language and Culture Program (ACL), Distance Education, and External Degree programs.

Extension Programs

University-level credit and noncredit extension courses and programs are provided at various locations for the academic, professional, vocational, and cultural enrichment of persons who do not wish to take college courses in residence. Students may take extension courses without matriculating at Cal State L.A. provided they meet course prerequisites. Extension credit offerings are equivalent in level and quality to regular University courses, and many courses may be applied, within specified limits, toward degree and credential requirements. Extension programs and courses do not apply toward the residence requirement for graduation.

Extension courses may be offered in response to specific requests of groups or organizations for specialized training or without such sponsorship. Extension schedules are flexible but generally parallel the University’s quarter calendar. Information about extension courses and programs is available from the Extension and Special Sessions Office at (213) 343-4919 or (213) 343-4967.
Special Sessions

Special sessions courses provide a means for CSU instructional programs to be furnished at times and places not supportable by state general funds when the offering is consistent with the CSU mission and applicable laws and regulations. Academic standards associated with all aspects of such special sessions are identical to those of comparable instructional programs. Examples include summer session; interim sessions between regular terms; programs of a continuing nature offered at military bases, correctional facilities, and other distant or isolated locations; external degree programs; and instructional programs for a specific group for which state support would be inappropriate.

Special sessions courses shall not be offered at times or places that are likely to supplant or limit offerings of state-supported programs. Degree credit earned through special sessions is applicable toward residence credit requirements at the campus offering the program. For further information, contact the Extension and Special Sessions office at (213) 343-4919.

Professional Development

The University is mandated to work closely with community, business, and professional organizations in satisfying the educational needs of the metropolitan area it serves. To meet this responsibility, the University operates a continuing program of professional credit and special noncredit courses. These programs are offered in response to specific requests by such organizations as government agencies, business and professional associations, or large industrial firms. They also may be offered by Cal State L.A. on its own initiative when a significant need is determined to exist.

Programs are University-level, and urgency and appropriateness are the determining factors in decisions to offer these programs. Work-site custom programs are available, utilizing selected faculty. Information concerning this educational service is available from the Professional Development office at (213) 343-4921.

External Degree Programs

External degree programs are designed to provide degree-oriented educational opportunities to persons who are unable to spend time in residence on a campus in existing educational programs. External degree programs are conducted in nontraditional time frames, generally at off-campus locations. For information regarding external degree programs, contact the Extension and Special Sessions office at (213) 343-4919.

Open University

Continuing Education's Open University program permits nonmatriculated students to register concurrently with matriculated students in regular classes, for a fee which is currently $99 per unit, on a space-available basis. (Fees are subject to change without advance notice.) A maximum of 36 units taken through this program may be applied to a bachelor’s degree. No more than 13 units may be applied to a master’s degree at Cal State L.A., provided the courses are eligible for inclusion toward such a degree.

Registration takes place in the Office of Continuing Education. This registration procedure is entirely separate from registration for regular (matriculated) students; it begins the first day of each quarter and continues thereafter. There is no preregistration and no application.

Students who register through Open University must obtain the signature of the instructor and the department stamp on their registration authorization form for each desired class. Additional restrictions exist in the School of Engineering and Technology. Matriculated students in the University in continuing status may not enroll in degree credit-granting classes offered under state support and made available to students by Continuing Education through Open University. Students may not enroll through Open University for directed study/independent study, directed teaching, research, or thesis courses. A letter of approval from the department chair must be included with all 500-level course registration.

American Culture and Language Program (ACLP)

The American Culture and Language Program offers noncredit language courses for students and professionals whose first language is not English. Intensive courses are offered five hours per day, and students may attend up to 25 hours per week of classes. Courses offered include all English skills (reading, writing, listening, speaking), college skills, TOEFL preparation, general business, and computers for non-native speakers.

For those who wish to have an F-1 visa and international student status, I-20 forms are issued. This program also is open to those with business or tourist visas, to residents, and to regularly enrolled students with specific language skill needs. Applications may be obtained from the American Culture and Language Program office, Library North B552, phone (213) 343-4840.

Distance Education

Under the administration of Continuing Education, the Distance Education Unit provides University-level courses using a variety of technologies.

- Instructional Television Fixed Service (ITFS) - A microwave signal frequency transmits live instructional courses throughout the Los Angeles and Orange County areas to meet the needs of both on-campus and off-campus students. Transmission capabilities: one-way video/two-way audio (via telephone, fax).
- Wireless Cable - Courses are available through cable television by subscribing to Pacific Bell Video Services and Cross Country Wireless Cable. The significance to the cable system is to service the student at home. Transmission capabilities: one-way video/two-way audio (via telephone, fax).
- CODEC - Videoconferencing enables the campus to transmit live courses to remote locations equipped with CODEC (compressed/decompressed video via telephone lines) systems. Lectures can be delivered to a remote single campus (point to point), or to all of the CSU campuses (point to multi-point). Transmission capabilities: two-way video/two-way audio.
- Internet - Courses can be delivered using computer online services. Students may take courses at home or at work. Transmission capabilities: two-way electronic mail/downloadable text and graphics.
- Satellite - Downlink capabilities of global satellite programs can be scheduled for on-campus viewing. The flexibility of uplinking original courses will soon become available.

Reserve Officer Training Programs (ROTC)

Air Force ROTC

Through arrangements with Loyola-Marymount University (LMU), the University of California, Los Angeles (UCLA), and the University of Southern California (USC), two-year and four-year Air Force Reserve Officer Training Corps (AFROTC) programs and two, three, and four-year scholarships are available to qualified men and women attending Cal State L.A. These programs lead to a commission as a second lieutenant in the U.S. Air Force.

Scholarships for students enrolled in AFROTC programs cover the costs of enrollment, books, and a monthly subsistence allowance during the school year. U.S. citizenship is required for scholarship acceptance. The subsistence allowance is paid also to nonscholarship cadets enrolled in the two-year program and in the last two
years of the four-year program. Four-year scholarships are available to incoming students who apply by December 1 the year before they enter college.

Freshmen may enter the four-year program by enrolling in the first Aerospace Studies course (A&S 100) at UCLA, USC, and LMU. Students who desire the two-year program should apply early in the fall of their second year of college (students must have three years of college remaining). Other eligibility requirements include U.S. citizenship (before the last two years of the program), ability to pass an Air Force medical exam and physical fitness test, good moral character, and good academic standing in college. Entry into the last two years of the program is competitive.

The program consists of one Aerospace Studies (ROTC) class and a one-hour per week laboratory each quarter. Subject matter includes Air Force organization, history, leadership and management principles, and American defense policy. Courses at LMU are held on Fridays to better accommodate students commuting from other colleges and universities. Currently, LMU does not charge for the courses and offers cross-town student free parking while attending AFROTC activities.

Students may enroll in AFROTC at LMU simply by attending the first class and filling out an add/drop sheet. Students are under no obligation to serve in the military unless they accept a scholarship or are accepted into the corps of cadets after attending a summer training camp, normally between their sophomore and junior years. A multitude of special programs exist for students who have two years of either undergraduate or graduate study remaining or are enrolled in law, nursing or other health profession programs.

Interested students should contact one of the following AFROTC offices for further information: Loyola-Marymount University, (310) 338-2770; USC, (213) 740-2670; Harvey Mudd/Claremont Colleges, (714) 621-8123; CSU Northridge, (310) 825-1742; or UCLA, (310) 825-1742. Dual registration procedures must be followed.

Army ROTC

The Army Reserve Officers Training Corps (AROTC) program is available to qualified Cal State L.A. students through the University of California, Los Angeles (UCLA) program. Students may cross enroll at UCLA.

Two, three, and four-year programs that may lead to a commission as a second lieutenant in the U.S. Army, Army Reserve, or Army National Guard are offered. Participants must be physically qualified, full-time undergraduate or graduate students. Academic credits earned in the program normally may be counted as electives within degree requirements. Students enrolled during the final two years of the program receive a $150 monthly allowance during the school year. Veterans may qualify to enter the two-year program (Advanced Course) and are eligible to receive the monthly allowance as well as G.I. Bill benefits.

Two, three, and four-year scholarships for students enrolled in Army ROTC programs cover the costs of tuition, books, and provide a $150 monthly allowance during the school year. U.S. citizenship is required for scholarship acceptance. The $150 allowance is paid also to nonscholarship cadets in the last two years of the four-year program. Four-year scholarships are available to incoming freshmen who apply by December 1 the year before they enter college.

For further information, contact the Department of Military Science at UCLA, (310) 825-7384 or 825-7381. Dual registration procedures must be followed.

Los Angeles County High School for the Arts

A public high school for students within Los Angeles County has operated since September 1985 on the Cal State L.A. campus. Designed for students with special talent in the visual and performing arts and open by audition only, the arts high school offers a full curriculum of academic subjects as well as opportunities for specialization in dance, music, theatre, and visual arts. Selected students are permitted to enroll in a college credit program through which they may earn high school and college credit concurrently. Operated by the Los Angeles County Office of Education, the school is tuition free and open to tenth, eleventh, and twelfth graders.

The Alumni Association

The more than 120,000 Cal State L.A. graduates remain a vital and active catalyst in the growth of the University. Through involvement in the Alumni Association, graduates keep in contact with each other and assist the University through a network of various affiliate groups.

The Alumni Association is a self-supporting, nonprofit organization which, except for salaries, receives no state funding and thus relies on a membership dues program for support. The association has presented major gifts to the campus over the years. The Alumni Carillon was donated in 1970, and the John A. Greenlee Fountain and Grove, located on the plaza adjoining the Physical Sciences building, was presented in 1973. The association also donated funds to refurbish the Alumni Lounge in the University-Student Union.

Alumni Association members are active in University affairs, serving on a wide range of committees and participating in special events such as the annual Honors Convocation and Commencement Exercises each spring. The Alumni Association annually awards over 150 Certificates of Honor to graduate and undergraduate students for outstanding achievement at the Honors Convocation and participates in the annual Outstanding Professor Awards program. In addition, the association hosts an annual Alumni Awards ceremony, a volunteer recognition dinner, and many other social, career and cultural activities. The association produces the Aerie Yearbook for senior students and is working with undergraduates in organizing a Student Alumni Association. A unique benefits package is available to all dues-paying members.

The Associated Clinics

The Associated Clinics brings together and integrates segments of the instructional programs of several academic departments and divisions; provides training facilities; and offers diagnostic and remedial services in counseling, psychology, speech, hearing, reading, and special education plus a Headstart Program.

The primary objective of the Associated Clinics is to serve the University’s instructional programs by providing clinical training and research opportunities within each of the areas and across disciplines. This is accomplished by providing experiences for students ranging from observation of the varied clinical activities to providing direct services to clients at the level of the students’ clinical competence. Students learn under the supervision of experienced and appropriately credentialed faculty. The services are available to the public, both children and adults, and to members of the Cal State L.A. community.

Research, Scholarship, Applied Programs, Organizations, and Services

The faculty engage in research, scholarship training, and special projects as an integral part of their academic discipline and professional development. Both undergraduate and graduate students participate, as research assistants or as independent investigators under faculty guidance, in research that is basic to their learning experience. The Office of Graduate Studies and Research and the Office of Research and Sponsored Programs provide stimulus,
coordination, support, and direction to these research efforts. Additional services are provided by University Auxiliary Services, Inc., Academic Technology Services, and the John F. Kennedy Memorial Library.

**Cal State L.A. University Auxiliary Services, Inc.**

Cal State L.A. University Auxiliary Services, Inc. (UAS) is a recognized organization in the California State University system and is a nonprofit, self-sustaining corporation, dedicated to benefit the welfare of students, faculty and staff. The primary purpose of UAS is to help develop and administer contracts and grants, commercial enterprises, externally funded projects including research, workshops and conferences, and to provide contributions which aid and supplement the University’s educational mission. Working together, the University community and Cal State L.A. University Auxiliary Services, Inc. are partners in an endeavor to ensure Cal State L.A. continued success.

The main operations of UAS include the following services to the University community and other auxiliaries: financial support services, human resource management, contracts and grants administration, bookstore, dining and catering services, and child care services. UAS also manages the operation of a 40,000 square foot commercial building known as the University Centre located directly across the Interstate 10 freeway in Monterey Park. Furthermore, in a joint effort with the University Club Board of Directors, UAS manages the University Club, a newly renovated restaurant for faculty and staff members.

The policy-making responsibility for the corporation is vested in its Board of Directors whose members represent a cross-section of the campus community and local service area.

For more information about UAS, please either stop by the UAS office in Administration 308, call (213) 343-2531, or visit the UAS web page at http://www.calstatela.edu/uas$.

**Edward R. Roybal Endowed Chair in Gerontology**

The Endowed Chair in Gerontology and Public Service, housed in the School of Health and Human Services, was established to honor Edward R. Roybal, former Los Angeles City Councilman, long-time member of the U.S. House of Representatives, and chair of the U.S. House Select Committee on Aging. Funding was made possible by private donations. Mr. Roybal began his career in public service as a health educator and has long been a leader in the area of health care and services for the elderly.

The chair is affiliated with the campus’ Roybal Institute for Applied Gerontology. The individual who is selected to fill the chair brings special emphases in the area of understanding the problems and needs of the aging, with particular attention to the multicultural and multiethnic communities in the greater Los Angeles area.

**Matthew J. Guglielmo Endowed Chair in Mental Retardation**

The Endowed Chair in Mental Retardation in the Division of Special Education, Charter School of Education, was established to honor Matthew J. Guglielmo, former vice president of The Broadway Department Stores, and was made possible by contributions from The Broadway and friends of Mr. Guglielmo.

Mr. Guglielmo has dedicated a major part of his life to focusing public attention on problems of the developmentally disabled. The chair continues to support excellence in teaching, significant research in the study of mental retardation, and collaboration between Cal State L.A. and community agencies and institutions that serve mentally retarded persons and their families.

**Northrop Grumman Engineering Endowed Chair in Design and Manufacturing**

The Northrop Grumman Engineering Endowed Chair in Design and Manufacturing was established in the School of Engineering and Technology to bring distinguished engineers and engineering educators in the field of design and manufacturing to the school for a one to two-year period. Funding was made possible through a generous lead gift from the Northrop Grumman Corporation and additional matching support received from smaller companies throughout the Southern California business community.

The individual selected to fill the chair works with the school faculty and administration to: provide leadership in improving the quality of Cal State L.A.’s engineering and technology programs; enhance the school’s manufacturing curriculum; and assist the school in fostering strong relationships with key contacts in industry and government to strengthen our research and external support.

**Special Study Centers**

Several special centers that are committed to various objectives are a part of the campus community. These and other research-oriented organizations engage in the acquisition and dissemination of information, issuance of publications, support of special programs aimed at bringing outstanding speakers to Cal State L.A., and seeking sources of funds for expanding library holdings and other resources essential to research.

**CENTERS, INSTITUTES, AND BUREAUS**

A center, institute or bureau is an entity chartered by the President of the University. Each has a designated purpose as indicated in the descriptions below.

**Asian and Asian American Institute**

The purpose of the institute is to identify issues and coordinate activities leading to the understanding and betterment of Asians and Asian Americans at Cal State L.A. While functioning primarily as a campus resource and as a bridge between the University and its surrounding communities, the institute promotes and supports programs that encourage Asian and Asian American research. It works closely with the Asian and Asian American Studies programs and other ethnic studies programs on and off campus.

**Asian Pacific Business Institute**

Housed in the School of Business and Economics at California State University, Los Angeles, the Asian Pacific Business Institute aims to support and foster cooperative relationships between the School of Business and Economics and local business organizations. The growing importance of Asian economies has been one of the most significant global economic developments since the early 1980s. Increased economic interdependence between Asian countries and the U.S. leads to a variety of problems and issues concerning international business, but it also creates many opportunities. The Asian Pacific Business Institute seeks to provide support for both the business community and the University to identify, exploit, and benefit from those opportunities.

The institute serves a wide range of audiences by developing, organizing, and promoting activities that can benefit students, faculty, and the business community. Through its activities, the institute can help advance the University’s educational and public service missions, as well as contribute to economic development in Los Angeles. In addition, its activities can promote understanding and interactions among people from different parts of the world. The institute provides a wide range of expertise, services and information that can benefit students, faculty, and the business community. Examples include executive training programs, business seminars, research, and exchange and internship programs.
Bilingual Center

The Charter School of Education operates a Bilingual Center that is housed in the Division of Educational Foundations and Interdisciplinary Studies. This center functions as the administrative unit for federal funds that support the following bilingual activities:

- **B.C.C. Short-Term Training.** Classes in bilingual methodologies and the history and culture of language minority children are provided for classroom teachers preparing for the Bilingual Certificate of Competence exam. Classes are offered on campus and at school sites in Los Angeles County.
- **Distribution of Bilingual Materials.** Under the title of Evaluation, Dissemination, and Assessment Center, curriculum materials and texts are produced and distributed for use in bilingual programs at every level from kindergarten to university.
- **Educational Personnel Training Program.** Stipends are provided for nearly one hundred bilingual students to pursue course work leading to the doctorate in special education.

Edmund G. “Pat” Brown Institute of Public Affairs

The Edmund G. “Pat” Brown Institute of Public Affairs, named after former California Governor “Pat” Brown (1959-1967) is a nonpartisan center for applied public policy research, community education, student internship opportunity, and youth violence abatement. Located on the California State University, Los Angeles campus since 1987, the “Pat” Brown Institute has developed a series of distinguished programs to carry out the urban mission of the University and create more inclusive and empowered urban communities in Southern California. They include the Applied Public Policy Research & Urban Scholars Program; Community/University Conference and Forum Program; PBI Publications Program (featuring the prestigious Journal of California Politics and Policy); Youth Violence Abatement Program; Public Service Internships and Fellows Program and Distinguished Speaker Program. The institute also holds an Annual Public Service Awards Dinner. In these efforts, the institute works in collaboration with and on behalf of various community partners and constituencies including underserved communities and community organizations, K-12 schools, colleges and universities, state/local elected officials, public agencies, corporations, organized labor, and foundations.

Bureau of Business and Economic Research

The School of Business and Economics maintains a research bureau to encourage, facilitate, and communicate faculty and student research. The bureau’s primary objective is to relay information about research opportunities and ongoing research efforts to faculty members and students. In addition, it assists in the preparation of research proposals, coordinates research efforts, and provides research advising services for M.S. and M.B.A. degree candidates.

Center for Counselor Renewal

The center is designed to meet a specialized function of the Charter School of Education’s Division of Administration and Counseling—that of continued professional and personal development of division alumni and other counseling practitioners. The center presents conferences, workshops, and symposia, and provides professional materials to aid counselors’ continuing efforts to renew skills, update technical information, address the needs caused by the rapidly changing demographic composition of communities, and maintain current knowledge of recent developments in the profession.

Institute for Criminal Justice Studies

The institute was established by the School of Health and Human Services to provide a vehicle to link the interdisciplinary fields concerned with criminal justice practitioners (government and private) and agencies. The institute addresses the crosscultural needs and complexities of a modern urban society with shifting demands. Its goals and objectives include improving the quality of criminal justice education and research; developing effective strategies for recruitment, retention, and placement of undergraduate and graduate students; and providing collaboration on interdisciplinary or discipline-specific activities directed at grant development and research-related criminal justice education and practice. The institute annually conducts The Institute for Youth Services-Management, an intensive educational and training course for police officers, juvenile officers, and youth services workers in Los Angeles County. The Center for the Study of Black on Black Crime is housed in the Institute for Criminal Justice Studies. Its purpose is to encourage research and community and agency involvement in the prevention of disproportionate crime in the African American community.

Center for Economic Education

Administered by the School of Business and Economics, the center is affiliated with the Economic Literacy Council of California and the national Joint Council on Economic Education and sponsors workshops about economics for high school teachers. Included within the center is a library of reference and teaching materials (including video tapes) for economics teachers.

Center for Effective Teaching and Learning

The center was founded to enhance the quality of instruction at Cal State L.A. To achieve this purpose, the Center’s goals - to highlight faculty instructional efforts and strengths, to provide workshops and individual consultation for faculty members, and to provide a depository of resources including effective teaching materials and media - are accomplished in several ways. Faculty share their expertise by means of media productions as well as involvement in a wide variety of workshops and seminars. The center’s newsletter, Instructionally Speaking, which contains information relevant to the improvement of instruction and assessment, is distributed campuswide. The center offers a confidential individual consultation service which may involve a single conference or a series of class observations or video tapes with collaborative instructional planning. Consultation also may include a problem-solving format in which departments or groups have identified specific instructional areas of concern. Solutions are then generated through a cooperative process. Individual self-paced instructional packets are available for faculty use.

Its Faculty Instructional Technology Support Center provides training for faculty in the use of computers, the Internet, and multimedia modes of instruction both in the classroom and via distance learning. In addition, it provides support services for the development of instructional materials, and serves as a clearinghouse and coordinator for faculty computer training across the campus.

Center for Excellence in Early Intervention

Housed in the Division of Special Education, the center was founded to create a model program for training early intervention professionals. Its objectives include developing, demonstrating, and evaluating the best practices in early intervention service delivery to young children with special needs and their families; providing early intervention training to professionals, paraprofessionals, and parents; developing and evaluating early intervention training and service delivery materials for dissemination to special educators, child development specialists, speech clinicians, allied health professionals, social workers, psychologists, physicians, and parents; and developing and operating a media and material library about early intervention.
Center for Information Resource Management
Operated by the School of Business and Economics, the center provides assistance to students, faculty, industry, and government through research, training, and consulting programs. An internship program with local governmental and private organizations provides practical learning experiences for students pursuing degrees in computer-related disciplines. In the past ten years, more than 300 interns have been placed in professional positions. The center also sponsors research in the implementation and use of information systems.

Center for Japanese Studies
The center serves Cal State L.A. and the community as a source to aid faculty, students, and the general public in broadening and deepening their knowledge of Japan, its people, and culture. The center promotes Japanese research and academic studies and supports educational and cultural programs, seminars, guest lectures, and conferences. The office maintains a collection of basic bibliographies and essential reference materials.

Center for Korean-American and Korean Studies
The center is a depository of historical and cultural materials about Korea and Korean-Americans. Major objectives of the center are to promote, coordinate, and conduct research activities about various aspects of Korean culture and tradition, including oral histories; to compile, document, and produce curriculum materials about Korean folklore, art, music, and social activities; to develop continuing education programs about the Korean community’s activities and programs for students, teachers, and the general public; to develop and produce curriculum materials and courses about Korean-American and Korean culture, tradition, and life; and to sponsor seminars, symposia, and exhibits about Korean culture and tradition.

Center for Minority Youth Employment Studies
The center conducts and coordinates research activities that further the interests of the community and that strengthen the campus commitment to the community. A second objective is to direct and promote research into the sources of barriers to employment for minority and disadvantaged youth. A third objective is to develop, publicize, and promote programs to improve employment opportunities for minority and disadvantaged youth. This includes publishing studies and organizing seminars and workshops. Another objective is to foster career opportunities for our diverse student body. The center also provides information on local labor market conditions.

Center for Multicultural Education
The center’s specific goals and objectives are to provide in-service training for faculty and staff, and pre-service training to students about issues related to cultural pluralism, diversity, and multicultural education. The center can also provide assistance to faculty seeking a greater degree of infusion of multiculturalism into their curriculum. The center provides technical assistance to school districts, and offers a Saturday morning field experience for Cal State L.A. students who tutor students from the community who are at educational risk.

Center for Newly Independent States Studies
The center’s objective is to provide information and consulting to help the transition of Newly Independent States toward individual market enterprise and a market economy. It has two components: Electronic Distance Education, and Business Information Services.

Center for Technology Education
Operated by the Department of Technology, School of Engineering and Technology, the center provides support and assistance for students, faculty, teachers, public agencies, business, and industry, including professional support and consulting, in-service activities, conferences and workshops, and disseminates professional information through an electronic bulletin communications network. Professional services offered in technology education and technical training include course, curriculum, and program development in advanced technologies such as robotics, computer-aided design (CAD), computer-aided manufacturing (CAM), desktop publishing, and fluid power. Assistance in problem-solving for teachers of students with special needs also is provided.

Child Abuse and Family Violence Institute
The institute’s purpose is to promote effective prevention of, and intervention in, child abuse and domestic violence by providing interdisciplinary educational training and policy development programs, and state-of-the-art resources for students, professionals, and the community. The institute promotes interdisciplinary cooperation between the University and community agencies by identifying the University as a focal point and resource within the community, county and state, and internationally to provide professional education and research in child abuse and domestic violence. A broad scope of interdisciplinary educational training, research, and field placement opportunities and programs is available to prepare individuals to provide effective multidisciplinary health and human services to maltreated children and their families.

Chinese Studies Center
The center endeavors to promote understanding of, and interest in, China by sponsoring conferences seminars, guest lectures, exhibits, concerts, and other Chinese cultural activities. It maintains a small library of basic reference materials about China. These materials are available to faculty, staff, and students. The center also serves the Chinese communities in Los Angeles and assists Cal State L.A. students of Chinese descent, and helps promote research and teaching in Chinese studies.

Engineering and Technology Center for Research
The center was established to foster and encourage research and other professional activities. A primary purpose of the center is to administer the Design Clinic Program. Design Clinic participants solve “real world” research problems for industry sponsors. Clinics are conducted as a “capstone” design experience for engineering students under faculty supervision.

Health Care Management Institute
This institute, housed in the School of Business and Economics, was established as a liaison between health care managers and executives and Cal State L.A. faculty and students. Its goals include increasing community awareness about the University and its Master’s degree program in Health Care Management, developing a series of specialized certificate programs, and becoming a focal point for faculty research and publications in the health care management area.

Institute of Entrepreneurship
This institute, operated by the School of Business and Economics, provides programs and seminars and conducts research for small businesses in the product and service sectors. The programs, seminars, and courses are designed to provide the necessary training individuals need to succeed in small businesses. Research is conducted to provide insight into potential problems of small businesses and to suggest solutions. Publications for entre-
Entrepreneur are made available. The institute functions as a clearing house for information relative to small businesses. Other institute activities include assistance in advising students enrolled in the Entrepreneurship option of the B.S. degree in Business Administration and making available an information bank to both students and professionals.

Institute of Nursing
The institute’s primary purpose is to provide a vehicle for closer collaboration between the University and community agencies that provide health care. The institute emphasizes development of joint ventures and/or partnerships that lead to cost-benefit modes of health care delivery to a culturally diverse society.

The institute’s primary goals are to improve the quality of nursing education, to develop effective strategies for recruitment and retention of nursing students, to help meet the staffing needs of nursing services, to improve the quality of nursing practice, and to facilitate collaboration in the areas of research, teaching, and grant writing.

Institute for Retail Management
The goals of this School of Business and Economics institute are to enhance the field of retailing as a profession and to improve the quality of managerial expertise within the retail industry in California. To achieve these objectives, the institute participated in the development of the Retailing option in the B.S. degree in Business Administration and a credit certificate program in Retail Professional Development. The institute serves as a vehicle for publication of research findings in the area of retailing and assists qualified students in retail job placement.

The institute is an integral part of the Youth Opportunities Unlimited (YOU) Retail Management Apprenticeship Program of Los Angeles and works closely with its participating students. Founded in 1991 with one high school, this program has grown to encompass five inner-city Los Angeles high schools and has become a national model. Support from the retail industry enabled the institute to award scholarships to YOU participants as well as Cal State L.A. marketing and retailing students.

The institute was also responsible for launching a joint program with the City of Los Angeles, the Los Angeles Unified School District, retail businesses, and the U.S. Department of Labor to train and place inner-city youth in jobs with major retailers. The focus of the program is to ensure employment for high school juniors and seniors and encourage them to enroll in two or four-year colleges. It is considered one of the nation’s leading job-creating and training programs for inner-city youth.

The institute works closely with the University’s Career Planning and Placement Center to significantly increase the number of retail recruiters who conduct on-campus employment interviews.

Pacific Contemporary Music Center (PCMC)
The purpose of the PCMC, which is administered by the School of Arts and Letters, is to encourage the performance and promote the awareness of contemporary musical compositions by composers of the Pacific Rim countries.

The center sponsors contemporary music festivals and encourages other countries, universities, and organizations to join in sponsoring such festivals to present the members’ compositions, encourages the mass media in participating countries to broadcast the members’ music by providing copies of sound recordings: maintains a library of members’ published and unpublished scores, sound recordings, performance documentation, and biographies; sends scores anywhere in the world for a period no longer than one month; publishes an annual catalog of the library holdings; sponsors and encourages contemporary seminars: and encourages research.

Pacific Rim Institute
A consortium created by Cal State L.A. and a group of Asian and U.S. firms to increase exchanges and improve communication and understanding between their corporate cultures, the institute seeks to provide managers in both U.S. and Pacific Asian business communities the knowledge and skills needed for managing the challenge of cultural differences. It also endeavors to increase their effectiveness in working together in each other’s environment. These goals are accomplished through the presentation of seminars, forums, and briefings.

Productivity Center
The purpose of the School of Business and Economics’ Productivity Center is to conduct and coordinate research activities that deal with various issues of productivity improvement and measurement; to act as an information center and catalyst for local governmental organizations and manufacturing and service firms, with an emphasis on helping those institutes become effective and efficient in producing products and providing services; and to promote the expansion of career opportunities for Cal State L.A. students in general, and those studying operations management in particular. The center compiles business and economic data for forecasting economic conditions in various industries. In addition, the center coordinates research activities that deal with issues of productivity improvement and measurement. It acts as an electronic information center for local governments, manufacturing enterprises, and service firms. The center promotes expansion of career opportunities for students and alumni in the business community and has trained students who are now active in various Bulletin Board Systems.

Edward R. Roybal Institute for Applied Gerontology
The institute’s purpose is to improve the quality of care and delivery of services to older persons through the interdisciplinary education and training of professionals, paraprofessionals, family members, community agency personnel, and volunteers. Of special interest are services to poor and older ethnic minority persons such as Asians, African-Americans, and Latinos. The institute emphasizes the development of partnerships between the University and the community that promote the well-being of older persons and improve service delivery. An additional goal is to seek financial support in the form of scholarships for students planning to enter health and human service careers with a specialization in aging.

The Roybal Institute offers a multidisciplinary program to earn a certificate in Applied Gerontology designed to assist individuals interested in increasing their knowledge, understanding, skills, and effectiveness with older populations, especially the multiethnic and multicultural elderly. The program is designed not only for individuals interested in careers in gerontology but also those who are seeking a career change and those already in the field seeking to enhance their opportunities for advancement.

Small Business Institute
The institute, housed within the School of Business and Economics, is part of a national grant program of the U.S. Small Business Administration that involves contracting with universities across the country to consult with small businesses. The program allows a business to get help without cost and on a confidential basis, for analysis and assistance with any aspect of its operation. At Cal State L.A., the work is conducted by upper-division undergraduate and graduate students supervised by faculty from various business disciplines within the school.
and graduate students supervised by faculty from various business disciplines within the school. The institute has completed more than 500 cases and sometimes finishes more than twice as many cases as any of the 15 other Southern California colleges and universities in the program. In the past ten years, approximately 1,500 students and 50 faculty members have worked on SBI consulting cases. As a testament to the quality of its work, the institute has received numerous district, regional, and national awards from the Small Business Administration for excellence in consulting.

Roger Wagner Center for Choral Studies
The center was established to rekindle an interest in choral music and to reintegrate choirs into the world of entertainment. The center provides a structure within which teachers, scholars, and performing artists can teach choral music; explore and encourage composition of new repertoire; foster research and scholarly publication of emerging topics pertinent to choral study; and establish a special collection of recordings, personal letters, publications, and photographs that span the career of its founder, the late Dr. Roger Wagner.

The center's activities include cosponsorship of an international conference on Gregorian chant, presentation of a collection of scholarly articles, and choral composition content courses.

World Trade Education Center
The World Trade Education Center in the School of Business and Economics helps the business community, scholars, and students understand new trends in world trade and operate more effectively in a rapidly changing, increasingly competitive international environment. The center provides assistance by promoting greater understanding of economic and political issues that affect world trade; by providing economic, political, cultural, and strategic analysis and assessments as a basis for policy decisions about world trade; and by assembling and disseminating information about international trade, foreign investment, foreign market conditions, and related statistics. Other center activities involve offering seminars to international business executives and administering a credit certificate program in International Business that is offered through the campus' Office of Continuing Education. In addition, the center promotes research in international business and a faculty exchange with universities abroad.

CONSORTIA

California Desert Studies Consortium
The California Desert Studies Consortium consists of seven Southern California campuses of The California State University which, together with the National Park Service, operate the Desert Studies Center in the Mojave Desert near Baker, California. Participating campuses include Dominguez Hills, Fullerton, Long Beach, Los Angeles, Northridge, Pomona, and San Bernardino. The purpose of the center is to provide a field facility in the Mojave Desert to develop desert studies educational programs.

Established in 1976, the center serves students in the areas of anthropology, astronomy, biology, engineering, geography, and geology and provides a substantial support base for environmental and ecological studies that have immediate implications for effective management of desert resources. The central location allows accessibility to all parts of the desert region. Lodging and laboratory/storage space are offered in support of field-oriented courses. The center also provides a site for independent study courses and research of desert phenomena by individual students.

The Desert Studies Consortium is administered by the CSU Fullerton campus. Cal State L.A.'s representatives to the consortium are Dr. Alan Muchlinski, Professor of Biology and Chair of Biology and Microbiology, and Dr. David L. Soltz, Dean of the School of Natural and Social Sciences and Professor of Biology. Students who wish more information should contact Dr. Muchlinski at (213) 343-2050 or Dr. Soltz at (213) 343-2000.

Southern California Ocean Studies Institute (SCOSI)
Opportunities for undergraduate and graduate study in the coastal environment are provided by the Southern California Ocean Studies Institute (SCOSI) which comprises six Southern California State University campuses: Dominguez Hills, Fullerton, Long Beach, Los Angeles, Northridge, and Pomona. The SCOSI is administered by the Long Beach campus. The SCOSI operates out of the docks and laboratory facilities of the Southern California Marine Institute, Fish Harbor, Terminal Island.

The SCOSI participates in training managers and scientists and educating the general public by coordinating and facilitating marine educational and research activities. In addition, the institute serves as an educational and research liaison among regions, states, and nations.

Seagoing research laboratory and instructional facilities are provided aboard the R. V. Yellowfin, an oceangoing research vessel. The Yellowfin is the property of the institute, and its use is scheduled through the office of the institute director.

Several courses within the departments of Biology and Microbiology, Geological Sciences, and Psychology and the School of Engineering and Technology, among others, utilize the Yellowfin and other Consortium facilities. These courses are announced in the Schedule of Classes each quarter.

Cal State L.A.’s representatives to the consortium are Dr. David Soltz, Dean, School of Natural and Social Sciences, and Dr. Carlos Robles, Professor of Biology. For additional information, contact Dr. Soltz at (213) 343-2000 or Dr. Robles at (213) 343-2050.

Field Station in Mexico
A field station for study and research in regional history, anthropology, and geography is operated in Mexico during selected quarters by the departments of Anthropology, Geography and Urban Analysis, and History, and the Latin American Studies program. Upper division and graduate students with appropriate background for the work proposed and with adequate competence in Spanish may participate. Students take a full course load for residence credit and pay residence fees plus their own expenses. Further information may be obtained from the Chair of the Department of Geography and Urban Analysis, (213) 343-2220.
STUDENT SERVICES AND ACTIVITIES
STUDENT SERVICES AND ACTIVITIES

Educationally related services are provided for students by faculty and professional staff within several centers and offices. These include the University Academic Advisement Center; the University Tutorial Center; the University Testing Center; the University Writing Center; the Center for Career Planning and Placement; the Student Health Center; the Center for Student Financial Aid; the Center for Student Life; Office for Students with Disabilities; Admissions and University Outreach; International Student Services; and Housing and Residence Life. Additional services are provided by various areas of the campus. In addition, many departments, divisions, and schools offer opportunities for student involvement in campus life.

Center for Career Planning and Placement

Career Planning
Choosing an academic major and a career are important decisions. The Center for Career Planning and Placement provides individual and group sessions to assist students in making these decisions. Through the use of inventories, computerized guidance, and other available resources, counselors assist students in setting career goals and plans for the future. An alternative in career planning is continuing education in a graduate program and/or professional school. Many resources are located in the center’s library, and professional counselors are available to assist in making important and timely career-related decisions.

Computer-Assisted Guidance
The center offers a variety of computer and audio-visual tools to assist with planning and placement development.

Career Assessment
The Strong Interest Inventory and the Myers-Briggs Type Indicator are offered. Both instruments are computer profiled in the center and are answered on an answer sheet. A nominal fee is charged for each test.

DISCOVER - DISCOVER
DISCOVER - DISCOVER is a computer-assisted career assessment program that focuses on interests, abilities, experiences and work-related values. It provides job titles and descriptions, employment outlook information as well as a specific section on “Job Seeking.” This program also contains information on colleges and universities from across the U.S. (vocational, two-year, four-year, and graduate programs).

Career Resource Library
The center maintains a comprehensive collection of the following career materials and information:

- Numerous career books related to majors.
- Brochures about and annual reports of firms that recruit on campus.
- Information about interview techniques, resume writing, sample cover letters, and job search methodology.
- Nationwide collection of college and university graduate program information.
- Career binders that describe a variety of occupations.
- Study guides for admission tests for graduate and professional schools.

- Civil service information.
- Organization and personnel directories.
- Salary surveys and labor statistics.
- Videotaped presentations. Various topics include resume writing, interviewing, and employer information.

Internships
An internship offers students hands-on experience in their major discipline. Internship information is available in the Career Resource Library. Current internship openings are maintained in binders in the Career Center Lobby.

Student Employment
Student employment offers a great opportunity for students seeking part-time employment. There are two types of programs:

Student Assistants. Students are employed to assist faculty and staff by performing work on a part-time basis, maximum 20 hours per week, in many of the offices and departments on campus.

Federal Work-Study (FWS). This is a federal financial aid program intended to increase part-time employment opportunities and to assist financially eligible students. Determination of eligibility for FWS is made by the Center for Student Financial Aid. FWS jobs may be located on campus or off campus. Job openings are listed at the Career Center and are updated daily.

Job Referral
Through the Job Referral program, a wide range of part and full-time vacancies are made available to the campus community in business, industry, and civil service agencies. Job vacancies are listed in the Career Center and are updated daily.

Workshops
Various workshops assist students in their job search campaign; others assist freshmen and sophomores in making career decisions.

Educational Placement
This service assists students and alumni seeking career employment related to credential programs. Services include a placement file-forwarding service and a hotline listing vacant positions available to educational specialists. Information is available that describes the characteristics of school districts, current salaries, employment trends, and application procedures. A fee may be charged for some of these services.

On-Campus Interviews
The Career Center coordinates on-campus employment interviews for seniors and recent graduates with representatives of business, industry, government agencies, and school districts.

Alumni Services
The Alumni Services program allows Cal State L.A. alumni to avail themselves of career planning and employment services presently offered to enrolled students. An annual fee is charged to alumni.
Center for Student Financial Aid

Financial Aid

The Center for Student Financial Aid, which is located in Student Affairs 124, assists students in finding the resources to finance their education at Cal State L.A. To meet students’ financial needs, the center administers a variety of scholarships, grants, work, and loan programs. The center is open Monday-Friday for general questions. Financial aid advisers are available Monday through Thursday.

To apply for financial assistance, students must complete and submit a Free Application for Federal Student Aid (FAFSA) which is evaluated for financial aid eligibility. This form may be obtained in the Center for Student Financial Aid, at any college financial aid office, or in high school guidance offices. All applicants are notified by mail about their eligibility for financial aid.

Financial Aid Programs

By submitting a completed FAFSA, students are considered for:

- Grants. Federal or state funds that do not have to be repaid.
- Loans. Federally guaranteed student loans with low interest rates that students must repay starting six months after they graduate or drop out below half-time status, depending on the contract.

Employment On-campus student work opportunities offered by the Federal Work-Study Program. The Center for Career Planning and Placement assists in job placement.

Need Analysis and Eligibility

Aid eligibility is determined from information submitted on the FAFSA. An analysis determines how much the family is expected to contribute to a student's education for one academic year. A Congressionally-mandated formula used to determine financial need subtracts the expected family contribution from the estimated annual cost of education; the difference constitutes the student's financial need.

Scholarships

More than 300 scholarships are available to qualified students each academic year. Most are awarded to students already attending Cal State L.A., based on academic achievement, campus and/or community participation, and/or financial need. Some are for students enrolled in specific majors: others are open to qualified students in all majors.

Students should file a General Scholarship Application and submit two letters of recommendation to the Scholarship Office, Student Affairs 118, to automatically be considered for any scholarships for which they are qualified.

Alan Pattee Scholarships
Children of deceased public law enforcement or fire suppression employees who were California residents and who were killed in the course of law enforcement or fire suppression duties are not charged fees or tuition of any kind at any California State University campus, according to the Alan Pattee Scholarship Act, California Education Code, Section 68121. Students qualifying for these benefits are known as Alan Pattee scholars. For more information, contact the Cashiers' Office, (213) 343-3630.

Center for Student Life
The Center for Student Life, with the main office in Student Affairs, Room 123, provides advisement to students interested in becoming involved in various campus organizations, programs, and activities. Services include advisement to clubs and organizations, new student orientation programs, coordination of special campuswide programming and events, student leadership training, campus and community service opportunities, and advisement to student government (ASI).

Student involvement opportunities are provided in a variety of activities ranging from membership in small interest groups to service with faculty members and administrators on major policy-making committees. A wide variety of clubs, interest groups, commissions, councils, and committees gives all students a chance to participate in and contribute to day-to-day life on campus.
Student Clubs and Organizations

Students are welcome to join in the co-curricular activities sponsored by more than 100 student clubs and organizations. These groups function on campus under charter provisions established by the CSU Board of Trustees. The Center for Student Life administers these provisions to provide official University recognition of student organizations. These organizations represent every phase of student life—academic, social, cultural, religious, and political. Clubs related to academic programs are organized in such areas as education, engineering, foreign languages, social and political science, business, natural sciences, computer science, mathematics, psychology, and fine arts. Other clubs promote service to the campus and community and reflect the campus’ culturally diverse student body.

Sororities and Fraternities

A traditional part of campus life for many Cal State L.A. students is membership in Greek organizations which offer the chance to meet new friends and participate in an extensive program of activities. In addition to social functions, these organizations are involved in various campus and community projects and provide housing for a limited number of their members.

New Student Orientation Programs

New student orientation programs are planned for new students of all class levels (including graduates) to introduce them to Cal State L.A. These programs are usually held shortly before registration; the dates appear in the Schedule of Classes each quarter. Participating students are welcomed by campus administrators and student leaders, given valuable information by faculty advisers, invited to participate in small group sessions with trained student leaders, and assisted in registering for classes. Individual questions are answered and valuable contacts made. More information is available at the Center for Student Life, Orientation Office, phone (213) 343-3195.

Educational Participation in Communities (EPIC)

EPIC is a student volunteer service that encourages Cal State L.A. student involvement in off-campus community service. EPIC volunteers gain valuable paraprofessional experience and personal development as tutors, hospital aides, teaching aides, counselors, probation officer aides, recreation leaders, etc. Several departments offer academic credit for student participation in community service activities. The EPIC office is located in the Career Center.

Campus Ministries

Campus Ministries provides a place for spiritual and individual support services for students in an interfaith setting. Pastoral counseling, personal growth workshops (e.g., self esteem, conflict resolution and stress reduction), community and social service, and religious services are provided to all Cal State L.A. students.

University Learning Services

Academic Advisement Center

The University Academic Advisement Center, located in the Library, Palmer Wing 1040A, provides advisement for undergraduate students whose major is undeclared. Special attention is given to general education, electives, and selection of an academic major. Walk-in requests are honored, depending on staff availability; however, students are encouraged to make appointments by calling (213) 343-3150.

Study Skills Workshop Program

The University Tutorial Center offers a schedule of study skills workshops each quarter about such topics as note taking, test taking, textbook reading, time management, term paper writing, motivation, and stress management. Schedules of current quarter workshop offerings are available at the University Tutorial Center, Library, Palmer Wing 1039.

Student Support Program

The Student Support Program (SSP) is a federally funded program that operates under the auspices of the U.S. Department of Education. SSP assists participants with obtaining a university degree by providing the necessary support services needed for success in college. Low-income students, first-generation college students, and students with disabilities are eligible for SSP services. SSP assists participants with developing academic English, mastering course content through study groups, reading improvement, counseling, and advisement. The SSP office is located in the Library, Palmer Wing 1040C, phone (213) 343-3965.

Testing Center

The University Testing Center located in the Library, Palmer Wing 2097, phone (213) 343-3160, administers the American College Test (ACT), English Placement Test (EPT), Entry Level Math (ELM) exam, Graduate Management Admission Test (GMAT), Graduate Record Examination (GRE), Scholastic Aptitude Test (SAT), Test of English as a Foreign Language (TOEFL), the University’s Writing Proficiency Examination (WPE), and placement examinations for chemistry, engineering, mathematics, and nursing courses. In addition, information bulletins for national and local testing programs such as the California Basic Educational Skills Test (CBEST), the Law School Admission Test (LSAT), etc., are available.

English Placement Test (EPT) and Entry Level Mathematics (ELM) Examinations. The EPT and ELM are given once each quarter and are required before enrollment in English and Mathematics courses as described in the Admission chapter. The testing dates appear each quarter in the Schedule of Classes and are available in the Testing Center.

Effective Fall Quarter 1998 all nonexempt undergraduates must complete the EPT and ELM after admission and before first enrollment in courses at Cal State L.A.

Writing Proficiency Examination (WPE)

Information about the WPE is available in the University Writing Center, located in the Library, Palmer Wing 2098. Students who receive a No Credit (NC) on the WPE must make an appointment to see a WPE consultant in the University Writing Center.

University Writing Center

The University Writing Center, located in the Library, Palmer Wing 2098, provides individual and group tutoring, writing workshops, and other services to meet the writing needs of undergraduate and graduate Cal State L.A. students. Writing tutors are trained to provide constructive feedback and to assist students in recognizing and overcoming their writing problems. Tutors help students to get started, generate ideas, organize materials, revise, and proofread papers. Writing workshops are offered on a variety of writing-related topics such as Organizing your Essay, Learning to Proofread, and Writing the Research Paper.
The center also provides Writing Proficiency Examination (WPE) services for students, including orientation meetings, WPE preparation workshops, and tutoring. WPE consultants are available to meet with students who have previously taken the WPE, but have not passed. Consultants will review the students exam essay and provide strategies and recommendations. Students with a WPE-related registration hold should call the Writing Center for information about a WPE contract.

Computers are available to students who use the services of the Writing Center. However, all students must have a campus NIS account to access any computer station. Tutors also conduct wordprocessing and computer-related workshops. Generally every quarter the center offers workshops introducing the World Wide Web, Word for Windows, WordPerfect for Windows, and techniques for online research.

Students whose first language is not English may take advantage of the Conversation Lab, a bi-weekly session staffed by a Writing Center tutor in which students can practice English conversation skills in an informal setting.

The University Writing Center is open to all Cal State L.A. students. Please call (213) 343-5350 for more information or to schedule an appointment.

University Tutorial Center
The University Tutorial Center, located in the Library, Palmer Wing 1039, offers individual and group tutoring in many general education and other undergraduate courses. Trained peer tutors guide and assist students to develop content area knowledge and skills.

The University Tutorial Center also offers study skills workshops covering such topics as time management, note-taking, textbook reading, and test-taking to guide and assist students to become confident, effective, independent learners.

For more information, call (213) 343-3971.

Student Health Services

Medical Services
The Student Health Center provides outpatient medical care, limited in scope and hours. Many services are available without charge such as examinations, diagnoses and treatment by licensed clinicians. At-cost fees are assessed for other services such as pharmaceuticals, laboratory tests, preventive dental care, and x-rays. Students may make appointments or receive further information regarding fees and the services offered by calling (213) 343-3300.

Upon entering the University, all new and returning students are required to present evidence of a negative tuberculin skin test or chest x-ray taken within one year preceding the first day of classes. In addition, those born after December 31, 1956 must also present acceptable proof of measles and rubella immunizations. The tuberculin skin test and measles and rubella immunizations are available free of charge at the Student Health Center. There is an at-cost fee for the tuberculin skin test and chest x-ray.

In the event of severe illness requiring hospitalization, students are referred to private or community facilities.

Because on-campus services may not meet year-round health needs of students, enrollment in a program of supplemental health insurance is recommended. Information about one such program is available at the Student Health Center.

Personal Counseling
The center is a place where you can receive individual short-term counseling for concerns such as personal adjustment, improving relationships, and clarifying alternatives. It is a place where individuals can explore their feelings, values, and concerns in an atmosphere of understanding and confidentiality. Students can make an appointment in person or by calling (213) 343-3302.

Other Services and Programs

Child Development Center
The Anna Bing Arnold Child Care Center provides part-time or full-time day care at a nominal cost for children between the ages of two and five years whose parents are students, staff, or faculty at Cal State L.A. The center is located at 2300 Levanda St. in Los Angeles, adjacent to the campus. The attractive, residential style building with a large, fully fenced yard was designed to serve as a learning environment for Cal State L.A. students as well as for children. Applications and information are available by calling (213) 343-2470.

Continuing Education
Continuing Education administers Extension programs, Special Sessions, Conferences and Professional Development, American Culture and Language Program (ACLP), Instructional Television Fixed Services (ITFS), and External Degree programs. Refer to the University chapter of this catalog for additional information.

International Student Services

The excellent academic programs at the University attract international (visa) students from around the world. International Student Services (ISS) provides assistance (admission, orientation programs, and counseling on how to cope in a new environment) to all international students and scholars, permanent resident alien students, and refugees. Students interested in organizing national or cultural clubs may obtain support and guidance from ISS.

Professional staff provide counseling for educational, social, or personal problems. Assistance and guidance are provided in obtaining practical training, and in maintaining compliance with U.S. and home country immigration requirements that apply to international students. ISS staff treat student concerns with confidentiality. Everyone is welcome to visit the office located in the Administration Building, Room 127. For more information, call 343-3170 (Email: mdfeii@cslanet.calstatela.edu).

International Student and Scholar Advising Services. Provides assistance to visa students and scholars in such areas as academic and cultural adjustment and social and recreational activities.

Immigration Counseling Services. Provides assistance to visa students, foreign scholars, and foreign faculty with visa issuance (F, H, and J visas, etc.), maintaining student status, and matters involving the U.S. Immigration Service.

Opportunities to Study at Other Universities in the U.S. or to Study at Universities Overseas. The National Student Exchange (NSE) program provides the opportunity to study at more than 120 state universities throughout the U.S. The period of study may be from one quarter to a complete academic year. The California State University International Programs (IP) provides the opportunity to study for an academic year at top universities in several different countries. Information on short-term study opportunities in other countries, Fulbright and Rotary fellowships, internships, volunteer programs, and short-term work opportunities abroad is available in this office. Academic credit is available for study in the NSE for study abroad. Financial aid may be applied to the NSE and study abroad. Many programs cost little more than studying here at CSLA. This office also sells the valued International Student Identification Card (ISIC) which enables students to take advantage of discounts on local and foreign hotel accommodations, travel, and...
entertainment. For more information on these exciting programs, visit us in the Administration Building, Room 127, or call 343-3170 (Email: jmyrick@calstatela.edu).

**Practical Training Services.** Students eligible for practical training may seek help from Practical Training Services to identify practical training employers and to help monitor their work experience. Employers may call upon Practical Training Services for assistance in locating eligible students and in establishing close ties between the visa student and local business communities.

**Special Programs and Services.** Services include the Administration of the Southern California/Northern Argentina chapter of the Partners of the Americas, and providing consulting services to education, government, business, and industry about international education and intercultural communication matters.

**Office for Students with Disabilities**
The Office for Students with Disabilities (OSD) provides services designed to make the educational and social experiences of students with disabilities as similar as possible to those of students without disabilities.

All students with verified permanent disabilities, are provided appropriate disability-related services from the following list:
- Assistance with application for admission
- Orientation to services available through OSD
- Priority registration for classes
- Program change assistance
- Disabled parking
- Referrals to on and off-campus resources
- Diagnostic assessment of learning disabilities
- Referral to on-campus computer labs with adaptive equipment
- Disability management counseling
- Special test-taking accommodations
- Note takers
- Readers
- Interpreters (sign language and oral)
- Real time captioning
- Test proctors
- Lab assistants

In addition to the services provided by OSD, the following equipment is available for loan to students with disabilities:
- Special tape recorders for students who are blind or learning disabled
- Braille
- Speech synthesizers for campus computers
- Optacon
- Telecommunication Device for the Deaf (TDD)
- FM amplification systems for the hearing impaired

The Office for Students with Disabilities is located in Student Affairs Building, Room 115, phone (213) 343-3140; (TDD 343-3139); FAX (213) 343-6429.

**Student Housing - Living On-Campus**
Cal State L.A. is proud of the housing facilities on campus which enhance the academic experience for all residents. Students from all parts of the world live in the housing community. Residents are able to interact with students and learn about cultures that they may never have the chance to experience otherwise. Faculty and staff also reside in the housing complex. The opportunities to learn and grow are almost limitless as a resident on campus.

Cal State L.A.’s Residence Apartments offer an excellent “home away from home” for students who choose to live on campus. All of the 132 two-bedroom and 60 four-bedroom apartments are furnished, including carpeting and draperies. Air conditioning, free basic cable TV service, stoves, microwave ovens, and refrigerators are also included.

There are two community centers in which students may relax. Phase I Community Center contains the Residence Life Office, the University Residence Council Office, recreation/game room, a convenience store, a mail room, and laundry facilities. Phase II Community Center contains a mail room, a large TV lounge, a new computer lab with ten 486 DX IBM compatible computers, a weight room facility, and a meeting room. There are basketball and volleyball courts which have lights for evening use. Parking is available in a specially designated, well-lit parking area. Live-in resident assistants help residents build and maintain a sense of community. Resident assistants provide both education and social programs to create a well-rounded experience for students living in housing.

There are five theme areas to consider when choosing to live on campus.
- **The Freshman House** - Freshmen residents are acclimated to the University through many supportive programs and experiences.
- **The Quiet House** - In this area noise is kept to a minimum and an emphasis is placed on studying.
- **THE ACLP House** - Students who participate in the American Culture and Language Program are housed in this area.
- **The Neighborhood** - This area is set aside for graduate students and older, more mature students.
- **The International and National Student Exchange House** Students of different cultures are brought together in the context of student housing.

For more information or a tour of the apartments, call (213) 343-4800 or visit the Housing Office at 5300 Paseo Rancho Castilla.

**University-Student Union**
The University-Student Union (U-SU), phone (213) 343-2450, is the focal point of extracurricular interaction for the University community. Students, staff, faculty, alumni, and invited guests participate in social, cultural, recreational, and educational activities. Facilities and services include the game room, Le Cafe (a specialty coffee-pastry bar), an information/ticket service, the Student-Alumni Lounge, and a variety of S.U.P.E.R. (Student Union Programming, Entertainment, and Recreation Committee) sponsored programs described below. The Union also offers a full range of meeting rooms, information services, lounge and study areas, employment opportunities, as well as student activities and special events.

**Board of Directors.** Policy and governance is established by the University-Student Union Board of Directors which is composed of thirteen voting members including seven students. The board develops administrative policies that affect the management of the building. Much of the board’s work is conducted through a committee structure that includes fiscal, personnel, space allocation, building usage, and executive committees. Meetings are open to the public, and attendance is encouraged.

**Central Reservations.** This office coordinates all nonacademic scheduling of campus facilities for on and off-campus groups. Meeting rooms, conference facilities, audio-visual equipment, and parking for conferences, retreats, receptions, and social events can be reserved through this office.

**Student Resource Centers.** There are four student resource centers on campus that cater to the needs of the diverse student population. Each center serves to provide a bridge between the
educational, social and community aspects of collegiate life. The Asian Pacific American Student Resource Center, Chicano/Latino Student Resource Center, Pan Afrikian Student Resource Center, and Women’s Resource Center are operated by students under the supervision of the Multicultural Coordinator. All four centers are located on the second floor of the University-Student Union.

Other Services. Other services located in the University-Student Union include the Cal State L.A. Alumni Association, Union Link Stations Computer Lab, Bookstore Annex (a campus convenience store), Associated Students, Inc. (ASI) offices, CSLA Federal Credit Union, Luz’s Boutique, University Travel Services, Eagles Print N Post, King Taco, C-Cellular, Amanu Gallery, and University Square Bookstore.

Student Union Programming, Entertainment, and Recreation Committee. S.U.P.E.R. consists of a group of student coordinators and volunteers under the supervision of the Programs Director and a staff coordinator who devote their time every quarter to plan and promote activities for Cal State L.A. and the surrounding community.

Most events sponsored by S.U.P.E.R. are free, including Haunted Union, Mardi Gras, Spring Fling, Java & Jam, Tuesday Concerts, and the Film Series. The value-packed ski trips to Big Bear Mountain and weekend rafting trips have also become popular annual events.

Since its creation in 1988, S.U.P.E.R. has dedicated time to bringing quality programs to Cal State L.A. students, faculty, staff, alumni, and guests. S.U.P.E.R. also co-sponsors important campuswide events such as Chinese Lunar New Year, Cinco de Mayo, Black History Month, Women’s History Month, and Asian Pacific Heritage Week. Through the efforts of S.U.P.E.R., famous acts and celebrities have made appearances on campus. They have entertained students and the community inside many of the Union’s meeting rooms as well as outside in the Free Speech Area.

S.U.P.E.R. is constantly looking for bright and energetic students who are interested in helping to bring exciting programs to the campus. For information on volunteer opportunities, visit the S.U.P.E.R. office on the third floor of the Union, or call (213) 343-5110.

University Square Bookstore

The University Square Bookstore, operated as a licensee of Barnes and Noble Bookstores, Inc. of New York, is located on the street level of the University-Student Union. Textbooks, general books, software, study aids, school supplies, gift items, and the Market Place (a convenience store with various food and sundry items) are available.

University Travel Services

The travel agency offers all types of air and land cruises, charters, student fares, and other travel services and is located on the second floor of the Union, phone (213) 343-4999. As part of the Association of California University Travel Agents, the agency provides numerous student discount travel programs.

Veterans’ Services

Cal State L.A. is approved for the training of veterans of the military services and their dependents under educational assistance programs established by the state and federal governments. Authorization for training under all federal bills must be obtained from the Veterans Administration through its regional office at 11000 Wilshire Boulevard, Los Angeles, CA 90024. Veterans with no prior training under the G.I. bills are urged to request their letter of eligibility at least two months before enrolling. Those transferring from another school should submit their transfer request at least one month before enrolling.

The Veterans’ Services Office, located in Administration 409, (213) 343-3948, provides enrollment certification for financial benefits and serves as a liaison between the University and the VA regional office about benefit payments and advisement about current benefits. Information about changes in legislative regulations and procedures also is available.

Children of Disabled Veterans

Students who qualify as children of certain disabled veterans of U.S. military services may be exempted from paying any student services portion of the registration fees, according to the California Education Code. Information about eligibility requirements and applications for waiver of these fees are available in the Office of Veterans’ Services.

Student Activities - Special Interest Groups

Art Exhibitions

The Fine Arts Gallery of the Art Department presents exhibitions of artwork by established professional artists as well as faculty and students. In addition, the student-run exhibition space, COMA Gallery, presents rotating exhibitions of CSLA student artwork. All exhibitions are free and open to the public.

Communication Activities

Forensics teams participate in debate and individual events in prominent intercollegiate tournaments. Students interested in broadcast journalism produce a campus television news program. Students in Oral Interpretation and Performance Studies offer frequent public presentations. Students produce the University Times. Students may earn credit for participation in these programs by enrolling in appropriate activity courses in the Department of Communication Studies.

Dance

The University Dance Ensemble offers the student experiences in performing, choreographing, costume designing, lighting, and composing sound for dance. Performances vary in number each year and range from mini-concerts to full productions. Membership is open to anyone who has a strong interest in dance theatre and is able to fulfill the purposes and functions of the organization. Students who participate must enroll in dance courses 480, 483, and 484 in the Department of Theatre Arts and Dance.

Intramurals

The Department of Physical Education offers a variable selection of intramural sports and activities for all men and women at Cal State L.A. Opportunities range from varied recreational interests to competitive intramural leagues. Students may enroll for credit in an intramurals course, PE 110.

Literary Activities

The English Department sponsors the Creative Writing Club, the David L. Kubal Memorial Lecture, and the Jean Burden Poetry Series. Open to students of all majors, the Creative Writing club promotes student writing at CSLA by holding weekly workshops, hosting quarterly public readings, and publishing an occasional journal of poetry, fiction and creative non-fiction. The David L. Kubal Memorial Lecture Series is designed to bring outstanding scholars to lecture on campus. Recent speakers of the Kubal Lecture Series have included Frederick Crews, Marjorie Perloff, Helen Vendler, Sacvan Bercovitch, and J. Hillis Miller. The Jean Burden Poetry Series is an annual event which has hosted such poets as Paul Zimmer, Howard Nemerov, Tess Gallagher, Maxine Kumin, Lucille Clifton, Mark Strand, Diana O’Hehir, Bruce Bond and...
Killarney Clary and Carolyn Kizer, Richard Wilbur, and Mary Oliver. The English Department is also the home of the American Literature Association (ALA), a national coalition of author societies devoted to the study of American writers. The ALA sponsors national and international conferences.

Musical Events and Organizations

The Associated Students cooperates with the Department of Music in offering an extensive program of musical events. Students enroll for academic credit in music activity courses as members of various performance organizations. Each organization has a regular performance schedule and performs several times each year both on- and off-campus. Some concerts are held during the noon hour; others are scheduled at night or on weekends. Membership is open to all students who wish to participate. The Chamber Singers, Concert Choir, Jazz Ensemble I, Vocal Jazz Ensemble, and Woodwind Ensemble require an audition. Music organizations include:

Student Publications

A wide variety of student publications represents the myriad academic and professional interests of Cal State L.A.'s student body. A partial list of these publications appears below. For information about being involved in-or receiving-a particular publication, interested students should contact the appropriate department.

Theatrical Productions

The Department of Theatre Arts and Dance offers comprehensive programs in play and dance production and children's theatre. The department presents eight or more productions during the year including faculty and student directed workshops and major productions. All students are eligible to audition for plays or apply for backstage assignments. Students may earn production credit by enrolling in TA 100, 300, 310, 459, or DANC 480.

Teatro Universitario en Español

The Departments of Modern Languages and Literatures and Theatre Arts and Dance offer students the opportunity to participate in the staging of plays in Spanish and English. Activities include acting, costume preparation, lighting, sound, set construction, publicity, and performance of a variety of backstage tasks. Plays are normally staged during winter quarter. Interested students may enroll in SPAN/TA 459, Hispanic Play Production.
ADMISSION
Requirements for admission to California State University, Los Angeles are in accordance with Title 5, Chapter 1, Subchapter 3, of the *California Code of Regulations*. Prospective applicants who are unsure of the requirements are encouraged to consult a high school or community college counselor or to contact Cal State L.A.’s Office of Admissions and University Outreach, Student Affairs 101, phone (213) 343-CSLA. Applications may be obtained from the admission office at any of the campuses of the California State University or at any California high school or community college. Electronic versions of the CSU undergraduate and graduate applications are accessible to the World Wide Web at “http://www.calstatela.edu”.

Cal State L.A. admits students as first-time freshmen, those from community colleges and degree-granting colleges and universities as undergraduate transfer students, and those who hold an acceptable baccalaureate as postbaccalaureate or graduate students. Categories and requirements for admission to postbaccalaureate and graduate study are stated in the Graduate Programs section.

**Importance of Filing Complete, Accurate, and Authentic Application for Admission Documents**

The CSU advises prospective students that they must supply complete and accurate information on the application for admission, residence questionnaire, and financial aid forms. Further, applicants must submit authentic and official transcripts of all previous academic work attempted. Failure to file complete, accurate, and authentic application documents may result in denial of admission, cancellation of academic credit, suspension, or expulsion (Section 41301, Article 1.1, Title 5, California *Code of Regulations*).

**Residence Determination**

The determination of whether students qualify as legal residents of California for admission and tuition purposes is made by a review of information in the residence questionnaire submitted by all applicants with their application for admission. For a summary statement about the principal rules and exceptions regarding residence determination, see Appendix B.

**Health Screening**

All new and readmitted students born after January 1, 1957, will be notified of the requirement to present proof of measles and rubella immunizations. This is not an admission requirement, but shall be required of students before registering for classes at Cal State L.A. or any other CSU campus. Proof of measles and rubella immunizations shall also be required for certain groups of enrolled students who have increased exposure to these diseases. Verification of a negative tuberculin test or chest x-ray within the past year shall also be required.

**Eligibility Index**

The eligibility index is the combination of your high school grade point average and your score on either the American College Test (ACT) or the Scholastic Aptitude Test (SAT I). Your grade point average is based on grades earned during your final three years of high school (excluding physical education and military science) and bonus points for approved honors courses. (See Honors Courses.)

Up to eight semesters of honors courses taken in the last two years of high school can be accepted. Each unit of A in an honors course will receive a total of 5 points; B, 4 points; C, 3 points.

You can calculate the index by multiplying your grade point average by 800 and adding your total score on the SAT I. Or, if you took the ACT, multiply your grade point average by 200 and add ten times the composite ACT score. If you are a California high school graduate (or a legal resident of California for tuition purposes), you need a minimum index of 2900 using the SAT I or 694 using the ACT. This minimum index applies for SAT I tests taken in April 1995 and thereafter. For earlier SAT I tests scores, the minimum index is 2800. The table in Appendix A shows the combinations of test scores and averages required.

If you neither graduated from a California high school nor are a resident of California for tuition purposes, you need a minimum index of 3502 (SAT I) or 822 (ACT). This minimum index applies for SAT I tests taken April 1995 and thereafter. For earlier SAT I tests scores, the minimum index is 3402.

Applicants with a grade point average higher than 3.0 (3.6 for nonresidents) are exempted from the test requirement. However, applicants are urged to take the SAT I or ACT because all campuses use test results for advising and placement purposes.

You will qualify for regular admission when the University verifies that you have a qualifiable eligibility index and will have completed the comprehensive pattern of college preparatory subjects and, if applying to an impacted program, meet supplementary criteria.

**Subject Requirements**

The California State University requires that first-time freshman applicants complete, with grades of C or higher, a comprehensive pattern of college preparatory study totaling 15 units. A unit is one year of study in high school.

- English, 4 years.
- Mathematics, 3 years: algebra, geometry, and intermediate algebra.
- U.S. History, or U.S. History and government, 1 year.
- Science, 1 year with laboratory: biology, chemistry, physics, or other acceptable laboratory science.
- Foreign language, 2 years in the same language (or demonstration of equivalent competence).

### Undergraduate Admission Requirements

#### First-Time Freshman Applicants

Applicants who have completed no college work will be considered for admission as first-time freshmen under one of the provisions described below.

You will qualify for regular admission as a first-time freshman if you

- are a high school graduate,
- have a qualifiable eligibility index (see below), and
- have completed with grades of C or better the courses in the comprehensive pattern of college preparatory subject requirements (see Subject Requirements). Courses must be completed prior to your first enrollment in The California State University.

#### Eligibility Index

The eligibility index is the combination of your high school grade point average and your score on either the American College Test (ACT) or the Scholastic Aptitude Test (SAT I). Your grade point average is based on grades earned during your final three years of high school (excluding physical education and military science) and bonus points for approved honors courses. (See Honors Courses.)

Up to eight semesters of honors courses taken in the last two years of high school can be accepted. Each unit of A in an honors course will receive a total of 5 points; B, 4 points; C, 3 points.

You can calculate the index by multiplying your grade point average by 800 and adding your total score on the SAT I. Or, if you took the ACT, multiply your grade point average by 200 and add ten times the composite ACT score. If you are a California high school graduate (or a legal resident of California for tuition purposes), you need a minimum index of 2900 using the SAT I or 694 using the ACT. This minimum index applies for SAT I tests taken in April 1995 and thereafter. For earlier SAT I tests scores, the minimum index is 2800. The table in Appendix A shows the combinations of test scores and averages required.

If you neither graduated from a California high school nor are a resident of California for tuition purposes, you need a minimum index of 3502 (SAT I) or 822 (ACT). This minimum index applies for SAT I tests taken April 1995 and thereafter. For earlier SAT I tests scores, the minimum index is 3402.

Applicants with a grade point average higher than 3.0 (3.6 for nonresidents) are exempted from the test requirement. However, applicants are urged to take the SAT I or ACT because all campuses use test results for advising and placement purposes.

You will qualify for regular admission when the University verifies that you have a qualifiable eligibility index and will have completed the comprehensive pattern of college preparatory subjects and, if applying to an impacted program, meet supplementary criteria.

**Subject Requirements**

The California State University requires that first-time freshman applicants complete, with grades of C or higher, a comprehensive pattern of college preparatory study totaling 15 units. A unit is one year of study in high school.

- English, 4 years.
- Mathematics, 3 years: algebra, geometry, and intermediate algebra.
- U.S. History, or U.S. History and government, 1 year.
- Science, 1 year with laboratory: biology, chemistry, physics, or other acceptable laboratory science.
- Foreign language, 2 years in the same language (or demonstration of equivalent competence).
• Visual and performing arts, 1 year: art, dance, drama/theater, or music.
• Electives, 3 years: courses selected from English, advanced mathematics, social science, history, laboratory science, foreign language, visual and performing arts, and agriculture.

Alternate Admission Criteria - UC Prepared Applicants

Beginning with the academic year 1995-96 and continuing through 1998-99, the CSU will conduct an admission experiment that will permit campuses to admit applicants who have completed either the CSU or all of the UC college preparatory (a-f) requirements.

Foreign Language Subject Requirement

The foreign language subject requirement may be satisfied by applicants who demonstrate competence in a language other than English equivalent to or higher than expected of students who complete two years of foreign language study. Consult your school counselor or any CSU campus admissions or relations with schools office for further information.

Subject Requirement Substitution for Students with Disabilities.

Applicants with disabilities are encouraged to complete college preparatory course requirements if at all possible. If you are judged unable to fulfill a specific course requirement because of your disability, alternative college preparatory courses may be substituted for specific subject requirements.

Substitutions may be authorized on an individual basis after review and recommendation by your academic adviser or guidance counselor in consultation with the director of a CSU program for students with disabilities. Although the distribution may be slightly different from the course pattern required of other students, students qualifying for substitutions will still be held for 15 units of college preparatory study. You should be aware that failure to complete courses required for admission may limit your later enrollment in certain majors, particularly those involving mathematics. For further information and substitution forms, please contact the Director of Services for Students with Disabilities at your nearest CSU campus.

Honors Courses

Grades in up to eight semester courses designated as honors courses in approved subjects and taken in the last two years of high school receive additional points in grade point average calculations. Each unit of A in approved courses will receive a total of 5 points; B, 4 points; C, 3 points; D, 1 point; and for F grades, none.

College Preparatory Courses Recommended

Most academic advisers agree that preparation for university study includes preparation in subjects beyond English and mathematics. Bachelor’s degree curricula build upon previous study in the natural sciences, social sciences, visual and performing arts, foreign languages, and the humanities. Students planning to major in mathematics, the sciences (including computer science), engineering, premedicine, other science-related fields, business, or economics should complete four years of college preparatory mathematics. Students in the social sciences and professional fields of study should include at least three years of college preparatory mathematics in their studies. Further, all students should include English and mathematics in the final year of high school.

Provisional Admission

Cal State L.A. may provisionally admit first-time freshman applicants based on academic preparation through the junior year of high school and senior year planned courses. The campus will monitor the senior year work to ensure that those so admitted complete their senior year course work satisfactorily-including required college preparatory subjects-and graduate from high school.

Foreign High School Graduates

Applicants, except international (visa) students, who are graduates of secondary schools in foreign countries, must be judged to have academic preparation and abilities equivalent to those of eligible California high school graduates. Cal State L.A. reviews the previous records of all such applicants; only those with promise of academic success equivalent to that of eligible California high school graduates are admitted. Such applicants are not required to take the ACT or the SAT except when specifically requested to do so.

Undergraduate Transfer Applicants

You will qualify for admission as a transfer student if you have a C (2.0) grade point average or better in all transferable units attempted, are in good standing at the last college or university attended, and meet any of the following standards:

- you meet the freshman admission requirements in effect for the term to which you are applying (see Freshman Requirements section).
- you were eligible as a freshman at the time of high school graduation and have been in continuous attendance in an accredited college since high school graduation.
- you were eligible as a freshman at the time of high school graduation except for the subject requirements, have made up the missing subjects, and have been in continuous attendance in an accredited college since high school graduation.
- you have completed at least 84 transferable quarter (56 semester) units and have made up any missing subject requirements (see Making Up Missing College Preparatory Subjects section). Nonresident must have a 2.4 grade point average or better.

Applicants who graduated from high school 1988 or later:

- Have completed all subject requirements in effect when graduating from high school (use both high school and college coursework), OR
- Have completed at least 30 semester units of college coursework with a grade of C or better in each course to be selected from courses in English, arts and humanities, social science, science, and mathematics at a level as least equivalent to courses that meet general education requirements. The 30 units must include all of the general education requirements in communication in the English language and critical thinking (at least 9 semester units) and the requirements in mathematics/quantitative reasoning (usually 3 semester units), OR
- The Intersegmental General Education Transfer Curriculum (IGETC) requirements in English communication and mathematical concepts and quantitative reasoning.

Applicants who graduated from high school prior to 1988:

- Have completed 4 years of high school English and 2 years of high school math, with grades of C or better, OR
- Have completed baccalaureate courses with grades of C or better that meet the general education requirements in communication in the English language and mathematics/quantitative reasoning, OR
- IGETC requirements in English composition and mathematical concepts and quantitative reasoning. The course meeting
either general education math requirement must be above the level of intermediate algebra.

Transferable courses are those designated for baccalaureate credit by the college or university offering the courses.

**Making Up Missing College Preparatory Subject Requirements**

Undergraduate applicants who did not complete subject requirements while in high school may make up missing subjects in any of the following ways.

- Complete appropriate courses with a C or better in adult school or high school summer sessions.
- Complete appropriate college courses with a C or better. One college course of at least three semester or four quarter units will be considered equivalent to one year of high school study.
- Earn acceptable scores on specified examinations.

Please consult any CSU admissions office for further information about alternative ways to satisfy the subject requirement.

**Test Requirements**

Freshman and transfer applicants who have completed fewer than 84 quarter or 56 semester units of transferable college work must submit scores unless exempt (see Eligibility Index earlier in this chapter) from either the Scholastic Aptitude Test of the College Board (SAT I) or the American College Test Program (ACT). If you are applying to an impacted program and are required to submit test scores, you should take the test no later than early December if applying for fall admission or no later than November if applying to San Luis Obispo. Test scores are also used for advising and placement purposes. Registration forms and the dates for either test are available from school or college counselors or from a campus testing office. Cal State L.A.’s Testing Center is located in the Library, Palmer Wing 2097, phone (213) 343-3160. Or, you may write to:

- The College Board (SAT I)
  Registration Unit, Box 592
  Princeton, New Jersey 08541
  (609) 771-7888

- American College Testing Program (ACT)
  Registration Unit, P.O. Box 168
  Iowa City, Iowa 52240
  (319) 337-2370

**TOEFL Requirement**

All graduate and postbaccalaureate applicants, regardless of citizenship, whose preparatory education was principally in a language other than English must demonstrate competence in English. Those who do not possess a bachelor’s degree from a postsecondary institution where English is the principal language of instruction must receive a minimum score of 500 on the Test of English as a Foreign Language (TOEFL). Some campuses require a higher score. Cal State L.A. requires a minimum 550 score on the TOEFL.

**Systemwide Placement Tests Required of Most New Students**

The CSU requires that new students be tested in English and mathematics as soon as possible after they are admitted. These are not admission tests, but a way to determine if you are prepared for college work and, if not, to counsel you how to strengthen your preparation. You might be exempt from one or both of the tests if you have scored well on other specified tests or completed appropriate courses. These tests are described later in this chapter in the section titled Undergraduate Tests and Examinations.

**Credit for Nontraditional Learning Experiences**

Credit for certain nontraditional learning experiences may be used in determining eligibility and credit allowances of undergraduate applicants. These nontraditional credit allowances are listed and described below. A more detailed analysis of each category appears later in this chapter under Evaluation of Transfer Credit.

**CATEGORIES AND CREDIT ALLOWANCES**

- Baccalaureate-level course credit certified by the Defense Activities in Nontraditional Education Support (DANTES) yields a maximum of 36 quarter units.
- Advanced Placement examinations of the CEEB with scores of 3, 4, or 5 yield 9 quarter units for each examination.
- For credit allowance for standardized external examinations, including CLEP, Advanced Placement, the CSU English Equivalency Exam, the American Chemical Society Cooperative Examination, see the explanations later in this chapter.
- For basic training in military service, 9 quarter units are awarded for 1 year or longer of active duty and 4 1/2 quarter units for 6 months to one year.
- Civilian and military courses and schools recommended for credit by the American Council on Education’s Commission on Educational Credit and Credentials yield a maximum of 12 quarter units.

**International (Visa) Student Admission Requirements**

The CSU must assess the academic preparation of international (visa) students. For this purpose, “international students” include those who hold U.S. visas as students, exchange visitors, or in other nonimmigrant classifications.

The California State University uses separate requirements and application filing dates in the admission of international (foreign) students. Verification of your English proficiency (see the section of TOEFL requirement for undergraduate applicants) financial resources, and academic performance are all important considerations. Academic records from foreign institutions must be on file at least eight weeks before registration for the first term and, if not in English, must be accompanied by certified English translations. Priority in admission is given to residents of California.

International (visa) applicants and all others who are not permanent U.S. residents will be admitted to Cal State L.A. only if they meet one of the following sets of requirements:

- Completion of two years (84 quarter units or equivalent) of acceptable college work with a minimum 2.4 grade point average as evaluated by the University (A = 4.0) and a minimum 550 score on the Test of English as a Foreign Language (TOEFL); or
- Graduation from a foreign high school where the language of instruction was not exclusively English, a minimum 2.4 grade point average in any college work attempted (as evaluated by the University), and a minimum 550 TOEFL score. The academic eligibility requirement for high school work is the same as for graduates of U.S. high schools outside California, although submission of ACT or SAT scores is not necessary; foreign high school equivalencies will be determined by the University; or
- Graduation from a foreign high school where the language of instruction was not exclusively English and a minimum 550 TOEFL score. The academic eligibility requirement is the same as for graduates of high schools outside California, although submission of ACT or SAT scores is not necessary.
Foreign high school equivalencies will be determined by the University.

Applicants who have attended full time for at least three years either an accredited U.S. college or university or a foreign high school, college, or university where the exclusive language of instruction was English are exempted from the TOEFL requirement.

Variation from the TOEFL requirement will be considered by the Director of Admissions and University Outreach for applicants who have satisfied one of the following conditions:

- Graduation from a California high school after completion of at least one full year of academic course work. The academic eligibility index requirement is the same as for other graduates of California high schools. Submission of a TOEFL score is not necessary; or
- Graduation from another U.S. high school, an accredited international high school, or a U.S. dependents’ high school overseas after completion of at least one full year of academic course work. The academic eligibility requirement is the same as for U.S. residents who are graduates of U.S. high schools outside California. Submission of a TOEFL score is not necessary; or
- Graduation from a high school in a country where the exclusive language of instruction is English. The academic eligibility requirement is the same as for graduates of U.S. high schools outside California, although submission of ACT, SAT, or TOEFL scores is not necessary. Foreign high school grade point average and course equivalencies will be determined by the University.

In exceptional cases, the Director of Admissions and University Outreach may waive the TOEFL score requirement if recommended by the applicant’s proposed major department or division. Variation from the minimum TOEFL score will be considered only for applicants with a B (3.0) grade point average as evaluated by the Admissions Office and whose TOEFL score is not more than ten points below 550.

The U.S. Immigration and Naturalization Service (INS) requires that F-1 visa undergraduate students carry a minimum study load of 12 quarter units. Visa students must have advance proof of adequate financial resources, be in good health, and comply with all Cal State L.A. and INS regulations. Consult International Student Services, (213) 343-3170, for information about visas, housing, and related matters. Application forms for international students, available at the Admissions Office, should be submitted during the initial filing period for the desired quarter of entry.

General Guidelines for Foreign Records

Applicants with foreign academic work are required to submit official copies of academic records, along with a certified English translation. Academic records should include: secondary school records; yearly records from each college or university attended, indicating the number of hours per semester or per year devoted to each course and the grades received; and official documents that confirm awarding of the degree, with the title and date. All official documents submitted become the property of the University. The acceptability of any foreign work will be determined by the University.

Insurance Requirement

Effective August 1, 1995, as a condition of receiving an I-20 or ASP-66 form, all F-1 and J-1 visa applicants must agree to obtain and maintain health insurance as a condition of registration and continued enrollment in the California State University. Such insurance must be in amounts as specified by the United States Information Agency (USIA) and NAFSA Association of International Educators. The campus President or designee shall determine which insurance policies meet these criteria. Further information may be obtained from the International Student Services Office, Administration 127, (213) 343-3170.

Second Baccalaureate Applicants

Students who have earned a baccalaureate from an accredited institution may earn a second baccalaureate at Cal State L.A.; they are admitted as undergraduates when they specify such an objective on their application. Admission for all other postbaccalaureate objectives is described in the Graduate Programs section.

Special Admission Categories

Adult Students

As an alternative to regular admission criteria, applicants who are twenty-five years of age or older may be considered for admission as adult students if they meet all of the following conditions:

- Possess a high school diploma (or have established equivalence through either the tests of General Educational Development or the California High School Proficiency Examination); and
- Have not been enrolled in college as full-time students for more than one term during the past five years; and
- If they have attended any college in the last five years, have earned a C (2.0) average or better.

Consideration is based on a judgment about whether the applicant is as likely to succeed as regularly admitted freshmen or undergraduate transfer students and will include an assessment of basic English language and mathematical computation skills. Questions should be directed in writing to the Director of Admissions and University Outreach.

Educational Opportunity Program (EOP)

The Educational Opportunity Program (EOP) provides assistance to undergraduate students who are disadvantaged because of their economic or educational background. EOP serves California residents who do not meet regular admission criteria, as well as those who qualify for regular admission, if they have a history of low income and need academic and financial assistance.

In addition to special admission procedures, the program provides specialized orientation, financial assistance, advisement by professional and peer counselors (usually upper division students), tutoring, and access to specialized courses. Because not all EOP applicants can be guaranteed admission, alternative opportunities should be investigated. Applications and information may be obtained from the EOP Office, Student Affairs 215, (213) 343-4EOP.

Early Entrance Program (EEP)

Cal State L.A.’s Early Entrance Program (EEP) serves highly gifted students who need the academic challenges of a university environment to develop intellectually, but who are chronologically younger than traditional undergraduates and who have not yet graduated from high school. Students who are less than 14 years old at the start of the fall quarter but who have at least started the seventh grade are candidates for the program. Participation is open by invitation, and admission is based on performance in an academic assessment inventory administered by the program director, personal interview of the applicants and their parents, and, when appropriate, interview of the gifted student program coordinator or principal of the applicants’ home school.

EEP students begin by taking a limited number of units at Cal State L.A., while still enrolled at their home school. Those whose academic and personal performances are judged adequate may pro-
gress to full-time university enrollment on a gradual basis. Regular meetings with the program director are mandatory, and participation in scheduled activities is required. EEP students may apply for scholarship assistance and are eligible for the General Education Honors Program when they become full-time students. For further information contact the EEP director at (213) 343-2250.

High School Students

Students still enrolled in high school are considered for enrollment in certain special programs if recommended by their principal and the appropriate campus department or division chair and if their preparation is equivalent to that required of eligible California high school graduates. Such admission is only for a given program and does not constitute the right to continued enrollment. Two such Cal State L.A. programs are described in the following paragraph.

Accelerated College Enrollment (ACE) and Pre-Accelerated College Enrollment (PACE)

The ACE program is designed for high school seniors and juniors and the PACE program is available for mentally gifted or talented ninth and tenth graders. Through the ACE and PACE programs, eligible students enroll in selected regular college courses and receive college credit for them. These programs are coordinated by the Associate Director of Admissions and University Outreach, Student Affairs 101, (213) 343-3178. Admission to these programs does not necessarily constitute the right to continued enrollment.

High School Non-graduates

Applicants over 18 years of age who have not graduated from high school are considered for admission only when their preparation in all other ways is such that Cal State L.A. believes their promise of academic success is equivalent to that of eligible California high school graduates. These applicants are required to submit General Educational Development (GED) test scores in order to establish high school graduation equivalence, and an official high school transcript that shows all work completed to the last date of attendance. Scores on the ACT or SAT also are required.

Veterans

Veterans of U.S. military service who are California residents may be admitted as either first-time freshmen or undergraduate transfers, even though such applicants are not otherwise eligible. Veterans who wish to be admitted under this provision should contact the Admissions Office.

Applicants Not Regularly Eligible

Applicants not admisible under one of the above provisions should enroll in extension courses, a community college, or another appropriate institution in order to meet eligibility requirements. Only under the most unusual circumstances and by authorized action will such applicants be admitted to Cal State L.A. without additional academic preparation as described above.

Undergraduate Application Procedures

Prospective students, applying for part-time or full-time undergraduate programs of study, in day or evening classes, must file a complete undergraduate application as described in the undergraduate admission booklet. The $55 nonrefundable application fee should be in the form of a check or money order payable to "The California State University" and may not be transferred or used to apply to another term.

An alternate choice campus and major may be indicated on the application, but applicants should list as an alternate campus only a CSU campus that offers the major they desire. Generally, an alternate major will be considered at the first-choice campus before an application is redirected to an alternate-choice campus.

A request for change of campus after an application has been filed should be directed to the new choice of campus for approval and determination that space is available. If the request can be met, the new first-choice campus will direct the request to the original first-choice campus for a transfer of the application. Such a change cannot be guaranteed, but will be accomplished if possible, and only for the term for which the application was filed.

The CSU application booklets may be obtained at Cal State L.A. in Student Affairs 101, from the admissions office of any other CSU campus, or at any California high school or community college.

Use of Social Security Number

Applicants are required to include their Social Security account number on CSU applications for admission pursuant to the authority contained in Section 41201 of Title 5, California Code of Regulations. The Social Security account number is used to identify records pertaining to the student and to identify the student for purposes of financial aid eligibility and disbursement and the repayment of financial aid and other debts payable to the institution. Cal State L.A. uses the students Social Security number as the official means of student identification and refers to the number as the students Student Identification Number (SID). On most student forms, the name is abbreviated as SID.

Filing Period Duration

Each campus accepts applications until capacities are reached. Many campuses limit undergraduate admission in an enrollment category because of overall enrollment limits. If applying after the initial filing period, consult the campus Admissions Office for current information.
International (Visa) Applicants

Application filing periods for international (visa) applicants differ from those for domestic applicants because of additional time required in evaluating records and preparing necessary documents for the Immigration and Naturalization Service (INS). The filing periods are established as follows:

<table>
<thead>
<tr>
<th>Quarter</th>
<th>Application Filing Period</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall Quarter</td>
<td>November 1-March 1</td>
</tr>
<tr>
<td>Winter Quarter</td>
<td>June 1-September 1</td>
</tr>
<tr>
<td>Spring Quarter</td>
<td>August 1-October 1</td>
</tr>
</tbody>
</table>

The Director of Admissions and University Outreach may waive this advance application requirement if circumstances warrant. In addition to the academic requirements outlined earlier in this chapter, international students must have competence in the English language, financial resources adequate to provide for all expenses during their period of study at Cal State L.A., and must be in good health.

Application Acknowledgment

You may expect to receive an acknowledgment from your first-choice campus within two to four weeks of filing the application. A notice that space has been reserved for you will also include a requirement that you submit the records necessary for the campus to evaluate your qualifications. You may be assured of admission if the evaluation of your qualifications indicates that you meet admission requirements. Such a notice is not transferable to another term or to another campus.

Transcript and Admission Test Score Requirements

Undergraduate transfer students are required to comply with the following transcript and test score requirements as part of the application procedures for admission. Classifications of applicants apply as of the date of intended enrollment.

Applicants with fewer than 84 quarter units completed

- **Transcripts:** One from high school of graduation; one from each college attended
- **Test Score:** ACT or SAT

Applicants with 84 or more quarter units completed

- **Transcripts:** One from each college attended; graduate and second baccalaureate applicants, two from each college attended.

Returning Students

- **Transcripts:** One from each college attended since last enrollment at Cal State L.A. unless otherwise notified by the Admissions Office. One from each college attended before Cal State L.A. if student last attended Cal State L.A. more than one year ago.

Engineering Majors

- **Transcripts:** Two from high school of graduation; two from each college attended

Nursing Majors

- **Transcripts:** One sent directly to Admissions Office; one to Department of Nursing

CAUTION: Transcripts must be sent directly from each college and school of nursing attended.

Transcripts must be sent directly from the institutions involved to Cal State L.A.'s Admissions Office. All transcripts become University property and will not be released or copied, except for students who request that their application be redirected to another CSU campus. Processing of applications cannot be guaranteed unless all required documents and test scores are received during the appropriate application period. All required documents from within the U.S. must be received 30 days prior to the first day of the term to which you apply. Documents from outside the U.S. must be received 60 days prior to the first day of the term to which you apply. Transcripts are retained one year for applicants who do not enroll in the quarter of application or who send transcripts but do not file an application.

Local and Systemwide Impacted Programs

The CSU designates academic programs to be impacted when more applications are received in the first month of the filing period than the spaces available. Some programs are impacted at every campus where they are offered; others are impacted at some campuses but not all. You must meet supplementary admission criteria if applying to an impacted program.

The CSU announces before the opening of the fall filing period which programs are impacted and the supplementary criteria campuses will use. That announcement is published in the CSU Review, distributed to high school and college counselors. We will also give information about the supplementary criteria to program applicants.

You must file your application for admission to an impacted program during the first month of the filing period. If you wish to be considered for impacted programs at two or more campuses, you must file an application to each campus.

Supplementary Admission Criteria

Each campus with impacted programs uses supplementary admission criteria in screening applicants. Campuses are authorized to use a freshman applicants ranking on the eligibility index, a transfer applicant's overall grade point average, and a combination of campus-developed supplementary criteria. If you are required to submit scores on either the SAT 1 or the ACT, you should take the test no later than December if applying for the following fall term.

The supplementary admission criteria used by individual campuses to screen applicants appear periodically in the CSU Review and are sent by the campuses to all applicants seeking admission to an impacted program.

Unlike unaccommodated applicants to locally impacted programs, who may be redirected to another campus in the same major, unaccommodated applicants to systemwide impacted programs may not be redirected in the same major but may choose an alternative major at the first choice campus or another campus.

Hardship Petitions

There are established procedures for consideration of qualified applicants who would be faced with extreme hardship if not admitted to a specified campus. Petitioners should write to the Admissions Office regarding specific policies governing hardship admission.

Reapplication After Failure to Enroll

Applicants who fail to register for the quarter for which they have been accepted will have their admission canceled. Those who desire admission to any future quarter must file another application (with fee) within the stated application period and must meet admission requirements in effect at the time of the new application.

All transcripts on file for applicants who are admitted but do not attend are kept one year and may be used for admission during that period. However, transcripts of any additional work completed since the original transcripts were filed must be requested by the applicant from the college(s) attended, as part of the new application procedure.
Readmission

Students who are absent without prior approval for any three of the four consecutive quarters before the quarter they wish to return must apply for readmission. The $55 application fee is charged except for students who were enrolled during any of the three quarters immediately preceding the quarter of desired readmission. An application with fee also must be filed by any student who enrolls at another institution during an absence, with the following exceptions: a summer session or extension program; dual registration, with prior approval; or concurrent or visitor enrollment at another CSU campus. Students who were disqualified from Cal State L.A. following the last quarter of attendance must file an application for admission as returning disqualified students. For details see Readmission of Disqualified Students below.

Returning Veterans (Military or Alternative Service)

Cal State L.A. students who enter active U.S. military service or approved alternative service are eligible for continuing student status following active service. Time served in active military or approved alternative service, including the entire quarter in which the student entered the service and the entire quarter during which the discharge occurred, will not be counted as a break in attendance in determining continuing student status.

Readmission of Disqualified Students

Readmission after disqualification is not automatic. Disqualified students will not be considered for readmission until at least two quarters have elapsed. Normally, students will be eligible for readmission when they have satisfied conditions and requirements established during the exit interview. Basic readmission regulations indicate the following: no upper division student (90 or more units completed) will be readmitted with a deficiency of 22 or more grade points for all college work attempted; no lower division student (fewer than 90 units completed) will be readmitted with any grade point deficiency for all college work attempted. Units earned elsewhere while under disqualification can be used to reduce the total grade point deficiency, but not the Cal State L.A. deficiency (which must be removed after readmission).

Before the appropriate deadline, disqualified students must file an application for readmission as returning disqualified students. In addition, they must seek readmission through a petition to the department or division and school from which they were disqualified. The University Academic advisement Center will rule on petitions for readmission of disqualified students with undeclared majors. Petitions for Readmission from Disqualification may be obtained from department or division offices and applications for readmission to the University are available at Student Affairs 101. Official transcripts of all transfer work attempted since disqualification must be furnished.

Readmission Appeals Procedure

Students who have not met requirements established at the time of the exit interview will be ineligible for readmission and will be so notified by the Admissions Office. Students may appeal this decision by submitting a petition to the dean of their school or to the University Academic Advisement Center if they have not declared a major.

Postbaccalaureate Application Procedures

Application procedures for all postbaccalaureate and graduate programs are described under Postbaccalaureate Application Procedures in the Graduate and Postbaccalaureate Study section.

Transfer Within State University Campuses

Students enrolled at a California State University campus and eligible to continue are eligible for admission at any other institution in the CSU system, provided they are in good standing at their home campus. Students on probation at their home campus may apply for admission as transfer students to another campus in the system, subject to that institution’s admission policy and space availability. A complete application is required, including fee, all official transcripts, and test score reports.

Evaluation of Transfer Credit

Undergraduate transfer students’ previous college work is evaluated in terms of its relevance to Cal State L.A. course offerings and degree requirements. An evaluation is mailed to all new transfer and readmitted students during their first quarter of attendance. General education and graduation course requirements met by transfer courses and transfer credit accepted in satisfaction of unit requirements are identified in this evaluation. For readmitted students, it also identifies general education and major requirements met by Cal State L.A. courses. The policies of the transfer institution(s) are followed when grade point averages of transfer course work are computed. If such policies cannot be determined, Cal State L.A. policies are followed. Credit for selected vocational/technical courses not generally accepted for transfer credit may be recognized after admission if approved by the Cal State L.A. academic department or division responsible for the related degree program.

Quarter Units/Quarter System

Cal State L.A.’s credits are expressed in quarter units; one quarter unit normally represents no less than one hour of class work and two or more hours of outside study per week for one quarter. One and one-half (1 1/2) quarter units are equivalent to one (1) semester unit, and one quarter unit is equivalent to 2/3 semester unit of credit.

Credit for Community College Course Work

A maximum of 105 quarter units (70 semester units) may be allowed for baccalaureate level credit earned in a community college. Neither upper division credit nor credit for professional education courses is allowed for community college work.

California Articulation Number (CAN)

Cal State L.A. participates in the California Articulation Number System. CAN is a comprehensive system that uses a common number to equate some introductory, transferable, lower division courses commonly taught in the various academic disciplines at an increasing number of California community colleges and four-year campuses. The system ensures that students who complete CAN courses at a participating campus will receive credit “in lieu of comparable CAN courses at other participating campuses.

For example, CAN ECON 2 (Cal State L.A.’s ECON 202) completed at one campus is acceptable for CAN ECON 2 at other participating campuses. The campuses retain their own numbering systems. CAN course designators are found at the end of each course description in the campuses’ general catalogs. Cal State L.A.’s approved courses are so identified and, in addition, are listed below. For additional information, contact the Articulation Liaison/CAN Coordinator in the Office of Undergraduate Studies, Administration 715, (213) 343-3917.

Credit for Extension and Correspondence Courses

The maximum amount of credit for correspondence and extension courses that may be applied toward the baccalaureate is 36 quarter (24 semester) units. Extension and correspondence course credit does not satisfy Cal State L.A. residence requirements. Students should consult their major department or division adviser before enrolling in extension or correspondence courses to ensure that courses elected will meet both unit and content requirements for the degree.

No undergraduate degree credit will be allowed for University of California extension courses in the X300 or X400 series taken after Spring Quarter 1968, except as specifically approved by the individual department or division concerned.

Credit for Supplementary Transfer Work

To request evaluation of credit toward a bachelor’s degree for work taken at other colleges or universities subsequent to matriculation at Cal State L.A., students must have official transcripts forwarded to the Admissions Office.

Credit for Noncollegiate Instruction

Cal State L.A. grants undergraduate degree credit for successful completion of noncollegiate instruction, either military or civilian, appropriate to the baccalaureate if such credit has been recommended by the Commission on Educational Credit and Credentials of the American Council on Education. The number of units allowed are those recommended in the Guide to the Evaluation of Educational Experience in the Armed Services and the National Guide to Educational Credit for Training Programs.

Credit for Military Service

Students are granted nine quarter units of lower division elective credit, upon admission, for one year or more of regular active duty in a U.S. military service including completion of basic or recruit training. For six months to one full year of military service, including completion of a six-month reserve training program with basic recruit training, 4.5 quarter units of lower division elective credit are granted upon admission. Additional credit to a maximum of 12 quarter units may be granted for completion of certain service school certificate programs, based on recommendations of the Commission on Educational Credit and Credentials of the American Council on Education.

Forms for requesting evaluation of military service credit are available in Student Affairs 101. Students should submit a copy of their military separation, DD214 or equivalent record, with their application for admission. Military service credit is not applied toward the residence requirement.

Credit Certified by the Defense Activities in Nontraditional Education Support (DANTES)

A maximum of 36 quarter units of baccalaureate course credit may be earned for course work certified by the Defense Activities in Nontraditional Education Support (DANTES). Students must have an official DANTES transcript forwarded to the Admissions Office.

Credit for Peace Corps Training

Peace Corps volunteers who completed their training at Cal State L.A. may earn a maximum of 1 1/2 quarter units for each week of the training program. The number of units and the area in which the units are given varies with each project. Grades are recorded as Credit (CR).

Credit for work taken at another institution while in Peace Corps training will be granted by Cal State L.A., but only as it appears on an official transcript from another college or university. The college credit will be validated when the volunteer becomes a student at Cal State L.A. or another institution of higher education.

Undergraduate Tests and Examinations

Cal State L.A. grants undergraduate degree credit to students who pass examinations that have been approved for credit systemwide. These include Advanced Placement Examinations, the CSU English Equivalency Examination, and some CLEP, as outlined below. The total credit earned in external examinations that may be applied to a baccalaureate shall not exceed 45 quarter units, exclusive of credit for Advanced Placement examinations.

Advanced Placement Credit

Credit is granted toward undergraduate degrees for successful completion of examinations of the Advanced Placement Program of the College Board. Students who present scores of 3 or better are granted 9 quarter units (six semester units) of elective credit for each examination. Acceptance of Advanced Placement units for purposes other than electives is determined by the appropriate academic department. Advanced Placement credit will be awarded for those students who have had their College Board
Grade Report for the Advanced Placement exam sent to Cal State L.A. and have completed one quarter of attendance. Credit is not awarded for any examinations that overlap other examinations or equivalent college courses. Where partial overlap exists, the amount of credit awarded will be appropriately prorated.

Information about Advanced Placement examinations is available at the applicant’s high school. Supporting test materials are sent to the college or university indicated by the student when the examinations are taken.

No credit for any examination will be forwarded to a student who has taken the examination previously within the past year; earned equivalent credit through regular course work, credit by another examination, or other instructional processes, such as correspondence study or military training; or earned credit previously in a course or by an examination more advanced than the level represented by the examination in question.

Credit for one examination in mathematics may be applied to the mathematics requirement of the general education program. Credit for additional examinations is allocated to electives; acceptance for major, minor, or prerequisite use is granted on approval of the appropriate academic department or division.

English Placement Test (EPT). The CSU English Placement Test must be completed by all nonexempt undergraduates* prior to placement in appropriate university English coursework. Exemptions from the test are given only to those who present proof of one of the following:

- A score of 3, 4, 5 on either the Language and Composition or the Composition and Literature examination of the College Board Advanced Placement program.
- A score on the CSU English Equivalency Examination that qualifies the student for “Pass for Credit” or “Exemption” prior to July 1993.
- A score of 470 or above on the verbal section of the College Board Scholastic Aptitude Test (SAT) taken prior to March 1994.
- A score of 470 or above on the Verbal section of the College Board SAT I** Reasoning Test taken between March 1994 and March 1995. (If taken after March 1995, see note below.)
- A score of 22 or above on the American College Testing (ACT) English Usage Test taken prior to October 1989.
- A score of 25 or above on the advanced ACT English Test taken October 1989 or later.
- A score of 600 or above on the College Board Achievement Test** in English Composition with essay taken prior to January 1994.
- A score of 600 or above on the College Board SAT II** Writing Test taken between January 1994 and March 1995. (If taken after March 1995, see note below.)
- A score of 550 or above on the Verbal section of the College Board SAT I** Reasoning Test taken on or after April 1, 1995.
- A score of 660 or above on the College Board SAT II** Mathematics Test taken on or after April 1, 1995. (See note below.)
- For transfer students, completion and transfer to the CSU of a college course that satisfies the General Education Breadth requirement or the Intersegmental General Education Transfer Curriculum requirement in Quantitative Reasoning, provided such a course was completed with a grade of C or better.

These tests should be taken at the next opportunity after admission or as soon as possible thereafter.

Students required to take this examination should do so as soon as possible after admission. The results of this examination do not affect admission, but will be used to identify students who need special help in mathematics in order to do college-level work. Students who cannot demonstrate basic competence on the examination are required to take steps to overcome deficiencies early in their enrollment. Any course work undertaken primarily to acquire the required competence shall not be applicable to the baccalaureate.

graduates must complete the EPT and ELM after admission and before first enrollment in courses at Cal State L.A.

Information bulletins and registration materials for the EPT and ELM examinations can be mailed to all students subject to the requirements. The materials may also be obtained from the Testing Center, (213) 343-3160.

American Chemical Society Examination. Students may earn four quarter units of credit by achieving a score at or above the 50th percentile on the General Chemistry examination offered as part of the American Chemical Society Cooperative Examination Program.

*Undergraduates admitted with 56 or more transferable semester units and who are subject to a campus catalog or bulletin earlier than 1986-87 are not required to complete the EPT.

**The College Board SAT and Achievement Tests were replaced by SAT I and SAT II, respectively, beginning March 1994. As of April 1, 1995, the SAT I and SAT II exams are being scored on a new scale; however, the SAT scores qualifying for exemption from the ELM remain the same.
**PROCEDURES AND REGULATIONS**

Information concerning University procedures and regulations contained in this section is applicable to all undergraduate students. Some general information also applies to postbaccalaureate and graduate students. Additional procedures and regulations applicable only to postbaccalaureate and graduate students are included in the Graduate and Postbaccalaureate Study section.

**Undergraduate Class Levels**

Undergraduate students are classified according to the number of quarter units of baccalaureate-level course work they have completed, calculated as follows:

<table>
<thead>
<tr>
<th>Class Level</th>
<th>Quarter Units Completed</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Lower Division</strong></td>
<td></td>
</tr>
<tr>
<td>Freshman</td>
<td>0-44</td>
</tr>
<tr>
<td>Sophomore</td>
<td>45-89</td>
</tr>
<tr>
<td><strong>Upper Division</strong></td>
<td></td>
</tr>
<tr>
<td>Junior</td>
<td>90-134</td>
</tr>
<tr>
<td>Senior</td>
<td>135+</td>
</tr>
</tbody>
</table>

**Quarter Units/Quarter System**

Cal State L.A. credits are expressed in quarter units; one quarter unit normally represents no less than one hour of class work and two or more hours of outside study per week for one quarter. One and one-half (1 1/2) quarter units are equal to one (1) semester unit. Conversely, one quarter unit is equal to 2/3 semester unit of credit.

**Study Load**

Undergraduate students must carry a study load of 12 units for full-time enrollment certification by the University. The recommended full-time study load for undergraduates is 16 units. Students on scholastic probation must limit their study load to 12 units unless an exception has been approved by an academic adviser in their major department or division.

**Student Identification Number (SID)**

Cal State L.A. uses all students' Social Security numbers as their official Student Identification Number (SID) pursuant to the authority contained in Title 5, California Code of Regulations, Section 41201. This number is used as a means of identifying records pertaining to students as well as for identifying students for purposes of financial aid eligibility and other debts payable to the institution. On most student forms, the name is abbreviated as SID.

**Registration**

Continuing students at California State University, Los Angeles receive a registration notification form in the mail before the scheduled registration dates for each quarter. Complete information concerning registration procedures is provided in the Schedule of Classes, issued each quarter before the registration period and available for purchase at the University Square Bookstore. Student Telephone-Assisted Registration (STAR) is available to all eligible continuing students.

Students maintain their continuing student status for registration purposes only by attending at least two of the four quarters immediately preceding the quarter in which they plan to enroll. Students who were admitted and enrolled in one of the last three quarters preceding the quarter in which they plan to enroll will also maintain their continuing student status for registration purposes. Absence for more than two of any four consecutive quarters without an approved leave of absence will cancel continuing registration eligibility. See Leaves of Absence later in this chapter.

Attendance in University extension courses does not constitute continuous attendance.

Students who attended another college or university during an absence from Cal State L.A., except for a summer session or extension program or approved visitor enrollment at another CSU campus, are required to file an application for admission as a returning student and have official transcripts of work taken sent to the Admissions Office. The $55 nonrefundable application fee is charged. Such students will, if eligible, receive forms to register as returning students.

Students who are graduated with a bachelor's degree from Cal State L.A. and wish to continue in graduate standing are required to file a new application for graduate admission and will, if eligible, receive forms to register as new students.

**Academic Advisement**

Academic advisement is required for all new students prior to or during their first quarter in attendance. Before registering for their first quarter at Cal State L.A., students must consult an adviser in their major department or division to plan a program of study. After the first advisement session, students must consult an academic adviser at least annually or more often as necessary to enhance academic success. Undergraduate students who, upon admission to the University, are unable to select a specific major shall consult an adviser in the University Academic Advisement Center.

Because the approved degree program becomes the basis for determining eligibility for the degree, any change in the student’s planned program must have an academic adviser’s approval. Annual, or more often as needed, consultation with an academic adviser in the major department or division is therefore required. Newly admitted students should bring a copy of all high school and/or college transcripts when seeking advisement. They should consult the Schedule of Classes for a list of academic advisers.

Forms used for change or declaration of major are available in Administration 146. Students may change their major by consulting an adviser in the appropriate academic department or division or by application through the University Academic Advisement Center. They should be aware, however, that a change in major may defer graduation if there are significant shifts in course requirements.

**Undeclared Majors**

Upon admission, undergraduate students are encouraged to declare a major. Those who have not selected a specific major shall be designated undeclared majors. Prior to registration for their first quarter at Cal State L.A., undeclared majors shall consult an adviser in the University Academic Advisement Center (Library, Palmer Wing 1040A) to plan a preliminary program of study.

All students shall declare a major by the time they complete 45 quarter units in residence or four quarters in residence, whichever comes first.
Schedule of Fees: 1997-1998

CAUTION: All student fees are subject to change without advance notice.

Legal residents of California are not charged tuition. The following reflects applicable fees and nonresident tuition for the quarter system.

Once billed, fees are not negotiable except under extenuating circumstances. Failure to satisfy charges billed will result in the withholding of transcripts and registration privileges.

Musical Instrument and Audio/Visual Equipment Fee
A fee of “up to $25” for the repair, maintenance, and insurance of musical instruments and audio/visual equipment owned by the state and used by individual students in course work.

Credit Cards
VISA and Mastercard bank credit cards may be used for payment of student fees.

Waiver of Fees
Nonresident fees may be waived for persons who hold a valid California credential and are employed by a public school district in this state in a full-time position requiring certification. Eligible persons must meet at least one of the following conditions:
- hold a provisional credential and enroll in courses necessary to obtain another type of credential authorizing service in the public schools;
- hold a partial credential and enroll in courses necessary to fulfill postponed credential requirements; or
- enroll in courses necessary to fulfill requirements for a fifth year of study as prescribed at Cal State L.A.

Refund of Fees
Details about fees that may be refunded, the circumstances under which fees may be refunded, and the appropriate procedure to follow in seeking refunds are available in Section 42201 (parking fees), 41913 (nonresident tuition), 42019 (housing charges), and 41802 (all other fees) of Title 5, California Code of Regulations. These regulations are published in the Schedule of Classes. In all cases, it is important to act quickly in applying for a refund. Information concerning any aspect of the refund of fees may be
Disenrollment

Students who have a fee obligation to the University will be billed. Payment must be made within 10 days of the invoice date. Failure to pay by the established deadline is cause for disenrollment due to incomplete payment of registration fees. Disenrollment means the permanent loss of credit for classes taken for the quarter involved. There is no refund of any fees already paid for the quarter involved.

State University Installment Plan

The CSU is now authorized to collect State University Fee and Nonresident Tuition in installment payments. The administrative fee for the State University Installment Plan is $22 per academic quarter. The administrative fee for nonresident tuition is fifteen percent (15%) of each installment payment. For additional information regarding this plan, please refer to the Schedule of Classes.

Debts Owed to the Institution

If a student or former student fails to pay a debt owed to the institution, Cal State L.A. may "withhold permission to register, to use facilities for which a fee is authorized to be charged, or to receive services, or any combination of the above from any person owing a debt" until the debt is paid (see Title 5, California Code of Regulations, Sections 42380 and 42381). For example, the institution may withhold permission to receive official transcripts of grades from any person owing a debt. Students who believe they do not owe all or part of an unpaid obligation should contact the Cashiers’ office. The Cashiers’ Office, or another office on campus to which students may be referred, will review the pertinent information, including information students may wish to present, and will advise students of its conclusions with respect to the debt.

Categories of Enrollment

Credit By Examination

Undergraduate students in good standing and officially enrolled in one or more residence courses may challenge courses by taking examinations developed at the campus. Examinations are interpreted broadly to include whatever activity, test, or demonstration an instructor deems appropriate to evaluate comprehension, skills, or knowledge required by the course objectives. Credit shall be granted to those students who pass examinations that have been approved for credit systemwide. These include the Advanced Placement Examinations, CSU English Equivalency Examination and some CLEP examinations.

Approval of the chair of the department or division offering the course and an instructor for the course is required. Forms for approval are available in the Records Office (Administration 409) and must be filed with the Records Office by the fifth week of the quarter in which the examination is taken. Additional fees must be paid if the added units alter the total fees due for the quarter.

Credit by examination is restricted to undergraduate and graduate courses listed in this catalog. It is without unit limit, but does not count as residence credit. Such credit is not treated as part of the students work load during a regular quarter and therefore does not require approval for excess study load. Total units earned for courses and examinations taken in summer session, however, cannot exceed the limit established for summer session study. Grades received by examination are recorded as final grades on the permanent academic record and are designated as earned through credit by examination.

Credit earned by examination at another accredited institution is accepted upon transfer, provided the units have been accepted by the previous institution as equivalent to specific courses and are not in violation of any other regulations.

Visitors Within California State University (CSU)

Students enrolled at any CSU campus may transfer temporarily to another CSU campus in visitor status if they have completed 12 units with a minimum C (2.0) grade point average at the home campus, are in good standing, and are eligible to register in continuing status. Visitors are approved for one term only, subject to space availability and registration priority policies at the host campus. Enrollment as a visitor may be repeated after re-enrollment at the home campus. This opportunity may be particularly valuable to students whose educational progress can be enhanced or expedited by attending a summer quarter at Cal State L.A. Concurrent enrollment (see below) is not permitted during visitor status. Visitor applications may be obtained at Student Affairs 101.

Concurrent Enrollment Within California State University

Students enrolled at any CSU campus may enroll concurrently at another CSU campus if they have completed 12 units at the home campus with a C (2.0) grade point average and are in good standing. Concurrent enrollment is approved for a specific term, subject to space availability and registration priority policies at the host campus. Because of overlap in academic terms of campuses on semester and quarter calendars, concurrent enrollment is subject to combinations and conditions described in the concurrent enrollment application forms available at Student Affairs 101.

Open University

Enrollment through the Open University program, administered by Continuing Education, permits nonmatriculated students to enroll in certain regular classes on a space available basis; however, matriculated students in the University in continuing status (i.e., student has registered for at least two of the previous four quarters) may not enroll in degree credit-granting classes offered under state support and made available to students by Continuing Education through Open University.

Audit Registration

Regularly enrolled students may register for classes in audit status through add/drop (program change) procedures only as indicated in the Schedule of Classes for audit registration. Such registrations are subject to the same fee regulations as registration for credit and fees must be paid at the time of registration. Registration for a course in audit status is subject to approval of the instructor and is permitted only after students who desire to enroll on a credit basis have had an opportunity to do so.

Regular class attendance is expected but audit registrants are not required to complete assignments or take examinations. An audit registration may not be changed to a credit registration after the last day to add classes. No entry concerning audit registration is made on student grade reports or transcripts.

Dual Registration

Undergraduate students who wish to take classes at another accredited college or university, not within The California State University, while enrolled at Cal State L.A. must file a Notification of Dual Registration at Student Affairs 101 by the end of the third week of the quarter involved. This notification must be endorsed by the student’s Cal State L.A. major department or division academic adviser and the department/division chair for the course(s) involved. Students are advised, also, to consult official evaluators and advisers at the non-CSU campuses where the work is taken to ensure the transferability of course work. Courses so taken are subject to all regulations and limitations governing transfer credit. To receive bachelor’s degree credit for such course work, students...
must have official transcripts forwarded to the Admissions office upon completion of the course work.

Change of Program
Students are strongly advised to select classes carefully and to avoid the undesirable necessity of changing their program of study. Adding and dropping classes, including changing sections in the same course, may be done only in accordance with policies, procedures, and time limits stated in the Schedule of Classes. Students who fail to follow these procedures incur the risk of a grade of F or U.

Withdrawal from Courses
Students withdraw from courses by filing a completed program change form at Administration 146. Early in the quarter, students may withdraw from any course with no record of the individual course withdrawal on their permanent academic record. After the "no-record drop" deadline, students may withdraw with a W grade from any course but only for serious and compelling reasons. These requests are granted only with the approval of the instructor and the department or division chair on program change forms available at Administration 146. Complete information about withdrawals, as well as a sample program change form and withdrawal deadlines for each academic quarter, appears in the Schedule of Classes.

Withdrawals during the final three weeks of instruction are permitted only when the cause of withdrawal (such as accident or serious illness) is clearly beyond the student's control and assignment of an IN (Incomplete) is not practicable. Ordinarily, such withdrawals also involve total withdrawal from the University, except that CR (credit) or IN (incomplete) may be assigned for courses in which the student has completed sufficient work to permit an evaluation. Requests to withdraw under these circumstances are handled as described above, except that such requests must also be endorsed by the dean of the school.

Withdrawal From the University
To withdraw completely from Cal State L.A., students must follow withdrawal procedures outlined in the Schedule of Classes. Complete official withdrawal may be accomplished by using the withdrawal form available at Administration 146 or by writing a personal request to the Registration Office. After the "no-record drop" deadline, students may submit a complete withdrawal by certified mail only for a valid reason (i.e., doctor-certified health problem, death in the family, or emergency military service). All requests should be submitted with appropriate documentation.

Leaves of Absence
Students may petition for a leave of absence for such reasons as professional or academic opportunities, like travel or study abroad; employment related to educational goals and major fields of study or participation in field study or research projects; medical reasons, including pregnancy, major surgery, or other health-related circumstances; and financial reasons, such as the necessity to work for a specified period in order to resume study with adequate resources. Petition forms are available at Administration 146.

Evaluation of petitions for leaves of absence takes into account the student's stated plans and the extent to which a leave would contribute to educational objectives. Students are expected to plan their time of return and their activities during the leave. They must also state why it is critical to remain in continuous residence. In the case of medical or financial leaves, they must state how they plan to remain current with or advance in their academic field.

Undergraduate students may request a leave for no fewer than 3 and no more than 8 quarters. Graduate students are granted a maximum of 4 quarters, subject to renewal. Continuing students' allowed absence of 2 quarters is included in these maximums.

Petitions must be filed at Administration 146 after action by the department or division chair (also the school graduate dean in the case of graduate students) no later than 3 weeks before the end of the quarter preceding the proposed leave. Approval entitles students to continuing status for registration purposes provided they return no later than the quarter specified in their petitions. Continuing students returning from leaves are entitled to priority registration privileges and are not required to file an application for readmission.

Undergraduate students retain current catalog requirements for graduation; classified postbaccalaureate and graduate students retain classified standing. Unclassified postbaccalaureate and conditionally classified graduate students who have approved programs on file in their school graduate studies office are subject to the conditions of those programs. All others are subject to the requirements in effect when they return.

Transcript of Academic Record
A transcript of Cal State L.A. course work is issued upon written request by the student. Transcript request forms are available at Administration 146 and 128. The cost of a single transcript is $4. When more than one transcript is ordered at the same time, the first copy costs $4, the second through tenth copies cost $2 each, and any copies in excess of ten cost $1 each. The form requires the name used by the student while in attendance, the birth date, and the Social Security account number which is referred to on campus as the Student Identification (SID) number.

Copies normally are mailed one week after receipt of request. However, requests that specify inclusion of grades just earned or verification of a degree just awarded cannot be filled until two to three weeks after the end of the quarter.

Course Numbering System
Subcollegiate, undergraduate, graduate, and noncredit courses are numbered as shown below.

| 000-099 | Subcollegiate level (no credit allowed toward requirements for academic degrees). |
| 100-299 | Lower division courses (freshman and sophomore level). |
| 300-399 | Upper division courses (junior and senior level) that do not earn graduate credit. |
| 400-499 | Upper division courses (junior and senior level) that may earn graduate credit for graduate students. |
| 500-599 | Graduate courses for graduate students only. |
| 600-699 | Specialized graduate courses for postgraduate students matriculated in the joint Ph.D. program in Special Education. |
| 700-749 | Courses intended primarily for lower division students. Not acceptable toward degree or credential programs at Cal State L.A., but acceptable for professional advancement credit. Unit value credit listed directly following course title on academic record is acceptable for professional advancement credit only when accompanied by CR (Credit) grade. |
| 750-799 | Courses intended primarily for upper division students. Not acceptable toward degree or credential programs at Cal State L.A., but acceptable for professional advancement credit. Unit value credit listed directly following course title on academic record is acceptable for professional advancement credit only when accompanied by CR (Credit) grade. |
800-899 Highly specialized courses intended primarily for graduate students. Not acceptable toward degree or credential programs at Cal State L.A., but acceptable for professional advancement credit. Unit value credit listed directly following course title on academic record is acceptable for professional advancement credit only when accompanied by CR (Credit) grade.

900 Noncredit courses open to graduate students only.

Courses in the 700 and 800 series are not listed in this catalog; their descriptions are carried in extension service announcements when they are offered.

Course Suffixes

Many course numbers have letter suffixes. Although many indicate special uses of the course within a particular department, some suffixes are standard throughout the University.

A, B, C, D, E A sequence of courses in which A must be taken before B, B before C, etc., unless description indicates otherwise.

C, K, S Sections of regular courses taught primarily in Cantonese (Chinese), Korean, or Spanish, usually as part of bilingual/crosscultural teacher training program. These suffixes appear in course listings in the Schedule of Classes and on transcripts, but not generally in the catalog.

H Open to students enrolled in the General Education Honors Program only.

IP Class taught in independently self-paced mode; hours arranged between student and instructor.

L Lecture.

M Open to students in Master of Fine Arts degree program in Art only.

N Upper division course intended for students not majoring in the department offering it; usually has different kinds of prerequisites; student in major may not count course in major program, but may include it as an elective outside the major.

P Practicum, laboratory, or activity.

R Open to conditionally classified graduate students only.

Course Prerequisites and Corequisites

Students are responsible for fulfilling prerequisites and corequisites. The instructor and department or division have the authority to waive specific prerequisites and/or corequisites for students who have completed equivalent courses at another institution, who have had equivalent experience (such as work experience), or who possess the needed skills to proceed with the work of the course. Students should consult the instructor before registering to determine whether the course(s) or experience they present will justify waiver of the stated prerequisite(s) and/or corequisite(s).
# Course Abbreviations

Each academic discipline has an official course abbreviation that is used to identify the discipline in this catalog; on grade reports, transcripts, major program sheets, and many other documents; and in the Schedule of Classes. These course abbreviations, which are listed below, must be used on all program change forms.

Note: A grade of C- is a failing grading in all General Education Basic Subject courses, since a minimum C grade is required. A C- is also a failing grade if a student takes a course CR/NC or A,B,C,NC. Additionally, a grade of C- is a failing grade in all courses in majors that require minimum

Grades from both the original course and the repeated course are used in computing the grade point average.

**Grading System**

Effective Fall Quarter 1996, the campus implemented a plus/minus grading policy. Thus, for all continuing students and all students admitted or readmitted to the University, Fall Quarter 1996 or later, plus/minus grades are calculated in both undergraduate and graduate grade point calculations.
dissertation (courses numbered 698 and 699) in which case the
time limit shall be five years. An SP does not add earned units
and does not affect grade point average calculations.

An SP that has not been replaced by a final grade within the
prescribed time limit for the course shall be changed to NC.
Extensions of time to remove SP grades may be granted by the
undergraduate studies subcommittee (for undergraduate courses)
or the appropriate school graduate dean (for graduate courses) for
contingencies such as—but not limited to—military service and
health problems of an incapacitating nature verified by a physi-
cian’s statement.

W (Withdrawal) indicates that a student was permitted to drop
a course after the “no-record drop” deadline with the approval of
the instructor and the department or division chair. The W carries
no connotation of quality of student performance and is not used
in calculating grade point averages.

RD (Report Delayed) may be used when a delay in the reporting
of a grade is caused by circumstances that are beyond the stu-
dents control. The symbol will be replaced by a more appropriate
grading symbol as soon as possible. An RD is not included in
calculations of grade point average.

IN, I (Incomplete) an Incomplete (IN) grade is inappropriate for
failing students. It is an interim grade designed for students who
are passing but who through extenuating circumstances have not
been able to complete all or part of the work of the last four weeks
of the course. An Incomplete (IN) grade may be removed by
completing the outstanding work within one calendar year follow-
ing the end of the quarter in which it was assigned unless the time has
been extended by the Undergraduate Studies Subcommittee or the
Graduate Studies Subcommittee, as appropriate, for contingencies
such as military service or health problems of an incapacitating
nature verified by a physician’s statement. Any petition for exten-
sion of time to remove an incomplete must be filed within one
calendar year immediately following the end of the quarter in which
it was assigned. When the outstanding work has been completed
during the time period allowed, the final grade will be reported to
the Records Office. The time limitation prevails whether or not the
student maintains continuous attendance.

An incomplete that is made up within the time period allowed will
be replaced on the permanent academic record by the letter grade
earned followed by an explanation that the original grade was an
Incomplete and the date that the Incomplete was removed.

An Incomplete that is not removed during the time period allowed
will remain on the students permanent academic record as an I
and will be charged as an F in grade point average computations.

An Incomplete that is not removed prior to the degree being
awarded will not be changed nor will it be charged as an “F” in the
grade point average computations.

U (Unauthorized incomplete) indicates that an enrolled student
did not withdraw from the course but failed to complete course
requirements. It is used when, in the opinion of the instructor,
completed assignments or course activities or both were insuffi-
cient to make normal evaluation of academic performance possi-
ble. For purposes of grade point average this symbol is equivalent
to an F.

Nontraditional Grading Options
Undergraduates may choose to receive grades on a nontraditional
basis, either A, B, C, NC, or CR/NC, under specified conditions.
Some courses are graded only nontraditionally, as shown in course
descriptions. In addition, students in good standing who have
completed at least 12 units at Cal State L.A. and students admitted
with upper division standing may elect to have some courses
graded on either the traditional or the nontraditional basis. CR and
NC grades are not included in grade point average computations.

CR/NC Option. Courses for which a student may not elect to be
graded on a CR/NC basis are those courses required in the student’s major, minor, or credential program and other courses
selected to meet general education requirements. A maximum of
45 quarter units may be graded CR/NC, whether elected or des-
ignated. A maximum of 8 quarter units elected CR/NC may be
taken in any single quarter.

A, B, C/NC Option. Courses for which a student may not elect
to be graded A, B, C/NC are those required in the student’s major,
minor, or credential program; however, any general education or
elective course may be taken with A, B, C/NC grading. Use of
this grading may not exceed a total of 45 quarter units within the
total degree program, whether elected or designated.

Students may elect to register for a course with a nontraditional
grading option up to the last date in the quarter to add classes. The
decision to elect an option is irrevocable. Academic standards
are identical for all students enrolled in a course, irrespective of the
grading option. Instructors are not notified that students have
elected nontraditional grading options in their courses; traditional
grades are reported and are converted as needed to CR or NC by
the registrar.

Final Examinations
Final examinations or final class meetings are required in all
courses at the time and place shown in the final examination
schedule in the Schedule of Classes. Any exception in time or
place must have written approval of the instructor, department or
division chair, and school dean. Students who find it impossible to
take a final examination at the scheduled time may, with the written
approval of the instructor, department or division chair, and school
dean, have a special final examination administered.

Repeating Courses
Unless otherwise indicated in the description of a particular course
in this catalog, students may not repeat for credit any course they
have already completed with a grade of C (2.0 grade points) or
higher nor may they, in any case, receive units earned more than
once for each passing attempt.

Removal of Work from Degree Consideration
Under certain circumstances, up to two semesters or three quarters
of previous undergraduate course work taken at any college may
be disregarded from all considerations associated with require-
ments for the baccalaureate. Detailed eligibility and procedural
information is provided in the Schedule of Classes. The basic
criteria are listed below:
• Five years must have elapsed since completion of the most re-
cent work to be disregarded;
• Any previous removal of work from degree consideration must
be included in applying the limits on work that may be disre-
garded;
• Since completion of the work to be disregarded, students
must have maintained the following grade point averages at
Cal State L.A. at the time of petition: 3.0 for students with 22-
44 quarter units completed; 2.5 with 45-66 units completed;
and 2.0 with 67 or more units completed; and
• There must be evidence that the student would find it neces-
sary to complete additional units and enroll for one or more ad-
ditional quarters in order to qualify for the baccalaureate if the
request was not approved.
Students are advised that they may file an academic renewal petition if their grade point average is lower than C (2.0) either in general education, the major or overall college units attempted (a condition is preventing them from qualifying for the degree) and meet all above criteria and conditions.

**Repeating Courses for Academic Renewal**

Effective summer 1983, students pursuing a baccalaureate may repeat a course one time for purposes of academic renewal if the grade of record is below a C (2.0 grade points). This procedure is limited to a maximum of 20 quarter units and to courses taken at Cal State L.A. within the previous five years. All repetitions must be done at Cal State L.A.

Students pursuing a second or subsequent bachelor’s degree may repeat only courses leading to the present degree objective (not courses used for prior bachelor's degrees) for purposes of academic renewal. In computing grade point averages for graduation with a baccalaureate from Cal State L.A., units attempted, units earned (if any), and grade points (if any) for previous attempts of the same or equivalent courses shall be excluded when specified conditions are met.

Students are advised that repeating a course under this policy does not result in removal of the original record and grade from the transcript. However, the earlier grade is disregarded in calculating the grade point average. Individual schools, departments, and divisions may have additional restrictions about acceptance of repetitions. Students should therefore consult department/division advisers before attempting repetitions and should consult the **Schedule of Classes** for details about tiling instructions. The repeated course form, available at Administration 146, must be on file when a student enrolls in the course to be repeated and no later than the add deadline.

**Scholastic Status**

**Grades Required for Credit.** Students are advised that they receive no credit for any course in which they do not earn a grade of **D** or higher.

**Grade Point Requirements.** Undergraduate students are expected to maintain a C (2.0) average in all courses attempted at Cal State L.A. and any other college or university attended and to make satisfactory progress toward their academic objectives. Students who receive financial aid should inform themselves of additional criteria defining satisfactory progress by consulting the Center for Student Financial Aid.

**Grade Point Average.** The grade point average (GPA) is computed by dividing the total number of grade points earned by the total number of units attempted. Grade points are assigned for each unit of course work undertaken, as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Symbol</th>
<th>Explanation</th>
<th>Grade Points Earned</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Superior</td>
<td>4.0 per unit value of course</td>
<td>4.0</td>
</tr>
<tr>
<td>A-</td>
<td>Outstanding</td>
<td>3.7 per unit value of course</td>
<td>3.7</td>
</tr>
<tr>
<td>B+</td>
<td>Very good</td>
<td>3.3 per unit value of course</td>
<td>3.3</td>
</tr>
<tr>
<td>B</td>
<td>Good</td>
<td>3.0 per unit value of course</td>
<td>3.0</td>
</tr>
<tr>
<td>B-</td>
<td>Better than average</td>
<td>2.7 per unit value of course</td>
<td>2.7</td>
</tr>
<tr>
<td>C+</td>
<td>Above average</td>
<td>2.3 per unit value of course</td>
<td>2.3</td>
</tr>
<tr>
<td>C</td>
<td>Average</td>
<td>2.0 per unit value of course</td>
<td>2.0</td>
</tr>
<tr>
<td>C-</td>
<td>Below average</td>
<td>1.7 per unit value of course</td>
<td>1.7</td>
</tr>
<tr>
<td>D+</td>
<td>Weak</td>
<td>1.3 per unit value of course</td>
<td>1.3</td>
</tr>
<tr>
<td>D</td>
<td>Poor</td>
<td>1.0 per unit value of course</td>
<td>1.0</td>
</tr>
<tr>
<td>D-</td>
<td>Barely passing</td>
<td>0.7 per unit value of course</td>
<td>0.7</td>
</tr>
<tr>
<td>F</td>
<td>Nonattainment</td>
<td>0.0 per unit value of course</td>
<td>0.0</td>
</tr>
</tbody>
</table>

Thus, students who earn a grade of **D** in a 3-unit course have 3 grade points fewer than the number they would have earned with a grade of C, and are therefore deficient 3 grade points from a C average (-3 grade points). Students who earn a B grade in a 3-unit course have three grade points more than they would have earned with a C grade (+3 grade points); an **A**, +6 grade points; or an F, -6 grade points. The overall grade point deficiency or surplus can be computed by assigning the number of plus or minus grade points for each unit attempted and adding algebraically. **CR** and NC grades are not included in grade point average computations.

**Probation for Undergraduate Students**

Probation is determined separately for grade point deficiency and administrative academic deficiency. Students' probation status is indicated on their grade report.

**Grade Point Deficiency**

Students are placed on academic probation if either their grade point average at Cal State L.A. or their cumulative grade point average in all college work attempted falls below C (2.0). They are continued on probation for grade point deficiency until their entire deficiency is removed or until they are disqualified in accordance with the regulations stated below.

**Administrative-Academic Deficiency**

Provision has been made by the Office of the Chancellor whereby students may be placed on administrative-academic probation for any of the following reasons:

- Withdrawal from all or a substantial portion of courses for which they registered in two successive quarters or in any three quarters.
- Repeated failure to progress toward a stated degree or program objective when such failure is within their control.
- Failure to comply, after due notice, with a routine academic requirement or regulation.

Written notice is given of the conditions required for removal from administrative-academic probation, as well as circumstances that would lead to disqualification if probation is not rectified.

**Disqualification of Undergraduate Students**

Disqualification is determined separately for grade point deficiency and for administrative-academic deficiency.

**Grade Point Deficiency**

Students who accumulate a deficiency of 22 or more grade points at Cal State L.A. or in all college work attempted are disqualified, regardless of whether they were on probation during the prior quarters. Students on probation whose cumulative grade point deficiency reaches the following levels are disqualified:

<table>
<thead>
<tr>
<th>Class Level</th>
<th>Deficiency</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lower Division (0-89 units completed)</td>
<td>22 grade points</td>
</tr>
<tr>
<td>Juniors (90-134 units completed)</td>
<td>13 grade points</td>
</tr>
<tr>
<td>Seniors (135+ units completed)</td>
<td>9 grade points</td>
</tr>
</tbody>
</table>

**Administrative-Academic Deficiency**

Provision has been made by the Office of the Chancellor whereby students placed on administrative-academic probation may be disqualified for any of the following reasons:

- The conditions for removal of administrative-academic probation are not met within the period specified.
- Students become subject to academic probation while on administrative-academic probation.
• Students become subject to a new administrative-academic probation period for the same or similar reasons of a previous probationary period, although not currently in such status.

Notification of Disqualification

Students' notices of disqualification appear on their grade reports. Students who wish to appeal their disqualification should refer to Immediate Reinstatement below. Disqualified students are required to arrange an exit interview with their academic adviser in order to establish readmission requirements. Undeclared majors will hold this exit interview with their assigned adviser in the University Academic Advisement Center.

Immediate Reinstatement

Disqualified students may submit a petition for immediate reinstatement to their school dean or designee (department chair in the schools of Engineering and Technology and Natural and Social Sciences) after the exit interview has taken place. The University Academic Advisement Center will rule on petitions for immediate reinstatement for undeclared majors after their exit interview has taken place. Students' approved petitions must be received in the Records Office, Administration 409, by the end of the fifth week of the quarter following disqualification.

Immediate reinstatement may be granted for not more than two successive quarters to students pursuing the program in which disqualification was incurred, including an undeclared major. Students who are admitted with a grade point deficiency on transfer work and whose grades at Cal State L.A. alone are not the basis for disqualification may qualify for immediate reinstatement in additional quarters.

Students enrolled but not officially reinstated for the quarter after disqualification should file a request for complete withdrawal and full refund of fees by the end of the fifth week of the quarter. Official withdrawal and refund application forms are available at Administration 146. Complete withdrawal also may be accomplished by writing to the Registrar's Office. Registration will be cancelled for disqualified students who are enrolled and do not file a withdrawal request; fees are not returned in these cases.

Special Probation

All disqualified students who are reinstated or readmitted are placed on special probation because their grade point deficiency is greater than the maximum allowed for their class level as outlined above. These students are required to earn better than a C (2.0) grade point average each quarter until their deficiency is removed or is reduced to the maximum allowed for their class level. Students who withdraw completely from any quarter while on special probation will again be disqualified.

Readmission of Disqualified Students

Readmission after disqualification is not automatic. Disqualified students will not be considered for readmission until at least two quarters have elapsed. Procedures and regulations governing readmission of disqualified students are found in the Admission chapter of this catalog.

Student Conduct: Rights and Responsibilities

Cal State L.A. assumes that all students will conduct themselves as mature citizens of the campus community and that they will comply with University policies and regulations. Inappropriate conduct by students or applicants for admission is subject to discipline as provided in Sections 41301-41304 of Title 5, California Code of Regulations. (See Appendix D in this catalog.) Copies of the CSU Student Disciplinary Procedures, which govern enforcement of these regulations, are available from the Office of the Vice President for Student Affairs, Student Affairs 108.

Student Grievances

An official Statement of Student Rights and Responsibilities enumerates the rights guaranteed to, and the responsibilities of, all Cal State L.A. students and contains the procedures to be followed for the redress of grievances. Copies of this document are available at the Office of the Vice President for Student Affairs (SA 108) and the office of each school dean and each department or division chair.

Adequate safeguards have been instituted to protect the rights of students and the University and to ensure that grievances are handled fairly. The grievance procedure is but one channel for solving problems and should not take the place of negotiating in good faith or open, honest communication.

Grievances are formal complaints by students arising out of alleged actions of the University or its faculty, administrators, or officers, such actions being alleged by students to be unauthorized or unjustified and adversely to affect students' status, rights, or privileges, including actions based on race, color, religion, sex, sexual orientation, national origin, age, handicap, or veteran status.

Student Discipline

Incidents of violation of Section 41301A-M, Title 5, California Code of Regulations, detailed in Appendix D, may be reported to the Vice President for Student Affairs, Student Affairs 108.

Cheating

Instructors have the responsibility of planning and supervising all academic work, in order to encourage honest individual effort, and taking appropriate action if instances of academic dishonesty are discovered. However, honesty is primarily the responsibility of each student. The University considers cheating to be a voluntary act for which there may be reasons, but no acceptable excuse. The term "cheating" includes, but is not limited to:

• Plagiarism;
• Receiving or knowingly supplying unauthorized information during an examination;
• Using unauthorized material/sources during an examination;
• Changing an answer after work has been graded, and presenting it as improperly graded;
• Taking an examination for another student or having another student take an examination for you; and
• Forging or altering registration or grade documents.

Students who are caught cheating may be subject to a punitive grade for the assignment or for the course. If issuing a punitive grade, the instructor shall report it to the Vice President for Student Affairs and may recommend that appropriate action be taken through the Student Discipline Procedures of The California State University.
Sexual Harassment Policy

California State University, Los Angeles will take action to prevent and eliminate sexual harassment, as mandated by Chancellors Executive Order No. 345.

Sexual harassment is conduct subject to disciplinary action, including termination. Sexual harassment includes but is not limited to:

- Unwanted sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature.
- Any act which contributes to a workplace or learning environment that is hostile, intimidating, offensive, or adverse to persons because of the sexual nature of the conduct.
- Conditioning an act, decision, evaluation, or recommendation on the submission to or tolerance of any act of a sexual nature.

Although this policy focuses on the treatment of persons lacking or holding lesser authority by persons possessing greater authority, it does not preclude the possibility that sexual harassment may also be perpetrated by persons lacking or holding lesser authority e.g., employee, students, or applicant. In determining whether conduct constitutes sexual harassment, the circumstances surrounding the conduct are considered.

The prohibition against sexual harassment applies to all transactions of University business, whether on or off campus.

Individuals with supervisory authority are responsible for reporting a formal complaint about sexual harassment to a designated complaint investigator. Failure to do so may lead to appropriate administrative action.

Specific rules and procedures for reporting charges of sexual harassment and for pursuing available remedies are available in the following locations: Division of Human Resource Management, Office for Affirmative Action; Office of the Vice President for Student Affairs; University Counseling Center; and Women’s Resource Center.

Thank you for your cooperation and assistance in this matter. If you have any questions, please contact the Office for Affirmative Action, Administration 604C, extension 3-3040.

Procedures for Reporting Sexual Harassment

Specific rules and procedures for reporting charges of sexual harassment and for pursuing available remedies are available in the following locations: Division of Human Resource Management, Administration 605; Office for Affirmative Action, Administration 702; Office of the Vice President for Student Affairs, Student Affairs 108.

Writing and Plagiarism

Plagiarism is a direct violation of intellectual and academic honesty. Although it exists in many forms, all plagiarisms refer to the same act: representing somebody else’s words or ideas as one’s own. The most extreme forms of plagiarism are the use of a paper written by another person or obtained from a commercial source, or the use of a paper made up of passages copied word for word without acknowledgment. Paraphrasing an author’s idea or quoting even limited portions of his or her text without proper citation is also an act of plagiarism. Even putting someone else’s ideas into one’s own words without acknowledgment may be plagiarism.

In none of its forms can plagiarism be tolerated in an academic community. It may constitute grounds for a failing grade, probation, suspension, or expulsion.

One distinctive mark of an educated person is the ability to use language correctly and effectively to express ideas. Faculty assign written work for the purpose of helping students achieve that mark.

Each professor will outline specific desiderata, but all expect students to present work that represents the student’s understanding of the subject in the student’s own words.

It is seldom expected that student papers will be based entirely or even primarily on original ideas or original research. Therefore, incorporating the concepts of others may be appropriate with proper acknowledgment of sources, and quoting others directly by using quotation marks and acknowledgments is proper. However, papers that consist entirely of quotations and citations should be rewritten to show the students own understanding and expressive ability. The purpose of a written assignment (i.e., development of communication and analytic skills) should be kept in mind as each paper is prepared and should not be evaded through plagiarism.

Student Use of Human Subjects or Animals

Students, like all others in the University community, must follow established University and federal guidelines when using human subjects or animals either in research or as part of a course activity. Prior approval by the relevant campus committee must be obtained when necessary. For further information, please contact the Office of Research and Sponsored Programs (213-343-5366) or visit its World Wide Web site at http://web.calstatela.edu/academic/orsp.

Honorable Dismissal

Honorable dismissal is granted to all students who are not under financial obligation to the University and who are not under disciplinary probation, suspension, or expulsion. Academic disqualification does not constitute dishonorable dismissal.

Petitions for Waiver of Regulations

Rules and regulations in this catalog have been adopted by the faculty and administration to maintain appropriate academic standards and facilitate the administration of the university’s programs. Students who believe that extenuating circumstances might justify the waiver of a particular regulation or requirement may file a petition at their major department/division office, according to established procedures, for consideration by a faculty committee. However, provisions of Title 5, California Code of Regulations, or other state or federal laws and regulations, are not subject to waiver by petition. Detailed information about procedures and regulations governing petitions are found in the Schedule of Classes.

**Credentials**

**Basic Teaching Credentials**

For students interested in obtaining either the Single Subject or the CLAD/BCLAD Multiple Subject credential, appropriate degree programs are listed below. Each program (or a specific option within it) has been approved by the Commission on Teacher Credentialing for waiver of the subject area examination for the credential indicated. Interested students should consult advisers in both the appropriate academic department and the Charter School of Education.

**MULTIPLE SUBJECT CLAD/BCLAD CREDENTIAL**

All Cal State L.A. students who enter a Multiple Subject CLAD/BCLAD teaching credential program must complete a 106-111 unit common core as well as general education, major, and other graduation and credential requirements. A grid that contains the common core appears later in this chapter. Some core courses also meet lower division general education requirements. (Refer to Lower Division General Education grid elsewhere in this chapter.) Consult a faculty adviser in your major department for further information. The Multiple Subject CLAD/BCLAD teaching credential is offered with the following undergraduate degrees:

- Afro-American Studies, B.A.
- Child Development, B.A., Option II
- Earth Sciences, B.A.
- Geography, B.A.
- History, B.A.
- Latin-American Studies, B.A.
- Liberal Studies, B.A.
- Mexican-American Studies, B.A.
- Philosophy, B.A.
- Physical Education, B.S.

The Multiple Subject credential is available with a bilingual emphasis in Spanish through the BCLAD track. Internship credential options are also available for the Multiple Subject CLAD/BCLAD credentials.

An internship credential option is available for the Single Subject credential.

Candidates for the California Single Subject teaching credential must verify competence in their teaching field by one of the following methods:

1. completing an approved academic program of course work (or its equivalent) in the selected subject-matter area, or

2. passing the required examination(s) for the subject matter area in which the credential is sought.

Candidates applying for the Single Subject teaching credential after August 31, 1995, who have not completed an approved academic program of course work or its equivalent, and have not met the previous examination requirement, must take and pass a new set of examinations for the Single Subject credential in seven subject matter areas. New examination requirements will become effective in other subject matter areas as these are made available. Candidates need to seek information about current requirements in the Office of Student Services, Charter School of Education, KH D2078.

**SUPPLEMENTARY AUTHORIZATIONS**

The holder of a multiple subject or a single subject teaching credential issued by the California Commission on Teacher Credentialing may have one or more of the subjects commonly taught in departmentalized classes added to the credential as a supplementary authorization by verifying completion of the requirements specified in Title 5, California Code of Regulations, 80057.5, or 80089, 80089.1, and 80089.2. Supplementary authorizations cannot be issued in any subject that falls within the statutory single subject category of an applicants single subject teaching credential.

A partial listing of supplementary authorizations and the credentials to which they apply are listed below. Recommended courses for these are included in department listings later in the catalog. Interested students should consult an adviser in the specific department about other appropriate course work. Contact the Office of Student Services in the Charter School of Education (KH D2078) for information concerning the specific requirements for subjects approved for supplementary authorization and the procedure to apply to the Commission.

Information about other supplementary authorizations is available in the Charter School of Education. Information about additional credential programs appears in the Graduate and Postbaccalaureate Study chapter.

**Credit Certificate Programs**

Accounting  
Advanced Information Systems  
Alcohol and Drug Problems Specialist
Applied Gerontology
Cartography, Geographic Information Systems and Remote Sensing
Child Maltreatment and Family Violence
Computer Programming
Electronics Technology
Entrepreneurship
Fashion Design
Fashion Merchandising
Fire Protection Risk Analysis and Reduction
Fire Service Administration
Graphic Design
Interior Design
International Business
International Criminal Justice Administration
International Economic Relations
Marketing
Obstetrics-Gynecology Nurse Practitioner
Occupational Safety and Health
Office Systems
Retail Professional Development
Transportation (Commercial)
Urban Land Use and Property Analysis
Voluntary Youth Agency Administration

Rules and regulations governing certificate programs and brief descriptions of these programs appear at the end of this chapter. Specific requirements and course listings appear in the individual academic department and division listings following this chapter.
Multiple Subject Matter Program Requirements

Effective: Fall Quarter 1991

Block 1 Life Sciences (with lab)
- *Biol 155

Block 2 Physical Sciences (with lab)
- *ASTR 151 with 152 or
- *CHEM 150 with 159 or
- *GEOL 150 with 151 or 152 or
- *PHYS 150

Block 3 Interactions (no lab)
- *PSY 150

- One or two of following:
  - CHDV 420
  - PSY 412 AB
  - SOC 322A

- Must include both child and adolescent psychology
- Students who take PSY 412AB may reduce the electives requirement from 28 to 24 units.

- *this course also fulfills a lower division GE requirement
- †CLAD credential requires 9 units or equivalent of one foreign language
- @replaces ENGL 308 or 410 (Effective Summer Quarter 1994)

Other Program Requirements (80 units)

- Major (20 units)
  - Approved Multiple Subject Credential majors are listed below.
    - Afro-American Studies
    - Child Development
    - Earth Sciences
    - Geography
    - History
    - Latin American Studies
    - Liberal Studies
    - Mexican-American Studies
    - Philosophy
    - Physical Education

- Depth (20 units)
  - All students must consult a major adviser to select an appropriate depth area of study.

- Electives (28 units)
  - Professional education courses recommended.
  - See a credential adviser in the Charter School of Education.

- Upper Division GE Theme (22 units)
  - Select one upper division theme and complete a course in each of the three required areas.

NOTE: All students who enter a major approved for the Multiple Subject teaching credential beginning Fall Quarter 1991 must complete the core courses listed above, in addition to other requirements in their major.
UNDERGRADUATE STUDY

California State University, Los Angeles offers the Bachelor of Arts, Bachelor of Music, Bachelor of Science, and Bachelor of Vocational Education degrees. The specific bachelor's degrees and academic majors are listed on the preceding pages. Minors and certificate programs are also available in many fields. These are described in the appropriate academic departments.

Specific information about admission requirements, curriculum, and graduation requirements for these programs is listed alphabetically by school and department in the academic department and division descriptions that follow this chapter. Characteristics of the individual degrees are described below.

Characteristics of Bachelor’s Degrees

The Bachelor of Arts (B.A.) degree is designed to provide a balanced liberal arts education and general knowledge in a recognized discipline, interdisciplinary field, or areas of professional study.

The Bachelor of Science (B.S.) degree is designed to provide a balanced liberal arts education and a scientific, technical, or professional entry level of competence.

The Bachelor of Music (B.M.) degree provides a balanced liberal arts education with additional preparation in musical performance with emphasis on high performance standards.

The Bachelor of Vocational Education (B.V.E.) degree, created through state legislation, is designed specifically for vocational/occupational teachers who are required to have both work and teaching experience.

Degree Requirements

†Total units required for degrees:
- Bachelor of Arts (B.A.) 186 units
- Bachelor of Music (B.M.) 198 units
- Bachelor of Science (B.S.) 186-204 units depending on major
- Bachelor of Vocational Education (B.V.E.) 186 units

General education: 72 units, including:
- 12 in residence
- 12 in an upper division theme

Grade point average: Minimum C (2.0) average in:
- all college work attempted
- all courses attempted at Cal State L.A.
- all general education courses
- all courses required for major**

Major units required: Varies depending on major

Residence: 45 units at Cal State L.A. including:
- 36 upper division units
- 18 units in a major
- 12 units in general education

Introduction to Higher Education course

Upper division units: 60 units minimum

Writing skills requirement:
- minimum C grade in ENGL 101 and 102

† Students receive no credit for any course in which they do not earn a passing (i.e., D- or higher) grade.

** Some majors require a minimum C grade in each course that is used to fulfill major requirements.

- passing score on Writing Proficiency Examination (WPE) or
- minimum C grade in UNIV 401
- minimum C grade in upper division writing course designated by the major

General Requirements for the Bachelor’s Degree

The Bachelor of Arts and Bachelor of Vocational Education degrees each require the satisfactory completion of 186 quarter units. The Bachelor of Music degree requires 189 quarter units and the Bachelor of Science degree unit requirement varies from 186 to 205 units, as specified individually for each degree program. Included in the total unit requirement for each of these degrees is a minimum of 72 units of general education courses, including the units necessary to complete mandatory requirements for the U.S. Constitution and American History and Ideals, 12 units in an upper division theme, and 12 units in residence at Cal State L.A. For each degree a minimum of 60 quarter units must carry upper division credit (courses numbered 300-499). Courses numbered above 499 are intended for graduate students only and are not applicable toward bachelor’s degrees.

Preliminary Evaluation

College work completed elsewhere is evaluated in terms of its relevance to Cal State L.A. course offerings and degree requirements. Preliminary evaluation information is sent to all new transfer and readmitted students at the time of notification of eligibility for admission to the University. A complete evaluation of transfer work is mailed to all new transfer and readmitted students during their first quarter of attendance. The evaluation identifies general education and graduation requirements met by transfer courses and transfer unit credit accepted. For readmitted students, it also identifies general education and graduation requirements met by Cal State L.A. courses. Students should review their evaluation carefully, consult their academic department promptly if they do not agree with or fully understand all information on the evaluation, and keep it in a safe place for easy reference. Determination of the catalog governing graduation requirements is explained below.

Degree programs, courses of instruction, and specific regulations and requirements appropriate to individual areas of study are fully described in this catalog. The baccalaureate programs and the subject matter portions of the teaching credential programs in the academic departments and divisions and interdisciplinary programs are arranged in alphabetical order within each school. Professional education requirements for the basic credential programs are listed in the Charter School of Education chapter in the Undergraduate Programs section; specialist and administrative credential requirements are included in the graduate Charter School of Education section. Students are expected to familiarize themselves with all degree requirements and to consult an academic adviser on a regular basis.

Special Major for the Bachelor’s Degree

The Bachelor of Arts or Bachelor of Science degree with a Special Major allows selected students an opportunity to pursue individualized programs of study if their academic and professional goals cannot be met through existing degree programs or combinations of programs (i.e., majors, minors, etc.) at CSLA or other CSU campuses. The Special Major consists of a program of study in two or more disciplines developed in consultation with faculty members from the respective departments.

The Special Major is not a means of bypassing normal graduation requirements nor does it provide an alternative means of graduating for students who have failed to complete requirements in a previously designated major. Students must apply for the Special Major when they have at least one full year (45) units of academic
work remaining to complete minimum requirements for a bachelor’s degree. Special Major programs are considered on a case-by-case basis and approval is determined on the basis of academic merit of the proposed program, rationale, and the students potential for successful completion of the proposed program.

Requirements

- A minimum 2.50 grade point average is required.
- Applicants must have no more than 140 units earned that are applicable toward another degree program by the end of the quarter in which the application for the Special Major is submitted.
- A minimum of 70 quarter units, of which at least 60 must be upper division, must be included in the program.
- Neither lower nor upper division courses taken to satisfy general education requirements may be counted toward fulfillment of minimum requirements for the Special Major.
- All programs must include an upper division writing requirement, selected with adviser’s approval, from one of the approved upper division writing courses from one of the disciplines in the Special Major program.

Procedures

- Prepare a SPECIAL MAJOR PRELIMINARY APPLICATION from the Office of Undergraduate Studies.
- Prepare a concise statement of the academic and professional goals you seek through a Special Major, indicating why these goals cannot be met through related existing degree programs and prepare a preliminary list of courses in the two or three departments that represent the kind of program appropriate to your goals.
- Submit the Preliminary Application to the Office of Undergraduate Studies for review and approval for development of the Special Major. Upon approval, an APPLICATION FOR SPECIAL MAJOR FOR BACHELOR’S DEGREE will be provided to you.
- Discuss your statement and proposed list of courses with advisers in each of the specific departments that comprise your Special Major. With the assistance of your departmental advisers, determine the courses that will become part of your final program. Obtain the signatures of departmental advisers and department chair for each area of study. Their signatures indicate that they have reviewed and approved the proposed course of study.
- Obtain the signature of the school associate dean for each of the departmental course areas listed on your program and submit the completed application to the Office of Undergraduate Studies for University approval.
- Upon University approval, the application will be sent to you and to each department listed on your program. A Change of Major Form will also be sent to you with instructions to change your major to the official title listed on your approved program. Be advised that pending final approval of your Special Major program, you proceed with projected course work at your risk.

Further information is available from the Office of Undergraduate Studies, Administration 715.

Multiple Majors

Students who wish to have multiple majors for one baccalaureate listed on their diploma and transcript must:

- Fulfill department/division requirements in the several majors;
- File a request endorsed by the several departments and divisions to the dean(s) of the appropriate school(s); and
- Be approved and recommended for graduation by the faculty of each major department or division.

Second Baccalaureate

With faculty recommendation and approval, students may qualify for a second baccalaureate upon completion of the first degree if they fulfill general education requirements in effect at the time of admission for the second degree and meet scholarship requirements for seniors.

Students who earned their first baccalaureate from another institution must complete requirements for general education and a new major as specified by the department or division and must earn a minimum of 45 quarter units in residence at Cal State L.A. following the date of the first degree.

Students who completed their first baccalaureate at Cal State L.A. may qualify for a second bachelor’s degree in a quarter subsequent to the first if they complete requirements for a major in a different academic field as specified by the department or division and earn a minimum of 45 quarter units in residence after the date of the first degree. Students may not have two degrees awarded in the same quarter.

The 45 quarter units in residence must include 36 units in upper division courses, 12 units in general education, and at least 18 units in the second academic major whether the first baccalaureate was earned at Cal State L.A. or elsewhere.

Units included in a second baccalaureate program may not be applied to a graduate degree. Candidates for second baccalaureates are eligible for the Dean’s List and other academic honors based on the same criteria as candidates for first degrees. A second baccalaureate candidate may graduate with honors according to the same criteria as candidates for first degrees, with the grade point average computed on all units attempted in residence at Cal State L.A.

Minors

Although a minor is not required for a baccalaureate, minors are available in many fields for the purpose of strengthening students’ preparation in areas related to the major field or to career choices. A minor may not be taken in the same subject as the major.

A minor consists of a formal aggregate of courses totaling 18 or more quarter units, of which at least 12 units must be upper division and taken in residence at Cal State L.A. A minimum C (2.0) grade point average is required on all course work taken to complete the minor program. The minor will be noted on the student’s transcript if the individual program has been approved by the offering department or division and is completed at the same time as the work for the degree itself. Requirements for the minor must be completed either prior to or simultaneously with requirements for the degree. Minors will not be granted if any requirement of the minor is completed after requirements for the degree. Interested students should consult an adviser in the department or division offering the minor of their choice. A list of the approved minors appears at the beginning of this chapter.

Credit for Prior Experiential Learning (CPEL)

Through the CPEL program, Cal State L.A. grants undergraduate academic credit for prior learning, knowledge, or skills-based experience that has been documented and evaluated according to campus policy. Students should be aware, however, that policies for earning credit for prior learning vary among CSU campuses.

Cal State L.A. grants up to 4 units of resident credit for UNIV 295, a course in which the student enrolls and, in collaboration with a faculty sponsor, prepares a portfolio documenting the prior learn-
ing. In addition, a student may earn up to 8 units of nonresident credit, applicable to a bachelor’s degree, for learning, knowledge, or skills-based experience that has been documented and evaluated according to campus policy. To qualify, students must have completed 45 quarter units in residence at Cal State L.A. and not more than 165 quarter units overall, and must demonstrate how the prior learning articulates with their present educational objectives. Credit is awarded for UNIV 295 and for the prior learning based on faculty evaluation of the learning experience in terms of academic standards both within the discipline and universitywide. Applications for CPEL are available in the office of the Dean of Undergraduate Studies, Administration 715.

**Cooperative Education**

The Cooperative Education program provides educational enhancement by integrating classroom studies with related on-the-job experiences. With department approval, students may earn a maximum of 12 quarter units of elective credit toward an academic major or minor, including a maximum of 9 transferred quarter units. A maximum of 16 quarter units earned in cooperative education may apply toward a baccalaureate. With department approval, from 1 to 4 units of credit can be earned per quarter, based upon a minimum 10 hours per week of approved work experience for each unit of credit. Cooperative education may be offered in any department or division.

**Cooperative Education Courses**

The following courses are offered through the Cooperative Education program.

- 298 Preparation for Cooperative Education (2 units)
- 398 Cooperative Education (1-4 units)
- 399 Cooperative Education Honors (1-4 units)
- 498 Advanced Cooperative Education (1-4 units)

UNIV 298 is open to all students without restriction. Admission to UNIV 398, 399, and 498 is arranged through the coordinator for the students major department or division. Admission to UNIV 399 requires UNIV 298 as prerequisite, as well as eligibility for a University or academic department or division honors program.

A minimum 2.35 overall grade point average is required and students must have completed 45 quarter units of course work before requesting permission of their major department or division to enroll. Approved employment, periodic conferences, and written reports are required.

Full descriptions of cooperative education courses (UNIV 298, 398, 399, and 498) are found later in this catalog in the chapter entitled *University Programs*.

**Internship in Public Service**

The Internship in Public Service program combines individual instruction with practical experience in government agencies and quasi-public enterprises. Although enrollment usually is restricted to Political Science majors, nonmajors with appropriate background and preparation may apply. The program operates similarly to the Cooperative Education program, except that the maximum 6 units earned may apply only to upper division free elective credit rather than toward the major. A qualifying civil service examination is required for admission to some internship programs. Information about opportunities and qualifications may be obtained from the coordinator in the Political Science Department.

**ACADEMICSUPPORTPROGRAMS**

**Health Science Advisement Office (HSAO)**

In general, students planning to enter a school of dentistry, medicine, optometry, pharmacy, podiatry, or veterinary medicine should elect a major related to their own interests and include appropriate science courses as part of their major, general education, or electives. Medical schools expect students to show proficiency in English, mathematical reasoning, and fundamentals of physical and biological sciences. Some medical schools also require work in the social sciences, humanities, and a foreign language. Most expect completion of a baccalaureate program.

The advisory staff serving preprofessional students in medical and related health fields includes two appointed health science advisers and a supporting group of faculty members in the departments of Biology and Microbiology, Chemistry and Biochemistry, Physics and Astronomy, and Psychology. Medical sciences advisement and recommendations are coordinated through the Health Science Advisement Office (HSAO) in Biological Sciences 202, (213) 343-2070. Students planning careers in these areas should visit the office for guidance about programs and application procedures, irrespective of their declared major. The staff has prepared a number of brochures that answer most of the students’ initial questions about the various health science careers. The center also contains current catalogs for every health science professional school in the United States as well as information about foreign schools, financial aid, and alternative careers.

**Health Careers Opportunity Program (HCOP)**

Since 1984, the HSAO has also administered a federally-funded Health Careers Opportunity Program (HCOP). This program is designed to increase the number of minority and disadvantaged Cal State L.A. students accepted into health professional schools. Under the direction of two campus health science advisers and a full-time administrator, the program offers students a variety of enrichment courses, video mock interviews, MCAT/DAT preparation, seminar series, and application counseling, among other benefits. This assistance has enhanced their success in gaining admission to their chosen health professional programs as judged by the most recent national admission statistics.

**Minority Access to Energy Research Careers (MAERC)**

MAERC is designed to increase the number of underrepresented minority scientists and engineers in energy research. Funded by the U.S. Department of Energy, the program provides monthly stipends for six junior and six senior-level student fellows to do research under the direction of a Cal State L.A. faculty member. In the summers, the student fellows receive full funding while working in one of the following U.S. Department of Energy laboratories: Idaho Falls National Energy Laboratory, Lawrence Berkeley National Laboratory, Los Alamos National Laboratory, Solar Energy Research Institute. For further information, call the Dean of the School of Natural and Social Sciences at (213) 343-2000.

**Minority Access to Research Careers (MARC)**

The MARC Honors Undergraduate Research Training Program trains up to 10 academically accomplished (B or higher grade point average) natural and behavioral science juniors and seniors who can compete successfully for entry into graduate programs leading to the Ph.D. in the biomedical sciences or an M.D.-Ph.D. degree.

Student fellows perform research under the direction of faculty who are engaged in biomedical research. A stipend is provided for each student fellow. In addition, the program provides payment of student registration fees, funds for research supplies, and a travel allowance for fellows to attend scientific meetings to present re-
search papers. A participants tenure in the program is two years for trainees entering as juniors and one year for those entering as seniors.

For further information about the MARC program and applications forms, write or phone Dr. Carlos G. Gutierrez, Director, MARC Program, Department of Chemistry and Biochemistry, (213) 343-2300.

Minority Biomedical Research Support Program (MBRS)

Designed to increase the pool of underrepresented minority biomedical scientists, the MBRS provides annual salaries for undergraduate and graduate students to participate in original research projects in collaboration with experienced faculty mentors. Students are also given excellent opportunities to obtain experience in contemporary and sophisticated biomedical research, a seminar series presented by distinguished scientists, and travel to national and regional scientific meetings. For further information, contact the MBRS office at (213) 343-2395.

Minority Engineering Program (MEP)

MEP’s goal is to increase the number of engineering majors and graduates from underrepresented minority groups while improving these students’ professional preparation. MEP services include scholarships, counseling, advising, registration assistance, a study center, study and academic support groups, preprofessional internships, career and professional development seminars, and opportunities for involvement in student organizations. MEP students learn to work cooperatively in a supportive environment. The program provides services to all African-American, Hispanic, and American Indian engineering majors. For further information, contact the MEP office, E&T A136, or call (213) 343-4527.

Minority Science Program (MSP)

The MSP aims to improve the chances for success of high-potential minority students by helping them improve their study habits and self-esteem and by providing a strong student-faculty support group. Students who register for introductory science and mathematics classes and are identified in the registration process as African-American, Mexican-American or other Hispanic, Filipino or other Pacific Islander are notified about the program, but all eligible students are invited to apply.

MSP students enroll in a science orientation course designed to help them develop a sense of community. Those who are enrolled in the same courses are assigned a student mentor who works with them as a tutor and counselor. Faculty who teach freshman mathematics and science courses present information to MSP students about their expectations of students enrolled in their courses. Faculty who direct research projects are invited to talk with MSP students about their research. Students also learn about required tests and prerequisites, study and communicative skills, science and math careers, and computer usage in the sciences.

The Science and Math Study Center in Biological Sciences 220 is a gathering place for MSP students for individual or group study. Student mentors are available to help students with assigned problems. For further information, contact the program directors, Dr. Margaret Jefferson (Biology and Microbiology Department) or Dr. Raymond Garcia (Chemistry and Biochemistry Department), either department office, or the study center.

Partnership for Academic Learning and Success (PALS)

PALS is a faculty/student mentoring program designed to enhance the retention of targeted first-time freshman students to meet educational, financial and other challenges associated with beginning college life. Freshmen are paired with peer mentors who are advanced students with similar majors and career interests and are responsible for assisting freshmen in meeting the challenges of the first year of college. PALS is a school-based retention program, and faculty coordinators from each of the schools and the Academic Advisement Center (for students with undeclared majors) are actively involved in the program. Exciting academic programs and cultural and social activities are key elements of the PALS program. For further information, contact the PALS Office, Library, Palmer Wing 1040A, (213) 343-3184.

PREPROFESSIONAL STUDY

Students who wish to prepare for professional study in engineering and the natural sciences, as well as the fields of law, librarianship, or medicine and health sciences will find specialized counseling and advisement at Cal State L.A. Such preprofessional advisement is separate from and in addition to major program advisement. Students are urged to consult current catalogs of professional schools available in the Reference Room of the Library for specific requirements, or to contact the advisement offices named below.

American Humanics, Inc.

Cal State L.A.’s American Humanics program, housed in the School of Health and Human Services, provides opportunities for students interested in human service organization careers to receive a specific, practical, educational experience related to their desired career goals. American Humanics, Inc. is a national program available at selected college and university campuses in the continental U.S. The intent of the program is to recruit, educate, and place qualified professional staff in nonprofit agencies. Cal State L.A.’s American Humanics program office is located in E&T A510, phone (213) 343-4580. Students interested in the program are advised to contact the program director. A certificate program in Voluntary Youth Agency Administration and Youth Agency Administration (YAA) courses are described in the undergraduate School of Health and Human Services chapter.

Health-Related Programs

Cal State L.A. offers a wide range of programs in health and health-related fields. These programs have a strong clinical and field placement component at several leading health care facilities and clinics in the metropolitan area to prepare graduates to enter the health field as professionals. Additional information is available from the Coordinator of Health-Related Programs, Biological Sciences 125, (213) 343-2035. Programs and the departments and divisions that offer them include:

</table>
The California State University (CSU) requires that each baccalaureate graduate have completed a program of general education breadth requirements in addition to a major program of study. The general education program is designed to ensure that graduates “have made noteworthy progress toward becoming truly educated persons.” Although the general areas of study and minimum unit requirements within them are prescribed by the CSU Board of Trustees, the individual campuses are given the authority to set course requirements within those areas, to add other requirements, and to enact other regulations. California State University, Los Angeles has designed its general education program within these guidelines.

Each baccalaureate student who entered Cal State L.A. Fall 1982 or later and who is subject to requirements in the 1982-1983 or any later catalog shall complete the general education program described below.

Students who entered Cal State L.A. summer 1987 or after must complete the program with a minimum C (2.0) average and a minimum C grade in all basic subjects courses.

It is essential that students plan their general education programs with the help of an academic adviser. Please consult the current Schedule of Classes for specific information about distribution requirements, unit requirements, and current general education courses. General requirements include a minimum of 72 quarter units to be selected in accordance with the specified distributions among the designated categories. At least 12 units of upper division course work must be included, taken subsequent to the attainment of upper division standing (completion of 90 quarter units) and selected from the list of approved upper division theme courses.

Students who transfer to Cal State L.A. who were certified as having completed the lower division general education requirements may not be used to meet requirements for a major. All students must complete a minimum of 12 quarter units of general education courses in residence at Cal State L.A.

Departments and divisions that require of their majors specific courses that are certified by the offering department or division as at least equivalent to the general education courses in a given subject may permit approved substitutions for general education courses. All such substitutions must be arranged by the student in consultation with the major department/ division academic adviser.

Certification of General Education

Under the provisions that govern general education within the CSU, regionally accredited, participating colleges and universities may certify the completion of a portion of the 48 semester (72 quarter) units required in general education. Cal State L.A. will accept up to 39 semester (60 quarter) units of course work certified by another authorized institution. However, such acceptance is limited to the number of units required in each area and to a maximum of 30 semester (45 quarter) units in Areas B through D. Course work completed by students whose general education requirements are not certified by the transfer institution is evaluated in terms of Cal State L.A.’s current general education requirements.

Students are cautioned that certification is not automatic; each student must request it. In addition, all participating colleges and universities have their own policies governing certification. Students are strongly advised to read their college or university catalog carefully and to consult a counselor for details about individual regulations and restrictions.

Students who transfer to Cal State L.A. who were certified as having completed the lower division general education require-
ments under previous requirements but who have not maintained continuous attendance must complete Cal State L.A.’s upper division requirements as described below.

Philosophy and Goals of the Program
The General Education program enriches the lives of students as they acquire knowledge, learn to think critically, and use methodologies of the various disciplines. Students also learn to prepare for participation in a democracy, to appreciate a sense of shared cultural heritage, and to understand the environment. Students experience self discovery and personal growth and recognize them as lifelong processes.

Mission Statement
General education is a critical component of students’ academic and personal development. The General Education program endeavors to develop the following three separate, but related and equally important, qualities in our students:

1. A knowledge and understanding of themselves, their social and natural environment and a wide range of cultural achievements.

General education courses provide students with an opportunity to acquire knowledge about their own bodies and minds and about humankind’s common heritage and cultural achievements. The General Education program also enables students to develop global perspectives; to develop common commitments and mutual respect among diverse social, cultural and ethnic groups; to establish an understanding of the biological and physical aspects of the world and the universe; and to nurture an understanding of environmental responsibilities.

2. A firm command of communication and analytical skills.

The General Education program develops the ability of students to think clearly and logically, to find and examine information, to communicate effectively in oral and written form, and to perform quantitative analysis. The General Education program also cultivates the students’ ability to reason critically, to solve problems creatively and to understand the major methods of intellectual inquiry.

3. A moral commitment to their fellow human beings and an awareness of ethical and social concerns.

The General Education program emphasizes the interdependence of individuals with the human community and the natural world by focusing on the knowledge, experiences, relationships, and ethical concerns common to all people. In affirming the community’s claim on its individual members, general education courses explore shared and diverse cultural heritages and an agenda of common and pressing contemporary problems, cultivate mutual responsibilities to the commonwealth, and stimulate commitments to moral values and ethical behavior. Consistent with the mission of the University, the purposes of general education are to provide a knowledge and understanding of common problems, experiences and traditions that will enhance students’ participation in a culturally diverse global society, and to provide an assessment of finite resources, mutual human needs and values.

Goals. General education at Cal State L.A. is devoted to a number of basic goals, which include:

1. Developing awareness of the sense of community and global interdependence of human experience and of the concomitant ethical responsibilities to fellow human beings.

The General Education program is designed to help students achieve a sense of the essential relationship of self to the community and environment with emphasis on their responsibilities to human society. Group and individualized experiences that encourage ethical behavior should be a part of the general education program.

2. Fostering intellectual curiosity and an appreciation of the major discoveries and achievements in the arts, letters, natural and social sciences, technology, and other major academic disciplines.

The General Education program is designed to stimulate curiosity for knowledge and excitement for lifelong learning. The nature of the courses and experiences in the program are planned to encourage students’ interest in diverse aspects of education. The faculty is committed to offering students unique classroom opportunities and to challenging them to continue to study and learn long after course requirements are met. The General Education program includes an historical awareness of the major developments in the human experience as well as a contemporary awareness of the applications of new technologies which will play an increasingly important role in life.

3. Achieving competence in basic skills.

The General Education program is designed to ensure that students master basic communication, critical thinking and quantitative skills so that they may achieve academic excellence. In meeting this goal, the General Education program pays special attention to the multicultural nature of the Cal State L.A. campus community and to the needs of students who are limited in English language proficiency. Language development instruction is an integral part of general education at Cal State L.A. The General Education program at Cal State L.A. places an emphasis on developing competence in the English language through its curriculum.

4. Recognizing and appreciating the multicultural nature of human existence in general and of American society in particular.

The General Education program is designed to encourage students to develop appreciation for the multicultural dimensions of life in California, the nation, and the world. Uniquely on this campus, faculty draw upon the special expertise and the abundance of multicultural experiences of the student population in cultivating this cultural awareness. The General Education program offers students the opportunity to recognize the rich heritage and socially diverse environment of California and of the nation. The program also enables students to become aware of universal experiences that are part of all cultures as well as the varieties of value systems that are in operation in today’s global society.

5. Developing an appreciation of a shared and diverse cultural heritage and cultivating an awareness of contemporary world and its problems.

The General Education program provides for its diverse student body a familiarity with and a critical appraisal of American culture and its historical roots and antecedents. Students assess critically the impact and influence of American tradition, which includes the political, economic, social and communication systems, as well as the artistic and literary heritage, on the contemporary world.

Structure of the Program. The general education breadth requirements are structured so that introductory courses are taken prior to participation in integrative experiences. Students are expected to complete the general education requirements in written and oral communication, critical thinking, and mathematics, and general education prerequisite courses, if any, before enrolling in any upper division general education theme course. All courses approved for general education credit, including those lower division courses that also earn credit toward a major, are mandated to require the practice of writing in English including, where appropriate, library assignments. Evaluation of writing is included in all courses.
THE FOLLOWING IS

THE GENERAL EDUCATION PROGRAM

FOR UNDERGRADUATE STUDENTS

WHO ENTERED

CALIFORNIA STATE UNIVERSITY, LOS ANGELES

BETWEEN

FALL QUARTER 1982 AND FALL QUARTER 1998

AND ARE SUBJECT TO THE

1982-83 OR LATER

REQUIREMENTS
Effective Fall Quarter 1982: THE GENERAL EDUCATION PROGRAM

All baccalaureate students who entered Cal State L.A. Fall 1982 or later and who are subject to requirements in the 1982-1983 or later general catalog shall complete the General Education program described below, in consultation with a faculty adviser. The requirements include a minimum of 60 units. In addition, at least 12 of the total 72 units must be earned at Cal State L.A. All students who are subject to requirements of the 1987-1989 or later catalog must earn a C average in their General Education program and minimum C grades in all Block A (basic subjects) courses.

CONFIGURATION OF BLOCKS

A. BASIC SUBJECTS (16 units) (one course from each area)
   1. Written Communication* (4 units)
   2. Oral Communication (4 units)
   3. Critical Thinking (4 units)
   4. Mathematics (4 units)

A minimum C grade in all basic subjects courses is required of all students who are subject to requirements of the 1987-89 catalog or later.

AMERICAN INSTITUTIONS (minimum of 8 units)
   U.S. History
   State/Local Government

All three areas must be met. POLS 150 meets both U.S. Constitution and State/Local Government

B. NATURAL SCIENCES (8 of 12 units) (2 of 3 areas)

Based on the classification of the students major as listed below. A biological and a physical science course, each with lab, are required of all students.
   1. Biological Science with lab (4 units)
   2. Physical Science with lab (4 units)
   3. Interactions-Nonlab science (4 units)

C. HUMANITIES (8 or 12 units) (2 or 3 areas)

Based on the classification of the students major as listed below. Students must take either 8 units from 2 different fields or 12 units from 3 different fields.

   1. Literature
   2. Arts
   3. Philosophy
   4. Modern Languages

D. SOCIAL SCIENCES (8 or 12 units) (2 or 3 areas)

Based on the classification of the students major as listed below. Students must take either 8 units from 2 different fields or 12 units from 3 different fields.

E. LIFELONG UNDERSTANDING AND SELF-DEVELOPMENT (4 units)

F. UPPER DIVISION THEME (12 units)

Select one theme and complete 3 courses as required in that theme.

CLASSIFICATION OF MAJORS

Natural Science-based Majors. Students majoring in the following programs should take 8 units of natural science (physical and biological, each with lab) 12 units of humanities, and 12 units of social science:

- Biochemistry (B.S.)
- Biology (B.S.)
- Chemistry (B.A., B.S.)
- Computer Science (B.S.)

Humans-based Majors. Students majoring in the following programs should take 12 units of natural science; including Interactions, 8 units of humanities, and 12 units of social science:

- Art (B.A.)
- English (B.A.)
- French (B.A.)

Social Science-based Majors. Students majoring in the following programs should take 12 units of natural science, including Interactions, 12 units of humanities, and 8 units of social science:

- Afro-American Studies (B.A.)
- Anthropology (B.A.)
- Business Administration (B.S.)
- Business Education (B.S.)
- Child Development (B.A.)
- Communicative Disorders (B.A.)

Students should choose general education courses in consultation with an academic adviser in their major department or division. This is particularly important for science majors whose General Education Natural Science requirements will differ from the courses listed in the General Education Program.

*All students who entered Cal State, L.A. Summer 1993 or later and who are subject to requirements in the 1993-95 or any later general education catalog are required to have two courses (8 units) of Written Communication; however only the first of the two courses (4 units) is applied to general education. Both courses must be completed with a C or higher grade.

**GE program for Engineering majors is available in the School of Engineering and Technology. See a faculty adviser.

**Notes:**
- A minimum C grade average in general education is required of all students following the 1987-1989 or any later catalog.
- Other courses may be substituted in some categories in conjunction with a student's major. Consult a department or division adviser for a list of double-counted courses.
- Engineering majors' GE program differs. See an academic advisor in your major department.
- ENGL 102 is required of all students who entered Cal State L.A. Summer 1993 or later, and who are subject to the requirements of the 1993-95 or later GE catalog. Minimum C grade required.
UPPER DIVISION THEMES

Students are required to complete a 12-unit upper division theme as part of the General Education program after they have achieved upper division standing (i.e., after they have completed 90 units). The themes consist of integrated courses designed to help students acquire knowledge of the major achievements and concerns of enduring significance in the human experience.

Courses in each theme are distributed among three areas including natural sciences and mathematics, social sciences, and humanities. Students must select one course from each area for the theme selected. Completion of the lower division basic subjects requirement is prerequisite to all upper division theme courses, and additional lower division general education courses may be required as prerequisites to individual courses contained in the themes. Some courses included within the themes are “cross listed;” that is, they are offered under two or more course abbreviations (e.g., BIOL/CHEM 350N). Students may register under any of the available course abbreviations; departments offering these courses will change from quarter to quarter. Courses used to meet upper division general education requirements may not be used to meet requirements for a major.

Students may choose from the following themes, in consultation with an adviser. A student who elects to change themes before completing the sequence must take 12 units of work in the three areas of the new theme to meet this requirement.

1. SCIENCE, ENVIRONMENT, AND PUBLIC POLICY

“Science, Environment, and Public Policy” explores the scientific considerations that have an impact on the natural environment. It discusses the moral obligation of humanity toward the environment and societal attitudes toward nature as revealed by the arts. The student also can explore the historical development of current attitudes toward the environment and the way in which the political process is brought to bear on environmental concerns. Courses included are:

Natural Sciences and Mathematics
BIOL/CHEM/CS/PHYS 358N, Science and Controversy (4)
ENGR/GEOG 358, Technology and Environment (4)

Social Sciences
HIST 458, History of the American Environment (4)
POLS 458, Environmental Policy and Politics (4)

Humanities
ART/MUS 456, Nature, Environment, and the Arts (4)
ENGL 358, Technology in Literature (4)

2. ANCIENTS AND MODERNS

“Ancients and Moderns” is an integrated approach to antiquity, its history, achievements, and legacy to modern Western and Islamic culture. Its purpose is to develop an understanding of our civilization, its achievements and problems. Courses included are:

Natural Sciences and Mathematics
CHEM 360N/HIST 380, Ancient and Modern Science (4)

Social Sciences
HIST 311, Classical Civilization and the Modern World (4)

Humanities
ART/ENGL 381, Legacy of Ancient Literature and Art (4)
PHIL 321, Ancient Thought and its Modern Legacy (4)

3. THE CREATIVE EXPERIENCE IN HUMAN DEVELOPMENT

“The Creative Experience in Human Development” explores all aspects of the creativity of human beings. Students examine the thought processes employed in human inquiry through a study of the culture, history, and physical nature of the world in which they live. Courses included are:

Natural Sciences and Mathematics
MICR 363, Microbiological Detectives (4)
PHYS 363, The Creative Process in Physics (4)

Social Sciences
ANTH 450, Culture and Innovation (4)
SOC 442, Social Change (4)

Humanities
ART/MUS 455, The Creative Genius in Art and Music (4)
MUS 355, The Creative Aspects of Music (4)

4. THE NUCLEAR AGE

This theme has been deleted from the curriculum. Students may no longer enroll.

5. PERSPECTIVES ON EVOLUTION

This theme has been deleted from the curriculum. Students may no longer enroll.

6. WORLD URBAN ENVIRONMENT: ECOLOGY AND MAJOR URBAN ISSUES

“World Urban Environment: Ecology and Major Urban Issues” contributes to an understanding of urbanization, its causes and consequences, and focuses on the city as a special kind of human habitat, with emphasis on the relationship of urban issues to the ecology of the city. Courses included are:

Natural Sciences and Mathematics
BIOL 361N, Ecology of the Urban Environment (4)
ENGR 352, Technological Aspects of Urban Environment (4)

Social Sciences
GEOG 421, United States (4)
POLS 458, Environmental Policy and Politics (4)

Humanities
ART 485, Ecology and Environment (4)
SPCH 489, Intercultural Communication (4)

7. THE AMERICAN LANDSCAPE

This theme provides a basis for viewing the American landscape as an evolving aggregate of natural human resources in interaction with the awareness that natural science, social science, and the humanities all contribute to an understanding of that landscape. Emphasis includes evaluation of America’s natural environments and settlement features as seen by geologists, geographers, authors, and artists.

Natural Sciences and Mathematics
GEOG 420N, Geology of the National Parks (4)

Social Sciences
GEOG 421, United States (4)

Humanities
ART 341, The American Landscape in Art (4)
ENGL 387, The American Landscape in Literature (4)

8. INSTITUTIONAL RACISM

Institutional racism is a set of beliefs, attitudes, policies, and practices that permeate the major social, political, and economic institutions of the Western world. This theme helps students identify and explore the origins and present systems of institutional racism and develop new strategies designed to lessen the impact of institutional racism in modern society.
The Third World is characterized by severe social tension and staggering challenges. Immigration pressures are a continuing source of conflict and the competition for resources will become more acute. The natural science courses consider the physical limits and possibilities of Third World development; the social sciences develop an appreciation of human and economic processes affecting social and economic change in the Third World; and the humanities component examines the dynamic interplay among the arts, religion, and cultural values.

Natural Sciences and Mathematics
ANTH 461, Race and Human Variation
BIOL 319N, Human Genetics (4)

Social Sciences
EDAD 480, Institutional Racism and Schools (4)
SW 462, Institutional Racism and Poverty (4)

Humanities
LAS 435, Race and Culture in Latin America (4)
PAS 427, Institutional Racism: Black Response (4)

9. DEVELOPMENT PROCESS IN THE THIRD WORLD
The Third World is characterized by severe social tension and staggering challenges. Immigration pressures are a continuing source of conflict and the competition for resources will become more acute. The natural science courses consider the physical limits and possibilities of Third World development; the social sciences develop an appreciation of human and economic processes affecting social and economic change in the Third World; and the humanities component examines the dynamic interplay among the arts, religion, and cultural values.

Natural Sciences and Mathematics
GEOG 433, Third World Environments and Their Development (4)

Social Sciences
ECON 460, Economic Growth of Underdeveloped Areas (4)
LAS/PAS 460, Dynamics of Social Change in the Third World (4)

Humanities
LAS/PAS 442, Cultural Impact of Third World Development (4)
PAS 427, Institutional Racism: Black Response (4)

10. GENDER IN HUMAN EXPERIENCE
The theme provides an integrated and disciplined inquiry into the status and implications of gender differences, exploring the meaning and significance of these basic factors in human experience. The natural sciences introduce students to the biological bases of sex differences; the social sciences treat gender in relation to cultural and social institutions; and the humanities explore the meaning of sex and gender, their cultural expressions, and prospects for rational evaluation of gender organization.

Natural Sciences and Mathematics
BIOL 488N/PSY 488, Gender Differences (4)

Social Sciences
ANTH 438, Sex Roles in Cross-cultural Perspective (4)
SOC 441, Sociology of Sex Roles (4)

Humanities
ENGL/SPCH 385, Sex and Gender in Language and Literature (4)
PHIL 412, Philosophy and Sex Roles (4)

11. HUMAN MATURITY AND AGING: PROCESSES AND PROBLEMS
The theme addresses major life issues that confront individuals in maturity and adulthood, and provides an integrated academic approach to the study of human aging through examination of the biological bases of aging, the social and psychological implications of maturity and aging, and the literary and philosophical concepts of age and aging.

Natural Sciences and Mathematics
BIOL 484N, Biology of Human Aging (4)
NTRS 451, Nutrition and Aging (4)

Social Sciences
PSY 462, Psychology of Human Development: Maturity and Aging (4)
SOC 450, Sociology of Aging (4)

Humanities
ENGL/FL/PHL 383, Themes of Adult Life in Philosophy and Literature (4)
RELS 425, Themes of Adult Life in Religion (4)

12. Health and Wellness
The theme integrates aspects of physical and mental health as well as social well-being by providing the scientific bases for health and wellness; examining sociocultural perspectives of health and wellness; and analyzing the philosophical, creative and aesthetic dimensions of health and wellness. The focus is on concerns of importance to all individuals as members of local, national and international communities.

Natural Sciences and Mathematics
NTRS/PE 300, Physiological and Nutritional Bases of Fitness (4)
BIOL/MICR 375, Biology of Health Maintenance (4)

Social Sciences
ANTH 344, Medical Anthropology (4)
SOC 325, Medical Sociology (4)

Humanities
RELS 345, Health and Wellness in World Religions (4)
ART/DANC/MUS/TA 357, Creative Experiences for Well-Being (4)

13. ROMANCE VS. REASON
This theme has been deleted from the curriculum. Students may no longer enroll.

14. HUMAN EMOTIONS
“Human Emotions” is an interdisciplinary exploration of the integration within humans of biology, society, and culture, drawing on fundamental knowledge about human nature and evolution, social institutions and values, and creative and aesthetic elements of institutions and values, and aesthetic elements of culture. Students learn to reflect upon and evaluate their own emotional feelings and expressions within physiological, social, and cultural frameworks relating their private experiences to education and connecting the personal with the abstract.

Natural Sciences and Mathematics
ANTH 400, Evolution of Human Emotions (4)
PSY 323, Psychology of Emotions (4)

Social Sciences
HIST 456, History of Emotions (4)
SOC 400, Emotions in Society (4)

Humanities
ENGL/FL 389, Human Emotions in Literary Expression (4)
TA 457, Emotions in the Theatre and Film (4)

15. VIOLENCE AND VICTIMS
“Violence and Victims” utilizes a multidisciplinary approach that provides comprehensive investigations, discussions, and debate involving theories, research, and intervention methodologies relevant to the causes and effects of violent behavior. The theme, which is structured to increase students’ understanding of the nature, causes, and complexities of violence in its myriad forms, includes the study of how, when, and why it occurs.
Natural Sciences and Mathematics
  NURS/PSY 307, The Physiological and Behavioral Aspects of Victims and Aggression (4)

Social Sciences
  NURS/SW 455, Family Violence and Abuse: Strategies for Prevention and Intervention (4)
  SOC 483, Violence in American Society (4)

Humanities
  BCST 466, The Visualization of Violence in the Media (4)
  ENGL 382, Violence in Literature (4)
THE FOLLOWING IS

THE GENERAL EDUCATION PROGRAM

FOR UNDERGRADUATE STUDENTS

ENTERING

CALIFORNIA STATE UNIVERSITY, LOS ANGELES

BEGINNING

FALL QUARTER 1998 AND LATER

AND ARE SUBJECT TO THE

1998-99 OR LATER

REQUIREMENTS
Effective Fall Quarter 1998: THE GENERAL EDUCATION PROGRAM

All baccalaureate students who enter Cal State L.A. Fall Quarter 1998 or later and who are subject to 1998-99 requirements in the 1997-99 general catalog or later shall complete the General Education program described below, in consultation with a faculty adviser. The requirements include a minimum of 60 lower division units and 12 upper division units, selected from approved themes, for a total of 72 units. In addition, at least 12 of the total 72 units must be earned at Cal State L.A. The approved list of courses for the new General Education program was not finalized in time to be included in this catalog. The courses will be printed in the quarterly Schedule of Classes. Students are urged to consult an academic adviser in their major department or school in selecting General Education courses. All students who are subject to the requirements of the 1987-89 or later catalog must earn a C average in their General Education program and minimum C grades (2.00 G.P.A.) in all Block A (basic subjects) courses. All basic subjects must be completed within the first 45 units counted toward the baccalaureate degree. Transfer students who have not completed this requirement must take at least one of these courses each quarter until the requirement is met.

CONFIGURATION OF BLOCKS

A. BASIC SUBJECTS (16 units) One course from each area

1. Written Communication* (4 units)
2. Oral Communication (4 units)
3. Critical Thinking (4 units)
4. Mathematics (4 units)

A minimum C grade (2.0 GPA) in all basic subjects courses is required of all students who are subject to requirements of the 1987-89 catalog or later.

AMERICAN INSTITUTIONS (Minimum of 8 units)

U.S. History U.S. Constitution State/Local Government

All three areas must be met. POLS 150 meets both U.S. Constitution and State/Local Government.

B. NATURAL SCIENCES: 8 or 12 units from 2 or 3 areas, based on the classification of the students major as listed below. A Biological and a Physical Science course with lab are required of all students. The third required course must be outside the major and may be an integrated or an applied Natural Science course.

1. Biological Science with lab (4 units)
2. Physical Science with lab (4 units)
3. Integrated/Applied Natural Science course (4 units)

C. HUMANITIES: 8 or 12 units from 2 or 3 areas, based on the classification of the students major as listed below. Students must take either 8 units from 2 different areas or 12 units from 3 different areas. An integrated Humanities course may count as one of the area requirements.

1. Literature and Drama
2. Arts
3. Philosophy and Religious Studies
4. Languages Other than English
5. Integrated Humanities course

D. SOCIAL SCIENCES: 8 or 12 units from 2 or 3 disciplines, based on the classification of the students major as listed below. Students must take either 8 units from 2 different disciplines or 12 units from 3 different disciplines. An integrated Social Science course may count as one of the required courses.

E. LIFELONG UNDERSTANDING AND SELF-DEVELOPMENT (4 units)

F. UPPER DIVISION THEME (12 units). Students must complete one course in each of the three disciplines (Natural Sciences and Mathematics, Social Sciences, and Humanities) as required in a theme. Completion of basic subjects requirements is prerequisite to all upper division theme courses.

G. DIVERSITY REQUIREMENT (2 courses). Students must complete two courses certified as diversity courses. These courses may be completed at either the lower division or upper division level from among courses satisfying general education requirements in blocks B, C, D, E, and F.

Students should choose general education courses in consultation with an academic adviser in their major department or division. This is particularly important for science majors whose General Education natural science requirements will differ from the courses listed in the general education program.

*All students who entered Cal State L.A. Summer 1993 or later and who are subject to requirements in the 1993-95 or any later general education catalog are required to have two courses (8 units) of Written Communication; however only the first of the two courses (4 units) is applied to General Education. Both courses must be completed with a C or higher grade.

**GE program for Engineering majors is available in the School of Engineering and Technology. See a faculty adviser.

FALL QUARTER 1998: STRUCTURE OF UPPER DIVISION THEMES

Students are required to complete a 1 P-unit upper division theme as part of the General Education program after they have achieved upper division standing (i.e., after they have completed 90 units). A theme consists of three interrelated courses on the same topic, designed to help students acquire knowledge of topics that are current, enduring, and of significant importance for humanity. Topics are designed to promote: an understanding of oneself and one's fellow human beings, the social and physical environment, and a wide range of cultural achievements; an understanding of the shared concerns of all people as well as diverse cultural heritages; and an awareness of ethical and social concerns and a cultivation of moral responsibility.

Courses in each theme are distributed among three areas including: Natural Science and Mathematics, Social Sciences and Humanities. Students are thereby provided with the perspectives of at least three different disciplines on the theme's topic and must select one course from each area for the theme selected. Completion of the lower division basic subjects requirement is prerequisite to all upper division theme courses, as well as completion of any additional lower division general education course that may be required as a prerequisite. Courses used to meet upper division general education requirements may not be used for a major. Additionally, students must choose theme courses outside of their major department unless approved for this purpose by the General Education Subcommittee.

Themes with suitable subject matter may be designated as "diversity themes." Students completing a diversity theme will have met the diversity requirement of General Education.

NOTE: THE LIST OF APPROVED UPPER DIVISION THEMES AND SPECIFIC COURSES IN EACH THEME WILL BE PRINTED IN THE QUARTERLY SCHEDULE OF CLASSES.
DEGREE REQUIREMENTS

Catalog Requirements Under Which An Undergraduate Student Graduates

Unless exception is requested under one of the provisions below, students enrolling at Cal State L.A. for the first time must meet degree requirements specified in the catalog in effect at the time of entrance. The catalog date is specified on each student’s credit summary.

Baccalaureate students who remain in attendance in regular sessions at any California State University campus, any California community college, or any combination of California community colleges and CSU campuses and thereafter at Cal State L.A. may elect to meet Cal State L.A. graduation requirements in effect at the time they began such attendance, at the time they entered Cal State L.A., or at the time of graduation from Cal State L.A. In this context, attendance means attendance in at least one semester or two quarters each calendar year, excluding summer session, extension, and concurrent enrollment in Cal State L.A. courses. Absence due to an approved educational leave or for attendance at another accredited institution of higher learning shall not be considered an interruption in attendance if the interruption does not exceed two years. Disqualified students retain their existing catalog privileges under the conditions outlined above.

All other transfer students and students who have not remained in attendance as described above will be held to Cal State L.A. graduation requirements in effect at the beginning of their most recent period of attendance at Cal State L.A. or, alternatively, at the time of graduation. Students who change to a new degree and/or major objective must meet requirements for the new degree and/or major in the catalog in effect at the time of change. If courses described under earlier requirements are no longer available, the major department or division may authorize or require appropriate substitutes.

General Education is an integral component of the requirements for the bachelor’s degree. Students who remain in attendance as defined above normally will meet General Education requirements listed in the catalog in effect at time of entrance. However, they may elect to meet General Education requirements in the catalog in effect either at the time of entrance or graduation, and need not meet major requirements from the same catalog. If courses described under earlier requirements are no longer available, appropriate substitutes must be selected from the current list of courses approved for the area involved.

Time Limits on Major Requirements for Bachelor’s Degrees

A department or division may specify that no subject, unit, or grade credit be granted for specific upper division courses offered by that department or division to students who completed such courses more than ten years prior to the date of their bachelor’s degree. Courses with time limits are designated in the course descriptions in this catalog and on the major program advisement sheets submitted by each student’s major department or division to the Graduation Office. When a Cal State L.A. course is so designated, the restriction also applies to equivalent courses transferred from other institutions. Students may petition for and, in extraordinary circumstances, the major departments and divisions may grant permission to validate by examination such an expired course with the concurrence of the department or division that offers the course or its equivalent.

I-or all requirements, electron of any catalog will not extend beyond ten years after its designated academic year.

Residence Requirement

Students must complete a minimum of 45 quarter units, including at least 36 upper division units, 18 units in the major, and 12 units in general education courses, in residence at Cal State L.A. for the baccalaureate. Credit earned in special sessions may be applied toward this residence requirement to a maximum of 8 units in the major and 18 units overall. Credit earned in extension courses or by examination may not apply toward the residence requirement.

Scholarship Requirements

In addition to meeting total unit requirements for graduation, students must also satisfy specific scholarship requirements. These include achievement of a minimum 2.0 grade point average (C on a scale in which A = 4.0) in all units attempted, including those accepted by transfer from another institution, all courses required for the major, all courses used to meet General Education requirements, and all units attempted at Cal State L.A.

Introduction to Higher Education Course Requirement

All undergraduate students who do not have a bachelor’s degree and enter Cal State L.A. Fall 1997 or later, and who are subject to the 1997-99 and later requirements, are required to complete a 100-level introduction to higher education course. This course, which must be completed no later than the second quarter of residence at Cal State L.A., introduces students to the following aspects of the University: History, structure, policies and procedures, faculty expectations, resources and skills necessary for success, and content specific to disciplines in the school in which the student is majoring. The course is offered by the schools for their majors and graded Credit/No Credit. Special sections of the course, organized at the University level, are offered for undeclared students. Students should consult their academic advisers prior to enrolling in the course.

Writing Skills Requirements

All CSU students must demonstrate competence in writing skills as a requirement for graduation. Students must satisfy lower and upper division writing skills requirements.

Lower Division Writing Requirement

The English Placement Test (EPT), described in the Admission chapter of this catalog, is prerequisite to all lower division English writing courses.

All baccalaureate students who enter Cal State L.A. Summer 1993 or later, and who are subject to requirements of the 1993-95 or later general education catalog, are required to take two quarters of English composition (ENGL 101 and 102) which must be taken in sequence. Students entering Cal State L.A. as freshmen must complete these courses before they reach upper division standing (90 quarter units). Transfer students entering above the freshman level who are required to take one or both of these composition courses must do so before they complete 45 quarter units at Cal State L.A.. Only the first of the two courses (ENGL 101) is applied toward General Education. The second course (ENGL 102) is prerequisite to UNIV 400 (WPE).

Upper Division Writing Requirements

All Cal State L.A. students who entered Summer 1984 or later and are pursuing a degree or credential are required to pass the Writing Proficiency Examination (WPE) prior to completion of 135 quarter units. ENGL 101 and 102 are prerequisites to the examination. Transfer students who have completed 135 units upon entrance must pass the WPE during their first quarter of residence at Cal State L.A. Students who have satisfied the upper division writing proficiency requirement at another institution with an implied level
Students who fail to take and pass the WPE within the required time limit of 135 units will have a hold placed on their records which will preclude them from enrolling in any courses until the WPE requirement is satisfied. Students who receive a No Credit (NC) grade on the WPE must meet with a WPE consultant in the University Writing Center to discuss deficiencies identified by the exam and receive recommendations of activities to correct these deficiencies. Based on the recommendations from the WPE consultant, students may re-take the WPE or enroll in UNIV 401, the upper division writing proficiency course.

To take the WPE, students must register for UNIV 400 by the add deadline of each quarter. Additional information about the WPE is available in the Schedule of Classes and at the University Writing Center.

The postbaccalaureate writing skills requirement for students pursuing graduate degrees and credentials is described in the Graduate and Postbaccalaureate Study section.

Undergraduate Credit for Graduate Courses

Under extraordinary academic circumstances as specified below, the University Undergraduate Studies Subcommittee (USS) may approve the granting of baccalaureate credit for 500-level course work to a maximum of two courses not to exceed a total of 8 quarter units. The following conditions must be met:

- Senior standing at the time of petition (completion of 135 quarter units);
- grade point average of 3.5 in the major;
- submission of a petition to the Undergraduate Studies Subcommittee (USS) at least one full quarter in advance of the quarter in which the courses are to be taken; and
- submission of a letter of recommendation from the instructor of the 500-level course(s), endorsed by the chair of the student’s major department or division and by the chair of the host department or division if the proposed course is not in the student’s major department or division.

Graduate Credit for Undergraduate Students

Except for provisions for outstanding seniors described above and for vocational teachers enrolled for the community college credential and the BVE degree, graduate course credit may not be applied toward a baccalaureate. In their final quarter of undergraduate study, students may apply toward graduate credit a maximum of eight units in courses beyond the minimum requirements for the baccalaureate, provided they have maintained a minimum 2.5 grade point average in all upper division work. Students with a 3.0 average or higher may include in this allowance one 500-level course. Any course for which graduate credit is requested must be approved in advance by the graduate adviser in the department or division in which the master’s degree is to be taken.

The approved application must be delivered to the Graduation Office, Administration 409, during the quarter prior to that in which courses are to be taken. Graduate credit is allowed for courses numbered in the 400 and 500-series only.

Application for Graduation (Degree Check)

Application for graduation (degree check) is made on a form available in the Graduation and Record Services Office located in Administration 409. Permission to apply for graduation should be granted by the candidate’s major department or division before the completed application form is submitted to the Cashiers’ Office for payment of the fee.

Students who have earned a minimum of 145 quarter units are required to file a paid application form and a “Bachelor's Degree Worksheet” to their major department/division office by the deadline announced in the quarterly Schedule of Classes. If approved, the department will attach the Major Program and forward all documentation to the Graduation Office for processing. The Graduation Office notifies students of the receipt of their graduation application and supporting documents. All incomplete applications are returned to the appropriate major department/division office for completion and resubmission during the next available filing period.

Results of graduation checks are sent to students in the mail before their scheduled registration date for their anticipated final quarter. All questions regarding the graduation check procedure or final results are to be directed to the students major department or division. Students who are enrolled in the quarter they expect to graduate but who do not complete all degree requirements will have their graduation application "automatically" transferred to the next quarter for processing. If the student is still ineligible to graduate at the end of the second quarter, another graduation application, with the required fee and all supporting documents, must be resubmitted for the next available filing period.

Degrees are granted at the end of the quarter in which all requirements are met, not when the graduation application is submitted for processing.

Commencement Exercises

Commencement is held annually at the end of the Spring Quarter. Students who have completed degree requirements the previous Summer, Fall, or Winter Quarter are eligible to participate in the ceremony along with those who complete their work in the Spring Quarter. Information bulletins about commencement activities are mailed to the home address of those eligible to participate early in the spring, and are available on campus at school and department and division offices and Administration 146 and 409.

During Commencement Exercises, degrees are conferred on the candidates by the President of the University. Although each candidate receives a diploma cover during the program, the actual diploma is sent several months later. A few weeks after graduation, eligible candidates receive a letter of congratulations in the mail and degrees are posted on their permanent academic records.

Career Placement Information

The campus may furnish, upon request, information about subsequent employment of students who receive academic degrees in programs or courses of study that prepare them for a particular career field. This information includes data concerning average starting salary and the percentage of previously enrolled students who obtained employment. The information may include data collected from either graduates of the campus or graduates of all California State University campuses.Copies of the published information are available in the Cal State L.A. Office of Admission and University Outreach, Student Affairs 101.

Recognition of Academic Excellence

Cal State L.A. recognizes superior academic achievement by conferring honors upon students with outstanding records at an annual spring Honors Convocation and at the annual Commencement Exercises in June.

Recognition is accorded at the annual Honors Convocation to undergraduate students placed on the Dean's List, those who were awarded Honors at Entrance, members of the General Education Honors Program, and those students who were selected by their major departments and divisions to receive the Alumni Association Certificate of Honor. Students receiving Spec-
cial Recognition in Graduate Studies are also honored. Also recognized at the Honors Convocation are recipients of academic scholarship awards and juniors and seniors elected to membership in national honor societies. The requirements for Honors at Entrance, Dean’s List, and Certificate of Honor and Special Recognition in Graduate Studies awards are as follows:

- **Honors at Entrance**
  First-time freshmen who enter with a grade point average of 3.5 or higher on their high school record.

- **Dean’s List**
  Undergraduate students who earn a 3.4 grade point average or higher for a quarter in which they complete 12 or more units of traditionally graded course work and who rank in the upper five percent of students in academic achievement within their school. The preceding eligibility criteria also apply to graduate students seeking a second or subsequent baccalaureate. Students will not be added retroactively to the Dean’s List on the basis of completion of work in which the original grade was I (Incomplete).

- **Alumni Association Certificates of Honor**
  Awarded to undergraduate and graduate students who are selected by their academic department or division for outstanding achievement in their field of study with a B (3.0) grade point average or higher and at least three quarters completed at Cal State L.A.

- **Graduation with Honors**
  Baccalaureate graduates of Cal State L.A. who maintain an outstanding scholarship record while earning the degree receive special recognition upon graduation. These honors, designated on the diploma and the permanent academic record, are granted to the top 5% of students graduating in each school, calculated from grade point averages achieved at Cal State L.A. These percentages are calculated once for each academic year (the academic year is defined as Summer, Fall, Winter, and Spring Quarters). Eligibility is limited to students who have earned at least 72 quarter units in residence at Cal State L.A. Second baccalaureate candidates who are eligible for University honors may receive those honors for which they qualify. Students pursuing an advanced degree or a teaching credential are not eligible for such honors.

- **Special Recognition in Graduate Studies**
  Students receiving Special Recognition in Graduate Studies are those who have demonstrated superior scholastic achievement by maintaining a grade point average of 3.8 or higher in 80% or more of their required program and have received special recommendation by their department or division.

Honors at graduation are determined according to the criteria listed below.

**Honors Category**

<table>
<thead>
<tr>
<th>Category</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cum laude (honors)</td>
<td>Top 5%</td>
</tr>
<tr>
<td>Magna cum laude (high honor)</td>
<td>Top 4%</td>
</tr>
<tr>
<td>Summa cum laude (highest honor)</td>
<td>Top 1%</td>
</tr>
</tbody>
</table>

For these calculations, Rehabilitation Services majors (Charter School of Education) will be included with the competition pool for the School of Health and Human Services. Students with a Special Major will be included with the school in which they have earned the majority of the units in their major.

**General Education Honors Program**

Cal State L.A.'s General Education Honors Program provides highly qualified students with diverse, enriched intellectual activities through a separate curriculum which includes honors classes, seminars, and research. Honors courses promote intellectual curiosity, critical reading, and logical thought and writing. These courses have a lower student enrollment than other general education courses and are taught by the University’s finest professors, many of whom are nationally recognized authorities in their field of study. Honors students not only have the opportunity to accelerate their academic program; they also encounter challenging and rewarding educational experiences.

**The General Education Honors Program:**

- Facilitates student participation in the National Collegiate Honors Council (NCHC) and the Western Regional Honors Council (WRHC).
- Provides high-potential students an opportunity to participate in intellectually demanding and academically challenging General education courses.
- Offers opportunities for greater interaction with peers and involvement in interdisciplinary learning.
- Identifies Cal State L.A. resources through which high-potential students can receive academic, personal, and career counseling to help them better define and reach their goals.
- Creates opportunities for high-potential students and faculty members to establish closer educational relationships.
- Prepares students for participation in upper division departmental honors programs.

Students are offered the following special opportunities:

- Special sections of general education courses. Participation in courses appropriately modified in content, methodology, and level of enrichment for the high potential student.
- Honor societies. Coordination of membership with other honors organizations.
- Priority registration privileges. Students are allowed priority registration privileges.
- Waiver of prerequisites. With department or division approval, students with appropriate background may be allowed to enroll in upper division courses without having met the usual lower division prerequisites.
- Club membership. All program students hold membership in the General Education Honors Club.
- Student Association. All students in the program hold membership in the Student Association which promotes nonacademic and social interests and serves as a source of enrichment to the University by sponsoring and arranging activities beneficial and open to the entire campus. The group is represented on the Honors Council and aids the director and the council in the developing and implementing the program.

Honors classes that meet general education requirements are available each quarter. These classes are designated as General Education Honors Program courses and enrollment is restricted to honors program students. All courses seek to explore more advanced and sophisticated areas of knowledge than regular general education offerings, although they meet general education requirements. A higher level of achievement is expected. Honors Program students are required to complete at least 24 units of these courses with a minimum B (3.0) grade point average to earn a General Education Honors Program certificate.

For further information, contact the Program Director, Honors Program office, in the Library, Palmer Wing, phone (213) 343-4960.

**Departmental Honors Programs**

Further recognition of academic excellence is accorded through Cal State L.A.'s departmental honors programs, offered presently in anthropology, biology, chemistry, child development, and physics. Students who maintain a superior grade point average and
have faculty recommendation are permitted to enroll in an honors program in their elected major. Considerable freedom is provided students and their advisers in designing enriched programs of study. This may include deviation from traditional course patterns to permit additional work in subjects related to the major, more intensive study in subject areas of special interest, and participation in special colloquia, independent study, individual research, and honors theses.

Students who complete these honors programs receive citations of departmental honors on their transcripts and diplomas.

National Honor Societies

Chapters of more than twenty national honor societies have been chartered at Cal State L.A. to accord recognition to students who demonstrate superior scholarship and leadership in academic areas. A specific minimum grade point average, ranging from 3.0 to 3.85, is required for initiation into each of these honor societies.

National Honor Society              Discipline(s)
Alpha Kappa Delta, Iota Chapter       Sociology
Beta Alpha Psi, Beta Lambda Chapter   Accounting
Beta Gamma Sigma, Eta Chapter        Business
Chi Epsilon, Cal State L.A. Chapter  Civil Engineering

Pi Tau Sigma, Sigma Kappa Chapter   Mechanical Engineering
Psi Chi, Cal State L.A. Chapter      Psychology
Sigma Delta Pi, Gamma Psi Chapter    Spanish
Sigma Theta Tau                      Nursing
Tau Beta Pi, California Iota Chapter Engineering

Credit Certificate Programs

Certificate programs are designed to augment University curricula by providing specialized instruction and training within a field. These programs usually require significantly fewer units than a degree major. An undergraduate credit certificate program must contain a minimum of 24 quarter units and a graduate level program, 16 units. Normally, courses in certificate programs will be upper division or graduate level, except for prerequisites. Students may transfer from another institution no more than one quarter of the total units required for a certificate (75% of the course work must be completed at Cal State L.A.). A maximum of one quarter (25%) of the total units required for a certificate may be devoted to internships or independent study, or a combination of both. The minimum grade point average required for completion of an undergraduate credit certificate program is C (2.0) and for postbaccalaureate certificates, B (3.0). These grade point average requirements do not pertain to noncredit certificate programs. A Certificate of Completion is awarded upon successful completion of the program requirements. Some certificates are offered within degree majors and can be applied toward a baccalaureate or a master’s degree; others are offered through Continuing Education with the certificate being the main goal.

Cal State L.A. offers the following credit certificate programs that are open to qualified undergraduate students. Additional postbaccalaureate and graduate level programs are listed in the Graduate and Postbaccalaureate Study chapter. Individual certificate program requirements and required courses appear in the program listings of the academic departments, divisions, and schools that offer them.

Accounting

Offered by the Department of Accounting, (213) 343-2830, the program is designed to provide an organized series of courses in accounting for students in other majors who wish to qualify to take a professional accounting examination, to meet civil service educational requirements for employment as a professional accountant or auditor, or to acquire the skills needed for employment as a professional accountant in private industry.

Advanced Information Systems

Offered by the Department of Information Systems, (213) 343-2983, the program is designed to give individuals who are pursuing or have earned a degree in business administration (or have equivalent experience) an introduction to the techniques of information systems design, planning, and management. Applicable toward degrees in business administration.

Alcohol and Drug Problems Specialist

Offered by the Department of Health and Nutritional Sciences, (213) 343-4740, the program prepares students to work in community agencies involved with alcohol and/or drug related problems. Applicable toward degree programs in health science.

Applied Gerontology

Offered by the School of Health and Human Services, (213) 343-4724, this program is designed to enhance the preparation of individuals enrolled in courses or working in health-related disciplines to exercise their effectiveness as practitioners with older populations, particularly ethnic minorities. The program includes instruction about aging in several domains: biological, social/psychological, and policy-social services.

Cartography, Geographic Information Systems and Remote Sensing

Offered by the Department of Geography and Urban Analysis, (213) 343-2220, the program provides a practical approach to the design, layout, and graphics needed in cartographic production.

Child Maltreatment and Family Violence

Offered by the School of Health and Human Services, (213) 343-4600, the program provides individuals from various disciplines with expanded knowledge and formalized education in the area of child abuse and domestic violence, training and field experience in serving this population, and opportunities to qualify for career positions in which multidisciplinary training is required or essential.

Computer Programming

Offered by the Department of Information Systems, (213) 343-2983, the program is designed to prepare individuals for entry-level computer programmer positions. Courses in COBOL programming are required and other programming languages may be studied as electives. Applicable toward the baccalaureate in Business Administration. Also available through Continuing Education, (213) 343-4900, for nonmatriculated students.
Electronics Technology
Offered by the Department of Technology, (213) 343-4550, the program is designed to provide technical knowledge and hands-on skills necessary for employment in electronic manufacturing, electronic field servicing, or electronic design-assisted environment. Applicable toward baccalaureate programs in technology.

Entrepreneurship
Offered by the Department of Marketing, (213) 343-2960, the program is designed to prepare students and business people for careers in small companies: starting companies, managing small businesses, and working in small businesses. The program includes instruction about how to take a product or service from the idea stage through the introduction and growth stages and/or how to successfully manage the business. A focus may be taken in retailing, marketing of services and products, consulting, accounting, finance, or entrepreneurship.

Fashion Design
Offered by the Department of Art, (213) 343-4010, the program provides opportunities for individuals to expand their knowledge and formalized education in the field of fashion design.

Fashion Merchandising
Offered by the Department of Art, (213) 343-4010, the program provides opportunities for individuals to expand their knowledge and formalized education in the field of fashion merchandising.

Fire Protection Risk Analysis and Reduction
Offered by the Department of Technology, (213) 343-4550, the program offers students and individuals in the insurance industry and in private sector fire protection positions a series of professionally related courses in fire protection and fire safety. The program prepares individuals to serve as fire protection and safety specialists, inspectors, evaluators, and managers. Applicable toward the baccalaureate in fire protection administration and technology.

Fire Service Administration
Offered by the Department of Technology, (213) 343-4550, the program offers fire department personnel who hold an associate degree an opportunity to continue their knowledge and formalized education in the elements of effective modern fire department functioning. Course work covers planning, prevention and disaster administration, public administration, and personnel and budgeting administration. Applicable toward the baccalaureate in fire protection administration and technology.

Graphic Design
Offered by the Department of Art, (213) 343-4010, the program is designed to prepare individuals for career positions in graphics, advertising, illustration, and related media industries. The program includes theory, technical methods, creative concepts, and portfolio development. Applicable toward the baccalaureate in art.

Interior Design
Offered by the Department of Art, (213) 343-4010, the program is designed to prepare individuals for careers in all phases of interior design. Course work includes theoretical, technical, and conceptual experiences leading to portfolio development and career placement. Applicable toward the baccalaureate in art.

International Business
Offered by the Department of Marketing, (213) 343-2960, the program prepares students for careers in firms operating on a multinational basis: for careers in import-export, international finance and banking, and international agencies; and for the Commerce Option of the Foreign Service Officer Examination with the federal government, and to provide training for managers of internationally oriented companies in the Los Angeles area. Applicable toward the baccalaureate in Business Administration. This certificate program is also available through Continuing Education, (213) 343-4900, for nonmatriculated students.

International Criminal Justice Administration
Offered by the Department of Criminal Justice, (213) 343-4610, the program is designed to prepare criminal justice practitioners from foreign nations for management and supervisory positions within criminal justice agencies in their own countries. Course work includes theoretical, technical, and conceptual experiences leading to a balanced view of contemporary thinking in the field. Applicable toward the baccalaureate in criminal justice.

International Economic Relations
Offered by the Department of Economics and Statistics, (213) 343-2930, the Certificate Program in International Economic Relations will benefit students to better understand the economic and political factors that influence the global economy. The certificate will help students pursuing careers in federal or state agencies dealing with international affairs, corporations involved in international business and finance, and in international organizations, foundations, and nongovernment agencies.

Marketing
Offered by the Department of Marketing, (213) 343-2960, the program is designed to prepare students in majors other than business for professional careers in marketing in profit or nonprofit organizations. Students may select a focus in marketing management, advertising, public relations, marketing research, retailing, direct response marketing, international marketing, transportation, or financial service marketing. Applicable toward degree programs in business administration. Also available through Continuing Education, (213) 343-4900, for nonmatriculated students.

Obstetrics-Gynecology Nurse Practitioner
Offered by the Department of Nursing, (213) 343-4700, this program is designed for nurses who desire to expand their role by becoming nurse practitioners.

Occupational Safety and Health
Offered by the Department of Health and Nutritional Sciences, (213) 343-4740, the program prepares occupational safety and health professionals to function as generalists in implementing safety and loss control programs in industry or medical institutions. This program was developed in accordance with federal and state legal occupational safety and health acts. Applicable toward the baccalaureate or the master’s degree in health science.

Office Systems
Offered by the Department of Information Systems, (213) 343-2983, the program is designed to provide academic preparation for supervisory positions over the technology, people, and procedures within the organizational and environmental contents of an organization. Includes study of integrated and stand-alone software, electronic spreadsheets, data base management systems, telecommunications, and graphics. Applicable toward the baccalaureate in business education.

Retail Professional Development
Offered by the Department of Marketing, (213) 343-2960, in conjunction with the Institute of Retail Management, the program is designed to provide the skills required for executive positions in the retail industry and to prepare individuals to become successful entrepreneurs in their own retail business. Available through Continuing Education, (213) 343-4900, for nonmatriculated students.
Transportation (Commercial)
Offered by the Department of Marketing, (213) 343-2960, the program is designed for individuals intending to pursue a career or enhance their advancement potential in the field of industrial traffic and transportation or carrier operation. Applicable toward the baccalaureate in business administration. Also available through Continuing Education, (213) 343-4900, for nonmatriculated students.

Urban Land Use and Property Analysis
Offered by the Department of Geography and Urban Analysis, (343-2220) in cooperation with the Department of Finance and Law, the program provides students and professionals with technical and analytical training for evaluating current problems confronting the urban community.

Voluntary Youth Agency Administration
Offered by the School of Health and Human Services in conjunction with American Humanics, Inc., (213) 343-4580, the program is designed to prepare professionals for careers in youth agency administration. Applicable toward baccalaureate programs.

AAPS 200 Pacific Asian Culture, People, and Society (4)

**Electives (28 units)**

With adviser guidance and approval, select a total of 28 units of electives from the following three areas, with no more than 12 units from one area. Students are strongly encouraged to take courses that represent at least two different countries.

**Area I: Language and Literature**

CHIN 200ABC, 201ABC, 300, 408, 410
JAPN 200ABC, 230, 300ABC, 307, 408, 410
Other intermediate or advanced Asian language courses.

**Area II. Art, Music, Philosophy, History, and Religious Studies**

ART 431
CHIN 310
HIST 490AB, 494ABC, 495AB, 496
JAPN 310, 311, 460
MUS 457
PHIL 435
RELS 410

**Area III. Anthropology, Geography, Political Science, and Sociology**

ANTH 414
POLS 452
GEOG 424, 425, 430, 434
SOC 435

**Courses in Asian American and Pacific Studies (AAPS)**

**Lower Division Course**

200 Pacific Asian Culture, People, and Society (4)

Introductory survey of people, history, society, culture, government, and economy in Pacific Asia.

**Upper Division Course**

499 Undergraduate Directed Study (1-4)

Prerequisites: Consent of faculty sponsor, approval of proposed project before registration, ability to assume responsibility for independent research and analysis. Regular discussion of progress with sponsor before presentation of final written report. May be repeated to maximum of 8 units.
ART

School of Arts and Letters

DEPARTMENT OFFICE
Fine Arts 326
Phone (213) 343-4010
FAX (213) 343-4045

Art is the aesthetic study of humankind’s aspirations and accomplishments. The programs of the Department of Art offer students the opportunity to acquire a background of understanding and skills, and to develop their talents in the visual arts. They prepare students for advanced professional study in art as well as for many positions in teaching and in business and industry. Students who intend to pursue careers in advertising, ceramics, costume, photography, or environmental design; illustration; computer graphics; painting; printmaking; sculpture; jewelry and metalcrafting; art history; fashion and textiles; and/or teaching art will find appropriate programs or courses of study in the department.

Students pursuing careers in other fields may benefit from combining the study of art with their professional preparation.

The Bachelor of Arts degree program is described below. The Master of Arts and Master of Fine Arts degree programs are described in the Graduate Programs section.

The Faculty

Professors: Barbara Ann Boyer, Marilyn Buccellati, Abbas Daneshvare, Daniel Douke, Robert R. Fiedler, Edward C. Forde, Tony Longson, Joseph E. Soldate (Chair).

Associate Professors: Elizabeth R. Bryant, John Butler, Susan B. Cash, John Funakura, Carol S. Jeffers, Carol F. Tuntland.

Assistant Professors: Mikeyung Mika Cho, William G. Davidson, Rebecca L. Davis, Michael J. Henderson, Connie Utterback, Patricia Woodlin.

Gallery Director: Joseph E. Soldate

Exhibitions of Work

The Fine Arts Gallery of the Art Department presents exhibitions of artwork by established professional artists as well as faculty and students. Graduate student thesis exhibitions are presented quarterly in the gallery. In addition, the student-run exhibition space, COMA Gallery, presents rotating exhibitions of CSLA student artwork. All exhibitions are free and open to the public.

Bachelor of Arts Degree

The program for the Bachelor of Arts degree in Art is structured so that students have the opportunity to acquire an understanding of the variety of subjects encompassed within the visual arts as well as to develop excellence in a specific area.

Requirements for the Major (90-117 units)

All students majoring in Art, except those in the Art History and Fashion and Textiles options, participate in an exploratory and fundamental core program of 30-33 quarter units of lower division and 21 units of upper division courses.

Completion of lower division core courses or their equivalent and achievement of upper division standing are prerequisite to admission to upper division art courses. Students not majoring or minor- ing in Art must have consent of the instructor.

To complete the remaining 33 of the 90-95 units required for the major in Art, students select one of three option programs (the fourth and fifth options, art history and fashion and textiles, have separate cores), in consultation with an adviser.

Credit for ART 499, if taken, is limited to 9 units, with no more than 3 units in any one quarter. Nine units may be used for electives.

Required Core (57-62 units)

Lower Division Required Courses (30-33 units)

Options

Students elect one of the following options to complete their major. Prerequisites to admission to an option are upper division standing and completion of the core. Students within 6 units of completing core requirements may take courses within their option with departmental permission.
• **Design Option (33 units)**
The Design option is planned to develop an understanding of design theory necessary for production of ideas in the following career interest areas: computer graphics; fashion design, textile and fiber arts; graphic design and advertising; illustration; interior and architectural design; metals and jewelry; and photography.

**Required Courses (9 units)**

- ART 312 Rendering: An Introduction (3)
- ART 323 Perspective Drawing (3)
- ART 333 Color (3)

Select 18 units of upper division art courses, excluding ART 499, with adviser approval, from those listed below. Recommended career interest areas are:

- Computer Graphics
  - ART 380, 403, 418, 433, 454L,P, 463, 468, 480, 494
- Fashion Design, Textiles, and Fiber Arts
- Graphic Design and Advertising
  - ART 308, 313, 332, 380, 408, 413, 418, 423, 448, 453, 454L,P, 463, 468, 480, 493, 494
- Illustration
  - ART 388, 418, 433, 453, 454L,P, 463, 468, 488
- Interior and Architectural Design
  - ART 322, 328, 343, 380, 403, 418, 428, 433, 443, 454L,P, 463, 468, 480
- Metals and Jewelry
  - ART 327, 418, 427, 454L,P, 463, 468, 472
- Photography
  - ART 377, 387, 392, 402, 454L,P, 463, 468, 477, 482, 483, 487, 497

**Electives (6 units)**

Select upper division art courses, excluding ART 499, with adviser approval.

• **Single Subject Teaching Option (37 units)**
The Single Subject teaching option is planned for art majors who are also candidates for the Single Subject teaching credential. It is designed to acquaint students with concepts and processes associated with the visual arts as identified by the California Commission on Teacher Credentialing. Refer to the undergraduate Charter School of Education chapter of this catalog for regulations governing all teaching credential programs. Students electing this option should seek advisement from both the department and the Charter School of Education.

**Required Courses (16 units)**

- ART 400 Development of Literacy in Visual Arts (4)
- ART 405 Exploring Art Concepts and Media (4)
- ART 460 Multicultural Approaches to Visual Arts (4)
- PHIL 475 Aesthetics (4)

**Electives (21 units)**

Select art courses from one of the other three options.

• **Studio Arts Option (33 units)**
The Studio Arts option is planned for the development of perceptual and conceptual abilities needed for engaging in creative visual expression. A minimum of 33 units is required, distributed in the following pattern:

**Required Courses (minimum 27 units)**

Select from following:

- ART 307 Intermediate Ceramics (3)
- ART 314 Sculpture: Plaster and Stone (3)
- ART 319 Sculpture: Wood (3)
- ART 364 Intermediate Drawing (3)
- ART 374 Intermediate Painting (3)
- ART 377 Intermediate Photography (4)
- ART 380 Computer Graphics I (4)
- ART 387 Color Negative Photography (4)
- ART 392 Color Transparency Photography (4)
- ART 402 Advanced Color Photography (4)
- ART 404 Studio Seminar (4)
- ART 409 Sculpture: Clay Modeling (3)
- ART 412 Advanced Ceramics (3)
- ART 414 Advanced Painting and Drawing (3)
- ART 417 Advanced Ceramic Processes (3)
- ART 419 Sculpture: Metal (3)
- ART 424 Printmaking: Lithography (3)
- ART 429 Sculpture: Plastics (3)
- ART 434 Watercolor Painting (3)
- ART 439 Sculpture: Exhibition (3)
- ART 453 Airbrush Techniques (3)
- ART 454L,P Special Topics in Art (1-4)
- ART 464 Life Composition (3)
- ART 474 Printmaking: Etching (3)
- ART 477 History of Photography (4)
- ART 479 Silkscreen/Serigraphy (3)
- ART 480 Computer Graphics II (4)
- ART 482 Photographic Manipulations and Extensions (4)
- ART 483 Photographic Studio Techniques (4)
- ART 484 Advanced Sculpture (3)
- ART 487 Advanced Photography (4)
- ART 494 Computer Graphics Animation (4)
- ART 497 Large Format Photography (4)

**Electives (6 units)**

Select upper division art courses, excluding ART 499, with approval of adviser.

• **Art History Option (91-95 units)**

Students who select this option complete a separate core described below, incorporating foundations courses within a total of 27-31 units in lower division and 8 units in upper division courses. In addition to the core, 56 units are required in the option.

The Art History option covers historical and developmental studies of art in most of the world’s civilizations. It is intended to develop the student’s ability to evaluate and comprehend concepts and issues within this cultural heritage.

**Art History Core**

**Lower Division Required Courses (21-23 units)**

- ART 101ABC World Art (4, 4, 4)
- ART 103 Design I (3) or
- ART 153 Survey and Studio: Introduction to Design (4)
- ART 104 Introduction to Drawing (3) or
- ART 159 Survey and Studio: Drawing (4)
- ART 244 Introduction to Life Drawing (3)

Select two from following (6-8 units):

- ART 102 Introduction to Clay and Ceramic Processes (3) or
- ART 152 Survey and Studio: Introduction to Ceramics (4)
ART 155 Survey and Studio: Painting (4) or
ART 234 Introduction to Painting (3)
ART 203 Design II (3)
CIS/SOCS 280 The Computer World (4)
CIS 294 Business Computer Systems (4)

Upper Division Required Courses (8 units)
ART 356 Written Expression in Visual Arts (4)
ART 426 Modern Art (4)

Area of Specialization
Required Courses (56 units)—select from following:
ART 406 Ancient Near Eastern Art and Archaeology (4)
ART 411 Greek and Roman Art (4)
ART 416 Medieval Art (4)
ART 421 Baroque Art (4)
ART 431 Oriental Art (4)
ART 436 Renaissance Art (4)
ART 441 American Art (4)
ART 446 Art of Latin America (4)
ART 451 Mannerism: High Renaissance to Baroque (4)
ART 454L,P Special Topics in Art (1-4)
ART 461 Oceanic and North American Indian Art (4)
ART 466 Nineteenth Century Art (4)
ART 471 History of Costume I (4)
ART 476 Early Christian and Byzantine Art (4)
ART 477 History of Photography (4)
ART 481 African Art (4)
ART 486 History of Costume II (4)
ART 491 Art Since 1945 (4)
*FREN 100ABC Elementary French (4, 4, 4) or
*GERM 100ABC Elementary German (4, 4, 4)

*Required of students planning graduate study.

- Fashion and Textiles Option (114-117)
The Fashion and Textiles option is planned to provide students an understanding of the cultural and social basis of human appearance and adornment as well as a sound foundation in the visual arts. This theoretical and technical program of study prepares students for careers in the full range of the apparel and textile design, manufacturing, and merchandising industries.

Students may select one of three specializations within the option: Fashion Design, Fashion Merchandising, or Textiles.

Students who select this option complete a separate core described below, incorporating 38 units in lower division and 39 units in upper division courses. In addition to the core, 37-40 units are required in the option.

General Education Support Courses (12 units)
ECON 150 Economics for the Citizen (4)
PSY 150 Introductory Psychology (4)
SOC 201 Principles of Sociology (4)
ANTH 250 Cultural Anthropology (4)

Fashion and Textiles Core
Lower Division:
ART 101A World Art (4)
ART 106 Apparel Construction (4)
ART 153 Survey and Studio: Intro to Design (4)
ART 156 Introduction to Fashion (4)
ART 159 Survey and Studio: Drawing (4)
ART 204 Fashion Design: Flat Pattern I (4)
ART 206 Fashion Merchandising Concepts (4)

- Fashion Design Specialization (38-40 units)
Required Courses (29 units)
ART 108 Apparel Construction II (3)
ART 304 Fashion Design: Flat Pattern II (4)
ART 306 Fashion Design: Draping I (3)
ART 373 Creative Fashion Design (3)
ART 378 Fashion Illustration (3)
ART 384 Computers in Fashion Design (4)
ART 459 Tailoring (3)
ART 463 Portfolio Presentation (3)
ART 489 Fashion Design: Draping II (3)

Electives Select 3 courses (9-11 units)
ART 272 Introduction to Jewelry (3)
ART 312 Rendering: And Introduction (3)
ART 380 Computer Graphics (4)
ART 418 Business Principles and Practices for Artists and Designers (4)
ART 427 Advanced Jewelry and Metalsmithing (3)
TA 426 Introduction to Stage Costuming (3)
TA 427 Stage Costume Design (4)

- Fashion Merchandising Specialization (37-40 units)
Required Courses (24 units)
ART 382 Computers in Fashion Merchandising (4)
ART 430 Fashion Merchandising Processes (4)
ART 444 Fashion Promotion (4)
MKT 304 Principles of Marketing (4)
MKT 342 Consumer Behavior (4)
MGMT 307 Management and Organizational Behavior (4)

Electives: Select 4 courses (13-16 units)
ART 272 Introduction to Jewelry (3)
ART 304 Fashion Design: Flat Pattern II (4)
ART 312 Rendering: An Introduction (3)
ART 380 Computer Graphics (4)
ART 418 Business Principles and Practices for Artists and Designers (4)
ART 427 Advanced Jewelry and Metalsmithing (3)
MKT 344 Principles of Retailing (4)
MKT 457 Import-Export (4)
CIS 294 Business Computer Systems (4)

- Textiles Specialization (37-40 units)
Required Courses (24 units)
ART 202 Introduction to Weaving: Loom Techniques (3)
ART 338 Textile Design (3)
ART 388 Computers in Textiles (4)
CHEM 151 Fundamentals of Chemistry I (5)
CHEM 152 Fundamentals of Chemistry II (5)
EDFN 452 Statistics in Education (4)

**Electives:** Select 4 courses (13-16 units)

ART 373 Creative Fashion Design (3)
ART 430 Fashion Merchandising Processes (4)
ART 433 Advanced Color (3)
ART 438 Advanced Textile Design (3)
ART 444 Fashion Promotion (4)
ART 463 Portfolio Presentation (3)

**Minor in Art**
A minor in Art is available for students majoring in other fields and requires 42-46 units in art courses.

**Requirements for the Minor (42-46 units)**

**Lower Division Required Courses (12-16 units)**

ART 244, 424, 448, 453, 464, 479, TECH 438

**The Credential Program**
The Bachelor of Arts degree in Art with the credential option has been approved by the Commission on Teacher Credentialing for the Single Subject credential in Art. Interested students should consult advisers in the department and in the Charter School of Education.

**Courses in Art (ART)**

† There is a special fee associated with registering for classes that carry this designation. Details appear in the Schedule of Classes.

**Lower Division Courses**

101ABC World Art (4, 4, 4)
Survey of historical development of painting, sculpture, and architecture throughout the world. CAN ART SEQ A

101A: from Paleolithic period to approximately 1000 A.D.;
101B: from approximately 1000 A.D. to end of Renaissance in Europe;
101C: from end of Renaissance in Europe to the present.

†102 Introduction to Clay and Ceramic Processes (3)
Orientation to ceramic processes; hand-building techniques for pottery and sculpture; historical examples from different periods and cultures related to form and surface treatment and glaze application. Activity 6 hours.

103 Design I (3)
Introductory studies of elements and principles of art in two-dimensional design theory. Activity 6 hours.

104 Introduction to Drawing (3)
Drawing experiences involving development of form, structure, light and dark, and relationships of visual structural elements. Activity 6 hours.

106 Apparel Construction I (3)
Clothing construction techniques, with emphasis on application of principles. Lecture-laboratory 6 hours.

108 Apparel Construction II (3)
Advanced processes of apparel construction and finishing. Application of couture techniques and methods. Activity 6 hours.

151 Introduction to Art Appreciation (4)
Appreciation and understanding of visual arts. Sociology, psychology, communication, and aesthetics of drawing, painting, sculpture, crafts, industrial design, architecture, photography, and motion pictures.

152 Survey and Studio: Introduction to Ceramics (4)
Human development and the arts as experienced through ceramics/sculpture; history, forms, functions, interrelationships, and symbolism correlated with personal exploration. Lecture 2 hours, activity 4 hours.
153 Survey and Studio: Introduction to Design (4)
The role of design and its influences on human development; history, functions, cultural survey, and symbolism correlated with personal exploration. Lecture 2 hours, activity 4 hours.
CAN ART 14
155 Survey and Studio: Painting (4)
Human development and the arts as experienced through painting; history, forms, functions, interrelationships, and symbolism correlated with personal exploration. Lecture 2 hours, activity 4 hours.
156 Introduction to Fashion (4)
An introduction to the basic elements of fashion, including design, manufacturing, distribution, merchandising, and textiles.
157 Survey and Studio: Metals, Jewelry, Enamels (4)
Human development and the arts as experienced through metals, jewelry, enamels; history, forms, functions, symbolism integrated with personal exploration. Lecture 2 hours, activity 4 hours.
158 Survey and Studio: Weaving/Fiber Arts (4)
The role of weaving and fiber arts in art and human development; history, techniques, forms, and iconology correlated with personal exploration. Lecture 2 hours, activity 4 hours.
159 Survey and Studio: Drawing (4)
Human development and the arts as experienced through drawing; history, forms, functions, interrelationships, and symbolism correlated with personal exploration. Lecture 2 hours, activity 4 hours. CAN ART 8
202 Introduction to Weaving: Loom Techniques (3)
Techniques of weaving on a multiple harness loom. Warping, dressing loom, basic weaves, pattern drafts, and other necessary knowledge and skill. Activity 6 hours.
203 Design II (3)
Prerequisite: ART 103. Two and three-dimensional studies of elements and principles of art with emphasis on color theory. Meets 6 hours weekly. CAN ART 16
204 Fashion Design: Flat Pattern I(4)
Prerequisite: ART 106, 208, or instructor consent. Principles and techniques of pattern making, with emphasis on style development and fitting. Lecture-laboratory 8 hours.
206 Fashion Merchandising Concepts (4)
Concepts, principles, and overview of fashion merchandising.
207 Introduction to Metals and Enamels (3)
Exploration of characteristics of metals and enamels; introduction to basic tools, techniques, and processes; emphasis on design possibilities inherent in nonsolder joining, texturing, forging, and application of enamels. Activity 6 hours.
208 Textiles (4)
Fundamental study of fibers, yarns, fabrics, color, and finishes; emphasis on properties and performance in relation to selection, use, and care. Lecture 3 hours, laboratory 2 hours.
Art for the Young Child (4)
Exploring visual arts in relation to aesthetic, emotional, intellectual, and social growth of young children. Lecture 2 hours, activity 4 hours.
212 Introduction to Weaving: Knotting Techniques (3)
Methods of structuring with fiber including knotting, macrame, loom-free and primitive weaving; fabric constructions involving collage, applique, stitchery, and three-dimensional forms. May include field trips. Activity 6 hours.
214 Apparel Analysis (4)
Prerequisite: ART 208. Knowledge, analysis, and evaluation of fashion products.
234 Introduction to Painting (3)
Creative use of color based on an understanding of visual structural elements; study and manipulation of various media including watercolor and oil. Activity 6 hours.
244 Introduction to Life Drawing (3)
Basic concepts of figure drawing; experimentation leading toward understanding of form, structure, and proportions of human figure as applied to visual expression. Activity 6 hours.
254L,P Special Topics in Art (1-4)
Prerequisite: As needed for specific topic. Current topics of special interest, as announced in Schedule of Classes. May be repeated to maximum of 9 units.
272 Introduction to Jewelry (3)
Design and fabrication of basic jewelry techniques; lost wax casting; texturing; forming; linking; soldering; bezel stone setting; use of bronze, silver, and other nonferrous metals. Activity 6 hours.
287 Introduction to Photographic Processes (4)
Basic principles of photography: tools, materials, philosophies, and techniques of photography as an expressive medium. Students furnish their own cameras. Lecture 2 hours, laboratory 4 hours. CAN ART 18
Upper Division Courses
Upper division standing is prerequisite to enrollment in all upper division art courses. Students majoring or minorin in Art must have completed applicable lower division core courses or equivalents; students in other fields must have instructor consent.
302 Social Aspects of Fashion (4)
Prerequisite: GE social science requirement. Study of fashion from a sociological and psychological perspective with particular emphasis on the processes people use to associate apparel and appearance with certain meanings, and the social consequences of those meanings.
303 Theories of Three-Dimensional Applied Design (3)
Prerequisite: GE social science requirement. Study of fashion from a sociological and psychological perspective with particular emphasis on the processes people use to associate apparel and appearance with certain meanings, and the social consequences of those meanings.
304 Fashion Design: Flat Pattern II (4)
Prerequisite: ART 204. Advanced fashion designing through the pattern methods. Activity 8 hours.
306 Fashion Design: Draping I (4)
Prerequisite: ART 204. Precision draping; principles and techniques of creating design on the dress form. Lecture-laboratory 6 hours.
307 Intermediate Ceramics (3)
Prerequisite: ART 152 or instructor consent. Intermediate level study of ceramic concepts and processes. Activity 6 hours. May be repeated to maximum of 6 units.
308 Graphic Design I (3)
Prerequisites: ART 313, 332. Layout skills; use of artists' media and tools in graphic design and knowledge of various graphic processes. Activity 6 hours.

†309 Sculpture: Basic Approaches (3)
Introductory experiences in three principal sculptural approaches of modeling, carving, and construction; physical characteristics of various materials used in sculpture and aesthetic concepts involved in basic approaches. Activity 6 hours.

312 Rendering: An Introduction (3)
Rendering techniques for all phases of design; control of value to distinguish objects, show distance and space, describe form, organize composition, and achieve atmosphere; various media employed. Activity 6 hours. May include field trips. May be repeated to maximum of 6 units.

313 Lettering I (3)
Theoretical and historical background of lettering. Development of basic skills in beginning lettering and calligraphic techniques. Activity 6 hours.

†314 Sculpture: Plaster and Stone (3)
Basic sculptural experiences and use of sculpture tools; work in stone, plaster, and cement; direct carving and modeling; armature construction. Activity 6 hours. May be repeated to maximum of 6 units.

†319 Sculpture: Wood (3)
Basic sculpture concepts and techniques of direct wood carving and construction. Other materials used to supplement use of wood in exploration of contemporary concepts of sculpture. Activity 6 hours. May be repeated to maximum of 6 units.

322 Rendering: Architectural and Interiors (3)
Prerequisite: ART 312. Intermediate course in rendering of architectural projects both exterior and interior; descriptive techniques using markers and pencils on various papers/surfaces. May be repeated to maximum of 6 units.

323 Perspective Drawing (3)
Laboratory course designed to develop skills in perspective drawing including orthographic projection, isometric drawing, and rendering. Activity 6 hours.

†327 Intermediate Enameling (3)
Prerequisite: ART 207. Intermediate exploration of techniques and processes with emphasis on design and craftsmanship.

328 Interior Design (3)
Prerequisites: ART 322, 323. Interior design spaces, interior appointments, color usage, space-object relationships of interior traffic patterns. Activity 6 hours. May include field trips.

332 Rendering: Graphics and Product (3)
Prerequisite: ART 312, Rendering techniques and studies for the product and graphic designer, emphasizing methods of formal presentation techniques. May be repeated to maximum of 6 units.

333 Color (3)
Prerequisite: ART 203. Study and interaction of color; laboratory work in subtractive color and defined problems in theory of color design. Activity 6 hours.

†338 Textile Design (3)
Prerequisite: ART 203. Fundamental theories, concepts, and processes used for printed textile ornamentation. Activity 6 hours. May include field trips.

341 The American Landscape in Art (4)
Historical survey and analysis of the landscape and visions of the U.S. in art and architecture from 1700 to the present. Theories and principles of art, especially landscape painting.

343 Architectural Design (3)
Prerequisites: ART 313, 322. Historical and contemporary architectural ideas and solutions: simple layout skills, media, and tools as they relate to architectural designer. Activity 6 hours. May include field trips.

351 Art Appreciation (4)
Development of an understanding of world art through the study of its structure, history, and significant works. Attendance at selected galleries required.

352 Architectural Lighting Design (4)
Prerequisite: ART 343. Architectural lighting design with emphasis on linking theory, design concepts, application and environmental considerations. Activity 6 hours. May include field trips.

356 Written Expression in Visual Arts (4)
Prerequisite: Satisfactory completion of Graduation Writing Assessment Requirement (GWAR). Study and practice in forms of writing pertaining to art including theory, criticism, and historical research and analysis.

357 Creative Experiences for Health and Wellness (4)
(also listed as DANC 357, MUS 357, and TA 357)
Prerequisites: ART 151 or MUS 150 or 160; DANC 157 or TA 152 or HS 150. Exploring health and wellness through participation in the creative arts - dance, visual arts, music and theatre arts.

364 Intermediate Drawing (3)
Prerequisite: ART 104. Composition with diversified subjects other than life model; comprehensive drawings in line, value, and shape. May include field trips. Activity 6 hours.

373 Creative Fashion Design (3)
Prerequisites: ART 203, 244. Basic studies in creative fashion design and body ornamentation formulated through the application of elements and principles of art.

374 Intermediate Painting (3)
Prerequisite: ART 234. Intensive study in style and subject matter in painting. May include field trips. Activity 6 hours.

377 Intermediate Photography (4)
Prerequisite: ART 287. Development of individual creative approaches and philosophies in photography as well as strengthening of controls and techniques of black and white processes. Camera required.

378 Fashion Illustration (3)
Prerequisite: ART 244. Fashion design, its relation to high style and commercial development of fashion; rendering and production methods. May include field trips. Activity 6 hours.

380 Computer Graphics I (4)
Computers in art and design; descriptions, functions, visual problem solving, programming, computer graphics, applications in visual imagery and design. May be repeated to maximum of 8 units. Lecture 2 hours, laboratory 4 hours.
381 Legacy of Ancient Literature and Art (4)
(also listed as ENGL 381)
Prerequisite: ENGL 250. Legacy of ancient literature and art in modern literature and art through focus on three themes: the self and self-consciousness, society, and nature.

382 Computers in Fashion Merchandising (4)
Prerequisites: Art 206, Introductory computer course. Computers in art and design; applications for apparel manufacturing, retailing, and promotion which include descriptions, functions, visual problem solving, and computer technology in the global marketplace. Lecture 2 hours, Activity 4 hours. Can be repeated up to 8 units.

384 Computers in Fashion Design (4)
Prerequisite: Art 204, Introductory computer course. Computers in art and design. Manipulation and integration of two and three dimensional objects for problem solving using computer applications for apparel design. Lecture 2 hours, activity 4 hours. Can be repeated for up to 8 units.

386 Computers in Textiles (4)
Prerequisite: Art 208, Introductory computer course. Computers in art and design. Information and specific computer applications for the textiles industry, including weaving and knitting technology and surface design. May include field trips. Lecture 2 hours, Activity 4 hours. Can be repeated up to 8 units.

387 Color Negative Photography (4)
Prerequisite: ART 377. Introduction to color negative films and paper; work with properties of color negative film and producing prints from color negative materials. Lecture 2 hours, activity 4 hours.

388 Illustration (3)
Prerequisite: ART 203. Problems in illustration emphasizing composition techniques using various media. May include field trips. Activity 6 hours.

392 Color Transparency Photography (4)
Prerequisite: ART 377. Introduction to color transparency films and printing materials; work with properties of slide films and producing prints from slide materials. Lecture 2 hours, laboratory 4 hours.

400 Development of Literacy in Visual Arts (4)
Investigation of perceptual, expressive, historical, and cultural components associated with visual-aesthetic phenomena. Lectures, studio experience, and visits to art exhibits.

401 Proseminar: Critical Theories in Visual Arts (3)
Prerequisites: ART 101A or 101C; 426; senior standing as Art major or recommendation of department. Systematic approach to art theory, criticism, and evaluation within the visual arts; development of independent critical and artistic viewpoints with regard to creation of art forms.

402 Advanced Color Photography (4)
Prerequisite: ART 392. Advanced techniques, theories, history of color photography; student production of comprehensive body of work utilizing color processes. Lecture 2 hours, activity 4 hours. May be repeated to maximum of 8 units.

403 Advanced Three-Dimensional Design (3)
Prerequisite: ART 203. Studies in design of space modulation and motion; innovative three-dimensional forms. Activity 6 hours. May be repeated to maximum of 6 units.

404 Studio Seminar (4)
Prerequisite: ART 401. On-site examination of contemporary art in artists' studios in Los Angeles; practical application of theory and interaction with artists in their work place. May be repeated to maximum of 12 units.

405 Exploring Art Concepts and Media (4)
Prerequisite: Lower division art major or minor core. Exploration and analysis of art concepts and media suitable for developing expressive, appreciative, critical, and pedagogical skills. Lecture 2 hours, activity 4 hours.

406 Ancient Near Eastern Art and Archaeology (4)
Art and archaeology of ancient Mesopotamia, Egypt, Crete, and Greece. Principal monuments of architecture, sculpture, and the applied arts.

407 Fiber Arts (3)
Prerequisite: ART 103 or 153. Creative and expressive potential of fibers including techniques using loom weaving, papermaking, and 3-D fiber construction. May be repeated to maximum of 9 units.

408 Graphic Design II (3)
Prerequisite: ART 308. Studies developing layout skills, use of artists' media and tools in graphic design, and knowledge of graphic processes. Activity 6 hours. May be repeated to maximum of 6 units.

409 Sculpture: Clay Modeling (3)
Prerequisite: ART 309. Advanced clay modeling and construction; anatomical studies from model, physical, and aesthetic properties of clay as a medium of personal expression. Activity 6 hours.

410 Art Experiences for Exceptional Children (3)
Art education concepts relative to requirements of retarded or handicapped children; work in two-dimensional and three-dimensional materials and skills appropriate to individual abilities. Activity 6 hours.

411 Greek and Roman Art (4)
Art of Greece, its development in Hellenistic and Roman times, and the Etruscan influences.

412 Advanced Ceramics (3)
Prerequisite: ART 307. Formation of ceramic art forms by means of wheel-throw and hand-construction methods. Activity 6 hours. May be repeated to maximum of 9 units.

413 Lettering II and Typography (3)
Prerequisite: ART 313. Advanced studies and development of skills in use of lettering, calligraphy, and typography. Lecture and activity 6 hours. May be repeated to maximum of 6 units.

414 Advanced Painting and Drawing (3)
Prerequisites: ART 234, 244. Studio approaches to painting techniques and pictorial organization. May be repeated to maximum of 24 units, and to maximum of 9 units with any one instructor. Activity 6 hours.

415 Foundations of Art (4)
Philosophical, historical, cultural, and psychological factors in creation of a response to visual-aesthetic form.

416 Medieval Art (4)
Principal monuments of Medieval architecture, sculpture, and painting covering the Celtic, Carolingian, Ottonian, Romanesque, and Gothic periods.
†417 Advanced Ceramic Processes (3)
Prerequisite: ART 412. Advanced ceramic technology, clay, glazes; practical applications to all clay forms. May be repeated to maximum of 9 units.

418 Business Principles and Practices for Artists and Designers (4)
Business management for small design or studio offices; training in freelance procedures, billing, contracts, portfolios, licenses, and artist representation: survival strategies.

†419 Sculpture: Metal (3)
Prerequisite: ART 314 or 319. Lost-wax method of casting non-ferrous metals, welding, and braced sculpture. Activity 6 hours. May be repeated to maximum of 9 units.

420 Textile and Apparel Economics (4)
Prerequisite: Econ 150 or 201 or 202. Examination of linkages between the textile and apparel complex industries on a global basis. Consideration of design, merchandising and textiles.

421 Baroque Art (4)
Art of western Europe from 16th through late 17th century.

423 Product Design (3)
Prerequisites: ART 332,403. Manipulation of three-dimensional form relative to functional and merchandising requirements of industrial assignments. Activity 6 hours. May be repeated to maximum of 6 units.

†424 Printmaking: Lithography (3)
Prerequisite: Lower division art major core. Graphic processes of lithography: work in black and white and color. Activity 6 hours. May be repeated to maximum of 12 units.

†425 Art as a Recreational Activity (3)
Prerequisite: ART 400. Theory and practice of arts and crafts for varied recreational settings based on relationship of creative arts to leisure. Lecture 1 hour, activity 4 hours.

426 Modern Art (4)
Evolution of modern painting, sculpture, and architecture since Impressionism; surrealism, Russian constructivism, and abstract expressionism.

†427 Advanced Jewelry and Metalsmithing (3)
Prerequisite: ART 272. Lost-wax casting of precious and non-precious metals, traditional and contemporary stone setting, and advanced fabrication of jewelry-like forms including commercial production methods, electrofabrication, raising, and hot and cold forging techniques, Activity 6 hours. May be repeated to maximum of 15 units.

428 Advanced Interior Design (3)
Prerequisite: ART 328. Elements of visual expression and design related to historical and contemporary concepts of interior work and living space needs. Activity 6 hours. May be repeated to maximum of 6 units.

†429 Sculpture: Plastics (3)
Prerequisite: ART 309. Basic study in sculptural techniques and concepts through exploration of plastics. Activity 6 hours. May include field trips. May be repeated to maximum of 6 units.

430 Fashion Merchandising Processes (4)
Prerequisites: ART 206, MKT 344. Merchandising processes and fashion promotion strategies: planning, buying, and control of fashion products.

431 Oriental Art (4)
Ancient graphic and plastic arts of China, Japan, India, and Persia. Evaluation of their contribution to art expressions of present day. Offered in two sections: China and Japan considered in one, and India and Persia in the other. May be repeated to maximum of 8 units.

432 Advanced Rendering (3)
Prerequisite: ART 322 or 332. Advanced rapid visualization and rendering techniques necessary for the development of creative design and visual communication. May be repeated to maximum of 6 units.

433 Advanced Color (3)
Prerequisite: ART 333. Phenomena of color, color perception, and color control for heightened visual experience. Work with defined problems in hue, value, and chroma. Activity 6 hours. May be repeated to maximum of 6 units.

434 Watercolor Painting (3)
Prerequisite: ART 155 or 234. Techniques of watercolor painting; advanced studies in pictorial composition through landscape, figure, still life, and abstract painting. May be repeated to maximum of 9 units.

†435 Exploring the Arts in Early Childhood (4)
Prerequisite: ART 210 or 410. A conceptual and experimental approach to the interrelationship of visual arts and dance in the education of young children. Studio experiences included. Lecture 2 hours, activity 4 hours.

436 Renaissance Art (4)
Art of Europe from 15th and 16th centuries.

437 Creative Fabric Art (3)
Prerequisite: ART 103 or 153. Manipulation of fabric as an art form: color, design, patterning through pigmentation, multimedia; historical background and contemporary focus. May be repeated to maximum of 6 units.

†438 Advanced Textile Design (3)
Prerequisite: ART 338. Advanced theories, concepts, and procedures in dyeing and printing techniques for textile ornamentation. May be repeated to maximum of 6 units.

439 Sculpture: Exhibition (3)
Prerequisite: Senior standing. Student project demonstrating mastery of selected aspects of sculpture, culminating in student display of work. Activity 6 hours. May include field trips. May be repeated to maximum of 6 units.

†440 Basic Craft Materials and Processes (3)
Exploration of meanings and techniques associated with basic handcraft forms. Activity 6 hours.

441 American Art (4)
History of painting, sculpture, architecture, and minor arts of America from colonial times to present.

442 Advanced Textiles: (4)
Prerequisite: ART 208. Evaluation of research, technical developments, and issues related to the production and consumption of textile products.

443 Advanced Architectural Design (3)
Prerequisites: ART 323, 343. Study in external development of space, scale, human measurement, and space planning. Activity six hours. May be repeated to maximum of 6 units.
444 Fashion Promotion (4)
Prerequisites: ART 206, 209; MKT 340. Merchandising process and strategies; advertising and sales promotion of fashion products.

†445 Art as Therapy (4)
Prerequisites: Lower division Art major core, PSY 410AB. Fundamental concepts and activities appropriate for therapeutic uses of art with the emotionally and socially disoriented. May be repeated to maximum of 8 units.

446 Art of Latin America (4)
Art of Latin America from ancient civilizations to contemporary painting, crafts, and architecture.

447 Advanced Weaving (3)
Prerequisite: ART 202. Advanced techniques using multiple harness loom; production of two- and three-dimensional woven forms; traditional pattern weaving and tubular weaving with creative adaptations for art forms and utilitarian design. Activity 6 hours. May be repeated to maximum of 12 units.

448 Exhibition Design (3)
Prerequisites: ART 303, 328. Theory and techniques of exhibition and display design; evaluation and analysis of its communicative, aesthetic, and technical factors through practical application. Activity 6 hours. May be repeated to maximum of 9 units.

449 Video for Artists (2)
Prerequisite: Art 287 or consent of instructor. Examination of contemporary video art through required readings, viewing artists’ video and student production of video work. Lecture 2 hours, activity 4 hours. May be repeated to maximum of 8 units.

450 Art, Religion, and Technology (4)
(also listed as RELS 450)
Prerequisite: RELS 200 or PHIL 238 or ART 101A, 101B, or 101C. Relations among art, religion, and technology in selected periods of history in major cultures of the world.

451 Mannerism: High Renaissance to Baroque (4)
Sixteenth century architecture, painting, sculpture, and minor arts from High Renaissance to Baroque.

452 Advanced Architectural Lighting Design (4)
Prerequisite: ART 352. Exploration of advanced, professional architectural lighting design theory, technology and energy management, using case studies to illustrate the application of principles. Activity 6 hours. May include field trips.

453 Airbrush Techniques (3)
Intensive study in airbrush painting techniques; spray-coloring, stenciling, product illustration, and rendering. Emphasizes graphic illustration and photo realism. May be repeated to maximum of 6 units.

454L,P Special Topics in Art (1-4)
Prerequisites: Upper division standing; courses as needed for specific topic. Current topics of special interest, as announced in Schedule of Classes. May be repeated to maximum of 9 units.

455 The Creative Genius in Art and Music (4)
(also listed as MUS 455)
Great artists and musicians throughout history; their philosophy, innovations, accomplishments, and effects on culture and history.

456 Nature, Environment, and the Arts (4)
(also listed as MUS 456)
Human attitudes toward the natural environment as revealed in the visual arts and music. Analysis and interpretation of examples from various periods and cultures.

457 Art and Civilization (4)
Development of world civilization as manifested through art and architecture from ancient Middle East through modern era; history, forms, symbolism, and relationships with other cultural and technological phenomena.

458 Advanced Airbrush Techniques (3)
Prerequisite: ART 453. Advanced studies in airbrush painting techniques; utilization of varied stenciling techniques with emphasis on graphic illustration of subject matter. May be repeated to maximum of 6 units.

459 Tailoring (4)
Prerequisite: ART 204. Principles and techniques used in tailoring of coats and suits. Lecture-laboratory 6 hours.

460 Multicultural Approaches to Visual Arts (4)
Prerequisites: ART 351, ANTH 250 (may be taken concurrently). Analysis of art experience as human behavior responsive to sociological, ecological, political and historical conditions in American and other cultures. Specially recommended for students preparing for bilingual/crosscultural specialist credential.

461 Oceanic and North American Indian Art (4)
Historic and traditional art of Pacific areas of Micronesia, Melanesia, Polynesia, and of American Northwest Coast and Southwest Indian art.

462 Textile Performance (4)
Prerequisite: Art 208. Laboratory evaluation, characterization, and analysis of textiles fabrics and finishes. Basic principles of textile testing, relationship between fabric structure and performance, and development of fabric specifications. Lecture 2 hours, laboratory 4 hours.

463 Portfolio Presentation (3)
Portfolio development techniques for art students including bookbinding and photography techniques; collecting, matting, and evaluating art work. Preparatory to starting professional art career. Activity 6 hours. May be repeated to maximum of 6 units.

464 Life Composition (3)
Use of human figure in composition, utilizing various media and techniques. Activity 6 hours. May be repeated to maximum of 12 units.

†465 Theory and Practice of Art Therapy (4)
History, theoretical approaches to, and practical applications of art therapy.

466 Nineteenth Century Art (4)
Art of western Europe from David to end of nineteenth century.

467 Loom-Free Fiber Structures (3)
Prerequisite: Lower division art major core; ART 212 for other majors. Exploration of loom-free fiber techniques: knotless netting, crochet, coiling, twining, bobbin lace, and macrame. Activity 6 hours.

468 Problems in Advanced Design (3)
Prerequisite: Senior standing in design option. Advanced investigations and concepts in aesthetics; materials and techniques relevant to professional practice requirements. Activity 6 hours. May include field trips. May be repeated to maximum of 9 units.
469 Historic Textiles (4)
Prerequisite: FSCS 208. Historic textiles from earliest times to present; records and preserved textiles viewed as reflections of life and textile development of countries and major civilizations.

470 Directed Field Work in Art/Art Therapy (1-4)
Prerequisites: Art major core, ART 425 or 445. Supervised art observation and participation in nonschool recreation, therapy or nontraditional situations. Lecture 1 hour, field work 9 hours weekly. May be repeated to maximum of 8 units.

471 History of Costume I (4)
Major periods in Western costume from primitive times through 17th century. Evaluation of aesthetic, technical, sociological, psychological, and economic factors related to art of dress.

†472 Advanced Enameling (3)
Prerequisite: ART 327. Advanced experience in transparent and opaque enameling techniques, emphasizing professional approaches to design development. May be repeated to maximum of 12 units.

473 Advanced Creative Fashion Design (3)
Prerequisite: ART 373. Advanced design theories and concepts of creative fashion and body ornamentation. Activity 6 hours. May be repeated to maximum of 6 units.

†474 Printmaking: Etching (3)
Graphic processes of etching; work in black and white and color. Activity 6 hours. May be repeated to maximum of 12 units.

475 The Arts and Human Development (4)
Prerequisite: ART 400 or 435. Analysis of relationship between human behaviors and forms of artistic expression.

476 Early Christian and Byzantine Art (4)
Prerequisite: ART 101A. Art history from 250 to 1453 A.D. in Eastern empire, to 476 A.D. in western Roman empire; covers key monuments of architecture, sculpture, painting, and applied arts.

477 History of Photography (4)
Prerequisite: ART 101A. History of photography from 19th century to present; relationship with history, culture, technology, art, social values, and other concerns.

478 Advanced Fashion Illustration (3)
Prerequisite: ART 378. Clothed and fashion figures; their relation to commercial promotion and development of rendering and production methods. Activity 6 hours. May be repeated to maximum of 6 units.

†479 Silkscreen/Serigraphy (3)
History, processes, production of fine prints using silk screens; color, and black and white printing. May be repeated to maximum of 6 units.

480 Computer Graphics II (4)
Prerequisite: ART 380. Continued studies in computers for artists and designers; use of C language; graphics procedures; frame-buffer technology and applications. Lecture 2 hours, laboratory 4 hours. May be repeated to maximum of 12 units.

481 African Art (4)
Art of sub-Saharan Africa. Includes historic art of Benin, Ghana, and Kongo kingdoms and traditional art of Western Sudan, Guinea Coast, and the Kongo.

†482 Photographic Manipulations and Extensions (4)
Prerequisite: ART 377. Use of photographs as part of broad vocabulary of processes; exploration of techniques and methods outside mainstream of photography. Lecture 2 hours, activity 4 hours. May be repeated to maximum of 12 units.

483 Photographic Studio Techniques (4)
Prerequisite: ART 377. Introduction to techniques in studio lighting and related activities through lecture and practical demonstrations. Lecture 2 hours, laboratory 4 hours. May be repeated to maximum of 8 units.

†484 Advanced Sculpture (3)
Prerequisite: ART 309, 314, or 319. Realization of sculptural form in permanent materials; techniques of stone and wood carving; sculpture with metal and plastic materials. Activity 6 hours. May be repeated to maximum of 12 units.

485 Ecology and Environment (4)
Relationships between aesthetics and ecosystems, social structures and environments.

486 History of Costume II (4)
Western costume of 18th, 19th, and 20th centuries. Evaluation of aesthetic, technical, sociological, psychological, and economic factors related to art of dress.

†487 Advanced Photography (4)
Prerequisite: ART 377. Advanced experimental photographic techniques including examination of critical, creative problems; emphasis on individual development and growth. Lecture 2 hours, activity 4 hours. May be repeated to maximum of 8 units.

488 Advanced Illustration (3)
Prerequisite: ART 388. Practical and theoretical problems in illustration, utilizing human figure as principal motivational device for dramatization, story line, and composition. Activity 6 hours. May be repeated to maximum of 6 units.

489 Fashion Design: Draping II (3)
Prerequisite: FSCS 306. Advanced techniques of designing garment on the dress form. Creative ideas emphasized. Activity 6 hours.

490 The Arts and Society: Continuity and Change (4)
Examination of the arts throughout history in terms of their effects upon and reflection of values. An interdisciplinary approach drawing from philosophy, the arts, and related fields.

491 Art Since 1945 (4)
Prerequisite: ART 426. Beginning with surrealism and abstract expressionism, this course delineates the many styles of the 1960s and focuses upon postmodern art of the 1970s and 1980s.

493 Advanced Graphic Design (3)
Prerequisite: ART 408. Studies utilizing a wide variety of media in professional design; emphasis on rendering and illustrative methods. Activity 6 hours. May be repeated to maximum of 6 units.

†494 Computer Graphics Animation (4)
Prerequisite: ART 480. Computer graphics animation for artists and designers: storyboard, object design, animation, and production. Lecture 2 hours, laboratory 4 hours. May be repeated to maximum of 12 units.
495 Directed Fieldwork In Fashion and Textiles (1-4)
Prerequisite: Thirty-five units fashion and textiles major coursework, including 15 upper division units, and departmental approval. Supervised experience utilizing professional preparation in field setting. Graded CR/NC.

†497 Large Format Photography (4)
Prerequisite: ART 377. Photographic imaging with large format cameras: view camera techniques, contact prints, zone system, studio, aesthetic issues, theory. Lecture 2 hours, activity 4 hours.

499 Undergraduate Directed Study (1-3)
Prerequisites: Senior standing, completion of all upper division course work in area of study, consent of an instructor to act as sponsor. Project selected in conference with sponsor before registration; progress meetings held regularly and a final report submitted. Limited to 3 units per quarter. May be repeated to maximum of 9 units.
Communications Studies

School of Arts and Letters

Department Office
Music 104
Phone: (213) 343-4200
Fax: (213) 343-6467

The Department of Communication Studies offers undergraduate programs leading to Bachelor of Arts degrees in Radio and Television Broadcasting and Speech Communication and a minor in Speech Communication. The graduate program leading to the Master of Arts degree in Speech Communication is described in the Graduate Programs section.

The Faculty

Associate Professors: Laura Chey Acuña, Kevin Baaske, Ivan N. Cury, Timothy M. Downs, John J. Ramirez, Gust A. Yep.

Assistant Professors: Mohammad Auwal, Lena Chao, Julia Johnson, Kelly Madison, David Olsen.

Bachelor of Arts Degree in Radio and Television Broadcasting

The program leading to the Bachelor of Arts degree with a major in Radio and Television Broadcasting emphasizes both theoretical understanding and practical application of the mass media of communication in contemporary society. This major offers two interdisciplinary options: Broadcast Journalism and Telecommunications and Film. It is the primary objective of our curriculum to help develop a knowledgeable and artistically skilled graduate who will be able to pursue an advanced degree and/or a professional career in broadcasting, cinema, and mass communication research. The program emphasizes the importance of the communication media’s awareness of the multiethnic composition of society and media’s impact on all aspects of human interaction.

Requirements for the Major (80-95 units)

Core Requirements (40 units)

Lower Division Required Courses (12 units)
BCST 201 Introduction to Television and Field Production (4)
BCST 220 Introduction to Broadcasting (4)
BCST 224 Survey of Film (4)

Upper Division Required Courses (28 units)
BCST 301 Intermediate Television Studio Production (4)
BCST 328 History of Broadcasting and Film (4)
BCST 420 Responsibility and Regulation in Broadcasting and Film (4)
BCST 429 Broadcast and Film Writing (4)
BCST 462 Criticism of Broadcasting and Film (4)
BCST 460 Theories of Mass Communication (4)
SPCH 300 Applied Writing in Speech Communication (4)

Options

- Broadcast Journalism Option (55 units)
  Lower Division (15 units)
  COMD 160 Voice and Diction (3)
  JOUR 201 News Writing (4)
  JOUR 202 Reporting (4)
  SPCH 267 Introduction to Oral Interpretation (4)

  Upper Division (32 units)
  BCST 320 Audio Production (4)
  BCST 330 The Documentary in Broadcasting and Film (4)
  BCST 430 Documentary Field Production (4)
  BCST 475 Television News/Magazine Production (4, 4)
  BCST 480 New Media Technologies (4)
  JOUR 441 Social Responsibility of Press (4)
  JOUR 492 Radio and Television News Writing (4)

- Telecommunications and Film Option (40 units)

Advanced Production (16 units)

Select four from following:
BCST 320 Audio Production (4)
BCST 377 Animation (4)
BCST 401 Advanced Video Production (4)
BCST 430 Documentary Field Production (4)
BCST 454L Selected Studies in Broadcast Production (4, 4)
BCST 475 Television News/Magazine Production (4)

Advanced Analysis Classes in Broadcasting (16 units)

Select four from the following:
BCST 330 The Documentary in Broadcasting and Film (4)
BCST 362 Broadcast and Film Aesthetics (4)
BCST 370 Broadcasting and Film as Shapers of the Public Mind (4)
BCST 410 Contemporary Radio Broadcasting (4)
BCST 424 Crosscultural Broadcasting and Film (4)
BCST 440 Noncommercial Broadcasting and Film (4)
BCST 453 International Communication Media (4)
BCST 454 Selected Studies in Broadcasting (4)
BCST 470 Administration and Studio Operations in Broadcasting and Film (4)
BCST 480 New Media Technologies (4)

Electives (8 units)

Select upper division courses in broadcasting, which may include BCST 499 and UNIV 398, or upper division courses in related fields, with adviser consent.

Bachelor of Arts Degree in Speech Communication

The Speech Communication major is available in three options: the General option, the Professional Communication option, and the Single Subject Teaching option. The General option is intended for students seeking a broad education in all phases of speech communication. The Professional Communication option is designed for those students seeking communication related careers. The Credential option is designed to qualify students who
wish to teach in public secondary schools for the Single Subject credential in English.

All options provide an understanding of the nature and functions of human symbolic communication. The scope of the program includes theories of communication in terms of historical, philosophical, critical, cultural, and scientific constructs: dimensions of public discourse, interpersonal, small group, and intercultural communication, persuasion and social influence, language and symbolic processes, the aesthetic dimensions of speech, and instructional development; and methodologies necessary for communication research (historical, critical, and empirical).

The degree adds to the students perception and skill in dealing with people and is structured to provide a foundation for careers in business, law, government service, health, the ministry, teaching, public relations, media communication, and other professions in which an understanding and utilization of the process of communication is essential.

Requirements for the Major (72-80 units)

The General and Professional Communication options include a common core of 24 upper division units. An additional 48 units of required and elective courses comprise the total 72 units required by these options. The option for Single Subject Credential in English has a separate 60-unit core and 20-unit breadth requirement.

- **General Option** (72 units)

  **Lower Division Required Course** (4 units)
  SPCH 176 Argumentation (4)

  **Elective (4 units):**
  
  SPCH 267 Introduction to Oral Interpretation (4) or
  SPCH 278 Problem Solving through Group Discussion (4)

  **Additional Elective (0 or 4 units)**
  Select from lower division SPCH courses with adviser approval.

  **Upper Division Required Courses** (24 units)

  SPCH 300 Applied Writing in Speech Communication (4)
  SPCH 367 Oral Interpretation of Prose and Poetry (4) or
  SPCH 371 Persuasive Communication (4)
  SPCH 450 Communication Theory (4)
  SPCH 470 Theories of Rhetoric: Survey and Analysis (4)
  SPCH 485 Rhetorical Criticism (4)
  SPCH 487 Proseminar: Experimental Research in Speech (4)

  **Electives (20 units)**
  Select one course from each of following five dimensions:

  - **A. Public Discourse Dimension**
    SPCH 371 Persuasive Communication (4)
    (if not taken in the core)
    SPCH 472 Studies in Literature of International Public Discourse (4)
    SPCH 473A Studies in Literature of U.S. Public Discourse to 1860 (4)
    SPCH 482 Rhetorical Theory: Contemporary Developments (4)

  - **B. Interpersonal and Organizational Communication**
    SPCH 350 Interpersonal Communication (4)
    SPCH 430 Organizational and Professional Communication (4)
    SPCH 462 Nonverbal Communication (4)
    SPCH 478 Group Communication: Dynamics of Leadership and Participation (4)

  - **C. Aesthetic Dimension**
    SPCH 367 Oral Interpretation of Prose and Poetry (4)
    (if not taken in the core or under Performance Dimension)
    SPCH 467 Studies in Aesthetic Bases of Speech (4)
    SPCH 490 Studies in Children’s Speech Arts (4)

  - **D. Performance Dimension**
    SPCH 340 Interviewing (4)
    SPCH 367 Oral Interpretation of Prose and Poetry (4)
    (if not taken in the core or under Aesthetic Dimension)
    SPCH 370 Business and Professional Speaking (4)
    SPCH 491 Instructional Theories in Speech Communication (4)

  - **E. Social Dimension**
    SPCH 479 Sex Roles in Communication (4)
    SPCH 489 Intercultural Communication (4)

  **Additional (16-20 units):**
  Select from upper division courses in SPCH or related fields, with adviser approval.

  - **Professional Communication Option** (72 units)

  **Lower Division Required Course** (4 units)
  SPCH 176 Argumentation (4)

  **Elective (4 units)**
  SPCH 267 Introduction to Oral Interpretation (4) or
  SPCH 278 Problem Solving through Group Discussion (4)

  **Additional Elective (0 or 4 units)**
  Select from lower division SPCH courses with adviser approval.

  **Upper Division Required Courses** (24 units)

  SPCH 300 Applied Writing in Speech Communication (4)
  SPCH 367 Oral Interpretation of Prose and Poetry (4) or
  SPCH 371 Persuasive Communication (4)
  SPCH 450 Communication Theory (4)
  SPCH 470 Theories of Rhetoric: Survey and Analysis (4)
  SPCH 485 Rhetorical Criticism (4)
  SPCH 487 Proseminar: Experimental Research in Speech (4)

  **Electives**
  Select 20 units from following:

  SPCH 340 Interviewing (4)
  SPCH 350 Interpersonal Communication (4)
  SPCH 371 Persuasive Communication (4)
  (if not taken in core)
  SPCH 430 Organizational and Professional Communication (4)
  SPCH 431 Internship in Organizational Communication (4)
  SPCH 398 Cooperative Education (4)
  SPCH 462 Nonverbal Communication (4)
  SPCH 478 Group Communication: Dynamics of Leadership and Participation (4)
  SPCH 479 Sex Roles in Communication (4)
  SPCH 489 Intercultural Communication (4)
Professional Sequence (12-16 units)
Plan a 12-16 unit interdisciplinary professional theme with a career focus, and obtain adviser approval. Suggestions for possible themes are listed below.
A. Communication Supervision
B. Technical Communication
C. Corporate Communication
D. Communication in Health Care
E. Communication in the Family
F. Communication in Multicultural Environments

Additional electives (0-8 units)
Select from upper division SPCH courses with adviser approval.

Single Subject Teaching Option (80 units)
Refer to the undergraduate Charter School of Education chapter of this catalog for regulations governing all teaching credential programs.

REQUIRED CORE (56 units)

Composition (8 units)
ENGL 410 Writing in the Schools (4)
SPCH 300 Applied Writing in Speech Communication (4)

Language, Linguistics, Theory and Criticism (8 units)
SPCH 463 Language and Communication Behavior (4)
SPCH 485 Writing in the Schools (4)

Literature (36 units)

Lower division required courses (8 units)
ENGL 200A The Classical and Medieval Tradition (4)
Select one from following (4 units):
ENGL 200B British Literature Survey I (4)
ENGL 200C British Literature Survey II (4)

Upper division required courses (28 units)
ENGL 417 Shakespeare (4)
ENGL 476 Ethnic Literature (4)
Select from following (8 units):
ENGL 416, 418, 419, 446, 460, 461, 463, 464, 465
Select from following (4 units):
ENGL 447, 467, 468
Select from following (8 units):
ENGL 471, 472, 473

Capstone experience (4 units)
SPCH 491 Instructional Theories in Communication (4)

BREADTH REQUIREMENTS (24 units)
BCST 224 Survey of Film (4) or
ENGL 451 Film and Literature (4)
BCST 201 Introduction to Television Studio Production (4) or
SPCH 268 Readers’ Theatre (2, 2) or
SPCH 277 or 377 Forensics (2, 2)
SPCH 489 Intercultural Communication (4)

Additional courses in Language and Composition (8 units)
SPCH 470 Rhetorical Theory (4)
SPCH 489 Intercultural Communication (4)

Oral Interpretation and Tradition, Performance (4-12 units)
Required course (4 units)
SPCH 267 Oral Interpretation (4)
Choose from following (0-8 units):
SPCH 268, 277 or 377, SPCH 367, 467

Film and Media Criticism, Production (4-12 units)
Required course (4 units)
BCST 224 Survey of Film (4)
Choose from following (0-8 units):
BCST 201, 220, 328
ENGL 451

Minor in Speech Communication

The Speech Communication minor is designed for students interested in expanding their knowledge of the communication process, especially as it relates to their professional careers or related fields in the liberal arts. The Speech Communication curriculum provides a variety of courses for students preparing for careers in community development, social services, health, safety, and recreation services, business and industry, criminal justice, law, education, industrial studies, mass media, and many others in which an understanding of the process and practice of speech communication is vital. A total of 32 units in SPCH is required.

Requirements for the Minor (32 units)

Required Courses (8 units)
SPCH 150 Oral Communication (4)
SPCH 176 Argumentation (4)

Electives (24 units)
Select a program, in consultation with a departmental adviser, to meet the goals for which the minor is chosen. A minimum of 16 units must be taken in upper division courses.

The Credential Program

The Bachelor of Arts degree in Speech Communication with the credential option is the subject matter program designed to qualify students for the Single Subject Credential in English. Interested students should consult advisers in the department and the Charter School of Education.

Courses in Broadcasting (BCST)

Lower Division Courses
201 Introduction to Television Studio and Field Production (4)
Introduction to television production facilities, equipment and techniques. Principles of directing, camera, sound, control room operations. Studio and field locations. Lecture 3 hours, laboratory 2 hours.

220 Introduction to Broadcasting (4)
Survey of principles and practices in American broadcasting with emphasis on techniques of radio and television programming through lectures, reports, and selected viewing.

224 Survey of Film (4)
Cinema as a creative communication medium, emphasizing certain perceptual, conceptual, and technical considerations.

Upper Division Courses
301 Intermediate Television Studio Production (4)
Prerequisite: BCST 201. Intermediate study of directing principles and production techniques as applied to educational, informational, and cultural program production. Lecture 3 hours, laboratory 2 hours.
320 Audio Production (4)
Prerequisite: BCST 220. Practicum in sound for radio, television and film. Lecture 3 hours, activity 2 hours.

328 History of Broadcasting and Film (4)
Prerequisites: BCST 220, 224. Major events, names, and movements in contemporary society that influenced development of radio, television, and motion pictures as mass communication media of twentieth century.

330 The Documentary in Broadcasting and Film (4)
Prerequisites: BCST 220, 224. Historical and critical study of documentary form in broadcasting and film using classic examples in radio, television, and motion pictures to assess influence of media as persuasive powers in society.

354L Selected Studies in Broadcasting Production (14)
Prerequisite: BCST 301. Special application of audio and video production and post production technologies. Variable topics. May be repeated to maximum of 12 elective units as subject matter changes. Graded CR/NC.

362 Broadcast and Film Aesthetics (4)
Prerequisites: BCST 220, 224. Radio, television, and film aesthetics, analyzing component elements of light, space, time, sound, music, and motion in synthesized image.

370 Broadcast and Film as Shapers of the Public Mind (4)
Prerequisites: BCST 220, 224. Broadcast and film media as persuasive and motivational forces in society, techniques of audience-market research, advertising process, and effects of advertising environment on public opinion and buying power.

377 Animation (4)
Prerequisites: BCST 201, 224. Cel animation practicum stressing development of storyboards, artwork and camera technique. Lecture 3 hours, activity 2 hours.

397 Motion Picture Photography (3)
Prerequisite: BCST 201. Principles and practices in motion picture photography including directing for single camera, camera operation, lighting, and editing. May include field trips. Lecture 3 hours, activity 2 hours.

401 Advanced Video Production (4)
Prerequisite: BCST 301. Advanced studio and location practicum stressing aesthetics of video production. Seminar 3 hours, activity 2 hours.

410 Contemporary Radio Broadcasting (4)
Prerequisite: BCST 220. Description and analysis of the structure and practice of contemporary radio.

420 Responsibility and Regulation in Broadcasting and Film (4)
Prerequisites: BCST 220, 224. Professional responsibilities of broadcasters and film makers to their audiences; regulatory issues, problems, and systems that influence broadcast and film production in the U.S.

424 Crosscultural Broadcasting and Film (4)
Prerequisites: BCST 220, 224. Broadcast media and film as means of crosscultural communication and intercultural understanding from both national and international perspective; moral, social, and psychological implications.

429 Broadcast and Film Writing (4)
Content and techniques of radio, television, and script writing; development of story idea through outline, treatment, and dialog script. May be repeated to total of 8 units with instructor consent.

430 Documentary Field Production (4)
Prerequisite: BCST 201. Video field practicum stressing aesthetics and techniques of documentary production. Lecture 3 hours, laboratory 2 hours.

434 Latin American Radio Documentary Production (4)
(also listed as LAS 434)
Recommended prerequisites: BCST 320 or 2 upper division Latin American content courses in history, political science, or Latin American studies. Analysis of political, economic, and cultural issues in Latin America, utilizing primary sources; production of research in the form of broadcasting tapes.

440 Noncommercial Broadcasting and Film (4)
Prerequisites: BCST 220, 224. Analysis of noncommercial broadcasting and film systems; special focus on the Public Broadcasting System and key film distribution companies.

453 International Communication Media (4)
Prerequisite: BCST 220,224, or SPCH 150. Description and analysis of media systems (print, audio, and video) as they exist in various countries around the world, and the means by which information is exchanged internationally.

454 Selected Studies in Broadcasting (1-4)
Selected topics in broadcasting media, as announced in Schedule of Classes. May be repeated to maximum of 12 units for credit as subject matter changes.

454L Selected Studies in Broadcast Production (4)
Prerequisite: BCST 301. Special application of audio and video production techniques in the creation of entertainment, educational, documentary, and public affairs programming. Variable topics. May be repeated to maximum of 8 units as subject matter changes.

460 Theories in Mass Communication (4)
Prerequisite: BCST 220. Historical and analytical investigation of mass communication/media theory.

462 Criticism of Broadcasting and Film (4)
Prerequisites: BCST 220, 224. Purposes and styles of criticism as applied to broadcast and film media; development of standards of evaluation as determined by analysis of selected radio and television programming and motion pictures.

466 Visualization of Violence in the Media (4)
Semiological and structural analysis of the depiction of violence in the media; special emphasis on portrayal of violence against women, children, and minorities in their historic and contemporary manifestations.

467 Theory and Method in Performance Studies (4)
(also listed as TAD 467)
Prerequisite: Upper division course in SPCH, TA or DANC. Introduction to major theoretical perspectives in performance studies and to key methodologies for investigating performance in/as culture. Central concepts include social drama and performance ethnography.
466 Performance and Social Change (4)
(also listed as TAD 468)
Prerequisite: SPCH 367 or upper division theory course in TA, DANC or rhetoric. Aesthetic, pedagogical underpinnings of performance and social change. Relationships between performance and liberation in avant garde works and across cultures. Theoretical and pragmatic concerns as these emerge in production.

470 Administration and Studio Operations in Broadcasting and Film (4)
Prerequisites: BCST 220, 224. Administrative techniques, operational procedures, and organizational structures within contemporary radio and television broadcast stations and film studios.

475 Television News/Magazine Production (4)
Prerequisite: BCST 201. Practicum in television news/magazine segment production. Students produce a weekly program which appears on campus and local cable systems. May be repeated up to 12 units. Seminar 3 hours, activity 2 hours.

480 New Media Technologies (4)
Prerequisites: BCST 201; 220 or JOUR 100 and 201. Description and analysis of new and evolving communication media, their growth, development, and effect on social and political systems.

†492A Motion Picture Preproduction (3)
Prerequisite: BCST 397. Preparation for making a motion picture; emphasis on 16mm short film, applicable to longer films. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

†492B Motion Picture Production (3)
Prerequisite: BCST 492A. Shooting and editing motion pictures; emphasis on 16mm short film, applicable to longer films. May be repeated to maximum of 6 units. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

†492C Motion Picture Postproduction (3)
Prerequisite: BCST 492B. Negative cutting, sound track preparation, and printing of films; emphasis on 16mm short film, applicable to longer films. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

499 Undergraduate Directed Study (2-4)
Prerequisites: Consent of adviser and of an instructor to act as sponsor. Individual projects designed to reflect ability of student and to be a contribution to field of educational, informational, or cultural broadcasting. May be repeated to maximum of 8 units.

Courses in Journalism (JOUR)

Lower Division Courses

130 Introduction to Graphic Arts (3)
(also listed as TECH 130)
General industrial education course emphasizing the importance of graphic communications in our culture. History, theory, and laboratory-shop practice of varied printing processes, including letterpress, lithography, silk screen, and bookbinding. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

Upper Division Courses

391 University Times (3)
Prerequisite: JOUR 330. Two one-hour class meetings plus additional supervised activity weekly. Lecture 2 hours, laboratory 2 hours. May be repeated for credit. Maximum of 12 units allowed for JOUR 391, 393, or 495, separately or in any combination.

453 International Communication Media (4)
Prerequisites: BCST 220, 224 or JOUR 100 and 201 or SPCH 150. Description and analysis of media systems (print, audio, and video) as they exist in various countries around the world, and the means by which information is exchanged internationally.

492 Radio and Television News Writing (4)
Prerequisites: JOUR 201, senior standing for Journalism majors. Analysis and preparation of local news and commercials, introductions and special news features for radio and television.

499 Undergraduate Directed Study (2-3)
Prerequisite: Consent of an instructor to act as sponsor. Project selected in conference with sponsor before registration, progress meetings held regularly, and a final report submitted. May be repeated for credit.

Courses in Mass Communication (MSCM)

Lower Division Course

100 Introduction to Mass Media (4)
Introduction to book, newspaper and magazine publishing, motion pictures, broadcasting, and new information technologies examined in terms of communication theory and as economic, political, and social institutions. CAN JOUR 4

Upper Division Courses

390 Mass Media and Human Interaction (4)
(also listed as SPCH 390)
Prerequisite: BCST 220 or JOUR 201 or SPCH 150. Comparison of the mass media with other forms of human interaction with attention given to the interactive role and effect of these human communication processes.

Courses in Speech Communication (SPCH)

Subcollegiate Course

094 Mainstream American Dialect (4)
Sounds, intonation, and rhythm of mainstream American dialect to modify student's own accent and pronunciation. (Limited to students whose dialects are not standard American English.) Graded CR/NC. No credit toward baccalaureate.

Lower Division Courses

150 Oral Communication (4)
Introduction to problems of effective oral communication through study and experience in analysis, synthesis, and presentation of informative and persuasive discourse in a public speaking forum. CAN SPCH 4

SPCH 150 is prerequisite to all Speech Communication courses with higher numbers.

176 Argumentation (4)
Principles of argumentation: reasoned discourse, methods of logical analysis and reflective thinking, practical application through adaptation of materials to audience situations, argumentative speech, kinds and forms of debate about current issues. CAN SPCH 6

267 Introduction to Oral Interpretation (4)
Study of communicative dimensions of literature through analysis and performance.

268 Reader's Theatre: Practicum and Performance (2)
Lecture-workshop in reader's theatre, story theatre, and chamber theatre production; emphasis on group presentation of po-
277 Forensics (2)
Introductory workshop in intercollegiate forensic activities. May be repeated to maximum of 8 units. Graded CR/NC.

278 Problem Solving through Group Discussion (4)
Principles of decision-making and interaction in group communication situations, development of discussion, participation, and leadership skills for business, school, and community.

Upper Division Courses

300 Applied Writing in Speech Communication (4)
Prerequisites: Satisfactory completion of the Graduation Writing Assessment Requirement (GWAR); for Radio-TV Broadcasting majors, BCST 224; upper division standing. Writing practical in historical, critical, and empirical approaches to speech communication and media studies; emphasizing language usage in description, exposition, narration, and persuasion; techniques include observation, editing, and criticism.

340 Interviewing (4)
Dyadic communication in formal and informal settings. Understanding of informative, persuasive, medical, journalistic, legal, and employment interviews.

350 Interpersonal Communication (4)
Introductory study of interpersonal communication; verbal and nonverbal communication in face-to-face interaction; how individuals assume roles as message senders, receivers; interpersonal perception and adaptation; barriers to interpersonal communication.

367 Oral Interpretation of Prose and Poetry (4)

370 Business and Professional Speaking (4)
Study and application of theories of business and professional communication; emphasis on business and professional contexts; use of multiple media for business presentations.

371 Persuasive Communication (4)
Study and application of rhetorical and social-psychological principles of persuasion. Consideration of attitude change models and behavioral studies of variables affecting persuasion. Opportunity for preparation and criticism of persuasive discourse.

377 Forensics (2)
Faculty supervised workshop preparing for University-sponsored speech activities, including forensics tournament events and/or performance for community groups. May be repeated to maximum of 6 units. Graded CR/NC.

385 Sex and Gender in Language and Literature (4)
(also listed as ENGL 385)
Prerequisites: For English majors, ENGL 221 or 222; for others, ENGL 250. Analysis of the comparative language behavior of women and men as revealed in research on communication and in representative literary works, both classic and modern.

390 Mass Media and Human Interaction (4)
(also listed as MSCM 390)
Prerequisite: BCST 220 or JOUR 201 or SPCH 150. Comparison of the mass media with other forms of human interaction with attention given to the interactive role and effect of these human communication processes.

396 Publicity and Promotions (4)
Prerequisite: SPCH 300, 201 or equivalent. Methods, planning and tools used in developing company, community and institutional public relations programs. Focuses on publicity and promotional techniques, media relations, copy preparation, news releases, and publications.

430 Organizational and Professional Communication (4)
Investigation of organizational communication theories, principles, concepts, and techniques, including dyadic, small group, and public organizational communication and implementation of planned change in an organization.

431 Internship in Organizational Communication (4)
Prerequisite: SPCH 430. Opportunity to study and participate in communication processes of selected local organizations under academic supervision; emphasis on student intern’s ability to diagnose and solve organizational communication problems. May be repeated once for credit.

450 Communication Theory (4)
Survey and analysis of behaviorally oriented theories and their variables in the communication process.

454 Selected Studies in Speech Communication (1-4)
Prerequisites: Varies with topic; see Schedule of Classes for specific prerequisites. Intensive study of selected topics in speech communication. May be repeated to a maximum of 12 units for credit as subject matter changes.

459 Intercultural Business Communication (4)
(also listed as MKT 459)
Prerequisite: MGMT 301 or SPCH 300. Analytical approach to understanding cultures in order to do business effectively. Steps in achieving intercultural communication competence, framework for understanding cultures, nonverbal communication, document organization from cultural priorities, and negotiation.

461 Descriptive Phonetics (4)
(also listed as COMD 467)
Phonetic-phonemic analysis of language; study of physical and physiological bases of speech.

462 Nonverbal Communication (4)
Body motion, eye and facial behavior, paralanguage, touch, proxemics, physical characteristics, artifacts and environmental factors as they affect communicative exchanges.

463 Language and Communication Behavior (4)
Nature, origin, and use of speech and language in social, cultural, symbolic, and functional contexts; investigation and analysis of discourse and behavioral effects; significance of communication competence.

467 Spoken Language and Literature (4)
Prerequisite: One SPCH course. Verbal and nonverbal behavior; application of aesthetic and sociolinguistic theories to speech acts.

468 Performance and Social Change (4)
(also listed as TAD 468)
Prerequisite: SPCH 367 or 467 or upper division theory course in TA, DANC or rhetoric. Aesthetic, pedagogical underpinnings of performance and social change. Relationships between performance and liberation in avant garde works and across cultures. Theoretical and pragmatic concerns as these emerge in production.
470 Theories of Rhetoric: Survey and Analysis (4)
Prerequisite: Upper division standing. Principal theories of rhetoric from classical Greece to the modern period; historical perspectives on communication and social influence; impact of changing political, psychological, sociological, and technological contexts.

472 Studies in Literature of International Public Discourse (4)
Prerequisite: One SPCH course. Analysis and evaluation of international rhetoric and speech communication; some attention to great international speakers and speeches; emphasizes communication in contemporary social, political, and cultural movements and campaigns.

473A Studies in Literature of American Public Discourse to 1860 (4)
Prerequisite: One SPCH course. Analysis and evaluation of American rhetoric and speech communication; some attention to great speakers and speeches; emphasizes communication in social, political, and cultural movements and campaigns, colonial times to 1860.

Prerequisite: One SPCH course. Analysis and evaluation of American rhetoric and speech communication; some attention to great speakers and speeches; emphasizes communication in social, political, and cultural movements and campaigns, 1860 to present.

478 Group Communication: Dynamics of Leadership and Participation (4)
Prerequisite: A course in group discussion. Advanced study of communication processes in small groups and effects of leadership and participation; development of communication sensitivity.

479 Sex Roles in Communication (4)
Sex as a variable influencing human communication in dyads, small groups, organizations, families; speaker-audience interaction; male-female differences in use of language, and nonverbal behavior.

482 Rhetorical Theory: Contemporary Developments (4)
Prerequisite: SPCH 470. Survey of contemporary theories of rhetoric and communication.

485 Rhetorical Criticism (4)
Prerequisite: One SPCH course. Nature and function of rhetorical criticism; survey of approaches, theories, and systems of rhetorical analysis from classical to contemporary. Practice in critical appraisal of various types of speech communication.

487 Proseminar: Experimental Research in Speech (4)
Prerequisite: Upper division standing. Introduction to methodology of experimental research and critical analysis of representative studies in speech.

489 Intercultural Communication (4)
Description and analysis of cultural influences on human communication acts; codes and paralinguistic elements: focus on communication between cultures in an urban setting.

490 Studies in Children's Speech Arts (4)
Theory and criticism of creative dramatics, choric interpretation and storytelling.

491 Instructional Theories in Communication (4)
Prerequisites: Senior standing, 20 units of upper division SPCH courses. Principles of communication in educational settings, literary study, survey, critical review, and application of contemporary theories and trends in instructional communication.

494 Communication Behavior in Childhood (4)
(also listed as CHDV 494)
Oral language and communicative behavior in children; studies in speech and language experiences basic to development of communication skills competence.

497 Managing Problems in Public Relations (4)
Prerequisite: SPCH 394. Advanced study of public relations issues, with emphasis on contemporary problems faced by business organizations and other institutions. Analysis of case studies in public relation problems and crisis management.

499 Undergraduate Directed Study (1-4)
Prerequisite: Consent of an instructor to act as sponsor. Project selected in conference with sponsor before registration: progress meetings held regularly, and final report submitted. May be repeated to a maximum of 12 units for credit.
ENGLISH

School of Arts and Letters
DEPARTMENT OFFICE
Engineering and Technology A604
Phone: (213) 343-4140

The Department of English offers both Bachelor of Arts and Master of Arts degrees in English, minors in English and Creative Writing, and a program leading to a teaching credential. The Master of Arts degree program is described in the Graduate Programs section.

The Faculty

Associate Professors: Mary E. Bush, Marilyn R. Elkins, Ruben D. Quintero, Alison Tauer.

Bachelor of Arts Degree

Students pursuing the Bachelor of Arts degree in English select one of two program options. The General option is intended for those pursuing a liberal arts education with special emphasis on literature and composition; the Single Subject Teaching option is designed for students interested in a career in education.

All students electing to major in English must request advisement in the Department of English upon beginning course work in their major. Those majoring in English are urged to acquire command of at least one foreign language as part of their program.

Requirements for the Major (76 of 80 units)

The General option requires a total of 76 units and the Single Subject Teaching option requires a total of 80 units.

General Option (76 units)

Lower Division Required Courses (8 units)
ENGL 200A The Classical and Medieval Tradition (4)
Select one from following (4 units):
ENGL 200B British Literature Survey I (4)
ENGL 200C British Literature Survey II (4)

Upper Division Required Courses (16 units)
ENGL 340 Writing the Critical Essay (4)
ENGL 401 English Language in America (4)
ENGL 417 Shakespeare I (4)
ENGL 441 Major Critics (4)

Required in British, American, and World Literature (36 units)
British Literature (16 units)
Select four 400-level courses in British literature, with at least two in pre-1800 literature.
American Literature (12 units)
ENGL 471 American Literature: Beginnings to 1860 (4)
ENGL 472 American Literature: 1860-1914 (4)
ENGL 473 American Literature: 1914-Present (4)

World Literature (8 units)
Select two from: ENGL 424, 425, 427, 428, 484, 485, 486

Undergraduate Seminar (4 units)
ENGL 490 Seminar in Literature and Language (4)

Electives (12 units)
Select three 300- or 400-level ENGL courses excluding GE theme courses. With adviser approval, one 200-level course may be included.

- Single Subject Teaching Option (80 units)
Select three 300- or 400-level ENGL courses excluding GE theme courses. With adviser approval, one 200-level course may be included.

Required Course (4 units)
ENGL 476 Ethnic Literature in the U.S. (4)

*adviser approval

American Literature (8 units)
Select two: ENGL 471, 472, 473

World Literature in Translation (4 units)
Select one from following:
ENGL 424, 425, 426, 427, 428, 453, 482, 484, 485, 486

JAPN 307
TA 311, 312

Ethnic Literature (4 units)
ENGL 476 Ethnic Literature in the U.S. (4)
Additional courses in British or American Literature (4 units)
Select one from following:
ENGL 416, 418, 419, 446, 447, 460, 461, 463, 464, 465, 468, 471, 472, 473, 478, 479

Undergraduate Seminar (4 units)
ENGL 490 Seminar in Literature and Language (4)

Capstone Course (4 units)
ENGL 494 Literary Study and the Teaching Profession: A Capstone Course in the English Major for Prospective Teachers (4)

Electives (8 units)
With adviser approval, select two 300 or 400-level courses in English or closely related disciplines (excluding GE Theme courses). May include one 200-level course.

NOTE: Students seeking the credential are also advised to include at least one ethnic studies course among their general education or elective courses.

Minor in Creative Writing
The minor in Creative Writing is designed for students majoring in other fields who are interested in the writing of imaginative literature, which may include such forms as poetry, fiction, and drama. A total of 24 units is required, of which 8-12 units must be in lower division and 12-16 units in 400-level courses.

Requirements for the Minor (24 units)
Lower Division Required Courses (8 or 12 units)
Select one from following (4 units):
ENGL 200ABC, 225
ENGL 207 Beginning Creative Writing (4)

(Elective to ENGL 207 for students in the creative writing minor is at least 4 units from the lower division requirement listed above.)

Electives (select 12-16 units with adviser approval)
ENGL 406 Writing Nonfiction (4)
*ENGL 407 Writing Fiction (4)
*ENGL 408 Writing Poetry (4)
*May be repeated once for credit in the minor.
BCST 429 Broadcast and Film Writing (4)
TA 476 Play Writing (4)

Minor in English
The minor in English provides a varied and flexible literary program, individually planned, for majors in other fields. Students who plan to write or edit or who are interested in business, the professions, or government service may find this minor significant in their career development. The minor is also useful to students who wish to add a supplementary authorization to their Single Subject credential. A total of 28 units is required.

Requirements for the Minor (28 units)
Lower Division Required Courses (8-12 units)
Select at least two from following: ENGL 200ABC 250, 258

Upper Division Required Courses (16-20)
Select from following:
Composition: ENGL 308, 340, 406, 410
Language: ENGL 401, 402, 405
Literature: ENGL 416-447, 460-490

The Credential Program
Students who complete the Bachelor of Arts degree in English, Single Subject Teaching option, with a minimum 2.83 grade point average for course work in the option, will receive certification of subject area competency in English for the Single Subject credential. Students should consult advisers in the department and in the Charter School of Education.

English as a Second Language Programs
Students in need of a course in English as a second language may wish to consult the Office of Continuing Education.

Courses in American Studies (AMER)

Lower Division Courses
250 The Child in American Culture (4)
Concepts of the nature and cultural role of the child from colonial days to present.

254 Special Topics in American Studies (4)
Prerequisites: As needed for specific topic. Current topics of special interest in American Studies as announced in Schedule of Classes. May be repeated to a maximum of 8 units for credit.

Upper Division Courses
350 America in Great Books (4)
Prerequisite: Lower division GE requirements in social sciences, humanities, and communication. Selected books in humanities and social sciences which, besides being outstanding in their respective fields, have influenced the character of American society.

354 Mini-Topics in American Studies (1-6)
Short-term variable-content course on topics of special interest. Unit credit will vary according to subject. May be repeated to maximum of 8 units.

401 Study of American Culture (4)
Interdisciplinary study of American culture; materials, methods, and problems in study of a civilization in comprehensive terms.

402 Ideas in America (4)
Significant social, political, economic, religious, and philosophic concepts reflected in representative statements, ranging from historical documents to imaginative literature.

403 American Popular Culture (4)
Philosophical, psychological, esthetic, and social implications of American mass media.

404 Avant-Garde in American Life (4)
Examination of a number of movements on frontiers of American intellectual life.

405 Folklore in American Culture (4)
Prerequisite: Lower division GE requirements. Types and forms of American folklore and their significance for American society.

490 Selected Topics in American Studies (4)
Prerequisites: AMER 401, one other AMER course. Intensive study of selected topics in American culture; subjects vary. May be repeated to maximum of 8 units.

499 Undergraduate Directed Study (1-4)
Prerequisites: Consent of an instructor to act as sponsor, approval of coordinator. Project selected in conference with sponsor before registration; progress meetings held regularly and final report submitted. May be repeated to a maximum of 8 units for credit.
Courses in English (ENGL)

Eligibility for ENGL 095, 096, and 101 will be determined by results of the English Placement Test (EPT) which students must take before they may register for any of these courses.

Subcollegiate Courses

095 Basic Writing I (4)
Prerequisite: English Placement Test (placement determined by student’s score). Instruction in invention, revision, sentence construction, paragraph development, and English usage in personal experience essays. Graded CR/NC. Not open to students with credit for this course, an equivalent, or a higher level English composition course. Students with two NC grades may not enroll again. No credit toward baccalaureate.

096 Basic Writing II (4)
Prerequisite: English Placement Test (placement determined by student’s score) or passing grade in ENGL 095. Frequent essays based on reading and responding to expository prose; instruction in expository writing conventions. Graded CR/NC. Not open to students with credit for this course, an equivalent, or a higher level English composition course. Students with two NC grades may not enroll again. No credit toward baccalaureate.

Lower Division Courses

101 Composition I (4)
Composition I: Reflective and Expository Writing
Prerequisite: English Placement Test or completion of ENGL 096. Reading and writing to develop and communicate ideas. Instruction in basic strategies for planning, composing, and revising college writing. Use of authorities, examples, arguments and facts. Graded A,B,C/NC.

102 Composition II (4)
Composition II: Analytic and Persuasive Writing
Prerequisite: ENGL 101 or equivalent. Reading and writing to develop interpretive and persuasive strategies. Instruction in writing for specific audiences. Use and analysis of technical, logical, and emotional arguments. Graded A,B,C/NC.

ENGL 102 or its equivalent is prerequisite to all English courses with higher numbers.

195 The Research Essay (4)
Prerequisite: Passing grade in ENGL 102*. Instruction in the preparation, mechanics, and style of a research essay. Graded A,B,C/NC.

200A The Classical and Medieval Tradition (4)
Prerequisite: ENGL 102*. Survey of classical and medieval literature in the European tradition. Frequent compositions on various literary topics.

200B British Literature Survey I (4)
Prerequisite: ENGL 102*. A survey of essential literary texts from the Medieval Period through the Restoration. Frequent compositions on literary topics.

*Students subject to earlier catalogs satisfy the prerequisite with ENGL 101 or 190.

200C British Literature Survey II (4)
Prerequisite: ENGL 102*. A survey of major literary texts from the Restoration until the Modern Period. Frequent compositions on literary topics.

207 Beginning Creative Writing (4)
Beginning creative writing workshop in which students are introduced to techniques of imaginative writing: short fiction, poetry, drama.

225 Interpreting Film (4)
Critical study of film as an art form. Emphasis on short films, including variety of genres, such as animation, documentary, and story films.

228 English Grammar Review (4)
Prerequisite: ENGL 102*. Review of traditional grammar; practice in identifying sentence parts, phrases, clauses, and parts of speech, as well as grammatical categories such as tense, number, and agreement.

229 Writing Proficiency (4)
Prerequisite: ENGL 102*. Strategies for improving writing proficiency in descriptive, illustrative, explanatory, and persuasive essays. Graded A,B,C/NC.

250 Understanding Literature (4)
Forms and techniques of fiction and/or drama, and poetry; analysis of representative works of various periods and cultures; critical compositions and reports. Not open to English majors.

258 Mythology in Literature (4)
Analysis and interpretation of dominant myths in representative works of world fiction, drama, and poetry; critical compositions.

260 Women and Literature (4)
Fiction, poetry, and drama by women authors; close analysis of representative works; critical compositions.

270 Contemporary American Literature (4)
Recent fiction, autobiography, poetry, and drama by American authors; close analysis of representative works; critical compositions.

276 Introduction to Play Writing (3)
(also listed as TA 276)
Prerequisite: ENGL 200A or 200B or 200C or TA 152. Collaborative approach to writing for the stage; emphasis on writing theory and techniques; introduction to dramaturgy, directing, literary management, and staged reading.

280 Contemporary World Literature (4)
Recent fiction, poetry, and drama written by authors outside the U.S.; close analysis of representative works; critical compositions.

Upper Division Courses

Upper division standing is prerequisite to enrollment in 400-level courses. ENGL 102 or its equivalent is prerequisite to all upper division English courses. Prerequisite for all literature courses: ENGL 250, or 200A, 200B or 200C unless otherwise stated.

301 Introduction to Language (4)
Introduction to the structures and history of the English language; traditional and alternative grammars; theories of language as they relate to language acquisition and socio-linguistics.
306 Technical Writing (4)
Prerequisite: Passing WPE score. Fundamentals of technical writing: development and writing of mechanism descriptions, proposals, feasibility studies, progress reports, and long technical reports.

308 Expository Writing (4)
Prerequisite: Passing WPE score. Methods of and practice in writing analytical essays that present persuasive arguments; emphasis on coherent organization, clear style, rigorous argumentation.

318-319-320 British Literature (4, 4, 4)
Prerequisites: ENGL 200A and 2006 or 200C, or 250. Study of representative works within the contexts of literary tradition and significant historical, social, and intellectual developments. Supervised practice in writing.
318: British Literature to 1640
319: British Literature 1640-1832
320: British Literature 1832-1920

340 Writing the Critical Essay (4)
English 340 satisfies the upper division writing requirement for English majors.
Prerequisite: Satisfactory completion of the Graduation Writing Assessment Requirement (GWAR). Intensive, supervised practice in advanced composition; emphasis on critical response to a literary work and its effective statement in essay form.

354 Selected Topics in Literature (4)
Representative works in literature of various thematic or stylistic types. Specific topics announced in Schedule of Classes. May be repeated to a maximum of 8 units for credit.

358 Technology in Literature (4)
Prerequisites: ENGL 200A and 2006 or 200C, or 250. The literary response to the impact of technology on society, nature, individual life, and art from the 18th century to the present. Supervised practice in writing.

360 Adjunct Writing (2 or 4)
Corequisite: Upper division course in student’s major department may be required. Supervised practice in advanced composition, emphasis on styles germane to student’s major field. May be taken in two 2-unit segments as required by student’s major department.

381 Legacy of Ancient Literature and Art (4)
(a/so listed as ART 381)
Prerequisite: ENGL 250. Legacy of ancient literature and art throughout literature and art through focus on three themes: the self and self-consciousness, society, and nature.

382 Violence in Literature (4)
Depiction of and attitude toward the theme of violence in selected literary works.

383 Themes of Adult Life in Philosophy and Literature (4)
(also listed as ML 383 and PHIL 383)
Prerequisite: GE humanities requirement. Meaning of selected experiences of adult life; for example, initiation and coming of age, self-actualization and responsibility, love and intimacy, parenthood, change in middle years, death and dying.

385 Sex and Gender in Language and Literature (4)
(also listed as SPCH 385)
Prerequisites: For English majors, ENGL 200A and 200B or 200C; for others, ENGL 250. Analysis of the comparative language behavior of women and men as revealed in research on communication and in representative literary works, both classic and modern.

387 The American Landscape in Literature (4)
Prerequisites: ENGL 200A and 200B or 200C, or 250. The literary response to the American landscape from the time of the early explorers to the present.

389 Human Emotions in Literary Expression (4)
(also listed as ML 389)
Prerequisite: GE humanities requirement. Emotions such as love, anger, laughter, joy, sorrow, guilt, pain or oppression, etc., as represented in prose and poetic forms of various cultures.

392 “Statement” and Literary Magazine Editing (1-4)
Prerequisite: Consent of faculty member advising the course. Techniques of editing and producing literary magazines. May be repeated to maximum of 6 units. Graded CR/NC.

400 Introduction to Linguistics (4)
(also listed as ANT/ 477)
Descriptive and historical study of language; problems of data collection and techniques of analysis, linguistic structure, language classification, language families of the world, language in its sociocultural setting.

401 English Language in America (4)
Introduction to linguistic theory; elementary structural analysis of phonology, morphology, and syntax; discussion of levels and functional varieties of usage.

402 History of the English Language (4)
Prerequisite: ENGL 401. History of the English language.

403 Language and Culture (4) (also listed as ANTH 470)

405 Modern English Grammar (4)
Prerequisite: ENGL 401. Transformational generative analysis of contemporary morphology and syntax; its relationship to alternate grammars of English.

406 Writing Nonfiction (4)
Prerequisite: Passing WPE score. Methods of and practice in writing documentary, biographical, and other nonfiction prose; emphasis on style, detail, effective development.

407 Writing Fiction (4)
Prerequisite: Instructor consent. Instruction in the technique and art of writing fiction. May be repeated to maximum of 16 units.

408 Writing Poetry (4)
Prerequisite: Instructor consent. Instruction in the technique and art of writing poetry. May be repeated to maximum of 16 units.

409 Scientific Writing (4)
Prerequisite: Satisfactory completion of the Graduation Writing Assessment Requirement (GWAR). Fundamentals of scientific writing: developing and writing lab reports, abstracts, reviews of secondary literature, and primary research papers.
410 Writing in the Schools (4)
Prerequisites: One upper division ENGL linguistics course; satisfaction completion of the Graduation Writing Assessment Requirement (GWAR). Discussion of composing and theories of discourse; review of research in written expression; practice in applying and evaluating theories.

416 Chaucer (4)
Troilus and Criseyde, Canterbury Tales, and selected minor poems as works of art and as reflections of culture and literary conventions of the time.

417 Shakespeare I (4)
Shakespearean drama. Intensive study of five or six plays chosen from following: Julius Caesar, Romeo and Juliet, Macbeth, Twelfth Night, The Merchant of Venice, Henry IV-Part One, Richard III, and Hamlet; elements of Shakespearean drama.

418 Shakespeare II (4)
Intensive study of four or five plays (and poems) not included in 417; range and diversity of Shakespeare’s art in his time and ours.

419 Milton (4)
Selected works of John Milton.

424 Greek and Roman Drama in Translation (4)
Plays by Aeschylus, Sophocles, Euripides, Aristophanes, Seneca, Plautus, and Terence; characterization, style, focus, and problems of translation.

425 Epic and Legend (4)
Stylistic, thematic, generic, and cultural analysis of representative epics and legends from world literature.

426 African Literature (4) (also listed as PAS 426)
Prerequisite: ENGL 250. African literature and its cultural background; intensive study of writers in English and others in translation; critical compositions and reports.

427 Modern Drama: Continental, English, and American (4)
Representative plays by such dramatists as Ibsen, Strindberg, Chekhov, Shaw, Pirandello, O’Casey, O’Neill; major theatrical movements; naturalism, symbolism, and expressionism.

428 Contemporary Drama: Continental, English, and American (4)
Prerequisite: ENGL 427 recommended. Representative plays by such dramatists as Brecht, Lorca, Beckett, Sartre, Genet, Pinter, Miller, Williams. Modern poetic drama; epic, existential, and absurdist theatre; theatre of cruelty.

430 Children’s Literature (4)
Prerequisite: ENGL 406 or passing WPE score. Analysis and evaluation of literature for children; role of literature in children’s education.

432 Literature for Adolescents (4)
Prerequisite: ENGL 406 or passing WPE score. Analysis and evaluation of literature appropriate for adolescents; examination of adolescent concerns in literary works.

441 Major Critics (4)
Major critical approaches to literature; systems of Aristotle, Dryden or Johnson, Wordsworth, Coleridge; a modern critic or a contemporary critical problem.

442 Contemporary Critical Theory (4)
A survey of literary theories since New Criticism such as Structuralism, Post-Structuralism, Feminism, Psychoanalytical criticism, Marxism, Reader-Response, New Historicism, Post-colonialism, Postmodernism, Deconstruction.

446 The British Novel: Defoe to Hardy (4)
Representative works by major British novelists, e.g., Defoe, Fielding, Sterne, Dickens, and Hardy.

447 The British Novel: Conrad to Present (4)
Representative works by modern British novelists, e.g., Conrad, Joyce, Lawrence, Huxley, and Cary.

450 Analyzing Children’s Film (4)
Children’s films as art form and communication medium; cinematic explication; visual and verbal communication techniques; children’s films adapted from folklore, fable, and children’s books.

451 Film and Literature (4)
Critical study of films adapted from literary sources along with analysis of original literature for purpose of contrasting the media. May be repeated to a maximum of 8 units as subject matter changes.

453 Modern Women Writers (4)
Representative works by such women writers of the modern world as Kate Chopin, Gertrude Stein, Willa Cather, Isak Dinesen, Colette, Virginia Woolf, Doris Lessing, and Gabriela Mistral.

454 Selected Topics in Literature (4)
Advanced study of representative works in literature of various thematic or stylistic types. Specific topics announced in Schedule of Classes. Open to English majors. May be repeated to a maximum of 8 units for credit.

460 Medieval English Literature (4)
Lyric poetry, epic and romantic narratives, and dramatic works, from Anglo-Saxon beginnings through fifteenth century, exclusive of Chaucer. Readings in Middle English and in translation.

461 Dramatic Literature of the English Renaissance (4)
Representative plays by Elizabethan and Jacobean dramatists exclusive of Shakespeare, e.g., Marlowe, Dekker, Webster, Johnson, Beaumont, and Fletcher.

463 The English Renaissance (4)
Nondramatic literature from Wyatt to Bacon; British and continental cultural, literary, and philosophical backgrounds.

464 Seventeenth Century Literature (4)
Prose and poetry from Donne to Dryden, excluding Milton; literary, social and political backgrounds.

465 The Augustan Age (4)
Literature from Swift and Pope through Johnson; social and philosophical backgrounds.

467 The Romantic Age (4)
Prose and poetry from Blake to Keats; cultural and philosophical backgrounds.

468 The Victorian Age (4)
Prose and poetry of major Victorian writers; social and philosophical backgrounds.

470 American Women Writers (4)
Critical study of the literary achievements of American women, such as Stowe, Dickinson, Chopin, Wharton, Cather, Hurston, Porter, Morrison, and Kingston.

471 American Literature: Beginnings to 1860 (4)
Puritanism to transcendentalism. Emphasis on such writers as Edwards, Emerson, Hawthorne, Melville, Poe, and Thoreau.
472 American Literature: 1860-1914 (4)
Prerequisite: ENGL 471. The movement toward realism and naturalism. Emphasis on such writers as Whitman, Dickinson, Twain, Howells, James, and Crane.

473 American Literature: 1914 to Present (4)
Representative works of American modernism and postmodernism.

475ABC The American Novel Since 1920 (4, 4, 4)
Development of American novel from 19th century to present. Representative works by major American novelists. (Courses need not be taken in sequence.) Supervised practice in writing.
475A: 19th Century (e.g., Cooper, Hawthorne, Melville, Twain, James, Crane)
475B: 1900-1945 (e.g., Dreiser, Wharton, Cather, Anderson, Hemingway, Fitzgerald, Faulkner, Steinbeck)
475C: 1945-Present (e.g., Wright, Bellow, Ellison, O’Connor, Updike, Pynchon)

476 Ethnic Literature in the U.S. (4)
Fiction, nonfiction, poetry, and plays of U.S. modern ethnic writers. May include, among others, Asian-American, black American, Euro-American, Hispanic-American, and native American works.

477 Black American Literature (4)
Representative works of 19th and 20th century black American writers such as Forten, Chesnutt, Dunbar, Hughes, Hurston, Wright, Baldwin, Walker, Brooks.

478 Modern Poetry (4)
Backgrounds of modern poetry; representative works by major British and American poets to 1930s such as Yeats, Eliot, Pound, Frost, Williams, Stevens, and Lawrence.

479 Contemporary Poetry (4)
Representative works by British and American poets from 1930s to present, such as Auden, Roethke, Thomas, Lowell, Plath, Hughes, Berryman, Creeley, Baraka, Merwin.

480 Literature and the Fine Arts, B.C. (4)
Ancient literature (Oriental, Greek, and Roman) in relation to other arts. May be taken independently of ENGL 481 or in any sequence with it.

481 Literature and the Fine Arts, A.D. (4)
Western literature (medieval romance, Dante, Cervantes, Voltaire, Goethe, Balzac) in relation to other arts. May be taken independently of ENGL 480 or in any sequence with it.

482 The Bible as Literature: Old and New Testaments (4)
Types and styles of Biblical literature; geographical, historical, cultural, and archaeological backgrounds of both Testaments.

483 Folklore and Literature (4)
Forms of folklore and their relationship to literature; identification and analysis of the heritage of folklore in literature.

484 Major Continental Fiction: Cervantes to Balzac (4)
Representative works by European authors, e.g., Cervantes, Rousseau, Goethe, and Balzac.

485 Major Continental Fiction: Stendhal to Tolstoy (4)
Representative works by European authors, e.g., Stendhal, Flaubert, Chekhov, Dostoyevsky, and Tolstoy.

486 Twentieth Century Continental Fiction (4)
Representative works by European authors, e.g., Proust, Mann, Kafka, Sartre, and Camus.

488 Canadian Fiction (4)
Canadian fiction in English by major 20th century authors including Atwood, Laurence, Davies, Munro, Kroetsch, Richler, and others.

490 Special Studies in British Writers (4)
Intensive study of one British writer or of a small group of writers whose works represent a significant movement or aspect of British literature. May be repeated to a maximum of 8 units for credit as content changes.

491 Special Studies in American Writers (4)
Intensive study of one or a small group of American writers whose works represent a significant movement or aspect of American literature. May be repeated to a maximum of 8 units for credit as content changes.

494 Literary Study and the Teaching Profession: A Capstone Course in the English Major for Prospective Teachers (4)
Prerequisite: English major with senior standing. Application of literary study to the classroom situation.

495 Seminar: British Literature (4)
Prerequisite: English major with senior standing. Variable content course in which each seminar studies in depth a selected topic in British literature. May be repeated to a maximum of 8 units for credit as content changes.

496 Seminar: American Literature (4)
Prerequisite: English major with senior standing. Variable content course in which each seminar studies in depth a selected topic in American literature. May be repeated to a maximum of 8 units for credit as content changes.

497 Special Studies in World Writers in Translation (4)
Prerequisite: English major with senior standing. Variable content course; each seminar studies in depth a selected topic in world literature. May be repeated to a maximum of 8 units for credit as content changes.

498 Seminar: Language (4)
Prerequisite: English major with senior standing. Variable content course in which each seminar will study in depth a selected topic in language. May be repeated to a maximum of 8 units for credit as content changes.

499 Undergraduate Directed Study (4)
Prerequisites: Consent of an instructor to act as sponsor. Project selected in conference with sponsor. Maximum of 4 units accepted toward English major or minor. May be repeated to a maximum of 20 units for credit as content changes. Graded CR/NC.
LIBERAL STUDIES

School of Arts and Letters

PROGRAM OFFICE
Engineering and Technology A605
Phone: (213) 343-4100

Liberal Studies is an interdisciplinary program that offers students the opportunity to pursue a Bachelor of Arts degree grounded in the social sciences and the humanities.

The Liberal Studies major provides an appropriate foundation for professional training in education, librarianship, law, medicine, various fields of public service, and business and industry. In addition, with careful selection of electives, students may prepare for graduate study in such areas as American Studies, education, English, and the social sciences.

The Faculty
Faculty for this interdisciplinary program is drawn from cooperating departments.

Bachelor of Arts Degree

The Bachelor of Arts degree program in Liberal Studies offers students the opportunity to design a major that focuses on understanding oneself, one's cultural heritage, the natural and social world, contemporary issues, and methods of analysis, inquiry, and problem-solving. Courses in methods of interdisciplinary study also cover various topics from an interdisciplinary point of view and provide integrative learning experiences. The program draws extensively from courses throughout the University curriculum.

Students may incorporate preparation for teaching into the major by completing the Multiple Subject Credential Option. Particular requirements and restrictions apply to candidates for teaching. Therefore, early consultation with a Liberal Studies adviser is essential. Refer to the undergraduate Charter School of Education chapter of this catalog for regulations governing all teaching credential programs.

Advisement

All students who intend to major in Liberal Studies must confer with a Liberal Studies program adviser by the end of the first quarter of their junior year in order to devise an official degree program.

Requirements for the Major (71-151 units)

- General Option (80 units)

This option requires completion of 80 units, 20 in Liberal Studies and 60 in the four areas described below; at least 52 of the 80 units must be upper division. Courses that appear more than once in the following lists may be taken for credit in only one theme. LBS 454 may be used in one of the areas with adviser approval. Courses taken for credit within the major cannot be used to meet lower or upper division general education requirements; however, students can select general education courses that will serve as prerequisites for courses within the major.

Multiple Subject Credential Option (146-151 units)
Students who select this option complete a separate core which is common to all Multiple Subject Credential options. That common core contains 106-111 units and is described in the Undergraduate Study chapter. In addition to the core, the 68 units listed below are required in the option. Refer to the undergraduate Charter School of Education chapter of this catalog for regulations governing all teaching credential programs.

Required Courses (106-111 units)
Refer to the Undergraduate Study chapter of this catalog.

Major Courses (20 units)
BIOL 165 Humans and the Biological Environment (4)
LBS 301 Interdisciplinary Investigation (4)
LBS 360 Library Research Techniques (4)
LBS 454L Selected Topics in Liberal Studies (4)
LBS 489 Senior Thesis (4)

Depth Area (20 units)
Select one of the fifteen depth areas listed below.

1. American Civilization (Foundations)
   HIST 450 Special Studies in History (4)
   ANTH 406 or HIST 482 (4)

2. American Civilization
   HIST 410 Ancient Near East: 4000-323 B.C. (4)
   HIST 450 Special Studies in History (4)
   HIST 477, 480, or 489 (4)
   Topics in U.S. History (select one from following)
   HIST 477, 480, or 485 (4)

2. Ancient World
   ANTH 425 Archaeology of the Old World (4)
   HIST 410 Ancient Near East: 4000-323 B.C. (4)
   HIST 450 Special Studies in History (4)

   Classical World (select one from following):
   HIST 411, 412A, 412B, 413 (4)

   Non-Western World (select one from following)
   HIST 414A, 490A, 494A (4)

3. Earth Science
   GEOG 402 Geomorphology (4)
   GEOG 410 Weather and Climate (4)
   GEOG 415 Perspectives on Environment (4)
   GEOL 321 Geology of Southern California (4)
   GEOL/PHYS 350N Evolution of Universe and Earth (4)

4. Humanities (Critical Thinking and Western Civilization)
   PHIL 304 Ethics (4)
   PHIL 311 History of Ancient Philosophy (4)
   PHIL 313 History of Modern Philosophy (4)
   PHIL 410 Social and Political Philosophy (4) or
   PHIL 420 Ethics II (4)
   PHIL 470 Theory of Knowledge (4) or
   PHIL 480 Philosophy of Language (4) or
   PHIL 485 Philosophy of Science (4)
5. **Humanities (Multicultural Approach to Morality and Values)**
   - PHIL 415 Philosophy of Religion (4)
   - RELS 350 Religions in the U.S. (4)
   Select three from following (12 units):
   - ART/RELS 450; PHIL 418, 433, 435; RELS 300, 410, 425

6. **Language (Communication)**
   - SPCH 489 Intercultural Communication (4)
   Select four from following (16 units):
   - ANTH 470/ENGL 403; ENGL 401; PAS 425; PSY 420;
   - SPCH 350, 462, 463, 478, 479

7. **Literature (Current Trends)**
   - Select five from following:
     - ENGL 358, 428, 447, 451, 453, 473, 475C, 479, 486

8. **Literature (Multicultural)**
   - ENGL 476 Ethnic Literature in the U.S. (4)
   Select four from following (16 units):
   - CHS 403; ENGL 453, 477; ENGL/PAS 426;
   - FREN 461, 471;
   - FL 460; JAPN 307; PAS 422, 423

9. **Literature (Pan-African)**
   - ENGL 477 Black American Literature (4)
   - PAS 423 Themes in Black Literature (4)
   - PAS 426 African Literature (4)
   - PAS 427 Institutional Racism: Black Response in Literature (4)

10. **Literature (Traditional)**
    - ENGL 471 American Literature: Beginnings to 1860 (4)
    - ENGL 472 American Literature: 1860-1914 (4)
    - ENGL 476 Ethnic Literature in the U.S. (4)
    Select one from following (4 units):
    - ENGL 424, 425, 482, 483

**Electives (4 units)**
    - Select one 300- or 400-level literature-based ENGL course or SPCH 367.

11. **Multicultural Arts**
    - ART 460 Multicultural Approaches to Visual Arts (4)
    Select two from following (8 units):
    - ART 431, 446, 461, 481
    Select two from following (8 units):
    - CHS 446; MUS 452, 457, 458; PAS 421

12. **Social Science (Geography)**
    - GEOG 370 World Regions (4)
    - GEOG 415 Perspectives on Environment (4)
    - GEOG 421 United States (4)
    - GEOG 431 California (4)
    - GEOG 446 U.S. Ethnic Communities (4)

13. **Social Science (Interdisciplinary Focus on California)**
    - GEOG 432 Metropolitan Los Angeles (4) or
    - HIST 489 Los Angeles (4)
    Select four from following (16 units):
    - ANTH 407; CHS 445; GEOG 431; HIST 467, 488;
    - POLS 403

14. **Social Science (Latin America)**
    - Select one four-unit course each from areas A-D, representing at least four departments, with no more than four units of LAS 450.

   **A. The Region**
   - HIST 461, 462, 463; LAS 424, 450

   **B. Chicano Studies and Mexico**
   - CHS 406, 444, 467, 470; CHS/HIST 466; LAS 450

   **C. Central America and the Caribbean**
   - ANTH 408; GEOG 427; LAS 450; PAS/POLS 456

   **D. South America**
   - ANTH 404; GEOG 428; HIST 465; LAS 450;
     - POLS 451

   **E. Select one additional four-unit course from any of the above four areas.**

15. **Social Science (Mexican-American Studies)**
    - CHS 405 The Mexican People as Immigrants (4)
    - CHS 406 Hispanic Communities in U.S. Society (4)
    - CHS 430 Chicano Political Behavior (4)
    - CHS 445 History of the Chicano in Los Angeles (4)
    - CHS 470 Educational Institutions of the Barrios (4)

**Electives (28 units)**
    - Professional education courses are recommended.
    - See a credential adviser in the Charter School of Education.

**GENERAL EDUCATION UPPER DIVISION THEME**
Select a GE upper division theme in consultation with an adviser and complete one course in each of the three areas within that theme. Theme courses are not part of the major but are included in credential requirements.

**BCLAD CREDENTIAL Emphasis**
Students who select a bilingual BCLAD credential emphasis must consult the Charter School of Education for current requirements which include knowledge of a teaching methodology and a culture and the language of an ethnic group covered by the BCLAD Credential Emphasis program. Familiarity with this information may be tested by approved examinations. The BCLAD Credential Emphasis requires 9 quarter units of a single foreign language.

**Minor in Women’s Studies**
The Women’s Studies minor, which requires 32 units, is a multidisciplinary program comprised of courses in Women’s Studies and related areas.

Based on recent contributions of gender scholarship, theory, and history, the Women’s Studies minor is designed to examine the influence of gender on the roles, status, and interaction of women and men in society; to increase knowledge of women’s contributions to the liberal arts and sciences and the professional fields; and to enhance the ability of women to formulate challenging and satisfying goals and to achieve them.

Both men and women benefit from such a program, which helps them understand the influence of gender and gender role on key aspects of human behavior and interaction in a variety of contexts.

The courses that comprise the minor must be selected with the approval of a Women’s Studies adviser.
Requirements for the Minor (32 Units)

**Lower Division Required Course (4 units)**

WOMN 200 Introduction to Women’s Studies (4)

**Upper Division Required Courses (13-16 units)**

- ANTH 438 Sex Roles in Cross cultural Perspective (4) or
- SOC 441 Sociology of Sex Roles (4)
- BIOL 488N/PSY 488 Gender Differences (4)
- ENGL/SPCH 385 Sex and Gender in Language and Literature (4) or
- PHIL 412 Philosophy and Sex Roles (4)
- WOMN 491 Proseminar: Women’s Studies (1-4)

* Completion of these courses satisfies the upper division general education theme #10, Gender in Human Experience. The 12 required units may be used to satisfy both general education and Women’s Studies minor requirements.

**Recommended Electives (12-15 units)**

Select 12-15 units (at least 8-11 upper division) with no more than two courses from the same area or discipline, with assistance of a Women’s Studies adviser. Courses listed above but not used to satisfy the GE theme requirement may be used as electives for the minor. Other approved electives appear below.

**Lower Division**

CHS 230

**Upper Division**

ENGL 453 FSCS 424
HIST 485, 486 HS 455
PAS 412 POLS 442
PSY 419 RELS 435
SPCH 479 WOMN 454, 499

**Courses in Liberal Studies (LBS)**

**Lower Division Course**

**200 Methods and Materials of Library Research (4)**

Development of library research skills. Survey and analysis of major categories of research tools and their application in various disciplines.

**Upper Division Courses**

**301 Interdisciplinary Investigation (4)**

Prerequisite: Satisfactory completion of the Graduation Writing Assessment Requirement (GWAR). Principles and techniques of interdisciplinary problem-solving: nature and limitations of knowledge, evaluation of evidence, strategy and methods of integrating materials drawn from different disciplines.

**360 Library Research Techniques (4)**

Prerequisite: LBS 301. Library research techniques; major reference works; on line research; principles of problem definition, organization, and style. Prospectus for undergraduate thesis.

**454 Selected Topics in Liberal Studies (1-4)**

Prerequisites: Upper division standing, and others as needed for specific topic. Intensive study of selected topic from interdisciplinary perspective; subjects vary. May be repeated to a maximum of 8 units for credit.

**489 Senior Thesis (4)**

Prerequisites: LBS 360, senior standing, approval of prospectus for undergraduate thesis. Advanced principles and techniques of interdisciplinary problem-solving; supervised thesis.

**499 Undergraduate Directed Study (14)**

Prerequisites: Instructor consent to act as sponsor, approval of coordinator, minimum 2.5 grade point average. Projects must be approved before registration, progress meetings held regularly, and final report submitted. May be repeated for credit.

**Courses in Women’s Studies (WOMN)**

**Lower Division Course**

**200 Introduction to Women’s Studies (4)**

Concepts of women’s studies; examination of current areas of concern to women.

**Upper Division Comes**

**454 Special Topics in Women’s Studies (4)**

Prerequisites: As needed for specific topic. Topics of special interest in women’s studies as announced in Schedule of Classes. May be repeated to total of 8 units as subject matter changes.

**491 Proseminar: Women’s Studies (1-4)**

Prerequisite: WOMN 200. Topics of special interest in women’s studies as announced in Schedule of Classes. May be repeated for total of 4 units.

**499 Undergraduate Directed Study (1-8)**

Prerequisite: Instructor consent to act as sponsor. Project selected in conference with sponsor before registration, progress meetings held regularly, and final report submitted. May be repeated to total of 8 units as subject matter changes.

The Credential Program

A diversified major program in Liberal Studies has been approved by the California Commission on Teacher Credentialing for the Multiple Subject Credential. Students may incorporate preparation for teaching into the major by completing the Multiple Subject Credential option. Particular requirements and restrictions apply to candidates for teaching; therefore, early consultation with Liberal Studies advisers is essential. Students should also contact advisers in the Charter School of Education regarding admission to and requirements of the credential program.

Courses in Liberal Studies (LBS)

Lower Division Course

**200 Methods and Materials of Library Research (4)**

Development of library research skills. Survey and analysis of major categories of research tools and their application in various disciplines.

Upper Division Courses

**301 Interdisciplinary Investigation (4)**

Prerequisite: Satisfactory completion of the Graduation Writing Assessment Requirement (GWAR). Principles and techniques of interdisciplinary problem-solving: nature and limitations of knowledge, evaluation of evidence, strategy and methods of integrating materials drawn from different disciplines.
The Department of Modern Languages and Literatures offers programs leading to the Bachelor of Arts degree in French, Japanese, and Spanish, as well as minors in Chinese, French, Japanese, and Spanish. In addition, classes are periodically offered in other languages such as German, Italian, Latin, Portuguese, and Russian.

Also offered are Master of Arts degrees in French and Spanish, described in the Graduate Programs section.

The Faculty

Associate Professors: Felipe Diaz.

Assistant Professors: Gretchen Angelo, Maria Dolores Costa, Sachiko Matsunaga, Qingyun Wu.

Advanced Placement Credit

Course and unit credit are granted for a score of 4 or 5 on Advanced Placement Language and Literature Examinations. Students should consult the department for more information.

Placement Examinations

The Department of Modern Languages and Literatures administers placement examinations to assist students in determining their level of language proficiency.

Sequence of Classes

Prerequisite courses must be completed prior to enrollment. Prerequisites appear in course descriptions in this catalog. Exceptions may be approved by departmental petition for qualified students having compelling reasons. Petitions should be filed prior to registration.

Reading Examinations

Reading examinations in selected languages are administered by the Department of Modern Languages and Literatures. Students in undergraduate or graduate programs needing to verify proficiency in a language other than English must enroll in ML 901 or 902, as appropriate, in the quarter in which any such examination is to be taken. Students failing ML 902 are required to take an appropriate course prior to retaking the examination.

Limitation on Language Credit

Equivalent courses taken at the college level may not be repeated for credit toward a degree. A student with one year of high school language would normally be expected to enter 100B; a student with two years of high school language would enter 100C; with three years, 200A, and so on. However, it is recognized that special circumstances may make it advisable for some students to start at higher or lower levels. Therefore, the department will allow certain students who have studied a language other than English exclusively at the high school level to depart from the equivalency formula specified above after consultation and with the recommendation of a properly designated adviser.

Students who completed their secondary education in a foreign country where a language other than English is spoken natively may not receive credit for elementary language and lower division conversation courses in that language.

Limitations on Credit for “Non-Traditional” Courses

A total of eight units of the following courses may be applied to major programs in the department: FREN 499, JAPN 395, ML 392, 399, 496, and SPAN 499. Exceptions may be made only in extraordinary circumstances and with the approval of the departmental adviser and chair.

The Credential Program

When designated courses are completed as part of the Bachelor of Arts degree programs in French, Japanese, and Spanish, these programs are approved by the California Commission on Teacher Credentialing to satisfy the requirements for subject area competency in those languages.

Students having less than a 3.0 average in courses in their major program should contact the Department of Modern Languages and Literatures for information regarding alternative ways of qualifying for admission to directed teaching.

Students who completed their baccalaureate in a modern language at another college or university and who wish to satisfy the requirements of an approved subject area program in that language should contact the Department of Modern Languages and Literatures for information.

Students who have passed the examination approved by the California Commission on Teacher Credentialing to satisfy the requirements for subject area competency in lieu of completion of a program approved to satisfy competency requirements in a specific language should contact the Department of Modern Languages and Literatures for more information.

Foreign Language Cooperative Program (FLCP)

Courses in the Foreign Language Cooperative Program (FLCP 288 lower division, FLCP 488 upper division) are designed to give eligible students the opportunity to study at UCLA a language other than English that is not offered at this campus or any neighboring CSU campus. For information regarding enrollment and qualifications, consult the Department of Modern Languages and Literatures.

CHINESE

Minor in Chinese

A minor in Chinese is available for students majoring in other fields. It may be of particular value to students interested in studying languages and literatures; history of East Asia in general and China especially; political science; or employment with the government, international business firms, or international agencies.
A total of 32 units in Chinese is required, of which 12 are in lower division and 20 are in upper division courses.

**Requirements for the Minor (32 units)**

**Lower Division Required courses (12 units)**
- CHIN 200ABC Intermediate Chinese (Mandarin) (4, 4, 4)

**Upper Division Required Courses (16 units)**
- CHIN 300A Advanced Chinese I, II (Mandarin) (4, 4)
- CHIN 310 Chinese Civilization (4)
- CHIN 322 Newspaper Chinese (4)

**Electives (select 4-16 units)**
- CHIN 408 Chinese Literature I (4)
- CHIN 410 Chinese Literature II (4)
- CHIN 454L Special Topics in Chinese (4)
- CHIN 454P Special Topics in Chinese (4)
- ML 399 Directed Reading (4)

**Bachelor of Arts Degree in French**

The study of French is conducive to proficiency in oral and written communication and also provides training in a humanistic discipline. It enhances enjoyment of travel abroad, foreign films, and great literary works. Students who achieve a mastery of French may enter the teaching profession or work as translators, interpreters, or bilingual secretaries. Their skills are also useful in careers associated with international business, the foreign service, and the news media.

The undergraduate program in French includes a major for the Bachelor of Arts degree and a minor to accompany a major in another field. The Master of Arts degree program is described in the Graduate Programs section.

**Requirements for the Major (72-74 units)**

A total of 72-74 units is required, including at least 24 units earned in residence at Cal State L.A. Students select one of three options: Option I, Single Subject Teaching Option (30 units); Option II, Literary (28 units); or Option III, General Language (28 units). FREN 100 ABC or 130 is prerequisite to all options and may be satisfied by appropriate high school preparation or by examination.

**Lower Division Required Courses (12 units)**
- FREN 200AB Intermediate French (4, 4)
- FREN 201 Conversation and Composition (4)

**Upper Division Required Courses (32 units)**
- FREN 300ABC Advanced Grammar and Reading (4, 4, 4)
- FREN 301 Advanced Conversation and Composition (4)
- FREN 401 Course de Style (4)
- FREN 410 Introduction to French Prose and Dramatic Literature I (4)
- FREN 411 Introduction to French Prose and Dramatic Literature II (4)
- ML 400 Research Methods in Modern Languages (4)

• **Option I: Single Subject Teaching Option (30 units)**
Refer to the undergraduate Charter School of Education chapter of this catalog for regulations governing all teaching credential programs.

**Required Courses (22 units)**
- FREN 305 Phonetics (4)
- FREN 310AB French Culture and Institutions (4, 4)
- FREN 403 Contrastive Analysis of French and English Structures (4)
- FREN 412 Masters of French Poetry (4)
- FL 496 Instructional Practicum (2)

**Electives (select 8 units from following):**
- FREN 315, 380, 405, 450, 451; 461 or 471

• **Option II: Literary Option (28 units)**

**Required Courses (16 units)**
- FREN 310A or 310B French Culture and Institutions (4)
- FREN 412 Masters of French Poetry (4)
- FREN 450 Selected Topics in French Literary Prose (4)
- FREN 451 Selected Topics in French Dramatic Literature (4)

**Electives (select 12 units from following)**
- FREN 310A or 310B; 315; 405; 461 or 471

• **Option III: General Language Option (28 units)**

**Required Courses (16 units)**
- FREN 305 Phonetics (4)
- FREN 310B French Culture and Institutions (4)
- FREN 380 Commercial French (4)
- FREN 405 Translation (4)

**Electives (select 12 units from following)**
- FREN 310A, 315, 412, 450, 451, 471

**Minor in French**

A minor in French is available for students majoring in other fields. It may be of particular value to students interested in the study of languages and literatures, the history of Europe in general and France especially, in political science, or in employment with the government, international business firms, or international agencies.

**Requirements for the Minor (40 units)**

A total of 40 units in French is required, of which 12 are in lower division and 28 are in upper division courses.

**Lower Division Required Courses (12 units)**
- FREN 200AB Intermediate French (4, 4)
- FREN 201 Conversation and Composition (4)

**Upper Division Required Courses (28 units)**
- FREN 300ABC Advanced Grammar and Reading (4, 4, 4)
- FREN 301 Advanced Conversation and Composition (4)
- FREN 401 Course de Style (4)
- FREN 410 Introduction to French Prose and Dramatic Literature I (4)
- FREN 411 Introduction to French Prose and Dramatic Literature II (4)
- ML 400 Research Methods in Modern Languages (4)

Select one or both of following:
- FREN 310AB French Culture and Institutions (4, 4)

Select additional courses from following to complete 24-unit upper division requirement:
- FREN 315, 380, 401, 405, 410, 411, 412

French minors should consult the department adviser regarding the choice of the most appropriate electives.

**GERMANY**

The Department of Modern Languages and Literatures does not offer a major or a minor in German. However, courses in German are available for students majoring in other fields. Study of German may be of particular value to students of music, science, history, or political science. Knowledge of German may be helpful in securing employment with U.S. or international agencies or with international business firms.
ITALIAN
The Department of Modern Languages and Literatures does not offer a major or a minor in Italian. However, the courses offered can be of value to students preparing to teach Romance languages; to those interested in the culture of Italy; or to those preparing for language prerequisites to graduate degrees.

Bachelor of Arts Degree in Japanese
The program in Japanese includes a major for the Bachelor of Arts degree and a minor. The program places emphasis on the development of functional communicative skills in Japanese and offers in-depth study of Japanese literature, language, and civilization.

Acquiring functional skills in listening, speaking, reading, writing, and culture gives students direct access to the Japanese people and society, enabling them to better understand and interact with the people of Japan today. The study of Japanese literature, language, and civilization broadens intellectual horizons, fosters appreciation of cultural and linguistic diversity, and helps equip students to take their place as global citizens of the twenty-first century.

Students who wish to qualify for the Single Subject credential should note the requirements described below, and are referred to the undergraduate Charter School of Education chapter of this catalog for regulations governing all teaching credential programs.

Requirements for the Major (60-64 units)
A total of 60 or 64 units is required, including at least 24 units earned in residence at Cal State LA. Elementary and Intermediate Japanese (JAPN 100ABC OR 130 AND JAPN 200ABC), or an equivalent level of proficiency, are prerequisite to the major.

All students take a required common core of 52 units and 8 units of electives for a total of 60 units. Students seeking the Single Subject Matter program in Japanese are required to take ML 496 (4 units) for a total of 64 units.

REQUIRED COMMON CORE COURSES (52 units)
JAPN 300ABC Advanced Japanese (4, 4, 4)
JAPN 310 Japanese Civilization to 1660 (4) and
JAPN 311 Japanese Civilization since 1600 (4)
*JAPN 315 Language in Japanese Society (4) or
*JAPN 320 Introduction to Japanese Linguistics (4)
JAPN 400 ABC Advanced Reading and Composition (4, 4, 4)
JAPN 408 Classical Japanese Literature (4) and
JAPN 410 Modern Japanese Literature (4)
*JAPN 450 Proseminar: Japanese Linguistics (4) or
JAPN 460 Proseminar: Masters of Japanese Culture and Thought (4)
ML 400 Research Methods in Modern Languages (4)

Electives (select 8 units from following)
* Required for the Single Subject credential

ADDITIONAL REQUIRED COURSE FOR THE SINGLE SUBJECT MATTER PROGRAM (4 units)
ML 496 Instructional Practicum (4)

Minor in Japanese
A minor in Japanese is available for students majoring in other fields or those with an interest in East Asia in general. It may be of particular interest to students studying history, international relations, other languages and literatures, business, or technology, as well as to those seeking employment with the government or international agencies.

Prerequisite: Elementary and intermediate Japanese (JAPN 100ABC or 130 and JAPN 200ABC) or an equivalent level of proficiency. The minor requires completion of 36 units in Japanese as listed below.

Requirements for the Minor (36 units)
Upper Division Required Courses (24 units):
JAPN 300ABC (4, 4, 4)
JAPN 400ABC (4, 4, 4)
Electives (select 12 units from following)
310, 311, 315, 320, 403, 408, 410, 450, 460

LATIN
The Department of Modern Languages and Literatures does not offer a major leading to the Bachelor of Arts degree in Latin, or a minor to accompany a major in another field. However, the courses offered can be of value to students preparing to teach Romance languages or interested in the Classics and in Roman and Early Christian history.

PORTUGUESE
The Department of Modern Languages and Literatures does not offer a major leading to a Bachelor of Arts degree in Portuguese or a minor to accompany a major in another field. However, the courses offered may be of value to students who wish to acquire knowledge of the Russian language, culture, and literary forms.

Bachelor of Arts Degree in Spanish
The undergraduate program includes a major for the Bachelor of Arts degree with two options, and a minor for students majoring in other fields. The Master of Arts degree is described in the Graduate Programs section.

Requirements for the Major (68 or 70 units)
Students complete a common core of 32 upper-division units and a minimum of 36 units of upper-division electives. Those seeking to qualify for the Single Subject Credential in Spanish must take 38 units of upper-division electives, including all courses identified on the program by an asterisk. Prior to beginning the Bachelor of Arts program in Spanish, students must have completed the second year of college-level Spanish or demonstrate equivalent language competency on the department’s placement examination.

Upper Division Required Courses (32 units)
SPAN 300AB Composition and Grammar (4, 4)
SPAN 305 Introduction to Spanish Linguistics (4)
SPAN 310 Spanish Civilization (4) or
SPAN 315 Spanish-American Civilization (4)
SPAN 401 Introduction to Hispanic Literary Criticism (4)
SPAN 408 Spanish Literature I (4)
SPAN 413 Spanish-American Literature II (4)
ML 400 Research Methods in Modern Languages (4)
Upper Division Electives (36 or 38 units)

Minor in Spanish

A minor in Spanish, totaling 40-44 units, depending on their prior experience with the language, is available for students majoring in other fields. Following completion of a common core, students select a total of two to three electives. Electives encompass literature, linguistics, and civilization, as well as applied language. Those interested in broadening their knowledge and understanding of the Hispanic language and culture would typically complete SPAN 320, 330, or 340, 341, or 343, and either 350 or 351. Students whose career goals require communicative proficiency in Spanish are also encouraged to enroll in SPAN 350, 397, and 400A. SPAN 100ABC or 130 is prerequisite to this program and may be satisfied by appropriate high school preparation or by examination.

Courses in Modern Languages (ML)

Lower Division Course

154 Special Topics in (a) Modern Language (1-5)

Topics of special interest to students of modern languages, as announced in Schedule of Classes.

Upper Division Courses

354L,P Special Topics in (a) Modern Language (1-4)

Prerequisites: As needed for specific topic. Topics of special interest to students in modern languages as announced in Schedule of Classes.

383 Themes of Adult Life in Philosophy and Literature (4)

(also listed as ENGL 383 and PHIL 383)

Prerequisite: GE humanities requirement. Meaning of selected experiences of adult life, for example, initiation and coming of age; self-actualization and responsibility; love and intimacy; parenthood; change in middle years; death and dying.

389 Human Emotions in Literary Expression (4)

(also listed as ENGL 389)

Prerequisite: GE humanities requirement. Emotions such as love, anger, laughter, joy, sorrow, guilt, pain or oppression, etc., as represented in prose and poetic forms of various cultures.

392 Literary Gazette (1-4)

Prerequisites: Upper division standing, instructor consent. Techniques of producing a university literary magazine. May be repeated to maximum of 6 units. Graded CR/NC.

399 Directed Reading (1-4)

Prerequisite: Consent of adviser. Readings in a modern language about topics of interest to student under direction of faculty member; regular oral and/or written reports in the language.

400 Research Methods in Modern Languages (4)

Prerequisite: Satisfactory completion of Graduation Writing Assessment Requirement (GWAR). Exploration of methods of research and documentation in the field of modern languages and literatures. Writing research papers, reports, and essays. All discussions and writing in English.

460 Cultural Crosscurrents in Literature (4)

Prerequisite: Upper division standing. Study of a distinctive theme, movement, or genre in a number of Western and non-Western literatures in languages other than English. Conducted in English. May be repeated to maximum of 8 units for credit as content changes.

496 Instructional Practicum (14)

Prerequisites: Minimum 3.0 grade point average in major, completion of 400-level grammar class in major, approval by coordinator. Supervised experience in instructional activities related to the teaching of a second language. Regular progress meetings required. May be repeated to maximum of 4 units. Graded CR/NC. 

Courses in Chinese (CHIN)

Lower Division Courses

100ABC Elementary Mandarin (4, 4, 4)

Prerequisite: Must be taken in sequence. Students with one year of high school Mandarin should elect 100B; those with two
years, 100C. Methodical presentation of structure of language through hearing, speaking, reading, and writing Mandarin.

101ABC Elementary Cantonese (4, 4, 4)
Prerequisite: Must be taken in sequence. Students without background in Cantonese are advised to take first-year course. Introduction to structure of language through hearing, speaking, reading, and writing Cantonese.

200ABC Intermediate Mandarin (4, 4, 4)
Prerequisite: CHIN 100C or three years of high school Mandarin for 200A; four years for 200B. Emphasis on understanding and speaking Mandarin; rapid reading of Mandarin for comprehension, grammar review, and writing.

201ABC Intermediate Cantonese (4, 4, 4)
Prerequisite: CHIN 101C. Must be taken in sequence. Emphasis on understanding and speaking Cantonese; further development of conversational ability and reading Romanized Cantonese texts.

Upper Division Courses

300AB Conversation and Composition (Mandarin) (4, 4)
Prerequisite: CHIN 200C. Must be taken in sequence. Practice in oral and written Mandarin. Emphasis on fluency, correct expression in writing, and vocabulary expansion through reading contemporary literature.

303 Mandarin for Cantonese Speakers (4)
Prerequisite: CHIN 201 C. Emphasis on spoken Mandarin; drills for better understanding differences between Cantonese and Mandarin syntactic and idiomatic expressions.

310 Chinese Civilization (4)
Prerequisite: CHIN 200B. Major cultural and social trends of China from beginning to present.

322 Newspaper Chinese (4)
Prerequisite: CHIN 300B. Extensive reading in leading Chinese newspapers and magazines from People's Republic of China, Republic of China (Taiwan), Hong Kong, etc. Emphasis on abbreviated phrases used in contemporary newspapers and magazines.

380 Business Chinese (4)
Prerequisite: CHIN 200C. Intensive study of Mandarin Chinese used in business; theory and practice of fundamentals of commercial correspondence and negotiations in Chinese.

408 Chinese Literature I (4)
Prerequisite: CHIN 300B. Chinese literature from the beginnings to the 13th century.

410 Chinese Literature II (4)
Prerequisite: CHIN 300B. Chinese literature from the 13th century to the present.

454L-P Special Topics in Chinese (1-4)
Current topics of special interest to students in Chinese as announced in Schedule of Classes. May be repeated for credit to maximum of 8 units.

Courses in French (FREN)

Lower Division Courses

100ABC Elementary French (4, 4, 4)
Prerequisite: Must be taken in sequence. Students with one year of high school French should elect 100B; those with two years, 100C. Methodical presentation of fundamental structure of the language through hearing, speaking, reading, and writing French.

130 Intensive Elementary French (12)
Offered summer quarter only. Emphasis on acquisition of communicative skills. Presentation of structure of language and information about francophone cultures. Credit allowed for only one of FREN 130 and 100ABC.

200AB Intermediate French (4, 4)
Prerequisite: Must be taken in sequence. Students with FREN 100C or three years of high school French should elect 200A; those with four years, 200B. Students with equivalent background may request placement by examination. Continued methodical study of French grammatical structures. Emphasis on understanding and speaking French, reading for analysis and comprehension, and writing.

201 Conversation and Composition (4)
Prerequisite: FREN 200B. Practice in oral and written French expression of intermediate difficulty; development of fluency and accuracy.

Upper Division Courses

All upper division courses except 461 and 471 are conducted in French.

300ABC Advanced Grammar and Reading (4, 4, 4)
Prerequisites: FREN 200B. Must be taken in sequence. Complete review of all French grammatical structures; grammatical and stylistic analysis of difficult French texts; reading for comprehension, vocabulary building, and oral practice.

301 Advanced Conversation and Composition (4)
Prerequisite: FREN 300C. Practice in oral and written French expression; development of fluency and accuracy approximating native skill. May be repeated once for credit.

305 Phonetics (4)
Prerequisites: FREN 200AB, 201. Production of French sounds such as assimilation, liaison, vowel length, rhythm, accent, intonation, etc. Laboratory practice in pronunciation.

310AB French Culture and Institutions (4, 4)
Prerequisite: FREN 300C or 301. Contributions of France to western world; origin and development of its political and social institutions, as well as evolution of its literature, thought, and art.

315 The French Popular Song (4)
Prerequisite: FREN 200B. French popular song from Middle Ages to present; relationship of song to historical, social, and cultural events.

380 Commercial French (4)
Prerequisite: FREN 300C or 301. Intensive study of French used in business; theory and practice of fundamentals of commercial correspondence in French; translation of business English into business French.

401 Course de Style (4)
Prerequisites: FREN 300C 301. Writing and analysis of literary French.

403 Contrastive Analysis of French and English Structures (4)
Prerequisites: FREN 300C ENGL 401. Contrastive analysis of structures of French and English describing similarities and differences of each; emphasis on studying structures that cause interference in language learning.
405 Translation (4)
Prerequisites: FREN 300C, 301. Techniques of translation processes in rendering into French and English materials ranging from official documents to technical essays and literary texts.

410 Introduction to French Prose and Dramatic Literature I (4)
Prerequisite: FREN 300C or 301. Development of French prose and dramatic literature from beginnings to French Revolution: cultural influences, literary landmarks, and analysis of genre and style.

411 Introduction to French Prose and Dramatic Literature II (4)
Prerequisite: FREN 300C or 301. Development of French prose and dramatic literature from the French Revolution to the 20th century: cultural influences, literary landmarks, and analysis of genre and style.

412 Masters of French Poetry: Beginnings to Symbolism (4)
Prerequisite: FREN 300C or 301. French poetic evolution as seen in the principal poets from Villon to Mallarme.

450 Selected Topics in French Literary Prose (4)
Prerequisite: FREN 410 or 411. Selected masters of French literary prose and their influence on world letters and ideas. Focus on cultural significance and literary theory. May be repeated for credit as subject matter changes.

451 Selected Topics in French Dramatic Literature (4)
Prerequisite: FREN 410 or 411. Selected masters of French dramatic literature and their influence on world letters and ideas. Focus on cultural significance and aesthetic theory. May be repeated to a maximum of 8 units for credit as subject matter changes.

454 Special Topics in French (1-4)
Prerequisites: As needed for specific topic. Current topics of special interest in French as announced in Schedule of Classes. May be repeated to a maximum of 8 units for credit.

461 Masters of French Literature in Translation (4)
Study of one or several French authors whose writings are of special significance today. Conducted in English. May be repeated to 8 units as subject matter changes.

471 The French Film (4)
Study of great traditions and personal styles of outstanding film makers. Critique and literary analysis of intellectual approach in French cinema. Conducted in English.

499 Undergraduate Directed Study (1-4)
Prerequisites: 3.0 grade point average in French, senior or graduate standing, adviser consent. Project selected in conference with instructor before registration; progress meetings held regularly and culminating in written reports. May be repeated to a maximum of 8 units for credit.

Courses in German (GERM)
Lower Division Courses
100ABC Elementary German (4, 4, 4)
Prerequisite: Must be taken in sequence. Students with one year of high school German should elect 100A; those with two years, 100B. Methodical presentation of structure of language through hearing, speaking, reading, and writing German.

200ABC Intermediate German (4, 4, 4)
Prerequisite: Must be taken in sequence. Students with GERM 100A or three years of high school German should elect 200A; those with four years, 200B. Emphasis on understanding and speaking German; rapid reading of German for comprehension, grammar review, and writing.

201 Spoken German (4)
Prerequisite: GERM 100C. Intensive practice in spoken German at intermediate level. Intended for non-natives only.

Courses in Italian (ITAL)
Lower Division Courses
100ABC Elementary Italian (4, 4, 4)
Prerequisite: Must be taken in sequence. Students with one year of high school Italian should elect 100A; those with two years, 100C. Methodical presentation of language through hearing, speaking, reading, and writing Italian.

200ABC Intermediate Italian (4, 4, 4)
Prerequisite: Must be taken in sequence. Students with ITAL 100A or three years of high school Italian should elect 200A; those with four years, 200B. Emphasis on understanding and speaking Italian; rapid reading for comprehension; grammar review, writing and culture.

Courses in Japanese (JAPN)
Lower Division Courses
100ABC Elementary Japanese (4, 4, 4)
Prerequisite: Must be taken in sequence. Students with one year of high school Japanese should elect 100B; those with two years, 100C. Methodical presentation of structure of the language through hearing, speaking, reading, and writing Japanese.

130 Intensive Elementary Japanese (12)
Offered summer quarter only. Emphasis on functional acquisition of spoken Japanese; reading and writing introduced. Credit allowed for only one of JAPN 130 and 100ABC.

200ABC Intermediate Japanese (4, 4, 4)
Prerequisite: Must be taken in sequence. Students with JAPN 100C or three years of high school Japanese should elect 200A; those with four years, 200B. Emphasis on understanding and speaking Japanese; rapid reading of Japanese, grammar review and writing.

230 Intensive Intermediate Japanese (12)
Offered summer quarter only. Emphasis on functional acquisition of spoken Japanese; reading and writing introduced. Credit allowed for only one of JAPN 230 and 200ABC.

Upper Division Courses
All upper division courses except 307 are conducted in Japanese.

300ABC Advanced Japanese (4, 4, 4)
Prerequisite: JAPN 200C. Advanced study of Japanese with emphasis on reading and writing. Continuation of aural-oral practice as an integral part of the course.

307 Japanese Literature in Translation (4)
Study of major works of Japanese literature organized around different themes. Subject matter may change with each offering. No knowledge of Japanese required. May be repeated to a maximum of 8 units for credit as content changes.
310 Japanese Civilization to 1600 (4)
Prerequisite: JAPN 200C. Origin and development of Japanese culture; religion, thought, literature, art, and patterns of life from neolithic age to 1600 A.D.

311 Japanese Civilization Since 1600 (4)
Prerequisite: JAPN 200C. Significant aspects of Japanese culture from 1600 A.D. to present; their evolution, characteristics, and synthesis in modern period.

315 Language in Japanese Society (4)
Prerequisite: JAPN 200C. Study of how language functions in contemporary Japanese society. Politeness, gender, language attitudes, the mechanics of crosscultural misunderstanding, how language incorporates Japanese social structures.

320 Introduction to Japanese Linguistics (4)
Prerequisite: JAPN 200C. Overview of Japanese linguistics with comparisons to other languages. Includes Japanese phonetics, phonology, morphology, syntax, pragmatics, and typology.

380 Business Japanese (4)
Prerequisite: JAPN 200C. Intensive study of Japanese used in business; theory and practice of fundamentals of commercial correspondence and negotiations in Japanese.

395 Japanese in Community Service (1-4)
Prerequisites: JAPN 300C; approval by departmental faculty adviser in consultation with EPIC director, and acceptance by community agency. Participation in work of a community agency or campus program utilizing communication skills in Japanese. May be repeated to maximum of 6 units. Graded CR/NC.

400ABC Advanced Reading and Composition (4, 4, 4)
Prerequisite: JAPN 300C. Should be taken in sequence. Improvement of reading ability in modern Japanese; expository writing and use of advanced vocabulary and composition.

403 Contrastive Analysis of Japanese and English Structures (4)
Prerequisites: JAPN 300ABC and ENGL 401. Contrastive analysis of structures of Japanese and English describing similarities and differences of each; emphasis on studying structures that cause interference in language learning.

408 Classical Japanese Literature (4)
Prerequisites: JAPN 300C. Selected works of Japanese prose and poetry from earliest times to 1868. Introduction of classical grammar and vocabulary as needed.

410 Modern Japanese Literature (4)
Prerequisite: JAPN 300C. Selected works of Japanese prose and poetry from 1868 to the present. Literary trends of Meiji, Taisho, and Showa periods.

450 Proseminar: Japanese Linguistics (4)
Prerequisites: JAPN 300B, JAPN 320, ENGL 401. In-depth study of selected topics in Japanese linguistics. May be repeated to a maximum of 8 units as subject matter changes.

454L,P Special Topics in Japanese (1-4)
Prerequisite: As needed for specific topic. Current topics of special interest to students in Japanese as announced in Schedule of Classes. May be repeated to maximum of 8 units for credit.

460 Proseminar: Masters of Japanese Culture and Thought (4)
Prerequisite: JAPN 300C. Original works of a major figure in Japanese intellectual history. Individual subjects for study change with each offering. May be repeated to a maximum of 8 units as subject matter changes.

Courses in Latin (LATN)

Lower Division Courses

100ABC Elementary Latin (4, 4, 4)
Prerequisite: Must be taken in sequence. Students with one year of high school Latin should elect 100B; those with two years, 100C. Methodical presentation of structure of language through hearing and translating Latin classics.

222 Readings in Latin Prose (4)
Prerequisite: LATN 100C. Intensive reading in Latin prose works from Roman Republic through Renaissance; practical exercises in Latin grammar.

Upper Division Courses

354 Special Topics in Latin (1-4)
Prerequisite: As needed for specific topic. Topics of special interest to students of Latin as announced in Schedule of Classes. May be repeated to maximum of 8 units for credit.

450 Latin Readings in History (4)
Prerequisite: LATN 222. Directed student research in classical and medieval texts. Original Latin source material for study of history and related subjects.

Courses in Portuguese (PORT)

Lower Division Courses

100ABC Elementary Portuguese (4, 4, 4)
Prerequisite: Must be taken in sequence. Students with one year of high school Portuguese should elect 100B. Methodical presentation of structure of the language through hearing, speaking, reading, and writing Portuguese. Not appropriate for students with background in spoken Portuguese.

Courses in Russian (RUSS)

Lower Division Courses

101AB Elementary Russian (6, 6)
Prerequisite: Must be taken in sequence. Students with two years of high school Russian should elect 101B; those with equivalent background may request placement by examination. Methodical presentation of structure of language through hearing, speaking, reading, and writing Russian.

Courses in Spanish (SPAN)

Lower Division Courses

100ABC Elementary Spanish (4, 4, 4)
Prerequisite: Must be taken in sequence. Students with one year of high school Spanish should elect 100B; those with two years, 100C. Methodical presentation of structure of the language through hearing, speaking, reading, and writing Spanish. Not appropriate for students with backgrounds in spoken Spanish. Such students should consult a departmental adviser.

105 Elementary Written Spanish (4)
Prerequisite: Ability to speak Spanish. Emphasis on reading comprehension, vocabulary building, and writing. Recommended for Spanish-speaking students with little or no knowledge of the written language. Credit allowed for only one of SPAN 100A and SPAN 105.
110 Spanish Conversation for Professions (4)
Prerequisite: SPAN 100A. Course in Spanish conversation which focuses, according to student need, upon vocabulary used in medicine, law enforcement, or the social sciences. Basic grammar presented inductively. May be repeated for credit. May not be taken for credit by Spanish majors. Graded CR/NC.

115 Conversation (4)
Prerequisite: SPAN 100C. May be taken concurrently with 200AB. Emphasis on use of spoken Spanish. Individual reports, small group discussions, and panel presentations on topics of current interest based on listening, viewing, and reading assignments.

130 Intensive Elementary Spanish (12)
Offered summer quarter only. Emphasis on acquisition of communicative skills. Presentation of structure of language and information about Hispanic cultures. Credit allowed for only one of SPAN 130 and 100ABC.

200ABC Intermediate Spanish (4, 4, 4)
Prerequisite: Must be taken in sequence. SPAN 115 (4) is prerequisite to 200C. Students with SPAN 100C or three years of high school Spanish should elect 200A; those with four years, 200B. Emphasis on understanding and speaking Spanish; rapid reading of Spanish for comprehension, grammar review, and writing. Methodology of 200ABC not appropriate for students with native-speaking capability. Such students should select SPAN 205A or 205B in consultation with departmental adviser.

205AB Intermediate Written Spanish (4, 4)
Prerequisites: Ability to speak Spanish, and basic knowledge of written Spanish or SPAN 105. Must be taken in sequence. Emphasis on reading comprehension, vocabulary building, and writing. Students completing SPAN 205B may proceed to SPAN 300A. Credit allowed for only one of SPAN 200AB and SPAN 205AB.

230 Intensive Intermediate Spanish (12)
Prerequisite: SPAN 130, 100C, or three years of high school Spanish. Offered summer quarter only. Emphasis on understanding and speaking Spanish; rapid reading of Spanish for comprehension, grammar review, and writing. Credit allowed for only one of SPAN 230 and 200ABC.

Upper Division Courses

All upper-division courses except Spanish 440 and 442 are conducted in Spanish.

300AB Composition and Grammar (4, 4)
Prerequisite: SPAN 200C or 205B. Must be taken in sequence. Intensive review of grammar; student compositions, emphasizing current writing practices in Spanish; idiom review.

305 Introduction to Spanish Linguistics (4)
Prerequisite: SPAN 300A. Basic concepts of linguistics as applied to Spanish language; introduction to historical development of Spanish and regional dialects including Spanish spoken in U.S.

310 Spanish Civilization (4)
Prerequisite: SPAN 200C or 205B. Synthesis of cultural characteristics of Spain.

315 Spanish-American Civilization (4)
Prerequisite: SPAN 200C or 205B. Synthesis of cultural characteristics of Spanish America.

320 Phonetics (4)
Prerequisite: SPAN 305. Production of Spanish sounds, analysis of intonation, rhythm, accentuation, vowel length, vowel linkage; laboratory practice in pronunciation.

350 Fundamentals of Translation (4)
Prerequisite: SPAN 300B. Intensive study of art of translation; practice in English-to-Spanish and Spanish-to-English translation.

351 Spanish for Interpreters (4)
Prerequisite: SPAN 300B. Intensive study and practice in the art of sight, consecutive, and simultaneous oral translation.

380 Commercial Spanish (4)
Prerequisite: SPAN 300B. Intensive study of Spanish used in business; theory and practice of fundamentals of commercial correspondence in Spanish.

395N Spanish in Community Service (1-4)
Prerequisites: SPAN 300B, approval of departmental faculty advisor in consultation with EPIC director, acceptance by community agency. Participation in work of a community agency or program utilizing communication skills in Spanish. May be repeated once to maximum of 6 units. Graded CR/NC.

397 Field Work in Spanish (1-4)
Prerequisite: To be established by coordinator in consultation with host organization. Field work and internships in occupations in which communication skills in Spanish can be used and perfected. Minimum of 4 hours per week per credit hour. May be repeated to maximum of 4 units. Graded CR/NC.

400A Spanish Morphology (4)
Prerequisite: SPAN 305. Study of parts of speech with attention given to nominal and verbal inflections, pronominal paradigms, and morphological structure of derived and compound Spanish words.

400B Syntax (4)
Prerequisite: SPAN 400A. Comprehensive review of Spanish syntax; analysis of structure of simple and complex sentences.

401 Introduction to Hispanic Literary Criticism (4)
Prerequisite: SPAN 300B. Introduction to major forms and aesthetic concepts of, and critical approaches to, Hispanic literature.

403 Grammatical Structures of Spanish and English (4)
Prerequisites: SPAN 400B, ENGL 401. Contrastive analysis of syntactic structures of Spanish and English; emphasis on structures that cause interference in language learning.

408 Spanish Literature I (4)
Prerequisite: SPAN 401. Introduction to Spanish literature from medieval period through the Golden Age.

410 Spanish Literature II (4)
Prerequisite: SPAN 401. Introduction to Spanish literature from 1700 to present.

411 Spanish-American Literature I (4)
Prerequisite: SPAN 401. Spanish-American literature from the Conquest to 1888.

413 Spanish-American Literature II (4)
Prerequisite: SPAN 401. Spanish-American literature from 1888 to present.
414 Don Quixote de la Mancha (4)
Prerequisite: SPAN 408. Reading and analysis of Don Quixote de la Mancha.

417 Spanish-American Short Story (4)
Prerequisite: SPAN 413. Spanish-American short story from the Tradiciones of Ricardo Palma to the present.

418 Golden Age Prose (4)
Prerequisite: SPAN 408. Reading and analysis of prominent prose writers of the Golden Age.

419 Colonial Spanish-American Literature (4)
Prerequisite: SPAN 411. Intensive study of colonial masterworks including prose, poetry, and theatre.

421 Mexican Literature of Twentieth Century (4)
Prerequisite: SPAN 413. Intensive study of significant works and movements of Mexican literature from 1900 to present.

424 Golden Age Drama of Spain (4)
Prerequisite: SPAN 408. Principal Spanish dramatists of the Golden Age: their thematic, poetic, social, and historical values and their influence on and contrast to subsequent literary history.

426 Nineteenth Century Spanish Novel (4)
Prerequisite: SPAN 410. Intensive study of novelists of 19th century Spain.

428 The Generation of 1898 (4)
Prerequisites: SPAN 410. Intensive study of poets, novelists, and essayists who promoted literary revival following 1898.

429 Nineteenth Century Spanish-American Literature (4)
Prerequisite: SPAN 411. Intensive study of 19th century masterworks including novel, poetry, and theatre.

435 Ruben Dario and Modernismo (4)
Prerequisite: SPAN 413. Analysis of representative works of modernist movement writers in Spanish America; their influences on literature of contemporary period. Lectures and reports in Spanish.

440 Hispanic Film (4)
Prerequisite: Engl 250 or ML 400. Intensive study of Hispanic contributions to film: history and development of film in the Spanish speaking worlds; film theory and criticism; key films and figures; predominant themes; film adaptations of literary works. Course will be taught in English.

442 Hispanic Literature in Translation (4)
Prerequisite: Engl 250 or ML 400. Study of Hispanic literature in English translation. Subject matter varies. No knowledge of Spanish required. May be repeated to a maximum of 8 units for credit as content changes.

454L,P Special Topics in Spanish (1-4)
Prerequisites: As needed for specific topic. Current topics of special interest in Spanish as announced in Schedule of Classes. May be repeated for credit to maximum of 8 units.

459 Hispanic Play Production (3-4)
(also listed as TA 459)
Prerequisite: Completion of intermediate Spanish. Introduction to major forms of Spanish drama; mechanics and production of a major work of Hispanic theatre. May be repeated to a total of 6-8 units of which a maximum of 4 may apply to major.

460 Proseminar: Masters of Hispanic Culture and Thought (4)
Prerequisites: Three upper division literature courses, including relevant introductory literature course. Outstanding Spanish and Spanish-American writers from Middle Ages to present; an individual author will be studied at each offering. May be repeated to a maximum of 8 units as subject matter changes.

461 Proseminar in Hispanic Linguistics (4)
Prerequisite: Spanish 400B. Changing topics in Hispanic linguistics, with emphasis on the broad relationship between language, culture, and society.

472 Twentieth Century Spanish Narrative (4)
Prerequisite: SPAN 410. An exploration of the development of prose fiction in Spain throughout the Twentieth Century. Novels and short-stories by representative authors will be studied.

475 Proseminar: Spanish-American Theatre (4)
Prerequisite: SPAN 413. Intensive study of selected Spanish-American playwrights from 17th century to present.

483 Contemporary Spanish-American Novel (4)
Prerequisite: SPAN 413. Intensive study of the Spanish-American novel of the past thirty years.

485 Literature of Argentina and Uruguay (4)
Prerequisite: SPAN 413. Representative works of Argentine and Uruguayan literature; drama, essay, poetry, and prose fiction.

499 Undergraduate Directed Study (1-4)
Prerequisite: Instructor consent to act as sponsor. Project selected in conference with sponsor before registration; progress meetings held regularly, and final report submitted. May be repeated to a maximum of 8 units for credit.
The Master of Music and Master of Arts degree programs are
The Department of Music offers programs leading to the Bachelor
of Music, Bachelor of Arts, Master of Music, and Master of Arts
degrees. Many opportunities are provided for creative perfor-
ance activities, both for majors and for students pursuing personal
development in music along with career preparation in other fields.
The Master of Music and Master of Arts degree programs are
described in the Graduate Programs section.

The Faculty
Emeriti: Francis H. Baxter, Robert M. Fowells, Louis A. Hansen,
William H. Hill, Byong-Kon Kim, Vernon F. Leidig, Richard
McComb, Inez R. Schubert, Keith D. Snyder, Milton Stern, Robert
Strassburg, Vito G. Susca, Olga Termini, Maurine Timmerman,
Patti W. Schliestett Wiggins.

Professors: William L. Belan, David A. Buck, H. David Caf-
fey (Chair), Lu Elrod, Ellen King Kravitiz, JoAn D. Kunselman,

Associate Professors: Pollyanne Baxter, Jeffrey W. Benedict,
David N. Connors, Irene M. Girtion.

Assistant Professors: René Aravena, John M. Kennedy,
Kraig A. Williams.

The Undergraduate Program
The undergraduate programs in Music are designed to provide
students with a broad, general foundation in the theoretical
branches of music, competence in artistic performance, and pro-
fessional preparation for successful graduate study. The Bachelor
of Music degree stresses composition, jazz studies, vocal perfor-
ance, instrumental performance, or keyboard performance. The
Bachelor of Arts degree serves students whose primary interest is
music history, theory, and literature and those who wish to teach
music or to achieve a liberal arts education with an emphasis in
music.

Students who wish to major in music are required to audition in their
performance area (voice, piano, or other principal instruments),
upon entrance, to develop their performance ability, and to appear
in at least one student solo or ensemble recital each year. All music
majors must demonstrate progress in their major performing area
before a faculty jury at the end of each quarter. Those who are not
making satisfactory progress are asked to take additional work.
Students must present a satisfactory senior recital before being
approved for graduation.

The Music Department Handbook contains other policies and
regulations, including a concert attendance policy, that pertain to
all music majors and minors. It is each student's responsibility to
obtain a copy of the handbook and to become familiar with its
contents. Failure to comply with policies and regulations outlined
in the handbook may affect continued enrollment in the program
and/or eligibility for graduation.

Participation in performance organizations is required during the
quarters in which students are registered for applied music credit.
After large ensemble performance requirements are met, that is,
choir, chorus, symphony orchestra, symphonic band, or jazz en-
semble, students will, while receiving applied music credit, select
electives from the following MUS courses: 320, 321, 326, 327, 420,

The nature of these groups makes it essential that they maintain a
constant personnel.

Students who demonstrate competence in performance and theory
above the minimum requirement may earn advanced standing.
Lower division students may register for and earn credit in upper
division performance courses.

Bachelor of Music Degree
The Bachelor of Music degree curriculum is designed to provide
professional training for musicians seeking preparation for careers
in performance, composition or jazz studies. Students desiring
entrance into this degree program should note the specific entrance
program procedures for each option listed below. After accept-
ance, students are assigned to faculty advisers for guidance in
planning course work.

In the core program in music, lower division courses emphasize
music theory, literature and applied studies, while upper division
courses explore advanced concepts in theory, music history, per-
f ormance and related fields. All options include the required per-
formance of a junior and senior recital and required participation in
performing ensembles concurrent with applied music instruction.

Each option within this degree has been carefully designed to
provide an education which encompasses the artistic and func-
tional needs of the aspiring musician. Within the framework of each
of these options lies the opportunity for individual needs to be
addressed.

Option I - Composition
All students desiring entrance into the Composition option must
present a portfolio of compositions for the consideration of the
theory/composition area faculty. This must occur prior to enrolling
in upper division music courses. Prospective students should note
applied music requirements necessary for the completion of the
degree program found in the core program. All applied study
requires audition by the appropriate area committee.

Option II - Jazz Studies
All students seeking entrance into the Jazz Studies option must first
gain acceptance into the program through audition by the jazz
studies area and into the applied music course related to their
instrument of study. Note: This option requires auditions by both
the jazz studies area and the applied music area for your instrument
of study.

Option III - Vocal Performance
Option IV - Instrumental Performance
Option V - Keyboard Performance
All students desiring entrance into the Performance options must
be accepted by audition before the appropriate area faculty. This
normally occurs prior to commencing music studies at the Univer-
sity, but may occur at any time prior to enrollment in upper division
music courses.
Requirements for the Major (106-108 units)

Depending upon the option selected, a total of 189 units are required for the degree, of which 106-108 are in the major.

Core Program (55 units)

All students complete a required core program of 55 units in Music.

Required Courses (55 units)

- MUS 161AB CMusic Theory I-III (3, 3, 3)
- MUS 162ABC Musicianship I-III (1, 1, 1)
- MUS 170AB Music Literature (2, 2)
- MUS 243ABC Class Piano Instruction (1, 1, 1)
- MUS 261ABC Music Theory IV-VI (3, 3, 3)
- MUS 262ABC Musicianship IV-VI (1, 1, 1)
- MUS 300 Career Planning and Writing in Music (3)
- MUS 370-371-372 History of Music in Western Civilization I-III (4, 4, 4)
- MUS 380 Beginning Conducting (3)

Applied Music

Select one area of specialization (6 units)

- MUS 115, 215 Strings (1-1-1-1-1-1)
- MUS 116, 216 Woodwinds (1-1-1-1-1-1)
- MUS 117, 217 Brass (1-1-1-1-1-1)
- MUS 118, 218 Percussion (1-1-1-1-1-1)
- MUS 135, 235 Voice (1-1-1-1-1-1)
- MUS 145, 245 Piano/Harpischord (1-1-1-1-1-1)
- MUS 146, 246 Organ (1-1-1-1-1-1)

All entering students must take a functional piano skills placement examination and pass it, or complete MUS 343C (Class Piano Instruction), before being approved for graduation. Those who are deficient in this area should take appropriate additional course work as recommended by their adviser.

Options

- Option I: Composition (53 units)

A total of 53 units is required in this option, which prepares students in the field of composition.

Required Courses (40 units)

- MUS 362 Orchestration and Arranging (4)
- MUS 432 Notation and Calligraphy (2)
- MUS 460 Composition III (3, 3, 3)
- MUS 462 Advanced Orchestration and Arranging (3)
- MUS 463 Counterpoint (3)
- MUS 464 Musical Form (3)
- MUS 467 Music Composition for Television and Film (3)
- MUS 469 Techniques of Electronic Music (3)
- MUS 465 Contemporary Techniques (4)
- MUS 488 Advanced Computer Music (3, 3)

Ensemble Performance (3 units)

Select from the following:

- MUS 320 Symphonic Band (1)
- MUS 321 Symphony Orchestra (1)
- MUS 327 Chorus (1)
- MUS 425 Chamber Singers (1)

Secondary Instruments (4 units)

Select from the following:

- MUS 312A-H (2, 2)

Electives (6 units)

Select from the following with adviser approval:

- MUS 368 ABC Jazz Improvisation (2, 2, 2)
- MUS 463 Counterpoint (3)

- MUS 464 Musical Form (3)
- MUS 466AB Jazz Arranging (3, 3)
- MUS 467 Music Composition for Television and Films (3)
- MUS 469 Techniques of Electronic Music (3)
- MUS 470 History and Literature of Opera (4)
- MUS 471 History and Literature of Large Vocal Forms (4)
- MUS 472 History and Literature of Vocal Solo Music (4)
- MUS 473 History and Literature of Symphonic Music (4)
- MUS 474 History and Literature of Chamber Music (4)
- MUS 475 History and Literature of Keyboard Music (4)
- MUS 480 Choral Conducting (3)
- MUS 481 Instrumental Conducting (3)
- MUS 483 Analysis of Jazz Styles and Literature (4)
- MUS 497 Research Techniques in Music (2)

Any additional applied music course with adviser approval.

- Option II: Jazz Studies (53 units)

A total of 53 units is required in this option, which prepares students in jazz performance production, composition, recording, and conducting. Students must successfully complete a Junior Recital and a Senior Project/Recital.

There are two tracks in this option: Performance and Arranging/Composition.

Required Courses for Both Tracks (26 units)

- MUS 328 Vocal Jazz Ensemble (1-1-1) or
- MUS 424 Jazz Ensemble (1, 1, 1)
- MUS 366 Elements of Jazz Harmony (3)
- MUS 368AB Jazz Improvisation (2, 2)
- MUS 452 History of Jazz (4)
- MUS 466A Jazz Arranging (3)
- MUS 467 Music Composition for Television and Films (3)
- MUS 468 Jazz Pedagogy (3)
- MUS 483 Analysis of Jazz Styles and Literature (3)

Performance Specialty

Select one area of a performance specialty (12 units)

- MUS 315-415 Strings (2, 2, 2, 2, 2, 2)
- MUS 316-416 Woodwinds (2, 2, 2, 2, 2, 2)
- MUS 317-417 Brass (2, 2, 2, 2, 2, 2)
- MUS 318-418 Percussion (2, 2, 2, 2, 2, 2)
- MUS 335-435 Voice (2, 2, 2, 2, 2, 2)
- MUS 345-445 Piano (2, 2, 2, 2, 2, 2)

Track I: Performance (15 units)

Required Courses (12 units)

- MUS 429 Small Jazz Ensemble (1, 1, 1, 1, 1, 1)
- MUS 466B Advanced Jazz Arranging (3)
- MUS 481 Instrumental Conducting (3)

Electives (3 units)

Select from upper division music courses with adviser approval.

Track II: Arranging/Composition (15 units)

Required Courses (15 units)

- MUS 362 Orchestration and Arranging (4)
- MUS 429 Small Jazz Ensembles (1, 1)
- MUS 466B Advanced Jazz Arranging (3, 3)
- MUS 481 Instrumental Conducting (3)
• Option III: Vocal Performance (51-53 units)
A total of 51-53 units is required in this option which prepares students to perform art songs in the style and manner of the period in which they were written, to demonstrate awareness of poetic song content by translation from at least three foreign languages, and to prepare repertoire and recital programs. Prior to graduation, students prepare and successfully perform a 50-minute recital of songs from at least three of the following historical periods: Renaissance, Baroque, Classic, Romantic, Contemporary.

Required Courses (29 units)
MUS 330 Principles of Applied Vocal Development (3)
MUS 406 Comparative Vocal Techniques (3)
MUS 41 IV Performance Pedagogy (2, 2, 2)
*MUS 426 Opera Repertory, Performance and Production (1, 1, 1)
*MUS 436 Diction for Singers (2, 2, 2)
*MUS 426 and 436 are repeatable with limitations; see course descriptions.

Foreign Languages (8 units)
Foreign languages are required in the program as follows:
Three languages are required. Any one language must be taken in the General Education program.
FREN 100A Elementary French (4)
GERM 100A Elementary German (4)
ITAL 100A Elementary Italian (4)

Applied Music (12 units)
*MUS 335 Voice (2, 2, 2)
*MUS 445 Piano (2, 2, 2)
*See course descriptions for limitations on repeatability.

Performance Organizations (3 units)
*MUS 326 Concert Choir (1)
*MUS 327 University Chorus (1)
*MUS 328 Vocal Jazz Ensemble (1)
*MUS 425 Chamber Singers (1)
*See course descriptions for limitations on repeatability.

Theory/Jazz Studies (3-5 units)
Select from the following courses.
MUS 362 Orchestration and Arranging (4)
MUS 368A Jazz Improvisation (2)
MUS 463 Counterpoint (3)
MUS 464 Musical Form (3)
MUS 466A Jazz Arranging: Beginning (3)

Musicology (4 units)
Select one
MUS 470 History and Literature of Opera (4)
MUS 472 History and Literature of Vocal Solo Music (4)

• Option IV: Instrumental Performance (53 units)
A total of 53 units is required in this option, which prepares students for performance in small ensembles and in band or orchestra. Students study the preparation of repertoire and recital programs. Prior to graduation, students prepare and successfully perform a 50-minute recital of solo works from the Baroque, Classic, Romantic, and Contemporary periods.

Conducting and Musicology (11 units)
Select two of the following three courses (8 units)
MUS 473 History and Literature of Symphonic Music (4)
MUS 474 History and Literature of Chamber Music (4)
MUS 477 History and Literature of Wind Band in U.S. (4)

Required (3 units)
MUS 481 Instrumental Conducting (3)

Performance Area (42 units)
Select courses from each area below, appropriate to instrument of specialization, for a total of 42 units. These courses are repeatable within limits specified in course descriptions.

Instrumental Courses (13)
MUS 312A-H Orchestral Instruments (2-2-2)
MUS 313 Instrumental Pedagogy (3)
MUS 411 BPSW Performance Pedagogy (2-2)

Performing Organizations (6 units)
MUS 320 Symphonic Band (1, 1, 1, 1, 1, 1)
MUS 321 Symphony Orchestra (1, 1, 1, 1, 1, 1)

Ensemble Courses (11 units)
MUS 420 String Ensemble (1)
MUS 421AB Woodwind Ensemble (1, 1)
MUS 422 Brass Ensemble (1)
MUS 423 Percussion Ensemble (1)
MUS 424 Jazz Ensemble (1)
MUS 485 Chamber Music (1)

Applied Music (12 units)
Select area of specialization:
MUS 315, 415 Strings (2, 2, 2)
MUS 316, 416 Woodwinds (2, 2, 2)
MUS 317, 417 Brass (2, 2, 2)
MUS 318, 418 Percussion (2, 2, 2)

• Option V: Keyboard Performance (53 units)
A total of 53 units is required in this option which emphasizes high standards in performance of solo and ensemble literature. Performance requirements include two solo recitals plus a concerto or other ensemble performance.

There are two tracks in this option: Piano/Harpsichord Performance and Organ Performance.

Required Courses for Both Tracks (34 units)
MUS 147 Keyboard Harmony and Sight Reading Ensemble (1, 1)
MUS 244AB Introduction to Organ and Harpsichord (1, 1)
MUS 247 Keyboard Sight Reading Ensemble (1, 1)
MUS 405AB Piano Pedagogy (3, 3)
MUS 411K Performance Pedagogy (2, 2)
MUS 447 Accompanying (2, 2)
MUS 463 Counterpoint (3)
MUS 464 Musical Form (3)
MUS 465 Contemporary Techniques (4)
MUS 475 History and Literature of Keyboard Music (4)

Track I: Piano/Harpsichord Performance (19 units)

Required Courses (15 units)
MUS 345 Piano/Harpsichord (2, 2, 2)
MUS 445 Piano/Harpsichord (2, 2, 2)
MUS 485 Chamber Music (1, 1, 1)
Electives (4 units)
Select from upper division music courses, with adviser approval.

Track II: Organ (19 units)

Required Courses (15 units)
MUS 346 Organ (2, 2, 2)
MUS 446 Organ (2, 2, 2)
MUS 480 Choral Conducting (3)

Electives (4 units)
Select from upper division music courses with adviser approval.

Bachelor of Arts Degree

The Bachelor of Arts degree is available in three options: General, Music History, and Teaching. The General option is intended for those students seeking a broad education in music. The Music History option is for those interested primarily in developmental studies in music. The Teaching option is offered for those who wish to pursue the Single Subject Credential in music. The curriculum in all options stresses theory, history and literature and performance of music.

Requirements for the Major (94-101 units)
A total of 186 units is required for the degree. A common core of 70 units is required of all students. Students elect an option to complete requirements for the major. A senior recital is required of all majors.

Required Core (70 units)
All students must complete a common core of lower and upper division courses in theory, history and literature and performance of music.

Lower Division (31 units)
MUS 161ABC Music Theory I-III (3, 3, 3)
MUS 162ABC Musicianship I-III (1, 1, 1)
MUS 170AB Music Literature (2, 2)
MUS 243ABC Class Piano Instruction (1, 1, 1)
MUS 261ABC Music Theory IV-VI (3, 3, 3)
MUS 262ABC Musicianship IV-VI (1, 1, 1)

Upper Division (33 units)
MUS 300 Career Planning and Writing in Music (3)
MUS 312A-H Orchestral Instruments (2, 2, 2)
MUS 330 Principles of Applied Vocal Development (3)
MUS 370, 371, 372 History of Music in Western Civilization (4, 4, 4)
MUS 380 Beginning Conducting (3)

Select 6 units from the following repeatable ensemble courses. Students in the Instrumental track of the Teaching Option are required to take MUS 320 or 321. Students in the Choral track of the Teaching Option are required to take MUS 326 or 327.

MUS 320 Symphonic Band (1)
MUS 321 Symphony Orchestra (1)
MUS 326 Concert Choir (1)
MUS 327 Chorus (1)

Select from the following (6 units):
The units in applied music are lower or upper division depending upon audition results. It is expected that students will reach the 400 level of study prior to the senior recital.

MUS 115, 215, 315, 415 Strings (1, 1, 1, 1, 1)
MUS 116, 216, 316, 416 Woodwinds (1, 1, 1, 1, 1, 1)
MUS 117, 217, 317, 417 Brass (1, 1, 1, 1, 1)
MUS 118, 218, 318, 418 Percussion (1, 1, 1, 1, 1, 1)

MUS 135, 235, 335, 435 Voice (1, 1, 1, 1, 1)
MUS 145, 245, 345, 445 Piano (1, 1, 1, 1)
MUS 146, 246, 346, 446 Organ (1, 1, 1, 1, 1)

Piano Proficiency Requirement
All entering students must take a functional piano skills placement examination and pass it, or complete MUS 343C (Class Piano Instruction), before being approved for graduation. Students who are deficient in this area should take appropriate additional course work as recommended by their adviser.

Options
Students select one of the following options to complete their major. Prerequisites are normally upper division standing and completion of the lower division required core.

- General Option (25 units)
Select five courses from the following
Select from the following (15-18 units)
MUS 362 Orchestration and Arranging (4)
MUS 430 Style Analysis (4)
MUS 460 Composition (3)
MUS 461 Choral Arranging (3)
MUS 462 Advanced Orchestration and Arranging (3)
MUS 463 Counterpoint (3)
MUS 464 Musical Form (3)
MUS 465 Contemporary Techniques (4)
MUS 466A Jazz Arranging: Beginning (3)
MUS 466B Jazz Arranging: Advanced (3)
MUS 488 Advanced Computer Music (3)

Electives (7-10 units)
Select music courses with adviser approval.

- Music History Option (24 units)

Required courses in Music History (14-18 units)
MUS 497 Research Techniques (2)
Select from the following (12-16 units):
MUS 454L Special Topics in Music History (4)
MUS 470 History and Literature of Opera (4)
MUS 471 History and Literature of Large Vocal Forms (4)
MUS 472 History and Literature of Vocal Solo Music (4)
MUS 473 History and Literature of Symphonic Music (4)
MUS 474 History and Literature of Chamber Music (4)
MUS 475 History and Literature of Keyboard Music (4)
MUS 477 History and Literature of Wind Band in U.S. (4)

Required Courses in Music Theory (6-10 units)
Select from the following:
MUS 362 Orchestration and Arranging (4)
MUS 430 Style Analysis (3)
MUS 463 Counterpoint (3)
MUS 464 Musical Form (3)
MUS 465 Contemporary Techniques (4)

It is recommended that students in the Music History option take two different languages (French, German or Italian). Four units may be taken to fulfill general education requirements.

- Teaching Option (37 units)

Track I - Choral Teaching
The choral teaching track is designed for students with an aptitude in voice or keyboard who wish to become choral conductors.
**Required Courses (26 units)**

**Minor in Music**

A minor in music is available for studentsmajoring in other fields. A minimum of 42 units is required.

**Requirements for the Minor (minimum 42 units)**

**Lower Division Required Courses (15 units):**

- MUS 161ABC, 162ABC, 243ABC*

*may be waived for keyboard minors.

**Upper Division Required Course (14 units)**

- MUS 380 Beginning Conducting (3)

Select 3 units from following:

- MUS 320 Symphonic Band (1)
- MUS 321 Symphonic Orchestra (1)
- MUS 326 Concert Choir (1)
- MUS 327 Chorus (1)
- MUS 424 Jazz Ensemble (1)

Select 8 units from following:

- MUS 370 History of Music in Western Civilization (4)
- MUS 371 History of Music in Western Civilization (4)
- MUS 372 History of Music in Western Civilization (4)

**Applied Music (3-6 units)**

- MUS 115-415 Strings (1-1-1)
- MUS 116-416 Woodwinds (1-1-1)
- MUS 117-417 Brass (1-1-1)
- MUS 118-418 Percussion (1-1-1)
- MUS 135-435 Voice (1-1-1)
- MUS 145-445 Piano (1-1-1)
- MUS 146-446 Organ (1-1-1)

Orchestral Instruments (2 units)

Select one from MUS 312A-H

**Electives (8 units)**

Select units in music with adviser approval

**The Credential Program**

The Bachelor of Arts degree program in Music, including the additional requirements for the Single Subject credential, is the subject matter program designed to qualify students for the Single Subject credential in Music. Students should consult advisers in the department and the Charter School of Education.

**Courses in Music (MUS)**

**Lower Division Courses**

**115 Strings (1)**

Prerequisite: Students admitted by audition only. Instruction in technique, repertoire, literature, and pedagogy for students of violin, viola, cello, bass, classical guitar, and harp. May be repeated to maximum of 3 units.

**116 Woodwinds (1)**

Prerequisite: Students admitted by audition only. Instruction in technique, repertoire, literature, and pedagogy for students of flute, oboe, bassoon, clarinet, saxophone, and recorder. May be repeated to maximum of 3 units.

**117 Brass (1)**

Prerequisite: Students admitted by audition only. Instruction in technique, repertoire, literature, and pedagogy for students of trumpet, French horn, trombone, baritone, and tuba. May be repeated to maximum of 3 units.
118 Percussion (1)
Prerequisite: Students admitted by audition only. Instruction in technique, repertoire, literature, and pedagogy for students of snare drum, mallet instruments, multiple percussion, and timpani. May be repeated to maximum of 3 units.

135 Voice (1)
Prerequisite: Students admitted by audition only. Principles and techniques of singing. Development of song repertoire. May be repeated to maximum of 3 units.

145 Piano (1)
Prerequisite: Admission by audition only. Instruction in development of technique and repertoire; performance in a public recital expected. May be repeated to maximum of 3 units.

146 Organ (1)
Prerequisite: Admission by audition only. Instruction in development of technique and repertoire. May be repeated to maximum of 3 units.

147 Keyboard Harmony and Sight Reading (1)
Corequisite: MUS 145 or 343C. Keyboard harmony and sight reading music on the piano: chord progressions, harmonization, patterns of pitch and rhythmic notation.
Activity: two hours. May be repeated to maximum of 3 units.

150 Music in World Culture (4)
Cultural role of music within broad humanities framework of visual arts, literature, history, and philosophy.

160 Music Fundamentals (4)
Understanding basic musical elements common to the major world cultures; emphasis on rhythm, melody, harmony, texture, and form.

161ABC Music Theory I, II, III (3, 3, 3)
Prerequisites: MUS 160 or instructor approval. Corequisite MUS 162ABC, 243ABC. Integrated approach to music theory: essentials of harmony, counterpoint, form, and keyboard experience emphasized. Meets 3 hours weekly.

162ABC Musicianship I, II, III (1, 1, 1)
Prerequisite: MUS 160 or instructor approval. Must be taken concurrently with 161ABC and 243 ABC; Sight-singing, ear-training, keyboard application, and aural analysis correlated with 161 ABC. Meets 2 hours weekly.

170AB Music Literature (2, 2)
170A: Representative music literature from Middle Ages through Classical period.
170B: Representative music literature from Romantic period to present.

190 Exploring Sound, Movement, and Melody in Preschool Teaching (4)
Pre-school child learning activities to explore sound, movement, song activities; learn basic song repertoire for young children and basic developmental movement skills. Not applicable to GE or credential requirements. Lecture 2 hours, laboratory 4 hours.

191 Introduction to Music in Schools (2)
Introduction to choral, instrumental, and general music teaching techniques. Current approaches to music education are explored and observed in area elementary and secondary schools.

211 Orchestral Instruments (3 each)
Class instruction in theory and performance of orchestral instruments; ensemble experience provided. Designed for all music majors and minors except those with an instrumental focus. Meets 4 hours weekly.

211B Brass and Percussion
211S Strings
211W Woodwinds

215 Strings (1)
Prerequisite: MUS 115 or jury examination. Instruction in technique, repertoire, literature, and pedagogy for students of violin, viola, cello, bass, classical guitar, and harp. May be repeated to maximum of 3 units.

216 Woodwinds (1)
Prerequisite: MUS 116 or jury examination. Instruction in technique, repertoire, literature, and pedagogy for students of flute, oboe, clarinet, bassoon, saxophone, and recorder. May be repeated to maximum of 3 units.

217 Brass (1)
Prerequisite: MUS 117 or jury examination. Instruction in technique, repertoire, literature, and pedagogy for students of trumpet, French horn, trombone or baritone, and tuba. May be repeated to maximum of 3 units.

218 Percussion (1)
Prerequisite: MUS 118 or jury examination. Instruction in technique, repertoire, literature, and pedagogy for students of snare drums, mallet instruments, multiple percussion, and timpani. May be repeated to maximum of 3 units.

230 Elementary Voice Instruction (2)
Primarily for students not majoring in music. Technique of voice production, study of song interpretation, emphasis upon recreational singing, some attention to elementary musicianship and remedial problems. Meets 4 hours weekly. May be repeated to maximum of 6 units.

235 Voice (1)
Prerequisite: MUS 135 or jury examination. Principles and techniques of singing. Development of song repertoire. May be repeated to maximum of 3 units.

243ABC Class Piano Instruction (1, 1, 1)
Prerequisite: MUS 160. Development of piano skills: technique harmonization and transposition, score reading, sightreading, and accompaniment. Activity 2 hours.

244AB Introduction to Organ and Harpsichord (1, 1)
244A
Corequisite: MUS 245. Introduction to Organ: Design, Technique, and Literature.
244B

245 Piano (1)
Prerequisite: MUS 145 or consent of piano faculty by audition. Instruction in development of technique and repertoire; performance in a public recital is expected. May be repeated to maximum of 3 units.

246 Organ (1)
Prerequisite: MUS 146 or jury examination. Instruction in development of technique and repertoire. May be repeated to maximum of 3 units.
247 Keyboard Sight Reading/Ensemble (1)
Prerequisite: MUS 145. Development of sightreading skills and ensemble experience on the piano: score reading and reduction technique. May be repeated to total of 6 units.

261ABC Music Theory IV, V, VI (3, 3, 3)
Prerequisite: MUS 161C, 162C. Must be taken concurrently with 262ABC. Continued study of materials of music using more complex forms and more difficult techniques and styles. Writing emphasis on students performing medium. Meets 3 hours weekly.

262ABC Musicianship IV, V, VI (1, 1, 1)
Prerequisites: MUS 161C, 162C. Must be taken concurrently with 261ABC. Sight singing, ear training, keyboard application, and aural analysis correlated with MUS 261ABC. Activity two hours.

Upper Division Courses

300 Career Planning and Writing in Music (3)
Satisfactory completion of the Graduation Writing Assessment Requirement (GWAR). Combined career assessment/planning with writing skills. Career component includes assessment, job opportunities, and planning. Extensive writing practice of projects useful to the field.

312 Orchestral Instruments A-H (2)
Prerequisites: MUS 160ABC and 161ABC. Development of performance proficiencies on orchestral instruments and guitar. Emphasis on instrument pedagogy. Meets 3 hours weekly. Each section may be repeated to a maximum of 4 units if different instruments are studied.

313 Instrumental Pedagogy (3)
Prerequisite: MUS 312. Methods, materials, and techniques related to individualized instruction in woodwinds, brass, percussion, strings, and keyboard instruments; lecture and laboratory experience in teaching. Lecture 2 hours, activity 2 hours.

315 Strings (1 or 2)
Prerequisite: MUS 215 or jury examination. Instruction in technique, repertoire, literature, and pedagogy for students of violin, viola, cello, bass, classical guitar, and harp. Students preparing for B.A. degree enroll for 1 unit; may be repeated to maximum of 3 units. Students preparing for B.M. degree enroll for 2 units; may be repeated to maximum of 6 units.

316 Woodwinds (1 or 2)
Prerequisite: MUS 216 or jury examination. Instruction in technique, repertoire, literature, and pedagogy for students of flute, oboe, clarinet, bassoon, saxophone, and recorder. Students preparing for B.A. degree enroll for 1 unit; may be repeated to maximum of 3 units. Students preparing for B.M. degree enroll for 2 units; may be repeated to maximum of 6 units.

317 Brass (1 or 2)
Prerequisite: MUS 217 or jury examination. Instruction in technique, repertoire, literature, and pedagogy for students of trumpet, French horn, trombone, baritone, and tuba. Students preparing for B.A. degree enroll for 1 unit; may be repeated to maximum of 3 units. Students preparing for B.M. degree enroll for 2 units; may be repeated to maximum of 6 units.

316 Percussion (1 or 2)
Prerequisite: MUS 218 or jury examination. Instruction in technique, repertoire, literature, and pedagogy for students of snare drum, mallet instruments, multiple percussion, and timpani. Students preparing for B.A. degree enroll for 1 unit; may be repeated to maximum of 3 units. Students preparing for B.M. degree enroll for 2 units; may be repeated to maximum of 6 units.

320 Symphonic Band (1)
Prerequisite: Instructor consent. Preparation and performance of standard and contemporary literature of the symphonic band. Meets minimum of 4 hours weekly. May be repeated to maximum of 12 units.

321 Symphony Orchestra (1)
Prerequisite: Instructor consent. Preparation and performance of standard and contemporary literature of the symphony orchestra. Meets minimum of 4 hours weekly. May be repeated to maximum of 12 units.

326 Concert Choir (1)
Prerequisite: Instructor consent through audition. Preparation and public performance of standard choral literature and contemporary choral works. Concerts given on and off campus. Meets minimum of 4 hours weekly. May be repeated to maximum of 12 units.

327 Chorus (1)
Prerequisite: MUS 235 or jury examination, Principles and techniques of singing. Development of song repertoire. Students preparing for B.A. degree enroll for 1 unit; may be repeated to maximum of 3 units. Students preparing for B.M. degree enroll for 2 units; may be repeated to maximum of 6 units.

330 Principles of Applied Vocal Development (3)
Prerequisite: MUS 230 or one year of choral experience. Open to music majors and minors only. Principles of correct vocal production development through lecture and demonstration with laboratory experience in solo singing. Analysis by class members and instructor. Lecture 2 hours, laboratory 2 hours.

335 Voice (1 or 2)
Prerequisite: MUS 235 or jury examination, Principles and techniques of singing. Development of song repertoire. Students preparing for B.A. degree enroll for 1 unit; may be repeated to maximum of 3 units. Students preparing for B.M. degree enroll for 2 units; may be repeated to maximum of 6 units.

343ABC Class Piano Instruction (1, 1, 1)
Prerequisite: MUS 243C. Continuation of technical development from previous study. Emphasis on piano repertoire for individual student development. Activity 2 hours.

344 Functional Piano for Teachers (2)
Prerequisites: MUS 161ABC, 162ABC, 343C acceptable performance on placement examination or instructor consent. Development of keyboard competency by application of principles of musicianship, including harmonization, transposition, improvisation, score reading, playing by ear, and directing from the piano. Activity 4 hours. May be repeated to maximum of 4 units.

345 Piano (1 or 2)
Prerequisite: MUS 245 or consent of piano faculty by audition. Instruction in development of technique and repertoire. Performance in a public recital expected. Students preparing for B.A. degree enroll for 1 unit; may be repeated to maximum of 3 units.
Students preparing for B.M. degree enroll for 2 units; may be repeated to maximum of 6 units.

**346 Organ (1 or 2)**
Prerequisite: MUS 246 or jury examination. Instruction in development of technique and repertoire. Students preparing for B.A. degree enroll for 1 unit; may be repeated to maximum of 3 units. Students preparing for B.M. degree enroll for 2 units; may be repeated to maximum of 6 units.

**351 Music Appreciation (4)**
Understanding and enjoying music through study of various musical cultures including those of Western Europe, Latin America, Asia, and Africa. Required attendance at selected concerts.

**355 The Creative Aspects of Music (4)**
Prerequisite: MUS 160. Development of an awareness of our innate musically: the natural physical and mental rhythms of everyday life and all the perceptual skills that are related to music.

**357 Creative Experiences for Health and Wellness (4)**
(also listed as ART 357, DANC 357, and TA 357)
Prerequisites: ART 151 or MUS 150 or 160; DANC 157 or TA 152 or HS 150. Exploring health and wellness through participation in the creative arts - dance, visual arts, music and theatre arts.

**362 Orchestration and Arranging (4)**
Prerequisites: MUS 161C; prior completion of MUS 211 or 312 recommended. Theory of writing for instrumental ensembles, study of orchestral scores, and introduction to symphonic orchestration.

**366 Elements of Jazz Harmony (3)**
Prerequisite: MUS 261C. The study of the fundamental aspects of jazz harmony and composition, including harmonic progression, melodic design and rhythmic formulation.

**366ABC Jazz Improvisation (2, 2, 2)**
- **366A:** Prerequisites: MUS 161C, MUS 162C. Basic improvisation technique, including scales, chords, simple harmonic progressions, and standard blues literature characteristic of jazz idiom. Meets 3 hours weekly.
- **366B:** Prerequisite: MUS 366A. Continuation of development of improvisational techniques with emphasis on standard jazz literature. Meets 3 hours weekly.
- **366C:** Prerequisite: MUS 366B. Continued development of improvisational techniques, composition, and transcription of jazz melodies. Meets 3 hours weekly.

**370-371-372 History of Music in Western Civilization I-II-III (4 each)**
Prerequisites: 261C, 262C, and 170AB. Survey of music in general culture, emphasizing evolution of musical style and practice.

**380 Beginning Conducting (3)**
Prerequisites: MUS 161C, 162C. Elements of baton technique, interpretation, score reading, and rehearsal techniques utilizing suitable choral and instrumental literature. Meets 4 hours weekly.

**400 Development of Perception in Musical Arts (4)**
Perceptual, expressive, historical, and cultural components associated with musical-aesthetic phenomena. Lecture, demonstrations, and field trips. Meets 5 hours weekly. Lecture 3 hours, activity 2 hours.

**401 Music Literature for Children (3)**
Prerequisite: MUS 400 or EDSE 421U. Development of a repertoire for children, including songs and guided listening.

**402 World Musics in the Classroom (3)**
Prerequisites: MUS 160C and 161C. Introduction to musical styles of world cultures with emphasis on theory, forms, instruments, and sociological implications. Influence of world musics on popular musical styles.

**403 Training Select Children’s Choirs (3)**
Prerequisites: MUS 330, 380. Choral techniques as applied to children with vocal ability or interest prior to and during voice change. Arranged visits with school and community children’s choir rehearsals. Meets 3 hours weekly.

**404 Acoustical Analysis of Instrument Construction (3)**
Prerequisite: MUS 312 A-H. Physical and acoustical principles of musical instrument construction with laboratory experience in evaluation and maintenance of instruments. Meets 4 hours weekly.

**405AB Piano Pedagogy (3, 3)**
Prerequisite: MUS 345.
- **405A:** Approaches to piano teaching.
- **405B:** Materials for beginning/intermediate piano students; observation of teaching.

**406 Comparative Vocal Techniques (3)**
Prerequisite: MUS 330. Comparative analysis of theories of vocal production as applied to the child voice, changing voice, and mature voice; study of the literature for each category.

**407 Instrumental Techniques I (3)**
Prerequisite: Completion of 312 series or equivalent knowledge of orchestral instruments. Comparison of ideas and practices relevant to the teaching of instrumental music at the elementary and junior high school levels. Observation and participation in laboratory provided. Lecture 2 hours, activity 2 hours.

**408 Analysis of Choral Literature and Performance (3)**
Prerequisites: MUS 261C, 262C, 330, 344, 480. Period, style, form, and other technical aspects of literature suitable for various types of vocal ensembles, and analysis of performance problems. Lecture 2 hours, activity 2 hours.

**409 Instrumental Techniques II (3)**
Prerequisite: Completion of 312 series or equivalent knowledge of orchestral instruments. Comparison of ideas and practices relevant to the teaching of instrumental music at the high school level. Observation and participation in laboratory provided. Lecture 2 hours, activity 2 hours.

**411 Performance Pedagogy (2)**
Prerequisite: 300-level applied music course. Solo repertoire for brass, winds, percussion, strings, keyboard, or voice; emphasis on analysis, interpretation, and performance of representative literature. May be repeated to maximum of 6 units. Lecture 1 hour, activity 2 hours.

415 Strings (1 or 2)
Prerequisite: MUS 315 or jury examination. Instruction in technique, repertoire, literature, and pedagogy for students of violin, viola, cello, bass, classical guitar, and harp. Students preparing for B.A. degree enroll for 1 unit; may be repeated to maximum of 3 units. Students preparing for B.M. degree enroll for 2 units; may be repeated to maximum of 6 units.

416 Woodwinds (1 or 2)
Prerequisite: MUS 316 or jury examination. Instruction in technique, repertoire, literature, and pedagogy for students of flute, oboe, clarinet, bassoon, saxophone, and recorder. Students preparing for B.A. degree enroll for 1 unit; may be repeated to maximum of 3 units. Students preparing for B.M. degree enroll for 2 units; may be repeated to maximum of 6 units.

417 Brass (1 or 2)
Prerequisite: MUS 317 or jury examination. Instruction in technique, repertoire, literature, and pedagogy for students of trumpet, French horn, trombone, baritone, and tuba. Students preparing for B.A. degree enroll for 1 unit; may be repeated to maximum of 3 units. Students preparing for B.M. degree enroll for 2 units; may be repeated to maximum of 6 units.

418 Percussion (1 or 2)
Prerequisite: MUS 318 or jury examination. Instruction in technique, repertoire, literature, and pedagogy for students of snare drum, mallet instruments, multiple percussion, and timpani. Students preparing for B.A. degree enroll for 1 unit; may be repeated to maximum of 3 units. Students preparing for B.M. degree enroll for 2 units; may be repeated to maximum of 6 units.

420 String Ensemble (1)
Prerequisite: Instructor consent. Rehearsal and performance of standard ensemble literature, including quartets, quintets, sextets, and larger works. Meets minimum of 3 hours weekly. May be repeated to maximum of 12 units.

421A Woodwind Ensemble (1, 1)
Prerequisite: Instructor consent. Rehearsal and performance of standard ensemble literature, including quartets, quintets, sextets, and larger works. Meets minimum of 3 hours weekly.

421A: For mixed woodwind instruments (for example, flute: oboe; clarinet and bassoon; and flute trios). May be repeated to maximum of 12 units.

421B: For clarinet choir, clarinet, and saxophone trios. May be repeated to maximum of 12 units.

422 Brass Ensemble (1)
Prerequisite: Instructor consent. Rehearsal and performance of standard ensemble literature, including quartets, quintets, sextets, and larger works. Meets minimum of 3 hours weekly. May be repeated to maximum of 12 units.

423 Percussion Ensemble (1)
Prerequisite: Instructor consent. Rehearsal and performance of standard ensemble literature, including quartets, quintets, sextets, and larger works. Meets minimum of 3 hours weekly. May be repeated to maximum of 12 units.

424 Jazz Ensemble (1)
Prerequisite: Instructor consent. Rehearsal and performance of standard Jazz orchestra literature, including original and published arrangements. Meets minimum of 3 hours weekly. May be repeated to maximum of 12 units.

425 Chamber Singers (1)
Prerequisite: Instructor consent by audition. Choral music from 15th century to present with special attention to madrigals; music of all styles for choral ensemble of twenty or less. Concerts on and off campus. Meets minimum of 3 hours weekly. May be repeated to maximum of 12 units.

426 Opera Repertory, Performance, and Production (1)
Prerequisite: Instructor consent. Training in the preparation and performance of operatic repertory. Meets minimum of 3 hours weekly. May be repeated to maximum of 12 units.

428 New Music Ensemble (1)
Prerequisite: Instructor consent. Rehearsal and performance of 20th century chamber music literature with special emphasis on recent works and student compositions. Meets minimum of 3 hours weekly.

429 Jazz Ensemble: Small (1)
Prerequisite: Instructor consent. Rehearsal and performance of jazz literature for small ensemble (2-9 players) in a variety of combinations. May be repeated to maximum of 12 units.

430 Style Analysis (4)
Prerequisite: MUS 370 or 371 or 372. Analytical techniques for study of musical style including rhythmic, melodic, harmonic, tonal, textural, and formal characteristics; verbal presentation of musical analyses.

431 Proseminar: Theory Pedagogy (4)
Prerequisite: MUS 261C. Comparative study of various techniques, procedures, and instructional materials used in teaching music theory with special emphasis on new instructional media.

432 Notation and Calligraphy (2)
Prerequisites: MUS 161C, 162C. Procedure utilized for preparing and copying music manuscripts in professional manner. Lecture 1 hour, activity 2 hours.

435 Voice (1 or 2)
Prerequisite: MUS 335 or jury examination. Principles and techniques of singing. Development of song repertoire. Students preparing for B.A. degree enroll for 1 unit; may be repeated to maximum of 3 units. Students preparing for B.M. degree enroll for 2 units; may be repeated to maximum of 6 units.

436 Foreign Language Diction for Singers (2)
Prerequisite: Instructor consent. Italian, German, and French vocal texts in original language; phonetic pronunciation, comprehension through lectures, listening, speaking, and translation techniques; emphasis on one language each quarter. See Schedule of Classes for language emphasis. Lecture 2 hours, laboratory 1 hour. May be repeated to maximum of 6 units.

437A Song Repertoire and Interpretation - French (2)
Prerequisite: Upper division standing. Survey of French language song literature in all periods of music history. Emphasis on student performances of representative selections.

437B Song Repertoire and Interpretation - German (2)
Prerequisite: Upper division standing. Survey of German language song literature in all periods of music history. Emphasis on student performances of representative selections.

437C Song Repertoire and Interpretation - English and Italian (2)
Prerequisite: Upper division standing. Survey of English and Italian language song literature in all periods of music history. Emphasis on student performances of representative selections.
445 Piano (1 or 2)
Prerequisite: MUS 345 or consent of piano faculty by audition. Instruction in development of technique and repertoire. Performance in a public recital expected. Students preparing for B.A. degree enroll for 1 unit; may be repeated to maximum of 3 units. Students preparing for B.M. degree enroll for 2 units; may be repeated to maximum of 6 units.

446 Organ (1 or 2)
Prerequisite: MUS 346 or jury examination. Instruction in developmental of technique and repertoire. Students preparing for B.A. degree enroll for 1 unit; may be repeated to maximum of 3 units. Students preparing for B.M. degree enroll for 2 units; may be repeated to maximum of 6 units.

447 Accompanying (2)
Prerequisite: Instructor consent. Training in performance styles of different periods and combinations of performers and in the specific tasks of accompanying. Practical experience through guided performance with vocalists and instrumentalists. Meets 4 hours weekly. May be repeated to maximum of 6 units.

452 History of Jazz (4)
Nature and processes of jazz with concentration on its historical background and development in the U.S., and its resultant impact on culture and music worldwide.

454L,P Special Topics in Music (1-4)
Prerequisites: Upper division standing; specific prerequisites subject to course content. Selected topics reflecting specific issues, problems, and interests in music, as announced in Schedule of Classes. May be repeated to maximum of 12 units as subject matter changes.

455 The Creative Genius in Art and Music (4)
(also listed as ART 455)
Great artists and musicians throughout history; their philosophy, innovations, accomplishments, and effects on culture and history.

456 Nature, Environment, and the Arts (4)
(also listed as ART 456)
Human attitudes toward the natural environment as revealed in the visual arts and music. Analysis and interpretation of examples from various periods and cultures.

458 Music of Latin America (4)
Prerequisite: MUS 150 or 351. Development of understanding of and appreciation for music of Latin America; examination of representative works from folk and art music of the twenty republics.

460 Composition (3)
Prerequisites: MUS 261C, 262C, 362. Writing for small instrumental and/or vocal ensembles. May be repeated to maximum of 18 units.

461 Choral Arranging (3)
Prerequisite: MUS 261C, 262C. Writing and arranging for vocal groups, problems in arranging for the usual school groups, and creative arranging in smaller vocal forms.

462 Advanced Orchestration and Arranging (3)
Prerequisite: MUS 362. Survey of techniques necessary for orchestrating compositions for symphonic band and symphony orchestra; special attention given to problems encountered in public school bands and orchestras.

463 Counterpoint (3)
Prerequisites: MUS 261C, 262C. Eighteenth century contrapuntal techniques, including some work in the species; invertible counterpoint, motive development, two- and three-part inventions, and the fugue.

464 Musical Form (3)
Prerequisites: MUS 261C, 262C. Analytic techniques for study of balance in organization of musical material.

465 Contemporary Techniques (4)
Prerequisites: MUS 262C, 261C. Techniques used in contemporary composition.

466A Jazz Arranging: Beginning (3)
Prerequisite: MUS 368C. Basic arranging techniques. Emphasis on arranging for small jazz ensembles with practical writing experience. Will cover voicings, scoring practices, calligraphy and contemporary trends within the medium.

466B Jazz Arranging: Advanced (3)
Prerequisite: MUS 466A. Advanced arranging techniques for jazz and studio orchestras, including use of extended forms, woodwind doubles and unusual meter. May be repeated to maximum of 9 units.

467 Music Composition for Television and Films (3)
Prerequisites: 261C, 262C, 362. Techniques used in composing music for television and film productions; practical writing experience.

468 Jazz Pedagogy (3)
Prerequisite: MUS 368C or instructor consent. Techniques and materials for teaching jazz improvisation, jazz arranging, jazz history, and jazz ensemble.

469 Techniques of Electronic Music (3)
Prerequisite: At least one quarter of MUS 460. Composing for electronic media; recording, synthesis, notation, sound resources. Study of aesthetics of composition for electronic sounds. Lecture 2 hours, activity 2 hours. May be repeated to maximum of 18 units.

470 History and Literature of Opera (4)
Prerequisites: MUS 370-372. Development of opera from Baroque to present; discussion and analysis of representative opera texts and scores with emphasis on visual experience.

471 History and Literature of Large Vocal Forms (4)
Prerequisites: MUS 370-372. Development of large vocal forms from Baroque to present; discussion and analysis of representative works including masses, cantatas, and oratorios.

472 History and Literature of Vocal Solo Music (4)
Prerequisites: MUS 370-372. Development of solo song from Baroque to present; discussion and analysis of representative art songs and vocal chamber music.

473 History and Literature of Symphonic Music (4)
Prerequisites: MUS 370-372. Development of symphonic music from pre-classicism to present; discussion and analysis of representative orchestral scores.

474 History and Literature of Chamber Music (4)
Prerequisites: MUS 370-372. Development of instrumental chamber music from Renaissance to present; discussion and analysis of representative works.

475 History and Literature of Keyboard Music (4)
Prerequisites: MUS 370-372. Development of keyboard music from Renaissance to present; discussion and analysis of repre-
sentative works for keyboard instruments including harpsichord, organ, and piano.

477 History and Literature of Wind Band in U.S. (4)
Prerequisites: MUS 370-372. History of wind band in U.S.; emphasis on twentieth century literature.

480 Choral Conducting (3)
Prerequisite: MUS 380. Application of basic conducting techniques to problems of choral conducting. May be repeated to maximum of 9 units. Meets 4 hours weekly.

481 Instrumental Conducting (3)
Prerequisite: MUS 380; 312 recommended. Experience offered in transposition, score reading, baton technique, and interpretation of symphonic literature; recognition of psychologically sound rehearsal procedure. Meets 4 hours weekly.

483 Analysis of Jazz Styles and Literature (3)
Prerequisites: MUS 261C, 262C, 368C 452. Survey of significant jazz composers, their contributions and performance practices; analyses of representative compositions and improvisations.

484 Commercial Songwriting (3)
Prerequisites: MUS 261C, 262C. Techniques of songwriting. Melodic, harmonic writing with lyrics in the context of contemporary commercial music.

485 Chamber Music (1)
Prerequisite: 300-level applied music course. Study and performance of selected works from the duo, trio, quartet, or larger chamber ensemble literature. Activity 4 hours. May be repeated to maximum of 6 units.

486 Recording Techniques (2)
Prerequisite: Upper division standing. Techniques of audio recording currently in use in studio and concert settings. Multitrack and master recording using digital and analog formats. May be repeated to maximum of 6 units.

488 Advanced Computer Music (3)
Prerequisite: MUS 469. Advanced techniques in MIDI technology using computers and synthesizers. Continuation of MUS 469. May be repeatable up to 18 units.

489 Instructional Technology for the Music Educator (3)
Prerequisite: MUS 261C. Computer applications for musicians, familiarity with available software, integrating computer technology into the music classroom and the development of a teaching module. Lecture 2 hours, activity 2 hours.

490 Music for Early Childhood (4)
Prerequisites: EDFN 413, CHDV 320, PSY 412A. Music activities suitable for the young child. Includes five field trips for observation of children in preschool or kindergarten and primary situations. May not be taken in lieu of MUS 400.

491 Music as Therapy in Human Development (4)
Exploration of music and movement as vehicles for therapy, including activities designed to promote a sense of health and well-being for disabled children and adults.

492 Musical Creativity for Children (4)
Prerequisite: MUS 400 or 490. Use of Orff-Schulwerk method to develop creativity in children through singing, movement, instruments, and language. Lecture 3 hours, activity 2 hours.

493 Solfege I (3)
Prerequisite: MUS 261C. Introduction to the pentatone through ear training, sight singing, reading, writing, and interval study. Explores pentatonic melodies with tonal counters on do, la, re and sol. Introduction to the Curwen hand signs.

494 Kodaly Methodology Level I (4)
Prerequisite: MUS 401. Philosophy and pedagogy of Zoltan Kodaly applied to American music education. Level I presents pedagogy for preschool through grade 2. Additional 15 contact hours required for national certification. Lecture 3 hours, activity 2 hours.

495 Orff-Schulwerk Certification Level I (4)
Prerequisite: MUS 401. Basic Orff pedagogy for working with pentatons on do and la, beginning movement experiences and introduction to the soprano recorder. Follows AOSA guidelines for Level I certification. Lecture 3 hours, activity 2 hours.

496 Demonstration of Competencies in Music Education (1)
A capstone examination in which students must demonstrate musical competency in five areas: senior recital, piano proficiency, conducting skills, ear training/sightsinging, and music history and theory.

497 Research Techniques in Music (2)
Basic bibliography, survey of literature, methods of research in music and music education, and practice in organizing and reporting data, both oral and written.

499 Undergraduate Directed Study (1-4)
Prerequisite: Consent of an instructor to act as sponsor. Project selected in conference with sponsor before registration; progress meetings held regularly, and a final report submitted. May be repeated to a maximum of 12 units for credit.
PHILOSOPHY

School of Arts and Letters

DEPARTMENT OFFICE
Engineering and Technology A429
Phone: (213) 343-4180

“The unexamined life is not worth living.” One of the great insights of the philosopher Socrates, this truth underlies the study of Philosophy. The programs in philosophy are intended to provide students with principles of inquiry and evaluation relevant to the many areas of human activity, such as science, law, religion, education, government, and art; to develop in them skills of analysis, criticism, and synthesis needed for advanced work in any scholarly field; and to acquaint them with noteworthy contributions by philosophers to intellectual traditions. Philosophy is an appropriate field of study for students hoping to attend law school.

A minor in Philosophy with Prelaw and General options is available for students majoring in other fields.

An interdisciplinary minor in Classics is administered by the Department of Philosophy. The faculty is provided by cooperating departments of the School of Arts and Letters and the School of Natural and Social Sciences.

The graduate program is described in the Graduate Programs section.

The Faculty

Professors: Sharon Bishop, Ann Garry (Chair), Ricardo J. Gómez, Daniel A. Herwitz, Joseph B. Prabhu, George R. Vick.

Associate Professors: Henry R. Mendell.

Assistant Professors: Mark Balaguer, Jennifer Faust, Kayley Vemallis.

Bachelor of Arts Degree

The Bachelor of Arts degree in Philosophy is suited to the needs of several groups of students: those seeking a broad and integrated liberal education; those preparing for law school; those interested in careers in government, education, publishing, theology, or the ministry; and those planning to do graduate work in philosophy with an aim of teaching at the college level.

Students seeking to combine the study of philosophy with a multiple subject credential waiver program can satisfy both goals in the Multiple Subject Credential option.

Requirements for the Major (60-151 units)

• General Option (60 units)

A total of 60 quarter units in philosophy is required for the major with the General option, including at least 44 units in upper-division courses.

Lower Division Required Courses (8 units)

PHIL 151 Philosophical Ideas: Knowledge and Reality (4)
PHIL 250 Introduction to Symbolic Logic (4)

Upper Division Required Courses (16 units)

PHIL 304 Ethics (4)
PHIL 311 History of Ancient Philosophy (4)
PHIL 313 History of Modern Philosophy (4)
PHIL 496 Philosophical Writing and Method (4)

Electives (16 units)

Select one from following:
PHIL 410 Social and Political Philosophy (4)
PHIL 420 Contemporary Ethical Theory (4)
PHIL 475 Aesthetics (4)

Select one from following:
PHIL 452 Medieval Philosophy (4)
PHIL 458 Major Figures in Modern Philosophy (4)
PHIL 459 Recent Philosophy (4)

Select at least two from following including at least one from 405, 460, 470:
PHIL 404 Inductive Logic (4)
PHIL 405 Symbolic Logic (4)
PHIL 406 Advanced Logic (4)
PHIL 460 Metaphysics (4)
PHIL 470 Theory of Knowledge (4)
PHIL 480 Philosophy of Language (4)
PHIL 485 Philosophy of Science (4)

Additional Electives (20 units)

Select philosophy courses with adviser approval.

• Prelaw Option (80 units)

A total of 80 quarter units is required for the major with the Prelaw option, including 60 units in philosophy and 20 outside philosophy. 44 units in upper-division philosophy courses must be part of the major.

Lower Division Required Courses (8 units)

PHIL 151 Philosophical Ideas: Knowledge and Reality (4)
PHIL 160 Critical Thinking (4) or
PHIL 250 Introduction to Symbolic Logic (4)

Upper Division Required Courses (16 units)

PHIL 304 Ethics I (4)
PHIL 311 History of Ancient Philosophy (4)
PHIL 313 History of Modern Philosophy (4)
PHIL 496 Philosophical Writing and Method (4)

Electives in Philosophy (16 units)

Select two from following:
PHIL 410 Social and Political Philosophy (4)
PHIL 420 Ethics II (4)
PHIL 490 Philosophy of Law (4)

Select two from following:
PHIL 470 Theory of Knowledge (4)
PHIL 480 Philosophy of Language (4)
PHIL 485 Philosophy of Science (4)

Additional Electives in Philosophy (20 units)

Select courses with adviser approval.

Additional Electives outside Philosophy (20 units)

Select course with adviser approval that supplement prelaw background.
Multiple Subject Credential Option (146-151 units)

Students who select this option complete a separate core which is common to all Multiple Subject teaching options. That common core contains 106-111 units and is described in the Undergraduate Study chapter. In addition to the core, the 68 units listed below are required in the option. Refer to the undergraduate Charter School of Education chapter of this catalog for regulations governing all teaching credential programs.

Required Courses (106-111 units)

Refer to Undergraduate Study chapter of this catalog.

Major Courses (20 units)

PHIL 151 Philosophical Ideas: Knowledge and Reality (4)
PHIL 304 Ethics I (4)
PHIL 311 History of Ancient Philosophy (4)
PHIL 313 History of Modern Philosophy (4)
PHIL 496 Philosophical Writing and Method (4)

Humanities (Philosophy) Depth Area (20 units)

PHIL 410 Social and Political Philosophy (4) or
PHIL 420 Ethics II (4) or
PHIL 433 Latin American Philosophy (4) or
PHIL 435 Eastern Philosophy (4)
PHIL 470 Theory of Knowledge (4) or
PHIL 485 Philosophy of Science (4)

Two four-unit, upper division elective courses in philosophy.

Electives (28 units)

Professional education courses are recommended. See a credential adviser in the Charter School of Education.

Minor in Philosophy

A total of 32 units is required, including at least 24 units in upper division courses.

Requirements for the Minor (32 units)

Lower Division Required General Option Courses (8 units)

PHIL 151 Philosophical Ideas: Knowledge and Reality (4) or
PHIL 152 Philosophical Ideas: Human Values (4)
PHIL 250 Introduction to Symbolic Logic (4)

Upper Division Required Courses (12 units)

PHIL 304 Ethics (4)
PHIL 311 History of Ancient Philosophy (4)
PHIL 313 History of Modern Philosophy (4)

Electives (select 12 philosophy units with adviser approval)

Requirements for the Prelaw Option Minor (32 units)

Lower Division Required Courses (8 units)

PHIL 151 Philosophical Ideas: Knowledge and Reality (4) or
PHIL 152 Philosophical Ideas: Human Values (4)
PHIL 160 Critical Thinking (4) or
PHIL 250 Introduction to Symbolic Logic (4)

Upper Division Required Courses (8 units)

PHIL 304 Ethics I (4)
PHIL 311 History of Ancient Philosophy (4) or
PHIL 313 History of Modern Philosophy (4)

Electives (8 units)

Select two from the following:

PHIL 410 Social and Political Philosophy (4)
PHIL 420 Ethics II (4)
PHIL 490 Philosophy of Law (4)

Additional Electives (8 units)

Select philosophy courses with adviser approval.

Minor in Classics

The minor in Classics is an interdisciplinary program that provides students with an understanding of the culture of ancient Greece and Rome. In conjunction with a major program in anthropology, art history, English, history, philosophy, or political science, the classics minor will prepare students for graduate study in the major field. Alternatively, the Classics program can serve as a means of enriching one’s experience and achieving a fuller understanding of contemporary Western culture.

The minor consists of 28 units, of which 4 are required in Classics and 24 are selected from the five areas listed below. Courses chosen must include at least one from each of three different areas. Prior approval must be obtained from the adviser for selected topics and directed study courses. No more than 8 units taken for credit in the students major program can be used to meet requirements for the minor. Each student's program must be approved by the director and principal adviser of the Classics program.

Requirements for the Minor (28 units)

Core course (4 units)

CLAS 300 Origins of Classical Thought (4)

Area I: Anthropology and Art

ANTH 425 Archaeology of the Old World (4)
ART 406 Ancient Near Eastern Art and Archaeology (4)
ART 411 Greek and Roman Art (4)
ART 476 Early Christian and Byzantine Art (4)

Area II: Mythology, Literature, and Rhetorical Theory

ENGL 258 Mythology in Literature (4) (when classical)
ENGL 354 Selected Topics in Literature (4) (when classical)
ENGL 424 Greek and Roman Drama in Translation (4)
ENGL 480 Literature and the Fine Arts, B.C. (4)
ENGL 481 Literature and the Fine Arts, A.D. (4)
ENGL 497 Special Studies in World Writers in Translation (1-4) (when classical)
SPCH 454 Selected Studies in Speech Communication (1-4) (when classical)
TA 460 Studies in Selected Dramatis (1-4) (when classical)

Area III: History and Political Theory

HIST 400A History of Science: Antiquity to Renaissance (4)
HIST 410 Ancient Near East: 4000-323 B.C. (4)
HIST 411 History of Ancient Greece (4)
HIST 412A Early Rome, The Republic (4)
HIST 412B The Roman Empire (4)
HIST 413 Greek History: The Alexandrian Age (4)
POLS 410 Classical Political Theory (4)

Area IV: Philosophy

PHIL 311 History of Ancient Philosophy (4)
PHIL 450 Plato (4)
PHIL 451 Aristotle (4)
PHIL 474 Philosophy in Literature (4) (when classical)
Area V: Languages
LATN 100ABC Elementary Latin (4, 4, 4)
Greek (through directed study in any of those departments associated with this minor whose faculty are qualified to direct such study).

Directed study or independent study about a selected classical figure or topic is also available from each department associated with this minor program.

Course in Classics (CLAS)

Upper Division Course

300 Origins of Classical Thought (4)
Beginnings of classical culture in ancient Greece; analysis of early classical conception of art, sciences, technology, politics, philosophy, and religion; emphasis on role of basic concepts in shaping Greek and Roman civilization.

Courses in Philosophy (PHIL)

Lower Division Courses

151 Philosophical Ideas: Knowledge and Reality (4)
An examination of major philosophical views concerning reality, knowledge and belief, and human nature. CAN PHIL 2

152 Philosophical Ideas: Human Values (4)
An examination of major philosophical views concerning human values, our capacity to know them, and their relation to reality.

160 Critical Thinking (4)
Critical analysis of informal argumentation in everyday language; informal fallacies, valid and invalid argument forms, principles of the syllogism, rudiments of scientific method.

220 Contemporary Moral Problems (4)
Philosophical examination of some principles and arguments that occur in contemporary discussions of personal morality and social practice.

238 Comparative Religions (4)
Comparative study of world’s living religions: Buddhism, Confucianism, Judaism, Christianity, Islam, and others. Concepts of deity, immortality of the soul, methods of salvation, and influence of environment and culture upon these beliefs.

250 Introduction to Symbolic Logic (4)
Introduction to modern symbolic logic and its relation to everyday language; methods of establishing the logical content of statements and the validity or invalidity of arguments.

Can PHIL 6

Upper Division Courses

304 Ethics I (4)
Analysis of empirical and normative factors involved in choice, types of ethical theory, nature of moral standards and judgments.

311 History of Ancient Philosophy (4)
Development of philosophical thought from pre-Socrates to Plotinus; principal thinkers, major problems, and dominant trends in Western thought.

313 History of Modern Philosophy (4)
Prerequisite: One PHIL course. Development of philosophical thought from the Renaissance to Kant; principal thinkers, major problems, and dominant trends in Western thought.

321 Ancient Thought and its Modern Legacy (4)
Prerequisite: Upper division standing. Major themes in classical thought and their ongoing influence; for example, development of self-consciousness, the concepts of rationality and scientific method, human values and the meaning of life.

350 Evolution and the Modern World (4)
(also listed as ART 350, ENGL 350, and HIST 350)
Prerequisite: GE humanities requirement. History of the idea of evolution from antiquity to the present and its impact on the culture of the 20th century.

354 Special Topics in Philosophy (1-6)
Prerequisite: As needed for specific topic. Topics of special interest in philosophy as announced in Schedule of Classes. May be repeated to a maximum of 8 units for credit as subject matter changes.

380 Ancient and Modern Science (4)
(also listed as CHEM 380N and HIST 380)
Prerequisite: GE natural science requirement. Systematic analysis of ancient scientific thought as science and its relationship to modern science.

383 Themes of Adult Life in Philosophy and Literature (4)
(also listed as ENGL 383 and FL 383)
Prerequisite: GE humanities requirement. Meaning of selected experiences of adult life; for example, initiation and coming of age; self-actualization and responsibility; love and intimacy; parenthood; change in middle years; death and dying.

404 Inductive Logic (4)
Prerequisite: PHIL 250. Analysis of induction and probability in everyday affairs and in science, systematic development of inductive logic, elements of the probability calculus and applications, philosophical issues in inductive logic.

405 Symbolic Logic (4)
Prerequisite: PHIL 250. Logic and language, nature of argument, meaning and truth, propositional calculus, and predicate calculus.

406 Advanced Logic (4)
Prerequisite: PHIL 405. Selected topics in logic; e.g., identity, definite descriptions, foundations of mathematics, metalogic, philosophical logic, as announced in Schedule of Classes. May be repeated as content changes.

407 Philosophy and Artificial Intelligence (4)
Philosophical investigation of computational technology, and the relation of the structure and operation of computers to human thought.

410 Social and Political Philosophy (4)
Prerequisite: One PHIL course. Philosophical foundations of social and political thought; analysis of such concepts as state, law, obligation, and sanction, and their relation to issues in metaphysics, theory of knowledge, and ethics.

412 Philosophy and Sex Roles (4)
Prerequisite: One PHIL GE course. Philosophical analysis of concepts and principles relevant to gender, for example, the "nature" of men and women, love, friendship, justice, equality, liberty, and rights.

415 Philosophy of Religion (4)
Prerequisite: One PHIL course. Systematic approach to issues of noteworthy religious significance, such as eternity, faith, worship, the holy, with aim of distinguishing religion from other modes of human experience.
418 Religion, Traditional Values, and Modernization in the Third World (4)
Prerequisite: GE humanities requirement. A philosophical investigation of the interaction of tradition and modernity in the development of the Third World.

420 Ethics II (4)
Prerequisite: PHIL 304. Contemporary meta-ethical theories, analyses of concept of good, analyses of concept of obligation, validation of moral statements, ethical relativism, praise and blame, moral responsibility.

425 Philosophy of History (4)
Prerequisite: One PHIL course. Philosophical study of Western historical writing and thought, nature of historical knowledge, historical explanation, history and values, meaning of history.

430 American Philosophy (4)
Prerequisite: One PHIL course. Major movements of thought and principal thinkers in America from colonial times to 20th century; relationships of American philosophy to European intellectual currents; influence and effect of dominant doctrines on American life and outlook.

433 Latin American Philosophy (4)
Prerequisite: One PHIL course. Philosophical thought in Latin America with emphasis on contemporary philosophers, especially those of Mexico and Argentina.

435 Eastern Philosophy (4)
Prerequisite: One PHIL course. Indian philosophy; Jainism, Buddhism, and Tantra. Philosophy of China and Japan: Confucianism, Taoism, Buddhism, Shintoism, and related modern movements. May be repeated to a maximum of 8 units as content changes.

440 Contemporary Philosophy (4)
Prerequisite: One PHIL course. Major problems and trends in 20th century philosophy.

445 Existentialism (4)
Prerequisite: One PHIL course. Major works of existential philosophy; relation of existentialism to contemporary value problems; 19th century background and contemporary varieties of existential thought, both religious and nonreligious.

446 Phenomenology (4)
Prerequisite: One PHIL course. Descriptive and constitutive methodologies of phenomenology; application of phenomenological method to problems in ontology, aesthetics, language, psychology, and social theory.

450 Plato (4)
Prerequisite: PHIL 311. Exposition and analysis of principal works of Plato.

451 Aristotle (4)
Prerequisite: PHIL 311. Exposition and analysis of principal works of Aristotle.

452 Medieval Philosophy (4)
Principal themes in neo-Platonic and/or neo-Aristotelian philosophy, with concentration on teachings of particular figures, e.g., Plotinus, Augustine, Pseudo-Dionysius, Anselm, Bonaventure, Aquinas, Duns Scotus, Ockham.

458 Major Figures in Modern Philosophy (4)
Selected philosophers in the modern era: e.g., Descartes, Hobbes, Spinoza, Locke, Berkeley, Hume, Rousseau, and Kant.

Specific topic listed in Schedule of Classes. May be repeated to a maximum of 8 units as content changes.

459 Recent Philosophy (4)
Prerequisite: One PHIL course; PHIL 313 recommended. Selected philosophical themes from Kant to late 19th century; contributions of selected philosophers, e.g.: Kant, Hegel, Marx, Nietzsche, Kierkegaard, Comte, and Mill.

460 Metaphysics (4)
Prerequisite: One PHIL course. Critical examination of fundamental principles and their implications in various fields of knowledge, including philosophy itself, and of basic assumptions implicit in certain human activities, such as art, religion, and science.

461 Philosophy and the Nuclear Age
Prerequisite: Upper division standing. The implications of nuclear physics on our way of understanding the world, ourselves, and our values and responsibilities.

470 Theory of Knowledge (4)
Prerequisite: One PHIL course. Analysis of how we know, and how we know we know; theories of evidence, truth, and confirmation.

471 Philosophy of Mind (4)
Prerequisite: One PHIL course. Philosophical analysis of concepts of mind, mental phenomena, actions, emotions, and will; philosophical theories of mind.

474 Philosophy in Literature (4)
Philosophical ideas and issues in selected literary works.

475 Aesthetics (4)
Prerequisite: One PHIL course. Main problems and principal theories of art creation, appreciation, and criticism; aesthetic experience and the work of art; principles of aesthetic evaluation and their effect on morality, government, society, science, and philosophy.

480 Philosophy of Language (4)
Prerequisites: PHIL 250, one additional PHIL course. Semantic, syntactic, and pragmatic dimensions of language; theories of signs and meaning; cognitive, emotive, and other features of language; ordinary language and formal language as analytical tools; philosophical importance of language.

485 Philosophy of Science (4)
Prerequisite: PHIL 250 or upper division standing in any major. Philosophical issues in the physical, life, and social sciences. Problems selected for study may include: concept formation, hypotheses and models, meaning and verification, prediction and explanation, causality and natural law.

490 Philosophy of Law (4)
Prerequisite: One PHIL course. Philosophical investigation of fundamental presuppositions of legal theory, analysis of basic legal concepts.

491 Medical Ethics (4)
Prerequisite: One PHIL GE course or GE humanities requirement. Consideration of moral issues in medicine from a philosophical viewpoint.

495 Proseminar: Selected Works in Philosophy (4)
Prerequisite: Varies according to subject matter. Close study of major philosophical writings, stressing meaning, methods of inquiry, and grounds upon which argued. Content varies. May be repeated to a maximum of 8 units for credit as subject matter changes.
496 Philosophical Writing and Method (4)
Prerequisite: Satisfactory completion of the Graduation Writing Assessment Requirement (GWAR). Principles and techniques important in philosophical writing; examination of philosophical methodology and styles of argumentation; practice in philosophical writing.

499 Undergraduate Directed Study (1-4)
Prerequisites: Consent of an instructor to act as sponsor; ability to assume responsibility for independent work and to prepare written and oral reports. Project selected in conference with sponsor before registration; progress meetings held regularly. May be repeated to a maximum of 8 units for credit.
THEATRE ARTS AND DANCE

School of Arts and Letters

DEPARTMENT OFFICE
King Hall 5104
Phone: (213) 343-4110

The Department of Theatre Arts and Dance offers undergraduate programs leading to the Bachelor of Arts degree in Theatre Arts and Dance, as well as a minor in Theatre Arts and Dance for students majoring in other fields. The Theatre Arts and Dance major includes options in Theatre Arts and Dance. The department also offers a Master of Arts degree in Theatre Arts which is described in the Graduate Programs section.

The Faculty

Associate Professors: José Cruz Gonzalez, Grace Shizuko Herrera, Nancy E. Kupka, Theresa Larkin, Susan Mason (Acting Chair).

Assistant Professors: Hae Kyung Lee.

Bachelor of Arts Degree in Theatre Arts and Dance

The Bachelor of Arts degree in Theatre Arts and Dance is designed for students who plan to engage in careers which utilize skills in theatre and dance.

Department policy requires that all undergraduate Theatre Arts and Dance majors make themselves available for participation in scheduled department productions.

Requirements for the Major (99 units)
The major requires a total of 99 units, including core and option requirements. The core of 40 units includes courses in theatre arts, dance, and combined theatre and dance. Each option (Theatre Arts or Dance) includes 59 units in required courses and electives.

Core Requirements (40 units)

Lower Division Required Courses (19 units)

DANC 100A Beginning Ballet (3)
DANC 140A Beginning Modern Dance (3)
DANC 272 Choreography I: Improvisation (3)
TA 141 Acting Fundamentals: Games and Exercises (3)
TAD 101 Introduction to Theatre Arts and Dance (1)
TAD 132 Stagecraft II (3)
TAD 133 Stagecraft III (3)

Upper Division Required Courses (21 units)

TAD 339 Stage Management (3)
TAD 348 Breath, Movement, Voice II (3)
TAD 390 Performance Research and Writing (4)
TAD 467 Theory and Method in Performance Studies (4)
TAD 468 Performance and Social Change (4)

Performance Practicum in the Community: Select 3 units from:

DANC 483
TA 402
TAD 486

Options

Select one of the following options, with adviser approval.

- Theatre Arts Option (59 units)

Lower Division Required Courses (15 units)

TA 142 Acting Fundamentals: Character Study (3)
TA 143 Acting Fundamentals: Scene Study (3)
TA 276 Introduction to Playwriting (3)
TAD 131 Stagecraft I (3)
TAD 149 Breath, Movement, Voice I (3)

Upper Division Required Courses (32 units)

TA 301 Creative Dramatics (4)
TA 311 Development of World Theatre I (4)
TA 312 Development of World Theatre II (4)
TA 313 Development of World Theatre III (4)
TA 322 Theatrical Makeup (3)
TA 445 Principles of Directing I (3)
TA 446 Principles of Directing II (3)
TAD 439 Arts Management (4)

Select one from:

TA 426 Introduction to Stage Costuming (3)
TA 431 Introduction to Stage Scenery (3)
TA 434 Introduction to Stage Lighting (3)

Electives (Select 12 units with adviser approval):

TA 300 Play Production (1-2)
TA 306 Children’s Theatre (4)
TA 310 Play Performance (2)
TA 341 Advanced Performance I: Classical Acting (3)
TA 342 Advanced Performance II: Scene Study (3)
TA 343 Advanced Performance III: Acting Collaboration (3)
TA 400 Development of Drama Literacy (4)
TA 401 Advanced Creative Dramatics (4)
TA 422 Advanced Theatrical Makeup (4)
TA 426 Introduction to Stage Costuming (3)
TA 427 Stage Costume Design (3)
TA 431 Introduction to Stage Scenery (3)
TA 432 Stage Scenery Design (3)
TA 434 Introduction to Stage Lighting (3)
TA 435 Stage Lighting Design (3)
TA 450 Principles of Directing III (3)
TA 454L,P Selected Topics in Theatre Arts (1-4)
TA 459 Hispanic Play Production (3-4)
TA 460 Studies in Selected Dramatists (1-4)
TA 461 Nature of Dramatic Comedy (4)
TA 462 Nature of Dramatic Tragedy (4)
TA 463 Shakespeare as Living Theatre (4)
TA 464 Contemporary U.S. Theatre (4)
TA 471 Theatre of the Avant -Garde (4)
TA 475 Dramaturgy (4)
TA 476 Playwriting (4)
TA 478 Therapeutic and Educational Uses of Drama (4)
TA 479 Life Scripts (4)
TA 480 Cinema as a Dramatic Art (4)
TA 485 Children’s Film (4)

DANC 454LP
TA 445, 454LP, 460
TAD 348
Select one from following with adviser approval:
TA 322, 426, 431, 434
TAD 339, 439

The Credential Program
The Department of Theatre Arts and Dance has no program for the Single Subject credential in English approved by the Commission on Teacher Credentialing. Students interested in this credential should consult advisers in the Department of English or Communication Studies and in the Charter School of Education.

Courses in Dance (DANC)

Lower Division Courses
100A Beginning Ballet (3)
Activities to develop technical skills at the beginning ballet level. Supporting information including ballet vocabulary and historical developments. Nonmajors may repeat to a maximum of 9 units.

100B Beginning Ballet (3)
Prerequisite: DANC 100A or instructor consent. Beginning ballet technique emphasizing additional materials for ballet barre, center practice and vocabulary. Introduction of contemporary concepts in the classical idiom. Nonmajors may repeat to maximum of 9 units.

100C Beginning Ballet (3)
Prerequisite: DANC 100B or instructor consent. Beginning technique emphasizes center practice, classical and contemporary enchainments. Introducing schools of ballet, historical information relevant to the style and form. Nonmajors may repeat to maximum of 9 units.

120 Beginning Jazz Dance (2)
Activities designed to develop beginning skills in jazz dance accompanied by background information relevant to the dance form. May be repeated to maximum of 6 units.

135 Therapeutic Uses of Dance (1)
Dance therapy as a process that affects an individual’s transformation of ongoing energy flow to overt body movement to imagery to verbalization. May be repeated to maximum of three units.

140A Beginning Modern Dance (3)
Activities to develop technical skills in modern dance at the beginning level. Relevant modern dance vocabulary; historical developments presented. Nonmajors may be repeated to a maximum of 9 units.
140B Beginning Modern Dance (3)
Prerequisite: DANC 140A or instructor consent. Beginning modern technique emphasizing center practice, traditional and contemporary combinations. Introducing modern dance history, exploring technical styles, creative studies. Nonmajors may repeat to maximum of 9 units.

140C Beginning Modern Dance (3)
Prerequisite: DANC 140B or instructor consent. Beginning modern dance technique, emphasizing center practice, floor work, relevant modern dance vocabulary. Introducing contemporary concepts in the classical idiom. Nonmajors may repeat to maximum of 9 units.

154 Special Topics in Dance (1)
Current topics of special interest in dance, as announced in Schedule of Classes. May be repeated as subject matter changes.

157 Survey of Dance Forms (4)
Analysis of the historical and technical development of dance forms as they cultivate imagination and sensitivity to humanistic behavior. Participation in activities demonstrating techniques utilized in these forms.

160 Beginning Tap Dance (2)
Activities designed to develop beginning skills in tap accompanied by background information relevant to the dance form. May be repeated to maximum of 6 units.

200A Intermediate Ballet (3)
Prerequisite: TAD major, DANC 100C, or instructor consent. Activities developing skills at intermediate level of ballet. Material on vocabulary and relevant theoretical considerations. Beginning a foundation of knowledge of ballet aesthetics. May repeat to a maximum of 6 units.

200B Intermediate Ballet (3)
Prerequisite: DANC 200A or instructor consent. Activities developing skills at the intermediate level. Supporting materials on vocabulary and relevant theoretical considerations. Continued building the foundation of knowledge of ballet aesthetics. May repeat to a maximum of 6 units.

200C Intermediate Ballet (3)
Prerequisite: DANC 200B or instructor consent. Activities to continue mastering intermediate ballet technique. Supporting materials on vocabulary, relevant theoretical information and broadening knowledge of ballet aesthetics. May repeat to maximum of 6 units.

220 Intermediate Jazz Dance (2)
Prerequisite: DANC 120. Activities designed to develop intermediate skills in jazz dance accompanied by background information relevant to the dance form. May be repeated to maximum of 6 units.

240A Intermediate Modern Dance (3)
Prerequisite: TAD major, DANC 140C, or Instructor consent. Activities to develop technical skills at the intermediate modern dance level. Relevant modern dance vocabulary and varied theories presented. May repeat to maximum of 6 units.

240B Intermediate Modern Dance (3)
Prerequisite: DANC 240A or Instructor consent. Intermediate modern dance technique emphasizing center and across floor materials; relevant dance vocabulary and aesthetic considerations. Set and original combinations from varied theorists. May repeat to maximum of 6 units.

240C Intermediate Modern Dance (3)
Prerequisite: DANC 240B or instructor consent. Intermediate modern dance technique emphasizing center and across floor materials; choreographic sequences introduced; varied theories presented: relevant dance vocabulary and aesthetic considerations. May repeat to maximum of 6 units.

254L-P Special Topics in Dance (1-3)
Current topics of special interest in dance, as announced in Schedule of Classes. May be repeated to a maximum of 12 units as subject matter changes.

260 Intermediate Tap Dance (2)
Prerequisite: DANC 160. Techniques and practice of tap dance; single, triple, quadruple tap sounds combined in rhythmic sequences and developed into dances. May be repeated to maximum of 6 units.

272 Choreography I: Improvisation (3)
Prerequisites: TAD Major or instructor consent; DANC 140A; DANC 100A. Improvisational techniques utilizing dance movements to develop individual/group sensitivities, concentration and discoveries to begin the forming process used in creating dances. May be repeated to maximum of 12 units.

Upper Division Courses

300 Advanced Ballet (2)
Prerequisite: TAD major, DANC 200C, or Instructor consent. Continued development of technical skills, choreographic combinations, knowledge of history and styles: Italian, Russian, French, English, Danish, American. May repeat to maximum of 12 units.

320 Advanced Jazz Dance (2)
Prerequisite: DANC 120; corequisite: (specific lab to be designated each quarter). Expanded development of skills, knowledge, analysis ability, and study of application of elements of jazz dance in solo and group work. May be repeated to maximum of 6 units.

340 Advanced Modern Dance (2)
Prerequisite: TAD major, DANC 240C, or instructor consent. Continued development of technical skills, creative dance study, knowledge of history and aesthetics appropriate for the advanced level of modern dance. May be repeated to maximum of 12 units.

357 Creative Experiences for Health and Wellness (4)
(also listed as ART 357, MUS 357, and TA 357)
Prerequisites: ART 151 or MUS 150 or 160; DANC 157 or TA 152 or HS 150. Exploring health and wellness through participation in the creative arts - dance, visual Arts, music and theatre arts.

372 Choreography II: Dance Composition (3)
Prerequisite: TAD major; DANC 272; or instructor consent. Principles of dance composition through individual experiences with varied stimuli, differing construction processes, simple musical forms. May be repeated to maximum of 12 units.

400 Development of Dance Arts Literacy (4)
Perceptual, expressive, historical, and cultural components associated with dance-aesthetic phenomena; lectures, movement experiences, visits to dance events. Lecture 2 hours, activity 4 hours.
401 Dance Techniques and Creativity in Elementary Education (4)
Prerequisite: DANC 400. Ballet basics, modern dance technique, improvisation and creative problem solving for the elementary educator. Viewing and critical analysis of dance.

435ABC Dance Movement and Identity (4, 4, 4)
Prerequisites: DANC 157, DANC 400 or instructor consent. Theoretical framework, conceptual development and practice of using dance to promote awareness, insight and growth, allowing for integration of cognitive, emotional and physical functions. Lecture 2 hours, activity 4 hours.

454L,P Special Topics in Dance (1-3)
Current topics of special interest in dance, as announced in Schedule of Classes. May be repeated to a maximum of 12 units as subject matter changes.

461 Ethnic Dance (4)
Prerequisite: DANC 372. Study of specific ethnic cultures and the political, social, economic and religious structures that influence and shape their dances, music, movement and meaning. Content varies.

470 Theory and Analysis of Dance (3)
Prerequisite: Advanced level in dance technique. Theory, analysis, and advanced performance of dance; structural elements, rhythm, creativity, and selection of accompaniment. Lecture 2 hours, demonstration laboratory 2 hours each.

471 Rhythmic Form and Analysis for Dance (3)
Prerequisites: DANC 140C, DANC 272. Historical analysis of rhythmic elements inherent in music and movement; application and appreciation of their organization as a basis of form in dance. Seminar 1 hr, Laboratory 6 hrs.

472 Choreography III: Advanced Dance Composition (3)
Prerequisite: TAD major, DANC 372, or instructor consent. Application of principles/materials of dance, developing solo and group dances for concert productions. Applied theories of contemporary choreographers/their composers. May be repeated to maximum of 12 units.

475 Choreographic Accompaniment (3)
Corequisite: DANC 476A or Instructor consent. Analysis of music for dance from historical periods. Students’ choreographies reflective of primitive through 20th Century musical forms, compositions. Seminar 1 hr, Laboratory 6 hrs.

476A Dance History-Primitive to 20th Century (4)
Prerequisite: DANC 272. Study of dance forms: primitive, medieval, renaissance, ballet, jazz and modern as they relate to social, political, economic and religious structures that inspired their development. Lecture 2 hours, Activity 4 hours.

476B Survey of Contemporary Dance Development of Vocabulary in the 20th Century (4)
Prerequisite: DANC 272. Survey of contemporary dance development and vocabulary in world cultures as they relate to social, political, economic and religious structures in the 20th Century. Emerging trends. Lecture 2 hours, Activity 2 hours.

477 Experiential Survey of Dance History (4)
Prerequisite: DANC 400. Experiential survey of dance history from primitive to contemporary. Emphasis on authentic dances and creative movement expressing diverse cultural beliefs, ceremonies. Field trips. No credit toward TAD majors.

478 Choreography for Camera (3)
Prerequisite or corequisite: DANC 472; BCST 201 recommended. Investigation and application of choreographic principles appropriate to television and/or cinema. Lecture 2 hours, laboratory 2 hours.

480 University Dance Ensemble (2)
Prerequisite: Instructor consent. Preparation of lecture-demonstrations and dance performances. May be repeated to maximum of 12 units.

483 University Dance Ensemble Tour (3)
Prerequisite: DANC 480 or instructor consent. Rehearsals and tour into community/schools of dance concert and/or lecture-demonstration. Satisfies core requirement of performance practice in the community. May be repeated to maximum of 6 units.

484 Educational Dance Tour (3)
Prerequisites: DANC 400 or 477 or instructor consent. Rehearsals and tour into schools of material generated in Dance Arts Literacy or experiential survey courses. Practicum in integrating arts into elementary education. May be repeated to maximum of 6 unit.

485 Dance Production (3)
Prerequisite: DANC 472. Preparation of dance materials for performance; directing, lighting, costuming, and makeup for dance. Lecture 2 hours, demonstration-laboratory 2 hours.

Courses in Theatre Arts (TA)

Lower Division Courses
100 Play Practicum (1)
Active participation in University-sponsored dramatic activities. Assignments may include acting, directing assistance, lighting, scenery, costuming, props, and house management. May be repeated to maximum of 4 units.

141 Acting Fundamentals: Games and Exercises (3)
Basic principles and techniques of acting. Exploration of creative processes through theatre games and improvisational exercises. Additional hours required. CAN DRAM 8

142 Acting Fundamentals: Character Study (3)
Basic principles and techniques of acting. Building a character through textual analysis and practical work based on text. Additional hours required.

143 Acting Fundamentals: Scene Study (3)
Basic principles and techniques of acting. Analysis of scene structure, use of subtext, actions, and objectives. Performance of selected scenes. Additional hours required.

152 Analysis of Drama (4)
Principles of dramatic art; consideration of elements of drama, dramatic structure, types, and styles; evaluation and appreciation through study and workshop presentation of representative plays.

154L,P Selected Topics in Theatre Arts (1-4)
Prerequisite: Instructor consent and as needed for specific topic. Current topics of special interest to students in Theatre Arts as announced in Schedule of Classes.

160 Living Theatre (4)
Survey of live theatre; appreciating and understanding actual theatrical productions and practices: acting, playwriting, costumes and makeup design, nature of the theatrical event. Lecture 2 hours, demonstrations-practical work-field trips, 4 hours.
276 Introduction to Play Writing (3)  
(also listed as ENGL 276)  
Prerequisite: ENGL 200A or 200B or 200C or TA 152. Collaborative approach to writing for the stage; emphasizes writing theory and techniques; introduction to dramaturgy, directing, literary management, and staged reading.

Upper Division Courses

300 Play Production (1-2)  
Technical preparation/presentation of University-sponsored production; Transfer majors must complete at least 6 units. Non majors must enroll whenever cast in department productions. Meets more than 6 hours per week.

301 Creative Dramatics (4)  
Philosophies and techniques of creative dramatics. Emphasis on improvisation, play making, pantomime, ongoing drama, story dramatization, role playing; selected projects and demonstrations.

306 Children’s Theatre (4)  
Philosophies, attitudes, and forces shaping current practices in children’s theatre; selected scripts and production techniques.

310 Play Performance (2)  
Prerequisite: Admission by audition only. Detailed work on a major production with rehearsal and performance requirements. Enrollment required for performance participation. Meets more than 6 hours each week. May be repeated to maximum of 12 units.

311 Development of World Theatre I (4)  
Significant developments in world dramatic literature and theatre from origins through 17th century with emphasis on classical Greece/Rome, Medieval, Sanskrit, Renaissance Italy, Spain, France and England, and pre-Columbian American.

312 Development of World Theatre II (4)  
Significant developments in world dramatic literature and theatre from the 17th to 20th century; emphasis on traditional Japanese and Chinese, 17th through 19th century romanticism, realism, early revolts against realism.

313 Development of World Theatre III (4)  
Significant developments in world dramatic literature and theatre in the 20th century with emphasis on German expressionism, social realism, fascist Europe, absurdism, and contemporary theatre forms and artists.

322 Theatrical Makeup (3)  
Prerequisite: Instructor consent. Basic concepts and skills in makeup for stage, television, and cinema; straight and corrective makeup; old age and character modeling; introduction to facial prosthetics; basic techniques in building facial hair pieces. Laboratory hours required.

323 Intermediate Theatrical Makeup (3)  
Prerequisite: TA 322. Concepts and skills of three-dimensional techniques; special effects and fantasy makeup for stage and screen; makeup design; techniques for handling hair and wigs. Additional hours required.

341 Advanced Performance I: Classical Acting (3)  
Prerequisites: TA 141-143. Advanced principles and techniques of classical acting. Grounding in textual analysis through initial exposure to Shakespeare and other classical texts in performance. Additional hours required.

342 Advanced Performance II: Scene Study (3)  
Prerequisite: TA 341 or instructor approval. Advanced principles and techniques of acting; developing characters through scene study. Additional hours required.

343 Advanced Performance III: Acting Collaboration (3)  
Prerequisite: TA 342 or instructor approval. Advanced principles and techniques of acting; analysis and exercises designed to work on acting as collaborating. Additional hours required.

357 Creative Experiences for Health and Wellness (4)  
(also listed as ART 357, DANC 357, and MUS 357)  
Prerequisites: ART 151 or MUS 150 or 160; DANC 157 or TA 152 or HS 150. Exploring health and wellness through participation in the creative arts - dance, visual arts, music and theatre arts.

400 Development of Drama Literacy (4)  
Prerequisite: Upper division standing. Investigation of perceptual, expressive and cultural components associated with theatre aesthetic phenomena. Lectures, experiential, improvisational techniques and creative drama to develop the imagination and problem-solving skills of the students.

401 Advanced Creative Dramatics (4)  
Exploration and application of advanced techniques and concepts of informal drama; special emphasis on European approaches to dramatics; practical experience through selected projects.

402 Children’s Theatre Tour (3)  
Student participation as actors, designers, stage managers, and drama leaders in touring children’s theatre productions; skills gained in working with special populations. Additional hours required. May be repeated to maximum of 16 units.

422 Advanced Theatrical Makeup (3)  
Prerequisite: TA 322. Advanced techniques in creation and application of latex, polyurethane, and wax dental prosthetics for stage, television, and cinema; ventilation processes for beard and wig construction; experimental design of stylized nonrealistic makeup. Laboratory hours required.

426 Introduction to Stage Costuming (3)  
Prerequisites: Two dramatic literature courses. Basic principles of costume design and construction; historical survey of costumes from ancient to modern times as related to stage costume. Additional hours required.

427 Stage Costume Design (3)  
Prerequisite: TA 426. Theory and application of costume design and construction for stage; research methods, principles of design, dramatic analysis, rendering layout, and construction techniques. Additional hours required.

431 Introduction to Stage Scenery (3)  
Prerequisites: TAD 131, 132. Theory, practice of scenery design; physical stage, script, director demands; working drawings, models, sketches; perspective rendering. Additional hours required.

432 Stage Scenery Design (3)  
Prerequisite: TA 431. Advanced design problems, projects in design of drama, comedy, and musical theatre. Additional hours required.

434 Introduction to Stage Lighting (3)  
Prerequisites: TAD 131, 132. Theory and practice of lighting design; functions and properties of light on stage; basic electricity, optics, color; light plots and plans, lighting equipment and its use, control systems. Additional hours required.
435 Stage Lighting Design (3)
Prerequisite: TA 434. Advanced problems in lighting design; projects in conception and execution of designs for the stage. Additional hours required.

441-443 Acting Studio I, II, III (3, 3, 3)
Prerequisites: TA 341-343. Organic approach to the physical and emotional demands of acting. Admission by audition only. Each course may be repeated to maximum of 6 units.
441: Material from the American English Realist tradition.
442: Material from the Early Realist tradition.
443: Material from classical and Musical Theatre.

445 Principles of Directing I (3)
Prerequisites: Completion of lower division requirements, TAD 339 & 439; or graduate standing. Introduction to the process of directing plays: script analysis, blocking, auditions, casting, design concepts, scheduling and conducting rehearsals, communication techniques for artistic collaboration, and presentation of scenework. Additional hours required.

446 Principles of Directing II (3)
Prerequisites: Completion of lower division requirements, TAD 339, 439, and 445; or graduate standing. Advanced techniques of stage directing; developing of concept, style, and approaches to directing classical, modern, and nonrealistic plays; collaborative approaches working with actors and designers; scene presentations. Additional hours required.

447-449 Acting for Musical Theatre I, II, III (3, 3, 3)
Performance approach to acting demands of musical theatre; characterization through voice, singing, speaking, movement, and scene study. Each course may be repeated once for credit. Suggested sequence: 447, 448, 449; however, none of the three courses is prerequisite to the others.
448: Beginning to rise of book musical (1940).
449: The contemporary, avant garde (1967-present).

450 Principles of Directing III (3)
Prerequisite: TA 446. Directing laboratory in which each director selects a one-act play to explore through script analysis and rehearsal, culminating in performance. May be repeated to maximum of 6 units.

454L,P Selected Topics in Theatre Arts (1-4)
Prerequisite: Instructor consent and as needed for specific topic. Current topics of special interest to students in theatre arts as announced in Schedule of Classes.

457 Emotion in the Theatre and Film (4)
Exploration of audience emotional responses to techniques used by actors, writers, directors, designers, choreographers; theatre aesthetics in social/political context through history and in various cultures.

459 Hispanic Play Production (3-4)
(also listed as SPAN 459)
Prerequisite: Intermediate Spanish. Introduction to major forms of Spanish drama; mechanics and production of a major work of Hispanic theatre. May be repeated to total of 12 units, of which maximum of 4 may apply toward major.

460 Studies in Selected Dramatists (1-4)
Prerequisite: Two dramatic literature courses. Intensive study of one or several important dramatists; specific course content varies. May be repeated to maximum of 8 units as subject matter changes.

461 Nature of Dramatic Comedy (4)
Prerequisite: TA 152 or a course in dramatic literature. Theory and techniques of comedy in literature and entertainment arts; emphasis on kinds of comedy in historical perspective.

462 Nature of Dramatic Tragedy (4)
Prerequisite: TA 152. Stage tragedy from ancient Greece to present; major theories and kinds of tragedy, and evolution of tragic hero and heroine.

463 Shakespeare as Living Theatre (4)
Prerequisites: TA 152 or ENGL 222; ENGL 417. History and theories involved in bringing Shakespeare’s drama to life on stage. Analysis of major plays in relation to their potential production in contemporary theatre.

464 Contemporary U.S. Theatre (4)
Prerequisites: TA 311, 312, 313. Significant directors, designers, companies, playwrights, and plays in U.S. theatre since the 1960’s. Effects of government funding, Civil Rights movement, the international avant garde, and multiculturalism will be examined.

471 Theatre of the Avant-Garde (4)
Prerequisite: TA 152 or ENGL 222. Translation studies in development of avant-garde in French-, German-, and English-speaking theatres. Emphasis on experimental drama as producible, living theatre.

472 History and Analysis of Lyric Theatre (4)
Study and evaluation of lyric theatre from its origin to present; emphasis on development of form and style, analysis of representative works, emergence of American lyric theatre.

475 Dramaturgy (4)
Prerequisites: TA 311, 312, 313; or consent of the instructor. The theory and practice of pre-production, production, and institutional dramaturgy. Practical exercises with directors and playwrights.

476 Play Writing (4)
Prerequisites: At least one upper division course in dramatic literature and instructor consent. Workshop in planning, preparing, and writing manuscripts for stage; emphasis on handling dramatic materials, play structure, characterization, and appropriate dialogue. May be repeated to maximum of 8 units for credit.

477 Psychodrama (4)
Prerequisites: Twelve units selected from following: TA 301, 231, 238; PSY 308, 412AB, 418AB. Theory and practice of psychodrama and role playing; experience in psychodrama sessions as protagonists, doubles, and auxiliaries; warm-ups, role reversal, soliloquy, and other techniques. May be repeated to maximum of 8 units.

478 Therapeutic and Educational Uses of Drama (4)
Prerequisite: TA 301. Theory and practice of drama as a creative art in education and therapy: theatre games, video, photography, psychodrama, puppets and masks. May be repeated to maximum of 8 units.

479 Life Scripts (4)
Individual life programming employing drama therapy: effects of family/cultural messages on choices; writing and enactment of scenes revealing life scripts providing alternatives. Additional hours required. May be repeated to maximum of 8 units.
480 Cinema as a Dramatic Art (4)
Comparative analysis of dramatic media, consideration of media as art forms; emphasis on "Great Films" series. May be repeated to a maximum of 8 units with instructor consent.

485 Children's Film (4)
Prerequisite: PSY 412A recommended. Instructional and aesthetic elements in films for preschool to adolescent children: film techniques, audience analysis, and development of a rationale for designating films appropriate for various age levels.

489 Advanced Creative Workshop (2)
Prerequisite: All lower and upper division courses completed or permission by instructor. Active participation in student-generated, University-sponsored dramatic activities. Assignments may include acting, directing assistance, playwriting, lighting, scenery, costuming, props, choreography, and house management. May be repeated to 6 units.

499 Undergraduate Directed Study (1-4)
Prerequisite: Consent of an instructor to act as sponsor. Project selected in conference with sponsor prior to registration; progress meetings held regularly and final report submitted. May be repeated to a maximum of 12 units for credit.

Courses in Theatre Arts and Dance (TAD)

Lower Division Courses

101 Introduction to Theatre Arts and Dance (1)
Introduction to the fundamentals of performance training in theatre arts and dance in the university. Portfolio preparation. Additional hours required.

131 Stagecraft I (3)
Technical theatre and dance practices developed in lectures, demonstrations, and workshop experience; basic tools and techniques of scenery construction; reading technical drawings; technical theatre procedures and organization. Additional hours required. CAN DRAM 12

132 Stagecraft II (3)
Technical theatre and dance practices developed in lectures, demonstrations, and workshop experience; stage properties, drafting techniques, basic stage lighting, and sound effects. Additional hours required.

133 Stagecraft III (3)
Introduction to basic materials, tools, construction techniques, costume paint and dye techniques, and wardrobe plotting used in costuming for the performing arts. Lecture 2 hours, laboratory 3 hours. Additional hours required.

149 Breath, Movement, Voice I (3)
Fundamentals of vocal training for the performer with an emphasis on effective breathing techniques. Yoga, centering and alignment; awareness of and development of correct vocal production and placement; physical exercise. CAN DRAM 6.

339 Stage Management (3)
Prerequisites: TAD 132-133 or equivalent. Assembling prompt book, blocking and movement notation, and organization and communication procedures; application to production: detailing the process from preproduction and rehearsals through performance to post production. Additional hours required.

348 Breath, Movement, Voice II (3)
Prerequisite: TAD 149 or instructor consent. Development of movement as well as techniques in physicalization, composition and evaluation will be investigated. May be repeated to 9 units.

349 Breath, Movement, Voice III (3)
Prerequisite: TAD 149, TAD 348 or instructor consent. Voice, dictation, and dialect training for the stage. Development of natural and responsive voice production and the technique of dictation and dialects appropriate to the demands of performance.

390 Performance Research and Writing (4)
Prerequisite: Satisfactory completion of the Graduation Writing Assessment Requirement (GWAR). Advanced research and writing practice with emphasis on critical and mechanical skills appropriate for theatre arts and dance majors.

439 Arts Management (4)
Prerequisites: Completion of lower division requirements, TAD 339; or graduate standing. Historical evolution, theory development and practice of arts administration and theatre management. Additional hours required.

467 Theory and Method in Performance Studies (4)
(also listed as SPCH 467)
Prerequisite: Upper division course in SPCH, TA or DANC. Introduction to major theoretical perspectives in performance studies and to key methodologies for investigating performance in/as culture. Central concepts include social drama and performance ethnography.

468 Performance and Social Change (4)
(also listed as SPCH 468)
Prerequisite: SPCH 367 or 467 or upper division theory course in TA, DANC or rhetoric. Aesthetic, pedagogical underpinnings of performance and social change. Relationship between performance and liberation in avant-garde works and across cultures. Theoretical and pragmatic concerns as these emerge in production.

486 Cross Cultural Approaches to Social Performance (3)
Prerequisites: TAD 467, 468. Crosscultural applications of improvisation experimental performance and playback techniques in the development of social action activities in community and educational setting. Fulfills community performance practicum requirement.
SCHOOL OF BUSINESS AND ECONOMICS

Departments within the School

Department of Accounting

Simpson Tower F124
Phone: (213) 343-2800

School Advisement Center
Salazar Hall C256B
Phone: (213) 343-2810

The major role of the School of Business and Economics is to equip men and women with the intellectual and professional tools needed to assume responsible positions in business, industry, education, government, and social service organizations. The preparation offered includes a basic understanding of the entire social, economic, and physical environment of the urban community, of which business institutions are an integral part. Further, a substantial theoretical and technical background is provided in the underlying fields of knowledge dealing specifically with functional areas in business.

The School of Business and Economics offers undergraduate degree programs in business administration, computer information systems, and economics as well as several minors and certificate programs. Graduate degree programs are described in the Graduate Programs section.

Accreditation

The School of Business and Economics is nationally accredited, at both graduate and undergraduate levels, by the American Assembly of Collegiate Schools of Business (AACSB).

Office of Publications (Business Forum)

The Publications Office produces all school publications including annual reports, alumni newsletters, various pamphlets and brochures, working papers, and news releases.

The School of Business and Economics’ Publications Office publishes a quarterly, refereed journal, Business Forum. The journal is directed to a national reading audience of scholars, business executives, and public administrators, and includes articles by representatives from the academic, government, and business sectors. Business Forum is the keystone of the school’s effort to achieve effective two-way communication between business and Cal State L.A.

Undergraduate Programs

Undergraduate programs leading to bachelor’s degrees are offered in business administration, computer information systems, and economics, minors in basic business, and economics. Several certificate programs are offered, also. Students are required to complete lower division courses prior to taking upper division courses.

Bachelor of Science Degree in Business Administration

A total of 192 units is required for the Bachelor of Science degree in Business Administration, of which 105-114 units are in the major. All degree candidates must complete 72 units in courses outside the School of Business and Economics.

Requirements for the Major (105-114 units)

All options except Accounting (78 units) require a common core of 82 units of lower and upper division courses in the School of Business and Economics and the Department of Mathematics and Computer Science. In addition, each student with upper division standing completes one of the following options:

1. Accounting
2. Administrative Management
3. Business Arts-Prelegal
5. Entrepreneurship
6. Finance
7. Human Resources Management
8. International Business
9. Labor Relations
10. Marketing
11. Office Systems
12. Production and Operations Management
13. Real Estate
14. Retailing
15. Special Business

Core Requirements (82 units)

  Note the following accounting program standards.

  **Part I.** To enroll in upper division accounting courses (except 320AB), undergraduate students must have:

  1) Completed the following courses:

     | Course      | Title                               | Units |
     |-------------|-------------------------------------|-------|
     | ACCT 200AB  | Principles of Accounting            | 4     |
     | ACCT 320AB  | Intermediate Accounting             | 4     |
     | CIS 294     | Business Computer Systems           | 4     |
     | ECON 201, 202 | Principles of Economics I, II     | 4, 4  |
     | ECON 209    | Applied Business and Economic Statistics | 3    |
     | FIN 205     | Legal and Regulatory Environment of Business | 4    |
     | FIN 303     | Business Finance                    | 4     |
     | MATH 242    | Mathematics for Business and Economics Majors | 4    |
     | MGMT 301    | Business Communications             | 4     |

  2) Earned a minimum 2.4 grade point average in all courses attempted, including those accepted by transfer from other institutions and those attempted at Cal State L.A.

  3) Followed procedures specified by the Department of Accounting in the quarter preceding enrollment in the first upper division accounting course (except 320AB).

  **Part II.** Students in the accounting option must earn a grade of C or higher in all accounting courses.

- **Option 2: Administrative Management (24 units)**

  ADVISEMENT: Department of Management.
  This option develops competence in administrative and supervisory techniques required of managers, supervisors, and comparable administrative officers in industry, finance, government, and labor.
Required Courses (16 units)
MGMT 460, 461, 462, 479

Electives (8 units)
Select two adviser-approved courses from 400-level MGMT courses and FIN 434.
- Option 3: Business Arts-Prelegal (24 units)

Required Courses (8 units)
ECON 471
HIST 479

Electives (select 16 units with adviser approval)
- Option 4: Business Economics and Statistics (24 units)

Required Courses (12 units)
ECON 401, 403, 410, 414
Electives (select 8 units from following)
ACCT 322, CIS 482, 486
ECON 415, 416, 491
MGMT 467
MKT 446
- Option 5: Entrepreneurship (24 units)

Required Courses (16 units)
ACCT 426, FIN 494, MGMT 468, MKT 443
Electives (8 units)
With adviser approval, select two upper division electives in business and economics.
- Option 6: Finance (24 units)

Required Courses (20 units)
FIN 305, 332, 403, 431, 434
* FIN 480 required instead of 305 for students with credit for 8 or more quarter units of lower division business law.

Electives (select one 4-unit course with adviser approval)
- Option 7: Human Resources Management (24 units)

Required Courses (16 units)
MGMT 473, 474, 477
ECON 472 or PSY 448

Electives (select 8 units from following)
MGMT 469, 470, 471, 475, 476
POLS 463, 464
PSY 442
- Option 8: International Business (24 units)

Required Courses (16 units)
FIN 431, MGMT 462
MKT 358, 456

Electives (select 8 units from following)
MKT 455, 457, 458, ECON 460 or 461 or 480
- Option 9: Labor Relations (24 units)

Required Courses (16 units)
ECON 430, 472, 473, MGMT 473
Electives (select 8 units with adviser approval)
- Option 10: Marketing (24 units)

Required Courses (12 units)
MKT 342, 442, 446

Electives (select 12 MKT units with adviser approval)
Guidelines are available suggesting the elective MKT units to be taken to specialize in promotion, advertising, sales promotion, direct marketing, sales or transportation career paths.
- Option 11: Office Systems (24 units)

Required Courses (24 units)
CIS 283, 320, 482, 413, 414, 421
MGMT 401
• Option 12: Production and Operations Management (24 units)

ADVICEMENT: Department of Management

This option teaches operations management, including operative planning and control, quality management, robotics management, and integrated manufacturing systems. Students are prepared for related assignments in manufacturing, nonmanufacturing firms, and government.

Required Courses (16 units)
MGMT 460, 464, 480, 496

Electives (select 8 units from following)
MGMT 463, 465, 467

• Option 13: Real Estate (24 units)

ADVICEMENT: Department of Finance and Law

This option prepares students for careers in real estate, including positions with brokerage and appraisal firms, lending institutions, and governmental agencies.

Required Courses (20 units)
FIN 338, 381, 438, 439, 493

Elective (4 units)
Select one course with adviser approval.

• Option 14: Retailing (24 units)

ADVICEMENT: Department of Marketing

This option prepares students for positions in the retail industry, or to become successful entrepreneurs in their own retail businesses.

Required Courses (12 units)
MKT 342, 344, 349

Electives (select 12 units from following with retail adviser approval)
FSCS 407
MKT 340, 345, 346, 442, 443, 448, 452

• Option 15: Special Business (24 units)

ADVICEMENT: Undergraduate Programs Office, Salazar Hall, C256B, (213) 343-2810

This option provides for programs designed to meet individual interests not covered by the other options. Permission to take this option must be secured from the dean of the school.

Required Courses (24 units)
Courses in business, economics, and relevant fields, which students select in conference with the school dean and appropriate faculty members, depending upon their unique and special objectives.

Bachelor of Science Degree in Computer Information Systems

ADVICEMENT: Department of Information Systems

A total of 196 units is required for the Bachelor of Science degree in Computer Information Systems, of which 114 units are in the major. All degree candidates must complete 72 units in courses outside the School of Business and Economics.

Requirements for the Major (14 units)
Both options require a common core of 90 units of lower and upper division courses in the School of Business and Economics and the Department of Mathematics and Computer Science. In addition, each student with upper division standing selects an option in Business Systems or Information Technology or Office Systems.

Core Requirements (90 units)

Lower Division Required Courses (35 units)
ACCT 200AB Principles of Accounting (4, 4)
CIS 283 Introduction to Application Programming (4)
CIS 294 Business Computer Systems (4)
ECON 201, 202 Principles of Economics I, II (4, 4)
ECON 209 Applied Business and Economic Statistics I (3)
FIN 205 Legal and Regulatory Environment of Business I (4)
MATH 242 Mathematics for Business and Economics Majors (4)

Upper Division Required Courses (55 units)
ACCT 300 Managerial Accounting (4)
CIS 301 Management Information Systems (4)
CIS 310 Software and Hardware Concepts (4)
CIS 442 Data Base Design (4)
CIS 482 Systems Analysis Methods (4)
CIS 484 Communications Systems (4)
ECON 309 Applied Business and Economic Statistics II (3)
FIN 303 Business Finance (4)
MGMT 306 Production and Operations Management (4)
MGMT 307 Management and Organizational Behavior (4)
MGMT 308 Business Responsibilities in Society (4)
MGMT 497 Integrated Decision Making in Business (4)
MKT 304 Principles of Marketing (4)
MGMT 301 Business Communications (4)

Options (23-24 units)

• Option 1: Business Systems (24 units)

This option prepares students for careers as information systems professionals in end-user departments (such as accounting, marketing, finance, personnel, office systems), in which they support personal computing activities, develop and maintain departmental information systems, and work as business analysts; or work in information centers. Students who select this option are encouraged to pursue a second major in business administration.

Required Course (4 units)
CIS 320 Office Information Processing Software Application (4)

Programming Electives (select 4 units from following)
CIS 335, 383, 445, 450, 451, 452, 454, when applicable.

Systems Elective (select 4 units from the following)
CIS 454 when applicable, CIS 483, 486, 487

Business and Economics Electives (12 units)
Select 12 units of upper division courses from one functional area (except Information Systems) within the School of Business and Economics, with adviser approval.

• Option 2: Information Technology (24 units)

This option provides students with the specialized knowledge needed for professional employment in an enterprise-level information systems department in all size organizations.
Required Course (4 units)
CIS 483 Advanced Information Systems Design (4)

Programming Electives
(select 8 to 12 units from following)
CIS 413, 414, 421, CIS 454, when applicable, CIS 486, 487

Minor in Computer Information Systems

The purpose of the minor in Computer Information Systems is to provide students majoring in nonbusiness and business disciplines the opportunity to develop skills needed to apply computer information systems to their major field of study. The 28 units required for the minor are:

Requirements for the Minor (28 units)

Required Courses (20 units)
CIS 283 Introduction to Application Programming (4)
CIS 294 Business Computer Systems (4)
CIS 442 Data Base Design (4)
CIS 482 Systems Analysis Methods (4)
CIS 484 Communication Systems (4)

Programming Elective (Select 4 units from the following)
CIS 335 Advanced BASIC (4)
CIS 383 Advanced Application Programming (4)
CIS 407 Microcomputer Applications Development (4)
CIS 454 Special Topics in Business Information Systems (4) when appropriate
CIS 483 Advanced Information Systems Development (4)

Systems Elective (Select 4 units from the following)
CIS 310 Software and Hardware Concepts (4)
CIS 414 Document Systems Administration (4)
CIS 454 Special Topics in Business Information Systems (4) when appropriate
CIS 486 Managing Information Systems Support (4)
CIS 487 Decision Support Systems (4)

Minor in Basic Business

The purpose of the minor in Basic Business is to provide a structured program for students majoring in academic degree programs outside the School of Business and Economics who wish to augment their major with basic knowledge in business and economics.

For students who intend to pursue further study in business at advanced undergraduate or graduate levels, MATH 242 is strongly recommended. The 39 units required for the minor are:

Requirements for the Minor (39 units)

Lower Division Required Courses (27 units)
ACCT 200AB Principles of Accounting (4, 4)
CIS 294 Business Computer Systems (4)
ECON 201, 202 Principles of Economics I, II (4, 4)
ECON 209 Applied Business and Economic Statistics I (3)
FIN 205 Legal and Regulatory Environment of Business I (4)

Upper Division Required Courses (12 units)
FIN 303 Business Finance (4)
MGMT 307 Management and Organizational Behavior (4)
MKT 304 Principles of Marketing (4)

Certificate Program in Accounting

The Department of Accounting offers a credit certificate in Accounting, designed to prepare individuals who hold or are pursuing a bachelor’s degree in a field other than accounting for entry into the accounting profession.

Prerequisites (31 units)
- Admission to the University with a bachelor’s degree in a field other than accounting or as an undergraduate majoring in a field other than accounting;
- Completion of the lower division business administration core subjects with a minimum 2.5 grade point average in the following courses:
  - ACCT 200AB Principles of Accounting (4, 4)
  - CIS 294 Business Computer Systems (4)
  - ECON 201, 202 Principles of Economics I, II (4, 4)
  - ECON 209 Applied Business and Economic Statistics I (3)
  - FIN 205 Legal and Regulatory Environment of Business I (4)
  - MATH 242 Mathematics for Business and Economics Majors (4)
  - A minimum of 47 units with a minimum 2.5 grade point average and a C in all accounting courses is required for completion of the program. Refer to the Undergraduate Study chapter of this catalog for general regulations governing all certificate programs.

Requirements for the Certificate (47-48 units)

Required Courses (32 units)
ACCT 300 Managerial Accounting (4)
ACCT 320AB Intermediate Accounting I, II (4, 4)
ACCT 321 Tax Accounting I (4)
ACCT 322 Cost Accounting (4)
ACCT 424A Auditing I (4)
FIN 303 Business Finance (4)
MGMT 301 Business Communications (4)

Electives (select 15-16 units from following)
ACCT 320C, 420, 421AB, 422, 424B, 427, 428, 433
CIS 301, ECON 309, FIN 305

Certificate Program in Advanced Information Systems

The Department of Information Systems offers a credit certificate in Advanced Information Systems, designed to provide an academic base for information systems professionals in such specialties as systems analysis and design, data administration, and distributed data processing as well as information systems management. The emphasis is on the study of advanced techniques and software productivity tools. This certificate is suitable for students who have completed or expect to earn an undergraduate option other than Information Systems; graduate students in business administration; or information systems professionals who hold a bachelor’s degree in any field.

The program contains a minimum of 28 units in CIS and related courses: 16 units in the core and at least 12 units of electives. Refer to the Undergraduate Study chapter of this catalog for general regulations governing all certificate programs.

Prerequisites:
- A bachelor’s degree in Business Administration; or
- Senior standing in a Bachelor of Science degree program in Business Administration or Computer Science; or
• Classified graduate standing in a master's degree program in the School of Business and Economics; or
• A bachelor's degree in another field and at least two years of experience in business management or as an information systems professional; or
• CIS 383, Advanced COBOL, or equivalent programming experience.

Requirements for the Certificate (28 units)

Required Core (16 units)
CIS 301 Management Information Systems (4)
CIS 442 Data Base Design (4)
CIS 482 Systems Analysis Methods (4)
CIS 484 Communications Systems (4)

Electives (select at least 12 units from following)
CIS 450, 451, 452, 486, 487, 527, 528, 543, 581, 584, 598
CS 412, 486, 488

Certificate Program in Computer Programming

The Department of Information Systems offers a credit certificate in Computer Programming, designed to prepare individuals for entry level computer programming positions or other positions that require sophisticated knowledge of computer technology. The program consists of 28 units including a 20-unit core and 8 units of electives chosen from CIS and CS courses. Refer to the Undergraduate Study chapter of this catalog for general regulations governing all certificate programs.

Requirements for the Certificate (28 units)

Required courses (20 units)
CIS/SOCS 280 The Computer World (4) or
CIS 294 Business Computer Systems (4)
CIS 283 Introduction to Application Programming (4)
CIS 383 Advanced Application Programming (4)
CIS 482 Systems Analysis Methods (4)
CIS 484 Communications Systems (4)

Electives (select 8 units from following)
CIS 227, 228, 301, 316, 335, 442, 450, 451, 452
CS 190, 202, 203, 290, 291, 330, 432

Other courses may be selected with Information Systems Department approval.

Certificate Program in Commercial Transportation

The Department of Marketing, in cooperation with the Office of Continuing Education, offers a credit certificate program in Commercial Transportation, designed for individuals intending to pursue a career or enhance their advancement potential in the field of industrial traffic and transportation or carrier operation.

A total of 28 units is required. Refer to the Undergraduate Study chapter of this catalog for general regulations governing all certificate programs.

Requirements for the Certificate (28 units)

Students select seven courses, with approval of a transportation adviser. Five courses must be about transportation (the adviser may allow substitution of one or two GEOG or TECH courses when appropriate); the other two must be upper division courses in marketing or elsewhere within the School of Business and Economics.

Certificate Program in Entrepreneurship

The Department of Marketing offers a credit certificate in Entrepreneurship, designed to prepare students and business people for careers in starting, managing, or working in small businesses. The program includes instruction about how to take a product or service from the idea stage through the introduction and growth stages, and how to successfully manage the business. A focus may be taken in retailing, marketing of services and products, consulting, accounting, finance, or entrepreneurship.

A total of 24 units is required. Refer to the Undergraduate Study chapter of this catalog for general regulations governing all certificate programs.

Requirements for the Certificate (24 units)

Required courses (16 units)
ACCT 426, FIN 494, MGMT 468, MKT 443

Electives (8 units)
Select two upper division School of Business and Economics electives with adviser approval.

Certificate Program in International Business

The Department of Marketing offers a certificate in International Business, designed to prepare students for careers in firms operating on a multinational basis; for careers in import-export, international finance and banking, and international agencies; and for the commerce option of the Foreign Service Officer examination with the federal government. It also provides training for managers of internationally-oriented companies in the Los Angeles area.

A total of 24 units is required. Refer to the Undergraduate Study chapter of this catalog for general regulations governing all certificate programs.

Requirements for the Certificate (24 units)

Required courses (16 units)
FIN 431, MGMT 462
MKT 358, 446

Electives (8 units)
Select two upper division School of Business and Economics electives with adviser approval.

Certificate Program in Marketing

The Department of Marketing offers a credit certificate in Marketing designed to prepare students for professional careers in marketing in both profit and nonprofit organizations. A total of 24 units is required. Refer to the Undergraduate Study chapter of this catalog for general regulations governing all certificate programs.

Requirements for the Certificate (24 units)

Required courses (12 units)
MKT 304; 341; 342 or 446

Electives (12 units)
Select Marketing Department electives with adviser approval.

Certificate Program in Retail Professional Development

The Department of Marketing offers a credit certificate in Retail Professional Development designed to provide the skills required for executive positions in the retail industry and to prepare individuals to become successful entrepreneurs in their own retail business. A total of 24 units is required. Refer to the Undergraduate Study chapter of this catalog for general regulations governing all certificate programs.
Requirements for the Certificate (24 units)

Required courses (16 units)
MKT 304, 342, 344, 349

Electives (select 8 units from following)
ART 430
MKT 340, 345, 346, 442, 443, 448, 452

Certificate Program in Office Systems

The Department of Information Systems offers a credit certificate in Office Systems, designed for teachers and trainers in education and industry who are responsible for teaching students and employees widely used microcomputer business applications. Students enrolled in this certificate program will have an opportunity to study the latest advancements in office systems. Included in the certificate is instruction in integrated and stand-alone software packages in word processing, electronic spreadsheets, database management systems, telecommunications, and graphics. Programs widely used in the business community—such as Lotus 1-2-3, Microsoft Works for Windows, WordPerfect, and dBase III Plus—are covered.

The program contains a total of 24 quarter units of CIS courses: 20 units in the core and 4 units of electives. Refer to the Undergraduate Study chapter of this catalog for general regulations governing all certificate programs.

Requirements for the Certificate (24 units)

Required Courses (20 units)
CIS 320, 412, 414, 421, 484

Electives (select 4 units from the following)
CIS 442, 486, 487

Bachelor of Arts Degree in Economics

ADVISEMENT: Department of Economics and Statistics

The Bachelor of Arts degree with a major in Economics prepares students to qualify for positions in business and government. Specific areas include finance, labor, transportation, international trade, banking, and regulatory agencies. A major in economics also provides a foundation for teaching at the college or high school level, and for entrance into graduate school or law school.

Two options are offered: the first emphasizes applied and analytical economics, and the second, social and behavioral sciences.

Students pursuing either the major or minor are urged to complete lower division courses before taking upper division courses.

Requirements for the Major (66-82 units)

A total of 66-82 units is required for the major, depending on the option selected. All students complete a 26-unit common core of lower and upper division courses in economics and business plus one of the options to complete remaining degree requirements.

Core Requirements (26 units)

Lower Division Required Courses (11 units)
ECON 201, 202 Principles of Economics I, II (4, 4)
ECON 209 Applied Business and Economic Statistics I (3)

Upper Division Required Courses (15 units)
ECON 303 Money, Banking, and the Economy (4)
ECON 309 Applied Business and Economics Statistics II (3)
ECON 310 Economics of the Business Firm (4)
MGMT 301 Business Communications (4) or
ENGL 306 Technical Writing (4)

Option Requirements

Students select one of the following two options, comprising 40-56 units, to fulfill requirements for the major.

- Option 1: Applied and Analytical Economics (48-56 units)

This option is recommended for students who intend to obtain graduate training in economics. Students intending to enter graduate programs should take MATH 206-207 sequence.

Lower Division Required Courses (12-20 units)
ACCT 200AB Principles of Accounting (4, 4) or
ACCT 202 Survey of Accounting (4)
CIS 294 Business Computer Systems (4)
MATH 242 Mathematics for Business and Economics Majors (4) or
MATH 206 and 207 Calculus I, II (4, 4)

Upper Division Required Courses (20 units)
ECON 401 Mathematical Economics (4)
ECON 403 Macroeconomics (4)
ECON 410 Microeconomics (4)
ECON 414 Econometrics I (4)
ECON 415 Applied Economics and Business Forecasting (4) or
ECON 416 Econometrics II (4)

Electives (16 units)
Select upper division courses in economics, other courses in the School of Business and Economics, mathematics, and/or the public administration area of political science, with adviser approval.

- Option 2: Social and Behavioral Sciences (44 units)

This option serves students with interdisciplinary interests in economics and other areas of social and behavioral sciences: anthropology, geography, history, political science, psychology, and sociology; and American, Chicano, Latin American, Pan-African, and urban studies.

Lower Division Required Courses (8 units)
ACCT 202 Survey of Accounting (4)
MATH 242 Mathematics for Business and Economics Majors (4)

Upper Division Required Courses (4 units)
Select one from the following:
ECON 403,410

Electives (32 units)
Select 12 upper division units in economics; 8-12 units in other social or behavioral sciences; and 8-12 units in economics, other courses in the School of Business and Economics, or mathematics with adviser approval.

Upper Division Required Course (4 units)
Select one from following:
ECON 403,410, or 412

Minor in Economics

A minor in Economics is available for students majoring in other fields. A total of 30 units is required. Students majoring in fields that require the same courses as those that fulfill requirements for the minor in economics will need to take only those courses in the minor program that are not incorporated into their major.
Requirements for the Minor (30 units)

Lower Division Required Courses (11 units)
ECON 201, 202 Principles of Economics I, II (4, 4)
ECON 209 Applied Business and Economic Statistics I (3)

Upper Division Required Course (4 units)
ECON 303 or 310

Electives (15 units)
Select upper division ECON courses in consultation with major and minor program advisers.

Certificate in International Economic Relations

The certificate program in International Economic Relations at California State University, Los Angeles will benefit students to better understand the economic and political factors that influence the global economy. The certificate will help students pursuing careers in federal or state agencies dealing with international affairs, corporations involved in international business and finance, and in international organizations, foundations, and nongovernment agencies.

At least 28 units are required to be selected with consent of adviser. Sixteen units in the core and at least 12 units of electives.

Prerequisites: Students in a degree program in the School of Business and Economics OR in a degree program in political science OR with consent of adviser.

Required Core Courses: (16 units)
ECON/POLS 426 International Political Economy (4)
ECON 461 Principles of International Economics (4)
ECON 462 International Monetary Economics (4)
POLS 425 U.S. Foreign Policy (4) OR
POLS 427 International Relations (4)

Elective Courses (12 units)
Choose from the following:
CHIN 380 OR FREN 380 OR JAPN 380 OR SPAN 380
Business/ Commercial Chinese, French, Japanese, Spanish (4)
ECON 460 Economic Growth of Underdeveloped Areas (4)
ECON 480 Comparative Economic Systems (4)
FIN 431 Multinational Financial Management (4)
GEOG 441 World Resources (4)
GEOG 481 Political Geography (4)
LAS 424 The U.S. and Latin America (4)
LAS/PAS 460 Dynamics of Social Change in the Third World (4)
MGMT 462 Comparative Management (4)
MKT 456 International Marketing Management (4)
PAS 416 Pan Africanism and World Politics (4)
POLS 421 Comparative Politics (4)
POLS 450 OR 451 OR 452 OR 453 OR 456
Politics of Selected Regions
Courses in Business and Economics-Interdepartmental (BUS)

Lower Division Courses

154 Special Topics in Business (1-4)
Current topics of special interest in business as announced in Schedule of Classes. May be repeated for credit as subject matter changes.

Upper Division Courses

Upper division standing is prerequisite to enrollment in 300- and 400-level BUS courses.

395 Community Service in Business (1-3)
Prerequisites: Upper division standing in business; approval of school interdisciplinary faculty coordinator in consultation with EPIC director, and acceptance by an appropriate community agency or director of a campus-approved business assistance or development project. Participation in work of a community agency or activities in business assistance or development projects, utilizing professional and/or vocational skills in service to community. May be repeated to maximum of 6 units. Graded CR/NC.

454 Special Topics in Business (1-4)
Prerequisite: Varies with topic; see Schedule of Classes for specific prerequisites. In-depth presentation and analysis of topics significant to contemporary business world: lectures, discussions, speakers, and research projects. May be repeated for credit for 20 units as subject matter changes.

499 Undergraduate Directed Study (1-4)
Prerequisites: Senior standing and instructor consent to act as sponsor. Independent work and preparation of oral and written reports. Project selected in conference with sponsor before registration; progress meetings held regularly. May be repeated for credit for 20 units as subject matter changes.

Courses in Accounting (ACCT)

Lower Division Courses

200AB Principles of Accounting (4, 4)
Measurement, valuation, and accumulation of accounting data; financial statement analysis and interpretation; limited coverage of accounting data use in decision-making. Credit allowed for only one of ACCT 200AB and 202. 200A = CAN BUS 2

202 Survey of Accounting (4)
Fundamentals of accounting theory and practice; how accounting serves the individual, the business entity, and the broader disciplines of law, government, and economics. Credit allowed for only one of ACCT 200AB and 202.

Upper Division Courses

Upper division standing is prerequisite to enrollment in 300- and 400-level ACCT courses.

300 Managerial Accounting (4)
Prerequisite: ACCT 200B, 202, or 260R. Use of accounting data for budgeting, cost control, pricing, evaluation of performance, and general decision-making.

320A Intermediate Accounting I (4)
Prerequisite: ACCT 200AB with minimum C grades. Accounting theory and practice relating to problems of asset valuation and classification in accounts and statements.

320B Intermediate Accounting II (4)
Prerequisites: ACCT 300A with minimum C grade, FIN 303. Valuation and classification of liabilities and stockholders' equity; study of selected contemporary accounting issues.

320C Intermediate Accounting III (4)
Prerequisite: ACCT 320B. Complex issues of accounting and financial disclosures; pensions, leases, EPS, and income tax reporting covered in detail.

321 Tax Accounting I (4)
Prerequisites: ACCT 300 and 320B with grades of C or better. Cost accounting as a tool in modern organizations. Topics include budgets, cost estimation, strategic cost management, cost systems, total quality management, benchmarking, and cost reporting.

322 Cost Accounting (4)
Prerequisites: ACCT 300 and 320B with grades of C or better. Cost accounting as a tool in modern organizations. Topics include budgets, cost estimation, strategic cost management, cost systems, total quality management, benchmarking, and cost reporting.

420 Advanced Accounting (4)
Prerequisite: ACCT 320C. Problems associated with preparation of consolidated financial statements, foreign currency translation, partnerships, and governmental fund accounting.

421A Tax Accounting I (4)
Prerequisites: ACCT 300 and 320B with grades of C or better. Statutory, regulations, administrative rulings, and court decisions relating to federal and California income taxes of partnerships and corporations; procedural problems, tax management and planning; tax shelters.

421B Taxation of Estates, Trusts, and Gifts (4)
Prerequisite: ACCT 321. Statutory, regulatory, and case materials applicable to federal estate and gift taxes; California inheritance and gift taxes; income taxation of estates and trusts; preparation of returns.

422 Corporate Management Accounting Practice (4)
Prerequisite: ACCT 300 or 322. Contemporary management accounting practice employed by today's corporate America; both manufacturing and service industries covered.

423 Financial Accounting Theory (4)
Prerequisite: ACCT 420 and minimum B (3.0) grade point average in ACCT courses. Evolution of financial accounting theory and practice; survey of contemporary accounting field, with emphasis on latest developments and issues.

424A Auditing I (4)
Prerequisite: ACCT 320C. Auditing concepts and practices involved in financial and operational auditing, with emphasis on auditing of financial statements by the independent Certified Public Accountant.

424B Auditing II (4)
Prerequisite: ACCT 424A. Current problems in auditing, with emphasis on application of statistical sampling to auditing and audit of computer-based accounting records.
426 Accounting and Reporting Requirements of Small Business (4)
Prerequisite: ACCT 300. Theory, methodology, and practice of establishing, accounting for, and reporting in the small business. Emphasis on financing and establishing basic accounting systems and reporting requirements of creditors and taxing authorities.

427 Governmental and Institutional Accounting (4)
Prerequisite: ACCT 320B. Principles and problems of fund accounting for governments and nonprofit institutions. Budgets, revenues, expenditures, tax levies, appropriations, general fund, special funds, and financial reports. Separate treatment of local, state, and federal government agencies.

428 Internal Auditing (4)
Prerequisite: ACCT 424A. Establishment of an internal audit organization; staff selection and development; planning and controlling the audit; development of facts and supporting evidence; sampling plans and procedures; computer audits; preparation of oral and written reports.

433 Financial Planning and Control (4)
Prerequisites: FIN 303; ACCT 300 or 322. Principles and techniques involved in the formulation, enactment, and administration of the budget; relation of budget practices to scientific management in business; budget reports for analysis and control.

454 Special topics in Accounting (1-4)
Prerequisite: Varies with topic; see Schedule of Classes for specific prerequisite. In-depth presentation and analyses of topics significant to contemporary business world; lectures, discussions, speakers, and research projects.

Courses in Computer Information Systems (CIS)

Lower Division Courses

227 PL/1 Programming (4)
Prerequisite: CIS 294 or CS 290. Language constructs and syntax: data types and storage control features; programming exercises.

228 Business Pascal/Ada (4)
Prerequisite: CIS 294 Programming in Pascal and Ada. Pascal portion covers structure of the language and hands-on programming assignments; Ada portion includes an introduction to Ada programming language.

280 The Computer World (4)
(also listed as SOCS 280)
Basic information about computers and data base systems; terminology, technology, practical application, and social implications.

283 Introduction to Application Programming (4)
Prerequisite: CIS 294 or CS 290. Introduction to business application programming, primarily in COBOL, including data representation, input-output, calculations, report setup, sorting, control breaks, update, and structured programming concepts/techniques. CAN CSCI 8

294 Business Computer Systems (4)
Computer system fundamentals; computer hardware and software concepts; programming in BASIC; introduction to microcomputer software.

Upper Division Courses

Upper division standing is prerequisite to enrollment in 300- and 400-level CIS courses.

301 Management Information Systems (4)
Prerequisites: CIS 294, ACCT 200AB. Organizational context of computer-based information systems; common business applications; information architecture; user role in systems development.

310 Software and Hardware Concepts (4)
Prerequisite: CIS 283. Technical topics related to computer systems including hardware architecture, operating systems, data communications, program translators, file management, data representation, and machine language.

316 Job Control Language (4)
Prerequisite: CIS 283. The IBM operating system control language-Job Control Language (JCL). Command language constructs, utility programs, linkage editor, and loader.

317 IBM Assembly Language (4)
Prerequisites: CIS 310, one programming course (COBOL, FORTRAN, Pascal, etc.). Basic input/output concepts; selected assembly language instructions for IBM mainframe computers; data set manipulation; system supervisor services; macros.

335 Advanced BASIC (4)
Prerequisite: CIS 294 or CS 290. Structured programming in BASIC. Sort, search techniques, built-in and user-defined functions: string manipulation, sequential direct and indexed-sequential file processing; business graphics; programming simulation and business examples.

383 Advanced Application Programming (4)
Prerequisite: CIS 283. Programming of complex, integrated business application systems; advanced language features such as table handling and subroutines; job control concepts.

407 Microcomputer Applications Development (4)
Prerequisite: CIS 301. Business applications development training using state-of-the-art microcomputer software such as Mathematics, Lotus 1-2-3, dBaseIV, Framework, and Procomm; emphasis on developing information systems in accounting, finance, production, management, and marketing.

413 Planning and Controlling the Automated Office (4)
Management functions as applied to the traditional and automated office environment along with an evaluation, implementation, control and adjustment of the office environment information system.

421 Human Resources in the Automated Office (4)
Prerequisite: CIS 413. Personnel supervision practices and policies in the office; selection, training, motivation, performance appraisal, job analysis, employee benefits, labor-management relations, impact of automation on employee.

442 Data Base Design (4)
Prerequisites: CIS 283, 301. The role of data base design in system development; entity relationship analysis; various constraints, including logical and physical system constraints; security considerations, role of system user; data base design examples.

450 Advanced Data Base Design (4)
Prerequisites: CIS 383, 442, 482. Role of the data base administrator; data modeling; implementing data base definition, processing, and recovery.
451 Data Base Design II (4)
Prerequisite: CIS 442. Mainframe data base analysis/programming; relational model and data definition and manipulation using IBM DBII and Structured Query Language (SQL); systems applications architecture contests; physical data structures and interface with COBOL/CICS.

452 Customer Information Control System (4)
Prerequisite: CIS 383. Introduction to CICS/VS command level with ANS COBOL including program concepts, transactions, tasks, creating maps, terminal input/output commands, and file maintenance.

454 Special Topics in Business Information Systems (1-4)
Prerequisite: Varies with topic; see Schedule of Classes for specific prerequisite. In-depth presentation and analysis of topics significant to contemporary business world; lectures, discussions, speakers, and research projects.

482 Systems Analysis Methods (4)
Prerequisite: CIS 283. Overview of systems development life cycle; emphasis on planning systems analysis and design activities; techniques and tools of system documentation and logical system specification; system development projects.

483 Advanced Information Systems Development (4)
Prerequisites: CIS 442, 482. Analysis, design, and specification of an information system using automated productivity tools and advanced systems development methodologies.

484 Communications Systems (4)
Prerequisite: CIS 294. Business data communications and local area network topics including data communications theory, communication hardware and software, microcomputers in communications, LANs, on-line services, electronic mail, and WANs.

486 Managing Information Systems Support (4)
Prerequisites: CIS 301, 482, MGMT 307. Effective techniques in managing data processing operations and information systems development.

487 Decision Support Systems (4)
Prerequisites: CIS 294; FIN 303; ECON 391 or MGMT 306. Computer-based decision analysis techniques and software packages; use of spreadsheet facilities, expert systems, optimization, and simulation techniques.

Courses in Economics (ECON)

Lower Division Courses

150 Economics for the Citizen (4)
Analysis of contemporary American economic problems; topics may include inflation, unemployment, costs and benefits of control of crime, and pollution. Not to be taken for credit by students with majors in the School of Business and Economics.

201 Principles of Economics I: Microeconomics (4)
Introduction to basic concepts and tools of aggregate economic analysis; prices and outputs, marketing structures, wages and profits; international trade and effects of tariffs. CAN ECON 4

202 Principles of Economics II: Macroeconomics (4)
Prerequisite: ECON 201. Concepts and tools of economic analysis; inflation, unemployment, balance of payments, national income; determinants of the level of economic activity; money and banking; the role of government. CAN ECON 2

209 Applied Business and Economic Statistics I (3)
Prerequisite: MATH 091 or satisfactory score on mathematics placement examination. Elementary business and economics statistics with computer applications; descriptive statistics, frequency distribution, probability, sampling distribution, estimation, and significance tests. Meets 5 hours weekly.

Upper Division Courses

Upper division status is prerequisite to enrollment in 300- and 400-level ECON courses.

303 Money, Banking, and the Economy (4)
Prerequisite: ECON 202. Nature and flow of money and credit; influence on prices, production, and employment; the Federal Reserve and banking systems; national income, and international monetary relations.

309 Applied Business and Economics Statistics II (3)
Prerequisites: ECON 209, MATH 242. Linear statistical models and nonparametric methods emphasizing applications in business and economics; linear regression and correlation, analysis of variance, index numbers and time series analysis, analysis of enumerative data, nonparametric statistics. Meets 5 hours weekly.

310 Economics of the Business Firm (4)
Prerequisites: ECON 202, MATH 242. Operation of a price system in a free enterprise economy; special emphasis on economic factors governing and influencing managerial decisions.

350 Economics of Poverty in the U.S. (4)
Prerequisite: ECON 150, 201, or 202. Concept and measurement of poverty; analysis of both economic causes and effects of poverty; policy implications and remedies.

390 Current Economic Problems (4)
Prerequisite: ECON 202. Analysis of significant problems of the day; role of government, incentives, groups with large market power, inflation, national debt, maintaining aggregate demand, poverty, balance of payments, and economic growth.

391 Quantitative Methods in Business and Economics (4)
Prerequisite: ECON 309. Introduction to optimization techniques used in business administration; elements of quantitative decision theory applied to business problems. Annuities with special application to cost of capital investment.

401 Mathematical Economics (4)
Prerequisites: ECON 303, 310. Introduction to use of mathematics in dealing with economic problems; emphasis on optimization under constraints, using tools of differential and integral calculus, matrix algebra, and linear and nonlinear programming.

403 Macroeconomics (4)
Prerequisites: MATH 242 or 206-207; ECON 303. Macroeconomic theory; determination of national income, theories of aggregate consumption, investment, unemployment, the price level; national income and product accounts; theory of growth.

405 Economics of Public Utilities and Regulation (4)
Prerequisite: ECON 310. Principles and techniques of government regulation of prices and product quality of privately held firms; problems of growth, pricing, demand, cost behavior, and financing of regulated industries.

410 Microeconomics (4)
Prerequisites: ECON 310, 401. Advanced microeconomic theory; economic analysis and evaluation of market system of resource allocation and income distribution.
412 Development of Economic Thought (4)
Prerequisite: ECON 202. Intellectual origins and evolution of modern economic thought.

414 Econometrics I (4)
Prerequisites: ECON 309, ECON 401. Use of statistics to measure economic relationships, test economic theories, and prepare forecasts. Emphasis on advanced regression techniques and data analysis; use of computer software.

415 Applied Economic and Business Forecasting (4)
Prerequisite: ECON 309. Forecasting methods using univariate-Jenkins, ARIMA, transfer functions, intervention analysis, single equation models, vector autoregressive models; forecast evaluations; emphasis on applications that use state-of-the-art computer software.

416 Econometrics II (4)
Prerequisite: ECON 414. Advanced topics in econometrics with a focus on multiple equation models and their application to business and economic analysis.

426 International Political Economy (4)
(also listed as POLS 426)
Prerequisites: Four units each of ECON and POLS. Interaction of politics and economics in the international arena.

430 Labor Economics (4)
Prerequisite: ECON 202. Use of labor resources in economic system; employment, wage rates, development of unions and collective bargaining; labor legislation.

433 Public Finance (4)
Prerequisite: ECON 202; 303 recommended. Economic role of government; principles of government taxation, borrowing, spending; their impact on households, enterprises, and the national economy.

435 Employment, Inflation, and Growth (4)
Prerequisite: ECON 303. Causes of inflation, slow economic growth, and unemployment in the national economy; policies and tools for anticipating and correcting these problems.

440 Urban and Regional Economics (4)
Prerequisite: ECON 201. Role of economic analysis in dealing with urban and regional problems; growth, land use, housing, transportation, and income distribution; emphasis on role of economic models in policy making.

454 Special Topics in Economics and Statistics
(1-4)
Prerequisite: Varies with topic; see Schedule of Classes for specific prerequisite. In-depth presentation and analysis of topics significant to contemporary business world; lectures, discussions, speakers, and research projects. May be repeated for 16 units as subject matter changes.

460 Economic Growth of Underdeveloped Areas (4)
Prerequisite: ECON 150 or 201 or 202. Overview of economic factors that influence development of today's low income countries; theories of development; problems with labor, capital, technology, and entrepreneurship; role of trade and international finance; government policy.

461 Principles of International Economics (4)
Prerequisite: ECON 202. Economic analysis of how and why commodities are traded among nations; tariffs and quotas; common market and other international institutions.

462 International Monetary Economics (4)
Prerequisite: ECON 202. International banking and financial markets, foreign exchange markets, economic adjustment mechanisms for balance of payments disequilibria, policies for internal and external balance, and the international monetary system.

471 American Economic History (4)
Prerequisite: ECON 150 or 201 or 202. Examination of sources and patterns of American economic development with emphasis on analysis of contemporary economic problems and policies in their historical setting.

472 Labor Relations and Collective Bargaining (4)
Prerequisite: ECON 202. Recommended corequisites: ECON 402. Relations between employers and employees as the latter are represented by organized labor; collective bargaining as it relates to recognition, wages, hours, working conditions, grievance procedure, seniority, and health and safety.

473 Labor Legislation (4)
Federal and state labor laws and policies; legislation protecting employees; regulation of labor management relations; social security; contemporary legal issues and problems.

480 Comparative Economic Systems (4)
Prerequisite: ECON 150 or 201 or 202. Comparison of economic systems including goals, degree of centralization, and underlying ideology; economies of various countries examined, including Soviet Union, Mainland China, U.S., and selected Third World nations.

490 Economic Issues and Policies (4)
Prerequisites: ECON 202; 303 or 390. Priorities, goals and economic issues; laissez-faire capitalism versus "welfare-state" capitalism, or the conservative-liberal argument; responsibility of groups with large market power, current economic issues.

491 Sampling Theory and Techniques in Research (4)
Prerequisite: ECON 309. Techniques for conducting quantitative research in business, economics and related fields through sampling; theory of sampling designs and methodology in framework of complete process for conducting a study.

499 Undergraduate Directed Study (1-4)
Prerequisites: Economics major, senior standing, and consent of an instructor to act as sponsor; ability to assume responsibility for independent work and to prepare oral and written reports. Project to be selected in conference with sponsor before registration; progress meetings held regularly. May be repeated for 20 units of credit.

Courses in Finance (FIN)

Lower Division Courses

203 Law for the Citizen (4)
Aspects of law affecting personal life; legal system, crimes, torts, contracts, vehicle ownership, home ownership, marriage, divorce, consumer law, employment, checks and promissory notes, and business organizations. Credit allowed for only one of FIN 203 and 205.

205 Foundations of Business Law (4)
Prerequisite: Sophomore standing. Development and functions of common law, mercantile law, and the courts; law contracts, agency, and sales. Credit allowed for only one of FIN 203 and 205.
Upper Division Courses

Upper division standing is prerequisite to enrollment in 300- and 400-level FIN courses.

303 Business Finance (4)
Prerequisite: ACCT 200B. Principles of planning, procuring, and controlling short and long-term financial resources of businesses; cash and capital budgeting; securities markets, costs of capital, and equity valuation.

305 Commercial Law (4)
Prerequisite: Four units of business law. Forms of business organization; partnerships, corporations; securities regulation, commercial paper, bankruptcy, legal responsibilities of accountants and business management.

330 Credits and Collections (4)
Business and social functions of credit, classifications of credit and credit instruments, investigation and analysis of credit risks, management and control of credit collection processes.

331 Financial Institutions and Markets (4)
Prerequisites: ECON 202, FIN 303. Characteristics, functions, and operations of financial institutions in money and capital markets; planning, procuring, and administering assets of banking and nonbanking financial institutions.

332 Investments (4)
Prerequisite: FIN 303. Investment, survey of corporate securities, basic risks of investment, individual and institutional programs, principles of investment analysis, and selection of stocks and bonds.

335 Risk Management and Insurance (4)
Insurance as an economic and business institution; survey of fire, casualty, and life insurance for those interested as potential consumers or for a career.

338 Real Estate Principles (4)
Economics of land ownership and use; fundamentals of ownership, financing, appraisal, management, and transfer of residential and other real property.

339 Real Estate Practice (4)
Prerequisite: FIN 338. Analysis of real estate contracts, agency and brokerage relationships, physical components of real estate, private ownership interests, documents of transfer, escrows, title insurance, recording, and professional licensing.

381 Real Estate Law (4)
Prerequisites: FIN 338, four units of business law. Legal aspects of real property ownership and management; emphasis on California law affecting escrows, contracts, licensing, brokerage, co-ownership, deeds, conveyances, trust deeds, mortgages, titles, encumbrances, estates in land, and leases.

403 Intermediate Business Finance (4)
Prerequisite: FIN 303. Intermediate business financial management emphasizing intensive treatment of valuation, capital asset management, financial structure, sources of funds, and working capital management; combines theory and applications.

425 Financial Software and Data Banks (4)
Prerequisites: FIN 303, CIS 294. Uses of financial data banks such as COMPUSTAT and Dow Jones News Retrieval; financial applications of computer software packages such as Lotus 1-2-3 and Javelin.

429 Estate Planning (4)
Prerequisites: FIN 205, 303. Planning, creating, conserving, and transferring individual wealth; case studies relating to investments, insurance, wills, probate, trusts, estate and gift tax, avoiding probate, and minimizing taxes.

430 Commercial Bank Administration (4)
Prerequisite: FIN 303. Case studies of organization, operation, and policies of commercial banks; sources and uses of bank funds; cash and reserve positions, securities and loan portfolios; Utilizes a simulation approach to bank management.

431 Multinational Financial Management (4)
Prerequisite: FIN 303. Application of principles of managerial finance to international and multinational business; analysis of risks and problems unique to businesses involved in transnational operations; international sources and uses of funds.

432 Real Estate Management (4)
Prerequisite: FIN 338. Management of real property as part of the real estate industry; nature, functions, scope of management principles, services, property care, tenant relations, and records.

434 Financial Management (4)
Prerequisites: FIN 303; ACCT 300 or 322. Case studies of problems in planning, procuring, and maintaining optimum distribution of financial resources of business organizations; applications of principles used to finance industrials, utilities, trading enterprises, and selected financial institutions.

435 Working Capital Management (4)
Prerequisite: ACCT 300, ECON 309, FIN 303. Decision-oriented, analytical approaches to problems and practices related to and arising in the course of financing and managing the acquisition, maintenance, and disposition of working capital assets.

436 Business Risk Management (4)
Negligence liabilities and related business risk problems; workers’ compensation, surety and fidelity, crime and peril, and their usefulness as tools of the business risk manager.

437 Securities Analysis (4)
Prerequisite: FIN 332. Investment practice in analysis of financial statements; selection and valuation of stocks and fixed-income securities, stockholder-management relations, applied securities analysis.

438 Real Estate Valuation (4)
Prerequisite: FIN 338. Valuation of real property; economic analysis of trends and factors influencing real estate ownership, development, and use; current appraisal theory.

439 Real Estate Finance (4)
Prerequisite: FIN 338. Position of real estate finance in the economy; techniques and procedures used to finance real property, including sources of funds, lending policies, and instruments used in California today.

440 Futures and Options (4)
Prerequisite: FIN 332. Market structures, trading techniques, pricing models, hedging strategies, and investment implications for various futures, option contracts, and derivative assets.

454 Special Topics in Finance (1-4)
Prerequisite: Varies with topic; see Schedule of Classes for specific requirement. In-depth presentation and analysis of topics significant to contemporary business world; lectures, discussions, speakers, and research projects.
480 International Business Law (4)
Prerequisite: Four units of business law. Legal issues that arise in international trade, licensing, and investment; national and international limitations that influence the movement of goods, labor, and technology.

492 Real Estate and Governmental Policy (4)
Prerequisite: FIN 338. Functioning of real estate industry within constraints and incentives of governmental policies; development and environmental regulations; income and property taxation; rent controls and housing for disadvantaged.

493 Real Estate Investment (4)
Prerequisite: FIN 338. Principles of investing in real estate; analytic techniques and economic strategies for maximizing after-tax returns from land, residential properties, shopping centers, and other real estate.

494 Financial Management for Small Business (4)
Prerequisites: ACCT 300, FIN 303. Principles and practices of financial management for small business; analytic techniques and financial strategies for financing and managing the resources of small businesses efficiently and profitably.

Courses in Management (MGMT)

Upper Division Courses

Upper division standing is prerequisite to enrollment in 300- and 400-level MGMT courses.

301 Business Communications (4)
Prerequisites: ENGL 102,* UNIV 400, satisfactory completion of the Graduation Writing Assessment Requirement (GWAR).
Principles of business communication; emphasis on clear and correct written communication as a tool for business decision-making.

306 Production and Operations Management (4)
Prerequisites: ECON 209, MATH 242. Analysis and applications of concepts and techniques of the quantitative approach, systems analysis, and operations analysis to managerial functions, with emphasis on production.

307 Management and Organizational Behavior (4)
Analysis of management process with emphasis on business environment; interpersonal and intergroup processes and relationships in organizations.

308 Business Responsibilities in Society (4)
Introduction to the business person’s responsibilities and obligations in contemporary society; principles and problem-solving techniques related to major social problems confronting business organizations.

401 Business Research and Report Writing (4)
Prerequisites: ENGL 102,* senior or graduate standing. Reports in business, education, and government; emphasis on collecting data and developing findings, conclusions, and recommendations. Students conduct research and write a report in an area of interest.

*Students subject to earlier catalogs satisfy this prerequisite with ENGL 101 or 190.

454 Special Topics in Management (1-4)
Prerequisite: Varies with topic; see Schedule of Classes for specific requirement. In-depth presentation and analysis of topics significant to contemporary business world; lectures, discussions, speakers, and research projects.

459 Women in Management (4)
Prerequisite: MGMT 307. Environmental, organizational, interpersonal, and individual factors that induce or inhibit the introduction and growth of women in management; impact of changing status on organizational, professional, and personal effectiveness.

460 Case Studies in Production and Operations Management (4)
Prerequisite: MGMT 306. Undergraduate seminar that analyzes factory management, including such topics as industrial standards, schematic and quantitative models, production management and control, programming aggregate rates of production, inventory control, and production scheduling.

461 Management Theory and Practice (4)
Prerequisite: MGMT 307. Undergraduate seminar covering development of theory of management through analysis and integration of fundamental relationships and principles; current and past practices analyzed in planning, organizing, directing, and controlling.

462 Comparative Management (4)
Prerequisite: Senior or graduate standing. Identification and analysis of management systems in differing national, functional, or institutional settings; impact of economic, social, political, and cultural variables on management systems; universality of management principles.

463 Process Design & Improvement (4)
Prerequisite: MGMT 306 or instructor’s consent. Operations Management issues related to the utilization of physical, human resource, technological and other interlocking factors in determining and improving the ways of organizing and doing work in manufacturing and service companies.

464 Production and Inventory Management (4)
Prerequisite: MGMT 306. Design of information and decision systems for allocating resources and scheduling activities; development of conceptual structures guiding integrated production and inventory systems in manufacturing environments; introduction of computerized MRP systems.

465 Purchasing Management (4)
Prerequisite: MGMT 306. Analysis and application of purchasing principles and procedures; organization of purchasing departments and relation to other departments: criteria for make-or-buy; supplier selection; quality, value, and cost analysis; supplier negotiations.

466 Managerial Innovation (4)
Prerequisite: MGMT 307. Intensive investigation of managerial innovation through analysis of cases; determinants, strategies, and impact of invention, adoption and implementation of new techniques and approaches in managing organizations.

467 Quality Control (4)
Prerequisite: ECON 309. Control of quality of manufactured products by statistical methods; control charts for variables, fraction defective, defects per unit; acceptance sampling; single, double, and multiple sampling methods; sampling tables.

468 Small Business Management (4)
Prerequisite: Majority of core courses. Use of case study method to investigate and analyze problems related to plant location, labor relations, organization control, finances, taxation, and others of interest to small business entrepreneur.
469 Managing Human Resource Development (4)
Principles, methods, and procedures for orienting, inducting, designing skill-building programs for training and educating/developing employees at all levels of business, governmental, and third sector organizations.

470 Managerial Leadership and Motivation (4)
Prerequisite: MGMT 307 or NURS 488. Nature, resources, strategies, and models of complex organizations; case analyses of process of managerial leadership, motivation, interpersonal relationships in work groups; impact on organizational effectiveness.

471 Managing Positive Employment Relations (4)
Prerequisite: MGMT 473. Principles, methods, and processes for creating and managing positive relationships with individual employees at all levels of an organization, and with employees who are members of labor organizations (union or nonunion).

472 Health Care Marketing Management (4)
Prerequisite: Senior or graduate standing. Methods used by health care providers to forecast needs for specific health services in their communities; hospital marketing strategies and cases; special problems and issues in marketing health care services.

473 Personnel Management (4)
Prerequisite: MGMT 307. Principles, methods, and procedures in effective utilization of human resources; development and objectives of personnel management, labor budgeting, job analysis, recruitment, selection, placement, training, wage and salary administration, and working conditions.

474 Compensation Management (4)
Prerequisite: MGMT 473. Theory and practices of wage and salary administration: job analysis and preparation of job descriptions, use of job evaluation scales, establishment of pay systems, performance appraisal, and additional compensation techniques.

475 Cases in Personnel Management (4)
Prerequisite: MGMT 473; courses in psychology, sociology, and labor economics recommended. Application of principles and methods of personnel management to specific cases, with view to developing proficiency in dealing with issues in personnel procurement, development, compensation, integration, and maintenance.

476 Personnel Interviewing (4)
Prerequisite: MGMT 473. Employment and evaluation interviews as management tools; analysis of interviewing process, including validity and reliability, legal and social constraints, and decision-making process.

477 Managing the Staffing Function (4)
Prerequisite: MGMT 473. Staffing as a human resources management function; analysis of staffing process, including planning, recruitment, and final selection decision, with particular attention given to legal, social, and organizational constraints.

478 Financial Management of Health Care Institutions (4)
Financial management decision-making in health care institutions with emphasis on techniques of budget development.

479 Seminar: Business in Its Social Setting (4)
Prerequisite: MGMT 308 or graduate standing. Analytical interdisciplinary investigation of evolution and contemporary status of business relative to changing dynamic forces: social, political, legal, and economic.

480 Managerial Issues of Automation (4)
Prerequisite: MGMT 306 or instructor's consent. Managerial issues dealing with automated systems in both manufacturing and service organizations. Productivity, effectiveness, and feasibility of automated processes with emphasis on how management, unions, and labor should handle them.

485 Project Management (4)
Project management theories for planning and controlling resources to accomplish complex projects; case analyses from business and nonprofit organizations; exercises with selected project management software.

496 Operations Research (4)
Prerequisite: MGMT 306. Evaluation and application of operations research methods as a tool for management decision-making.

497 Integrated Decision Making in Business (4)
Prerequisite: Business core requirements. Integrates business knowledge developed in core courses; provides interdisciplinary exposure to complex executive decisions in business, including conditions of uncertainty.

Courses in Marketing (MKT)

Upper Division Courses

Upper division standing is prerequisite to enrollment in 300- and 400-level MKT courses

304 Principles of Marketing (4)
Product planning, pricing, distribution, and promotion of goods and services; market research, consumer behavior, international business, and the industrial market.

340 Principles of Advertising (4)
Prerequisite: MKT 304. Marketing and economic functions of advertising; survey of roles played by clients, agencies, advertising departments, media, and auxiliary organizations in field.

341 Salesmanship (4)
Prerequisite: MKT 304. Fundamentals of selling and sales management; concentration on sales techniques with student presentations of critiques and analyses; procedures for selection, training, compensation, and supervision of sales personnel.

342 Consumer Behavior (4)
Prerequisite: MKT 304. Reactions of consumer to promotional activities of retailers; concepts of consumer strategy and tactics; importance of product image, brand, package influence, and store image in influencing consumer purchases.

344 Principles of Retailing (4)
Structure of retailing industry; retailing trends; retail store organization; understanding retail consumers; store location, design, and layout; basic fundamentals of operating a retail business: retail controls and evaluation.

345 Marketing Channels (4)
Prerequisite: MKT 304. Marketing channels, their development, structure, and operation; transactional and physical distribution by manufacturers, wholesalers, and retailers as parts of total marketing system.

346 Marketing of Services (4)
Prerequisite: MKT 304. Marketing of services including promotion and pricing practices and strategies; practices of franchising and specific services sectors.
349 Retail Merchandising and Sales Promotion (4)
Prerequisite: MKT 304. Analysis of merchandising and sales promotion functions performed by retailers; covers market segmentation, merchandising policies, budgeting, buying, inventory management, and pricing; emphasis on retail promotional planning, implementation, and evaluation.

350 Introduction to Transportation (4)
Importance of water, railway, highway, air, and pipeline transport modes in modern economy; carrier management, government participation, and use of energy in transportation systems.

352 World Air Transportation (4)
Prerequisite: MKT 304. Role of domestic, international, and foreign airlines in moving people and goods; history, operations, and marketing; students analyze airline case studies and related materials concerned with identifying and satisfying air travel market.

358 International Business (4)
Business conducted within a world environment; transactions comprising international business; institutional setting abroad; scope of managerial decision-making in international business operations.

440 Advanced Advertising and Promotion (4)
Prerequisite: MKT 340. In-depth review of advertising and promotion management; emphasis on strategic decision-making through case study analyses; supplemental topic areas include sales promotion, agency/client relations, and measurement/evaluation techniques.

441 Industrial Marketing (4)
Prerequisite: MKT 304. Analysis of various types of industrial goods and markets for them, including government agencies; product planning; marketing research; determination of marketing channels; pricing policies; sales promotion; and cost distribution.

442 Marketing Management (4)
Prerequisite: MKT 304. Intensive study of marketing management, with emphasis on marketing environment; development of marketing strategies and formulation of policies; integration of marketing with other functional areas of business through case studies.

443 Marketing in a New Business (4)
Prerequisite: MKT 304. Introduction of a new business or product concept into marketplace; emphasis on small business marketing entrepreneurship.

445 Public Relations Methods for Business (4)
Prerequisite: MKT 304. Public relations policies and techniques for business enterprises; development of good relationships with customer, employee, stockholder, government, and general public. Role of research, publicity, and mass media in public relations.

446 Marketing Research (4)
Prerequisites: MKT 304, ECON 209. Marketing research functions and procedures utilized in measuring and analyzing environmental factors in consumer demand, sales efficiency, effectiveness of promotional programs, and effects of competitor's strategies; methods of product distribution and pricing research. Projects emphasize current marketing research techniques.

447 Business Consulting (4)
Prerequisite: Majority of upper division core courses. Analytic, administrative, and communicative aspects of consulting and counseling processes; application of functional knowledge and skills to consultation.

448 Mail Order/Direct Response Marketing (4)
Prerequisite: MKT 304. The growing direct marketing industry: catalogs, direct mail, broadcast and print media, and telemarketing; strategic applications in marketing/promotions plans of existing and entrepreneurship business situations.

452 Physical Distribution Management (4)
Prerequisite: MKT 304. Cases and problems in logistics to show how distribution manager uses systems concept and cost tradeoffs in procuring transportation, storage, and optimum inventory for business firm.

453 Marketing for Nonprofit Organizations (4)
Prerequisite: MKT 304. Relationship of marketing principles and marketing analyses to performance of nonprofit institutions in U.S. economy by use of case studies.

454 Special Topics in Marketing (1-4)
Prerequisite: Varies with topics; see Schedule of Classes for specific requirement. In-depth presentation and analysis of topics significant to contemporary business world; lectures, discussions, speakers, and research projects.

455 Proseminar: International Transportation (4)
Prerequisite: MKT 304. Use of ocean vessels, air transport, intermodal carriers, and foreign freight forwarders to move goods in our import/export trade; discussions of multimodal concept, documentation, and marine insurance.

456 International Marketing Management (4)
Prerequisite: MKT 304. International marketing operations: product policies, pricing, advertising, distributional channels, marketing research; factors governing the decision to engage in foreign transactions. In-depth market studies.

457 Import-Export (4)
Prerequisite: MKT 358. Import-export operations: organization, regulation, terms of access, documentation, shipment and financing involved with international movement of merchandise; trade patterns by countries and commodities.

459 Intercultural Business Communication (4)
(Also listed as SPCH 459)
Prerequisite: MGMT 301 or SPCH 300. Analytical approach to understanding cultures in order to do business effectively. Steps in achieving intercultural communication competence, framework for understanding cultures, nonverbal communication, document organization from cultural priorities, and negotiation.

The Charter School of Education offers programs leading to the Bachelor of Science degree in Rehabilitation Services, certification for specified fields of professional employment in California public schools, and the advanced degrees of Master of Arts in Education, Master of Arts in Educational Administration, Master of Arts in Special Education, Master of Arts in Teaching English to Speakers of Other Languages (TESOL), and Master of Science in Counseling. A Doctor of Philosophy degree in Special Education is offered jointly with the University of California, Los Angeles.

Graduate degree, advanced credential, and graduate level certificate programs are described in the Graduate Programs section.

Accreditation
The Charter School of Education is nationally accredited by the National Council for Accreditation of Teacher Education (NCATE). All credential programs are approved by the California Commission on Teacher Credentialing.

Admission to Programs
Admission to the University does not automatically admit students to credential or postbaccalaureate study in the Charter School of Education. Formal application is required for admission to a specific degree or credential program. Applications for all degree and credential programs must be filed with the Charter School of Education Student Services Office.

Credential Programs
University programs have been approved for the following credential and areas of specialization.

• Teaching Credentials:
  • Multiple Subject CLAD/BCLAD
  • Single Subject CLAD/BCLAD

Specialist Credentials:
• Mild/Moderate Disabilities*
• Moderate/Severe Disabilities*
• Physical and Health Impairments*
• Visual Impairments*
• Early Childhood Special Education*
• Reading/Language Arts
• Adapted Physical Education

Services Credentials:
• Administrative Services (Preliminary and Professional)
• Clinical-Rehabilitation Services (Audiology, Language, Speech and Hearing (with Special Class Authorization), Orientation and Mobility)
• Health Services (School Nurse)
• Pupil Personnel Services (School Counseling and Child Welfare and Attendance, School Psychology and Child Welfare and Attendance, School Psychology)

Because credential programs described in this publication are subject to change without notice, students are urged to seek current information concerning new credential requirements from the appropriate division in the Charter School of Education.

Candidates seeking additional authorization on prior credentials must seek advisement from the appropriate division about applicability of current courses to those requirements. Advisement of students working toward a credential is provided by both their major department and each of the Charter School of Education Divisions. General information about the Charter School of Education programs is available in the Office of Student Services, King Hall D2078.

Recommendation for teaching credentials is contingent upon satisfaction of all requirements specified in each area.

*Note! Under the new credential structure, these are now basic teaching credentials.
ADMINISTRATION AND COUNSELING

Charter School of Education

DIVISION OFFICE
King Hall C1065
Phone: (213) 343-4250

The Faculty

Professors: Randy V. Campbell, Raymond E. Hillis (Chair), George K. Hong, Ruth S. Johnson, Sharon Kay Johnson, Randall B. Lindsey, G. Roy Mayer, Lynda K. Mitchell, J. Alex Pulido, Marcel Soriano, Hershel Swinger.

Associate Professors: Martin G. Brodwin, Michael J. Carter, Pauline Mercado, Edward Negrete, Jr.,

Assistant Professors: Margaret Garcia, Lori Yoonkung Kim.

Program advisement provided for:
- Administration and supervision programs for master’s degrees and credentials
- Counseling and School Psychology programs for master’s degree, credentials, and state license
- B.S. degree in Rehabilitation Services

Bachelor of Science Degree in Rehabilitation Services

The Bachelor of Science degree in Rehabilitation Services specializes in preparing students to work in a variety of occupational settings. In these settings, they will advance the independence, integration, and full participation of individuals with rehabilitation needs in the workforce and the community.

Advisement

Rehabilitation Services majors must select their adviser by the end of the first quarter of their junior year to draw up an official degree program.

Requirements for the Major (93-103 units)

The degree requires a total of 186 units of which 93-103 are in the major. The major includes 14 lower division and 63-64 upper division required units plus 16-25 units of electives.

Lower Division Required Courses (14 units)
COUN 200AB Introduction to Rehabilitation Services (3, 3)
PSY 150 Introductory Psychology (4)
SOC 201 Principles of Sociology (4)

Upper Division Required Courses (63-64 units)
COUN 405AB Theoretical and Developmental Aspects of Behavior (4, 4)
COUN 406 Behavioral Counseling and Self-Management (4)
COUN 428 Measurement Issues in Counseling (4)
COUN 442 Medical Factors in Rehabilitation (3)
COUN 445 Developmental Self-Exploration (2)
COUN 448 Career Counseling for Adults (4)
COUN 449 Job Development and Work Evaluation (4)
COUN 450 Counseling Theories (3)
COUN 494 Seminar: Rehabilitation Services (3, 3)
COUN 495 Field Work in Rehabilitation Services (3, 3, 3)
EDFN 452 Statistics in Education (4) or
PSY 302 Statistical Methods in Psychology (5)
EDSP 400 Foundations of Special Education (4)
SOC 301 Writing for Sociology (4)
HS 456 Health Studies in Alcohol, Narcotics, Nutrition, and Tobacco (4)

Electives in Related Fields (16-25 units):
Select upper division courses as electives from the following departments: COUN, EDSP, HS, PSY, SOC and SW; with adviser approval.

Courses offered in:
- Counseling (COUN)
- Educational Administration (EDAD)

EDUCATIONAL ADMINISTRATION. Educational Administration programs include the Master of Arts degree in Educational Administration and the Preliminary and Professional Administrative Services credentials. The credential program is approved by the Commission on Teacher Credentialing. These programs are described in the Graduate Programs section.

COUNSELOR EDUCATION. Counselor Education programs include the Bachelor of Science degree in Rehabilitation Services and the Master of Science degree in Counseling with specialized options. The master’s degree and various credential and certificate programs are described in the Graduate Programs section.
CURRICULUM AND INSTRUCTION

Charter School of Education

DIVISION OFFICE
King Hall C2097
Phone: (213) 343-4350

The Faculty

Assistant Professors: Candace Kaye, Rosario Morales.

Program advisement provided for.
- Early Childhood Education
- M.A. degree options:
  - Elementary Teaching
  - Secondary Teaching
- Multiple Subject CLAD/BCLAD credential (including intern options)
- Reading/Language Arts Specialist
- Single Subject CLAD/BCLAD Credential (and intern option)

Courses offered in:
- Curriculum and Instruction (EDCI)
- Elementary Education (EDEL)
- Secondary Education (EDSE)

Admission to Credential Programs

(General Information)

Admission Requirements for Multiple Subject and Single Subject Credential Programs

Under current laws and regulations, the California Commission on Teacher Credentialing initially issues a credential, permit, or certification, or renewal of an emergency credential, only to persons to serve in the public schools who have demonstrated proficiency in basic reading, writing, and mathematics skills in the English language. The Superintendents of Public Instruction has adopted the California Basic Educational Skills Test (CBEST) as the state assessment instrument to measure teacher proficiency in the basic skills. Further information is available at the Charter School of Education Office of Student Services, KH D2078.

Admission requirements are based on Title 5, California Code of Regulations, and University regulations. Students seeking admission to Cal State L.A. teaching credential programs must enroll in EDCI 300AB, The Teaching Profession: Education as a Career and Learners and Teachers in a Cultural Setting. Requirements for preliminary admission to credential programs include the following.

- Complete application form.
- Record of oral interview with faculty adviser and completion of Program Planning Sheet (signed by adviser).
- Verification of academic eligibility, as evidenced by a grade point average at or above the median of undergraduate students in the candidate’s academic major but in no case lower than 2.5. The grade point average is based on the cumulative work attempted at all campuses.
- Verification of negative TB test (taken within the last year) by a personal physician or at the Cal State L.A. Health Center.
- Verification of completion of PSY 150.
- Verification of having applied for the Certificate of Clearance.
- Successful completion of a supervised field experience.
- A written personal history that includes a statement of professional goals and educational philosophy.
- Transcripts and letters of reference received and evaluated.

Students must complete all requirements to receive credit in EDCI 300AB.

Completion of Admission Requirements. Students must satisfy the following criteria before registering for any restricted courses.

- Minimum C grade in SPCH 150 or passing score on Cal State L.A. Speech Proficiency Evaluation.
- Pass UNIV 400, the Writing Proficiency Examination (WPE), or acceptable alternative by petition.
- Verification of having taken the CBEST. (Students who have not passed the CBEST prior to entry into the credential program must have an approved plan of remediation on file with the Office of Student Services in the Charter School of Education.)

Students are formally admitted to the teaching credential program upon completion of requirements stated above.

Admission Requirements for Multiple Subject CLAD/BCLAD and Single Subject CLAD/BCLAD Internship Credential Programs

- Employment or commitment by a school district to employ the individual as a full-time teacher.
- Completion of all requirements previously developed for admission to Preliminary Credential Programs.

Admission Requirements for Professional, Clear Multiple Subject CLAD/BCLAD and Single Subject CLAD/BCLAD Credential Programs

(for transfer students who hold a preliminary credential)

Students who complete the preliminary credential at Cal State L.A. may continue the study toward the professional clear credential without additional application to the Charter School of Education. Transfer students must meet the following requirements. State of California teaching credential requirements include a fifth year of study completed after the baccalaureate. Students may elect to complete all or part of their professional requirements in the fifth year and must follow a planned course of study approved by their
adviser. In some instances, courses that are taken as part of a master’s degree program may also count toward completion of the fifth year credential requirement. All students who desire University recommendation for completion of the clear credential must be formally admitted to the University and satisfy any writing or speech requirements pertaining to all postbaccalaureate students.

- Apply to the Charter School of Education Office of Student Services.
- Provide a copy of your valid Multiple Subject CLAD/BCLAD or Single Subject CLAD/BCLAD credential.
- Verify a minimum 2.5 overall grade point average (in the last 90 quarter units attempted for your bachelor’s degree or in 14 quarter units taken after completion of your bachelor's degree).
- See an adviser for oral interview and to plan credential program.
- Provide official transcripts of all college/university work to the Charter School of Education Office of Student Services.
- Pass UNIV 400, the Writing Proficiency Examination (WPE), or acceptable alternative by petition.

Directed Teaching Information

Directed teaching is one of the most important phases of teacher education at Cal State L.A. Candidates are not automatically admitted to directed teaching by completion of course work alone; they must fulfill the following criteria.

- Formal admission to the teaching credential program.
- Attendance at directed teaching orientation meeting by first week of quarter preceding the assignment.
- Application for directed teaching by application deadline (Wednesday of second week of quarter preceding the assignment).
- Submit verification of completion of a Commission-approved Multiple Subject matter program (for Multiple Subject credentials) or Single Subject matter program (for Single Subject credentials) or passing score on MSAT or PRAXIS/SSAT Series Subject Assessments and recommendation of subject-area department. Approved Multiple Subject and Single Subject matter programs are listed in the Undergraduate Study chapter of this catalog.
- Provide transcripts or grade reports verifying completion of at least 12 units at Cal State L.A. and all prerequisite courses. A minimum grade point average of B (3.0) and grades of C or higher are required in all professional education courses.
- Submit verification of passing scores on all sections of CBEST.
- Present a Certificate of Clearance or a valid State of California credential at Office of Student Services, KH D2078.
- Submit verification of negative TB test taken within one year before completion of directed teaching by a personal physician or at Cal State L.A. Health Center.
- Register for directed teaching or demonstration of competencies as appropriate.
- Applicants for multiple subject directed teaching must show proficiency in art, music, and physical education, either by examination or completion of appropriate courses. New transfer students must complete at least one curriculum course at Cal State L.A.
- Applicants completing an area of specialization in special education must be approved by the Division of Special Education.

Students who meet all of the above criteria and who have completed the prerequisite course work will be approved for directed teaching. Because of the amount of time and work required for directed teaching, students are advised to restrict the number of units in their program and curtail their out-of-school workload for the duration of such assignments.

Supplementary Authorizations

Holders of a Single Subject CLAD/BCLAD or Multiple Subject CLAD/BCLAD credential issued by the state of California may add a supplemental authorization to teach in another discipline by completing additional course work. Interested students should consult the Charter School of Education Office of Student Services for further information.

Application Procedure for the Preliminary or Professional Clear Credential

By the end of the fifth week of your final quarter of credential course work, submit an application for the credential in the Office of Student Services, King Hall D2078.

ELEMENTARY EDUCATION PROGRAMS

Elementary Education programs include courses appropriate for preservice and inservice preparation of teachers in the elementary grades and directed teaching for candidates for the teaching credential with authorization in multiple subject instruction. The Master of Arts degree is described in the Graduate Programs section.

Multiple Subject CLAD/BCLAD Credential

The teaching credential with authorization in multiple subject instruction qualifies holders to teach in any self-contained classroom, preschool or kindergarten, grades 1 through 12, or in classes organized primarily for adults.

Requirements for Preliminary Credentials

Applicants must satisfy the following criteria to qualify for the University-recommended credential:

- A bachelor’s degree from a regionally accredited college or university.
- Passing score on CBEST.
- Formal admission to credential program including fulfilling all EDCI 300AB requirements; complete professional education requirements listed below. See Admission to Credential Programs and Directed Teaching Information earlier in this chapter.
- Verification of completion of a Commission-approved Multiple Subject matter program (see listings in Undergraduate Study chapter, or passing score on Multiple Subject Assessment for Teachers (MSAT), and verification of subject matter competence by subject-area department.
- Pass UNIV 400, the Writing Proficiency Examination (WPE), or acceptable alternative by petition
- Minimum C grade in MATH 120.
- Fulfillment of U.S. Constitution requirement.

Professional Education Requirements (45 units)

EDEL 400 or 400S* Proseminar: Curriculum and Teaching of Reading/Language Arts (4)

**EDEL 401 or 400S* Proseminar: Curriculum and Teaching of Mathematics (3)

**EDEL 402 or 402S* Proseminar: Curriculum and Teaching of Social Science and Science (4)

EDEL 403 Directed Teaching I: Multiple Subject (12)

EDEL 404 Directed Teaching II: Multiple Subject (12)

**EDEL 405 Proseminar: Language Development In the Elementary Classroom (3)

EDFN 413 Psychological Foundations of Education (4)

EDFN 414 Social Foundations of Education (3)
Additional Requirements:

Students must demonstrate competence in art, music, and physical education for elementary school, either through proficiency examinations or by successful completion of the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>ART 400</td>
<td>Development of Literacy in Visual Arts</td>
<td>4</td>
</tr>
<tr>
<td>MUS 400</td>
<td>Development of Perception in Musical Arts</td>
<td>4</td>
</tr>
<tr>
<td>PE 420</td>
<td>Movement Experiences in Growth and Development</td>
<td>3</td>
</tr>
</tbody>
</table>

Additional requirements for CLAD emphasis candidates must consult an adviser regarding the language requirement.

Preliminary Multiple Subject Credential with BCLAD Emphasis

The BCLAD emphasis qualifies holders to teach in bilingual Spanish self-contained classrooms at preschool, kindergarten, and grade 1 to 12 levels or in classes organized primarily for adults. In addition to requirements for the Multiple Subject BCLAD credential, candidates must fulfill the following requirements:

Additional requirements for CLAD emphasis:

- 9 units of foreign language or equivalent

Additional requirements for BCLAD emphasis:

- Must substitute EDEL 400S, 401S, and 402S for EDEL 400, 401, and 402
- Foreign Language Proficiency Examination (FL 902)
- Culture Test
- Demonstrate spoken and written fluency in Spanish
- Demonstrate knowledge of and sensitivity to the culture of Chicano, children.

Students who select BCLAD emphasis are required to enroll in special sections of the following curriculum and methods courses in elementary education.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>EDEL 400S</td>
<td>Proseminar: Curriculum and Teaching of Reading/Language Arts</td>

<td>Proseminar: Curriculum and Teaching of Mathematics</td>
<td>3</td>
</tr>
<tr>
<td>EDEL 402S</td>
<td>Proseminar: Curriculum and Teaching of Social Science and Science</td>
<td>4</td>
</tr>
</tbody>
</table>

Emphasis in these courses is given to meeting the special needs of Spanish bilingual children. Students must complete at least one directed teaching assignment in this option in a bilingual/bicultural classroom.

Requirements for Professional Clear Multiple Subject CLAD/BCLAD Credential

Applicants must fulfill the following requirements to qualify for the University-recommended credential:

- Satisfy the mainstream of students with disabilities requirement by completing EDSP 400.
- Satisfy the state requirement for knowledge of computers and their uses in education by completing EDIT430 or an appropriate introductory computer course (CS 160) plus EDIT 447.
- Every applicant for the initial clear Multiple or Single Subject CLAD/BCLAD Credential or initial clear Designated Subject Teaching Credential must complete approved level B training in Cardiopulmonary Resuscitation (CPR).

Internship Credential Requirements

The internship credential program is designed for individuals who are employed as full-time teachers by cooperating school districts, have fulfilled all district and University prerequisites, and have been recommended by the district. The credential is issued for a two-year period during which candidates must fulfill all requirements for the preliminary or professional clear credential.

Requirements for the Preliminary Internship Credential

Applicants must satisfy the following criteria to qualify for the University-recommended internship credential:

- A bachelor’s degree from a regionally accredited college or university.
- Job offer from a cooperating school district.
- Passing score on the CBEST.
- Formal admission to credential program including completing EDCI 300AB requirements; complete professional education requirements given below. See Admission to Credential Programs and Directed Teaching Information earlier in this chapter.
- Verification of completion of a Commission-approved Multiple Subject matter program (see listings in Undergraduate Study chapter) or passing score on the Multiple Subject Assessment for Teachers (MSAT) and verification of subject matter competence by subject area department (i.e., department of student undergraduate major.)
- Pass UNIV 400, the Writing Proficiency Examination (WPE, or acceptable alternative by petition.
- Satisfy the U.S. Constitution requirement.
- Minimum C grade in MATH 120.

Cardiopulmonary Resuscitation (CPR) training

SECONDARY EDUCATION PROGRAMS
The Secondary Education programs include courses appropriate for preservice and inservice teacher preparation in middle schools, junior high schools, senior high schools. The Master of Arts degree is described in the Graduate Programs section.

Sing/e Subject CLAD/BCLAD Credential (Secondary Teaching)
The teaching credential with authorization in single subject instruction qualifies holders to teach in their authorized field at any grade level, preschool, kindergarten, and grades 1 through 12, or in classes organized primarily for adults. Eleven categories of single subject instruction are defined by state legislation as follows: agriculture, art, business, English, health science, industrial and technological education, languages (including, but not limited to, Chinese, French, German, Russian, and Spanish), life science, mathematics, music, physical education, and social science.

Students considering pursuing a Single Subject CLAD/BCLAD credential are urged to obtain advisement at the start of the program from faculty advisers in their academic area and in Secondary Education. Candidates may enroll in programs leading to the preliminary/clear or the internship credential (see an adviser about admission requirements and enrollment limitations).

Requirements for the Preliminary Single Subject CLAD/BCLAD Credential
Applicants must satisfy the following criteria to qualify for the University-recommended credential:
- A bachelor's degree from a regionally accredited college or university.
- Passing score on CBEST.
- Formal admission to credential program including completing EDCI 300AB requirements; complete professional education requirements given below. See Admission to Credential Program and Directed Teaching Information earlier in this chapter.
- Verification of completion of a Commission-approved Single Subject matter program (see listings in Undergraduate Study chapter) or passing score on CTC-approved subject matter assessments, and verification of subject matter competence by subject-area department (i.e., department of students undergraduate major).
- Pass UNIV 400, the Writing Proficiency Examination (WPE, or acceptable alternative by petition.
- Fulfill the U.S. Constitution requirement.

Professional Education Requirements (47 units)
EDFN 413 Psychological Foundations of Education (4)
EDFN 414 Social Foundations of Education (3)
EDSE 401 or 401S* Instructional Strategies: Secondary Teaching (4)
EDSE 415 Classroom Management in Secondary Schools (4)
***EDSE 421 Special Instructional Methods in Secondary School Subjects (3)

**EDSE 430 Using ESL Techniques in the Content Areas (3)
EDSE 442AB Directed Teaching in Secondary Schools (11, 11) or
EDSE 489 Demonstration of Instructional Competencies (11, 11)
* denotes course work in English/Spanish
** must be taken concurrently with EDSE 441, 442 or 489
*** restricted courses—require completion of EDCI 300AB

Additional requirements for CLAD Emphasis
- 9 units of foreign language or equivalent

Additional requirements for BCLAD Emphasis
- Must substitute EDSE 401S and 423S for EDSE 401 and 423
- Foreign Language Proficiency Examination (FL 902)
- Culture Test

Requirements for Professional Clear Single Subject CLAD/BCLAD Credential
Applicants must satisfy the following criteria to qualify for the University-recommended credential:
- Requirements for the preliminary credential.
- Requirements for admission to fifth year, clear credential program.
- Minimum of 45 units in postbaccalaureate study approved by an adviser, including at least 16 units in residence and a maximum of 9 units in approved extension courses.
- Satisfy the state requirement for knowledge of computers and their uses in education by completing EDIT430 or an appropriate introductory computer course (CS 160) plus EDIT 447.
- State requirement for course work in reading and in health education (including nutrition and the study of physiological and sociological effects of use of dangerous drugs, narcotics, alcohol, and tobacco).
- Mainstream of students with disabilities requirement (EDSP 400).
- Every applicant for the initial clear Multiple or Single Subject CLAD/BCLAD Credential or initial clear Designated Subject Teaching Credential must complete approved level B training in Cardiopulmonary Resuscitation (CPR).

Internship Credential Requirements
The internship credential program is designed for individuals who are employed as full-time teachers by cooperating school districts, who have fulfilled all district and University prerequisites, and who have been recommended by the district. The credential is used for a two-year period. During that time, candidates must fulfill all requirements for the preliminary or professional clear credential.
Applicants must satisfy the following criteria to qualify for the University-recommended internship credential.

- A bachelor’s degree from a regionally accredited college or university.
- Job offer from a cooperating school district.
- Passing score on CBEST.
- Formal admission to credential program including completing EDCI 300AB requirements; complete professional education requirements given below. See Admission to Credential Programs and Directed Teaching earlier in this chapter.
- Verification of completion of a Commission-approved Single Subject matter program (see listings in Undergraduate Study chapter) or passing score on CTC approved subject assessments and verification of subject matter competence by subject-area department (i.e., department of students undergraduate major).
- Satisfy the U.S. Constitution requirement.
- Pass UNIV 400, the Writing Proficiency Examination (WPE), or acceptable alternative by petition.

NOTE: Students who are enrolled in the Internship Credential program are encouraged to enroll concurrently in the M.A. degree program in Education, Middle and Secondary Curriculum and Instruction option. See a faculty adviser about additional requirements.

Supplementary Authorizations

Holders of a Single Subject or Multiple Subject CLAD/BCLAD credential issued by the state of California may add a supplemental authorization to teach in another discipline by completing additional course work. Interested students should consult the Charter School of Education Office of Student Services for further information.
EDUCATIONAL FOUNDATIONS AND INTERDIVISIONAL STUDIES

Charter School of Education

DIVISION OFFICE
King Hall C2098
Phone: (213) 343-4330

The Faculty

Professors: Kathryn L. Alesandrini, Webster E. Cotton, Stephanie Evans, Janet C. Fisher-Hoult, Fernando A. Hernandez, Dorothy L. Keane, Ita Kreft, Fred Pyrczak, Jr., Rolando A. Santos, Penelope Semrau, Simeon P. Slovacek (Chair), James H. Wiebe.

Associate Professors: Judith L. Cope, Kathleen M. Costantini, Bernardo Gallegos, Jose L. Galván, Anne L. Hafner, Marguerite Ann Snow, Elizabeth Viau.

Assistant Professors: Antony John Kunnan.

Program advisement provided for:
- Computer Education
- Educational Foundations
- Instructional Technology
- Teaching English to Speakers of Other Languages (TESOL)

Courses offered in:
- Educational Foundations (EDFN)
- Instructional Technology (EDIT)

EDUCATIONAL FOUNDATIONS

Programs include the M.A. degree in Education, options in Computer Education, Educational Foundations, Instructional Technology, and the M.A. degree in Teaching English to Speakers of Other Languages (TESOL). Credit certificate programs include Computer Applications in the Schools and English as a Second Language. These programs are described in the Graduate Programs section.

Designated Subjects Teaching Credential

For vocational area advisement, contact the Department of Technology.

SPECIAL EDUCATION

Charter School of Education

DIVISION OFFICE
King Hall C1064
Telephone: (213) 343-4400

The Faculty

Professors: Gary A. Best, Philip C. Chinn (Chair), Barbara J. Clark, Mary A. Falvey, Colleen B. Jamison, M. Diane Klein, Allen A. Mori, Andrea G. Zettlin.

Associate Professors: Jamie Dote-Kwan, Christine C. Givner, Nancy A. Hunt, Christina H. Kimm.

Assistant Professors: Sherwood Best, Diane Fazzi, Diane Haager.

Program advisement provided for:
- Early Childhood Special Education
- Mild/Moderate Disabilities
- Moderate/Severe Disabilities
- Multicultural/Multilingual Special Education
- Physical and Health Disabilities
- Resource Specialist in Special Education
- Visual Impairment and Blindness
- Joint Doctoral Program (with UCLA)

Courses offered in:
- Higher Education (EDHI)
- Special Education (EDSP)

Curricula in Special Education are designed to prepare personnel for delivery of educational services to individuals who, because of physical, behavioral, and/or mental characteristics, require special instruction or services. Specialized preparation is offered for teachers of these exceptional individuals. Information about these programs is contained in the graduate Charter School of Education chapter of this catalog, but credential candidates may begin their preparation in upper-division status.
### COURSES IN EDUCATION

The Charter School of Education offers courses in several disciplines, each with a distinct four-letter course abbreviation. These disciplines are listed below with the names of the offering divisions. Courses that follow are arranged alphabetically by course abbreviation.

**Graduate level courses only.**

#### Courses in Education (EDUC)

##### Upper Division Courses

**490 Problems in Education (2-5)**
Prerequisite: Instructor consent. Investigation and study of unique problems in education. Specific subject announced in Schedule of Classes. May be repeated for credit as subject matter changes.

**499 Undergraduate Directed Study (1-4)**
Prerequisite: Instructor consent to act as sponsor. Project selected in conference with sponsor before registration. Progress meetings held regularly and final report submitted. May be repeated for credit.

#### Courses in Counseling (COUN)

(Division of Administration and Counseling)

##### Lower Division Courses

**101 Career Decision Making (3)**
Development of decision-making skills applied to college major and career objectives. Graded CR/NC.

**200AB Introduction to Rehabilitation Services (3, 3)**
Introduction to the profession of vocational and personal rehabilitation; characteristics of the "helping" process; qualities of "helper" techniques for working with people; exploration of settings that offer services. Field visits to agencies.

##### Upper Division Courses

**403 The Psychosocial Dynamics of Child Maltreatment and Family Violence (4)**
(also listed as PSY 403)
Prerequisite: PSY 150. Psychosocial factors in child maltreatment and family violence: developmental considerations, assessment, interventions, legal and ethical issues, research findings, and community resources.

**405AB Theoretical and Developmental Aspects of Behavior (4, 4)**
Personality theories; vocational, cognitive, and personal-social theories of development; developmental data from all phases of life span.

**405A: Gestation through pubescence;**

**405B: Pubescence through senescence.**

**406 Behavioral Counseling and Self-Management (4)**
Prerequisite: PSY 150. Application of principles of learning personal counseling and behavioral self-control programs.

**428 Measurement Issues in Counseling (4)**
Prerequisite: EDFN 452 or PSY 302. Principles, procedures, and ethical considerations underlying data collection and interpretation for purposes of client assessment in counseling settings.

**442 Medical Factors in Rehabilitation (3)**
Selected facets of medical, developmental, and administrative factors in the rehabilitation process, including medical terminology, specialties in medical practice, and workers’ compensation law. Implications for rehabilitation counseling. Lectures, case discussions, field trip.

**445 Developmental Self Exploration (2)**
Personal attitudes, values, communication style, and professional development related to becoming a helping professional. Development of skills in building relationships, resolving conflicts, analyzing and synthesizing feedback from others. Graded CR/NC.

**447 Career Education and Guidance in Schools (4)**
Use of curriculum infusion, theory and current resources to construct comprehensive, competency-based career education programs. Development of career guidance units, career resource centers, portfolios, and other community-based career programs.

**448 Career Counseling for Adults (4)**
Vocational counseling of college students, rehabilitation clients, persons making midcareer changes, and returning homemakers; emphasis on career development theory, occupational information, job analysis, and job placement.

**449 Job Development and Work Evaluation (4)**
Prerequisites: COUN 428, 448; instructor consent. Methods for identifying, evaluating, and enhancing employment opportunities for people with physical, emotional, and mental disabilities: job analysis, work evaluation, employer development, job modification, assistive devices, community resources, placement planning, and work adjustment.

**450 Counseling Theories (3)**
Prerequisite: All GE requirements. Theories of counseling appropriate for individual and group work; functions of theory in research and practice including substance abuse counseling; background for subsequent training in group counseling methods and individual counseling.

**460 Laws Relating to the Child and Family (4)**
Legal and ethical guidelines for counselors, therapists, and child development practitioners; laws related to the family including marriage, divorce, and assessment and reporting of child abuse.
479 Counseling Older Adults (4)
Counseling issues in adult development and aging from a multidisciplinary perspective in context of biomedical, psychological, social, economic, political, environmental aspects; strategies for individual, family, and group counseling with older adults.

480 Fundamentals of Counseling (4)
Skills in listening and communicating for working effectively with those seeking counseling assistance.

484 Conferences with Parents/Primary Caregivers (4)
Research-based processes that facilitate student academic, emotional and social growth through parental involvement, including family and study rituals, motivation, self-esteem, assisting with homework, monitoring student progress and school-home community partnerships.

489 Behavior Management Using Reinforcement in Classrooms (4)
Prerequisite: PSY 150. Constructive approaches to classroom management using individual and group reinforcing contingencies for preschool through high school age students.

490 Problems in Guidance (1-5)
Prerequisite: Instructor consent. Investigation of unique problems in guidance as announced in Schedule of Classes. May be repeated for credit as subject matter changes.

494 Seminar: Rehabilitation Services (3)
Prerequisites: COUN 200AB; prerequisites or corequisites: COUN 406, 447, 448. Enhancement and integration of techniques and skills needed for effective functioning in the field. May be repeated to maximum of 6 units.

495 Field Work in Rehabilitation Services (3-9)
Prerequisites: Admission to Rehabilitation Services major, COUN 200AB, consent of field work supervisor; prerequisites or corequisites: COUN 406, 444, 448; corequisite: COUN 494. Field placement arranged congruent with option area selected. Graded CR/NC.

499 Undergraduate Directed Study (1-4)
Prerequisites: Instructor consent to act as sponsor and consent of division chair. Project selected in conference with sponsor before registration; progress meetings held regularly; final report submitted. May be repeated for credit.

Courses in Curriculum and Instruction (EDCI)

(Subcollegiate Course)

093 Development of Study Skills: Reading (4)
Prerequisite: Recommendation of a counselor or an instructor. Developing reading study skills necessary for academic success at university level. Current general education textbook material used to reinforce college-level reading. Graded CR/NC. May be repeated to maximum of 12 units. No credit toward baccalaureate.

Upper Division Courses

300A The Teaching Profession: Education as a Career (1)
Prerequisite: Senior standing. Corequisite: Must be taken concurrently with EDCI 300B. Introduction to teaching as a professional career. Required of all students pursuing a California Teaching Credential. Graded CR/NC.

300B The Teaching Profession: Learners and Teachers in a Cultural Setting (1)
Prerequisite: Senior standing. Corequisite: Must be taken concurrently with EDCI 300A. Instruction to classroom as cultural setting. Minimum of 20 hours of scheduled participation in elementary/secondary public schools. Required of all students pursuing California Teaching Credential. Graded CR/NC.

415 Teaching For Thinking (4)
Perspectives and practices to integrate problem-solving, critical thinking, and the development of reflection and self-regulation into all content area course instruction.

421 Advanced Educational Writing (4)
Prerequisite: ENGL 102. Principles and practice of educational written communication.

*Students subject to earlier catalogs satisfy the prerequisite with ENGL 101 or 190.

423 Principles and Practices of Teaching Writing in the Schools (4)
Prerequisite: EDEL 400 or EDSE 423 or equivalent. Analysis of writing development and the teaching of written composition skills in K-12 grade students through writing process, writers' workshop, conferencing, various writing forms, and use of authentic evaluation procedures.

453 Teaching in Bilingual/Crosscultural Schools (4 each)
Prerequisite: Teaching credential. Specialized teaching techniques and materials for bilingual/crosscultural schools. School and community field assignments.

455 Methods of Teaching Reading in Target Language (4 each)
Prerequisites: Admission to bilingual/crosscultural credential program, including proficiency in target language at 300B level; EDFN 413 and either EDEL 400 or EDSE 423. Teaching reading, kindergarten through grade 12, in target language, to speakers of that language or to speakers of English in bilingual programs. Instruction partly in target language.

455C Chinese 453K Korean
455S Spanish

Courses in Educational Administration (EDAD)

(Division of Administration and Counseling)
Upper Division Course

480 Institutional Racism and Schools (4)
Institutional racism and its perpetuation in U.S. schools, while developing a definition of this concept and specific strategies for the elimination or reduction of institutional racism.

Courses in Educational Foundations (EDFN)

(Division of Educational Foundations and Interdivisional Studies)
Upper Division Courses

409 Tests, Measurement, and Evaluation (4)
Basic principles of educational measurement and evaluation; teacher-devised instruments and techniques; selection and interpretation of standardized tests; methods of marking and reporting.

413 Psychological Foundations of Education (4)
Psychological research and theory in human learning and development related to educational processes.
414 Social Foundations of Education (3)
Social issues related to educational processes in the U.S.

423 Principles and Practices of Teaching Writing in the Schools (4)
Prerequisite: EDEL 400 or EDSE 423 or equivalent. Analysis of writing development and the teaching of written composition skills in K-12th grade students through writing process, writers' workshop, conferencing, various writing forms, and use of authentic evaluation procedures.

437 Education and Intergroup Relations (4)
Implications of community intergroup problems for schools, teachers, and administrators; educational problems resulting from de facto segregation, cultural differences, racial and ethnic discrimination, urbanization.

438 Traditional Asian-American Values in American School Setting (4)
Traditional Asian-American values as they relate to values found in American schools; ways in which these values reinforce or impede the teaching-learning process.

452 Statistics in Education (4)
Prerequisite: One year of algebra. Introduction to descriptive and inferential statistics basic to understanding and conducting educational research, including measures of central tendency, variability, covariability, sampling theory, interval estimation, testing statistical hypotheses.

490 Problems in Educational Foundations (2-5)
Prerequisite: Instructor consent. Investigation of unique problems in educational foundations. Specific subjects announced in Schedule of Classes. May be repeated for credit as subject matter changes.

499 Undergraduate Directed Study (1-4)
Prerequisite: Instructor consent to act as sponsor. Project selected in conference with sponsor before registration; progress meetings held regularly; final report submitted. May be repeated for credit.

Courses in Elementary Education (EDEL)
(Division of Curriculum and Instruction)

Upper Division Courses

400 Proseminar: Curriculum and Teaching of Reading/Language Arts (4 each)
Prerequisites: Admission to credential program; EDFN 413 (may be taken concurrently). Strategies for teaching reading and writing in various milieu, emphasizing reading skills and writing development. Field experience required. Offered in English or a second language as listed below.

400C Chinese
400K Korean
400S Spanish

401 Proseminar: Curriculum and Teaching of Mathematics (3 each)
Prerequisites: Admission to credential program; EDFN 413 (may be taken concurrently) and MATH 120 with grades of C or better. Analysis, application, and evaluation of strategies for teaching mathematics in various socioeconomic and cultural milieus. Laboratory experience provided. Offered in English or a second language as listed below.

401C Chinese
401K Korean
401S Spanish

402 Proseminar: Curriculum and Teaching of Social Science and Science (4 each)
Prerequisites: Admission to credential program; EDFN 413 (may be taken concurrently). Analysis, application, evaluation of strategies for teaching social science and science in various socioeconomic and cultural milieus. Laboratory experience provided.

402C Chinese
402K Korean
402S Spanish

403 Directed Teaching I: Multiple Subject (12)
Prerequisites: See Directed Teaching requirements; EDEL 400, 401,402; EDFN 413. On-site laboratory experience consisting of teaching multiple subjects under direction of University supervisor with cooperation of supervising classroom teacher(s). Concurrent weekly seminar. Graded CR/NC.

404 Directed Teaching II: Multiple Subject (12)
Prerequisites or corequisites: EDEL 403, EDFN 414. On-site laboratory experience teaching multiple subjects under direction of University supervisor with cooperation of supervising classroom teacher(s). Concurrent weekly seminar. Graded CR/NC.

405 Proseminar: Language Development in the Elementary Classroom (3)
Prerequisite or corequisite: EDFN 413. Analysis, application, evaluation of strategies for teaching language acquisition/language arts and related cultural aspects in elementary classrooms, including primary language development, ESL, and sheltered English strategies.

412 Emergent Literacy (4)
Basic concepts of emergent literacy, strategies for teaching beginning reading/writing, phonemic awareness, phonics and other word-attack skills, assessment, linguistic diversity, children's literature, and related legislative actions and initiatives.

413 Children's Reading Materials in Spanish (4)
Prerequisite: Proficiency in Spanish at 300B level. Spanish reading materials suitable for development or enrichment of reading at elementary level; oral and written language skills in bilingual/crosscultural classroom.

421 Teaching Language Arts in Elementary School (4)
Prerequisite: Teaching experience. Intensive study in teaching language arts in elementary school. Exploration, analysis, interpretation, and implementation of modern teaching trends and issues, with urban emphasis.

424 Methods of Using Creative Dramatics with Children (3)
Prerequisite: SPCH 490. Methods of using creative dramatics with elementary age children. A preservice or inservice course for librarians, teachers, recreation, and community leaders.

427 Using Children's Literature in Elementary Classrooms (4)

431 Teaching Mathematics in Middle Schools (4)
Mathematics content and methodology appropriate for students in middle schools; emphasis on problems specific to urban areas and on discovery-activity techniques.

432 Teaching Mathematics for Early Childhood (4)
Prerequisite: MATH 120 with minimum C grade or teaching experience. Professional course presenting methods and materials for teaching mathematics to children, prekindergarten through grade three.
433ABCD  Special Topics in Mathematics for Elementary Teachers (1 each)
Prerequisite: EDEL 401. Instructional laboratory for elementary teachers; current strategies, materials, and terminology for teaching specific strands from Mathematics Framework for California public schools.

433A Metric Measurement  433B Problem Solving
433C Geometry  433D Logic

435  Use of Calculator in Teaching Mathematics (2)
Prerequisite: EDEL 401. Laboratory that examines how the calculator can be used in teaching mathematics, with a special emphasis on problem solving.

441  Teaching Social Studies in Elementary School (4)
Prerequisites: EDEL 400, 401, 402; EDFN 413, 414. Exploration, analysis, and interpretation of modern teaching trends and issues in social studies, with an urban emphasis. Does not meet EDEL 400-401-402 requirement in professional education.

451  Teaching Science in Elementary School (4)
Prerequisite: Teaching experience. Intensive study in teaching science in elementary school; exploration, analysis, interpretation, and implementation of modern teaching trends, issues, and materials, with urban emphasis.

461  Curriculum Procedures and Materials for Early Childhood Education (4)
Prerequisite: EDFN 413 or PSY 412A. Curriculum, instructional procedures, and materials in early childhood education. Study of selected nursery schools and children’s centers, including two hours per week of observation and participation.

462  Dynamics of Play (4)
Dynamics of group and individual play in children, focus on increased understanding of human development and behavior; Observation for two hours per week required.

463  Kindergarten-Primary Education (4)
Prerequisites: Admission to credential program; EDFN 413, EDEL 400, 401; 402 (may be taken concurrently). Principles, curriculum, methods and materials of instruction; teacher-parent relations; emphasis on inner city problems.

464  Prekindergarten Education in Metropolitan Areas (4)
Corequisite: EDFN 437. Selection of objectives, student population, curriculum content, materials and instructional procedures for teachers in public prekindergarten schools in various socio-economic and cultural milieux.

465  Directed Teaching: Preschool (12)
Prerequisites: EDEL 461, 462; see Multiple Subject CLAD/BCLAD Credential with Prekindergarten Option requirements. Directed teaching for credential at preschool level. Graded CR/NC.

466  Cultural Diversity in Early Childhood Classroom: Needs and Opportunities (4)
Prerequisites: Enrollment in teacher education program (Elementary or Early Childhood Education); teaching experience with young children. Workshop involving crosscultural perspective on urban preschools, children’s centers, primary grades in elementary school; role of cultural contributions of diverse communities in child’s self-image and learning ability.

470AB  Introduction to Elementary Curriculum (3, 3)
Prerequisites: COMD 456, 461. Overview of curriculum, methods, and materials used by elementary teachers in presenting reading, mathematics, and language arts. Meets needs of Communicative Disorders majors pursuing Special Class Authorization of Severe Language Handicapped and/or Aphasic Pupils. May not be used for Multiple Subject CLAD/BCLAD credential.

470A  Reading
470B  Mathematics and Language Arts

473  Storytelling for Teachers (4)
Developing skills of storytelling, selecting appropriate literature, and including storytelling in the elementary school curriculum.

480  Teaching Problem Solving with LOGO (4)
Theory and methods for teaching the programming language LOGO, with emphasis on problem-solving. (Hands-on computer laboratory.)

489  Demonstration of Instructional Competencies (12)
Prerequisite: Approval of division chair. Demonstration of competencies related to instructional skills specified for components leading to completion of approved credential, certificate, or degree program requirements. May be repeated for credit with division approval. Graded CR/NC.

490  Problems in Elementary Education (2-5)
Prerequisite: Instructor consent. Investigation of unique problems in elementary education. Specific topic announced in Schedule of Classes. May be repeated for credit as subject matter changes.

495  Strategies for Organizing Elementary Curriculum (4)
Prerequisites: EDSP 494, enrollment in teacher education or teaching credential program. Methods and materials that present an integrated curriculum, including learning centers and core curriculum, presented and discussed. Changes in classroom curriculum and environment to reflect focus on integrated curriculum including unit approach.

499  Undergraduate Directed Study (1-4)
Prerequisite: Instructor consent to act as sponsor. Project selected in conference with sponsor before registration; progress meetings held regularly and final report submitted. May be repeated for credit.

Courses in Instructional Technology (EDIT)

(Division of Educational Foundations and International Studies)

†There is a special fee associated with registering for laboratory classes that carry this designation. Details appear in the Schedule of Classes.

Upper Division Courses

430  Introduction to Computers and Their Uses in the Classroom (4)
Prerequisite: Multiple or Single Subject credential methods courses. Computer hardware, software, and related technology and their uses in and impact on society and education; hands-on experience with applications software, instructional software, and classroom management tools.

431 Advanced Computer Applications in Education (4)
Prerequisite: EDIT 430 or 447. The use of advanced computer tools in the K-12 school curriculum. Seminar 3 hours, activity 2 hours.

435  Computer Systems in Education (4)
Prerequisite: EDIT 430 or 447. Computing systems and their uses in education including computer hardware, operating systems local area networks, peripherals, and telecommunications equipment. Lecture 3 hours, laboratory 2 hours.
447 Computers in the Classroom (2)
Prerequisite: An introductory course in use of microcomputers. Survey of microcomputer applications in the classroom including software selection, computer use in and impact on the curriculum, methods of teaching computer literacy and classroom management.

†450 Instructional Materials Preparation Laboratory (1)
Prerequisites or corequisites: EDCI 300AB, EDSE 401. Applications of instructional media in classroom instruction; introduction to preparation, selection, lesson development, and evaluation of media from the chalkboard to computers. Laboratory 2 hours.

451 Survey of Instructional Media and Technology (4)
Survey of instructional media, technology, and instructional design competencies. Introduction to photography, audio, computer graphics, computer-based instruction, multi-image, multi-media, interactive video, and print media. Seminar 3 hours, laboratory 1 hour.

456 Computer Applications in Schools (4)
Computer applications in the areas of learning, teaching, and instructional management; problem-solving approach to design, development, and evaluation of computer education within teaching discipline and grade level. Lecture 3 hours, laboratory 2 hours.

481 Microcomputing in Schools: BASIC I (4)
Prerequisite: EDIT 430. Curriculum, applications, and methods for teaching BASIC in schools with hands-on experience in a microcomputer laboratory.

482 Microcomputing in Schools: BASIC II (4)
Prerequisites: EDIT 430, 481. Curriculum, applications, and methods of BASIC including: structured BASIC programming, string manipulations, arrays, files, sorting techniques, high resolution graphics and animation, and memory manipulation.

483 Pascal for Teachers (4)
Prerequisites: EDIT 430; 481 or CS 190. Introduction to microcomputer-based Pascal, methods for teaching Pascal, and educational applications of Pascal.

484 Computer Authoring Tools (4)
Prerequisite: EDIT 430. Computer authoring tools and their uses in developing educational software; hands-on experience with various authoring tools.

490 Special Topics in Instructional Technology (2-5)
Prerequisite: Instructor consent. Investigation of unique problems and new developments in instructional technology as announced in Schedule of Classes. May be repeated for credit as subject matter changes.

Courses in Secondary Education (EDSE)

(Division of Curriculum and Instruction)

Upper Division Courses

401 Instructional Strategies in Secondary Teaching (4)
Prerequisite or corequisite: EDCI 300AB. Skills and understandings required by prospective and beginning secondary school teachers for effective planning, implementation, and evaluation of instruction; analysis of special instructional and curricular problems in secondary schools.

401S Instructional Strategies in Secondary Teaching - Spanish (4)
Prerequisite: SPAN 200C or 205B or equivalent. Prerequisites or corequisites: EDCI 300A, 300B. Skills and understandings required by prospective and beginning secondary school teachers for effective planning, implementation, and evaluation of Spanish/English bilingual instruction; analysis of special instructional and curricular problems in secondary schools.

415 Classroom Management in Secondary Schools (4)
Identification and resolution of classroom management and control problems in secondary high schools; study and application of selected strategies, teacher control techniques, and related research.

421 Instructional Methods for Secondary School Subjects (3 each)
Prerequisites: EDCI 300AB, EDSE 401, admission to teaching credential program, and as specified for individual subjects below. Instructional strategies and curricular themes in specific subjects taught in secondary schools. Single matter credential candidates must complete one methods course to meet credential requirements.

421C Science

421G Economics and General Business
Methods and materials for teaching such high school subjects as economics, consumer economics, general business, and business law.

421H Health and Safety Education

421I Industrial Education

421L Languages Other than English
Prerequisite: TECH 300AB.

421M Mathematics

421N English and Language Arts
Prerequisites: ENGL 401; 406 or 410; completion of all but two courses in English program for Single Subject credential.

421P Physical Education

421R Art

421S Social Science

421U General Music
Prerequisite: MUS 344, 423

423 Teaching Reading in Secondary Schools (4)
Suggested corequisite: EDSE 442AB or 489 or current secondary school classroom employment. Reading in secondary school content areas; reading as an instructional tool in secondary classes; strategies to improve reading at secondary level; provision for field experience.

423B Teaching Reading in Secondary Schools - Spanish (4)
Prerequisite: SPAN 200C or 205B or equivalent. Suggested corequisite: EDSE 442B or 489 or current secondary school classroom employment. Reading in secondary school content areas; reading as an instructional tool in bilingual secondary classes; strategies to improve reading at secondary level; provision for field experience.

428C Processes of Science (4)
Exploration of the methodologies, logical procedures, and explanatory systems that characterize the natural sciences. Focal point will be the role of the science educator in a constructivist teaching/learning environment.

409 Assessment, Strategies, and Curricular Modification for Individual with Exceptional Needs in Diverse Educational Setting (4)
Prerequisites: EDEL 400,401 or EDSE 401,421; EDSP 400. Principles, procedures and application of various formal and informal assessment techniques for individuals with exceptional needs in diverse educational settings. Organize, develop, adapt, implement, and evaluate instruction and curricula.

410 Education of Exceptional Individuals in Mainstream Settings (3)
Deviations from normal, sensory, motor, perceptual, and mental development. Implications of deficit areas for learning. Functional assessment of exceptional individuals. For students in Multiple and Single matter credential programs.

416 Working with Families of Young Handicapped Children (4)
Prerequisites: EDSP 400, course work in child development. Techniques for teachers and other professionals working with families of young handicapped children in infant and preschool programs.

420 Implications of Communication Handicaps (4)
Prerequisite: EDSP 400. Survey of educational, psychological, and vocational implications of communication handicaps; emphasis on impact of auditory impairment.

430 Sign Language (3)
Methods of manual communication and relationships to other forms of communication; use of nonoral communication in therapeutic and educational settings.

431A Laboratory: Sign Language, Beginning (1)
Intensive sign language practice in the habilitation of prelingually hearing impaired individuals.

431B Laboratory: Sign Language, Advanced (1)
Advanced practice in sign language for the habilitation of prelingually hearing impaired individuals.

440 The Gifted Individual I (4)
Characteristics, needs, and identification of gifted individuals, with emphasis on early nurture. Problems of personal, educational, and social development of gifted individuals; overview of current and innovative programs.

441 The Gifted Individual II (4)
Prerequisite: EDSP 440. Strategies for education of gifted individuals, prekindergarten through grade 12. Methods of assessment; program planning to meet individual needs; evaluation of development. Emphasis on developing higher cognitive skills, including techniques of inquiry, simulation, open structure, and problem solving.

450 Educational and Vocational Implications of Retardation (4)
Implications of retardation for education and for community and vocational adjustment; current programs, services, and legal aspects. Observation in schools, workshops, and hospitals required.

460 Implications of Physical and Health Impairments (4)
Prerequisite: EDSP 462. Impact of physical and health impairments on psychological and sociological interactions and outcomes; implications for lifespan development, career preparation, and independent living.

462 Survey of Physical and Health Impairments (4)
Prerequisite: EDSP 400. Survey of major physical and health impairments, including neuromotor impairments, degenerative diseases, orthopedic and musculoskeletal disorders, health impairments, and infectious diseases. Effects on development, treatment and educational implications.

463 Augmentative Communication and Adaptive Technology in Special Education (4)
Prerequisites: EDSP 400, 408. Assistive technology available to meet educational needs of individuals with severe disabilities. Emphasis on assessment, design, and implementation of augmentative and alternative communication technologies for persons with severe communication challenges.

464 Assessment and Curricular Adaptations for Individuals with Physical and Health Impairments (4)
Prerequisite: EDSP 400. Assessment and curricular adaptations for individuals with physical and health impairments. Modification of academic content areas, the arts, and functional curriculum. Emphasis on avenues to meaningful curricular participation, including low and high technology adaptations.

465 Introduction to Vision (3)
Prerequisite or corequisite: EDSP 400 or instructor consent. Anatomy, physiology, and pathology of the eye; principles of optics, low vision devices; components of an eye exam and report; vision screening programs.

465L Functional Low Vision Assessment (1)

466 Literary and Mathematical Braille (4)

469 Psychological, Sociological, and Vocational Implications of Visual Impairment and Blindness (4)
Psychosocial implications of visual impairment and blindness through the life span including family systems, cultural diversity, adjustment, and guidance. Vocational/transition issues in the blindness system and development of professional advocacy.

475 Orientation and Mobility for the Blind (6)
Prerequisite: Approval of instructor. Principles and techniques of orientation and mobility for individuals who are blind. Practical application of techniques during simulated blindfold experiences. Content seminars address foundations and methods of orientation and mobility.

476A Orientation and Mobility Instructional Seminar (5)
Prerequisites: C or better in EDSP 475, instructor consent. Seminar in methods of assessment, planning and instruction in orientation and mobility for diverse learners who are visually impaired; development of concepts and spatial awareness; development and utilization of appropriate instructional materials and resources. (Seminar 1 hour)

476B Clinical Practice in Orientation and Mobility (5)
Prerequisites: C or better in EDSP 475, instructor consent. Prerequisite or corequisite: EDSP 476A. Clinical practicum in methods of assessment, planning and instruction in orientation and mobility for diverse learners with visual impairments; develop-
ment of concepts and spatial awareness; development/utilization of instructional materials and resources. (Laboratory 12 hours)

480 Assessment and Curriculum in Integrated School and Community Settings (4)
Prerequisites: EDSP 402, 403. Assessment and curricular strategies for students with severe disabilities in integrated school and community settings; working with school personnel, families, significant others, and the community.

481 Instructional Strategies for Students with Severe Disabilities (4)
Prerequisites: EDSP 402, 403. Methods of teaching students with severe disabilities and other exceptionalities in integrated school and community settings; strategies for infusing academic, communication, and motor skills into functional and age-appropriate curriculum.

489 Demonstration of Instructional Competencies (3-12)
Prerequisite: Approval of division chairperson or designee. Demonstration of competencies related to instructional skills specified for components leading to completion of approved credential, certificate, or degree program requirements. May be repeated for credit with division approval. Graded CR/NC.

490 Problems in Special Education (26)
Prerequisite: Instructor consent. Investigation and study of unique problems in special education. Specific subject announced in Schedule of Classes. May be repeated for credit as subject matter changes.

499 Undergraduate Directed Study (1-4)
Prerequisite: Instructor consent to act as sponsor. Project selected in conference with sponsor before registration; progress meetings held regularly: final report submitted. May be repeated for credit.

Phone: (213) 343-4510

Engineering and technology contribute in many ways to the welfare, technological progress, and defense of the nation by developing methods for converting raw materials and power sources into useful products. Engineers and technologists also develop scientific equipment to probe outer space, the human body, and the ocean depths. They design, plan, and supervise the construction of buildings, highways, rapid transit systems, and water supplies and involve themselves in areas of solid state electronics, computers, electrical equipment, communications, controls, and power distribution systems. They also enter the fields of mechanics, thermal science, machinery design, instrumentation, and the development and transmission of power.

The School of Engineering and Technology offers programs leading to the Bachelor of Science degree in Civil, Electrical, or Mechanical Engineering or with a Special Option; Bachelor of Science in Industrial Technology, with options in Aviation Administration, Printing Management, and Production Technology; Bachelor of Science in Fire Protection Administration and Technology; Bachelor of Arts in Industrial Arts; and Bachelor of Vocational Education in Vocational Arts. A minor is available for students majoring in other fields.

The school offers Master of Science degrees in Civil, Electrical, and Mechanical Engineering and a Master of Arts degree in Industrial and Technical Studies. These are described in the Graduate Programs section.

**ENGINEERING**

**Bachelor of Science Degree in Engineering**

The Bachelor of Science degree may be earned in Civil Engineering, Electrical Engineering, Mechanical Engineering, or in Engineering with Special Option.

Programs leading to the Bachelor of Science degree in Civil, Electrical, or Mechanical Engineering are accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (EAC/ABET). All accredited programs are required to provide the following minimum level of instruction: one year of mathematics and basic sciences; one and one-half years of engineering science and design (engineering topics); and one-half year of humanities and social sciences.

The Bachelor of Science degree with Special Option, which is not accredited by EAC/ABET, is a program which allows students to prepare for innovative careers in engineering through interdisciplinary combinations of course work in areas such as manufacturing engineering.

**Requirements for the Major**

The total number of units required for each Bachelor of Science degree in Engineering differs slightly with the degree chosen, as shown below. All students complete a required basic program of lower division courses, followed by specific requirements and technical electives appropriate to their selected degree and individual professional objectives.

Students consult a faculty adviser before registering for classes in their first quarter. They are then required to see their adviser before registering for each subsequent quarter to check for completion of prerequisites and granting of approval to register. Students are expected to develop working relationships with their advisers, and are expected to design elective programs with adviser consultation. They must complete all required lower division course work and obtain upper division advisement before registering for elective courses.

**Civil Engineering** - The degree and major require a minimum of 200 units including 146 in the major: 76 in lower division required courses, 53 in upper division required courses, and 17 in upper division electives.

**Electrical Engineering** - The degree and major require a minimum of 203 units including 156 in the major: 65 in lower division required courses, 60 in upper division required courses, 14 in upper division EE electives (12 lecture, 2 lab), 4 in upper division MATH electives, and 13 in an upper division specialization.

**Mechanical Engineering** - This degree and major require a minimum of 203 units including 151 in the major, 68 in lower division required courses, 55 in upper division required courses, and 28 in upper division electives.

**Special Option** - The degree and major with this option require a minimum of 200 units including 152 in the major: 67 in lower division required courses, 28 in upper division required courses, and 57 units in upper division electives. In addition, all options require the completion of 72 units of general education; however, 24 general education units that are also required for the major are “double counted.”

**Transfer Students**

The Engineering program is designed for students who transfer from a California community college as well as those who begin their work at Cal State L.A. Students at other colleges who are considering transferring to Cal State L.A. are urged to consult a department adviser for complete details and for program counseling.

In evaluating transfer courses, the engineering departments allow no subject credit for upper division work taken at another institution in which the grade of D or its equivalent was earned. Lower division courses are not subject to this restriction.

**TECHNOLOGY**

The Department of Technology offers undergraduate programs in several areas designed to prepare students for careers in industrial technology and technology education. Specific programs are in production technology, printing management, aviation administration, fire protection administration, and technology education. These programs allow students to develop expertise in specific technical areas including: automated manufacturing and robotics, computer aided design (CAD), computer aided manufacturing (CAM), electronics, design/drafting, graphic communications/printing, manufacturing, and power, energy and transportation. Graduates of these programs are employed in a wide range of careers including managers, management representatives, administrators, production supervisors, trainers, technical support specialists, and technology educators. The department also offers several upper division certificate programs to provide further technical depth.

Bachelor of Science in Civil Engineering

Civil Engineering is the broadest of the engineering disciplines, extending across many technical specialties, specialties that are not independent but interact with each other. Civil engineers plan, design, and supervise the construction of facilities that vary widely in nature, size and scope: space satellites and launching facilities, offshore structures, bridges, buildings, tunnels, highways, transit systems, dams, airports, irrigation projects, treatment and distribution facilities for water and collection and treatment facilities for wastewater.

In addition to facility design and construction, civil engineers also have options to teach and to participate in research. As you develop your skills, you will have the opportunity to move into the area of engineering management, overseeing the completion of entire projects.

The civil engineering program provides instruction in the basic sciences and in engineering analysis and design. Areas of interest within civil engineering include: environmental and sanitary engineering, geotechnical engineering, highway and transportation engineering, hydraulics and hydrology, ocean engineering, and structural analysis and design.

Bachelor of Science Degree in Electrical Engineering

Electrical engineering is the largest major field within engineering. Electrical engineers are involved in all aspects of electrical devices, from conceptual design to manufacturing. They are generally involved in one or more major areas such as solid state electronics, computers, electrical equipment, communications, controls, or power distributing equipment. Each of these major areas includes a number of subdivisions such as aviation systems, microwaves, and integrated circuits. Besides employment in research, development, and design, many electrical engineering graduates are involved in manufacturing, management, sales, and teaching. Careers are readily available in industry, government, research, and education.

The electrical engineering program offers instruction in the basic sciences and in engineering analysis and design. The upper division offerings provide a flexible, broad curriculum to enable each student to match talents and interests with career objectives. The major areas of course concentrations are circuits, communications, computers, controls, electronics, and power.

Bachelor of Science Degree in Mechanical Engineering

Mechanical engineering, one of the most general branches of engineering, requires broad knowledge in many fields: mechanics, thermal science, design, machinery, instrumentation, and more. The breadth and flexibility of a mechanical engineer's education provide a wide choice of careers and allow movement into a variety of engineering areas.

Mechanical engineers are concerned with the production, transmission, and use of power. They design and develop machines that produce and/or use power. Many mechanical engineers are employed in manufacturing. The technical versatility and importance of mechanical engineers are demonstrated by the diversity of industries that employ them.

The mechanical engineering program provides instruction in the basic sciences and in engineering design and analysis. During the junior and senior years, students may choose from a broad spectrum of electives to match individual talents and interests with a career objective. The major areas of course concentration are applied mechanics, machine design, energy, heat, and power.

Requirements for the Major (151 units)

Lower Division Required Courses (68 units)

- CS 290 Introduction to FORTRAN Programming (2)
- CHEM 101 General Chemistry I (5)
- EE 210 Electrical Measurements Lab (1)
- ENGR 100 Introduction to Engineering (1)
- ENGR 103 Design Graphics (3)
- ENGR 201 Statics (4)
- ENGR 204 Circuit Analysis I (4)
- ENGR 205 Strength of Materials I (4)
- ENGR 207 Materials Science and Engineering (4)
- ENGR 210 Matrix Algebra for Engineers (2)
- ENGR 211 Statistics and Probability for Engineers (2)
- MATH 206-209 Calculus I-IV (4 each)
- MATH 215 Differential Equations (4)
- PHYS 201-204 General Physics (4 each)

Upper Division Required Courses (55 units)

- ENGR 300 Economics for Engineers (4)
- ENGR 301 Ethics and Professionalism in Engineering (1)
- ME 303 Fluid Mechanics I (4)
- ME 306 Heat Transfer I (4)
- ME 310 Mechanical Engineering Measurements (1)
- ME 312 Strength of Materials Laboratory (1)
- ME 318 Computer Aided Design Laboratory (2)
- ME 319 Computer Aided Mechanical Engineering Laboratory (2)
- ME 320 Dynamics I (4)
- ME 323 Machine Design I (4)
- ME 326AB Thermodynamics I, II (4, 4),
- ME 327 Manufacturing Processes (4)
- ME 410 Control of Mechanical Systems (4)
- ME 497 Mechanical Engineering Senior Project (4, 4, 4)

Electives (28 units)

Select at least 24 units from lecture courses listed below. Interdisciplinary engineering courses may be included. Make selection in consultation with permanent adviser or department principal adviser to ensure compliance with the Accreditation Board of Engineering and Technology's Engineering Topics Criteria.

Lectures Courses (24 units)

Laboratory Courses (4 units)

- ENGR 499, EE/ME 491, ME 313, 315, 329, 412, 413, 417, 427
INTERDISCIPLINARY PROGRAMS IN ENGINEERING

School of Engineering and Technology

Bachelor of Science Degree in Engineering with Special Option

The Bachelor of Science degree with Special Option, which is not accredited by EAC/ABET, is a program which allows students to prepare for innovative careers in engineering through interdisciplinary combinations of course work in areas such as manufacturing engineering.

Requirements for the Major (152 units)

Lower Division Required Courses (67 units)

CS 290 Introduction to FORTRAN Programming (2)
CHEM 101 General Chemistry I, (5)
ENGR 100 Introduction to Engineering (1)
ENGR 103 Design Graphics (3)
ENGR 201 Statics (4)
ENGR 204 Circuit Analysis I (4)
ENGR 205 Strength of Materials I (4)
ENGR 207 Materials Science and Engineering (4)
ENGR 210 Matrix Algebra for Engineers (2)
ENGR 211 Statistics and Probability for Engineers (2)
MATH 206-209 Calculus I-IV (4 each)
MATH 215 Differential Equations (4)
PHYS 201-204 General Physics (4 each)

Upper Division Required Courses (28 units)

CE/ME 312 Strength of Materials Laboratory I (1)
EE 310 Electrical Measurements Laboratory (1) or
ME 310 Engineering Measurements Laboratory (1)
ENGR 300 Economics for Engineers (4)
ENGR 301 Ethics and Professionalism in Engineering (1)

Select 16 units from following:

ENGR 311 Electric Circuits Laboratory (1)
ENGL 306 Technical Writing (4) or
TECH 400 Written Communication Skills for Industrial Technology (4)
CE/ME 303 Fluid Mechanics I (4)
CE/ME 320 Dynamics I (4)
EE 304 Electric Machines (4)
EE 336 Analog Electronic Circuits (4)
ME 306 Heat Transfer I (4)
ME 326A Thermodynamics I (4)

Electives (57 units)

With prior approval of permanent adviser and department chair, select a grouping of courses and laboratories with a specific objective. These may be chosen from the interdisciplinary lectures and laboratories and from an appropriate combination of approved courses in engineering, technology, mathematics, the natural sciences, business, and economics.

Manufacturing Engineering Emphasis Within Special Option

An emphasis in manufacturing engineering within the special option has been established. Required and elective courses (57 units) in this option will be taken from the following group of courses in Engineering, Technology and Management. Manufacturing engineers are concerned with the transformation of raw materials into industrial and consumer goods. They are employed by a wide variety of manufacturing industries including aerospace, appliance, automotive, electronics, machine tools, and semiconductor.

Students interested in manufacturing engineering are advised to consult the associate dean for further information.

TECHNOLOGY

School of Engineering and Technology

DEPARTMENT OFFICE
Engineering and Technology A341
Phone: (213) 343-4550

The Faculty

Professors: Gregory S. Graham, Ethan B. Lipton, Don M. Maurizio (Chair), Virgil A. Seaman, Le D. Tang

Associate Professors: James G. Heideman, Ray O. Shackelford

Assistant Professor: Michael A. DeMiranda

The Department of Technology offers undergraduate programs in several areas designed to prepare students for careers in industrial technology and technology education. Specific programs are offered in production technology, printing management, aviation administration, fire protection administration, and technology education. These programs allow students to develop expertise in specific technical areas including automated manufacturing and robotics, computer aided design (CAD), computer-aided manufacturing (CAM), electronics, design/drafting, graphic communications/printing, manufacturing, and power, energy and transportation. Graduates of these programs are employed in a wide range of careers including managers, management representatives, trainers, technical support specialists, and technology educators. The department also offers several upper division certificate programs to provide further technical depth.

Bachelor of Arts Degree in Industrial Arts

A total of 186 units is required for the Bachelor of Arts degree in Industrial Arts. The program is designed primarily for students who plan to become Technology Education teachers. Refer to the undergraduate Charter School of Education chapter of this catalog for regulations governing all teaching credential programs.

Requirements for the Major (84 units)

Required for the major are 84 units of professional and technical courses in technology.

The professional component requires 27 units and the technical program requires 57 units, distributed as follows: foundation courses, 24 units; area of concentration, 21-27 units; and additional specialization, 6-12 units.

Bachelor of Science Degree in Fire Protection Administration and Technology

The Bachelor of Science degree in Fire Protection Administration and Technology was designed to meet the needs of various fire services for educational experiences that provide both technical and administrative skills. The curriculum was developed through close consultation with representatives of all levels of the fire services from local groups to state committees and boards.

Requirements for the Major (100-108 units)

Required for the degree are 186 quarter units, including applicable lower division preparation at a community college. The major requires a total of 100-108 quarter units.
A minimum of 15 semester units (23 quarter units) of community college courses is required, as follows:

- Building Construction for Fire Protection (3)
- Fire Company Organization and Management (3)
- Fire Behavior and Control (3)
- Fire Protection Equipment and Systems (3)
- Fundamentals of Fire Prevention (3)

A maximum of 6 semester units (9 quarter units) of community college coursework may be used as lower division electives. Select from the following:

- Fire Apparatus and Equipment (3)
- Fire Hydraulics (3)
- Fire Investigation I (3)
- Fire Service Communications Systems (3)
- Fire Service Records and Reports (3)
- Hazardous Materials I and II (3 each)
- Related Codes and Ordinances (3)
- Rescue Practices (3)
- Wildland Fire Control (3)

A total of 15-21 semester units (22-32 quarter units) of community college courses may be included in the major program. The remainder of the major is primarily upper division work, with 68-86 quarter units required. Of these units, a maximum of 12 may be taken in lower division courses.

**Required Courses (52 units)**

**Bachelor of Science Degree in Industrial Technology**

The Bachelor of Science degree in Industrial Technology is available with a choice among three options: Aviation Administration, Printing Management, and Production Technology. The total unit requirements for the major and for the degree vary with the individual options, as indicated below.

**Options**

1. **Aviation Administration Option**

   The Aviation Administration option, which provides appropriate training for middle management positions in aviation, was developed in response to needs identified by airlines, the aviation industry, and community colleges with two-year aviation programs.

   **Requirements for the Major (104 units)**

   The Bachelor of Science degree in Industrial Technology with the Aviation Administration option requires a total of 104 units. The major requires 104 units, including 21 semester units (32 quarter units) of community college work for students who have completed a two-year community college program in flight attendant training, maintenance, air transportation, or a similar aviation-oriented program.

   The lower division program is completed at the community college or other four-year institutions. Students who have not completed lower division general education requirements at the time of entrance to Cal State L.A. must fulfill these remaining requirements in addition to upper division general education and major requirements. Transfer students must also complete prerequisites to required upper division courses in accounting, economics, finance, and marketing.

   **Lower Division Required Courses (32 units)**

   Must be completed at a community college as indicated above.

   **Upper Division Required Courses (8 units)**

</tr>
</tbody>
</table>

   **Electives in Related Fields (20 units)**

   Required (4 units)
   - CIS 294 Business Computer Systems (4)

   Select one from following (4 units):
   - ECON 303, 310, 402

   Select two from following (8 units):
   - MKT 350, 351, 450, 451

   Select one from following (4 units):
   - MKT 340, 342, 346, 450, 457

2. **Printing Management Option**

   The option in printing management has been designed to give students extensive training in the graphic arts industry as well as a grasp of the principles and techniques of business management. The curriculum has been developed through close consultation with the graphic arts industry.

   **Requirements for the Major (91-94 units)**

   The Bachelor of Science degree in Industrial Technology with the printing management option requires a total of 92 units. Required for the major are 91-94 units, of which 43-46 are in graphic arts and 46 are courses from the School of Business and Economics.
The lower division program is concerned primarily with acquisition of skills and techniques of the printing industry; the upper division portion is concerned primarily with business management.

Students who have not had work experience with a printing firm will be advised to complete at least two units of UNIV (TECH) 398 (Cooperative Education).

Lower Division Required Courses (26 units)

- TECH 130 Introduction to Graphic Arts (3)
- TECH 231 Graphic Arts Paste-up (3)
- ACCT 200AB Principles of Accounting (4, 4)
- ECON 201, 202 Principles of Economics I, II (4, 4)
- FIN 205 Foundations of Business Law (4)

Upper Division Required Courses (65 units)

- TECH 331 Typography I (3)
- TECH 332 Typography II (3)
- TECH 333 Presswork Procedures (3)
- TECH 400 Written Communication Skills for Industrial Technology (4)
- TECH 431 Lithography I (3)
- TECH 432AB Typographical Layout and Design I, II (4-5)
- TECH 433 Printing Estimating (5)
- TECH 434 Printing Plant Management (4)
- TECH 435 Lithography II (3)
- ACCT 300 Managerial Accounting (4)
- ECON 303 Money, Banking, and the Economy (4)
- ECON 310 Economics of the Business Firm (4) or Technology (4)
- ECON 402 Labor Economics (4)
- FIN 303 Business Finance (4) or Production and Operations Management (4)
- MGMT 306 Production and Operations Management (4)
- FIN 305 Commercial Law (4)
- FIN 330 Credits and Collections (4) or Salesmanship (4)
- MKT 304 Principles of Marketing (4) or Office Organization and Management (4) or Case Studies in Production and Operations Management (4) or Small Business Management (4)
- MGMT 468 Small Business Management (4)

Elective (0-3 units)

- TECH 398 Cooperative Education (1-3)

Production Technology Option

The Production Technology option was created to provide technical management personnel for industry. The curriculum combines design, manufacturing, and service courses with leadership and business courses. This program was developed in close cooperation with the various local industries that employ large numbers of these professionals.

Requirements for the Major (111-121 units)

The Bachelor of Science degree in Industrial Technology with the Production Technology option requires a total of 192 units, including 111-121 units in the major, with 70-74 in technical courses and 41-47 in related courses in mathematics, natural sciences, and the School of Business and Economics.

REQUIRED PROFESSIONAL CORE (34 units)

- MATH 102 College Algebra (4)
- TECH 101 Industrial Safety for Industrial Education (3)
- TECH 200 History of Technology (3)
- TECH 29 Computers in Technology (3)
- TECH 380 Industrial Graphic Communication Technology (3)
- TECH 381 Materials, Process, and Fabrication Technology (3)
- TECH 382 Power Technology (3)
- TECH 400 Written Communication Skills for Industrial Technology (4)
- TECH 481 Practicum in Industrial Technology (4)
- TECH 489 Industrial Training Methods (4)

OTHER REQUIRED COURSES (27 or 29 units)

- CS 190 BASIC Programming (2)
- CHEM 151 Fundamentals of Chemistry I (5)
- PHYS 150 Principles of Physics (4)
- TECH 414 Robotics in Industry (2)
- TECH 482 Metrics for Industry (3)
- TECH 484 Automated Manufacturing Systems (4)
- TECH 488 Fluid Power (3)
- TECH 398 Cooperative Education (4)

REQUIRED MANAGEMENT COURSES (22 units)

- ACCT 202 Survey of Accounting (4)
- ECON 209 Applied Business and Economic Statistics I (3)
- ECON 309 Applied Business and Economic Statistics II (3)
- MATH 242 Mathematics for Business and Economics Majors (4)
- MGMT 306 Production and Operations Management (4)
- MGMT 467 Quality Control (4)
MANAGEMENT ELECTIVES

Select 4 or 8 units from following with attention to prerequisites:

- **ECON/ENGR 300** Economics for Engineers (4)
- **MGMT 460** Case Studies in Production and Operations Management (4)
- **MGMT 462** Comparative Management (4)
- **MGMT 463** Motion and Time Study (4)
- **MGMT 464** Production and Material Control (4)
- **MGMT 473** Personnel Management (4)
- **PSY 442** Industrial and Organizational Psychology (4)

*If 4 units are taken in this section, then must take 16 units from Advanced Technology section. If 8 units are taken, then only 12 units are needed from the Advanced Technology section. Total of both sections to equal a minimum of 20 units.*

Bachelor of Vocational Education Degree

The Bachelor of Vocational Education degree in Vocational Arts is offered for vocational teachers recommended by the California State Board of Examiners for Vocational Teachers. Vocational teachers interested in details regarding this program should see the BVE degree adviser in the Department of Technology.

Students on time schedules that require the completion of 500-level courses before completion of the BVE degree may petition to enroll in the following graduate level secondary education courses and apply them toward the degree:

- **EDAC 581** The Community College (3)
- **EDAC 582** Instruction in Community College (4)
- **EDAC 589** Directed Teaching in Community College (6)

The procedure to determine eligibility for enrolling in the above courses is as follows:

1. Students must present evidence of employment as an instructor in a community college. Verification may be presented in the form of a letter from the community college dean of instruction.
2. As evidence of the necessity to complete coursework related to teaching at the community college level, students must submit the evaluation sent to them by the Credentials Section of the Chancellor's Office of the California Community Colleges.

Evidence of employment and certification of 500-level course requirements described above must be submitted to the Cal State L.A. BVE degree adviser who will then certify to the registrar the student’s eligibility to enroll in the 500-level courses for baccalaureate credit.

Requirements for the Major (91-100 units)

A total of 186 units is required for the Bachelor of Vocational Education degree, of which 91-100 units are taken in the following areas:

- The Vocational Teacher Education program has a requirement of 33-42 units. Candidates should contact a university that offers the required teacher education courses in vocational education.
- The major in Vocational Education has a requirement of 58 units. Credit awarded by the state Board of Examiners for Vocational Teachers fulfills a portion of this major. Applicants for credit should contact the BVE adviser.

Minor in Industrial Studies

A minimum of 36 units is required for a minor in Industrial Studies. Included in a typical program for the minor are 3-9 units in lower division courses. However, the number of units may vary according to the selection of an area of concentration and the selection of electives.

Requirements for the Minor (36 units)

**Area of Concentration (24 units)**

At least 24 units are selected as a sequence in one of the eight areas of concentration listed for the Industrial Arts major. The normal pattern for an area of concentration consists of the introductory course and seven additional courses in the same area of industrial studies. When needed, select related courses in other areas with approval of adviser.

**Required Course (4 units)**

- TECH 300AB Foundations of Industrial Education (2, 2)

**Electives (8 units)**

Select additional technology courses, with prior approval of adviser. If a basic college course in drafting has not been taken, TECH 110 is required for 3 of the 8 units.

Certificate Program in Electronics Technology

The Department of Technology offers a credit certificate program in Electronics Technology. This program is designed to prepare individuals for technical careers in electronics manufacturing, electronics field servicing, and electronics design-assisted environments. Possible job titles include electronics technician, electronics technologist, product testing specialist, field service representative, electronics control specialist, electronics design technician, product design specialist, and technical support specialist. The program emphasizes application-oriented knowledge and hands-on experiences in electronics. Every course has a lab component that provides opportunities for knowledge and skills integration.

The program contains a total of 30 units: 15 units of required courses and 15 units of electives. Courses taken to meet requirements of this program may also be applied toward the majors in Industrial Arts and Industrial Technology. Refer to the Undergraduate Study chapter of this catalog for general regulations governing all certificate programs.

**Prerequisite (3 units)**

- TECH 321 Solid State Electronics (3)

**Requirements for the Certificate (30 units)**

**Required Courses (15 units):**

- TECH 323 Industrial Electronics (3)
- TECH 324 Linear Electronics (3)
- TECH 325 Industrial Controls (3)
- TECH 326 Digital Electronics (3)
- TECH 327 Microprocessors (3)

**Electives (select 15 units from following)**

- TECH 421, 422, 425, 426, 427, 428, 490E

Certificate Program in Fire Protection Risk Analysis and Reduction

The Department of Technology offers a credit certificate program in Fire Protection Risk Analysis and Reduction. This program is designed to offer students and individuals in the insurance industry or in private sector fire protection positions a series of professionally related courses in fire protection and fire safety. The courses complement each other and, as a whole, prepare individuals to serve as fire protection and safety specialists, inspectors, evaluators, and managers.
The program contains a total of 32 units of upper division course work. Courses taken to meet requirements of this program may also be applied toward the major in Fire Protection Administration and Technology. Refer to the Undergraduate Study chapter of this catalog for general regulations governing all certificate programs.

An associate level degree (A.A. or A.S.), or its equivalent, in related subjects, or employment in a fire protection-related position is prerequisite to enrollment in the program.

Requirements for the Certificate (32 units)

**Required Courses (32 units)**

- **TECH 352AB** Fire Protection Aspects of Building Design (4, 4)
- **TECH 451** Fire Prevention and Building Codes: Interpretation and Enforcement (4)
- **TECH 452** Fire Prevention Administration (4)
- **TECH 453AB** Fire Protection Systems Design (4, 4)
- **TECH 455AB** Fire Protection of Structural Members and Building Components (4, 4)

A fire protection administration program adviser may approve appropriate substitute courses to suit individual student needs.

**Certificate Program in Fire Service Administration**

The Departments of Technology and Political Science offer a credit certificate program in Fire Service Administration. This program is designed to offer fire department personnel who hold an associate degree an opportunity to continue their education. Course work covers effective functioning in modern fire departments: planning, prevention and disaster administration, public administration, and personnel and budgeting administration.

The program contains a total of 32 units of upper division course work: 28 units of required courses and 4 units of electives. Courses taken to meet requirements of this program may also be applied toward the major in Fire Protection Administration and Technology. Refer to the Undergraduate Study chapter of this catalog for general regulations governing all certificate programs.

An associate degree (A.A. or A.S.), or its equivalent in a related subject, or employment in a fire protection-related position is prerequisite to enrollment in the program.

Requirements for the Certificate (32 units)

**Required Courses (28 units)**

- **TECH 351AB** Fire Defense Planning (4, 4)
- **TECH 353** Fire Disaster Administration (4)
- **TECH 452** Fire Prevention Administration (4)
- **POLS 460** Foundations of Public Administration (4, 4)
- **POLS 463** Public Personnel Administration (4)
- **POLS 466** Public Financial Administration (4)

**Electives (select 4 units from following)**

- **POLS 403, 404, 430, 461, 464, 470, 472, 479**

A fire protection administration program adviser may approve appropriate substitute courses to suit individual student needs.

**The Credential Program**

**Ryan Single Subject Credential**

The Bachelor of Arts degree in Industrial Arts has been approved by the California Commission on Teacher Credentialing as the subject matter program designed to qualify students for the Single Subject Credential in Industrial and Technology Education. Students should consult advisers in both the department and the Charter School of Education.

**Ryan Designated Subjects Credential (Vocational)**

This teaching credential authorizes the holder to teach vocational classes in the subject(s) listed on the credential at preschool, grades 1-12, and adult levels. This credential requires qualifying industrial and/or professional work experience in the subject(s) listed on it. The initial preliminary part-time or full-time credential shall be issued for five years, but shall authorize service for no more than two years from the date of issuance of the credential unless the holder presents verification of having met all Level 1 requirements. Interested applicants should contact the Department of Technology Designated Subjects Credential adviser.
Courses in Engineering and Technology

Courses in Engineering (ENGR)

Lower Division Courses

100 Introduction to Engineering (1)
Introduction to profession of engineering; ethical and legal aspects of engineering profession; engineering design process; communication and computer skills in engineering. Laboratory 3 hours. Graded CR/NC.

103 Design Graphics (3)
Prerequisites: MATH 103; one year high school mechanical drawing or TECH 110. Role of engineer, work of engineer, design process; problem identification, analysis of design data, pictorial presentation, design problems; spatial relationships, empirical equations, nomography. Lecture 2 hours, laboratory 3 hours.

154 Special Topics in Engineering (1-4)
Prerequisites: Instructor consent and as needed for specific topic. Current topics of special interest to students in engineering, as announced in Schedule of Classes. May be repeated to maximum of 8 units.

201 Statics (4)
Prerequisites: MATH 207, PHYS 201. Fundamental principles of statics, resolution and composition of forces, algebraic and graphic solutions, friction, center of gravity, moment of inertia.

204 Circuit Analysis I (4)
Prerequisites: MATH 208, PHYS 203. Electric circuit analysis, transient and steady state; and introduction to frequency response.

205 Strength of Materials I (4)
Prerequisite: ENGR 201. Stresses and strains under axial, shearing, and torsional forces; flexural stresses and deflections of simple beams; columns; and combined stresses.

207 Materials Science and Engineering (4)
Prerequisites: CHEM 101, MATH 206, PHYS 201. Understanding structure and fundamental atomic and molecular mechanisms of engineering materials, atom and electron movement, physical and mechanical properties; overview of engineering materials, semiconductors, metals, ceramics, polymers, and composites.

208 Statics and Strength of Materials (4)
Prerequisites: MATH 207, PHYS 201. Principles of statics, force systems and equilibrium, structures, machines, distributed force, centroid, moment of inertia, stresses, strains, and deformations under axial, torsional, and bending loads. For Electrical Engineering students only.

210 Matrix Algebra for Engineers (2)
Prerequisites: MATH 208, PHYS 201. Introduction to calculations using vectors; matrix operation; solution of linear simultaneous equations; coordinate transformation; application to engineering problems.

211 Statistics and Probability for Engineers (2)
Prerequisites: MATH 208, PHYS 201. Introduction to calculations using probability distributions and densities; concepts in statistics; application to engineering problems.

250 Impact of Technology on Society (4)
Role of technology as both solver and creator of technical and social problems. Social implications of technological progress. Intended for all majors.

Upper Division Courses

300 Economics for Engineers (4)
Basic economic concepts, relationships between economic and engineering problems, role of interest and capital in cost minimization, analysis of financial statements, original and alternative investments, capital depreciation and replacement problems.

301 Ethics and Professionalism in Engineering (1)
Prerequisite: Senior standing in engineering. Ethical and professional standards in engineering profession; impact of engineering profession on society; professional registration and liability; government regulations and legal responsibilities.

352 Technological Aspects of Urban Environment (4)
(also listed as GEOG 358)
Prerequisite: GE natural science requirement. Problems of resource scarcity and environmental impact of technology, past, present, and future; relationships leading to an understanding of an increasingly complex global system.

454 Special Topics in Engineering (1-4)
Prerequisites: Senior standing in engineering; enrollment subject to approval of instructor in charge. Group study of selected topics not currently offered as technical electives. Intended for all majors.

490 Engineering Application of Digital Computers (4)
Prerequisites: CS 290, MATH 215. Use of FORTRAN programming and numerical solution techniques to solve engineering problems of various selected types.

499 Undergraduate Directed Study (1-4)
Prerequisite: Consent of an instructor to act as sponsor. Project selected in conference with the sponsor before registration; progress meetings held regularly, and a final report submitted. May be repeated for credit.

Courses in Civil Engineering (CE)

Lower Division Courses

190 Introduction To CAD (1)
Prerequisites: MATH 103: TECH 110 or one year of high school mechanical drawing. Use of computers in 2 and 3 dimensional drafting and pictorial representation using CAD software. Computer graphics fundamentals and descriptive geometry. Laboratory 3 hours.

195 Civil Engineering Design I (4)
Prerequisites: CE 190, CE 202, PHYS 201. Introduction to civil engineering design including problem identification, data gather-
ing, analysis, feasibility study, alternative design, decision making and communication. Lecture 2 hours, Laboratory 2 hours.

202 Plane Surveying (4)
Prerequisite: MATH 103 or satisfactory score on mathematics placement test. Principles and practices of measurement of distances, directions, and elevations; care and use of level, transit, plane table; mapping practice, and symbols. Lecture 2 hours, laboratory 6 hours.

290 Numerical Methods for Engineers (3)
Prerequisites: ENGR 210, 211. Applied numerical methods for engineers with microcomputer applications. Lecture 2 hours, laboratory 1 hour.

Upper Division Courses
303 Fluid Mechanics I (4)  (also listed as ME 303)
Prerequisites: CE/ME 320, PHYS 202. Fundamental principles and methods of fluid mechanics; thermodynamics of fluid flow; Newtonian fluids; equations of fluid flow; laminar and turbulent flow; applications.

312 Strength of Materials Laboratory I (1)
(also listed as ME 312)
Prerequisites: ENGR 205 (may be taken concurrently). Tests of engineering materials in tension, compression, bending, and torsion; verification by experiment; basic theories learned in strength of materials. Laboratory 3 hours.

313 Fluid Mechanics Laboratory I (1)
(also listed as ME 313)
Prerequisites: CE/ME 303. Experiments on fluid properties, fluid statics, conservation of mass, energy, and momentum, and fluid resistance. Laboratory 3 hours.

320 Dynamics I (4)
(also listed as ME 320)
Prerequisite: ENGR 201. Kinematics and kinetics of rigid bodies; work, kinetic energy, impulse, momentum in two and three dimensions; applications to space mechanics.

360 Structural Mechanics I (4)
Prerequisite: Grade of C or higher in ENGR 205. Analysis of determinate structures: beams, frames, and cables. Introduction to influence lines and analysis of indeterminate structures.

361 Introduction to Structural Design I (4)
Prerequisite: CE 360. Loads on buildings and load distribution in framed structures, codes and specifications, design of simple beams, columns and tension members made from steel, concrete, and timber.

364 Concrete Laboratory (1)
Prerequisites or corequisites: CE 361, CE/ME 312. Physical tests of cement, concrete aggregates, tensile strength test of cement, proportioning of concrete mixtures, slump test, compressive and flexural strength tests. Laboratory 3 hours.

366 Soil Mechanics I (4)
Prerequisites: ENGR 205; prerequisite or corequisite: CE/ME 303. Physical and mechanical properties of soils, classifications, permeability, seepage, capillarity, consolidation, settlement, stresses, pressures, strength theories, and testing methods.

368 Soil Mechanics Laboratory (1)
Prerequisites or corequisites: CE 366, CE/ME 312. Physical properties of soils, soil classification, mechanical analysis, permeability, shearing strength, and consolidation tests. Laboratory 3 hours.

370 Transportation Engineering (4)
Prerequisites: CE 202, ENGR 103, 210, 211. Fundamental principles for analysis, planning, design, and operation of transportation systems.

372 Asphaltic Materials Laboratory (1)
Prerequisite: CE/ME 312. Laboratory tests on asphalt cement and aggregates; design of asphaltic mixtures; proportioning of asphalt cement and aggregates; preparation of test specimens. Laboratory 3 hours.

381 Computer Aided Design Laboratory (1)
Prerequisites: CE 303, 361, 370. Use of computer-aided visualization, comprehension and graphical representation in planning and design of civil engineering projects.

384 Introduction to Environmental Engineering (4)
Prerequisites: CE/ME 303, CHEM 102. Introduction to environmental engineering; environmental and ecological systems; physical, chemical, and biological processes; water and wastewater treatment; air pollution; solid and hazardous wastes; regulations and impact assessment.

387 Hydraulics I (4)
Prerequisite: CE/ME 303. Introduction to open channel flow, gradually varied flow, hydraulic machinery, and introduction to unsteady flow.

402 Strength of Materials II (4)
Prerequisites: ENGR 205, MATH 215. Stress-strain relationship in three dimensions, energy principles, theories of failure, curved beams, thick wall cylinders, shear center, unsymmetrical bending, and torsion in noncircular sections.

413 Fluid Mechanics Laboratory II (1)
(also listed as ME 413)
Prerequisite: CE/ME 303; prerequisite or corequisite: CE 387 or ME 408. Experiments on subsonic and supersonic flow, free surface flow, pumps, turbines, fans, and unsteady flow. Laboratory 3 hours.

460 Structural Mechanics II (4)
Prerequisite: CE 360. Analysis of indeterminate structures; moment distribution, slope deflection, and approximation methods; three dimensional frames and long span structures.

461 Design of Steel Structures (4)
Prerequisites: CE 360, 361. Design of steel structures; lateral buckling of beams and frames, built-up beams, girders and trusses; moment connections, torsion and unsymmetrical bending; diaphragms and lateral force designs.

462 Reinforced Concrete Design I (4)
Prerequisites: CE 360, 361. Strength design of reinforced concrete structures, beams, slabs, frames, columns, footings, and retaining walls.

463 Timber and Masonry Design (4)
Prerequisites: CE 360, 361. Wood properties and design of wood structural elements, plywood and glulam products; reinforced masonry (brick and concrete) units, material properties, design of reinforced masonry structural elements.

465 Seismic Design (4)
Prerequisites: CE 460 and CE 461 or CE 462. Earthquake and ground motion characteristics, structural response to support motions, lateral force resisting systems, determination of seismic forces, design of buildings for lateral loads.
467 Foundations I (4)
Prerequisite: CE 366. Site exploration, bearing capacity, slope stability, lateral earth pressure, types of foundations, footings, caissons, piles, retaining walls, and cofferdams.

471 Highway Engineering (4)
Prerequisites: CE 370, CE 202. Introduction to principles of highway design including route location, geometric of horizontal and vertical curves, earthwork computations, drainage design; computer applications.

473 Pavement Design Laboratory (1)
Prerequisites: CE 312. Basic tests performed in evaluation of treated and untreated bases, subbases, and subgrades necessary for pavement thickness design. Laboratory 3 hours.

474 Traffic Engineering (4)
Prerequisite: CE 370. Elements of traffic engineering; vehicle, driver, and road characteristics; capacity and flow determination; signalized intersections; parking and accident studies; street, freeway, and mass transit operations.

475 Advanced Surveying (4)
Prerequisite: CE 202. Advanced surveying, including triangulation, practical astronomy, and land and construction surveying. Lecture 2 hours, laboratory 6 hours.

483 Hydrology I (4)
Prerequisite: CE/ME 303. Precipitation, evaporation, infiltration, transpiration, and runoff; methods of predicting discharge from precipitation, flood routing, and measurement of hydrologic processes.

484 Sewerage and Sewage Treatment (4)
Prerequisite: CE/ME 303. Sanitary and storm sewer systems, sewage treatment and disposal, stream sanitation, and treatment plant design.

485 Water Supply (4)
Prerequisite: CE/ME 303. Sources and collection of surface and ground water, distribution systems, water quality, water treatment plants, sedimentation, filtration, softening, and disinfection.

487 Design of Water Resources Systems (4)
Prerequisite: CE 303. Development of water resources and demand of water, availability of water, storage and control structures, conveyance system, and drainage system.

495 Civil Engineering Design Project (4)
Prerequisite: Required upper division CE courses. Planning and designing typical civil engineering project as encountered in practice; projects require integration and synthesis of acquired knowledge under given constraints. Lecture 2 hours, laboratory 6 hours.

Courses in Electrical Engineering (EE)

Lower Division Courses

210 Electrical Measurements Laboratory (1)
Prerequisite: PHYS 203. Characteristics and limitations of analog and digital electrical and electronic instrumentation, signal sources, and d-c power supplies. Analysis, tabulations, and graphical presentation of measurement data and technical report writing. Laboratory 3 hours.

211 Electric Circuits Laboratory (1)
Prerequisite: ENGR 204. Experimental verification of the laws of electric circuits. Laboratory 3 hours.

244 Digital Engineering (4)
Prerequisite: PHYS 203. Binary systems; Boolean functions and their simplification; introduction to analysis and design of digital systems.

290 Electrical Engineering Computing (3)
Prerequisites: CS 290 with C grade or higher, MATH 209, PHYS 203. Use of computers in electrical engineering; hardware, software; languages; structured graphics; word processing; curve fitting; SPICE and other electrical engineering applications.

Upper Division Courses

In addition to prerequisites listed for individual courses, ENGL 102: SPCH 150, and EE 290 are prerequisite to all upper division EE courses.

*Students subject to earlier catalogs satisfy this prerequisite with ENGL 101 or 190.

304 Electric Machines (4)
Prerequisite: ENGR 204 with C or higher grade. Electromechanical principles and applications to electric machines.

314 Electromagnetic Energy Conversion Laboratory (1)
Prerequisites: EE 304, EE 211. Laboratory investigations of electromechanical machines. Laboratory 3 hours.

317 Electronics Laboratory I (1)
Prerequisites: EE 311, EE 210, 336. Laboratory study of semiconductor devices and applications in basic circuits. Laboratory 3 hours.

320 Analog Communication Systems (4)
Prerequisite: EE 334. Bandwidth requirements of audio, video, and pulse signals; carrier communications systems; types of modulation; communication circuits; transmitters and receivers.

321 Communications Laboratory (1)
Prerequisites: EE 317; 320 (may be taken concurrently). Laboratory investigations of characteristics of communication systems and components. Laboratory 3 hours.

330 Writing for Electrical Engineers (1)
Prerequisites: Satisfactory completion of the Graduation Writing Assessment Requirement (GWAR); EE 332, 336. Writing for electrical engineers. Intensive practice in writing abstracts, reports, reviews, and other forms of technical writing. Some oral presentations required. Laboratory 3 hours.

332 Systems Analysis (4)
Prerequisites: ENGR 204 with C or higher grade; MATH 215 Linear systems analysis by Fourier and Laplace transform and state space methods; complete system response and system applications.

333 Circuit Analysis II (4)
Prerequisite: EE 332. Analysis of electric circuits with use of state variables and Laplace and Fourier transforms; two ports and filters.

334 Probability and Random Processes (4)
Prerequisite: EE 332. Random variables, bivariate probability distributions, multiple random variables, random processes, introduction to noise analysis; applications to engineering problems.

336 Electronics (4)
Prerequisite: PHYS 333. Analysis and design of small-signal and large-signal electronic amplifiers; frequency response; feedback.
340 Electronics Laboratory II (1)
Prerequisite: EE 317. Laboratory study of electronic amplifier circuits. Laboratory 3 hours.

342 Introduction to Software Engineering (4)
Software engineering concepts and techniques; structured design and modular construction; use of Pascal to demonstrate fundamentals of programming style; high-level language programming for microprocessors.

345 Microcomputer Programming (4)
Prerequisite: EE 244. Organization and structure of microcomputer systems; machine and assembly language programming; system software for microcomputers.

346 Digital Logic Laboratory (1)
Prerequisites: EE 244, EE 211. Laboratory experiments in logic design of digital systems. Laboratory 3 hours.

347 Computer Logic Design (4)
Prerequisite: EE 244. Integrated circuit digital functions; design of computer system by means of register transfer method; processor unit design; control logic design; design of general purpose computers.

360 Control Systems Theory I (4)
Prerequisite: EE 332. Analysis and design of feedback control systems by classical methods; introduction to state-variable methods.

371 Analog Electronics (4)
Prerequisite: EE 336. Multistage amplifiers; frequency and time-domain response; feedback; tuned amplifiers; distortion; power amplifiers; operational amplifiers.

372 Digital Electronics (4)
Prerequisites: EE 244, 336. Switching mode circuits; diode circuit applications; opto-electronic devices; TTL, CMOS, ECL families; logic gates; SSI, MSI, LSI circuit functions.

411 Waveguides and Transmission Lines (4)
Prerequisite: EE 437. Guided waves, waveguides, and transmission lines; design of waveguides and cavity resonator

412 Antennas (4)
Prerequisite: EE 437. Dipole, loop, aperture, and other antennas; array theory, antenna patterns, and pattern multiplication; radiation resistance, directivity, and gain: antenna synthesis and design.

418 Electromagnetics Laboratory (1)
Prerequisites or corequisites: EE 411, 412. Transmission line parameters, attenuation, reflected waves, characteristics of waveguides and waveguide parameters; antenna patterns.

420 Digital Communication Systems (4)
Prerequisite: EE 320. Analysis and design of digital communication systems; source encoders; PCM; matched filter detectors; timing considerations; baseband systems; ASK, FSK, PSK; error analysis; design considerations.

421 Coding for Communications (4)
Prerequisite: EE 320. Information theory; entropy coding; data compression; forward error detection and correction.

422 Digital Signal Processing I (4)
Prerequisite: EE 320. Sampling, A/D conversion; discrete linear system theory; Z-transform; digital filters, recursive and non-recursive designs; quantization effects; fast Fourier transform; windowing.

423 Digital Signal Processing II (4)
Prerequisite: EE 422. Discrete random signals; finite word length effects; adaptive filters; high resolution spectral estimation.

424 Fiber Optics (4)
Prerequisites: EE 320, 437. Generation, transmission, and modulation of beams, propagation of optical beams in homogeneous and inhomogeneous media; electro-optic modulation of laser beams.

425 Data and Computer Communications (4)
Prerequisite: EE 320. Data communications, data communications networks, computer communications architecture, and integrated services digital networks.

426 Digital Image Processing (4)
Prerequisite: EE 320. Digital image fundamentals, image transforms, image enhancements, image restoration and image encoding.

430 Computer Aided Network Design (4)
Prerequisites: EE 333, 336. A study of computer programs for solution of electronic and passive networks. Analysis and design of circuits using existing computer programs.

432 Power Transmission Lines (4)
Prerequisite: EE 304. Function and structure of power systems, transmission lines, generalized circuit constants, circle diagrams, system representation.

433 Electric Power System Analysis (4)
Prerequisite: EE 342. Load-flow studies, load-flow control, symmetrical components, short circuits on machines and systems, system protection, elements of system stability, economic operation.

434 Electromagnetic Energy Conversion (4)
Prerequisite: EE 304. Analysis of realistic machine performance; steady state and dynamic response of d-c, synchronous and induction machines; fractional horsepower a-c motors.

436 Analog Integrated Circuits (4)
Prerequisite: EE 371. Analysis, design, and characteristics of operational amplifiers, voltage comparators and regulators, analog-to-digital, and digital-to-analog converters.

437 Electric and Magnetic Fields (4)
Prerequisite: EE 332. Static field theory and applications: Maxwell's equations and applications; electromagnetic waves; introduction to transmission lines.

439 Digital Integrated Circuits (4)
Prerequisites: EE 336, 372. In-depth study of logic families aided by computer analysis; LSI and VLSI, circuit design; regenerative circuits; memories; A-D converters.

443 Digital and Timing Circuits Laboratory (1)
Prerequisites: EE 317; 439 (may be taken concurrently). Laboratory experiments in design of digital, timing, and pulse forming electronic circuits. Laboratory 3 hours.

445 Microprocessor Interface Design (4)
Prerequisites: EE 345, 372; 347 (may be taken concurrently). Microprocessor architecture and timing; bus structures; memory system design; parallel and serial input/output; interrupts and timers; analog-digital and digital-analog conversion.

</table>
Prerequisite: ENGR 201. Kinematics and kinetics of rigid bodies; work, kinetic energy, impulse, momentum in two and three dimensions; applications to space mechanics.

321 Kinematics of Mechanisms (4)
Prerequisites: ME 318, 319. Transmission of motion; theory of mechanisms; linkages; gears; cams; belts and chains.

323 Machine Design I (4)
Prerequisite: ENGR 205. Application of principles of mechanisms, properties of materials, and fabrication processes to design of simple machines and structural elements.

326A Thermodynamics I (4)
Prerequisites: MATH 208, PHYS 202. Concepts of equilibrium and temperature; First and Second Laws of Thermodynamics. Properties of pure substances; ideal gases; application of thermodynamic principles to closed and open systems.

326B Thermodynamics II (4)
Prerequisite: ME 326A. Application of thermodynamic principles; steam generators, engines and turbines; combustion, vapor cycles; refrigeration; internal combustion engines.

327 Manufacturing Processes (4)
Prerequisite: ENGR 207. Manufacturing properties of metals, alloys, and nonmetallic materials; solidification processes; material forming; material removal: joining processes; unconventional processing; numerical control; and automated processes.

328 Introduction to Metallurgy (4)
Prerequisites: ENGR 207, ME 326A. Theory, composition, and properties of pure metals and alloys. Alloying, fabrication, and heat treatment of metals, with emphasis on nature of metals and their alloys.

329 Metallography Laboratory (1)
Prerequisite or corequisite: ME 328. Preparation of metallic samples and study of their internal structure by microscopic techniques. Laboratory 3 hours.

397 Introduction to Project Design in Mechanical Engineering (2)
Prerequisites: Lower division ENGR core, ENGR 300, ENGL 306, ME 319. Introduction to the planning and execution of engineering design projects; ethical and economic considerations; communications and reporting.

402 Advanced Mechanics of Materials (4)
Prerequisites: ME 323, MATH 215. Basic concepts; unsymmetrical beam bending, shear flow, curved beams; energy methods; the finite-element method theories of failure; introduction to theory of elasticity, plane elastostatic problems; torsion of prismatic cylinders.

403 Aerodynamics (4)
Prerequisites: CE/ME 303, ME 319, MATH 215. Airfoil characteristics: transonic, supersonic, and viscous effects on lift and drag; power considerations, airplane performances, introduction to airplane and missile stability and control.

404 Turbomachinery (4)
Prerequisites: CE/ME 303, ME 326B. General treatment of all forms of turbomachines; energy transfer, thermodynamics of compressible flow and flow of fluids in passages and over blades of turbomachines; application to pumps, compressors, hydraulic, gas, and steam turbines.

406 Heat Transfer II (4)
Prerequisites: ME 306, CS 290. Numerical methods in conduction; theory and applications of convection; thermal radiation, condensing and boiling heat transfer; mass transfer special topics.

407 Design of Thermal Systems (4)
Prerequisites: ENGR 300; ME 206, 326B. Design in engineering practice; system simulation and optimization; economic, environmental, other constraints; practical aspects of equipment selection; thermal design literature.

408 Fluid Mechanics II (4)
Prerequisites: CE/ME 303; ME 318, 319; MATH 215. Compressible and incompressible fluid dynamics; continuity, momentum, and energy equations for viscous fluids; circulation and vorticity, Navier-Stokes equation, boundary layer theory, turbulence, two-dimensional flow, three-dimensional flow.

409 Mechanical Engineering Analysis (4)
Prerequisites: CE/ME 320, ME 306. Setup of vibration, heat transfer, fluid flow, and other mechanical engineering systems as ordinary and partial differential equations; analogies between various physical systems. Classical, transform, numerical, and computer methods of solution.

410 Control of Mechanical Systems (4)
Prerequisites: CE/ME 303, ME 306, CS 290, MATH 215. Mathematical models of dynamic systems, fundamentals of feedback control, basic control actions and devices, applications to mechanical systems.

411 Vibrational Analysis I (4)
Prerequisites: CE/ME 320, MATH 215. Analysis of free and forced vibrations with and without damping, systems with several degrees of freedom, vibration isolation, mechanical transients, torsional vibrations, natural frequency computation techniques, finite element software.

412 Strength of Materials Laboratory II (1)
Prerequisite: CE/ME 320, MATH 215. Experimental analysis of free and forced vibrations of structures and machines, with emphasis on nature of vibration and behavior of mechanical components and of complete machines. Laboratory 3 hours.

413 Fluid Mechanics Laboratory II (1)
(also listed as CE 4 13)
Prerequisite: CE/ME 312; prerequisite or corequisite: CE 360 or ME 323. Fatigue tests of materials and connections, stress concentration, photoelasticity, creep tests, shock and vibration tests, combined stresses, and individual projects. Laboratory 3 hours.

414 Machine Design II (4)
Prerequisites: ME 319, 323. Design of unit assemblies and machines; materials, safety, lubrication, and construction.

415 Air Conditioning (4)
Prerequisites: ME 306, 326B. Psychrometric properties of air, heat loads, air conditioning and heating equipment, and air distribution.

416 Energy Systems (4)
Prerequisite: ME 326B. Unconventional energy conversion systems, energy storage, thermoelectric power and refrigeration, absorption refrigeration and cryogenics.

417 Machine Analysis Laboratory (1)
Prerequisites: ME 310, 321, 323. Experimental analysis of steady state and transient characteristics of machine components and of complete machines. Laboratory 3 hours.
203 / Courses in Engineering and Technology

420 Power Plants (4)
Prerequisite: ME 326B. Survey of power generating systems, theoretical analysis of power cycles: preliminary design calculations for sizing power station equipment.

421 Dynamics of Mechanisms (4)
Prerequisite: ME 321. Application of principles of statics, kinematics, and dynamics to analysis and design of mechanisms with rotating or reciprocating masses.

422 Optimization of Mechanical Engineering Systems (4)
Prerequisite: ME 319; prerequisite or corequisite: ME 323. Design considerations of mechanical engineering systems; optimization techniques; application of existing computer programs and analytical methods to optimization of mechanical engineering systems.

425 Process Heat Transfer (4)
Prerequisite: ME 306. Computer design of single-phase heat exchangers including surface area, pressure drop, and flow arrangement. Prediction of process conditions for heat transfer systems, including pipe flow and pumping specifications.

426 Thermodynamics III (4)
Prerequisites: ME 318, 319, 326B. Application of thermodynamic principles. Thermodynamic relations, real gases and mixtures, applications of Corresponding States principle, concepts of stability and equilibrium, homogeneous and heterogeneous equilibria, Third Law.

427 Thermal Systems Laboratory II (1)
Prerequisite: ME 315; prerequisite or corequisite: ME 326B. Projects in thermal systems engineering; design and planning experiments and test procedures; instrumentation selection; data analysis and reporting.

428 Automation and Computer-Aided Manufacturing (4)
Prerequisite: ME 327. Automation of manufacturing processes, numerical control, computer-aided manufacturing, group technology, flexible manufacturing, applications of robots in industry.

481 Introduction to Robotics (4)
(also listed as EE 481)
Prerequisite: EE 438A or ME 410. General considerations of robotic manipulator; spatial description, homogeneous transformations; manipulator kinematics; inverse manipulator kinematics; motion trajectories; static forces.

491 Robotics Laboratory (1)
(also listed as EE 491)
Prerequisite or corequisite: EE/ME 481. Robot system installation; programming and languages; link kinematics and motion planning; control of the arm; automated manufacturing and computer-integrated manufacturing (CIM).

497 Mechanical Engineering Senior Project (4)
Prerequisite: ME 414 (for Mechanical Design specialization); ME 407 (for Thermal-Fluid Systems specialization). Study of engineering design processes. Selection and completion of a faculty-supervised project focusing on typical problems encountered in engineering practice and resulting in a formal report. May be repeated to maximum of 12 units.

Courses in Technology (TECH)

Design/Drafting
Electronics
Fire Protection Administration
Graphic Arts and Printing Management
Industrial Crafts
Industrial Design
Manufacturing/Metal Technology
Professional and Elective
Wood Technology

AUTOMOTIVE

100 Introduction to Automotive Mechanisms (3)
Designed to meet general industrial education needs of Industrial Arts majors. Emphasis on general mechanical concepts and related physical principles, maintenance procedures, and consumer data. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

201 Automotive Electrical System (3)
Operating principles of battery, starter, and charging and accessory circuits of automobile; skill in diagnosis, testing, and repair procedures. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

301 Fuel and Ignition Systems (3)
Prerequisite: TECH 100. Theories of design and operation of ignition and fuel system components; techniques of engine trouble shooting and tune-up procedures. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

401 Engine Rebuilding (3)
Prerequisite: TECH 404. Theory of engine design, function, and operation, skill in engine rebuilding and engine machine tool operation. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

402 Power Transmission Systems (3)
Prerequisite: TECH 100. Theory of clutch mechanisms, fluid couplings, torque convertors, automatic transmission, overdrive and rear axle assemblies: repair and service of the power train. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

403 Chassis and Suspension Systems (3)
Prerequisite: TECH 100. Theory and design of brakes, front ends, wheel alignment and balance; includes testing, trouble diagnosis, and repair procedures. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

404 Small Power Plants (3)
Prerequisite: TECH 100. Design, construction, and service operations of one-cylinder engines, outboard motors, and gas turbines; emphasis on preventive maintenance procedures and testing. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

405 Engine Design and Performance (3)
Prerequisite: TECH 401. Theory of engine design and operation; requirements of modern gasoline power plants studied and performance factors analyzed under varying operating conditions; emphasis on dynamometer testing, engine disassembly, and assembly. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

AVIATION ADMINISTRATION

340 Airline Operations (4)
Prerequisite: Upper division standing. Operational techniques and current problems confronting airlines: control tower operations, airport lighting, radio and meteorological service, reservations, ticketing, passenger trends, feasibility route studies, fire and crash protection, and air route traffic control centers. Field trips included.
341 General Aviation Operations and Administration (4)
Prerequisite: Upper division standing. Airport administration; organization, personnel, maintenance, zoning, facilities adequacy, financing, planning, operations, revenues and expenses, public relations, evaluation and safety; socioeconomic effect of airports on communities served.

342 Airline Administration (4)
Prerequisite: TECH 340 or 341. Airline operation and organization; air carrier familiarization; effect of federal regulations; industrial, financial, and economic decision-making.

343 Airport Administration (4)
Prerequisite: TECH 340 or 341. Airport operations: lighting, fuel systems, field marking, field buildings, hangars, communications, maintenance, protection/security, fire fighting, and surrounding community problems.

344 Aviation Law (4)
Prerequisite: TECH 340 or 341. Local, state, federal, and international aviation laws and regulations, safety and economic regulations; air legal systems.

345 Air Cargo (4)
Prerequisite: TECH 340 or 341. Efficient cargo handling by air mail, air express, and air freight; research and utilization, comparison of scheduled and nonscheduled operations and contract or charter operations; flight equipment, stowage, and tie-down; insurance, tariffs, and operations.

346 National Airspace System and Air Traffic Control (4)
Prerequisites: Upper division standing; TECH 340 or 341. U.S. system of air navigation and air traffic control; communications, facilities, airways, controlled and special use airspace, and authorized flight procedures.

440 Safety Factors in Aviation (4)
Prerequisite: TECH 342 or 343. Safety related to air traffic control, passenger service, maintenance, and ground/air operations; history, accidents, terminology, liability, worker performance, information sources, and safety program organization.

441 Aviation Sales (4)
Prerequisite: TECH 342 or 343. Sales in airline operation and aviation industry; research, demand analysis, advertising and promotion, traffic, and price determination.

442 Airport Planning (4)
Prerequisite: TECH 342 or 343. Concepts of airport planning and construction; community surveys related to social, economic, and physical characteristics; political influences and phases of airport construction.

443 Air Transportation (4)
Prerequisite: TECH 342 or 343. Facilities, state and federal regulations, legal characteristics, problems, and services of U.S. carriers; organizational function of Federal Aviation Agency, Civil Aeronautics Board, and U.S. Bureau of Transportation.

444 Airline Equipment and Personnel (4)
Prerequisite: TECH 342 or 343. Legislation and regulation of airport finance, capital management, operating costs, airport-airline leasing, intergovernmental relations; airport policies and practices.

445 Quality Control and Inspection in Aviation (4)
Prerequisite: TECH 342 or 343. Inspection of aircraft, ground equipment, quality standards, sampling methods, equipment use, materials testing, and processes. Field trips to commercial airline maintenance shops and aircraft industries required.

447 Senior Seminar: Aviation Problems (4)
Prerequisite: TECH 443. Selected topics about current aeronautical administration problems; interaction with aviation executives. Field trips may be required.

DESIGN/DRAFTING

110 Introduction to Drafting (3)
Application of theory and fundamentals of drafting: orthographic projection techniques applied for a basic understanding of architectural, machine, forging, casting, welding, and electronic drafting. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

311 Architectural Drafting I (3)
Prerequisite: TECH 110. Architectural design with reference to building codes, construction details, financing, and planning of residential or light commercial structures; critical analysis and comparison of various types of architecture and framing systems. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

312 Technical Illustration (3)
Prerequisite: TECH 110. Basic principles of technical illustration with emphasis on industrial techniques; introduction to newest mechanical aids, grids, and templates for production of isometric, dimetric, and perspective drawings. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

411 Tool Design (3)
Prerequisite: TECH 110. Application of principles of precision dimensioning, mechanics, and drafting to design of machines, tools, gears, and cams; selection and design of tools for mass production. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

412 Manufacturing and Construction Drafting (3)
Prerequisite: TECH 110. Introduction to structural, piping, fluid power, and sheet metal drafting, with emphasis on production drafting techniques and practices leading to production release. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

413 Architectural Drafting II (3)
Prerequisite: TECH 311 for Industrial Arts majors. Techniques of architectural rendering; application of color, shades, and shadows; use of grids and other mechanical devices; construction of architectural models. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

415 Electromechanical Drafting and Design (3)
Prerequisites: TECH 110, 120. Application of industrial methods of electromechanical drafting and design documentation through block diagrams, elementary diagrams, conversion drawings, master drawings, detail and assembly drawings, and generation of hardware. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

416 Piping Design Models (3)
Prerequisite: TECH 110. Exploration of concept of designing with models (rather than drawings) using petrochemical process piping as an exemplary learning vehicle. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

ELECTRONICS

120 DC Electronics (3)
DC circuits; hands-on experiences in using VOM and DVM for basic electrical measurement and troubleshooting. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

221 AC Electronics (3)
Prerequisite: TECH 120. AC circuits; hands-on experiences testing inductors and capacitors and using oscilloscope for vari-
ous voltage, frequency, and phase relationships measurement. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

321 Solid State Electronics (3)
Prerequisite: TECH 221. Behaviors of solid state devices (diode, BJT, MOSFET, IC) and their applications; project experiences in printed circuit board involving solid state devices. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

323 Industrial Electronics (3)
Prerequisite: TECH 321. SCR, TRIAC, DIAC, UJT, SSR; timers, optoelectronics, machine vision, operational amplifiers, and their applications; practical experiences in component testing, circuit operation, and applications. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

324 Linear Electronics (3)
Prerequisite: TECH 321. Linear circuits operations and applications; hands-on circuit testing and trouble-shooting plus applications projects. Lecture 1 1/2 hours; laboratory 4 1/2 hours.

325 Industrial Controls (3)
Prerequisite: TECH 321. Sensors and their control applications; process control and data acquisition; motor controls; practical control applications. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

326 Digital Electronics (3)
Prerequisite: TECH 321. Digital circuits with SSI and MSI chips applications; hands-on experiences in digital circuits and digital applications; trouble-shooting. Lecture 1 1/2 hours; laboratory 4 1/2 hours.

327 Microprocessors (3)
Prerequisite: TECH 326. Architecture, programming, interface, and applications of microprocessors; hands-on programming and interfacing applications. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

421 Electronic Communication I (3)
Prerequisite: TECH 321. Analog electronic communication devices and systems; hands-on experiences in various analog modulation methods. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

422 Electronic Communication II (3)
Prerequisite: TECH 421. Digital electronic communication devices and systems; hands-on experiences in various digital modulations methods. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

425 Programmable Controls (3)
Prerequisite: TECH 325. Applications, programming, and trouble-shooting of programmable logic controllers (PLC) and motion controls with servo and stepper motors; hands-on applications. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

426 Advanced Digital Electronics (3)
Prerequisite: TECH 326. Digital electronics with MSI chips plus programmable logical devices; hands-on projects. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

427 Advanced Microprocessors (3)
Prerequisite: TECH 327. Interfacing microprocessors with various electronic devices; hands-on applications, trouble-shooting skills, and project experiences. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

428 Computer Assisted Design (CAD) in Printed Circuit Board (PCB) Design and Manufacturing (3)
Prerequisite: TECH 326. Principles and uses of CAD software in productivity improvement of printed circuit board design and manufacturing processes; CAD experiences and field trips. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

**FIREPROTECTION ADMINISTRATION**

350 Fire Protection and the Community (4)
Relationship of fire service and fire protection needs to critical urban issues, affirmative action, public education, communication with minority groups, interdepartmental and intradepartmental relations.

351AB Fire Defense Administration (4, 4)
Community fire defense needs, facilities, master plan development, federal assistance. Application of ISO Grading Schedule and Guide for Determining Fire Flow Requirements; impact of insurance. Field trips required.

352AB Fire Protection Aspects of Building Design (4, 4)
Building construction including fire resistive materials, protective systems, testing of fire assemblies, heat and smoke detection devices, high-rise structures; plan checking. Field trips required.

353 Fire Disaster Administration (4)
Fire disaster protection organization; disaster laws; establishment of central communications and field control centers; support groups, manpower, and equipment; overhaul and security; disaster and civil defense relationships.

355 Fire Protection Laws (4)
Authority for fire department operations; pertinent federal, state, and local laws; fire department liability, member and citizen liability; fire department trial boards.

451 Fire Prevention and Building Codes: Interpretation and Enforcement (4)
Prerequisite: TECH 352AB. Interpretation of building, fire prevention, and State Fire Marshal codes; review of building plans; enforcement procedures and techniques; case studies and problems in code enforcement.

452 Fire Prevention Administration (4)
Prerequisite: TECH 451. Organization of Fire Prevention Bureau; laws and regulations, building and fire code administration; coordination with governmental and other organizations; functions of Fire Prevention Bureau; planning and training.

453AB Fire Protection Systems Design (4, 4)
Theories, principles, and types of fire protection systems; design and hydraulic calculations for sprinkler systems; review of fire protection systems plans.

455AB Fire Protection of Structural Members and Building Components (4, 4)
Fire protection of structural members, building components, and materials; their reaction under tension, compression, and shear during fire exposure.

**GRAPHIC ARTS AND PRINTING MANAGEMENT**

130 Introduction to Graphic Arts (3)
(also listed as JOUR 130)
General industrial education course emphasizing the importance of graphic communications in our culture. History, theory, and laboratory-shop practice of varied printing processes, including letterpress, lithography, silk screen, and bookbinding. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

231 Graphic Arts Paste-up (3)
Prerequisite: TECH 130 or instructor consent based on previous training or occupational experience. Copy preparation, selection
of paper and processes for printed material; cold type, paste-up techniques, reproduction proofs, and camera use emphasized. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

331 Typography I (3)
Prerequisite: TECH 130 or instructor consent based upon previous training or occupational experience. Intensive study of typography with emphasis on problems of type composition, make-up, imposition, and lock-up. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

332 Typography II (3)
Prerequisite: TECH 331. Principles of typography involved in machine composition; emphasis on operation and maintenance of slug casting machines. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

333 Presswork Procedures (3)
Prerequisite: TECH 130. Letterpress principles and procedures on platen and cylinder presses, make-ready, inks, automatic feeders. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

431 Lithography I (3)
Prerequisite: TECH 331. Lithographic theory and practice: copy preparation, camera, plate preparation, presswork, chemistry of lithography, photographic principles, color theory, printing inks and paper. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

432 Typographic Layout and Design I (4)
Prerequisite: Course in typography. Basic principles of design applied to products of the printer; thumbnail sketches, rough and finished layouts in solution of copy-fitting problems; selection of type, paper, and processes for reproduction.

432B Typographic Layout and Design II (5)
Prerequisite: TECH 432A. Continuation of 432A with stress upon layout and design of complete projects; use of working dummies to illustrate problems of printing production; elements of book design.

433 Printing Estimating (5)
Prerequisite: TECH 435. Elements of estimating all classes of printing and lithography involving type composition, presswork, binding, paper, photo engravings, and cost-finding problems.

434 Printing Plant Management (4)
Prerequisite: Senior standing in Printing Management option. Organizational and management of all departments in the printing plant; application of industrial management factors to the departments; inspection trips to study production methods and organization of local printing plants.

435 Lithography II (3)
Prerequisite: TECH 431. A continuation of TECH 431, with additional emphasis on camera, plate preparation, and press operation. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

438 Advanced Paste-Up (3)
Prerequisite: TECH 231. Advanced copy preparation techniques for makeup production for commercial, newspaper, and magazine printing; computerized composition equipment operation including markup and programming methods. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

INDUSTRIAL CRAFTS
448 Plastics Technology (3)
History, materials, processes, and application of plastics technology; principles and procedures of modern application in industry. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

INDUSTRIAL DESIGN
144 Introduction to Industrial Design (3)
Creative problem-solving and aesthetics, application through two- and three-dimensional exploratory exercises in color, texture, shape, form, structure, and space through simple industrial design problems. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

MANUFACTURING/METAL TECHNOLOGY
160 Introduction to Metalworking (3)
Basic metal properties, metalworking processes, and hand and machine tool applications. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

261 Sheet Metal Layout and Development (3)
Prerequisite: TECH 160. Sheet metal layout and development, cutting, forming, fastening, finishing; industrial applications of these processes. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

361 Welding Technology (3)
Prerequisite: TECH 160. Inert gas, oxyacetylene, and electric arc welding, cutting, brazing, and testing theory and practice. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

362 Heat Treating and Metallurgy (3)
Prerequisite: TECH 160. History, techniques and principles of forging, heat treating, and metallurgy. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

461 Molding and Casting (3)
Prerequisite: TECH 160. Techniques, principles, practices of metal molding and casting. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

463 Metal Machining I (3)
Prerequisite: TECH 160. Construction, utilization, and laboratory applications of the engine lathe, shaper, and milling machines. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

464 Metal Machining II (3)
Prerequisite: TECH 160. Advanced study of engine lathe, shaper, milling machines, grinding machines; emphasis on special setups and applications. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

465 Automated Metal Machining (3)
Prerequisite: TECH 160. Advanced study of metal machining with emphasis on semi-automatic, automatic tape controlled, and grinding operations. Lecture 1 1/2 hours, laboratory 4 1/2 hours. May be repeated to maximum of 9 units.

PROFESSIONAL AND ELECTIVE
101 Industrial Safety for Industrial Education (3)
Industrial safety related to industry and school shops; history, accident facts, liability, psychology, worker performance, sources of information, and industrial methods of operation.

200 History of Technology (3)
Human accomplishment in areas of discovery, invention, and industry from prehistoric times to present.

280 Tools for the Artist (3)
Safe, efficient, and appropriate operation, adjustment, and maintenance of power and hand tools used by artist. Not appropriate for Industrial Technology majors or minors; Art majors and minors have enrollment preference.
291 Computers in Technology (3)
Prerequisite: CS 190 or any programming language course. Introduction to computers with applications for the technologist. Designed to assist students in becoming literate in topics applicable to technological areas such as production, manufacturing, and CAD/CAM. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

300AB Foundations of Industrial Education (2, 2)
Philosophy and development of industrial education; its present place and function in elementary and secondary education.

380 Industrial Graphic Communication Technology (3)
Concept of graphic communication technology in industrial education. Emphasis on practices in modern industry; examination of recent and projected technological development.

381 Materials, Process, and Fabrication Technology (3)
Technologies in conversion of raw materials to products; essential concepts and manipulative operations for cutting, forming, fastening, finishing, and testing wood, ferrous and nonferrous metals, plastics, and ceramic materials.

382 Power Technology (3)
Power technology concept in industrial education; survey of available energy, various forms of power conversion: utilization of power in modern industry and in industrial production processes.

385 Orientation to Vocational Education (3)
Prerequisite: Admission to BVE program. Introduction to requirements and content of BVE degree program including Swan Bill (career experience credit) evaluation.

395 Community Service in Technology (1-4)
Prerequisites: Eight units of upper division TECH courses, approval by faculty sponsor in consultation with EPIC Director; acceptance by a community agency. Participation in work of community agency or activity utilizing professional skills in community service. Graded CR/NC. May be repeated to maximum of 8 units.

400 Written Communication Skills for Industrial Technology (4)
Prerequisites: ENGL 102 & UNIV 400. Written communication skills for the professional needs of Industrial Technology students with emphasis on education, public, industrial, business education and public sector requirements.

414 Robotics in Industry (2)
Prerequisite: Upper division or graduate standing. History, terminology, economics, applications, and implications of industrial robots in the work place.

454LP Special Topics in Industrial Studies (1-4)
Prerequisites: Upper division standing; others as needed for specific topic. Current issues, problems, and interests in technology. May be repeated to maximum of 9 units as subject matter changes.

480 Comprehensive General Shop (3)
Prerequisite: Completion of required foundation program for Industrial Arts major. General shop movement, organization and operation of multiple laboratory programs, design and construction of projects and aids; laboratory organization and management procedures. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

481 Practicum in Industrial Technology (4)
Prerequisites: Completion of an area of concentration and instructor consent. Application of industrial studies concepts and skills to design, production, and/or serving of commercial and industrial products and devices. Lecture 2 1/2 hours, laboratory 4 1/2 hours. May be repeated to maximum of 8 units.

482 Metrics for Industry (3)
Adapting industrial operations to metric system; standards and application; development of instructional materials; special problems for industrial educators.

483AB Construction of Teaching Aids (2, 2)
Development for industrial education of instructional aids such as cutaway models, mock-ups, assignment boards, checking devices for course coverage, blown-up models, electrical identification panels, procedure boards, specimens, and project materials. Activity 4 hours.

484 Automated Manufacturing Systems (4)
Applications and theories of advanced production systems in automated manufacturing environments; emphases include direct and computer numerical control, computer integrated manufacturing CAD/CAM; flexible manufacturing; group technology. Lecture 2 1/2 hours, laboratory 4 1/2 hours.

485 History, Philosophy, and Organization of Industrial Education (3)
Prerequisites: TECH 300AB, upper division standing, Industrial Arts major or minor or Vocational Education major. History and philosophy of industrial education in Western civilization; comparative study of development and organization of industrial education in the U.S.

486 Seminar: Vocational Education (1-4)
Prerequisite: Upper division standing. Problems in maintaining and modifying vocational education programs. Emphasis on changing philosophies, concepts, practices, legislation, technical content, instruction, organization, and management. May be repeated with instructor consent.

487 Seminar: Comprehensive Career Education for Industrial Studies and Vocational Education (3)
Prerequisite: Upper division standing in the Department of Technology. Development, organization, and implementation of comprehensive career education for industrial arts and vocational education; emphasis on concepts, techniques, strategies, implementation, levels of instruction, leadership, administration, and organization. May be repeated to maximum of 9 units as subject matter changes.

488 Fluid Power (3)
Prerequisite: PHYS 150. Application of principles of industrial hydraulic and pneumatic circuits; emphases on basic laws and operation of pressure, directional control valves, and actuators as they apply to manual and automated circuits. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

489 Industrial Training Methods (4)
Training approaches for industrial/technical management personnel; overview of design and management of the training function in the modern work world, instructional design, and delivery systems.

490 Advanced Problems in Industrial Studies (1-9)
Prerequisites: Completion of an area of concentration and instructor consent. Advanced problems in a specific industrial arts area of concentration. Lecture 1 1/2 hours, laboratory 4 1/2 hours for 3 units; other unit values use same ratio. Each industrial arts area of concentration may be repeated for 9 units.
490A Automotive  490D Drafting  
490E Electronics  490G Graphic Arts  
490M Metal Technology  490W Wood Technology  

499 Undergraduate Directed Study (1-4)  
Prerequisite: Consent of an instructor to act as sponsor. Project selected in conference with sponsor before registration; progress meetings held regularly, and final report submitted. May be repeated for 8 units of credit.

WOODTECHNOLOGY

170 Introduction to Wood Technology (3)  
Woodworking industries, their origins, developments, technical aspects, and influences upon human occupational, social, cultural, recreational, and consumer activities; safety, common properties, characteristics, structure, shaping, finishing processes of wood and its industrial usage. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

271 Wood Construction Technology I (3)  
Prerequisite: TECH 170. Physical and mechanical properties of wood and its architectural usage; application of uniform building code to construction of dwellings. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

272 Wood Construction Technology II (3)  
Prerequisite: TECH 170. Cabinetmaking and mill work procedures used in industry; design, joinery, hardware, and manufacture of plywood and veneers. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

372 Wood Finishing and Preservation (3)  
Prerequisite: TECH 170. Protection of wood against deterioration by fire, moisture, insects, fungus, and weather; surface enrichment emphasized; experiments and application of protective materials including finishes. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

374 Wood Shaping Processes (3)  
History, materials, processes, and application of wood carving; principles and procedures of modern application in industry. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

471 Lamination, Forming, Bonding (3)  
Prerequisite: TECH 170. Processes of lamination and forming of wood and other materials. Equipment and bonding materials; laminating and forming characteristics of various materials; laboratory includes design and construction. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

472 Wood Manufacturing Technology I (3)  
Prerequisite: TECH 170. Structure, identification, defects, curing, grading, joining, and fastening of commercial woods and related materials; design and construction of furniture and accessories. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

473 Wood Manufacturing Technology II (3)  
Prerequisite: TECH 472. Mass production of products using wood as a basic material; design and development of jigs, fixtures, and tooling; design and production of items. Lecture 1 1/2 hours, laboratory 4 1/2 hours.
SCHOOL OF HEALTH AND HUMAN SERVICES

Departments and Programs within the School

Department of Child and Family Studies
Department of Communication Disorders
Department of Criminal Justice
Department of Health and Nutritional Sciences
Department of Nursing
Department of Physical Education
Department of Social Work
Youth Agency Administration Program

(American Humanics, Inc.)
SCHOOL OF HEALTH AND HUMAN SERVICES

SCHOOL OFFICE
Fine Arts 133
Phone: (213) 343-4600

The School of Health and Human Services is committed to addressing critical urban issues within an interdisciplinary and multicultural framework that respects and promotes the integration of teaching, research and public service. The faculty prepare both undergraduate and graduate students to assume positions that will contribute to the health and wellness of children, adults, families, and communities. Health is defined within the school as a multifaceted concept which includes physical, spiritual, biological, psychological, and socioeconomic components. Each program has a unique approach to human services while also addressing this broad concept of health.

Numerous academic options are available. These include audiology, child development, community and environmental health, criminal justice, criminalistics, dietetics, exercise science, family studies, nursing (including advanced practice), nutritional science, occupational health and safety, physical education, social work, and speech-language pathology.

School Emeriti Faculty

Family Studies and Consumer Sciences: Patricia Wright Ellis, Sumiye N. Onodera, Lilly Shen.

The two credit certificate programs listed below are interdisciplinary in nature and are open to interested students in all majors throughout the campus. These programs are administered by the School of Health and Human Services.

Certificate Program in Applied Gerontology

The School of Health and Human Services offers a credit certificate program in Applied Gerontology designed to enhance the preparation of individuals interested in health and human service disciplines to increase their knowledge, skills, and effectiveness as practitioners with older populations, particularly the multiethnic and multicultural elderly. The program is designed for a wide range of students including those seeking a career change and those in the field seeking to enhance their promotional opportunities. A total of 28 units is required, including 16 units of core courses, 4 units of field experience, and 8 units of electives.

Admission to the program requires upper division standing, formal application to the school, a screening interview with the program director covering the applicant’s prior academic work, and approval of the individual student program. The program requires 24 units of upper division course work including 16 units of required core courses, 4 units of electives, and 4 units of field experience. Students must earn a minimum C grade point average to qualify for the certificate. Refer to the Undergraduate Study chapter of this catalog for general regulations governing all certificate programs.

Requirements for the Certificate (24 units)

Required Courses (16 units)

CHDV 412 Issues in Child Abuse, Neglect, and Family Violence (4)
COMD 457 Communicating with Abused Children and Violent Families (4)
COUN/PSY 403 Psychosocial Dynamics of Child Maltreatment and Family Violence (4)
SW 456 Multidisciplinary Teams, Child Maltreatment, and Family Violence (4)

Field Experience (minimum 4 units) - Select from following:
**COMD 578 COUN 495
EDSP 499, **503 HHS 495
PSY 485, **595 SW 495

**open to graduate students only

Electives (select at least 4 units from following with adviser approval)

COUN 406, 460, 480 CRIM 439
CHDV 421, 423 NURS 470
NURS/SW 455 PSY 412AB, 426, 464
SOC 421, 440, 482, 483 SW 476

Placement is arranged for each discipline through the offering department or division. Students in schools other than Health and Human Services will arrange field experience with their major adviser and the certificate program coordinator, as appropriate.

Electives (select 8 units from following with major adviser approval)

COUN 405AB, 479 ENGL/PHIL 383
HHS 445 NTRS 451
NTRSPS 458 HS 462
*PSY 462 SOC 322B, *450, 452, 453
*if not taken in the core

Certificate Program in Child Maltreatment and Family Violence

The School of Health and Human Services offers an interdisciplinary credit certificate program designed to provide individuals in health and human service disciplines or other related fields with expanded knowledge and formalized education, multidisciplinary training, and field experience in child abuse and domestic violence. Course work includes theoretical, conceptual, and practical experiences leading to a multidisciplinary view of the relevant issues, processes, and systems involved. The goal of the program is to prepare individuals to better serve the needs of abused children and violent families and to qualify for career positions for which multidisciplinary training is essential.

Admission to the program requires upper division standing, formal application to the school, a screening interview with the program director covering the applicant’s prior academic work, and approval of the individual student program. The program requires 24 units of upper division course work including 16 units of required core courses, 4 units of electives, and 4 units of field experience. Students must earn a minimum C grade point average to qualify for the certificate. Refer to the Undergraduate Study chapter of this catalog for general regulations governing all certificate programs.

Certificate Program in Child Maltreatment and Family Violence

The School of Health and Human Services offers an interdisciplinary credit certificate program designed to provide individuals in health and human service disciplines or other related fields with expanded knowledge and formalized education, multidisciplinary training, and field experience in child abuse and domestic violence. Course work includes theoretical, conceptual, and practical experiences leading to a multidisciplinary view of the relevant issues, processes, and systems involved. The goal of the program is to prepare individuals to better serve the needs of abused children and violent families and to qualify for career positions for which multidisciplinary training is essential.

Admission to the program requires upper division standing, formal application to the school, a screening interview with the program director covering the applicant’s prior academic work, and approval of the individual student program. The program requires 24 units of upper division course work including 16 units of required core courses, 4 units of electives, and 4 units of field experience. Students must earn a minimum C grade point average to qualify for the certificate. Refer to the Undergraduate Study chapter of this catalog for general regulations governing all certificate programs.

Requirements for the Certificate (24 units)

Required Courses (16 units)

CHDV 412 Issues in Child Abuse, Neglect, and Family Violence (4)
COMD 457 Communicating with Abused Children and Violent Families (4)
COUN/PSY 403 Psychosocial Dynamics of Child Maltreatment and Family Violence (4)
SW 456 Multidisciplinary Teams, Child Maltreatment, and Family Violence (4)

Field Experience (minimum 4 units) - Select from following:
**COMD 578 COUN 495
EDSP 499, **503 HHS 495
PSY 485, **595 SW 495

**open to graduate students only

Electives (select at least 4 units from following with adviser approval)

COUN 406, 460, 480 CRIM 439
CHDV 421, 423 NURS 470
NURS/SW 455 PSY 412AB, 426, 464
SOC 421, 440, 482, 483 SW 476

Placement is arranged for each discipline through the offering department or division. Students in schools other than Health and Human Services will arrange field experience with their major adviser and the certificate program coordinator, as appropriate.

Electives (select 8 units from following with major adviser approval)

COUN 405AB, 479 ENGL/PHIL 383
HHS 445 NTRS 451
NTRSPS 458 HS 462
*PSY 462 SOC 322B, *450, 452, 453
*if not taken in the core
Courses in Health and Human Services (HHS)

Lower Division Course

154L,P Selected Topics in Health and Human Services (1-4)
Prerequisite: As needed for specific topic. Current topics of special interest to students in health and human services. May be repeated to a maximum of 12 units as subject matter changes.

Upper Division Courses

395 Community Service in Health and Human Services (1-4)
Volunteer work with the Visitation Alliance Program, working in conjunction with the Superior (probate) Court, dealing with adult conservatees utilizing professional skills in a learning environment. May be repeated to maximum of six units. Graded CR/NC.

445 Management for Aged or Physically Handicapped (4)
Prerequisites: EDSP 460, PSY 150. Management of resources to meet functional needs of aged and/or physically handicapped. Emphasis on adaptation of family living situations, life styles, work processes, and equipment in home. Field trips included.

495 Field Work in Health and Human Services (1-4)
Prerequisite: Admission to a Health and Human Services credit certificate program. Work with community service organizations; placement arranged by appropriate certificate program coordinator. May be repeated to maximum of 8 units. Graded CR/NC.
CHILD AND FAMILY STUDIES

School of Health and Human Services

DEPARTMENT OFFICE
Engineering and Technology A535
Phone: (213) 343-4590

Child Development, the empirical study of the growth and development of the individual from birth through adolescence, provides a foundation of understanding and skill for students interested in professional careers providing various services to children and families, such as day care centers, community agencies, special education programs, and recreational activities. It prepares students for advanced study of child and family development as well as for professional education courses leading to the Multiple Subject teaching credential and Special Education credentials.

Students with a background in child and family development are able to pursue professional opportunities in many fields other than teaching, including working with children in hospitals, developing social and educational programs outside of schools, production of children's films/books, and magazines; educational television; children's toys and educational software; and child advocacy at local, state, and national levels.

The Faculty
Professor: Ann M. Bingham-Newman (Chair).
Associate Professors: Bruce L. Campbell, Valerie C. Kehm, Marlene Zepeda.
Assistant Professors: Anupama Joshi, Kaveri Subrahmanyam.

Bachelor of Arts Degree

The Bachelor of Arts degree in Child Development includes a choice between two options: Option I, which prepares students to work as administrators in preschools, day care centers or youth agencies or to gain entry into careers with children and families other than teaching; and Option II, a Commission-approved subject matter program for the Multiple Subject credential.

Students entering the program should plan their course work with a Child and Family Studies adviser. Students seeking the credential should consult the Charter School of Education. Current information is available in the Child and Family Studies office. Students who fulfill the requirements for the Multiple Subject credential by completing Option II are also eligible for the BCLAD/CLAD credential if they fulfill additional requirements.

Requirements for the Major (100-151 units)

Option I, the General option, requires a core of 68-69 units of lower and upper division courses plus an area of specialization. The Parenting specialization requires an additional 32 units; the Early Childhood Program Administration specialization requires an additional 35 units; the Youth Agency Administration specialization, requires an additional 32-38 units, and the Child Life/Hospitalized Child specialization requires 33 units. Option II, the Multiple Subject Credential option, which is intended for students pursuing the Multiple Subject credential, requires 146-151.

Students should plan their programs with careful attention to prerequisites for upper division courses. Some courses that meet general education requirements are included in the core. Students should complete these requirements and other general education requirements before proceeding with the major.

Grades of C or higher are required in all courses used to meet major requirements.

Options

- Option I: General Option (100-107 units)

***Students following Specialization should take SW 476.

+ Indicates course meets G.E. requirement.

Departmental Honors Program

The child development major includes an honors program for students who have completed at least 16 upper division units in the Child Development core, maintained a minimum 3.5 grade point average, passed the Graduation Writing Assessment Requirement, and are approved by the Child and Family Studies advisers. Applications are available in the Child and Family Studies office.
A. Parenting (32 units)

| CHDV 431 | Family Dynamics and Parenting (4) |
| CHDV 432 | Social Dynamics of Parenting (4) |
| CHDV 433 | Approaches to Parent Education (4) |
| CHDV 434 | Group Dynamics For Parent Education (4) |
| CHDV 435 | Parenting in High Risk Situations (4) |
| CHDV 441 | Men, Women, and Children in Transition (4) |
| CHDV 470 | The Family and the Law (4) |

DIRECTED ELECTIVE (4 units) with approval of adviser

B. Early Childhood Program Administration (35 units)

| ART 435 | Exploring the Arts in Early Childhood (4) |
| CHDV 422 | Administration of Preschool and Day Care Programs (5) |
| CHDV 433 | Approaches to Parent Education (4) |
| CHDV 495 | Directed Field Experience (4, 2) |
| EDEL 432 | Teaching Mathematics for Early Childhood (4) |
| EDEL 473 | Storytelling For Teachers (4) |
| ENGL 430 | Children’s Literature (4) |
| SPCH 490 | Studies in Children’s Speech Arts (4) |
| EDSP 400 | Foundations of Special Education (4) |
| EDSP 416 | Working With Families of Young Handicapped Children (4) |
| MUS 400 | Development of Perception in Musical Arts (4) |

C. Youth Agency Administration (32-38 units)

With careful planning, students can earn the credit certificate in Voluntary Youth Agency Administration concurrently with this specialization. Interested students should contact the American Humanics program director, E&T A510, (213) 343-4580. The certificate program is described in the section entitled Youth Agency Administration at the end of this chapter.

Required Core (8 or 12 units)

*SW 476 Child Welfare (4)
YAA 290 Introduction to Youth Agency Administration (4)
YAA 490 Volunteer Management and Fund Raising (4)

*If not taken in the core.

Accounting and Budgeting (4 units)

| ACCT 202 or POLS 466 |

Community Organization (4 units)

| CRIM 439 or PSY 445 or SW 482 |

Counseling and Group Work (4 units)

Select one from following: COUN 406, PSY 405, SOC 420, SW 461 or 475

Personnel Management (4 units)

Select one from following: MGMT 473, POLS 463, POLS 472, PSY 446

Public Relations and Communication (4 units)

Select one from following: SPCH 396, POLS 470, PSY 420, SPCH 430, 489*, 496, SOC 424

*Students who select General Education Theme #6 cannot use SPCH 469 for the Public Relations and Communication Block.

Internship (4-6 units)

| YAA 495 (must be arranged through American Humanics. Inc. executive director) |

D. Child Life / Hospitalized Child (33 units)

| ART 445 | Art as Therapy (4) or |
| MUS 491 | Music as Therapy in Human Development (4) |
| CHDV 426 | Hospitalized Child/Child Life Program (5) |
| CHDV 441 | Men, Women and Children In Transition (4) |
| CHDV 470 | The Family And The Law (4) |
| EDSP 400 | Foundations in Special Education (4) |
| NTRS 416 | Child Nutrition (4) |
| SOC 453 | Social Aspects of Death and Bereavement (4) |
| SPCH 489 | Intercultural Communication (4) |

* Option II: Multiple Subject Teaching Option (146-151 units)

Students who select this option complete a separate core which is common to all Multiple Subject teaching options. That common core contains 106-111 units and is described in the Undergraduate Study chapter. In addition to the core, the 63-68 units listed below are required in the option. Refer to the undergraduate Charter School of Education chapter of this catalog for regulations governing all teaching credential programs.

Required Courses (106-111 units)

Refer to the Undergraduate Study chapter of this catalog.

Major Courses (20 units)

| CHDV 140 | Child Development (4) |
| CHDV 200 | Observational Techniques For The Study Of Children (4) |
| CHDV 300 | Infant Development (4) |
| CHDV 412 | Issues in Child Abuse, Neglect and Family Violence (4) |
| COUN 460 | Laws Relating to the Child and Family (4) |
| SW 476 | Child Welfare (4) |
| CHDV 496 | Senior Seminar (4) |
| *CHDV 497 | Senior Honors Thesis* (4) |

*Open only to Child Development Honors Program participants.

Human Development Depth Area (20 units)

| CHDV 320 | The Young Child (4) |
| CHDV 430 | Parent -Child Development Over the Family Life Cycle (4) |
| CHDV 443/PSY 433 | Psychology of Cognitive Development (4) |
| CHDV/SPCH 494 | Communication Behavior in Childhood (4) |
| COMD 456 | Development of Verbal Behavior in Children (4) |
| EDEL 462 | Dynamics of Play (4) |

Electives (23-28 units)

Professional education courses are recommended. See a credential adviser in the Charter School of Education.

GENERAL EDUCATION UPPER DIVISION THEME (12 units)

Select one general education upper division theme and complete one course in each of the three areas within that theme. GE theme courses and credential courses listed above are not part of the major but are included in program requirements.

Minor in Child Development

The minor in Child Development provides a foundation for students majoring in other fields who wish to prepare for child-oriented careers in community development, recreational services, business, management, early childhood law, family studies, speech or media studies or to fulfill requirements for a children’s center permit. A total of 36-37 units is required for this minor. Prerequisites are
required for some courses; students should consult with an adviser.

**Requirements for the Minor (36-37 units)**

Required courses (12 units)

- CHDV 200 Observational Techniques for the Study of Children (4)
- CHDV 300 Infant Development (4)
- CHDV 320 The Young Child (4)

Select one from following (4 units)

- CHDV 321, 421, PSY 326
- SOC 440

Select three from following (12 units)

- ART 435
- EDEL 462
- MUS 490
- TA 301 or 306

Select one from following (4-5 units)

- CHDV 425 (4) or CHDV 426 (5)

Select one from following (4 units)

- CHDV 340
- PSY 412B
- SOC 322A

**Certificate Program**

The Child Development degree offers course work acceptable toward fulfillment of requirements for the interdisciplinary credit certificate program Child Maltreatment and Family Violence, offered by the School of Health and Human Services.

**The Credential Program**

Option II in the B.A. degree in Child Development has been approved by the California Commission on Teacher Credentialing for examination the Multiple Subject credential.

Students who fulfill the requirements for the Multiple Subject credential by completing the Child Development major are also eligible for the BCLAD credential if they meet the following additional requirements:

- Demonstrate spoken and written fluency in the Spanish language.
- Demonstrate knowledge of and sensitivity to the culture of Latino children.

Students should consult advisers in both the Child Development office and the Charter School of Education. Refer to the undergraduate Charter School of Education chapter of this catalog for regulations governing all teaching credential programs.

**Courses in Child Development (CHDV)**

**Lower Division Courses**

**120 Intimate Relationships (4)**

(also listed as SOC 120)

Principles of interaction in intimate relationships; development of knowledge, self awareness, control of choices, family life cycle, roles and interpersonal growth; sexuality, love, parenting, conflict, stress, starting and ending relationships.

**140 Child Development (4)**

Study of child growth and development from conception to adolescence with emphasis on the process through which the individual moves toward physical, mental, social, and emotional maturity. Direct observation of children stressed.

**154 L,P Selected Topics in Child Development (1-4)**

Prerequisites: As needed for specific topic. Special topics of interest to students in child development as announced in Schedule of Classes. May be repeated as subject matter changes.

**200 Observational Techniques for the Study of Children (4)**

Prerequisite: CHDV 140. Overview of observational techniques for theoretical interpretation and use of observational data. Observation required weekly.

**Upper Division Courses**

**300 Infant Development (4)**

Prerequisite: CHDV 200. Theory and dynamics of physical, cognitive, and affective development from conception to 2 1/2 years. Lecture 3 hours, activity 3 hours.

**320 The Young Child (4)**

Prerequisite: CHDV 200. Theoretical and empirical bases for understanding the child from 2 1/2 to 7 years. Lecture 3 hours, participation with children in supervised setting 3 hours.

**321 Urban Family: Contemporary Trends (4)**

Developmental processes and related problems of marital, parental, and family functioning in the urban setting.

**340 Middle Childhood and Adolescence (3)**

Prerequisite: CHDV 200. Theoretical and empirical bases for understanding children from 6 to 18 years. 3 hours lecture, 3 hours activity.

**412 Issues in Child Abuse, Neglect, and Family Violence (4)**

Overview of legal, health, social, psychological, educational, and cultural meaning of child maltreatment and family violence; field observations at appropriate agencies and sites.

**421 Marriage and Family Dynamics (4)**

Prerequisite: CHDV/SOC 120. Dynamic processes of constructive family interaction.

**422 Administration of Preschool and Day Care Programs (5)**

Prerequisite: CHDV 320 or 426. Organization and management of finances, staff, equipment, physical space, and programs. Meets State Health Department requirements for licensing as a director. Lecture 4 hours, activity 2 hours.

**423 Parenting (4)**

Prerequisite: CHDV/SOC 120 or CHDV 200. Aspects and problems of parenting from conception to adulthood.

**424 Divorce, Remarriage and Children (4)**

Prerequisites: CHDV/SOC 120, CHDV 140. Impact of divorce and remarriage on children through the life cycle. Family systems dynamics, stress, conflict, custody, visitation, attachment issues, support networks, and coping.

**425 Ethnic Identity and Awareness in Children and Families (4)**

Prerequisite: CHDV 340 of PSY 412B. Children's development of ethnic identity and awareness; transmission of differing cultural patterns within family systems and social institutions; working with issues of prejudice, stereotyping, and ethnic pride.

**426 Hospitalized Child/Child Life Program (5)**

Prerequisites: CHDV 200; extensive experience in nursery school setting or CHDV 320. Working with hospitalized children from a nonmedical perspective; interaction and activity planning; play therapy. Activity six hours in hospital setting.
430  Parent-Child Development Over the Family Life Cycle (4)
Prerequisites: CHDV 200; CHDV/SOC 120. Interplay of personal and family developmental cycles; developmental tasks of parents, children, and mutual tasks; congruence and differences.

431  Family Dynamics and Parenting (4)
Prerequisites: CHDV 200, CHDV/SOC 120. Dynamics of family system over generations; impact of family systems dynamics on parents and parent-child relationships; dynamics of communication, cohesion, games, triangles, individualization, and role reversal.

432  Social Dynamics of Parenting (4)
Prerequisites: CHDV 200, CHDV/SOC 120. Influence of ethnicity, religion, social class, family size, timing of parenting, divorce, peer groups, schools, work, and other diverse social environmental factors on parenting dynamics.

433  Approaches to Parent Education (4)
Prerequisites: CHDV 200, CHDV/SOC 120. Various approaches to parenting; popular literature and media about parenting; uses of popular literature by parent-educators to empower parents: social, developmental, behavioral, and psychological models.

434  Group Dynamics for Parent Education (4)
Prerequisite: instructor consent. Culminating course in Parent Educators certificate program. Dynamics of parenting groups, especially didactic and growth models; group leadership, composition, goals, cohesion, and processes; placement in ongoing parenting group. Lecture 2 hours, laboratory 6 hours.

435  Parenting in High Risk Situations (4)
Prerequisites: CHDV 200, CHDV/SOC 120. Analysis of multiproblem families focusing on parenting in difficult situations: teen parents, drugs and alcohol problems, gangs, chronic illness, divorce, death, family violence, mental illness, and parental empowerment.

437  Families, Children and Crisis (4)
Prerequisites: CHDV/SOC 120, CHDV 140. Models of family stress/crises including family systems and family management theories; developmental aspects of stress/crises for families and children; individual, family and community resources.

440  Personal and Family Financial Management (4)
Family financial concerns from the consumer viewpoint: banking, savings, and credit; home financing; insurance; investment; income tax; wills and estate planning.

441  Men, Women and Children in Transition (4)
Prerequisite: CHDV 431. Examination of changes in the lives of men, women and children within the family context due to political, social, and economic systems; public policy and advocacy for children and families.

443  Psychology of Cognitive Development (4)
(also listed as PSY 433)
Prerequisite: PSY 412A. Evolution of cognitive processes from simple organisms to adult human beings. Piaget's Theory: development of dialectic operations, perceptual and language development and apprehension of reality; relationship of social development to cognitive development.

454LP  Special Topics in Child Development (1-4)
Prerequisite: Varies with specific topic. Current topics of special interest to CHDV students as announced in Schedule of Classes. May be repeated for 12 units of credit.
COMMUNICATION DISORDERS

School of Health and Human Services

DEPARTMENT OFFICE
King Hall B106
Phone: (213) 343-4690

DEPARTMENT PROGRAMS: The Department of Communication Disorders offers a baccalaureate degree (designated as a professional major) and a master's degree (designated as a professional major) in the areas of Speech-Language Pathology and Audiology. Students choose one of these areas at the master's level. Completion of the graduate degree meets the academic requirements for licensure from the Medical Board of California and for the Certificate of Clinical Competence from the American Speech-Language-Hearing Association.

ACCREDITATION: The graduate programs in Speech-Language Pathology and Audiology are accredited by the American-Speech-Language-Hearing Association.

The Faculty
Emeriti: Robert L. Douglass, Mary W. Huber, Lorraine Monnin.
Professors: Masako M. Matsuda, Patricia Savich.
Associate Professors: May E. Chin, Betty L. McMicken (Chair), Lisa C. O'Connor, Miles Peterson.
Adjunct Assistant Professors: David Alessi, Margaret H. Briggs, Mark E. Krugman.

Bachelor of Arts Degree in Communicative Disorders

The Bachelor of Arts degree in Communicative Disorders (or its equivalency in coursework and clinical practicum) must be completed by all students planning to concentrate at the graduate level in either audiology or speech-language pathology. For options offered after completion of all requirements, including the clinical phase of the program, see the Graduate section of this catalog.

Students who have started the major at another campus or completed majors in other fields must consult with a department adviser before beginning the program.

Majors in Communicative Disorders must meet personal and professional standards established by the department which include, but are not limited to, the following: acceptable speech, language and hearing; the capacity to accept instruction; willingness to assume professional responsibility for the welfare of clients; and the ability to relate well to clients, peers and faculty. Students must also possess qualities of personal integrity, maturity, and sound professional judgment.

CREDENTIAL INFORMATION: Students planning to meet the requirements for the Clinical Rehabilitative Services credential should include the following courses as electives: EDCI 300A, EDFN 413, EDSP 400 AND EDSP 403.

In order to qualify for the credential, COMD 480 (Directed Teaching in Communicative Disorders) and COMD 490AB (Language, Speech and Hearing Services in the Public Schools) must be completed.

An adviser should be consulted regarding the fulfillment of related course work for the credential as well as for professional licensure and certification requirements. The following G.E. courses will enrich the background of health care professionals and may be used to meet professional licensure and certification requirements:
ANTH 250, BIOL 155 OR 165, CHEM 158, CHS 111, MICR 151, PHYS 150, PSY 160, SOC 202, MATH 102,103.

All students planning a major in communicative disorders must see a faculty adviser in the department before beginning the program.

There are two phases to the BA program; the preclinical and the clinical (requirements for the clinical phase are discussed below).

Requirements for the Major (73 units). A total of 73 units is required for the degree

Lower Division (3 units)
COMD 160 Voice and Diction (3)

Upper Division (70 units)
Core Curriculum (28 units)
COMD 400 Peripheral Hearing Mechanism (3)
COMD 401 Audiological Acoustics (2)
COMD 402 Pure-Tone Audiometry (3)
COMD 450 Introduction to Communication Disorders (4)
COMD 460AB Speech and Language Acquisition in Children (3, 3)
COMD 461 Descriptive Phonetics (4)
COMD 462AB Speech-Language Science (3, 3)

Students must earn a C or better in each of the core courses. Repetition of a core course is limited to a maximum of two attempts in the entire core. Students who receive two failing grades (D or F) in the core courses will be terminated from the major.

Preprofessional Courses (34 units)
COMD 300 Writing Skills in Communication Disorders (4)
COMD 403 Speech Audiology (3) or
COMD 407 Pediatric Audiology (3)
COMD 420 Rehabilitative Audiology (3)
COMD 425 Management of the Hearing Impaired Child (3)
COMD 470 Clinical Processes in Communication Disorders (4)
COMD 471 Language Disorders in Children (4)
COMD 472 Voice and Articulation Disorders (4)
COMD 476 Diagnostic Procedures in Speech and Language Disorders (3)
COMD 477 Professional Practices and Clinical Management Strategies (2)
COMD 478AB Clinical Procedures in Communication Disorders (2, 2)

Related Courses (8 units)
COUN 405AB Theoretical and Developmental Aspects of Behavior (4, 4) or
PSY 412AB Psychology of Human Development Childhood and Adolescence (4, 4)

CLINICAL PHASE: All entering preclinical students must complete all of the basic core with a C or better, and COMD 470, 471, 472 and 476 with a B or better in order to qualify for acceptance into the clinical phase of the program. The clinical phase consists
of a management class (COMD 477) and both client contact courses (COMD 478 AB).

Students must apply to the department for admission to the clinical phase. Application forms are available in the clinic office. Enrollment in clinical coursework is not permitted prior to admission to the clinical phase.

Should the student not fulfill the requirements for admission to the clinical phase of the program, COMD 454 or 458 may be substituted for COMD 478AB and an approved elective may be substituted for COMD 477 in order to receive the Bachelor of Arts degree.

Certificate Program

The department offers course work acceptable toward fulfillment of requirements for the interdisciplinary credit certificate in Child Maltreatment and Family Violence offered by the School of Health and Human Services.

Courses in Communication Disorders (COMD)

Lower Division Course

160 Voice and Diction (3)
Essentials of normal speech with training in voice production, articulation, pronunciation, projection, and related oral skills.

Upper Division Courses

300 Writing Skills in Communication Disorders (4)
Prerequisite: Satisfactory completion of Graduation Writing Asses-sment Requirement (GWAR). Corequisites: COMD 470, 471, or 472. Technical writing for the audiologist and speech-language pathologist.

400 Peripheral Hearing Mechanism (3)
Anatomy, physiology, and pathology of peripheral hearing mechanism, including theories of hearing and introduction to central auditory nervous system.

401 Audiological Acoustics (2)
Acoustical characteristics of sound, decibel notation as the unit of measurement for signal intensity, characteristics and calibration of portable pure-tone audiometers, measurement of ambient noise in test rooms.

402 Pure-tone Audiometry (3)
Pure-tone threshold measurements, interpretation of audiograms, introduction to basic diagnostic audiological battery of tests, screening audiometry, functional hearing losses.

403 Speech Audiometry (3)
Prerequisites: COMD 400, 401, 402, 461. Information concerning speech perception by hearing impaired, auditory perceptual skills, and assessment of hearing with speech as the test signal; applications of diagnostic data.

406 Audiology for Teachers (4)
Prerequisite: Admission to special education program. Anatomy, physiology, and pathology of peripheral hearing mechanism; acoustic characteristics of sound; pure-tone and speech audiometry; application of audioligic data to programs for profoundly deaf, deaf-blind, or multihandicapped children.

407 Pediatric Audiology (3)
Prerequisites: COMD 400, 401, 402, 460AB, 461. Theories, principles, and methods of assessing hearing of preschool children; hearing disorders unique to children; differential diagnosis; case management.

409 Industrial Audiology (3)
Prerequisites: COMD 402, instructor consent. Protection of industrial workers from noise; noise-induced hearing losses, noise analyses, reduction of noise by engineering and administrative control; personal ear protection.

420 Rehabilitative Audiology (3)
Prerequisites: COMD 403 or 407; 461. Issues in rehabilitative audiology and effective strategies to assist the hearing impaired adjust to their hearing losses; rehabilitative techniques include speech reading, communication training, counseling, hearing aid use, and psychological aspects.

425 Management of the Hearing Impaired Child (3)
Prerequisites: COMD 400, 401, 402, 460AB, 461. Issues concerning the habilitative management of hearing impaired children, including assessment and remediation of expressive and receptive speech and language skills, auditory training, and educational management.

440 School Audiometry for Nurses (4)
Prerequisite: Public Health Nurse or School Nurse Credential Candidate. Anatomy, physiology, pathology of ear; acoustics of sound and instrumentation; school hearing conservation program; pure tone screening and audiometric testing, including audiogram interpretation and immittance testing.

450 Introduction to Communication Disorders (4)
Introduction to causes, characteristics, and remediation of common communication disorders, focusing primarily on children. Designed for majors in related fields and as a beginning course for Communicative Disorders majors.

452 Communication Disorders of the Neurologically Handicapped and Nonverbal Child (3)
Prerequisite: COMD 450. Sensorimotor, cognitive, symbolic dysfunctions affecting speech-language of neurologically handicapped child, including cerebral palsied; habilitation in educational and clinical settings; alternate means of communication for the nonverbal child.

453 Dysphasia Treatment (4)
Prerequisites: COMD 462A, 462B. Evaluation and treatment of swallowing disorders including those associated with neurological and oncological problems in children and adults.

454L,P Selected Topics in Communication Disorders (1-4)
Prerequisite: Varies with topic. Current issues and interests of students in communication disorders and related disciplines as announced in Schedule of Classes. May be repeated for 12 units of credit as subject matter changes.

455 Natural Processes of First Language Acquisition (4)
Theories and principles of first language acquisition from infancy through adolescence including structures and role of language; social, cognitive, and cultural factors related to language development; and language evaluation procedures.

456 Development of Verbal Behavior in Childhood (4)
Acquisition of language forms and speech behavior; sequence of language/speech functions and cognitive/social development in preschool years: multietnic and multicultural considerations.

457 Communicating with Abused Children and Violent Families (4)
Maltreatment and children’s communication development/dysfunction relative to social-emotional and cognitive development; communication demands in judicial, legal, and intervention processes; principles for interacting with and interviewing maltreated children.
458 Research Methods in Communication Disorders (4)
Prerequisites: Upper division standing, COMD 300, 450. Methods of scientific inquiry in communication disorders including an overview of statistical procedures, basic research design, evaluating clinical data, and critiquing published clinical research.

459 Communication Intervention for Infants and Toddlers (4)
Prerequisites: COMD 450, 460A. Assessment and intervention techniques utilized for communicatively at-risk infants and toddlers; emphasizes working in multidisciplinary team setting with families; includes observations.

460A Speech and Language Acquisition in Children (3)
Acquisition of language in children from birth to two years, including syntax, phonology, semantics, and pragmatics; genetic and environmental variables; multiethnic, multicultural considerations.

460B Speech and Language Acquisition in Children (3)
Prerequisite: COMD 460A. Continuing study of language acquisition in children from two years to school age, including syntax, phonology, semantics, and pragmatics; genetic and environmental variables, multiethnic, multicultural considerations.

461 Descriptive Phonetics (4)
(also listed as SPCH 461)
Phonetic-phonemic analysis of language; study of physical and physiological bases of speech.

462A Speech-Language Science: The Speech Mechanism (3)
Anatomy and physiology of body structures employed in speech production with emphasis on respiration, phonation, resonance, and articulation.

462B Speech-Language Science: The Nervous System (3)
Anatomy and physiology of the human nervous system related to speech and language.

470 Clinical Processes in Communication Disorders (4)
Prerequisites: COMD 450, 460A. Examination of therapy as a logical process of problem-solving. Includes collection and structuring of information, development of hypotheses, designing appropriate individual goals. Lecture 3 hours, laboratory 3 hours.

471 Language Disorders in Children (4)
Prerequisites: COMD 450, 460AB, 461, 462AB. Etiology and differential characteristics of language disorders in children, assessment considerations and strategies for intervention with mildly handicapped and severely handicapped populations. Lecture 3 hours, laboratory 3 hours.

472 Voice and Articulation Disorders (4)
Prerequisites: COMD 450, 460A, 461, 462A. Voice and articulation disorders, both functional and organic, including speech disorders associated with orofacial anomalies; assessment and therapeutic approaches. Lecture 3 hours, laboratory 3 hours.

476 Diagnostic Procedures in Speech and Language Disorders (3)
Prerequisites (may not be taken concurrently): All following COMD core courses, each with a minimum C grade: COMD 402, 470, 471, 472; passing WPE score; COMD 300; approved application submitted quarter preceding enrollment in course. Procedures for studying and evaluating characteristics of communication handicapped persons; multiethnic, multicultural considerations. Lecture 2 hours, laboratory 3 hours. May be repeated once for credit.

477 Professional Practices and Clinical Management Strategies (2)
Prerequisites: All core courses plus COMD 470, 471, 472, and 476. Legal and ethical considerations as well as requirements for practice in various work settings; principles and procedures for management of individuals with communicative disorders, with consideration for cultural and linguistic variations.

478AB Clinical Procedures in Communication Disorders (2, 2)
Prerequisites: COMD 476 (may not be taken concurrently); approved application submitted quarter preceding enrollment in course; grade of C or better in all COMD courses taken prior to admission to clinic; satisfaction of departmental standards. Supervised clinical experience with communicatively handicapped children and adults. Satisfactory completion of two consecutive quarters is required.

480 Directed Teaching in Communication Disorders (6)
Prerequisites: EDCI 300A, directed teaching requirements, approval of COMD faculty. Supervised practicum in diagnosis and treatment of speech, language, and hearing disorders in public school itinerant sites and public school severe language disorders classes. Graded CR/NC only.

490AB Language, Speech, and Hearing Service in Public Schools (1, 1)
Corequisite: One unit must be taken concurrently with each quarter of EDSP 407. Role of language, speech, and hearing specialist; implementation of appropriate techniques and procedures for the public school setting.

499 Undergraduate Directed Study (1-4)
Prerequisite: Consent of an instructor to act as sponsor. Project selected in conference with sponsor before registration; progress meetings held regularly and final report submitted. May be repeated for 6 units of credit.
CRIMINAL JUSTICE

School of Health and Human Services

DEPARTMENT OFFICE
King Hall D1045
Phone: (213) 343-4610

The Department of Criminal Justice offers programs leading to the Bachelor of Science degree in Criminal Justice to serve career development in such areas as justice systems administration, investigative sciences, legal procedures, and security systems. Also offered is an undergraduate minor for students majoring in other fields. Students interested in a Master of Science degree in Criminal Justice or a Master of Science degree in Criminalistics are referred to the Graduate Programs section. The Criminalistics degree builds upon undergraduate preparation in chemistry.

The Faculty
Professors: C. Allen Barrett, Deborah R. Baskin (Chair), Thell E. Glascock.
Associate Professors: Anthony Longhetti, Ira Sommers.

Bachelor of Science Degree in Criminal Justice

The Bachelor of Science degree in Criminal Justice is designed for either preservice or inservice students who wish to prepare for or advance in careers in criminal justice.

Limitations on Transfer Credit

Students intending to transfer to Cal State L.A. from a community college to continue work toward a Bachelor of Science degree in Criminal Justice are advised to complete general education requirements and the six lower division core courses equivalent to those in the Cal State L.A. curriculum prior to transferring.

Requirements for the Major (88 units)

A total of 192 units is required for the Bachelor of Science degree in Criminal Justice, including a minimum of 88 units within the major. All students must complete a required core of 24 quarter units in lower division courses. The total upper division requirement includes 64 units, distributed among courses in criminal justice and related fields. A student's major program may contain no more than 24 units of credit for any combination of prior experience, work experience, community service, or directed study.

Lower Division Required Courses (24 units)

- CRIM 101 Introduction to Administration of Justice (4)
- CRIM 126 Concepts of Criminal Law (4)
- CRIM 221 Legal Aspects of Evidence (4)
- CRIM 222 Principles and Procedures of Justice System (4)
- CRIM 223 Community Relations (4)
- CRIM 235 Elements of Investigation (4)

Upper Division Required Courses (32 units)

- CRIM 301A Administration of Criminal Justice Systems (4)
- CRIM 301B Written Communication in Criminal Justice (4)
- CRIM 405 Ethics and Professional Responsibility (4)
- CRIM 408 Methods of Supervision (4)
- CRIM 428 Contemporary Criminal Procedures (4)
- CRIM 439 Juvenile Law and Procedure (4)
- CRIM 447 Drug Control Systems (4)
- CRIM 461 Physical Evidence (4)

Electives in Criminal Justice (12 units)

With major adviser approval, students plan 12 units of electives in criminal justice which may be chosen to further diversify their program or grouped in a career-interest selection as listed below.

A. Justice Systems Administration
B. Investigative Sciences
C. Legal Procedures
D. Security Systems

Electives in Related Fields (20 units)

With major adviser approval, students select 20 units of electives in related fields, or a certificate program (minimum 20 units) in a related field, or a minor in a related field (minimum 20 units), from the following disciplines:

- Anthropology (ANTH)
- Chicano Studies (CHS)
- Computer Information Systems (CIS)
- Computer Science (CS)
- Economics (ECON)
- Educational Foundations (EDFN)
- English (ENGL)
- Finance (FIN)
- Health Science (HS)
- History (HIST)
- Latin American Studies (LAS)
- Management (MGMT)
- Mathematics (MATH)
- Nursing (NURS)
- Pan-African Studies (PAS)
- Physical Education (PE)
- Political Science (POLS)
- Sociology (SOC)
- Technology (TECH)

Minor in Criminal Justice

The minor in Criminal Justice is designed for students majoring in other fields who wish to prepare for careers relating to the administration of criminal justice. A total of 32 units is required.

Requirements for the Minor (32 units)

Lower Division Required Courses (16 units):
- CRIM 101, 126, 222, 223

Upper Division Required Courses (16 units):
- CRIM 301A, 428, 436, 439
Certificate Program in International Criminal Justice Administration

The Department of Criminal Justice offers a credit certificate program designed to prepare criminal justice practitioners from foreign nations for management and supervisory positions within criminal justice agencies in their own countries. Course work includes theoretical, technical, and conceptual experiences leading to a balanced view of contemporary thinking in the field. The program is applicable toward the bachelor's degree in criminal justice. A total of 24 upper division units in criminal justice is required; students must earn a minimum C average to qualify for the certificate.

Admission to the program requires upper division standing (completion of 90 quarter units). Individual courses within the program have prerequisite criminal justice courses; therefore, students are advised to plan their program carefully with the assistance of a department adviser. Refer to the Undergraduate Study chapter of this catalog for general regulations governing all certificate programs.

Requirements for the Certificate (24 units)
Required courses (minimum 24 units)
Select from following:

CRIM 361 Criminal Investigation Management (4)
CRIM 401 Innovative Management Systems (4)
CRIM 404 Unusual Occurrence Management (4)
CRIM 408 Methods of Supervision (4)
CRIM 423 Community Relations Program Management (4)
CRIM 436 Correctional Institution Management (4)
CRIM 437 Traffic Management Systems (4)
*CRIM 454 Special Topics in Criminal Justice (4)
*when appropriate

In addition, the department offers course work acceptable toward fulfillment of requirements for the interdisciplinary credit certificate in Child Maltreatment and Family Violence offered by the School of Health and Human Services.

Courses in Criminal Justice (CRIM)

Lower Division Courses

101 Introduction to Administration of Justice (4)
History and philosophy of law enforcement and administration of justice in America; examination of various agencies, systems, and subsystems; role expectations and their interrelationships: theories of crime, punishment, and rehabilitation; ethics, education, and training for professionalism in the system. CAN AJ 2

126 Concepts of Criminal Law (4)
General provisions of criminal law; history and development; elements of a crime, parties to a crime; defenses to criminal culpability; elements of specific crimes; crimes against person, property, public place, and safety. CAN AJ 4

221 Legal Aspects of Evidence (4)
Leading rules and principles of exclusion and selection: nature of evidentiary matter; burden of proof, discovery; nature and effect of presumptions; examination, competence, and privilege of witnesses; proof of authenticity and contents of writings and other documentary evidence; constitutional provisions. CAN AJ 6

222 Principles and Procedures of Justice System (4)
Prerequisite: CRIM 101. Role and responsibilities of each segment within administration of justice system; law enforcement, judicial, corrections; subsystem procedures from initial entry to final disposition; interrelationships of segments within system.

223 Community Relations (4)
Development of positive and professional relationships between criminal justice agencies and the public, with emphasis on role expectations.

235 Elements of Investigation (4)
Basic investigative methodology; function of detective for justice system objectives; modus operandi; sources of information, public and private sectors; surveillance; personal identification; interviewing and interrogation techniques; preliminary and follow-up investigations. CAN AJ 8

Upper Division Courses

301A Administration of Criminal Justice Systems (4)
Prerequisite: Lower division Criminal Justice required core or agency experience and instructor consent; corequisite: writing competency evaluation and remedial courses if required. Administrative theory and practice in criminal justice systems, with emphasis on organization and functions of specialized subunits; analysis and improvement of writing skills.

301B Written Communication in Criminal Justice (4)
Prerequisites: Satisfactory completion of the Graduate Writing Assessment Requirement (GWAR), CRIM 301A. Fundamentals of report writing and data processing (gathering, analyzing, producing, and evaluating). Graded ABC/NC.

361 Criminal Investigation Management (4)
Prerequisite: CRIM 235. Case management, assignment of personnel, decisions about commitment of resources, and strategies for handling citizen and patrol-detective-technician interfaces.

362 Investigative Photography (4)
Prerequisite: ART 287. Use of photography in investigative processes; courtroom presentation of evidential photographs.

363 Interviewing Techniques (4)
Prerequisites: CRIM 235, PSY 150, upper division standing. Interviewing philosophy and concepts; effective techniques in handling witnesses, victims, informants, children, the mentally disturbed, inmates, criminal suspects; scientific equipment, legal aspects, psychological and physiological considerations, judicial process.

365 Personal Identification Systems (4)
Prerequisites: CRIM 235, 301A. Types of personal identification systems that serve investigative function in public agencies; existing and potential resources; analysis of modus operandi, fingerprints, voiceprints, psychological profile; visual identification.

395 Community Service in Criminal Justice (I-3)
Prerequisites: Approval by faculty sponsor in consultation with EPIC Director, acceptance by community agency. Participation in community service work. May be repeated to maximum of 6 units. Graded CR/NC.

401 Innovative Management Systems (4)
Prerequisites: CRIM 301A, upper division standing, instructor consent. Contemporary management concepts; management system adaptation for implementation in criminal justice agencies.
404 Unusual Occurrence Management (4)
Prerequisite or corequisite: CRIM 301A. Control techniques for management of unusual occurrences disruptive to community, including civil disturbance, confrontations, insurrection, disasters; planning for special events.

405 Ethics and Professional Responsibility (4)
Nature and scope of misconduct, special risks and responsibilities, legal and institutional controls, concepts of professionalism, codes of ethics, conflict of interest, and problems in exercise of discretion.

406 Comparative Justice Systems (4)
Exploration and comparison of foreign criminal justice systems, foreign innovations in crime prevention, corrections, investigation, administration, and training.

406 Methods of Supervision (4)
Prerequisite: CRIM 301A. Responsibility of first-level supervisors in management: motivation, leadership, morale, discipline, communication, counseling, interviewing. Resolution of complaints and grievances; performance appraisal, decision-making, planning, and training.

409 Forensic Science (4)
Prerequisite: Upper division standing. History, concepts, and services of the forensic sciences to the criminal justice system, including criminalistics, forensic pathology, forensic dentistry, forensic anthropology, and forensic psychiatry.

410 Sex Crimes Investigation (4)
Prerequisite: Upper division standing. Steps in sex crime investigation; recognition of offenders, procedures used to identify and apprehend them; motivating influences in sex crimes; investigators’ responsibilities; community resources for victims; and victims’ rights.

423 Community Relations Program Management (4)
Prerequisites: CRIM 223, 301A. Managerial aspects of planning, programming, and operation for effective community relations by agencies in criminal justice system.

428 Contemporary Criminal Procedures (4)
Prerequisites: CRIM 126, 221. Bill of Rights and federal criminal procedure; application of due process clause of Fourteenth Amendment; exclusionary rule; case law reconciling civil rights and security of community.

429 Administrative Law (4)
Areas of civil law of particular significance to administrators in criminal justice systems, including administrative law, municipal corporation, torts, sovereign immunity, labor law, and agency relations.

435 Contemporary Vice Problems (4)
Philosophy and theory of vice control; community standards; organized crime; statutory and case law; suppression, investigation, and prosecution; special consideration of laws concerning gambling, prostitution, and sex crimes.

436 Correctional Institution Management (4)
Objectives of correctional administration; laws, records, public relations, personnel, and relationships to programs, including custodial and noncustodial interrelationships and divisions; physical plant and security, employment, and care and treatment program.

437 Traffic Management Systems (4)
Theory and functions of highway traffic administration activities, coordination among agencies. Supervision of traffic, accident control, including reconstruction and cause analysis.

439 Juvenile Law and Procedure (4)
California Juvenile Court Act, Youth Authority, other legislation governing juvenile delinquency; juveniles’ rights; California law developments including probation procedures and institutional care.

447 Drug Control Systems (4)
Prerequisites: CRIM 221, upper division standing. Drugs and drug abuse; investigation methods, including undercover informants; field identification, surveillance, statutory and case law; presentation of cases in court.

454 Special Topics in Criminal Justice (4)
Current topics of special interest in Criminal Justice as announced in Schedule of Classes. May be repeated to maximum of 20 units of credit as topic changes.

460 Law Enforcement, Public Schools, and the Community (4)
Prerequisite: Upper division standing. Criminal justice majors must have adviser approval to enroll for credit. Interrelationships between law enforcement, school, and the community; juvenile delinquency, crime prevention and control, vice offenses, narcotic addiction, and other behavior problems.

461 Physical Evidence (4)
Prerequisite: CRIM 235. Collection, preservation, and utilization of physical evidence by investigator. Use of physical evidence in judicial processes.

475 Contemporary Security Administration (4)
Prerequisite: Upper division standing. Methods and techniques of security protection for buildings, personnel, and business, industrial, and technological equipment.

476 Retail Commercial Security (4)
Analysis and assessment of commercial security protection systems, including theft controls, legal authority and liability, safeguards for physical structures and contents.

482 Analyzing Criminal Justice Data (4)
Prerequisite: Upper division standing. Computer-generated analysis of criminal justice systems: budgeting protocols, simulation modeling and forecasting.

483 Computer Techniques in Criminal Justice (4)
Prerequisite: Upper division standing. Computer applications for criminal justice agencies: data types, collection, and format development. Use of programs to abstract and analyze data.

491 Contemporary Studies in Criminal Justice (1-8)
Prerequisite: Upper division standing or professional experience (with instructor consent). Investigation and study of contemporary problems in field. Various subjects as announced. May be repeated for 8 units as subject matter changes.

499 Undergraduate Directed Study (1-4)
Prerequisites: Upper division standing, 2.5 grade point average; ability to assume responsibility for independent work and to prepare written and oral reports. Project selected in conference with sponsor before registration; progress meetings held regularly. May be repeated to maximum of 8 units.
Courses in Traffic and Safety Education (TSE)
Upper Division Courses

Upperdivision standing is prerequisite to enrollment in all upper division TSE courses.

473 Driver Training Programs (2)
Prerequisites: TSE 477 (may be taken concurrently), California drivers license, prior approval of department. Study and utilization of dual-control vehicles for use in driver training programs. Field experience required.

474 Driver Education Curriculum (2)
Prerequisites: California driver’s license, prior approval of department. Teacher preparation for driver education programs. Field experiences required.

475 Accident and Safety Studies (3)
Accident causes and analysis, education for safe living.

477 Traffic Simulator Instruction (2)
Prerequisite: Prior approval of department. Study and utilization of traffic simulators for use in driver training programs.

479 Organization and Supervision of Safety and Driver Instruction (2)
Prerequisite: TSE 474. Analysis of programs, supervision problems, evaluation requirements, financial and personnel responsibilities, and program organization.
HEALTH AND NUTRITIONAL SCIENCES

School of Health and Human Services

DEPARTMENT OFFICE
Physical Education 236
Phone: (213) 343-4740

Programs in Health and Nutritional Sciences include Bachelor of Science degrees in Health Science and Nutritional Science as well as a Master of Arts degree in Health Science and a Master of Science degree in Nutritional Science. Students in the Health Science programs are prepared for professional service in health education, the health sciences and safety studies fields, and for advancement in allied health positions such as teaching in public and private health agencies; environmental, safety, public health, and consumer health investigators, specialists in alcohol and drug programs. The nutritional science programs prepare students for careers in nutrition, dietetics, food service administration, and food science. The master’s programs are described in the Graduate Programs section.

The Faculty

Professors: Carlton Blanton, John Orta, Chick F. Tam, Vicente S. Zapata.

Associate Professor: Constantina Skanavis.

Assistant Professors: Laura Calderon, Teodoro V. Millon, Behjat A. Sharif.

Bachelor of Science Degree in Health Science

The Bachelor of Science degree in Health Science prepares students for leadership and educational roles in community health and occupational health and safety.

Requirements for the Major (124-128 units)
The Bachelor of Science degree in Health Science, is available with a choice of two options: Community Health and Occupational Health and Safety, Both options require a minimum of 186 units. The major consists of 87-91 units (depending on the option selected), plus 37 units of lower division prerequisites which must be completed prior to enrollment in upper division courses. The core consists of 47 units.

Required Prerequisites (37 units)

Bachelor of Science Degree in Nutritional Science

Students may select one of two available options: the Nutrition option (which also prepares students to enter dietetics internships approved by the American Dietetic Association) or the Coordinated Dietetics Program (CDP) option. Graduates with the Coordinated Dietetics Program (CDP) option are fully eligible for membership in the American Dietetic Association and to take the national examination to become a Registered Dietitian (R.D.).

Requirements for the Major (102-103 units)
The Bachelor of Science degree in Nutritional Science requires a total of 198 units. The major requires 102-103 units, 66 in the core and 36 or 37 in an option.

A minimum C grade is required in all courses used to meet major requirements.

Preparatory Courses (46 units)
ACCT 202 Survey of Accounting (4)
ANTH 250 Cultural Anthropology (4) or
SOC 201 Principles of Sociology (4)
BIOL 200AB Human Anatomy and Physiology I, II (5, 5)
CHEM 151, 152 Fundamentals of Chemistry I, II (5, 5)
CHEM 353 Nutritional Aspects of Biochemistry (5)
ECON 150 Economics for the Citizen (4)
MIGR 151 Introductory Microbiology (5)
PSY 150 Introductory Psychology (4)

Required Core Courses (66 units)
NTRS 210 Foundations of Food (4)
NTRS 281 Food for Life (2)
NTRS 310 Meal Management (3)
NTRS 312 Cultural Foods of California (4)
NTRS 317 Fundamentals of Human Nutrition (3)
NTRS 410 Experimental Foods (5)
NTRS 411 Evaluation of Current Nutritional Concepts (3)
NTRS 413 Maternal and Child Nutrition (4)
NTRS 414AB Institutional Food Service (4, 4)
NTRS 415AB Nutrition and Diet Therapy (4, 4)
NTRS 417AB Advanced Nutrition (3, 3)
NTRS 417L Nutritional Assessment Laboratory (1)
NTRS 418 Community Nutrition (3)
NTRS 434 Management Principles in Dietetics (5)
NTRS 455 Nutrition Computing Skills (3)
NTRS 471 Professional Writing in Nutritional Science (4) or
HS 311 Technical Writing for Health Science (4)

• Coordinated Dietetics Program Option (CDP)
The Coordinated Dietetics Program (CDP) option is designed for persons seeking both academic course work and supervised practice required to qualify to take the examination to become a Registered Dietitian. Students who complete the degree requirements in the CDP are eligible for membership in the American Dietetic Association (ADA). The four-year curriculum integrates academic preparation and clinical experience needed by the generalist in dietetics. Upon passing the national examination administered by the ADA, graduates are recognized as Registered Dietitians (R.D.). Postbaccalaureate students enrolled in the graduate program in Nutritional Science also are eligible to apply for admission to the CDP.

Eligibility
Students who seek preliminary admission to the CDP must fulfill the following criteria:

• Eligible for admission to Cal State L.A.
• Minimum 2.75 overall grade point average (on a 4.0 scale).
• Minimum 2.75 grade point average in the major, with no grade lower than C in courses required for membership in the ADA.
• Students may repeat CDP courses and prerequisite science courses in which they earned a grade lower than C only once to meet program admission criteria.
• Students must repeat any nutrition and biochemistry prerequisite courses they completed more than three years before beginning the CDP before they may enter the program.
• Satisfactory health for full participation in the clinical program. Before they may enter the CDP, students must complete a physical examination, including Mantoux skin test or chest x-ray and other laboratory tests (including proof of immunity to rubella), as specified in contractual agreements with clinical facilities.
• Upper division standing and completion of the first two years of the Nutritional Science major. Because of the intensity of the CDP, undergraduate students must complete all lower division general education and major courses before they may enter the program. Graduate students must have completed all prerequisite courses for program admission.
• Valid California driver’s license and access to an automobile, or transportation to clinical facilities.
• Professional liability, health, and automobile insurance.

Final approval for admission to the intensive clinical work in the senior year (NTRS 419ABC) is contingent upon recommendation of the CDP Review Board and maintenance of a minimum 2.75 grade point average.

Required Professional Courses (37 units)
NTRS 315 Communication Skills in Dietetics (3)
NTRS 419ABC Supervised Practice in Dietetics (8, 8, 8)
NTRS 419S Seminar: Dietetics (2, 2, 2)
NTRS 479 Clinical Interactions in Dietetics (4)
• Option in Nutrition (36 units)
The option in Nutrition leads to careers in businesses and agencies involved in nutrition-related products and services and enables students to complete the academic requirements needed to qualify for a dietetic internship or supervised practice needed to qualify to take the examination to become a Registered Dietitian (R.D.).

Required Professional Courses (16 units)
EDFN 452 Statistics in Education (4) or
HS 472 Data Analysis for Health Science (4)
MKT 304 Principles of Marketing (4)
NTRS 458 Physical Aspects of Aging (4)
NTRS 495 Field Work in Nutritional Science (4)

Supporting Professional Courses (8 units)
Select from the following courses:
ANTH 344; CHDV 421, 426; MKT 340, 342, 346, 440, 442
NTRS 412; SOC 424, 425, 450, 460
SPCH 300, 340, 350, 370, 371, 430, 462, 478

Electives in Related Fields (12 units)
With adviser approval, complete 12 units in related fields.
Minor in Health Science

A total of 45 units is required for the minor in Health Science. This program provides preparation for teaching in the areas of adult education, civil defense, medical self-help, Red Cross instructional programs, and in public schools.

Requirements for the Minor (45 units)

Lower Division Required Courses (21 units)

Certificate Program: Specialist in Alcohol and Drug Problems

The certificate requires a total of 60 units, including 33 units of course work and field experience in health science and 27 units in related fields. Course selection is designed to supplement previous academic and/or vocational experience and to apply to basic professional training leading to the baccalaureate or to graduate degrees. The program prepares alcohol and other drug abuse specialists for employment in educational, therapeutic, rehabilitative, and consultant settings. Refer to the Undergraduate Study chapter of this catalog for general regulations governing all certificate programs.

Certificate Program in Occupational Safety and Health

The Department of Health and Nutritional Sciences offers a credit certificate program designed to prepare occupational safety and health professionals to function as generalists in implementing safety and loss control programs in industry or in medical institutions. Developed in accordance with federal and state legal occupational safety and health acts, the program is applicable to the requirements for a bachelor's or a master's degree in health science. The program requires 45 units of upper division course work, including a 29 unit core and 16 units of electives. Admission to the program requires filing of a formal application to the department, a screening interview with the program adviser covering the applicants prior academic work and employment experience, and departmental approval of the individual student program. Refer to the Undergraduate Study and Graduate and Postbaccalaureate Study chapters of this catalog for general regulations governing all certificate programs.

Prerequisites

Required: MATH 102
Select five from following, with adviser approval:

<table>
<thead>
<tr>
<th>Course</th>

Select remaining electives from any academic department with adviser approval.

The Credential Program

The Bachelor of Science degree in Health Science is authorized for the Single Subject Credential Program in Health Science. Refer to the undergraduate Charter School of Education chapter of this catalog for regulations governing all teaching credential programs. Students interested in this credential should consult advisers in the Department of Health and Nutritional Sciences and
the Charter School of Education. In addition, they must include the following courses in the major:

BIOL 200AB
CHEM 151
HS 201, 311, 431, 455, 456, 463, 464, 470, 475, 479
PSY 170 and 171

Courses in Health Science (HS)

Lower Division Courses

150 Basic Health and Safety Studies (4)
Current health and safety issues facing the student population; emphasis on utilizing scientific methods to solve personal health and safety problems and applying research findings to daily living.

200 Introduction to Health Careers (4)
Overview of careers in health care in the United States with special emphasis on occupations in the fields of community/environmental health and occupational health/safety.

201 Medical Emergencies Management (3)
Principles and techniques for giving immediate and temporary treatment in emergency situations; includes first aid and personal safety, community CPR, legal and safety aspects of medical aid and American Red Cross certification.

Upper Division Courses

Upper division standing is prerequisite to enrollment in all 300- and 400-level HS courses.

311 Technical Writing for Health Sciences (4)
Prerequisite: Satisfactory completion of the Graduation Writing Assessment Requirement (GWAR). Writing techniques emphasizing skills required in the preparation of program and grant proposals, methods of data collection and observation, and production of technical reports and communications.

350 Health Maintenance Problems (3)
Prerequisite: GE biological science requirement. Beneficial and detrimental factors of environment and their effect on the body and maintenance of health.

360 Selecting Health and Medical Services and Products (3)
Consumer health, evaluation of health and accident insurance, quackery and fraudulent health practices, food and drug controls.

410 Theory and Principles of Public Health (4)
Prerequisites: HS 150, 311. Theory, history and scientific basis of Public Health; examination of its interdisciplinary nature; discussion of public health issues, principles and practices.

412 Introduction to Epidemiology (4)
(also listed as MICR 412)
Prerequisites: MICR 200AB or 201 and 202. Study of disease and injury in human population, including general review of epidemiologic methods. Focus on complex relationship between workers and work environment.

413 Health Communication (4)
Prerequisite: HS 311. Principles of planning and development of health communication programs in community health; strategies to develop activities for effective communication of health information for the general public, patients and allied health practitioners.

420 Foundations of Public Health (4.5)
Prerequisite: HS 471 or 472 or equivalent. Origins, historical evolution and meaning of public health; implications for the 21st century.

421 Environmental Health Regulations (4)
Prerequisite: HS 420. Educational and legal aspects of interaction of people with the environment; legal guide for practitioners of environmental health programs.

423 Water Supply and Sewage Disposal (4)
Prerequisite: HS 420. Management of water resources on earth, waste and pollution, cost issues, treatment and disposal of waste water; related health concerns.

425 Principles and Practices of the Environmental Health Specialist (4)
Prerequisites: HS 421, 423. Examination of responsibilities of Environmental Health Specialists, community awareness; environmental health education; administrative roles and enforcement of public health laws.

430 Occupational Health and Safety Programs (4)
Prerequisite: HS/MICR 412. Analysis of safety and health programs, including industrial hazards, evaluation, methodologies, typical safety problems, safety program components, job safety analysis and professional resources.

431 Community, Environmental Safety and Public Health Law (4)
Prerequisite: HS/MICR 412. Examination of federal, state and local laws governing public health, environmental health and occupational safety; overview of OSHA, CAOSHA, EPA, CALEPA regulations, enforcement procedures, appeal process: review of selected cases.

432 Theory and Principles of Industrial Hygiene (4)
Principles and practices of industrial hygiene; consideration of selected substances, processes, and controls; uses and calibration of primary instruments.

433 Material and Mechanical Hazards (4)
Prerequisite: HS 430. Identification and evaluation of material and mechanical hazards within the workplace; effective methods for controlling and eliminating hazardous work environments.

434 Process Safety Management (4)
Prerequisite: HS 430. Physical and process hazards in industrial settings; application of process safety management; review of applicable codes, standards and controls; evaluation of selected cases.

437 Loss Control Principles (4)
Prerequisite: HS 471. Historical development of quality assurance regulations including accreditation, credentials, licenses, regulations, and health education evaluation; emphasis on current regulations including audits, utilization reviews, professional standards, and continuing education in relation to health care delivery programs.

439 Incident Investigation and Analysis (4)
Prerequisite: HS 430. Analysis of components of incident investigation of industry violations of safety standards; relationship of causal factors and management system deficiencies.

440 Health Care Delivery System (4)
U.S. health care delivery system and its relationship to health science professions using a systems model; input, throughout, and output issues identified and explored.
445 Health Promotion
Prerequisite: Soc 201. Foundations of health promotion and health promotion program content including behavior modification; development and implementation for use in corporate medical care and community settings.

455 Sex Information for Health Education (3)
Advanced sex information and education, physiological individuality and response, contraceptives and their health effects, selection and application of content in teaching sex education.

456 Health Studies on Alcohol, Narcotics, Nutrition, and Tobacco (4)
Scientific data on effects of tobacco, alcohol, narcotics, nutrition, and dangerous drugs on health. Current problems relating to control of illegal substances. Fulfills teacher certification requirement in California.

462 Chronic and Degenerative Disorders (3)
Prerequisites: HS 350, BIOL 200AB. Etiology and prognosis of degenerating tissue and their effects on health; new developments and research.

463 International Health (4)
Prerequisite: HS 410. Review and analysis of historical and modern efforts to solve health problems; survey of global health problems; analysis of the role of international health agencies.

464 Community Health Care Programs (4)
Prerequisite: HS 410. Analysis and review of community health programs and organizations; their structure, function and funding sources developed by professional and voluntary health agencies to address expanding community health needs.

467 Problem Drinking and Alcoholism (3)
Prerequisite: GE biological science requirement. Multidisciplinary study of problems of alcohol and alcoholism in society.

468 Problems in Controlled Substances (3)

470 Public Health Administration (4)
Prerequisite: HS 464. Fundamental and historical aspects of public health administration including development of public health in U.S., policies and procedures for disease control, present and future trends in public health.

471 General Principles of Environmental Health (4)
Prerequisite: ENGL 306. General scope of disciplines within environmental health field: routes of entry into those disciplines.

472 Data Analysis for Health Science (4)
Prerequisite: MATH 100 or 102. Techniques and methods for health science data analysis including basic statistical techniques; methods of deriving morbidity and mortality rates, life tables, and risk assessment.

475 Proseminar: Current Issues in Health (4)
Prerequisites: HS 150, 311. Examination of current issues and trends in community health; analysis of implications in education and service delivery; development of problem solving techniques.

476 Quality Assurance in Health Programs (4)
Historical development of quality assurance regulations including accreditation, credentials, licenses, regulations, and health education evaluation; emphasis on current regulations including audits, utilization reviews, professional standards, and continuing education in relation to health care delivery programs.

478 Ergonomics and Human Factors (4)
Prerequisite: HS 431. Effect of ergonomics on human factors in the workplace; correct design of workstations, hand tools, machine controls and material handling; application of research, training, motivation and medical support.

479 Program Planning and Evaluation (4)
Prerequisites: HS 472, 464. Concepts, skills and competencies required for program planning in community health: theories and techniques for evaluation of health education and health promotion programs.

481 Occupational and Industrial Toxicology (4)
Prerequisites: CHEM 101 or 151; CHEM 152, PHYS 101, BIOL 101. Principles, elements, methods and approaches of toxicology. Study of toxic agents occurring as trace contaminants in occupational and industrial setting. Focus on the major systemic site of actions by toxic agents.

483 Hazardous Waste Management Operations and Emergency Response (4)
Prerequisite: HS 471. Principles and practices of management of hazardous materials and hazardous waste, with emphasis on emergency planning and response.

484 Implementation of Occupational Safety and Health Programs (4)
Prerequisite: HS 430. Analysis and evaluation of successful health and safety programs; management involvement in planning and designing specific programs for implementation in a worksite; strategies for employee motivation and participation.

489 Instrumental Methods in Environmental Sciences (3)
Prerequisite or corequisite: HS 481 or equivalent. Laboratory techniques and instrumentation used in preparation and analysis of environmental and occupational samples. Lecture 1 hour, laboratory demonstration 6 hours.

490 Administration of School Health Programs (3)
Prerequisite: HS 410. Principles and practices of supervision and administration in school health programs.

491 Special Studies in Health and Safety (1-4)
Prerequisite: Senior or graduate standing. Intensive study of an area of health or safety; specific area announced in Schedule of Classes. May be repeated to maximum of 16 units as subject matter changes.

496 Community and Occupational Health Internship (1-8)
Prerequisite: Consent of students adviser. Monitored work-learn program under faculty and field preceptor’s guidance in approved agencies. Includes individual progress conferences with preceptor and faculty. May be repeated to maximum of 18 units. Graded CR/NC.

499 Undergraduate Directed Study (1-4)
Prerequisites: For health studies, BIOL 200AB; for both health and safety studies, instructor consent to act as sponsor. Project selected in conference with sponsor before registration, progress meetings held regularly, and a final report submitted. May be repeated to maximum of 6 units.
Courses in Nutritional Science (NTRS)

Lower Division Courses

210 Foundations of Food (4)
Introduction to foods as a profession. Principles and procedures of food preparation including selection, storage, food sanitation, product evaluation, and meal management. Lecture 1 hour, laboratory 6 hours. **CAN HEC 8**

250 Human Nutrition (4)
Nutrition and its relation to health, behavior, growth, development, and aging. No credit toward nursing or science majors of BA major or credential in home economics. **CAN HEC 2**

281 Food for Life (2)
Ways of providing a nutritious diet for individuals and families in the world today.

300 Physiological and Nutritional Bases of Wellness (4)
(aka listed as PE 300)
Prerequisite: Completion of Block B of the general education program. Physiological and nutritional bases of health and wellness; body energy, nutrients, diet modification, weight control, stress management and healthful lifestyles based on exercise and nutrition.

310 Meal Management (3)
Prerequisites: NTRS 210; 250 or 317. Management of time, energy, economic, and aesthetic factors to meet contemporary dietetic requirements. Lecture 2 hours, laboratory 3 hours.

311 Science of Nutrition (1)
Prerequisites: CHEM 152, NTRS 250. Scientific principles of human nutrition.

312 Cultural Foods of California (4)
Prerequisite: NTRS 210. Cultural food patterns represented in California; food choices, typical dishes, menus, nutritional aspects, purchasing, preparation techniques, equipment, and significance for community nutrition. Lecture 2 hours, laboratory 6 hours.

314 Preserving Food at Home (2)
Home food preservation techniques: drying, canning, freezing, preserving, and pickling; causes of food spoilage, potential problems of toxicity and safety factors; nutritional content, cost factors, storage, and use. Meets 4 hours weekly.

315 Communication Skills in Dietetics (3)
Prerequisites: NTRS 210, 317; PSY 150; SPCH 150; admission to the Coordinated Dietetics Program (CDP). Basic communication skills needed by dietitian; sociopsychological aspects of nutritional care in outpatient or clinical setting. Lecture 1 hour, laboratory 6 hours.

317 Fundamentals of Human Nutrition (3)
Prerequisite: CHEM 152. Scientific role of nutrients in the body and in development, growth, and maturation.

Upper division standing is prerequisite to enrollment in 400-level courses.

410 Experimental Foods (5)
Prerequisites: NTRS 210, CHEM 152. Application of scientific principles to experimental methods in food preparation and recipe analysis. Lecture 3 hours, laboratory 6 hours.

411 Evaluation of Current Nutrition Concepts (3)
Prerequisite: NTRS 317. Interpretation of nutrition research findings and consideration of possible applications for individuals and population groups.

412 Advanced Foods (4)
Prerequisites: NTRS 210, 311. Scientific principles and procedures concerned with food selection and preparation; experiences designed to broaden background in complex preparations; recipe analysis and development, and some analysis of foreign foods. Lecture 2 hours, laboratory 6 hours.

413 Maternal and Child Nutrition (4)
Prerequisite: NTRS 317. Nutritional requirements of pregnant women and of children; nutrition-related health considerations.

414AB Institutional Food Service (4, 4)
Prerequisites: NTRS 210; 250 or 317; MICR 151. Experience in organization and management of quantitative food service, including menu writing, quantity food preparation, equipment selection, and institutional kitchen design.

414A: Lecture 3 hours, laboratory 3 hours.
414B: Lecture 2 hours, laboratory 6 hours.

415AB Nutrition and Diet Therapy (4, 4)
Prerequisites: (for 415A) NTRS 210, 417B; (for 415B) NTRS 415A. Nutritional intervention in disease processes: special emphasis on interrelationships between pathophysiology of disease processes and dietary modifications. Lecture 3 hours, laboratory 3 hours.

416 Child Nutrition (4)
Prerequisite: CHDV 200. Nutritional needs of pregnant and lactating women and of children from conception through adolescence; strategies for nutrition education in early childhood.

417AB Advanced Nutrition I, II (3, 3)
Prerequisites: (for 417A) NTRS 317, BIOL 200B, CHEM 353, MICR 151; (for 417B) NTRS 417A. Scientific bases for nutritional needs of humans; factors involved in meeting such needs in individuals and population groups; metabolic factors in nutrition.

417L Nutritional Assessment Laboratory (1)
Prerequisites: NTRS 317, BIOL 200B, CHEM 353, MICR 151, each with a minimum C grade. Laboratory experience in nutritional assessment using anthropometric, dietary, biochemical, and clinical tests and criteria.

418 Community Nutrition (3)
Prerequisite: NTRS 417B. Community nutrition problems, agencies, and programs. Lecture 1 hour, field experience 6 hours.

419ABC Supervised Practice in Dietetics (8-8-8)
Prerequisites: NTRS 415B, 434, 479; corequisite: NTRS 419S. Intensive learning experiences in food service administration and nutritional intervention in hospitals, public health facilities, or other health care facilities. Field experience 24 hours weekly; concurrent weekly professional colloquium required.

419S Seminar: Dietetics (2)
Prerequisites: NTRS 415B, 434, 479; corequisite: NTRS 419A, 419B, or 419C. Selected professional topics in food service administration and nutritional care.

434 Management Principles in Dietetics (5)
Prerequisites: NTRS 414A,B; ACCT 202. Principles of management for quality food service systems. Lecture-laboratory 10 hours.
450N Nutrition and Well-Being (4)
Prerequisite: BIOL 165 or CHEM 158. Nutrition in the life cycle as related to maturation, aging, well-being, emphasizing the individual as an integrated being.

451 Nutrition and Aging (4)
Prerequisite: BIOL 165 or CHEM 158. Relationship of nutrition to aging and diseases common among elderly; nutritional needs and problems of elderly.

452 Nutrition for Educators (2)
Prerequisite: Admission to teaching credential program. Role of nutrition in physiologic and cognitive development and common nutrition problems of school children.

454L,P Selected Topics in Nutritional Science (1-6)
Current topics of special interest in Nutritional Science as announced in Schedule of Classes. May be repeated for 16 units of credit as subject matter changes.

455 Nutrition Computing Skills (3)
Prerequisite: NTRS 317. Identification, implementation, and evaluation of computerized nutritional analysis procedures; lectures about computer applications in nutrition and dietetics, software demonstrations, software reviews, hands-on practice with state-of-the-art software and computers.

458 Physical Aspects of Aging (4) (also listed as PE 458)
Aging process, fitness, and nutrition; influences on wellness, life styles, and recuperation; strategies for optimizing physical quality of life for elderly.

471 Professional Writing in Nutritional Science (4)
Prerequisites: Satisfactory completion of the Graduation Writing Assessment Requirement (GWAR), SPCH 150, and a minimum of 20 units in NTRS. Aspects of written communication specific to nutritional science in education, community service, and business.

419 Clinical Interactions in Dietetics (4)
Prerequisites: NTRS 315, 415B; PSY 150. Role, responsibilities, and practices of dietitian as a nutrition teacher on health care team. Lecture 3 hours, laboratory 3 hours. Concurrent weekly professional colloquium required.

495 Field Work in Nutritional Science (2-4)
Prerequisites: Thirty-five NTRS units, of which at least 15 must be upper division; departmental approval. Supervised experience utilizing professional preparation in field setting. Graded CR/NC

499 Undergraduate Directed Study (1-4)
Prerequisite: Consent of an instructor to act as sponsor. Project selected in conference with sponsor before registration; progress meetings held regularly, and final report submitted. May be repeated for 12 units of credit.
School of Health and Human Services

DEPARTMENT OFFICE
Simpson Tower F411
Phone: (213) 343-4100

The nursing curriculum prepares nurses for professional careers in the maintenance and promotion of health and in supportive, preventive, therapeutic, and restorative nursing care for individuals and families in institutional and community settings. Students who complete the undergraduate program will have acquired knowledge and skills specific to generalized professional nursing practice and will be qualified to assume leadership roles.

Students interested in undertaking graduate study leading to a Master of Science degree are referred to the Graduate Programs section.

The Faculty

Associate Professors: Jung Kim Miller.

Bachelor of Science Degree

The professional nursing curriculum leads to the Bachelor of Science degree with a major in Nursing. The undergraduate program is accredited by the California Board of Registered Nursing and the National League for Nursing. Some courses are open to nonmajors who may find one or more courses helpful in achieving their own professional or personal goals.

Admission to the Program

The program consists of two pathways to the degree. One is the basic program in which students are admitted to lower division nursing following completion of prerequisite courses. The second is the R.N. transfer program in which students transfer from community colleges with an Associate of Arts or Associate of Science in Nursing, or from an NLN accredited Diploma Program and have a California R.N. License. These students are admitted to upper division nursing.

General Information

Students in the nursing program must carry malpractice insurance, personal health insurance, and workers' compensation when required by a clinical agency. Low-cost insurance is available for basic students through the Student Nurses Association of California and through professional organizations for registered nurses or through many independent companies. Nursing students must have a valid California driver's license and access to an automobile covered by appropriate automobile insurance. Prior to entering the first clinical lab, students must have a current CPR card, a physical examination including Mantoux skin test or chest x-ray, if indicated, and proof of immunity to rubella and hepatitis B. Additional immunizations may be necessary if required by clinical agencies. Annual renewal of CPR certification, an annual physical examination and Mantoux skin test or chest x-ray, if indicated, will be required. Information about uniforms may be obtained from departmental advisers.

Departmental Regulations

- Students in the Nursing major must maintain good academic standing and attain grades of C or better in all nursing courses and in all natural and social science courses prerequisite or corequisite to the major. Nursing courses and prerequisite science courses for which the student earns less than a grade of C may be repeated only once, and then with instructor consent. To meet the requirement of continuing satisfactory performance, students on academic probation are not permitted to enroll in a nursing course until the probation has been removed.
- Students may not enroll in any course that requires other nursing prerequisites unless the prerequisite courses are completed with grades of C or better.
- Basic nursing students must take a diagnostic readiness test for the R.N. licensure examination in NURS 481.

Required Prerequisites (33 units)

The following courses are prerequisite to the Nursing major:

- BIOL 200AB Human Anatomy and Physiology I, II (5, 5)
- CHEM 151 Fundamentals of Chemistry I, (5)
- ENGL 101 Composition I (4)
- *MICR 201 Microbiology for Health Related Sciences (4)
- *MICR 202 Microbiology Laboratory for Health Related Sciences (4)
- PSYCH 150 Introduction to Psychology (4)
- SPCH 150 Oral Communication (4)

Requirements for the Major (100-114 units)

The basic program requires a total of 198 units for the degree, including (100-114) units in required courses in nursing and related fields. The R.N. transfer program requires a total of 189 units for the degree, including 100-101 units in required courses in nursing and related fields.

- Students entering with 4 or more semester units (6 or more quarter units) of credit from an accredited college for a course including laboratory satisfy this requirement by transfer credit.

Required in Related Fields (15-20 units)

- ANTH 344 Medical Anthropology (4)
- NTRS 311 Fundamentals of Human Nutrition (3) or NTRS 250 Human Nutrition (4)
- *PSY 160 Psychology of Developing Person (4)
- SOC 201 Principles of Sociology (4)
- A statistics course which includes inferential statistics
- *R.N. Transfer Students are exempt

Required in Nursing (85-94 units)

Lower Division Required Courses (43 units)

- NURS 210 Introduction to Nursing Process and Skills (3)
- NURS 211 Nursing Process and Skills Laboratory (4)
- NURS 214 Introduction to the Art and Science of Nursing (4)
The Department of Nursing offers a credit certificate program designed to prepare registered nurses to assume expanded roles in the delivery of primary health care to ambulatory women. Emphasis is on the recognition of the normal-and thus the abnormal-and the appropriate management of each within a team approach. Graduates of the program may be employed by medical groups, colleges and universities, and other health care providers in the private and public sectors of the community.

The program requires completion of 24 units of upper division credit course work. Admission to the program requires formal application to the department; a screening interview with the admission committee; academic work and employment experience, which must at least include an associate degree in Nursing, a minimum 2.5 grade point average in work completed at all institutions of higher education; current licensure as a registered nurse in the state of California; at least one year of nursing experience or the equivalent; and departmental approval.

In addition to the 24 units of required upper division course work, students must complete 26 units of professional course work through the Department of Nursing’s Institute of Nursing to qualify for the certificate. Refer to the Undergraduate Study chapter of this catalog for general regulations governing all certificate programs.

**Certificate Program: Obstetrics-Gynecology Nurse Practitioner**

The Department of Nursing offers a credit certificate program designed to prepare registered nurses to assume expanded roles in the delivery of primary health care to ambulatory women. Emphasis is on the recognition of the normal-and thus the abnormal-and the appropriate management of each within a team approach. Graduates of the program may be employed by medical groups, colleges and universities, and other health care providers in the private and public sectors of the community.

The program requires completion of 24 units of upper division credit course work. Admission to the program requires formal application to the department; a screening interview with the admission committee; academic work and employment experience, which must at least include an associate degree in Nursing, a minimum 2.5 grade point average in work completed at all institutions of higher education; current licensure as a registered nurse in the state of California; at least one year of nursing experience or the equivalent; and departmental approval.
NURSING / 234

220 Nursing Care of Children (3)
Prerequisites: NURS 224, 225. Corequisite: NURS 221. Nursing care of children emphasizing health promotion and common health disturbances.

221 Nursing Care of Children Clinical Laboratory (3)
Prerequisites: NURS 224, 225; SOC 201. Corequisite: NURS 220. Patient care experience with hospitalized children encountering common health disturbances.

222 Nursing Care of Adult I (6)
Prerequisites: NURS 210, 211, 214, 215.
Corequisite: NURS 223. Clinical nursing interventions and rationale for the care of hospitalized adults experiencing fluid and electrolyte, metabolic, hematopoietic, cardiovascular and/or respiratory physiological dysfunction including care during the preoperative period.

223 Clinical Laboratory for Adults I
Prerequisites: NURS 210, 211, 214, 215.
Corequisite: NURS 222. Clinical nursing laboratory for adults in acute care settings who are experiencing fluid and electrolyte, metabolic, hematopoietic, cardiovascular and/or respiratory physiological dysfunction including care during the perioperative period.

224 Nursing Care of Adults II (5)
Prerequisites: NURS 222, 223. Corequisite: NURS 225. Clinical nursing interventions and rationale for the care of hospitalized adults experiencing musculoskeletal, renal, gastrointestinal, hepatobiliary, and/or oto-opthalmic dysfunction including care during the perioperative period.

225 Clinical Laboratory for Adults II (4)
Prerequisites: NURS 222, 223. Corequisite: NURS 224. Clinical nursing laboratory for adults in acute care settings who are experiencing musculoskeletal, renal, gastrointestinal, hepatobiliary, and/or oto-opthalmic dysfunction including care during the perioperative period.

254L,P Selected Topics in Nursing (1-6)
Prerequisites: As needed for specific topic. Current topics of special interest to nursing students, as announced in Schedule of Classes. May be repeated for credit.

Upper Division Courses

300 Nursing Care of the Adult III (4)
Prerequisites: NURS 372, 373, 394. Corequisite: NURS 301. Advanced clinical nursing interventions, rehabilitation principles and leadership skills in the care of complicated hospitalized adults experiencing acute and chronic neurological, integumentary, neoplastic/immune and/or multisystem failure and dysfunction.

301 Clinical Laboratory for Adults III (4)
Prerequisites: NURS 372, 373, 394. Corequisite: NURS 300. Advanced clinical and leadership nursing laboratory for adults experiencing acute and chronic neurological, integumentary, neoplastic/immune, and/or multisystem failure and dysfunction in acute/rehabilitative care settings.

307 Physiology and Psychology of Violence and Aggression (4)
(also listed as PSY 307)
Prerequisites: PSY 150; GE blocks A and B. Biological and psychosocial approaches to violent individuals; analysis of and research support for understanding violence drawn from natural, medical, and behavioral sciences.

318 Nursing Care of Psychiatric Patients (3)
Prerequisites: NURS 224, 225. Corequisite: NURS 319. Introduction to nursing practice in a variety of psychiatric care settings caring for patients with problems in social and psychological functioning.

319 Psychiatric Clinical Nursing Lab (3)
Prerequisites: NURS 224, 225. Corequisite: NURS 318 Clinical experience in a variety of settings implementing the nursing process in the area of adult patient/clients demonstrating deficits in social and psychological functioning.

346 Family Nursing (3)
Pre-or corequisite: ANTH 344. Theoretical foundations of family nursing and its application to the nursing process with families.

348A Development for Professional Practice (4)
Prerequisite: Transfer RN nursing students. Socialization and development into the professional nursing roles; focus on nursing process, selected issues in professional practice.

348B Development for Professional Practice (2)
Prerequisite: NURS 348A. Socialization and development into professional nursing; focus on professional, teacher and advocacy roles.

348C Development for Professional Practice (2)
Prerequisite: NURS 348B. Socialization and development into professional nursing; focus on provider and coordination roles.

354L,P Selected Topics in Nursing (1-6)
Prerequisites: As needed for specific topic. Current topics of special interest to nursing students, as announced in Schedule of Classes. May be repeated for credit.

372 Health Assessment and Promotion Across the Life Span (4)
Prerequisites: Generic students: NURS 220, 221; RN transfer students: NURS 348A pre or corequisite: Co-requisite: NURS 372 Health assessment including history taking, physical examination and diagnostic testing; principles of health promotion across the lifespan and concepts of patient education.

373 Health Assessment and Promotion Across the Life-Span Laboratory (2)
Prerequisites: Generic students: NURS 220, 221; RN transfer students: NURS 348A. Corequisite: NURS 372. Health assessment including history taking, physical examination and diagnostic testing, health promotion and patient education experiences in a variety of settings.

394 Nursing Concepts In Health Promotion: Prevention, Treatment and Adherence (4)
Prerequisites: NURS 346, 372, 373. The development of strategies for assisting various patient populations with self-care actions focused on promoting health, facilitating treatment adherence, coping and adaptation.

400 Acute Health Deviations in Cardiorespiratory Function (3)
Prerequisite: Upper division standing or consent of instructor. Nursing management of patients who have health deviation self-care deficits due to critical physiological dysfunction of the cardiorespiratory system.

402A Fundamentals of Electrocardiography (2)
Fundamentals of vector analysis of the 12 lead electrocardiogram and basic arrhythmia detection.
402B Advanced Electrocardiography (2)
Prerequisite: NURS 402A. Advanced electrocardiography including detailed evaluation of 12 lead electrocardiogram in determining axis changes, conduction defect, cardiovascular hypertrophies, location of myocardial infarction, differentiation of complicated arrhythmias, and selected electrolyte and drug effects.

404 Acute Health Deviations in Metabolic, Hematologic, and Sensorimotor Function (3)
Prerequisite: Upper division standing or consent of instructor. Nursing care related to acute health deviations in metabolic, hematologic, and sensorimotor functions with their related pathophysiology and nursing care implications.

423 Nursing in School Health Programs Clinical Laboratory (6)
Prerequisites or corequisites: NURS 426, 428; COMD 440; admission to Health Services Credential program. Clinical school nursing experience with multicultural and ethnic students in elementary, secondary, and special education settings under direction of credentialed school nurse preceptor.

426 Nursing Management in Public Schools (4)
Prerequisite: Admission into Health Services Credential program. Introduction to organization and management of school health services through coordination and integration of human and material resources to accomplish health goals in the educational settings.

428 Nursing Assessment in Public Schools (4)
Prerequisites: NURS 372, 373; admission into Health Services Credential program. Assessment and case management of physical, psychosocial, developmental, and environmental processes and requisites of school students. Includes State mandated screening.

430 Primary Health Care of Women (3)
Prerequisite: Upper division standing or consent of instructor. Assessment and management of self-care requisites unique to women in primary health care settings.

432 Assessment and Management of Obstetric Health (4)
Prerequisites: NURS 436, 437. Corequisite: NURS 433. Assessment and management of normal and selected high risk women during pregnancy; includes fetal evaluation, health teaching, and psychosocial support.

433 Obstetric Health Care Laboratory for Nurse Practitioners (4)

436 Assessment and Management of Gynecologic Health (4)
Prerequisites: NURS 472, 473. Corequisite: NURS 437. Assessment and management of gynecologic health of women throughout the life span; includes pelvic and breast screening, health teaching, and care of episodic illnesses.

437 Gynecologic Health Care Laboratory for Nurse Practitioners (4)

440 Introduction to Community Mental Health (2)
Prerequisite: Upper division standing or consent of instructor. Models for community-based intervention in mental health problems; mental health services; nurses' role in community mental health agencies.

442 Assisting Strategies in Psychosocial Nursing (3)
Prerequisite: Upper division standing or consent of instructor. Exploring concepts and theories from biobehavioral sciences and humanities related to development of self-care nursing actions in psychosocial nursing.

454LP Selected Topics in Nursing (1-6)
Prerequisites: As needed for specific topic. Current topics of special interest to nursing students announced in Schedule of Classes. May be repeated for credit.

455 Strategies for Preventing and Intervening in Family Violence and Abuse (4)
(also listed as SW 455)
Major theories used to explain family violence; emphasis on preventing abuse and intervening with victims across the age span; social, policy, and legal issues.

456 Crisis Theory: Mental Health Promotion (3)
Prerequisite: Upper division standing or consent of instructor. Crisis theory as a basis for identification of maturational and situational high risk events that create an impact on mental health.

460 Problems of Parenting (2)
Prerequisites: PSY 150, upper division standing; CHDV 423 recommended. Parent and child health problems created by inadequate parent-child relationships. Health assessment and exploration of nursing intervention techniques.

462 Behavior Modification in Health Care (4)
Prerequisite: Upper division standing. Techniques for behavior modification in variety of health care problems.

464 Family Interaction Problems (2)
Prerequisite: Upper division standing; CHDV 421 recommended. Dysfunctional role and communication patterns in family unit.

466 Nursing Management Systems (2)
Prerequisite: Upper division standing or consent of instructor. Expands skills and knowledge base of management process utilized in nursing service system, with primary focus on the following subsystems: staffing and scheduling, budget planning and cost containment, quality assurance.

468 Legal Aspects of Health Care Provision in California (3)
Prerequisite: Professional experience or upper division standing in a health related program. Exploration of legal aspects of health care provision: intentional torts, negligence and malpractice, practice acts, ethical-legal conflicts, and litigation procedure.

470 Community Health Assessment (3)
Prerequisite: Completion of 300-level nursing courses; corequisite: NURS 471. Synthesis of nursing theories and public health science applied to assessing and promoting the health of communities and aggregates at risk in the population.

471 Community Health Assessment Lab (3)
Prerequisites: Completion of 300-level nursing courses. Corequisite: NURS 470. Application of nursing and public health theories assessment of communities and families/client group aggregates, and appropriate interventions.

472 Physical Assessment for Nurse Practitioners (4)
Cognitive, effective, and motor components of complete health assessment for nurse practitioner students including history,
physical examination, laboratory studies, and formation of diagnostic, treatment, and educational plans of care.

473 Physical Assessment Laboratory for Nurse Practitioners (4)
Clinical experience for nurse practitioner students in obtaining and performing complete histories and physical examinations, formulating diagnoses, developing and implementing plans of care for adolescent, adult, and geriatric patients.

474 Primary Health Care of Children and Adults (3)
Prerequisites: NURS 470, 471, 490. Holistic primary health care of children and adults; emphasis on comprehensive assessment, management, patient education, and research.

476 Nursing and the Health Care System (3)
Prerequisites: Completion of all 300-level nursing courses. Forces shaping health care delivery and their impact on the delivery of nursing care. Nursing leadership for cost-effective care that increases access and assures quality care.

480 Assessment and Care of Patients’ Spiritual Needs (4)
Exploration of individual’s spiritual needs in health care, and how spiritual care may be closely integrated with that of body and mind.

487 Transitions to Professional Practice (1)
Prerequisites: NURS 490. Prerequisite or corequisite: NURS 476. Corequisite: NURS 398. Clinical decision making in the care of selected patients in acute care settings.

490 Introduction to Nursing Research (4)
Prerequisites: Satisfactory completion of Graduation Writing Assessment Requirement (GWAR) and a statistics course which included inferential statistical content. Nursing research process and concepts applicable to clinical practice, reading, analyzing and critiquing research; development of skills in writing professional nursing papers according to the conventions of the genre.

494 Ethics in Nursing (3)
Lecture-seminar course covering the history and development of ethics in American nursing from 1800s to the present.

496 Nursing Case Management for Vulnerable Populations (4)

497 Nursing Case Management of Vulnerable Populations Lab (4)

499 Undergraduate Directed Study (1-6)
Prerequisites: Instructor consent to act as sponsor; ability to assume responsibility for independent work and to prepare written and oral reports. Project selected with sponsor before registration: progress meetings held regularly. May be repeated to 20 units.
PHYSICAL EDUCATION

School of Health and Human Services

DEPARTMENT OFFICE
Physical Education 206
Phone: (213) 343-4650

The Department of Physical Education offers programs leading to the Bachelor of Science and Master of Arts degrees for students interested in teaching, coaching, exercise science, adapted physical education, or preparing for advanced study in the foundations of human physical performance. General activity courses are open to all students with requisite proficiency at a wide range of skill levels and in a variety of activities and sports. Adapted physical education, providing individual programs of corrective exercises and specially designed sports activities, may be taken by students who need such a program. Assignment by a university physician or department adviser is required.

The departments graduate programs are described in the Graduate Study section.

The Faculty

Associate Professors: Nazareth Khodigian.

Assistant Professors: Dwain M. Bridges, Daniel Frankl, Ron E. Hull, James P. Kallusky, Michael A. Sutliff.

Bachelor of Science Degree in Physical Education

The Bachelor of Science degree program in Physical Education prepares students for careers in educational settings and public and private fitness industries.

Requirements for the Major (81-151 units)

A total of 196 units is required for the Bachelor of Science degree in Physical Education. The Bachelor of Science degree in Physical Education has three options. Exercise Science (option I) and the Single Subject Credential (option II) require 81-84 units, and include a required core of 45 units of lower and upper division physical education courses. The Exercise Science option requires a total of 81-84 units and the Single Subject Credential (teaching) option requires 81 units. The Multiple Subject Credential (option III) requires a minimum of 146 units: 106-111 units in the breadth area, and 40 units in the physical education major and depth area. Students must earn minimum C grades in all required major courses.

Courses in Related Fields

Physical Education majors in Options I and II must include BIOL 200AB in their program. These courses fulfill general education Block B (Natural Sciences) biological science requirement. Students must also include PSY 150 and SOC 201 in the program. These courses fulfill GE Block D (Social Sciences) requirements.

In addition, completion of a GE course in CHEM 158 and 159 or PHYS 150 is recommended.

Required Physical Education Core for
Options I and II (45 units)

The core consists of 10 units of professional activities, 10 units of foundations courses, and 25 units of upper division concept courses.

Lower Division

Professional Activities (10 units)

Required Courses (6 units)

PE 283 Aquatics Activities (2)
PE 286 Square, Folk, and Social Dance (2)
PE 288 Physical Fitness Activities (2)

Individual and Dual Sports (select one from following)

PE 281A Archery and Badminton (2)
PE 281G Golf and Tennis (2)
PE 281T Track and Field (2)
*PE 285 Outdoor Education and Contemporary Games (2)
*PE 287 Combatives (2)
*PE 289 Gymnastics and Tumbling (2)

These courses are required in option II (Teaching)

Team Sports (select one from following)

PE 282F Flag Football and Team Handball (2)
PE 282G Softball and Soccer (2)
PE 282V Volleyball and Basketball (2)

Foundations Courses (10 units)

PE 160 Dimensions of Physical Education (2)
PE 161 Movement Principles of Basic Skills (4)
PE 260 Historical and Philosophical Bases of Physical Education (4)

Upper Division

Successful completion of the GWAR is prerequisite to enrollment in all upper division major courses.

Concept Courses (25 units)

PE 310 Written Communication (4)
PE 330 Measurement and Evaluation of Human Performance (4)
PE 340 Applied Biomechanics (4)
PE 360 Physiology of Exercise and Physical Activity (5)
PE 365 Applied Motor Learning (4)
PE 370 Psychosocial Bases in Physical Education and Sport (4)

Options (36-39 units)

Select one of the following options and complete the required courses as listed below.

Option I: Exercise Science (36-39 units)

This option prepares students for careers in fitness and related fields. Students acquire skills and knowledge necessary for employment in health and fitness centers, hospitals, orthopedic centers, sport medicine clinics, and similar health care environments. Students who complete this major will have 41-44 units of free electives which may be used, if desired, for further specialization in courses related to fitness and business management, laboratory technology, and biomechanics. Completion of GE courses in CHEM 151 and PHYS 150 is highly recommended.
Required Courses (36-39 units)

Upper Division Concept Courses (32-33 units)

Option III: Multiple Subject Teaching (146-151 units)

Students who select this option complete a separate core which is common to all Multiple Subject teaching options. That common core contains 106-111 units and is described in the Undergraduate Study chapter. In addition to the core, the 68 units listed below are required in the option. Refer to the undergraduate Charter School of Education chapter of this catalog for regulations governing all teaching credential programs.

Required Courses (106-111 units)

Electives (23-28 units)

Professional education courses are recommended. See a credential adviser in the Charter School of Education.

SUPPLEMENTARY AUTHORIZATION

Holders of a single subject or multiple subject credential issued by the State of California may add a supplemental authorization to teach in another discipline by completing additional course work.

See departmental credential adviser for requirements for a supplementary authorization in physical education.

The Credential Program

Refer to the undergraduate Charter School of Education chapter of this catalog for regulations governing all teaching credential programs.

Single Subject Credential

The B.S. degree program in Physical Education Option II has been approved by the Commission on Teacher Credentialing as the
subject matter program designed to qualify students for the Single Subject credential in Physical Education. Students should consult credential advisers in the department and the Charter School of Education.

Adapted Physical Education Specialist Credential

The program leading to the Adapted Physical Education Specialist credential meets the subject matter requirements and entitles the holder to teach adapted physical education in California to individuals between the ages of 3 and 21 years who have exceptional needs. The 28-unit program is based upon a basic authorization to teach physical education. Candidates must hold (or concurrently complete) a Single Subject credential in Physical Education, a Multiple Subject credential, or an equivalent authorization. They also must maintain a minimum 2.5 grade point average for all courses required in the program, complete directed teaching, and receive departmental recommendation.

Required Courses (24-28 units)

EDSP 400 Foundation of Special Education (4)
PE 450 Dimensions of Physical Education for Individuals with Disabilities (4)
PE 452 Physical Education for Severely Handicapped (4)
PE 453 Physical Education for Learning Handicapped (4)
PE 455 Motor Assessment of Exceptional Students (4)
PE 456 Physical Education for Physically Handicapped (4)
PE 457 Interdisciplinary Approach to Physical Education for Exceptional Students (4)

* required for students entering the program who already possess a clear credential.

Courses in Physical Education (PE)

A student who has completed an intermediate or advanced course may not subsequently receive credit for a lower level course in the same area.

Lower Division Courses

110 Intramural Sports (1)
Participation in university intramural sports. Elective credit only; may be repeated to maximum of 16 units. Activity 2 hours minimum. Graded CR/NC.

150 Exercise, Fitness, and Sport in Modern Society (4)
Understanding of humans as integrated physiological, psychological, and sociological beings. Importance of physical activity in delaying, alleviating, and rehabilitating degenerative cardiovascular disease and stress-related illness. Lecture 3 hours, laboratory 2 hours.

151 Series: Individual Sports (1 or 2 units each)
Individual activities designed to develop skill, knowledge of rules, background and analysis of techniques at beginning level.

151A Beginning Archery
151C Beginning Bicycling
151B Beginning Bowling
151G Beginning Golf
151H Beginning Horseback Riding
151I Beginning Ice Skating
151S Beginning Skiing
151F Beginning Track and Field: Field Events
151R Beginning Track and Field: Running Events
152 Series: Team Sports (1 each)
152B Beginning Baseball
152D Beginning Basketball
152H Beginning Field Hockey
152F Beginning Football
152R Beginning Soccer
152S Beginning Softball
152T Beginning Team Handball
152U Beginning Ultimate Football
152V Beginning Volleyball

Team activities designed to develop skill, knowledge of rules, background and analysis of techniques at beginning level.

153 Series: Aquatics (1 each)
Aquatic activities designed to develop skill, knowledge of rules, background and analysis of techniques, and safety procedures at beginning level.

153A Aerobic Swimming
153D Beginning Springboard Diving
Prerequisite: PE 153S
153S Beginning Swimming
153W Beginning Water Polo

154 Special Activities in Physical Education (1)
Varied experiences reflecting current interests of students in physical education and related experimental areas, as announced in Schedule of Classes. May be repeated as subject matter changes. Activity 2 hours.

155 Series: Physical Education for the Disabled (1 each)
Prerequisite: Physical disability or assignment by University physician. Theory, analysis, and beginning performance techniques of sports for the disabled. Open to interested physical education and recreation majors as well as disabled students in all majors. Each course may be repeated to maximum of 6 units as emphasis changes.

156 Series: Dance (1 each)
Activities designed to develop beginning skills in various dance forms accompanied by background information relevant to each form.

156F Beginning Folk Dance
156S Beginning Social Dance
156R Beginning Square and Round Dance

157 Series: Dual Sports (1 each)
Dual activities designed to develop skill, knowledge of rules, background and analysis of techniques at beginning level.

157B Beginning Badminton
157F Beginning Fencing
157H Beginning Handball
157J Beginning Judo
157K Beginning Karate
157R Beginning Racquetball
157S Self Defense for Women
157T Beginning Tennis
157U Beginning Jujitsu
157W Beginning Wrestling

158 Series: Fitness Activities (1 or 2 units each)
Fitness activities designed to develop skill, knowledge of rules, background and analysis of techniques at beginning level.

158A Beginning Aerobics
158B Beginning Body Building
158D Body Dynamics I
158E Beginning Jazz Exercise
158J Beginning Jogging
158P Beginning Physical Conditioning
158R Beginning Rope Jumping
158X Beginning Techniques of Relaxation
158S Beginning Techniques of Stretching
158W Beginning Weight Training
158Y Beginning Hatha Yoga

159 Series: Gymnastics Activities (1 or 2 units each)
Gymnastics activities designed to develop skill, knowledge of rules, background and analysis of techniques at beginning level.

159M Beginning Men’s Gymnastic Events
159W Beginning Women’s Gymnastic Events
159T Beginning Tumbling and Trampoline

180 Dimensions of Physical Education (2)
Scope and content of physical education discipline. Lecture 1 hour, supervised field experience 2 hours.

161 Movement Principles of Basic Skills (4)
Movement experiences applicable to programs of physical education, kindergarten through grade twelve. Individual learning experiences related to motor development and basic movement skills. Lecture 2 hours; demonstration-laboratory 4 hours.

251 Series: Individual Sports (1 each)
Prerequisite: Corresponding PE 151 course. Individual activities designed to develop skill, knowledge of rules, background and analysis of techniques at intermediate level.

251A Intermediate Archery
251B Intermediate Bowling
251G Intermediate Golf
251H Intermediate Horseback Riding
251S Intermediate Skiing
251F Intermediate Track and Field: Field Events
251R Intermediate Track and Field: Running Events

252 Series: Team Sports (1 each)
Prerequisite: Corresponding PE 152 course. Team activities designed to develop skill, knowledge of rules, background and analysis of techniques at intermediate level.

252T Intermediate Team Handball
252V Intermediate Volleyball

253 Series: Aquatics (1 or 2 each)
Prerequisite: PE 153S. Water activities designed to develop skill, background and analysis of techniques, and safety procedures at intermediate or advanced levels.

253A Intermediate Aerobic Swimming
253N Snorkeling (Advanced)
253S Intermediate Swimming

254L,P Selected Topics in Physical Education (1-3)
Current activities, new and varied, of interest to general student body, as announced in Schedule of Classes. May be repeated for credit as subject matter changes.

256 Series: Dance (1 each)
Prerequisite: Corresponding PE 156 course. Activities designed to develop intermediate skills in various dance forms accompanied by background information relevant to each form.

256F Intermediate Folk Dance
256S Intermediate Social Dance

257 Series: Dual Sports (1 each)
Prerequisite: Corresponding PE 157 course. Dual activities designed to develop skill, knowledge of rules, background and analysis of techniques at intermediate level.

257B Intermediate Badminton
257F Intermediate Fencing
257H Intermediate Handball
257K Intermediate Karate
257P Intermediate Personal Defense
257R Intermediate Racquetball

257T Intermediate Tennis

258 Series: Fitness Activities (1 each)
Prerequisite: Corresponding PE 158 course. Fitness activities designed to develop skill, knowledge of rules, background and analysis of techniques at intermediate level.

258A Intermediate Aerobics
258B Body Dynamics and Intermediate Techniques of Relaxation
258J Intermediate Jazz Exercise
258P Intermediate Physical Conditioning
258W Intermediate Weight Training

259 Series: Gymnastics Activities (1 each)
Prerequisite: Corresponding PE 159 course. Gymnastics activities designed to develop skill, knowledge of rules, background and analysis of techniques at intermediate level.

259M Intermediate Men’s Gymnastic Events
259W Intermediate Women’s Gymnastic Events
259T Intermediate Tumbling and Trampoline

260 Historical and Philosophical Bases of Physical Education (4)
Historical and philosophical backgrounds in development of physical education.

281 Series: Professional Activities (2 each)
Development of skill, knowledge of rules, and analysis of techniques at intermediate level. For students majoring or minoring in physical education.

281A Archery and Badminton
281G Golf and Tennis
281T Track and Field

282 Series: Professional Activities (2 each)
Development of skill, knowledge of rules, and analysis of techniques at intermediate level. For students majoring or minoring in physical education.

282F Flag Football and Team Handball
282S Softball and Soccer
282V Volleyball and Basketball

283 Professional Activities: Aquatics (2)
Development of skill, knowledge of safety, and analysis of techniques at intermediate level. For students majoring or minoring in physical education.

285 Outdoor Education and Contemporary Games (2)
Designed to explore the history, philosophy, and principles of outdoor education and nontraditional games to include procedures used in the field as well as information on existing programs.

286 Professional Activities: Square, Folk, and Social Dance (2)
Development of skill, knowledge of dance forms, and analysis of techniques at intermediate level. For students majoring or minoring in physical education.

287 Professional Activities: Combatives (2)
Development of basic skill in personal defense, wrestling and rules and analysis of technique in combative activities. For students majoring in physical education.

288 Professional Activities: Physical Fitness (2)
Development of fitness, knowledge of principles, analysis of components. For students majoring or minoring in physical education.
289 Professional Activities: Gymnastics and Tumbling (2)
Development of skill, knowledge of rules, and analysis of techniques at intermediate level. For students majoring or minoring in physical education.

Upper Division Courses

Successful completion of UNIV 400 the Writing Proficiency Examination, is prerequisite to enrollment in all upper division major courses in physical education.

300 Physiological and Nutritional Bases of Wellness (4)
(also listed as NTRS 300)
Prerequisite: Completion of Block B of the general education program. Physiological and nutritional bases of health and wellness; body energy, nutrients, diet modification, weight control, stress management and healthful lifestyles based on exercise and nutrition.

310 Written Communication (4)
Prerequisite: Successful completion of the Graduation Writing Assessment Requirement (GWAR). Written communication skills for the physical education major with emphasis on techniques of writing formal reports, public relations information and essays.

330 Measurement and Evaluation of Human Performance (4)
Prerequisites: PE 161; MATH 100 or 102. Analysis, evaluation, interpretation, use of tests and other assessment devices in physical education: application of basic statistical procedures using computer programs. Lecture 3 hours, discussion-laboratory 3 hours.

340 Applied Biomechanics (4)
Prerequisites: PE 330; BIOL 200B. Analysis of anatomical and mechanical bases for efficiency of human movement. Lecture 3 hours, laboratory 3 hours.

351 Series: Individual Sports (1 each)
Prerequisite: Corresponding PE 251 course. Individual activities designed to develop skill, knowledge of rules, background and analysis of techniques at advanced level.

351A Advanced Archery
351F Advanced Fencing
351G Advanced Golf
351S Advanced Skiing

352 Series: Team Sports (1 each)
Prerequisite: Corresponding PE 252 course. Team activities designed to develop skill, knowledge of rules, background and analysis of techniques at advanced level.

352B Advanced Baseball
352D Advanced Basketball
352B Advanced Softball
352V Advanced Volleyball

353 Series: Aquatics (1 each)
Prerequisite: PE 253S. Water activities designed to develop skill, background, analysis of techniques, and safety procedures at advanced levels.

353D Advanced Diving
353L Advanced Life Saving
353S Advanced Swimming
353W Advanced Water Polo
353X Synchronized Swimming

355 Series: Competitive Sports (2 each)
Introduction to tournament competition; development of advanced skills, knowledge of rules, and officiating as required at tournament level; participation in various types of tournament play.

355B Competitive Baseball
Prerequisite: Previous competitive baseball experience preferred.

355R Competitive Racquetball
Prerequisite: PE 357R.

355T Competitive Tennis
Prerequisite: PE 357T.

355V Competitive Volleyball
Prerequisite: PE 252V.

357 Series: Dual Sports (1 each)
Prerequisite: PE 257 course. Dual activities designed to develop skill, knowledge of rules, background and analysis of techniques at advanced level.

357A Advanced Badminton
357H Advanced Handball
357K Advanced Karate
357R Advanced Racquetball
357T Advanced Tennis
357W Advanced Wrestling

359 Outdoor Education (3)
Aims, organization, administration, and program of the outdoor school.

360 Physiology of Exercise and Physical Activity (5)
Prerequisites: PE 330; BIOL 200B. Analysis of physiological bases of effect of movement and stress on human organism; factors affecting conditioning. Lecture 4 hours, laboratory 3 hours.

361 Backpacking (3)
Corequisite: PE 361P. Techniques of hiking, planning, understanding, and learning the skills for safe backpacking experiences, including survival skills, ecology, and equipment.

361P Backpacking Practicum (1)
Corequisite: PE 361. Field experiences for backpacking skills. Field trips scheduled for weekends or quarter breaks.

365 Applied Motor Learning (4)
Prerequisite: PE 330. Theory and research on how movements are controlled, learned and changed as a result of practice and/or experience. Synthesis of theory with skill acquisition is emphasized. Lecture 3 hours, laboratory 3 hours.

370 Psychosocial Bases of Physical Education and Sport (4)
Prerequisites: PE 260; PSY 150; SOC 201 or 322A. Psychological and sociological influences on physical education and sport; implications for personal and professional direction.

380 Theory and Analysis of Sport Activities (3)
Prerequisites: Eight (8) units in PE 281/282 series, PE 365. Theory, analysis of performance techniques, strategies and teaching profession. Lecture 2 hours, demonstration lab 4 hours.

381 Theory and Analysis of Individual Sports (3 each)
Prerequisites: PE 281A, 281G, 281T. Theory analysis, and advanced performance techniques of individual sports, emphasizing strategy and offensive and defensive systems. Lecture 2 hours, demonstration-laboratory 2 hours.
381F Theory and Analysis of Track and Field
Prerequisite: PE 151F or 151R

381G Theory and Analysis of Golf
Prerequisite: PE 151G.

381S Theory and Analysis of Self Defense
Prerequisite: PE 157S.

381T Theory and Analysis of Tennis
Prerequisite: PE 151T.

381W Theory and Analysis of Wrestling
Prerequisite: PE 157W.

382 Theory and Analysis of Team Sports (3 each)
Prerequisite: Appropriate corresponding professional activity courses as indicated. Theory, analysis, and advanced performance techniques of team sports, emphasizing strategy and offensive and defensive systems. Lecture 2 hours, demonstration-laboratory 2 hours.

382B Theory and Analysis of Baseball
Prerequisite: PE 152B.

382D Theory and Analysis of Basketball
Prerequisite: PE 152D.

382F Theory and Analysis of Football
Prerequisite: PE 152F.

382R Theory and Analysis of Soccer
Prerequisites: PE 152R.

382V Theory and Analysis of Volleyball
Prerequisites: PE 152V.

382W Theory and Analysis of Water Polo
Prerequisite: PE 153W.

383 Theory and Analysis of Aquatics
Prerequisite: PE 283. Theory and analysis of performance techniques, historical knowledge, safety procedures, and conditioning. Lecture 2 hours, demonstration-laboratory 2 hours.

383D Theory and Analysis of Diving (3)
Prerequisite: PE 353D.

3838 Theory and Analysis of Swimming (3)
Prerequisite: 253S or 353S.

383W Water Safety for Instructors (4)
Prerequisite: PE 283. Advanced instruction in water safety technique, and teaching techniques used at all levels of swimming. Leads to Red Cross Water Safety Instructor certification and introduction to health service education certification. Lecture 2 hours, laboratory 4 hours.

386 Theory and Analysis of Square, Folk, and Social Dance (3)
Prerequisite: PE 286. Theory, analysis of performance techniques, and teaching progressions of square, folk, and social dance. Lecture 2 hours, demonstration-laboratory 2 hours.

388 Theory and Analysis of Fitness (3)
Prerequisites: PE 288, 340, 360. Theory and analysis of performance techniques: emphasis on components of fitness. Lecture 2 hours, demonstration-laboratory 2 hours.

388A Theory and Analysis of Aerobics (3)
Prerequisite: PE 288. Theory and analysis of performance techniques; emphasis on components of fitness. Lecture 2 hours, demonstration-laboratory 2 hours.

389 Theory and Analysis of Gymnastics and Tumbling (3)
Prerequisite: PE 289. Theory and analysis of performance techniques, historical knowledge, safety procedures, and conditioning. Lecture 2 hours, demonstration-laboratory 2 hours.

404 Physical Education for the Elementary School Child (3)
Prerequisites: PE 161, 365. Content and process required to implement a developmental physical education program for elementary aged school children. Lecture 2 hours, practical teaching with children 2 hours.

410 Curriculum Designs in Physical Education (3)
Prerequisite: PE404 and either 380, 386, 388, or 389. Theory, practice, and development of curricula in physical education for kindergarten through twelfth grade.

411A Class Management and Organization in Physical Education (3)
Prerequisites: PE 330, 410, and either 380 or 388. Analysis and application of organizational patterns: motivational techniques related to effective conduct of physical education classes for kindergarten through twelfth grade.

411B Field Experience in Elementary Physical Education (1)
Prerequisite: PE 41 IA. Laboratory experience in application of organization and management techniques related to effective conduct of physical education. Emphasis on application for elementary school level physical education class. Laboratory/practicum 3 hours.

411C Field Experience in Secondary Physical Education (2)
Prerequisites: PE 380, 41 IA Laboratory experience in application of organization and management techniques related to effective conduct of physical education. Emphasis on application for secondary school level physical education class. Laboratory/practicum 6 hours.

412 Prevention and Care of Injuries (3)
Prerequisites: PE 340; instructor consent for nonmajors. Common injuries occurring in physical activity and athletics with emphasis on prevention and care. Lecture 2 hours, laboratory 3 hours.

415 Officiating Basketball (2)
Prerequisite: PE 152D or 352D or ATHL 342K. Problems, techniques, and practice in officiating basketball. Lecture 1 hour, activity 2 hours.

416 Officiating Football (2)
Prerequisite: PE 152F. Problems, techniques, and practice in officiating football. Lecture 1 hour, activity 2 hours.

418 Officiating Volleyball (2)
Prerequisite: PE 152V, 252V, 352V; or ATHL 342V (volleyball). Problems, techniques, and practice in officiating volleyball. Lecture 1 hour, activity 2 hours.

419 Officiating Softball (2)
Prerequisite: PE 3528. Problems, techniques, and practice in officiating softball. Lecture 1 hour, activity 2 hours.

420 Movement Experiences in Growth and Development (3)
Movement experiences involving basic locomotor and nonlocomotor patterns and their relationships to time, space, and projectiles as they affect growth and development. Lecture 2 hours, activity 2 hours.
424 Movement and Maturation (4)
Prerequisites: PE 420; ENGL 101; passing WPE score. Integration of theory, research, and practice of maturational factors on motor development from prenatal through later childhood periods; development of portfolio and written research project. Lecture 3 hours, field experience 2 hours per week.

440 Conduct of Athletic Programs (3)
Prerequisite: PE 160. Administrative and organizational principles applicable to athletic coaching.

441 Motivation in Athletics (3)
Personal qualities of coaches and athletes; suggested philosophies, methods, and techniques of communicating with and motivating athletes for consistent, maximal performance.

445 Sports Information and Game Management (3)
Athletic public relations with emphasis on writing publicity, compiling statistics, producing brochures: electronic media, game management.

450 Dimensions of Physical Education for Individuals with Disabilities (4)
Prerequisite: PE 330. Conditions requiring special physical education, including: learning disabilities, retardation, neurological and orthopedic conditions. Lecture 3 hours, practical teaching in programs for exceptional students 2 hours.

452 Physical Education for Severely Handicapped (4)
Prerequisite: PE 450. Etiology, movement characteristics, learning problems of severely handicapped individuals (trainable mentally retarded, severely multiple handicapped, seriously emotionally disturbed, and autistic). Lecture 3 hours, practicum 3 hours.

453 Physical Education for Learning Handicapped (4)
Prerequisite: PE 450. Problems of learning handicapped pupils in physical activity context; implications for physical education program development. Lecture 3 hours, practicum 2 hours.

454L,P Special Topics in Physical Education (1-4)
Prerequisite: Varies with topic. Current issues and interests of students in physical education and related experimental areas, as announced in Schedule of Classes. May be repeated as subject matter changes. Lecture and activity.

455 Motor Assessment of Exceptional Students (4)
Prerequisite: PE 450. Study of prevalent disabilities, with implications for program development, organization, administration, and evaluation of adapted physical education at elementary and secondary school levels. Evaluation and diagnosis of motor problems; prescription of adapted, developmental, and remedial physical education programs for elementary and secondary school students. Practical experience with assessment required.

456 Physical Education for Physically Handicapped (4)
Prerequisite: PE 450. Study of prevalent disabilities; implications for program development, organization, administration, and evaluation of adapted physical education students in elementary and secondary schools. Lecture 3 hours, practicum 2 hours.

457 Interdisciplinary Approach to Physical Education for Exceptional Students (4)
Roles and responsibilities of recreation, psychology, special education, nursing, physical and occupational therapy, and other professions in physical education of exceptional students.

458 Physical Aspects of Aging (4)
(also listed as NTRS 458)
Aging process, fitness, and nutrition; influences on wellness, life styles, and recuperation; strategies for optimizing physical quality of life for elderly.

459ABC Internship in Adapted Physical Education (2, 2, 1)
Prerequisites: Physical education core, 12 units in adapted physical education specialization, minimum B (3.0) grade point average, and recommendation of major adviser. Directed experience with weekly adviser conference. Students must complete minimum of 200 hours of internship experience. Segments A, B, and C need not be taken in sequence.

459A Clinic (80 hours)
459B School/agency/institution (80 hours)
459C Research (40 hours)

471 Computer Applications in Physical Education (3)
Introduction of computer technology in physical education; laboratory equipment interface techniques; software applications in physical education. Lecture 2 hours, laboratory 3 hours.

473 Motor Learning (3)
Prerequisite: PE 365. Neuropsychological and psychosocial bases of motor learning in relation to skill acquisition and performance. Lecture 2 hours, laboratory 3 hours.

474A Proseminar: Field Evaluation of Fitness (4)
Prerequisite: PE 360. Analysis of physical fitness theory and assessment techniques utilized in the field e.g., field tests for aerobic capacity, strength, muscular endurance, body composition, flexibility, motor skill, pulmonary function, blood pressure, and various anthropometric variables. Lecture 3 hours, activity 3 hours.

474B Proseminar: Laboratory Assessment Techniques (4)
Prerequisite: PE 474A. Physical fitness and performance assessment techniques employed within the laboratory environment: electrocardiography, electromyography, closed and open circuit indirect calorimetry stress testing; hydrodenitometry, respiratory and cardiocirculatory. Lecture 3 hours, laboratory 3 hours.

475 Proseminar: Exercise Prescription and Implementation (4)
Prerequisite: PE 474B. Development and implementation of exercise prescription for aerobic endurance, anaerobic power, strength, flexibility, and optimal body composition in apparently health special and general populations. Lecture 3 hours, laboratory 3 hours.

476 Administration of Fitness Programs (4)
Prerequisites: PE 4748,475. Conducting fitness programs in private and public sectors, implementing exercise prescriptive techniques, feasibility studies, marketing fitness services, staffing, equipment purchasing, structuring the organizations.

477 Proseminar: Biomechanical Analysis of Human Motion (3)
Prerequisite: PE 340. Kinematic and kinetic bases of human motion; techniques of cinematographic analysis of sports skills and human movement. Lecture 2 hours, laboratory 3 hours.

478 Proseminar: Structural Kinesiology (3)
Prerequisite: PE 340. Structure of human body in gross motor movement; structural analysis of motor skills and conditioning exercises. Lecture 2 hours, laboratory 3 hours.
**492A Field Experience in Exercise Science (2)**
Prerequisite: PE 475. Directed on-campus practicum in a career-related setting. Regular conferences with supervisor. Total of 100 hours. Graded CR/NC.

**492B Field Experience in Exercise Science (2)**
Prerequisite: PE 492A. Directed practicum in a career-related role in a community setting. Regular conferences with supervisor. Total of 100 hours. Graded CR/NC.

**496 Special Projects (1-3)**
Prerequisites: Senior or graduate standing, consent of department chair and faculty member. Participation under faculty supervision in planning, preparing, presenting, and coaching Cal State L.A.-sponsored intramural, extramural, or intercollegiate athletic activities. May be repeated for credit.

**499 Undergraduate Directed Study (1-4)**
Prerequisite: Consent of an instructor to act as sponsor. Project selected in conference with sponsor before registration; progress meetings held regularly, and final report submitted. May be repeated for credit.
The Bachelor of Arts degree in Social Work enables students to explore and develop values, knowledge and generalist skills essential to the practice of social work in a multiethnic environment. The goals of the program include: providing continuing education for persons already employed in the field of social work or related human services; preparing students for professional entry-level positions in social work; and preparing students for further study in graduate schools of social work or related human services.

Required Advisement
All students desiring to pursue a social work major must confer with a department adviser during their first quarter in the program. During the first quarter of their junior year, students must meet again with an adviser to plan the remainder of their program. Transfer students must see an adviser in their first quarter of enrollment at Cal State L.A. It is strongly recommended that students meet at least once a year with their faculty adviser.

Sequence Recommendations
It is highly recommended that students observe suggested sequences. Later course work assumes familiarity with prior course material. The following are strongly recommended or required:

- Students who transfer without having completed equivalent courses should include PSY 150 or SOC 201 or 202 and SOC 210A or EDFN 452 among their first courses at Cal State L.A.;
- SW 391 should be taken soon after 210A or EDFN 452;
- SW 301 should be taken early in the major;
- SW 370, prerequisite to SW 461,472, and 475, should be taken early in the major;
- SW 371AB is part of the upper division core and should be taken early in the junior year;

- All social work methods courses, i.e., SW 461, 472, 474, 475, should be taken before, or concurrently with, SW 495.

Requirements for the Major (86-87 units)

Select with prior adviser approval.

Certificate Programs
The Applied Gerontology credit certificate, offered by the School of Health and Human Services, contains course work in social work and is available to both social work majors and others. The department also offers course work applicable toward the interdisciplinary credit certificate in Child Maltreatment and Family Violence offered by the School of Health and Human Services.

371AB Social Work Practice, Human Behavior, and Social Environment (4, 4)
Prerequisite: PSY 150. Application of social work practice principles, values, knowledge, and skills in assessment of human behavior within context of social environment.

371A Prenatal through early adolescence.
371B Late adolescence through old age.

372 Social Work Practice I: Communication and Interviewing Skills (4)
Prerequisite: SW 370. Integrative approach to generalist social work practice which examines and applies communication theory and interviewing skills in working with individuals, families, small groups, and communities.

391 Social Work Research Methods (4)
Prerequisite: SOC 210A or EDFN 452. Scientific, analytic approach to knowledge building and practice in social work; experimental, quasi-experimental, and single subject research designs; sampling, survey methods, case studies, exploratory-descriptive studies, and evaluation research.

411 Computer Applications in Social Work (4)
Computers in field of social work and human service programs; includes use of DOS and major "applications" programs that have specific relevance to field of social work.

450 Crosscultural Practice with Aging Populations (4)
Prerequisite: Upper division standing. Ethnic factors in aging; ethnic specific and comparative analysis of ethnicity as it influences sociocultural context of older persons, care giving, and service delivery and utilization.

454 Selected Topics in Social Work (1-6)
Current topics of special interest in social work, as announced in Schedule of Classes. May be repeated for credit.

455 Strategies for Preventing and Intervening in Family Violence and Abuse (4)
(also listed as NURS 455)
Major theories used to explain family violence; emphasis on preventing abuse and intervening with victims across the age span; social policy and legal issues.

456 Multidisciplinary Teams, Child Maltreatment, and Family Violence (4)
Prerequisite: PSY 150 or SOC 201. Personal and professional responsibility in reporting, preventing, and treating child maltreatment; a multidisciplinary team approach to problems of child maltreatment and family violence.

461 Social Work Practice in Minority Communities (4)
Prerequisite: SW 370. Social work practice and its relationship to minority group communities; innovative methods of delivery of services; casework approaches, racism, role of social worker.

462 Institutional Racism and Poverty (4)
Prerequisite: SOC 201. Development of institutional racism and poverty; impact on social policy development and social service delivery; methods to reduce racism and poverty in America.

463 Women’s Issues in Social Welfare (4)
Prerequisite: SW 370. Women’s issues within social work practice areas: analysis of social welfare response to women’s special concerns; social policy implications for future directions.

465 Programs and Policies Related to the Elderly (4)
Prerequisite: Upper division standing. Policies, programs, and service delivery systems related to the elderly; descriptive and normative analysis of social problems related to aging with emphasis on ethnic minorities.

466 Case Management with Older Adults (4)
Prerequisite: Upper division standing. Examination of frameworks and models lined to quality case management programs and services, with the underserved, culturally diverse, frail elderly; case finding, assessment, goal setting to promote community-based care.

474 Social Work Practice II: Working with Individuals and Families (4)
Prerequisite: SW 372. Examination of the generalist social work method: engagement, data collection, assessment, intervention case management, evaluation and termination. Development of ethnic sensitive, integrative practice and issues/concerns of social work practitioner.

475 Social Work Practice III: Working with Groups (4)
Prerequisite: SW 372. Integrative approach to generalist social work practice; study of human behavior in groups; use of groups to accomplish individual, family, organizational, and/or community goals.

476 Child Welfare (4)
Services to families, children, and youth; the network of preventive and supportive services; child neglect and abuse: children and the legal system; foster care, institutional care, group homes, and adoptions.

478 Social Welfare Policy and Social Services (4)
Identifying, formulating, implementing, and evaluating social welfare policy options including: education, employment, health, mental health, housing, justice, public welfare, and social security; design and implementation of social service delivery systems.

479 Biofeedback and Stress Reduction (4)
Prerequisite: PSY 170 or SW 474 or BIOL 200B. Seminar about biofeedback theory; clinical applications and role in mental health and medical professions; relaxation and autogenic techniques as they augment biofeedback training with EEG, EMG, Temperature, GSR, and other instruments; opportunity to use instruments.

480 Social Work in the Criminal Justice System (4)
Development and application of individual, group, social change methods of social work in criminal justice system. Focus on methods used with victims and communities as well as offenders.

482 Social Work Practice IV: Community Organization (4)
Prerequisite: SW 372. Applies stages of the generalist social work method to community organizing, community analysis, dynamics of social power, and formal organizations.

485 The Homeless in Society (4)
Prerequisite: SOC 201 or 202. The homeless and homelessness including cultural, health/mental health, sociopolitical, economic, legal issues, consequences; policy, programs, service delivery responses and options. Lecture 3 hours, laboratory 3 hours.

486 Probation and Parole (4)
(also listed as SOC 486)
Prerequisite: SOC 480 or 482. History, philosophy, legal bases, and procedures governing investigation, treatment, and supervision of adjudged juvenile offenders and adult violators placed on probation and parole.
490 Latino Mental Health (4)
Prerequisite: SW 474 or other upper division course in mental health or counseling. Psychosociocultural aspects of mental health problems and issues within Latino community; factors affecting mental health, how professionals address them in social work and other human services; social work and human service implications for practice.

495 Directed Field Experience (4)
Prerequisites or corequisites: SW 472, 474, 475; corequisite: SW 496. Student internship in a social agency; supervised activities in application of theory and skills acquired in foundation courses. Must be repeated to total of 12 units. Graded CR/NC.

496 Integrative Seminar (1)
Prerequisites or corequisites: SW 472, 474, 475; corequisite: SW 495. Examination of the relationship between social work theory and practice to provide integration of academic and directed social work field experiences. Must be repeated to total of 3 units.

497 Social Work Proseminar (4)
Prerequisite: Sixteen upper division SW units. Comprehensive survey and analysis of selected areas of social work inquiry as announced in Schedule of Classes. May be repeated once for credit.

498 Cooperative Education
This cooperative education course may be taken repeatedly up to 16 units.

499 Undergraduate Directed Study (1-4)
Prerequisites: Senior standing, 2.75 overall grade point average, consent of a faculty sponsor, approval of proposed project prior to registration, ability to assume responsibility for independent research and analysis. Regular discussion of progress with sponsor before presentation of final written report.
 american humanics, Inc. (AH)

program office
Engineering and Technology A510
Phone: (213) 343-4580
Program Director: Jan Mackay.

American Humanics, Inc. (AH), founded in 1948 as a nonprofit program dedicated to developing professional leadership for the nation’s youth-serving agencies, has established programs in selected colleges and universities throughout the U.S. The primary objective is to present a program that prepares professionals for careers with youth and human service agencies such as Boy Scouts, Girl Scouts, Camp Fire, 4-H, YMCA, YWCA, and others.

AH at Cal State L.A. provides a unique opportunity for students interested in youth agency administration careers to receive a specific, practical, educational emphasis. In addition to the course work and internship required for completion of the Voluntary Youth Agency Administration certificate program (listed below), the program affords participants many other services and opportunities. Among these are the AH Student Association, national conferences and seminars, personal counseling, career placement, an annual retreat, and a student loan and scholarship program.

The Faculty

The faculty for the American Humanics program is interdisciplinary in nature, representing the various departments whose courses comprise the certificate program offered. The program is coordinated by the American Humanics program director.

Certificate Program in Voluntary Youth Agency Administration

This credit certificate program, which is intended to prepare professionals for careers in youth agency administration, requires a minimum of 36 units, selected in consultation with the American Humanics director. The program includes course work in seven major areas and an internship designed specifically for the program. In addition to the requirements listed below, students who have not taken CHS 111, PAS 101, or SOCS 180 as part of their general education program must complete SOC 460.

Students should plan their program with careful attention given to prerequisites for upper division courses. Refer to the Undergraduate Study chapter of this catalog for general regulations governing all certificate programs.

Requirements for the Certificate (36 units)

Accounting and Budgeting (select 4 units from)
ACCT 202 Survey of Accounting (4)
POLS 466 Public Financial Administration (4)

Community Organization (select 4 units from)
GRIM 439 Juvenile Law and Procedure (4)
PSY 445 Community Psychology (4)
SW 482 Social Work Practice IV: Generalist Model and Community Organization (4)

Counseling and Group Work (select 4 units from)
COUN 406 Behavioral Counseling and Self-Management (4)
PSY 405 Group Methods for Psychological Intervention (4)
SOC 420 Small Groups (4)
SW 461 Social Work Practice in Minority Communities (4)
SW 475 Social Work Practice III: Working with Groups (4)

Personnel Management (select 4 units from)
MGMT 473 Personnel Management (4)
POLS 466 Personnel Management Administration (4)
POLS 472 Organization and Management (4)
PSY 446 Employment and Personnel Psychology (4)

Public Relations and Communication (select 4 units from)
SPCH 396 Publicity and Public Relations (4)
POLS 470 Public Relations in Government (4)
PSY 420 Psychology of Communications (4)
SOC 424 Mass Communications and Public Opinion (4)
SPCH 430 Organizational and Professional Communications (4)
SPCH 489 Intercultural Communication (4)

Youth Agency Administration (8 units)
SW 476 Child Welfare (4)
YAA 290 Introduction to Youth Agency Administration (4)

Fund Raising (4 units)
YAA 490 Volunteer Management and Fund Raising (4)

Internship (4-6 units)
YAA 495 Directed Field Experience (4-6)

Elective (1-4 units)
YAA 499 Undergraduate Directed Study (1-4)

Courses in Youth Agency Administration (YAA)

Lower Division Course

290 Introduction to Youth Agency Administration (4)
History, philosophy, programs, and organization of the major national voluntary youth service agencies from a professional management perspective; role of the professional executive; the nature of volunteerism. Required field visits.

Upper Division Courses

490 Volunteer Management and Fund-Raising (4)
Prerequisite: YAA 290. Development of executive skills in managing volunteers and raising funds for youth-serving agencies; sources and techniques of financial development for community agencies; management of voluntary staff and directorial boards.

495 Directed Field Experience (4-6)
Prerequisites: YAA 290, instructor consent, agency acceptance. Student placement to provide experience under supervision in a youth agency; individual evaluative conferences. Graded CR/NC.

499 Undergraduate Directed Study (1-4)
Prerequisites: YAA 290, upper division standing, consent of a faculty sponsor, approval of program coordinator, approval of proposed project prior to registration, ability to assume responsibility for independent research and analysis. Project selected in conference with sponsor; progress meetings held regularly and a final report submitted. May be repeated to maximum of 4 units.

DEPARTMENT OFFICE
King Hall C4068
Phone: (213) 343-2440

The Department of Anthropology offers a wide range of courses in the biological origins and variation of humankind, the prehistoric record, and particularly, the comparative study of contemporary world cultures. The department offers courses that support programs in the social, behavioral, and life sciences. In addition to preparing students for advanced study or a professional career in anthropology, the degree provides a broad liberal education appropriate to careers in business, law, government service, and teaching. The Bachelor of Arts degree program is described below. The Master of Arts degree program is described in the Graduate programs section.

The Faculty

Professors: Norman Klein (Chair), Jon L. Olson, Elliott Oring.
Associate Professors: Raquel Ackerman, James R. Bell, Patricia Martz.
Assistant Professor: Chorswang Ngin.

Bachelor of Arts Degree

The Bachelor of Arts degree in Anthropology is available for those who seek a liberal arts education or who wish to prepare for advanced study and research.

Departmental Honors Program

The Department of Anthropology offers an honors program for students who have completed at least 16 upper division units in anthropology, who have a minimum 3.25 grade point average in all anthropology courses, and who possess a minimum 3.0 grade point average in all college work. Application to the program is made by written petition.

The program is designed to introduce superior students to intensive research experience in anthropology and related fields, as well as to more sophisticated and thorough study of anthropological theory in relevant subareas of the discipline. Honors students are permitted to depart from the normal major program in various ways to broaden and enrich their curriculum.

Honors students plan their programs in consultation with an honors adviser. Students enroll during each of their final three quarters in ANTH 396, and submit a written thesis to the departmental honors committee. Diplomas and transcripts of honors program graduates are designated: “Graduated with Departmental Honors in Anthropology.”

Requirements for the Major (62 units)

The major requires 62 units in anthropology, of which 8 are in lower division and 54 are in upper division courses. In addition, students must include 12 units of a modern foreign language in their lower division program or offer proof of successful completion of three years of modern language study in high school as an acceptable equivalent. An additional acceptable equivalent can be the successful completion of three upper division courses in linguistics, ANTH 470/ENGL 403; ANTH 471/ENGL 400; and ANTH 472.

Lower Division Required Courses (8 units)
ANTH 250 Cultural Anthropology (4)
ANTH 260 Physical Anthropology (4)

Upper Division Required Courses (8 units)
ANTH 430 Social Organization (4)
ANTH 497 History of Ethnological Theory (4)

Electives (34 units)
Select two from following (8 units):
ANTH 401, 404, 406-408, 410, 413, 414
Select one from following (4 units):
ANTH 421, 423, 425
Select one from following (6 units):
ANTH 424, 464, 480
Select one from following (4 units):
ANTH 432, 434, 437
Select one from following (4 units):
ANTH 435, 444, 445, 462
Select one from following (4 units):
ANTH 460, 461, 462
Select one from following (4 units):
ANTH 470/ENGL 403 or ANTH 471/ENGL 400

Additional Electives (12 units)
Select courses in anthropology to complete upper division minimum of 54 units. Beyond this minimum, students are encouraged to add elective courses from other disciplines, in consultation with major advisers.

Minor in Anthropology

A minor in Anthropology is available for students majoring in other fields. A total of 28 units in anthropology, of which 8 units are in lower division courses and 20 units are in upper division courses, is required.

Requirements for the Minor (28 units)

Lower Division Required Courses (8 units)
ANTH 250 Cultural Anthropology (4)
ANTH 260 Physical Anthropology (4)

Upper Division Electives (20 units)
Select two from following (8 units):
ANTH 401, 404, 406, 407, 408, 410, 413, 414, 421, 425
Select one from following (4 units)
ANTH 430, 497
Select two from following (8 units):
ANTH 432, 435, 437, 443, 444, 445, 460, 461, 462, 470, 471
Courses in Anthropology (ANTH)

Lower Division Courses

250 Cultural Anthropology (4)
Exploration of concept of culture, evolution of cultural systems, application of concept of culture to selected anthropological problems, relevance of concept of culture to modern life.
CAN ANTH 4

260 Physical Anthropology (4)
Origin and antiquity of the human species and its place in nature, fossil evidence for human evolution, varieties of humans, somatological and genetic bases for racial classifications.
CAN ANTH 2

265 The Cultural Animal (4)
Exploration of the human biocultural experience. Perspectives on the human primate inheritance in the formation of cultural behavior and cultural organizations.

270 Introduction to Archaeology (4)
Introduction to world prehistory, examination of basic archaeological concepts, investigation of extinct cultures.
CAN ANTH 6

Upper Division Courses

344 Medical Anthropology (4)
Prerequisite: ANTH 250 or SOC 201 or 202. Medical practice within sociocultural perspective; applying anthropological concepts and knowledge to an understanding of health, illness, and curing.

350 Evolution of Culture (4)
Prerequisite: GE social science requirement. The interrelationships of human biological and cultural evolution, with an emphasis on changing adaptive patterns and sociocultural organization.

396 Honors Thesis (1-3)
Prerequisite: Admission to honors program in Anthropology. Preparation of an honors thesis, under supervision of an adviser, acceptable to departmental honors committee. May be repeated to maximum of 6 units.

400 Primate Behavior and Human Emotion (4)
Prerequisite: BIOL 155 or PSY 270. Scientific explanations of primate behavior in various ecological settings and of its relationship to human behavior and emotions.

401 Comparative Cultures (4)
Prerequisite: ANTH 250. Principal culture types and their geographical distribution, application of cultural data to ethnological problems.

404 Peoples of South America (4)
Prerequisite: ANTH 250. Prehistoric, historic, and contemporary cultures of South America, with emphasis on sociological and ethnological principles of analysis and comparison.

406 Indians of North America (4)
Prerequisite: ANTH 250. Native peoples of North America north of Mexico, their origins, culture change after contact with Europeans.

407 Indians of California (4)
Prerequisite: ANTH 250. Native peoples of California, their origins, languages, and cultures.

408 Peasant Cultures of Middle America (4)
Prerequisite: ANTH 250. Pre-Spanish civilizations of Mexico and Central America, the conquest and colonial backgrounds of present-day peoples, contemporary societies and cultures of area.

410 Peoples of the Pacific (4)
Prerequisite: ANTH 250. Island peoples of Polynesia, Melanesia, and Micronesia, migration theories, contemporary social and political systems, European contacts and culture change.

413 Peoples of Africa (4)
Prerequisite: ANTH 250. Historical and cultural backgrounds of traditional and contemporary societies of Africa south of the Sahara, Western and Asian influences, problems of social, economic, and political development.

414 Peoples of Asia (4)
Prerequisite: ANTH 250. Peoples and cultures of Asia; relationships of contemporaneous groups and dynamics of culture change. Emphasis alternates among four areas: Japan and Korea; South Asia; Southeast Asia; China. May be repeated until all areas of emphasis are covered.

421 Archaeology of North America (4)
Prerequisite: ANTH 250. Early peopling of North America and development of prehistoric cultures in New World north of Mexican high culture area.

423 Primitive Technology (4)
Prerequisite: ANTH 250. Investigation of role of technology in early human culture, materials and use of tools during human evolution, techniques of manufacturing, and influence of early technology in culture.

424 Archaeological Research Techniques (6)
Prerequisites: ANTH 270 or 407 or 421; instructor consent. Instruction in recovery and interpretation of archaeological data. Lecture 4 hours, laboratory and field work 6 hours. May be repeated to maximum of 12 units.

425 Archaeology of the Old World (4)
Prerequisite: ANTH 250. Growth of culture from its earliest beginnings to emergence of great civilizations, utilizing concepts, methods, and data of archaeology.

430 Social Organization (4)
Prerequisites: ANTH 250 or 401 or SOC 414 or 444; instructor consent. Systems of kinship and marriage, with reference to social control, religion, law, politics, and economic organization.

432 Anthropology of Wealth and Power (4)
Prerequisite: ANTH 250. Theoretical perspectives and comparative ethnographic analyses of political-economic systems of preindustrial societies ranging from bands through contemporary peasantry.

434 Anthropology in A Changing World (4)
Prerequisite: ANTH 250. Examination of culture change; review of various theoretical positions, and application of anthropological concepts and data to crises facing contemporary societies.

435 Culture and the Individual (4)
Prerequisite: ANTH 250. Exploration of conformity and deviance in society through the comparative study of personality formation in different cultural and subcultural settings.
437 Magic, Witchcraft, and Religion (4)
Prerequisite: ANTH 250. Investigation of the domain of the sacred and supernatural in both technologically primitive and advanced societies. Emphasis on magic, witchcraft, taboo, myth, ritual, belief systems, and religious symbols.

438 Sex Roles in Crosscultural Perspective (4)
Prerequisite: ANTH 250. Evolutionary and comparative approach to study of roles of men and women in societies past and present.

443 Anthropology and Education (4)
Prerequisite: ANTH 250. Education in crosscultural perspective; application of anthropological concepts and knowledge to understanding of educative process.

445 Myth and Folklore (4)
Prerequisite: ANTH 250 or AMER 405. Basic forms of folklore including myth, legend, tale, song, and custom in cultural context, with attention to their origin, transmission, performance, function, and meaning.

446 Anthropological Film (5)
Prerequisite: ANTH 250. Survey of films and approaches to film making in anthropology; methods of presenting data and theoretical analysis in film; practice in using film and videotape in field research. Lecture 3 hours, field activity 4 hours.

450 Culture and Innovation (4)
Prerequisite: GE social science requirement. The creative experience and its cultural parameters; effect of culture in structuring the innovative process; emphasis on forces that initiate, direct, and impede the course of creative effort.

454LP Special Topics in Anthropology (1-6)
Prerequisites: As needed for specific topic. Topics of special interest in anthropology, as announced in Schedule of Classes. May be repeated for credit as subject matter changes.

460 Human Evolution (4)
Prerequisite: ANTH 260. Critical examination of fossil evidence for human evolution considering importance of cultural evolution. Emphasizes recent discoveries and controversial theories surrounding them.

461 Human Variation (4)
Prerequisite: ANTH 260. Evaluation of culture and environmental influences upon composition and distribution of human populations; consideration of genetic basis for human variation and biological validity of race concept.

462 Human Ecology and Adaptation (4)
Prerequisite: ANTH 260. Comparative study of the ecological adaptations of diverse human populations to their environments.

464 Methods and Techniques of Physical Anthropology (6)
Prerequisites: ANTH 260, instructor consent. Methods of data gathering and analysis in physical anthropology, including consideration of practical problems in field research and advantages and limitations of various field and laboratory techniques. Lecture 4 hours, laboratory 6 hours. May be repeated to maximum of 12 units.

470 Language and Culture (4)
(also listed as ENGL 403)
Prerequisite: ANTH 250. Nature, origin, and evolution of language; survey of approaches and studies illustrating variations in the relation of habitual thought and behavior to language.

471 Introduction to Linguistics (4)
(also listed as ENGL 400)
Prerequisite: Upper division standing. Descriptive and historical study of language; problems of data collection and techniques of analysis, linguistic structure, language classification, language families of the world, language in its sociocultural setting.

472 Linguistic Analysis (3)
Prerequisite: ANTH 471 (may be taken concurrently); 250 recommended. A problems course in anthropological techniques of phonemic and morphemic analysis; close reading of technical, descriptive literature; survey of phonological and grammatical systems of non-Indo-European languages.

480 Anthropological Methods and Techniques (6)
Prerequisites: ANTH 250; instructor consent. Introduction to methodology of anthropological research, including methods of ethnographic investigation, ethnological analysis, and logical processes of problem-solving. Lecture 4 hours, laboratory and field work 6 hours.

481 Academic Writing and Publishing (4)
Prerequisites: Upper division or graduate standing, satisfactory completion of the Graduation Writing Assessment Requirement (GWAR). Introduction to conceptualizing, writing, revising, and publishing academic essays, books, and reviews in the social sciences.

485 Archaeological Analysis (6)
Prerequisites: ANTH 421 or 424 and consent of instructor. Introduction to the basic concepts, principles, goals, and methodologies of archaeological analysis and interpretation. May be repeated to a maximum of 12 units for credit. Lecture 4 hours, laboratory 6 hours.

497 History of Ethnological Theory (4)
Prerequisites: Senior or graduate standing, 16 units of anthropology and/or sociology, as approved by instructor. Historical survey and analysis of major schools of anthropological thought.

499 Undergraduate Directed Study (1-8)
Prerequisite: Instructor consent to act as sponsor. Project selected in conference with sponsor before registration, progress meetings held regularly, and final report submitted. May be repeated to maximum of 8 units.
The Department of Biology and Microbiology offers programs leading to Bachelor of Science and Master of Science degrees in Biology, and a Bachelor of Science degree in Microbiology with options in Microbiology and Clinical Laboratory Science. Students pursuing a degree in microbiology may qualify for entrance to medical or dental schools by including appropriate elective courses in their program. The department also offers a Master of Science degree in Biology which is described in the Graduate Programs section.

The Faculty

Assistant Professors: Mark Steven Cook, Heather J. Henter, Philip S. LaPolt, Sandra B. Sharp.

Bachelor of Science Degree

The Bachelor of Science degree in Biology provides a balanced blend of traditional and modern biology, incorporating the important generalizations of traditional biology with the more recent advances. The degree may lead to graduate study in biology; entrance into professional schools in medicine, dentistry, or pharmacy; and employment in applied or technical aspects of biology and environmental science. In addition to the usual course offerings, the Department of Biology and Microbiology participates in the Southern California Ocean Studies Institute (SCOSI) and the California Desert Studies Consortium which are explained in detail under Consortia in the first chapter of this catalog. The department also participates in the Interdisciplinary Bachelor of Science degree program in Natural Science.

Departmental Honors Program

The Department of Biologyy and Microbiology offers an honors program for upper division biology students who have completed 94 quarter units, including 40 units in the major, with a minimum B (3.0) grade point average both overall and in the major. Students shall have completed 24 units of the major in residence at Cal State L.A.

The honors program introduces superior students to intensive research experience in biology. Honors students are assisted by an honors adviser and two other committee members. Enrollment in BIOL 396, Honors Study in Biology, for 5 units is required, and enrollment in BIOL 499, Undergraduate Directed Study, for 1-4 units, is optional. A prospectus, a written thesis, and a final oral examination about the thesis, administered by the committee, are required parts of the program. Diplomas and transcripts of honors program graduates are designated: “Graduated with Departmental Honors in Biology.”

Bachelor of Science Degree in Biology

Requirements for the Major (114-119 units)

Of the 198 units required for the Bachelor of Science degree in Biology, the major requires 114-119. Competence in mathematics through MATH 230 is required. It is recommended that students complete at least one year of a foreign language.

Successful completion of the major requires a minimum C (2.0) overall grade point average in required courses taken in residence and in all required courses (in residence and transferred). At least 16 units of upper division course work that fulfills major requirements must be taken in residence (not to include courses graded CR/NC).

Lower Division Required Courses (49-54 units)

Biology, Chemistry, Mathematics, and Physical Sciences

BIOL 101-103 Principles of Biology I-III (5, 5, 4)
CHEM 101 General Chemistry I (5) plus
CHEM 122, 123 Principles of Chemistry (5, 5) or
CHEM 101-103 General Chemistry I-Ill (5, 5, 5) plus
CHEM 201 Quantitative Analysis (5)
MATH 206 Calculus I: Differentiation (4)
MATH 230 Calculus for Biologists (4)
PHYS 101-103 Physics (4, 4, 4) or
PHYS 121-123 Physics (with calculus) (4, 4, 4)

Upper Division Required Courses (33 units)

Biology, Mathematics, Chemistry, and Physical Sciences

BIOL 300 Biometrics (4)
BIOL 320 Writing for Biologists (4)
BIOL 340 General Genetics (4)
BIOL 360 General Ecology (4)
BIOL 380 Cell Biology (4)
CHEM 301ABC Organic Chemistry (3, 3, 3) and
CHEM 302AB Organic Chemistry Laboratory (2, 2)

Electives (32 units)

With prior written approval of their adviser, students must select certain upper division courses in biology and other natural sciences, mathematics, and physical sciences. No upper division course with the suffix Nor upper division general education course may be used to fulfill major requirements.

Bachelor of Science Degree in Microbiology

The Bachelor of Science Degree in Microbiology offers students academic instruction in two options. One qualifies students for training positions leading to licensure as registered clinical laboratory scientists. The other provides the basic academic preparation in microbiology that qualifies students for graduate studies and for various employment opportunities in public health, environmental applications, the pharmaceutical, fermentation, sanitation, and dairy industries, and for research positions in university/private/clinical laboratories.

Requirements for the Major (120 units)

Of the 196 units required for the Bachelor of Science Degree in Microbiology, the major requires 120. The common core for both options require 105-106 units. In addition, 14-15 units must be taken, with adviser approval, to satisfy the requirements for the particular option selected.
Successful completion of the major requires a minimum C (2.0) overall grade point average in all required courses. At least 16 units of upper division course work that fulfills major requirements must be taken in residence (not to include courses graded CR/NC).

**Lower Division Required Core Courses (58 units)**

**Option in Microbiology (14-15 units)**

Students selecting this option will have the academic preparation to enter graduate school in microbiology, or may elect to work in research, environmental, dairy, food, pharmaceutical, agricultural, or other industrial applications.

Select from the following courses (14-15 units) with adviser approval:

**Minor in Biology**

A Biology minor, which is available for students majoring in other fields, offers a general exposure that is beneficial in some areas of environmental science, recreation, conservation, and comparable fields.

A total of 30-35 units is required, including 19-23 units in lower division courses and 11-12 units in upper division electives.

Successful completion of the minor requires a C (2.0) overall grade point average for required courses taken in residence and for all required courses (in residence and transferred). At least 8 units of upper division course work that fulfills requirements of the minor must be taken in residence (not to include courses graded CR/NC).

**Requirements for the Minor (30-35 units)**

**Lower Division Required Courses (19-23 units)**

**Upper Division Electives in Biology (11-12 units)**

With adviser approval, choose 3 courses from among upper division courses in biology, excluding 454L,P, 499, and courses with the suffix N.

**Minor in Microbiology**

The department offers a minor in Microbiology for students majoring in other fields. The minor consists of a 22-unit core and 8 units of electives. The purpose of this minor is to allow students from a variety of related majors the opportunity to focus a portion of their baccalaureate course work on microbiology in order to qualify them for postbaccalaureate positions requiring such knowledge. Chemistry 101, 301AB, and 302AB are prerequisite to several of the courses in the minor. Interested students are urged to consult with a microbiology faculty member for advisement before beginning the minor.

**Requirements for the Minor (30 units)**

**Required Core** (22 units)

The Credential Program
The Department of Biology and Microbiology participates in the interdisciplinary Bachelor of Science degree program in Natural Science, which satisfies the subject matter requirements for the Single Subject credential in Science. That program is described later in this chapter of the catalog. Students should consult advisers in the department and in the Charter School of Education. Refer to the undergraduate Charter School of Education chapter of this catalog for regulations governing all teaching credential programs.

Supplementary Authorization for Single Subject Teaching Credential (31 units)
Holders of a Single Subject teaching credential, issued by the state of California in a subject other than Science, may supplement that credential with an authorization in Biological Sciences at any grade level through grade 12 or in classes organized primarily for adults by completing the following program with a grade of C or higher in each course. The course work must include one year sequence of courses in at least two of the subject areas. At least one of the courses must include a laboratory component. For other requirements governing issuance of this authorization, consult the Charter School of Education.

Complete or demonstrate proficiency in each of the following courses (37 units):
BIOL 101-103 Principles of Biology I-III (5, 5, 4)
BIOL 200A Human Anatomy and Physiology I (5)
BIOL 300 Biometrics (4)
BIOL 340 General Genetics (4)
BIOL 360 General Ecology (4)

Courses in Biology (BIOL)

Lower Division Courses

101 Principles of Biology I (5)
Prerequisite: One year of high school biology. Introduction to organismic animal biology, survey of phyla, function and development of organ systems, and adaptation to environment. Recommended for science majors. Lecture 3 hours, laboratory 6 hours. BIOL 101+102+103 = CAN BIOL SEQ A

102 Principles of Biology II (5)
Prerequisite: One year of high school biology. Survey of plant phyla, relationships of structure to function, unique adaptations to environment; evolution and economic roles of plants. Recommended for science majors. Lecture 3 hours, laboratory 6 hours. BIOL 101+102+103 = CAN BIOL SEQ A

103 Principles of Biology III (4)
Prerequisites: Grades of C or higher in BIOL 101 and 102. Corequisite: CHEM 101 or 151. Principles of genetic coding and transfer, ecology, and evolution. Lecture 3 hours, recitation 1 hour. BIOL 101+102+103 = CAN BIOL SEQ A

140 Science Orientation (2)
(also listed as CHEM 140)
Prerequisite: Instructor consent. Exploration of skills essential for success in the sciences; presentations by professional scientists. No credit toward science majors. Graded CR/NC.

154 Selected Topics in Biology (1-4)
Topics of current interest in biology as announced in Schedule of Classes. No credit toward Biology major or minor.

155 Natural History of Animals (4)
Biology of animals with emphasis on their adaptations to the environment and evolution and their importance to humans. Lecture 3 hours, laboratory 3 hours. No credit toward biology major or minor.

156 Natural History of Plants (4)
Biology of plants with emphasis on their adaptations to the environment and evolution and their importance to humans. Lecture 3 hours, laboratory 3 hours. No credit toward biology major or minor.

165 Humans and the Biological Environment (4)
Biological implications of the effect of humans on the environment. Emphasis on biological problems created by overpopulation and pollution. Designed for students not majoring in sciences. No credit toward Biology major or minor.

168 Marine Biology (4)
Natural history and survey of marine organisms with emphasis on their adaptations to their environments. Effects of human exploitation of marine wildlife. No credit toward Biology major or minor.

200A Human Anatomy and Physiology I (5)
Prerequisite or corequisite: CHEM 151. Structure and function of the cell and tissue; anatomy and physiology of the skeletal, muscular, digestive, and urinary systems. Lecture 3 hours, laboratory 6 hours. No credit toward Biology major or minor.

200B Human Anatomy and Physiology II (5)
Prerequisite: BIOL 200A. Anatomy and physiology of the cardiovascular, respiratory, nervous, endocrine, and reproductive systems. Lecture 3 hours, laboratory 6 hours. No credit toward Biology major or minor.

201 Structure of Human Body (5)
Human anatomy from cellular to systems level of organization; articulations, skeletal, muscular systems. Lecture 3 hours, laboratory 6 hours. No credit toward Biology major or minor or Nursing major.

202 Function of Human Body (5)
Prerequisite: BIOL 201. Functions and control processes of human body; musculoskeletal activity; neural, endocrine integration. Lecture 3 hours, laboratory 6 hours. No credit toward Biology major or minor or Nursing major.

Upper Division Courses

300 Biometrics (4)
Prerequisites: Grade of C or higher in BIOL 103; MATH 103. Statistical analysis applied to biological problems, with emphasis on sampling, experimental design, chi-square analysis, t-test, analysis of variance, regression analysis, and correlation analysis. Lecture 3 hours, laboratory 3 hours.

319N Human Genetics (4)
Prerequisite: BIOL 155. Basic principles of genetics and their applicability to human heredity; emphasis on race; IQ; diseases; counseling; social, ethical, and legal implications of genetic research; historical misuse of genetic information. No credit toward Biology major or minor.
320 Writing for Biologists (4)
Prerequisites: BIOL 300, satisfactory completion of the Graduation Writing Assessment Requirement (GWAR). Introduction to writing skills and techniques necessary for presentation of biological information; intensive practice in writing abstracts, reports, reviews, and other forms of scientific papers. Lecture 2 hours, activity 6 hours.

340 General Genetics (4)
Prerequisite: BIOL 302. Principles of classical and molecular genetics as demonstrated in plants, animals, and microorganisms; emphasis on mechanisms of inheritance, structure of genetic material, breeding experiments with suitable organisms, analysis and interpretation of data. Lecture 3 hours, laboratory 3 hours.

358N Science and Controversy (4)
(also listed as CHEM 358N, CS 358N, and PHYS 358N)
Prerequisite: GE natural science requirement. Scientific background of issues that affect public welfare, such as genetic technology, chemical pesticides, and energy production and utilization. No credit toward Biology, Chemistry, Computer Science, or Physics major or Biology minor.

360 General Ecology (4)
Prerequisite: BIOL 300. Relation of plants and animals to their environment and to each other; environmental complexes, ecological life histories, and relationships among individuals in populations and communities. Lecture 2 hours, laboratory and field work 6 hours.

361N Ecology of the Urban Environment (4)
Prerequisite: BIOL 155 or 156. Influences of urbanization on natural plant and animal communities with special emphasis on the Los Angeles basin; ecological consideration of effects of agriculture, housing, natural areas, pollution, parks, and recreational areas. Lecture 2 hours, discussion 1 hour, laboratory 3 hours including field trips. No credit toward Biology major or minor.

375N Biology of Health Maintenance (4)
(also listed as MICR 375N)
Prerequisite: Completion of Block B1 of General Education Program. Biological aspects of the healthy state and major diseases that affect human populations. Current theories for maintaining the healthy state are emphasized.

380 Cell Biology (4)
Prerequisites: BIOL 103, CHEM 301A. Structure and function of the cell surface, membranes, organelles, and of the cytosol; control of information flow and of metabolism. Lecture 3 hours, laboratory 3 hours.

396 Honors Thesis (15)
Prerequisites: Upper division standing, 40 units in the major, ENGL 102*, admission to Biology Honors Program. Independent research in biology; regular consultations with research adviser; written thesis required. Student must complete 5 units before submitting thesis and receiving grade.
*Students subject to earlier catalogs satisfy this prerequisite with ENGL 101 or 190.

401 Microtechniques (4)
Prerequisites: CHEM 301C, upper division standing in a biological science major. Preparative and histochemical study of cells and tissues, including squash, sectioning, and staining methods. Lecture 1 hour, laboratory 9 hours.

402 Electron Microscopy (4)
Prerequisites: Senior standing in a biological or physical science major, instructor consent. Theory of electron microscopy; practical experience in the preparation of biological and physical materials for examination and operation of transmission and scanning electron microscope. Lecture 1 hour, laboratory 9 hours.

408 Experimental Design and Advanced Biometry (4)
Prerequisite: BIOL 300. Experimental design in statistical procedures, advanced topics in analysis of variance, linear and non-linear regression analysis, covariance; introduction to multivariate techniques used in biological research. Lecture 3 hours, laboratory 3 hours.

414 Cytogenetics (4)
Prerequisites: BIOL 340, 380. Physical basis of hereditary in plants, animals, and humans; structure, number, and behavior of chromosomes in normal and abnormal conditions, karyotyping. Lecture 3 hours, laboratory 3 hours.

415 Population Genetics (4)
Prerequisite: BIOL 340. Forces that shape the genetic structure of populations; random genetic drift; mutation; natural selection; inbreeding; assortative mating; molecular evolution; quantitative genetics; ecological genetics. Lecture 3 ours, laboratory 3 hours.

416 Molecular Genetics (4)
Prerequisites: BIOL 340, CHEM 301A. Special topics concerning chemical nature of genes, their replication, and their mode of action at molecular level.

417 Gene Manipulation (4)
Prerequisites: BIOL 340 or MICR 340; BIOL 380 or CHEM 431AB and 432A. Genetic engineering and its application in molecular biology and biotechnology.

418 Evolution (4)
Prerequisite: BIOL 340. Genetic and ecological bases of evolutionary changes in animals and plants; microevolution, speciation, and macroevolution.

422 Vertebrate Structure and Function (5)
Prerequisite: BIOL 103 with grade of C or higher. Evolution of vertebrate structure and functional morphology; evolutionary adaptations of vertebrates presented in a phylogenetic text. Lecture 3 hours, laboratory 6 hours.

424 General Embryology (4)
Prerequisites: Grade of C or higher in BIOL 103; CHEM 301 C. Molecular biology of genetic programming, cellular events of early embryo-genesis, mechanisms of differentiation, and elements of organogenesis. Lecture 2 hours, laboratory 6 hours.

425 Plant Anatomy (4)
Prerequisite: Grade of C or higher in BIOL 103. Microscopic structure of vascular plants with emphasis on organization and functioning of meristems; structure, function, and differentiation of cells and tissues; development and comparative anatomy of stem, leaf, and root. Lecture 2 hours, laboratory 6 hours.

427 Fungi (4)
Prerequisite: Grade of C or higher in BIOL 103. Structure, development, physiology, and classification of fungi. Lecture 2 hours, laboratory 6 hours.
429 Animal Histology (5)
Prerequisite: Grade of C or higher in BIOL 103. Basic structural, chemical, and physiological aspects of tissues, recent advances in histological technology; traditional microscopic study of tissues and organs, primarily mammalian. Lecture 3 hours, laboratory 6 hours.

430 Plant Physiology I (4)
Prerequisites: Grade of C or higher in BIOL 103; CHEM 103. Growth and development, growth regulation, plant-water relations, mineral nutrition, photosynthesis and respiration. Lecture 2 hours, laboratory 6 hours.

431 Plant Physiology II (4)
Prerequisite: BIOL 430. Ecological physiology of plants: physiological adaptations to stress, seasonal environmental changes, aquatic and various terrestrial habitats. Lecture 4 hours.

433 Animal Physiology I (4)
Prerequisite: BIOL 380. Physiological phenomena at the organismic level. Muscular, nervous, endocrine, and reproductive systems; laboratory techniques and principles. Lecture 3 hours, laboratory 3 hours.

434 Animal Physiology II (4)
Prerequisite: BIOL 380. Physiological phenomena at organismic level; digestive, respiratory, excretory, and circulatory systems. Laboratory techniques and principles. Lecture 3 hours, laboratory 3 hours.

435 Neurobiology: Neuroanatomy (4)
Prerequisite: BIOL 380 or equivalent. Gross and Microscopic structure of the mammalian nervous system, organizational aspects, classical lesions and deficits.

436 Neurobiology: Neurophysiology (4)
Prerequisite: BIOL 380 or equivalent. Basic cellular physiology of the vertebrate nervous system.

437 Advanced Cell Physiology (4)
Prerequisite: BIOL 380. A topical course on cellular phenomena such as information flow, bioenergetics, control mechanisms, motility phenomena, and molecular behavior of reactive surfaces. Lecture 3 hours, laboratory 3 hours.

438 Comparative Physiology (4)
Prerequisite: BIOL 380. Physiological principles and adaptations to the environment, with special emphasis on invertebrates; laboratory work includes independent projects. Lecture 3 hours, laboratory 3 hours.

440 Taxonomy of Angiosperms (4)
Prerequisite: Grade of C or higher in BIOL 103. Identification, classification, and nomenclature of angiosperms; speciation and population structure. Lecture 2 hours, laboratory or field work 6 hours; weekend field trips may be required.

442 Marine Botany (4)
Prerequisite: Grade of C or higher in BIOL 103. Taxonomy, morphology, and ecology of marine plants, with emphasis on the seaweeds. Lecture 2 hours, laboratory 6 hours.

444 Freshwater Algae (4)
Prerequisite: Grade of C or higher in BIOL 103. Taxonomy, morphology, and ecology of freshwater algae. Lecture 2 hours, laboratory 6 hours.

451 Ornithology (4)
Prerequisite: Grade of C or higher in BIOL 103. Taxonomy, distribution, physiology, life history, ecology, and behavior of birds. Lecture 2 hours, laboratory and field work 6 hours.

454 LP Special Topics in Biology (1-4)
Prerequisites: Upper division standing, others as needed for specific topic. Topics of current interest in biology as announced in Schedule of Classes. May be repeated to maximum of 8 units.

455 Mammalogy (4)
Prerequisite: Grade of C or higher in BIOL 103. Taxonomy, distribution, ecology, and physiology of mammals. Lecture 2 hours, laboratory and field work 6 hours.

457 Marine Invertebrate Zoology (5)
Prerequisite: Grade of C or higher in BIOL 103. Taxonomy, phylogeny, and natural history of major marine invertebrates taxa; laboratory work emphasizes species from local fauna and those of economic importance. Lecture 3 hours, laboratory 6 hours.

458 General Entomology (4)
Prerequisite: Grade of C or higher in BIOL 103. Anatomy, ecology, classification, and habits of insects, with emphasis on western species; techniques for capture, observation, and preservation of specimens. Lecture 2 hours, laboratory 6 hours.

462 Plant Ecology (4)
Prerequisite: BIOL 360. Plants and plant associations in relation to physical and biotic environments, including plant community structure, history, analysis, and developmental processes. Lecture 2 hours, laboratory and/or field work 6 hours.

464 Freshwater Zoology (4)
Prerequisites: BIOL 360; one year of chemistry. Physical, chemical, and geological characteristics of aquatic habitats; characteristics and natural history of common aquatic organisms; emphasis on animals. Lecture 2 hours, laboratory 6 hours.

465 Issues in Environmental Biology (4)
Prerequisites: BIOL 103, CHEM 103. A review of crucial issues in environmental biology.

470 Conservation of Wildlife (4)
Prerequisite: BIOL 360. Main environmental and population principles affecting wildlife food and shelter; predation and disease; major habitats and their conservation; wildlife protection; ecology of selected species. Lecture 3 hours, laboratory/field work 3 hours.

471 Population Ecology (4)
Prerequisite: BIOL 360. Structure and dynamics of animal populations, including density, spatial patterns, growth rates, predation, competition, regulation, and population cycles. Lecture 3 hours, laboratory or field work 3 hours.

472 Marine Ecology (4)
Prerequisite: BIOL 360. Population and community ecology of major habitats in marine environment; lecture emphasizes contemporary theories in marine ecology; laboratory offers practical field experience. Lecture 3 hours, laboratory or field work 3 hours.

476 Physiological Animal Ecology (4)
Prerequisite: BIOL 380. Physiological responses of animals in various environments; emphasis on energetics and thermal relationships of animals. Lecture 3 hours, laboratory 3 hours.
484N  Biological Aging (4)
Prerequisite: BIOL 155. Physiological and anatomical age-related changes at the cellular, tissue, organ, organ system, and organism levels; relationship of late-onset diseases to the aging process. No credit toward Biology major or minor.

485  Medical Parasitology (5)
Prerequisite: Grade of C or higher in BIOL 103. Synopsis of parasitic protozoa and helminths of humans; emphasis on recognition and control. Lecture 3 hours, laboratory 6 hours.

488N  Gender Differences (4)
(also listed as PSY 488)
Prerequisite: BIOL 155. Biological and psychological differences between the sexes; topics include genetic sexual determination, sexual differentiation, role of hormones in physiology and behavior, experimental methodology, psychological differences in ability and personality. No credit toward Biology major or minor.

499  Undergraduate Directed Study (1-4)
Prerequisites: Consent of full-time faculty member in consultation with department chair, grade point average of 2.5 or higher. Project must be approved before registration. Student must have ability to assume responsibility for independent research and analysis. Regular discussion of progress with sponsor before presentation of final written report. Graded CR/NC.

Courses in Microbiology (MICR)

Lower Division Courses

151  Introductory Microbiology (5)
Concepts stressing microorganisms; topics address medical, environmental, industrial, and public health; laboratory application of selected procedures. No credit taken after any other college microbiology course. Lecture 4 hours, laboratory 3 hours.

200AB  General Microbiology (5, 3)
Prerequisites: BIOL 102 or 200B; CHEM 102 or 152. Basic principles of microbiology. Emphasizes nature, distribution, physiological activities of microorganisms; applied microbiology; medical aspects. For majors in microbiology and related subjects.

200A: lecture 3 hours, laboratory 6 hours.
200B: lecture 2 hours, laboratory 3 hours.

201  Microbiology for Health Related Sciences (4)
Prerequisites: BIOL 102 or 200B; CHEM 102 or 152. Basic function and structure of microorganisms; host-parasite relationships, infectious diseases, immunology and serology, epidemiology, antimicrobial agents, and chemotherapy. Lecture 4 hours.

202  Microbiology Laboratory for Health Related Sciences (2)
Corequisite: MICR 201. Laboratory methods used in studying microorganisms; aseptic techniques, environmental influences on microorganisms, microbial interrelationships; water microbiology and sanitation: immunology and infectious disease diagnosis. Laboratory 6 hours.

Upper Division Courses

300  Seminar: Overview of Clinical Laboratory Professions (1)
Prerequisites: MICR 200B and upper division standing. Medical ethics, tort law, and related careers and technologies in clinical laboratory science. Graded CR/NC.

301  General Medical Microbiology (4)
Prerequisite: MICR 200AB with grades of C or higher. Host-parasite-drug interactions; isolation, culture, and identification of human normal flora. Lecture 2 hours, laboratory 6 hours.

302  Pathogenic Bacteriology (5)
Prerequisite: MICR 301 with grade of C or higher. Bacteriology and pathology of infectious bacterial diseases of humans; diagnostic procedures for identification of major pathogens. Lecture 3 hours, laboratory 6 hours.

304  Immunology and Serology (5)
Prerequisites: MICR 302, CHEM 301A, 302A, each with a grade of C or higher. Immune response, cellular and humoral, induction of immunity, detection of antibodies, principal serologic methods of evaluation of immune response; three sections: fundamental immunology, serology, and clinical immunology. Lecture 3 hours, laboratory 6 hours.

305  Microbiological Methods for Public Health (3)
Prerequisite: MICR 302. Standard laboratory methods for examination of water, sewage, milk, and foods; air sampling procedures. Lecture 2 hours, laboratory 3 hours.

331  Structure and Function of Bacteria (3)
Prerequisites: MICR 200AB; CHEM 301A; prerequisite or corequisite: 302A. Function of bacteria, emphasis on structure and growth.

340  Microbial Genetics (3)
Prerequisite: Grade of C or higher in MICR 200A. Principles of microbial genetics with emphasis on genetic exchange, genetic manipulation, and applications with environmentally, industrially, and medically significant organisms.

363  Microbiological Detectives (4)
Prerequisite: GE natural science requirement. The creative process in microbiology past and present. Individual microbiological detectives and their discoveries, both experimental and theoretical; current inquiry into the nature of involvement of microorganisms in the human experience.

375N  Biology of Health Maintenance (4)
(Also listed as BIOL 375N)
Prerequisite: Completion of Block B1 of General Education Program. Biological aspects of the healthy state and major diseases that affect human populations. Current theories for maintaining the healthy state are emphasized.

401  General Virology (3)
Prerequisite: MICR 340 or BIOL 340 plus 380. Basic principles of virology; emphasizes properties, classification, multiplication, genetics, and viral-host interactions of bacterial, animal, and plant viruses.

402  Virology Laboratory (2)
Prerequisite: MICR 302. Methods of isolation, cultivation, and identification of animal and bacterial viruses; introduction to cloning of viral genes. Laboratory 6 hours.

403  Pathogenic Fungi (3)
Prerequisite: MICR 301. Morphology, physiology, and principles of pathogenicity of fungi that cause disease in humans and animals. Lecture 2 hours, laboratory 3 hours.
410 Hematology (4)
Prerequisites: MICR 301; CHEM 431A. CHEM 431A may be taken concurrently. Normal hematopoiesis and hemostasis and how defects in the normal processes affect the blood, anemias, leukemias, coagulation, and other hematologic or nonhemato-
tologic disorders. Lecture 3 hours, laboratory 3 hours.

412 Introduction to Epidemiology (4)
(also listed as HS 412)
Prerequisites: MICR 200AB or 201 and 202. Study of disease and injury in human population, including general review of epidemiologic methods. Focus on complex relationship between workers and work environment.

420 Immunohematology (3)
Prerequisites: MICR 304, 410. Grouping of red blood cells with applications in clinical forensic medicine; emphasis on basic blood group systems and associated diseases. Practical application of identification of various blood group antigens and antibod-
ies. Lecture 2 hours, laboratory 3 hours.

430 Bacterial Physiology (3)
Prerequisites: MICR 331; CHEM 431A, 432A; corequisites:
CHEM 431B, 432B. Bacterial physiology with emphasis on bio-
chemical events related to cellular differentiation and basic bacte-
rial biochemical pathways.

433 Bacterial Physiology Laboratory (2)
Corequisite: MICR 430. Experimental work to accompany MICR 430. Laboratory 6 hours.

454L Special Topics in Microbiology (1-4 each)
Prerequisites: Upper division standing, others as needed for specific topics. Topics of current interest in microbiology, as an-
nounced in Schedule of Classes. May be repeated to maximum of 8 units.

460 Immunochemistry (2)
Prerequisites: MICR 304; CHEM 431B. The combining site and forces involved in antigen-antibody interaction, purification of ant-
bodies and antigens, assembling of synthetic antigens; qualita-
tive and quantitative precipitation and complement fixation pro-
cedures. Lecture 2 hours.

499 Undergraduate Directed Study (1-4)
Prerequisite: Consent of an instructor to act as sponsor. Project selected in conference with sponsor before registration, progress meetings held regularly, and a final report submitted. May be re-
peated for credit.
CHEMISTRY AND BIOCHEMISTRY

School of Natural and Social Sciences

DEPARTMENT OFFICE
Physical Sciences 616
Phone: (213) 343-2300

The Department of Chemistry and Biochemistry offers undergraduate programs leading to the Bachelor of Science degrees in Chemistry and Biochemistry and the Bachelor of Arts degree in Chemistry. Students pursuing a B.S. degree in Biochemistry or a B.A. degree in Chemistry may qualify for entrance into professional schools such as medical, dental, pharmacy, etc. by selecting appropriate elective courses within their program while those students pursuing a B.S. degree in Chemistry may qualify for entrance into these professional schools by taking several additional courses. The Master of Science degree program in Chemistry is described in the Graduate Programs section.

The Faculty

Undergraduate Degrees

Students who expect to earn a bachelor’s degree in Chemistry in the minimum time should include chemistry, physics, German, geometry, trigonometry, and algebra (two years) in their high school preparation.

It should also be noted that the chemistry programs are tightly structured and that students should begin calculus and physics sequences at the earliest possible time in order to complete the degree in four years.

For Chemistry and Biochemistry majors, only courses with a grade of C or higher in the major program are credited toward the degree. A grade of C- is not acceptable. Students who have credit for community college organic chemistry have the option of earning credit by examination in CHEM 101-103 plus 201 may be taken in lieu of 101-122-123. One year of German is recommended for the B.S. degree in Chemistry; one year of French or German is recommended for the B.S. degree in Biochemistry; the B.A. degree in Chemistry has no foreign language recommendation.

Departmental Honors Program
A departmental honors program in Chemistry is offered for students who possess a minimum B (3.0) grade point average in all college work and in chemistry, averaged separately, and who are recommended in writing by two members of the faculty.

The program is designed to encourage independent study and to provide an introduction to research. The traditional curriculum is enriched by the selection of electives that provide depth in areas outside the field of chemistry.

Honor students are assisted by an honors adviser in planning their programs. Enrollment in CHEM 196 and 396 and a written thesis are required parts of the program. Diplomas and transcripts of honors program graduates are designated: “Graduated with Departmental Honors in Chemistry.”

Bachelor of Arts Degree in Chemistry

The Bachelor of Arts degree, which requires 186 units, is designed for those who want a liberal education with a major in Chemistry. This degree allows students to include a minor in another science, business, economics, or humanities within their degree program. The degree is suitable for students planning careers in government or industry where a physical science background is desirable. It is also appropriate for some preprofessional health science majors but is not recommended for students planning graduate study in a physical science. Students should note that this degree fulfills only 35 of the 60 upper division units required by the University so that students must take 13 more upper division units as well as the 12 required by the upper division GE Theme.

Requirements for the Major (74 units)

Lower Division Required Courses (39 units)

*CHEM 101 General Chemistry I (5)
*CHEM 122, 123 Principles of Chemistry (5, 5)
MATH 206-208 Calculus I-III (4 each)
PHYS 201-203 General Physics (4 each) or
PHYS 101-103 Physics (4 each)

*CHEM 101-103 plus 201 may be taken in lieu of 101-122-123.

Upper Division Required Courses (28 units)

CHEM 301ABC Organic Chemistry (3, 3, 3)
CHEM 302AB Organic Chemistry Laboratory (2, 2)
CHEM 360 Writing for Chemists (3)
CHEM 411 Fundamentals of Physical Chemistry (4)
CHEM 435 Introduction to Biochemistry (4)
CHEM 463 Biomedical Microanalysis (4)

Electives in Chemistry (7 units)

May include a maximum of 3 units of CHEM 499.

Bachelor of Science Degree in Biochemistry

The Bachelor of Science degree in Biochemistry is designed to fit the needs of those who plan to complete their formal education with the bachelors degree and obtain positions in scientific and industrial laboratories, attend health professional schools, or do graduate study in biochemistry. A total of 197 units is required for the degree.

Requirements for the Major (118 units)

Lower Division Required Courses (65 units)

*CHEM 101 General Chemistry I (5)
*CHEM 122, 123 Principles of Chemistry (5, 5)
BIOL 101, 102 Principles of Biology I, II (5, 5)
MATH 206-209 Calculus I-IV (4 each)
MICR 200AB General Microbiology (5, 3)
PHYS 201-204 General Physics (4 each)

*CHEM 101-103 plus 201 may be taken in lieu of 101-122-123.
Upper Division Required Courses (42 units)

**Bachelor of Science Degree in Chemistry**

The Bachelor of Science degree in Chemistry is accredited by the American Chemical Society. It is designed to fit the needs of those who either plan to complete their formal education with the bachelor's degree and obtain positions in scientific or industrial laboratories or do graduate study in chemistry. A total of 197 units is required for the degree.

Requirements for the Major (114-116 units)

**Lower Division Required Courses (57-59 units)**

- **CHEM 101** General Chemistry I (5)
- **CHEM 122, 123** Principles of Chemistry (5, 5)
- **CHEM 170** Microcomputers in Chemistry (2) or CS 290 Introduction to FORTRAN Programming (2) or MATH 255 Introduction to Matrix Theory (4)
- MATH 206-209 Calculus I-IV (4 each)
- MATH 215 Differential Equations (4) or **MATH 401** Differential Equations (4)
- PHYS 201-205 General Physics (4 each)
- **CHEM 101-103 plus 201 may be taken in lieu of 101-122-123.**

**Upper Division Required Courses (51 units)**

- **CHEM 301ABC** Organic Chemistry (3, 3, 3)
- **CHEM 302AB** Organic Chemistry Laboratory (2, 2)
- **CHEM 360** Modern Physics (3)
- **CHEM 318** Introduction to Inorganic Chemistry (3)
- **CHEM 327** Advanced Synthetic Methods (2)
- **CHEM 360** Writing for Chemists (3)
- **CHEM 401-403** Physical Chemistry I-III (4, 4, 4)
- **CHEM 412AB** Physical Chemistry Laboratory (3, 3)
- **CHEM 418** Inorganic Chemistry (3)
- **CHEM 462** Instrumental Analysis (6)
- **PHYS 306** Modern Physics (3)

Electives in Chemistry
Select 6 units with adviser approval.

**The Credential Program**

The Department of Chemistry and Biochemistry participates in the interdisciplinary Bachelor of Science degree program in Natural Science, which has been approved for the Single Subject credential in Science. That program is described later in this chapter of the catalog. In addition, holders of a Single Subject credential issued by the state of California may complete the supplementary authorization program described below.

**Supplementary Authorization for Single Subject Teaching Credential (31-33 units)**

Holders of a Single Subject teaching credential issued by the state of California may supplement that credential with an authorization in Chemistry for teaching chemistry at any grade level through grade 12 or in classes organized primarily for adults by completing the following program with a grade of C or higher in each course. The course work must include one year sequence of courses in at least two of the subject areas. At least one of the courses must include a laboratory component. For other requirements governing issuance of this authorization, consult the Charter School of Education.

Complete or demonstrate proficiency in each of the following courses (31-33 units)

- **CHEM 101-103** General Chemistry I-III (5, 5, 5)
- **CHEM 201** Quantitative Analysis (5)
- **CHEM 301ABC** Organic Chemistry (3, 3, 3)

Select one from following:

- **CHEM 302A** Organic Chemistry Laboratory (2)
- **CHEM 318** Introduction to Inorganic Chemistry (3)
- **CHEM 435** Introduction to Biochemistry (4)

**Courses in Chemistry (CHEM)**

†There is a special fee associated with registering for laboratory classes that carry this designation. Details appear in the Schedule of Classes.

**Subcollegiate Course**

**095 Language of Chemistry (4)**

Prerequisite: One year of high school algebra. Development of basic skills for further training in chemistry; introduction to stoichiometry; meaning of chemical equations and their algebraic interpretation; physical background of fundamental chemical concepts. Not acceptable as prerequisite for CHEM 102 or 152. Lecture 3 hours, recitation 1 hour. Graded A,B,C/NC. No credit toward baccalaureate.

A grade of C or higher is required in all prerequisite courses. A grade of C- is not acceptable

**Lower Division Courses**

†**101 General Chemistry I (5)**

Prerequisite: High school chemistry and physics; two years of high school algebra; satisfactory performance on mathematics placement examination given during registration period. Physical concepts, stoichiometry, structure of atom, periodic table, chemical bonding. Lecture 3 hours, recitation 1 hour, laboratory 3 hours. **CHEM 101+102+103 = CAN CHEM SEQ A**

†**102 General Chemistry II (5)**

Prerequisite: CHEM 101. Structure of molecules, states of matter, acids and bases, equilibrium, oxidation-reduction, electrochemistry, coordination compounds. Lecture 3 hours, recitation 1 hour, laboratory 3 hours. **CHEM 101+102+103 = CAN CHEM SEQ A**

†**103 General Chemistry III (5)**

Prerequisite: **CHEM 102. Introduction to science of thermodynamics and its applications in chemistry, chemical kinetics, spectroscopy and special topics in general chemistry. Lecture 3 hours, recitation 1 hour, laboratory 3 hours. **CHEM 101+102+103 = CAN CHEM SEQ A**

†**122, 123 Principles of Chemistry (5, 5)**

Prerequisites: Superior performance in CHEM 101; MATH 206. Introduction to fundamental chemical principles, with emphasis in laboratory on quantitative work. Lecture 3 hours, recitation 1 hour, laboratory 3 hours.
140 Science Orientation (2)
(also listed as BIOL 140)
Prerequisite: Instructor consent. Exploration of skills essential for success in the sciences; presentations by professional scientists. No credit toward science major or minor. Graded CR/NC.

151 Fundamentals of Chemistry I (5)
Prerequisites: One year of high school algebra, satisfactory performance on mathematics placement examination given during registration period. Introductory course in fundamental laws and theories of general chemistry. Lecture 3 hours, recitation 1 hour, laboratory 3 hours. No credit toward Chemistry or Physics major.

152 Fundamentals of Chemistry II (Organic) (5)
Prerequisite: CHEM 151. Introduction to organic chemistry. Lecture 3 hours, recitation 1 hour, laboratory 3 hours. No credit toward Chemistry or Physics major.

154L,P Selected Topics in Chemistry (1-4)
Topics of current interest as announced in Schedule of Classes. No credit toward Chemistry or Biochemistry major.

158 Chemistry and Survival (4)
Chemical dependence of life processes related to human survival.

159 Chemistry and Survival Laboratory (1)
Corequisite: CHEM 158. Introductory chemistry laboratory course with special emphasis on practical examples using simple natural product starting materials.

160 Maladies and Molecules (4)
Selected aspects of the chemical foundations, molecular transmission, and palliation of infectious, inheritable, and environmental diseases at an introductory level requiring no initial knowledge of chemistry.

170 Microcomputers in Chemistry (2)
Prerequisite or corequisite: CHEM 102 or 122. Use of microcomputer as productivity and computational tool in chemistry and biochemistry; emphasis on application of existing software to chemical/biochemical problems.

196 Honors Proseminar (1)
Prerequisite: Acceptance into department honors program. Study of recent developments in chemistry and biochemistry. May be repeated to maximum of 6 units; only 1 unit may apply on major requirements. Graded CR/NC.

201 Quantitative Analysis (5)
Prerequisite: CHEM 103. Principles and techniques of analytical chemistry, including stoichiometry, equilibrium (pH and redox), electrochemistry, spectroscopy, and separations. Lecture 3 hours, laboratory 6 hours.

254L,P Special Topics in Chemistry (1-4)
Prerequisites: As needed for specific topic. Current topics of interest in chemistry and related disciplines, as announced in Schedule of Classes. May be repeated to maximum of 8 units.

Upper Division Courses

301ABC Organic Chemistry (3, 3, 3)
Prerequisite: CHEM 123 or 201 (201 may be taken concurrently with 301A). Corequisites: for 301B, CHEM 302A; for 301C, CHEM 302B. Properties and reactions of aliphatic and aromatic compounds; emphasis on fundamental principles and reaction mechanisms.

302AB Organic Chemistry Laboratory (2, 2)
Prerequisite: CHEM 123 or 201.

302A. Corequisite: CHEM 301B. Fundamentals of organic laboratory analysis, with emphasis on spectroscopic methods. Recitation-laboratory 6 hours.

302B. Corequisite: CHEM 301C. Fundamental laboratory techniques of organic chemistry and organic synthesis. Recitation-laboratory 6 hours.

316 Scientific Glass Blowing (2)
Introductory course in glass blowing, including hands-on fabrication and repair of apparatus, theory and science of glass, and principles of laboratory techniques.

318 Introduction to Inorganic Chemistry (3)
Prerequisite: CHEM 123 or 201. Introduction to the study of the elements; atomic structure, bonding, ionic solids, solutions, and nonmetals.

327 Advanced Synthetic Methods (2)
Prerequisites: CHEM 301C, 302B, 318. Application of advanced synthetic methods to the synthesis of selected organic, organometallic, and inorganic molecules. Recitation-laboratory 6 hours.

353 Nutritional Aspects of Biochemistry (5)
Prerequisite: CHEM 152. Introduction to biochemistry with particular emphasis on nutrition and its effect on metabolism. Lecture 3 hours, laboratory 3 hours, recitation 1 hour.

354L,P Special Topics in Chemistry (1-5)
Prerequisites: As needed for specific topic. Current topics of special interest in chemistry and related disciplines as announced in Schedule of Classes. May be repeated for credit as subject matter changes.

358N Science and Controversy (4)
(also listed as BIOL 358N, CS 358N, and PHYS 358N)
Prerequisite: GE natural science requirement. Scientific background of issues that affect public welfare, such as genetic technology, chemical pesticides, and energy production and utilization. No credit toward Biology, Chemistry, Computer Science, or Physics major.

360 Writing for Chemists (3)
Prerequisites: Satisfactory completion of the Graduation Writing Assessment Requirement (GWAR); CHEM 123 or 201. Introduction to writing for chemists and biochemists. Intensive practice in writing abstracts, reports, reviews, and other forms of scientific writing.

380N Ancient and Modern Science (4)
(also listed as HIST 380N and PHIL 380N)
Prerequisite: GE natural science requirement. Systematic analysis of ancient scientific thought as science and its relationship to modern science. No credit toward Biochemistry or Chemistry major.

396 Honors Studies in Chemistry (1-5)
Prerequisites: Participation in Chemistry Honors Program, CHEM 301ABC, consent of an instructor to serve as research adviser, and approval of department honors adviser. Independent research in chemistry and biochemistry. Regular consultation with research adviser; written thesis required. Students must enroll for total of 5 units before submitting thesis and receiving grade.
401 Physical Chemistry I (4)
Prerequisites: CHEM 123; MATH 209; PHYS 204. Kinetic theory of gases, thermodynamics, and chemical statistics.

402 Physical Chemistry II (4)
Prerequisite: CHEM 401. Thermodynamics of solutions of nonelectrolytes and electrolytes, phase equilibria, chemical kinetics, surface chemistry, and macromolecules.

403 Physical Chemistry III (4)
Prerequisites: MATH 215 or 401; PHYS 206 recommended (may be taken concurrently). Molecular structure and spectroscopy. Fundamentals of quantum chemistry; applications to the chemical bond, spectroscopy, and the solid state.

411 Fundamentals of Physical Chemistry (4)
Prerequisites: CHEM 12; MATH 208; PHYS 123 or 203. Survey of physical chemistry including thermodynamics, kinetics, quantum chemistry, and spectroscopy. No credit toward B.S. degree in Chemistry or Biochemistry; no credit if taken after CHEM 401.

†412AB Physical Chemistry Laboratory (3, 3)
Prerequisite: CHEM 401 or 403. Experiments to illustrate principles and techniques of various subjects of physical chemistry. Lecture 1 hour, laboratory 6 hours.

418 Inorganic Chemistry (3)
Prerequisites: CHEM 318, 402. Selected topics in inorganic chemistry, including physical inorganic chemistry, coordination chemistry, and inorganic polymers.

420 Advanced Organic Chemistry I (4)
Prerequisites: CHEM 301C 401 or 403. Theoretical aspects of organic chemistry emphasizing reaction mechanisms.

425 Polymer Chemistry (4)
Prerequisites: CHEM 301C; MATH 209. Suggested corequisite: CHEM 401. Preparation, mechanisms, and properties of synthetic macromolecules; step and chain polymerization, copolymerization, kinetics, morphology and physical characterization of polymers.

431ABC Biochemistry (3, 3, 3)
Prerequisites: CHEM 301C, 302B; Physics majors in the Biophysics option admitted by special permission. Corequisite for 431B: CHEM 432A. Lectures on chemistry and metabolism of carbohydrates, proteins, lipids, vitamins, hormones, and related phenomena in animals, plants, and microorganisms.

†432AB Biochemistry Laboratory (2, 2)
Prerequisite: 431A. Corequisite for 432A: CHEM 431B. Recitation and laboratory experiments designed to illustrate chemical behavior of substances of biochemical importance. Recitation-laboratory 6 hours.

435 Introduction to Biochemistry (4)
Prerequisite: CHEM 301C. Introduction to principles of biochemistry. No credit if taken after CHEM 431A.

438 Bioinorganic Chemistry (4)
Prerequisites: CHEM 301C and 318 or 431A. The role of metal ions in biological processes with an emphasis on the structure, function, and mechanism of metalloenzymes.

440 Industrial Chemistry (4)
Prerequisites: CHEM 301C 402. Survey of major industrial chemical processes.

454L,P Special Topics in Advanced Chemistry (1-4)
Prerequisites: As needed for specific topic. Current topics of special interest in advanced chemistry and related disciplines, as announced in Schedule of Classes. May be repeated to maximum of 8 units.

†462 Instrumental Analysis (6)
Prerequisite: CHEM 402. Theories, applications, and recent technological developments of chemical instrumentation with emphasis on electrochemical, spectral, chromatographic, and magnetic resonance methods. Lecture 3 hours, laboratory 9 hours.

463 Biomedical Microanalysis (4)
Prerequisite: CHEM 431B or 435 Theory and practice of instrumental methods for analysis of substances and processes of biomedical importance. Lecture 3 hours, laboratory 3 hours. No credit toward B.S. degree in Chemistry or Biochemistry.

480 History of Chemistry (4)
Prerequisites: CHEM 103, 301C. Development of chemical knowledge from chemical arts of antiquity through alchemy to twentieth century, emphasizing contributions to fundamental theory by Lavoisier, Dalton, Kekule, Van't Hoff, Rutherford.

499 Undergraduate Directed Study (1-5)
Prerequisites: 2.5 grade point average in chemistry courses or one advanced laboratory course elective, consent of an instructor to act as sponsor, ability to assume responsibility for independent work and to prepare written and oral reports. Independent research project selected in conference with sponsor before registration; progress meetings held regularly. May be repeated to maximum of 9 units.
CHICANO STUDIES

School of Natural and Social Sciences

DEPARTMENT OFFICE
King Hall C3095
Phone: (213) 343-2190

Chicano Studies is an intensive investigation of the second largest American ethnic group. The departments approach is multidisciplinary with specific offerings in history, culture, language, literature, arts, and politics of the Chicano community. The curriculum seeks not only to acquaint students with a breadth of knowledge about Chicanos, but also to expose them to theoretical perspectives specific to this area of study.

Chicano Studies provides preparation appropriate for careers in teaching, human services, public policy, law, medicine, the business profession, and for graduate study and research.

The vital presence and increasing significance of the Chicano community in Los Angeles and Southern California allows unique research opportunities for students of Chicano Studies.

The Faculty

Professors: Francisco E. Balderrama, Irene I. Blea (Chair), Roberto Cantú Louis R. Negrete.

Bachelor of Arts Degree in Mexican-American Studies

The program in Chicano Studies includes a Bachelor of Arts degree in Mexican-American Studies and a minor in Chicano Studies for students who are majoring in other fields.

The Bachelor of Arts degree is available in two options. Option I, the General Program, is intended for students interested in a liberal arts education; Option II is designed specifically for students who are interested in the Multiple Subject credential.

Requirements for the Major (60-125 units)

Option I, the General Program, requires a total of 60 units, of which 16 are in lower division and 44 are in upper division courses. Option II, for the Multiple Subject credential, consists of a total of 118-125 units that includes courses in general education (lower division), Chicano Studies, and related areas.

- Option I: General Program (60 units)
  
  Lower Division Required Courses (8 units)
  
  CHS 110 Introduction to Chicano Studies (4)
  CHS 205 Composition in Chicano Studies (4)

  Electives
  Select 8 units from following with adviser approval:
  CHS 110, 150, 157, 200ABC, 201, 230, 250, 257*, 258*  
  *maximum 3 units in 257 and/or 258

  Upper Division Required Courses (16 units)
  
  CHS 403 Contemporary Chicano Literature (4)
  CHS 410 Chicano Psychology (4)
  CHS 444 History of the Chicano People (4)
  CHS 450 Research on Community Problems (4)

  Electives
  Select 28 units from following:
  Community Dimension (8 units)
  CHS 405, 406, 430, 445, 470

  Culture Dimension (12 units)
  CHS 311, 400, 420, 440, 446

  Mexican Dimension (8 units)
  CHS/HIST 466,467; CHS 468

- Option II: Multiple Subject Credential (118-125 units)

  Students who select this option complete a separate core which is common to all Multiple Subject teaching options. That common core contains 106-111 units and is described in the Undergraduate Study chapter. In addition to the core, the 68 units listed below are required in the option. Refer to the undergraduate Charter School of Education chapter of this catalog for regulations governing all teaching credential programs.

  Required Courses (106-111 units)

  Refer to Undergraduate Study chapter of this catalog.

  Major Courses (20 units)
  
  CHS 111 Introduction to Chicano Studies (4)
  CHS 403 Contemporary Chicano Literature (4)
  CHS 410 Chicano Psychology (4)
  CHS 444 History of the Chicano People (4)
  CHS 450 Research about Community Problems (4)

  Social Science (Mexican-American Studies) Depth Area (20 units)
  
  CHS 405 The Mexican People as Immigrants (4)
  CHS 406 Chicano Political Behavior (4)
  CHS 445 History of the Chicano in Los Angeles (4)
  CHS 470 Educational Institutions of the Barrios (4)

  Electives (28 units)

  Professional education courses are recommended. See a credential adviser in the Charter School of Education.

  GENERAL EDUCATION UPPER DIVISION THEME

  Select one general education upper division theme, in consultation with an adviser, and complete one course in each of three areas within that theme. Theme courses are not part of the major but are included in credential requirements.

  Minor in Chicano Studies

  Requirements for the Minor (32 units)

  Lower Division Required Courses (16 units)
  
  CHS 110, 111, 201 and lower division Chicano Studies elective course.

  Upper Division Required Courses (8 units)
  
  CHS 403, 444

  Electives (select 8 upper division units with adviser approval)
The Credential Program

The Bachelor of Arts degree in Mexican-American Studies with Option II satisfies the subject matter requirements for the Multiple Subject CLAD/BCLAD credential. For detailed information about these credentials, consult advisers in the department and in the Charter School of Education. Refer to the Charter School of Education chapters of this catalog for regulations governing all credential programs.

Courses in Chicano Studies (CHS)

Lower Division Courses

100 Introduction to College Environment (4)  
(also listed as PAS 100)
Introduction to institution of higher education and its particular relationship to minority/Third World students. Course is designed especially for EOP students. Graded CR/NC.

110 Introduction to Pre-Cortesian Cultures of Mexico (4)
Introductory course examining the cultural, economic, and historical development of pre-Cortesian Mexico from the Olmec civilization to the fall of the Aztec empire.

111 Introduction to Chicano Studies (4)
Critical study of disciplines and methodologies of particular significance to Chicano Studies.

150 Chicano and Contemporary Politics (4)
Internal barrio politics and external efforts to manipulate that system, with focus on Chicanos.

157 Beginning Mexican Folk Music (2)
Introduction to traditional Chicano and Mexican folk music. Beginning instruction on culturally traditional musical instruments, including guitar, guitarron, vihuela, violin, and trumpet. May be repeated to maximum of 6 units. Graded CR/NC.

200ABC Spanish for Chicanos (4, 4, 4)
Recommended prerequisite: knowledge and use of Spanish as spoken in Southwestern U.S. Phonetics, grammar, and structure of local dialectal forms compared with standard Spanish; cultural and esthetic values of Spanish literature of Southwestern U.S.

201 Mexican Literature in Translation (4)
Selected major works of Mexican literature in translation.

205 Composition in Chicano Studies (4)
Prerequisites: ENGL 102*; CHS 100 recommended. Principles and techniques of effective English composition essential to writing in a Chicano Studies context; emphasis on individual student practice. Graded CR/NC.
*Students subject to earlier catalogs satisfy this prerequisite with ENGL 101 or 190.

230 Latinas in Modern Society (4)
The changing social, economic, and political role of Latina women in the U.S.

250 The Chicano Experience in Film (4)
A survey and critical evaluation of the portrayal in film of Chicano life experiences.

257 Folk Music Ensemble of Mexico (2)
Prerequisites: Knowledge of music preferred but not necessary, instructor consent. Ensemble performance of Mexican folk music, study of techniques and regional styles. Activity 4 hours. May be repeated to maximum of 6 units.

258 Folk Dances of Mexico (1)
Study and practice of step patterns and regional dance styles of Mexico. Activity 3 hours. May be repeated to maximum of 6 units.

Upper Division Courses

311 Chicano Cultural History (4)
Prerequisite: CHS 111. Development and nature of Mexican and Chicano culture, emphasizing especially significant historical movements and their contribution to understanding current cultural problems.

395 Community Service in Chicano Studies (I-3)
Prerequisites: Eight units of approved CHS courses; approval by departmental faculty adviser in consultation with EPIC director; acceptance by community agency. Participation in work of community agency or activity utilizing professional and/or vocational skills in service to community. Graded CR/NC. Credit toward B.A. degree limited to 6 units.

400 Pre-Columbian Literature of Mexico (4)
Prerequisite: CHS 111. Literary works of Mayan, Nahua, and other pre-Columbian peoples of Mexico, with emphasis on structural and esthetic elements, history of thought, and world view.

403 Contemporary Chicano Literature (4)
Prerequisite: CHS 111. Selected literary works by Chicano authors.

405 The Mexican People as Immigrants (4)
Prerequisite: CHS 111. Socioeconomic and political forces that shaped U.S. immigration policies and practices in relation to the Mexican.

406 Hispanic Communities in U.S. Society (4)
Prerequisite: CHS 111. The Chicano experience studied from the comparative perspective of other Latin Americans in the U.S.: Cubans, Puerto Ricans, Central, and South Americans.

410 Chicano Psychology (4)
Prerequisite: PSY 150. Chicano community psychology; focus on relationships among individuals and families, groups, complex organizations; social problems and collective behavior.

420 Mexican and Chicano Folklore (4)
Prerequisite: CHS 111. Mexican and Chicano folklore as a reflection of the cultural, sociopolitical, and historical development of the Chicano community.

430 Chicano Political Behavior (4)
Prerequisite: CHS 111. Socioeconomic and political factors that provide formative framework for unique political behavior patterns characteristically existing in the Chicano community.

440 Development of Spanish Language in Southwestern U.S. (4)
Prerequisite: SPAN 200C. Conducted in Spanish. Origin, development, and present characteristics of Spanish language as used in Southwestern U.S.; emphasizes linguistic contributions of various antecedent and contemporary cultures in this area.

444 History of the Chicano People (4)
Prerequisite: HIST 202A or 202B. Historical development of the Chicano people from settlement until the present, with emphasis on period since 1848.

445 History of the Chicano in Los Angeles (4)
Prerequisite: CHS 111. Historical survey of the Los Angeles Chicano community from settlement until the present.
446 Folkloric Dance: Living History of Mexico and the Southwest (4)
Prerequisites: CHS 111. Folkloric dance as it reflects historical and ethnic experiences of people in Mexico and Southwestern U.S.

450 Research on Community Problems (4)
Prerequisites: CHS 111, ENGL 102*, passing WPE score, senior standing. Research that emphasizes special issues of Mexican/Latino communities in Southern California and the nation; includes writing research papers that integrate previous coursework in a culminating project.
*Students subject to earlier catalogs satisfy this prerequisite with ENGL 101 or 190.

466 Mexico (4)
(also listed as HIST 466)
Prerequisite: Upper division standing. Development of Mexican people and nation since time of aborigines; social, political, and economic development with particular attention to more recent period.

467 Modern Mexico and the Chicano People (4)
(also listed as HIST 467)
Prerequisites: CHS 111. Recommended: CHS/HIST 466. History of modern Mexico and its impact upon the Chicano people from separation from Mexico in 1848 to the present.

468 U.S.-Mexico Borderlands (4)
Prerequisite: CHS 111. Urban and regional development of the U.S.-Mexico border area with particular emphasis on its impact on the Chicano community.

470 Educational Institutions of the Barrios (4)
Prerequisite: Upper division or graduate standing. Analysis and evaluation of typical and special issues in the education of Chicano/Latino students.

490 Special Studies (1-4)
Prerequisites: Upper division or graduate standing, permission of instructor. Intensive study of selected areas in Chicano Studies. May be repeated to maximum of 8 units.

499 Undergraduate Directed Study (1-4)
Prerequisites: Eight units in CHS; 2.75 grade point average, upper division or graduate standing; full-time faculty member to serve as sponsor; recommendation of department chairperson. Project selected in conference with sponsor, progress meetings held regularly, and final report submitted. May be repeated to maximum of 8 units.
GEOGRAPHY AND URBAN ANALYSIS

School of Natural and Social Sciences
DEPARTMENT OFFICE
King Hall C4067
Phone: (213) 343-2220

The Department of Geography and Urban Analysis offers an undergraduate program leading to the Bachelor of Arts degree in Geography, with a General option, an Urban Analysis option, and a Multiple Subject Teaching Credential option, as well as a minor and two certificate programs for students majoring in other fields. The department also offers a graduate program leading to the Masters of Arts degree in Geography, described in the Graduate Programs Section.

The department cooperates in the Latin American Studies, Liberal Studies, Earth Science, and Social Science interdisciplinary programs. A new Social Science Bachelor of Arts degree, with a Geography Emphasis, is available for those seeking a Single Subject teaching credential, and is described in the Social Science section. The department’s regional courses focus on California, Asia, the U.S., Latin America, and the developing world. Systematic courses provide theory and skills useful in applied business, planning, and government. The department offers a variety of computer-related courses stressing computer cartography, GIS (Geographic Information Systems), and spatial statistics.

The Faculty
Emeriti: Harry C. Coffin, William S. Ting.
Professors: Sin Fong Han, John A. Kirchner, John D. Rees, Killian P. H. Ying (Chair).
Associate Professors: Stephen E. G. LaDochy, Ali Modarres.
Assistant Professors: Christopher Boone, Linda S. O’Hirok, Hong-lie Qiu.

Bachelor of Arts Degree in Geography

The Bachelor of Arts degree in Geography is designed to provide students with an understanding of the world’s physical and cultural environments. The program provides a foundation in the theory and practice of contemporary geography, with emphasis on a variety of applied and technical skills that will enhance a student’s career opportunities.

Requirements for the Major (80-95 units)
The major in Geography requires 80-95 units depending on the option selected.

- General Option (80 units)

Lower Division Required Courses (19 units)
GEOG 150 Human Geography (4)
GEOG 160 Physical Geography (4)
GEOG 210 Map Reading and Interpretation (4)
GEOG 268 Microcomputer Applications in Geography (4)
ECON 209 Applied Business and Economic Statistics (3) or SOC 210A Elementary Statistics (3)

Upper Division Required Courses (25 units)
GEOG 405 Cartography (4)
GEOG 432 Metropolitan Los Angeles (4)
GEOG 453 Locational Analysis (4)
GEOG 460 Field Geography (5)
GEOG 465 Air Photo Interpretation (4)
GEOG 495 Senior Thesis (4)
Regional Geography (8 units)
Select two from following:
GEOG 370, 421, 423, 424, 425, 427, 428, 430, 431
Systematic Human Geography (12 units): Select three from following: GEOG 441, 442, 467, 475, 476, 481
Systematic Physical Geography (8 units): Select two from following: GEOG 402, 410, 415

Electives in Geography (8 units)
Select additional courses from above groups or from following:
GEOG 358, 433, 446, 466, 468, 469, 471, 477, 496, 497, 499
UNIV 398

- Urban Analysis Option (95 units)

Lower Division Required Courses (26 units)
GEOG 150 Human Geography (4)
GEOG 160 Physical Geography (4)
GEOG 210 Map Reading and Interpretation (4)
GEOG 268 Microcomputer Applications in Geography (4)
SOC 210AB Elementary Statistics (3, 3)
URBA 101 The Urban World (4)

Upper Division Required Courses (69 units)
Technical Core (21 units)
GEOG 405 Cartography (4)
GEOG 453 Locational Analysis (4)
GEOG 460 Field Geography (5)
GEOG 465 Air Photo Interpretation (4)
GEOG 495 Senior Thesis (4)
Applied Core (24 units)
GEOG 432, 476, 477, 496 or URBA 454
UNIV (GEOG) 398
URBA 401

Interdisciplinary Courses (16 units)
Select courses in at least three disciplines:
ACCT 433 ART 485
BIOL 361N CIS 301
ECON 440 ENGR 352
FIN 338,381 HIST 483
POLS 403, 404, 460, 461, 477 SOC 430
SPCH 489

Geography/Urban Analysis Electives
Select 8 units from following:
GEOG 358, 415, 421, 433, 441, 442, 446, 466, 468, 469, 475, 481, 496, 499
UNIV (GEOG) 398 URBA 454

- Multiple Subject Teaching Credential Option (146-151)
Students who select this option complete a separate core which is common to all Multiple Subject teaching options. The common core contains 106-111 units and is described in the Undergraduate Study chapter. In addition to the core, the 68 units listed below are required in the option. Refer to the undergraduate Charter School of Education chapter of this catalog for regulations governing all teaching credential programs.
Required Courses (106-117 units)
Refer to Undergraduate Study chapter of this catalog.

Major Courses (20 units)
GEOG 160 Physical Geography (4)
GEOG 210 Map Reading and Interpretation (4)
GEOG 432 Metropolitan Los Angeles (4)
GEOG 495 Senior Thesis (4)
Select one from the following:
GEOG 441 World Resources (4)
GEOG 442 Population (4)
GEOG 476 Urban Areas (4)
GEOG 481 Political Geography (4)

Social Science (Geography) Depth Area (20 units)
GEOG 370 World Regions (4)
GEOG 415 Perspectives on Environment (4)
GEOG 421 United States (4)
GEOG 431 California (4)
GEOG 446 U.S. Ethnic Communities (4)

Electives (28 units)
Professional education courses are recommended. See a credential adviser in the Charter School of Education.

Minor in Geography
A minor in Geography is available for students majoring in other fields. A total of 28 units in geography is required, selected in consultation with an adviser in geography and distributed as follows:

Requirements for the Minor (28 units)
Required Courses (8 units)
GEOG 150 Human Geography (4)
GEOG 160 Physical Geography (4)

Electives (20 units)
Select a minimum of 20 units in geography with consent of adviser. At least 14 units must be upper division.

Certificate Program in Cartography, Geographic Information Systems and Remote Sensing
The Department of Geography and Urban Analysis offers this credit certificate program which provides a practical approach to the design, layout, and graphics needed in cartographic production. A total of 32 units in the following courses is required for the certificate. Refer to the Undergraduate Study chapter of this catalog for general regulations governing all certificate programs.

The prerequisite for Lower Division Geography courses is GEOG 150 or 160. Math 103 is a prerequisite for CE 202.

Lower Division (12 units)
CE 202 Plane Surveying (4)
GEOG 210 Map Reading and Interpretation (4)
GEOG 268 Microcomputers Applications in Geography (4)

Upper Division (20 units)
Select any 5 courses from the following:
GEOG 405 Cartography (4)
GEOG 465 Air Photo Interpretation (4)
GEOG 466 Remote Sensing of Environment (4)
GEOG 468 Computer Cartography (4)
GEOG 469 Geographic Information Systems Applications (4)
GEOG 471 Advanced Cartography (4)

Certificate Program in Urban Land Use and Property Analysis
The Department of Geography and Urban Analysis, in cooperation with the Department of Finance and Law, offers this credit certificate program which is designed for students and professionals seeking employment with public service or private business in urban communities. The program provides technical and analytical training for evaluating current problems confronting the urban community. A total of 25-28 units in the following courses is required for the certificate. Refer to the Undergraduate Study chapter of this catalog for general regulations governing all certificate programs.

Prerequisite Course (4 units)
FIN 338 Real Estate Principles (4)

Requirements for the Certificate (25-28 units)
Required Courses (25-28 units)
GEOG 453 Locational Analysis (4)
GEOG 476 Urban Areas (4)
GEOG 499 Undergraduate Directed Study (1-4)
FIN 432 Real Estate Management (4)
FIN 438 Real Estate Valuation (4)
FIN 439 Real Estate Finance (4)
FIN 493 Real Estate Investment (4)

The Credential Program
The Bachelor of Arts degree in Social Science with a Geography emphasis is now available for those seeking the Single Subject teaching credential in Social Sciences. Those who already hold a Single Subject Credential in the state of California may complete the Supplementary Authorization Program described below.

Supplementary Authorization for Single Subject Teaching Credential (33 units)
Holders of a Single Subject teaching credential issued by the state of California may supplement that credential with an authorization in Geography for teaching geography at any grade level through grade 12 or in classes organized primarily for adults by completing the following program with a grade of C or higher in each course. For other requirements governing issuance of this authorization, consult the Charter School of Education.

Complete or demonstrate proficiency in each of the following courses (33 units):
GEOG 150 Human Geography (4)
GEOG 160 Physical Geography (4)
GEOG 210 Map Reading and Interpretation (4)
GEOG 410 Weather and Climate or
GEOG 415 Perspectives on Environment (4)
GEOG 421 United States (4)
GEOG 431 California (4)
GEOG 441 World Resources (4) or
GEOG 481 Political Geography (4)
GEOG 460 Field Geography (5)

Courses in Geography (GEOG)
Lower Division Courses
101 Earth Science (4)
(also listed as GEOL 101)
Nature of the earth’s land, water, and atmosphere with emphasis on dynamic processes in the earth’s crust and atmosphere that have interacted to form the world’s physical environments.
150 Human Geography (4)
Areal studies of peoples of world and their settlement characteristics; evaluation of origins, dispersals, and contemporary distributions of representative ways that humans live on earth.
CAN GEOG 4

160 Physical Geography (4)
Natural environment of humans; nature, distribution, and relationships of climate, landforms, vegetation, hydrography, and soils. CAN GEOG 2

210 Map Reading and Interpretation (4)
Prerequisites: GEOG 150, 160. Nature of maps and their interpretation. Lecture 2 hours, laboratory 4 hours.

268 Microcomputer Applications in Geography (4)
Basic PC skills that familiarize students with word processors, spreadsheets, data bases, and geographically-oriented software, including urban analysis, population, climatology, and computer mapping programs. Lecture 2 hours, laboratory 4 hours.

Upper Division Courses

courses is GEOG 150 or 160 or 370.

358 Technology and Environment (4)
(also listed as ENGR 358)
Prerequisite: GE natural science requirement. Problems of resource scarcity and environmental impact of technology, past, present, and future; relationships leading to an understanding of an increasingly complex global system.

370 World Regions (4)
Major physical regions of world and their occupational development by humans.

402 Geomorphology (4)
Prerequisites: GEOG 160; 210 or GEOL 150. Identification and interpretation of landforms. Local field trip.

405 Cartography (4)
Prerequisite: GEOG 210. Design and drafting of maps. Lecture 3 hours, laboratory 3 hours.

410 Weather and Climate (4)
Atmospheric behavior and how it produces our day-to-day weather; weather phenomena: severe storms, floods, droughts, atmospheric optics; processes involved in forecasting.

415 Perspectives on Environment (4)
Environmental interactions in subsistence and urban-industrial societies; impact of human activities on environment: modification of vegetation, hydrology, and landforms, accelerated soil erosion, climatic change; environmental perception; awareness of and adjustment to natural hazards.

421 United States (4)
Identification, interpretation, and synthesis of regional phenomena within the U.S. characterizing its physical and cultural landscape.

423 Europe (4)
Analysis of physical and cultural features of Europe.

424 South and Southeast Asia (4)
Analysis of human, cultural, and physical features of South and Southeast Asia; emphasis on roles of Asian nations and peoples in world relationships.

425 Japan (4)
Interpretation of population and economic problems, sociocultural patterns, and physical features of the land.

427 Mexico and Central America (4)
Nature of the land and characteristics of human settlement features in Mexico and Central America.

428 South America (4)
Character of physical and cultural environment in countries of South America.

430 China (4)
Physical and economic regional geography of China and its inner-Asian frontiers, including study of its demography, industrial and agricultural development, transportation, and energy infrastructure.

431 California (4)
Physical environments of California and human settlement features, past and present.

432 Metropolitan Los Angeles (4)
Investigation of the physical and cultural geographic characteristics that have contributed to Los Angeles' dynamic urban growth and its dominance as the primate city within the region.

433 Third World Environments and Their Technological Developments (4)
Prerequisite: GE natural science requirement. The physical environments of Third World countries of the Humid Tropics, Wet and Dry Tropics, Hot and Dry Realms, and Highland Tropics and their associated problems of technological development.

434 Pacific Asian Physical Environments and Technological Developments (4)
Physical environments of Pacific Asian countries and their associated problems in technological development and resource utilization.

441 World Resources (4)
Spatial distribution of world's renewable and nonrenewable resources; interrelationships between population growth, resource utilization, and environment.

442 Population (4)
Spatial analysis of demographic variables with emphasis on environmental, social, and economic factors influencing population distribution and mobility; population growth in relation to resource utilization.

446 U.S. Ethnic Communities (4)
Spatial structure and organization of selected ethnic communities in the U.S. and their interrelationships with American composite cultural environment.

451 Historical Geography of North America (4)
Prerequisite: GEOG 150. Development of North America from earliest European contact through the present, emphasizing spatial process and patterns.

453 Locational Analysis (4)
Location and spatial distribution of economic activities; development and applicability of various locational models in geography; agricultural, industrial, central place, intracity, social gravity, and spatial interaction models; emphasis on development of dynamic geographic models pertaining to regional planning. Lecture 3 hours, laboratory 2 hours.
460 Field Geography (5)
Prerequisites: GEOG 150, 160; 210 or 370. Field identification and interpretation of natural and man-made features, and methods used therein. Lecture 2 hours, field work 6 hours. May be repeated once for credit if one enrollment is in program at off-campus field center.

465 Air Photo Interpretation (4)
Prerequisite: GEOG 210. Interpretation of natural and cultural landscapes as revealed in aerial photographs. Lecture 2 hours, laboratory 4 hours.

466 Remote Sensing of Environment (4)
Prerequisite: GEOG 465. Analysis of natural and cultural features of earth’s environment using photographic, infrared, and microwave imagery. Lecture 2 hours, laboratory 4 hours.

467 Transportation (4)
Modes of movement of people, products, and ideas; their impacts on spatial patterns and landscapes.

468 Computer Cartography (4)
Prerequisites: GEOG 268, 405. Production of computer maps for students with limited computer background; drawing quality maps on printer, plotters, and graphics terminals using available software. Lecture 2 hours, laboratory 4 hours.

469 Geographic Information Systems Applications (4)
Prerequisite: GEOG 468. Theories and applications of Geographic Information Systems (GIS); use of GIS for planning purposes such as development projects, urban analysis, and environmental planning. Lecture 2 hours, laboratory 4 hours.

471 Advanced Cartography (4)
Prerequisite: GEOG 405. Advanced methods of cartographic rendering, including reproduction, negative scribing, color separation, terrain rendering, and plastic shading. Lecture 3 hours, laboratory 3 hours.

475 Settlement (4)
Human manner of settling new lands and resettling old lands, with special emphasis on form and function of resulting settlements.

476 Urban Areas (4)
Analysis of distribution of world’s cities, and investigation of function and form of representative urban areas.

477 Urban Issues (4)
Presentation of issues relating to physical, technological, and economic characteristics and functions of urban areas. Lecture 3 hours, laboratory 3 hours (field trips and directed urban encounter).

481 Political Geography (4)
Physical and cultural phenomena that relate to problems and policies of world’s states.

495 Senior Thesis (4)
Prerequisites: Satisfactory completion of the Graduation Writing Assessment Requirement (GWAR) and senior standing. Advanced principles of geographic writing and research culminating in a senior thesis.

496 Special Topics (1-4)
Prerequisites: As needed for specific topic. May be taken concurrently with GEOG 497. Specialized systematic and regional topics in geography as announced in Schedule of Classes. Lecture 1-4 hours. May be repeated as subject matter changes.

497 Special Topics (1-4)
Prerequisites: As needed for specific topic. May be taken concurrently with GEOG 496. Special topics of interest to students in geography as announced in Schedule of Classes. Activity 2-8 hours. May be repeated for credit as subject matter changes.

499 Undergraduate Directed Study (1-4)
Prerequisites: Instructor consent to act as sponsor; ability to do independent work and to prepare written and oral reports. Project selected in conference with sponsor before registration; progress meetings held regularly. May be repeated to maximum of 8 units as subject matter changes.

Courses in Urban Analysis (URBA)

Lower Division Course

101 The Urban World (4)
Worldwide issues relating to the physical, technological, economic, political, and sociological characteristics of urban areas.

Upper Division Courses

400 Proseminar: Urban Analysis (4)
Prerequisite: Completion of all other requirements for Urban Analysis option. Analysis of specific urban problems and potential solutions from an interdisciplinary perspective. May be repeated as subject matter changes.

401 Senior Project (4)
Prerequisites: Completion of all other requirements for Urban Analysis option, prior approval of project by advisory committee. May be taken concurrently with URBA 400. Interdisciplinary group project; identification of specific urban problems, application of special skills in assembling information, proposing and initiating implementation of solution. May be repeated once for credit.

454 Selected Topics in Urban Analysis (1-6)
Current topics of special interest in urban studies and related fields as announced in Schedule of Classes. May be repeated for credit as subject matter changes.

499 Undergraduate Directed Study (1-4)
Prerequisites: Consent of an instructor to act as sponsor, approval of coordinator. Project selected in conference with sponsor before registration; progress meetings held regularly; final report submitted. May be repeated for credit.
GEOL 150 General Geology (3)
GEOL 151 General Geology Field Laboratory (2)
GEOL 152 General Geology Laboratory (1)
GEOL 201 Elementary Mineralogy (6)
GEOL 203 Introductory Petrology (2)
GEOL 252 Historical Geology (4)
MATH 103 Algebra and Trigonometry (4)
MATH 206 Calculus I (4)
PHYS 101-103 Physics (4, 4, 4) or
PHYS 201*, 202*, 203* General Physics (4, 4, 4)

Electives
Select at least 14 units from following:
GEOL 155*, 156*, 157, 158* BIOL 168
CHEM 152*, 201* MATH 207*, 208*
PHYS 204*, 205*

Upper Division Required Courses (20 units)
GEOL/PHYS 350N Evolution of Universe and Earth (4)
GEOL 360 Geological Mapping (4)
GEOL 372 Computers in Geology (4)
GEOL 420N Geology of the National Parks (4)
GEOG 410 Weather and Climate (4)

Select at least 24 units from following:
BIOL 361N
GEOG 402, 415
GEOL 321, 370

Any 400 level Geology course except GEOL 420N.
*Required for Single Subject Credential in Physical Science.

Earth Science Major
- Multiple Subject Teaching Option (146-151)
Students who select this option complete a separate core which is common to all Multiple Subject teaching options. The common core contains 106-111 units and is described in the Undergraduate Study chapter. In addition to the core, the 68 units listed below are required in the option. Refer to the undergraduate Charter School of Education chapter of this catalog for regulations governing all teaching credential programs.

Required Courses (106-111 units)
Refer to Undergraduate Study chapter of this catalog.

Major Courses (20 units)
GEOG 160 Physical Geography (4)
GEOG 495 Senior Thesis (4)
GEOL 158 Environmental Geology (4) or
GEOL 490 Special Topics in Modern Geology (4)
GEOL 252 Historical Geology (4)
GEOL 420N Geology of the National Parks (4)

Earth Science Depth Area (20 units)
GEOG 402 Geomorphology (4)
GEOG 410 Weather and Climate (4)
GEOG 415 Perspectives on Environment (4)
GEOL 321 Geology of Southern California (4)
GEOG/PHYS 350N Evolution of Universe and Earth (4)

Electives (28 units)
Professional education courses are recommended. See credential adviser in the Charter School of Education.
Bachelor of Science Degree in Geology

The Bachelor of Science degree in Geology requires a total of 192 quarter units and is designed for students who plan a professional geological career in government and industry or graduate study in geology and related fields.

Requirements for the Major (124 units)

A total of 124 units of geology, related physical sciences, and mathematics is required for the Bachelor of Science degree major. Fifty-one units are in lower division courses and 73 are in upper division courses in geology and related fields.

Lower Division Required Courses (51 units)

- GEOL 150 General Geology (3)
- GEOL 152 General Geology Laboratory (1)
- GEOL 201 Elementary Mineralogy (6)
- GEOL 203 Introductory Petrology (2)
- GEOL 252 Historical Geology (4)
- CHEM 101-103 General Chemistry I-III (5, 5, 5)
- MATH 206, 207 Calculus I, II (4, 4)
- PHYS 101-103 Physics (4, 4, 4)

Upper Division Required Courses (49 units)

- GEOL 360 Geological Mapping (4)
- GEOL 370 Geochemistry (4)
- GEOL 372 Computers in Geology (4)
- GEOL 400 Optical Mineralogy (5)
- GEOL 401 Igneous Petrology (5)
- GEOL 402 Sedimentary Petrology (4)
- GEOL 403 Metamorphic Petrology (4)
- GEOL 410 Structural Geology (5)
- GEOL 430 Stratigraphy (6)
- GEOL 460A Summer Field Geology I (5)
- GEOL 460B Report for Field Geology I (3)

Electives

Select 24 units from following with adviser approval:

In addition, students may select up to 4 units of upper division biology, chemistry, computer science, engineering, mathematics, and physics courses with adviser approval. Students are advised to consult the Schedule of Classes for special topics courses (GEOL 490 and 491) which may be used to satisfy the geology elective requirements.

Minor in Geology

This program is designed for students majoring in other fields who wish to broaden their experience in science or prepare for careers such as teaching, public service, or law. The minor requires 35 units in geology and related fields. Consultation with a department adviser is recommended. Students with majors in related physical sciences may substitute other courses with approval of a Geological Sciences adviser. Completion of the minor in Geological Sciences also satisfies requirements for the Supplementary Authorization in Science: Geoscience for holders of a Single Subject teaching credential.

Requirements for the Minor (35 units)

Lower Division Required Courses (23 units)

- GEOL 150, 152, 155, 156, 158, 201, 252

Upper Division Required Course (12 units)

- GEOL 321, 420
- GEOG 410

The Credential Program

The Department of Geological Sciences participates in the Bachelor of Science degree program in Natural Science described later in this chapter, which is also approved for the Single Subject Science credential. An additional supplementary authorization for the Single Subject credential is described just below this paragraph. Interested students should consult advisers in both the Department of Geological Sciences and the Charter School of Education. Refer to the undergraduate Charter School of Education chapter of this catalog for regulations governing all teaching credential programs.

Supplementary Authorization for Single Subject Teaching Credential (39 units)

Holders of a Single Subject teaching credential issued by the state of California may supplement that credential with an authorization in Geosciences for teaching earth sciences at any grade level through grade 12 or in classes organized primarily for adults by completing the following program with a grade of C or higher in each course. The course work must include one year sequence of courses in at least two of the subject areas. At least one of the courses must include a laboratory component. For other requirements governing issuance of this authorization, consult the Charter School of Education.

Complete or demonstrate proficiency in each of the following courses (39 units):

- GEOL 150 General Geology (3)
- GEOL 152 General Geology Laboratory (1)
- GEOL 155 Oceanography (3)
- GEOL 156 Oceanography Field Laboratory (2)
- GEOL 158 Environmental Geology (4)
- GEOL 201 Mineralogy (6)
- GEOL 252 Historical Geology (4)
- GEOL 321 Geology of Southern California (4)
- GEOL 420 Geology of the National Parks (4)
- ASTR 151 Principles of Astronomy (3)
- ASTR 152 Principles of Astronomy: Laboratory (1)
- GEOG 410 Weather and Climate (4)

Courses in Geology (GEOL)

†There is a special fee associated with registering for laboratory classes that carry this designation. Details appear in the Schedule of Classes.

Lower Division Courses

101 Earth Science (4)

(also listed as GEOG 101)

Nature of the earth’s land, water, and atmosphere with emphasis on dynamic processes in the earth’s crust and atmosphere that have interacted to form the world’s physical environments.

150 General Geology (3)

Corequisite: GEOL 151 or 152. Earth materials and processes including minerals and rocks, erosion, internal structure, plate tectonics, volcanism, earthquakes, and geologic evolution of the land surface. Lecture 3 hours. GEOL 150+152 = CAN GEOL 2

151 General Geology Field Laboratory (2)

Field interpretation of rocks, minerals, and geologic structures of southwestern U.S.; field trips scheduled for weekends or quarter breaks. Proseminar 1 hour, field trips 3 hours. May be repeated once for credit if different areas are studied.
152 General Geology Laboratory (1)
Corequisite: GEOL 150. Earth materials (minerals and rocks), interpretation of geologic features (especially California) on topographic and geologic maps; seismological (earthquake) problems. Laboratory 3 hours. GEOL 150+152 = CAN GEOL 2

155 Oceanography (3)
Corequisite: GEOL 156 or 157. Marine geology and oceanography. Physiochemical processes and geologic features of oceans; role of oceans in earth history; interactions of oceans, biosphere, and atmosphere; and natural resource potential.

156 Oceanography Field Laboratory (2)
Field and laboratory interpretation of samples collected by students during cruise on an oceanographic research vessel. Interpretation of shoreline features. Field trips on weekends. Proseminar 1 hour, field trips 3 hours.

†157 Oceanography Laboratory (1)
Corequisite: GEOL 155. Laboratory studies of selected topics in oceanography including analysis of maps, seawater and sediment samples, wave and current patterns, and coastal geomorphology. Laboratory 3 hours.

158 Environmental Geology (4)
Social reactions to earthquakes, landslides, subsidence, floods, and volcanism; geological problems in water, mineral, and energy resource development. No credit toward Geology major.

201 Elementary Mineralogy (6)
Prerequisites: CHEM 101, MATH 102. Nature of crystalline state, description and projection of crystals, general study of the seven crystal systems; crystal chemistry of nonsilicate minerals. Lecture 3 hours, laboratory 9 hours.

203 Introductory Petrology (2)
Prerequisite: GEOL 201. Elementary methods of rock and rock-forming mineral description, identification, and interpretation involving igneous, sedimentary and metamorphic rocks. Lecture 1 hour, laboratory 3 hours.

252 Historical Geology (4)
Prerequisites: GEOL 150, 155, or 158. Plate tectonic evolution of continents, oceans, and mountain systems and geologic history of earth; introduction to stratigraphy and development of ancient life. Lecture 2 hours, laboratory 6 hours.

Upper Division Courses

321 Geology of Southern California (4)
Prerequisites: GEOL 150, 151 or 152. Geologic provinces of southern California including geologic history, structure, rock types, and landforms. Field laboratory on weekends. Lecture 2 hours, laboratory 6 hours.

350N Evolution of Universe and Earth (4)
(also listed as PHYS 350N)
Prerequisite: GE natural science requirement. Origin and evolution of the universe, elements, stars, sun, the earth, and life upon it.

360 Geological Mapping (4)
Prerequisites: GEOL 201, 203, 252. Topographic map construction and reading; Brunton and tape traverse for construction of cross sections, stratigraphic columns, and geologic maps; methods of field note taking and geologic report writing. Laboratory and field trips 12 hours.

370 Geochemistry (4)
Prerequisites: GEOL 201, 203, 372; prerequisite or corequisite: MATH 206. Interpretation of geological phase diagrams, trace element distribution, isotope tracers, radiometric dating systems, light stable isotopes, aqueous solutions in ore deposits, Eh-pH controls on mineral equilibrium during weathering, and diagene-

372 Computers in Geology (4)
Prerequisite: MATH 103. Workstation operating system, electronic mail, applied word processing, spreadsheet tables and graphs, descriptive and inferential statistics including Chi Square analysis, tools and resources of the Internet, and computer-aided illustration. Lecture 2 hours, laboratory 6 hours.

400 Optical Mineralogy (5)
Prerequisite: GEOL 201. Optical properties of crystals in polarized light, determination of minerals in thin sections, and immersion oils with the petrographic microscope. Lecture 2 hours, laboratory 9 hours.

401 Igneous Petrology (5)
Prerequisites: GEOL 360, 370, 400. Origin, occurrence, and characterization of igneous rocks; their mineralogy, petrology, geochemistry, and plate tectonics setting. Lecture 3 hours, laboratory 6 hours.

402 Sedimentary Petrology (4)
Prerequisites: GEOL 370, 410. Analysis of sediments and sedimentary rocks involving their description, classification, and origin. Principles of sedimentation, recognition of environments of deposition. Lecture 2 hours, laboratory and field trips 6 hours.

403 Metamorphic Petrology (4)
Prerequisites: GEOL 360, 401, 402. Origin, occurrence, characterization of igneous rocks; laboratory emphasis on petrographic description and field studies. Lecture 2 hours, laboratory and field trips 6 hours.

410 Structural Geology (5)
Prerequisites: GEOL 360, MATH 206. Prerequisite or corequisite: PHYS 101. Theory of rock deformation, structural features of sedimentary, igneous, and metamorphic rocks; deformation of the earth's crust, applied practice in laboratory methods dealing with geologic problems in three dimensions. Lecture 3 hours, laboratory 6 hours.

420N Geology of the National Parks (4)
Geologic history of the U.S. national parks and monuments, emphasizing the process of rock formation, structure, stratigraphy, geomorphology, and paleogeography.

424 Low Temperature Geochemistry (4)
Prerequisite: GEOL 370. Low temperature minerals and their formation; diagenetic reactions; low grade metamorphism; role of fluids in mineral paragenesis.

425 Isotope Geology (4)
Prerequisite: GEOL 370. Applications of RB/Sr, U/Pb, Sm/Nd isotopes to study of igneous, metamorphic, and sedimentary rocks. Lecture 2 hours, laboratory 6 hours (arranged).

426 Astrogeology (4)
Prerequisite: GEOL 401. Terrestrial planets; meteorites, the moon, asteroids, comets; remote sensing of the Giant Planets; origin of the solar system.
430 Stratigraphy (6)
Prerequisite: GEOL 402. Paleogeography and reconstruction of ancient environments of sedimentary basins through application of structural, petrologic, stratigraphic, and paleontologic principles; stratigraphic analysis of economic deposits; report writing and field note taking; stratigraphic section measurements and analysis. Lecture 4 hours, laboratory and field trips 6 hours.

431 Invertebrate Paleontology (5)
Prerequisite: GEOL 252. Characteristics and evolution of important fossils in invertebrate animals and fundamentals of stratigraphical paleontology. Lecture 3 hours, laboratory 6 hours.

432 Biostratigraphy (4)
Prerequisite: GEOL 430. Principles of biostratigraphy illustrated through study of important groups of microfossils. Lecture 3 hours, laboratory 3 hours.

433 Quaternary Geology (4)
Prerequisite: GEOL 252. History of the earth during and since Ice Ages; causes, mechanisms, and global physical and biological effects of glaciation.

434 Volcanology (4)
Prerequisites: GEOL 360, 370. Tectonic setting; petrogenesis; interpretation of volcanic rocks.

436 Petroleum Geology (4)
Prerequisites: GEOL 410, 430. Geological occurrence of petroleum including structures, accumulation mechanisms, nature of reservoir rocks, nature of petroleum fluid; evaluation and exploration of methods.

451 Geology of Industrial Rocks and Minerals (4)
Prerequisites: GEOL 360, 370. Sedimentary geochemical cycles and economic aspects of sedimentary deposits and utilization of common rock materials. Lecture 3 hours, laboratory and/or field trips 3 hours.

452 Economic Geology of Metallic Deposits (4)
Prerequisites: GEOL 360, 370. Geochemistry of ore formation occurrence and distribution of metallic deposits, laboratory examination of ore suites. Lecture 3 hours, laboratory and/or field trips 3 hours.

453 Exploration and Mining Geology (4)
Prerequisites: GEOL 401; 451 and 452 recommended. Geologic, economic, and engineering factors; collection and analysis of geological, geochemical, and geophysical data; written and graphic presentations; planning and carrying out mining programs. Lecture 2 hours, laboratory 6 hours.

460A Summer Field Geology I (5)
Prerequisites: GEOL 403, 410, 430. Corequisite: GEOL 460B. First seven weeks of quarter: five weeks in a field camp, off campus, investigating area of sedimentary, metamorphic, and igneous rocks and geologic structure; sixth and seventh weeks on campus preparing maps and reports.

460B Report for Field Geology I (3)
Prerequisite: Satisfactory completion of the Graduation Writing Assessment Requirement (GWAR). Corequisite: GEOL 460A. Preparation of geologic map, cross sections and report about entire area covered by class in GEOL 460A.

470 X-Ray Crystallography (4)
Prerequisite: GEOL 201. Analysis of crystal structure and chemistry by x-ray power diffraction methods; laboratory problems applicable to mineralogy, petrology, metallurgy, and inorganic chemistry; introduction to single crystal methods. Lecture 2 hours, laboratory 6 hours.

471 Analytical Geochemistry (4)
Prerequisite: CHEM 201, GEOL 401, or PHYS 206. Intended for upper division students in chemistry, geology, or physics interested in quantitative x-ray fluorescence spectrographic analysis of rocks and minerals. Laboratory problems include evaluation of samples collected from mapped area and statistical summary of results. Lecture 2 hours, laboratory 6 hours.

472 Data Analysis in Geology (4)
Prerequisites: GEOL 372, MATH 206. Application of timesharing computer systems, BASIC programming combined with statistics and geometric methods for treatment of geologic data and solution of typical problems. Lecture 2 hours, laboratory 6 hours.

473 Clay Mineralogy (4)
Prerequisite: GEOL 370. Crystal structures, classification, origin, occurrence, and physicochemical properties of clay minerals; identification by x-ray diffraction and DTA techniques.

480 Principles of Geophysics (4)
Prerequisites: PHYS 103 or 203; MATH 207; GEOL 150 recommended. Internal physics of the earth, interpretation of data and theories concerning the geodetic, tectonic, isostatic, thermal, seismic, gravity, magnetic, radioactive, and electrical phenomena of the earth.

481 Engineering Geology (4)
Prerequisite: GEOL 460AB. Analysis of geologic factors affecting engineering projects; includes mechanical properties of rocks and soils, landslides, slope stability, subsidence, groundwater, erosion and silting, and earthquake effects.

482 Engineering Geology Laboratory (2)
Prerequisite or corequisite: GEOL 481. Methods of laboratory soil testing used in engineering geology, including compaction, grain size, shear strength, expansion, and Atterberg Limits tests. Laboratory 6 hours.

483 Photogeology (4)
Prerequisite: GEOL 360. Use of aerial photographs to interpret geological structures and lithologies shown on topographic maps; analysis of photos for engineering projects. Lecture 3 hours, laboratory 3 hours.

484 Hydrogeology (4)
Prerequisite: MATH 207. Occurrence, movement, quality of surface water and groundwater emphasizing geologic factors. Lecture 3 hours, laboratory 3 hours.

485 Groundwater Management and Models (4)
Prerequisite: GEOL 484. Mathematical models as tools of groundwater management; case histories of various levels of groundwater management; laboratory includes verification and prediction using finite difference model on computer systems. Lecture 3 hours, laboratory 3 hours including one field trip.

490 Special Topics in Geology (14)
Prerequisites: As needed for a specific topic. Current topics of special interest in advanced geology and related fields as announced in Schedule of Classes. May be repeated to a maximum of 16 units as subject matter changes.
491 Special Laboratory Topics in Geology (1-3)
Prerequisite: As needed for specific topics. Laboratory activities for current topics of special interest in geology as announced in Schedule of Classes. May be repeated to a maximum of 12 units as subject matter changes.

497 Senior Problem (3)
Prerequisites: Senior standing in geology, prior instructor consent to act as sponsor. Individual study of an applied geologic field or laboratory problem; progress reports, final oral and written report required.

499 Undergraduate Directed Study (14)
Prerequisites: Consent of an instructor to act as sponsor, ability to assume responsibility for independent work and to prepare written and oral reports. Project selected in conference with sponsor before registration; progress meetings held regularly. May be repeated to a maximum of 4 units.
The Department of History provides opportunities to study the development and interaction of the world’s cultures. In addition to a broad curriculum in local, national, and world history, the department offers a wide variety of special topics courses. The program thus contributes to the attainment of intellectual and cultural objectives of a liberal education appropriate to careers in law, journalism, business, government service, librarianship, and teaching, or to advanced study.

The department offers the Bachelor of Arts and Master of Arts degrees in History, and a minor in History for students majoring in other areas. The undergraduate programs are described below, and the graduate program is described in the Graduate Programs section. The department also participates in the interdisciplinary Bachelor of Arts degree program in Social Science. This program is described under the area of Social Science.

The Department of History administers a minor in Religious Studies designed to explore the forms and traditions of religion that have appeared in human culture.

The Faculty

Professors: John M. Allswang, Francisco E. Balderrama, Stanley M. Burstein (Chair), Daniel Crecelius, Eugene R. Fingerhut, Udo Heyn, Yuen-Sang (Philip) Leung, Martin J. Schiessl.

Associate Professors: Carole Srole, Lamont Yeakey.

Assistant Professors: Choi Chatterjee, Philip K. Goff, Enrique C. Ochoa, Peter H. Sigal, B. Lael Sorensen, Lillian Taiz, Ping Yao.

Bachelor of Arts Degree

The Bachelor of Arts degree program in History is designed to provide an understanding of societal development in all aspects of experience and environment and of the relevance of the past to the present. The program permits pursuit of a wide range of interests within the purview of historical methodology. Students should confer in advance with a history adviser to select the courses and program appropriate to their goals.

Requirements for the Major (80 units)

The major requires 80 units, including a required core of 20 lower division and 44 upper division units plus 16 units of electives.

Foreign Language Competence

History majors are urged to develop competence in at least one foreign language.

Lower Division Required Courses (20 units)

- HIST 110ABC World Civilization I-III (4, 4, 4)
- HIST 202AB United States Civilization (4, 4)

Upper Division Required Courses (44 units)

- Required Courses (8 units)
  - HIST 388 Historiography (4)
- HIST 390 Historical Research and Writing (4)

Select 8 units each from groups A, B, and C for a total of 24 units:

**Group A Western Civilization/Europe**

- Ancient: HIST 311, 410-413
- Europe (Chronological): HIST 421-430
- Europe (Topical): HIST 350, 380, 431-447

**Group B The United States**

- U.S. (Chronological): 470-475
- U.S. (Topical): 456, 458, 476-489

**Group C The Non-Western World**

- Africa: 414AB-415
- Asia: 494ABC, 495AB, 496
- Latin America: 461-467
- Middle East: 419, 420, 491, 492

Special Studies (12 units)

Select three HIST 450 courses, one appropriate to each group above (A, B, C).

Electives (16 units)

Select any 400-level courses in history. With prior departmental approval, a maximum of 8 units may be taken in fields outside history.

- **Multiple Subject Teaching Option**

  Students who select this option complete a separate core which is common to all Multiple Subject teaching options. That common core contains 106-111 units and is described in the Undergraduate Study chapter. In addition to the core, the 68 units listed below are required in the option. This credential option is the subject matter program designed to qualify students for the Multiple Subject Credential in California. Refer to the under-graduate Charter School of Education chapter of this catalog for regulations governing all teaching credential programs.

  **Required Courses (106-111)**

  Refer to Undergraduate Study chapter of this catalog.

  **Major Courses (20 units)**

  **Required Courses (8 units)**

  - HIST 388 Historiography (4)
  - HIST 390 Introduction to History (4)
  - History Group A, B, C (12 units)

  Select one course each from groups A, B, and C, excluding courses used to meet depth requirements and GE upper division theme courses.

  **Group A: Western Civilization (select 4 units from following)**

  - HIST 311, 380, 410, 411, 412A, 412B, 413, 421, 422, 444A

  **Group B: United States (select 4 units from following)**

  - HIST 470, 471, 472, 476, 479, 480, 481, 483, 485, 486, 489

  **Group C: The Non-Western World (select 4 units from following)**

  - HIST 414A, 419, 461, 494A

  **Depth Area (20 units)**

  Select one of the two depth areas listed below.

  - **American Civilization (Foundations)**

  - HIST 450 Special Studies in History (4)
  - Native Americans: ANTH 406 or HIST 481 (4) (select one)
Early America: HIST 470 or 471 (4) (select one)
California: HIST 488 or 489 (4) (select one)
Topics in U.S. History: HIST 477, 480, or 485 (4) (select one)
  * Ancient World
  ANTH 425 Archaeology of the Old World (4)
  HIST 410 Ancient Near East: 4000-323 B.C. (4)
  HIST 450 Special Studies in History (4)
  Classical World: HIST 411, 412A, 412B, 413 (4)
  (select one)
  Non-Western World HIST 414A, 490A, 494A (4) (select one)

Electives (28 units)
Professional education courses are recommended. See a creditable adviser in the Charter School of Education.

Minor in History
The minor in History is available for students majoring in other fields. The 36-unit program includes a sequence of courses with the same general objectives as the History major, and may be of particular value to students majoring in business, engineering, the sciences, and fine or applied arts.

Requirements for the Minor (36 units)
Lower Division Required Courses (20 units)
HIST 110ABC, 202AB
Upper Division Required Courses (12 units)
Select one course each from groups A, B, and C listed under required upper division courses in the Bachelor of Arts degree in History.
Electives (4 units)
Select any 400-level course in history.

Minor in Religious Studies
To complete the minor in Religious Studies, students must complete a total of 32 units from the courses listed below, with adviser approval. Core requirements total four courses (16 units); electives, required in Religious Studies and at least two of the three areas offered, constitute the remainder of the program (16 units). Prior approval must be obtained for enrollment in special topics and directed study courses. Each student will submit a study program for approval to the director of the Religious Studies program. A maximum of eight units from a students major may be applied on the minor.

Requirements for the Minor (32 units)
Core requirements (16 units)
RELS 200 Introduction to Religious Studies (4)
PHIL 238 Comparative Religions (4)
RELS 300 Judaism, Christianity, Islam (4)
RELS 350 Religions in the U.S. (4)
Electives (16 units)
RELS 345 Health and Wellness in World Religions (4)
ART/RELS 450 Art, Religion, and Technology (4)
RELS 410 Asian Religions (4)
RELS 425 Themes of Adult Life in Religions (4)
RELS 435 Religion and Sex Roles (4)
RELS 454 Special Topics in Religious Studies (4)
RELS 461 Religion and the Nuclear Age (4)
RELS 499 Undergraduate Directed Study (4)
You may also select courses from the following three areas, with adviser approval.

Area I. Anthropology, Art, Literature, Mythology, Sociology
ANTH 437, ART 406, 416, 450, 454, 499*  
ENGL 258, 482, 491*, 499*, SOC 445, 454*, 499*
*when applicable

Area II. History
HIST 401, 419, 450*, 451*, 495A, 499*
JAPN 310
*when applicable

Area III. Philosophy
PHIL 311, 354*, 415, 418, 435, 445, 452, 495*, 499
*when applicable

Courses in History (HIST)

Lower Division Courses
110ABC World Civilization I, II, III (4, 4, 4)
  110A Comparative examination of the ancient world’s classical civilizations from 4500 B.C. to 500 A.D.
  110B Comparative examination of the ancient world’s classical civilizations from 4500 B.C. to 500 A.D.
  110C Development of U.S. from earliest colonial settlement through Civil War. HIST 202A = CAN HIST 8

202A United States Civilization (4)
  Development of U.S. from earliest colonial settlement through Civil War. HIST 202A = CAN HIST 8

202B United States Civilization (4)
  Development of U.S. from earliest colonial settlement through Civil War. HIST 202B = CAN HIST 10

253 Caribbean History (4)
(also listed as PAS 253)
  Caribbean history and development, including history of indigenous peoples, European colonialism, slavery, resistance, and independence. Includes Spanish-, English-, French-, and Dutch-speaking Caribbean islands.

Upper Division Courses
Upper division standing is prerequisite to all 300 and 400-level history courses, unless otherwise noted.

311 Classical Civilization and the Modern World (4)
  History of classical civilization and its legacy. Origin of the classical tradition, its social, political, and cultural manifestations, and its transmission to the modern world.

350 Evolution and the Modern World (4)
(also listed as ART 350, ENGL 350, and PHIL 350)
  Prerequisite: GE humanities requirement. History of the idea of evolution from antiquity to the present and its impact on the culture of the 20th century.

370 Computers in Historical Research (4)
  Prerequisite: Basic Computer Skills Recommended.
An introduction to the use of computers for historical study and research. Hardware configurations, software applications, databases, telecommunications. Hands-on training in computer lab.

380 Ancient and Modern Science (4)

(also listed as CHEM 380N, and PHIL 380)
Prerequisite: GE natural science requirement. Systematic analysis of ancient scientific thought as science and its relationship to modern science.

388 Historiography (4)
Prerequisites: 12 units of history course work and satisfactory completion of the Graduation Writing Assessment Requirement (GWAR). History of historical thought from ancient to contemporary historians. Special emphasis on modern historiography. Practical experience writing historiographical essays.

390 Historical Research and Writing (4)
Prerequisite: HIST 388. Introduction to historical research and writing; ideas, methods, and practical experience in investigating historical problems.

401 Science, Religion, and Culture in World History (4)
Prerequisites: GE natural and social science requirements: RELS 200 or PHIL 238. Interaction of science, religion, and culture in several great civilizations during specific periods of history.

410 Ancient Near East: 4000-323 B.C. (4)
Extensive study of earliest civilizations-Egyptian, Mesopotamian, Syrian, Persian, and Hebrew-and their historical legacy to Western world.

411 History of Ancient Greece (4)
Political and cultural study of Ancient Greece from Minoan-Mycenaean period to end of 5th century.

412A Early Rome, The Republic (4)
Internal and external development of the Roman republic from 8th Century B.C. to the death of Julius Caesar, 44 B.C.

412B The Roman Empire (4)
Roman history from the death of Julius Caesar, 44 B.C., to the fall of the city, 410 A.D.

413 Greek History: The Alexandrian Age (4)
Political, social, and religious developments from conquest of Alexander to rule of Islam; a history of Hellenistic, Roman, and early Byzantine rule in Near East.

414A Traditional Sub-Saharan Africa (4)
African continent south of the Sahara, earliest times to latter half of 18th century, with emphasis on political development.

414B Modern Sub-Saharan Africa (4)
Partition of Africa in 19th century, systems of European administration, reaction to colonial rule, birth of nationalism: social, economic, and political changes to 1945.

415 Contemporary Sub-Saharan Africa (4)
Post-World War II independence revolutions in black Africa; resistance to change in southern Africa; contemporary political, social, and economic problems of Africa south of the Sahara.

419 Classical Age of Islamic Civilization, 600-1258 (4)
Rise of Islam, the Caliphate, the Crusades, the Turkish and Mongol invasions.

420 Great Medieval Islamic Empires, 1258-1798 (4)
Dissolution of Arab Empire; Mamluk rule in Egypt; Il-Khanid, Timurid and Safavid Persia; rise of Ottoman Empire; Middle East culture and society on the eve of Westernization.

421 The Early Middle Ages (4)
Europe from fall of Roman Empire to 13th century; political, social, economic, and religious development of medieval Europe.

422 The Later Middle Ages (4)
Emergence of modern Europe and the period's cultural contributions to modern era.

423 Renaissance and Reformation (4)
Changes that shaped the course of early modern Europe to 1600, with emphasis on nature of periods leading phenomena, the Renaissance and the Reformation.

424 Seventeenth Century Europe (4)
Culmination of Wars of Religion, beginning of Age of Reason, and nature of absolutism in period from 1600 to 1715.

425 Eighteenth Century Europe (4)
The Ancien Regime and the Enlightenment to the French Revolution.

426 French Revolution and Napoleon (4)
History of Europe during period of French Revolution and Napoleon.

429 Europe: 1914 to Present (4)
Political, economic, cultural, and diplomatic history of Europe, World War I to present.

430 Europe: 1815-1914 (4)
European nationalism, industrial growth, imperialism, and the politics of power.

431 History of Modern Germany (4)
History of modern Germany, with emphasis upon 20th century.

437 Social History of Europe (4)
Changes in social institutions (family, church, polity), relationships (sex, class, race, ethnicity), and processes (mobility, control, disorder) from the Ancien Regime to present.

438 Economic History of Europe (4)
Europe's economic ideologies and institutions, with emphasis on economic problems, development, welfare, and reform, from the industrial Revolution to present.

439 Intellectual History of Europe (4)
Thought, belief, and opinion in Europe, with emphasis on principal thinkers and ideas as they relate to contemporaneous historical values from the Enlightenment to present.

440 Early Modern England (4)
History of England from 14th century to 1688, with emphasis upon constitutional, social, political, and economic development.

441 British History from 1688 to 1865 (4)
Historical development of Britain from Glorious Revolution to death of Palmerston.

442 Great Britain since 1865 (4)
Historical development of Great Britain from 1865 to present.

443 The British Empire (4)
Political and economic development of British Empire since late 18th century, with major consideration to expansion of colonial empire and evolution of modern empire-commonwealth.
444A Spain and Portugal to 1700 (4)
Political and institutional development of Spain and Portugal from antiquity to War of Spanish Succession.

444B Spain and Portugal Since 1700 (4)
Political and institutional development of Spain and Portugal from 1700 to present.

445 Foundations of the Russian Empire (4)
Political, economic, social, and cultural history of Russia from earliest times to accession of Alexander I in 1801.

446 Imperial Russia: 1801-1917 (4)
History of Russia from accession of Alexander I to end of Romanov dynasty in 1917.

447 The Soviet Union (4)
Background and history of revolutions of 1917 and subsequent historical development of Soviet Union.

450 Special Studies in History (4)
Prerequisite: HIST 390. Different theme or episode in history examined thoroughly each quarter in the manner of an undergraduate seminar. Individual readings, written and oral reports, and discussion. May be repeated to a maximum of 20 units for credit as topic changes.

451 Special Lectures in History (2-4)
Lectures on special historical topics not regularly given by department. May be repeated for credit as topic changes.

453 Studies in War and Peace (4)
Selected topics in history of human conflict, from security and deterrence to arms control, disarmament, pacifism, and other alternatives to war. May be repeated for credit as topic changes.

456 History of Emotions (4)
Prerequisite: GE social science requirement. Analysis of historical changes in emotions: survey of private emotions (e.g., marriage, childbirth, sexuality), institutional emotions (e.g., self-identity), and public emotions (e.g., charisma, patriotism).

458 History of the American Environment (4)
Prerequisite: GE American Institutions requirement. The relationship between people and land in America from colonial times to the present; the evolution of laws, technology, and public attitudes concerning the environment.

461 Latin America: Colonial Period (4)
Prehistory of the Americas south of the U.S.; European background, period of conquest, and colonial development to time of wars for independence.

462 Latin America: 1810-1914 (4)
Struggle for independence and social, political, and economic development of Latin American nations during 19th and early 20th centuries.

463 Latin America: 1914 to Present (4)
Social, political, and economic development of Latin American nations since beginning of World War I.

465 Brazil (4)
Brazilian history from Portuguese occupation of eastern South America through colonial period, independent empire, and the republic to present time.

466 Mexico (4)
(also listed as CHS 466)

Development of Mexican people and nation since time of aboriginals; social, political, and economic development, with particular attention to more recent period.

467 Modern Mexico and the Chicano People (4)
(also listed as CHS 467)
Prerequisite: CHS 111. Recommended: CHS/HIST 466. History of modern Mexico and its impact upon the Chicano people from separation from Mexico in 1848 to the present.

470 The Colonial Heritage: The United States, 1607-1763 (4)
Transfer of Old World institutions to British North America. Development of colonial society to end of French and Indian War.

471 Era of Revolution: The United States, 1763-1815 (4)
Causes and nature of American Revolution and development of the new nation through end of War of 1812.

472 Democracy, Dissent, and Disunion: The United States, 1815-1877 (4)
Political democracy; nationalism and sectionalism; slavery and reform; the Civil War and Reconstruction.

473 The United States, 1877-1918 (4)
Industrialism and urbanization, international expansion, the Progressive Era and coming of World War I.

474 The United States, 1918-1952 (4)
The 1920’s, Depression and New Deal, World War II, and the origins of the Cold War.

475 The United States, 1952 to Present (4)
Domestic changes and issues, and international relations of recent times.

476 Economic History of United States (4)
American economic development, industrialization, national legislation in industry and commerce.

477 United States Social History (4)
The social structure; social relations of American individuals, families, and groups; colonial period to the present.

478 History of United States International Relations (4)
International relations of the US with emphasis on the 20th century.

479 Constitutional History of United States (4)
U.S. Constitution and American constitutionalism from colonial times to present.

480 Ethnicity and Immigration in American History (4)
Role of national, racial, and religious minority groups, and of immigration, in American history.

481 Special Topics in the U.S. West (4)
Special topics lectures about history of the West; e.g., the Westward Movement, the urban West, Southwestern history, and women in the West. May be repeated for credit as topic changes.

482A American Popular Culture to 1900 (4)
Prerequisite: Upper division standing. Identity, commercial culture and representations of evil in American popular culture to 1900.

482B American Popular Culture from 1900 (4)
Prerequisite: Upper division standing. Identity, commercial culture, representations of evil in American popular culture from 1900.
483 Rise of Urban America (4)
Development of the American city from mid-19th century to present. Process of urban growth, structure of urban institutions, and consequences of industrialization.

484 Civil War and Reconstruction (4)
Forces that split the Union; slavery, war, and the position of blacks; Reconstruction and its failures.

485 U.S. Women to 1877 (4)
Social, intellectual, economic, and political experiences of U.S. women from preconquest to 1877.

486 U.S. Women, 1877 to the-Present (4)
Social, intellectual, economic, and political experiences of U.S. women, 1877 to present.

487 History of U.S. Work and Working People (4)
Transformation of work and social and political relations of workers in the U.S. from 1600 to the present.

488 California (4)
Political, economic, and cultural history of California from Spanish times to present.

489 Los Angeles (4)
Development of Los Angeles and its metropolitan areas from pueblo times to present.

491 The Middle East and the West, 1768-1919 (4)
Cultural and political impact of West, dissolution of Ottoman Empire, reformist movements and nationalism in Middle East, birth of modern state system.

492 Nationalism, Revolution, and War in Middle East, 1919-Present (4)
Rise of modern independent states in Middle East: survey of political, social, and economic developments in Middle Eastern states, with particular emphasis on attempts to create stable democratic regimes.

494A Traditional China (4)
Chinese civilization from earliest times to 1500.

494B Modern China (4)
Social, political, and economic development of mainland China from 1500 to 1949.

494C People’s Republic of China (4)
Political, economic, social, and foreign relations issues of Communist China since 1949.

495A Traditional Japan (4)
Japanese civilization from earliest times through traditional eras until 1868.

495B Modern Japan (4)
Social, political, and economic development of Japan since 1868.

496 History of Southeast Asia (4)
History and civilization of Southeast Asia with emphasis on political, social, and economic developments since 1800.

497 Editing and Publishing Perspectives (1-4)
Prerequisite: Consent of instructor. Techniques and practice in editing and producing a scholarly journal of research and review. May be repeated to a maximum of 6 units.

499 Undergraduate Directed Study (1-4)
Prerequisite: Consent of an instructor to act as sponsor. Project selected in conference with sponsor before registration: progress meetings held regularly, and a final report submitted. May be repeated to maximum of 8 units as topic changes.

Courses in Religious Studies (RELS)

Lower Division Course

200 Introduction to Religious Studies (4)
Methods and concepts in religious studies; multidisciplinary approaches to the study of ancient and contemporary religious phenomena in literate and illiterate cultures.

Upper Division Courses

300 Judaism, Christianity, Islam (4)
Origin and development of Judaism, Christianity, and Islam; comprehensive study of ideas, beliefs, and practices in the three religions.

345 Health and Wellness in World Religions (4)
Prerequisite: RELS 200 or PHIL 238. Impact of Eastern, Western, and traditional religions on health and wellness of their members and society.

350 Religions in the United States (4)
Principal figures, groups, issues, and trends in theological-historical perspective in the U.S.

410 Asian Religions (4)
Prerequisite: RELS 200 or PHIL 238. Comparative analysis of Asian religions; history, rituals, religious experiences, beliefs, ethics, religious institutions, and interrelationships with culture.

425 Themes of Adult Life in Religion (4)
Prerequisite: RELS 200 or PHIL 238. The role of religion in different stages and dimensions of adult life in major world religions.

435 Religion and Sex Roles (4)
Prerequisite: RELS 200 or PHIL 238. Images of the roles of men and women and images of God in the major religions of the world; religious views of sexuality and asceticism.

450 Art, Religion, and Technology (4)
(also listed as ART 450)
Prerequisite: RELS 200 or PHIL 238 or ART 101A, 101 B, or 101C. Relations among art, religion, and technology in selected periods of history in major cultures of the world.

454 Special Topics in Religious Studies (4)
Topics of special interest as announced in Schedule of Classes. May be repeated for credit as subject matter changes.

461 Religion and the Nuclear Age (4)
Prerequisites: GE natural science requirement; RELS 200 or PHIL 238. Implications and challenges of nuclear weapons, nuclear power, and modern concepts of physics for the religions of the world.

499 Undergraduate Directed Study (1-4)
Prerequisites: RELS 200, instructor consent to act as sponsor. Project selected with instructor before registration; progress meetings held regularly; final report. May be repeated for credit with different topic.
LATIN AMERICAN STUDIES

School of Natural and Social Sciences

PROGRAM OFFICE
King Hall B3006
Phone: (213) 343-2180

Latin American Studies is an interdisciplinary program that combines subject matter from several academic disciplines to give the student a broad background encompassing the historical, social, cultural, and geographic aspects of the region. It offers students interested in Latin America the opportunity to pursue a major in this field of study leading to the Bachelor of Arts and Master of Arts degrees. The undergraduate program is described below, and the graduate program is described in the Graduate Programs section.

Program Coordinator: Marjorie Bray.

The Faculty

Instruction for the Latin American Studies program is provided by members of the faculty from cooperating disciplines in the Schools of Natural and Social Sciences, Arts and Letters, Business and Economics, and the Charter School of Education.

Bachelor of Arts Degree

The Bachelor of Arts degree program in Latin American Studies affords the student a wide range of career opportunities in the U.S. and abroad. The growth of the Latin population in the U.S. has produced an increasing need for trained persons with a knowledge of the region to work in government, teaching, business, and other fields.

Requirements for the Major (60-151 units)

The major requires 60-151 units depending on the option selected. The required language competence may be demonstrated by examination.

- General Option (60-76 units)

Lower Division Required Courses (12-32 units)

ANTH 150 Cultural Anthropology (4)
GEOG 150 Human Geography (4)
LAS 150 Latin America in the World Context (4)
PORT 100AB Elementary Portuguese (4, 4)
(SPAN 300A or 315 listed below)
SPAN 200ABC Intermediate Spanish (4, 4)
 or Demonstrated Competency (0)

Upper Division Required Courses (24 or 28 units)

ANTH 404 Peoples of South America (4)
ANTH 408 Peasant Cultures of Middle America (4)
GEOG 427 Mexico and Central America (4)
GEOG 428 South America (4)
LAS 497 Proseminar: Methodology, Research Writing Selected Topics about Latin America (4)
POLS 451 Latin American Politics (4)
SPAN 300A Composition and Grammar (4) or SPAN 315 Spanish-American Civilization (4)
(SPAN 300A or 300B listed above)

Select 8 units in history:

HIST 465 Brazil (4) CHS/HIST 466 Mexico (4)

Elective Courses (12 units)

Select one course from Art, Music, Philosophy or Spanish or LAS 435 or LAS/PAS 442. Four units may be selected from 499 courses in anthropology, Chicano studies, geography, history, Latin American studies, philosophy, political science, or Spanish. Select from following courses, with adviser approval:

*ANTH 454L ART 446
BCST/LAS 434 CHS 311, 400, 406, 430, 444, 468
CHS/HIST 466, 467 ECON 460
GEOG 433, *496, *497
LAS 424, 435, 450 LAS/PAS 442, 460
MUS 458 PAS 423
PAS/POLS 456 PHIL 433
*POLS 454 SOC 442
SPAN 300AB, 315, 411, 413, 417, 419, 421, 429, *454, *459,
*460, 475, 483, 485

*when topic is Latin America
- Multiple Subject Credential Option (146-151 units)

Students who select this option complete a separate core which is common to all Multiple Subject teaching options. That common core contains 106-111 units and is described in the Undergraduate Study chapter. In addition to the core, the 68 units listed below are required in the option. Refer to the undergraduate Charter School of Education chapter of this catalog for regulations governing all teaching credential programs.

Required Courses (106-111 units)

Refer to Undergraduate Study chapter of this catalog.

Major Courses (20 units)

LAS 150 Latin America in the World Context (4)
LAS 497 Proseminar: Selected Topics in Latin American Problems (4)
SPAN 200BC Intermediate Spanish (4, 4)

Select one from following (4 units):

ART 446 Art of Latin America (4)
MUS 458 Music of Latin America (4)
PHIL 433 Latin American Philosophy (4)
SPAN 300A or 300B Composition and Grammar (4)
SPAN 315 Spanish-American Civilization (4)
SPAN 411 or 413 Spanish-American Literature I or II (4)

Social Science (Latin America) Depth Area (20 units)

Select one four-unit course each course from areas A-D, representing at least four departments, with no more than four units of LAS 450.

A. The Region

HIST 461, 462, 463; LAS 424, 450

B. Chicano Studies and Mexico

CHS 406, 444, 470; CHS/HIST 466, 467; LAS 450

C. Central America and the Caribbean

ANTH 408; GEOG 427; LAS 450; PAS/POLS 456

D. South America

ANTH 404; GEOG 428; HIST 465; LAS 450; POLS 451

E. Select one additional four-unit course from any of the above areas.
Electives (28 units)
Professional education courses are recommended. See a credential adviser in the Charter School of Education.

GENERAL EDUCATION UPPER DIVISION THEME (12 units)
Select one general education upper division theme and complete one course in each of the three areas within that theme. Theme courses are not part of the major but are included in credential requirements.

Minor in Latin American Studies
The minor in Latin American Studies is designed to provide students not majoring in Latin American Studies with a concentration of courses that will impart a knowledge of the field and enhance their career opportunities and general knowledge in a focused manner. The minor requires a total of 32 units, 12 in required courses and 20 in electives.

Requirements for the Minor (32 units)

**Required Courses (12 units)**
- LAS 150 Latin America in the World Context (4)
- LAS 497 Proseminar: Methodology, Research Writing (also listed as BCST 442)
- SPAN 200C Intermediate Spanish (4)

**Electives (28 units from following, with courses from at least three fields)**
- ANTH 404, 408, 454
- ART 446
- BCST/LAS 434 CHS 311, 400, 406, 430, 444, 468
- CHS/HIST 466, 467 ECON 460#
- GEOG 427, 428, 433#, 496*, 497*
- HIST 450*, 451*, 461, 462, 463, 465
- LAS 424, 435, 450, 499 LAS/PAS 442#, 460#
- MUS 458 PAS 423
- PAS/POLS 456 PHIL 433
- POLS 451, 454 SOC 442
- SPAN 300AB, 315, 411, 413, 417, 419, 421, 429, 454*, 459*, 460*, 475, 483, 485

*when topic is Latin America
# no more than two of these courses

The Credential Program
The B.A. degree in Latin American Studies (credential option) has been approved by the California Commission on Teacher Credentialing for the Multiple Subject credential and helps students prepare for the cultural and language examinations for the Multiple Subject BCLAD credential. CLAD Emphasis is also available. Consult an adviser in the Division of Curriculum and Instruction for requirements.

Interested students should consult advisers in the Latin American Studies office and the Charter School of Education chapter of this catalog for regulations governing all teaching credential programs.

Courses in Latin American Studies (LAS)

Lower Division Course

150 Latin America in the World Context (4)
An interdisciplinary introductory survey of the history, society, peoples, politics, geography, and artistic culture of Latin America with emphasis on its relation to the rest of the world.

Upper Division Courses

395 Community Service in Latin American Studies (1-4)
Prerequisites: Approval by departmental faculty adviser, acceptance by a community agency. Participation as a volunteer in work of a community agency or activity utilizing professional and/or vocational skills in service to community. Graded CR/NC. May be repeated to maximum of 9 units.

424 The United States and Latin America (4)
Examination and analysis of relations between the U.S. and Latin American nations; the inter-American system.

434 Latin American Radio Documentary Production (4)
(also listed as BCST 434)
Recommended prerequisites: BCST 320 or two upper division Latin American content courses in history, political science, or Latin American studies. Analysis of political, economic, and cultural issues in Latin America, utilizing primary sources; production of research in the form of broadcasting tapes.

435 Race and Culture in Latin America (4)
Prerequisite: Upper division standing. The role of race in Latin America as expressed in culture and the arts.

442 Cultural Impact of Third World Development (4)
(also listed as PAS 442)
The development process in the Third World as it affects and is affected by art and intellectual life.

450 Special Studies in Latin American Studies (1-4)
Prerequisites: Upper division standing, others as needed for specific topic. Selected topics in Latin American Studies differ each quarter; examined in manner of undergraduate seminar; individual readings, written/oral reports, discussion. Repeatable to maximum of 12 units as subject matter changes.

460 Dynamics of Social Change in the Third World (4)
(also listed as PAS 460)
Processes and development of social change in the Third World and their relevance to the U.S.

497 Proseminar: Methodology, Research Writing
Selected Topics about Latin America (4)
Prerequisites: LAS 150; ENGL 102*, satisfactory completion of the Graduation Writing Assessment Requirement (GWAR). Reading ability in Spanish or Portuguese. Senior Course. Interdisciplinary examination of approaches to Latin American Studies. Preparation of research paper in English on topic selected in consultation with instructor.

*Students subject to earlier catalogs satisfy this prerequisite with ENGL 101 or 190.

499 Undergraduate Directed Study (1-4)
Prerequisite: Instructor consent to act as sponsor. Project selected in conference with sponsor before registration, progress meetings held regularly, and final report submitted. May be repeated for credit.
MATHEMATICS AND COMPUTER SCIENCE

School of Natural and Social Sciences

DEPARTMENT OFFICE
Simpson Tower F206
Phone: (213) 343-2150

The Department of Mathematics and Computer Science offers undergraduate programs leading to the Bachelor of Arts and Bachelor of Science in Mathematics, both with several options, and a Bachelor of Science degree in Computer Science with two options. Programs in the department allow preparation for graduate study and professional careers in a variety of directions.

The Master of Science degree program in Mathematics is described in the Graduate Programs section.

The Faculty

Assistant Professors: Shirley B. Gray, Silvia P. Heubach.

Bachelor’s Degrees

Two baccalaureates in mathematics and one in computer science are offered. A major in computer science prepares students for employment in computer-related positions in industry and government. A major in mathematics prepares students to teach in secondary schools, work as research assistants in industry and government, or enter graduate school to prepare for positions in higher education, industry, and government.

The Bachelor of Arts or Bachelor of Science degree may be obtained in four years if adequate preparation has been secured in high school, e.g., algebra (2 years), geometry, trigonometry. Students who have not had this preparation or whose command of these subjects is weak may be advised to strengthen their knowledge before attempting college mathematics.

For each degree a minimum C (2.0) grade point average is required in all upper division courses included in the major.

Bachelor of Science Degree in Computer Science

The objective of the Bachelor of Science degree in Computer Science is to prepare qualified students for employment in industry in the area of computer science, primarily in positions such as applications programmer, systems programmer, and systems analyst. A total of 198 units is required for the degree, including 120 units in the major.

Requirements for the Major (120 units)

Electives (28 units)

Students may select one of the following 28-unit options. If no option is selected, choose 8 units from MATH 403, 420, 430, 435, 446, 456 or 457, 463, 466 or 467, 470, and 474, and 20 units from upper division CS and MATH courses (excluding MATH 342), including at least 8 units of MATH.

Each option consists of 28 units of related courses selected from upper division electives; however, an option is not required.

- **Option in Pure Mathematics (28 units)**
  This option prepares students for graduate work in mathematics.

**Required Courses (16 units)**

- MATH 456 Modern Algebra II (4)
- MATH 463 Introduction to Complex Analysis (4)
- MATH 466 Advanced Calculus II (4)
- MATH 467 Advanced Calculus III (4)

**Electives (12 units)**

Select courses in mathematics with adviser approval. The following are strongly recommended:

- MATH 435 Topology (4)
- MATH 457 Linear Algebra (4)

- **Single Subject Teaching Option (28 units)**
  This option is intended for students who are interested in teaching mathematics. Students should consult the Charter School of Education for credential requirements. Refer to the undergraduate Charter School of Education chapter of this catalog for regulations governing all teaching credential programs.

**Required Courses (24 units)**

- MATH 320 Selected Topics in History of Mathematics (4)
- MATH 384 Discrete Structures (4)
- MATH 430 Modern Geometry (4)
- MATH 446 Theory of Numbers (4)
- MATH 474 Theory of Probability (4)
- MATH 490 Senior Seminar in Mathematics (4)

**Electives (4 units)**

Select computer science and mathematics courses with adviser approval. Students with a strong interest in computer science should consider completing the minor in Computer Science.

**Bachelor of Science Degree in Mathematics**

The Bachelor of Science degree curriculum of 198 units is designed to prepare students for positions in business, industry, or government, as well as for graduate work in mathematics.

**Requirements for the Major (100-102 units)**

**Lower Division Required Courses (46-48 units)**

<table>
<thead>
<tr>

<tr>
<td>MATH 465</td>
<td>Advanced Calculus I</td>
<td>4</td>
</tr>
</tbody>
</table>

**Electives/Options**

**Electives (32 units)**

Select upper division computer science and mathematics courses excluding MATH 342. With department approval, a maximum of 8 units may be replaced by upper division courses in other fields. Students may also select one of the options below. If no option is selected, at least 16 units in mathematics must be included.

At least 8 units from MATH 403, 420, 430, 435, 446, 456 or 457, 463,466 or 467,470, and 474 must be included.

Students may select one or more of the following 32-unit options. Each option consists of several related courses selected from upper division electives; however, an option is not required.

- **Option in Applied Mathematics (32 units)**
  This option prepares students for graduate work in applied mathematics.

**Required Courses (20 units)**

<table>

<td>Linear Programming</td>
<td>4</td>
</tr>
</tbody>
</table>

**Electives (12 units)**

Select mathematics or computer science courses with approval of adviser. The following are strongly recommended:

- MATH 411 Tensor Analysis (4)
- MATH 457 Linear Algebra (4)

- **Single Subject Teaching Option (32 units)**
  This option is intended for students who are interested in teaching mathematics. Students should consult the Charter School of Education for credential requirements. Refer to the undergraduate Charter School of Education chapter of this catalog for regulations governing all teaching credential programs.

**Required Courses (24 units)**

</tr>
</tbody>
</table>

**Electives (8 units)**

Select computer science and mathematics courses with approval of adviser. Students with a strong interest in computer science should consider completing the minor in Computer Science.

**Minor in Computer Science**

A Computer Science minor, available for students majoring in other fields, consists of 36 units; 12 are upper division. Students majoring in fields that require the same courses as those required for the minor in Computer Science must take only those courses in the minor program that are not incorporated into their major.

**Requirements for the Minor (36 units)**

**Required Courses (24 units)**

The Single Subject Matter credential program has been approved by the California Commission on Teacher Credentialing for the Single Subject credential in Mathematics. Students who are seeking a Single Subject credential in Mathematics must pass the appropriate subject examination (PRAXIS/SSAT or complete an approved program of course work that is listed below). Those who have earned or are pursuing a baccalaureate in another discipline may qualify for the Single Subject credential in Mathematics by completing the program described below. Refer to the undergraduate Charter School of Education chapter of this catalog for regulations governing all teaching credential programs.

Subject Matter Program for Single Subject Credential in Mathematics

It is assumed that students entering this program have completed two courses in algebra and one in trigonometry.

Required Courses (63-65 units)

Supplementary Authorization for Single or Multiple Subject Teaching Credential (30-32 units)

Holders of a Single Subject or Multiple Subject credential issued by the California Commission on Teacher Credentialing may secure a supplementary authorization in Introductory Mathematics (on single subject credentials) or Mathematics (on multiple subject credentials) for teaching mathematics at any grade level through grade 9 by completing following courses with a grade C or higher in each course. For other requirements governing issuance of this authorization, consult the Charter School of Education.

Complete or demonstrate proficiency in each of the following courses (30-32 units):

*prerequisite: MATH 208
**prerequisites: MATH 208 and 209

Courses in Computer Science (CS)

Lower Division Courses

160 Introduction to Computers (3)

Prerequisite: GE mathematics requirement. History of computers; hardware, software including data base systems, word processors, spreadsheets, programming languages; social and ethical implications. Lecture 2 hours, laboratory 3 hours. Offered CR/NC only.
201 Introduction to Programming (4)
Prerequisite: MATH 103. Algorithm development for structured programming and computer programming; designing, coding, debugging, and documenting programs.

202 Introduction to Object Oriented Programming (4)
Prerequisite: CS 201; MATH 206. Algorithm development for Object Oriented Programming and computer programming; designing, coding, debugging, and documenting programs.

240 Computer Organization and Assembly Language (4)
Prerequisite: CS 201. Representation of information; introduction to computer organization; assembly language; introduction to system software.

284 Data Structure for Business Applications (4)
Prerequisite: MATH 102. Sets and set operations; relations and functions; data structure and access methods. No credit for computer science majors.

290 Introduction to FORTRAN Programming (2)
Prerequisite: MATH 206. Elementary computer programming using FORTRAN language. Lecture 1 hour, laboratory 3 hours. No credit toward Computer Science major.

291 FORTRAN Programming (4)
Prerequisite: CS 202. Corequisite: MATH 255. Programming in FORTRAN with emphasis on scientific programming applications.

292 C Programming (4)
Prerequisite: CS 202; Corequisite: MATH 255. The C programming language; UNIX operating system; scientific programming applications; systems programming.

293 Ada Programming (4)
Prerequisite: CS 202. Corequisite: MATH 255. The Ada programming language; scientific applications programming in Ada; using Ada as a program design language.

Upper Division Courses

312 Data Structures and Algorithms (4)
Prerequisite: CS 202. Abstract data types and their use in constructing algorithms for manipulating lists, trees, and graphs; analysis of algorithms for searching, sorting, and data structure manipulation.

340 Assembly Language and Systems Programming (4)
Prerequisite: CS 240. Assembly language; addressing techniques; subroutines; macros; system input/output; interrupts and traps; assemblers; linkers; loaders; macroprocessors.

344 Combinatorial Logic and Design of Sequential Circuits (4)
Prerequisite: CS 201. Boolean algebra and design of combinational circuits; sequential logic and design of finite state machines; introduction to automata theory.

350 Object Oriented Programming (4)
Prerequisite: CS 202. Data abstraction; software development of interacting objects which embody their own operations; inheritance of object types; implementation in current programming languages.

358N Science and Controversy (4)
(also listed as BIOL 358N, CHEM 358N, PHYS 358N)
Prerequisite: GE natural science requirement. Scientific background of issues that affect public welfare, such as genetic technology, chemical pesticides, energy production and utilization, and artificial intelligence. No credit toward Biology, Chemistry, Computer Science, Mathematics, or Physics major.

370 Parallel and Distributed Programming (4)
Prerequisites: CS 202, 240. Parallel programming techniques; abstract models of hardware and operating systems to support parallel programs.

386 Introduction to Automata Theory (4)
Prerequisites: CS 202, 344; MATH 255; PHIL 250. Formal approach to automata theory; finite state machines, regular expressions, regular languages; develops mathematical foundation for computer science.

422 Principles of Data Base Systems (4)
Prerequisites: CS 312, 350, 370, 386. Data base system architecture; hierarchical, network, and relational data base systems; query facilities; data base security and integrity.

432 Programming Language Semantics (4)
Prerequisites: CS 312, 340, 350, 370, 386. An introduction to the operational semantics of programming languages. An examination of the important capabilities available in selected languages and the mechanisms needed to implement them.

434 User Interface Management System (4)
Prerequisites: CS 312, 350, 370, 386. Introduction to the use of user interface development and management systems in system development. Strategies for building intuitive user interfaces. Internal organization of user interface packages.

437 Software Engineering (4)
Prerequisites: CS 422, 434 and completion of the GWAR. Methodologies and tools for the specification, design, development, testing, evaluation, and maintenance of software systems. Students will be required to write substantial documentation, including system and user manuals.

440 Introduction to Operating Systems (4)
Prerequisites: CS 312, 340, 350, 370, 386. Resource, memory, and process management; concurrent processing; networking; distributed systems.

442 Advanced Operating Systems (4)
Prerequisite: CS 440. Asynchronous concurrent processes; mutual exclusion and deadlocks; virtual storage organization and management; multiprocessing; auxiliary storage management; performance measurement; operating systems security.

444 Computer Architecture (4)
Prerequisites: CS 432, 440. Integrated study of computer hardware, firmware, systems software, and applications software.

447 Computer Networks (4)
Prerequisites: CS 440; MATH 274. Overview of principles and concepts in computer networks and distributed systems; network structures, topology, architecture, and related software.

450 Computer Graphics (4)
Prerequisites: CS 312; MATH 255. Graphic input and display devices; graphics packages; two- and three-dimensional transformations; clipping and windowing; perspective; hidden-line and hidden-surface algorithms.
454  **Topics in Advanced Computer Science (1-4)**  
Prerequisites: As needed for specific topic. Current topics of special interest to students in computer science, as announced in Schedule of Classes. May be repeated for credit.

460  **Artificial Intelligence (4)**  
Prerequisite: CS 312. Knowledge representation; problem solving strategies and search algorithms; applications from such areas as theorem proving, expert systems, natural language processing, robotics, and pattern recognition.

461  **Machine Learning (4)**  
Prerequisite: CS 312. Means that enable computers to perform tasks for which they were not explicitly programmed; learning paradigms include inductive generalization for examples, genetic algorithms, and connectionist systems such as neural nets.

486  **Grammars, Languages, and Automata (4)**  
Prerequisites: CS 344, 386. Languages and automata, especially context-free and regular languages and their associated automata; applications to compilers; Turing machines and computability.

488  **Compilers (4)**  
Prerequisites: CS 312, 432, 486. Compiler construction; lexical analysis, including regular languages and finite-state acceptors; syntactic analysis, including parsing techniques and grammars; code generation and optimization.

499  **Undergraduate Directed Study (1-4)**  
Prerequisite: Consent of an instructor to act as sponsor. Project selected in conference with sponsor before registration; progress meetings held regularly, and a final report submitted. May be repeated for credit.

**Courses in Mathematics (MATH)**

*All prerequisites for the following MATH courses must have been completed within the past year: MATH 091, 100, 102, 103, 206, and 242. The ELM requirement must be met before enrollment in MATH 81, 90, 91, 100, 102, 103, 242. The ELM exam scores are good for one year for placement purposes.*

**Subcollegiate Courses**

081  **Intensive Learning Experience I (4)**  
Covers first two-thirds of MATH 090. Properties of ordinary arithmetic, integers, rational numbers, real numbers, linear equations. Graded ABC/NC. Open only to students with ELM score below 360. No credit toward baccalaureate.

082  **Intensive Learning Experience II (4)**  
Prerequisite: MATH 081. Covers last third of MATH 090 and first third of MATH 091. Linear equations, inequalities, system of equations, basic geometry, polynomials and functions. Open only to students with ELM score below 360. Graded A,B,C/NC. No credit toward baccalaureate.

083  **Intensive Learning Experience III (4)**  
Prerequisite: MATH 082. Covers last two-thirds of MATH 091. Fractional expressions and equations, exponents, quadratic equations, exponentials and logarithms. Graded A,B,C/NC. Open only to students with ELM score below 360. No credit toward baccalaureate.

090  **Preparatory Mathematics (4)**  
Prerequisite: Score of 470 or less on ELM. For students who are not prepared for college level mathematics. Fundamentals of arithmetic including percentages and decimals; introductory algebra including linear equations, quadratic equations, graphing; basic geometric formulas. Graded A,B,C/NC. Students with credit or two NC grades for this course may not enroll again. No credit toward baccalaureate.

091  **Intermediate Algebra (4)**  
*Prerequisite: MATH 090 or score of 480 or more on ELM. Fundamental skills necessary for mathematics beyond arithmetic; basic topics in algebra, including multiplication, division, and factorization of polynomials; solutions of equations and systems of equations, functions, exponents, and logarithms. Graded A,B,C/NC. Students with credit or two NC grades for this course may not enroll again. No credit toward baccalaureate.*

**Lower Division Courses**

100  **Introduction to College Mathematics (4)**  
*Prerequisites: Score of 550 or more on ELM; or MATH 091 with minimum C grade. Introduction to mathematical methods and reasoning, including: logic, combinatorics and probability, modular arithmetic, descriptive statistics, geometric topics, algorithms, elementary number theory, and sequences. No credit toward mathematics or computer science majors.*

102  **College Algebra (4)**  
*Prerequisites: Score of 550 or more on ELM; or MATH 091. Logarithmic and exponential functions; polynomial equations; permutations, combinations, and probability; sequences and series; matrices and determinants; mathematical induction. CAN MATH 10

103  **Algebra and Trigonometry (4)**  
*Prerequisites: Satisfactory score on (or exemption from) ELM; MATH 102 with minimum C grade or satisfactory score on placement examination. Trigonometric functions, identities, and equations; solution of triangles; inverse trigonometric functions; complex numbers, DeMoivre’s Theorem; parametric equations; polar coordinates. CAN MATH 8

120  **Mathematics for Elementary School Teachers (4)**  
*Prerequisite: MATH 100 with minimum C grade within past 3 years or satisfactory score on placement examination. Selected topics from elementary geometry, units of measurement, areas, volumes, approximate numbers, square roots.

206  **Calculus I: Differentiation (4)**  
*Prerequisites: Satisfactory score on (or exemption from) ELM; MATH 102 and 103, each with a minimum C grade or satisfactory score on placement examination. Functions, graphs, conics, limits, continuity and derivatives, anti-differentiation, and applications. MATH 206+207+208 = CAN MATH SEQ B MATH 206+207+208+209 = CAN MATH SEQ C

207  **Calculus II: Integration (4)**  
Prerequisite: MATH 206 with minimum C grade. The definite integral, Fundamental Theorem of the Calculus, transcendental functions, methods of integration, applications to physics and biology. MATH 206+207+208 = CAN MATH SEQ B MATH 206+207+208+209 = CAN MATH SEQ C

208  **Calculus III: Sequences, Series, and Coordinate Systems (4)**  
Prerequisite: MATH 207 with minimum C grade. Limits of sequences and series, indeterminate forms, Taylor Series, plane coordinate systems, and change of coordinates. MATH 206+207+208 = CAN MATH SEQ B MATH 206+207+208+209 = CAN MATH SEQ C
209 Calculus IV: Several Variables (4)
Prerequisite: MATH 208 with minimum C grade. Three-dimensional analytic geometry, partial differentiation, multiple integration, spherical and cylindrical coordinate systems, improper integrals. MATH 206+207+208+209 = CAN MATH SEQ C

215 Differential Equations (4)
Prerequisite: MATH 209. Ordinary differential equations with concentration on methods of finding solutions: applications in science and engineering. CAN MATH 24

230 Calculus for Biological Sciences (4)
Prerequisite: MATH 206. Integration, ordinary differential equations, difference equations, partial differentiation, applications to problems arising in biological sciences.

242 Mathematics for Business and Economics Majors (4)
*Prerequisites: Satisfactory score on (or exemption from) ELM; MATH 102 with minimum C grade or satisfactory score on placement examination. Differential calculus with applications; introduction to integral calculus. CAN MATH 34

254 Selected Topics in Mathematics (1-6)
Prerequisites: As needed for specific topic. Current topics of interest to students in mathematics, as announced in Schedule of Classes. May be repeated for credit.

255 Introduction to Matrix Theory (4)
Prerequisite: MATH 207. Vector spaces, linear transformations, linear equations, matrices, determinants, eigenvectors and eigenvalues, canonical forms. CAN MATH 26

274 introduction to Statistics (4)
Prerequisite: MATH 091. Statistical terms; interpretation of statistical data with and without use of probability, random sampling, confidence limits, and hypothesis tests. CAN STAT 2

Upper Division Courses

320 Selected Topics in History of Mathematics (4)
Prerequisite or corequisite: MATH 207. Traces development of fundamental concepts and techniques in fields of algebra, geometry, trigonometry, and calculus.

325 Mathematical Notation and Proof (4)
Prerequisite: MATH 206. Elementary set theory and number theory with emphasis on notation and types of proof. Axiomatic method, equivalence relations, e–δ arguments.

342 Advanced Mathematical Analysis for Business and Economics Majors (4)
Prerequisite: MATH 242. Advanced topics from integral and differential calculus; matrix theory; arithmetic and geometric progressions and mathematics of finance; difference equations.

384 Discrete Structures (4)
Prerequisite: MATH 255. Basic definitions and examples in logic, set theory, algebraic structures, and graph theory.

390 Technical Writing in Mathematics (2)
Prerequisites: MATH 325, satisfactory completion of the Graduation Writing Assessment Requirement (GWAR), concurrent enrollment in a 400-level MATH course (other than 402AB). Expository writing on mathematical topics selected by the instructor, including a technical report related to the 400-level course being taken concurrently.

401 Differential Equations (4)
Prerequisites: MATH 209, 255, 325. Ordinary differential equations with concentration on properties of solutions, including existence and uniqueness. Emphasis on theory as opposed to applications.

402A Advanced Mathematics I for Engineers and Physicists (4)
Prerequisite: MATH 215 or 401. Vector analysis to include line and surface integrals, orthogonal curvilinear coordinates, complex variables to include contour integration and conformal mapping. Laplace transformation.

402B Advanced Mathematics II for Engineers and Physicists (4)
Prerequisite: MATH 402A. Implicit functions and Jacobians, infinite series and integrals, differentiation of integrals; Taylor series for several variables; Fourier series and boundary value problems, special functions (Bessel, Legendre, error, elliptic), calculus of variations.

403 Partial Differential Equations (4)
Prerequisite: MATH 215 or 401. Orthogonal sets of functions. Fourier series and integrals, with applications to the equations of mathematical physics; first order equations, Cauchy’s method of characteristics.

410 Vector Analysis (4)
Prerequisite: MATH 209. Vector algebra and calculus, vector fields, gradient, divergence, curl, divergence theorem, Stokes' theorem, applications to geometry and mathematical physics.

411 Tensor Analysis (4)
Prerequisite: MATH 410. Contravariant and covariant vectors and tensors, tensor algebra, Riemannian geometry, the metric tensor, geodesics, Christoffel symbols, derivatives of tensors, physical components of tensors. Applications to mechanics and differential geometry.

420 Mathematical Logic (4)
Prerequisite: MATH 325. The statement calculus, the predicate calculus, mathematical structures, and the deduction of valid sequences; the completeness theorem.

430 Modern Geometry (4)
Prerequisite: MATH 208. Topics selected from advanced Euclidean geometry, non-Euclidean geometry, projective geometry. May be repeated once for credit with approval of instructor as subject matter changes.

435 Topology (4)
Prerequisite: MATH 325. Introduction to point set topology, including continuity, product spaces, compactness, Tyconoff theorem, connectedness, metric spaces, and Urysohn lemma.

446 Theory of Numbers (4)
Prerequisites: MATH 325, upper division standing. Divisibility, Euclidean algorithm, prime numbers, fundamental theorem of arithmetic, distribution of primes, congruences, Fermat-Euler and Wilson theorems, residues and quadratic reciprocity law. Bernoulli numbers, quadratic forms, Diophantine equations.

454 Selected Topics in Advanced Mathematics (1-6)
Prerequisites: As needed for specific topic. Current topics of interest to students in mathematics, as announced in Schedule of Classes. May be repeated for credit.
455 Modern Algebra I (4)
Prerequisites: MATH 255, 325. Groups and rings, including normal subgroups, quotient groups, ideals, quotient rings, group and ring homomorphisms, and isomorphisms.

456 Modern Algebra II (4)
Prerequisite: MATH 455. Additional topics in groups and rings, field extensions, modules.

457 Linear Algebra (4)
Prerequisite: MATH 455. Vector spaces over arbitrary fields, special types of linear transformations, eigenvalues and eigenvectors, canonical forms, scalar product spaces.

463 Introduction to Complex Analysis (4)
Prerequisite: MATH 465. Complex variables, analytic functions, complex integration, conformal mapping, applications.

465 Advanced Calculus I (4)
Prerequisites: MATH 209, 325. Real number system; topology of R^n including compactness and completeness; sequences and series, including limit inferior and limit superior and continuity.

466 Advanced Calculus II (4)
Prerequisite: MATH 465. Differentiation and integration of function of a real variable; sequences of functions.

467 Advanced Calculus III (4)
Prerequisites: MATH 255, 465. Functions of several variables; partial derivatives; generalized chain rule; inverse and implicit function theorems: line and surface integrals.

470 Numerical Analysis I (4)
Prerequisites: MATH 208, 225, facility in high-level programming language. Errors in floating point representation, nonlinear equations, systems of linear equations, polynomial interpolation, numerical integration and differentiation.

471 Numerical Analysis II (4)
Prerequisites: MATH 215, 470. Numerical solution of ordinary and partial differential equations, spline and least square approximation, fast Fourier transform.

472 Linear Programming (4)
Prerequisite: MATH 255. Geometric solutions, simplex method, the transportation problem, elementary game theory.

474 Theory of Probability (4)
Prerequisite: MATH 209. General probability spaces, random variables, joint distributions, random sampling, law of large numbers, normal, gamma, and binomial distribution.

475 Introduction to Mathematical Statistics (4)
Prerequisite: MATH 474. Estimation and tests of hypothesis, decision theory and Bayes solutions.

490 Senior Seminar in Mathematics (4)
Prerequisites: MATH 325, 390, 455. Varying topics in mathematics with technique and practice in written and oral exposition.

499 Undergraduate Directed Study (1-4)
Prerequisite: Consent of an instructor to act as a sponsor. Project selected in conference with sponsor before registration; progress meetings held regularly, and a final report submitted. May be repeated for credit.
School of Natural and Social Sciences

PROGRAM OFFICE
Department of Physics and Astronomy
Physical Sciences 315
(213) 343-2100

Programs offered under the heading of Natural Science emphasize the interrelationships among the several science disciplines. They are designed primarily for prospective teachers, but are also of value to anyone seeking a broad science background for a career in government or ecology. Two programs are offered: a Bachelor of Science degree, and the subject matter preparation for the Single Subject Teaching Credential in Science.

The Faculty

Instruction is provided by the faculties of all natural and physical science departments, i.e., Biology and Microbiology, Chemistry and Biochemistry, Geological Sciences, and Physics and Astronomy, as well as the Department of Mathematics and Computer Science and the Department of Geography and Urban Analysis. Advisement information is available from the Natural Science Coordinator.

Bachelor of Science Degree in Natural Science

The Bachelor of Science degree in Natural Science is designed primarily for students who are seeking a Single Subject teaching credential in Science. Students completing this degree will have simultaneously fulfilled the subject matter requirements for that credential. Total units for the degree depends on which option is chosen: 187 for Biology, 186 for Chemistry, and 188 for Geoscience or Physics.

High school preparation is recommended in physics, chemistry, geometry, trigonometry, and algebra (two years).

Students must earn a grade of C or higher in all courses used to meet major requirements.

Requirements for the Major (120-125 units)

Electives (8 units)

Take an additional 8 units of upper division electives selected with approval of adviser.

Upper Division Writing Requirement (3 units)

CHEM 360 Writing for Chemists (3)

Capstone Course (4 units)

NSS 495 Natural Science Field Studies (4)
• Geoscience Option (56 units)

Required courses (36 units)

- GEOG 410 Weather and Climate (4)
- GEOL 201 Elementary Mineralogy (6)
- GEOL 203 Introductory Petrology (2)
- GEOL 252 Historical Geology (4)
- GEOL 372 Computers in Geology (4)
- GEOL 321 Geology of Southern California (4)
- GEOL 350N Evolution of the Universe and Earth (4)
- GEOL 360 Geologic Mapping (4)
- GEOL 420N Geology of the National Parks (4)

Electives (12 units)
Upper division courses selected with approval of adviser.

Upper Division Writing Requirement (4 units)
Take one course as specified by the Department of Geological Sciences.

Capstone Course (4 units)
NSS 495 Natural Science Field Studies (4)

• Physics Option (55 units)

Required courses (19 units)

- MATH 208 Calculus III: Sequences, Series, and Coordinate Systems (4)
- MATH 209 Calculus IV: Several Variables (4)
- PHYS 204 General Physics (4)
- PHYS 205 General Physics (4)
- PHYS 306 Modern Physics (3)

Electives (28 units)
Upper division courses selected with approval of adviser. A minimum of 16 units must be in physics. At least one laboratory course must be included.

Upper Division Writing Requirement (4 units)
Take one course as specified by the Department of Physics and Astronomy.

Capstone Course (4 units)
NSS 495 Natural Science Field Studies (4)

The Credential Program

The following program has been approved by the California Commission on Teacher Credentialing as satisfying the subject matter requirements of the Single Subject Teaching Credential in Science. Students should consult both the coordinator, through the Department of Physics and Astronomy, and a credential adviser in the Charter School of Education. Refer to the Undergraduate chapter of this catalog for regulations governing all teaching credential programs.

Single Subject Credential in Natural Science

Core Requirements (64-66 units)
Same as core requirements for the Bachelor of Science Degree in Natural Science.

Capstone Course (4 units)
NSS 495 Natural Science Field Studies (4)

Select one option.

Biology Option (36 units)

Required Courses (24 units)

- BIOL 302 Biometrics (4)
- BIOL 315 General Genetics (4)
- BIOL 330 Cell Biology (4)
- BIOL 360 General Ecology (4)
- CHEM 301A Organic Chemistry (3)
- MICR 200A General Microbiology (5)

Electives (12 units)
Upper division courses selected with approval of adviser.

Chemistry Option (38 units)

- CHEM 201 Quantitative Analysis (5)
- CHEM 301A Organic Chemistry (3)
- CHEM 301B Organic Chemistry (3)
- CHEM 301C Organic Chemistry (3)
- CHEM 302A Organic Chemistry Laboratory (2)
- CHEM 302B Organic Chemistry Laboratory (2)
- CHEM 411 Fundamentals of Physical Chemistry (4)
- CHEM 435 Introduction to Biochemistry (4)
- MATH 208 Calculus III: Sequences, Series, and Coordinate Systems (4)

Electives (8 units)
Courses selected with approval of adviser. For students pursuing the B.S. degree in Natural Science, these should be upper division courses.

Geoscience Option (36 units)

- GEOG 410 Weather and Climate (4)
- GEOL 201 Elementary Mineralogy (6)
- GEOL 203 Introductory Petrology (2)
- GEOL 252 Historical Geology (4)
- GEOL 372 Computers in Geology (4)
- GEOL 321 Geology of Southern California (4)
- GEOL 360 Geologic Mapping (4)

Electives (8 units)
Take upper division courses with adviser approval.

Physics Option (31 units)

- MATH 208 Calculus III: Sequences, Series, and Coordinate Systems (4)
- MATH 209 Calculus IV: Several Variables (4)
- PHYS 204 General Physics (4)
- PHYS 205 General Physics (4)
- PHYS 306 Modern Physics (3)

Electives (12 units)
Upper division courses selected with approval of adviser.

Course in Natural and Social Sciences (NSS)

Upper Division Course

495 Natural Science Field Studies (4)
Prerequisites: Completion of Natural Science core requirements and adviser approval. Interdisciplinary application of the concepts of science to field and laboratory studies of the physical and biological environments. Lecture 2 hours, Laboratory 6 hours.
PAN-AFRICAN STUDIES

School of Natural and Social Sciences

DEPARTMENT OFFICE
King Hall C3095
Phone: (213) 343-2290

Pan-African Studies, as an interdisciplinary field of study, encompasses the systematic investigation of the history, culture, political economy, literature, arts, and languages of peoples of African descent and their contribution to world civilization. It reflects the experiences of a significant portion of the world's population and constitutes the cumulative results of several thousand years of intellectual history and development.

Interdisciplinary programs in Pan-African Studies prepare students for professional careers in teaching, public service, international relations, social work, law, and community development. The department has established an internship program that places students in local government offices to increase their exposure to and knowledge of local affairs. The Bachelor of Arts degree in Afro-American Studies is described below. In collaboration with the Charter School of Education, Pan-African Studies shares responsibility for the Afro-American option in the Bilingual/Crosscultural Specialist credential and the Master of Arts degree in Urban Education. Both programs are described in the Graduate Programs (Charter School of Education) section.

The Faculty

Professor: Aida Takla O'Reilly (Chair).
Associate Professor: Jonathan Nwomonoh.

Bachelor of Arts Degree in Afro-American Studies

Three options are offered in this major. The first two focus on different geographical regions of the world, and the third is designed specifically for students interested in examination waiver for the Multiple Subject credential.

Requirements for the Major (76-123 units)

Options I and II combine core and elective programs of 76 units. Option I has a core of 60 units and 16 units of electives; Option II has a core of 52 units and 24 units of electives. Option III requires 146-151 units in a prescribed pattern of courses in general education and Pan-African Studies and related fields.

- Option I: Afro-American Studies (76 units)

Option I provides systematic study and research in Afro-American history, culture, and political economy to prepare students for graduate work and for careers in teaching, social work, law, community development, business, and related public service fields.

Lower Division Required Courses (20 units)
PAS 101, 250AB, 251AB

Upper Division Required Courses (40 units)
PAS 400, 402, 403, 412, 414, 420, 440, 441, 495
ENGL 308 or 406
Electives (select 16 units in PAS and related fields)

(related fields limited to two courses)
PAS 260, 401, 404, 410, 416, 421, 422, 424, 425, 432, 482, 484, 486, 490
CHS 430 GEOG 446

MUS 452 SPCH 489

- Option II: African, Caribbean, and Afro/Latin American Studies (76 units)

This option combines an integrative multidisciplinary course of concentrated study and research focused on the history, cultures, political economy, international relations, and development of Africa, the Caribbean, and Afro/Latin America. Emphasis on the development of research and technical skills is stressed to prepare students for graduate study and for professional careers in public service, international relations and business, overseas employment, and research and technical assistance programs.

Lower Division Required Courses (20 units)
PAS 101, 250AB, 251A or 251B
HIST/PAS 253

Upper Division Required Courses (40 units)
ECON 460 or ECON/POLS 426
ENGL 308 or 406 LAS/PAS 442, 460
PAS 403, 414, 416, 480, 495 PAS/POLS 456

Electives (16 units)
Select four courses from the following fields:
PAS 260, 402, 410, 412, 416, 441, 432, 482, 484, 486
FIN 431 GEOG 427,433
HIST 414AB, 415, 416, 463, 465
HS 463 LAS 424
MKT 457 POLS 451,453

Select one course from:
ANTH 413 ART 481
LAS 435 MUS 458
PAS 125, 423, 428 SPCH 489

Option III: Multiple Subject Teaching Option
(146-151 units)

Students who select this option complete a separate core which is common to all Multiple Subject teaching options. That common core contains 106-111 units and is described in the Undergraduate Study chapter. In addition to the core, the 68 units listed below are required in the option. Refer to the undergraduate Charter School of Education chapter of this catalog for regulations governing all teaching credential programs.

Required Courses (106-111 units)
Refer to Undergraduate Study chapter of this catalog.

Major Courses (20 units)
PAS 101 Introduction to Pan-African Studies (4)
PAS 251A or 251B Afro-American History (4)
PAS 403 Afro-American Social Thought (4)
PAS 414 Geography of Black Community (4)
PAS 495 Senior Thesis (4)

Literature (Pan-African Depth Area) (20 units)
ENGL 377 Black American Literature (4)
PAS 422 Themes in Black Literature (4)
PAS 423 Caribbean Literature (4)
PAS 426 African Literature (4)
PAS 427 Institutional Racism: Black Response in Literature (4)
Electives (28 units)

Professional education courses are recommended. See a credential adviser in the Charter School of Education.

GENERAL EDUCATION UPPER DIVISION THEME (12 units)

Select one general education upper division theme and complete one course in each of the three areas within that theme. Theme courses are not part of the major but are included in credential requirements.

Minor in Pan-African Studies

The Department of Pan-African Studies offers a minor with options in Afro-American Political Economy and Development and Pan-African Fine Arts. The minor consists of a combined core and elective program of 24 units.

Requirements for the Minor (24 units)

Lower Division (4 units)

PAS 101

Upper Division Options (20 units)

In addition to the lower division requirement above, each student must select one of the two option programs below.

- Option I: Afro-American Political Economy and Development
  Select five courses from following:
  PAS 401-403, 410, 412, 416, 440, 441, 480, 482, 484, 486, 490
  LAS/PAS 442, 460

- Option II: Pan-African Fine Arts
  Select five courses from following:
  PAS 410, 420-425, 428, 482, 484, 486, 490

The Credential Program

The Bachelor of Arts degree in Afro-American Studies with the Multiple Subject credential option satisfies the subject matter requirements for the Multiple Subject credential. For detailed information regarding this credential, students should consult advisers in the department and in the Charter School of Education. Refer to the Charter School of Education chapters of this catalog for regulations governing all credential programs.

Courses in Pan-African Studies (PAS)

Lower Division Courses

100 Introduction to College Environment (4)
(also listed as CHS 100)
Introduction to institution of higher education and its particular relationship to minority/Third World students. This course is designed especially for EOP students. Graded CR/NC.

101 Introduction to Pan-African Studies (4)
A general overview of Pan-African studies.

125 Elementary Conversational African Language (4)
Methodical presentation of structure of particular African language through hearing, speaking, reading, and writing the language. May be repeated to maximum of 12 units as language offered changes.

250AB African History (4, 4)
Major themes of African history from origin of black peoples and traditional African civilization to institutional realities of Africa today.

251AB Afro-American History (4, 4)
History of Afro-Americans in the U.S.

253 Caribbean History (4) (also listed as HIST 253)
Caribbean history and development including history of indigenous peoples, European colonialism, slavery, resistance, and independence. Includes Spanish-, English-, French-, and Dutch-speaking Caribbean islands.

254 Special Topics in Pan-African Studies (14)
Prerequisite: As needed for specific topic. Current topics of special interest to students in Pan-African Studies, as announced in Schedule of Classes. May be repeated to maximum of 8 units as subject matter changes.

260 Third World Images in Film (4)

Upper Division Courses

395 Service in Black Community (1-4)
Prerequisites: Approval by department faculty adviser in consultation with EPIC Director, acceptance by community agency. Participation in work of community agency or activity utilizing professional and/or vocational skills in service to community. Graded CR/NC. Credit toward baccalaureate limited to 4 units.

400 The Social Psychology of Afro-Americans (4)
Prerequisite: PAS 101 or PSY 150. Social and psychological determinants of Afro-American behavior; emphasis on attitude and identity formation and interpersonal/intercultural relations.

401 Education and Afro-Americans (4)
Prerequisite: PAS 101. Documented studies of the black child in various American school systems: investigation of primary factors in significantly lower performance ratings of black children.

402 Black Political Economy (4)
American capitalism and its formative influence on the life of Afro-Americans; emphasis on the organization of production and distribution, social relations, and economic inequality.

403 Afro-American Social Thought (4)
Recommended prerequisite: SOC 201. Historical and analytical consideration of contributions of Afro-American social thought to development and analysis of the black protest.

404 The Black Family (4)
Structure, functions, lineal analysis of Afro-American family and its African origin; condition of black family during slavery, Reconstruction, post-Reconstruction, wars, the Great Depression, economic boom and recession, and black revolution.

410 Black Political Reality (4)
Prerequisite: PAS 101. U.S. black political development, Reconstruction to present; evolution of U.S. black political activity.

412 Third World Women and Development (4)
Prerequisites: Upper division standing; ANTH 250 recommended. The status and role of Third World women in societal development with primary emphasis on black women in developing counties.

414 Geography of Black Community (4)
Prerequisite: PAS 101. Locational experience of black people and their environmental relationship to economic and political institutions of the American nation.
295 / PAN-AFRICAN STUDIES

416 Pan Africanism and World Politics (4)
Prerequisite: PAS 101. The interplay of Pan-Africanism as a cultural and sociopolitical movement in world politics.

420 Afro-American Culture (4)
Prerequisite: PAS 101. Exploration of existence of Africanisms, retentions, and syncretisms in the New World and their relationship to contemporary events and society.

421 History of Afro-American Music (4)
Prerequisite: PAS 101. Historical and stylistic development of black music from ancient Africa to present. Assessment of black musicians who have shaped musical climate of America.

422 Themes in Black Literature (4)
Prerequisite: PAS 101. Analysis and discussion of representative works of black authors from eighteenth century to present.

423 Caribbean Literature (4)
Early imitative Caribbean literature, its evolution into authentic original and individual expression of self; contemporary Caribbean writers, emphasis upon poetry, novels, and plays of Aime Cesaire.

424 Black Music Industry (4)
Creative and business aspects of black music industry. Role of blacks in creation of original American musical forms, in establishing music publishing industry, and in founding ASCAP.

425 Black Dialect (4)
Prerequisite: PAS 101. Historical development and understanding of black dialect from its African past to Afro-American idiom.

426 African Literature (4)
(also listed as ENGL 426)
Prerequisite: ENGL 250. African literature and its cultural background. Intensive study of writers in English and others in translation. Critical compositions and reports required.

427 Institutional Racism: Black Response in Literature (4)
Prerequisite: ENGL 250. Examination of institutional racism in the U.S. through analysis of folk tales, poetry, prose, short stories, novels, newspapers, and other materials.

428 Proseminar: Influence of Afro-American on France-African Literature (4)
Exploration of concept of negritude as authentic original literary movement, factors that influence it, and reactions it created.

432 Comparative Systems of Slavery in Western Hemisphere (4)
Prerequisite: PAS 101. Discussion and study of comparative systems of slavery in the western hemisphere with a critical analysis of effects of European imperialism, reaction to colonial rule, and birth of Nationalism.

440 Community Power Structure Analysis (4)
Prerequisite: PAS 101. Study of the key institutions that compose the power structure in the Afro-American community.

441 Community Power Structure Field Research (4)
Prerequisite: PAS 101; PAS 440 recommended. Supervised intensive study and field research in selected black and other Third World communities.

442 Cultural Impact of Third World Development (4)
(also listed as LAS 442)
The development process in the Third World as it affects and is affected by art and intellectual life.

456 Politics of the Caribbean and Central America (4)
(also listed as POLS 456)
Prerequisite: POLS 150. Political development and dependency in the Caribbean and Central America.

460 Dynamics of Social Change in the Third World (4)
(also listed as LAS 460)
Processes and development of social change in the Third World and their relevance to the U.S.

480 Education and Development in Africa (4)
Prerequisite: Upper division standing. Study of the educational systems in Africa with emphasis on the social, economic, and political factors influencing educational objectives and strategies.

482 Black Participation in Electoral/Arena (4)
Effect of urban restructuring on blacks and other poor minorities in cities and how physical changes transformed political participation.

484 Black Participation: Problems and Cases (4)
Black participation in electoral policies with emphasis on relationship between grass roots activism and public policy development; selected guest speakers constitute the core of this course.

486 Urban Participation: Field and Cases (4)
Prerequisite: PAS 482 or 484. Placement in local government agency or other research facility to correspond with students’ PAS 482 and/or 484 research project specified by field supervisor with faculty adviser approval.

490 Special Topics in Pan-African Studies (4)
Prerequisite: Instructor consent. Presentation and discussion of academic papers relating to given topic; lectures aimed at critical analysis and appraisal. May be repeated once for credit.

495 Senior Thesis (4)
Prerequisites: ENGL 102*; LBS 360; passing WPE score; senior standing. Individual project/senior thesis involving research techniques in Pan African Studies, including problem identification, hypothesis formulation, design and data gathering and analysis.

496 Undergraduate Directed Study (14)
Prerequisites: Minimum of 8 units in Pan-African Studies, 3.0 grade point average, senior or graduate standing, consent of full-time faculty member to serve as sponsor, and recommendation of department chairperson. Term project selected in conference with sponsor, progress meetings held regularly, final report required. May be repeated to maximum of 8 units.
PHYSICS AND ASTRONOMY

School of Natural and Social Sciences

DEPARTMENT OFFICE
Physical Sciences 315
Phone: (213) 343-2100

The Department of Physics and Astronomy offers undergraduate and graduate programs in physics, with opportunities for professional preparation in a variety of directions, including nuclear physics, condensed matter physics, astronomy, and biophysics.

Undergraduate programs include one leading to the Bachelor of Science degree, and one leading to the Bachelor of Arts degree, and a minor in Physics for students majoring in other fields. The Bachelor of Science curricula include the general program without specialization and an option in Biophysics. The department also offers courses in astronomy that may be included as electives in a baccalaureate program and participates in the interdisciplinary Bachelor of Science degree program in Physical Science.

The Master of Science degree is described in the Graduate Programs section.

The Faculty

Emeriti: Roland L. Carpenter, Bruce Dayton, Donald E. Hudson, Fernando B. Moringo, Frieda A. Stahl, Hubert C. Winkler.

Associate Professor: José P. Rodriguez.

Assistant Professors: Oscar O. Bernal, Milan B. Mijic.

Departmental Honors Program

The Department of Physics and Astronomy offers an honors program for qualified students. Students may apply in their junior year after completing PHYS 201-205. Candidates must have a B (3.0) grade point average both in their major and overall. Honors students have the option of taking up to three 500-level courses for undergraduate credit toward the bachelor’s degree. They also may substitute major courses for required general education courses. Completion of the honors program requires 3 units of independent, research-oriented study (PHYS 396) and presentation of the work in a colloquium. Graduation with honors in Physics is conferred upon those students whom the faculty of the department deem worthy after presentation of the colloquium. Diplomas and transcripts of honors program graduates are designated: “Graduated with Departmental Honors in Physics.”

Bachelor of Arts Degree in Physics

The Bachelor of Arts degree in Physics provides a program appropriate for students interested in such careers as teaching, public service, business, or science journalism. This program does not include the advanced study needed by students who wish to prepare for careers as physicists, but provides the breadth needed for many other innovative and challenging occupations.

Requirements for the Major (95 units)

The major includes 95 units, 55 in lower division and 40 in upper division courses, with a total of 186 units required for the degree. Students must earn a grade of C or higher in all courses used to meet major requirements.

Lower Division Required Courses (55 units)

Upper Division Electives (select 20-30 units in upper division physics courses with approval of adviser)

Additional Electives (select 4-14 units in science or science related courses with adviser approval)

Bachelor of Science Degree in Physics

The Bachelor of Science degree, which requires a total of 187 units, may be used as preparation for graduate work or as a qualifying degree for professional employment. Selection of electives in astronomy provides substantial background for students planning graduate study in that field.

Programs in physics are built on a foundation of high school studies in mathematics and physical sciences. For completion of a Bachelor of Science degree program in 12 quarters, high school preparation is recommended in physics, chemistry, geometry, trigonometry, and algebra (two years).

In planning their university programs, students who wish to prepare for graduate study in physics are advised to include 12 units of French, German, or Russian, a portion of which will earn general education credit. Student participation in research is strongly encouraged.

General Program

Requirements for the Major (115 units)

The major consists of 115 units in physics and related fields, of which 51 are in lower division and 64 in upper division courses. Students must earn a grade of C or higher in all courses used to meet major requirements.

Lower Division Required Courses (51 units)

Option in Biophysics

The Bachelor of Science degree in Physics, Biophysics option, may be used as preparation for graduate work in biophysics or as a degree for professional employment.

Requirements for the Major (124 units)

The major with this option consists of 124 units in physics, biology, and related fields, of which 69 are in lower division and 48 in upper division courses. Students must earn a grade of C or higher in all courses used to meet major and option requirements.

Lower Division Required Courses (69 units)

PHYS 201-205 General Physics (4 each)
BIOL 101, 102 Principles of Biology I, II (5, 5)
CHEM 101, 102, 103 General Chemistry I (5, 5, 5)
MATH 206-209 Calculus I-IV (4 each)
MICR 200AB General Microbiology (5, 3)

Upper Division Required Courses (48 units)

PHYS 306 Modern Physics (3)
PHYS 312 Basic Electronics (4)
PHYS 410AB Mathematical Methods of Physics (4)
PHYS 432A Introductory Quantum Mechanics (3)
PHYS 443AB Biophysics (3, 2)
CHEM 301ABC Organic Chemistry (3, 3, 3)
CHEM 401 Physical Chemistry I (4)
CHEM 402 or 403 Physical Chemistry II or III (4)
CHEM 431AB Biochemistry (3, 3)
CHEM 360 Writing for Chemists (3)

Electives (4 units)

Select courses in physics or chemistry, with adviser approval.

Minor in Physics

A Physics minor, available for students majoring in other fields, requires 59 units in physics and mathematics, of which 40 are in lower division and 19 in upper division courses. Students majoring in fields that require the same courses as those required for the Physics minor need take only those courses in the minor that are not incorporated into their major.

Requirements for the Minor (59 units)

Lower Division Required Courses (40 units)

PHYS 201-205 General Physics (4 each)
MATH 206-209 Calculus I-IV (4 each)
MATH 215 Differential Equations (4)

Upper Division Required Courses (3 units)

PHYS 306 Modern Physics (3)

Upper Division Electives (16 units)

Select physics courses with adviser approval.

The Credential Program

The Department of Physics and Astronomy administers the interdisciplinary Bachelor of Science degree in Natural Science which is approved by the California Commission on Teacher Credentialing for the Single Subject credential in Science. The program is described earlier in this chapter. In addition, the department offers the supplementary authorization in physics, described below, for holders of a Single Subject teaching credential in another field. Interested students should contact advisers in both the department and the Charter School of Education. Refer to the undergraduate Charter School of Education chapter for regulations governing all credential programs.

Supplementary Authorization for Single Subject Teaching Credential (32 units)

Holders of a Single Subject teaching credential issued by the state of California may supplement that credential with an authorization in physics for teaching physics at any grade level through grade 12 or in classes organized primarily for adults by completing the following program with a grade of C or higher in each course. The course work must include one year sequence of courses in at least two of the subject areas. At least one of the courses must include a laboratory component. For other requirements governing issuance of this authorization, consult the Charter School of Education.

Complete or demonstrate proficiency in the following (32 units):

PHYS 201-205 General Physics (4 each)
MATH 206 Calculus I (Calculus and Analytic Geometry) (4)
MATH 207 Calculus II (4)

In addition to the above courses, an astronomy course-such as ASTR 151 or 152 is strongly recommended.

Courses in Astronomy (ASTR)

Lower Division Courses

151 Principles of Astronomy (3)
Recommended corequisite: ASTR 152. Nonmathematical survey of modern astronomy, primarily for nonmajors in science. Properties and evolution of solar system, stars, and universe.

152 Principles of Astronomy: Laboratory (1)
Prerequisite or corequisite: ASTR 151. Laboratory and field trips designed to complement ASTR 151 lecture. Laboratory 3 hours.

160 Black Holes and the Universe (3)
Prerequisite: ASTR 151. Nonmathematical review of black holes and the universe. Concepts of space, time, and gravitation developed. Course develops an intuitive grasp of Einstein’s theory of relativity.

Upper Division Courses

311 Elements of Modern Astronomy (3)
(See PHYS 311 for course description.)

411 Introduction to Astrophysics (3)
(See PHYS 411 for course description.)

488 Modern Topics in General Relativity (3)
(See PHYS 488 for course description.)

Courses in Physics (PHYS)

Lower Division Courses

101-103 Physics (4 each)
Fundamental treatment of physics without use of calculus. Required for biological science majors; recommended for behavioral science majors. Biologists planning graduate work may find the 201, 205, 306 or 121-123 series in physics with calculus better suited to their needs. Lecture 3 hours, laboratory 3 hours for each course. PHYS 101-103 = CAN PHYS SEQ A

101: Prerequisite: Knowledge of elementary algebra and trigonometry. Mechanics of particles, rigid bodies; gravity; simple harmonic motion.

102: Prerequisite: PHYS 101. Waves, sound, fluids, thermal physics, kinetic theory, electrostatics.
103: Prerequisite: PHYS 102. Electricity and magnetism, light and optics, relativity, quanta, atoms, nuclei, and fundamental particles.

121-123 Physics (with Calculus) (4 each)
Alternative series to PHYS 101-103; same topics presented with use of calculus. Recommended for biological science majors. Lecture 3 hours, laboratory 3 hours in common sections with 101, 102, 103.

121: Prerequisite: MATH 206. Mechanics of particles, rigid bodies, and fluids; gravity; simple harmonic motion.

122: Prerequisites: PHYS 121; MATH 207. Waves, sound, thermal physics, kinetic theory, electrostatics.

123: Prerequisite: PHYS 122; MATH 208 recommended. Electricity and magnetism; light and optics; relativity; quanta; atoms; nuclei; and fundamental particles.

150 Principles of Physics (4)
Prerequisite: Ability to use simple algebraic equations. Introductory course, not for science or engineering majors. Basic concepts of mechanics, sound, heat, electricity, light, relativity, atomic and nuclear structure. Lecture 3 hours, laboratory 3 hours.

150P Physics Recitation (1)
Recitation for Physics 150 with emphasis on techniques of problem solving. Graded CR/NC.

154L,P Selected Topics in Physics (1-6)
Prerequisite: Specific prerequisites announced in Schedule of Classes. Topics of current interest in physics and astronomy, as announced in Schedule of Classes; relevance of physics in solving problems of modern technological society.

155 Nature of Physical World (4)
Primarily for nonmajors in science. Concepts of physics illustrated through everyday phenomena. Topics include mechanical forces, fluids, heat, waves, nuclear theory, radiation, and energy in operation of living and nonliving systems.

180 Nature of Physical Science (4)
Interdisciplinary approach to basic concepts in chemistry, geology, and physics as they relate to the earth's physical environment; each topic illustrated by lecture-demonstrations.

198 General Physics Laboratory (1)
Prerequisites: Approval of the Physics Chair and student's major adviser. Provides registration mechanism for transfer students who require lower division laboratory to complete requirements for lower division physics course.

201-205 General Physics (4 each)
Two-year sequence for physical science and engineering majors, using calculus. Lecture 3 hours, laboratory 3 hours.

201: Prerequisites: High school physics or permission of department; MATH 206 (may be taken concurrently). Vectors, mechanics of particles and rigid bodies, basic conservation laws of mechanics.

201P: Physics Recitation (1)
Prerequisite: Concurrent registration in PHYS 201. Recitation for PHYS 201 with emphasis on techniques of problem solving. Graded CR/NC.

202: Prerequisites: PHYS 201; prerequisite or corequisite: MATH 207. Mechanical vibrations and sound, elementary thermodynamics.

202P: Physics Recitation (1)
Prerequisite: Concurrent registration in PHYS 202. Recitation for PHYS 202 with emphasis on techniques of problem solving. Graded CR/NC.

203: Prerequisites: PHYS 202. Prerequisite or corequisite: MATH 208. Elementary field theory, basic electricity and magnetism, DC and AC circuits.

203P: Physics Recitation
Prerequisite: Concurrent registration in PHYS 203. Recitation for PHYS 203 with emphasis on techniques of problem solving. Graded CR/NC.

204: Prerequisites: PHYS 203. Prerequisite or corequisite: MATH 209. Continuation of electricity and magnetism including oscillations and waves; geometrical and physical optics.

204P Physics Recitation (1)
Prerequisite: Concurrent registration in PHYS 204. Recitation for PHYS 204 with emphasis on techniques of problem solving. Graded CR/NC.

205: Prerequisites: PHYS 204; prerequisite or corequisite: MATH 209. Topics in modern physics including special relativity, elementary quantum physics, atomic theory, Schrödinger's equation.

Upper Division Courses

306 Modern Physics (3)
Prerequisite: PHYS 205. Elementary quantum mechanics and its applications to atoms, molecules, nuclei, particle physics and solid state physics.

311 Elements of Modern Astronomy (3)
(also listed as ASTR 311)
Prerequisite: PHYS 205. Survey of modern astronomy, designed for students majoring in physical sciences, engineering, or mathematics.

312 Basic Electronics (4)
Prerequisite: PHYS 204. AC and DC circuits, solid-state circuits and devices, feedback, operational amplifiers. Lecture 3 hours, laboratory 3 hours.

313 Digital Electronics (4)
Prerequisite: PHYS 312. Design and use of pulse circuits and digital logic circuits. Fundamentals of computer design and computer programming. Lecture 3 hours, laboratory 3 hours.

333 Applied Modern Physics (4)
Prerequisites: MATH 215, PHYS 204. Selected topics in modern physics of solids including special relativity, wave mechanics, photons, phonons, applications to lasers, semiconductors, and other devices.

350N Evolution of Universe and Earth (4)
(also listed as GEOL 350N)
Prerequisite: GE natural science requirement. Origin and evolution of the universe, elements, stars, sun, the Earth, and life upon it.

351N Introductory Medical Physics and Instrumentation (4)
Prerequisite: CHEM 151. Elementary electricity, heat, sound, wave motion, as applied to examples in human physiological phenomena and in biomedical instruments. Physical principles and operation of transducers, amplifiers, recorders, and selected biomedical instruments. Lecture 3 hours, laboratory 3 hours.
358N Science and Controversy (4)
(also listed as BIOL 358N, CS 358N, and CHEM 358N)
Prerequisite: GE natural science requirement. Scientific background of issues that affect public welfare, such as genetic technology, chemical pesticides, energy production and utilization, and artificial intelligence. No credit toward Biology, Chemistry, Computer Science, or Physics major.

363 The Creative Process in Physics (4)
Prerequisite: GE natural science requirement. The creative process in physics past and present. Individual achievements from Galileo to modern times, both experimental and theoretical; examination of how large scientific groups work; implications for future research.

396 Honors Studies in Physics (3)
Prerequisite: Admission to departmental honors program. Study leading to colloquium presentation required for conferment of Bachelor of Science degree with Departmental Honors in Physics.

410AB Mathematical Methods of Physics (4, 4)
Prerequisites: PHYS 204; MATH 209. Vector calculus, integration, series, complex variables, special functions, boundary value problems, calculus of variations. Emphasis on mathematical solution of problems in physics.

411 Introduction to Astrophysics (3)
(also listed as ASTR 411)
Prerequisites: PHYS 306; PHYS 311 recommended. Celestial mechanics, stellar interiors, atmospheres, and evolution; introductory cosmology.

412 Laboratory Applications of Minicomputers and Microcomputers (4)
Prerequisite: PHYS 313 strongly recommended. The use of minicomputers and microcomputers in physics laboratories and research. Fundamentals of data acquisition, interfacing, and data display. Lecture 2 hours, laboratory 6 hours.

420 Physics Computing (3)
Prerequisites: PHYS 410A and some programming experience recommended. Introduction to the use of computers in Physics. The use of numerical recipes and symbolic manipulation programs for the solution of scientific problems. Lecture 2 hours, laboratory 3 hours.

425AB Introduction to Theoretical Physics (4, 4)
Prerequisites: PHYS 205, 410A. Application of mathematics to solutions of problems in physics with emphasis on general area of mechanics; Newtonian, Lagrangian, and Hamiltonian mechanics, field theory, special relativity.

426AB Electricity and Magnetism (3, 3)
Prerequisites: PHYS 205, 410A. Theoretical electricity and magnetism; properties of electric and magnetic fields, electromagnetic waves; emphasis on mathematical solution of problems.

427 Thermodynamics (4)
Prerequisites: PHYS 205, MATH 209. Corequisite: 410A. Introduction to thermodynamics and statistical physics; emphasis on mathematical solution of problems.

428 Statistical Physics (3)
Prerequisite: PHYS 427. Introduction to statistical mechanics, transport phenomena, fluctuations; emphasis on mathematical solution of problems.

431 Modern Optics (4)
Prerequisites or corequisites: PHYS 205, 410AB; recommended corequisite: PHYS 471. Introduction to modern optics; geometric optics by matrix methods, partial polarization, coherence, diffraction, quantum optics, and developments in laser technology.

432AB Introductory Quantum Mechanics (3, 3)
Prerequisites: PHYS 306, 410A. Introduction to quantum mechanics with applications; emphasis on mathematical solution of problems.

432A: Fundamentals of wave mechanics, wave packets, and the uncertainty principle. Schrödinger’s equation, operators and eigenfunctions, one-dimensional problems.

432B: Central potentials, spectroscopy, spin and angular momentum, symmetry and conservation laws.

433 Solid State Physics (4)
Prerequisites: PHYS 306; 427 recommended. Crystal structure, thermal and electrical behavior of insulators, metals, and semiconductors; band theory.

434 Solid State Physics II (4)
Prerequisites: PHYS 432A; 427, 433 recommended. Fermi surface, transport theory, superconductivity, magnetic resonance, optical properties, superfluidity, ion implantation.

443AB Biophysics (3, 2)
Prerequisites: Lower division biophysics or biochemistry program; CHEM 401 or PHYS 427.

443A: Physical aspects of living state. Lecture 3 hours.
443B: Theory of physical methods used in measurement of biological processes. Lecture 2 hours.

444 Nuclear Physics (4)
Prerequisite: PHYS 306. Nuclear phenomenology; alpha, beta, and gamma decays; nuclear reactions, nuclear energy, radiation detectors; radioactivity.

470 Advanced Physics Laboratory I (3)
Prerequisites: PHYS 306, 312. Instrumentation, techniques, and analytical evaluation involved in current experimental practice; basic experiments in vacuum techniques, and in classical, solid-state, and nuclear physics. Lecture 1 hour, laboratory 6 hours.

471 Advanced Physics Laboratory II (3)
Prerequisite: PHYS 470. Further advanced laboratory experience in contemporary fields. Experiments in nuclear physics, solid-state physics, cryogenics, optics, laser physics, spectroscopy, and related topics, as selected by instructor. Lecture 1 hour, laboratory 6 hours. May be repeated for a maximum of 9 units.

488 Modern Topics in General Relativity (3)
(also listed as ASTR 488)
Prerequisites: PHYS 410AB; 425AB strongly recommended. Introduction to basic ideas of general relativity: physics of spacetime, relativistic stars, gravitational collapse and black holes, gravitational waves, testing of general relativity.

491 Topics in Contemporary Experimental Physics (3)
Prerequisites: Upper division or graduate standing in physics; others as listed in department announcement. Each section of course is a lecture series designed to present current developments in research; laboratory program may be included. Specific topics listed in Schedule of Classes and in department. May be repeated for credit.
492 Topics in Contemporary Theoretical Physics (3)
Prerequisites: Upper division or graduate standing in Physics; others as listed in department announcement. Each section of course is a lecture series designed to present current developments in theory. Specific topic listed in Schedule of Classes and in department. May be repeated for credit.

497 Undergraduate Research (1-4)
Prerequisite: Consent of faculty sponsor prior to registration. Laboratory work organized on a project basis open to a limited number of qualified physics majors each year. Emphasis on developing experimental ability and initiative of the student. May be repeated for credit.

499 Undergraduate Directed Study (1-4)
Prerequisites: Consent of faculty sponsor before registration and ability to work independently. Includes regular conferences with sponsor and preparation of a report. May be repeated for credit.
POLITICAL SCIENCE

School of Natural and Social Sciences

DEPARTMENT OFFICE
Engineering and Technology A523
Phone: (213) 343-2230

The Department of Political Science offers undergraduate and graduate degree programs to prepare students for professional careers in public service, law, international relations, and teaching, and for more effective civic participation. The undergraduate program is described below. The Master of Arts degree in Political Science and the Master of Science degree in Public Administration are described in the Graduate Programs section.

The Faculty

Associate Professors: Nadine S. Koch, Stephen K. Ma.

Assistant Professors: Gregory D. Andranovich, Scott Bowman, Siegrun Fox Freyss, Michael J. Siler.

Bachelor of Arts Degree

Five options are offered in the Bachelor of Arts degree in Political Science, each adapted to a different objective as follows:

- The American Politics option provides a focus for students with interests in urban, local, and citizen politics outside the realm of government service and allows development of a theoretical framework for those interests.

- The General Political Science option is a general program of undergraduate preparation for active participation in public life or for graduate study.

- The Prelegal option provides undergraduate preparation for entrance into a graduate school of law.

- The Public Administration option provides undergraduate preparation for career government service or positions in nonprofit organizations. This option may be coordinated with a public service internship (see Cooperative Education).

- The World Politics option prepares students for careers that involve foreign affairs and international relations.

The department also participates in the interdisciplinary Bachelor of Arts degree in Social Science, described under Social Science.

Requirements for the Major (89-101 units)

Major requirements combine a common set of six courses (25 units) taken by all political science students as well as 68 to 76 additional units to meet the requirements for one of the five options selected by majors in the department.

Core Requirements (21 units)
POLS 150 Government and American Society (4)
POLS 201 The Nature of Politics (4)
POLS 202 Introduction to Comparative Politics and International Relations (4)
POLS 203 Proseminar: Political Science (4)
POLS 281 Quantitative Methods in Political Science (5)

Upper Division Required Course (4 units)
POLS 490 Special Studies in Political Science

Upper Division Subfield Requirement

All students are required to take at least one course from each of the following six subfields. Since the specific course requirements vary for each of the five options, students should first select an option with the help of an adviser.

Select the appropriate courses for that option from each of the subfields:

2. International Relations: POLS 425, 426, 427, 429
3. Political Theory: POLS 431, 433, 435
5. Comparative Politics: POLS 450-453, 456, 457

Options

The following courses are required in addition to the core and required courses described above.

- American Politics Option (64 units)

Lower Division Required Courses (12 units)
HIST 202AB United States Civilization (4, 4)
ECON 201 or ECON 202 Principles of Economics (4)

Upper Division Required Courses (52 units)
POLS 491 Proseminar: American Government and Politics (4)
POLS 492, 494 or 496 Select six courses from the American Politics subfield (24)*
Select one course from each of five remaining subfields (20)

*Up to 8 units in this subfield may be chosen from the following:
CHS 430, PAS 410, 440, 482

- General Political Science Option (64 units)

Lower Division Required Courses (12 units)
HIST 202AB United States Civilization (4, 4)
ECON 202 Principles of Economics II (4)

Upper Division Required Courses (44 units)
Two courses from POLS 491, 492, 494, 496 (8)
Select two courses from each of three subfields (24)
Select one course from each of the three remaining subfields (12)

Upper Division Electives (8 units)
Select two courses from any of the six subfields in political science or with the approval of an adviser from upper division courses in a related discipline.

- Prelegal Option (76 units)

Required for this option are 20 units of lower division courses and 56 units of upper division courses. Transfer students must have their Prelegal option program approved before beginning upper
division courses; lower division students, as soon as possible after admission.

**Lower Division Required Courses (20 units)**

- ECON 201 and 202 (8)
- HIST 202AB (8)
- SPCH 176 (4)

**Upper Division Required Courses (56 units)**

- HIST 479 (4)
- PHIL 490 (4)
- POLS 494 (4)
- POLS 491 OR 496 (4)

Select five courses from the Public Law subfield (20)
Select one course from each of the remaining five subfields (20)

- **Public Administration Option (68 units)**

**Lower Division Required Course (4 units)**

ECON 201 or 202 (4)

**Upper Division Required Courses (64 units)**

- POLS 496 (4)
- POLS 491 or 492 or 494 (4)

Select 460, 462, 466, 472, 479 and two other classes from the Public Administration and Policy subfield (28)
Select 405 as well as either 403 or 404, and one other class from the American Politics subfield (12)
Select one class from each of the four remaining subfields (16)

- **World Politics Option (72 units)**

**Lower Division Requirement (4 units)**

ECON 201 or 202 (4)

**Foreign language requirement (12 units)**

Take 12 units of Foreign language

**Upper Division Required Courses (56 units)**

- POLS 492 (4)
- POLS 491 or 494 or 496 (4)

Select five courses from the Comparative Politics subfield (20)
Select three courses from the International Relations subfield (12)
Select one course from each of the four remaining subfields (16)

**Minors in Political Science**

The Department of Political Science offers four minor programs for students majoring in other fields. The General minor requires 28 units and may interest majors in such related fields as history, economics, geography, sociology, anthropology, or English. The Prelaw minor, which requires 20 units, is available to students who may be interested in attending law school. The minor in Public Administration requires 20 units and is designed for students who may be interested in government service at the local, state, or federal level. The World Politics minor requires 20 units and is designed for students whose career or personal interests would be enhanced by a study of international relations and comparative government. All students are expected to complete POLS 150 before beginning one of the minor programs in political science.

**General Minor**

**Requirements for the Minor (28 units)**

**Lower Division Required Courses (8 units)**

- POLS 201 The Nature of Politics (4)
- POLS 202 Introduction to Comparative Politics and International Relations (4)

**Upper Division Required Courses (20 units)**

Select 5 additional POLS courses with adviser approval to fulfill the goal for which the minor was chosen.

**Prelaw Minor**

**Requirements for the Minor (20 units)**

**Required Courses (12 units)**

- POLS 440 Judicial Process (4)
- POLS 441 American Constitutional Law: Federalism (4)
- POLS 494 Proseminar: Legal Process (4)

**Electives (8 units)**

- POLS 442
- POLS 443
- POLS 445 or 446

NOTE: Specific courses should be chosen in consultation with a prelaw adviser.

**Public Administration Minor**

**Requirements for the Minor (20 units)**

**Required Courses (8 units)**

- POLS 460 Foundations of Public Administration (4)
- POLS 496 Proseminar: Public Administration (4)

**Electives (12 units)**

Select one from following: POLS 403 or 405
Select two from following: POLS 461, 463, 466, 472

NOTE: Specific courses should be chosen in consultation with a public administration adviser.

**World Politics Minor**

**Requirements for the Minor (20 units)**

**Required Course (4 units)**

- POLS 250 World Politics (4)

Select two from following: POLS 425, 426, 427
Select two from following: POLS 450-456

**The Credential Program**

The Bachelor of Arts degree in Social Science, administered by the Department of History has been approved for the Single Subject credential in Social Science by the California Commission on Teacher Credentialing. The program is listed under Social Science. In addition, the department offers two supplementary authorizations for persons who hold a Single Subject teaching credential in another field. These programs are described below.

**Supplementary Authorizations for Single Subject Teaching Credential**

**Comparative Political Systems/International Relations (32 units)**

Holders of a Single Subject teaching credential issued by the state of California may supplement that credential with an authorization for teaching comparative political systems/international relations at
any grade level through grade 12 or in classes organized primarily
for adults by completing the following program with a grade of C or
higher in each course. For other credential requirements, consult
the Charter School of Education.

Complete or demonstrate proficiency in each of the following
courses (32 units):

Required Courses (16 units)
POLS 150 Government and American Society (4)
POLS 155 Critical Analysis of Political Communication (4)
POLS 202 Introduction to Comparative Politics and
International Relations (4)
POLS 400 Power and Policy in Washington: Congress and
the President (4)

Electives (16 units)
Select two from following (8 units): POLS 425, 426, 427, 457
Select one from following: POLS 446, 450
Select one from following: POLS 451, 452, 453, 456

U.S. Government and Civics (32 units)

Holders of a Single Subject teaching credential issued by the state
of California may supplement that credential with an authorization
for teaching U.S. Government and Civics at any grade level through
grade 12 or in classes organized primarily for adults by completing
the following program with a grade of C or higher in each course.
For other credential requirements, consult the Charter School of
Education.

Complete or demonstrate proficiency in each of the following
courses (32 units):

Required Courses (16 units)
POLS 150 Government and American Society (4)
POLS 155 Critical Analysis of Political Communication (4)
POLS 200 California State and Local Government (4)
POLS 400 Power and Policy in Washington: Congress and
the President (4)

Electives (16 units)
Select one from following (4 units): POLS 405 or 441
Select one from following (4 units): POLS 404, 417, 462
Select one from following (4 units): POLS 418, 435, 440
Select one from following (4 units): POLS 250 or 425

Courses in Political Science (POLS)

Lower Division Courses

150 Government and American Society (4)
American political system with emphasis on role and function of
government in social context of a democratic political system.
Satisfies U.S. Constitution and California state and local govern-
ment requirements. Not open to students who have completed
an introductory college course in U.S. government. CAN GOVT 2

155 Critical Analysis of Political Communication (4)
Critical analysis of ideologica messages, political biases, and
manipulative devices in newspapers, magazines, television, text-
books, government publications, and scholarly writings; evalua-
tion of credibility of news and information sources.

200 California State and Local Government (4)
Functions and structure of California state and local government
units, current aspects of governmental process and problems in
State. Satisfies California state and local government requirement.

201 The Nature of Politics (4)
Prerequisite: POLS 150. Who gets what, when, and why. Why
does it matter? What can be done about it? What ought to be done
about it?

202 Introduction to Comparative Politics and International
Relations (4)
Comparative government and politics, international relations.

203 Proseminar: Political Science (4)
Prerequisites: POLS 150, ENGL 102*. Analysis of oral and writ-
ten political arguments. Special projects in directed research.
May be taken concurrently with POLS 202.

250 World Politics (4)
Theories, principles, and practice of international relations; ex-
amination of role of nationalism, diplomacy, war alliances, inter-
national law, and organizations in current international problems.

254 Special Topics in Political Science (1-4)
Current topics of special interest in political science and related
disciplines, as announced in Schedule of Classes. May be re-
peated to maximum of 8 units.

281 Quantitative Methods in Political Science (5)
Prerequisite: POLS 150; MATH 091 or satisfactory perform-
ance on mathematics placement examination given during regis-
tration. Descriptive and inferential statistics; emphasis on
practical applications in political science. Distributions on a sin-
gle variable, associations between two variables, tests of hy-
potheses; bivariate computer analysis, including individual
projects. Lecture 4 hours, laboratory 2 hours.

Upper Division Courses

POLS 150 is prerequisite to all upper division POLS courses except
426, 458, and 474.

395 Community Service in Political Science (1-4)
Prerequisites: prior approval of Political Science adviser in con-
sultation with EPIC director, acceptance by community agency.
Participation in work of community agency or activity utilizing pro-
fessional or vocational skills in service to community. Credit not
applicable toward political science major. May be repeated to
maximum of 9 units. Graded CR/NC.

400 Power and Policy in Washington: Congress and
the President (4)
Structure, functioning, and interaction of Congress and the presidi-
cy.

402 The Politics of Organized Labor (4)
Organized labor in American politics; union structures; special
interest and class perspectives; political action; current prob-
lems: changing needs; labor laws and reforms.

403 State and Local Government (4)
Nature of state politics, analysis of legislative, judicial, and ad-
ministrative organization and process; local government in met-
ropolitan areas; all with reference to California.

404 Urban Government and Politics (4)
Problems of political influence, public policy, intergovernmental
relations, and formal structure in American urban areas.

405 Intergovernmental Relations in the U.S. (4)
Introduction to American intergovernmental relations: American
Federalism; national-state, state-state, and state-local relation-
ships; powers and limitations of American governments.

PSYCHOLOGY

School of Natural and Social Sciences

DEPARTMENT OFFICE
King Hall C3104
Phone: (213) 343-2250

Psychology is the scientific study of the behavior and mental and emotional processes, of human beings, as well as the behavior of animals as it applies to humans. The field also encompasses the methods, procedures, and instruments necessary for the study of these processes.

Psychology majors do volunteer work or are employed at various levels of the job market, including community organizations, social service agencies, county and state civil service, business and industrial companies, personnel and public relations firms, hospitals, research centers, the professions, and many others.

The Department of Psychology offers programs leading to Bachelor of Arts, Master of Science, and Master of Arts degrees. The graduate degrees are described in the Graduate Programs section.

The Faculty

Associate Professors: Desdemona Cardoza, Jean P. LaCour, Anson J. Levine, Gloria J. Romero, Jerry D. Tate, Michael Louis Wapner.

Assistant Professors: Eric Kohatsu, Pamela C. Regan.

Bachelor of Arts Degree

The Bachelor of Arts degree in Psychology is both preparation for advanced study and a terminal liberal arts degree.

Advisement

Psychology majors should consult an adviser and file an official program, preferably in their first quarter of attendance, but under no circumstances later than the first quarter of their junior year.

Requirements for the Major (74-83 units)
The major requires a lower division core of 14 units, an upper division core of 20 to 22 units and 40 to 47 units of electives from designated categories as explained below.

Lower Division Core Courses (14 units)

PSY 438    Introduction to Clinical Psychology (4)
PSY 450    Health Psychology (4)
PSY 488    Gender Differences (4)

Group V: Methodology (4-5 units)

PSY 304B    Experimental Psychology (6)
PSY 409    Computer Techniques for Psychology (4)
PSY 411    Research Methodology in Psychology
PSY 414    Analysis of Variance (4)
PSY 417    Single Case Research Design (4)
PSY 429    Multiple Regression/Correlation Analysis (MRCA) (5)
PSY 431    Survey of Psychological Tests (5)
PSY 465    Multicultural Psychology: Current Issues and Research (4)

Minor in Psychology

The Psychology minor, available to students majoring in other fields, requires 39 units of lower and upper division psychology courses.

Requirements for the Minor (39 units)

Lower Division Required Courses (13 units)

PSY 150    Introductory Psychology (4)
PSY 170    Physiological Psychology (4)
PSY 202    Descriptive Statistics in Psychology (5)

Upper Division Required Courses (15 units)

PSY 302    Statistical Methods in Psychology (5)
PSY 304A    Experimental Psychology (6)
PSY 308    Theories and Systems in Psychology (4)

Electives (select 11 units with adviser assistance)

Courses in Psychology (PSY)

Lower Division Courses

150 Introductory Psychology (4)
Psychological perspectives on human behavior; principles and methods of psychology as a science; introduction to major topic areas of psychology. CAN PSY 2

160 Psychology of Developing Person (4)
Principles of life-span development from psychological perspective. Salient physiological, social, and psychological factors relevant to understanding development of the integrated person.

170 Introductory Physiological Psychology (4)
Relationship between behavior and its biological correlates; includes biological context of behavior, physiological determinants, sensory activity, perception, learning, arousal, and reaction.

171 Laboratory Demonstration in Physiological Psychology (1)
Prerequisite or corequisite: PSY 170. Laboratory procedures for physiological psychology; introduction to instruments used, organisms studied, and processes investigated. Required of majors; optional for others.

202 Descriptive Statistics in Psychology (5)
Prerequisites: PSY 150, GE critical thinking and math requirements. Basic numerical and graphical methods in psychology; statistical notation, data presentation, measures of central tendency, dispersion and covariation, probability; utilization of personal computers in statistics. Lecture 4 hours, laboratory 3 hours.

270 Introductory Comparative Psychology (4)
Prerequisite: BIOL 155. A comparison across species that traces the development of behavior from an evolutionary standpoint. Learning cognition, social behavior, nervous systems, and hormonal systems are among the topics to be covered.

Upper Division Courses

PSY 150 and GE blocks A and B are prerequisite to all upper division psychology courses.

302 Statistical Methods in Psychology (5)
Prerequisite: PSY 202. Binomial and other probability distributions; covariance and correlation, regression; confidence intervals and hypotheses testing; t, f, and Chi Square distributions. Lecture 4 hours, laboratory 3 hours.

304A Experimental Psychology (6)
Prerequisites: ENGL 102*, PSY 302. **WPE. Introduction to research experimental design, library research, laboratory techniques for gathering/analyzing empirical data, preparing technical manuscripts in (a) psychophysics, scaling and perception, and (B) cognition memory, learning, motivation, and emotion. Lecture 4 hours, recitation 1 hour, laboratory 3 hours.

304B Experimental Psychology (6)
Prerequisites: ENGL 102*, PSY 302. **WPE. Introduction to research experimental design, library research, laboratory techniques for gathering/analyzing empirical data, preparing technical manuscripts in (A) psychophysics, scaling and perception, and (B) cognition memory, learning, motivation, and emotion. Lecture 4 hours, recitation 1 hour, laboratory 3 hours.

307 Physiology and Psychology of Violence and Aggression (4) (also listed as NURS 307)
Prerequisites: PSY 150, GE blocks A and B. Biological and psycho-behavioral approaches to violent individuals; analysis of and research support for understanding violence drawn from natural, medical, and behavioral sciences.

308 Theories and Systems in Psychology (4)
Critical survey of "schools" era of psychology: structuralism, functionalism, Gestalt, behaviorism, psychoanalysis, humanism, and others, emphasizing their impact upon contemporary psychology.

323 Psychology of Emotion (4)
Prerequisite: BIOL 155 or 165. The influence of learning, cognition, psycho-dynamics, evolution, pharmacology and physiology on feelings and emotions.
326 Psychological Factors in Marriage (4)
Issues of adjustment to marriage including: courtship, cultural differ-
ences, communication, sexual behavior, parenting, postpar-
enting, separation, divorce, remarriage.

354 Selected Topics in Psychology (4)
Prerequisites: As needed for specific topic. Current topics of
special interest to students in psychology, as announced in
Schedule of Classes. May be repeated for credit.

395 Field Experience in Psychology (1-4)
Prerequisite: Department approval. Opportunity to study psy-
chological principles of behavior in nonlaboratory settings. May
involve observation and participation in community, clinical edu-
cational, business or other organizational settings. May be re-
peated to a maximum of 8 units. Graded CR/NC.

401 Physiological Psychology (4)
Prerequisite: PSY 170. Relationship between integrated behav-
ior and physiological processes; theories that relate psychology
and physiology.

402 Media Psychology (4)
Review of theoretical and research literature to determine mass
communication impact (e.g., film, television, print) on social and
psychological functioning of individuals and societies.

403 The Psychosocial Dynamics of Child Maltreatment and
Family Violence (4)
(also listed as COUN 403)
Psychosocial factors in child maltreatment and family violence:
developmental considerations, assessment, interventions, legal
and ethical issues, research findings, and community resources.

404 Advanced Experimental Psychology (2)
Prerequisite: PSY 304B. Offered in multiple sections with con-
tent of each section correlated with content of a specific course
in the 400 series; consideration of advanced problems of re-
search design and experimental techniques. Emphasis on indi-
vidual projects; 6 hours laboratory. May be repeated for credit.

405 Group Methods for Psychological Intervention (4)
Prerequisite: Upper division standing. Traditional and contem-
porary theories and techniques employing group methods for
psychotherapy, facilitation of personal growth, and modification
of social systems.

406 Mental Retardation (4)
Nature and causes of mental retardation; physiological and psy-
chological characteristics; problems of social control, including
education, social adjustment, institutionalization, and community
responsibility.

408 Animal Psychology (4)
Prerequisite: Background in scientific methodology strongly rec-
ommended. Natural behaviors and learning in animals, from sin-
gle cell to apes: emphasis on evolution of behavior and survival
in the natural environment. Topics include social behavior, de-
velopment, mating, and parental behavior.

409 Computer Techniques for Psychology (4)
Prerequisite: PSY 302. Available systems; introduction to pro-
gramming, use and modification of library programs for analysis
of psychological data; special techniques for subject-computer in-
teraction in psychological research. No prior computer experi-
ence assumed.

410AB Abnormal Psychology (4, 4)
410A: Definition, history of abnormality; perspectives on
maladaptive behavior, research, classification, assessment, diag-
osis, legal issues and clinical procedures, coping with maladap-
tive stress, personality disorders, anxiety disorders, substance
abuse and dependence.

410B: Prerequisites: PSY 410A. A review of diagnosis, re-
search, and treatment of schizophrenia, affective and psychophysi-
ological disorders, organic brain syndromes, and mental
retardation throughout the life cycle.

411 Research Methodology in Psychology (4)
Prerequisite: PSY 302. Logic of research methodology and sta-
tistical analysis: evaluation of adequacy of research strategies;
interpretation of results.

412A Psychology of Human Development: Infancy and
Childhood (4)
Theory and empirical literature pertaining to infancy and child-
hood.

412B Psychology of Human Development:
Adolescence and Young Adulthood (4)
Theory and empirical literature pertaining to adolescence and
young adulthood.

414 Analysis of Variance (4)
Prerequisite: PSY 302. Various analysis-of-variance models in
analysis and interpretation of psychological data.

416 History of Psychology (4)
Prerequisites: One year of college psychology; PSY 308 recom-
mended for psychology majors. Consideration of historical de-
velopment of psychology from its origins in ancient philosophy
and science to end of 19th century.

417 Single Case Research Design (4)
Prerequisite: PSY 304B. Basic types of single case experimen-
tal designs including withdrawal, reversal, multiple baseline, and
multielement designs; methods of observation, measurement,
recording behavior, assessing reliability of observations.

418AB Introduction to Theories of Personality (4, 4)
Description and evaluation of major theories of personality.

419 Psychology of Sex Roles (4)
Prerequisites: GE critical thinking requirement, introductory so-
cial science course. Psychological, social, and physiological de-
terminants of sex difference in behavior; emphasis on develop-
ment of sex role identity and interpersonal interactions.

420 Psychology of Communications (4)
Psychological aspects of interchange of human thoughts and
concepts: methods of studying communications; relationships be-
tween communications and personal adjustment, industrial prob-
lems, leadership, mass media.

421 Psychology of Learning and Behavior (4)
Prerequisites: PSY 304B, upper division standing. Principles of
classical and operant (instrumental) conditioning. Emphasis on
experimental findings with consideration of both current and his-
torically relevant theories.

422 Social Psychology (4)
Introduction to major theories of social psychology with special
emphasis on such topics as aggression, liking and loving, altrui-
sm, prejudice, and attitude theory and measurement.
423 Motivation and Emotion (4)
Prerequisites: PSY 170, 304B. Critical examination of drives, needs, preferences, desires, feelings and emotions from experimental and theoretical perspectives.

424 Cognitive Psychology (4)
Prerequisite: PSY 304A. Theories and experimental literature with respect to the nature of memory and cognition.

425 Sensation and Perception (4)
Prerequisites: PSY 170, 304AB. Examination of theories and experimental literature with respect to variables that determine the organism’s ability to respond differentially to sense data.

426 Family Therapy Dynamics and Perspectives (4)
Prerequisite: PSY 410A or 418A. Theoretical perspectives in family processes; treatment approaches; significant issues in family life.

427 Family Therapy Techniques: Strategies for Change (4)
Prerequisites: PSY 426, instructor consent. General systems theory and analyses applied to marital and family problem-solving.

428 Introduction to Analysis of Behavior (4)
Basic phenomena of behavior analysis; applications for understanding human behavior, therapy, analysis of cognition, and verbal, social, and abnormal behavior; consideration of ethics involved in controlling human behavior.

429 Multiple Regression/Correlation Analysis (MRCA) (5)
Prerequisite: PSY 302: also recommended: PSY 414. Correlation and partial correlation; regressing a dependent variable on single and multiple variable factors; applications to experimental and nonexperimental research designs.

431 Survey of Psychological Tests (5)
Prerequisite: PSY 202. Theoretical issues in individual differences; introduction to a variety of group and individual psychological tests and assessment techniques; role of tests in clinical evaluation; problems of reliability, validity, and interpretation. Lecture 3 hours, laboratory 3 hours.

432 Psychology of Cognitive Development (4)
(also listed as CHDV 443)
Prerequisite: PSY 412A. Evolution of cognitive processes from simple organisms to adult human beings. Piaget's theory; development of dialectic operations; perceptual and language development and apprehension of reality; relationship of social development to cognitive development.

436AB Counseling and Psychotherapy: Theories, Methods, and Issues (4, 4)

436A: Prerequisites: Senior or graduate standing; PSY 410AB or 418AB. Theories of counseling and psychotherapy; systems approaches to individual, marital, and family dynamics; introduction to clinical interviewing techniques.

436B: Prerequisite: PSY 436A. Current issues in counseling and psychotherapy; application of systems/communication models to individual, marital, and family therapy; student participation in intensive evaluation of therapeutic techniques.

438 Introduction to Clinical Psychology (4)
Prerequisite: PSY 410A or 410B. Current trends and methods of clinical psychology; designed primarily for students considering careers in area. Problems of assessment, psychotherapy, research, and community involvement.

440 Theory and Measurement of Attitudes and Opinions (4)
Prerequisite: PSY 422. Conceptualization and measurement of attitudes, beliefs, and opinions. Theories of belief systems, attitude formation and change; implications of research findings. Individual and/or class research projects.

441 Psychology of Small Group Behavior (4)
Prerequisite: PSY 422. Historical development and theoretical implications of research in small group structure and process. Emphasis on cohesiveness, conformity, leadership and power, intergroup and intragroup conflict and cooperation.

442 Industrial and Organizational Psychology (4)
Interaction of employees and their organizations. Individuals and their motivation to work; groups, communication in industrial organizations; human factors research; psychological principles applied to personnel problems; psychology of work.

445 Community Psychology (4)
Principles of social and clinical psychology; role of psychologists in analysis of social systems; community organization, social planning, and community change; methodology and basic concepts of community mental health.

446 Employment and Personnel Psychology (4)
Prerequisite: PSY 302. Psychological principles of individual differences applied to problems of developing recruitment, selection, and testing programs; supervisory training and executive development; measurement of employee attitudes and morale; job evaluation and motivation.

447 Human Performance in Man-Machine Systems (4)
Survey of basic research on human performance; processing of discrete and continuous information; decision-making, vigilance, environmental effects on human performance.

448 Psychology of Labor-Management Relations (4)
Prerequisite: PSY 422 or 442. Perceptual and motivational factors influencing behavior of workers, executives, union officers. Psychological factors in strikes; principles relevant to union-management cooperation.

450 Health Psychology (4)
Psychological principles applied to field of health care; evaluation of research in effectiveness of treatment models and techniques.

452 Organization Behavior and Development (4)
(also listed as POLS 474)
Prerequisite: PSY 442. Applying findings of behavioral science to organizations; psychological methods used by various change agents; types and uses of organization development practices.

454 Special Topics in Psychology (1-6)
Prerequisites: As needed for specific topic. Current topics of special interest to students in psychology, as announced in Schedule of Classes. May be repeated as subject matter changes.

462 Psychology of Human Development: Maturity and Aging (4)
Prerequisites: Upper division standing; PSY 412AB recommended. Psychological factors in behavior during middle and later years, including physical and mental health problems, role changes, successful adjustment patterns, and family and community relationships in successive adult age groups.
463 Psychological Research Colloquium (1)  
Prerequisite: Upper division standing. Presentation of a cross section of current research in the field of psychology. May be repeated to maximum of 3 units. Graded CR/NC.

464 Psychology and the Law (4)  
Laws pertaining to psychology; rights and responsibilities of mental health providers; conflicts between legal and ethical practice of psychology; current legislative issues.

465 Multicultural Psychology: Current Issues and Research (4)  
Prerequisite: PSY 304A or equivalent. Theoretical and empirical approaches to the psychological understanding of diverse cultural groups. Conceptualizations of similarity and difference. Current findings from multicultural research.

485 Directed Field Experience in Community Clinical Psychology (4)  
Prerequisites: PSY 410A or 410B; 412A or 412B; 422 or 462; agency acceptance. Application of psychological principles (interviewing, counseling) in supervised settings: service agencies, mental health centers, halfway houses, etc. Lecture, problem solving meetings, self and agency evaluation reports. May be repeated to maximum of 8 units. Graded CR/NC.

488 Gender Differences (4)  
(also listed as BIOL 488N)  
Prerequisite: BIOL 155. Biological and psychological differences between the sexes. Topics include genetic sexual determination, sexual differentiation, role of hormones in physiology and behavior, experimental methodology, psychological differences in ability and personality. No credit toward Biology major.

499 Undergraduate Directed Study (1-4)  
Prerequisite: Instructor consent to act as sponsor. Project selected in conference with sponsor before registration; progress meetings held regularly, and a final report submitted. May be repeated for credit. Graded CR/NC.
The interdisciplinary program in Social Science offers a foundation for general and comparative study of societies and human events. 

Program Coordinator: Stanley M. Burstein.

Instruction is provided by the faculties of all social science departments. Advisement information is available from the Social Science Coordinator.

Bachelor of Arts Degree

The Bachelor of Arts degree in Social Science provides the basis for a liberal arts education with major emphasis in social science. Students who graduate with this major will fulfill requirements for the Single Subject credential in Social Science. The major requires completion of 108 units. The program includes three options: History, Geography, and Political Science/Economics. Early consultation with the Social Science coordinator is advised in order to select an option.

Requirements for the Major (108 units)

The Credential Program
The Bachelor of Arts degree in Social Science has been approved by the California Commission on Teacher Credentialing for the Single Subject credential in Social Science. Interested students should consult advisers in the Department of History which administers the program, and in the Charter School of Education. Refer to the undergraduate Charter School of Education chapter of this catalog for regulations governing all teaching credential programs.

Courses in Social Science (SOCS)

Lower Division Course
180 Race and Ethnicity in American Society (4)
An interdisciplinary examination of ethnic and racial groups in the U.S. Emphasis on intergroup relations; social thought, conflict, consensus, and cooperation; group responses to oppression; and dependence and interdependence in intergroup relations.

Upper Division Course
499 Undergraduate Directed Study (1-4)
Prerequisites: Consent of an instructor to act as sponsor; ability to assume responsibility for independent work and to prepare written and oral reports. Project selected in conference with sponsor before registration: progress meetings held regularly.
SOCIETY

School of Natural and Social Sciences

DEPARTMENT OFFICE
King Hall C3093
Phone: (213) 343-2200 FAX (213) 343-5155

Sociology is the scientific study of human social relations. It provides a background of understanding and research skills for students interested in a variety of occupations. The department programs prepare students for advanced professional study in sociology and social work, as well as positions in public and private social service agencies. Sociology will have a particular appeal to students whose intellectual and career interests are broad and unspecialized.

Sociology majors study a variety of subjects which include race relations, marriage, religion, child development, aging, demography, crime, corrections, occupations, mass communication, social deviance, politics, social psychology, and classical and contemporary sociological theories. The primary purpose of the academic program in sociology is to enhance students’ analytical abilities and understanding of social phenomena.

Students pursuing legal, educational, and governmental careers may benefit from sociological perspectives on human relations. Students who intend to follow careers in sales, management, marketing, personnel, public relations, advertising, journalism, recreation, home economics, criminal justice, nursing, and comparable areas may find particular value in combining the study of sociology with their professional preparation.

The Bachelor of Arts degree in Sociology, with two options, and minors in Sociology and in Social Gerontology are described below. The Master of Arts degree program is described in the Graduate Programs section.

The Faculty

Emeriti: Marion V. Dearman, Esther Penchef, Paul K. Rowan, Fred J. Shanley, Ralph Thomlinson.

Professors: Janicemarie Allard, William D. Darrough, Norman L. Friedman, Steven L. Gordon, Lawrence K. Hong (Chair), Terry R. Kandal, Delos H. Kelly, Eleni N. Pitsiou-Darrough, Jon Snodgrass, Ronald T. Tsukashima, Eui-Young Yu.

Associate Professors: Bernard B. Berk, Cristina Bodinger-de Uriarte, Timothy Diamond, Janet Lever.

Assistant Professor: Yehudi Webster.

Bachelor of Arts Degree

The Department of Sociology offers a Bachelor of Arts degree in Sociology with a choice of two options: General Sociology Option and Human Development and Aging Option. Also offered are minors in Sociology and in Social Gerontology, for student majoring in other fields.

Required Advisement

All students desiring to undertake a major or minor in sociology must confer with a department adviser during their first quarter in the program. During the first quarter of their junior year, students must meet again with an adviser to plan the remainder of their program. Transfer students must see an adviser in their first quarter of enrollment at Cal State L.A.

Sequence Recommendation

To facilitate scheduling, specific prerequisites have been omitted from most courses. It is highly recommended, however, that suggested sequences be observed, since later course work will assume familiarity with prior course material. The following are strongly recommended or required:

- Students who transfer without having completed equivalent courses should include SOC 201 and 210AB among their first courses at Cal State L.A.
- SOC 390 should be taken soon after 210AB.
- Sociology majors should take SOC 412 before 414; and
- SOC 410 must be taken before 490.

Requirements for the Major (66 units)

Both options for the Bachelor of Arts degree in Sociology require 66 units, with core requirements of 10 units of lower division sociology courses and 56 upper division units of additional required and elective courses.

Required Core (10 units)

SOC 201 Principles of Sociology (4)
SOC 210AB Elementary Statistics (3, 3)

In addition to core requirements, students are required to complete one of the two options listed below.

- Option I: General Sociology (56 units)

Required Courses (16 units)

SOC 301 Writing for Sociology (4)
SOC 390 Methods of Social Research (4)
SOC 412 Classical Sociological Theory (4)
SOC 414 Contemporary Sociological Theory (4)

Upper Division Electives (40 units)

Select courses in sociology and other fields, in consultation with adviser; a program may include SOC 398, SOC 498, (also listed as UNIV 398, UNIV 498) and SOC 499, but no more than 8 units of any combination of these courses normally may be counted toward the major. With prior approval of adviser, up to 8 units may be selected in other fields to complete a comprehensive sociological program with an interdisciplinary emphasis.

- Option II: Human Development and Aging (56 units)

Required Courses (20 units)

SOC 301 Writing for Sociology (4)
SOC 322A Human Socialization: Childhood and Adolescence (4)
SOC 322B Human Socialization: The Adult Years (4)
SOC 390 Methods of Social Research (4)
SOC 414 Contemporary Sociological Theory (4)

Upper Division Electives (36 units)

With adviser approval select 36 units in sociology and other fields: program may include SOC 398, SOC 498, (also listed as UNIV 398, UNIV 498) and SOC 499, but no more than 8 units of any combination of these courses normally may be counted toward major. The option provides an interdisciplinary emphasis.

Select 16 units from those listed below:

BIOL 484N Biology of Human Aging (4)
PSY 412A  Psychology of Human Development: Childhood and Adolescence (4)
PSY 462  Psychology of Human Development: Maturity and Aging (4)
SOC 450  Sociology of Aging (4)
SOC 452  Life Span Transitions: The Retirement Years (4)
SOC 453  Social Aspects of Death and Bereavement (4)
**SOC 497  Sociology Proseminar (4)
**When topical area is Human Development

Select 8 units from those listed below:
SOC 400  Emotions in Society (4)
SOC 421  Social Sources of Human Sexuality (4)
SOC 425  Medical Sociology (4)
SOC 426  Deviant Behavior (4)
SOC 427  Society and Mental Illness (4)
SOC 440  Marriage and the Family (4)
SOC 441  Sociology of Sex Roles (4)
SOC 485  Conflict and Domestic Violence (4)

Select 8 units from those listed below:
ANTH 435  Cultural and the Individual (4)
CHS 311  Chicano Cultural History (4)
CHS 410  Chicano Psychology (4)
ENGL/ML/PHIL 383  Themes of Adult Life in Philosophy and Literature (4)
NTRS 416  Child Nutrition (4)
NTRS 451  Nutrition and Aging (4)
PAS 404  The Black Family (4)
PAS 420  Afro-American Culture (4)
RELS 425  Themes of Adult Life in Religion (4)

Select 4 units from those listed below:
CHDV 320  The Young Child (4)
CHDV 425  Ethnic Identity and Awareness in Children and Families (4)
PSY 323  Psychology of Emotion (4)
PSY 418AB  Personality: Theory and Research (4)
SW 450  Crosscultural Practice with Aging Populations (4)
SW 456  Multidisciplinary Teams, Child Maltreatment and Family Violence (4)
SW 465  Programs and Policies Related to the Elderly (4)
SW 476  Child Welfare (4)

**Internship**

By enrolling in one or more of the following courses, SOC 398, SOC 498 (also listed as UNIV 398 and UNIV 498) and SOC 499, sociology majors and minors can earn 2 to 4 credits per quarter for a maximum of 8 credits in a directed internship program. Students must arrange a work agreement with an approved agency, one unit of credit is equivalent to 30 hours of agency work per quarter. The intern also meets with the departmental Cooperative Education Coordinator several times during the quarter and submits a journal of activities and a short final paper based on applying concepts studied in upper division Sociology courses (through prior or concurrent enrollment). See the Cooperative Education Coordinator for specific prerequisites, list of approved agencies, and other program details.

**Minor in Social Gerontology**

The minor in Social Gerontology is designed to prepare individuals for occupations related to the needs and activities of older persons, and for advanced research in the field of aging. The minor requires completion of 24-28 units.

**Requirements for the Minor (24-28 units)**

**Lower Division Required Course (4 units)**
SOC 201  Principles of Sociology (4)

**Upper Division Required Courses (8 units)**
SOC 322B  Human Socialization: The Adult Years (4)
SOC 450  Sociology of Aging (4)

**Electives**

Select up to 8 units from each group, with adviser approval:

**Group I**
SOC 390  Methods of Social Research (4)
SOC 400  Emotions in Society (4)
SOC 425  Medical Sociology (4)
SOC 427  Society and Mental Illness (4)
SOC 452  Life Span Transitions: The Retirement Years (4)
SOC 453  Social Aspects of Death and Bereavement (4)
SOC 485  Conflict and Domestic Violence (4)
*SOC 497  Sociology Proseminar (4)
*Only when topical area is gerontology.

**Group II**
SW 450  Crosscultural Practice with Aging Populations (4)
SW 461  Social Work Practice in Minority Communities (4)
SW 465  Programs and Policies Related to the Elderly (4)
SW 472  Community Organization (4)
SW 478  Social Welfare Policy and Social Services (4)
PSY 462  Psychology of Human Development: Maturity and Aging (4)

**Minor in Sociology**

A minor in Sociology provides valuable preparation for students majoring in business, criminal justice, journalism, recreation, and other fields.

A total of 28 units in required and elective courses comprises the minor in Sociology. Students who have an equivalent research methods course in their major may substitute another four-unit, 400-level sociology course for the SOC 390 requirement below. A statistics course normally is prerequisite to SOC 390.

**Requirements for the Minor (28 units)**

**Lower Division Required Course (4 units)**
SOC 201  Principles of Sociology (4)

**Upper Division Required Courses (8 units)**
SOC 390  Methods of Social Research (4)
SOC 414  Contemporary Sociological Theory (4)

**Electives (16 units)**
Select additional upper division SOC courses with adviser approval.

**Courses in Sociology (SOC)**

**Lower Division Courses**

101  Social Problems (4)

Methods that social institutions and interest groups use to define “social problems” including poverty, substance abuse, delinquency, racism, sexism, crises in education and health care, and urban/environmental issues; policy implications.
120 Intimate Relationships (4)
(also listed as CHDV 120)
Principles of interaction in intimate relationships; development of knowledge, self awareness, control of choices, family life cycle, roles and interpersonal growth; sexuality, love, parenting, conflict stress, starting and ending relationships.

201 Principles of Sociology (4)
Sociological analysis of development of social institutions and group behavior; processes of social order and change; analysis of cultural differences; sources of cooperation and conflict: deviance and social control. CAN SOC 2

202 Society and Individual Development (4)
Social processes having continuing impact upon individual development; understanding persistent themes relating to family, sexuality, religion, death; impact of war, inequality, economic and technological stress.

209 Microcomputer Applications in Sociology (4)
Use of microcomputers in sociology. Use of word processing, spreadsheet, data base, and other software in preparing reports, charts, graphs, mass mailing, data processing, and managing information.

210AB Elementary Statistics (3, 3)
Recommended prerequisite: Basic college mathematics course. Basic social statistics, covering descriptive statistics, tables, charts, summary measures, regression and correlation, and statistical inference, sampling, predictive models, analysis of variance, nonparametric and parametric tests, and simple multivariate analysis. Lecture 2 hours, laboratory 2 hours.

263 Asian-American Experience (4)
Experiences of the Chinese, Japanese, Korean, Filipino, Pacific Islander, and other Asian immigrant groups in the U.S. Immigration, adaptation, discrimination, identity, alienation, stratification, and other contemporary issues of Asian-Americans.

Upper Division Courses

SOC 201 normally is prerequisite to all upper division courses in sociology and may be waived only with instructor consent.

301 Writing for Sociology (4)
Prerequisite: ENGL 102*, satisfactory completion of Graduation Writing Assessment Requirement (GWAR). Reasoning and writing skills for comprehending and communicating information in sociology.

322A Human Socialization: Childhood and Adolescence (4)
Social-psychological approaches to socialization, comparing stages of personal growth and development from childhood to adolescence. Emphasis on pertinence of socialization and basic issues of social control and change.

322B Human Socialization: The Adult Years (4)
Social-psychological approaches to socialization, comparing stages of personal growth and development during early, middle, and late adulthood. Emphasis on pertinence of socialization and basic issues of social control and change.

325 Social Issues in Wellness (4)
Prerequisite: Completion of lower division GE Block D requirement before enrollment. Changing social definitions of wellness; social expectations; role of society and culture in wellness-related decision making. No credit toward sociology majors and minors.

330 Social Issues in the Urban Setting (4)
Prerequisite: SOC 201. Social issues in urban setting; economic changes; city's underclass and crime; impact of population changes and environmental concerns; role of ethnic diversity; cross cultural comparison, and social planning.

390 Methods of Social Research (4)
Prerequisite: SOC 210AB. Application of scientific method to sociological data; research design, data collection, elementary analysis procedures; survey and experimental designs, measurement, scale, and index construction, and prediction models. With instructor consent, one unit of SOC 489 may be taken concurrently.

400 Emotions in Society (4)
Human emotions as organized within social relationships and institutions of family, religion, education, government, and economy; emotional deviance and control; ethnic, sex, and social class diversity in feeling and expression.

410 Advanced Statistics (4)
Prerequisite: SOC 210AB. Specialized treatment of probability and sampling, prediction and correlation, analysis of variance and covariance, experimental design and probability model construction. Recommended for Sociology majors planning graduate study.

412 Classical Sociological Theory (4)
Historical development of sociological theory with special reference to its European origins; e.g., Comte, Saint-Simon, Marx, Spencer, Durkheim, Simmel, and Weber.

414 Contemporary Sociological Theory (4)
Functionalism, conflict sociology, interactionism, critical-radical sociologies, systems analysis, and phenomenological perspective.

415 Political Sociology (4) (also listed as POLS 415)
Prerequisite: POLS 150 or SOC 201. Social factors underlying democracy and totalitarianism, social movements and revolutions, conflict and conflict resolution, voting behavior, and political socialization.

416 Crowd Behavior and Social Movements (4)
Analysis of crowd types, formation, and dynamics, including mobs, riots, panics, mass hysteria, rumors, fads, and fashion. Development, tactics, ideologies, and effects of social movements, cults, and rebellions.

420 Small Groups (4)
Small group processes in industry, the family, schools, peer and colleague groups; reference-group behavior, relation to larger social systems, group structure and communication, development of research techniques.

421 Social Sources of Human Sexuality (4)
Effects of social environment on emergence, justification, and maintenance of sexual attitudes and behavior; social factors influencing sexual behavior; changing sociosexual mores and behavioral patterns, and emerging sexual life styles.

422 Social Psychology (4)
Inquiry into social-psychological dimensions of group behavior, emphasizing interactive processes involved in communication, group behavior, perception, attitude formation, motivation, socialization, and evolution of self-concept.

424 Mass Communications and Public Opinion (4)
Sociological analysis of print and electronic mass media of communications; examination of their functions, sociocultural evolu-
tion, organizational/occupational bases, cultural content, audiences; consideration of individual, collective effects on public opinion.

425 Medical Sociology (4)
Role of the hospital and socialization process on professional development of personnel in the healing professions; social epidemiology of physical and mental disorders.

426 Deviant Behavior (4)
Basic theoretical orientations to social and personal disorganization resulting from role conflict, social conflict, normlessness, or alienation; individual and social deviance related to group processes and structures.

427 Society and Mental Illness (4)
Lay and professional ideas about mental illness in historical and crosscultural perspective; organizational treatment of the mentally ill; identity, stigma, and adaptations.

430 Urban Sociology (4)
Urban community and urbanization as contemporary social processes; consideration of urban areas, institutions, values, and problems; social and demographic characteristics, urban and suburban change and planning.

432 Science, Technology, and Social Character (4)
Effects of scientific and technological development upon social life and culture, especially family, work and leisure, modes of thinking and feeling. Differences among social classes, ethnic groups, women and men.

434 Social Aspects of Population Trends (4)
Population facts, changes, problems, and policies; population dynamics, especially births, deaths, and migration; national action programs; world coverage, with emphasis on the U.S.

435 Asian Societies (4)
Comparative analysis of Asian societies; population, social thought, institutions, stratification, education, industrialization, and urbanization in Asia focusing on China, Japan, Korea, and southeast Asia.

440 Marriage and the Family (4)
The family as a social institution; historical and crosscultural perspectives, social change as it affects marriage and family life. Analysis of American courtship and marriage patterns, psychodynamics of family life.

441 Sociology of Sex Roles (4)
Institutional analysis of sex role differences; implications of differential socialization of sexes; access to educational and occupational opportunities; differences in legal status; movements for equality.

442 Social Change (4)
Classical and contemporary theories of sources and consequences of social change; revolutions and alternative routes to modern world; issues in historical sociology; change and social contexts of creative achievements in arts and sciences.

443 Alternative Family Life Styles (4)
Social change in man and woman relationships, including single life styles, nontraditional marriage and family forms, communes, and utopian societies: evaluation of benefits and costs to individuals and society.

444 Sociology of Popular Culture (4)
Art, film, literature, music and television are examined in terms of social roles, social processes, context and the construction of meaning. Popular culture is studied as reflecting, reinforcing or challenging norms.

445 Sociology of Religion (4)
Social bases of religion, religious institutions, and their modern organizational life; comparative analysis and theories of religious behavior; religious institutions, their representatives, religious conflict, and public law.

446 Sociology of Business Organizations (4)
The sociological understanding of control in different technical, structural and commercial settings. Corporate culture, work subcultures, role constructions, and network processes are emphasized. Case studies are used.

447 Sociology of Occupations and Professions (4)
Analysis of the social world of work: occupational trends and mobility; occupations, education, and minorities; nature of professions and professional processes and structures; study of selected occupations and professions.

446 Social Class and Inequality (4)
Examination of sociological theory and research bearing on social stratification; social differentiation: class position, class interests, correlates of social class; trends in occupational mobility, comparison of stratification systems.

450 Sociology of Aging (4)
Aging as a social process; emphasis on sociological theories of aging and social problems of the aged; nature of aging process, work, retirement, family relationships, housing, income maintenance; societal response to aged.

452 Life Span Transitions: The Retirement Years (4)
Critical evaluation of issues involved in planning for retirement; changing place of work and retirement in value system; anticipatory behavior, patterns and modes of adjustment, maladjustment; proposals and issues.

453 Social Aspects of Death and Bereavement (4)
Concepts and theories of dying; meaning of death and its implications for dying persons, survivors, and professionals who attend them.

454 Selected Topics in Sociology (1-6)
Current topics of special interest in sociology, as announced in Schedule of Classes. May be repeated for credit.

460 Race and Ethnic Relations (4)
Structure and change of minorities in society; theories and research: historical, contemporary, and comparative; processes of adjustment: patterns of immigration, prejudice, discrimination, assimilation, pluralism, conflict, and social movements.

460 Criminology (4)
Criminal law, crime, and deviance. Social and psychological factors in criminal behavior, criminal law, and criminal justice; prevention and control; trends in theory and correctional procedures.

461 Policing America (4)
Social role of American police. Historical, political and social contexts of policing. Selected issues; the controversial police mandate, use-of-force/accountability, community policing, the future of policing in America.

462 Juvenile Delinquency (4)
Extent and distribution of delinquency, with emphasis on the local area; meaning, implications, and treatment of delinquent behavior; personal and environmental conditioning factors; delinquency and the rights of children.
483 Violence in American Society (4)
Forms of violence in American Society (e.g., criminal, domestic, revolutionary, official, sexual) examined through a critical review of social scientific literature; assessment of causes, consequences, and possibilities for control.

484 Corrections (4)
Survey of procedures used in processing the offender, from arrest, through trial, to prison and probation; contemporary theories of criminality and rehabilitation applied to the social evaluation of these procedures.

485 Conflict and Domestic Violence (4)
Sociological aspects of domestic violence in families (e.g., child, spouse, and elder abuse) examined in relation to ethnic, social, cultural, historical, economic, and political factors that affect individual behavior.

466 Probation and Parole (4)
(also listed as SW 486)
Prerequisite: SOC 480 or 482. History, philosophy, legal bases, and procedures governing investigation, treatment, and supervision of adjudged juvenile offenders and adult violators placed on probation and parole.

490 Advanced Research Methods (4)
Prerequisites: SOC 390, 410. Advanced research techniques in sociology, including design of experiments, sample surveys and panel studies, scaling, multivariate and computer data analysis procedures. Individual projects; laboratory. With instructor consent, one unit of SOC 499 may be taken concurrently.

491 Qualitative Research Methods in Sociology (4)
Prerequisite: SOC 390. Qualitative research techniques in sociological research: research in field settings; problems of participant observation and interviewing; document analysis; typology construction; qualitative data interpretation and presentation.

497 Sociology Proseminar (4)
Prerequisite: Sixteen upper division SOC units. Comprehensive survey and analysis of selected areas of sociological and social welfare inquiry, as announced in Schedule of Classes. Recommended for majors planning or beginning graduate study. May be repeated once for credit. With instructor consent, one unit of SOC 499 may be taken concurrently.

499 Undergraduate Directed Study (1-4)
Prerequisites: Senior standing, 2.75 overall grade point average, consent of a faculty sponsor, approval of proposed project prior to registration, and ability to assume responsibility for independent research and analysis. Regular discussion of progress with sponsor before presentation of final written report. May be repeated for credit.

The Intercollegiate Athletics program constitutes an integral part of the total program of activities at Cal State L.A. and involves participation by faculty, students, and administration. Major fiscal support for the athletics program is provided through allocation of student activities fees. Coaching and programming of sports are provided by the Division of Intercollegiate Athletics. In addition to coaching responsibilities, members of the division may also be faculty members in academic departments or divisions within the University. The Intercollegiate Athletics Board (IAB) works closely with the Director of Intercollegiate Athletics. The IAB is comprised of faculty, students, administrators, alumni, and a University Development Board designee.

Cal State L.A. is a member of the National Collegiate Athletic Association (NCAA) and the California Collegiate Athletic Association (CCAA). The Intercollegiate Athletics program fields teams in men's baseball, basketball, cross country, soccer, tennis, indoor and outdoor track and field. Women's teams compete in basketball, cross country, tennis, indoor and outdoor track and field, and volleyball.

Normal Progress for Student Athletes

Minimum academic progress for student athletes is defined as completion of the minimum 186 quarter units required for a bachelor's degree within five academic years.

In order to be eligible for competition in intercollegiate athletics, student athletes must earn units in courses acceptable toward a specific degree program according to the following schedule:

<table>
<thead>
<tr>
<th>Year</th>
<th>Quarter</th>
<th>Units Earned</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>1</td>
<td>12</td>

<td>15</td>
<td>186</td>
</tr>
</tbody>
</table>

This schedule permits the student athlete to enroll on a part-time basis one quarter each academic year to correct unit deficiencies.

Student athletes must formally declare a major by the beginning of their seventh quarter of collegiate enrollment.

Student athletes who transfer from other collegiate institutions shall be subject to the above minimum academic progress schedule upon enrollment at Cal State L.A. Such transfer students shall commence their progress in this schedule at the rate equal to the total number of full-time quarters in attendance.*

For freshmen and sophomores, no more than one-third (12) of the yearly minimum number of units (36) between seasons of competition may be electives. At least two-thirds (24) of the units must be in general education or major courses. For juniors and seniors, the quarter units earned must be in major and general education courses unless a student athlete's record clearly indicates that the completion of all required (major and general education) courses plus any previous elective courses will result in the student athlete being short of the required number of units for graduation.**

* Full-time attendance is defined by the NCAA as any quarter or semester in which a student athlete is enrolled in 12 or more units on the first day of instruction.

** Although based on the same academic work, the NCAA's units between seasons shall be considered a separate calculation.
Student athletes must maintain a minimum C (2.0 on a scale in which A = 4.0) grade point average at all times in both their overall collegiate record and their Cal State L.A. work in order to remain eligible for competition.

In the calculation of the required 24 units in major and general education courses, only courses in the primary major and in general education will be included. Although students may elect to take a minor and/or a second major, they are not required to do so. For this reason, courses in the minor and in the second major will be considered electives.

The major code shown on the student athlete’s permanent record card (PRC) at Cal State L.A. will be used to determine the student athlete’s official major. ***If for some reason that code is incorrect, it is the student athlete’s responsibility to correct the code by filing a form O-2 (change of objective) with the Office of Admissions. The student athlete must give a copy of the form O-2 to the Faculty Athletics Representative before the initial eligibility check. In the absence of such a form, the major code shown on the student athlete’s PRC will be used.

A student athlete must meet normal progress in both the current and proposed new major before changing majors. This means that changing majors is not a reason for failing to meet normal progress.

No seventh quarter athlete will be declared eligible unless the Faculty Athletics Representative has received the following:

1. Evidence of the student athlete’s formally declared major.
2. A copy of the student athlete’s department advisement form signed by the department adviser.

*** This meets the specific baccalaureate program requirement as mandated by the NCAA.

Courses in Athletics (ATHL)

Upper Division Courses

341-342 Intercollegiate Athletics (1-2 each)
Prerequisite: Consent of coach. Only NCAA-eligible student athletes may enroll and participate in these courses. Advanced practice in performance techniques in preparation for intercollegiate competition. A maximum of 10 units of intercollegiate athletic courses may be applied toward a baccalaureate. Graded CR/NC.

341 Series: Individual or Dual Sports (1-2 each)
- 341C Cross Country (Men’s) (Women’s) (1)
- 341N Tennis (Men’s) (1)
- 341T Tennis (Women’s) (2)

341F Track and Field (Men’s) (Women’s) (2)

342 Series: Team Sports
- 342B Baseball (Men’s) (2)
- 342K Basketball (Men’s) (Women’s) (2)
- 342S Soccer (Men’s) (2) Women’s (2)
- 342V Volleyball (Women’s) (2)
University Courses

Courses that are designed University (UNIV) frequently are interdisciplinary in nature. Some, such as UNIV 396, Honors Program Seminar, are limited to certain categories of students. Cooperative Education (UNIV 298, 398, and 498) and CPEL (UNIV 295) courses appear in this catalog under the title UNIV, but appear in the Schedule of Classes with the course abbreviations used by the various departments and divisions that offer them.

Detailed descriptions of the Credit for Prior Experiential Learning (CPEL), General Education Honors, and Cooperative Education programs will be found in the Undergraduate Study chapter of this catalog. Students should note that a limited amount of unit credit is allowed toward the baccalaureate for each of these programs. Policies and regulations differ among various departments, divisions, and schools. Each student should consult the appropriate major department, division, or school for specific procedures and instructions.

University Courses (UNIV)

Subcollegiate Courses

054 Special Topics (1-4)
Prerequisite: Varies with topic. Topics of special interest to wide university audience as announced in Schedule of Classes. May be repeated for credit as topic changes. No credit toward baccalaureate.

060 Study Group (1)
Corequisite: Associated course. Lecture methods and study skills development including reading comprehension, critical analysis of course content, time and task management note-taking, and test preparation.

Lower Division Courses

154 Special Topics (1-4)
Prerequisite: Varies with topic. Topics of special interest to wide university audience as announced in Schedule of Classes. May be repeated for credit as topic changes.

254 Special Topics (2)
Prerequisite: Varies with specific topic. Topics of special interest as announced in Schedule of Classes. Graded CR/NC.

295 Credit for Prior Experiential Learning (1-4)
Prerequisite: At least 45 units in residence but not more than 165 total units completed. Approval for registration must be obtained through University Undergraduate Studies office. Preparation of materials and portfolios documenting prior college-level learning acquired in nonacademic settings. Upon successful completion, 1-4 resident units will be awarded. In addition 1-8 units for nongraded, nonresident credit may be awarded for prior learning. These units may be upper or lower division and may apply toward the major with major department approval. Graded CR/NC.

298 Preparation for Cooperative Education (2)
Techniques of relating major to internship (work experience) through discipline-based research: documentation of transferable skills through resumes, interviews, and other reporting techniques appropriate to academic concentration; designed to enhance internship performance. Graded CR/NC.

Upper Division Courses

354 Special Topics (1-4)
Prerequisite: Varies with topic. Topics of special interest to wide university audience as announced in Schedule of Classes. May be repeated for credit as topic changes.

396 Honors Program Seminar (2)
Prerequisite: Limited to students in the GE Honors Program. Critical reading of seminal works affecting human thought and achievement. Topic and instructor(s) vary each quarter. May be repeated to maximum of 4 units.

398 Cooperative Education (1-4)
Prerequisites: Courses appropriate to the work experience: approval by major department Cooperative Education coordinator. Integration of work experience with academic program, individually planned through coordinator. Minimum of 10 hours per week required for each unit. May be repeated to maximum of 12 units; combined units of 398 and 399 may not exceed 12. Graded CR/NC.

399 Cooperative Education Honors (1-4)
In addition to prerequisites for UNIV 398, the prerequisites are UNIV 298 and eligibility to participate in a university or departmental honors program. Integration of work experience with academic program, individually planned through coordinator. Minimum of 10 hours per week required for each unit. May be repeated to maximum of 12 units; combined units of 398 and 399 may not exceed 12. Graded CR/NC.

401 Writing Proficiency (2)
Prerequisites: ENGL 102* and at least one attempt of the Writing Proficiency Exam (WPE). Development of a writing portfolio required to satisfy Graduate Writing Assessment Requirement (GWAR) / WPE. Instruction to assist student in achieving satisfactory levels of writing performance. Graded CR/NC.

454 Special Topics (1-4)
Prerequisite: Varies with topic. Topics of special interest to wide university audience as announced in Schedule of Classes. May be repeated for credit as topic changes.

498 Advanced Cooperative Education (1-4)
Prerequisites: Completion of senior level courses appropriate to experience; approval by major department Cooperative Education coordinator. Participation in work experience integrated with academic program; assignments arranged individually in advance through coordinator. Minimum of 10 hours per week required for each unit. Students in departments with graduate Cooperative Education programs may apply maximum of 4 units toward graduate degree program. Graded CR/NC.
LIBRARY COURSE

LIBRARY COURSE (LBR)

150 Library Skills (2)
Surveys Library reference and research methods, processes, materials and techniques. Students develop critical skills to effectively use electronic and print Library resources for locating information and preparing term papers, oral presentations, projects, and thesis.

Credentials

Basic Teaching Credentials

MULTIPLE SUBJECT MATTER PROGRAMS

Currently offered with the following undergraduate degrees:

- Afro-American Studies, BA
- Child Development, BA, Option II
- Earth Sciences, B.A.
- Geography, B.A.
- History, B.A.
- Latin-American Studies, BA
- Liberal Studies, BA
- Mexican-American Studies, BA
- Philosophy, B.A.
- Physical Education, B.S.

SINGLE SUBJECT MATTER PROGRAMS

The California Commission on Teacher Credentialing is in the process of requiring new Subject Matter Credential Programs at the time this catalog is going to press. All new subject matter credential students will be required to follow new programs when they are approved by the Commission. Those students enrolled in an existing program before the expiration date will be required to complete the existing program by that date. Students should contact subject matter program advisers for the latest information.

An internship credential option is available for the subject matter credential.
SUPPLEMENTARY AUTHORIZATIONS

The holder of a multiple subject or a single subject teaching credential issued by the California Commission on Teacher Credentialing may have one or more of the subjects commonly taught in departmentalized classes added to the credential as a supplementary authorization by verifying completion of the requirements specified in Title 5, California Code of Regulations, 80057.5 or 80089, 8089.1, and 80089.2. Supplementary authorizations cannot be issued in any subject that falls within the statutory single subject category of an applicant’s single subject teaching credential.

A partial listing of supplementary authorizations and the credentials to which they apply are listed below. Recommended courses for these are included in department listings earlier in the catalog. Interested students should consult an adviser in the specific department about other appropriate course work. Contact the Office of Student Services in the Charter School of Education (KH D2078) for information concerning the specific requirements for subjects approved for supplementary authorization and the procedure to apply to the Commission.

GRADUATE AND POSTBACCALAUREATE STUDY

General Information

Graduate study has been a major part of the academic commitment of California State University, Los Angeles since its founding. Students engaged in graduate and postbaccalaureate study constitute nearly one third of the total student body.

Cal State L.A. offers Master of Arts and Master of Science degrees, with opportunities for specialization through the selection of options or areas of emphasis within degree programs. Also offered are the Master of Business Administration degree, Master of Fine Arts degree in Art, the Master of Arts, Master of Music, and Master of Science degrees with an Interdisciplinary Studies major, and the Doctor of Philosophy degree in Special Education. The complete list of degrees offered appears at the front of this chapter.

Postbaccalaureate students pursue teaching credentials, certificate programs, and personal enrichment courses.

Objectives of Graduate Study

Cal State L.A.'s graduate programs are coherent patterns of study designed for a level of academic accomplishment substantially beyond that required for the baccalaureate. Graduate programs enable students to progress in their chosen vocations, to assume positions of leadership, and to contribute to the advancement of their professions. Graduate study helps students to develop greater awareness of themselves in relation to other people and cultures, both present and past, and to gain a better understanding of their particular professions. Completion of a Master's degree program at Cal State L.A. also prepares students for further graduate study appropriate to their abilities and ambitions.

Desirable Student Qualifications

In order to gain maximum benefit from postbaccalaureate or graduate study, students should possess the following:

- Sufficient knowledge and understanding of their chosen field of study to pursue it effectively at an advanced level.
- Basic techniques, skills, and methods necessary for research investigation and other practical applications of knowledge.
- Sufficient maturity and intellectual curiosity to pursue independent study and learning beyond regular assignments.
- Achievements, aptitudes, and abilities at superior levels to ensure scholarly performance considerably above the average.

Responsibility of the Student

Responsibility for meeting all requirements and following all procedures by the published deadlines rests with the student. In extraordinary circumstances, exceptions to requirements for graduate study established by departments/divisions, schools, and the university may be granted.

Graduate Degrees and Postbaccalaureate Study

Characteristics of Master's Degrees

California State University, Los Angeles offers the following Master's and doctorate degrees: Master of Arts, Master of Business Administration, Master of Fine Arts, Master of Music, Master of Science, and Doctor of Philosophy. All five master's degrees and the doctorate degree require greater depth of study and increased demands on student intellectual or creative capacity than the baccalaureate. Characteristics of individual degrees are described below.

Specific information about admission requirements, curriculum, and graduation requirements for these programs is listed alphabetically by school and department in the academic department and division descriptions which follow this chapter.

The Master of Arts (M.A.) degree provides a broadened cultural background in a recognized disciplinary field or improvement of professional competence.

The Master of Business Administration (M.B.A.) degree provides a program of professional preparation for management positions in business and industry.

The Master of Fine Arts (M.F.A.) degree in Art provides specialized training and education for artists and designers in design, computer graphics, painting and printmaking, sculpture, ceramics, textiles, and metalsmithing.

The Master of Music (M.M.) degree is a professional performance degree that prepares students for professional performance, for teaching in community colleges and for advanced study.

The Master of Science (M.S.) degree provides the opportunity to improve professional competence in areas and approaches involving intense specialization.

The Doctor of Philosophy (Ph.D.) degree in Special Education, which provides advanced preparation in this diverse professional field, is offered jointly with the University of California, Los Angeles.

Interdisciplinary Studies Master's Degrees

The Interdisciplinary Studies Master of Arts or Master of Science degree is a highly restricted interdisciplinary program for students whose professional or academic objectives are unique and cannot be met by existing master's degree offerings. It consists of an individual program of course offerings from at least two departments/divisions in related disciplines and must provide sharp focus and appropriate coherence.

Teaching Credentials

Teaching, specialist, and services credential programs are available to students who hold the baccalaureate. Students who seek teaching credentials must fulfill admission criteria and program requirements established by the Charter School of Education in accordance with the California Commission on Teacher Credentialing. Students who are admitted into a teaching credential program are referred to as postbaccalaureate classified students. Description of admission criteria and program requirements appear in the undergraduate and graduate Charter School of Education chapters.

Credit Certificate Programs

Students with a baccalaureate may enroll in a certificate program to receive specialized instruction and training within a particular field. Students who pursue a certificate must fulfill admission criteria and program requirements established by the departments, divisions, and schools that offer the programs.

Descriptions of certificate programs that require the baccalaureate for admission appear later in this chapter. Individual admission and program requirements appear in academic department and division listings in the chapters that follow this chapter.

Enrichment Courses

Persons who hold a bachelor's degree may enroll in courses that provide them with personal enrichment. Because such students are not enrolled in specific graduate programs, they are referred to
as postbaccalaureate unclassified students. They must fulfill all University eligibility requirements for admission and for continuing student academic standing. Because they are not enrolled in graduate programs, they will not receive a masters degree from Cal State L.A.

**Organization of Graduate Study**

Graduate study at Cal State L.A. is organized and administered by each of the six schools within the University, with coordination provided by the Dean of Graduate Studies and Research.

This Graduate Programs section of this catalog describes the requirements, regulations, and procedures for engaging in graduate study. General University regulations and procedures that apply to both undergraduate and postbaccalaureate or graduate students are explained under Admission and Procedures and Regulations earlier in this catalog.

Requirements for admission, advancement to classified graduate standing and candidacy, and graduation described in this section apply to all advanced degree programs. Any additional requirements are stated in the descriptions of the individual programs.

Each department and division that offers graduate degree programs and/or credential programs has a principal graduate adviser as well as credential advisers. The names and phone numbers of these advisers appear each quarter in the Schedule of Classes. Appointments to see these advisers can be made in their respective department or division offices.

**Admission Requirements**

**General Requirements**

Graduate and postbaccalaureate applicants may apply for a degree objective, a credential or certificate objective, or may have no program objective. Depending on the objective, the CSU will consider an application for admission as follows:

The minimum requirements for admission to graduate and postbaccalaureate studies at a California State University campus are in accordance with University regulations as well as Title 5, Chapter 1, Subchapter 3, of the California Code of Regulations. Specifically, a student shall:

- have completed a four-year college course of study and hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association, or have completed equivalent academic preparation as determined by the appropriate campus authorities.
- be in good academic standing at the last college or university attended.
- have attained a grade point average of at least 2.5 (A=4.0) in the last 90 quarter (60 semester) units attempted. (The entire quarter or semester in which the 90 quarter [60 semester] units began will be used in this calculation.)
- satisfactorily meet the professional, personal, scholastic, and other standards for graduate study, including qualifying examinations, as appropriate campus authorities may prescribe.

If you meet the minimum requirements for graduate or postbaccalaureate studies, you will be considered for admission in one of the four following categories:

- **Postbaccalaureate Unclassified.** To enroll in courses for professional or personal growth, you must be admitted as a postbaccalaureate unclassified student. By meeting the minimum requirements, you are eligible for admission as a postbaccalaureate unclassified student. Some departments and divisions may restrict enrollment of unclassified students due to heavy enrollment pressure. Admission in this status does not constitute admission to, or assurance of, consideration for admission to any other graduate degree or credential program; or
- **Postbaccalaureate Classified.** To enroll in a credential or certificate program, you will be required to satisfy additional professional, personal, scholastic, and other standards, including qualifying examinations, prescribed by the campus; or
- **Graduate Conditionally Classified.** You may be admitted to a graduate degree program in this category if, in the opinion of appropriate campus authority, you can remedy deficiencies by additional preparation; or
- **Graduate Classified.** To pursue a graduate degree, you will be required to fulfill all of the professional, personal, scholastic, and other standards, including qualifying examinations, prescribed by the campus.

Admission to a California State University campus with postbaccalaureate unclassified standing does not constitute admission to graduate degree curricula. Also, individual schools and which students must fulfill before they may be accepted into degree, credential, and certificate programs at Cal State L.A.

Some applicants are initially admitted to Cal State L.A. in postbaccalaureate unclassified standing. Those who meet all requirements for any other category may achieve such standing prior to their first quarter of enrollment. Applicants not regularly admissible
may petition for admission by special action as described later in this chapter.

Additional general procedures and regulations that apply to all applicants, graduate and undergraduate, are described under the Admission chapter near the front of this catalog.

Special Action Admission

In unusual circumstances, a campus may make exceptions to admission criteria and grant admission by special action. For special action admission, applicants who were in good standing at the last college attended but who do not meet the mandated admission requirements may petition for admission by special action if acceptable alternative evidence exists that they possess sufficient academic, professional, and other potential pertinent to their proposed graduate objective. Special action admission may be granted by the appropriate school graduate dean upon recommendation of both the proposed major department or division and school graduate studies committee for any of the following three reasons:

1. Applicants Lacking Minimum Required Grade Point Average

Students admitted by special action to pursue a masters degree program will be admitted to conditionally classified graduate status and must complete specific prerequisites and a minimum of 14 units of qualifying courses specified by the major department or division and school graduate dean with a minimum B (3.0 on a scale in which A = 4.0) grade point average, as specified under Requirements for Classified Graduate Standing later in this chapter. Students admitted to pursue a nondegree program (e.g., credential, certificate) must complete special requirements as designated by the major department or division and school graduate dean.

2. Graduates of Unaccredited Institutions

A degree from an unaccredited college is not recognized for admission in postbaccalaureate or graduate standing. Graduates of such institutions may be admitted in undergraduate standing if course work completed is deemed acceptable and meets undergraduate admission requirements, and may be granted postbaccalaureate or graduate standing upon satisfaction of the following conditions:

- Meet the minimum University, school, and department or division requirements for admission to classified graduate standing in a degree program.
- Complete a minimum of four upper division courses (at least 14 quarter units), specified in advance by the proposed major department or division, with a grade point average of at least B (3.0). These courses may not be 500 level. Upon recommendation of the department/division and the school graduate dean, 400-level qualifying courses may be applied to the master's degree program.
- Receive the written recommendation of the department or division in which the degree is sought and of the appropriate school graduate dean.
- An applicant with a bachelor's degree from an unaccredited institution and a master's degree from an accredited institution may be admitted as a regular postbaccalaureate or graduate student, assuming that all other requirements have been met and that appropriate approvals have occurred.

3. Graduates of Specialized or Professional Schools

Graduates of specialized or professional schools that are professionally accredited are admitted in conditionally classified graduate status. They may be granted classified graduate standing by satisfying the following conditions:

- Meet the minimum University, school, and department or division requirements for admission to classified graduate standing in a degree program.
- Complete a minimum of four upper division qualifying courses (at least 14 quarter units), specified in advance by the proposed major department or division, with a grade point average of at least B (3.0). After they have completed their faculty-approved list of qualifying courses, students may not add any additional courses, nor may they repeat any of the qualifying courses, in order to raise their grade point average.
- Receive the written recommendation of the department or division in which the degree is sought and of the appropriate school graduate dean.

Interdisciplinary Studies Master's Degree Admission Requirements

For the Interdisciplinary Studies Master's degree, in addition to meeting minimum University requirements for admission to classified graduate standing, applicants must possess a baccalaureate in an area cognate to the areas of the proposed degree, must have a minimum 2.75 grade point average (A=4.0) in the last 90 quarter units attempted, and must meet all school requirements and such department or division requirements as course prerequisites, test scores, and grade point average for the master's degrees of the schools and departments/divisions in which course work for the Interdisciplinary Studies Master's is proposed. Approval for an Interdisciplinary Studies Master's is based upon individual justification. If course work is to be taken in departments/divisions in more than one school, students must make formal written application to the Dean of Graduate Studies and Research. If a majority of course work is to be taken in departments/divisions within one school, students are required to make formal written application to the school graduate dean. All applications must include:

- Clear and concisely stated rationale for pursuing an Interdisciplinary Studies Master's and an indication of the professional/academic objectives to be achieved. This rationale must include evidence clearly indicating that the Interdisciplinary Studies program could not be accommodated within any existing approved master's degree program on this campus.
- A proposed list of available courses chosen from two or more departments/divisions totalling a minimum of 45 units, of which at least 23 units must be 500 level.
- An indication of whether a comprehensive examination or thesis or project will be used to complete the graduate program. If a thesis or project is proposed, a preliminary description of the thesis topic or research project is to be included. If a comprehensive examination is proposed, an indication of the areas in which the student will be examined is to be included.
- Names and areas of specialization of at least two faculty members representative of those who might consent to serve on the advisory committee for such a degree program.

The Dean of Graduate Studies and Research must approve all programs that will include course work from more than one school. The student's program is subject to University graduate procedures and regulations that govern all graduate degree offerings.

International (Visa) Student Admission Requirements

The CSU must assess the academic preparation of international (foreign/visa) students. For this purpose, "foreign students" include those who hold U.S. visas as students, exchange visitors, or in other nonimmigrant classifications.
The CSU uses separate requirements and application filing dates in the admission of international (foreign/visa) students. Verification of English proficiency (see the Admission chapter for information about the TOEFL requirement), financial resources, and academic performance are all important considerations for admission. Academic records from foreign institutions must be on file at least eight weeks before registration for the first term and, if not in English, must be accompanied by certified English translations.

California residents receive admission priority. There is little likelihood of nonresident applicants, including international students, being admitted to either impacted majors or to those with limited openings. Consult individual academic departments/divisions for specific program requirements and limitations.

For admission in postbaccalaureate or graduate standing, international applicants must fulfill the following minimum requirements:

- Possess a baccalaureate, or its equivalent, from an accredited institution.
- Have a minimum 2.5 grade point average (A=4.0) in the last 90 attempted quarter units equal to that required for admission to classified graduate standing.
- Have approval of the academic department or division offering the desired degree program.

International students should contact International Student Services for information about housing, financial assistance, and related matters.

**Application Procedures**

All graduate and postbaccalaureate applicants (e.g., masters degree applicants, those seeking credentials, and those interested in taking graduate-level courses for personal or professional growth) must file a complete graduate application as described in the graduate and postbaccalaureate admission booklet. Applicants who completed undergraduate degree requirements and graduated the preceding term are also required to complete and submit an application and the $55 nonrefundable application fee. Since applicants for postbaccalaureate programs may be limited to the choice of a single campus on each application, redirection to alternate campuses or later changes of campus choice will be minimal. To be assured of initial consideration by more than one campus, it will be necessary to submit separate applications (including fees) to each. Applications may be obtained in Student Affairs 101 or from the Graduate Studies Office of any California State University campus in addition to the sources noted for undergraduate applicants.

Postbaccalaureate applicants who completed undergraduate degree requirements and graduated from Cal State L.A. the preceding quarter are also required to complete and submit an application and the nonrefundable application fee. (Second baccalaureate applicants should apply as undergraduate degree applicants.)

The CSU uses separate requirements and application filing dates in the admission of international (foreign visa) students. For these purposes, “foreign students” are residents of a country other than the United States or who hold visas as students, exchange visitors, or in other nonimmigrant classifications.

Some academic departments/divisions require applications to their respective graduate programs in addition to the University admission application and may have earlier deadlines than the University admission application deadline. Applicants should contact individual departments/divisions for further information or refer to individual programs later in this catalog.

Students accepted at Cal State L.A. for postbaccalaureate or graduate study must enroll in the quarter for which application was made. Failure to enroll will result in cancellation of admission; see “Reapplication after Failure to Enroll” in the Admission chapter earlier in this catalog.

**APPLICATION FILING PERIODS**

<table>
<thead>
<tr>
<th>Terms in</th>
<th>Applications First</th>
<th>Student Notification Begins</th>
</tr>
</thead>
<tbody>
<tr>
<td>Summer Quarter 1997</td>
<td>Feb. 1, 1997</td>
<td>March 1997</td>
</tr>
<tr>
<td>Fall Quarter 1997</td>
<td>Nov. 1, 1996</td>
<td>Dec. 1996</td>
</tr>
<tr>
<td>Winter Quarter 1998</td>
<td>June 1, 1997</td>
<td>July 1997</td>
</tr>
<tr>
<td>Winter Quarter 1999</td>
<td>June 1, 1998</td>
<td>July 1998</td>
</tr>
</tbody>
</table>

**Filing Period Duration**

Each campus accepts applications until capacities are reached. If applying after the initial filing period, consult the campus Admissions Office for current information.

**Application Filing Periods for International (Visa) Applicants**

Application filing periods for international (visa) applicants differ from those for domestic applicants because of additional time required in evaluating records and preparing necessary documents for the Immigration and Naturalization Service (INS). The filing periods are established as follows:

<table>
<thead>
<tr>
<th>Quarter</th>
<th>Application Filing Period</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall Quarter</td>
<td>November 1-30</td>
</tr>
<tr>
<td>Winter Quarter</td>
<td>June 1-30</td>
</tr>
<tr>
<td>Spring Quarter</td>
<td>August 1-31</td>
</tr>
</tbody>
</table>

The Admissions Officer may waive this advance application requirement if circumstances warrant. In addition to the academic requirements outlined below, international students must have competence in the English language, financial resources adequate to provide for all expenses during their period of study at Cal State L.A., and must be in good health. Those admitted to this country on the basis of acceptance by another college are expected to complete at least one year at that college before applying for admission to Cal State L.A.

**Application Acknowledgment**

Normally, applicants may expect to receive an acknowledgment of their application from their first-choice campus within two to four weeks of filing the application. A notice that space has been reserved will also include a request to submit the records (transcripts and test scores) necessary for the campus to evaluate qualifications. They may be assured of admission if the evaluation of qualifications indicates that they meet admission requirements. Such a notice is not transferable to another term or to another campus.

**Transcript Requirements**

Applicants with either a degree or credential objective must request that two copies of official transcripts from each college or university previously attended be sent directly to the Admissions Office. Applicants who are required to have one copy of their transcripts sent to an academic department or division as part of their major program application and those applying without a degree or cre-
All candidates for master’s degrees at Cal State L.A. must complete the following minimum requirements:

**Unit Requirement.** Completion of at least 45 quarter units in approved courses, of which at least half (23) must be in graduate (500-level) courses. Masters degree programs whose minimum total units are established at more than 45 quarter units must include at least half of those units in courses at the graduate (500) level.

**Grade Point Average Requirement.** Achievement of a minimum B (3.0) grade point average in all courses on the approved degree program. A grade of C is allowed on the program: however, any grade below C requires that the course be repeated with both grades computed in the grade point average.

**Residence Requirement.** At least 32 quarter units for the master’s degree completed in residence at Cal State L.A.

**Postbaccalaureate Writing Proficiency Requirement.** Fulfillment of the Postbaccalaureate Writing Proficiency Requirement, as described later in this chapter.

**Culminating Experience Requirement.** A comprehensive examination or a thesis or project as described later in this chapter.

**Completion of Program.** Completion of the final approved program and any special department or division requirements and the passing of a comprehensive examination within the number of attempts allowed by the department or division and school or the filing of a thesis or project report approved by the candidate’s thesis/project committee and cleared by the Library.

**Time Limitation.** No subject, unit, or grade credit will be granted for any course completed more than seven years prior to the date of completion of the masters degree. In extraordinary circumstances students may petition and the school may grant permission to validate such an expired course by an examination given by and with the concurrence of the department or division offering the course. An expired course taken at another institution may not be validated by examination.

**Faculty Recommendation.** Recommendation for the degree by the faculty.

**Advisement.** As the first step of registration, all students must obtain department or division approval of the courses selected for each quarters study program. To assist in the initial advisement and course selection process, newly admitted students must bring a personal copy of their college transcripts and their evaluation, if received.

Early in their first quarter, students should make an appointment with a graduate faculty adviser to plan a complete program of study for the degree, if this cannot be accomplished during the advisement session preceding the initial registration. The approved master’s degree program becomes the basis for evaluating the students eligibility for receiving the degree. Changes in the program of study may be made only with the approval of the students academic adviser and school graduate dean. Students who have not declared a degree or credential objective should consult the Associate Dean of Graduate Studies and Research, Administration 710.

**Graduation Writing Assessment Requirement (GWAR) (Postbaccalaureate Writing Proficiency Requirement)**

All CSU students must demonstrate competence in writing skills as a requirement for graduation. All Cal State L.A. postbaccalaureate and graduate students who entered Cal State L.A. summer 1984 or later and who are pursuing a graduate degree or a credential are required to satisfy this requirement in one of the following ways:

- Pass the Writing Proficiency Examination (WPE) required for the Cal State L.A. baccalaureate. Postbaccalaureate students who select this option must register for the WPE (listed as UNIV 400 in the Schedule of Classes) no later than the add deadline for the first quarter they are enrolled in a graduate or credential program. Failure to register for the WPE will void enrollment for that quarter; or
- Postbaccalaureate students who hold an earned doctorate from an accredited college or university where the primary language of instruction is English may substitute such a degree for passing the WPE; or
- Postbaccalaureate students who have passed a writing proficiency examination or a graduation writing assessment examination, in English, at any accredited college or university where the primary language of instruction is English may petition to substitute such a result for passing the WPE at Cal State L.A.

Students who receive a No Credit (NC) grade on the WPE must meet with a WPE consultant in the University Writing Center to discuss deficiencies identified by the exam and receive recommendations of activities to correct these deficiencies. Based on the recommendations from the WPE consultant, students may retake the WPE or enroll in UNIV 401, the upper division writing proficiency course.

Postbaccalaureate students must satisfy this postbaccalaureate requirement within the first three quarters of their graduate (conditionally classified or classified) or credential program or prior to the completion of 16 units, whichever comes later. Students must satisfy this postbaccalaureate writing requirement within the required time in order to be eligible for continued registration.

Departments and divisions may require of their majors additional discipline-based course work in writing. See a faculty adviser concerning major department or division requirements.

Petitions for certification of the postbaccalaureate writing require-
ment shall be made at the school level and results reported to the
Dean of Graduate Studies and Research. A student who has
satisfied the postbaccalaureate writing requirement shall continue
to be certified with no time limit on such certification.
Postbaccalaureate unclassified students are not required to satisfy
this postbaccalaureate writing requirement.
The School of Natural and Social Sciences has an additional
Graduate Writing Skills Requirement policy which appears in the
front of the graduate programs chapter for that school.
Additional information about the WPE is available in the Schedule
of Classes and at University Learning Services.

Credit for Transfer Work. To receive credit toward a masters
degree for acceptable postbaccalaureate work taken at other col-
leges or universities, students must have official transcripts for-
warded to the Admissions Office, and must file a “Request for
Records” (Form GS-1A) with their major department or division.
Cal State L.A. will allow credit for work taken at another college or
university only when it appears on the students official transcript
from that institution, is acceptable for masters degree credit at the
offering institution, and is deemed appropriate to the students
major’s degree program by the major department or division at
Cal State L.A. The following limitations and exclusions apply:

- For masters degrees requiring 45 total units, no more than 13
  quarter units of acceptable transfer, extension and/or special
  session courses may be included on a master’s degree pro-
  gram. For masters degrees requiring more than 45 quarter
  units, up to 30% of the total required units may consist of ac-
  ceptable transfer, extension and/or special session courses,
  providing such action is approved by the appropriate gradu-
  ate/departmental adviser.

- No master’s degree credit is allowed for directed teaching,
  700- or 800-level courses, courses numbered below 400, or
courses taken at another accredited institution that would not
  be accepted toward a master’s degree at that institution.

- Nine quarter units of 500-level or other graduate courses
taken through extension are eligible for masters degree credit.

Work Taken Prior to Approval of Program. No more than 13
quarter units of acceptable course work completed prior to approval
by the principal graduate adviser, major department or division, and
school graduate dean may be included on a masters degree
program. This includes acceptable transfer work. Credit for thesis
(i.e., 599) research (i.e., 597) or comprehensive examinations
(i.e., 596) is not transferable. All other course work included on the
master’s degree program must be completed after approval by the
principal graduate adviser, major department or division, and
school graduate dean. This policy shall not apply to students
admitted to a master’s degree program offered jointly with other
educational institutions.

Extension Courses. No graduate credit will be allowed for ex-
tension courses that would not be accepted toward a masters
degree at the offering institution (e.g., University of California
extension courses in the X300 or X400 series) unless specifically
approved in advance by the major department or division and
school concerned.

Classified Graduate Standing

Requirements for Classified Graduate Standing

- All students who have declared a masters degree objective
  are admitted to and remain in conditionally classified standing
  until the following conditions are met. Classified graduate
  standing constitutes admission to an authorized graduate de-
  gree curriculum and is granted by the school graduate dean
upon completion of all requirements listed below and upon the
recommendation of the major department or division.

The requirements enumerated below are minimum University re-
quirements. Departments/divisions or schools may utilize addi-
tional or more restrictive requirements for admission to classified
graduate standing in individual master’s degree curricula. The
minimum University requirements for admission to classified
graduate standing are as follows:

- A minimum 2.5 grade point average computed on the last 90
  attempted quarter units of work which shall include all units
taken in the quarter in which the 90th unit occurs. This grade
  point average requirement shall not apply to students who
  hold an advanced degree from an accredited institution.

- Certification by the major department/division to the school
  graduate dean that all department/division admission require-
ments, procedures, and prerequisites have been completed.

- Filing of a master’s degree program with the school graduate
dean during the student’s first quarter of graduate enrollment
at Cal State L.A. The program must be approved by the prin-
cipal graduate adviser and the major department/division.

Any change in the program must be approved by the principal
graduate adviser, the major department/division, and the
school graduate dean prior to completion of courses affected
by the change. This includes courses in which a grade of In-
complete is received.

Special Action Admission Students

- Except for those who hold an advanced degree from an ac-
credited institution, all students admitted by special action
must complete a minimum of 14 quarter units of upper divi-
sion qualifying courses on a formally approved Master’s de-
gree program with a minimum B (3.0) grade point average
with the following conditions:

- The principal graduate adviser, major department or division,
  and school graduate dean must approve qualifying courses
  prior to their completion. Courses graded CR/NC may not be
  used on the qualifying program.

- Upon recommendation of the principal graduate adviser and
  the major department or division, and with the approval of the
  school graduate dean, qualifying courses may be waived for
  students whose postbaccalaureate work demonstrates prom-
  ising ability required for graduate study. To be
  eligible for recommendation of such a waiver a student must
  have completed, with a minimum B (3.0) overall grade point
  average, 14 or more quarter units of upper division or gradu-
  ate level postbaccalaureate work at an accredited institution
  that is acceptable toward a master’s degree at that institution.

- Failure to achieve a B (3.0) grade point average in qualifying
courses will result in the students termination in the degree
program.

Admission to Classified Graduate Standing

When the major department or division provides the school gradu-
ate dean with the necessary documentation indicating that all
requirements for classified graduate standing have been met, the
conditional program, if filed, or the masters degree program then
submitted will be approved by the school graduate dean and will
become the students official master’s degree program. This
graduate program is a statement of academic requirements that
students must complete for the master’s degree. Students must
have an approved master’s degree program and must have
achieved classified standing before they can be advanced to
candidacy.
Other Graduate and Postbaccalaureate Regulations

Admission to 500-Level Courses

Students admitted with postbaccalaureate classified, graduate classified or graduate conditionally classified standing may enroll in 500-level courses. The following exceptions and restrictions apply:

- Postbaccalaureate unclassified students may register for 500-level courses if the department chair determines that there is space available. These students must have satisfied all prerequisites for the course and have obtained approval of the instructor, the principal graduate adviser, and the chair of the department/division offering the course.
- Undergraduate students may, with prior approval and subject to policies governing graduate credit for undergraduate students, enroll in one 500-level course. See Graduate Credit for Undergraduate Students.
- Matriculated CSLA students may not enroll in Open University courses. Students who are not matriculated at Cal State L.A. may enroll in 500-level courses through the Open University (concurrent enrollment) Program administered by the Office of Continuing Education. These students must have satisfied all prerequisites for the course and have obtained approval of the instructor and the chair of the department/division offering the course.
- Schools and departments/divisions may impose additional restrictions. For all programs, no more than 20% of a student's total units may be completed at the 500 level prior to the formal approval of the students official program by the students principal graduate adviser, the students department and the student's school graduate dean. In addition, all such students must have completed either the prerequisites for the course or equivalent competency.

Enrollment in Degree Credit-Granting Classes through Continuing Education.

A student who is matriculated in the University in continuing status may enroll in, and earn residence credit for, courses that are offered through Continuing Education in self-support special sessions. Any course or program offered in special session must, each time that it is offered, have the approval of the appropriate School Dean and the Provost and Vice President for Academic Affairs. Matriculated students in the University in continuing status may not enroll in degree credit-granting classes offered under state support and made available to students by Continuing Education through Open University.

Courses Completed in Undergraduate Standing.

No courses taken as an undergraduate may be included on a masters degree program except as specifically provided for baccalaureate candidates in their final quarter of undergraduate study.

Undergraduate Preparation.

No credit toward a masters degree is allowed for course work taken to meet necessary undergraduate preparation for a masters degree program.

Course Additions/Deletions.

A course may not be added to or deleted from a master's degree program after it has been taken. Any change in the masters degree program must be approved in advance by the principal graduate adviser, major department or division, and school graduate dean. When such a change has been approved, it becomes part of the master's degree program.

Program Change Limitation.

No more than nine quarter units beyond the total number of units approved at the time a student achieves classified graduate standing may be added to a students master's degree program.

Course Prerequisites and Corequisites.

Students are responsible for fulfilling prerequisites and corequisites. The instructor and department or division have the authority to waive specific prerequisites and/or corequisites for students who have completed equivalent courses at another institution, who have had equivalent experience (such as work experience), or who possess the needed skills to proceed with the work of the course. Students should consult the instructor before registering to determine whether the course(s) or experience will justify waiver of the stated prerequisite(s) and/or corequisite(s).

Qualifying Courses.

All qualifying courses that are otherwise eligible may be included in a masters degree program if recommended by the principal graduate adviser and major department or division and approved by the school graduate dean. Approval to include qualifying courses on the masters degree program must be obtained prior to completion of the courses.

Student Use of Human Subjects or Animals.

Students, like all others in the University community, must follow established University and federal guidelines when using human subjects or animals either in research or as part of a course activity. Prior approval by the relevant campus committee must be obtained when necessary. For further information, please contact the Office of Research and Sponsored Programs (ext. 3-5366) or visit its World Wide Web site at http://web.calstatela.edu/academic/orsp.

Probation and Disqualification.

Graduate students are subject to the following probation and disqualification criteria for administrative-academic deficiencies:

Administrative-Academic Probation. Provision has been made by the Office of the Chancellor whereby students may be placed on administrative-academic probation for any of the following reasons:

- Withdrawal from all or a substantial portion of courses for which they registered in two successive quarters or in any three quarters.
- Repeated failure to progress toward a stated degree or program objective when such failure is within their control.
- Failure to comply, after due notice, with a routine academic requirement or regulation.

Notice is given in writing of the conditions for removal from administrative-academic probation, as well as circumstances that would lead to disqualification should probation conditions not be rectified.

Disqualification Regulations.

- Classified graduate students whose grade point average in course work on their master's degree program falls below B (3.0) will be placed on scholastic probation. Classified graduate students whose grade point average falls below B (3.0) in all courses completed subsequent to admission to the program are subject to scholastic probation. If after being placed on scholastic probation they do not raise their average to B (3.0) after completion of 16 units or two quarters in residence, whichever comes later, they will be disqualified from pursuing the masters degree program in which they were classified. Classified graduate students whose grade point average falls more than nine grade points below B (3.0) will be disqualified from pursuing the masters degree program in which they were classified. If disqualified from a master's degree program, students may be admitted to another program only on the recommendation of the new major department or division concerned and with the approval of the appropriate school graduate dean.
- Conditionally classified graduate students whose grade point average in course work on their master's degree program falls
below B (3.0) will be placed on scholastic probation. Conditionally classified graduate students whose grade point average falls below B (3.0) in all units completed subsequent to becoming conditionally classified are subject to scholastic probation. If after being placed on scholastic probation they do not raise their average to B (3.0) after completion of 16 units or two quarters in residence, whichever comes later, or if they fail to achieve a B (3.0) in their qualifying courses, they will be disqualified from the master’s degree program in which they were conditionally classified. If disqualified from a masters degree program, conditionally classified students may be admitted to another program only on the recommendation of the new major department or division concerned, with submission of a new list of qualifying courses and the approval of the appropriate school graduate dean.

- Postbaccalaureate unclassified and postbaccalaureate classified students whose grade point average falls below 2.5 will be placed on scholastic probation. When, on scholastic probation, they do not raise their average to 2.5 after completion of 16 units or two quarters in residence, whichever comes later, they will be disqualified from pursuing course work at Cal State L.A.

- All units earned in the quarter in which the sixteenth unit is completed will be used in computing the grade point average.

- Students disqualified for scholarship deficiency may not enroll in any regular quarter at Cal State L.A. without permission from the appropriate school graduate dean and may be denied admission to other educational programs operated or sponsored by the campus.

- Students enrolled in graduate degree programs, credential programs, and postbaccalaureate credit certificate programs are not eligible for Academic Renewal.

- Postbaccalaureate students pursuing a second or subsequent baccalaureate are subject to the same probation and disqualification standards as seniors. These are outlined in the Procedures and Regulations section near the front of this catalog.

### Advancement to Candidacy

Advancement to candidacy is a part of the continuing process of review of the student’s progress and is not automatic. It is granted by the school graduate dean upon completion of the requirements listed below and upon the recommendation of the major department or division. It is the University prerequisite to enrolling for the thesis, project, or comprehensive examination; individual departments/divisions and schools may have additional requirements.

Advancement to candidacy requires:

- Satisfaction of Graduation Writing Assessment Requirement.
- Classified graduate standing.
- An approved masters degree program on file in the school graduate studies office.
- Completion of a minimum of 16 quarter units of the master’s degree program with an overall B (3.0) grade point average or higher.
- Recommendation of the major department or division.
- Approval of the school graduate dean.

Only students who are advanced to candidacy are eligible to enroll for comprehensive examinations (course #596 in their major discipline) or for thesis or project units (course #599 in their discipline).

### Culminating Experience

#### Comprehensive Examinations

Each program offering the comprehensive examination for the master’s degree shall implement and maintain in writing explicit guidelines that address both content and procedures relating to the examination. All comprehensive examinations must conform to the following requirement of Title 5, i.e., “A comprehensive examination is an assessment of the student’s ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter. The results of the examination evidences independent thinking, appropriate organization, critical analysis, and accuracy of documentation. A record of the examination questions and responses shall be maintained in accordance with the records retention policy of The California State University.”

Students must fulfill all department or division requirements for the written and/or oral comprehensive examinations. Such requirements include, but are not limited to, the date and time for the comprehensive examinations, length of testing, topics covered, and number of questions for the comprehensive examinations.

Students whose programs require a comprehensive examination must declare to their major department or division, at least one quarter in advance, their intent to take it, obtain department or division permission, and register for the comprehensive examination which carries the course number 596 in their major discipline. Students who are not enrolled in any credit-bearing course during the quarter in which they take the comprehensive examination must pay the comprehensive examination fee. Students electing comprehensive examination options are not permitted to enroll in UNIV 900. Payment of State University, student services, facilities, and associated student fees, or any tuition charges, is not required.

Students should expect to take their comprehensive examinations during the quarter in which they complete all course work on their program or shortly thereafter. Those who do not pass the comprehensive examinations must fulfill any department, division, and/or school requirements for subsequent enrollments in these examinations.

#### Thesis or Project Requirements

Students who choose a thesis or project for their master’s degree culminating experience should consult the official campus “Guide to Preparation of Master’s Theses and Project Reports,” copies of which are available in department offices for reference or in the campus bookstore for purchase. It provides information on the following: procedures, regulations and responsibilities governing the master’s thesis or project; general requirements for thesis preparation and acceptance; format requirements for the thesis; and special instructions for projects and project reports. In addition, students must obtain specific department requirements from their adviser.

Graduate students completing research units (597) and thesis or project units (599) required for master’s degrees must be regularly enrolled during any quarter in which they use University facilities or consult with faculty.

Students who have exceeded the one calendar year time limitation associated with the SP grading symbol for research units (597) must petition to register in UNIV 900. Petition forms and instructions are available in school graduate studies offices.

Students who have previously enrolled in all allowable research units (597) and are not enrolled in any other credit-bearing courses or thesis or project units (599) but who will use University facilities or consult with faculty must register in UNIV 900.
To maintain residence requirements and continuing student registration privileges, graduate students who are not enrolled in credit-bearing course work must register for UNIV 900 two quarters out of four.

Once officially accepted and processed, masters theses and projects are made available to the public through the Library.

**Application for Graduation**

Application for graduation (degree check) is made on a form available at Administration 146 or any academic department or division office. Permission to apply for graduation must be granted by the candidate's major department or division before the completed application and required fee are submitted to the Cashiers' Office for payment of the fee.

Students are required to file an application by the deadline announced in the Schedule of Classes. The application is valid only for the stated quarter. A new application is required of students who do not meet requirements for the stated quarter by the completion deadline announced in the Schedule of Classes. Further information appears in the Undergraduate Study section of this catalog.

No subject, unit, or grade credit will be granted for any course work completed more than seven years prior to the date of issuance of a students masters degree. Refer to information earlier in this chapter entitled Time Limitation under the heading University Requirements for Master's Degrees.

**Commencement Exercises**

Commencement is held annually at the end of the Spring Quarter. Students who have completed degree requirements the previous Summer, Fall, or Winter Quarter are eligible to participate in the ceremony along with those who complete their work in the Spring Quarter. Information bulletins about commencement activities are mailed to the home address of those eligible to participate early in the spring and are available on campus in school, department, and division offices and Administration 146 and 409.

During commencement exercises, degrees are conferred on the candidates by the President of the University. Although each candidate receives a diploma cover during the program, the actual diploma is sent several months later. Within a few weeks after graduation, eligible candidates receive a letter of congratulations in the mail and degrees are posted on the permanent academic records.

**Requirements for Additional Master's Degrees or Option Within A Masters Degree**

Students who have earned a master's degree at Cal State L.A. and wish to obtain a subsequent master’s degree or to add an additional option to a previously completed master’s degree from this University must complete an approved program of at least 45 quarter units. At least half of the units must be new work not included on the previous degree or option. The remainder can be from the previous degree provided that the courses have been completed within seven years of the award date of the degree and are otherwise eligible for inclusion.

Students who are currently enrolled in a masters degree program at Cal State L.A. may concurrently complete an additional option under the same degree if the department/division and school concerned verify that the additional option requires significantly different knowledge, skill and course work. The additional option must include a minimum of 23 quarter units of course work that is specific to the option (not included in the previous option) and an appropriate culminating experience (thesis/project or comprehensive examination). An approved program plan for each option is required.

Students who have earned a master's degree at an institution other than Cal State L.A. may petition in order to apply for an identical degree at Cal State L.A. Students must provide extraordinary justification and receive approval of the department/division and school concerned before entering the program.

**Additional Graduate/Postbaccalaureate Student Information**

**Use of Social Security Number**

Applicants are required to include their Social Security account number in designated places on CSU applications for admission pursuant to the authority contained in Title 5, California Code of Regulations, Section 41201. The Social Security account number is used as a means of identifying records pertaining to the student, as well as identifying the student for purposes of financial aid eligibility and disbursement and the repayment of financial aid and other debts payable to the institution. Cal State L.A. uses the students Social Security number as the official means of student identification and refers to the number as the students Student Identification Number. On most student forms, the name is abbreviated as SID.

**Study Load**

For full-time enrollment certification by the University, graduate students must carry a study load of 12 weighted units of approved prerequisite, corequisite, or graduate program courses (graduate-level courses have a weighted factor of 1.5). Upon recommendation of a students major department or division and approval by the school graduate dean, a student enrolled in any of the following courses may be certified as full-time with a study load of fewer than 12 weighted units: 596, 597, 598, 599, 699, and 900. The maximum study load for students working toward a graduate degree is 16 units per quarter.

The U.S. Immigration and Naturalization Service (INS) requires an F-1 international (visa) graduate student to carry a minimum study load of 8 quarter units of 500-level courses or 12 units of 400-level courses. International students must comply with all University and INS regulations.

**Credit by Examination**

Graduate students who are in good standing and are enrolled in one or more residence courses may request permission to receive credit for courses by examination. Graduate credit by examination is restricted to eligible 400- and 500-level courses listed in this catalog. It is without unit limit, but does not count as residence credit. Total credit earned for courses and examinations taken in Special Sessions may not exceed the limit established for Special Session study. See University Requirements for Master’s Degrees.

Prior to taking the examination, concurrent approval of the chair of the department concerned, and the instructor in the course, is required. Forms for approval may be obtained from the departments. One copy of the approval to take the examination must be filed with the Records Office, Adm. 409, prior to the fifth week of the quarter in which the examination is taken.

**Graduate and Postbaccalaureate Grading System**

**Grading System**

Graduate
TRADITIONAL

NONTRADITIONAL.
CR/NC.

A final grade must await completion of additional work. An SP does not add earned units and does not affect grade point average.

Grade Symbol Explanation

Mark other than grades described above have the following meanings:

SP (Satisfactory Progress) is used for courses that extend beyond one academic quarter-and may include enrollment in more than one quarter-to indicate that the students work in progress has been evaluated as satisfactory to date but that the assignment of a final grade must await completion of additional work. An SP does not add earned units and does not affect grade point average calculations. Successive enrollments in the course must not exceed the total number of units applicable to the student's educa-
Scholarships
Scholarships are available for qualified graduate students during the academic year. Most scholarships are awarded to students already in attendance at Cal State L.A. on the basis of academic achievement, campus or community participation, and/or financial need. Some are unique to specific degree programs and are awarded directly by the academic departments/divisions concerned. Students should consult both their academic department or division and the Center for Student Financial Aid regarding scholarships. In addition, the Associated Students sponsor graduate research scholarships for which application forms are available in University-Student Union 422. A complete list of currently available scholarships appears in the Undergraduate Study chapter of this catalog.

Leaves of Absence
Students may petition for a leave of absence for such reasons as: professional or academic opportunities, like travel or study abroad, employment related to educational goals and major fields of study, or participation in field study or research projects; medical reasons, including pregnancy, major surgery, or other health-related circumstances; and financial reasons, such as the necessity to work for a specified period in order to resume study with adequate resources. Petition forms are available in Administration 146.

Evaluation of petitions for leaves of absence takes into account the students stated plans and the extent to which a leave would contribute to educational objects. Students are expected to plan their time of return and their activities during the leave. They must also state why it is critical to remain in continuous residence. In the case of medical or financial leaves, they must state how they plan to remain current with or advance in their academic field.

Graduate students are granted a maximum of four quarters, subject to renewal. Continuing students’ allowed absence of two quarters is included in these maximums.

Petitions must be filed at Administration 146 after action by the department/division chair and school graduate dean no later than three weeks before the end of the quarter preceding the proposed leave. Approval entitles students to continuing status for registration purposes provided they return no later than the quarter specified in their petitions. Continuing students returning from leaves are entitled to priority registration privileges and are not required to file an application for readmission.

Classified postbaccalaureate and graduate students retain classified standing. Unclassified postbaccalaureate and conditionally classified graduate students who have approved programs on file in their school graduate studies office are subject to the conditions of those programs. All others are subject to the requirements in effect when they return.

Doctor of Philosophy Degree in Special Education
A doctoral program in Special Education, offered jointly by the University of California, Los Angeles and California State University, Los Angeles, combines the unique resources of the two institutions. The program provides preparation for leadership positions in higher education and the public schools, as well as preparation for a career in scholarly research.

Refer to the graduate Charter School of Education chapter for complete information about the doctoral program.

Postbaccalaureate Certificate Programs
Certificate programs are designed to augment University curricula by providing specialized instruction and training within a field. These programs usually require significantly fewer units than a degree. A postbaccalaureate certificate program must contain a minimum of 16 units. Normally, courses in certificate programs will be upper division or graduate level, except for prerequisites. Students may transfer from another institution no more than one quarter of the total units required for a certificate (75% of the course work must be completed at Cal State L.A.). A maximum of one quarter (25%) of the total units required for a certificate may be devoted to internships or independent study, or a combination of both. The minimum grade point average required for completion of a postbaccalaureate certificate program is B (3.0). These grade point average requirements do not pertain to noncredit certificate programs. A Certificate of Completion is awarded upon successful completion of the program requirements. Some certificates are offered within degree majors and can be applied toward a baccalaureate or a master’s degree; others are offered through the Office of Continuing Education with the certificate being the main goal.

Cal State L.A. offers credit certificate programs at both undergraduate and postbaccalaureate levels. Listed below are postbaccalaureate certificate programs. Individual program and course requirements appear in academic department and division listings in the chapters that follow.

Postbaccalaureate certificate programs require a completed bachelor’s degree for entry into the program.

Accounting
Offered by the Department of Accounting, (213) 343-2830, the program is designed to provide an organized series of courses in accounting for students in other majors who wish to qualify to take a professional accounting examination, to meet civil service educational requirements for employment as a professional accountant or auditor, or to acquire the skills needed for employment as a professional accountant in private industry.

Advanced Information Systems
Offered by the Department of Information Systems, (213) 343-291 0, the program is designed to give individuals who are pursuing or have earned a degree in business administration (or have equivalent experience) an introduction to the techniques of information systems design, planning, and management. Applicable toward degrees in business administration.

Applied Behavior Analysis in Educational Settings
Offered by the Division of Administration and Counseling in the Charter School of Education, (213) 343-4250, the program is designed for postbaccalaureate students who wish to acquire competencies in the field of career counseling. Applicable toward the Masters degree in Biology.

Career Counseling
Offered by the Division of Administration and Counseling, (213) 343-4250, this program is designed for postbaccalaureate students who wish to acquire competencies in the field of career counseling. Applicable toward the Master of Science degree in Counseling.

Biotechnology
Offered by the Department of Biology and Microbiology, (213) 343-2050, the program is designed to give graduate biology students the practical knowledge and laboratory skills needed for the application of modern molecular genetic approaches to research problems and for work in the biotechnology industry or in research laboratories that utilize the techniques of gene manipulation. Applicable toward the Masters degree in Biology.

Computer Applications in Schools
Offered by the Division of Educational Foundations and Interdisciplinary Studies in the Charter School of Education, (213) 343-4330,
the program is designed to prepare teachers to use computers in their classrooms and to take leadership roles in their schools: teaching computer programming/problem solving; selecting and modifying instructional software; evaluating and selecting hardware; and using computers to manage classrooms and schools. Open to graduate students with K-12 teaching experience only. Applicable toward Masters degree programs in education.

Developmental Counseling
Offered by the Division of Administration and Counseling in the Charter School of Education, (213) 343-4250, the program provides practitioners experience in developing and implementing programs of psychological education.

Early Childhood Special Education: Infancy Emphasis
Offered by the Division of Special Education, (213) 343-4400, this program prepares students to provide educational intervention to handicapped and high-risk (including medically fragile) infants and preschoolers and their families. Applicable toward Master of Arts degree in Special Education.

Early Childhood Special Education: Preschool Emphasis
Offered by the Division of Special Education, (213) 343-4400, this program is designed for a wide range of individuals who wish to acquire the highly specialized skills necessary to provide educational services to handicapped and high-risk infants and preschoolers and their families. Applicable toward Master of Arts degree in Special Education.

English as a Second Language (ESL)
Offered by the Division of Educational Foundations and Interdivisional Studies in the Charter School of Education, (213) 343-4330, the program prepares and qualifies teachers to work in classrooms or other educational settings where students are learning to speak, read, and write English as a second language.

Environmental Health Science
Offered by the Department of Health and Nutritional Sciences, (213) 343-4740, is a program that accelerates the qualification and admittance into the State of California's Registered Environmental Health Specialists examination. Environmental Health consists of those organized activities undertaken to protect and enhance the public’s health through the control of potentially harmful materials, organisms, energies, and conditions in the environment. The two major aspects in an environmental health program are the prevention of disease and the protection and promotion of human well-being.

Industrial Chemistry
Offered by the Department of Chemistry and Biochemistry, (213) 343-2300, for postbaccalaureate and graduate students. This program is designed to develop skills in instrumental analysis by providing a broad range of experience with instrumental methods and modern techniques to complement students' theoretical preparation in chemistry. The program is intended to enhance the ability of advanced students to function effectively in industrial and government laboratory positions in chemistry.

Manufacturing
Offered by the Department of Mechanical Engineering, (213) 343-4490, the program is designed to provide practicing mechanical engineers with a specialization in manufacturing. For graduate students only, this program provides high quality, up-to-date scientific and practical knowledge of manufacturing processes, modern materials, automatic control, automated manufacturing, and robotics. Applicable toward Master of Science degree in Mechanical Engineering.

Pediatric Nurse Practitioner
Offered by the Department of Nursing in the School of Health and Human Services, (213) 343-4700, the program is designed for nurses who have a Master's degree in Nursing and want to function as a pediatric nurse practitioner. With the certificate one is qualified to sit for the National Professional Pediatric Nurse Practitioner certification exam and to apply for State certification from California's Board of Registered Nursing.

Professional Employee Counseling
Offered by the Division of Administration and Counseling in the Charter School of Education, (213) 343-4250, the program is designed to supplement the training of professional counselors by providing specialized information and skills specific to counseling and related programs offered by employers and unions for employees in business, industry, and government. A master's or higher degree in counseling or a related discipline, or progress toward such a degree, is required for admission to the program.

Rehabilitative/School Audiology
Offered by the Department of Communication Disorders, (213) 343-4690, the program prepares rehabilitative/school audiologists who do not seek the California credential. For graduate students only, this program is comprised of course work that parallels the Clinical-Rehabilitative Services credential in Audiology.

Storytelling
Offered by the Division of Curriculum and Instruction in the Charter School of Education, (213) 343-4350, the program is designed for persons with an interest in the techniques, theories, and literature associated with the ancient and modern art of storytelling. Especially valuable for teacher use in language arts instruction and for improving communications skills; can also be used effectively by librarians and recreation leaders. Open to all postbaccalaureate students who meet the University requirements for admission to postbaccalaureate standing. Applicable toward some master's degree programs in education and other fields.

Teaching Critical Thinking
Offered by the Department of Philosophy, (213) 343-4180, the program is designed for those with an interest in the theory and techniques of teaching critical thinking at college or secondary school levels and is available to students with any major. Open to holders of the baccalaureate who meet University requirements for admission to postbaccalaureate standing.

FAX: (213) 343-4045

The Master of Arts degree program in Art is designed to produce graduates with advanced professional competence in a specialized area of the visual arts. The degree is intended to prepare teachers for the public schools, community colleges, and four-year institutions; and to train art historians, professional artists, and commercial artists. The program requires that students select and strengthen an area of specialization. The overall objective is to elevate students’ ability to conceptualize on a significant level.

The Master of Fine Arts degree program in Art is designed to provide, on a highly selective basis, specialized training and education for artists and designers in design, computer graphics, painting, photography, printmaking, sculpture, ceramics, and metalsmithing. Career-related training is provided through internships, required field work, and the integration of instruction with professional work experience which is enhanced by the campus’ proximity to media and industries, as well as prominent local art museums. The two-year MFA program allows students a chance to work with faculty professionals who help them focus on theoretical, critical, and practical aspects of their area of specialization.

Master of Arts Degree

Admission to the Program

In addition to University requirements for admission to graduate study, applicants must have a baccalaureate in art from an accredited college or university or complete Cal State L.A.’s lower and upper division art major core program or its equivalent.

Art History students must successfully complete 12 units of first-year French or German prior to achieving classified standing.

Classified Graduate Standing

Students must apply to the desired area of specialization-Art Education, Art History, Art Therapy, Design, or Studio Arts.

Approval by a graduate screening committee established by the faculty of the students option area and completion of any qualifying courses are required for classified graduate standing.

Requirements for the Degree (45 units)

A total of 45 units is required, with 33 units in art and at least 23 in 500-level courses. Consultation with an adviser is essential for program submission and approval.

Required Course (4 units)

ART 531 Research Methodology in Art (4)

Area of Specialization (6-8 units)

Select 6-8 units from one of following areas:

Art Education

**ART 500 Seminar: Art Education (3)

**ART 505 Research in Art Education (3)

Art History

**ART 501 Seminar: Art History (4)

Design

**ART 503 Graduate Problems in Design (3)

**ART 512 Graduate Photography (3)

Studio Arts

**ART 504 Graduate Problems in Painting, Sculpture, and Graphic Arts (3)

**ART 512 Graduate Photography (3)

**ART 544 Graduate Painting and Drawing (3)

**ART 574 Graduate Printmaking (3)

**ART 584 Graduate Sculpture (3)

**Repeatable course

Electives (7-12 units)

Select 500-level art courses from any area.

Additional Electives (10-17 units)

Select 400- or 500-level art courses from any area.

Electives Outside Art (0-12 units)

Select 400 or 500-level courses from any department.

Comprehensive Examination or Thesis or Project (0, 6 units)

‡ART 596 Comprehensive Examination (0) or

ART 599 Thesis, Project, or Combination Written Report and Project (6)

‡ Open to Art History students only

Only Art History students may take the comprehensive examination (ART 596). These students should expect to take the examination no earlier than the quarter they complete all course work on their program and must comply with school and departmental requirements. In addition to the examination, they must complete an additional six units in art.

Art History students who do not select the comprehensive examination and students in all other specializations in the major must enroll in ART 599 and successfully complete either a thesis or a project.
**Master of Fine Arts Degree**

**Admission to the Program**

In addition to University requirements for admission to graduate study, applicants must have a baccalaureate in art from an accredited college or university or preparation equivalent to the core courses in Cal State L.A.’s baccalaureate in art. Candidates must also have completed 24 quarter units of upper division course work in the area of specialization proposed for the MFA degree and must have a B (3.0) or higher grade point average in all upper division art courses. The Department of Art has MFA application periods, during which each applicant’s performance is assessed through personal interview and portfolio evaluation. Selection of MFA candidates is based on faculty assessment of their demonstrated abilities and on their personal attitudes, commitment, and potential for career success.

**Requirements for the Degree (90 units)**

The MFA degree in Art requires a minimum of 90 units of approved course work when starting with a baccalaureate, or 45 units when starting after completion of a Master of Arts degree in Art.

**Ninety Unit Program**

**Required General MFA Subjects (73 units)**

- ART 502M MFA Seminar: Visual Arts (3)
- ART 504M MFA Seminar: Studio Art (3)
- ART 508M MFA Seminar: Design (3)
- ART 531 Research Methodology in Art (4)

**Required Art History (12 units)**

Select from following.

**Required Area of Specialization (45 units)**

The following repeatable courses must be taken for a total of 27 units.

- ART 595M, 598M, 599M (3 units each)

Select 18 units from one of following areas:

- **Design**
  - ART 503, 508M, 512
- **Studio Arts**
  - ART 504, 504M, 512, 544, 574, 584
- **Electives (12 units)**

Select 400-level courses from the Art Education, Art Therapy, Design, and Studio Arts specializations with adviser assistance.

- **Electives Outside Art (8 units)**

Select 8 units of related upper division or graduate level course work with adviser approval.

**Courses in Art (ART)**

† There is a special fee associated with registering for this class. Details appear in the Schedule of Classes.

**400-level Courses**

All 400-level courses may be applied toward masters degree requirements except the following, subject to limits established by the department and approval of the graduate adviser:

- ART 401, 426, 499

**Graduate Courses**

Classified graduate standing is required for admission to all 500-level courses.

**500 Seminar: Art Education (3)**

Prerequisites: Teaching experience, 20 units in art. Opportunities for teachers to evaluate their experiences in light of new techniques and concepts; problems resolved through group interaction; background in subject matter increased through research and experimentation. May be repeated to maximum of 6 units.

**501 Seminar: Art History (4)**

Prerequisite: Eight units of upper division art history. Research into pertinent topic in art history. Presentation and discussion of research papers. May be repeated to maximum of 8 units.

**502 Graduate Problems in Ceramics, Metals, and Textiles (3)**

Prerequisite: Eight units of crafts, including 6 in specific area. Individual investigation in specific area of crafts; advanced work in laboratory and research under specialist in field. May be repeated to maximum of 9 units.

**502M MFA Seminar: Visual Arts (3)**

Prerequisite: Classified standing in MFA program. Critical approach to the visual arts through examination of the roles and works of artists in society. May be repeated to maximum of 9 units.

**503 Graduate Problems in Design (3)**

Prerequisite: Six units of design. Independent and interdependent library and laboratory research into problems of contemporary design permitting students to pursue special interests in advanced areas. May be repeated to maximum of 9 units.

**504 Graduate Problems in Painting, Sculpture, and Graphic Arts (3)**

Prerequisite: Eight units in painting, sculpture, and graphic arts. Development of individuality and depth in work encouraged; periodic group analysis. May be repeated to maximum of 9 units.

**504M MFA Seminar: Studio Art (3)**

Prerequisite: Classified standing in MFA program. Philosophical, conceptual, and practical aspects of professional studio arts. May be repeated to maximum of 9 units.

**505 Research in Art Education (3)**

Prerequisite: ART 415, instructor consent. Investigation of both conceptual and procedural aspects of historical, descriptive, and experimental research relevant to practice of art education.

**506 Experimental Fashion Design (3)**

Prerequisite: ART 489. Theory of fashion design and its application; creative designing through experimentation. Lecture-Laboratory 6 hours.

**508M MFA Seminar: Design (3)**

Prerequisite: Classified standing in MFA program. Aesthetic, functional, and technical aspects of professional design. May be repeated to maximum of 9 units.

**509 Seminar: Textiles and Clothing (3)**

Prerequisites: 4-8 units of 400 or 500-level textiles and/or clothing courses. In-depth study of selected topics in textiles and clothing.
510 Art History in Art Education (3)
Prerequisites: Teaching experience, 20 units of art. Theories and methods for investigation of history of art forms.

†512 Graduate Photography (3)
Prerequisite: Three upper division photography courses. Intensive study and production work in contemporary photography, current theories, concepts, and techniques. May be repeated to maximum of 12 units.

513M MFA Seminar: Photo (4)
Prerequisite: Classified graduate standing in MFA program. Philosophical, conceptual, and theoretical aspects of art photography as they relate to contemporary art photography practices. May be repeated to a maximum of 8 units.

514 Readings in Sociopsychological Aspects of Clothing (4)
Prerequisites: basic courses in psychology and sociology/anthropology. Clothing as an aspect of human behavior; theories and research in social sciences with clothing as a variable; clothing in relation to individual and social behavior.

515 Art Criticism in Art Education (3)
Prerequisites: Teaching experience, 20 units of art including ART 401. Theories and methods for investigation of critical analysis of art forms.

517 Graduate Ceramics (3)
Prerequisite: ART 417. Individual studio work in ceramics stressing advanced competence in technique and concepts. Periodic group presentations and critical analysis. May be repeated to maximum of 18 units. Activity 6 hours.

520 Seminar: Art Therapy (4)
Prerequisites: ART 445, 465. Exploration of current practices and issues in art therapy. May be repeated to maximum of 8 units as instructor changes.

530 The Arts in Aesthetic Education (4)
Prerequisites: Nine units of art, instructor consent for nonmajors. Bases of aesthetic responses to visual, literary, performing arts.

531 Research Methodology in Art (4)
Research methodology and requirements related to thesis, project report, and exhibition statement in Department of Art. Required of all master’s degree candidates.

540 Case Study and Presentation (4)
Prerequisites: ART 445, 465; PSY 436B. Analysis and application of principles and techniques for evaluating client condition and presenting reports for related mental health professionals.

544 Graduate Painting and Drawing (3)
Prerequisite: Six units of upper division painting and drawing. Studio work in various media, stressing professional competence in techniques and concepts of art. May be repeated to maximum of 9 units. Activity 6 hours.

550 Problems in Clinical Art Therapy (4)

554L Special Topics in Art (1-4)
Prerequisite: Instructor consent (specific prerequisite subject to change, depending upon topic of emphasis or content requirements of the course). Selected topics reflecting current issues, problems, and interests in art. May be repeated for credit to maximum of 9 units as subject matter changes.

554P Special Topics in Art (1-4)
Prerequisite: Instructor consent (specific prerequisite subject to change, depending upon topic of emphasis or content requirements of the course). Selected topics reflecting current issues, problems, and interests in art. May be repeated for credit to maximum of 9 units as subject matter changes.

560 Family Art Therapy (4)
Prerequisites: ART 445, 465, 470. Research in art therapy leading to new approaches based on principles of concern for creativity and knowledge.

†574 Graduate Printmaking (3)
Prerequisite: Six units of ART 424 or 474. Work in selection of printmaking media stressing professional competence in techniques and art concepts. May be repeated to maximum of 9 units. Activity 6 hours.

577 Research Concepts in Home Economics (4)
Prerequisite: A course in statistics. Examination of research methodology within a conceptual framework of home economics; utilization of the tools of research; review and critique of research reports; development of a research proposal and a pilot project.

584 Graduate Sculpture (3)
Prerequisite: ART 484. Individual studio work in sculpture building upon undergraduate sculpture experiences. Periodic group presentations and critical analysis. May be repeated to maximum of 18 units. Activity 6 hours.

595 Directed Field Work in Art/Art Therapy (1-4)
Prerequisites: ART 470 plus undergraduate Art major. Supervised experience in art therapy situations. May be repeated to maximum of 8 units.

595M MFA Professional Field Work in Art (1-9)
Prerequisite: Classified standing in MFA program. Supervised field work experience in professional art industry; museums, publications, design, and business. May be repeated to maximum of 9 units.

598 Graduate Directed Study (13)
Prerequisite: Instructor consent to act as sponsor. Independent study of advanced topics in the field; regular conferences with sponsor. May be repeated to maximum of 9 units.

598M MFA Directed Study (1-12)
Prerequisite: Instructor consent to act as sponsor. Independent directed study of advanced topics in professional art fields. Regular conferences with sponsor. May be repeated to maximum of 12 units.

599 Thesis, Project, or Combination Written Report and Project (1-6)
Prerequisites: Advancement to candidacy, instructor consent to act as sponsor, departmental approval of topic prior to registration. Independent research resulting in a thesis, project, or combination written report and project. Must be repeated to maximum of 6 units. Graded CR/NC.
599M MFA Project (1-12)
Prerequisite: Advancement to candidacy, instructor consent to act as sponsor, departmental approval of project prior to registration. Independent research resulting in MFA project accompanied by a written abstract. May be repeated to maximum of 12 units. Graded CR/NC.

599T Art Therapy Thesis (1-6)
Prerequisites: Advancement to candidacy, instructor consent to act as sponsor, departmental approval of topic prior to registration. Independent research resulting in thesis. May be repeated to maximum of 12 units. Graded CR/NC.
COMMUNICATION STUDIES

School of Arts and Letters
DEPARTMENT OFFICE
Music 104
Phone: (213) 343-4200
FAX: (213) 343-6467

Master of Arts Degree in Communication Studies
The Master of Arts degree program in Communication Studies is available in two options: The Telecommunications and Film option and the Speech Communication option. The Telecommunications and Film option is designed to enable students to acquire an understanding of research methods and theory that explores industry structure, audience reception, visual and structural examinations of the media text, and scriptwriting for film, television and documentary. The program requires that students select and develop an area of specialization. The option in Speech Communication is designed to enable students to acquire an understanding of research methods and theory that explores the nature and functions of human symbolic communication in the areas of communication and rhetorical theory, interpersonal and organizational communication, public discourse, intercultural communication, and performance studies.

Admission to the Program
In addition to University requirements for admission to graduate study, applicants in the Telecommunications and Film option must have a 3.00 grade point average and applicants in the Speech Communication option must have a 2.75 grade point average in their last 90 quarter units. Applicants must submit a writing sample for review by department faculty.

Students whose undergraduate major was not in the same discipline as their graduate program must complete 30 units of undergraduate work in Speech Communication and related fields or in Telecommunications and Film and related fields as approved by the graduate adviser for their program prior to beginning their graduate work. The graduate adviser will assist students in designing a program suited to their individual interests and goals.

Requirements for the Degree (45 units)
A total of 45 units is required, with at least 24 in 500-level courses. Students may choose between two options: Telecommunications and Film or Speech Communication.

Required Courses (24 units)
A minimum of 24 units in 500-level seminars is required. In addition to department graduate core requirements and graduate option core requirements, students must select a minimum of 8 units from 500-level seminars within their respective option.

Electives (7-13 or 3-9 units)
Select 400 or 500-level Speech Communication courses (7-13 units) or Broadcasting/Telecommunications and Film courses (3-9 units) with adviser approval: a maximum of 8 of these units may be in related fields with approval of adviser and department chair. Elective units do not apply to the scriptwriting concentration of the Telecommunications and Film option.

Comprehensive Examination, Thesis (0, 4-6 units) or Script Thesis (5-6)
Students should expect to take the comprehensive examination, COMS 596 (0), within two quarters of completing all course work and must comply with school and departmental requirements. The comprehensive examination is regularly scheduled for Monday and Tuesday of the ninth week of instruction in the Fall and Spring Quarters. Speech communication students will complete examinations in communication theory, rhetorical theory, and an area of specialization selected in consultation with the graduate adviser. Telecommunications and film students will complete examinations in critical methodology, media criticism, and an area of specialization selected in consultation with the graduate adviser. Students will be allowed a maximum of two attempts to complete the comprehensive examinations successfully. Failure to pass the comprehensive examinations, or any portion thereof, will result in disqualification from the program.

A thesis may be substituted for the comprehensive examination, with prior approval of the speech communication or telecommunications and film area, based on examination of the student’s portfolio. Students in the scriptwriting concentration of the Telecommunications and Film option must obtain authorization for the script thesis. Students authorized to submit a thesis must enroll in COMS 599 Thesis (4-6) for a cumulative minimum of 4 units, or COMS 5998 (5-6) for a cumulative minimum of 5 units.

Speech Communication Option (45 units)
Core Courses (16 units)
COMS 500 Graduate Scholarship In Communication Studies (4)
SPCH 550 Seminar: Communication Theory (4)
SPCH 580 Seminar: Rhetoric Theory (4)
SPCH 590 Capstone Research Seminar (4)

Graduate Level Seminars (76 units)
With adviser approval, select a minimum of 16 additional units from the following 500-level seminars:

SPCH 530 Seminar: Organizational Communication (4)
SPCH 540 Seminar: Interpersonal Communication (4)
COMS 554 Selected Topics in Communication Studies (4-8)
SPCH 560 Seminar: Language and Communication Behavior (4)
SPCH 562 Seminar: Theories of Mass Media (4)
SPCH 567 Seminar: Theories of Oral Interpretation (4)
SPCH 572 Seminar: International Public Discourse (4)
SPCH 573 Seminar: American Public Address (4)
SPCH 576 Seminar: Argumentation, Discussion, and Debate (4)
SPCH 589 Seminar: Intercultural Communication (4)
SPCH 590 Seminar: History of Speech Communication in America (4)
SPCH 595 Graduate Performance (1-4)
SPCH 598 Graduate Directed Study (1-4)

Electives (7-13 units)
Select 400-level BCST, 500-level COMS/SPCH courses with adviser approval; a maximum of 8 units may be in related fields with approval of adviser and department chair.
With adviser approval, select a minimum of 12 additional units from the following 500-level seminars.

**Core Courses (20 units)**
- COMS 500: Graduate Scholarship in Communication Studies (4)
- COMS 501: Seminar: Research Methods in Telecommunications and Film Studies (4)
- COMS 505: Seminar: Critical Approaches to Television and Film (4)
- COMS 506: Seminar: Television Programming (4) or
- COMS 507: Seminar: Post WWII Film and Television History (4)
- COMS 590: Capstone Research Seminar (4)

**Electives (3-9 units)**
Select 400-level BCST, 500-level COMS/SPCH courses with adviser approval; a maximum of 8 units may be in related fields with approval of adviser and department chair.

**Comprehensive Examination or Thesis (0, 4-6 units)**
- COMS 596: Comprehensive Examination (0 units) or
- COMS 599: Thesis (4-6)

**Scriptwriting Concentration (45-46 units)**

**Core Courses (20 units)**
- COMS 500: Graduate Scholarship in Communication Studies (4)
- COMS 501: Seminar: Research Methods in Telecommunications and Film Studies (4)
- COMS 505: Seminar: Critical Approaches to Television and Film (4)
- COMS 506: Seminar: Television Programming (4) or
- COMS 507: Seminar: Post WWII Film and Television History (4)
- COMS 590: Capstone Research Seminar (4)

**Graduate Level Seminars (20 units)**

**Required:**
- COMS 565: Seminar: Feature Film Writing (4)
- COMS 566: Seminar: Narrative Television Writing (4)
- COMS 567: Seminar: Non-Fiction Writing (4)

Select two of the following seminars:
- COMS 510: Seminar: Narrative Studies in Television and Film (4)
- COMS 520: Seminar: Documentary Film and Television (4)
- COMS 564: Seminar: Adaptation (4)

**Courses in Communication (COMS)**

**500 Graduate Scholarship in Communication Studies (4)**
Seminar examining current foci in the fields of Communication Studies. Designed to investigate directions for advanced inquiry within the discipline.

**501 Seminar: Research Methods in Telecommunications and Film (4)**
Prerequisite/Corequisite: COMS 500. Investigation of conceptual and procedural aspects of quantitative and qualitative research techniques relevant to the advanced study of mass media.

**505 Seminar: Critical Approaches to Television and Film (4)**
Prerequisite: COMS 501. Survey and examination of critical approaches to television and film including semiotics, deconstruction, structuralism, poststructuralism, feminism, psychoanalytic criticism, reception theory, queer theory, Marxist criticism, postmodernism, and postcolonial criticism.

**506 Seminar: Television Programming (4)**
Prerequisite: COMS 501. Examination of the representational practices of American commercial television and the economic imperatives that drive those practices and their ideological implications.

**507 Seminar: Post World War II Film and Television History (4)**
Prerequisite: COMS 501. Variable topic seminar on seminal issues in film and television history since World War II. May be repeated to a maximum of 8 units.

**510 Seminar: Narrative Studies in Film and Television (4)**
Prerequisites: COMS 501, COMS 505. Examination of theories, structures, and procedures of narrative in film and television.

**515 Seminar: Media, Culture and Society (4)**
Prerequisites: COMS 501, COMS 505. In-depth study of select “media events” with an emphasis on their impacts in the formation, regulation, and contestation of public opinion. May be repeated to a maximum of 8 units.

**520 Seminar: Documentary Film and Television (4)**
Prerequisite: COMS 500. Examination of the theory and practice of documentary as narrative, information, education, catalyst for social maintenance and change.

**564 Seminar: Adaptation (4)**
Prerequisite: COMS 510. Examination of the process of screen and television adaptation. Study of theories of the cinematic and televisual as pertaining to translations of literary and theatrical narrative, character, and space.

**565 Seminar: Feature Film Writing (4)**
Prerequisites: BCST 465; COMS 510. The study of plot, character development, and dialogue in film genre writing using close readings of professional and student screenplays. Discussion of research, software, and career planning for future screenwriters.

**566 Seminar: Narrative Television Writing (4)**
Prerequisites: BCST 465; COMS 510. The study of plot character development and dialogue in television genre writing using close readings of professional and student teleplays. Discussion of research, software, and career planning for television screenwriters.
567 Seminar: Non-Fiction Writing (4)
Examination of planning, researching, formatting, and presenting nonfiction treatments and scripts using close readings of professional and student documentaries. Discussion of research, software, career planning for nonfiction writers.

590 Capstone Research Seminar (4)
Prerequisites: COMS 500 and 12 units of 500-level seminar credit. Culminating experience for advanced students preparing to present research projects in their areas of specialization. Intensive conference and thesis preparation; culminating research experience for students choosing the comprehensive exam option.

599 Thesis (1-4)
Prerequisites: Advancement to candidacy, instructor consent to act as sponsor, departmental approval of topic prior to registration. Independent research resulting in a thesis. May be repeated to maximum of 6 units. Graded CR/NC.

5998 Script Thesis
Prerequisites: Advancement to candidacy, instructor consent to act as sponsor, department approval of topic prior to registration. Independent research and writing resulting in an original screen or teleplay and analytical report. Oral examination on script and report required. May be repeated to maximum of 6 units. Graded CR/NC.

Courses in Speech Communication (SPCH)

400-Level Courses
All 400-level courses may be applied toward master’s degree requirements except the following, subject to limits established by department and approval of a graduate adviser: SPCH 431, 499

Graduate Courses

Classified graduate standing is required for admission.

530 Seminar: Organizational Communication (4)
Prerequisites: SPCH 430, 350, 450, 463, or 478. Contemporary theoretical and methodological issues or constructs in organizational or interpersonal communication. May be repeated to maximum of 8 units with adviser approval.

540 Seminar: Interpersonal Communication (4)
Prerequisites: SPCH 350, 450, 478, or 487. Contemporary theoretical and methodological issues and constructs in interpersonal communication. May be repeated to maximum of 8 units with adviser approval.

550 Seminar: Communication Theory (4)
Prerequisite: SPCH 450 or 487. Examination of theoretical perspectives, principles of theory building, and new developments in communication research. May be repeated to maximum of 8 units with adviser approval.

554 Selected Topics in Communication Studies (1-4)
Prerequisite: Varies with topic; see Schedule of Classes. Intensive study of selected topics in communication studies. May be repeated for credit as topic changes.

560 Seminar: Language and Communication Behavior (4)
Prerequisite: SPCH 450, 461, 463, or 494. Contemporary theories, research perspectives, and subject areas in language and communication behavior. May be repeated to maximum of 8 units with adviser approval.

562 Seminar: Theories of Mass Media (4)
Prerequisite: SPCH 450 or 470 or 482 or MSCM 460. Research and theory in mass media since television; analysis of media situations; messages and ideological effects. May be repeated once with adviser approval.

567 Seminar: Theories of Oral Interpretation (4)
Prerequisite: SPCH 367. Analysis of main theories of art of interpretation, with special emphasis on their bearing on contemporary theory and practice. May be repeated once for credit with adviser approval.

572 Seminar: International Public Discourse (4)
Prerequisites: SPCH 472, 485. Intensive study of major international orators, their ideas, style, rhetorical strategies and roles in social and aesthetic movements and in world history. May be repeated once for credit with adviser approval.

573 Seminar: American Public Address (4)
Prerequisites: SPCH 472A or 473B; 485. Examination and analysis of speeches and debates about selected major issues in American affairs. May be repeated once for credit with adviser approval.

576 Seminar: Argumentation, Discussion, and Debate (4)
Prerequisite: One upper division course in rhetorical theory. Analysis of significant literature, major trends, and theories of argumentation, discussion, and debate; intensive study of relationship of those areas to each other. May be repeated once for credit with adviser approval.

580 Seminar: Rhetorical Theory (4)
Prerequisite: At least one upper division course in rhetoric. Selected studies in philosophy of speech rhetoric and influence of rhetoric on historic and contemporary movements. May be repeated once for credit with adviser approval.

588 Seminar: Intercultural Communication (4)
Prerequisite: SPCH 489. Contemporary theories, research perspectives and significant cultural influences relating to communication between cultures. May be repeated once for credit with adviser approval.

590 Seminar: History of Speech Communication in America (4)
Prerequisite: Instructor consent. Historical movements, contemporary theories, and development of speech communication as a discipline of study; examination of significant literature, scholars, and leaders in the field. May be repeated to maximum of 8 units with adviser approval.

595 Graduate Performance (1-4)
Prerequisite: Consent of graduate adviser. Demonstration of graduate-level proficiency in a major performance situation: research or analytical written project directly related to performance. May be repeated to maximum of 4 units.

598 Graduate Directed Study (1-4)
Prerequisite: Instructor consent to act as sponsor. Independent study of advanced topics in the field; regular conferences with sponsor. May be repeated for credit.

599 Thesis (1-4)
Prerequisites: Advancement to candidacy, instructor consent to act as sponsor, departmental approval of topic prior to registration. Independent research resulting in a thesis. May be repeated to maximum of 6 units. Graded CR/NC
Master of Arts Degree

Admission to the Program

Applicants must have a baccalaureate in English and a 2.75 grade point average in the last 90 quarter units. Students whose major was not English should consult the principal graduate adviser about prerequisites or their equivalents. They must complete a 36-unit program of upper division prerequisites (which may include courses previously taken) prior to beginning their graduate work.

Requirements for the Degree (45 units)

A minimum of 45 units is required, with at least 23 in 500-level courses. Students must have completed course work, at either the undergraduate or graduate level, in major periods of British and American literature. Consult the Department of English for specific requirements and period descriptions.

Applicants for the Creative Writing option must submit a portfolio of writing for review by a department admissions committee.

Students preparing for the M.A. degree in English must complete ENGL 500 prior to enrolling in ENGL 510, 530, 541, 560, 580, 590, and 598. It may be taken concurrently with 510 and 541.

Electives (16 units)

8 units of electives must be fulfilled by courses in literature. The remaining units of electives may be fulfilled by courses in composition-rhetoric, linguistics, literature, or creative writing. Select from 400 or 500-level courses with adviser approval. A maximum of 4 units of ENGL 598 may also be included.

Thesis (5 units)

The thesis entails writing a master's degree essay about a subject in the field of language, composition and rhetoric. Theses may be of two kinds, a critical essay or an empirical study. A critical essay might, for example, critique or reanalyze a particular body of research or the work of a single researcher, or present a rhetorical analysis of text. A theory-based empirical approach might test new hypotheses or replicate earlier studies with a different population.

• Option in Creative Writing

With adviser approval, select 12 additional units from creative writing courses, at least 4 units being from ENGL 507. The remaining 8 units may derive from some combination of the following courses: ENGL 406, 407, 408, 507. ENGL 507 may be taken concurrently with ENGL 500.

Electives (16 units)

Select 400 or 500-level courses with adviser approval. Students are to select courses in literature with particular relevance to the focus of their creative work. A maximum of 4 units of ENGL 598 may also be included.

Thesis (5 units)

Students selecting the Creative Writing Option must write a creative thesis typically consisting of three or so short stories of 3,000-5,000 words or a novella or a substantial portion of a novel, or two one-act plays, or a full-length play, or between 12 and 20 short poems. The thesis is to include a brief preface, stating the literary, ethical, or social concerns that have informed the student's work.

To begin work on the thesis the student must have been advanced to candidacy and must have formal approval of the thesis proposal by a thesis director and by the graduate studies committee. Student must complete 5 units of ENGL 599. (One unit of ENGL 599 is to be devoted to preparation of the thesis proposal. A student may not enroll in the remaining 4 units of ENGL 599 until the proposal has been approved.) The student will be required to defend the thesis before a committee of three, one member being the students thesis director and one member being a member of the faculty from outside the creative writing area. The third member may be either from the creative writing area or from a different area.

• Option in Literature

With adviser approval, students select 12 additional units from 500-level ENGL courses. At least one course must be in the area of specialization selected for the comprehensive examination or thesis. A detailed listing of areas of specialization is available in the department office.

Electives (16-21 units)

Select from 400 or 500-level ENGL courses with adviser approval; 8 units may be in a related field. A maximum of 5 units in ENGL 598 is applicable toward the degree.
Comprehensive Examination or Thesis (0, 5 units)
ENGL 596 Comprehensive Examination (0) or
ENGL 599 Thesis (5)

Students must successfully complete either the comprehensive examination or a master’s degree thesis as the culmination of their program. Students are expected to have selected an area of specialization as reflected in course work in preparation for either the examination or the thesis.

Comprehensive Examination (0 units)

One section of the comprehensive examination will focus specifically on the student’s chosen area of specialization and the other portion of the examination will assess the student’s general critical skills and ability to elucidate and interpret a designated text.

The comprehensive examination (ENGL 596) may be taken no earlier than the quarter in which all course work for the degree is completed. Students must notify the department one quarter before they intend to take the examination. Advancement to candidacy and approval of the department’s graduate studies committee are required prior to taking the examination.

Thesis (5 units)

The thesis option entails writing a master’s degree essay about a subject in the student’s area of specialization. Students who choose to do a thesis are subject to the following requirements: advancement to candidacy, formal approval of the thesis proposal by a thesis director and by the graduate studies committee, enrollment in 5 units of ENGL 599, and an oral defense of the thesis. (One unit of ENGL 599 is to be devoted to preparation of the thesis proposal. A student may not enroll in the remaining 4 units of ENGL 599 until the proposal has been approved.)

Courses in American Studies (AMER)

400-level Courses

All 400-level courses may be applied toward master’s degree requirements except the following, subject to limits established by the department and approval of the graduate adviser: AMER 499

Graduate Courses

Classified graduate standing is required for admission.

501 Seminar: Selected Problems in American Civilization (4)
Prerequisite: One course from AMER 401-404 sequence. Selected problems of both historical and contemporary significance whose ramifications in American life merit interdisciplinary considerations. May be repeated to maximum of 12 units.

598 Graduate Directed Study (1-4)
Prerequisites: Instructor consent to act as sponsor, departmental approval. Independent study of advanced topics; regular conferences with sponsor. May be repeated for credit; maximum of 6 units may be applied to master’s program.

599 Thesis (1-4)
Prerequisites: Advancement to candidacy, minimum 3.5 grade point average in courses on the master’s degree program at the time of advancement to candidacy, departmental approval of thesis proposal. Independent research resulting in a thesis; oral examination about completed thesis may be required. Must be repeated to maximum of 4 units. Graded CR/NC.

Courses in English (ENGL)

400-level Courses

All 400-level ENGL courses may be applied toward master’s degree requirements, subject to limits established by the department and approval of the graduate adviser.

Graduate Courses

Classified graduate standing is required for admission.

500 Methodology of Graduate Research in English (4)
Prerequisite or corequisite: ENGL 441. Introduction to bibliography, research techniques, professional essay style, and basic critical approaches.

504 Seminar: Theories of Composition and Rhetoric (4)
Prerequisite or corequisite: ENGL 401. Theory and research in composition and rhetoric.

505 Seminar: Language and Literacy (4)
Prerequisite: ENGL 401. Theories of language structure as they apply to contemporary usage.

506 Seminar: The Writing Process (4)
Writing and editing instructional, administrative, and professional materials. Emphasis on developing English skills needed to teach writing at secondary school or community college level or to perform as staff writer or editor.

507 Seminar: Creative Writing (4)
Prerequisites: ENGL 407 or 408; instructor consent. Creative writing workshop with advanced instruction in composing in specified genre; in-class critiques by students and instructor. May be repeated for credit.

510 Seminar: Historical Criticism (4)
Prerequisite or corequisite: ENGL 500. Variable topic seminar focusing on historical criticism of selected works from periods in British or American literature. May be repeated as subject matter changes.

530 Seminar: Children’s Literature and Folk Literature (4)
Prerequisite: ENGL 500. Selected topics in children’s literature and folk literature, as announced in Schedule of Classes. May be repeated as subject matter changes.

541 Seminar: Contemporary Critical Approaches (4)
Prerequisite or corequisite: ENGL 500. Variable topic seminar focusing on selected contemporary critical approaches to study of English language and literature. May be repeated as subject matter changes.

550 Seminar: Topics in Composition, Rhetoric, and Language (4)
Prerequisite: ENGL 504 or 505. Variable topics seminar focusing on selected issues in composition, rhetoric, and language, as announced in Schedule of Classes. May be repeated as subject matter changes.

560 Seminar: British Literature (4)
Prerequisite: ENGL 500. Study of one or more major writers or of selected works in British literature, as announced in Schedule of Classes. May be repeated as subject matter changes.
570 Seminar: American Literature (4)
Prerequisite: ENGL 500. Study of one or more major writers or of selected significant works in American literature, as announced in Schedule of Classes. May be repeated as subject matter changes.

580 Seminar: World Literature (4)
Prerequisite: ENGL 500. Study of one or more major writers or of selected significant works in world literature, as announced in Schedule of Classes. May be repeated as subject matter changes.

590 Seminar: Special Studies in Language in Literature (4)
Prerequisite: ENGL 500. Study of selected genres, intellectual movements, or literary ideas in representative works, as announced in Schedule of Classes. May be repeated as subject matter changes.

598 Graduate Directed Study (1-4)
Prerequisites: ENGL 500 (may be taken concurrently), instructor consent to act as sponsor, approval of principal graduate adviser. Independent study of advanced topics in field; regular conferences with sponsor. May be repeated to maximum of 5 units with maximum of 4 units allowed in any quarter. Graded CR/NC.

599 Thesis (1-5)
Prerequisites: Advancement to candidacy, formal approval by department. Independent study resulting in a critical essay. Oral examination about master’s essay required. Must be repeated to total of 5 units. Graded CR/NC.
**MODERN LANGUAGES AND LITERATURES**

**School of Arts and Letters**

DEPARTMENT OFFICE  
King Hall D1054  
Phone: (213) 343-4230  
FAX (213) 343-4234

The Department of Modern Languages and Literatures offers programs leading to Master of Arts degrees in French and Spanish.

**Proficiency Examinations**

Foreign language proficiency examinations are administered by the Department of Modern Languages and Literatures. Students in programs requiring proficiency in a foreign language must enroll in ML 901 or 902, as applicable, in the quarter in which any such examination is to be taken.

**Master of Arts Degree in French**

The Master of Arts degree in French is designed to enable students to attain a high level of proficiency in the French language and its literature and to employ it skillfully in such pursuits as teaching, writing, translating, and communications, or as preparation for undertaking doctoral study.

**Admission to the Program**

In addition to applying to the University, applicants must file a departmental application for admission along with official transcripts of all previous college work. These documents must reach the department early in the quarter preceding that in which course work for the degree is to begin. Applicants who hold a baccalaureate from Cal State L.A. and have not attended another college since graduation must also file a departmental application early in the quarter preceding graduate enrollment. No transcripts are required.

In addition to University requirements for admission to graduate study, applicants must have a Bachelor of Arts degree in French, or equivalent, and a minimum B (3.0) grade point average in upper division French courses. Applicants must also satisfy the departmental standards for oral proficiency in French. In addition, beginning Latin is recommended prior to enrollment in FREN 501.

**Requirements for the Degree (48 units)**

A total of 48 units is required, with at least 24 in 500-level courses.

**Required Courses (28 units)**

**Language and Linguistics (8 units)**

- FREN 501 Development of French Language (4)
- FREN 509 Analytical and Interpretive Writing in French (4)

**Literature (16 units)**

- FREN 450 Selected Topics in French Literary Prose (4) or FREN 451 Selected Topics in French Dramatic Literature (4)
- FREN 535 Seminar: French Literary Prose since World War II (4)
- FREN 575 Seminar: French Literature (4, 4)

**Culture (4 units)**

- FREN 510 Seminar: French Culture (4)

**Electives (20 units)**

Select French courses below that have not been taken previously.

FREN "401, "403, 405, "412, 450, 451, 461, 471, 575, 598

* Must be taken if not completed in undergraduate status

**Comprehensive Examination (0 units)**

Students should expect to take the comprehensive examination (FREN 596) the quarter they complete all course work on their program and must comply with school and departmental requirements.

**Master of Arts Degree in Spanish**

The Master of Arts degree in Spanish is designed to enable students to attain a high level of proficiency in the Spanish language and its literature, and to employ it skillfully in such pursuits as teaching, writing, translating, and communications, or as preparation for doctoral study.

**Admission to the Program**

In addition to applying to the University, applicants must file a departmental application for admission along with official transcripts of all previous college work. These documents must reach the department early in the quarter preceding that in which course work for the degree is to begin. Applicants who hold a baccalaureate from Cal State L.A. and have not attended another college since graduation must also file a departmental application early in the quarter preceding graduate enrollment. No transcripts are required.

Upon admission to the program, students must designate either a literature or linguistics emphasis.

In addition to University requirements for admission to graduate study, applicants must have a Bachelor of Arts degree in Spanish or equivalent, including SPAN 401, a minimum 2.75 grade point average in the last 90 quarter units, and either a minimum score of 500 on the GRE subject exam in Spanish or a B (3.0) grade point average in upper division Spanish courses. Applicants are required to demonstrate proficiency in oral and written Spanish in accordance with criteria established by the department.

**Requirements for the Degree (48 units)**

A total of 48 units is required, with at least 28 in 500-level courses.

**Required Courses (28 units)**

- SPAN 501 Development of Spanish Language (4)
- SPAN 504 Studies in Medieval Literature (4)
- SPAN 510 Sociolinguistic Patterns in Spanish (4)
- SPAN 540 Seminar: Contemporary Spanish Poetry (4)
- SPAN 545 Seminar: Contemporary Spanish-American Poetry (4)
- SPAN 575 Seminar: Hispanic Literature (4)
- SPAN 583 Seminar: Contemporary Hispanic Prose (4)

**Electives (select 20 units from following)**

In extraordinary circumstances and with graduate adviser approval, students may select up to 8 units of electives from one or more related fields.
Comprehensive Examination (0 units)
The comprehensive examination in Spanish is structured to reflect the two emphases within the master’s degree program: literature and linguistics. The format of the comprehensive examination follows:

- Spanish Literature: Beginnings to 1800
- Spanish Literature: 1800-Present
- Spanish-American Literature: Beginnings to 1910
- Spanish-American Literature: 1910-Present
- Historical Linguistics
- Synchronic Linguistics

The comprehensive examination will reflect the emphasis chosen in the following manner:

- Literature Emphasis: Each of the four literature examinations will be 90 minutes in duration; each of the two linguistics examinations will be 60 minutes in duration.
- Linguistics Emphasis: Each of the four literature examinations will be 75 minutes in duration; each of the two linguistics examinations will be 90 minutes in duration.

The comprehensive examination is normally scheduled for the Fridays of the sixth and seventh weeks of instruction in the Fall and Spring Quarters. Students should expect to take the comprehensive examination (SPAN 596) as soon as practicable after completing all course work on their program, but no earlier than the quarter in which they complete all course work on their program, and must comply with school and departmental requirements.

Courses in Spanish (SPAN)

400-level Courses
All 400-level courses may be applied toward requirements for the master’s degree, subject to limits established by the department and approval of the graduate adviser.

Graduate Courses

Classified graduate standing is required for admission.

500 Seminar: French Post-Symbolist Poetry (4)
Prerequisite: FREN 412. Recent French poetic movements such as fantastisme, cubism, surrealism; metaphysical and religious poets; traditional poets, revolutionaries, and poets of other French-speaking countries.

575 Seminar: French Literature (4)
Prerequisite: Undergraduate course(s) relevant to topic being studied. Intensive study of significant works of particular period, genre, or literary tendency from Middle Ages to present. May be repeated, as subject matter changes, to maximum of 12 units.

598 Graduate Directed Study (1-4)
Prerequisite: Instructor consent to act as sponsor. Independent study of advanced topics in field; regular conferences with sponsor. May be repeated to a maximum of 8 units for credit.

Courses in French (FREN)

400-level Courses

All 400-level courses may be applied toward requirements for the master’s degree, subject to limits established by the department and approval of the graduate adviser.

Graduate Courses

Classified graduate standing is required for admission.

501 Development of French Language (4)
Prerequisite: FREN 305, 401; beginning Latin strongly recommended. Scientific analysis of written and spoken French from its inception through its current use in the French-speaking world.

509 Analytical and Interpretive Writing in French (4)
Prerequisite: FREN 450 or 451. Original analysis and interpretation of literary or nonliterary texts as well as independent research resulting in report; emphasis on scholarly writing skills.

510 Seminar: French Culture (4)
Prerequisite: FREN 310AB. In-depth study of specific cultural developments including historical events and social, intellectual, and artistic movements in Francophone societies; includes lectures and student research projects.

515 Seminar: Voltaire and Rousseau (4)
Prerequisite: FREN 410. Selected studies in sources, character, and influence of two of the most prominent figures of French Enlightenment.

535 Seminar: French Literary Prose since World War II (4)
Prerequisite: FREN 411. Studies in outstanding French prose writing and literary movements since World War II.

540 Seminar: French Post-Symbolist Poetry (4)
Prerequisite: FREN 412. Recent French poetic movements such as fantastisme, cubism, surrealism; metaphysical and religious poets; traditional poets, revolutionaries, and poets of other French-speaking countries.

545 Seminar: Contemporary Spanish-American Poetry (4)
Prerequisites: SPAN 411, 413. Intensive study of Spanish-American poetry of past thirty years.
575 Seminar: Hispanic Literature (4)
Prerequisites: SPAN 408 and 410 or 411 and 413. Intensive study of significant works of selected period in Spanish or Spanish-American literature. May be repeated to a maximum of 8 units as subject matter changes.

583 Seminar: Contemporary Hispanic Prose (4)
Prerequisites: SPAN 408 plus 410 or 411 plus 413. Recent Hispanic prose (novel, short story, essay); focus on Spanish or Spanish-American authors in alternate years. May be repeated to a maximum of 8 units for credit as subject matter changes.

598 Graduate Directed Study (1-4)
Prerequisite: Instructor consent to act as sponsor. Independent study of advanced topics in field; regular conferences with sponsor. May be repeated to a maximum of 8 units for credit.
The Master of Arts degree in Music is offered with three options. The first is designed for students desiring a general degree with breadth in all areas of music. The second focuses upon Music Education and the third is for students seeking a concentration in Musicology. Adjustments in the general option to meet specific interests and abilities may be made in consultation with graduate advisers.

### Requirements for the Degree (45 units)

A total of 45 units is required, including at least 23 in 500-level music courses. Students may choose between three options: **Option I, General; Option II, Music Education; or Option III, Musicology.** All options require performance or applied music. Placement in applied music is by audition. Students in all options must take a comprehensive examination. The program concludes with a thesis or project. The Musicology option requires the thesis and a foreign language reading examination.

#### Required Core (6 units)
- MUS 497 Research Techniques (2)
- MUS 596 Comprehensive Exam (0)
- MUS 599 Thesis or Project (4)

**Option I: General**

A total of 39 units is required.

**Required courses to be taken in sequence (12 units)**

- MUS 530AB Analysis of Musical Style (4, 4)
- MUS 502 Seminar: Music Education (4)
- MUS 507 Seminar: Vocal Techniques (4)
- MUS 508 Seminar: Choral Music (4)
- MUS 509 Seminar: Instrumental Music Education (4)
- MUS 568 Seminar: Performance (4)
- MUS 569 Seminar: Composition (4)
- MUS 579 Seminar: Musicology (4)

#### Applied Music or Performance (3 units)

**Applied**

- MUS 415 Strings (1 or 2)
- MUS 416 Woodwinds (1 or 2)
- MUS 417 Brass (1 or 2)
- MUS 418 Percussion (1 or 2)
- MUS 435 Voice (1 or 2)
- MUS 445 Piano (1 or 2)
- MUS 446 Organ (1 or 2)
- MUS 447 Accompanying (2)

- MUS 519 Applied Music, Orchestral Instruments (1-2)
- MUS 539 Applied Music, Voice (1-2)
- MUS 549 Applied Music, Keyboard Instruments (1-2)

**Performance**

- MUS 420 String Ensemble (1)
- MUS 421AB Woodwind Ensemble (1, 1)
- MUS 422 Brass Ensemble (1)
- MUS 423 Percussion Ensemble (1)
- MUS 424 Jazz Ensemble (1)
- MUS 425 Chamber Singers (1)
- MUS 426 Opera Repertory, Performance and Production (1)
- MUS 428 New Music Ensemble (1)
- MUS 510 Large Ensemble (1)
- MUS 511 Large Ensemble (1)

**History** (Select 12 units from the following)

- MUS 454L Special Topics in Music (4)
- MUS 470 History and Literature of Opera (4)
- MUS 471 History and Literature of Large Vocal Forms (4)
- MUS 472 History and Literature of Vocal Solo Music (4)
- MUS 473 History and Literature of Symphonic Music (4)
- MUS 474 History and Literature of Chamber Music (4)
- MUS 475 History and Literature of Keyboard Music (4)
- MUS 476 History and Literature of Wind Band in U.S. (4)
- MUS 570 Music of the Medieval Period (4)
- MUS 571 Music of the Renaissance Period (4)
- MUS 572 Music of the Baroque Period (4)
- MUS 573 Music of the Classic Period (4)
- MUS 574 Music of the Romantic Period (4)
- MUS 575 Music of the Contemporary Period (4)
- MUS 576 Music since 1945 (4)

**Electives (12 units)**

Select 400 or 500-level courses with adviser approval

- **Option II: Music Education**

**Prerequisite**

- MUS 489 Instructional Technology for Musicians (3)

**Required Core (6 units)**

- MUS 497 Research Techniques (2)
- MUS 596 Comprehensive Exam (0)
- MUS 599 Thesis or Project (4)

**Required Courses (16 units)**

- MUS 501 Psychology of Music (4)
- MUS 502 Seminar: Music Education (4)
- MUS 503 Musics in World Cultures for the Music Educator (4)
- MUS 530B Advanced Style Analysis (4)

**History and Literature (4 units)**

Select from following:

- MUS 470 History and Literature of Opera (4)
- MUS 471 History and Literature of Large Vocal Forms (4)
- MUS 472 History and Literature of Vocal Solo Music (4)
- MUS 473 History and Literature of Symphonic Music (4)
- MUS 474 History and Literature of Chamber Music (4)
- MUS 475 History and Literature of Keyboard Music (4)
- MUS 477 History and Literature of Wind Band in U.S. (4)
- MUS 570 Music of the Medieval Period (4)
MUS 571  Music of the Renaissance Period (4)
MUS 572  Music of the Baroque Period (4)
MUS 573  Music of the Classic Period (4)
MUS 574  Music of the Romantic Period (4)
MUS 575  20th Century Music to 1945 (4)
MUS 576  20th Century Music Since 1945 (4)

Track I: Vocal/Choral Music

Certification Program (12 units)
Select from the following:

Orff-Schulwerk Certification
MUS 495 Orff-Schulwerk Certification Level I (4)
MUS 587 Orff-Schulwerk Certification Level II (4)
MUS 589 Orff-Schulwerk Certification Level III (4)
or
Kodaly Certification
MUS 494 Kodaly Methodology Level I (4)
MUS 586 Kodaly Methodology Level II (4)
MUS 588 Kodaly Methodology Level III (4)

Electives (7 units)
Any 400 or 500-level course may be selected with the adviser’s approval.

Track I I: Vocal/Choral Music

Required Courses (8 units)
MUS 507 Seminar: Vocal Techniques (4) or
MUS 508 Seminar: Choral Music (4) and
MUS 580 Advanced Choral Conducting (4)

Electives (11 units)
Any 400- or 500-level course may be selected with the adviser’s approval.

Track III: Instrumental Music

Required Courses (8 units)
MUS 509 Seminar: Instrumental Music Education (4)
MUS 581 Advanced Instrumental Conducting (4)

Electives (11 units)
Any 400- or 500-level course may be selected with the adviser’s approval.

• Option III: Musicology
The Music Department Foreign Language Reading Examination in French, German, or Italian must be successfully completed prior to advancement to candidacy.

Required Courses (12 units to be taken in sequence)
MUS 530AB Advanced Style Analysis (4, 4)
MUS 579 Seminar in Musicology (4)

Applied Music or Performances (Select 3 units from the following)
Applied
MUS 415 Strings (1 or 2)
MUS 416 Woodwinds (1 or 2)
MUS 417 Brass (1 or 2)
MUS 418 Percussion (1 or 2)
MUS 435 Voice (1 or 2)
MUS 445 Piano (1 or 2)
MUS 447 Accompanying (2)
MUS 519 Applied Music, Orchestral Instruments (1-2)
MUS 539 Applied Music, Voice (1-2)
MUS 549 Applied Music, Keyboard Instruments (1-2)

Performance
MUS 420 String Ensemble (1)
MUS 421AB Woodwind Ensemble (1, 1)
MUS 422 Brass Ensemble (1)
MUS 423 Percussion Ensemble (1)
MUS 424 Jazz Ensemble (1)
MUS 425 Chamber Singers (1)
MUS 426 Opera Repertory, Performance, and Production (1)
MUS 428 New Music Ensemble (1)
MUS 510 Large Ensemble (1)

History (Select 20 units from the following)
MUS 570 Music of Medieval Period (4)
MUS 571 Music of Renaissance Period (4)
MUS 572 Music of Baroque Period (4)
MUS 573 Music of Classic Period (4)
MUS 574 Music of Romantic Period (4)
MUS 575 Music of Contemporary Period (4)
MUS 576 Music since 1945 (4)

Electives (4 units)
Music courses in history, theory, independent directed study or related fields outside music with adviser approval.

Recommended Courses
MUS 454L Special Topics in Music (1-4)
MUS 460 Composition (3)
MUS 463 Counterpoint (3)
MUS 464 Musical Form (3)
MUS 470 History and Literature of Opera (4)
MUS 471 History and Literature of Large Vocal Forms (4)
MUS 472 History and Literature of Vocal Solo Music (4)
MUS 473 History and Literature of Symphonic Music (4)
MUS 474 History and Literature of Chamber Music (4)
MUS 475 History and Literature of Keyboard Music (4)
MUS 477 History and Literature of Wind Band in U.S. (4)
MUS 483 Analysis of Jazz Styles and Literature (3)
MUS 508 Seminar: Choral Music (4)
MUS 560 Advanced Composition (4)
MUS 580 Advanced Choral Conducting (4)
MUS 581 Advanced Instrumental Conducting (4)
MUS 598 Graduate Directed Study (1-4)
or the following, if not included in history:
MUS 570 Music of the Medieval Period (4)
MUS 571 Music of Renaissance Period (4)
MUS 572 Music of Baroque Period (4)
MUS 573 Music of Classic Period (4)
MUS 574 Music of Romantic Period (4)
MUS 575 Music of Contemporary Period (4)
MUS 576 Music since 1945 (4)

Master of Music Degree
The Master of Music program is offered with seven options. The Composition option is designed for students desiring advanced study in acoustic or electronic composition. The Commercial Music option is designed for students who wish to acquire the requisite skills for writing, arranging and performing in the commercial music business. The curriculum is designed to provide basic background in a variety of additional skills, including recording, calligraphy and composition, and performance on electronic instruments. Two tracks are offered in the Commercial Music option. The Instrumental and Choral Conducting options provide advanced training in conducting and research into performance practice. The Keyboard,
Vocal and Instrumental Performance options are designed to improve individual performance skills through the study of pedagogy and the study and performance of appropriate literature.

Admission to the Program
In addition to University requirements for admission to graduate study, applicants must have a baccalaureate in music from an accredited college or university. All applicants must take a graduate placement examination in music history and music theory. Applicants for the Composition option must present a portfolio of their work to the composition area for consideration before acceptance to the program. Applicants for the Commercial Music options must either present an audition of appropriate material or present a portfolio of compositions or arrangements for consideration by the jazz studies commercial music area. Students in the instrumental and Choral Conducting options must present a conducting audition for the appropriate area. Students desiring entrance into these options may also be required to have additional conducting experience or additional outside conducting responsibilities prior to admission to the program. Students in the Performance options must present an audition to the appropriate area committee for admission to the program.

Requirements for the Degree
A total of 45 units is required for the individual options, including at least 23 units in 500-level music courses. A comprehensive examination (MUS 596) is required at the conclusion of the program. A project in the form of a composition, conducting recital, solo recital, lecture recital, or chamber music recital (candidate must play a primary role) is required at the end of each program (MUS 599).

MUS 596 Comprehensive Examination (0)
Students may take the comprehensive examination no earlier than the quarter in which all course work is completed. Students must make arrangements for the comprehensive examination at least one quarter in advance. Students are urged to consult the Department of Music for information on additional procedures.

MUS 599 Thesis or Project (4)
Students are encouraged to request a project director from their area early in their program of study to ensure that progress toward the final project is accomplished in a timely manner. Students should consult the Department of Music for information on procedures and required deadlines.

Required Core (10 units)
MUS 497 Research Techniques in Music (2)
MUS 530B Advanced Style Analysis (4)
MUS 599 Thesis or Project (4)

- Option I: Composition
A total of 35 units is required in this option. The project for this option is a composition.

Required Courses (22 units)
MUS 460 Composition (3, 3)
MUS 530A Advanced Style Analysis (4)
MUS 560 Advanced Composition (4, 4)
MUS 569 Seminar: Composition (4)

Electives (13 units)
History and Literature (4 units): Select one from the following:
MUS 470 History and Literature of Opera (4)
MUS 471 History and Literature of Large Vocal Forms (4)
• Option III: Choral Conducting
A total of 35 units is required for this option. The project for this option is a conducting recital. Participating in one choral ensemble per quarter of enrollment is required.

Required Courses (23 units)
- MUS 508 Seminar: Choral Music (4)
- MUS 520 Applied Music: Conducting (1, 1, 1)
- MUS 530A Advanced Style Analysis (4)
- MUS 580 Advanced Choral Conducting (4)
- MUS 581 Advanced Instrumental Conducting (4)
- MUS 583 Seminar: Conducting (4)

Electives (12 units)
History and Literature (8 units)
Select two from the following:
- MUS 570 Music of the Medieval Period (4)
- MUS 571 Music of Renaissance Period (4)
- MUS 573 Music of Classic Period (4)
- MUS 574 Music of Romantic Period (4)
- MUS 575 20th Century Music to 1945 (4)
- MUS 576 20th Century Music Since 1945 (4)

Other (4 units)
Select from the following:
- MUS 435/539 Applied Music: Voice (1, 1, 1, 1) or
- MUS 507 Seminar: Vocal Techniques (4)

• Option IV: Instrumental Conducting
A total of 35 units is required for this option. The project for this option is a conducting recital. Participating in one instrumental ensemble per quarter of enrollment is required. Students wishing to enter this option must have had the following courses prior to acceptance:

MUS 460 Composition (3)
MUS 462 Advanced Orchestration and Arranging (3)
MUS 465 Contemporary Techniques (4)

Required Courses (27 units)
- MUS 473 History and Literature of Symphonic Music (4)
- MUS 509 Seminar: Instrumental Music Education (4)
- MUS 520 Applied Music: Conducting (1, 1, 1)
- MUS 530A Advanced Style Analysis (4)
- MUS 580 Advanced Choral Conducting (4)
- MUS 581 Advanced Instrumental Conducting (4)
- MUS 583 Seminar: Conducting (4)

Electives (8 units)
Select 400 or 500 level courses in music with adviser approval.

• Option V: Keyboard Performance
A total of 35 units is required for this option. The project for this option is a solo recital.

Required Courses (24 units)
- MUS 470 History and Literature of Opera (4)
- MUS 471 History and Literature of Vocal Solo Music (4)
- MUS 472 History and Literature of Vocal Solo Music (4)
- MUS 507 Seminar: Vocal Techniques (4)
- MUS 530A Advanced Style Analysis (4)
- MUS 539 Applied Music Voice (2, 2, 2)
- MUS 568 Seminar: Performance (4)

Electives (11 units)
History and Literature (8 units)
Select from the following:
- MUS 437ABC Song Repertoire and Interpretation (2, 2, 2)
- MUS 454L Special Topics in Music (1-4)
- MUS 460 Composition (3)
- MUS 501 Psychology of Music (4)
- MUS 539 Applied Music: Voice (1, 1)
- MUS 561 Choral Arranging (3)
- MUS 564 Musical Form (3)
- MUS 566A Commercial Arranging (3)
- MUS 567 Counterpoint (3)
- MUS 569 Choral Arranging (3)
- MUS 572 Music of Baroque Period (4)
- MUS 573 Music of Classic Period (4)
- MUS 574 Music of Romantic Period (4)
- MUS 575 20th Century Music to 1945 (4)
- MUS 576 20th Century Music Since 1945 (4)

Other (3 units)
Select from the following:
- MUS 435 Voice (2)
- MUS 454L Special Topics in Music (1-4)
- MUS 460 Composition (3)
- MUS 501 Psychology of Music (4)
- MUS 539 Applied Music Voice (1, 1)
- MUS 560 Advanced Composition (4)
- MUS 568 Seminar: Performance (4)
- MUS 580 Advanced Choral Conducting (4)
- MUS 581 Advanced Instrumental Conducting (4)
- MUS 598 Graduate Directed Study (1-4)
• Option VII: Instrumental Performance
A total of 35 units is required for this option. The project for this option is a solo recital. Participation in one instrumental ensemble per quarter of enrollment is required.

Required Courses (14 units)
MUS 519 Applied Music: Orchestral Instruments (2, 2, 2)
MUS 530A Advanced Style Analysis (4)
MUS 568 Seminar: Performance (4)

Electives (21 units)
History and Literature (8 units)
Select two from the following:
MUS 473 History and Literature of Symphonic Music (4)
MUS 474 History and Literature of Chamber Music (4)
MUS 477 History and Literature of Wind Band in the U.S. (4)
MUS 570 Music of the Medieval Period (4)
MUS 571 Music of Renaissance Period (4)
MUS 572 Music of Baroque Period (4)
MUS 573 Music of Classic Period (4)
MUS 574 Music of Romantic Period (4)
MUS 575 20th Century Music to 1945 (4)
MUS 576 20th Century Music Since 1945 (4)

Other Electives (13 units)
Select 400 or 500 level courses in music with adviser approval.

Courses in Music (MUS)

400-level Courses
All 400-level courses may be applied toward masters degree requirements except the following, subject to limits established by the department and approval of the graduate adviser. MUS 400, 401

Graduate Courses
Classified graduate standing in Music or equivalent music background is required for admission.

501 Psychology of Music (4)
Prerequisites: MUS 497, introductory course in psychology or educational psychology, 30 units in music. Musical personality, perception of musical characteristics, musical taste, and theories of learning applied to music; survey of standardized tests of musical aptitude and achievement.

502 Seminar: Music Education (4)
Prerequisites: MUS 497, baccalaureate with major in music education, at least one year of teaching experience. Evaluation of research and various philosophies, methods, and trends in music education.

503 Musics in World Cultures for the Music Educator (4)
Gaining knowledge and understanding of musics of nonwestern origin through experiences in listening and active participation. Curriculum development projects in multicultural music education for students in K-12 programs.

504 Evaluation and Testing in Music (4)
Measurement and evaluation of music behaviors. Acquaints students with standardized tests in music aptitude and achievement. Emphasizes teacher-made tests measuring cognitive psychomotor and affective outcomes.

507 Seminar: Vocal Techniques (4)
Prerequisite: MUS 406. Seminar and critique on psychophysiological approach to vocal techniques. Designed for experienced teachers, soloists, and choir directors. Individual research and class demonstration.

508 Seminar: Choral Music (4)
Prerequisites: MUS 408, 497. Survey of choral literature with emphasis on stylistic and performance practice considerations.

509 Seminar: Instrumental Music Education (4)
Prerequisites: MUS 407 or 409; 497. Survey and criteria for selection and interpretation of instrumental music.

510 Graduate Choral Ensemble (1)
Prerequisite: Instructor consent by audition. Student will be required to perform additional duties such as: conducting sectionals, preparation of program notes. May be repeated to a maximum of 9 units.

511 Graduate Instrumental Ensemble (1)
Prerequisite: Instructor consent by audition to symphonic band or symphony orchestra. Student will be required to perform additional duties such as: conducting sectionals, preparation of program notes. May be repeated to a maximum of 9 units.

519 Applied Music: Orchestral Instruments (1-2)
Prerequisite: Instructor consent. Lessons on campus with approved instructors. May be repeated to a maximum of 6 units.

520 Applied Music: Conducting (1)
Prerequisite: Instructor consent. Private instruction in score preparation and conducting technique as applied to specific literature for band, orchestra, choir, or other selected ensembles. May be repeated to a maximum of 3 units.

530AB Advanced Style Analysis (4, 4)
Prerequisites: MUS 430, 465. Advanced analytical techniques applied to study of musical styles as related to period, genre, nationalistic, and individual composers.

530A: Chronological Survey to 1700.
530B: From 1700 to the Present
539 Applied Music: Voice (1-2)
Prerequisite: Instructor consent. Lessons on campus with approved instructors. May be repeated to a maximum of 6 units.

545 The Business of Music (3)
Review of contracts, copyright, licensing, unions and basic business practices used in the commercial music industry.

546AB Seminar: Commercial Music (2, 2)
Prerequisite: MUS 545. Practical, theoretical, and philosophical approaches for achieving success as a professional musician in the commercial music industry; emphasis on discourse with professionals in Los Angeles.

547ABC Advanced Orchestration and Arranging for Contemporary Media (4, 4, 4)

547A: Small Sized Combinations
Prerequisites: MUS 462, 466B, 467. Advanced techniques in arranging and orchestrating music for film (narrative, documentary, commercials), radio commercials, and records; emphasis on writing for small (2-10) instrumental ensembles with MIDI instruments available.
547B: Medium Sized Combinations
Prerequisite: MUS 547A. Advanced techniques in arranging and orchestrating music for film, radio commercials, and records; emphasis on writing for medium-sized (9-24) instrumental and vocal ensembles with MIDI instruments included.

547C: Large Sized Combinations
Prerequisite: MUS 547B. Advanced techniques in arranging and orchestrating music for film, radio commercials, and records; emphasis on writing for large studio orchestras.

549 Applied Music, Keyboard Instruments (1-2)
Prerequisite: Instructor consent. Lessons on campus with approved instructors. May be repeated to maximum of 6 units.

560 Advanced Composition (4)
Prerequisite: MUS 460. Free composition in selected vocal and instrumental forms. May be repeated to maximum of 12 units.

568 Seminar: Performance (4)
Prerequisite: 400-level applied music course. Student performance with critiques highlighting stylistic, aesthetic, and practical components that influence musical performance; artist performances (taped or live) and critiques; preparation of graduate recital.

569 Seminar: Composition (4)
Prerequisites: MUS 497, 560. Philosophies and aesthetic theories involved in contemporary music; compositional problems and projects of an advanced nature intended to synthesize previous creative skills and techniques. May be repeated to maximum of 8 units.

570 Music of the Medieval Period (4)
Characteristics of Medieval period; analysis of representative works; music in relation to other arts and medieval society.

571 Music of Renaissance Period (4)
Discussion of stylistic characteristics of music of Renaissance; formal, technical, and thematic score analysis of representative works, accompanied by live or recorded performance.

572 Music of Baroque Period (4)
Characteristics of Baroque music; analysis of representative works and performance practices; music in relation to Baroque arts and society.

573 Music of Classic Period (4)
Characteristics of Classic period; analysis of representative works; music in relation to 18th century arts and society.

574 Music of Romantic Period (4)
Characteristics of Romantic period; analysis of representative works; music in relation to 19th century arts and society.

575 20th Century Music to 1945 (4)
Characteristics of 20th century music from 1900 to 1945; analysis of representative works; music in relation to early 20th century arts and society.

576 20th Century Music Since 1945 (4)
Characteristics of 20th century music from 1945 to present; analysis of representative works; music in relation to avant-garde arts and society.

579 Seminar: Musicology (4)
Prerequisite: MUS 497. Specific musicological problems reported by students and discussed by class. May be repeated to maximum of 12 units.

580 Advanced Choral Conducting (4)
Prerequisite: MUS 480. Analysis of conducting problems of standing choral literature, including both accompanied and unaccompanied music; study of metric relationships, less frequently used conducting patterns, and survey of literature. May be repeated to maximum of 8 units.

581 Advanced Instrumental Conducting (4)
Prerequisite: MUS 481. Analysis and preparation for conducting major works for symphonic band and orchestra. May be repeated to maximum of 8 units.

583 Seminar: Conducting (4)
Prerequisites: MUS 480 or 481; 580 or 581; 508; 509; 497. Conducting topics; study of literature, analytical procedures, and rehearsal techniques applicable to choral and instrumental conducting. May be repeated to maximum of 12 units.

584 Solfege II (3)
Prerequisite: MUS 493. Further development of aural, vocal and visual skills through sight singing and ear training with emphasis on diatonic scales through the use of movable do solmization. Includes rhythmic, melodic and harmonic dictation.

585 Solfege III (3)
Prerequisite: MUS 584. Further development of aural, vocal and visual skills through sight singing and ear training with emphasis on modal scales, modulation and chromaticism. Includes a teaching practicum.

586 Kodaly Methodology Level II (4)
Prerequisite: MUS 494. Philosophy and pedagogy of Zoltan Kodaly applied to American music education. Level II presents pedagogy for grades 3-5. Additional fifteen contact hours required for national certification. Lecture 3 hours, activity 2 hours.

587 Orff-Schulwerk Certification Level II (4)
Prerequisite: MUS 495. Basic Orff pedagogy for working with modal music, folk dance in 5 and 7 meters and introduction to the alto recorder. Follows AOSA guidelines for Level II certification. Lecture 3 hours, activity 2 hours.

588 Kodaly Methodology Level III (4)
Prerequisite: MUS 586. Philosophy and pedagogy of Zoltan Kodaly applied to Americanmusic education. Level III presents pedagogy for middle school and high school instruction. Additional fifteen contact hours required for national certification. Lecture 3 hours, activity 2 hours.

589 Orff-Schulwerk Certification Level III (4)
Prerequisite: MUS 587. Orff pedagogy for major-minor, the addition of tenor and bass recorders and a teaching practicum of original music and movement. Follows AOSA guidelines for Level III certification. Lecture 3 hours, activity 2 hours.

598 Graduate Directed Study (1-4)
Prerequisite: Instructor consent to act as sponsor. Independent study of advanced topics in field; regular conferences with sponsor. May be repeated to maximum of 12 units.

599 Thesis or Project (1-4)
Prerequisites: MUS 497, instructor consent to act as sponsor, departmental approval of topic prior to registration. Independent research resulting in a thesis or project. Must be repeated to maximum of 4 units. Graded CR/NC.
PHILOSOPHY

School of Arts and Letters

DEPARTMENT OFFICE
Engineering and Technology A429
Phone: (213) 343-4180

The Master of Arts degree in Philosophy offers students a broad background in both the history of philosophy and contemporary thought. The program is designed to accommodate various student goals; for example, preparation for further graduate study or for community college teaching as well as self-enrichment. In some specific areas of philosophy, career opportunities are available in institutions engaged in basic research.

Master of Arts Degree

Admission to the Program

In addition to University requirements for admission to graduate study, applicants must possess a baccalaureate in philosophy or a baccalaureate with a major in a field other than philosophy supplemented by appropriate preparation in philosophy.

Applicants must consult an adviser in philosophy to determine whether any academic deficiencies exist before admission to the program can be granted.

Requirements for the Degree (45 units)

A total of 45 units is required, with at least 36 in philosophy and 23 in 500-level courses. Courses outside philosophy must be relevant to the student’s program.

Students are required to include the following philosophy courses in their program, if not completed prior to admission to the program.

PHIL 405 Symbolic Logic (4)
PHIL 460 Metaphysics (4)
PHIL 470 Theory of Knowledge (4)

Comprehensive Examinations or Thesis (0, 1-6 units)

PHIL 596 Comprehensive Examination (0) or PHIL 599 Thesis (1-6)

Comprehensive Examinations

Students must comply with school and departmental eligibility requirements for registration for the comprehensive examinations (PHIL 596) and may take all three examinations during one quarter or spread them over successive quarters. Students are required to pass comprehensive examinations in three of the following four areas: History of philosophy (ancient, modern, and either medieval or recent); metaphysics and theory of knowledge; philosophy of science, philosophy of language, logic (any two); and ethics and either aesthetics or social and political philosophy.

Students are permitted two attempts to pass each comprehensive examination. Students who fail a comprehensive examination in the same area a second time will be disqualified from the program.

Thesis

Completion of the first 24 units of the master’s degree program with a minimum 3.6 grade point average, approval of the thesis proposal by the department, enrollment in 1-6 units of PHIL 599, and an oral examination about the thesis are required for the thesis option.

Students who have at any time attempted the comprehensive examination (PHIL 596) are ineligible for this option.

Students who select the thesis option must include seminars in at least three of the four major comprehensive examination areas in their master’s degree program.

Certificate Program in Teaching Critical Thinking

The credit certificate program in Teaching Critical Thinking is designed for those with an interest in the theory and techniques of teaching critical thinking at either the college or secondary school level.

In addition to University requirements for admission to graduate study, applicants must have some background in philosophy or another humanistic discipline. In particular, students must be familiar with both sentential and predicate logic. Interested students should consult the program coordinator in the Department of Philosophy. Deficiencies in preparation may be remedied during the first quarters of enrollment in the program.

This certificate program is not equivalent to any program that leads to a teaching credential. A total of 24 units is required, including 16 units in the required core and 8 in electives, with a minimum B (3.0) grade point average. Most courses are applicable to the Masters of Arts in Philosophy. Refer to the Graduate Study chapter of this catalog for general regulations governing all certificate programs.

Requirements for the Certificate (24 units)

Required Core Courses (16 units)

PHIL 480 Philosophy of Language (4)
PHIL 485 Philosophy of Science (4)
PHIL 580 Seminar: Critical Thinking-Models and Strategies (4)
PHIL 581 Projects in Teaching Philosophy (4)

Electives (8 units)

In consultation with an adviser, select two 400 or 500-level philosophy courses or seminars or SPCH 576 Seminar: Argumentation, Discussion, and Debate (4)

Students who are interested in teaching critical thinking courses in areas other than philosophy may substitute appropriate courses with adviser approval.
Courses in Philosophy (PHIL)

400-level Courses

All 400-level courses may be applied toward masters degree requirements, subject to limits established by the department and approval of the graduate adviser.

Graduate Courses

Classified graduate standing is required for admission.

510 Seminar: History of Philosophy (4)
Advanced study of selected figures and problems in history of philosophy. May be repeated to a maximum of 12 units as subject matter changes.

521 Seminar: Logic (4)
Advanced study of selected problems in deductive or inductive logic. May be repeated to a maximum of 12 units as subject matter changes.

523 Seminar: Philosophy of Language (4)
Advanced study of selected problems in philosophy of language. May be repeated to a maximum of 12 units as subject matter changes.

525 Seminar: Philosophy of Science (4)
Advanced study of selected problems in philosophy of the sciences, including mathematics, natural sciences, psychology, and social sciences. May be repeated to a maximum of 12 units as subject matter changes.

531 Seminar: Metaphysics (4)
Advanced study of selected problems in metaphysics. May be repeated to a maximum of 12 units as subject matter changes.

532 Seminar: Theory of Knowledge (4)
Advanced study of selected problems in theory of knowledge. May be repeated to a maximum of 12 units as subject matter changes.

542 Seminar: Aesthetics (4)
Advanced study of selected problems in aesthetics. May be repeated to a maximum of 12 units as subject matter changes.

543 Seminar: Ethics (4)
Advanced study of selected problems in ethics, including moral theory and applied issues. May be repeated to a maximum of 12 units as subject matter changes.

544 Seminar: Social and Political Philosophy (4)
Advanced study of selected problems in social and political philosophy, including social/political theory and applied issues. May be repeated to a maximum of 12 units as subject matter changes.

580 Seminar: Critical Thinking-Models and Strategies (4)
Prerequisites: PHIL 480, 485. Theoretical models of critical thinking and pedagogical strategies and materials for teaching different kinds of students.

581 Projects in Teaching Philosophy (4)
Prerequisite: PHIL 580. Planned preparation and critical evaluation of undergraduate philosophy classes, especially critical thinking.

598 Graduate Directed Study (1-4)
Prerequisite: Consent of faculty sponsor before registration. Independent study of advanced topics in field; regular conferences with sponsor. May be repeated to a maximum of 8 units for credit.

599 Thesis (1-6)
Prerequisites: minimum 3.6 grade point average in first 24 units of MA program, formal approval by department. Independent research resulting in a thesis. May be repeated to maximum of 6 units. Graded CR/NC. Not open to students with prior enrollment in comprehensive examinations (PHIL 596).
THEATRE ARTS AND DANCE

School of Arts and Letters
DEPARTMENT OFFICE
Theatre 110
Phone: (213) 343-4110

Master of Arts Degree in Theatre Arts

Admission to the Program

Application must be made to both the department of Theatre Arts and Dance and the University. Forms for both may be obtained from the department office.

Applicants must submit completed departmental applications with one copy of transcripts from all colleges attended, three letters of recommendation, a statement of purpose for undertaking graduate studies, an artistic resume and/or portfolio (if appropriate). All applicants must submit a writing sample illustrating command of research and writing skills. Applications and supporting documentation must be received by the department of Theatre Arts and Dance before June 15 for admission Fall Quarter, October 1 for Winter Quarter, February 1 for Spring Quarter, and April 1 for Summer Quarter.

University applications and two copies of official transcripts from all colleges attended must be sent to the Admissions Office in accordance with University admission deadlines. GRE examinations are recommended for those students considering the MA as preparation for a Ph.D. International students must submit TOEFL scores. Campus interview and visits with faculty are encouraged for all applicants seeking admission.

In addition to University requirements for admission to graduate study, applicants must have a baccalaureate in theatre arts, dance, or performance studies from an accredited college or university with a minimum 3.0 average in the major, or have completed a baccalaureate in a related field with at least 24 quarter units of approved upper division courses in one or more of these areas with a minimum 3.0 average. Of the 24 quarter units, at least 9 quarter units must be in theatre history, literature, and/or dance history courses and 6 quarter units of upper division work in technical theatre. Deficiencies will be determined by the Director of Graduate Studies, and undergraduate coursework may be required.

Requirements for the Degree (45 units)

All students are required to serve in at least one of the following capacities during their graduate study: as an actor in two or more substantial acting roles; as director of a one-act play or a full-length play; as scenic, lighting, or costume designer of a production; or as assistant to the faculty director for one production. This requirement must be met within framework of regularly sponsored department productions.

A total of 45 units is required, with at least 23 in 500-level courses.

Required Core (20 units)

TA 511 Seminar: Special Studies in Theatre History (4, 4)
TA 541 Seminar: Theories of Acting (4)
TA 566 Seminar: Dramatic Theory (4)
TA 570 Seminar: Experimental Theatre (4)

Electives (14-17 units)

Select 3 units in one of the following:

TA 595 Graduate Performance (3) or
TA 598 Graduate Directed Study (3)
(for students who select comprehensive examination)

Select 8 units from following:

TA 441, 442, 443, 445, 446, 454L,P, 460, 461, 462, 463, 471, 472, 476

Select 6 units from following:

TA 422, 426, 427, 431, 432, 434, 435, 439

Additional electives (8 units)

Select with adviser approval.

Comprehensive Examination or Thesis or Project

(0, 3 units)

**TA 596 Comprehensive Examination (0) or
TA 599 Thesis or Project (3)

The choice of comprehensive examination or thesis or project is to be made with adviser approval.

**in combination with 3 units of TA 595 and/or 598

Students should take the comprehensive examination (TA 596) the quarter they complete all course work on their program and must comply with school and departmental requirements.

Courses in Theatre Arts (TA)

400-level Courses

All 400-level courses may be applied toward master's degree requirements except the following, subject to limits established by the department and approval of the graduate adviser: TA 499.

Graduate Courses

Classified graduate standing is required for admission.

511 Seminar: Special Studies in Theatre History (4)
Prerequisites: TA 311-313. Significant era or movement in theatre history. Specific subject announced in Schedule of Classes. May be repeated to a maximum of 8 units for credit.

541 Seminar: Theories of Acting (4)
Prerequisite: At least one upper division course in acting or directing. Major theories of acting from Diderot to present with special emphasis on origins, esthetics, and psychology of acting.

566 Seminar: Dramatic Theory (4)
Prerequisite: At least one upper division course in dramatic theory or dramatic literature. Backgrounds in theatrical art, analysis of aesthetic principles and content of theatre; selected problems in philosophy of dramatic art.

570 Seminar: Experimental Theatre (4)
Prerequisites: TA 471 plus an upper division course in dramatic literature and/or dramatic theory. Significant theatrical and dramatic theories and developments that have contributed specifically to experimental search for 20th century forms in theatre arts.

572 Seminar: Research in Dance Literature (3)
Research in dance literature; survey of scope of writings in various areas of dance and creative movement; emphasis on current publications. Individual research projects.
577 Seminar: Drama Therapy Techniques (4)
Prerequisite: TA 478. Advanced psychodramatic and projective drama therapy techniques exploring video, photography, puppetry, face-painting, sand play, masks, and other creative media. May be repeated to maximum of 8 units.

578 Seminar: Drama Therapy Assessment and Treatment (4)
Theories of drama therapy, research, assessment, diagnosis, and treatment interventions. May be repeated to maximum of 8 units.

579 Seminar: Case Studies in Drama Therapy (4)
Prerequisites: TA 478, 479. Advanced theories and techniques of drama therapy applied to individual case work. May be repeated to maximum of 8 units.

594 Field Work/Internship Drama Therapy (1-4)
Prerequisite: TA 478. Independent supervised field experience in drama therapy internships with individuals, groups, and families. May be repeated to maximum of 16 units.

595 Graduate Performance (1-4)
Prerequisite: Consent of graduate adviser. Demonstration of graduate level proficiency in a major performance situation; research or analytical written project directly related to performance. May be repeated to maximum of 4 units.

598 Graduate Directed Study (1-4)
Prerequisite: Instructor consent to act as sponsor. Independent study of advanced topics in field; regular conferences with sponsor. May be repeated to a maximum of 12 units for credit.

599 Thesis or Project (1-5)
Prerequisites: Advancement to candidacy, instructor consent to act as sponsor, departmental approval of topic prior to registration. Independent research resulting in a thesis or project. May be repeated to maximum of 6 units. Graded CR/NC.

The major objective of the School of Business and Economics is to equip men and women with the intellectual tools they need to assume responsible positions in business, industry, education, government, and the managerial aspects of social service organizations. Preparation includes both a basic understanding of the entire social and physical environment of the urban community, of which business and economics are an integral part, and a substantial background in the underlying fields of knowledge that deal specifically with business and economics.

Accreditation
The School of Business and Economics is nationally accredited on both the graduate and undergraduate levels by the American Assembly of Collegiate Schools of Business.

Degrees Offered
The school offers programs leading to master’s degrees in five fields.

The Master of Science degree in Accountancy, for holders of a baccalaureate, is designed to provide specific professional preparation in the options of Business Taxation, Financial Accounting, Information Systems, and Management Accounting.

The Master of Business Administration (M.B.A.) degree offers professional preparation for management positions in business and industry. It is designed for holders of a baccalaureate in other academic fields as well as in business.

The Master of Arts degree in Economics provides students the opportunity for advanced study of economic theory and research, in preparation for careers in industry, government, and education, or for further graduate study.

The interdisciplinary Master of Science degree in Health Care Management is designed to prepare people in the health care industry to meet the increasing demands placed on middle- and upper-level managers in large metropolitan health care facilities. The program goal is achieved through interdisciplinary courses primarily in the School of Health and Human Services and the School of Business and Economics.

Credit Certificate Programs Offered
In addition to graduate degree programs, the school also offers several credit certificate programs which, although available for undergraduate students, may also be of interest to graduate and postbaccalaureate students. These programs are included in the undergraduate School of Business and Economics chapter. General regulations governing all credit certificate programs are found in the Undergraduate Study and Graduate and Postbaccalaureate Study chapters.

Admission to Master’s Degree Programs in Business Administration
The school admits graduate students to the MBA, MS in Business Administration, MS in Accountancy, and MA in Business Education degree programs in conditionally classified standing and classifies them when eligible. In addition to University admission requirements, applicants to graduate programs in the School of Business and Economics must satisfy criteria outlined below. The School of Business and Economics examines the academic ability and managerial potential of each candidate, taking into consideration all academic work, Graduate Management Admission Test (GMAT) scores, letters of recommendation, work experience, level of job responsibility, and other relevant factors. Applicants are evaluated on the merits of their own application in comparison with all applicants for the quarter.

Application Procedure for Master’s Degree Programs in Business Administration
Applicants must submit the following information during the filing periods listed below:

1. Application to the University for desired quarter of admission;

2. Official transcripts, as indicated on application, sent directly to the Office of Admissions (must include verification of bachelor’s degree);

3. Separate graduate program application sent directly to the School of Business and Economics;
(4) Scores for the Graduate Management Admission Test (GMAT) taken within five years of application date and sent directly to School of Business and Economics; and

(5) Three letters of recommendation sent directly to the School of Business and Economics. References from employers and/or academicians are acceptable.

**Classified Graduate Standing**

Classified graduate students are those officially admitted to master's degree programs. Students who hold a baccalaureate in business and who have completed preparatory courses listed below with a minimum C (2.0) grade in each course will be admitted to the program with classified graduate standing. Those without a baccalaureate in business or who have otherwise not fulfilled preparatory course requirements will be admitted with conditionally classified standing.

Students are required to complete 36 units of preparatory business and related courses for admission to classified graduate standing for the M.S. degree in Accountancy, the M.S. degree in Business Administration, and the M.B.A. degree.

The 36-unit requirement can be met either by taking the courses listed below or by submitting transcripts demonstrating that the equivalent subject material has been successfully completed either at the undergraduate or graduate level. In addition, competency must be demonstrated in calculus, statistics, and the use of computers. The competency requirement can be met by successfully passing competency exams in each area of by submitting transcripts showing that the subject matter has been successfully completed at either the undergraduate or graduate level.

**Electives (select 7 units with at least one 500-level seminar)**

- **Business Taxation Option (19 units)**
  - Required Courses (12 units)
    - ACCT 521 Seminar: Financial Accounting Theory (3)
    - ACCT 585 Seminar: Tax Theory and Business Applications (3)
    - ACCT 586 Seminar: Tax Research and Practice (3)
    - ACCT 587 Seminar: Taxation of Corporations and Shareholders (3)
  - Electives (select 7 units with at least one 500-level seminar)
    - Information Systems Option (19 units)
      - Required Courses (12 units)
        - ACCT 524 Seminar: Advanced Cost and Managerial Accounting (3)
        - CIS 527 Seminar: Computerized Decision Analysis (3)
        - CIS 528 Seminar: Current Problems in Business Information Systems (3)
        - CIS 584 Seminar: Controlling and Auditing Computer Systems (3)
      - Electives (select 7 units with at least one 500-level seminar)
ACCT 524 Seminar: Advanced Cost and Managerial Accounting (3)
ACCT 585 Seminar: Tax Theory and Business Applications (3)
CIS 527 Seminar: Computerized Decision Analysis (3)
Electives (select 7 units with at least one 500-level seminar)
Comprehensive Examination (written)
Students should expect to take the comprehensive examination (BUS 596) the quarter they complete all course work on their program and must comply with school and departmental requirements.

Master of Science Degree in Business Administration
This is a specialized degree program permitting concentration and research in one of the following options: Business Economics, Finance, International Business, Management, Management Information Systems, and Marketing.

Admission to the Program
In addition to completing the 52 quarter units of acceptable business courses listed above, applicants must have an approved graduate degree program on file in the Graduate Programs Office.

Requirements for the Degree (45 units)
A total of 45 units is required, with at least 41 500-level courses.

Required Core (23-26 units)
ACCT 503 Quantitative Approach to Managerial Decisions (4)
CIS 504 Management Information Systems (4)
ECON 502 Economic Analysis and Business Operations (4)
MGMT 501 Administrative Behavior and Systems Management (4)
MGMT 594 Policy Integration and Strategy (3)
MGMT 598 Graduate Directed Study (1)
A 598 course, for 4-7 units, chosen from ECON, FIN, MGMT, or MKT, depending on option chosen.

Thesis (5 units)
BUS 599AB Thesis (2, 3)

options (14-17 units)
Select one of the following options; electives are selected in conference with a graduate adviser to meet professional objectives.

- Business Economics Option (14-17 units)

Required Courses (9 units)
ECON 510 Seminar: Advanced Microeconomic Theory I (3)
ECON 511 Seminar: Advanced Microeconomic Theory II (3) or
ECON 520 Seminar: National Income and Employment Theory (3)
ECON 521 Seminar: Monetary Theory and Policy (3)

Electives (4-7 units)
Students who have not taken ECON 409 for undergraduate credit must include it in their electives.

- Finance Option (14-17 units)

Required Courses (9 units)
FIN 530 Seminar: Business Finance (3)
FIN 531 Seminar: Financial Institutions (3)
FIN 532 Seminar: Estate Planning (3)

Electives (4-7 units)

- International Business Option (14-17 units)

Required Courses (select 9 units from following)
ACCT 525 Seminar: International Accounting (3)
ECON 561 Seminar: International Economics (3)
FIN 533 Seminar: International Finance (3)
MGMT 577 Seminar: International Business Management (3)
MKT 543 Seminar: International Marketing (3)

Electives (4-7 units)
In addition, intermediate: level proficiency in an appropriate foreign language is recommended.

- Management Option (14-17 units)

Required Courses (9 units)
MGMT 560 Seminar: Strategic Planning (3)
MGMT 561 Seminar: Organizing (3)
MGMT 562 Seminar: Control (3)

Electives (4-7 units)

- Management Information Systems Option (14-17 units)

Required Courses (9 units)
CIS 527 Seminar: Computerized Decision Analysis (3)
CIS 528 Seminar: Current Problems in Business Information Systems (3)
CIS 584 Seminar: Controlling and Auditing Computer Systems (3)

Electives (4-7 units)

- Marketing Option (14-17 units)

Required Courses (9 units)
MKT 542 Seminar: Marketing Management (3)
MKT 543 Seminar: International Marketing (3)
MKT 544 Seminar: Consumer Behavior (3)

Electives (4-7 units)

Master of Business Administration Degree
This is a broad, management-oriented degree providing for only limited concentration in one of the following options: accounting, business economics, business information systems, finance, health, care management, international business, management, marketing, office systems.

Admission to the Program
In addition to completing the 36 quarter units of acceptable preparatory business and related courses listed under Classified Graduate Standing earlier in this chapter and, for students concentrating in accounting, 20 quarter units in accounting (320ABC, 321, and 420), applicants must have an approved graduate program on file in the Graduate Advisement Center.

Requirements for the Degree (52 units)
A total of 52 units is required, with at least 48 in 500-level courses.

Required Core (32 units)
ACCT 503 Quantitative Approach to Managerial Decisions (4)
ACCT 520 Seminar: Management Accounting Theory (3)
ACCT 598 Graduate Directed Study (1)
CIS 504 Management Information Systems (4)
ECON 502 Economic Analysis and Business
Operations (4)
FIN 530 Seminar: Business Finance (3)
FIN 598 Graduate Directed Study (1)
MGMT 501 Administrative Behavior and Systems Management (4)
MGMT 594 Policy Integration and Strategy (3)
MGMT 598 Graduate Directed Study (1)
MKT 542 Seminar: Marketing Management (3)
MKT 598 Graduate Directed Study (1)

Additional Courses (20 units)
Select 400 or 500-level courses with adviser approval. A maximum of 16 units may be taken in one field, chosen from accounting, business information systems, finance, international business, management, marketing, health care management, office systems, or business economics. Each 3-unit, 500-level seminar included must be accompanied by a 1-unit 598 course from the same department. A minimum of 16 units must be 500 level.

Comprehensive Examination (written) (0 units)
Students should expect to take the comprehensive examination (BUS 596) the quarter they complete all course work on their program and must comply with school and departmental requirements.

Master of Arts Degree in Economics
The General option is intended for persons in industry, government, and education who need to develop an understanding of contemporary economic analysis.
The Analytic-Quantitative option is intended for individuals seeking an emphasis on applied quantitative analysis or planning to enter a doctoral program in Economics.

Admission to the Program
In addition to University requirements for admission to graduate study with conditionally classified standing, applicants must have a 2.75 grade point average in the last 90 quarter units attempted and a minimum cumulative score of 900 on the verbal and quantitative sections of the GRE General Test.

For admission as a classified graduate student in Economics, the student must meet the above admission requirements and also the following prerequisites: equivalent of the baccalaureate in economics at Cal State L.A. or completion with a B (3.0) average of a set of prerequisite courses selected by an economics adviser at Cal State L.A.; filing of a program, including electives, with the School of Business and Economics.

If qualifying courses are required, they must be so designated in advance. They may include upper division and prerequisite courses.

Requirements for the Degree (45 units)
The 45-unit program consists of core requirements which are to be taken together with either the General option or the Analytic-Quantitative option. A minimum of 23 units must be 500 level.

Required Courses (12 units)
**ECON 510 Seminar: Advanced Microeconomic Theory I (3)
**ECON 520 Seminar: National Income and Employment Theory (3) and
**ECON 511 Seminar: Advanced Microeconomic Theory II (3) or
**ECON 521 Seminar: Monetary Theory and Policy (3)
ECON 598 Graduate Directed Study (1, 1, 1)

*Concurrent enrollment in ECON 598 for 1 unit required with each of these seminars.

Options
Select one of the following options for 28-33 units. Electives are determined in conference with a graduate adviser to meet the professional objectives of students.

- **General Option (23-33 units)**

Required Courses (8 units)
ECON 401 Mathematical Economics (4)
ECON 414 Econometrics (4)

Electives (20-25 units)
Select 400 and 500-level courses in economics, social and behavioral sciences, business, or mathematics, in consultation with a graduate adviser. A sufficient number must be at the 500 level to bring the total 500-level units for core and electives to at least 23. The electives shall include a field of concentration for those electing the comprehensive examination.

- **Analytic-Quantitative Option (28-33 units)**

Required Courses (16 units)
ECON 401 Mathematical Economics (4)
ECON 414 Econometrics I (4)
ECON 416 Econometrics II (4)
ECON 491 Sampling Theory and Techniques in Research (4) or
MATH 475 Introduction to Mathematical Statistics (4)
ECON 514 Seminar: Econometrics (3)
ECON 598 Graduate Directed Study (1)

Electives (12-17 units)
Select 400 and 500-level courses in economics, social and behavioral sciences, business, or mathematics in consultation with a graduate adviser. A sufficient number must be at the 500 level to bring total 500-level units for core and electives to at least 23. The electives shall include a field of concentration for those electing the comprehensive examination.

Comprehensive Examination or Thesis (0, 5 units)
BUS 596 Comprehensive Examination (0) or
ECON 599AB Thesis (2, 3)
Students who select the comprehensive examination option must take examinations in macroeconomic and microeconomic theory and in a third field of economics chosen by the student. Students should expect to take the comprehensive examination (BUS 596) the quarter they complete all course work on their program and must comply with school and departmental requirements.

Master of Science Degree in Health Care Management
The Master of Science degree in Health Care Management assists people presently or previously employed in health care settings to develop the necessary managerial skills and awareness of the most recent innovations in health care delivery systems to fulfill the responsibilities of management positions in the industry.
The program’s unique interdisciplinary character permits students to take courses in many disciplines, including psychology, nursing, computer information systems, finance, and labor relations.
Admission to the Program
In addition to University requirements for admission to graduate study, applicants must meet the following requirements:

- A 2.75 grade point average or above in the last 90 quarter units.
- A resume that documents a minimum of one year recent full-time work experience or equivalent in a health care setting.

Two recommendations from persons who have supervised the applicants work in a health care setting (send to Health Care Management Advisory Committee, Department of Management, School of Business and Economics, prior to May 15 for admission to Summer Quarter, August 1 for Fall Quarter, November 15 for Winter Quarter, and February 15 for Spring Quarter).

Requirements for the Degree (45 units)
A total of 45 units is required, with at least 23 in 500-level courses.

Required Courses (28 units)
MGMT 461 Management Theory and Practice (4)
MGMT 470 Managerial Leadership and Motivation (4)
MGMT 478 Financial Management of Health Care Institutions (4)
MGMT 501 Administrative Behavior and Systems Management (4)
MGMT 564 Labor Relations Aspects of Health Care Delivery (2)
MGMT 576 Seminar: Managing Health Care Organizations (3)
MGMT 598 Graduate Directed Study (1)
NURS 562 Human Resource Utilization in Health Care Organizations (2)
NURS 564 Seminar: Health Care Administration (2)
MGMT 595 Advanced Field Study (2) or
NURS 595 Advanced Field Study (2)

Electives (select 17 units of 400 or 500-level courses with prior adviser approval)

Comprehensive Examination (0 units)
Students should expect to take the comprehensive examination (BUS 596) the quarter they complete all required courses and the quarter they complete all work on the program and must comply with school and departmental regulations.
COURSES IN BUSINESS AND ECONOMICS

Courses in Business and Economics-Interdepartmental (BUS)

400-level Courses

All 400-level courses may be applied toward master’s degree requirements, subject to limits established by the department and approval of the graduate adviser.

Graduate Courses

Classified graduate standing and approval by the School of Business and Economics Graduate Programs Office are required for admission to all 500-level courses.

503 Quantitative Approach to Managerial Decisions (4)
Use of quantitative information provided from accounting and statistical sources in arriving at solutions to complex business problems.

520 Seminar: Management Accounting Theory (3)
Corequisite: ACCT 598. Advanced accounting theory as applied to modern business practice; background and place of accounting in society and the economy; current development in accounting theory.

521 Seminar: Financial Accounting Theory (3)
Corequisite: ACCT 598. Advanced analytical concepts implicit in contemporary accounting practice; current developments in accounting techniques; specific applications to major aspects of financial statements.

522 Seminar: Current Topics in Financial Reporting (3)

523 Seminar: Public Accounting (3)
Corequisite: ACCT 598. Historical development of professions, audit function in relation to ethical and legal considerations, trends in new services for clients, the CPA firm, multinational practice, signposts of the future.

524 Seminar: Advanced Cost and Managerial Accounting (3)
Prerequisite: ACCT 520. Corequisite: ACCT 598. Selected analytical and policy issues underlying current developments in standards and techniques; application of advanced concepts to profit and nonprofit organizations.

525 Seminar: International Accounting (3)
Corequisite: ACCT 598. Selected analytical and policy issues underlying current developments in international accounting.

555 Seminar: Tax Theory and Business Applications (3)
Prerequisite: ACCT 421A. Corequisite: ACCT 598. Tax concepts and judicial doctrines inherent in federal tax law; effects of taxation of business organization, capital structure, policies, and operation.

586 Seminar: Tax Research and Practice (3)
Prerequisite: ACCT 421A. Corequisite: ACCT 598. Methodology of researching complex tax problems; tax planning; scope of activity, responsibility, and ethics of accountant in tax field.

587 Seminar: Taxation of Corporations and Shareholders (3)
Prerequisite: ACCT 421A. Corequisite: ACCT 598. Statutory, regulatory, and case material applicable to corporation tax including formation, stock redemptions, and liquidations; stock dividends and preferred stock bailouts; elections under subchapters; personal holding companies, accumulated earning tax; collapsible corporations.

Graduate Courses

599A Thesis (2)
Prerequisites: Written approval of graduate adviser; for M.S. Business Administration candidates, completion of at least one of ACCT 503, ECON 502, or MGMT 501 and concurrent registration in at least one of the remaining two courses. Formal course in research methodology conducted at option of individual departments. Prior to completion, students will have completed a tentative outline of thesis, petitioned graduate adviser for appointment of a thesis committee, and submitted tentative outline to thesis committee. Graded CR/NC.

599B Thesis (3)
Prerequisites: BUS 599A, written approval of thesis committee chair. Completion of thesis under direct supervision of thesis committee. Graded CR/NC.

Courses in Accounting (ACCT)

Undergraduate Courses

The following undergraduate courses are restricted to conditionally classified graduate students. They do not yield credit toward advanced degrees.

260R Accounting Principles (4)
Fundamentals of accounting theory and practice; how accounting serves the business entity.

360R Management Accounting and Analysis (4)
Prerequisite: ACCT 202 or 260R. Use of accounting data for cost control and decision-making. Topics include cost accounting, cost volume profit analysis, relevant costs, profit planning, capital budgeting, and tax considerations.

400-level Courses

All 400-level courses except those followed by the suffix R may be applied toward master’s degree requirements, subject to limits established by the department and approval of the graduate adviser.
Courses in Computer Information Systems (CIS)

Undergraduate Course

The following undergraduate course is restricted to conditionally classified graduate students. It does not yield credit toward advanced degrees.

282R Business Information Processing (4)
Fundamentals of computer hardware, software, and communication subsystems; business modeling in IFPS; programming in BASIC: use of time-sharing terminals for interactive data processing.

400-level Courses

All 400-level courses may be applied toward master's degree requirements, subject to limits established by the department and approval of the graduate adviser.

Graduate Courses

Classified graduate standing and approval by the School of Business and Economics Graduate Programs Office are required for admission to all 500-level courses.

504 Management Information Systems (4)
Teleprocessing, data management, and computing systems and their applications to business administration and management.

527 Seminar: Computerized Decision Analysis (3)
Corequisite: CIS 598. Analysis, design, management, and use of a business information system, concentrating on participation of top and middle managers in these functions.

528 Seminar: Current Problems in Computer Information Systems (3)
Prerequisite: CIS 504. Corequisite: CIS 598. Latest research projects in computer information systems; application of research techniques and results to specific problems. May be repeated once as subject matter changes.

543 Seminar: Data Base Planning (3)
Prerequisite: CIS 504. Corequisite: CIS 598. Management responsibilities in data base planning; methods of planning for data bases; case studies in data base development.

580 Seminar: Microcomputer Networks (3)
Prerequisite: CIS 504. Corequisite: CIS 598. Advanced technology concepts and developments seminar; trends in hardware and associated operating systems and architecture; Distributed Information Systems (distributed data processing), networking, data communications related to networks.

567 Seminar: Business Expert Systems (3)
Prerequisite: CIS 504. Corequisite: CIS 598. Business expert systems and their role in reshaping traditional concepts of what organizations are, how they are managed, and how decisions are made.

581 Seminar: Health Care Information (3)
Prerequisite: HS 540. Corequisite: CIS 598. Introduction to computer hardware, software, telecommunications, and information systems management; emphasizes medical informatics and health care applications; includes advanced seminar presentations about current professional issues. Open only to MS-Health Care Management students.

584 Seminar: Controlling and Auditing Computer Systems (3)
Corequisite: CIS 598. Controlling on-line interactive computer/data communication systems as a challenge to management and to internal and external auditors.

585 Large Scale Computer Networks, Telecommunications, and Information Services (3)
Prerequisite: CIS 504. Corequisite: CIS 598. Interdisciplinary survey of computer networks, supporting telecommunications, and network information services; international open system interconnection standards, global information services regulatory/legal infrastructure, and strategic network management. Not open to students in: MS Accountancy (IS option); MBA (BIS option); MS Business Administration (MIS option).

Graduate Directed Study (1)
Investigation of an approved project leading to written report; project selected in conference with seminar professor, and arrangements made for regular meetings during quarter. May be repeated for credit.

Courses in Economics (ECON)

Undergraduate Courses

The following undergraduate courses are restricted to conditionally classified graduate students. They do not yield credit toward advanced degrees.

311R Managerial Economics (4)
Prerequisites: ECON 201, 369R. Managerial application of economic theory; optimization techniques applied to consumer choice, firm behavior, pricing, and the study of market structure.

369R Statistics for Business Administration (4)
Prerequisite: MATH 242. Linear statistical models and nonparametric methods emphasizing business applications, linear regression, and correlation; analysis of variance; index numbers, time series and enumerative data analysis; nonparametric statistics. Five hours per week.

Graduate Courses

Classified graduate standing and approval by the School of Business and Economics Graduate Programs Office are required for admission to all 500-level courses.

502 Economic Analysis and Business Operations (4)
Tools, concepts, and factual data of the economist in solving specific business problems; case method applications of principles, analytical tools, and sources of economic information to practical business situations.
510 Seminar: Advanced Microeconomic Theory I (3-4)

511 Seminar: Advanced Microeconomic Theory II (3)
Prerequisite: ECON 510. Corequisite: ECON 598. Continuation of ECON 510 with emphasis on general equilibrium analysis, capital theory, and intertemporal resource allocation.

514 Seminar: Econometrics (3)
Prerequisite: ECON 41.; Corequisite: ECON 598. Advanced treatment of statistics to analyze economic systems and test economic theories; emphasis on simultaneous equation models and time series models and their applications using econometric computer software.

520 Seminar: National Income and Employment Theory (3-4)
Prerequisite: ECON 403. Corequisite: ECON 598. Seminar in aggregate income and employment theory; analysis of national income measurement and concepts, macroeconomic theory, fiscal policy.

521 Seminar: Monetary Theory and Policy (3-4)
Prerequisite: ECON 520. Corequisite: ECON 598. Seminar in aggregate income and employment theory; monetary theory, role of money in macroeconomic theory, monetary policy.

526 Seminar: International Political Economy (4)
(also listed as POLS 526)
Prerequisite: ECON/POLS 425 or ECON 461 plus POLS 427. Research and analysis of the interactions of politics and economics in the international arena.

530 Seminar: Labor Economics (3)
Prerequisites: ECON 414, 430. Corequisite: ECON 598. Seminar in microeconomics of labor market; human capital theory; labor market discrimination; public sector labor market; unemployment theories.

533 Seminar: Public Finance (3)

540 Seminar: Urban Economics (3)
Prerequisite: ECON 44.; Corequisite: ECON 598. Advanced treatment of economic models for analyzing urban-regional problems, including growth, land use, housing, transportation, income distribution. Emphasis on construction and use of models in policy evaluation.

560 Seminar: Economic Growth in Underdeveloped Areas (3)
Prerequisite: ECON 460. Corequisite: ECON 598. Advanced treatment of theory and practice of national development from an economic perspective. Major theories of economic development; role of labor, capital, technology, foreign trade, and government policy.

561 Seminar: International Economics (3)
Prerequisite: ECON 461. Corequisite: ECON 598. Advanced study and analysis of theories concerning economics of international exchange of goods, services, capital and government transfers; discussion of international institutions regulating trade and payments among nations.

571 Seminar: Economic History of U.S. (3)
Prerequisite: ECON 471. Corequisite: ECON 598. Critical examination of selected topics in American economic history with emphasis on the empirical application of economic analysis.

590 Seminar: Contemporary Economic Analysis and Policy (3)
Corequisite: ECON 598. Selected analytical and policy issues underlying current developments in theoretical, empirical, and policy research; topics will reflect student interest and faculty specialty. May be repeated once as subject matter changes, with instructor consent.

598 Graduate Directed Study (1-4)
Investigation of an approved project leading to an oral and/or written report; project selected in conference with seminar professor before registration, and arrangements made for regular meetings during quarter. May be repeated for credit.

599A Thesis (2)
Prerequisites: Completion of required core courses, written approval of graduate adviser. Prior to completion, students will have completed a tentative outline of thesis, petitioned graduate adviser for appointment of a thesis committee, and submitted a tentative outline to thesis committee. Graded CR/NC.

599B Thesis (3)
Prerequisites: ECON 599A, written approval of thesis committee chair. Completion of thesis under direct supervision of thesis committee. Graded CR/NC.

**Courses in Finance (FIN)**

**Undergraduate Courses**

The following undergraduate courses are restricted to conditionally classified graduate students. They do not yield credit toward advanced degrees.

261R Law for the Business Manager (4)
Law of contracts, agency, business organizations, sales, negotiable instruments, antitrust, and administrative agencies.

363R Managerial Finance (4)
Prerequisites: ACCT 360R; ECON 369R. Analysis of the financial management function; development of tools, procedures, and theories used in analyzing the investment decision, the financing decision, the dividend decision, and the management of working capital.

400-level Courses

All 400-level courses may be applied toward masters degree requirements, subject to limits established by the department and approval of the graduate adviser.

**Graduate Courses**

Classified graduate standing and approval by the School of Business and Economics Graduate Programs Office are required for admission to all 500-level courses.

530 Seminar: Business Finance (3)
Prerequisites: ACCT 503, 520, ECON 502. Corequisite: FIN 598. Analysis of acquisition and administration of assets by the business corporation; analysis of interrelationships between business financial decisions and national economy; and development of theories of financial management.
531 Seminar: Financial Institutions (3)
Prerequisite: FIN 530. Corequisite: FIN 598. Role of financial institutions in U.S.; financial management of various types of financial institutions against a background of national income, national policies, and flow of funds.

532 Seminar: Estate Planning (3)
Corequisite: FIN 598. Advanced planning for individual financial management; consideration given to legal, financial, and taxation problems, including insurance, investments, trusts, real estate, wills, and related laws.

533 Seminar: International Finance (3)
Prerequisite: FIN 530. Corequisite: FIN 598. Analysis of institutions, instruments, and procedures used in financing exports and imports, international investments, and multinational business operations.

534 Seminar: Portfolio Management (3)
Prerequisite: FIN 530. Corequisite: FIN 598. Application of modern capital market theory to portfolio management; determination of market risk and return measures; development of portfolio preference models to cover range of investors from pension funds and institutional investors to individual investor.

535 Seminar: Speculative Securities and Markets (3)
Prerequisite: FIN 534. Corequisite: FIN 598. Economics and pricing of options and futures contracts and their applications to portfolio management; how proliferation of speculative markets affects efficiency and stability of financial system.

598 Graduate Directed Study (1)
Investigation of an approved project leading to written report; project selected in conference with seminar professor, and arrangements made for regular meetings during quarter. May be repeated for credit.

Courses in Management (MGMT)

Undergraduate Courses

The following undergraduate courses are restricted to conditionally classified graduate students. They do not yield credit toward advanced degrees.

361R Techniques of Managerial Communication (4)
Prerequisite: Passing WPE score. Principles of report preparation; techniques of collecting and interpreting data and writing reports; discussion and application of letters, memos, and managerial communications.

366R Managing Production Operations (4)
Prerequisite: ECON 369R. Problems, techniques of analysis, and recent developments that relate to production of goods and services. Analysis of problems in production control, demand forecasting, quality control, scheduling, and logistics.

367R Managing Organizational Behavior (4)
Analysis of manager and employee behavior in work situations. Managing interpersonal and intergroup processes and relationships in organizations.

368R Managing Modern Organizations (4)
Analysis of management principles and functions in complex organizations, utilizing organizational resources efficiently and effectively, understanding and interacting meaningfully with the external environment.

400-Level Courses

All 400-level courses may be applied toward masters degree requirements, subject to limits established by the department and approval of the graduate adviser.

Graduate Courses

Classified graduate standing and approval by the School of Business and Economics Graduate Programs Office are required for admission to all 500-level courses.

501 Administrative Behavior and Systems Management (4)
Analysis of concepts and cases of managerial action in organizations, including decision making processes; organizations as open systems; methods for strategically aligning an organization’s capabilities, structure, and environment.

560 Seminar: Strategic Planning (3)
Corequisite: MGMT 598. Development of comprehensive business strategy and long-range plans with consideration for the social, economic, political, and technological environments; current strategic principles and practices; analysis of planning processes and systems.

561 Seminar: Organizing (3)
Corequisite: MGMT 598. Continued development of a management philosophy, with emphasis upon process of organization, allocation of responsibility and authority, and formation and behavior of industrial work groups; critical analysis through case materials.

562 Seminar: Control (3)
Corequisite: MGMT 598. Continued development of a management philosophy with emphasis on procedure analysis automation, operations research, control of operations, and morale; case materials, searching analysis of company operations.

564 Labor Relations Aspects of Health Care Delivery (2)
Prerequisite: NURS 562. Formal and informal relationships between health care facilities management and labor organizations; development of unions in health care industry; changing role of management: professional organizations; collective bargaining.

571 Seminar: Cases in Managing Health Care Policy (3)

572 Seminar: Power and Politics in Organizations (3)
Corequisite: MGMT 598. Analysis of power and politics in organizations; sources determinants, strategies, impact on organizational decision making and effectiveness; implications for management. Case material and selected readings.

573 Seminar: Personnel Management (3)
Prerequisite: MGMT 473. Corequisite: MGMT 598. Selected problem areas focusing on policies, techniques, and legal and social restrictions in areas of recruitment, selection, training, compensation, and occupational health and safety.
574 Seminar: Managing Employee Motivation and Work Behavior (3)
Corequisite: MGMT 598. Manager’s function in leading, directing, motivating work behavior; research of cases of management processes relating to organizational behavior, growth, effectiveness.

575 Seminar: Managing the Management Career (3)
Corequisite: MGMT 598. Cases, principles, and practices for developing individual career models, directing organizational management resource and utilization activities, and serving as mentor/coach for maximum management utilization with organizations.

576 Seminar: Managing Health Care Organizations (3)
Corequisite: MGMT 598. Analysis of management processes and concepts as applied in health care organizations; practical issues in organizing, controlling, and changing health care programs and services.

577 Seminar: International Business Management (3)
Corequisite: MGMT 598. Nature, environment, resources, strategies, and models of international business organization; analysis of managerial functions performed by international business managers; case studies pertaining to management in an international context.

578 Seminar: Operations Research Topics (3)
Corequisite: MGMT 598. Modern management techniques utilizing management science methods, including traditional manufacturing applications and contemporary extensions such as transportation and logistics, communication systems, service systems, health services, education, energy, urban affairs; review of recent literature.

580 Seminar: Operations Management (3)
Corequisite: MGMT 598. Continuous measurable improvement techniques in manufacturing and service organizations. Contemporary topics and case studies.

588 Seminar: New Venture Management (3)
Corequisite: MGMT 598. Assessment of business opportunities and competitive environments. Issues in designing and building management systems to produce and deliver a product or service. Dimensions of launching a business and managing long-term growth.

590 Seminar: Productivity Management (3)
Prerequisite: MGMT 501. Corequisite: MGMT 598. Productivity perspectives, productivity measurement and evaluation methods, productivity improvement approaches, designing and executing successful productivity management program; cases in manufacturing and services sectors.

594 Policy Integration and Strategy (3)
Prerequisite: Business core requirements. Corequisite: MGMT 598. Applying knowledge, theories, and techniques derived from previous courses, using integrative cases to formulate policies under conditions of uncertainty. Course must be taken in final quarter of student’s program.

595 Advanced Field Study (1-6)
Independent, supervised field experience in an applied area of business or health care management. Weekly tutorial sessions required for student-teacher synthesis of learning from course work and field experience.

598 Graduate Directed Study (1)
Investigation of an approved project leading to written report; project selected in conference with seminar professor, and arrangements made for regular meetings during quarter. May be repeated for credit.

Courses in Marketing (MKT)

Undergraduate Course

The following undergraduate course is restricted to conditionally classified graduate students. It does not yield credit toward advanced degrees.

364R Managerial Marketing (4)
Prerequisites: CIS 262R; ECON 369R. Marketing role in business and economy; changing customer wants and social needs; product/service development; distribution, promotion, and pricing strategies; managerial approach in planning, execution, and control of marketing programs.

400-level Courses

All 400-level courses may be applied toward master’s degree requirements, subject to limits established by the department and approval of the graduate adviser.

Graduate Courses

Classification graduate standing and approval by the School of Business and Economics Graduate Programs Office are required for admission to all 500-level courses.

540 Seminar: Marketing Communication (3)
Corequisite: MKT 598. Strategic promotional variables considered individually and in combination to communicate want-satisfying attributes of products and services in the most effective and efficient manner.

542 Seminar: Marketing Management (3)
Corequisite: MKT 598. Analysis of management of the enterprise, operating under conditions of uncertainty and designed to distribute want-satisfying goods and services.

543 Seminar: International Marketing (3)
Corequisite: MKT 598. Planning and implementing international marketing programs including those of multinational corporations: micro and macro marketing implications of economic development; consumer behavior, market research and strategy in other cultures.

544 Seminar: Consumer Behavior (3)
Corequisite: MKT 598. An interdisciplinary study that concentrates on how consumers behave in the marketplace; the objective is to understand, explain, and predict consumers’ actions under a variety of market conditions.

545 Seminar: New Venture Marketing (3)
Corequisite: MKT 598. Strategies for introducing new ventures, products, services, and businesses from conception of the idea through market testing to introducing the product/service successfully into the marketplace.

546 Seminar: Marketing Research (3)
Prerequisites: ECON 309; MKT 304; MGMT 361R. Role of marketing research in making marketing decisions and planning and implementing marketing research projects; state-of-the-art marketing research tools and techniques and their applications.
547 Seminar: Retail Management (3)
Corequisite: MKT 598. Policies, problems, and opportunities in today’s complex and dynamic retail environment; procedures for interrelating, planning, and implementing retail strategy involving marketing, management, and financial tools and theory.

550 Seminar: Transportation and Physical Distribution (3)
Corequisite: MKT 598. Role of transportation and distribution manager in reducing inventory control risks by planning, selecting, and supervising forms of transportation; current developments in handling and storage facilities and other distribution services.

598 Graduate Directed Study (1)
Investigation of an approved project leading to written report; project selected in conference with seminar professor, and arrangements made for regular meetings during quarter. May be repeated for credit.

Accreditation

The Charter School of Education is nationally accredited by the National Council for Accreditation of Teacher Education (NCATE). All credential programs are approved by the California Commission on Teacher Credentialing. The school offers programs leading to advanced degrees and to certification for specified fields of professional development in California public schools and other public and private agencies. Because the campus is located in the heart of metropolitan Los Angeles, the Charter School of Education programs reflect concern with the problems and challenges of urban education with particular emphasis on bilingual/crosscultural issues.

Degrees Offered

The Charter School of Education offers the following Doctor of Philosophy, Master of Arts, and Master of Science degrees.

Doctor of Philosophy degree in Special Education, offered jointly with the University of California, Los Angeles, provides preparation for leadership positions in higher education and the public schools as well as preparation for a career in scholarly research.

Master of Arts degree in Education with the following options:

- Computer Education option prepares computer education specialists to direct school computer laboratories; select, design, and evaluate instructional software; teach computer programming/problem solving to children; and fill leadership roles in school districts in computer applications in education.
- Educational Foundations option, with concentrations in social and psychological foundations, is for educators interested in the theoretical bases of education.
- Elementary Teaching option is designed to improve elementary teaching competence, with several areas of concentration, and to develop skills for continuing self-directed study.
- Instructional Technology option prepares specialists for elementary and secondary institutions who combine skills in computer technology application with advanced video and multimedia techniques to enhance the learning experience of students at all levels.
- Reading option is designed to provide proficiency in the specialized teaching of reading/language arts.
- Middle and Secondary Curriculum and Instruction option is designed to meet the challenge of educational excellence through the development of instructional leadership skills for middle, secondary and postsecondary educators.

The Master of Arts degree in Educational Administration prepares educators with an understanding of American urban life, provides them with the research skills needed to direct, conduct, analyze, and evaluate research projects, and presents opportunities for in-depth study of administering, managing, supervising, coordinating, and directing public, private, and parochial schools.

The Master of Arts degree in Special Education is designed to prepare personnel to provide educational services to individuals who, because of physical, behavioral, and/or mental characteristics, require special instruction or services. Specialized preparation is offered for teachers of these exceptional individuals.

The Master of Arts degree in Teaching English to Speakers of Other Languages (TESOL) is intended to prepare students for teaching in a variety of situations, kindergarten through adult level, both in the U.S. and abroad. The program emphasizes language acquisition processes and the implications for second language teaching in preparing students for many teaching situations: English as a second language, as a foreign language, and for special purposes.

Master of Science degree in Counseling, with options in Applied Behavior Analysis; Higher Education Counseling; Marriage, Family, and Child Counseling; Rehabilitation Counseling; School Counseling and Principalship; and School Psychology, is designed to prepare graduates to function as professionals in these areas.

Students entering graduate education programs must meet specific requirements set forth for each program in addition to University requirements for admission to graduate study.

RESTRICTIONS ON CREDIT EARNED IN AVAILABLE COURSES

All Charter School of Education master’s degree programs are subject to the following credit restrictions:

- Limit of 12 units from 499, 597, and 598 on programs without a thesis or project.
- Limit of 15 units from 499, 597, 598, and 599 on programs with a thesis or project.

Admission to Master’s Degree and Credential Programs in Education

Students entering graduate programs in education must meet University requirements for admission to graduate study and additional requirements set forth for each program. Admission to the University does not automatically admit students to credential or postbaccalaureate programs in the Charter School of Education. Formal application is required for admission to a specific degree or credential program. Teaching credential application procedures are described in the undergraduate Charter School of Education chapter.

Postbaccalaureate Year

State of California credential requirements include a fifth year of study completed after the baccalaureate. Students may elect to complete all or part of their professional requirements in the fifth year, pursue a master’s degree, or follow a planned course of study approved by their adviser. All students must plan an approved program with an adviser.
General Information About Professional Clear Teaching Credentials

All students who desire University recommendation for completion of the professional clear credential must be admitted to Cal State L.A. and must satisfy any writing or speech requirements required of all postbaccalaureate students. They must also apply for admission to the credential program. Complete admission procedures are listed in the Undergraduate Programs section under Admission to Credential Programs.

Definition of the Fifth Year for Professional Clear Teaching Credentials

The fifth year, comprised of a minimum of 45 postbaccalaureate quarter units selected with adviser assistance, may consist of:

- completion of requirements for the preliminary credential, or
- completion of requirements for the professional clear credential, or
- work toward another baccalaureate, or
- an advanced credential, or
- a master's degree, or
- a program of courses designed to improve the applicant's teaching competencies.

Residence Requirement

Applicants who possess a master's degree from an accredited institution outside California or an advanced credential based on a full fifth year of postbaccalaureate study (45 quarter units) are not subject to residence requirements for University recommendation. Applicants with a master's degree or an advanced credential from a California institution are referred to their parent institution for recommendation. All other applicants must complete a minimum of 16 quarter units in residence at Cal State L.A.

Criteria for University Recommendation for Professional Clear Credential

- Completion of application procedures for admission to the University and to fifth year credential program.
- Completion of an approved fifth year program.
- Satisfaction of all legal and University credential requirements.

Procedures

- Apply for admission to Cal State L.A. and to the Charter School of Education credential programs.
- Plan a fifth year program with an adviser.

The program plan is filed and used for verification of credential requirements at program completion. The program is checked by a credential analyst for satisfaction of criteria, applicability of transfer work, etc.

Students receive University recommendation following application and verification of completion of all requirements for the clear credential.
ADMINISTRATION AND COUNSELING

Charter School of Education
DIVISION OFFICE
King Hall C1065
Phone: (213) 343-4250

Program advisement provided for:
- Administration and supervision programs for master's degrees and credential
- Counseling programs for master's degree, credentials, and state licenses
- Facilitating Behavior Change (offered jointly with Division of Special Education)

Courses offered in:
- Counseling (COUN)
- Educational Administration (EDAD)

Master of Arts Degree in Educational Administration

Admission to the Program
- In addition to general University requirements for admission to graduate study, applicants to a master's degree or credential program must meet the following requirements:
  - Completion of application to the division and assignment of permanent adviser.
  - A 2.75 grade point average in the last 90 quarter units attempted.
  - Completion of writing examinations and required inventories.
  - Meeting of admission standards developed by the division.
  - Counseling interviews with division chair and permanent adviser.
  - A program of study approved by the permanent adviser and division chair.

Requirements for the Degree (45 units)
A minimum of 45 units is required, including at least 23 units in 500-level courses and a comprehensive examination. There is a limit on credit that may be earned in variable-unit courses. See Restrictions on Credit Earned in Variable Unit Courses earlier in this chapter.

EDAD 500 Seminar: Professional Assessment (2)
EDAD 505 Leadership Use of Technology and Research Methodology (5) OR
EDFN 553 Educational Research and Decision Making (4) AND
EDAD 536 Special Seminar: Problems in School Administration (1)
EDAD 508 Leadership for Organizational Transformation (5)
EDAD 516 Leadership in Current, Social and Political Issues (5)
EDAD 525 Leadership in Law and Finance (5)
EDAD 570 School Leadership and Technology (5)
EDAD 590 Seminar: Reflection and Assessment (2)

*to be taken after completion of all other core courses

Areas of Specialization (minimum 16 units)
Select one of following specializations:

- Educational Leadership (16 units)
  Required Courses (10 units)
  EDAD 520 Instructional Leadership (5)
  EDAD 521 Leadership in Human Resource Development (5)

Electives (6 units)
  Comprehensive Examination /Thesis
  EDAD 590 Seminar: Reflection and Assessment (2) or
  EDAD 599ABC Thesis or Project (3, 2, 2)
Candidates taking EDAD 590 should expect to take the course the quarter they complete all coursework and must comply with division and school requirements.

- School Business Administration (16 units)
  Required Courses (9-15 units)
  EDAD 533, 543, 584ABCD (3 to 9 units)

Electives (select 1-7 units from following):
  ACCT 520, 521, 524
  CIS 527
  EDAD 539
  EDAD 573
  EDAD 584
  MGMT 573
  POLS 563

Master of Science Degree in Counseling
The Master of Science degree in Counseling includes the following options:
- Applied Behavior Analysis
- Higher Education Counseling
- Marriage, Family, and Child Counseling
- Rehabilitation Counseling
- School Counseling and Principalship
- School Psychology

Admission to the Program
In addition to University requirements for admission to graduate study, students must have a 2.75 grade point average in the last 90 quarter units attempted, submit the divisional application form, take additional examinations required by the division, and be interviewed by the divisional screening committee. Successful candidates are admitted to cohort groups and must take a prescribed sequence of cohort classes.

Applications are considered once a year for admission beginning with the Fall Quarter. Application deadline for submission of complete file to division office is February 1. Later applications may be considered until May if space is available.

Prior to admission to the program, graduate students are encouraged to obtain preliminary advisement and begin taking courses, not to exceed 13 units. Upon acceptance, each student is assigned a faculty adviser and a cohort group.

Requirements for the Degree (55-112 units)
A total of 55-112 units is required, depending on option selected and prior coursework completed, with at least half in 500-level courses. The School Psychology option requires at least two-thirds of courses to be at the 500-level. The program consists of a required core, an option, related field, and clinical study, and a comprehensive examination orthosis. Students must demonstrate proficiency in statistics and may do so by completing EDFN 452. There is a limit on credit that may be earned in variable-unit
Before students may take courses to meet the field work requirement, they must be advanced to candidacy and must be recommended by their adviser. Written applications for fieldwork must be submitted to the Division Office during the fifth week of the quarter prior to the quarter in which the student desires a fieldwork placement. Fieldwork application forms are available in the Division Office for an option.

**Comprehensive Examination, or Thesis or Project**

(0, 7 units)

</tr>
</tbody>
</table>

Students who select the comprehensive examination (COUN 596) must be advanced to candidacy and must comply with school and division requirements before enrolling to take the examination. These requirements include a formal application no later than March 1st for the Spring Quarter examination which is offered on the second Saturday of May, or October 1st for the Fall Quarter examination which is offered on the second Saturday of November. This application is available in the division office.

Students having research interests are encouraged to undertake the thesis. Selecting the thesis/project option may increase the number of units required for completion of the program. Students are encouraged to begin thesis planning as soon as possible.

**Dual Option Requirements**

Students may complete the requirements for two options of the M.S. Degree. In such a case, both options may be pursued either simultaneously or sequentially. Some courses can count toward both options, but by University policy the second option must include at least 23 new units. In actual practice, the second option involves more than 23 units. Students should see advisers in both options to plan dual option requirements.

**Required Core** (29 units for all options)

**Self-Development and Special Interest** (6 units)

Select six units of electives related to your program with adviser approval. Appropriate substitutions may be made in special instances with adviser recommendation and division chair approval.

**Options**

Select one of the following options:

- **Option in Applied Behavior Analysis** (45 to 54 units plus core, to total 55 to 83 units depending upon prior coursework and selection of credential)

The program is designed for graduate students who plan to work as behavior analysts, case managers or consultants, counselors in the schools, and for those who elect to specialize in the behavioral area for doctoral training. Students may obtain the Pupil Personnel Services Credential with Advanced Authorizations in School Counseling and Child Welfare and Attendance Services by completing additional courses as listed below.

**Prerequisites** (8 units)

EDFN 452 Statistics in Education (4)
EDSP 400 Foundations of Special Education (4)

**Required Courses** (45 to 54 units)

Students who do not wish to obtain the Pupil Personnel Services Credential with Advanced Authorizations in School Counseling and Child Welfare and Attendance Services must complete the following (41 units):

- COUN 406 or 501 (whichever is not taken to meet the core requirement), 502, 504, 591 (for 6 units), 593
- PSY 417, 421, 428, 500, 528

Students who elect to qualify for the Pupil Personnel Services Credential with Advanced Authorizations in School Counseling and Child Welfare and Attendance must complete the following (47 to 54 units):

- COUN 406 or 501 (whichever is not taken to meet the core requirement), COUN 405B, 447, 460, 502, 504, 506, 516, 517, 581, 586S (for 9 units), 591 (for 6 units), COUN 592 and 593 must be counted toward the 6-unit “Special Interest” requirement in the core.

- **Option in Higher Education Counseling** (45 to 51 units plus core, to total 55 to 80 units depending upon prior coursework)

The Higher Education Counseling option is designed to train students to work as student personnel specialists. This program is accredited by the Council on Counseling and Related Educational Programs (CACREP) and prepares students for the certification examination administered by the National Board of Certified Counselors. Although emphasis is placed on the counseling function, attention is given also to other student services customarily offered in two and four-year colleges and universities.

**Admission to this program has been closed as of Fall Quarter 1996. All courses needed by students presently in the program will be offered to facilitate graduation. We do not anticipate reopening admission to this program.**

**Required courses** (45-51 units)

<table>
<thead>
<tr>

</tr>
</thead>
<tbody>
<tr>
<td>COUN 405B, 448, 506, 507, 510, 516, 517, 532, 581, 586C (for 7-13 units), 587</td>
<td></td>
</tr>
</tbody>
</table>
- **Option in Marriage, Family, and Child Counseling** (61-63 units plus core, to total 72 to 92 units depending upon prior coursework and selection of credential)

This option is designed to train school-based family counselors who are eligible to: 1) obtain the Pupil Personnel Services Credential with Advanced Authorizations in School Counseling and Child Welfare and Attendance Services; and 2) apply for licensure in California as a Marriage, Family, and Child Counselor. It meets state requirements for licensure in Marriage, Family, and Child Counseling as outlined in the Business and Professions Code, Section 4980.37. Students fulfill degree requirements by completing the required 29-unit core, plus option requirements of 61-63 units, including either a thesis or comprehensive examination.

**Prerequisites**

Demonstrated proficiency in statistics, children with special needs and child, spousal and elder abuse. May be met by courses EDFN 452, EDSP 400 and COUN 403 respectively, or other current or prior course work with adviser approval.
Required Courses (61-63 units)
Students who do not wish to obtain the Pupil Personnel Services Credential with Advanced Authorizations in School Counseling and Child Welfare and Attendance Services must complete the following (61 units):
COUN 405B, 447, 460 or PSY 464, COUN 506, 507, 520, 521, 522, 523, 538, 552 or PSY 542, COUN 589 (for 15 units)
HS 456
Students who elect to quality for the Pupil Personnel Services Credential with Advanced Authorization in School Counseling and Child Welfare and Attendance Services must complete the following (63 units):
COUN 403, 405B, 447,460 or PSY 464, HS 456, COUN 506, 507*, 516, 520, 521, 522, 523*, 538, 552 or PSY 542, COUN 581, 586S (for 9 units), COUN 589 (for 6 units) must be counted toward the “Special Interest” requirement in the core. Students pursuing this path must take COUN 501 rather than COUN 406 in the core.
Students pursuing this path must take COUN 501 rather that COUN 406 in the core.
*COUN 507 and 523 may be repeated once for credit as an elective or substitute for other required courses. See adviser.

An extensive MFCC Handbook, containing detailed description of the program, required form for registering with the Board of Behavioral Science Examiners, and the Site Practicum Manual is available in the division office.

- Option in Rehabilitation Counseling (48 units plus core, to total 61 to 77 units depending upon prior course work)
The Rehabilitation Counseling program prepares students to: a) function effectively as professional rehabilitation counselors in a variety of employment settings; and b) develop their own skills to function effectively at the time of graduation and beyond as the profession changes. Rehabilitation counselors must be knowledgeable in vocational and personal potentialities in order to carry on their main function of helping individuals to achieve satisfaction in areas including work, education, and personal social functioning. The program is accredited by the Council of Rehabilitation Education (CORE).

Required Courses (48 units)
COUN 405B, 442, 448, 449, 506, 540AB, 542AB, 588 (for 15 units)

Master of Science Degree in Counseling:
Option in School Counseling and Principalship, Pupil Personnel Services Credential with Advanced Specialization in School Counseling, and Child Welfare and Attendance and Preliminary Administrative Services Credential
This combined program is designed for future school counselors or administrators and other individuals who wish to earn the Master of Science degree in Counseling (with an option in School Counseling and Principalship), along with the Pupil Personnel Services credential with advanced specializations in School Counseling and Child Welfare and Attendance Services and the Preliminary Administrative Services Credential. Students who select this program recognize the challenges of today’s urban schools and foresee the synergism possible when combining the skills and roles of an effective counselor with those of an effective leader. Students complete a core separate from that followed for the other five options in the M.S. degree in Counseling. The complete combined program appears below.

Requirements for the Degree and Credentials (55 to 88 units depending upon prior course work)
Prerequisites
Demonstrated proficiency in introductory counseling theories. May be met by course COUN 450 or other current or prior course work with adviser approval.

Required Courses (88 units)
COUN 405A Theoretical and Developmental Aspects of Behavior (4)
COUN 428 Measurement Issues in Counseling (4)
COUN 447 Career Education and Guidance in Schools (4)
COUN 501 Behavior Analysis in School, Home, and Agency Settings (4)
COUN 502 Advanced Behavioral Contingency Management In Schools (4)
COUN 503 Sociological and Cultural Factors in Counseling (4)
COUN 505 Practicum: Counseling (3)
COUN 506 Individual Counseling Strategies (4)
COUN 516 Group Counseling (4)
COUN 517 Group Counseling Practicum (3)
COUN 522 Family Counseling with Children (4)
COUN 529 Principles of Research and Program Evaluation in Counseling (4)
COUN 5863 Supervised Field Experience in School Counseling (9)
EDAD 506 Leadership in Education (3)
EDAD 507 Educational Planning and Decision Making Models (3)
EDAD 509 Basic Shool Law (3)
EDAD 510 School Finance (3)
EDAD 517 Educational Staff Development and Evaluation (3)
EDAD 518 Program Management, Development, and Evaluation (3)
EDAD 527 Advanced Educational Management and Evaluation (3)
EDAD 575 Simulation Seminar: Junior High and Middle School Administration (3)
EDAD 581 Field Work in Educational Administration (2, 2, 2)
EDSP 501 Problems and Practices in Special Education (3)

- Option in School Psychology (83 units plus core, to total 72 to 112 units depending upon prior course work)
School psychologists focus on the psychoeducational development of individuals from birth to age 21, their abilities and potentials, biological, emotional, behavioral, and cultural factors that influence the learning process. Students who earn the master’s degree with this option also qualify for the Pupil Personnel Services credential with advanced specializations in School Psychology and advanced specialization in Child Welfare and Attendance Services. Students in this option should see information below regarding the School Psychology Internship credential. For accreditation reasons, undergraduate student access to 500-level courses in this program is not permitted.

Required Courses (83 units)
Students must take COUN 501 instead of 406 to meet the core requirement, and take COUN 507 to meet 3 units of the “Special Interest” core area.
COUN 460, 502, 506, 522, 531AB, 532, 533, 534, 535, 581, 585, 586P (for 30 units), 592, 593
An internship manual, which contains guidelines, procedures, and other information, is available in the division office.
**Preliminary Administrative Services Credential**

Regulations, policies, and procedures governing the program for the Preliminary Administrative Services credential, available from the division office, were developed in accordance with guidelines developed by the California Commission on Teacher Credentialing. The program is based on a set of competencies necessary for successful performance as a California school administrator. The credential licenses students for all administrative and supervisory services, prekindergarten through grade 12, in California public schools. This credential is valid for 5 years.

The credential licenses candidates for all administrative and supervisory services, prekindergarten through grade 12, in California public schools. This credential is valid for 5 years.

Upon completion of the program, receiving division recommendation and submitting an application and attendant fees, candidates receive a Certificate of Eligibility for the Preliminary Administrative Services Credential. The certificate authorizes one to seek initial employment as an administrator, but does not authorize ongoing administrative service.

**Minimum Credential Requirements (45 units)**

The following requirements are subject to change without notice. Students should consult the division for current requirements. Minimum requirements for issuance of the Preliminary Administrative Services Credential include:

- Forty-five units of acceptable postbaccalaureate course work as listed below.
- A master’s degree.
- Completion of the required courses.
- Satisfaction of the California state requirement of training in special education (mainstreaming) (EDSP 501).
- A passing score on the California Basic Educational Skills Test (CBEST).
- Three years of successful classroom teaching experience.
- Completion of writing examinations and inventories required by the division.
- California Teaching Credential.

**Required Courses (46 units)**

**Electives (5 units)**

**Internship Program**

This program provides opportunities for school districts to cooperate with the division in providing internship experiences for selected individuals.

The program offers opportunities for individuals with high potential to perform administrative/supervisory functions under close University supervision while completing course requirements for the Preliminary Administrative Services credential. Persons interested in specific details of the program should contact the division office.

**Professional Administrative Services Credential**

The purpose of the program is to provide education and training for new and aspiring administrators. The program is based on a set of competencies considered necessary for successful performance as a California school administrator. The credential licenses holders to perform all administrative and supervisory services in grades prekindergarten - 12 in California public or private schools.

**Prerequisites:**

- A master's degree;
- A Preliminary or Clear Administrative Services credential issued under present or prior regulations;
- Passing score on UNIV 400, the Writing Proficiency Examination (WPE) or acceptable alternative by petition.
- Passing score on California Basic Educational Skills Test (CBEST); and
- Completion of written examinations and inventories required by the division.

**Minimum Credential Requirements (24-36 units)**

- Twenty-four to thirty-six units of postbaccalaureate course work as listed below;
- Satisfaction of all program standards;
- Completion of written examinations and inventories required by the division;
- A minimum of two years of successful, full-time school administrative experience in the public schools or in private schools of equivalent status; and
- Written verification from your employing school district, or an official of the appropriate county office of education, of successful completion of your program plan.

**Required Core (15-19 units)**

Pupil Personnel Services Credential

(Advanced Specializations in School Counseling and Child Welfare and Attendance Services)

The requirements for the Pupil Personnel Services credential with Advanced Specializations in School Counseling and Child Welfare and Attendance Services may be completed as part of any of the following four options of the M.S. degree in Counseling: Applied Behavior Analysis, Marriage Family and Child Counseling, School Counseling and Principalship or School Psychology. Or, students may be recommended for the credential only (i.e., without the master’s degree) upon the completion of the following program with grades of A or B in all courses.

**Prerequisites (8 units)**

Demonstrated proficiency in statistics, and children with special needs. May be met by courses EDFN 452 and EDSP 400 respectively, or other current or prior course work with adviser approval.

**Required Courses (63-69 units)**

- COUN 406A Theoretical and Developmental Aspects of Behavior (4)
- COUN 428 Behavioral Counseling and Self-Management (4)
- COUN 477 Measurement Issues in Counseling (4)
- COUN 480 Career Education and Guidance in Schools (4)
- COUN 460 Laws Relating to Children and Child Welfare (4)
- COUN 501 Behavior Analysis in School, Home, and Agency Settings (4)
- COUN 502 Advanced Behavioral Contingency Management in Schools (4)
- COUN 503 Sociological and Cultural Factors in Counseling (4)
- COUN 505 Practicum: Counseling (3)
- COUN 506 Individual Counseling Strategies (4)
- COUN 522 Family Counseling with Children (4)
- COUN 516 Group Counseling (4)
- COUN 518 Group Counseling Practicum (3)
- COUN 581 Seminar: Pupil Personnel Services (4)
- COUN 583 Preventive Counseling (4)
- COUN 586H Supervised Field Experience in School Counseling (9-15)

All courses are competency based. Students who fail to meet all course competencies receive less than a B grade, and must clear deficiencies to obtain a “Letter of Competency” for the affected course. In addition to demonstrating competence in course work and internship, students are required to pass the California Basic Educational Skills Test (CBEST) and either pass an oral examination covering the School Counseling competencies or complete requirements for the Master’s degree in Counseling.

### Advanced Specializations in School Psychology and Child Welfare and Attendance Services

Course requirements for this credential are identical with those listed above for the M.S. in Counseling: Option in School Psychology and Education except that an oral exit examination may be substituted for the comprehensive examination.

### School Psychology Internship Credential

This credential allows a student to accept employment as a School Psychology Intern while completing advanced coursework toward the School Psychology option of the M.S. degree in Counseling. Students are not admitted to the School Psychology Internship unless they have met all requirements for the M.S. degree in Counseling: Option in School Psychology, except for the courses COUN 533, 534, 585 and 586P, in addition to the requirements described in their School Psychology Internship Manual. Once these requirements are met, the student is eligible for the School Psychology Internship Credential. These remaining courses are taken concurrently with internship (or before) along with regular supervisory meetings with the student’s University supervisor.

### Continued Professional Development

Competence in the helping professions requires continuous efforts at self improvement and development of skills. To assist practicing counselors, school psychologists, and other educators in improving their professional skills, the Counselor Education faculty has developed the following programs of continued professional development leading toward certificates.

The programs provide an opportunity for educational practitioners to meet with their colleagues to keep abreast of innovative professional developments and to experience stimuli for continued personal and professional growth.

### Certificate Program in Applied Behavior Analysis in Educational Settings

This credit certificate program is designed to prepare Behavioral Intervention Specialists, and provides practitioners an opportunity to develop skills for implementing and evaluating management, consultation, evaluation, consultation, and teaching. The certificate is awarded upon the completion of the following courses in counselor education (18 units) with a minimum B (3.0) average. Refer to the Graduate and Postbaccalaureate Study chapter of this catalog for general regulations governing all certificate programs.

**Requirements for the Certificate (18 units)**

- COUN 501 Behavior Analysis in School, Home, and Agency Settings (4)
- COUN 502 Advanced Behavioral Contingency Management in Schools (4)
- COUN 504 Advanced Topical Study in Application of Behavior Analysis to Education (4)
- COUN 592 Behavior Interventions for Severe Behavior Problems (3)
- COUN 593 Practicum: Staff Development and Consultation (3)

### Certificate Program in Career Counseling

This program provides postbaccalaureate students the competencies needed to succeed in the field of career counseling. In addition to general individual and group counseling skills, students will acquire competencies in the areas of theories of career development, assessment of interests, values, and aptitudes, occupational information, decision-making, placement, and career counseling for special populations.

The certificate requires completion of 29-31 units, including 23 units of required courses and 6-8 units of electives, with a minimum B (3.0) average. Refer to the Graduate and Postbaccalaureate Study chapter of this catalog for general regulations governing all certificate programs.

**Requirements for the Certificate (29-31 units)**

**Prerequisites (7 units)**

- COUN 428 Measurement Issues in Counseling (4)
- COUN 505 Practicum: Counseling (3)

**Required Courses (23 units)**

- COUN 447 Career Education and Guidance in Schools (4)
COUN 448  Career Counseling for Adults (4)
COUN 475A  Counseling in the Work Place (3)
COUN 506  Individual Counseling Strategies (4)
COUN 516  Group Counseling (4)
SOC 447  Sociology of Occupations and Professions (4)

Electives (6-8 units)
Select from following with adviser approval. Other courses may be substituted with adviser approval.
COUN 449, 475B, 507  MGMT 469
EDSP 405  PSY 446

Certificate Program in Developmental Counseling
The program provides practitioners experience in developing and implementing programs of psychological education. The certificate is awarded upon completion of the following courses (16 units) with a minimum B (3.0) average. Refer to the Graduate and Postbaccalaureate Study chapter of this catalog for general regulations governing all certificate programs.

Requirements for the Certificate (16 units)
COUN 492  Future Studies: Educational Implications of the Future (4)
COUN 582  Seminar: Counseling (4)
EDCI 526  Principles and Practices of Leadership (4)
COUN/EDCI 528  Creative Behavior: Development and Facilitation (4)

Certificate Program in Professional Employee Counseling
This credit certificate program is designed to supplement the training of professional counselors by providing specialized information and skills specific to counseling and related programs offered by employers and unions for employees in business, industry, and government.

Admission to the Program
Applicants must have a qualifying degree (or be working toward one) which is a master’s or higher degree in Counseling or a related discipline.** This degree must either be awarded by a campus whose program is accredited by the Council on the Accreditation of Counseling and Related Educational Programs (CACREP), the Council on Rehabilitation Education (CORE), or the Academy of Certified Social Workers or based on a program of study including or supplemented by all of the following:

- Supervised practice of at least 600 clock hours.
- Course work in human psychological development in late adolescence and adulthood, basic helping relationship skills, the world of work, intervention strategies in helping relationships, and basic principles of behavioral research.

*Examples of related disciplines include clinical, counseling, industrial, and school psychology and social work.

Students who do not hold a qualifying degree may be admitted to the program while pursuing such a degree. These students will receive the certificate when they have completed requirements for both the degree and the certificate with a minimum B (3.0) grade point average in each program.

The faculty committee established to oversee this certificate program will evaluate all applicants on the basis of their academic preparation, employment experience, a written application, official transcripts of transferred course work, letters of reference, and an individual interview.

Requirements for the Certificate (35-36 units)
The program consists of 35-36 units of course work, 28 in required courses and 7-8 in electives. Completion of all course work with a minimum B (3.0) grade point average is required. Refer to the Graduate and Postbaccalaureate Study chapter of this catalog for general regulations governing all graduate level certificate programs.

Required Courses (28 units)
COUN 475AB  Counseling in the Work Place (3, 3)
COUN 503  Sociological and Cultural Factors in Counseling (4)
COUN 505  Practicum: Counseling (3)
COUN 588  Supervised Practice in Rehabilitation Counseling (8)
HS 466  Strategies for Substance Abuse Programs (2)
HS 467  Drinking Problems and Alcoholism (3)
HS 468  Problems in Controlled Substances (3)

Electives (select 7-8 units from following)
HS 469 . . . . . . . . . . . . . . MGMT 469, 473**, 501, 573**
MKT 443**

*consult catalog course listings for course prerequisites

Relevant special topics courses may be substituted with approval of certificate program faculty committee.

The Counseling and Assessment Clinic
The Counseling and Assessment Clinic is operated by the Division of Administration and Counseling, and is located in King Hall C1067. It is an instructional laboratory that provides both training for counselors and counseling services to the community. Students working toward a master’s degree or credential in counseling serve as student clinicians under direct faculty supervision.

The Diagnostic Resource Center
The Diagnostic Resource Center (DRC) is located in King Hall C1063. It provides a lending service for psychological and educational assessment materials to qualified students for class and internship related activities.
Charter School of Education

DIVISION OFFICE
King Hall C2097

Program advisement provided for:
- M.A. degree options:
  - Elementary Teaching
  - Reading
  - Middle and Secondary Curriculum and Instruction
- Multiple Subject CLAD/BCLAD Credential (including internship option)
- Reading/Language Arts Specialist
- Single Subject Credential (including internship option)

Courses offered in:
- Curriculum and Instruction (EDCI)
- Elementary Education (EDEL)
- Secondary Education (EDSE)

Master of Arts Degree in Education: Option in Elementary Teaching

Admission to the Program
In addition to University requirements for admission to graduate study, applicants must have a California credential or a general elementary or kindergarten-primary credential issued by any state.

Requirements for the Degree (45 units)
A total of 45 units is required, with at least 23 in 500-level courses. A comprehensive examination is required. Students who intend to register in courses they wish to apply on a master’s degree should consult an adviser prior to registration. There is a limit on credit that may be earned in variable-unit courses. See Restrictions on Credit Earned in Variable Unit Courses earlier in this chapter.

Required Core (12 units)
EDCI 560 Principles and Practices of Curriculum Development (4)
EDEL 589 Seminar: Elementary Education (4)
EDFN 500 Evaluation of Educational Research (4)

Area of Concentration (33 units)
Select one area of concentration.

- Bilingual/Multicultural Education in the Elementary Classroom (33 units)
  Select 4 units from following:
  EDEL 411, 421, 431, 434AB, 441, 451
  EDFN 562
  Select 8 units from following:
  EDCI 521, EDEL 531, 541, 551
  Select 12 units from following:
  EDCI 412, 423, 453, 455, 549  EDEL 413, EDFN 536, 539, 560

Electives (select 9 units with adviser approval)
- Curriculum and Instruction in the Urban Elementary School (33 units)

Directed Electives
Select 8 units from following:
EDEL 421 Teaching Language Arts in Elementary School (4) or
EDEL 525 Reading/Language Arts (4)
EDEL 431 Teaching Mathematics in Middle Schools (4) or
EDEL 432 Teaching Mathematics for Early Childhood (4)
EDEL 441 Teaching Social Studies in Elementary School (4)
EDEL 451 Teaching Science in Elementary School (4)
Select 8 units from following:
EDCI 521
EDEL 531, 541, 551
Select 8 units from following:
EDCI 453 Teaching in Bilingual/Crosscultural Schools (4)
EDCI 535 Teaching for Cross-Cultural and Global Awareness (4)
EDCI 539 Instructional Strategies for Inner City Schools (4)
EDCI 583 Application of Hypermedia in Instruction (4)
EDEL 590 Problems in Classroom Group Behavior (4)
Electives (9 units) from following:
EDCI 527 Seminar: Issues and Trends in Using of Children’s Literature (4)
EDEL 427 Using Children’s Literature in Elementary Classrooms (4)
EDEL 473 Storytelling for Teachers (4)
EDEL 480 Teaching Problem Solving with LOGO (4)

- Early Childhood Education (33 units)

Required (24 units) from following:
EDCI 527 Seminar: Issues and Trends in Using of Children’s Literature (4)
EDEL 432 Teaching Mathematics for Early Childhood (4)
EDEL 461 Curriculum Procedures and Materials for Early Childhood Education (4)
EDEL 462 Dynamics of Play (4)
EDEL 466 Cultural Diversity in Early Childhood Classroom: Needs and Opportunities (4)
EDEL 473 Storytelling for Teachers (4)
EDEL 560 Design and Management of Early Childhood Public Educational Programs (4)
EDEL 563 Seminar: Issues and Trends in Early Childhood Education (4)

Directed Electives Select a minimum of 9 units from following:
EDCI 583 Application of Hypermedia in Instruction (4)
EDEL 421 Teaching Language Arts in Elementary School (4)
EDEL 427 Using Children’s Literature in Elementary Classroom (4)
EDEL 480 Teaching Problem Solving with LOGO (4)
EDCI 521 Seminar: Research in Teaching Reading/Language Arts (4)
EDEL 525 Reading/Language Arts Across the Curriculum (4)
EDSP 416 Working with Families of Young Handicapped Children (4)
EDSP 515 Planning Programs for Exceptional Infants and Young Children (4)
CHDV 422 Administration of Preschool and Day Care Programs (5)
CHDV 423 Parenting (4)

- Mathematics Education (33 units)

**Required (12 units)**
EDEL 431, 432, 531

**Directed Electives (Select 13 units)**
ECLI 583 Application of Hypermedia in Instruction (4)
EDEL 433A Special Topics in Mathematics for Elementary Teachers: Metric Measurement (1)
EDEL 433B Special Topics in Mathematics for Elementary Teachers: Problem Solving (1)
EDEL 433C Special Topics in Mathematics for Elementary Teachers: Geometry (1)
EDEL 433D Special Topics in Mathematics for Elementary Teachers: Logic (1)
EDEL 435 Use of Calculator in Teaching Mathematics (2)
EDEL 480 Teaching Problem Solving with LOGO (4)
EDEL 535 Seminar Assessment Strategies in Mathematics (4)
EDEL 580 Computer Applications for Teaching Mathematics and Science (2)

**Electives (8 units)**
You may select courses in the directed electives section that were not selected, other electives with adviser approval, or from the following:
EDEL 451 Teaching Science in Elementary School (4)
EDEL 551 Seminar: Research in Teaching Elementary School Science (4)
EDEL 590 Problems in Classroom Group Behavior (4)

**Other Electives**
Select with adviser approval.

- Reading and Language Arts in the Elementary Classroom (33 units)

**Required Core (12 units required)**
EDCI 423 Principles and Practices of Teaching Writing in the Schools (4)
EDCI 521 Seminar: Research in Teaching Reading Languages Arts (4)
EDEL 421 Teaching Language Arts in Elementary School (4)

**Directed Electives**
Select 8-16 units from following:
EDCI 522 Diagnosis and Remedial Reading/Language Arts Procedures (4)
EDCI 527 Seminar: Issues and Trends in Using of Children's Literature (4)
EDCI 549 Developing English Reading/Language Arts Skills in Bilingual/Crosscultural Individuals (4)
EDEL 413 Children's Reading Materials in Spanish (4)
EDEL 427 Using Children's Literature in the Elementary Classroom (4)
EDEL 473 Storytelling for Teachers (4)
EDEL 525 Reading/Language Arts Across the Curriculum (4)
EDEL 594 Special Topics in Elementary Education: Research in Storytelling (4)

**Suggested Electives (4-8 units)**
You may select courses in the directed electives section that were not selected, other electives with adviser approval, or from the following:
EDCI 583 Application of Hypermedia in Instruction (4)
EDEL 590 Problems in Classroom Group Behavior (4)

**Comprehensive Examination (0 units)**
EDEL 596 Comprehensive Examination (0)

Students should expect to take the comprehensive examination (EDEL 596) the quarter they complete all course work on their program and must comply with school and division requirements.

**Master of Arts Degree in Education:**
**Option in Reading**

The Master of Arts degree in Education, option in Reading, satisfies content requirements established by the International Reading Association for reading language arts specialists.

**Admission to the Program**
In addition to University requirements for admission to classified graduate standing, students must have a 2.75 grade point average in their last 90 quarter units attempted, must have a teaching credential, and must have completed a basic course in reading instruction (EDEL 400 or EDSE 423 or equivalent).

Two years of teaching experience are recommended for degree candidates; credential candidates must verify completion of intensive (minimum two years by the time the credential is granted) and extensive (minimum of two different levels with two different socioeconomic/ethnic groups) classroom teaching experience.

**Requirements for the Degree (45 units)**
A minimum of 45 units is required, including at least 23 in 500-level courses. All students must pass a comprehensive examination or submit a thesis or project. There is a limit on credit that may be earned in variable unit courses. See **Restriction on Credit Earned in Variable Unit Courses** earlier in this chapter.

**Required Courses** (29-31 units)
EDCI 513 Reading as a Cognitive Process (4)
EDCI 521 Seminar: Research in Teaching Reading-Language Arts (4)
EDCI 522 Reading-Language Arts Assessment and Instruction for Classroom Teachers (4)
EDCI 524 Reading-Language Arts Assessment and Instruction for Reading-Language Arts Specialists (5)
#EDCI 540 Reading-Language Arts Clinical Practicum (2)
EDCI 541 Field Work in Reading-Language Arts (4)
EDFN 500 Evaluation of Educational Research (4)
# repeat to total of 4-6 units

**Directed Electives** (select 3-4 units from following)
COMD 400 COUN 532
EDCI 527 EDEL 413, 427, 525
EDSP 400
Suggested Electives (10-13 units): with adviser approval, may be selected from optional courses above not yet selected, or from the following, to complete a minimum of 45 units:

COMD 450, 456, 461  COUN 405AB, 501
EDCI 455C, 445S, 549,
EDFN 409, 452, 510, 530, 560  SPCH 494
ENGL 400 or 401, 406, 430, 432
PSY 412AB, 418AB, 420, 422

Comprehensive Examination or Thesis or Project (0, 7 units)
EDCI 596 Comprehensive Examination (0) or
EDCI 599A Thesis or Project Planning (3) and
EDCI 599B Thesis or Project (2) and
EDCI 599C Thesis or Project (2)

Students who select the comprehensive examination (EDCI 596) should expect to take it in the quarter in which they complete all course work on their program and must comply with school and division requirements. With careful planning, students earning this Master of Arts degree can also earn a Reading/Language Arts Specialist credential concurrently with the M.A. degree in Education, Reading option. Consult the Reading Program Coordinator for more information.

Master of Arts Degree in Education: Option in Middle and Secondary Curriculum and Instruction

The Master of Arts degree: Option in Middle and Secondary Curriculum and Instruction provides educators with the opportunities for the development of skills and knowledge to conduct inquiry, to design curriculum and instructional programs, to implement programs, and to assess the success of those programs at the middle and secondary school levels.

Admission to the Program
In addition to University requirements for admission to graduate study, applicants must possess a 2.75 grade point average in the last 90 quarter units attempted.

OVERVIEW FOR COURSE STUDY (47 units)
All candidates for the M.A. degree will complete the introductory seminar and required core courses. Students will select an area of concentration early in their course of study. All students will pass a comprehensive examination or complete a thesis or project. A minimum of 47 units is required for the M.A. degree. Before completion of the degree program, students must have a teaching credential and classroom teaching experience.

Required Introductory and Core Courses (28 units)
Introductory Course (4 units)
EDSE 500 Introductory Seminar: Reflections on Teaching (4)

Core Courses (24 units)
EDFN 452 Statistics in Education (4)

And one of the following:
EDFN 500 Evaluation of Education Research (4)
EDFN 553 Educational Research and Decision Making (4)

And the following four courses:
EDCI 415 Teaching for Thinking (4)
EDCI 560 Principles and Practices of Curriculum Development (4)
EDSE 590 Teaching in Multicultural Middle and Secondary Classrooms (4)
EDCI 583 Application of Hypermedia in Instruction (4)

Requirements for the degree also include completion of area of concentration (12 units) and the Comprehensive Examination or Thesis Project (7 units)
EDSE 596 Comprehensive Examination (3 units, first quarter; 4 units second quarter)
EDCI 599A Thesis or Project Planning (3) and
EDCI 599B Thesis or Project (2) and
EDCI 599C Thesis or Project (2)

Areas of Concentration
Select one of the following concentrations:

CONCENTRATION ONE: Practice and Action in the Social Context of Middle and Secondary Urban Schools
Select 12 units from the following:
EDCI 453 Teaching in Bilingual/Cross cultural Schools (4)
EDCI 504 Alternative Systems in Education (4)
EDCI 536 Crosscultural Studies Material for Classroom Use (4)
EDFN 510 Learning Theory and Education (4)
EDFN 525 Educational Sociology (4)

CONCENTRATION TWO:
Crosscultural, Language and Academic Development
(This option leads to CLAD Certification)
Select a minimum of 12 units with at least one course from each of the three following domains of knowledge and skill:

1. Language Structure and L1 and L2 Development. Select at least one of the following:
EDCI 549 Literacy for Bilingual Students (4)
EDFN 560 Theories of Teaching and Learning Second Languages (4)

2. Methodology of Bilingual, English Language Development, and Content Instruction.
EDSE 430 Using ESL Techniques in the Content Areas (3)
EDFN 562 Methods for Teaching Second Languages (4)

3. Culture and Cultural Diversity.
EDSE 590 Teaching in Multicultural Middle and Secondary Classrooms (4) (A core requirement) or EDCI 535, Teaching For Crosscultural and Global awareness (4).

(STUDENTS SEEKING CLAD CERTIFICATION MUST HAVE TAKEN NINE UNITS OF FOREIGN LANGUAGE OR THE EQUIVALENT.)

CONCENTRATION THREE:
Content Area Specialization
Twelve units of advanced coursework in single subject area of specialization. Selection is limited to those disciplines or subject areas in which CSLA offers credentials, such as English, Social Sciences, Mathematics, Natural Sciences, Foreign language, Art, Music, Physical Education, etc.

CONCENTRATION FOUR:
Integrating Critical and Reflective Thinking Throughout the Curriculum.
In this area of concentration, students undertake coursework, projects, and research to enlarge their theoretical and strategic knowledge of teaching that has the integration and growth of thinking as its primary focus. Candidates complete the following courses in philosophy that focus on the development of critical thinking:
PHIL 480 Philosophy of Language (4)
PHIL 485 Philosophy of Science (4)
PHIL 580 Seminar: Critical Thinking Models and Strategies (4)

CONCENTRATION FIVE:
Language Arts/Literacy
In this area of concentration, students investigate theory and practice in the language arts at the middle and secondary levels. Includes study of advanced techniques for integrating discussion, listening, reading, and writing into the language arts curriculum.

Select 12 units from the following:
EDCI 423 Principles and Practice of Teaching Writing (4)
EDCI 513 Reading as a Cognitive Process (4)
EDCI 521 Seminar: Research In Teaching Reading/Language Arts (4)

CONCENTRATION SIX:
Mathematics/Science Pedagogy
In this area of concentration, students will undertake course work, projects and research to enlarge their theoretical and practical knowledge of mathematics and science instruction in middle and secondary schools.

Select 12 units from the following:
EDCI 584 Learning Theories and Cognitive Science in Math Education (4)
EDSE 428C Processes of Science (4)
EDCI 431 Teaching Mathematics in Middle School (4)
EDCI 433 ABC&D Special Topics in Mathematics (1 each)
EDCI 435 Use of Hand Calculators in Teaching Mathematics in Elementary Classrooms (4)
EDCI 480 Teaching Microcomputing in Schools (4)
EDCI 531 Seminars: Research in Teaching Elementary School Subjects (4)
EDCI 535 Seminar: Assessment Strategies in Mathematics (4)
EDCI 580 Computer Applications for Teaching Mathematics and Science (2)
EDCI 594 Selected Studies in Secondary Education (Mathematics) (4)

CONCENTRATION SEVEN:
Instructional Technology
Candidates selecting this area of concentration are encouraged to develop projects or pursue a thesis which entails the investigation and implementation of current technologies applicable to educational settings.

Select 12 units from the following:
EDCI 480 Teaching Problem Solving with Logo (4)
EDIT 431 Advanced Computer Applications in Education (4)
EDIT 484 Computer Authoring Tools (4)
EDIT 525 Instructional Materials in Secondary Schools: Computer Software (4)
EDIT 550 Instructional Applications of Interactive Video (4)
EDIT 554 Video Technology in Education (4)
EDIT 556 Role of the Computer Specialist in Education (4)
EDIT 557 Computer Assisted and Managed Instruction (4)
EDIT 560 Telecommunications in Education (4)
EDIT 570 Research in Instructional Technology (4)

Reading/Language Arts Specialist Credential
The Reading/Language Arts Specialist credential program satisfies the current requirements established by the California Commission on Teacher Credentialing.

Admission to the Program
In addition to University requirements for admission to graduate study, applicants must meet the conditions for classified graduate standing and satisfy the following criteria:
- complete EDEL 400 or EDSE 423, or an equivalent course in reading instruction;
- complete ENGL 400 or 401 or equivalent;
- possess a California Multiple Subject or Single Subject teaching credential or its equivalent.

Requirements for the Credential (45 units)
A total of 45 units of course work is required. With careful planning, students may earn the Master of Arts degree in Education: Option in Reading concurrently.

Required Courses (45 units)
EDCI 423 Principles and Practices of Teaching Writing in the Schools (4)
EDCI 513 Reading as a Cognitive Process (4)
EDCI 521 Seminar: Research in Teaching Reading/Language Arts (4)
EDCI 522 Reading/Language Arts Assessment and Instruction for Classroom Teachers (4)
EDCI 524 Reading/Language Arts Assessment and Instruction for Reading/Language Arts Specialists (5)
EDCI 527 Seminar: Issues and Trends in Using Children’s Literature (4) or Emergent Literacy (4) or
EDCI 412 Emergent Literacy (4)
EDCI 413 Children’s Reading Materials in Spanish (4) or
EDCI 455C Methods of Teaching Reading in Chinese (4) or
EDCI 455S Methods of Teaching Reading in Spanish (4)
EDCI 540 Reading/Language Arts Clinical Practicum (2, 2)
EDCI 541 Field Work in Reading/Language Arts (4)
EDCI 549 Developing English Reading/Language Arts Skills in Bilingual/Crosscultural Individuals (4)
EDEL 525 Reading/Language Arts Across the Curriculum (4)
EDFN 500 Evaluation of Educational Research (4)

Certificate Program in Storytelling
The certificate program in Storytelling is designed for persons with an interest in the techniques, theories, and literature associated with the ancient and modern art of storytelling. The certificate is especially valuable for teacher use in language arts instruction and for improving communications skills; it can also be used effectively by librarians and recreation leaders. This program is open to all postbaccalaureate students who meet the University requirements for admission to postbaccalaureate standing. It is applicable to-
ward some master's degree programs in education and other fields. Completion of this credit certificate program requires 31 units in core and elective courses. Refer to the Graduate and Postbac-
calaureate Study chapter of this catalog for general regulations governing all certificate programs.

Requirements for the Certificate (37 units)

Required courses (15 units)
EDEL 424 Methods of Using Creative Dramatics with Children (3)
EDEL 473 Storytelling for Teachers (4)
ENGL 430 Children's Literature (4)
SPCH 490 Studies in Children's Speech Arts (4)

Field work (4 units)
EDEL 598 Graduate Directed Study (1-4) and/or
SPCH 595 Graduate Performance (1-4)

Electives - select 12 units from following:
ANTH 445 CHS 420
EDEL 413, 427 TA 401

With adviser approval, students may include courses in the folklore of an ethnic culture.

Teaching English to Speakers of Other Languages  

Courses offered in:  
- Educational Foundations (EDFN)  
- Instructional Technology (EDIT)  

Master of Arts Degree in Education: Option in Computer Education  

This option prepares educators to assume leadership roles in the field of computer education. In particular, the program is designed to introduce teachers, trainers, and other leaders to the areas of teaching programming/problem-solving; evaluation, selection, and design of instructional software; development, teaching, and direction of computer literacy programs; incorporation of computers into the curriculum; and development and management of instructional microcomputing facilities in the schools. Additional information and advisement are available in the division office.  

Admission to the Program  
In addition to University requirements for admission to graduate study, applicants must have a minimum 2.75 grade point average in the last 90 quarter units attempted, teaching experience, must have completed courses covering computer literacy and applications in education (EDIT 430 or CS 160 plus EDIT 447) as well as introductory computer programming (CS 190, 201, EDEL 480, EDIT 481). Students must make written application to the Charter School of Education and to the Division of Educational Foundations and Interdivisional Studies.  

Requirements for the Degree (45 units)  
A total of 45 units is required, with at least 23 in 500-level courses. A comprehensive examination or a thesis or project is required. There is a limit on credit that may be earned in variable-unit courses. See Restriction on Credit Earned in Variable Unit Courses earlier in this chapter.  

Prerequisites  
1. EDIT 430 Introduction to Computers and Their Uses in the Classroom (4)  
or both of the following:  
   CS 160 Introduction to Computers (3)  
   EDIT 447 Computers in the Classroom (2)  
2. An introductory programming class such as:  
   CS 190 Basic Programming (2)  
   CS 201 Introduction to Programming (4)  
   EDEL 480 Teaching Problem Solving with LOGO (4)  
   EDIT 481 Microcomputing in Schools: BASIC I (4)  

Required Courses (28 units)  
EDCI 560 Principles and Practices of Curriculum Development (4)  
EDFN 500 Evaluation of Educational Research (4)  
EDFN 510 Advanced Study: Learning Theories (4)  
EDIT 435 Computer Systems in Education (4)  
EDIT 484 Computer Authoring Tools (4)  
EDIT 556 Role of the Computer Specialist in Education (4)  
EDIT 557 Computer Assisted and Managed Instruction (4)  

Courses in Specialty (6 to 13 or more units from the following depending on the choice of thesis, project, or comprehensive examination-total units in program must be 45 or more with 23 units or more at the 500-level)  
EDCI 583 Application of Hypermedia in Instruction (4)  
*EDEL 480 Teaching Problem Solving with LOGO (4)  
EDEL 580 Evaluation of Microcomputer Courseware for Elementary Schools: Mathematics and Science (2)  
EDEL 581 Microcomputer Applications in Reading and Language Arts (2)  
*EDIT 481 Microcomputing in Schools: BASIC I (4)  
*EDIT 482 Microcomputing in Schools: BASIC II (4)  
*EDIT 483 Pascal for Teachers (4)  
EDIT 490 Special Topics in Instructional Technology (2-5)  
EDIT 540 Instructional Graphics Design and Production (4)  
EDIT 550 Instructional Applications of Interactive Video (4)  
EDIT 551 Advanced Multimedia Design and Production (4)  
EDIT 554 Video Technology in Education (4)  
EDIT 555 Seminar: Simulation and Gaming (4)  
EDIT 560 Telecommunications in Education (4)  
EDIT 570 Research in Instructional Technology (4)  
EDIT 594 Selected Studies in Instructional Technology (1-4)  
EDSP 508 Computer Application in Special Education (4)  
*If used to meet prerequisite requirement #2, this course may not be used within this section.  

Electives (4 or more units)  
May be selected from above courses not already included in program, or from other 400 or 500-level courses**.  

Comprehensive Examination or Thesis or Project  
(0 or 7 units)  
EDFN 596 Comprehensive Examination (0)  
or all of the following:  
EDFN 599A Thesis** or Project Planning (3) and  
EDFN 599B Thesis** or Project (2) and  
EDFN 599C Thesis** or Project (2)  
*Students who do a thesis are required to take a second course in educational research methodology such as EDFN 452 (with approval of advisor).
Admission to the Program

In addition to University requirements for admission to graduate study, applicants must possess a 2.75 grade point average in the last 90 quarter units attempted. All students must possess a teaching credential and an appropriate undergraduate major.

Requirements for the Degree (45 units)

A minimum of 23 of the 45 units must be in 500-level courses and at least 23 units must be consist of education courses. See Restrictions on Credit Earned, in Variable Unit Courses earlier in this chapter.

Required Course (12 units)
- EDFN 500 Evaluation of Educational Research (4)
- EDFN 507 History of Education (4)
- EDFN 508 Philosophy of Education (4)

Required in Cognate or Theme Area (12 units)
Select with adviser approval.

Area of Concentration (8 units)
Select one of the following areas:

Psychological Foundations
- EDFN 510 Advanced Study: Learning Theory and Education (4)
- EDFN 530 Advanced Study in Human Development (4)

Social Foundations
- EDFN 506 Comparative Education (4)
- EDFN 525 Educational Sociology (4)

Electives in Education (4-13 units)
Select courses in education with adviser approval.

Electives in Cognate Area (0-10 units): Select with adviser approval.

Comprehensive Examination or Thesis or Project (0, 7 units)
- EDFN 596 Comprehensive Examination (0) or
- EDFN 599A Thesis or Project Planning (3) and
- EDFN 599B Thesis or Project (2) and
- EDFN 599C Thesis or Project (2)

Students should expect to take the comprehensive examination (EDFN 596) the quarter they complete all course work on their program and must comply with school and division requirements.

Master of Arts Degree in Education: Option in Instructional Technology

The Instructional Technology option prepares school or industry-based specialists who combine skills in applying computer technology with advanced video and multimedia techniques to enhance the learning experience of students at all levels.

Admission to the Program

In addition to University requirements for admission to graduate study, applicants must possess a 2.75 grade point average in the last 90 quarter units attempted.

Requirements for the Degree (45 units)

A total of 45 units is required, with at least 23 in 500-level courses. A comprehensive examination, or a thesis or project, pertaining to the option is required. There is a limit on credit that may be earned in variable-unit courses. See Restrictions on Credit Earned in Variable Unit Courses earlier in this chapter.

Prerequisites
- EDIT 430 Introduction to Computers and Their Uses in the Classroom (4)
- or both of the following:
- CS 160 Introduction to Computers (3) and
- EDIT 447 Computers in the Classroom (2)

Required Courses (24 units)
- EDCI 560 Principles and Practices of Curriculum Development (4)
- EDFN 500 Evaluation of Educational Research (4)
- EDIT 451 Survey of Instructional Media and Technology (4)
- EDIT 484 Computer Authoring Tools (4)
- EDIT 552 Instructional Media Design (4)
- EDIT 557 Computer Assisted and Managed Instruction (4)

Courses in Specialty (10 to 17 or more units from the following depending on the choice of thesis, project, or comprehensive examination--total units in program must be 45 or more with 23 units or more at the 500 level)
- EDCI 583 Application of Hypermedia in Instruction (4)
- EDIT 435 Computer Systems in Education (4)
- EDIT 490 Special Topics in Instructional Technology (2-5)
- EDIT 540 Instructional Graphics Design and Production (4)
- EDIT 550 Instructional Applications of Interactive Video (4)
- EDIT 551 Advanced Multimedia Design and Production (4)
- EDIT 553 Consultation and Management for Instructional Designers (4)
- EDIT 554 Video Technology in Education (4)
- EDIT 555 Seminar: Simulation and Gaming (4)
- EDIT 556 The Role of the Computer Specialist in Education (4)
- EDIT 559 Advanced Instructional Television Design and Production (4)
- EDIT 560 Telecommunications in Education (4)
- EDIT 570 Research in Instructional Technology (4)
- EDIT 594 Selected Studies in Instructional Technology (1-4)

Electives (4 units)
May be selected from above courses not already included in program, or from other 400 or 500-level courses.

Comprehensive Examination or Thesis or Project (0, 7 units)
- EDFN 596 Comprehensive Examination (0) or
- EDFN 599A* Thesis or Project Planning (3) and
- EDFN 599B* Thesis or Project (2) and
- EDFN 599C* Thesis or Project (2)
Master of Arts Degree in Teaching English to Speakers of Other Languages (TESOL)

The Master of Arts Degree in Teaching English to Speakers of Other Languages (TESOL) prepares teachers for a wide variety of positions both in the U.S. and abroad. Students select one of three strands: the K-12 Strand, which covers English as a Second Language (ESL) instruction in the U.S.; the English as a Foreign Language (EFL) Strand, which covers English instruction in a non-English-speaking setting abroad; or the Research Strand, which prepares students for post secondary ESL settings and/or for research in Applied Linguistics. The program emphasizes language acquisition processes, teaching methodology, linguistics, language testing, research, and sociocultural influences.

Admission to the Program

In addition to University requirements for admission to graduate study, applicants must have a 2.75 grade point average in the last 90 quarter units attempted. Students must first apply for admission to the University in graduate standing. Then, they must make formal application to the Charter School of Education and the TESOL Program. Once they gain admission to the university with graduate status, they must consult a faculty adviser for program planning.

Prerequisites

All Students
- ENGL 401 English Language in America (4) with grade of B or better
- One year of college level study in a foreign language or equivalent

For Visa Students (in addition)
- Minimum 600 score on TOEFL, with at least 60 on each of the sections, or 550 score on TOEFL and minimum 5 score on Test of Written English

Requirements for the Degree (45 units)

A total of 45 units is required, with at least 23 in 500-level courses. A comprehensive examination, or a thesis or project, is required. There is a limit on credit that may be earned in variable-unit courses. See Restrictions on Credit Earned in Variable Unit Courses earlier in this chapter.

May be repeated once for credit with prior approval of a TESOL adviser.

Comprehensive Examination or Thesis or Project (0, 7 units)

EDFN 596 Comprehensive Examination (0) or
- EDFN 599A** Thesis or Project Planning (3) and
- EDFN 599B** Thesis or Project (2) and
- EDFN 599C** Thesis or Project (2)

Students should expect to take the comprehensive examination (EDFN 596) during the Fall or Spring Quarter and must comply with school and division requirements.

Certificate Program in Computer Applications in Schools

The credit certificate program in Computer Applications in Schools is designed to prepare teachers to use computers in their classrooms and to take leadership roles in their schools. Those who
complete the program will be prepared to teach computer program-
ing/problem-solving; to select and modify instructional software; to
evaluate and select hardware; and to use computers to manage
classrooms and schools. Completion of this credit certificate pro-
cram requires 28 units in core and elective courses with a minimum
B (3.0) average. Refer to the Graduate Study chapter of this
catalog for general regulations governing all certificate programs.

Requirements for the Certificate (28 units)
Core Courses (12 units)
EDIT 430 Introduction to Computers and Their
Uses in the Classroom (4)

Select two from following:
EDEL 480 Teaching Problem Solving with LOGO (4)
EDIT 481 Microcomputing in Schools: BASIC I (4)
EDIT 482 Microcomputing in Schools: BASIC II (4)
EDIT 483 Pascal for Teachers (4)
EDIT 484 Computer Authoring Tools (4)

Electives (select 16 units from the following with careful attention
to prerequisites)
EDAD 545 EDEL 480, 580, 581
EDSP 508
*if not taken in the core

Students are encouraged to consult an adviser for assistance in
planning their program to fulfill individual needs. Careful attention
to course prerequisites is urged, also.

Certificate Program in English as a Second
Language (ESL)
This program is designed to prepare and qualify teachers to work
in classrooms or other educational settings where students are
learning to speak, read, and write English as a second language
(kindergarten through adult levels).

Admission to the Program
Apply for formal admission to the program through the Division of
Educational Foundations and Interdivisional Studies.

Requirements for the Certificate (minimum 32 units)
In addition to course requirements, a passing UNIV 400-Writing
Proficiency Examination (WPE) score and a valid California teach-
ing credential, or eligibility for one, are required for issuance of the
certificate. A minimum B (3.0) grade point average is required in
all course work on the program. Refer to the Graduate and
Postbaccalaureate Study chapter of this catalog for general regu-
lations governing all certificate programs.

Required Courses (32 units)
The following sequence is recommended:
ENGL 401 English Language in America (4)
EDCI 453 Teaching in Bilingual/Crosscultural
Schools (4)
EDCI 549 Developing English Reading/Language
Arts Skills for Bilingual/Crosscultural Individuals (4)
EDFN 560 Theories of Teaching and Learning Second
Languages (4)
EDFN 562, 563 Methods for Teaching Second
Languages I, II (4, 4)
EDFN 567A Language Testing (4)
EDFN 568 Field Work in English as a Second
Language (4)
SPECIAL EDUCATION

Charter School of Education
DIVISION OFFICE
King Hall C1064
Telephone: (213) 343-4400

Program advisement provided for:
- Early Childhood Special Education
- Facilitating Behavior Change (offered jointly with Division of Administration and Counseling)
- Gifted Education
- Mild/Moderate Disabilities
- Moderate/Severe Disabilities
- Multicultural/Multilingual Special Education
- Physical and Health Impairments
- Resource Specialist in Special Education
- Visual Impairment and Blindness: Orientation and Mobility
- Visual Impairment and Blindness: Teacher Education

Program advisement provided for:
- Joint Doctoral Program (with UCLA)

Courses offered in:
- Higher Education (EDHI)
- Special Education (EDSP)

Master of Arts Degree in Special Education

The Master of Arts degree in Special Education provides administrators, teachers, and therapists with advanced preparation for work with exceptional learners. Master's degree candidates must incorporate the specialist credential requirements in their area of specialization as a part of their program. (This requirement may be waived for personnel such as nurses, occupational or physical therapists, or orientation and mobility specialists.) The master's degree programs include a choice among nine options.

Admission to the Program

In addition to University requirements for admission to graduate study, applicants must have a 2.75 grade point average in their last 90 quarter units attempted, must have completed (or complete concurrently) requirements for a California credential in Special Education (except in selected areas), must complete all division application procedures, and must obtain approval from the division. A number of scholarships and traineeships is available to qualified students. Interested students should contact the division office.

Advisement

Students should seek advisement for all Special Education credential and graduate programs in the Division of Special Education. Credential candidates must attend a group advisement session (offered at approximately two-week intervals) prior to admission.

Requirements for the Degree (45 units minimum)

A minimum of 45 units is required, with at least one-half in 500-level courses. The candidate must maintain a minimum 3.0 (B) grade point average, with no grade lower than C. The program has four components: (1) Credential requirements; (2) M.A. Core; (3) required specialization courses and electives that are approved by the adviser; and (4) the comprehensive examination or thesis/project requirement. Students may pursue the thesis or project option only when they meet specified division and school criteria. See Restriction on Credit Earned in Variable Unit Courses earlier in this chapter.

Required Core for all M.A. Options (12 units)
EDSP 400 Foundations of Special Education (4)
EDSP 500 Research Methods in Special Education (4)
EDSP 501 Problems and Practices in Special Education (4) or
EDSP 511 Seminar: Issues and Strategies for Multicultural Special Education Students (4)

Options

Select one option from the following, with adviser consultation and approval. Special education credential and related courses may be included as approved by the faculty adviser.

- Early Childhood Special Education Option
  Required Courses (23 units)
  EDSP 503, 512, 514*, 515*, 516*, 517
  Electives selected from the following list of courses or other related courses (to reflect an area of emphasis as approved by the adviser (with a minimum of 45 units).
  CHDV 501, 504
  COUN 403
  EDEL 466
  EDSP 462, 463, 568, 540
  PSY 433
  *Courses marked with an asterisk are also required in the credential program.

- Facilitating Behavior Change Option
  Required Courses (31 units)
  COUN 501, 502, 592, 593
  EDSP 512, 513, 550, 551, 554
  Select from the following list of courses for a minimum of 4 units:
  COUN 406, 442, 460, 504*, 542A, 542B, 598
  EDSP 505, 508, 555, 556, 582, 598
  Electives selected from the credential program or other related courses as approved by the adviser (with a minimum of 45 units)
  *Students who take COUN 504 will be eligible to apply for the Certificate in Applied Behavior Analysis.

- Gifted Education Option
  Note! A multiple or single subject credential is a requisite for this option.
  Required Specialization Courses (19 units)
  EDSP 440, 441, 503, 540, 541
  Electives from the following list of courses or other related courses as approved the adviser (with a minimum of 45 units):
  COUN 450, 484
  EDCI 453, 535
  EDSP 408, 409, 512, 513
Mild/Moderate Disabilities Option

**Required courses (28 units)**

EDSP 409*, 512*, 513*, 550*, 551*, 555, 556

Electives selected from the credential program or from the following listing of related courses as approved by the adviser (with a minimum of 45 units).

COUN 501

EDCI 522

EDEL 535

EDSP 463, 502, 505, 508, 540, 554, 580, 581

*Courses marked with an asterisk are also required for the credential.

**Moderate/Severe Disabilities Option**

**Required courses (28 units)**

EDSP 409*, 512*, 513*, 550*, 551*, 581, 582

Electives selected from the credential program or from the following listing of related courses as approved by the adviser (with a minimum of 45 units)

COUN 501

EDCI 522

EDEL 535

EDSP 463, 505, 508, 540, 580

**Multicultural/Multilingual Special Education Option**

**Required courses (24 units)**

EDSP 408*, 409*, 512*, 513*, 550*, 551*

a. Select two courses in one of the methodology areas listed below (8 units)

**Bilingual Methodology**

EDCI 453, 536, 549 . . . . . EDFN 537, 540

EDEL 400S

or

ESL Methodology

EDFN 560, 562, 563 . . . . . EDEL 405

EDCI 450

b. Select one culture course from the listing below:

ANTH 443

CHS 406, 410, 440, 470, 504

EDCI 535 . . . . . PHIL 435

EDFN 437 or 438

SPCH 489

Electives as approved by the adviser (with a minimum of 45 units).

**Physical and Health Impairments Option**

**Required courses (12 units)**

EDSP 460*, 462*, 502

Electives selected from the credential program or from the following list of related courses as approved by the adviser (with a minimum of 45 units)

EDSP 505, 508, 510, 515, 516, 540, 550, 551, 554, 580, 582

*Courses marked with an asterisk are also required in the credential program.

**Resource Specialist in Special Education Option**

**Required courses (27 units)**

EDSP 502, 503*, 510*, 512*, 550, 551, 555

Electives selected from the credential program or other related courses as approved by the adviser (with a minimum of 45 units)

*Courses marked with an asterisk are also required in the credential program.

**Visual Impairment and Blindness: Orientation and Mobility Option**

**Required courses (39 units)**

EDSP 465* (3 units), 469* (4 units), 475* (6 units)

476A (1 unit) & 476B (4 units)* 503* (9 units)

575A (1 unit) & 575B (4 units)*

576A (2 units) & 5768 (2 units)*

598 (3 units)

Electives selected from the credential program or other related courses as approved by the adviser (with a minimum of 45 units).

*Courses marked with an asterisk are also in the credential program.

**Visually Impairment and Blindness: Teacher Preparation Option**

**Required courses (28 units)**

EDSP 465*, 466*, 469*, 512*, 565, 567*, 568*

Electives selected from the credential program or other related courses as approved by the adviser (with a minimum of 45 units)

Comprehensive Examination or Thesis or Project

(0 to 7 units) (applies to all options)

EDSP 596 Comprehensive Examination (0)

EDSP 599A Thesis or Project Planning (3) and

EDSP 599B Thesis or Project (2) and

EDSP 599C Thesis or Project (2) and

Students should expect to take the comprehensive examination (EDSP 596) the quarter they complete all course work on their program and must comply with school and division requirements.

**Specialist Credential Programs**

Recent modifications in credential programs, approved by the Commission on Teacher Credentialing, authorize the granting of Special Education credentials as “Basic” credentials rather than as an addition to the Multiple or Single Subject credential. The approved program at California State University, Los Angeles includes the following options:

1. Internship Credentials in Special Education
2. Level I or Preliminary Credentials
3. Level II or Professional Specialist Credentials
4. Programs that combine a Specialist with a Multiple or Single Subject Credential
5. Specialist Program combined with a Master of Arts Degree in Special Education

The following material provides general credential information. The student must also read the advisement material of the Division of Special Education and must consult with a faculty adviser.

**Specialist Credential Program Areas**

Education of Individuals with:

a. **Mild/Moderate Disabilities:** Preparation to teach students with mild/moderate learning disabilities, mental retardation and emotional/behavioral disabilities within the full range of placement options.

b. **Moderate/Severe Disabilities:** Preparation to teach students with moderate/severe disabilities, mental retardation, emotional/behavioral disabilities, and multiple disabilities within the full range of placement options.

c. **Physical and Health Impairments:** Preparation to teach students with orthopedic disabilities and other serious health impairments within the full range of placement options.
• Visual Impairments and Blindness: Preparation to teach students birth-22 years who are blind or who have low vision within the full range of placement options.

• Early Childhood Special Education: Preparation to work with infants and young children with disabilities or at-risk, and their families.

• Clinical Rehabilitative Services Credential: The Clinical Rehabilitative Services Credential with authorization in Orientation and Mobility training prepares individuals to work with children and adults who have visual impairments and blindness or other disabilities that necessitate this type of training.

• Resource Specialist in Special Education Certificate.

• Preparation to work in resource specialist programs in public private schools. Available to individuals who hold the "old" special education credentials.

Admission to Credential Programs

All students who plan to enter a program for one of the Educational Specialist certificates must apply for admission to the Charter School of Education Credential Program. Students in upper division standing at Cal State L.A. are eligible to apply and enter the program. A minimum of 45 units beyond the baccalaureate is needed to obtain the Level II Professional Credential. Credential candidates must attend a group advisement session (offered at approximately two-week intervals) prior to admission to the Preliminary Level I program.

Preliminary Admission Requirements

Admission requirements are based on Title 5, California Code of Regulations, and University regulations. Students seeking admission to Cal State L.A. teaching credential programs must enroll in EDCI 300AB, Introduction to the Teaching Profession. Requirements for preliminary admission to credential programs include the following. Students must complete all requirements listed below to receive credit in EDCI 300AB.

• Complete application form.

• Record of oral interview with faculty adviser and completion of Program Planning Sheet.

• Verification of academic ability, as evidenced by a grade point average at or above the median of undergraduate students in the candidate’s academic major but in no case lower than 2.5.

• Verification of negative TB test (taken within the last year) by a personal physician or at the Cal State L.A. Health Center.

• Verification of completion of PSY 150.

• Verification of having applied for the Certificate of Clearance.

• Successful completion of a supervised field experience.

• A written personal history that includes a statement of professional goals and educational philosophy.

• Official transcripts and letters of reference received and evaluated.

Completion of Admission Requirements

Students must satisfy the following criteria before they are formally admitted to the program.

• Minimum C grade in SPCH 150 or passing score on Cal State L.A. Speech Proficiency Evaluation.

• Pass UNIV 400, The Writing Proficiency Examination (WPE) or acceptable alternative by petition.

• Verification of having taken the CBEST. (Students who have not passed the CBEST prior to entry into the credential program must have an approved plan of remediation on file with the Student Services Center in the Charter School of Education.)

Students are formally admitted to the teaching credential program upon completion of requirements stated above.

Admission Requirements for Internship Credential Programs

• Admission to the University.

• Application for admission to the credential program.

• Employment or commitment by a school district to employ the individual as a full-time teacher.

• B.A. or B.S. degree.

• Passing score on CBEST.

• EDSP 400; and EDEL 400 and 401 or EDSE 401 and 421

Completion of approved Multiple or Single Subject academic program or appropriate examination.

Admission Requirement for Students who hold a Preliminary Credential

Students who complete a preliminary (Level I) special education credential at Cal State L.A. may continue on for the professional clear credential. No additional application to the Charter School of Education is necessary.

Directed Teaching Information

Directed Teaching is one of the most important phases of teacher education at Cal State L.A. Candidates are not automatically admitted to directed teaching by completion of course work alone; they must fulfill the following criteria:

• Formal admission to the teaching credential program.

• Application for directed teaching by application deadline (Wednesday of second week of quarter preceding the assignment).

• Attendance at the Charter School of Education orientation meeting for all basic credential students.

• Attendance at Special Education directed teaching orientation meeting during finals week of quarter preceding the assignment.

• Verification of completion of a Commission approved multiple subject matter program (for credentials with elementary emphasis) or Single Subject matter program (for credentials with secondary emphasis) or passing score on MSAT/SSAT Subject Assessments and recommendation of subject matter area department. Approved Multiple Subject and Single Subject matter programs are listed in the Undergraduate Study chapter of this catalog.

• Transcripts or grade reports verifying completion of at least 12 units at Cal State L.A. and all prerequisite courses. A minimum B (3.0) grade point average and grades of C or higher are required in all professional education courses.

• Verification of passing scores on all sections of CBEST.

• Present to the Office of Student Services (KH D2078) a Certificate of Clearance issued by the California Commission on Teacher Credentialing.

• Verification of negative TB test taken within one year before completion of directed teaching by a personal physician or at Cal State L.A. Health Center.

Students who meet all of the above criteria and who have completed the prerequisite course work will be approved for directed teaching. Because of the amount of time and work required for directed teaching, students must restrict the number of units in their program (maximum of 6 units) and curtail their out-of-school workload for the duration of such assignments.
**Educational Specialist Credentials**

Special Education Specialist Credentials

Core Requirements for Preliminary (Level I) Specialist Credentials (Elementary Emphasis) except Early Childhood

- Bachelor's degree (including Constitution).
- Passing score on CBEST.
- Approved Multiple Subject matter program or appropriate examination (MSAT).
- Foreign Language requirement for CLAD or BCLAD.
- EDCI 300AB is a prerequisite for admission to all specialist credential programs (includes field experiences).
- Special Education group advisement.
  - EDEL 400 or 400S, 401 or 401S
  - EDFN 414
  - EDSP 400, 408, 409, 512*, 513**
  - EDSP 407 or 489, Directed Teaching I and II (includes seminar)

*Note! Directed Teaching I is waived for individuals who teach for one or more years on an internship credential.

EDSP 407 or 489, Directed Teaching I and II (includes seminar)

(Students who meet specified criteria may complete student teaching requirements in both regular and special education classes.)

**EDSP 513 is not required for the V.I. Credential.

Core Requirements for Preliminary (Level I) Specialist Credentials (with Secondary Emphasis)

- B.A. degree (including Constitution).
- Approved Single Subject academic program or appropriate exam and approval by academic department.
- Passing score on CBEST.
- EDCI 300AB is a prerequisite for admission to all specialist credential programs (includes field experience)
  - EDSE 401, 421, 423
  - EDFN 414
  - EDSP 400, 409, 512*, 513**
  - EDSP 407 or 489, Directed Teaching I and II (includes seminar)

Students who meet specified criteria may complete student teaching in both regular and special education classes; seminar meetings required.

*The Visual Impairment and Blindness credential requires this course in Level II rather than Level I.

**EDSP 513 is not required for the V.I. credential.

Core requirements for Professional (Level II Credentials (with both Elementary and Secondary Emphasis)

- EDEL 401, 421, 423
- EDFN 414
- EDSP 400, 409, 512*, 513**
- EDSP 407 or 489, Directed Teaching I and II (includes seminar)

Students who meet specified criteria may complete student teaching in both regular and special education classes; seminar meetings required.

*The Visual Impairment and Blindness credential requires this course in Level II rather than Level I.

**EDSP 513 is not required for the V.I. credential.

Core requirements for the Credentials for Mild/Moderate and Moderate/Severe Disabilities

Preliminary (Level I) Credential

- EDSP 550, 551

*Note! Candidates who meet specified teaching experience and student teaching criteria, and are approved by the faculty of the Division of Curriculum and Instruction, may also be eligible for the Preliminary Multiple or Single Subject credential.

Professional (Level II) Credential

- EDEL 402 or 402S and EDEL 405 (for Elementary Emphasis) or
- EDCI 450 (for Secondary Emphasis)

One adviser approved specialization course selected from the following:

- COUN 501, EDCI 522
- EDFP 463, 505, 508, 540, 554, EDEL 535

*Note! Credential candidates may choose to add the Multiple or Single Subject Professional Clear Credential by completing student teaching: EDEL 404 or 489, or EDSE 422B or 489. This requirement may be waived by the Division of Curriculum and Instruction, if specified teaching experience and student teaching criteria are met.

Core requirements for the Credentials for Physical and Health Disabilities

Preliminary (Level I) Core Requirements (45 units)

B.A. degree including Constitution subject area program or appropriate examination and approval by academic department foreign language requirement for CLAD or BCLAD

- EDSE 401 Instructor Strategies in Secondary Teaching (4)
- EDSE 421 Instructor Methods for Secondary Subjects (3)
- EDSE 423 Teaching Reading in Secondary Schools (4)
- EDFN 414 Social Foundations of Special Education (3)
- EDCI 450 Foundations of Special Education (4)
- EDCI 450 (for Secondary Emphasis)
- EDFP 489 Demonstration Instructor Composition (5)
- EDCI 513 Student Behavior & Social Interaction Skills (3)
- EDFP 461, 462, 463

*Note! Candidates who meet specified experience criteria and are approved by the faculty of the Division of Curriculum and Instruction may also be eligible for the Preliminary Multiple or Single Subject credential.

Professional (Level II) Credential

- EDEL 402 or 402S, 405 (for Elementary Emphasis) or
- EDCI 450 (for Secondary Emphasis)
- EDFP 460

*Note! Credential candidates may choose to add the Multiple or Single Subject Professional Clear Credential by completing student teaching: EDEL 404 or 489, or EDSE 422B or 489. This requirement may be waived, by the faculty of the Division of Curriculum and Instruction, if specified experience and/or student teaching criteria are met.

Specialization Requirements for the Credential for Visual Impairment and Blindness:

(with Secondary Emphasis)
Preliminary (Level I) Core Requirements (40 units)
B.A. degree including Constitution subject area program or appropriate examination and approval by academic department.

Foreign Language Requirement for CLAD or BCLAD
EDSE 401 Instructor Strategies in Secondary Teaching (4)
EDSE 421 Instructor Methods for Secondary Schools (3)
EDSE 423 Teaching Reading in Secondary Schools (4)
EDFN 414 Social Foundations of Special Education (3)
EDSP 400 Foundations of Special Education (4)
EDSP 407 Directed Teaching I or EDSP 489 Demo Instructor Composition (5)
EDSP 407 Direct Teaching II or EDSP 489 II Demonstration Instructor Composition (5)
EDSP 408 Cognitive and Linguistic Processes in Individuals with Special needs (4)
EDSP 409 Assessment Curriculum & Instructor Strategies (4)
EDSP 465, 465L, 466*, 567, 568
*Credential candidates must complete this course and demonstrate grade 2 braille reading and writing proficiency according to division guidelines prior to registering for directed teaching II.

Professional (Level II) Credential
EDSP 469, 512

Note! Credential candidates may choose to add the Multiple or Single Subject Professional Clear Credential by completing EDEL 402 or EDSE 450 and student teaching: EDEL 404 or 489, or EDSE 442B or 489. The student teaching requirement may be waived if specified experience and/or student teaching criteria are met by the Division of Curriculum and Instruction.

• Requirements for the Specialist Internship Credentials (All Special Education Specialist Credentials Issued for 2 years)

Option I
• Employment by a participating school district in a special education program.
• B.A. degree (including Constitution).
• Completion of a Commission approved Subject matter program.
• Passing score on CBEST.
• Submit verification of completion of Commission-approved multiple subject matter program (for Multiple Subject credentials) or Single Subject matter program (for Single Subject credentials) or passing score on PRAXIS/SSAT Subject Assessments and recommendation of academic subject area department. Approved Multiple Subject and Single Subject matter programs are listed in the Undergraduate Study chapter of this catalog.

Completion of approved Multiple or Single Subject Academic Program or appropriate examination.

EDEL 400 or 400S of EDSE 401
EDSP 400, 409
EDSP 489 (Fieldwork)

The 12 units of coursework must be completed prior to recommendation for the Internship Credential and the candidate must have commitment from a participating school district for employment as a special education teacher. The fieldwork must be taken during the first year of teaching. Candidates who demonstrate all fieldwork competencies during the first quarter may apply for a waiver of the second quarter.

Option II
Candidates who have completed the requirements for a Multiple or Single Subject credential and who have commitment from a participating school district for employment as a special education teacher may apply for a Special Education Internship credential. The fieldwork requirements are the same as above. The coursework will be included as part of the Preliminary core requirements.

• The Clinical Rehabilitative Services Credential for Visual Impairment and Blindness: Orientation and Mobility Training

Note! This credential program does not have provisions for the Level I and Level II authorizations, and does not utilize the core requirements of the Specialist teaching credentials. The requirements, as shown below provide for the Professional Clear Credential.

EDSP 400, 406, 465, 469, 475, 476, 503, 575, 576

Certificate Program: Resource Specialist in Special Education (Issued by Commission on Teacher Credentialing)

Note! Individuals completing the new Specialist credentials will qualify to serve children and youth in the Resource Specialist Program and will not require a separate certificate. For individuals who hold the old credentials, the Resource Specialist must possess valid teaching credentials in both regular and special education and have three years of full-time teaching experience that includes both regular class and special education experience. The Resource Specialist candidate must also complete the course work listed below.

Option for Preservice or Internship Resource Specialist Training

Required Courses
EDSP 501*, 503 (6) 510*, 512*
*must be taken before 503

The credentials and experience, as listed above, are prerequisites for the Internship certificate. Those requirements may be in progress for other students who enter the Resource Specialist Program.

Early Childhood Special Education Credential

Note! The Early Childhood Specialist Credential Program does not utilize the core requirements of the other specialist credentials. The requirements, as shown below, provide for the Professional Clear Credential.

Prerequisite
• B.A. Degree in Child Development or related field
• Experience with young children under five years of age

General Special Education Requirements
EDSP 400, 408

Early Childhood Special Education Core
EDEL 461, 462
COUN 403
EDSP 416, 514, 515, 516

Student Teaching/Fieldwork
EDSP 403, 407
Note! Candidates who meet specified experience criteria and are approved by the adviser may receive subject credit only for EDSP 403.
Early Childhood Special Education University Certificates

These certificate programs are designed for professional persons who already hold a credential and/or master’s degree, but who are seeking the professional preparation that is related to working in school, agency, or home settings with infants or young children with exceptional needs. One area of emphasis provides professional preparation for working with infants and their families; the other emphasis is for working with children three to five years of age and their families.

Completion of this credit certificate program requires 30 units of course work with a minimum B (3.0) grade point average. Refer to the Graduate and Postbaccalaureate Study chapter of this catalog for general regulations governing all certificate programs.

Infancy Emphasis

Prerequisites - Infancy Emphasis

- Bachelor’s degree in Child Development or related field
- Experience with infants and young children, ages birth to three
- EDSP 400
- Minimum 2.75 undergraduate grade point average in last 90 quarter units attempted

Requirements for the Certificate: Infancy Emphasis (30 units)

Doctor of Philosophy Degree in Special Education

A doctoral program in Special Education, offered jointly by the University of California, Los Angeles (UCLA) and California State University, Los Angeles (CSLA), combines the unique resources of the two institutions. The program is designed to prepare graduates for teacher education in special education or other leadership positions in the field. This program offers a focus on disability issues in special education, emphasizing teacher education, theory and pedagogy, and research. Graduates are prepared to assume university faculty positions in which they will conduct teacher education, research, and other scholarly pursuits related to special education and disabilities. This program offers a Ph.D. in special education, thus students are required to obtain both breadth and depth of knowledge in special education and may specialize in specific areas that include but are not limited to: early childhood education, learning disabilities, emotional disturbance, mental retardation, severe disabilities, physical and health impairment, gifted education, multicultural education, bilingual special education, visual impairment, and transition to adulthood.

The degree requires major work in special education, and breadth work in related areas as well as work in a cognate field outside of education. Advanced courses and research seminars supply technical backgrounds in the specialization in which students plan to do their dissertation. Practicum, field work, and/or internship assignments are planned on an individual basis.

Admission to the Program

To be considered for admission, applicants must meet the following requirements:

- Completion of a Master’s degree in Special Education or a related field.
- Acceptable minimum score on such examinations as may be specified by the Division of Special Education joint doctoral program committee (currently a minimum of 1,000 combined verbal and quantitative scores on the graduate record exam).
- An upper division undergraduate grade point average of 3.0 and a minimum graduate grade point average of 3.5.
- The potential to perform research as demonstrated in evidence submitted to the special education joint doctoral program committee.

At least three years’ successful professional experience, such as teaching, with individuals with disabilities (if an exception is made at the time of admission, the requirement must be completed prior to advancement to candidacy).

Three letters of recommendation, two of which should be written by faculty from whom the student has taken graduate work.

Complete sufficient course work to merit recommendation for admission by at least two resident graduate faculty members and one professional field supervisor, or three resident faculty members from one or both campuses.

The program coordinator on the CSLA campus will assist in preparation of application materials. Applicants may be asked to participate in an oral interview as part of the screening process. Applicants will be considered for admission by a joint screening committee consisting of special education faculty from both CSLA and UCLA. Students are initially admitted to the CSLA campus. Upon recommendation of the CSLA special education joint doctoral program committee, students may make formal application to...
UCLA and be approved for admission to that campus to complete the program of study.

Planning the Program

Upon admission to the program, students meet with an assigned CSLA adviser to plan their program of studies at the CSLA campus. At the time of transfer to the UCLA campus, a UCLA adviser is assigned to complete the program plan with UCLA course work. Course work is taken at both campuses. Course requirements include the following areas: depth and breadth in core content, research methods, research practicum, and cognate, or outside field of study. Specific course in each of the required areas are determined by the candidate and the faculty advisers within approved program guidelines. Students’ individual programs are based on the students’ backgrounds and are designed to assure their competencies in the above areas.

The program is planned to provide a comprehensive understanding of the entire field of special education as well as an emphasis area. The program is designed to develop competence in statistics and research; provide an understanding of research relating to individuals with disabilities, strengthen background through study in a cognate area; and provide electives to complete a balanced program of study. The program is not built around specific unit requirements, but will be designed to ensure the candidate’s competencies in the above areas.

Residence Requirements

All doctoral candidates are required to engage in a minimum of one year of full-time residence on the UCLA campus. However, candidates are encouraged to engage in full-time residence throughout their entire doctoral program. The exact distribution of time on each campus will depend upon the individual program. Doctoral candidates must be enrolled in three of every four quarters unless on formal leave of absence.

Candidates are allowed a period of time not to exceed four years from the beginning of course work to advancement to candidacy, and four additional years from advancement to candidacy to completion of the dissertation.

Doctoral Written Qualifying Examination

When the candidate has completed the course work recommended by the resident advisers, application is made for the written qualifying examination. The examination is written and scored by faculty at both campuses and follows the guidelines set forth by the UCLA Graduate School of Education. Students who fail this examination will be given a second opportunity to take the examination at the discretion of the students CSLA and UCLA advisers, and a third opportunity upon majority vote of faculty from both campuses. No fourth sitting for the examination is permitted.

Doctoral Oral Qualifying Examination

After the candidate has completed the written qualifying examinations successfully, a joint doctoral committee will be appointed by the deans of the graduate divisions of the two institutions. This committee will be composed of two approved faculty members from the UCLA Graduate School of Education, two from the Cal State L.A. Division of Special Education, and one from the students cognate area at UCLA. Additional committee members may be appointed at the students or adviser’s request. This committee will conduct an oral examination covering topics from both special education and the cognate discipline related to the candidate’s research proposal, to determine the candidate’s qualifications to conduct meaningful research in the field. This oral examination is open only to the committee and the student. Upon majority vote of the joint doctoral committee, the oral qualifying examination may be repeated once.

Advancement to Candidacy

Candidates who have passed both written and oral qualifying examinations file an application for advancement to candidacy at both campuses. Thereafter, enrollment is required each quarter in EDSP 699, or such course or courses as the students committee chair may direct, until the dissertation is completed.

Dissertation

The dissertation, required of every candidate for the Ph.D. degree, embodies the results of the candidate’s independent investigation. It must contribute to the body of knowledge in the field and draw upon interrelations between education and the cognate discipline. The dissertation must be approved by the candidate’s assigned joint doctoral committee and, after approval, copies must be filed in the libraries of both institutions. An abstract must be submitted to University Microfilms for publication in Dissertation Abstracts. Candidates should check with the committee chairperson regarding the need for additional copies of the dissertation.

Final Oral Examination

Candidates must pass a final oral examination conducted by the assigned joint doctoral committee stressing the interrelation of the dissertation and existing knowledge in education and in the cognate field. The major emphasis of this examination is on defense of the dissertation. The final oral examination is open to faculty, students, and other interested researchers at the discretion of the dissertation chairperson and the student.

Advisement

A faculty member on each campus is designated as resident doctoral adviser for all students intending to apply for admission to the Joint Doctoral Program. As soon as the decision is made to seek admission, applicants should consult with the joint doctoral program coordinator at the CSLA campus regarding application deadlines and formal procedures required for consideration for admission to the program.

The addresses and phone numbers for the resident doctoral advisers are as follows:

California State University, Los Angeles
Division of Special Education
5151 State University Drive
Los Angeles, California 90032-8144
King Hall C1064
Phone: (213) 343-4400

University of California, Los Angeles
Graduate School of Education
405 Hilgard Avenue
Los Angeles, California 90024
Phone: (213) 825-8343
The Charter School of Education offers courses in several disciplines, each with a distinct four-letter course abbreviation. These disciplines are listed below with the names of the offering divisions. Courses that follow are arranged alphabetically by course abbreviation.

### Discipline Name and Abbreviation

- Counseling (COUN) . . . . . Administration and Counseling
- Curriculum and Instruction (EDCI) . Curriculum and Instruction
- Educational Administration (EDAD)
- Educational Foundations (EDFN)
- Elementary Education (EDEL) . . . Curriculum and Instruction
- Higher Education (EDHI) . . . . . . Special Education**
- Instructional Technology (EDIT)
- Library Science (LIBR)
- Secondary Education (EDSE) . . . Curriculum and Instruction
- Special Education (EDSP) . . . . . . Special Education

**graduate level courses only

### Courses in Counseling (COUN)

(Division of Administration and Counseling)

#### 400-Level Courses

All 400-level courses may be applied toward masters degree requirements, subject to limits established by the division and approval of the graduate adviser.

#### Graduate Courses

Classified graduate standing is required for admission, except that postbaccalaureate students may enroll in 500-level courses that are required in a credential program.

### 501 Behavior Analysis in School, Home, and Agency Settings (4)

Prerequisite: COUN 406 or 489 or EDSP 402 or PSY 428. Principles and application of behavioral contingency management procedures.

### 502 Advanced Behavioral Contingency Management in Schools (4)

Prerequisites: 501, instructor consent. Behavioral research, ethics, and recent developments in applying behavioral procedures to school and consulting relationships.

### 503 Sociological and Cultural Factors in Counseling (4)

Effect of social environment and cultural group membership on behaviors related to counseling; relationship of social and cultural background to counseling theory and techniques to our changing cultures; implications of crosscultural research for counseling practice.

### 504 Advanced Topical Study in Application of Behavior Analysis to Education (4)

Prerequisite: COUN 502. In-depth study of particular topics within behavior analysis. May be repeated to maximum of 8 units as subject matter changes.

### 505 Practicum: Counseling (3)

Corequisites: COUN 405A; admission to a degree or credential program or employment as a counselor. Practical experience preparatory to working with clients, knowledge and skills in listening and helping. Students initiate a professional portfolio and develop a plan for gaining necessary counseling competencies. Graded CR/NC.

### 506 Individual Counseling Strategies (4)

Prerequisites: COUN 405A, 505; instructor consent. Techniques in individual counseling that apply to specific settings or derive from specific theories of counseling.

### 507 Individual Clinical Counseling (3)

Prerequisites: COUN 428, 447, or 448; 406 or 501; 505, 506; instructor adviser consent; prerequisite or corequisite: COUN 428. Supervised individual career and personal counseling through the campus Counseling and Assessment Clinic. Students implement theory, develop case management strategies, and develop their own counseling behavior. Lecture 1 hour, clinical field experience 3 hours scheduled plus 3 hours arranged. May be repeated to a maximum of 6 units for credit. Graded CR/NC.

### 510 Counseling Students in Higher Education (4)

Characteristics and problems of American college students; impact of college life on individual, psychosocial aspects of student culture and college environment as well as cultural differences.

### 514 Stress Counseling (4)

Prerequisite: COUN 405A. Familiarization with assessment and management techniques related to client stress in a variety of settings such as schools, colleges, and rehabilitation agencies.

### 516 Group Counseling (4)

Prerequisites: COUN 405A; 406 or 501; 505. Theory and practice of group processes, leadership, membership skills; group skills appropriate to school, college, agency settings; counseling group and guidance group processes: current research in group theory and practice.

### 517 Group Counseling: Practicum (3)

Prerequisite: COUN 516. Supervised group counseling through campus’ Counseling and Assessment Clinic or local school or agency. Lecture 1 hour, 6 hours approved clinical experience. May be repeated once for credit. Graded CR/NC.

### 520 Introduction to Family Evaluation and Counseling (4)

Prerequisites: COUN 506, 507; corequisite: COUN 523. Introduction to major counseling theories and practices for working with relationships in family contexts; focus on methods of initial family assessment and family counseling with individual family members.
521 Advanced Family and Marriage Counseling (4)
Prerequisite: COUN 520; corequisite: COUN 589. Approaches to joint family counseling and marriage counseling within family systems framework.

522 Family Counseling with Children (4)
Prerequisite: COUN 589 or 586. Theory and methods of counseling children in families; includes assessment and study of child's role in family structure; applications of verbally- and activity-based therapy.

523 Family Counseling Laboratory (3)
Prerequisites: COUN 406 or 501; 507; corequisite: COUN 520. Supervised counseling of couples and families utilizing strategies and techniques of systems theory; practical experience designed to enhance students' skills as family counselors. Lecture 1 hour, laboratory 3 hours. May be repeated to maximum of 6 units.

529 Principles of Research and Program Evaluation in Counseling (4)
Prerequisite: EDFN 452 or PSY 302. Principles, procedures, and ethical considerations underlying collection, analysis, and interpretation of data for research and evaluation of counseling programs.

531AB Individual Testing and Case Study Techniques (4, 4)
(also listed as PSY 531AB)
Prerequisites: PSY 430 or COUN 428 plus one of following sequences: PSY 410AB and 438; 410AB and 431; 418AB and 431; or PSY 410A and COUN 405A or B, 428A, and 501. Intensive practice in administration and interpretation of better known testing devices for mental ability, perceptual and motor functioning, and personality dynamics, with attention to integration of results in case studies. Lecture 3 hours, laboratory 3 hours.

532 Diagnosis of Learning Problems and Remedial Procedures (4)
Prerequisite: COUN 531B. Methods used by classroom teachers and school specialists in diagnosis and remediation of learning disabilities.

533 Psychological Testing Applied to Mentally, Physically Atypical (4)
Prerequisite: COUN 531B. Selection, administration, and interpretation of tests used for appraising the atypical individual. Lecture 3 hours, laboratory 3 hours.

534 Methods of Personality Assessment (4)
(also listed as PSY 534)
Prerequisite: COUN 531AB. Study and evaluation of current personality tests, objective and projective. Administration, scoring, interpretation, and reporting of results; findings of empirical research. Lecture 3 hours, laboratory 3 hours.

535 Alternative Assessment (3)
Prerequisite: COUN 531A. Selection, educational implications, and use of alternative assessment techniques and findings; implications for least restrictive placement.

538 Seminar: Methods of Diagnostic Assessment in Counseling (4)
Prerequisites: COUN 428, 506; PSY 410A or B. Use of statistical and clinical methods as bases for diagnostic appraisal in counseling; emphasis on individual case reports. Includes utilization of current versions of professionally mandated resources like the APA Diagnostic and Statistical Manual (DSM).

540AB Foundations of Rehabilitation (4, 4)
Prerequisite: Admission to graduate rehabilitation option. Introduction to rehabilitation counseling profession, including study of roles and functions of rehabilitation counselors, case management, and impact of disability on individual's psychological, physical, and social life. Participation in field observation required.

542AB Medical Aspects of Disability (3, 3)
Review of literature and research implications for rehabilitative counseling of major physical and psychiatric conditions leading to disablement; etiology, therapy, and prognosis of rehabilitation.

552 Counseling and Human Sexuality (4)
Prerequisites: COUN 405A or 405B; 450 or 480 or 506 or 508; corequisite: SOC 421. Latest developments in theory and research in area of human sexuality as these pertain to role of counselor.

581 Seminar: Pupil Personnel Services (4)
Prerequisite or corequisite: COUN 586. Organization, administration, and evaluation of comprehensive, competency-based pupil personnel programs. Program development and implementation: collaboration with school administration, other helping professionals and community; child welfare and attendance procedures and laws.

583 Preventive Counseling (4)
Prerequisites: COUN 405A, 503. Proactive model of counselor service delivery, developmental interventions that simulate academic, affective and career development through didactic and experiential learning activities. Guidance classroom units, career portfolios and monitoring student progress.

585 Seminar: School Psychology (4)
Prerequisite: Instructor consent; corequisite: COUN 586P. History and foundations of school psychology. Legal, ethical and professional issues and standards. Roles and functions of the school psychologist.

586 Supervised Field Experience in Pupil Personnel Services (2-10)
Prerequisite: Admission by application filed with division by fifth week of preceding quarter and approved by adviser and division associate chair. Supervised field experience in school counseling, higher education counseling, or school psychology involving work with pupils, parents, teachers, administrators, community agencies, and others. Graded CR/NC. May be repeated to maximum of 30 units. Candidates for Services credential with Pupil Personnel Services specialization enroll in an appropriate field experience as follows:

586C Higher Education Counseling
586P School Psychology Internship
586S School Counseling

587 Seminar: Higher Education Counseling (4)
Prerequisites: Advancement to candidacy in Higher Education Counseling option and instructor consent. Examination and investigation of critical issues in higher education counseling. Seminar reports required.

588 Supervised Practice in Rehabilitation Counseling (3-10)
Prerequisites: COUN 505, instructor consent, application filed with division by fifth week of preceding quarter. Supervised professional experience. One unit requires 40 hours of practice. Graded CR/NC. May be repeated to maximum of 15 units.
Courses in Curriculum and Instruction (ECDI)

(Division of Curriculum and Instruction)

400-Level Courses

All 400-level courses may be applied toward master’s Degree requirements, subject to limits established by the division and approval of the graduate adviser.

Graduate Courses

Classified graduate standing is required for admission, except that postbaccalaureate students may enroll in 500-level courses that are required in a credential program.

504 Alternative Educational Systems (4)
Exploration of the organization of curriculum and the delivery of instruction in alternative schools including charter schools, home schools, magnet schools, and self-renewing public schools.

510 Instructional Materials in Multicultural Education (4)
Prerequisite: Teaching credential. Analysis of instructional materials relating to experiences of minority cultural groups in America; elementary and secondary materials considered. May be repeated to maximum of 8 units.

513 Reading as a Cognitive Process (4)
Prerequisites: EDEL 400 or EDSE 423; teaching credential and teaching experience. Advanced study of current issues and programs in reading instruction; application of recent research findings to reading curriculum. Open to both elementary and secondary teachers.

521 Seminar: Research in Teaching Reading/Language Arts (4)
Prerequisites: EDEL 400 or EDSE 423, and EDFN 500 or equivalents. Analysis of the research knowledge base for K-12 reading/language arts instruction and learning, and application of research to the solution of reading/language arts problems.

522 Reading/Language Arts Assessment and Instruction for Classroom Teachers (4)
Prerequisite: EDEL 400 or 513 or EDSE 423. Formal and informal diagnostic methods; remedial reading methods within integrated whole-language classroom; instruction for elementary through secondary levels; supervised diagnostic experience.

524 Reading/Language Arts Assessment and Instruction for Reading/Language Arts Specialists (5)
Prerequisite: ECDI 522. Advanced diagnosis of severely disabled readers and/or writers; supervised experience in diagnosis and small group instruction with students who need assistance. Lecture 3 hours, laboratory 2 hours.

527 Seminar: Issues and Trends in Using of Children’s Literature (4)
Prerequisite: EDFN 500. Issues and trends in using children’s literature to teach reading, language arts, and other school subjects; analysis of research on literature-based instruction.

528 Creative Behavior: Development and Facilitation (4)
(also listed as COUN 528)
Prerequisites: Teaching credential, teaching experience. Factors that inhibit and facilitate creative thinking directed toward stimulating and productively utilizing creative abilities of students in urban society.
535 Teaching for Cross-Cultural and Global Awareness (4)
Instructional strategies, materials, resources for examining cross-cultural and global education issues in the classroom.

536 Crosscultural Studies Materials for Classroom Use (4)
Collection, analysis, adoption or adaptation, and development of crosscultural studies materials, e.g., Afro-American, Chicano, Filipino-American, for use in classroom.

539 Instructional Strategies for Inner City Schools (4)
Prerequisite: Teaching credential. Instructional strategies, resources, and organizational patterns designed for teaching children and youth of inner city schools. Field work included.

540 Reading/Language Arts Clinical Practicum (2)
Prerequisites: EDCI 524, instructor consent. Supervised experience in small-group instruction with remedial or disabled reading/writing clinic student. May be repeated to a maximum of 6 units.

541 Field Work in Reading/Language Arts (4)
Prerequisites: EDCI 540, instructor consent. Supervised field experience in organization, administration, and supervision of reading/language arts programs at district or school level.

549 Developing English Reading/Language Arts Skills in Bilingual/Crosscultural Individuals (4)
Prerequisites: EDEL 400, EDSE 423, teaching credential, or instructor consent; prerequisite or corequisite: EDCI 453. Analysis of research, curriculum design and selection of materials and strategies for the development of English reading/language arts skills for the culturally/linguistically diverse student.

560 Principles and Practices of Curriculum Development (4)
Curricular trends in historical perspective: sociological change, research in child growth and development, basic philosophies. Objectives, practices, materials, evaluation in curriculum development process.

583 Application of Hypermedia in Instruction (4)
Prerequisites: EDIT 430, teaching credential. Hands-on instruction in uses of hypermedia for teaching in K-12 schools; strategies for use of hypermedia by both teachers and students to enhance instruction.

584 Learning Theories and Cognitive Science in Math Education (4)
Survey and analysis of theories and research in cognitive science and learning theories in mathematics education: cognitive technologies, students’ systematic errors, gender and cultural issues.

599A, Thesis or Project Planning (3)
Prerequisites: EDFN 452 and 500, advancement to candidacy, written approval of thesis chair. Prior to completion, student will have completed draft of thesis or project proposal, selected a thesis committee, and submitted draft of thesis or project proposal to thesis committee. Graded CR/NC.

599B, Thesis or Project (2)
Prerequisites: EDCI 599A, written approval of thesis committee chair. Prior to completion student will have submitted a final draft of thesis or project proposal to thesis committee. Graded CR/NC.

599C, Thesis or Project (2)
Prerequisites: EDCI 599B, written approval of thesis committee chair. Completion of thesis or project under direct supervision of thesis committee. Graded CR/NC.

Courses in Educational Administration (EDAD)

(Division of Administration and Counseling)

Graduate Courses

Classified graduate standing is required for admission, except that postbaccalaureate students may enroll in 500-level courses that are required in a credential program.

500 Seminar: Professional Assessment (2)
Candidates assess their strengths and develop a plan for professional and academic growth. Candidates plan portfolios to be assessed in EDAD 590.

505 Leadership Use of Research Methodology (5)
Prerequisite: EDAD 500. Use of information technology to facilitate education research (including 15 hours of fieldwork).

508 Leadership for Organizational Transformation (5)
Prerequisite: EDAD 500. Theories, research, and practice in leadership, administrative process redesign, and technology for organizational transformation (including 15 hours of fieldwork).

516 Leadership in Current, Social and Political Issues (5)
Prerequisite: EDAD 500. Social, political, and historical forces affecting education and their effect on leadership trends, legislation, research and societal issues (including 15 hours of fieldwork).

520 Instructional Leadership (5)
Prerequisites: EDAD 500, EDIT 430 or equivalent. Curricular skills in implementation and evaluation of instructional programs (including 15 hours of fieldwork).

521 Leadership in Human Resource Development (5)
Prerequisites: EDAD 500, EDIT 430 or equivalent. Leadership skills in attracting, developing and instructing personnel (including 15 hours of fieldwork).

525 Leadership in Law and Finance (5)
Prerequisite: EDAD 500. Legal and financial issues related to diverse student populations and related school practices; cultural democracy emphasized (including 15 hours of fieldwork).

526 Principles and Practices of Leadership (3)
Prerequisites: Training in social sensitivity, behavior flexibility, interpersonal knowledge, and skills. Understanding of self and others; effects of leadership pertaining to school administration and supervision. Sensitivity training laboratory 4 hours weekly. Graded CR/NC. Credit awarded for only one of EDCI 526 and EDAD 526.

533 Legal Research in Educational Administration (3)
Prerequisite: Effects of laws, legal materials, judicial decisions on school operations. Techniques of legal research and its relation to school administration.
536 Special Seminar: Problems in School Administration (1-5)
Prerequisite: Administrative Services credential. Theoretical and practical aspects of special problems in school administration: specific topic announced in Schedule of Classes. Course does not meet credential requirements. May be repeated to maximum of 5 units.

539 Seminar: Leadership through Personnel & Contract Administration (3)
Prerequisites: Admission to EDAD Professional Credential Program: EDAD 509. Examination of the practices and procedures affecting employer-employee relationships in the collective bargaining process and contract administration.

543 Seminar: Advanced Fiscal Management (3)
Prerequisites: EDAD 539. Theory and practices of school business and facility management including accounting, purchasing, and supply management; evaluation, maintenance, and function of educational facilities and their interrelationships. Lecture (3 units) required; 10 hours of administrative-related field activities required.

545 Seminar: Technology for Instructional and Organizational Change (3)
Prerequisites: Admission to EDAD Professional Credential Program, computer literate and computer competent. Principles related to the management of information systems and instructional technologies for effective educational leadership.

548 Seminar: Supervision of Instructional Programs (3)
Prerequisite: Admission to EDAD program. Development of skills in educational supervision including observations, feedback, conferences, indirect supervision, time logging; review of research; effective staff development.

552 Seminar: Instructional and Organizational Change in Socio-Culturally Diverse Schools (3)
Prerequisite: Admission to EDAD Professional Credential Program. A hands-on approach to relevant organizational theories for creating change to meet the needs of socio-culturally diverse schools and communities.

570 School Leadership and Technology (5)
Prerequisites: EDAD 500, 505 or EDFN 553, 506, 515, 520, 521, 525; EDIT 430 or its equivalent. Functional knowledge about the selection of technology for school site use (15 hours of fieldwork).

581 Clinical Internship (3)
Prerequisites: EDAD 500, 505, 508, 516, 520, 521, 525. Administrative, supervisory and curricular experience at school or district levels. May not be repeated for credit.

582 Practicum: Field Work (3)
Prerequisites: Admission to EDAD Professional Credential Program; EDAD 594. Practical experience in applying principles, practices and procedures of school sites and district offices. May be repeated to maximum of 12 units for credit.

584 Field Work in Central Office Administration and Supervision (3)
Prerequisites: Admission to central office administration option, division approval. Intensive and extensive participation in general school administration; areas of emphasis determined in consultation with adviser. Graded CR/NC. May be repeated to maximum of 12 units for credit.

587 Internship in Educational Administration (3)
Prerequisites: Admission to internship program, approval of both division and school district. Participation in school administration and supervision in school district where student is employed; supervision by on-site administrator and university instructor; regular seminar sessions. Graded CR/NC. May be repeated to maximum of 12 units for credit.

590 Seminar: Reflection and Assessment (2)
Candidates present evidence and assessment of professional and academic growth maintained during program. (Graded CR/NC).

594 Seminar: Development of Induction Plan (3)
Prerequisite: Admission to EDAD Professional Credential Program. The candidate, University adviser and district mentor develop an individualized induction plan for the support and professional development of the beginning administrator.

595 Seminar: Candidate Assessment (3)
Prerequisite: Completion of induction plan. The candidate, the University adviser and the district mentor assess the induction plan for the candidate to be recommended for the Professional Administrative Services Credential.

597 Graduate Research (1-4)
Prerequisites: EDFN 500 or instructor consent to act as sponsor; division approval of project prior to registration. Independent research under guidance of faculty. May be repeated for credit. Graded CR/NC.

598 Graduate Directed Study (1-4)
Prerequisites: A B (3.0) grade point average in all graduate work in education, consent of division chair and of instructor to act as sponsor. Independent directed study of advanced topics in field; regular conferences with sponsor. May be repeated for credit.

599A, Thesis or Project Planning (3)
Prerequisites: EDFN 452 and 500, or EDFN 553, or COUN 529, advancement to candidacy, written approval of thesis chair. Prior to completion, student will have completed draft of thesis or project proposal, selected a thesis committee, and submitted draft of thesis or project proposal to thesis committee. Graded CR/NC.

599B, Thesis or Project (2)
Prerequisites: EDAD 599A, written approval of thesis committee chair. Prior to completion, student will have submitted a final draft to thesis or project proposal to thesis committee. Graded CR/NC.

599C, Thesis or Project (2)
Prerequisites: EDAD 599B, written approval of thesis committee chair. Completion of thesis of project under direct supervision of thesis committee. Graded CR/NC.
Courses in Educational Foundations (EDFN)

(Division of Educational Foundations and Interdivisional Studies)

400-Level Courses

All 400-level courses may be applied toward master's degree requirements except the following, subject to limits established by the division and approval of the graduate adviser:

Graduate Courses

Classified graduate standing is required for admission, except that postbaccalaureate students may enroll in 500-level courses that are required in a credential program.

500 Evaluation of Educational Research (4)
Criteria for evaluation of educational research; critical analysis of representative research reports. Survey of educational research methods, planning a research study, organization of a research report. Credit allowed for only one of EDFN 500, 509, and 553.

506 Comparative Education (4)
Prerequisite: EDFN 414. Selected foreign educational systems within context of their respective cultures. Particular attention to multilingual/multicultural and urban educational issues.

507 History of Education (4)
Prerequisite: Four units chosen from HIST 110ABC or 202AB. Historical analysis of current educational issues with particular attention to multilingual/multicultural and urban education problems.

508 Philosophy of Education (4)
Prerequisite: PHIL 151 or 152 recommended. Selected current philosophies of education and their applications to educative process. Particular attention to philosophical analysis of issues related to multilingual/multicultural and urban education.

510 Advanced Study: Learning Theory and Education (4)
Prerequisite: EDFN 413. Recent significant developments in learning theory with emphasis on classroom application.

520 Urban Education and Politics (4)
Urban power structure and its interaction with education.

525 Educational Sociology (4)
Prerequisite: EDFN 414. Application of insights of social sciences to education in areas of cultural anthropology, sociology, political theory, economics.

530 Advanced Study in Human Development (4)
Prerequisite: EDFN 413, or consent of the instructor. Recent significant contributions in human development research and theory; emphasis on the implications of human development for education.

531 Education of Potential Dropout Students (4)
Prerequisite: Teaching credential or consent of instructor. Identification of characteristics of students at risk of dropping out; review of related knowledge base for educators; introduction of competencies for teachers working with at-risk students, including evaluation of appropriate resource materials.

537 Educational Issues in Metropolitan Areas (4)
School issues in metropolitan areas as related to urbanization, socioeconomic stratification, racial and ethnic differences, desegregation and integration, community relationships, and control, school reform, federal and state aid, school personnel.

540 Bilingual Education Models: Theoretical Foundations (4)
Theoretical foundations for bilingual education models as established by national policy and empirical research and practices, including design, staffing, and assessment.

553 Educational Research and Decision Making (4)
Methods and tools of research and evaluation with implications for educational decision-making. Credit allowed for only one of EDFN 500, 509, and 553.

560 Theories of Teaching and Learning Second Languages (4)
Prerequisite: ENGL 401 or EDSP 408, or equivalent. Addresses major questions such as how first language acquisition compares with second, which affective/cultural variables have an impact on second language teaching/learning, and which teaching approaches are advantageous.

562 Methods for Teaching Second Languages I (4)
Prerequisite: EDFN 560. Current instructional methods for teaching second languages to students at beginning levels (kindergarten through adult).

563 Methods for Teaching Second Languages II (4)
Prerequisite: EDFN 562. Current instructional methods for teaching second languages to students at intermediate through advanced levels (kindergarten through adult), providing in-service training for content-area teachers, and materials selection and development.

564 Teaching English as a Second Language for Academic Purposes (4)
Prerequisites: EDFN 560, 562. Teaching techniques for preparing ESL students for university-level academic study.

566 English Phonetics for Second Language Teachers (4)
Prerequisites: ENGL 405, EDFN 562. The phonetics of English and the phonetic phenomena that occur in the major languages of ESL learners in the U.S. A detailed study of sounds of American English and other "Englishes."

567A Language Testing (4)
Prerequisites: EDFN 452 or 500, 560. Analysis of testing and evaluation in second language programs; emphasis on evaluating effectiveness of teacher-made tests and current standardized test instruments used for assessing language proficiency.

567B Current Issues in Language Testing (4)
Prerequisite: EDFN 567A. Current specialized issues in language testing. Designed to explore topics from both theoretical and practical perspectives. Specific topics vary according to trends in the field. May be repeated to a maximum of 8 units for credit, with prior approval of a TESOL adviser.

568 Field Work in English as a Second Language (4)
Prerequisite: EDFN 563. Supervised field experience in teaching English as a second language.

569 Language Planning and Language Policy (4)
Prerequisite: EDFN 560. Survey of approaches to ESL/EFL language planning and policy including language maintenance, shift and standardization in multilingual and multicultural communities in the U.S. and abroad.
570 Educational Sociolinguistics (4)
Prerequisite: EDFN 560. Influences of community, home, and school on language acquisition process. Language policy, social and linguistic change, language variations described; current status assessed; related cultural and pedagogical issues raised.

571 Seminar: Discourse Analysis in the Language Classroom (4)
Prerequisite: EDFN 560. A sociolinguistic analysis of interactional patterns, expectations, and communication strategies in the language classroom; emphasis on current studies with some direct experience in discourse analysis as a legitimate research method.

572 ESL/EFL Course, Syllabus and Materials Design (4)
Prerequisites: ENGL 401, EDFN 560, 562. Survey of approaches to ESL/EFL course and syllabus design including materials selection, adaptation, development, and evaluation.

573A Seminar: Issues in Classroom Second Language Acquisition (4)
Prerequisites: EDFN 452 or 500, 560. Current research as it illuminates the second language acquisition process in classrooms. May be repeated to a maximum of 8 units for credit, with prior approval of a TESOL Program adviser.

573B Current Issues in Second Language Research (4)
Prerequisite: EDFN 573A. Current specialized issues in second language research. Designed to explore topics from both theoretical and practical perspectives. Specific topics vary according to trends in the field. May be repeated to a maximum of 8 units for credit, with prior approval of a TESOL adviser.

574 Educational Psycholinguistics (4)
Prerequisite: EDFN 560. Survey of psycholinguistic research related to language learning and teaching. Addresses issues of comprehension, production, and acquisition. Related pedagogical issues are raised.

580 Field Work in Administration and Supervision of Bilingual/Crosscultural Program (3)
Prerequisite: Division approval. Administrative and supervisory experiences dealing with bilingual/crosscultural programs at school or district level. Graded CR/NC.

581 Bilingual/Crosscultural Advanced Field Work (2)
Prerequisites: Teaching credential, approval of bilingual/crosscultural advisory committee. Teaching in bilingual/crosscultural situations; demonstrating effective teaching techniques to teachers and parents; planning and conducting in-service meetings for teachers and paraprofessionals; critiques of existing programs; development of materials. Must be repeated to total of 4 units.

594 Selected Studies in Education (1-5)
Prerequisite: Consent of division chair. Intensive study of designated problems in education. May be repeated for credit as subject matter changes.

597 Graduate Research (1-4)
Prerequisites: EDFN 500 or 509, instructor consent to act as sponsor, division approval of project prior to registration. Independent research under guidance of faculty. May be repeated for credit. Graded CR/NC.

598 Graduate Directed Study (1-4)
Prerequisites: A B (3.0) grade point average in all graduate work in education, consent of division chair and of instructor to act as sponsor. Independent directed study of advanced topics in field; regular conferences with sponsor. May be repeated for credit.

599A Thesis or Project Planning (3)
Prerequisites: EDFN 452 or another advisor approved research course, and 500 or 553, advancement to candidacy, written approval of thesis chair. Prior to completion, student will have completed draft of thesis or project proposal, selected a thesis committee, and submitted draft of thesis or project proposal to thesis committee. Graded CR/NC.

599B Thesis or Project (2)
Prerequisites: EDFN 599A, written approval of thesis committee chair. Prior to completion, student will have submitted a final draft of thesis or project proposal to thesis committee. Graded CR/NC.

599C Thesis or Project (2)
Prerequisites: EDFN 599B, written approval of thesis committee chair. Completion of thesis or project under direct supervision of thesis committee. Graded CR/NC

Courses in Elementary Education (EDEL)

400-Level Courses

All 400-level courses may be applied toward master’s degree requirements except the following: subject to limits established by the division and approval of the graduate adviser: EDEL 400-404, 465

Graduate Courses

Classified graduate standing is required for admission, except that postbaccalaureate students may enroll in 500-level courses that are required for a credential program.

531-551 Seminars: Research in Teaching Elementary School Subjects (4 each)
Prerequisites: EDFN 500, teaching experience. Analysis of research on instruction and learning; application of implications of research to the solution of classroom problems. An action research project, including an extensive review of the literature, is required.

531 Mathematics
541 Social Studies
525 Reading/Language Arts Across the Curriculum (4)
Prerequisites: EDEL 400 or equivalent, teaching experience. Investigation of comprehensive reading/language arts instruction research base and applications. Literature-based action research project across the curriculum.

535 Seminar: Assessment Strategies in Mathematics (4)
Prerequisites: EDEL 431, teaching credential, teaching experience. Analysis of and practice in the use of assessment models that focus on mathematical thinking.

560 Design and Management of Early Childhood Public Educational Programs (4)
Prerequisites: EDEL 461, 462, EDFN 530, CHDV 422. Design and management of early childhood public educational programs; leadership, goals, budget, accountability, differentiated staffing, management, proposal writing, articulation.
563 Seminar: Issues and Trends in Early Childhood Education (4)
Prerequisites: EDFN 503, completion of or concurrent enrollment in last quarter of Early Childhood Specialist instructional credential or M.A. degree in Child Development, teaching experience with young children. Persistent problems in early childhood education; review of literature concerning problems in early childhood education programs.

580 Computer Applications for Teaching Mathematics and Science (2)
Prerequisite: EDIT 481 or EDEL 480. Development of criteria for selecting courseware and strategies for using it in the teaching of mathematics and science in elementary and middle schools.

581 Microcomputer Applications in Reading and Language Arts (2)
Prerequisite: EDEL 400 or EDIT 452 or 456 or EDSE 423. Evaluation of microcomputer software applications in reading and the language arts.

589 Seminar: Elementary Education (4)
Prerequisite: Completion of or concurrent enrollment in last 10 units for M.A. degree in Education: Elementary Teaching option. Identification and analysis of problems and trends in urban elementary education.

590 Discipline and Classroom Management (4)
Analysis of class behavior and techniques for changing behavior in problem situations; implications of current theory and research for classroom management.

594 Selected Studies in Elementary Education (1-4)
Prerequisite: Consent of division chair. Intensive study of designated problems in elementary education. May be repeated for credit as subject matter changes.

595 Advanced Field Work: Early Childhood Specialist Instructional Credential (5)
Prerequisites: EDEL 560, teaching credential, formal admission to Early Childhood Specialist instructional credential program. Specialized fieldwork assigned on individual basis. Scheduled fieldwork; tutorial session required. Graded CR/NC.

597 Graduate Research (1-4)
Prerequisites: EDFN 500 or 509, instructor consent to act as sponsor, division approval of project prior to registration. Independent research under guidance of faculty. May be repeated for credit. Graded CR/NC.

598 Graduate Directed Study (1-4)
Prerequisites: A B (3.0) grade point average in all graduate work in education, consent of division chair and of instructor to act as sponsor. Independent directed study of advanced topics in field; regular conferences with sponsor. May be repeated to a maximum of 12 units for credit.

Courses in Higher Education (EDHI)

561 Seminar: Supervision in College and University Teaching (4)
Prerequisite: Post-master’s degree standing. Review of research and practices in higher education supervision of students; discussion of college/university student field and laboratory teaching assignments and evaluation.

612 Program Proposal, Development, and Evaluation in Higher Education (4)
Prerequisite: Post-master’s degree standing. Procedures for needs assessment, development, evaluation of special programs/projects; development of proposals and grant applications.

Courses in Instructional Technology (EDIT)

400-Level Courses
All 400-level courses may be applied toward master’s degree requirements, subject to limits established by the division and approval of the graduate adviser.

Graduate Courses
 Classified graduate standing is required for admission, except that postbaccalaureate students may enroll in 500-level courses that are required for a credential program.

525 Instructional Materials in Secondary Schools: Computer Software (4)
Prerequisite: EDIT 430. Analysis of computer software relating to teaching of secondary school subjects.

530 Multi-Image Design and Production (4)
Prerequisite: EDIT 451. Multi-image communication programming technology. Theory, research and practice in design and production of multi-image slide presentations including graphics, photography and microprocessor programming for educators and trainers. Lecture 3 hours, laboratory 2 hours.

540 Instructional Graphics Design and Production (4)

550 Instructional Applications of Interactive Video (4)
Prerequisites: EDIT 430 or 451 and 484 or permission of the instructor. Analysis and application of instructional interactive video-based materials and development of videodisc-based materials for instructional purposes. Lecture 3 hours, laboratory 2 hours.

551 Advanced Multimedia Design and Production (3)
Prerequisite: EDIT 557. Capabilities, appropriate uses, design process, and production techniques of multimedia and computer-assisted interactive videodisc (CAIV) instruction. Survey existing multimedia software. Adapt and repurpose existing multimedia and videodisc resources. Lecture 3 hours, laboratory 2 hours.

552 Instructional Media Design (4)
Prerequisite: EDIT 451. Screen display strategies, human factors, presentation parameters, text and graphic integration for film, print, video, and computer-based media. Systematic approach to diagnosis, prescription and design of instruction. Lecture 3 hours, laboratory 2 hours.
553  Administration of Instructional Media Services (4)
Prerequisite: EDIT 451. Consulting skills needed by instructional designers in an organization; working with subject matter experts, developing an effective relationship, conducting a needs analysis, involving the client, managing and evaluating the media project.

554  Video Technology in Education (4)
Prerequisite: EDIT 451. Educational value and utilization of video technology in instructional settings; review and application of research; exploration of future uses of the medium.

555  Seminar: Simulation and Gaming (3)
Prerequisite: EDIT 451, 453. Analysis of instructional design, techniques, and procedures in developing and producing computer-based games and simulations; development and evaluation, current research and theory. Lecture 3 hours, laboratory 2 hours.

556  Role of the Computer Specialist in Education (4)
Prerequisite: EDIT 430. Running a computer laboratory in a school: evaluating, selecting, and maintaining software libraries and hardware. Computer-based education systems that assist teachers in integrating computers into their curricula.

557  Computer Assisted and Managed Instruction (4)
Prerequisites: EDIT 430, 456, 482. Fundamentals of information systems, data processing systems, and current research for the design, development, and implementation of computer-assisted and managed instruction. Lecture 3 hours, laboratory 2 hours.

559  Advanced Instructional Television Design and Production (4)
Prerequisite: EDIT 451. Instructional design of educational TV/video; studio production techniques; educational research on video production; future of educational TV/video; teleconferencing and editing techniques. Lecture 3 hours, laboratory 2 hours.

560  Telecommunications in Education (4)
Prerequisite: EDIT 430. Survey of telecommunications hardware, software, curriculum materials, school-based projects and research in educational applications of telecommunications.

570  Research in Instructional Technology (4)
Prerequisites: EDFN 500; EDIT 430. Analysis of research in instructional technology. An action research project, including an extensive review of the literature, is required.

580  Applied Experience in Instructional Technology (4)
Prerequisites: Advancement to candidacy in MA in Education: Option in Instructional Technology or Computer Education. Examination of several instructional technology field settings. Supervised practicum with instructional technology manager.

594  Selected Studies in Instructional Technology (1-4)
Prerequisites: Consent of division chair; appropriate prerequisite. Advanced specialized topics involving instructional technology. May be repeated for credit as subject matter changes.

400-Level Courses
All 400-level courses may be applied toward master’s degree requirements except the following, subject to limits established by the division and approval of the graduate adviser. EDSE 401, 421, 441, 442AB.

Graduate Courses
Classified graduate standing is required for admission, except that postbaccalaureate students may enroll in 500-level courses that are required for a credential program.

500  Introductory Seminar: Reflections on Teaching (4)
Inquiry into theories and principles guiding classroom practice in middle and secondary schools. Addresses instructional problems and issues as well as methods for their investigation and solution.

520  Evaluation of Teaching Competencies in metropolitan schools (4)
Prerequisite: Two or more years of teaching experience. Emphasis on identification of teaching competencies of prospective and practicing teachers, procedures for assessment and improvement of competencies, and program implications for pre-service and in-service education of metropolitan teachers.

521  Teaching Effectiveness: Research and Application (4)
Prerequisites: EDFN 500; at least one year of teaching experience. Analysis of teaching effectiveness, review of research application of research findings to classroom instruction, and evaluation of instruction.

523  Current Procedures and Materials in Teaching Secondary School Subjects in Metropolitan Community (4 each)
Prerequisites: EDSE 421, teaching experience. Analysis and evaluation of current problems and trends in teaching secondary school subject fields; review and interpretation of current research; investigation of new materials and approaches.

523B  Business Communication
  Prerequisite: MGMT 301

523B  Social Studies

524  Instructional Materials in Secondary Schools (4)
Prerequisite: Teaching credential. Survey, analysis, and utilization of secondary instructional materials for English, foreign languages, mathematics, natural and social sciences, and other secondary school subjects. Students may focus on a specific credential subject.

539  Teaching in Multicultural Middle and Secondary Classrooms (4)
Examines research-based strategies for designing, implementing and evaluating culturally-sensitive, learner-centered curriculum and instruction in multicultural/multiethnic middle and secondary classrooms.

591  Problems of Metropolitan Secondary School Students (4)
Prerequisites: Secondary credential, secondary teaching experience. Consideration of typical and special problems of adolescents, with emphasis on their perception of such problems; investigation of selected aspects of adolescent attitudes, interests, and behavior.

Courses in Secondary Education (EDSE)
(Division of Curriculum and Instruction)
594 Selected Studies in Secondary Education (1-4)
Prerequisite: Consent of division chair. Intensive study of designated problems in secondary education. May be repeated for a maximum of 12 units for credit as subject matter changes.

595 Seminar: Metropolitan Secondary Education (4)
Prerequisite: Instructor consent or completion of or concurrent enrollment in final units of program for Master of Arts degree: Option in Secondary Teaching. Identification and analysis of persistent problems as they affect metropolitan secondary education.

596 Comprehensive Examination (3, 4)
The comprehensive examination for the Master of Arts degree in Education with an option in Middle and Secondary Curriculum and Instruction will require candidates to engage in extended inquiry by completing an interlocking set of structured activities such as field research, teacher research, literature reviews, grant writing, and program development. Candidates electing to take these comprehensive exams will be monitored and guided over two quarters while they are enrolled in EDSE 596.

597 Graduate Research (1-4)
Prerequisites: EDFN 500 or 509, instructor consent to act as sponsor, division approval of project prior to registration. Independent research under guidance of faculty. May be repeated to a maximum of 12 units for credit. Graded CR/NC.

598 Graduate Directed Study (1-4)
Prerequisites: A B (3.0) grade point average in all graduate work in education, consent of division chair and of instructor to act as sponsor. Independent directed study of advanced topics in field; regular conferences with sponsor. May be repeated to a maximum of 12 units for credit.

Courses in Special Education (EDSP)
(Division of Special Education)

400-Level Courses
All 400-level courses may be applied toward master's degree requirements except the following, subject to limits established by the division and approval of the graduate adviser: EDSP 403, 407, 489

Graduate Courses

500 Research Methods in Special Education (4)
Prerequisite: EDSP 400. Study of research relating to psychological and educational problems of exceptional children, introduction to methodological problems in developing, conducting, and reporting research in special education.

501 Problems and Practices in Special Education (4)
Prerequisite: EDSP 400. Problems of organization, administration, and supervision of special education programs; evaluation of recent proposed needed legislation; review of current literature for advanced students and administrators.

502 Educational Measurements in Special Education (4)
Prerequisites: EDFN 409, EDSP 400, basic courses in student's special field. Interpretation and use of test and other measurements for study of the exceptional child. May not be substituted for the credential requirement of administration of individual psychological tests.

503 Field Work in Special Education (3-6)
Prerequisite: Consent of division chair. Supervised field training in problems relating to instruction, supervision, administration, evaluation, and guidance of exceptional individuals. Special assignments in schools, diagnostic centers, rehabilitation centers or community agencies. May be repeated to maximum of 9 units.

504 Selected Studies in Special Education (3-5)
Prerequisite: EDSP 400. Intensive study of designated problems in special education. May be repeated for credit as subject matter changes.

505 Sexuality and Sex Education of Exceptional Individuals (4)
Investigation and comparison of sex behavior in normal and exceptional individuals including orthopedically, visually, hearing, and learning disabled; sexuality, social development and family life education of the exceptional. Graded CR/NC.

506 Education and Psychology of Handicapped Adolescents and Young Adults (4)
Prerequisites: EDSP 400, PSY 412B. Current issues and problems in education and treatment of handicapped adolescents and young adults emphasizing etiology, services, relevant education approaches, and interpersonal relationships.

508 Computer Applications in Special Education (4)
Prerequisites: EDIT 452, EDSP 403. Microcomputer technology compatible with curriculum and data management strategies for exceptional individuals; hardware and software, modifications; examination of relevant research.

510 Resource Specialist in Special Education (2)
Prerequisites: Graduate standing and/or current enrollment in special education credential or school psychology program. Problems of serving individuals with exceptional needs in regular school program; advanced skills that enhance remedial process in special education; consultation, coordination of services for exceptional pupils.

511 Seminar: Issues and Strategies for Multicultural Special Education Students (4)
Prerequisites: EDSP 402; 408 or COMD 455. Special education for multicultural/bilingual exceptional students, issues in nondiscriminatory assessment, instructional strategies for multicultural/bilingual special education students.

512 Building Partnerships in Special Education (2)
Prerequisite: EDSP 400. Theory and methods of communication and collaboration with students, families, school and community personnel. Role of culture in communication, collaboration. Issues and concerns related to building partnerships.

513 Student Behavior and Social Interaction Skills: Support and Intervention for Individuals with Exceptional Needs (3)
Prerequisites: EDSP 400, 409. Principles and application of behavioral support and intervention for successful classroom learning and social interaction skills for individuals with exceptional needs. Facilitation of appropriate social behavior in diverse settings.

514 Assessment of Infants and Young Children with Special Needs (4)
Prerequisites: EDSP 408, 416. Assessment and educational planning for infants and young children at risk and those with dis-
abilities, including standardized, team-based, authentic, and play-based approaches.

515 Planning Programs for Exceptional Infants and Young Children (4)
Prerequisites: EDSP 415, 416. A study of research and issues related to assessment, planning, and implementation (intervention) of services for at-risk and exceptional infants and young children.

516 Medical and Behavioral Characteristics of Young Infants with Special Needs (4)
Characteristics of the high-risk infant in the Neonatal Intensive Care Unit and after hospital discharge; characteristics of infants with identified disabilities; assessment and intervention strategies.

517 Advanced Issues in Early Childhood Special Education (4)
Prerequisites: EDSP 514, 515, 516. Current research and practices related to program development, intervention methods and parent-professional relationships in early childhood special education.

540 Affective Development of Exceptional Individuals (4)
Prerequisite: EDSP 400. Relationship of affective factors, e.g., receiving, responding, valuing, self-concept of learner and teacher, to cognitive growth of exceptional individual. Emphasis on affective area applicable to all exceptionalities, as approached through current research related to exceptional individuals.

541 Advanced Studies in Gifted Education (4)
Prerequisite: EDSP 441. Exploration of issues, research trends, and current practices for gifted individuals in educational programs.

550 Teaching Students with Mild to Severe Disabilities: Academic Skills (4)
Prerequisites: EDSP 409, 513; EDEL 400, 401. Teaching students with mild to severe disabilities in elementary and secondary settings. Focus on language arts, literacy, communication, mathematics, critical thinking.

551 Teaching Students with Mild to Severe Disabilities: Social Competence (4)
Prerequisite: EDSP 550. Methods for teaching students social competence, personal care and mobility skills, and the skills necessary to achieve successful transition from school to adulthood.

554 Educating Individuals with Serious Emotional Disturbances (4)
Prerequisites: EDSP 550, instructor consent. Educational management and instruction of individuals with serious emotional disturbances; emphasis on identification, assessment, educational planning, and delivery of educational services, in public and private educational settings, to individuals with serious emotional disturbances.

555 Advanced Issues in Mild/Moderate Disabilities (4)
Prerequisite: EDSP 551. Identification and analysis of current issues relating to education of individuals with mild to moderate disabilities including specific learning disabilities, mental retardation, and behavior disorders.

556 Research in Mild/Moderate Disabilities (4)
Prerequisite: EDSP 555. Intensive investigation of several research bases concerning topics relevant to the education of mild to moderate disabilities.

560 Seminar: Education of Individuals with Physical Disabilities (4)
Prerequisite: EDSP 462. Identification and analysis of problems and current issues relating to the education of individuals with physical disabilities and those with multiple disabilities; review of research on specific disabilities.

565 Advanced Problems in Education of Visually Handicapped (4)
Prerequisite: Completion of requirements for credential for teaching visually handicapped. (May be taken concurrently with EDSP 407.) Identification and analysis of problems and current issues relating to education of visually handicapped; review of recent research specifically related to visual impairment and its application to educational practice.

567 Academic Skills for Individuals with Visual Impairment and Blindness (4)
Prerequisites or concurrent enrollment: EDSP 409,466. Assessments, methods, and strategies related to the teaching of academic skills to individuals with visual impairment and blindness. Specialized curriculum, adaptive materials, aids, and media. Braille reading and writing proficiency.

568 Functional Skills for Exceptional Individuals (4)
Prerequisites or concurrent enrollment: EDSP 409, 567 or approval of instructor. Assessment, intervention, and issues related to adaptive living skills, orientation and mobility basics, and concept development related to individuals with visual impairment including special populations (infants/toddler, individuals with additional disabilities).

575A Advanced Seminar in Orientation and Mobility (5)
Prerequisite: C or better in EDSP 475, instructor consent. Advanced seminar in orientation and mobility issues, systems and processes. (Seminar 1 hour)

575B Advanced Clinical Practice in Orientation and Mobility (5)
Prerequisite: EDSP 476A&B, instructor consent. Prerequisite or corequisite: EDSP 575A. Advanced clinical training in orientation and mobility processes and application of methods, materials, and individualized instructional units in meeting the needs of individuals who are blind and visually impaired. (Laboratory 12 hours)

576A Orientation and Mobility: Seminar in Multiple Disabilities (4)
Prerequisites: EDSP 476A&B, instructor consent. Seminar in strategies for teaching orientation and mobility to visually impaired individuals with multiple disabilities. Seminar emphasizes the modification of typical instructional strategies and techniques, and use of adaptive devices. (Seminar 2 hours)

576B Clinical Practice in Orientation and Mobility: Emphasis Multiple Disabilities (2)
Prerequisites: EDSP 476 A&B, instructor consent. Prerequisite or corequisite: EDSP 576A. Clinical practice in teaching orientation and mobility to visually impaired individuals with multiple disabilities, emphasizing modification of typical instructional strategies and techniques, and use of adaptive devices. Field practicum 6 hours. (Laboratory 4-6 hours)
580 Biomedical Aspects of Mental Retardation (4)
Prerequisite: PSY 406. Etiological and developmental aspects of mental retardation from biological and medical points of view.

581 Transition Planning for Secondary Students with Disabilities (4)
Principles and issues of transition planning for secondary students with disabilities in postsecondary education, independent living, leisure and recreation, and community living; needs assessment in curriculum; instructional strategies; collaboration among family and professionals.

582 Advanced Issues in the Education of Students with Moderate to Severe Disabilities (4)
Prerequisite: EDSP 551. Issues and research relevant to current practices in education of students with moderate to severe disabilities.

584 Advanced Issues and Research in Transition (4)
Prerequisites: EDSP 550, 551, 581. Issues and research relevant to current practices in transition services of individuals with disabilities.

585 Organization and Administration of Special Education Programs (4)
Prerequisite: Consent of divisions of Special Education and Administration and Counseling. Planning and financing special education programs. Organization of local, state, federal, and private agencies related to education of exceptional children.

597 Graduate Research (1-4)
Prerequisites: EDFN 500 or 509, instructor consent to act as sponsor, division approval of project prior to registration. Independent research under guidance of faculty. May be repeated for credit. Graded CR/NC.

598 Graduate Directed Study (1-4)
Prerequisites: A B (3.0) grade point average in all graduate work in education, consent of division chair and instructor to act as sponsor. Independent directed study of advanced topics in field; regular conferences with sponsor. May be repeated for credit.

599A Thesis or Project Planning (3)
Prerequisites: EDFN 452 and 500 or EDSP 500, advancement to candidacy, written approval of thesis chair. Prior to completion, students will have completed draft of thesis or project proposal, selected a thesis committee, and submitted a draft of thesis or project proposal to thesis committee. Graded CR/NC.

599B Thesis or Project (2)
Prerequisites: EDSP 599A, written approval of thesis committee chair. Prior to completion, students will have submitted a final draft of thesis or project proposal to thesis committee. Graded CR/NC.

599C Thesis or Project (2)
Prerequisites: EDSP 599, written approval of thesis committee chair. Completion of thesis or project under direct supervision of thesis committee. Graded CR/NC.

Doctoral Courses

600 Seminar: Research in Special Education (4)
Prerequisite: Post-master's degree standing or permission of instructor, adviser, and division chair. Research in special education; development of skills for analysis and synthesis of research in special education, critical analysis of research in special education, and development of professional writing style.

602 Practicum: Program Development and Evaluation (1-3)
Prerequisite: Post-master's degree standing. Development of proposals and grant applications for submission to federal, state, and private agencies for research, training, and public school program funding. May be repeated for credit.

604 Legal and Policy Issues in Special Education (4)
Prerequisite: Post-master's degree standing or permission of instructor, adviser, and division chair. Current legal, policy, and leadership issues at an advanced level in special education. Review of important laws, court cases, policy documents, and legal procedures.

615 Research Seminar in Early Childhood Special Education (4)
Prerequisite: Post-master's degree standing. Research seminar about early childhood special education issues including emphasis on current research, theory and practice; research and evaluation of program models; intervention methods.

620 Seminar: Low Incidence Disabilities (4)
Prerequisite: Permission of instructor, adviser, and division chair. Theories and research related to infants, toddlers, children and youth with low incidence disabilities including deafness, visual impairments, and severe physical impairments.

640 Research in Education of Gifted (4)
Prerequisites: EDSP 400, 440. Intensive study of current research about gifted, talented, and creative; factors in intellectual development; experimental school programs.

650 Research Seminar: Adolescents and Adults with Disabilities (4)
Prerequisite: Post-master's degree standing. Research seminar about early childhood special education issues including emphasis on current research, theory and practice; research and evaluation of program models; intervention methods.

660 Seminar: Learning Disabilities and Behavior Disorders (4)
Prerequisites: Post-master's degree standing or permission of instructor, adviser, and division chair. Research, theory, and policy related to educating individuals with learning disabilities or behavior disorders; issue related to identification, placement, and intervention.

680 Seminar: Moderate to Severe Disabilities (4)
Prerequisite: Post-master's degree standing or permission of instructor, adviser and division chair. Medical research, public policy, social adjustment and integration research, program development, evaluation, design, and other current issues.

698 Graduate Directed Study (1-8)
Prerequisite: Consent of an instructor to act as sponsor. Independent directed study of advanced topics in field; regular conferences with sponsor. May be repeated for credit.

699 Doctoral Dissertation (4-8)
Prerequisites: Advancement to candidacy for Ph.D. degree, consent of an instructor to act as sponsor, division approval of topic prior to registration. Continuous enrollment required while student is working on dissertation.

GRADUATE PROGRAMS

Degrees Offered

The school offers graduate programs leading to master's degrees in the following five fields.

- Master of Science degree in Civil Engineering
- Master of Science degree in Electrical Engineering
- Master of Science degree in Mechanical Engineering
- Master of Arts degree in Industrial and Technical Studies

Admission to Engineering Programs

In addition to University requirements for admission to graduate study, applicants must possess the equivalent of the Bachelor of Science degree currently specified by Cal State L.A. for the field of engineering in which they wish to specialize and a 2.75 grade point average in the last 90 quarter units attempted in the undergraduate program. Applicants who do not meet the above admission requirements may be admitted at the discretion of the department in which the proposed graduate degree is offered. Applicants who earned less than a 2.5 grade point average in the last 90 units attempted in undergraduate status will not be admitted to a master's degree program in engineering without clear and compelling evidence of current capacity for satisfactory performance in such a program.

Consultation with a department graduate adviser is required before any courses are attempted, to determine if deficiencies exist in undergraduate preparation. Students should provide transcripts of all undergraduate work, which will be retained by the adviser. MATH 402A, entitled Advanced Mathematics for Engineers and Physicists I, is required for all graduate programs in engineering if not previously completed.

TECHNOLOGY

The Department of Technology offers a Master of Arts degree in Industrial and Technical Studies.

In addition to the graduate degree programs, the Department of Technology also offers a credit certificate program in Electronics Technology. This program is described in the undergraduate School of Engineering and Technology chapter. General regulations governing all credit certificate programs are included in the Undergraduate Study and Graduate and Postbaccalaureate Study chapters.
Master of Science Degree in Civil Engineering

Requirements for the Degree (45 units)

A total of 45 units is required, with at least 24 in 500-level courses. A thesis or comprehensive examination is required.

The advice and approval of a civil engineering graduate adviser must be obtained before enrolling in any course.

Area of Specialization (24-37 units)

Select a minimum of 24 units in 500-level engineering courses. At least 20 units must be in civil engineering courses from the following list, must be in a coherent group of courses that fulfills the students objectives, and must have the approval of adviser and department chair.

CE 560 Structural Mechanics III (4)
CE 561 Advanced Steel Design (4)
CE 562 Reinforced Concrete Design II (4)
CE 563 Matrix Computer Analysis of Structures (4)
CE 564 Numerical Methods in Structural Analysis (4)
CE 565 Dynamics of Structures (4)
CE 566 Soil Mechanics II (4)
CE 567 Foundations II (4)
CE 569 Earth Structures (4)
CE 570 Soil Dynamics (4)
CE 571 Highway Design (4)
CE 572 Plates and Shells (4)
CE 573 Highway and Airport Pavement Design (4)
CE 574 Traffic Flow Analysis (4)
CE 575 Urban Transportation Planning (4)
CE 577 Bridge Engineering (4)
CE 581 Modeling Techniques in Hydraulic Engineering (4)
CE 582 Statistical Hydrology (4)
CE 583 Hydrology II (4)
CE 586 Open Channel Hydraulics (4)
CE 587 Hydraulics II (4)
CE 588 Hydraulic Structures (4)
CE 589 Coastal Engineering (4)
ME 502 Theory of Elasticity (4)

Electives in Engineering (0-13 units)

Select from 400- and 500-level courses.

Electives in Related Fields (8-21 units)

Select a minimum of 8 units, other than in civil engineering, related to program. These will usually be in mathematics. MATH 402A (4 units) must be included in these electives unless already completed.

Comprehensive Examination or Thesis (0, 4 units)

ENGR 596 Comprehensive Examination (0) or
ENGR 599 Thesis (4)

Students who select the comprehensive examination (ENGR 596) should expect to take it the quarter they complete all course work on their program, and must comply with school and departmental requirements.
School of Engineering and Technology

DEPARTMENT OFFICE
Engineering and Technology A316
Phone: (213) 343-4470

Master of Science Degree in Electrical Engineering

Requirements for the Degree (45 units)

Area of Specialization (24-37 units)
Select a minimum of 24 units in 500-level engineering courses; at least 16 units must be selected from the following electrical engineering courses.

- EE 520 Advanced Digital Communications I (4)
- EE 521 Advanced Digital Communications II (4)
- EE 522 Principles of Signal Compression (4)
- EE 530 Linear Systems Analysis (4)
- EE 533 Computer Methods in Power Systems (4)
- EE 534 Power Systems Stability (4)
- EE 536ABC Solid State Electronics I, II, III (4, 4, 4)
- EE 544 Digital Systems Design (4)
- EE 547AB Computer Architecture (4, 4)
- EE 561 Stochastic Systems and Estimation (4)
- EE 562 Advanced Digital Control Systems (4)
- EE 563 Optimal Control Theory (4)

Electives in Engineering (0-13 units of 400 or 500-level courses)

Elective in related fields (4 units)
MATH 402A (4 units) must be included in these electives unless already completed.

Typical courses are:
MATH 402B, 474, 580
PHYS 426AB, 510AB
CS 440, 442, 432, 450, 460, 488

Comprehensive Examination or Thesis (0-4 units)
ENGR 596 Comprehensive Examination (0) of
ENGR 599 Thesis (4)

Students who select the comprehensive examination (ENGR 596) should expect to take it in the quarter they complete all course work on their program, and must comply with school and departmental requirements.

MECHANICAL ENGINEERING

School of Engineering and Technology

DEPARTMENT OFFICE
Engineering and Technology A205
Phone: (213) 343-4490

Master of Science Degree in Mechanical Engineering

Requirements for the Degree  (45 units)
A total of 45 units is required, with at least 24 in 500-level courses. A thesis or comprehensive examination is required.

The advice and approval of the mechanical engineering graduate adviser must be obtained before enrolling in any course. MATH 402A is required of all students who have not already completed this or a comparable course.

Area of Specialization  (2445 units)

Students must choose in advance a group of courses that fulfills their objectives. Approval of adviser and department chair is required. Suggested groupings of courses that cover programs in thermo-fluid systems design and mechanical systems design are available from the department office.

Select a minimum of 24 units in 500-level engineering courses; at least 16 units must be selected from following list of mechanical engineering courses:

- ME 501A Advanced Mechanics of Particles (4)
- ME 501B Advanced Mechanics of Rigid Bodies (4)
- ME 502 Theory of Elasticity (4)
- ME 503 Design of Mechanical Systems and Products (4)
- ME 504 Thermal Radiation (4)
- ME 505 Heat Conduction (4)
- ME 506 Heat Convection (4)
- ME 508 Compressible Fluids (4)
- ME 509 Viscous Fluids and Boundary Layer Theory (4)
- ME 511 Vibration Analysis II (4)
- ME 512 Advanced Topics in Thermodynamics (4)
- ME 521 Dynamic Systems Analysis (4)
- ME 522 Optimal Control of Mechanical Systems (4)
- ME 525 Process Mass and Heat Transfer (4)
- ME 528 Metalforming Science and Applications (4)
- ME 529 Machining Science and Applications (4)

Electives  (0-27 units)

Select from 400 and 500-level courses in engineering or related fields, with adviser approval.

Comprehensive Examination or Thesis  (0, 4 units)

ENGR 596 Comprehensive Examination (0) or
ENGR 599 Thesis (4)

Students who select the comprehensive examination (ENGR 596) should expect to take it the quarter they complete all course work on their program, and must comply with school and department requirements.

Certificate Program in Manufacturing

This certificate program in Manufacturing is designed to provide high quality, up-to-date, scientific, and practical knowledge of manufacturing processes, modern materials, automatic control, automated manufacturing, and robotics.

A baccalaureate degree in mechanical engineering, manufacturing engineering or in an allied field (physics, chemistry, mathematics) is required for admission to the program. A minimum of 27 units (including at least one elective laboratory) is required to complete the certificate program with a minimum grade point average of 3.0. At least one course has to be taken from each of the three designated areas below in an area of specialization. Most courses require prerequisites taken previously either as a part of the B.S. degree or in preparation for this certificate program. Refer to the Graduate Study chapter of this catalog for general regulations governing all certificate programs.

Requirements for the Certificate  (minimum of 27 units)

Areas of Specialization

Manufacturing and Automation

- ME 327 Manufacturing Processes (4)
- ME 428 Automation and Computer-Aided Manufacturing (4)
- ME 528 Metalforming Science and Applications (4)
- ME 529 Machining Science and Applications (4)
- TECH 465 Automated Metal Machining (3)

Control and Robotics

- ME 410 Control of Mechanical Systems (4)
- ME 481 Introduction to Robotics (4)
- ME 491 Robotics Laboratory (1)
- ME 521 Dynamic Systems Analysis (4)
- ME 522 Optimal Control of Mechanical Systems (4)

Materials and Metallurgy

- ENGR 207 Materials Science and Engineering (4)
- ME 328 Introduction to Metallurgy (4)
- ME 329 Metallography Laboratory (1)
TECHNOLOGY

School of Engineering and Technology

DEPARTMENT OFFICE
Engineering and Technology A341
Phone: (213) 343-4550

The Department of Technology offers a Master of Arts degree in Industrial and Technical Studies.

The department also offers a graduate program in industrial and technical studies to further develop leadership skills for business, industry, and teaching, and to meet credential requirements. Graduate degree programs are described in the Graduate Programs section.

Master of Arts Degree in Industrial and Technical Studies

This program is designed to increase the effectiveness of industry professionals and industrial arts teachers in their professional service area by allowing specialization in two of three areas of interest, as follows:

- Teaching: emphasizes advanced subject matter content.
- Supervision: emphasizes supervision, mainly department level.

Admission to the Program

In addition to University requirements for admission to graduate study, applicants must have a baccalaureate in a related field with combined course work and industrial experience acceptable to the department.

Requirements for the Degree (45 units)

A total of 45 units is required, with at least 23 in 500-level courses.

Required Courses (13 units)

Areas of Interest (20-24 units)

Select two of the following areas and complete 10-12 units in each:

Teaching (10-12 units)

With adviser approval, complete TECH 506 (4 units), TECH 583 (4 units), and 2-4 units of technology or education courses to total 10-12 units.

Technical (10-12 units)

With adviser approval, complete 10-12 units in 400-level TECH courses; TECH 598 may be included for 3-6 units.

Supervision (10-12 units)

With adviser approval, complete TECH 486 (3 units), TECH 505 (4 units), and 3-5 units of technology, business, or education courses to total 10-12 units; may include second enrollment in TECH 486.

Additional Electives (select 3-7 units in technology and related fields with adviser approval)

Thesis or Project (5 units)

TECH 599AB Thesis or Project (2, 3)

Credit Certificate Programs

The Department of Technology offers several credit certificate programs which are open to all students who meet stated prerequisites. These programs are listed with the departments bachelor’s degree curricula in the Undergraduate Programs section of this catalog. Regulations governing all certificate programs are found in the Undergraduate Study and the Graduate and Postbaccalaureate Study chapters.
COURSES IN ENGINEERING AN TECHNOLOGY

Courses in Engineering (ENGR)

400-level Courses

All 400-level courses may be applied toward master’s degree requirements, subject to limits established by the department and approval of the graduate adviser.

Graduate Courses

Classified graduate standing is required for admission.

597 Graduate Research (1-5)
Prerequisites: Instructor consent to act as sponsor, departmental approval of project prior to registration. Independent research under guidance of the faculty. May be repeated for credit to maximum of 5 units. Graded CR/NC.

598 Graduate Directed Study (1-4)
Prerequisite: Instructor consent to act as sponsor. Independent, directed study of advanced topics in the field, regular conferences with the sponsor. May be repeated for credit.

599 Thesis (1-4)
Prerequisites: Advancement to candidacy, instructor consent to act as sponsor, school approval of the topic prior to registration. Independent research resulting in a thesis. Must be repeated to maximum of 4 units. Graded CR/NC.

Courses in Civil Engineering (CE)

400-level Courses

All 400-level courses may be applied toward master’s degree requirements, subject to limits established by the department and approval of the graduate adviser.

Graduate Courses

Classified graduate standing is required for admission.

560 Structural Mechanics III (4)
Prerequisite: CE 460. Column analogy, moment distribution applied to nonprismatic members, elastic energy method applied to arches and curved members, influence lines for indeterminate structures and secondary stresses.

561 Advanced Steel Design (4)

562 Reinforced Concrete Design II (4)

563 Matrix Computer Analysis of Structures (4)
Prerequisite: CE 460. Matrix methods applied to statically determinate and indeterminate structures, flexibility and stiffness methods, digital computer applications.

564 Numerical Methods in Structural Analysis (4)
Prerequisite: CE 460 or 402. Finite difference and finite-element methods for structures; free and forced vibrations; bending, buckling of beams and plates; special applications.

565 Dynamics of Structures (4)
Prerequisite: CE 460 or ME 414. Free vibrations, forced vibrations and transient response of structures and structural components having one and many degrees of freedom; damping and inelastic action, earthquakes and nuclear blasts; dynamic resistance of structures; limit design; design for dynamic loads.

566 Soil Mechanics II (4)
Prerequisite: CE 467. Stress and strain in soil mass, equilibrium and movement of soil water, soil consolidation, settlement, and soil strength.

567 Foundations II (4)
Prerequisite: CE 467. Earth-pressure problems and problems of deep excavation; design of anchored bulkheads, cofferdams, piles under lateral loads, underpinning.

569 Earth Structures (4)
Prerequisite: CE 467. Factors influencing design, explorations for foundations and construction processes, compactions, stability analysis, seepage control, earth dams.

570 Soil Dynamics (4)
Prerequisite: CE 467. Dynamic properties of soils, vibratory effects on foundations, earthquake effects on foundations, dynamic stability of earth structures.

571 Highway Design (4)
Prerequisite: CE 471. Practical application of American Association of State Highway and Transportation Officials (AASHTO) policy on design controls; capacity analysis for uninterrupted flow, weaving section and ramps; functional design procedures in development of an interchange.

572 Plates and Shells (4)
Prerequisites: CE 402, 460. Equations of bending of thin elastic plates, energy method; approximate and numerical methods; theory of shells with application to tanks, roofs, and pressure vessels.

573 Highway and Airport Pavement Design (4)
Prerequisite: CE 471. Theory and principles of pavement design for highways and airports; influence of subgrade strength, climatic conditions, loading patterns, testing procedures, and computer applications.

574 Traffic Flow Analysis (4)
Prerequisite: CE 370. Measurements and analysis of traffic flow characteristics: speed, density, flow, headway; statistical data analysis, time-space diagrams, traffic flow models, queuing theory, shock wave analysis, traffic models applications.

575 Urban Transportation Planning (4)
Prerequisite: CE 370. Travel forecasting, data requirements, collection methods, trip generation and distribution models: modal split analysis, trip assignment, plan alternatives, and evaluation methodology.

577 Bridge Engineering (4)
Prerequisites: CE 461, 462. Design of steel, concrete, and timber bridges, piers, and abutments; American Association of State Highway and Transportation Officials (AASHTO) specifications; criteria for earthquake resistant design of bridges; geometry, safety, economics, and aesthetics.
581 Modeling Techniques in Hydraulic Engineering (4)
Prerequisite: CE/ME 303. Dimensional analysis; similarity law and hydraulic, coastal, and estuarine models; mathematical models.

582 Statistical Hydrology (4)
Prerequisites: CE 483, ENGR 210, 211. Statistical and probability analysis of hydrologic processes. Application of correlation and regression method to hydrologic variables. Elementary time series analysis of hydrologic data.

583 Hydrology II (4)
Prerequisite: CE 483. Space-time characteristics and mechanics of rainfall, surface run-off and infiltration. Theory of drainage basin dynamics. Low stream flow.

586 Open Channel Hydraulics (4)
Prerequisites: CE 387, MATH 215. Flow types, flow profile computations; design of channels and transition structures; unsteady flow.

587 Hydraulics II (4)
Prerequisite: CE 387. Unsteady flow in pipes, wave motion, sediment transportation, and coastal engineering.

588 Hydraulic Structures (4)
Prerequisite: CE 387. Hydraulic structures for impounding, conveying, and controlling water.

589 Coastal Engineering (4)
Prerequisite: CE 387. Fundamentals of water waves and their effects. Diffraction, reflection, and refraction; impulsively generated waves; effect of waves on coastal structures.

Courses in Electrical Engineering (EE)

400-level Courses

All 400-level courses may be applied toward master's degree requirements, subject to limits established by the department and approval of the graduate adviser.

Graduate Courses

Classified graduate standing is required for admission.

520 Principles of Communication Theory I (4)
Prerequisites: EE 420, MATH 402A. Comparative analysis of the following information transmission systems; AM, FM, PPM, and PCM. Introduction to statistical methods in analysis of information transmission systems.

521 Principles of Communication Theory II (4)
Prerequisites: EE 520, MATH 402A. Transmission and filtering of random signals. Causal and noncausal filters; communication of digital data in the presence of noise.

522 Detection of Signals in Noise (4)
Prerequisite: EE520. Techniques for detection of both known and unknown signals with unknown parameters in presence of noise. Discussion of hypothesis testing, likelihood functions, receiver configurations, and basic estimation theory.

530 Linear Systems Analysis (4)
Prerequisites: EE 430, MATH 402A. Review of transform methods; inverse transforms by contour integration; state space variable, properties of network functions and network parameters; time domain analysis; positive real functions.

533 Computer Methods in Power Systems (4)
Prerequisites: EE 332, 433, ENGR 490. Algorithms for formulation of network matrices; short-circuit studies on computers; iterative solutions of algebraic and differential equations; digital computer techniques for load flow.

534 Power System Stability (4)
Prerequisites: EE 360, 533. Steady state and transient stability of electric power systems; stability criterion; emphasis on digital computer techniques as applied to stability problems of electric power systems.

536A Solid State Electronics I (4)
Prerequisite: EE 436. Characteristics of solid state electronic devices; fabrication of discrete devices and integrated circuits; analysis and characteristics of integrated circuits.

536B Solid State Electronics II (4)
Prerequisite: EE 536A. Continuation of Solid State Electronics I; characteristics and applications of integrated circuits.

536C Solid State Electronics III (4)
Prerequisite: EE 536B. Applications of integrated circuits; metal-oxide-silicon devices; optoelectronics.

538 Linear and Nonlinear Control Systems Theory (4)
Prerequisites: EE 460, MATH 402A. Analysis and design of advanced control systems, including optimal control; use of computer in control systems.

544 Digital Systems Design (4)
Prerequisite: EE 449. Advanced study of selected topics in digital systems design. Design automation techniques; digital simulation; computer elements.

547AB Computer System Architecture (4, 4)
Prerequisite: EE 449. (EE 547A is prerequisite to 547B.) Computational algorithms and the arithmetic processor, central control and microprogramming, input-output processors, data communication processors and time-sharing systems.

548 Digital Sampled Data and Logic Control Systems Theory (4)
Prerequisites: EE 244, 460, MATH 402A. Analysis and design of linear and nonlinear sampled data, digital and logic control systems. Numerical control and on-line computer control systems.

Courses in Mechanical Engineering (ME)

400-level Courses

All 400-level courses may be applied toward master's degree requirements, subject to limits established by the department and approval of the graduate adviser.

Graduate Courses

Classified graduate standing is required for admission.

501A Advanced Mechanics of Particles (4)
Prerequisite: ME 421. Analytical approach to kinematics and dynamics of particles in three-dimensional space.

501B Advanced Mechanics of Rigid Bodies (4)
Prerequisite: ME 501A. Analytical approach to kinematics and dynamics of rigid bodies in three-dimensional space.
502 Theory of Elasticity (4)
Prerequisite: ME 402. Stress-strain relations, equations of linear elasticity, energy methods, boundary value problem, thermostatic, nonlinear elasticity, applications in structural and machine design.

503 Design of Mechanical Systems and Products (4)
Prerequisite: ME 414. Principles of design; value criteria; manufacturing and human factors; computer-aided simulation and analysis; synthesis of design.

504 Thermal Radiation (4)
Prerequisite: ME 406. Thermodynamics and physics of thermal radiation and its interactions with matter; formulation and solution of radiative transfer equations for surfaces and enclosures by means of exact, approximate, and numerical methods; applications to selected topics.

505 Heat Conduction (4)
Prerequisite: ME 406. Fundamentals of heat conduction, solution of steady and unsteady state heat conduction problems by means of exact, approximate, and numerical methods; applications to selected topics.

506 Heat Convection (4)
Prerequisite: ME 406 or 408. Development of equations describing fluid motion and heat convection. Analytical and experimental results for free and forced convection and for changes in phase.

508 Compressible Fluids (4)
Prerequisite: ME 408. One-dimensional gas dynamics; shock waves in supersonic flow; flow in ducts and nozzles; applications to high speed aerodynamics; multidimensional and unsteady frictionless flow; solution by small perturbation theory and method of characteristics.

509 Viscous Fluids and Boundary Layer Theory (4)
Prerequisites: ME 408, MATH 402A. Derivation of Navier-Stokes and boundary layer equations. Solutions for very slow, viscous motion, incompressible and compressible laminar boundary layers, introduction to turbulent boundary layer theory. Heat transfer and aerodynamic applications.

511 Vibrational Analysis II (4)
Prerequisite: ME 411. Analysis of multidegree of freedom systems, continuous systems, random vibrations, finite-element software.

512 Advanced Topics in Thermodynamics (4)
Prerequisite: ME 426 or CHEM 414. Advanced study of selected topics in thermodynamics with applications to engineering systems; review of current literature.

521 Dynamic Systems Analysis (4)
Prerequisite: ME 409 or 410. Dynamic behavior of physical systems; input-output and state space representation of linear continuous-time and discrete-time systems; controllability, observability, and stability of linear systems; examples of mechanical, thermal, fluid, and electrical systems.

522 Optimal Control of Mechanical Systems (4)
Prerequisite: ME 410 or 422. State space representation of continuous-time and discrete-time dynamic systems, problem statement of optimal control and performance index, maximum principle, design of linear optimal control systems, mechanical system examples.

525 Process Mass and Heat Transfer (4)
Prerequisite: ME 415. Principles of mass transfer by diffusion, evaporation and condensation, phase equilibrium, two-phase flow. Applications such as cooling towers, heat exchangers, vaporizers, evaporators, reboilers, distillation, and desalinization.

528 Metalforming Science and Applications (4)
Prerequisite: ME 414. Nature and purpose of metalworking theory, determination of working loads, drawing and rolling of flat slabs and strips, deep drawing, extrusion, forging, punching and piercing, friction and lubrication in metalworking.

529 Machining Science and Applications (4)
Prerequisite: ME 414. Deformation of materials during machining: mechanics of orthogonal cutting; cutting fluids; tool wear; tool life and machinability; vibrations in cutting; practical machining operations; and modern machining processes.

Courses in Technology (TECH)

400-level Courses

All 400-level courses may be applied toward master's degree requirements, subject to limits established by the department and approval of the graduate adviser.

Graduate Courses

Classified graduate standing is required for admission.

502 Modern Industry (3)
Prerequisites: An acceptable undergraduate major in Industrial Technology, Industrial Arts or Vocational Education, or comprehensive background of industrial experience, and TECH 300AB. Advanced study of growth, development, and organization of industry; new materials and processes. Problems of industry with significance for present social order.

505 Supervision and Organization of Vocational Education (4)
Responsibilities of supervisor for organizing vocational education programs at various levels and for improving instruction. May be repeated to maximum of 8 units with permission of instructor.

506 Seminar: Industrial Education (4)
Investigation of teaching problems in industrial education. Individual and group studies of special problems.

507 Seminar: Industrial Studies (4)
Prerequisite: TECH 502. Advanced study of developments in industrial materials, processes, machines, and equipment; relationships between industrial developments and society; emphasis on research and investigation.

508 Development, Use, and Evaluation of Industrial Education Instructional Materials (4)
Advanced course in development, use, and evaluation of instructional materials, with emphasis on three-dimensional teaching aids, charts, slides, and displays.

598 Graduate Directed Study (1-4)
Prerequisite: Instructor consent to act as sponsor. Independent study of advanced topics in field; regular conferences with sponsor. May be repeated to maximum of 9 units.

599A Thesis or Project (1-2)
Prerequisites: Instructor consent to act as sponsor, departmental approval of topic prior to registration. Independent research resulting in a thesis or project. Must be repeated to total of 2 units. Graded CR/NC.
599B  Thesis or Project (1-3)
Prerequisites: TECH 599A, instructor consent to act as sponsor, departmental approval of topic prior to registration. Independent research resulting in a thesis or project. Must be repeated to total of 3 units. Graded CR/NC.
SCHOOL OF HEALTH
AND HUMAN SERVICES

Departments and Programs within the School

Department of Child and Family Studies
Department of Communication Disorders
Department of Criminal Justice
Department of Health and Nutritional Sciences
Department of Nursing
Department of Physical Education
**CHILD AND FAMILY STUDIES**

**School of Health and Human Services**

**PROGRAM OFFICE**

Engineering and Technology A535

Phone: (213) 343-4590

The Master of Arts degree in Child Development strengthens professional competence and prepares individuals for various leadership positions as child development specialists. Students may coordinate degree requirements with those for the Multiple Subjects and Special Education Credentials, or the Early Childhood Special Education Credential Program.

**Master of Arts Degree**

**Admission to the Program**

- Baccalaureate in child development or a closely related academic field from a fully accredited college or university.
- Minimum 2.75 grade point average in last 90 quarter units or minimum B (3.0) grade point average in undergraduate major.
- Written statement of personal and professional goals received by a child development graduate adviser before the student registers in the program.
- Initial interview with a child development graduate adviser prior to registration in the program.
- In addition to meeting University requirements for admission to graduate study, applicants must have completed course work in theories of human development, issues and trends in child development, and early childhood education.
- Students without a baccalaureate in child development or a closely related field must complete a 27-unit prerequisite program before being admitted to the child development master’s degree program. Further information is available in the Child and Family Studies office.

**Requirements for the Degree (45 units)**

A total of 45 units is required, with at least 23 in 500-level courses.

**Required core (28 units)**

CHDV 500  Studying Children: Theories and Methods (4)
CHDV 501  Infants and Toddlers-Development and Care (4)
CHDV 502  Children Under Transitory Stress (4)
CHDV 503  Working with Parents (4)
CHDV 504  Research Methods with Children and Families (4)

or

CHDV 505  Selected Topics in Current Issues and Research in Child Development (4)
CHDV 595  Graduate Field Work (4)

**Electives (11-17 units)**

Students must select electives in consultation with a graduate adviser to give meaningful support to their professional goals. The development of an individualized interdisciplinary program is essential. Students also seeking a Multiple Subject Credential or an Early Childhood Special Education Credential should select electives in consultation with a credential adviser and a child development graduate adviser.

**Comprehensive Examination or Thesis or Project (0, 6 units)**

CHDV 596  Comprehensive Examination (0) or
CHDV 599  Thesis or Project (1-6)

A comprehensive examination or a thesis or project is required for the master’s degree. Students should expect to take the comprehensive examination (CHDV 596) the quarter they complete all course work on their program or thereafter and must comply with school and departmental requirements. A thesis or project, in lieu of the comprehensive examination, may be undertaken upon approval by a child development faculty committee.

**Courses in Child Development (CHDV)**

**400-level Courses**

With graduate adviser approval, appropriate 400-level courses in Child Development-related disciplines may be applied toward requirements for the master’s degree.

**Graduate Courses**

Classified graduate standing is required for admission.

500  **Studying Children: Theories and Methods (4)**

The foundation of graduate level study of children; major theories of child development; issues and methods in current research.

501  **Infants and Toddlers-Development and Care (4)**

Physical, cognitive, affective development, birth-30 months; environmental, cultural influences. Lecture 3 hours, laboratory 3 hours.

502  **Children Under Transitory Stress (4)**

Normal infants’ and young children’s efforts to cope with physical, situational stresses such as short-term hospitalization, death, serious illness, separation from family, divorce, birth of sibling. Lecture 3 hours, laboratory 3 hours.

503  **Working with Parents (4)**

Parent education trends: theory, dynamics, implementation, programs, research, and community resources. Lecture 3 hours, laboratory 3 hours.

504  **Research Methods with Children and Families (4)**

Prerequisite: EDFN 452. Current research issues about children and families; ways of studying children and families: observation, interviews, questionnaires, testing; ethical issues; development and implementation of pilot research study.

505  **Selected Topics in Current Issues and Research in Child Development (4)**

In-depth study of selected topics related to current issues and research in child development.

529  **Seminar: Child and Family Development (3)**

Prerequisite: Upper division child/family course. Child and family development, integrating developmental research and theory.

595  **Graduate Field Work (1-4)**

Prerequisites: CHDV 501, 502, 503; instructor consent to act as supervisor. Supervised practical experience in specialized community settings related to infant care, parent education, and/or hospitalization; assignments on individual basis. May be repeated to maximum of 8 units. Graded CR/NC.
598 Graduate Directed Study (1-4)
Prerequisites: CHDV 501, 502, 503; instructor consent to act as supervisor. Independent directed study of advanced topics in the field of child development: regular conferences with instructor. May be repeated to maximum of 8 units.

599 Thesis or Project (1-6)
Prerequisites: CHDV 504; advancement to candidacy; instructor consent to act as adviser; approval of topic prior to registration for thesis or project. Independent research resulting in thesis or project. Must be repeated to maximum of 6 units. Graded CR/NC.
COMMUNICATION DISORDERS

School of Health and Human Services

DEPARTMENT OFFICE
King Hall B106
Phone: (213) 343-4690

The Department of Communication Disorders offers the Master of Arts degree in Communicative Disorders with options in Audiology and Speech-Language Pathology; the Clinical-Rehabilitative Services Credential in Audiology; the Clinical-Rehabilitative Services Credential in Language, Speech, and Hearing; the Clinical-Rehabilitative Services Credential in Language, Speech, and Hearing with Special Class Authorization; and the Certificate in Rehabilitative/School Audiology.

Master of Arts Degree in Communicative Disorders

Admission to the Program

In addition to University requirements for admission to graduate study, applicants must satisfy specific department requirements before admission to the program. These include:

- completion of a baccalaureate in communicative disorders or equivalent;
- a minimum of 2.75 GPA in audiology or 3.0 in speech language pathology in the last 90 quarter units prior to completion of the baccalaureate;
- a recent GRE with a cumulative score of 900 on the verbal and quantitative sections;
- departmental application form approved by the faculty.

For the Speech-Language Pathology option, completion of COMD 458 or equivalent is required. All students must meet with a faculty adviser before beginning the graduate program.

Completion of the following courses or their equivalents is prerequisite to admission to the program: COMD 400, 401, 402, 403 or 407, 420, 425, 450, 458, 460AB, 461, 462AB, 470-478AB. Completion of COMD 469 is corequisite to the program.

Students who meet the equivalency requirements must earn, or have earned, a grade of C or higher in each of the core courses: COMD 400, 401, 402, 403 or 407, 420, 425, 450, 458, 460AB, 461, 462AB, 470-478AB. Repetition of core courses is limited to a maximum of two attempts in the entire core.

Students are required to meet personal and professional standards established by the department which include (but are not limited to): acceptable speech, language, and hearing; the capacity to accept instruction; willingness to assume professional responsibility for the welfare of clients; and the ability to relate well to clients, peers, and faculty. Students also must possess qualities of personal integrity, maturity, and sound professional judgment.

Students must earn a grade of B or better in COMD 478A and B, Clinical Practica, in order to be eligible to matriculate to classified standing.

Requirements for the Degree (minimum 45 units)

A minimum of 45 units is required, with at least 29 in 500-level courses. A comprehensive examination or a thesis is required.

- Audiology Option (45 units)

The Audiology option prepares students to serve in various professional settings including:

- clinical settings such as hospitals, medical offices, private practice, rehabilitation clinics that require a master's degree or equivalent with emphasis in clinical audiology, licensure in audiology issued by the state Board of Medical Quality Assurance, and the Certificate of Clinical Competence (CCC) in Audiology issued by the American Speech-Language-Hearing Association.
- public school settings as a rehabilitative/school audiologist which requires a Clinical-Rehabilitative Services credential for School Audiologist.
- private school settings as a rehabilitative audiologist which requires a certificate in rehabilitative audiology plus a master's degree or equivalent in rehabilitative audiology.

Required Courses (33 units)

Electives (12 units)

With adviser approval, select courses appropriate for California licensure and ASHA certification.

Comprehensive Examination or Thesis (0, 6 units)

A. Comprehensive Examination (0)

COMD 596 Comprehensive Examination (0) or COMD 599 Thesis (6)

In conference with an adviser, students must elect to complete either the comprehensive examination or a thesis.

B. Thesis (6 units)

Students must have adviser approval, be advanced to candidacy, and be enrolled in COMD 599 during the quarters the thesis is in progress. COMD 599 units may be substituted for elective units, but not for required courses in audiology.

Speech-Language Pathology Option

A minimum 45 units

The Speech-Language Pathology option prepares students to work in various professional settings including:

- clinics, hospitals, medical offices, or private practice as a speech-language pathologist which requires a master's degree or equivalent with emphasis in speech-language pathology, licensure in speech-language pathology issued by the state Board of Medical Quality Assurance, and the Certificate of
Clinical Competence (CCC) issued by the American Speech-Language Hearing Association

- public and private schools as a language-speech and hearing specialist which requires a Clinical-Rehabilitative Services credential in Language, Speech, and Hearing
- public school programs for the severely language handicapped which requires a Clinical-Rehabilitative Services credential in Language, Speech, and Hearing with Special Class Authorization.

**Electives (4-6 units)**

In consultation with adviser, select one course (4-6 units) from the following: COMD 454, 598, 599.

**Additional Electives (6-8 units)**

With adviser approval, select courses appropriate for California licensure and ASHA certification.

**Comprehensive Examination or Thesis (0, 6 units)**

COMD 596 Comprehensive Examination (0) or COMD 599 Thesis (6)

Students should expect to take the comprehensive examination (COMD 596) the quarter they complete all course work on their program and must comply with school and departmental requirements. Students should consult a speech-language pathology adviser about the thesis option, and should enroll in COMD 599 during the quarters the thesis is being undertaken.

*COMD 490AB courses do not count toward the 115 units of the Clinical-Rehabilitative Services Credential in Audiology, but are required for the Clinical-Rehabilitative Services Credential in Language, Speech, and Hearing.
The Special Class Authorization to Teach Severe Language Handicapped Children requires an additional 28 units:

**Certificate Program in Rehabilitative/School Audiology**

This credit certificate program is designed to prepare rehabilitative/school audiologists who do not seek the California credential.

**Admission to the Program**

Formal admission to the program is obtained only at the graduate level, although students may complete 400-level courses in the program while in undergraduate standing. Requirements for admission are the same as those for the Audiology option for the Master of Arts degree in Communicative Disorders.

**Requirements of the Program (114 units)**

This program requires a total of 114 units and utilizes the same courses as the Clinical-Rehabilitative Services credential in Audiology, described on the previous page. Students are cautioned to read descriptions of all required courses for prerequisites and to complete such prerequisites before enrolling in advanced courses.

**Courses in Communication Disorders (COMD)**

**400-Level Courses**

All 400-level courses may be applied toward master’s degree requirements, subject to limits established by the department and approval of the graduate adviser.

**Graduate Courses**

Classified graduate standing is required for admission.

**500 Seminar: Amplification Systems for Audiologists (4)**

Prerequisite: COMD 403. Electroacoustic characteristics of individual hearing aids and classroom amplification systems; assessment and fitting procedures; spectral analysis of hearing aids; troubleshooting hearing aids; room acoustics; practical experience included.

**501 Seminar: Amplification Systems for Teachers of Hearing Impaired (4)**

Prerequisite: COMD 406. Appropriate hearing aids for specific hearing loss; types of group amplifiers commercially available for classroom use; use of amplification in developing residual hearing.

**503 Seminar: Bone-conduction, Masking, Impedance Audiometry (4)**

Prerequisite: COMD 403. Advanced audiological theories, principles, and techniques; bone-conduction, effective masking and impedance audiometry for differentiating conductive from sensorineural hearing losses; laboratory projects included.

**504 Seminar: Audiological Psychoacoustics (4)**

Prerequisite: COMD 503. Relationships among acoustic stimulus parameters, aural physiological activities, and psychological sensations including loudness, pitch, adaptation, and different limits; laboratory projects with audiometric equipment included.

**505 Seminar: Special Auditory Tests-Sensorineural Hearing Losses (4)**

Prerequisite: COMD 503. Advanced audiological theories, principles, and techniques; psychoacoustic hearing tests for differentiating cochlear from retrocochlear lesions; practice in administering special tests and interpreting test results.

**506 Seminar: Special Auditory Tests-Central Auditory Problems (4)**

Prerequisites: COMD 504, 505. Advanced audiological theories, principles, and techniques; psychoacoustic hearing tests for differentiating peripheral from central hearing disorders; practice in administering advanced special tests and interpreting test results.

**507 Seminar: Special Auditory Tests-Auditory Brainstem Responses (4)**

Prerequisites: COMD 504, 505. Advanced audiological theories, principles, techniques; physiological tests for measuring electric brainstem responses to acoustic stimuli; electronystagmography; practice with brainstem audiometer and ENG equipment.

**510 Seminar: Audiological Instrumentation (4)**

Prerequisite: COMD 505. Audiological instrumentation; calibration standards; calibration instruments and procedures for earphones, bone vibrators, loudspeakers, pure tones, speech, masking noise; practice in calibrating audiometers.

**541 Clinical Procedures in Hearing Evaluation (1)**

Prerequisites: COMD 503. Practice in administering hearing tests, interpreting tests results, and writing audiological reports before working with patients in the Hearing Clinics.

**542 Clinical Practicum in Hearing Evaluation (2)**

Prerequisites: first quarter: COMD 541; second quarter: COMD 407, 500, one quarter of clinic practicum; third quarter: COMD 505, minimum B (3.0) grade point average in clinic courses completed prior to enrollment, two quarters of clinic practicum; fourth quarter: COMD 506, 507, three quarters of clinic practicum; fifth quarter for School Audiology credential, four quarters of clinic practicum. Sequential progression of supervised clinical practice in hearing evaluations; on-campus Hearing Clinic for first two quarters; off-campus medical center for next two quarters; public school for fifth quarter.

**547 Seminar: Audiology (3)**

Prerequisite: COMD 506. Basic statistical procedures for measurement of central tendency, correlation, and significance; research design in the context of current scientific studies on
hearing; individual research project using audiometric equipment.

560 Seminar: Natural Acquisition of Language (4)
Prerequisites: COMD 460AB or 456. Research, methods, major issues in language acquisition in early childhood; methods for studying semantic, syntactic, pragmatic, and phonological systems, principally among English-speaking children.

570 Graduate Studies in Stuttering (3)
Prerequisite: COMD 470. Theory, research, and methodology in assessment and treatment of stuttering in children and adults.

571 Seminar: Language Disorders of Children (4)
Prerequisites: COMD 470, 471. Theory, research, and methodology in assessment of and intervention in various kinds of language disorders in children; multiethnic, multicultural considerations.

572 Seminar: Voice Disorders (4)
Prerequisite: COMD 472. Theory, research, methodology in diagnosis and treatment of various kinds of functional and organic voice disorders.

573 Seminar: Articulation Disorders (4)
Prerequisite: COMD 472. Theory, research, methodology in assessing and intervening in various kinds of articulation disorders.

574AB Seminar: Neuropathologies of Communication Disorders and Dysphagia (4, 3)
Prerequisite: COMD 462B. Theory, research, and methodology in diagnosis and treatment of various kinds of communication disorders associated with neuropathologies and problems associated with dysphagia.

576 Advanced Diagnostic Procedures in Communication Disorders (3)
Prerequisite: COMD 476. Tests, methods, and procedures used in assessing individuals with speech-language disorders with special emphasis on integration of results in case studies; multiethnic, multicultural considerations. Independent supervised advanced clinical practicum. Lecture 2 hours, laboratory 3 hours.

578 Advanced Clinical Procedures in Communication Disorders (2)
Prerequisites: COMD 478AB. Advanced clinical procedures in assessment of and intervention with communicatively handicapped children and adults; independent supervised clinical experience in on or off-campus sites. May be repeated to maximum of 8 units.

585 Seminar: Advanced Language Techniques for Severe Language Handicapped Children (4)
Recommended corequisite: EDSP 407 (SLH). Advanced methods course for students seeking Clinical-Rehabilitative Services credential in Language, Speech, and Hearing with Special Class Authorization; classroom programming for language-disordered children ages 3-18 including behavior management, classroom organization, curriculum adaptation to meet individual language needs.

598 Graduate Directed Study (1-4)
Prerequisite: Instructor consent to act as sponsor. Independent study of advanced topics in field; regular conferences with sponsor. May be repeated for credit.

599 Thesis (1-6)
Prerequisites: Advancement to candidacy, instructor consent to act as sponsor, departmental approval of topic before registration; additional prerequisite for Audiology option: COMD 547. Independent research resulting in a thesis; oral defense of thesis required. May be repeated to maximum of 6 units. Graded CR/NC.
CRIMINAL JUSTICE

School of Health and Human Services

DEPARTMENT OFFICE
King Hall D1045
Phone: (213) 343-4610

Two Master of Science degrees are offered by the Department of Criminal Justice. The Criminalistics degree offers a specialization in the application of science to the criminal justice process; the Criminal Justice degree includes an Administration option that emphasizes management skills and an Education option that prepares students for specialized teaching assignments.

Admission to the Program

Application to both the Department of Criminal Justice and the University is required, on forms available from the department's graduate admissions committee. Transcripts from all colleges and universities attended must be submitted with the application to the department’s graduate admissions committee at the same time that the University application is filed with the Admissions Office.

A minimum 2.75 grade point average is required in the last 90 quarter units of undergraduate study, and a minimum B (3.0) in all upper division course work in the undergraduate major and all prerequisite and corequisite courses. Applicants who have not completed an undergraduate major in a criminal justice area or whose grade point average is below that required for regular admission into the program may be admitted under certain circumstances in conditional status at the discretion of the departmental graduate admissions committee.

Master of Science Degree in Criminalistics

The criminalistics program is built on undergraduate preparation in chemistry and provides technical training in crime laboratory skills, with special emphasis on development of skilled experts able to function in a variety of scientific fields.

In addition to University requirements for admission to graduate study, applicants must have a baccalaureate in chemistry from an accredited college or university, or a baccalaureate in a related scientific field with a minimum of 36 quarter units in chemistry, including 12-15 units in organic chemistry.

The following courses in criminal justice or their equivalents must have been completed prior to admission to graduate study or may be taken concurrently. These courses are not included in the 45 units required for the master’s degree.

CRIM 126 Concepts of Criminal Law (4)
CRIM 221 Legal Aspects of Evidence (4)
CRIM 235 Elements of Investigation (4)
CRIM 362 Investigative Photography (4)
CRIM 365 Personal Identification Systems (4)
CRIM 461 Physical Evidence (4)

Requirements for the Degree (45 units)

A total of 45 units is required, with at least 23 in 500-level courses.

Required Courses (32 units)

CRIM 551-553 Advanced Criminalistics I-III (4, 4, 4)
CRIM 554 Identification of Modern Drugs (4)
CRIM 555 Questioned Document Analysis (4)
CRIM 556 Seminar: Special Problems in Criminalistics (4)
CRIM 557 Legal Medicine in Criminalistics (4)

Electives (13 units)

Select 5 units in criminal justice and 8 units in related fields with adviser approval.

Master of Science Degree in Criminal Justice

The criminal justice program provides advanced study in theory and application of methods in administration and management of criminal justice agencies, with emphasis on those whose function is law enforcement.

In addition to University requirements for admission to graduate study, applicants must possess a baccalaureate from an accredited college or university, with acceptable undergraduate preparation in police administration or criminal justice. Undergraduate preparation must include the following courses or equivalents:

CRIM 126, 221, 401, 404, 428, 437
ECON 309 or EDFN 452 or PSY 302
POLS 403, 405
SOC 480

Requirements for the Degree (45 units)

A total of 45 units is required, with at least 23 in 500-level courses.

Required Courses (24 units)

CRIM 501 Seminar: Administration of Justice (4)
CRIM 506 Seminar: Comparative Criminal Justice Administration (4)
CRIM 538 Seminar: Criminal Justice Problems (4)
CRIM 581 Law Enforcement Bibliography and Research (4)
CRIM 582 Criminal Justice Resource Allocation (4)
CRIM 599 Thesis (4)

Options

• Option in Criminal Justice Administration (21 units)

Required Courses (16 units)

POLS 460 Foundations of Public Administration (4)
POLS 461 Dynamics of Urban Administration (4)
POLS 560 Seminar: Public Administration (4)
POLS 561 Seminar: State and Local Government and Administration (4)

Electives (5 units)

Select courses in criminal justice with adviser approval.

• Option in Criminal Justice Education (21 units)

Students pursuing this option should seek advisement in the appropriate divisions within the Charter School of Education as well as the Department of Criminal Justice.

Required courses (15 units)

COUN 503 Sociological and Cultural Factors in Counseling (4)
COUN 510 Counseling Students in Higher Education (4)
EDAC 581 The Community College (3)
EDAC 582 Instruction in Community College (4)

Electives (6 units)

Select courses in criminal justice with adviser approval.
Courses in Criminal Justice (CRIM)

400-level Courses

All 400-level courses may be applied toward master’s degree requirements except the following, subject to limits established by the department and approval of the graduate adviser: CRIM 499

Graduate Courses

Classified graduate standing is required for admission.

501 Seminar: Administration of Justice (4)
Advanced studies of interrelating component parts of criminal justice system, with particular emphasis on managerial aspects of agencies involved.

506 Seminar: Comparative Criminal Justice Administration (4)
Comparison of criminal justice systems of world, past and present: American systems, national, state, county, and municipal levels; military police systems; organizations, practices, and trends.

538 Seminar: Criminal Justice Problems (4)
Advanced investigation and reports on selected critical problems in criminal justice; emphasis on scientific method and acquaintance with reliable methods of research.

551-553 Advanced Criminalistics I, II, III (4, 4-4)
Methods of scientific analysis, comparison, identification, and individualization of physical evidence and its presentation in court. Lecture 2 hours, laboratory 6 hours.

551: Prints and imprints, tool marks, weapons, bullets, and cartridges.

552: Microscopic evidence, textile fibers, clothing and cloth, ropes, cordage and packing materials, cosmetics, crystalline evidence, paint, glass, soil, metals, and plastics.

553: Hair, blood, biological fluids, blood alcohol, arson evidence, bombs, and explosives.

554 Identification of Modern Drugs (4)
Prerequisite: Instructor consent. Nature, therapeutic action, toxicology, chemical and physical identification of modern drugs; drug nomenclature; scientific, official, and trade names; drug classifications.

555 Questioned Document Analysis (4)
Prerequisite: Instructor consent. Analysis of handwriting, typewriting, inks, paper, forgeries, alterations, erasures; use of photographic, microscopic, infrared, and ultraviolet light equipment; presentation of evidence in court. Lecture and demonstration.

556 Seminar: Special Problems in Criminalistics (4)
Prerequisite: Instructor consent. Inquiry in depth into criminalistics, with emphasis on homicide and major crime, literature of criminalistics field, correlation and synthesis of different methods of approach to criminalistics problems.

557 Legal Medicine in Criminalistics (4)
Prerequisite: Instructor consent. Correlation of findings of autopsy surgeon and criminalist; traumatic injuries, evaluation of wounds, time of death, rigor mortis, post mortem lividity; recognition of poison deaths.

581 Law Enforcement Bibliography and Research (4)
Research methodology in criminal justice field, survey of authorities and their writings, research reports and manuscripts.

582 Criminal Justice Resource Allocation (4)
Analysis of budgeting protocol, models of justice administration delivery systems, and strategies for allocating resources.

595 Directed Field Work (1-4)
Prerequisites: Departmental approval, agency acceptance. Supervised individual field experience in an applied area of criminal justice. May be repeated to maximum of 8 units. Graded CR/NC.

598 Graduate Directed Study (1-5)
Prerequisite: Instructor consent to act as sponsor. Independent study of advanced topics covering the criminal justice system; regular conferences with sponsor. May be repeated to maximum of 9 units; maximum of 12 units in combination of CRIM 499 and 598 may be applied toward degree.

599 Thesis (1-4)
Prerequisites: Consent of an approved thesis committee to act as sponsor, completion of appropriate forms, approval of department. Independent research resulting in a thesis. Must be repeated to maximum of 4 units. Graded CR/NC.

Courses in Traffic and Safety Education (TSE)

400-level Courses

All 400-level courses may be applied toward master’s degree requirements except the following, subject to limits established by the department and approval of the graduate adviser: TSE 475

Graduate Courses

Classified graduate standing is required for admission.

575 Analysis of Accident and Safety Programs (4)
Prerequisite: TSE 475. Safety programs and evaluation strategies; includes analysis of data relevant to traffic, occupational, and public safety programs.

577 Advanced Studies in Traffic and Safety Education (4)
Prerequisites: TSE 474, 475. Analysis of latest developments and trends in safety and traffic education relating to driver education and driver training programs.

578 Legal Aspects of Driver Education and Driver Training (4)
Prerequisites: TSE 474, 475. Critical analysis of driver safety laws relating to teacher; related laws that affect driver education and training programs.

Master of Arts Degree in Health Science
The Master of Arts degree in Health Science provides advanced preparation in health sciences and safety fields including school, community, and allied health programs. It qualifies graduates for advanced leadership positions and provides the health science foundation for community college teaching positions.

Admission to the Program
Prerequisites (10 units)
HS 350 Health Maintenance Problems (3)
HS 360 Selecting Health and Medical Services and Products (3)
HS 463 International Health (4)

Applicants must have a baccalaureate from an accredited institution with sufficient courses in health science and the basic sciences to provide a foundation for advanced work. In addition, applicants must have a 2.75 grade point average in the last 90 quarter units or have demonstrated ability to earn a B (3.0) grade point average at the postbaccalaureate level.

Requirements for the Degree (45 units)
A total of 45 units is required, with at least 23 in 500-level courses.

Required Courses (14 units)
HS 530 Research Design in Health Science (4)
HS 560 Administration of Health Science Education (3)
HS 580 Seminar: Health Science Research (4)
HS 591 Advances in Health Science Education (3)

Electives (select 16-30 HS units with adviser approval)
Electives in related fields (select 0-14 units with adviser approval)

Comprehensive Examination or Thesis or Project (0, 6 units)
HS 596 Comprehensive Examination (0) and
HS 598 Graduate Directed Study (1-4) or
HS 599 Thesis or Project (6)

Students should expect to take the comprehensive examination (HS 596) the quarter they complete all course work on their program and must comply with school and departmental requirements.

Master of Science Degree in Nutritional Science
The Master of Science degree in Nutritional Science is an individualized program designed to develop specialized professional competence in the selected areas of nutrition and dietetics, while also providing breadth in the related areas. The program is designed for persons preparing for positions as public health nutritionists or supervisors in dietetics and food production and service, or doctoral study in nutrition and dietetics.

Graduate students seeking to qualify for the Registered Dietitian examination may complete appropriate course work and clinical experiences concurrently with requirements for the master’s degree by also completing courses in the Coordinated Dietetics Program (CDP).

Admission to the Program
In addition to University requirements for admission to graduate study, applicants must possess a baccalaureate from an accredited university. Applicants must have a 2.75 grade point average in the last 90 quarter units. Graduates with a related major may enter the program but must complete the following:

Prerequisites
CHEM 353 Nutritional Aspects of Biochemistry (5)
NTRS 210 Foundations of Food (4)
NTRS 317 Fundamentals of Human Nutrition (3)

If applicable, corequisites must be approved by the department graduate studies committee.

Requirements for the Degree (45 units)
A total of 45 units is required, with at least 23 in 500-level courses.

Required Courses (19 units)
NTRS 519 Seminar: Nutritional Science (3)
NTRS 530 Research Concepts in Nutritional Science (4) or
HS 530 Research Design in Health Science (4)
NTRS 597 Graduate Research (4)
NTRS 511 Research Methodology in Nutritional Science (4)
NTRS 513 Advanced Problems in Nutritional Science (4)

Electives (11-26 units)
Select NTRS courses with approval of adviser and department graduate studies committee.

Electives in Related Fields (0-9 units)
Select with approval of adviser and department graduate studies committee.

Comprehensive Examination or Thesis or Project (0, 6 units)
NTRS 596 Comprehensive Examination (0) or
NTRS 599 Thesis or Project (6)

Students should expect to take the comprehensive examination (NTRS 596) the quarter they complete all course work on their program and must comply with school and departmental requirements.

Certificate Program in Environmental Health Science
Offered by the Department of Health and Nutritional Sciences, this certificate program in Environmental Health Science can accelerate the qualification and admittance into the State of California’s Registered Environmental Health Specialists examination. Environmental Health consists of those organized activities undertaken to protect and enhance the public’s health through the control of potentially harmful materials, organisms, energies, and conditions in the environment. The two major aspects in an environmental health program are the prevention of disease and the protection and promotion of human well-being. This certificate will encompass the entire general field of environmental health. The program requires a total of 20 units, which includes 16 units in the core and 4 units of electives. Admission to the program requires filing of a formal application to the department including documentation of related educational and work experience, and university transcripts.
**Requirements for the Certificate (19-20 units)**

**Prerequisite Required**
- HS 471 General Principles of Environmental Health (4)

**Required Core Courses (16 units)**
- HS 420 Principles and Philosophy of Public Health (4)
- HS 421 Environmental Health Regulations (4)
- HS 423 Water Supply and Sewage Disposal (4)
- HS 425 Principles and Practices of the Environmental Health Specialist (4)

**Electives (4 units)**
- Minimum of one course
  - HS 432 Theory and Principles of Industrial Hygiene (4)
  - HS 483 Hazardous Waste Management Operations and Emergency Response (4)

**Courses in Health Science (HS)**

**400-level Courses**

All 400-level courses may be applied toward master’s degree requirements, subject to limits established by the department and approval of the graduate adviser.

**Graduate Courses**

Classified graduate standing is required for admission.

**521 Administrative Issues in Environmental Health (4.5)**
Prerequisite: HS 420. Current issues in environmental policy research and practice; strategies and techniques used in management of environmental health programs; safety evaluations, regulatory processes, institutional arrangements, and organization responses.

**526 Seminar in Health Effects of Environmental Contaminants (3)**
Discussions and surveys on current critical issues in environmental health sciences.

**530 Research Design in Health Science (4)**
Prerequisite: A four-unit, upper division statistics course. Examination of research methodology within a conceptual framework of health science; utilization of the tools of research.

**540 Analysis of Health Care Delivery Systems (4)**
National and international health care delivery systems, their historical development, objectives, designs, systems components; personnel, facilities, financing, and utilization problems; future patterns in health care delivery systems. Field visits may be required.

**550 Health and Safety Risk Management (4)**
Component analysis of health facility and industrial risk management programs; evaluation and implementation techniques with review strategies. Data and functions for programs as integral part of quality assurance system.

**560 Administration of Health and Safety Education (3)**
Organization, content, and evaluation of health and safety education programs; administration and supervision in official and non-official agencies.

**570 Health Appraisal and Guidance (4)**
Developing skills in recognizing health problems; choosing appropriate procedures for screening programs; implementation of appraisal findings through appropriate health guidance techniques.

**580 Seminar: Health Science Research (4)**
Prerequisite: HS 591. Analysis of and research in health science.

**581 Environmental Toxicology (4.5)**
Prerequisites: HS 481, 489. Study of toxic agents occurring as trace contaminants in the environment. Evaluation and control of chemical hazards in air, food, water and soil. Biological mechanisms of toxicity.

**591 Advances in Health Education (3)**
Prerequisite: HS 530. Analysis of selected contemporary problems in health science.

**595 Field Study in Health Science (1-6)**
Prerequisites: Departmental approval, agency acceptance. Supervised individual field experience in an applied area of health or safety. May be repeated to maximum of 8 units. Graded CR/NC.

**597 Graduate Research (1-6)**
Prerequisites: Instructor consent to act as sponsor, departmental approval of project prior to registration. Independent research under guidance of the faculty. May be repeated to maximum of 6 units. Graded CR/NC.

**598 Graduate Directed Study (1-4)**
Prerequisite: Instructor consent to act as sponsor. Independent study of advanced topics in field; regular conferences with sponsor. May be repeated to maximum of 6 units.

**599 Thesis or Project (1-6)**
Prerequisites: Instructor consent to act as sponsor, departmental approval of topic prior to registration. Independent research resulting in a thesis or project. Must be repeated to maximum of 6 units. Graded CR/NC.

**Courses in Nutritional Sciences (NTRS)**

**400-level Courses**

All 400-level courses may be applied toward master’s degree requirements except the following, subject to limits established by the department and approval of the graduate adviser: NTRS 419ABC, 419S, 479

**511 Research Methodology in Nutritional Science (4)**
Prerequisites: NTRS 410, 415AB, 417AL. Research problems in nutritional science. Lecture 2 hours, laboratory 6 hours.

**513 Advanced Problems in Nutritional Science (4)**
Prerequisites: NTRS 410, 415AB, 417ABL. Contemporary problems in nutritional science.

**519 Seminar: Nutritional Science (3)**
Prerequisites: NTRS 530, 8 units of 400 or 500-level courses in nutrition, food, dietetics. Selected topics in nutrition, food, and dietetics.

**530 Research Concepts in Nutritional Science (4)**
Prerequisite: A course in statistics. Examination of research methodology within a conceptual framework of Nutritional Science, utilization of the tools of research; review and critique of research reports; development of a research proposal and a pilot project.
595 Fieldwork in Nutritional Science (2-4)
Prerequisites: Departmental approval; agency/business accept-
tance, and 23 units of upper division or graduate level units. Supervised experience at supervisory level. Four hours per week required for each unit. May be repeated to a maximum of 6 units. Combined units of 495, 595, 597, 598, and 599 may not exceed 15 units. Graded CR/NC.

597 Graduate Research (1-4)
Prerequisites: NTRS 530, instructor consent to act as sponsor, department approval of project before registration. Independent research under faculty guidance. May be repeated to maximum of 8 units; combined 587/598 units may not exceed 12 units; combined 595, 597, 598, 599 units may not exceed 15 units. Graded CR/NC.

598 Graduate Directed Study (1-4)
Prerequisites: NTRS 597, instructor consent to act as sponsor; department approval of topic prior to registration. Independent directed study of advanced topics. May be repeated to maximum of 8 units: combined 597 and 598 units may not exceed 12 units; combined 595, 597, 598, and 599 may not exceed 15 units.

599 Thesis or Project (1-6)
Prerequisites: NTRS 530, seminar in thesis/project research area, 3 units of 597, advancement to candidacy, minimum 3.0 GPA, instructor consent to act as sponsor, department approval of topic before registration. Independent research resulting in thesis or project; oral thesis defense required. May be repeated to maximum of 6 units; combined 595, 597, 598, 599 units may not exceed 15. Graded CR/NC.
The Master of Science degree in Nursing provides advanced study in selected areas. A total of 45-72.5 units in nursing is required depending on the option chosen. Students must select one of the following options.

- Nursing Administration (45 units)
- Nursing Education (45 units)
- Nurse Case Manager: Adult Care (minimum 54 units)
- Clinical Nurse Specialization: Psychiatric Mental Health (54 units)
- Nurse Practitioner: Adult option (minimum 69 units)
- Acute Care Nurse Practitioner: Adult Cardiopulmonary option (minimum 72.5 units)
- Nurse Practitioner Pediatrics (minimum 65 units)
- Acute Care Nurse Practitioner: Pediatric Critical Care option (minimum 72.5 units)

Every student is required to take 14 units of graduate core courses, 7-24 units of advanced nursing practice core courses (depending on option), and required specialty courses.

Students seeking the credential to teach nursing in community colleges should consult the Coordinator of Community College Education in the School of Education and an adviser in the Department of Nursing.

The Master of Science degree in Nursing is accredited by the National League for Nursing.

**Master of Science Degree**

**Admission to Accelerated Master’s Program**

**TRACK I. Admission Requirements for RNs with a Non-Nursing Baccalaureate**

- A baccalaureate from an accredited institution with a major other than nursing;
- An A.A. or A.S. degree in Nursing from an accredited college or an NLN-accredited diploma program;
- Completion of current B.S. degree in Nursing course prerequisites;
- Eligibility for University admission in conditionally classified graduate standing;
- A minimum 2.75 grade point average in the last 90 quarter units attempted; and
- Current licensure to practice nursing in California and malpractice insurance.

To continue in the accelerated program, students must:

- Complete one year of clinical employment as an RN before they enroll in NURS 470/471 and
- Maintain a minimum B (3.0) grade point average in and complete required upper division nursing courses to qualify for classified graduate standing.

**Requirements for Second Baccalaureate**

A bachelors degree is conferred in this accelerated master’s degree program only to students who fulfill current general education requirements for a second bachelor’s degree in addition to the nursing major undergraduate requirements.

**Track II. Admission Requirements for RNs without a Baccalaureate**

- An A.A. or AS. degree in nursing from an accredited college or an NLN-accredited diploma program with a minimum 2.75 grade point average
- Completion of current B.S. degree in Nursing course prerequisites
- Current license to practice nursing in California; and malpractice insurance for professional nursing practice

To qualify for classified graduate standing, students pursuing this accelerated program must:

- Complete one year of clinical employment as an RN
- Complete all required baccalaureate nursing courses
- Maintain a minimum B (3.0) grade point average in required upper division nursing courses

**Undergraduate Requirements for Both Accelerated Tracks: RNs with a Non-Nursing Baccalaureate and RNs without a Baccalaureate**

A total of 186 units is required for the Bachelor of Science degree in Nursing, which is conferred concurrently with the Master of Science degree in Nursing.

The following courses are prerequisite to the Nursing major (33 units):

- BIOL 200AB Human Anatomy and Physiology I, II (5, 5)
- CHEM 151 Fundamentals of Chemistry I (5)
- ENGL 101 Composition I (4)
- SPCH 150 Oral Communication (4)
- PSY 150 Introduction to Psychology (4)
- *MICR 201 Microbiology for Health Related Sciences (4)
- *MICR 202 Microbiology Laboratory for Health Related Sciences (2)

*Students entering with 4 or more semester units (6 or more quarter units) of credit from an accredited college for a course including laboratory satisfy this requirement by transfer credit.

**Required in Related Fields** (15-16 units)

- ANTH 344 Medical Anthropology (4)
- NTRS 250 Human Nutrition (4) or
- NTRS 317 Fundamentals of Human Nutrition (3)
- SOC 201 Principles of Sociology (4) and

Completion of a statistics course within the past 7 years (four or more units which included inferential statistical content).

**Required in Nursing** (78 units)

**Lower Division Required Courses (43 units)**

Lower division required courses are met by 43 units of transfer credit granted by the Department of Nursing.
Upper Division Required Courses (35 units)

- NURS 346 Family Nursing (3)
- NURS 348A Development for Professional Practice (4)
- NURS 372 Health Assessment and Health Promotion Across the Life Span (4)
- NURS 373 Health Assessment and Health Promotion Across the Life Span Lab (4)
- NURS 394 Nursing Concepts in Health Promotion, Prevention Treatment Adherence (4)
- NURS 470 Community Health Assessment (3)
- NURS 471 Community Health Assessment Lab (3)
- NURS 490 Introduction to Nursing Research (4)
- NURS 496 Nursing Case Management of Vulnerable Populations (4)
- NURS 497 Nursing Case Management of Vulnerable Populations Lab (4)

ADMISSION TO THE MASTERS PROGRAM

- Applicants must fulfill the following prerequisites and criteria:
  - Equivalent of requirements for Bachelor of Science degree in Nursing from an NLN accredited program in effect at the time of admission as a graduate;
  - Minimum B (3.0) grade point average in upper division nursing courses or permission of the departmental graduate studies committee;
  - 2.75 grade point average in the last 90 quarter units attempted;
  - Completion of a statistics course within the past 7 years (four quarter units or more which included inferential statistical content);
  - NURS 490 or equivalent within the past 7 years;
  - Malpractice insurance for professional nursing

Requirements for the Master’s Degree (45-72.5 units)

- A total of 45-72.5 units is required with at least half of the units in 500-level courses.

Required Core (14 units)

- NURS 500 Qualitative Nursing Research Evaluation (2)
- NURS 590 Quantitative Nursing Research Methods (4)
- NURS 592 Theoretical Basis of Nursing Research and Practice (4)
- NURS 594 Decision-Making in Nursing Health Care Policy (4)

OPTIONS (26-53.5 units)

Select one of following options;

NURSING ADMINISTRATION (26-31 units)

Required
- Advanced Practice Courses (7 units)
- NURS 524 Care of Vulnerable Populations (4)
- NURS 595 Advanced Field Study (3 units)

Required Option Courses (7 units)

- NURS 562 Human Resources Utilization in Health Care Organizations (2)
- NURS 564 Seminar: Health Care Administration (2)
- NURS 595 Advanced Field Study (3)

Electives: 12-17 units dependent upon Thesis (5 units) or Comprehensive Examination (0 units) selection

NURSING EDUCATION (31-36 units)

Required Advanced Practice Courses (8 units)

- NURS 566A Advanced Pathophysiology (3)
- NURS 524 Care of Vulnerable Populations (4)
- NURS 595 Advanced Field Study (1)

Required Option Courses (12 units)

- NURS 560AB Development of Educational Programs for Nursing (3, 3)
- NURS 595 Advanced Field Study (3, 3)
  (Must be taken with NURS 560AB)

Electives: (6-11 units) dependent upon Thesis (5 units) or Comprehensive Examination (0 units) selection

Advanced Nursing Practice Option: Nurse Case Manager: Adult Care (Minimum 40 units)

Required Advanced Practice Courses (21 units)

- NURS 502 Role Development of the Advanced Practice Nurse (2)
- NURS 524 Care of Vulnerable Populations (4)
- NURS 528 Advanced Pharmacology (3)
- NURS 566A Advanced Pathophysiology (3)
- NURS 572A Advanced Health Assessment and Health Promotion (4)
- NURS 572B Developmental Assessment (2)
- NURS 573A Advanced Health Assessment and Health Promotion Laboratory (1)
- NURS 595 Advanced Field Study (2)

Required Option Courses (19 units)

- NURS 506A Advanced Nurse Case Management Strategies I (4)
- NURS 506B Advanced Nurse Case Management Strategies II (4)
- NURS 595 Advanced Field Study (4, 4)
  (Must be taken with NURS 506AB)

Electives: (3 units)

THESIS: If selected this adds an additional 5 units to the program.

ADVANCED NURSING PRACTICE OPTION

PSYCHIATRIC/MENTAL HEALTH CLINICAL NURSE SPECIALIST (35-40 units)

Required Advanced Practice Courses (9 units)

- NURS 502 Role Development of the Advanced Practice Nurse (2)
- NURS 524 Care of Vulnerable Populations (4)
- NURS 595 Advanced Field Study (3)
  (Must be taken with NURS 524)

Required Option Courses (18 units)

- NURS 542ABC Seminar: Psychiatric/Mental Health (2, 2, 2)
- NURS 595 Advanced Field Study (4, 4, 4)
  (Must be taken with NURS 542ABC)

Electives: (8-13 units) dependent upon thesis (5 units) or Comprehensive Examination (0 units) selection
NURSE PRACTITIONER OPTIONS

Required Advanced Nursing Practice Core Courses: All Nurse Practitioner Options require 24 units

- NURS 502 Role Development of the Advanced Practice Nurse (2)
- NURS 524 Care of Vulnerable Populations (4)
- NURS 525 Vulnerable Populations Practicum (1, 1)
- NURS 528 Advanced Pharmacology (3)
- NURS 566A Advanced Pathophysiology (3)
- NURS 572A Advanced Health Assessment and Health Promotion (4)
- NURS 572B Developmental Assessment and Health Promotion (2)
- NURS 573A Advanced Health Assessment and Health Promotion Laboratory (1)
- NURS 573B Advanced Health Assessment and Health Promotion Practicum (3)

NURSE PRACTITIONER: PEDIATRIC OPTION

(Minimum of 51 units)

Required Advanced Nursing Practice Core Courses (24 units)

- NURS 498 Advanced Cooperative Education (1)
- NURS 522A Primary Care of Children with Acute Health Problems (4)
- NURS 522B Primary Care of Children with Chronic Health Problems (4)
- NURS 522C Primary Care of Adolescents (2)
- NURS 523A Primary Care Practicum: Children with Acute Illness (3)
- NURS 523B Primary Care Practicum: Children with Chronic Illness (3)
- NURS 523C Primary Care Practicum: Adolescents (3)
- NURS 529 Advanced Pediatrics Clinical Practicum (3)

Electives: (4 units)

THESIS: If selected this adds an additional 5 units to the program.

NURSE PRACTITIONER: ADULT OPTION

(Minimum 55 units)

Required Advanced Nursing Practice Core Courses (24 units)

Required Option Courses (27 units)

- NURS 498 Advanced Cooperative Education (1)
- NURS 512A Primary Care of Adults with Chronic Health Problems (4)
- NURS 512B Care of Aging Adults (2)
- NURS 513A Care of Adults with Chronic Health Problems Practicum (4)
- NURS 513B Care of Aging Adults Practicum (4)
- NURS 516A Care of Adults with Chronic Cardiopulmonary Problems (3)
- NURS 520 Seminar: Advanced Care of Adults with Chronic Health Problems (3)
- NURS 517 Practicum: Advanced Care of Adults with Chronic Health Problems (4)
- NURS 522C Primary Care of Adolescents (2)

Electives: (4 units)

THESIS: If selected this adds an additional 5 units to the program.

ACUTE CARE NURSE PRACTITIONER:

ADULT CARDIOPULMONARY OPTION

(Minimum 58.5 units)

Required Advanced Nursing Practice Core Courses (24 units)

Required Option Courses: (30.5 units)

- NURS 498 Advanced Cooperative Education (0.5)
- NURS 514A Monitoring and Therapeutics for Cardiopulmonary Patients (4)
- NURS 514B Management of Adults with Cardiopulmonary Problems (5)
- NURS 515A Advanced Therapeutics Practicum (4)
- NURS 515B Cardiopulmonary Acute Care Nurse Practitioner Practicum (4)
- NURS 515A Care of Adults with Chronic Cardiopulmonary Problems (3)
- NURS 516B Care of Adults with Chronic and Acute Episodic Health Care Problems (4)
- NURS 517 Care of Adults with Chronic Health Problems Practicum (4)
- NURS 556B Cardiopulmonary Physiology and Patho Physiology for Advanced Practice Nurses (2)

Electives: (4 units)

THESIS: If selected this adds an additional 5 units to the program.

ACUTE CARE NURSE PRACTITIONER: PEDIATRIC CRITICAL CARE OPTION (Minimum 58.5 units)

Required Advanced Nursing Practice Core Courses (24 units)

Required Option Courses: (30.5 units)

- NURS 498 Advanced Cooperative Education (0.5)
- NURS 522B Primary Care of Children with Chronic Health Problems (4)
- NURS 530A Management of the Child with Cardiopulmonary Hematology/Oncology Problems (5)
- NURS 530B Management of the Child with Gastrointestinal Renal Problems (3)
- NURS 530C Management of the Child With Trauma/ Burns and Neurological Problems (4)
- NURS 531A Cardiopulmonary/Hematology/Oncology Pediatric Acute Care NP Practicum (4)
- NURS 531B Gastrointestinal/Renal Pediatric Acute Care NP Practicum (4)
- NURS 531C Neurological/Trauma/ Burns Pediatric Acute Care NP Practicum (4)
- NURS 532 Child and Family Adaptation to Illness (2)

Electives: (4 units)

THESIS: If selected, this adds an additional 5 units to the program.

Comprehensive Examination or Thesis or Project (0-5 units)

- NURS 596 Comprehensive Examination (0-5 units) or
NURS 597 Graduate Research (2) plus
NURS 599 Thesis Project (3)

Students who select the comprehensive examination (NURS 596) must complete all required nursing courses prior to taking exam and must comply with school and departmental requirements.

Students who elect the thesis project option (NURS 599) must complete 2 units of NURS 597 prior to the required units of NURS 599 and must comply with University, school and department policies and procedures regarding thesis.

Certificate Program in Pediatric Nurse Practitioner (PNP)

The Department of Nursing offers a credit certificate program for those who have a master’s degree in nursing and who would like to take courses within the Pediatric Nurse Practitioner Program (PNP). Those completing the certificate program qualify as nurse practitioners within the state of California. They would also be eligible to sit for the National Certification Examination.

Admission Requirements

The admission requirements for the program are:

- Current California Registered Nurse License
- Master’s degree in Nursing (MSN or MN)
- Recent physical assessment course
- One year clinical practice working with children

Requirements for Award of the Certificate

Students will qualify for award of the pediatric nurse practitioner post-master’s certificate after they have successfully completed the specialty program courses. This program consists of 42.5 to 46.5 units of theory and clinical practice in the following two areas:

- Seminar courses 23-27 units, depending on if they have already taken advanced pathophysiology (4 units), and;
- Clinical practice courses 19.5 units.

Required courses for the Certificate

**Advanced Clinical Area (7 units)**

NURS 572A Advanced Health Assessment and Health Promotion (4)
NURS 573B Advanced Health Assessment and Health Promotion Practicum (3)

**Functional Area (32.5 units)**

NURS 498 Advanced Cooperative Education (1.5)
NURS 522A Primary Care of Children with Acute Health Problems (4)
NURS 522B Primary Care of Children with Chronic Health Problems (4)
NURS 522C Primary Care of Adolescents (2)
NURS 523A Primary Care Practicum: Children with Acute Illness (3)
NURS 523B Primary Care Practicum: Children with Chronic Illness (3)
NURS 523C Primary Care Practicum: Adolescents (3)
NURS 524 Care of Vulnerable Populations (4)
NURS 525 Vulnerable Populations Practicum (1-2)
NURS 529 Advanced Pediatrics Clinical Practicum (3)

**Electives (3-7 Units)**

NURS 528 Advanced Pharmacology (3)
*NURS 566A Advanced Pathophysiology (4)

*This requirement deleted if course taken already.

These courses are all offered through Nursing. The offering of these courses is contingent upon extramural funding.

Health Services Credential: School Nurse Services

State of California credential requirements for a clear Health Services credential include a fifth year of study, completed after the baccalaureate. The fifth year consists of a minimum of 45 quarter units beyond the baccalaureate for a Professional Credential in Health Services for School Nurse. This program leads to certification as a school nurse for professional employment in California public schools.

School nurse candidates must be employed as a school nurse in the California public schools for two years full-time or the equivalent in part-time employment under the supervision of a credentialed school nurse. Candidates must request letters of recommendation from their immediate supervisors confirming employment and satisfactory performance. Candidates must also have a supervised, guided, and evaluated clinical practicum with a credentialed school nurse preceptor in elementary, secondary, and special education program settings with multicultural and multiethnic individuals.

Requirements for the Credential (45 units)

**Required Courses (36-37 units)**

NURS 372 Health Assessment and Promotion Across the Life Span (4)
NURS 373 Health Assessment and Promotion Across the Life-Span Laboratory (2)
NURS 423 Nursing in School Health Programs Clinical Laboratory (6)
NURS 426 Nursing Management in Public Schools (4)
NURS 428 Nursing Assessment in Public Schools (4)
COMD 440 School Audiometry (4)
COUN 480 Fundamentals of Counseling (4) or
NURS 442 Assisting Strategies in Psychosocial Nursing (3) or
NURS 456 Crisis Theory: Mental Health Promotion (3)
EDSP 400 Education and Psychology of Exceptional Individuals (4)
HS 456 Health Studies on Alcohol, Narcotics, Nutrition, and Tobacco (4)
HS 490 Administration of School Health Programs (3)

**Required Electives**

Students select the remainder of the courses from at least two disciplines on the list below to allow flexibility in meeting individual professional needs and goals for their own specific public school nurse practice.

**Selected Electives**

ANTH 443, 444 ART 410
CHDV 420, 423, 425 COMD 400, 401, 402, 457
COUN 403, 405A, 406, 460 CRIM 439
EDAD 509, 510 EDIT 452, 453, 456
EDFN 438, 452
EDSP 408, 412, 430, 431AB, 440, 460, 462, 465, 515
HS 455 NTRS 413, 416
PHIL 491 PSY 403, 412A, 412B
SOC 425, 460, 482 SPCH 489
SW 456, 476

Four units selected from:

CHIN 100ABC, 101ABC, SPAN 110
Courses in Nursing (NURS) 400-level Courses

All 400-level courses may be applied toward master’s degree requirements, subject to limits established by the department and approval of the graduate adviser.

Graduate Courses

Classified graduate standing is required for admission.

500 Qualitative Nursing Research Evaluation (2)
Prerequisite: NURS 592. Critique of selected qualitative nursing studies; research problems, theories, designs, and instruments; alternative interpretations of findings explored.

502 Role Development of the Advanced Practice Nurse (2)
Prerequisite: Admission into graduate program in nursing or consent of instructor. Examination of advanced nursing practice roles within acute and primary care settings; critical analysis of issues related to legal scope of practice, licensure, certification, quality improvement, and reimbursement.

506A Advanced Nurse Case Management Strategies I (4)
Prerequisites: NURS 502, 524, 566A, and 572A or consent of instructor. Corequisite: NURS 595. Analysis of theories related to interrelationship of the biopsychosocial components of and the human responses to acute and chronic illness and the development of nurse case management strategies and intervention.

506B Advanced Nurse Case Management Strategies II (4)
Prerequisite or corequisite: NURS 506A. Corequisite: NURS 595. Advanced adult patient management and other professional collaborative strategies used by nurse case managers in acute, outpatient, and community-based settings.

512A Primary Care of Adults with Acute Health Problems (4)
Prerequisite: NURS 572B. Theories and research related to health promotion and disease prevention, assessment, differential diagnosis, management, and education of adults with acute, episodic health problems in ambulatory care clinics.

512B Care of Aging Adults (2)
Prerequisite: Admission to graduate program in nursing or consent of instructor. Theory and research related to assessment, diagnosis, and management of problems specific to aging clients with emphasis on socioeconomic, political, environmental, and cultural influences affecting care of the elderly.

513A Practicum: Primary Care of Adults with Acute Health Problems (4)
Prerequisite: NURS 573B. Clinical application of theory and research of health care to adult clients with acute, episodic health problems in ambulatory care clinics.

513B Care of Aging Adults Practicum (4)
Prerequisite: NURS 513A. Corequisite: NURS 512B. Assessment, diagnosis, management and education/counseling of aging clients in outpatient clinics and long-term care facilities with an emphasis on clinical decision-making, health promotion, and disease complication prevention.

514A Monitoring and Therapeutics for Cardiopulmonary Patients (4)
Corequisite: NURS 515A. Theoretical and research-based strategies for making clinical decisions regarding diagnostic testing. Technologically-based monitoring modalities and therapeutic treatments utilized by advanced practice nurses for acutely ill cardiopulmonary clients.

514B Management of Adults with Cardiopulmonary Problems (5)
Prerequisite: NURS 514A. Corequisite: NURS 515B. Theoretical and practical basis for acute care nurse practitioner management and evaluation of hospitalized adult clients with acute dysfunction of the cardiorespiratory systems.

515A Advanced Therapeutics Practicum (4)
Corequisite: NURS 514A. Application of theoretical and research-based strategies for diagnostic tests, monitoring modalities, and therapeutic treatments for clients with complex cardiopulmonary dysfunction.

515B Cardiopulmonary Acute Care Nurse Practitioner Practicum (4)
Prerequisite: NURS 515A. Corequisite: NURS 514B. Hospital-based management of multifaceted, complex cardiopulmonary patients with an emphasis on clinical decision-making, interventions and evaluation strategies related to client/family outcomes, quality improvement, and resource management.

516A Care of Adults with Chronic Cardiopulmonary Problems (3)
Prerequisite: NURS 573B. Assessment, differential diagnosis, management, and education/counseling of adults and families with chronic stable cardiopulmonary disease with an emphasis on lifestyle change, health promotion, and disease prevention strategies.

516B Care of Adults with Chronic and Acute Episodic Health Care Problems (4)
Prerequisite: NURS 573B. Health promotion, disease prevention, assessment, differential diagnosis, management, and education of hospitalized adults with underlying cardiopulmonary disease and/or additional episodic/chronic health problems.

517 Care of Adults with Chronic Health Problems Practicum (4)
Prerequisite: NURS 573B. Corequisite: NURS 516A. Clinical application of assessment, diagnosis, management, and education/counseling of adults with chronic health problems with an emphasis on lifestyle change, health promotion, and disease prevention in the students' selected specialty.

520 Care of Adults with Chronic Health Problems (3)
Corequisite: NURS 516A. Assessment, differential diagnosis, management, and education/counseling of adults and families with chronic health problems with an emphasis on lifestyle change, health promotion, and disease complication prevention.

522A Primary Care of Children with Acute Health Problems (4)
Prerequisite: NURS 572A. Corequisite: NURS 523A. Assessment, diagnosis and management of children with acute health problems and of their families, within primary care settings; health promotion, disease prevention, and multi-dimensional problems management strategies.
522B Primary Care of Children with Chronic Health Problems (4)
Prerequisite: NURS 573B or NURS 522A. Assessment, diagnosis and management of children with chronic health problems and of their families, within primary care settings; health promotion, disease prevention, and multidimensional problems; management strategies.

522C Primary Care of Adolescents (2)
Prerequisite: NURS 573B. Corequisite: NURS 523C. Assessment, diagnosis, management of adolescents with special health problems and their families within primary care settings; health promotion, disease prevention, and multidimensional problems; management strategies.

523A Primary Care Practicum: Children with Acute Illness (3)
Corequisite: NURS 522A. Application of assessment knowledge and skills to appraise children and their families’ health status; identification of acute health problems within primary care settings; management using multidimensional intervention strategies. Graded CR/NC.

523B Primary Care Practicum: Children with Chronic Illness (3)
Corequisite: NURS 522B. Application of knowledge and skills to appraise children and their families’ health status; identification of chronic health problems within primary care settings, management using multidimensional intervention strategies. Graded CR/NC.

523C Primary Care Practicum: Adolescents (3)
Corequisite: NURS 522C. Application of assessment knowledge and skills to appraise adolescents’ and their families’ health status within primary care settings. Identification of health problems, management using multidimensional intervention strategies. Graded CR/NC.

524 Care of Vulnerable Populations (4)
Prerequisite: Admission to graduate program in nursing or consent of instructor. Examination of major health problems of vulnerable children, adults, and families from urban, underserved communities; assessment of risk factors; exploration of multidimensional, culturally-sensitive intervention strategies.

525 Vulnerable Populations Practicum (1-2)
Corequisite: NURS 524. Application of epidemiological model and provision of health care to clients from selected vulnerable populations. Identification of program deficiencies and programmatic changes to address needs. Graded CR/NC. Must complete 2 units in either one or two quarters.

528 Advanced Pharmacology (3)
Prerequisite: Admission to master’s program in nursing. Pharmacokinetic principles and pharmacotherapeutic agents for promotion, prevention, diagnosis, and treatment of common client conditions encountered in primary care setting.

529 Advanced Pediatrics Clinical Practicum (3)
Prerequisites: NURS 522C, 524. A preceptor clinical practicum designed to enhance the application of theory and acquisition of clinical skills in pediatric primary care settings. Graded CR/NC.

530A Management of the Child with Cardiopulmonary /Hematology/Oncology Problems (5)
Prerequisite: NURS 573B. Theoretical and practical basis for management of children with cardiopulmonary and hematologic illnesses; management of the child with cancer.

530B Management of the Child with Gastrointestinal Renal Problems (3)
Prerequisite: NURS 530A. Theoretical and practical basis for management of children with acute dysfunction of gastrointestinal and renal systems.

530C Management of the Child with Trauma/Burns and Neurological Problems (4)
Prerequisite: NURS 530B. Theoretical and practical basis for management and evaluation of children with acute dysfunction of neurological system and/or suffering from trauma/burns.

531A Cardiopulmonary/Hematology/Oncology Pediatric Acute Care Nurse Practitioner Practicum (4)
Prerequisite: NURS 573B. Corequisite: NURS 530A. Management of children with multifaceted, complex cardiopulmonary, hematologic, and oncology problems; emphasis on clinical decision-making, interventions and evaluation strategies related to child/family outcomes in pediatric health care settings.

531B Gastrointestinal/Renal Pediatric Acute Care Nurse Practitioner Practicum (4)
Prerequisite: NURS 531A. Corequisite: NURS 530B. Management of children with multifaceted, complex gastrointestinal and renal dysfunction; emphasis on clinical decision-making, interventions, and evaluation strategies related to child/family outcomes in pediatric health care settings.

531C Neurological/Trauma/Burns Pediatric Acute Care Nurse Practitioner Practicum (4)
Prerequisite: NURS 531B. Corequisite: NURS 530C. Management of children with trauma, burns and neurological problems; emphasis on clinical decision-making, interventions, and evaluation strategies related to child/family outcomes in pediatric health care settings.

532 Child and Family Adaptation to Illness (2)
Prerequisite: Admission to graduate program in nursing or consent of instructor. Theoretical base for identifying and strengthening physiological and psychological coping behaviors of the seriously ill or disabled child and family in pediatric health care settings.

542ABC Seminar: Psychiatric Mental Health Nursing (2, 2, 2)
Corequisite: NURS 598. Study and analysis of theories of psychotherapy, family therapy and group therapy; development of eclectic models; application of appropriate models to development of psychiatric/mental health nursing interventions.

560A Development of Educational Programs in Nursing I (3)
Prerequisites: EDFN 510; NURS 592. Development of nursing educational programs in collegiate, staff development and client settings; roles of nurse educator including instruction and evaluation roles.

560B Development of Education Programs in Nursing II (3)
Prerequisites: EDFN 510; NURS 560A, NURS 592 Development of nursing educational program in collegiate, staff develop-
ment and client settings; conceptual models for organization of nursing curricula; issues and trends in nursing education.

562 Human Resource Utilization in Health Care Organizations (2)

564 Seminar: Health Care Administration (2)
Corequisite: NURS 595. Administrative issues in health care settings: goal complexity, power distribution, administrative-professional conflict, decision-making process, introduction of change; systems concept as assessment tool; interdependence of management team members in a health agency.

566A Advanced Pathophysiology (3)
Prerequisite: Admission to graduate program in nursing or consent of instructor. Physical disease processes within human body; body's adaptive physiologic mechanisms resulting from pathophysiologic alterations; rationale for clinical intervention.

566B Cardiopulmonary Physiology and Pathophysiology for Advanced Practice Nurses (2)
Prerequisite: Admission to graduate program in nursing and consent of instructor. Physiological and pathophysiological concepts that serve as foundation for assessment and management of clients with complex disorders of the cardiovascular and pulmonary systems.

572A Advanced Health Assessment and Health Promotion (4)
Prerequisite: NURS 566A. Corequisite: NURS 573A. Advanced health assessment of clients from holistic and contextual perspectives; analysis of physical, psychosocial, developmental, and environmental needs and processes of clients across the life span. Major health promotion strategies.

572B Developmental Assessment and Health Promotion (2)
Corequisite: NURS 572A. Developmental theories and tasks, nursing assessment strategies and health promotion in clients across the life span, as appropriate for advanced practice nurses.

573A Advanced Health Assessment and Health Promotion Laboratory (1)
Corequisite: NURS 572A. Clinical application of theory and research focusing on advanced assessment skills essential to practice in students' area of specialization.

573B Advanced Health Assessment and Health Promotion Practicum (3)
Prerequisite: NURS 573A. Application of advanced comprehensive health assessment and health promotion knowledge and skills to clients in selected adult or pediatric inpatient and/or outpatient clinical settings.

590 Quantitative Nursing Research Methods (4)
Prerequisite: NURS 592. Concepts and issues related to quantitative research design and measurement; development of hypothetical program evaluation or nursing research projects.

592 Theoretical Basis of Nursing Research and Practice (4)
Prerequisites: NURS 490 or equivalent and 4-unit statistics course. Theory, research and practice relationships through analysis and evaluation of theories, generation of research prob-

594 Decision-Making in Nursing and Health Care Policy (4)
Prerequisite: Admission to graduate program or consent of instructor. Nursing clinical inference and decision-making based on ethical, economical, legal, political and professional considerations; review of health policy and role of nursing in changing health care delivery system.

595 Advanced Field Study (2-6)
Corequisites: One NURS seminar selected from 506ABC, 542ABC, 560, 564, or enrollment in MS-Health Care Management program. Experience in specialized clinical and functional areas assigned on an individual basis. Weekly tutorial sessions required for student-teacher synthesis of data from concurrent seminar and field experience. Graded CR/NC.

597 Graduate Research (1-4)
Prerequisites: NURS 590, instructor consent to act as sponsor. Independent research under guidance of faculty sponsor. May be repeated for credit. Graded CR/NR only.

598 Graduate Directed Study (1-4)
Prerequisite: Instructor consent to act as sponsor. Directed study of advanced topics in field; regularly scheduled conferences with sponsor. May be repeated to maximum of 8 units.

599 Thesis or Project (1-3)
Prerequisites: Advancement to candidacy, two units of NURS 597, instructor consent to act as sponsor, departmental approval of topic prior to registration. Independent research resulting in a thesis or project. Must be repeated to maximum of 3 units. Graded CR/NC.
**PHYSICAL EDUCATION**

**School of Health and Human Services**

DEPARTMENT OFFICE  
Physical Education 206  
Phone: (213) 343-4650

The Master of Arts degree in Physical Education focuses on problem-solving through knowledge and application of research process and familiarity with professional literature. The program emphasizes marketable skills and a foundation for doctoral study. Graduate study in physical education provides depth of knowledge in the options while providing opportunities for greater breadth in related disciplines.

**Master of Arts Degree in Physical Education**

**Admission to the Program**

Applicants must have adequate undergraduate preparation in physical education and a minimum 2.75 grade point average in the last 90 quarter units.

**Requirements for the Degree (45 units)**

A total of 45 units is required, with at least 23 in 500-level courses.  

PE 330 (4 units) is required of all students for advancement to candidacy.  

PE 502 must be successfully completed within the first 12 units of course work in the degree program, and is recommended to be completed in the first quarter of initial enrollment.

**Required Courses (12 units)**

**Electives (13 units)**

Select with adviser approval.

**Courses in Physical Education (PE)**

**400-level Courses**

All 400-level courses may be applied toward master's degree requirements except the following, subject to limits established by department and approval of graduate adviser: PE 498, 499

**Graduate Courses**

Classified graduate standing is required for admission.

**502 Research Design in Human Performance (4)**

Prerequisite: Undergraduate major or minor in physical education. Must be completed within first 12 units of the students approved program. Analysis, evaluation, and interpretation of research studies and investigation in physical education. Seminar 3 hours, laboratory 3 hours.

**503 Applied Statistics in Human Performance (4)**

Prerequisites: PE 330, 502. Analysis of variables related to human performance, application of statistical procedures in basic research design. Lecture 3 hours, laboratory 3 hours.

**505 Measurement and Evaluation in Physical Education (4)**

Application of advanced level measurement techniques and statistical procedures used in physical education and field measurements of physical fitness parameters. Emphasis on development of measurement procedures, tests and establishing norms. Lecture 3 hours, laboratory 3 hours.

**507 Sport in a Multicultural Society (4)**

An examination of sport and physical activity as a cultural phenomenon with emphasis on diverse populations in an urban setting. Seminar 3 hours, laboratory 3 hours.

**510 Effective Teaching in Physical Education: Research, Assessment and Development (3)**

Prerequisite recommended: EDSE 521. An examination of the content of effective teaching, recent research and development literature in both assessment, alternative models for data analysis, inference, and results of research in physical education teaching.

**513 Staff and Organizational Development in Physical Education (3)**

The school as a social setting, and the processes through which it functions, with particular reference to the physical education curriculum.
514 Analysis and Supervision of Physical Education (3)
Prerequisite recommended: EDSE 520. Models of educational supervision and the possible use of these models in physical education programs. Informal and formal tools of sport pedagogy such as systematic observation will be covered.

515 Seminar: Program Planning in Physical Education (3)
Prerequisite or corequisite: PE 502. History, background, philosophy, and current types of instructional programs in physical education at elementary and secondary school levels; methods of planning functional physical education curricula.

518 Behavior Management in Physical Education (3)
Prerequisites recommended: COUN 501; PE 502, 510. Clarification of personal attitudes and values relating to class behavior management, discipline and behaviors affecting students in physical education.

521 Seminar: Physical Conditioning (3)
Prerequisite or corequisite: PE 502. Various methods of physical conditioning for physical education programs at elementary, secondary, and college levels. Lecture 2 hours, laboratory 3 hours.

522 Seminar: Exercise in Stressful Environments (3)
Prerequisites: PE 360, 502 (may be taken concurrently). Capacity to exercise in environments of heat, cold, air pollution, altitude, air and water pressure; adaptation techniques during exercise.

528 Seminar: Motor Learning (3)

532 Concepts of Sensory-Motor Processes (4)
Prerequisites: PE 450, 502 (may be taken concurrently). Neuro-physiological concepts of sensory-motor processes; theoretical models, assessment techniques, practical applications for exceptional individuals. Lecture 3 hours, laboratory 2 hours.

535 Leadership Perspective of Adapted PE (3)
Prerequisite or corequisite: PE 502. Advanced techniques for staff, program, curriculum development in adapted physical education; effect of current legislation on role of adapted physical educator; design and development of curricular materials; staff development.

538 Seminar: Problems in Adapted PE (3)
Prerequisites: PE 450, 502 (may be taken concurrently). Individual investigation of problems in administration, supervision, instruction, curriculum, evaluation of adapted physical education.

547 Seminar: Selected Topics in Physical Education and Human Performance (3-4)
Advanced study of selected contemporary topics in physical education and human performance. May be repeated to maximum of 16 units as topic changes.

570 Neuromuscular Aspects of Physical Performance (4)
Prerequisites: PE 330, 360, 474A. Neuromuscular factors involved in human movement. Special emphasis upon the nervous and muscular systems related to the expression and enhancement of muscular strength, endurance and power. Lecture 3 hours, laboratory 3 hours.

571 Cardiorespiratory Aspects of Physical Performance (4)
Prerequisite: PE 570. In-depth analysis of the functions of cardiovascular and pulmonary systems during rest, physical performance and recovery, and their adaptation to exercise training. Seminar 3 hours, laboratory 3 hours.

572 Exercise Prescription for Special Population (3)
Prerequisite: PE 475. Examination of the physiological responses and adaptations to exercise of special populations. Includes exercise testing and prescription. Emphasis on exercise limitations and responses which differ from the normal populations.

573 Exercise Intervention in Cardiac Rehabilitation (3)
Prerequisite: PE 475. Development and administration of cardiac rehabilitation programs with a special emphasis on exercise testing, prescription, and training of cardiac patients in outpatient phases.

598 Graduate Directed Study (1-3)
Prerequisites: PE 502, instructor consent to act as sponsor. Independent study of advanced topics in field; regular conferences with sponsor. May be repeated to maximum of 9 units. Graded CR/NC.

599 Thesis or Project (1-8)
Prerequisites: Advancement to candidacy, instructor consent to act as sponsor. Independent research resulting in a thesis or project. Must be repeated to maximum of 6 units. Graded CR/NC.

Graduate Writing Skills Requirement

The policy governing the Graduate Writing Skills Requirement for the School of Natural and Social Sciences differs somewhat from the overall University policy. The school policy is as follows:

All students admitted to a graduate program in the School of Natural and Social Sciences who have not passed UNIV 400, the Writing Proficiency Examination (WPE), before beginning their graduate studies are encouraged to take the examination in their first quarter in residence as postbaccalaureate students. Students must pass the WPE before the end of their second quarter in residence as postbaccalaureate students. Those who do not pass the WPE before the end of their second quarter in residence will be suspended from further work on their programs until they have passed the examination.

Students who are applying for admission by special action to a graduate program in the School of Natural and Social Sciences must pass the WPE before submitting their application for admission by special action.

Graduate students who are readmitted to a graduate program within the School of Natural and Social Sciences at Cal State L.A. after a break in residence and who have not passed the WPE must pass the exam in their first quarter in residence after readmission to the program or they will be suspended from further work on their program until they have passed the exam.
The M.A.-Anthropology degree provides training in five areas: culture theory, ethnography, archaeology, linguistics, and physical anthropology.

**Master of Arts Degree**

**Admission to the Program**

Applicants must have a baccalaureate in anthropology and a 2.75 grade point average in the last 90 quarter units attempted or a B (3.0) grade point average in anthropology courses. Those whose undergraduate major was not anthropology must complete 20-32 units in anthropology, including ANTH 497, with a B average. Students' actual number of units required is determined in a qualifying conference during their first quarter of postbaccalaureate study.

**Requirements for the Degree (45 units)**

A total of 45 units is required, with at least 23 in 500-level courses.

**Language, Linguistic, or Statistics Proficiency**

All students must have a reading or speaking knowledge of a relevant research language or demonstrate proficiency in the linguistic analysis of a language approved by the department or in statistics. Students must satisfy this requirement before they may attempt the comprehensive examination or submit a thesis. Language proficiency is demonstrated by passing a foreign language reading examination administered by the Department of Foreign Languages and Literatures. Statistics proficiency is demonstrated by a B or higher grade in POLS 480, PSY 414, or SOC 410.

**Required Courses (8 units)**

ANTH 510AB Seminar: Anthropological Theory and Analysis (4, 4) (grade B or better required for continuance in program)

**Electives (31-37 units)**

Select from 400 and 500-level anthropology courses, including at least four different 500-level courses. A maximum of 8 units in a related field may be included with prior adviser consent. Total must include 6 units of ANTH 599 if thesis option is elected.

**Comprehensive Examination or Thesis (0, 6 units)**

ANTH 596 Comprehensive Examination (0) or ANTH 599 Thesis (6)

Students who select the comprehensive examination (ANTH 596) should expect to take it no earlier than the quarter they complete all course work on their program and must comply with school and department requirements. Examinations are required in culture theory and two of the following areas: archaeology, ethnography, linguistics, physical anthropology. Students who write a thesis must have successive enrollments in ANTH 599 for a total of 6 units.

**Courses in Anthropology (ANTH)**

**400-level Courses**

All 400-level courses may be applied toward master's degree requirements except the following, subject to limits established by department and approval of graduate adviser: ANTH 497

**Graduate Courses**

*Classified graduate standing is required for admission.*

**501 Seminar: Ethnography (4)**
Prerequisites: Graduate standing in a social science major, instructor consent. Selected topics in major world areas, as announced in **Schedule of Classes**. May be repeated for credit to maximum of 8 units for different areas.

**510AB Seminar: Anthropological Theory and Analysis (4, 4)**
Advanced consideration of problems involved in application of anthropological theory to cultural data; limitations of contemporary analytical methods.

**520 Seminar: Archaeology (4)**
Prerequisite: ANTH 421, 424, or 425. Archaeological theory, method, and relationship of archaeological materials to central problems of anthropology. May be repeated once for credit.

**530 Seminar: Social Organization (4)**
Prerequisite: Classified graduate standing in anthropology. Problems and theories of contemporary social anthropology. May be repeated once for credit.

**560 Seminar: Physical Anthropology (4)**
Prerequisite: ANTH 461 or 462. Problems and theories of contemporary physical anthropology. May be repeated once for credit.

**570 Seminar: Language and Culture (4)**
Prerequisites: Sixteen units of ANTH courses, including 470 or 471. Advanced study of concepts of language and culture; use of linguistic data and methods in anthropology; relationships between linguistic and nonlinguistic behavior; linguistic models. May be repeated for credit.

**580 Methods in Ethnography (5)**
Prerequisite: Classified graduate standing in anthropology. Advanced principles and methods concerned with ethnographic field work; techniques of gathering, reporting, and interpreting field data relating to research problems and design. May be repeated once for credit. Lecture 3 hours, laboratory and field work 6 hours.

**594 Seminar: Problems in Cultural Anthropology (4)**
Prerequisite: Classified graduate standing in anthropology. Problems and theories of contemporary cultural anthropology. May be repeated once for credit.

**598 Graduate Directed Study (1-4)**
Prerequisite: Instructor consent to act as sponsor. Independent study of advanced topics in field; regular conferences with sponsor. May be repeated to maximum of 8 units.

**599 Thesis (13)**
Prerequisites: Advancement to candidacy, instructor consent to act as sponsor, departmental approval of topic prior to registration. Independent research resulting in a thesis. Must be repeated to total of 6 units. Graded CR/NC.
BIOLOGY

School of Natural and Social Sciences

GRADUATE PROGRAM OFFICE
Biological Science 140
Phone: (213) 343-2030

The Master of Science degree in Biology is designed to prepare students for biological research, doctoral study, technical positions in university, hospital and public health laboratories, industry and government agencies, and community college teaching. Graduate students may pursue the degree in any of the following areas of specialization: animal physiology, aquatic biology, cell biology, developmental biology, ecology, electron microscopy, entomology, environmental biology, evolution, genetic engineering, genetics, histology and anatomy, invertebrate zoology, microbiology, molecular biology, physiological ecology, plant anatomy, plant physiology, plant taxonomy, tissue culture, or vertebrate zoology.

Master of Science Degree in Biology

Admission to the Program

Application to the Department of Biology and Microbiology and the University is required. The completed departmental application, together with transcripts of all previous college work and three letters of recommendation, must be received by the department prior to the following deadlines:

- August 1 for admission to Fall Quarter
- November 1 for admission to Winter Quarter
- February 1 for admission to Spring Quarter
- April 1 for Summer Quarter.

Applicants who desire a teaching assistantship must also submit three letters of recommendation by the same deadline.

Applicants are expected to possess a baccalaureate in a biological science, including microbiology, bacteriology or medical technology, equivalent to the Bachelor of Science degree offered at Cal State L.A. Applicants may be admitted to the degree program in classified or conditionally classified standing. Classified standing is granted to those who have a minimum 2.75 grade point average in their last 90 quarter units attempted. Conditionally classified standing is granted to those whose grade point average in their last 90 quarter units attempted is between 2.5 and 2.74. Conditionally classified students must achieve a B (3.0) grade point average in four qualifying courses (to be approved in advance by the graduate adviser) that should be completed by the end of their second quarter of graduate study and must be among the first six courses completed.

Applicants who wish to enter the program from outside the biological science area must complete the following courses (or equivalents) to be eligible for graduate status in the Biology and Microbiology Department:

- BIOL 101-103 Principles of Biology (5, 5, 4)
- BIOL 300 Biometrics (4)
- BIOL 340 General Genetics (4)
- BIOL 360 General Ecology (4)
- BIOL 380 Cell Biology (4)
- CHEM 101-103 General Chemistry I, II, III (5, 5, 5)
- CHEM 301ABC Organic Chemistry (3, 3, 3)
- CHEM 302AB Organic Chemistry Laboratory (2, 2)

PHYS 101-103 Physics (4, 4, 4)

Requirements for the Degree (45 units)

A minimum of 45 units is required, with at least 23 in 500-level courses. A thesis is required. All students must take BIOL 510 (Seminar: Biology) twice during their first year in classified graduate standing. Students also must fulfill all University requirements including the Graduation Writing Assessment Requirement (GWAR). All students must present their thesis research in a department seminar.

The M.S. degree requires a minimum of 22 units of 400 or 500-level elective courses in biology or related fields. These courses are selected in consultation with an adviser and should provide the student with the necessary background for thesis research.

The M.S. degree also requires a minimum of two graduate seminar courses (3 units each) in addition to BIOL 510 (1, 1) and one of the following options:

- BIOL 595 Individual Research in Gene Manipulation (4)
- BIOL 597 Graduate Research (1-6)
- BIOL 599 Thesis (9) or
- BIOL 597 Graduate Research (6)
- BIOL 599 Thesis (9)

Before enrolling in BIOL 597 and 599, students prepare a research prospectus and have it approved by their examining committee and the departmental graduate studies committee. This prospectus must be approved within three quarters of the date they receive classified graduate standing in order for them to remain eligible for assistantships.

Before being awarded the MS. degree, students must pass a final oral examination administered by the thesis committee and the Department of Biology and Microbiology and must present their thesis research at a department seminar.

Certificate Program in Biotechnology

This postbaccalaureate credit certificate program provides intensive theoretical and laboratory training in the techniques and application of genetic engineering and related technologies. The program is designed to prepare students for employment in industrial or academic research positions or for advanced study in molecular biology. Courses taken to fulfill certificate requirements may also be applied toward the master’s degree in biology.

The certificate program requires completion of a minimum of 26 units, taken in postbaccalaureate or graduate standing, of which 19 are in required courses and seven or more are in electives. Refer to the Graduate Study chapter of this catalog for general information governing all certificate programs.

Prerequisites for admission to the program:

- Admission, in classified graduate standing, to the Department of Biology and Microbiology or the Department of Chemistry and Biochemistry;
Electives (minimum 7 units)
Select from following; include no more than 6 units in seminars.

- BIOL 416 Molecular Genetics (4)
- BIOL 437 Advanced Cell Physiology (4)
- BIOL 515 Seminar: Genetics (3)
- BIOL 516 Microbial Genetics (3)
- BIOL 525 Seminar: Developmental Biology (3)
- BIOL 539 Seminar: Cell Biology (3)
- CHEM 432AB Biochemistry Laboratory (2, 2)
- CHEM 503 Advanced Biochemistry (3)
- MICR 401 General Virology (3)
- MICR 402 Virology Laboratory (2)
- MICR 430 Bacterial Physiology (3)
- MICR 433 Bacterial Physiology Laboratory (2)

Courses in Biology (BIOL)

400-level Courses
All 400-level courses may be applied toward master’s degree requirements except the following, subject to limits established by the department and approval of the graduate adviser: BIOL 499 and all courses with the suffix N.

Graduate Courses

Classified graduate standing is required for admission.

501 Seminar: Development of Biological Concepts (3)
Impact of great concepts in biological science on human thought and activities and on present day understanding. May be repeated once for credit as subject matter changes.

503 Seminar: Special Topics in Microbiology (3)
Prerequisite: Instructor consent. Special topics of current interest in microbiology as announced in Schedule of Classes. May be repeated, as subject matter changes, to maximum of 9 units.

510 Seminar: Biology (1)
Attendance at regular departmental seminar program: participation in seminar training program with course instructor; presentation of a departmental seminar. Graded CR/NC.

515 Seminar: Genetics (3)
Prerequisite: BIOL 315. Recent developments in various fields of genetics. May be repeated once for credit as subject matter changes.

516 Microbial Genetics (3)
Prerequisites: MICR 200AB; BIOL 315. Concepts of microbial genetics, including dissociation, transformation, transduction, gene transfer, and biochemical mutation; laboratory techniques, practical aspects such as antibiotic resistance. Lecture 3 hours.

517 Seminar: Gene Manipulation (3)
Prerequisites: BIOL 417; instructor consent. Critical evaluation and communication of recent literature in molecular biology. May be repeated to maximum of 6 units.

519 Genetic Engineering Laboratory (8)
Prerequisites: BIOL 417; BIOL 330 or MICR 200AB; CHEM 431ABC; instructor consent. Introduction to basic techniques. Lecture 2 hours, laboratory 18 hours.

520 Advanced Immunology (3)
Prerequisite: Consent of graduate adviser. Advanced principles and concepts in immunology, fundamental biological significance of the immune reaction.

522 Seminar: Morphology (3)
Advanced studies in animal or plant morphology, with emphasis on evolutionary and environmental adaptations. May be repeated to maximum of 6 units as topic changes.

525 Seminar: Developmental Biology (3)
Prerequisites: BIOL 330, instructor consent. Discussion of recent advances in the field of plant and/or animal embryonic and postembryonic development. May be repeated to maximum of 6 units as topic changes.

530 Advanced Microbial Physiology (3)
Prerequisite: Consent of graduate adviser. Biochemical aspects of microbial physiology and metabolism, with special emphasis on recent advances in field.

534 Seminar: Systems Physiology (3)
Prerequisite: BIOL 330. Advanced study in various areas of systems physiology. May be repeated to maximum of 6 units as subject matter changes.

537 Seminar: Endocrinology (3)
Prerequisite: BIOL 437. Discussion of current topics and trends in endocrine physiology. May be repeated to maximum of 6 units as subject matter changes.

538 Seminar: Environmental Physiology (3)
A course in animal or plant physiology. Mechanism and specialization of animals or plants as related to their environment. May be repeated once for credit as subject matter changes.

539 Seminar: Cell Biology (3)
Prerequisites: BIOL 330, CHEM 431C. Major cell functions considered primarily from standpoint of causative and control mechanisms. May be repeated once for credit as subject matter changes.

540 Seminar: Biological Systematics (3)
Prerequisites: A course in genetics, statistics, and either a botany or zoology systematics course. Fundamental concepts and problems in definition and recognition of species and higher taxa, and the special experimental or biometric techniques used.
May be repeated to maximum of 6 units as subject matter changes.

560 Topics in Animal Ecology (4)
Prerequisite: BIOL 360. Advanced studies in ecological relationships of animals; class, field and/or laboratory research projects involving data gathering, analysis and synthesis. May be repeated once for credit. Lecture 2 hours, laboratory/field work 6 hours.

562 Advanced Topics in Plant Ecology (3)
Prerequisite: BIOL 462. Analysis of selected plant communities to determine structure, pattern, and interrelationships; discussion of current theories, problems, and methods of vegetational sampling, analysis, and synthesis. Lecture 2 hours, laboratory and/or field work 3 hours.

563 Seminar: Ecology (3)
Prerequisite: BIOL 360. Recent advances and current research in ecology. May be repeated once for credit.

575 Seminar: Animal Behavior (3)
Prerequisite: BIOL 475 or PSY 408. Current topics in animal behavior, with emphasis on origin and ecological significance of behavioral patterns. May be repeated for credit to maximum of 6 units as subject matter changes.

580 Seminar: Microbiology (1)
Attendance at departmental seminar program; participation in seminar training; presentation of a satisfactory departmental seminar. Must be repeated to maximum of 3 units. Graded CR/NC.

595 Individual Research in Gene Manipulation (4)
Prerequisites: BIOL 517, 519. Laboratory research project conducted in approved on- or off-campus laboratory. Graded CR/NC.

597 Graduate Research (1-6)
Approval of program committee. Conducting research toward master’s degree. May be repeated to maximum of 6 units. Graded CR/NC.

599 Thesis (1-9)
Prerequisites: Advancement to candidacy, instructor consent to act as sponsor, departmental approval of topic prior to registration. Independent research resulting in thesis. May be repeated to maximum of 9 units. Graded CR/NC.
**CHEMISTRY AND BIOCHEMISTRY**

School of Natural and Social Sciences

DEPARTMENT OFFICE
Physical Science 616
Phone: (213) 343-2300

*The Graduate Program*

The objective of the thesis option and the biochemistry option in the Master of Science degree in Chemistry is to prepare students for employment in industry, teaching positions in community colleges, or more advanced study toward the Ph.D. degree.

The comprehensive examination option is intended for persons in industry or government who need to develop a more current understanding of chemistry and for other specific areas of chemical application in which an advanced degree is beneficial. The comprehensive examination option is not recommended for persons who wish to continue to a doctoral program in chemistry, nor for those who intend to upgrade their laboratory research capabilities significantly.

**Master of Science Degree in Chemistry**

*Admission to the Program*

Admission to the program requires a baccalaureate in chemistry or biochemistry from an accredited college or university or a baccalaureate in a related field with a strong background in chemistry. Applicants interested in the biochemistry option should have a preparation equivalent to that required for the Cal State L.A. baccalaureate in biochemistry, which includes, among other requirements, 10 units of introductory biology, 8 units of microbiology, and 11 units of upper division biology.

All applicants are required to have a 2.5 grade point average in their last 90 quarter units. Applications for any quarter must be submitted early in the previous quarter. Students must apply to both the department and the University.

*Placement Examinations*

All new graduate students must take a placement examination administered by the Department of Chemistry and Biochemistry at first registration. The examination covers physical, analytical, inorganic, and organic chemistry. For those specializing in biochemistry, examinations in biochemistry and biology replace those in analytical and inorganic chemistry. The time and place are announced by the department.

Students entering the program must take all placement examinations appropriate to their area. If students do not take an examination, it is presumed that they are not proficient in the particular area, and are then required to take the complete undergraduate sequence for that area as corequisite or qualifying courses. Students who do not take or do not pass an area examination may, upon approval by the principal graduate adviser, be allowed a second opportunity to take it the next time it is given.

*Requirements for the Degree (46 units)*

A total of 46 units is required for the degree. Both the thesis option program in chemistry and the option in biochemistry consist of required courses, electives, research (597) and thesis (599) with a minimum of 27 units in 500-level courses, including 597 and 599.

Of the remaining 19 units, students must take eight outside their area of specialization in chemistry.

The comprehensive examination option in chemistry consists of required courses, including advanced laboratory courses and elective courses, with a minimum of 23 units in 500-level courses. Students must comply with school and departmental requirements.

Each student program is designed with the assistance of a faculty adviser and the student's advisory committee.

*Additional Requirements*

Thesis option candidates must meet the following requirements:

- Submit a thesis, which must be approved by the Department of Chemistry and Biochemistry as a part of the program.
- Pass a final oral examination, primarily about the thesis, administered by the department.

Comprehensive examination option candidates must pass written examinations on the subjects of the required courses.

Students in the biochemistry option will not receive graduate credit for CHEM 431ABC or 432AB and will be allowed 14 units of electives outside the field of chemistry.

Students must select the required courses for chemistry, or for the biochemistry option, as appropriate; however, students who have previously completed the equivalent of any of these courses will not be required to repeat them.

- **Thesis Option (46 units)**

*Required Courses (16 units)*

Select one of the following pairs:

**CHEM 431ABC Biochemistry (3, 3, 3)** or **CHEM 501 Quantum Chemistry (4)** or **CHEM 503 Advanced Biochemistry (3, 3, 3)** or **CHEM 590 Advanced Laboratory (4)**

Select 4-6 units of advanced laboratory courses, with adviser approval, from the following:

- CHEM 462 Instrumental Analysis (6)
- CHEM 590 Advanced Laboratory (1-4)
- CHEM 597 Graduate Research (1-6)

*maximum 4 units applicable to program

**Electives (15-17 units)**

Select 15-17 units in chemistry from the following with adviser approval; include enough 500-level courses to meet department minimum of 27 units:

- CHEM 425, 432AB, 438, 440, 454L, P, 480, 503, 505, 590, 598.

Of the 15-17 elective units, a maximum of 9 may be outside chemistry with adviser approval.

**Comprehensive Examination (0 units)**

- CHEM 596 Comprehensive Examination (0)

Students who select the comprehensive examination (CHEM 596) should expect to take it the quarter they complete all course work on their program and must comply with school and departmental requirements.

### Biochemistry Option (46 units)

**Required Courses (13 units)**

- CHEM 500 Presentation in the Chemical and Biochemical Sciences (1)
- CHEM 503 Advanced Biochemistry (3, 3, 3)
- CHEM 580 Graduate Seminar in Chemistry (1, 1, 1)

**Electives (7-23 units)**

Select from the following with adviser approval; include sufficient 500-level courses to meet department minimum of 27 units:

**Additional electives (0-14 units)**

Select an additional 0-14 units outside chemistry with adviser approval.

**Research and Thesis (10-72 units)**

- CHEM 597 Graduate Research (6-8)
- CHEM 599 Thesis (4)

**Certificate Program in Industrial Chemistry**

The Department of Chemistry and Biochemistry offers a credit certificate program in Industrial Chemistry for postbaccalaureate and graduate students. This program is designed to develop skills in instrumental analysis by providing a broad range of experience with instrumental methods and modern techniques to complement students' theoretical preparation in chemistry. The program is intended to enhance the ability of advanced students to function effectively in industrial and government laboratory positions in chemistry.

The program requires completion of a total of 16 units of 400 and 500-level course work with a 3.0 grade point average. Some courses taken to meet requirements of this program may also be applied toward the masters degree program in chemistry. A bachelor's degree in chemistry is required for admission to the program. Refer to the *Graduate and Postbaccalaureate Study* chapter of this catalog for general regulations governing all graduate level certificate programs.

### Requirements for the Certificate (16 units)

**Required Courses (16 units)**

- CHEM 425 Polymer Chemistry (4)
- CHEM 440 Industrial Chemistry (4)
- CHEM 498 Cooperative Education (2)
- CHEM 580 Graduate Seminar: Chemistry (2)
- CHEM 590 Advanced Laboratory (4)

Students may substitute other appropriate courses with adviser approval.

**Courses in Chemistry (CHEM)**

### 400-level Courses

All 400-level courses may be applied toward masters degree requirements except the following, subject to limits established by the department and approval of the graduate adviser:

**Chemistry M.S. (thesis option):**

- CHEM 401, 402, 403, 412AB, 418**, 462**

**Chemistry, M.S. (comprehensive examination option):**

- CHEM 401, 402, 403, 412AB, 418**

**Chemistry, M.S. (Biochemistry option):**

- CHEM 401, 431ABC, 432AB

**Student may petition to waive the rule regarding this course.**

### Graduate Courses

Classified graduate standing is required for admission.

500 Presentation in the Chemical and Biochemical Sciences (1)

A student presentation and laboratory observation class designed to prepare chemistry and biochemistry graduate students to deliver presentations and/or experimental demonstrations for both research seminars and undergraduate laboratory classrooms.

501 Quantum Chemistry (4)

Prerequisites: CHEM 402, 403. Quantum chemistry, including discussion of molecular orbital and valence bond theories and their applications to chemistry.

503 Advanced Biochemistry (3)

Prerequisites: CHEM 431ABC, 432AB. Recent concepts of enzyme systems, biological oxidation, intermediate metabolism, biosynthesis of macromolecules, biochemical genetics, metabolic regulation, and related phenomena. May be repeated as subject matter changes to maximum of 12 units.

504 Advanced Inorganic Chemistry (4)

Prerequisite: CHEM 418. Selected topics on structure and mechanism in inorganic chemistry; discussion of modern theories applied to inorganic chemistry.

505 Special Topics in Graduate Chemistry (4)

Prerequisite: Instructor consent. Specialized topics in chemistry given at an advanced level. May be repeated once for credit.
580 Graduate Seminar: Chemistry (1)
Attendance at regular departmental seminar program; participation in seminar training program with course instructor; presentation of a satisfactory departmental seminar. May be repeated to maximum of 3 units.

590 Advanced Laboratory (1-2)
Prerequisites: CHEM 302B; 412B or 432B. Introduction to advanced laboratory techniques involving individual student projects. May be repeated four times to maximum of 6 units; maximum of 4 units may be applied to M.S. degree. Combined units of CHEM 590, 597, 598, and 599 may not exceed 15.

597 Graduate Research (1-4)
Prerequisite: Approval of departmental adviser. Research leading toward M.S. degree. Graduate students must earn a minimum of 6 and a maximum of 8 units. Combined units of CHEM 590, 597, 598, and 599 may not exceed 15. Graded CR/NC.

598 Graduate Directed Study (1-4)
Prerequisite: Instructor consent to act as sponsor. Independent study of advanced topics in the field, regular conferences with sponsor. Students progress determined by oral and/or written reports. May be repeated for credit; combined units of 597 and 598 may not exceed 13. Combined units of CHEM 590, 597, 598, and 599 may not exceed 15.

599 Thesis (1-4)
Prerequisites: Advancement to candidacy, instructor consent to act as sponsor, departmental approval of topic prior to registration. Independent research resulting in thesis and oral defense thereof. May be repeated to maximum of 4 units. Combined units of CHEM 590, 597, 598, and 599 may not exceed 15. Graded CR/NC.
CHICANO STUDIES

School of Natural and Social Sciences

DEPARTMENT OFFICE
King Hall C3095
Phone: (213) 343-2190

The Master of Arts degree in Mexican-American Studies is designed for graduate students who wish to pursue advanced study toward the Ph.D. degree; or teach in community colleges, or secondary, or elementary schools; or work as professionals in private agencies or government service. An option is offered in Professional Teacher Preparation. Candidates are admitted only in the Fall.

Master of Arts Degree in Mexican-American Studies

Admission to the Program
Prerequisites to admission are a baccalaureate in Mexican-American Studies or a related field, with at least 20 upper division units in Chicano Studies courses including CHS 403, 410, and 444. Students who lack prerequisite courses must complete them with a B (3.0) average or better.

Requirements for the Degree (45 units)
A total of 45 units is required, with at least 23 in 500-level courses.

Language Requirement
Candidates for the master’s degree in Mexican-American Studies must demonstrate proficiency in the Spanish language before beginning thesis work or attempting the comprehensive examination by one of the following methods:

- Passing the Foreign Language Reading Examination (FL 901) in Spanish as offered by the Department of Foreign Languages and Literatures and in accordance with the practices of that department or
- Passing a 400-level, four-unit Spanish course with a grade of C or better. This course may not be used as an elective for the master’s degree.

Required Courses (23 units)
CHS 501AB Seminar: Theory and Method in Chicano Studies (4-3)
CHS 504 Seminar: Chicano Psychological Issues (4) CHS 505 Seminar: Chicano Literature (4)
CHS 506 Seminar: Chicano History (4)
CHS 509 Interdisciplinary Seminar in Chicano Studies (4)

Electives (4-22 units)
Remaining course work may include 400 and 500-level courses in Chicano Studies and appropriate related fields selected with departmental consultation and approval.

Professional Teacher Preparation Option
Select 12 units with adviser approval in consultation with the Charter School of Education. Core courses required for the partial credential shall not qualify for this option. This option must be declared before advancement to candidacy.

Comprehensive Examination or Thesis (0-6 units)
CHS 596 Comprehensive Examination (0) or CHS 599 Thesis (6)
A comprehensive examination or a thesis is required for the master’s degree. Students should expect to take the comprehensive examination (CHS 596) the quarter they complete all course work on their program and must comply with school and departmental requirements.

Courses in Chicano Studies (CHS)

400-Level Courses

All 400-level courses may be applied toward master’s degree requirements, subject to limits established by the department and approval of the graduate adviser.

Graduate Courses

Classified graduate standing is required for admission.

501AB Seminar: Theory and Method in Chicano Studies (4-3)
Prerequisite: CHS 450 recommended for 501 B. Advanced analysis of Chicano Studies with emphasis on behavioral theory and methodologies applied to special fields of culture, including history, psychology, politics, education, economics, language; emphasis on current social issues.

504 Seminar: Chicano Psychological Issues (4)
Prerequisite: PSY 150 or CHS 410. Selected psychological issues of Chicanos including such topics as cultural psychological models, the fully functioning Chicano, special psychological problems, therapy and counseling effectiveness, and social psychological models.

505 Seminar: Chicano Literature (4)
Prerequisite: CHS 403. Literary genres within Chicano literature in relation to the cultural and social context of Chicanos.

506 Seminar: Chicano History (4)
Prerequisite: CHS 444. Advanced study of Chicano historiography readings, reviews, discussions, oral reports, and research proposals.

509 Interdisciplinary Seminar in Chicano Studies (4)
Prerequisite: Advancement to candidacy in master’s degree program. Interdisciplinary investigation and discussion of selected topics in Chicano studies.

598 Graduated Directed Study (1-4)
Prerequisite: Consent of faculty sponsor, approved study prior to registration. Directed reading and critical analysis of advanced topics in Chicano Studies. Regular conference with sponsor. May be repeated for credit to maximum of 8 units.

599 Thesis (1-6)
Prerequisites: Advancement to candidacy, instructor consent to act as sponsor, departmental approval of topic prior to registration. An oral examination about the thesis is required. Must be repeated to total of 6 units. Graded CR/NC.
School of Natural and Social Sciences

Admission to the Program

The Master of Arts degree program in Geography is designed to prepare students for teaching at the secondary and community college levels, employment in government and private industry, and further graduate study in geography.

Master of Arts Degree in Geography

Applicants must possess a baccalaureate in geography with a minimum 2.75 grade point average (A=4.0) in the last 90 quarter units and be approved by the department’s graduate studies subcommittee. Applicants whose undergraduate major was not geography must have a minimum 2.75 grade point average in the last 90 quarter units attempted, a minimum 3.0 grade point average in all geography courses attempted, and must have completed 16-32 quarter units of geography courses. Those who have completed no lower division course work in geography must complete GEOG 370 (World Regions) or equivalent.

Admission to the Program

Requirements for the Degree (45 units)

A total of 45 units is required, with at least 23 in 500-level courses.

Before enrolling in GEOG 599 or taking the comprehensive examination (GEOG 599), students must satisfy one of the following requirements, subject to principal graduate adviser approval:

- Pass a reading examination in a language other than English (FL 901) in the geographic literature of a modern language, as offered by the Department of Modern Languages and Literatures and in accordance with the practice of that department.
- Complete 12 units in a modern language in accordance with the practice of that department.
- Complete CIS 294 or CS 290 with a grade of B or higher.
- Pass an examination in statistical methods in geography administered by the department.
- Complete an upper division statistics course with a grade of B or higher.

Geography Core Seminar (4 units)
GEOG 570 Seminar: Nature of Geography (4)

Electives (select 12 units from following)

GEOG 530 Seminar: Urban Social Systems (4)
GEOG 571 Seminar: Regional Geography (4)
GEOG 575 Seminar: Human Geography (4)
GEOG 580 Seminar: Physical Geography (4)

Select electives with the approval of the principal graduate adviser. Students may repeat GEOG 571, 575, and 580, provided the seminar topic is not repeated in the exact area and theme.

Electives in Geography and Related Fields (20-29 units)

Select 400 and 500-level GEOG courses. Students who elect the comprehensive examination option must include a minimum of 7 units at the 500 level. With approval of the principal graduate adviser, a maximum of 8 units may be in related fields.

Comprehensive Examination or Thesis (0, 6-9 units)

Students who select the comprehensive examination must include a minimum of 29 units in Electives in Geography and Related Fields above, should expect to take the examination (GEOG 596) the quarter they complete all course work on their program, and must comply with school and departmental requirements.

The examination consists of a section about geographic theory plus sections about two of the following areas selected by the student: advanced regional geography, advanced physical geography, advanced human geography, geography research techniques.

Students who elect to write a thesis will need to enroll in GEOG 599 for a minimum of two quarters and a total of 6-9 units. In addition to the 16 units of required core seminars, these students need to complete a minimum of 20-23 units of electives to satisfy the 45-unit requirement for the master’s degree.

Courses in Geography (GEOG)

400-level Courses

All 400-level courses may be applied toward master’s degree requirements, subject to limits established by the department and approval of the graduate adviser.

Graduate Courses

Classified graduate standing is required for admission.

530 Seminar: Urban Social Systems (4)
(Also listed as SOC 530)
Prerequisite: Instructor consent. Growth and nature of urban social systems in selected cities and metropolitan areas; theories of urban structure and problems; improving quality of urban life; comparisons of cities in various countries.

570 Seminar: Nature of Geography (4)
Prerequisite: Instructor consent. History, objectives, and methods of geography.

571 Seminar: Regional Geography (4)
Prerequisite: Instructor consent. Selected regions of world. May be repeated as subject matter changes.

575 Seminar: Human Geography (4)
Prerequisite: Instructor consent. Selected topics pertaining to geography of man. May be repeated as subject matter changes.

580 Seminar: Physical Geography (4)
Prerequisite: Instructor consent. Seminar on nature, origin, and a real occurrence of physical qualities of the land (climate, landforms, water, soils, and vegetation). May be repeated as subject matter changes.

598 Graduate Directed Study (1-4)
Prerequisite: Instructor consent to act as sponsor. Project selected in conference with sponsor. May be repeated to a maximum of 12 units for credit.

599 Thesis (1-4)
Prerequisites: Advancement to candidacy, approval of department, completion of course work in master’s program, completion of foreign language or upper division statistical or computer skill requirement. May be repeated to maximum of 9 units.

Graded CR/NC
Courses in Geology (GEOL)

400-level Courses

All 400-level courses may be applied toward master's degree requirements except the following, subject to limits established by the department and approval of the graduate adviser: GEOL 400, 401, 402, 410, 420, 430, 431, 460AB, 497, 499

Graduate Courses

Classified graduate standing is required for admission.

510 Paleontology (4.5)
Prerequisites: Advanced undergraduate courses in invertebrate paleontology, and stratigraphy or micropaleontology. Seminars in various topics in invertebrate paleontology, such as biostratigraphy, paleoecology, and functional morphology. May include field or laboratory investigations. May be repeated as subject matter changes.

520 Stratigraphic Analysis (4.5)
Prerequisites: GEOL 460AB. Principles and techniques of stratigraphic analysis, with emphasis on reconstruction of environment of deposition and paleogeography. Approximately half of laboratory devoted to field studies.

525 Sedimentary Processes, Environments, and Structures (4.5)
Prerequisites: GEOL 402,430. Identification and analysis of sedimentary structures and hydrodynamically generated bedforms to determine sedimentary processes and environments of deposition.

530 Seminar: Structural Geology and Tectonics (4.5)
Prerequisite: GEOL 410 or upper division structural geology course. Critical review of selected topics concerning analysis, interpretation, and origin of geologic structures, mechanics of rock deformation and of large scale crystal deformation.

531 Tectonic Problems of Southern California (4.5)
Prerequisite: GEOL 410 or upper division structural geology course. Current topics in the geotectonic evolution of southern California.

533 Seminar: Quaternary Geology (4.5)
Prerequisite: GEOL 430. Studies of Quaternary climate, geomorphology, and soils including interglacial and glacial history.

534 Volcanology (4.5)
Prerequisite: GEOL 401. Mineralogy, petrology, geochemistry, tectonics, and geomorphology of volcanos and volcanic processes.

540 Igneous Petrology (4.5)
Prerequisites: GEOL 400, 401. Advanced study of occurrence and petrogenesis of igneous rocks. Laboratory includes microscopic study of selected rock suites and application of instrumental techniques of igneous rocks.
541 Metamorphic Petrology (4.5)
Prerequisites: GEOL 400, 403. Advanced study of occurrence, origin, and interpretation of metamorphic rocks. Laboratory includes microscopic study of rock suites.

550 Crystal Chemistry (4.5)
Prerequisite: GEOL 470. Seminars in crystal chemistry, emphasizing structural and chemical mineralogy, determinative methods, mineral synthesis, and computer applications. May be repeated for credit.

555 Geochemistry (4.5)
Prerequisite: GEOL 370 or upper division geochemistry course. Methods of radio-metric age determination, including dating of igneous and metamorphic rocks and sediments; use of lead and strontium as natural tracers; light stable isotopes, oxygen, carbon, and sulfur as petrogenetic indicators in igneous rocks and ore-forming processes.

570 Special Topics (2-4.5)
Prerequisite: Instructor consent. Discussion of selected topics in geology. May include up to 2 units of laboratory. May be repeated for credit as subject matter changes.

581 Seminar: Engineering Geology (4.5)
Prerequisite: GEOL 481 or senior engineering geology course. Advanced study relating geologic factors to engineering projects, with emphasis on slope stability, subsidence, engineering seismology, and construction problems related to engineering geology.

582 Hydrogeology (4.5)
Prerequisite: GEOL 484. Advanced study of groundwater topics including aquifer testing, regional groundwater flow, water chemistry mass transport, and groundwater models. Lecture 3.5 hours, lab 3.0 hours.

583 Engineering Geomorphology (4.5)
Application of geomorphic analysis to engineered structures: techniques and methods of evaluating landscape evolution during last 50,000 years.

597 Graduate Research (1.5-4.5)
Prerequisites: Instructor consent to act as sponsor, approval of project by students graduate advisory committee. Independent research under guidance of faculty. Graded CR/NC.

598 Graduate Directed Study (1.5-4.5)
Prerequisite: Instructor consent to act as sponsor. Directed research on subjects selected in consultation with faculty. May be repeated to maximum of 6 units.

599 Thesis (1.5-4.5)
Prerequisites: Advancement to candidacy, instructor consent to act as sponsor. Presentation of independent research work in a written thesis, which is defended orally. Graded CR/NC.
The Master of Arts degree in History is designed for the attainment of a liberal education appropriate to careers in such professions as law, journalism, business, government service, and librarianship, as well as preparation for teaching and further graduate study.

The program requires intensive study involving courses, seminars, and directed reading in preparation for comprehensive examinations and an optional thesis. Students should obtain reading lists well before the examination from the examining faculty member in each field.

Master of Arts Degree

Admission to the Program

In addition to University requirements for admission to graduate study, applicants without a baccalaureate in history must have completed HIST 388, 390 plus 20-28 units of approved upper division history courses with a minimum B (3.0) average.

Requirements for the Degree (48 units)

Overall Requirements:
48 units are required, with at least 28 in 500-level courses.

Required Courses (28 units)
Select seven 500-level history courses, with adviser approval, for a total of 28 units. HIST 501 and 595 (twice) are required of all students, and are included in the seven required 500-level history courses.

Electives (20 units)
Select 400 or 500-level courses in history with adviser approval. Courses outside history may be substituted to maximum of 8 units, with adviser approval.

Research Skills and Comprehensive Examinations

A. Research Skills

Candidates must demonstrate a reading comprehension in one foreign language or competence in computer applications and statistics or theory which may be applied to history before they may attempt the history comprehensive examinations. They must demonstrate this competence within 7 years prior to completion of the degree in one of the following ways:

- Passing a foreign language reading examination (FL 901) in a language appropriate to chosen fields of study, or by completing 12 units in an appropriate foreign language with a grade of B or better in each course.
- Completing 12 units in statistics and computer courses (minimum 4 units in each area), as approved by the department adviser, with a minimum B grade in each course.
- Completing 12 units in courses on theory which may be applied to the study of history. The graduate adviser has a list of acceptable courses.

B. Comprehensive Examinations (required 0 units)

Students must successfully complete the comprehensive examinations.

Comprehensive examinations must be passed in three fields chosen from two or more areas listed below. Flexibility for options can be arranged. Students may register for HIST 596 and take the comprehensive examinations only after they complete all course work on their program.

Fields of Concentration:

Area One:
United States to 1876
United States since 1850

Area Two:
Antiquity
Medieval and early modern Europe
Modern: 1789-present

Area Three:
Middle East
Asia
Africa
Latin America

Thesis (Optional 8 units)

After successfully completing 28 units, students who meet departmental requirements may petition to write a thesis. Thesis will substitute 8 units of 400-Level electives.

Courses in History (HIST)

400-level Courses

All 400-level courses may be applied toward master’s degree requirements, except the following, subject to limits established by the department and approval of the graduate adviser: HIST 499

Graduate Courses

Classified graduate standing is required for admission.

501 Introduction to Graduate Study in History (4)
Introduction to theoretical and historiographical issues relevant to graduate study in history.

519 Seminar: Ancient History (4)
Readings, discussion, and paper on topics in Greek or Roman history. May be repeated for credit.

520 Seminar: History of Middle Ages (4)
Readings, discussion, and paper on topics in the history of the Middle Ages. May be repeated for credit.

522 Seminar: Middle Eastern History (4)
Readings, discussion, and paper on topics in Middle Eastern history. May be repeated for credit.
532 Seminar: Early Modern European History (4)
Readings, discussion, and paper on topics in early modern European history. May be repeated for credit.

533 Seminar: Recent European History (4)
Readings, discussion, and paper on topics in recent European history. May be repeated for credit.

540 Seminar: British History (4)
Readings, discussion, and paper on topics in British history. May be repeated for credit.

542 Seminar: Russian History (4)
Readings, discussion, and paper on topics in Russian history. May be repeated for credit.

550 Seminar: Special Studies (4)
Topics of special interest that transcend cultural and chronological lines, as announced in Schedule of Classes. May be repeated for credit as subject matter changes.

561 Seminar: History of Modern Mexico (4)
Readings, discussion, and paper on topics in the history of Modern Mexico. May be repeated for credit.

562 Seminar: Latin American History (4)
Readings, discussion, and paper on topics in Latin American history. May be repeated for credit.

571 Seminar: Early History of U.S. (4)
Readings, discussion, and paper on topics in the early history of the United States. May be repeated for credit.

575 Seminar: Recent History of U.S. (4)
Readings, discussion, and paper on topics in the recent history of the United States. May be repeated for credit.

577 Seminar: American Social and Intellectual History (4)
Readings, discussion, and paper on topics in American social and intellectual history. May be repeated for credit.

581 Seminar: History of the U.S. West (4)
Readings, discussion, and paper on topics in history of the U.S. West. May be repeated for credit.

591 Seminar: Recent Asian History (4)
Readings, discussion, and paper on topics in recent Asian history. May be repeated for credit.

595 Seminar in Historical Research and Writing (4)
Seminar in historical research methods and writing, culminating in a written research project. Must be taken twice to fulfill departmental requirements for historical research.

598 Graduate Directed Study (1-4)
Prerequisite: Instructor consent to act as sponsor. Independent study of advanced topics in field; regular conferences with sponsor. May be repeated for credit.

599 Thesis (1-8)
Prerequisites: Advancement to candidacy, instructor consent to act as thesis director, departmental approval of topic prior to registration. Independent research resulting in a thesis. Must be repeated to total of 4 units. Graded CR/NC.
LATIN AMERICAN STUDIES

School of Natural and Social Sciences

PROGRAM OFFICE
King Hall B3006
Phone: (213) 343-2180

The Master of Arts degree program in Latin American Studies is designed to provide a multidisciplinary approach to the study of one of the world’s major regions. The program also provides advanced training for students who wish to pursue careers in teaching, government service, or commerce.

Master of Arts Degree

A Master’s degree in Latin American Studies affords students a wide range of career opportunities in the U.S. and abroad. The growth of the Latin population in the U.S. has created an increasing need for trained persons with a knowledge of the region to work in government, teaching, business, and other fields. Opportunities abroad are available to graduates with a masters degree who are qualified to teach at the university level in Latin American educational institutions.

Admission to the Program

Admission is governed by University requirements for admission to graduate study. New graduate students must consult with the Latin American Studies graduate adviser before registration for assistance in planning their program and to evaluate their program prerequisites.

Program Requirements

A minimum of 20 units in upper division Latin American content courses is prerequisite to the program; LAS 497 is a corequisite. Students who have not met these requirements through courses taken as an undergraduate must take courses in two or more departments in postbaccalaureate standing. In exceptional cases the Latin American Studies graduate studies committee may waive a portion of these prerequisites.

Language Requirement

Students must demonstrate written and oral competence in Spanish or Portuguese before they may be advanced to candidacy by passing a foreign language reading examination (FL 901) in the language selected, as offered by the Department of Modern Languages and Literatures and with approval of that department.

Requirements for the Degree (minimum 45 units)

A total of 45 units is required, with at least 23 in 500-level courses. The program involves study in seminars and courses. It offers considerable flexibility for students to pursue individual interests and particular career goals. Students must have a minimum of 5 graduate level courses, distributed in at least 3 fields, chosen from: anthropology, art, business, economics, education, geography, history, political science, sociology, and Spanish. Other fields may be included in consultation with the adviser. The necessary language proficiency is established by examination. Students have the option of passing a comprehensive examination or writing a thesis as the final phase of the degree program.

Required Course (4 units)

LAS 508 Seminar: Latin-American Social Systems (4) or
LAS 590 Interdisciplinary Seminar in Latin American Studies (4)

Additional Seminars (19-20 units)

Select 500-level courses from the following (include seminars in at least three disciplines):

* ANTH 501 Seminar: Ethnography (4)
* ANTH 530 Seminar: Social Organization (4)
* ANTH 594 Seminar: Problems in Cultural Anthropology (4)
* ART 501 Seminar: Art History (4)
* ECON 560 Seminar: Economic Growth in Underdeveloped Areas (3)
* EDFN 506 Comparative Education (4)
* GEOG 571 Seminar: Regional Geography (4)
* GEOG 575 Seminar: Human Geography (4)
* GEOG 580 Seminar: Physical Geography (4)
* HIST 561 Seminar: History of Modern Mexico (4)
* HIST 562 Seminar: Latin American History (4)
* LAS 508 Seminar: Latin American Social Systems (4)
* LAS 590 Interdisciplinary Seminar in Latin American Studies (4)
* LAS 598 Graduate Directed Study (1-4)
* MKT 543 Seminar: International Marketing (3)
** POLS 527 Seminar: Advanced Studies in Comparative Politics and International Relations (4)
* POLS 531 Seminar: Latin American Government (4)
** SOC 514 Seminar: Contemporary Sociological Theory (4)
* SPAN 505 Studies in El Modernismo in Spanish America (4)
* SPAN 545 Seminar: Contemporary Spanish-American Poetry (4)
* SPAN 575 Seminar: Hispanic Language (4)

* when emphasis is on Latin America
** Area of emphasis should be applied to Latin America

Electives (27-22 units)

Additional units from among Latin American content courses, including appropriate departmental 499 and 598 courses, selected in consultation with the Latin American Studies graduate adviser.

Comprehensive Examinations or Thesis (0, 2-9 units)

Students must successfully complete either comprehensive examinations or a thesis.

Comprehensive Examinations (0 units)

Comprehensive written examinations about Latin America must be passed successfully in three of the following academic fields: anthropology, art, comparative education, economics, geography, history, marketing, political science, or other fields approved by the graduate committee in Latin American Studies.
Students should expect to take the comprehensive examinations (LAS 596) the quarter they complete all course work on their program and must comply with school and program requirements. Students must notify the Coordinator of Latin American Studies in writing of their intention to take the examinations.

**Thesis (2-9 units)**

Instead of the comprehensive examinations, students may choose to write an interdisciplinary thesis under the guidance of a three-member faculty committee selected in consultation with an adviser. Students making this choice must enroll in LAS 599, in which a maximum of 9 units may be taken.

Immediately following completion of the comprehensive examinations or thesis, students must pass an oral examination conducted by a three-member faculty committee.

**Courses in Latin American Studies (LAS)**

**400-level Courses**

All 400-level courses listed in the undergraduate major, general option, may be applied toward master's degree requirements except the following, subject to limits established by the department and approval of the graduate adviser: LAS 497

**Graduate Courses**

*Classified graduate standing is required for admission.*

**508 Seminar: Latin American Social Systems (4)**

Recommended prerequisites: ANTH 404 or 408, reading competence in Spanish or Portuguese. Analysis of selected aspects of contemporary Latin American social systems. May be repeated for credit.

**590 Interdisciplinary Seminar: Latin American Studies (4)**

Prerequisite: LAS 497. Interdisciplinary investigation and discussion of selected Latin American topics. May be repeated for credit.

**598 Graduate Directed Study (1-4)**

Prerequisite: Instructor consent to act as sponsor. Independent study of advanced topics in field; regular conferences with sponsor. May be repeated for credit.

**599 Thesis (1-9)**

Prerequisites: Instructor consent to act as sponsor, approval of topic prior to registration. Independent research resulting in a thesis. May be repeated to maximum of 9 units. Graded CR/NC.
MATHEMATICS AND COMPUTER SCIENCE

School of Natural and Social Sciences

DEPARTMENT OFFICE
Simpson Tower F206
Phone: (213) 343-2150

The Graduate Program

Master of Science Degree in Mathematics

The Master of Science degree in Mathematics is offered in two options. Option 1 is a flexible program that can be concentrated on pure mathematics or incorporate elements of both pure and applied mathematics. Option 2 emphasizes applied mathematics. Both options prepare the student for higher mathematical work in industry, business, or government, for teaching in a community college, and for further graduate work in the respective areas.

Admission to the Program

Admission is governed by general University requirements for admission to graduate study.

Requirements for the Degree (minimum 45 units)

A minimum of 45 units is required, with at least 23 in 500-level courses. Students must successfully complete either comprehensive examinations or a thesis in addition to course requirements.

Comprehensive Examination or Thesis (0, 1-4 units)
MATH 596 Comprehensive Examination (0) or MATH 599 Thesis (1-4)

A. Comprehensive Examination

Students must pass Option 1 written comprehensive examinations in 3 or 4 areas: topology, abstract algebra, complex analysis, and real analysis; for Option 2, 4 areas: applied linear analysis, calculus of variations, complex analysis, and numerical analysis. Students should expect to take the comprehensive examinations (MATH 596) the quarter they complete all course work on their program and must comply with school and departmental requirements.

B. Thesis

Subject to approval by graduate adviser, students may be permitted to do directed research with a faculty member and write a thesis in lieu of taking comprehensive examinations. If the thesis is accepted, a maximum of 4 units of MATH 599 may be applied to the masters degree program.

• Option 1: General Mathematics

The candidate’s baccalaureate preparation should be substantially equivalent to that required for Cal State L.A.’s Bachelor of Arts degree in Mathematics.

Required Courses (12 units—select three from following)

MATH 530 Topology (4)
MATH 540AB Abstract Algebra I, II (4, 4)
MATH 562 Advanced Complex Analysis (4)
MATH 580 Real Analysis (4)

Electives (12 units)

Select from 500-level MATH courses including at least one seminar (550, 551, 552, or 553).

• Option 2: Applied Mathematics

The candidate’s undergraduate preparation should be substantially equivalent to that required for Cal State L.A.’s Bachelor of Science degree in Mathematics.

Required Courses (28 units)

MATH 502AB Applied Linear Analysis I, II (4, 4)
MATH 520 Calculus of Variations (4)
MATH 521 Mathematical Models and Optimizations (4)
MATH 562 Advanced Complex Analysis (4)
MATH 570AB Advanced Numerical Analysis (4, 4)

Electives (17 units)

Select 400 and 500-level MATH courses. With graduate adviser approval, 8 units may be taken in business, economics, engineering, or physics. At least 4 units must be 500 level.

Courses in Mathematics (MATH)

400-level Courses

All 400-level courses may be applied toward master’s degree requirements except the following, subject to limits established by department and approval of graduate adviser: MATH 402A, 455, 465

Graduate Courses

Classified graduate standing is required for admission.

501 Nonlinear Differential Equations (4)
Prerequisites: MATH 215 or 401; 466. Vector matrix notation, stability in nonlinear systems, Poincare phase plane, method of Liapounov, perturbation techniques.

502A Applied Linear Analysis I (4)
Prerequisites: MATH 215 or 401; 255; 410 or 467. Function Spaces, convergence, inner product, bounded linear operators, integral operators and integral equations, adjoint operators, expansion in eigenfunctions, resolvent kernel.

502B Applied Linear Analysis II (4)
Prerequisite: MATH 502A. Unbounded operators, differential operators of second order, Sturm-Liouville operators, eigenvalues and eigenfunctions, Green’s Functions, and additional topics.

520 Calculus of Variations (4)
Prerequisites: MATH 255,466. Euler-Lagrange equation for various types of extremal problems; fixed and variable and points; broken extremals; variational problems with constraints; canonical form and direct methods.
MATHEMATICS AND COMPUTER SCIENCE / 468

521  Mathematical Models and Optimizations (4)
Prerequisites: MATH 215, 255, 474. Topics from: Markov
chains and decision theory, game theory, programming algo-
rithms, models for growth processes, applied graph theory, and
theory of maxima and minima.

525  Approximation Theory (4)
Prerequisites: MATH 466; approval of the instructor. Density
theorems, existence, uniqueness, characterization and degree of
best approximation, processes of approximation; other topics of
current interest.

530  Topology (4)
Prerequisite: MATH 465. Basic concepts of point set topology:
mappings, compactness, connectedness, separation properties,
and metrization.

540AB Abstract Algebra I, II (4, 4)

540A:  Prerequisite: MATH 455. Theory of groups, introd-
cution to rings.

540B:  Prerequisite: MATH 540A. Theory of rings and fields.

550  Seminar:  Algebra (4)
Prerequisite: Approval of instructor. Readings and discussion of
topics from group theory, ring theory, linear algebra, discrete
mathematics, and combinatorics. May be repeated to maximum
of 8 units with approval of graduate adviser.

551  Seminar: Analysis (4)
Prerequisite: Approval of instructor. Readings and discussion of
topics from real analysis, complex analysis, functional analysis,
and applied analysis. May be repeated to maximum of 8 units
with approval of graduate adviser.

552  Seminar: Topology and Geometry (4)
Prerequisite: Approval of instructor. Readings and discussion of
topics from general and algebraic topology, differential topology
and geometry, and geometrical foundations. May be repeated to
maximum of 8 units with approval of graduate adviser.

553  Seminar: Applied Mathematics (4)
Prerequisite: Approval of instructor. Readings and discussions of
selected topics in field. May be repeated to maximum of 8
units with approval of graduate adviser.

562  Advanced Complex Analysis (4)
Prerequisite: MATH 463. Laurent series, singularities, residue
problems, contour integration, conformal mapping, and addi-
tional topics.

570ABC Advanced Numerical Analysis (4, 4, 4)

570A:  Prerequisite: MATH 471. Numerical solution of linear
systems of equations, finite difference approximation to elliptic
partial differential equations.

570B:  Prerequisite: MATH 570A. Numerical solution of para-
bolic and hyperbolic partial differential equations; consistency,
convergence, stability.

570C:  Prerequisite: MATH 570B. Numerical solution of ordinary
and partial differential equations, eigenvalue problems, nonlinear
systems, approximation theory, finite elements, integral equations.

580  Real Analysis (4)
Prerequisite: MATH 466. Theory of Lebesgue measure on the
real line; theory of the Lebesgue integral and related conver-
gence theorems.

584  Advanced Probability Theory (4)
Prerequisite: MATH 580. Probability spaces; random variables;
abstract probability integrals, moments, convergence theorems;
distribution and characteristic functions; central limit theorems;
dependence.

591  Functional Analysis (4)
Prerequisite: MATH 580. Banach spaces, Hilbert spaces, linear
functionals and operators, spectral theory.

598  Graduate Directed Study (1-4)
Prerequisite: Instructor consent. Independent study of ad-
vanced topics in mathematics; regular conferences with instruc-
tor. May be repeated once.

599  Thesis (1-4)
Prerequisites: Advancement to candidacy, instructor consent to
act as sponsor, departmental approval of topic prior to registra-
tion. Independent research resulting in a thesis. May be re-
peated to maximum of 4 units. Graded CR/NC.
School of Natural and Social Sciences

DEPARTMENT OFFICE
Physical Science 315
Phone: (213) 343-2100

The Master of Science degree in Physics is designed to prepare students for community college teaching, employment in industry, or further graduate study toward the doctorate in Physics.

Master of Science Degree in Physics

Admission to the Program

Applicants must meet University requirements for admission to graduate study. Before undertaking required graduate courses, students must complete the equivalent of an undergraduate major in physics, and must have specific competence in the subjects covered in PHYS 306, 425A, 426A and 432A.

New graduate students must consult with the departmental graduate adviser before registration for assistance in planning their programs. Students should achieve classified graduate standing as early as practicable in their graduate study because it is prerequisite to the completion for credit of any courses in the degree program.

Requirements for the Degree (45 units)

A total of 45 units is required, with at least 23 in 500-level courses. Advancement to candidacy is prerequisite to filing the thesis or taking the comprehensive examination. Students should apply for candidacy immediately upon completing 16 units of their official program with the required grade point average.

Required Courses (25 units)

Options

Students select Option A or Option B for completion of their program. Option A emphasizes research and requires a thesis. Option B emphasizes advanced study which may be taken in a variety of physics areas. Option B programs may include research and directed study; such programs culminate in a comprehensive examination rather than a thesis. For special professional objectives, students may substitute 9 units of graduate level work in another science or mathematics area in place of Option A or B, with approval of adviser.

The Interdisciplinary Studies Master’s (described in the Graduate and Postbaccalaureate Study chapter) permits the combination of physics courses with courses in biology and chemistry in a program suited to interdisciplinary professional careers.

Electives (8-17 units)

Select with adviser approval.

A maximum of 4 units of PHYS 598 may be included in the official program under this option. PHYS 597 and 599 may not be included in this option.

Comprehensive Examination (0 units)

All candidates must pass an examination administered by the department. For students who elect Option A (Research), this is an oral examination based on the thesis. For students who elect Option B (Course), this is a comprehensive examination (PHYS 596) about graduate level physics.

Normally, it will be a three-hour written examination which may be supplemented by an oral examination at the discretion of the examining committee. The examination will be given at least twice a year as announced by the department.

Students should expect to take the comprehensive examination (PHYS 596) the quarter they complete all course work on their program and must comply with school and departmental requirements.
Courses in Physics (PHYS)

400-level Courses

All 400-level courses may be applied toward master's degree requirements except the following, subject to limits established by the department and approval of the graduate adviser: PHYS 410AB, 425AB, 426AB, 427, 432AB, 470, 497, 499

Graduate Courses

Classified graduate standing is required for admission.

510AB Mathematical Methods of Physics (4, 4)

512AB Modern Physics (4, 4)
Prerequisites: PHYS 425A, 426A.

512A: Hydrogen atom, atomic spectroscopy, electron shell structure, molecular binding, quantum statistics, theory of solids.

512B: X-rays, properties of nuclei, radioactivity, nuclear forces, elementary particles, cosmic rays, nuclear astrophysics.

530AB Classical Physics (4, 4)
Prerequisite or corequisite: PHYS 510AB. Unified treatment of advanced topics in classical physics, including Lagrange's and Hamilton-Jacobi theory, special relativity, electrodynamics, radiation theory.

531 Topics in Electrodynamics (4)
Prerequisite: PHYS 530AB. Continuation and expansion of topics covered in 530B. Emphasis on special topics and applications such as wave guides, scattering, diffraction, plasma physics, radiation damping, and self fields of a particle.

532AB Quantum Mechanics (4, 4)
Prerequisite or corequisite: PHYS 510AB.

532A: Formal structure of quantum mechanics, hermitian operators, Schrödinger theory and applications to soluble systems; angular momentum and rotation matrices.

532B: Scattering theory and phase-shift analysis, matrix mechanics, spin, permutation symmetry and identical particles, approximation methods.

533 Solid State Theory (4)
Prerequisites: PHYS 432A, 510AB; 433 recommended. Use of quantum field theory and group theory for development of solid state topics such as band theory, transport processes, and collective particle phenomena.

542 Physics Research Conference (1)
Weekly meetings of faculty and students for report and discussion of recent developments in physics. Includes presentations by faculty, advanced students, or invited speakers. May be repeated to maximum of 2 units. Graded CR/NC.

544 Theoretical Nuclear Physics (4)
Prerequisites: PHYS 510AB, 532A. Selected topics from theory of nuclear models, nuclear reactions, and symmetry properties of elementary particles.

The Graduate Program

Two master’s degree programs are offered in political science, in order to satisfy varying career objectives of graduate students. The Master of Arts degree emphasizes advanced studies for those interested in teaching, preparing for doctoral studies in political science, or preparing for political journalism, similar occupations, or various forms of citizen leadership. The Master of Science degree in Public Administration provides present and future public service employees the administrative skills and knowledge necessary for competent direction of personnel, administration of financial controls, and coordination of agency functions.

Admission to the Programs

Application must be made to both the Department of Political Science and the University. Forms for both may be obtained from the department office.

Completed departmental applications with one copy of transcripts from all colleges attended and two letters of recommendation (normally from Cal State L.A. faculty in the case of recent Cal State L.A. graduates) must be received by the Department of Political Science before August 1 for admission to Fall Quarter, December 1 for Winter Quarter, February 1 for Spring Quarter, and May 1 for Summer Quarter. University applications and two copies of official transcripts from all colleges attended must be sent to the Admissions Office in accordance with University admission deadlines.

Master of Arts Degree in Political Science

The program is built on the foundation of an undergraduate government or political science major and is designed to provide systematic study in political science and related fields at an advanced level.

Departmental Requirements

In addition to University requirements for admission to graduate study, applicants must have a B (3.0) grade point average in the last 90 quarter units attempted or in the undergraduate major in political science. Applicants who have not completed an undergraduate major in government or political science or whose grade point average is below that required for regular admission may be admitted at the discretion of the departments graduate admissions committee after completing prerequisite courses if necessary.

Requirements for the Degree (45 units)

A total of 45 units is required, with at least 23 in 500-level courses.

Choice of Fields

Two fields for the program are required, including political theory. The remaining field must be either American political studies or international relations and comparative political systems. When appropriate, students may choose one to three courses from a related outside field of graduate study in addition to the two fields in political science. Programs must include at least eight units of 500-level courses in each of the three fields selected.

Required field (Political Theory) courses (16-20 units)
POLS 509 Foundations of Empirical Political Theory (4)
POLS 510 Seminar: Political Theory (4)*

Take 4-8 units from the following:
POLS 431 Classical Political Theory (4)
POLS 433 Modern Political Theory (4)
POLS 435 American Political Thought (4)

*This seminar is taken twice, under a different instructor and subject matter each time with adviser approval, select courses from one of the following fields:

AMERICAN POLITICAL STUDIES (25-31 units)
POLS 505 Seminar: Contemporary American Political Studies (4) or
POLS 598 Graduate Directed Study (4)
You must take 12-20 units from the following:
POLS 400 Power and Policy in Washington: Congress and the President (4)
POLS 403 The Politics of Organized Labor (4)
POLS 404 Urban Government and Politics (4)
POLS 405 Intergovernmental Relations in the U.S. (4)
POLS 406 Los Angeles City Politics (4)
POLS 407 Community and Citizen Politics (4)
POLS 408 Political Socialization (4)
POLS 409 Minority Politics in the U.S. (4)
POLS 414 Politics and the Media (4)
POLS 415 Political Sociology (4)
POLS 417 Public Policy and the Economy (4)
POLS 418 U.S. Political Parties, Campaigns, and Elections (4)
POLS 419 Public Opinion and Polling (4)
POLS 441 American Constitutional Law: Federalism (4)
POLS 442 American Constitutional Law: Civil Rights (4)
POLS 445 Judicial Behavior (4)
You must take one of the following:
POLS 597 Graduate Research (3) and
POLS 596 Comprehensive Exam (0) or
POLS 599 Thesis (5)

INTERNATIONAL RELATIONS AND COMPARATIVE POLITICAL SYSTEMS (25-31 units)
POLS 527 Seminar: Advanced Studies in International Relations (4)
POLS 550 Seminar: Advanced Studies in Comparative Politics (4)
You must take 12-20 units from the following:
POLS 425 U.S. Foreign Policy in a Changing World (4)
POLS 426 International Political Economy (4)
POLS 427 International Relations (4)
POLS 429 U.S. National Security Policy (4)
POLS 450 European Politics (4)
POLS 451 Latin American Politics (4)
POLS 452 Politics of Asia (4)
POLS 453 Politics of Africa and the Mid-East (4)
POLS 454 Selected Topics in Comparative Politics (1-4)
POLS 456 Politics and other Caribbean and Central American (4)
POLS 457 Comparative Politics (4)
ECON/POLS 526 Seminar: International Political Economy (4)
ECON 560 Seminar: Economic Growth in Under-developed Areas (3)
ECON 561 Seminar: International Economics (3)

You must take one of the following:
POLS 597 Graduate Research (3) and
POLS 596 Comprehensive Exam (0) or
POLS 599 Thesis (0-5)
Comprehensive Examinations or Thesis (0, 5 units)
POLS 596 Comprehensive Examination (0) or
POLS 599 Thesis (5)

Students not writing a thesis are required to take written comprehensive examinations to demonstrate their competence in the two selected fields, as well as any field selected from a related discipline, and in the overall field of political science. These students should expect to take the comprehensive examinations (POLS 596) after the quarter they complete all course work on their program and must comply with school and departmental requirements. Students will be allowed a maximum of two attempts to complete the comprehensive examinations successfully. Failure to pass the comprehensive examinations, or any portion thereof, will result in disqualification from the program.

A thesis, in lieu of written comprehensive examinations, may be authorized for exceptional students who present a proposal the department deems worthy of study. POLS 599 is required of all students authorized to submit a thesis. Students who have made one attempt on the comprehensive examinations may not change to the thesis option; students who have taken POLS 599 units may not change to the comprehensive examination option.

**Master of Science Degree in Public Administration**

The degree program in Public Administration consists of core requirements and other graduate work selected to assist students in meeting their study objectives.

**Departmental Requirements**

In addition to University and general departmental requirements for admission to graduate study, students whose grade point average in their last 90 units taken in undergraduate status falls between 2.5 and 2.75 will be required to complete a set of qualifying courses, 16 quarter units on their program, and to attain a minimum 3.0 grade point average in these courses as a condition of qualifying for classified graduate status and continuation in the program. Students who have not completed the corequisites listed below will include them among the qualifying courses.

Applicants who have failed to earn at least a 2.5 grade point average in their last 90 quarter units taken in undergraduate status will not be admitted to the M.S. degree program in Public Administration in the absence of clear and compelling evidence of their current capacity for satisfactory graduate academic performance.

**Corequisites (8 units)**

Completion of the following political science courses or their equivalent is required. Students must earn a minimum B (3.0) average in corequisites and must repeat any course they completed with lower than a C grade.

*POLS 403 State and Local Government (4) or
POLS 404 Urban Government and Politics (4)
POLS 460 Foundations of Public Administration (4)

* These may be taken as corequisites to the M.S. degree program and must be among the first five courses completed.

In addition, students whose GPA’s in their last 90 quarter units are less than 2.75 must take a minimum of 8 units of corequisites from the following:
POLS 405 Intergovernmental Relations in the U.S. (4)
POLS 472 Organization and Management (4)
POLS 479 Computers in the Public Sector (4)

**Requirements for the Degree (minimum 48 units)**

A minimum of 48 units is required, including at least 24 in 500-level courses.

In addition to course requirements, students must complete a one-year internship in public administration or an approved field project. This requirement may be waived if the candidate holds, or has held, a position entailing managerial or professional level of responsibility in a public or private nonprofit agency.

**Required Courses (40 units)**
POLS 530 Seminar: Public Policy Analysis (4)
POLS 561 Intergovernmental Relations (4)
POLS 565 Public Sector Labor Relations (4)
POLS 566 Public Budgeting and Financial Administration (4)
POLS 572 Public Sector Organization and Management (4)
POLS 579 Public Sector Information Management (4)
POLS 580 Advanced Quantitative Methods in Political Science and Public Administration (4)
POLS 590 Seminar: Philosophy of Public Service (4)

Select 8 units from the following:
POLS 539 Seminar: Policy Evaluation (4)
POLS 575 Seminar: Administrative Systems in Pacific Rim Nations (4) or
POLS 585 Seminar: Regulation, the Environment and California Public Policy (4)

**Electives (8 units)**

Take one 400-level and one 500-level course, with adviser approval:

ECON 405 Economics of Public Utilities and Regulation (4)
ECON 433 Public Finance (4)
POLS 463 Public Personnel Administration (4)
POLS 468 Administration of Human Resource Programs (4)
POLS 470 Public Relations in Government (4)
POLS 474 Organization Behavior and Development (4)
POLS 475 Comparative Administrative Systems (4)
POLS 476 Administrative Law (4)
POLS 481 Managerial Computing in the Public Sector (4)
POLS 563 Seminar: Personnel Administration (4)
POLS 568 Seminar: Community Development Administration (4)
POLS 591 Seminar: Administrative Theory and Behavior (4)
POLS 595 Selected Issues in Public Administration (4)
POLS 598 Graduate Directed Study (4)

Comprehensive Examinations or Thesis (0, 5 units)
POLS 596 Comprehensive Examination (0) or POLS 599 Thesis (5)

Students should expect to take the comprehensive examinations (POLS 596) in or after the quarter in which they complete all course work on their program or subsequently and must comply with school and departmental requirements.

Students will be allowed a maximum of two attempts to complete the comprehensive examinations successfully. Failure to pass the comprehensive examinations, or any portion thereof, will result in disqualification from the program.

A thesis, in lieu of the written examinations, may be authorized for exceptional students who present a proposal the department deems worthy of study, but only if the students can indicate in an oral examination competence in the field of public administration. POLS 599 is required of all students planning to complete a thesis. 4 units of POLS 599 may be taken in place of one of the elective courses.

Courses in Political Science (POLS)

400-level Courses

All 400-level courses may be applied toward master's degree requirements except the following, subject to limits established by the department and approval of the graduate adviser:

M.A. - Political Science: POLS 470

M.S. - Public Administration: POLS 491, 492, 494, 496

Graduate Courses

Classified graduate standing is required for admission.

505 Seminar: American Political Studies (4)
Prerequisites: Baccalaureate; superior academic performance in political science. Analysis of selected issues and problems of national significance in the U.S. May be repeated as subject matter changes.

509 Seminar: Foundations of Empirical Political Theory (4)
Prerequisite: Departmental approval. Values and limitations in past and current applications of philosophy and methods of science to study of politics.

510 Seminar: Political Theory (4)
Prerequisites: POLS 431, 433, or 435. Selected topics in political philosophy. May be repeated as subject matter changes.

526 Seminar: International Political Economy (4)
(also listed as ECON 526)
Prerequisite: ECON/POLS 426 or ECON 406 plus POLS 427. Research and analysis of the interactions of politics and economics in the international arena.

527 Seminar: Advanced Studies in International Relations (4)
Prerequisites: POLS 427 plus 4 units in POLS 425,426 or 429, or LAS 424. Selected topics international politics. May be repeated for a total of 8 units, with advisors approval, as subject matter changes.

530 Seminar: Policy Analysis (4)
Prerequisite: POLS 462. Concepts and techniques of policy analysis, including nature of public problems, initiation, estimation, implementation, analysis of impacts and evaluation.

531 Seminar: Latin American Government (4)
Prerequisite: POLS 451. Analysis of selected topics in Latin American politics.

539 Seminar: Policy Evaluation (4)
Concepts and techniques of policy evaluation. Individual projects.

550 Seminar: Comparative Politics (4)
Prerequisites: POLS 457 plus 4 units in POLS 450-456. Selected topics in comparative politics. May focus on specific geographic areas, particular political processes, and/or specific stages of political development.

560 Seminar: Public Administration (4)
Prerequisite: POLS 460. Advanced studies in administrative organization; delegation, field coordination, communication, accountability, and controls; analysis of values process, structures, and arrangements in large scale governmental management; trends in administrative research.

561 Intergovernmental Relations (4)
Prerequisites: POLS 403 or 404; 460. Dynamics and patterns of vertical and horizontal intergovernmental relations; challenges to the contemporary urban administrator in dealing with other governments at all levels.

563 Seminar: Advanced Problems in Public Personnel Administration (4)
Prerequisite: POLS 463. Case studies of personnel problems encountered in governmental agencies; examination of varying roles of boards, commissions, and official legislative bodies; new frontiers in personnel research and personnel legislation.

565 Public Sector Labor Relations (4)
Prerequisites: POLS 403 or 404; 460. Collective bargaining in federal, state and local government, with emphasis on California. Differences between the public and private sectors, bargaining legislation, negotiations, impasse resolution.

566 Public Budgeting and Financial Administration (4)
Prerequisites: POLS 403 or 404; 460. Issues and problems in budget authorization, execution, and control, including policy implications; special emphasis on program and performance budgeting.

568 Seminar: Community Development Administration (4)
Prerequisite: Instructor consent. Theory and process of planned development; role of administration in formulating and implementing development goals at all political community levels; planning, strategy, obstacles, assistance, development of competent personnel, institution-building.

572 Public Sector Organization and Management (4)
Prerequisites: POLS 403 or 404; 460. Organization structures and theories of management in the public sector. Decision-making, human relations, goal setting, leadership in government organizations.
575 Seminar: Administrative Systems in
Pacific Rim Nations (4)
Prerequisites: POLS 403 or 404; 460. Comparison of public
sector administrative systems in selected Pacific Rim nations.
Analysis of the impact of the administrative environment on gov-
ernmental institutions.

579 Public Sector Information Management and
Computing (4)
Prerequisites: POLS 403 or 404; 460, 479. Public sector com-
puter management trends, issues and applications. Issues of
particular concern to public sector managers; information policy
and public access, privacy, security, computer crime.

580 Advanced Quantitative Methods in Public
Administration (4)
Prerequisites: POLS 403 or 404; 460, 281 or its equivalent. Ap-
plication of quantitative methods to government data, experi-
mental and non-experimental research designs, sampling, graphical
data analysis, computerized data analysis. Individual projects.

585 Seminar: Regulation, the Environment
and California Public Policy (4)
Prerequisites: POLS 403 or 404; 460, 561. The interrela-
ishments among regulatory policies, environmental problems and
public policy in California.

590 Seminar: Philosophy of Public Service (4)
Prerequisites: POLS 560 or 561, instructor consent. Past and
present philosophies of public service; bureaucracy in modern
society; social-psychological and ethical aspects of public serv-
ice; case studies of decision making.

591 Seminar: Administrative Theory
and Behavior (4)
Prerequisite: POLS 472. Analysis of administrative theory and
utilization of advances in behavioral research as they apply to
studies of administrative process and organization.

595 Selected Issues in Public Administration (4)
Prerequisite: Twelve units in public administration, including one
seminar. Presentation and discussion of selected issues and
trends in administrative processes at all levels of government.
Topics change. May be repeated to maximum of 8 units with ad-
viser approval.

597 Graduate Research (1-3)
Prerequisites: Consent of faculty sponsor and graduate adviser;
proposed study must be approved prior to registration. Directed
research on a problem in Political Science from conception
through design, data gathering, analysis and final written report.
May be repeated to a maximum of 9 units for credit. Graded
CR/NC.

598 Graduate Directed Study (1-5)
Prerequisite: Instructor consent to act as sponsor. Independent
study of advanced topics in field; regular conferences with spon-
or. May be repeated.

599 Thesis (1-5)
Prerequisites: Advancement to candidacy, instructor consent to
act as sponsor, departmental approval of topic prior to registra-
tion. Independent research resulting in a thesis. Graded
CR/NC.
School of Natural and Social Sciences

DEPARTMENT OFFICE
King Hall C3104
Phone: (213) 343-2250

The Graduate Program
The Department of Psychology offers both Master of Arts and Master of Science degrees. Although both provide strong preparation for doctoral work, the M.A., with its research orientation, is more specifically predoctoral. The M.S. prepares students for such professions as marriage, family, and child counseling; applied behavior analysis; and community college teaching.

Admission to the Program
Applicants must have completed an undergraduate major in psychology and achieve a grade point average of 2.75 or above in the last 90 quarter units of undergraduate work at an accredited institution. Applicants must apply to the Department of Psychology and to the University Admissions Office. Application forms are available in the department graduate studies office. Completed applications and transcripts from all colleges and universities attended (except Cal State L.A.) must be received by the department before action on admission can be ensured.

Special Action Admittance
Applicants who have not received a baccalaureate in psychology or whose grade point average in the last 90 quarter units falls below the minimum 2.75 may apply for admittance to the department by special action. Evaluation of undergraduate preparation is made by the principal graduate adviser.

Students who are admitted to the program by special action are required to complete 16 units of upper division course work in psychology assigned by a graduate adviser, with a GPA of 3.0. Upon satisfactory completion of these units students may proceed with their graduate course work. Students are cautioned that no credit toward a graduate degree can be earned before satisfactory completion of 16 assigned units.

Classified Standing
Graduate students can achieve classified standing during their first quarter in regular attendance. This is done by submitting and receiving departmental approval and confirmation from the school dean for an official program. (This does not apply to special action and nonmajor graduate students taking equivalent course work.) No more than 13 units completed prior to attainment of classified standing may be credited toward graduation. No credit toward graduation is given for courses taken which are not listed on the students official program.

Departmental Requirements
All graduate students must complete Sections A, B and C (listed below) within their first four courses with a 3.0 GPA or higher:

A. PSY 555 (6) with a grade of B or higher
B. One of the following with a grade of B or higher:
   PSY 411 (4)
   PSY 414 (4)

PSY 429 (5)
PSY 417 (4) for Applied Behavior Analysis Option only
C. Two 400-level courses

Students may not enroll in a 500-level course before satisfactory completion of Section A and B. Students who complete Section A and B satisfactorily within their first two or three courses may take two 500-level courses.

Students who (a) have a 3.4 GPA or higher in their last quarter 90 quarter units as an undergraduate psychology major or have 3.4 GPA in their 31-37 units of nonmajor course work or(b) have a 3.0 GPA or higher in their last 90 quarter units as an undergraduate psychology major with a score of 550 or higher on the GRE subject examination in psychology, may, with their adviser’s approval, elect to substitute two 500-level courses for PSY 555.

Advancement to Candidacy
Upon satisfactory completion of Sections A, B and C students must apply for advanced to candidacy by filing the appropriate forms with the department graduate secretary. Enrollment in PSY 585, 590, 595, 597, 598, 599 and the Comprehensive Examination (PSY 596) is limited to students who have been advanced to candidacy.

Application to the Marriage, Family, Child Counseling Program (MFCC):
Students who wish to apply to the MFCC program of the Psychology Department must obtain an application form from the department. All applications must be received by March 1 of the year the student seeks to be admitted. New MFCC students are accepted only in the Fall Quarter of each academic year. A completed application must include official transcripts of all undergraduate and graduate work, three letters of recommendation and a completed application form. These materials must be submitted directly to the Psychology Department. Application and acceptance into the University is separate from application and acceptance into the Psychology Department.

Acceptance into the Psychology Department MFCC Program is a two-tiered process. First, the applicant must have a baccalaureate degree with a major in psychology. Students whose baccalaureate degree is not in psychology must complete 31-35 specified units in psychology with a GPA of 3.0 or higher before applying for admission to the MFCC program. In addition to the baccalaureate in psychology or its equivalent, the applicant must have at least a 3.0 grade point average (on a scale of 4) in the last 60 semester or 90 quarter units of academic courses. After evaluation of course work, letters of recommendation, and the application form, and applicant may be advanced to the second tier of the application process. Final determination of acceptance to the program will be based on a personal interview with faculty and student members of the Psychology Department MFCC program.

Master of Arts Degree (45 units)
A total of 45 units is required, with at least 23 in 500-level courses.
Electives in Psychology/Related Fields (29-35 units)
Select 2-5 units of PSY 597 and 598, determined in consultation with departmental adviser, and an additional 24-33 units of courses approved by adviser to complete 45 units required for the degree.

Of the required 23 units of 500-level courses in psychology, no more than 13 units may be elected in combinations of PSY 590, 595, 597, 598, and 599.

Comprehensive Examination or Thesis (0, 4 units)
PSY 596 Comprehensive Examination (0) or
PSY 599 Thesis (4)
Students should expect to take the comprehensive examination (PSY 596) the quarter they complete all course work on their program and must comply with school and departmental requirements.

Master of Science Degree (54-86 units)
A total of 54-86 units is required, depending on the option selected. The General option requires 54 units, the Applied Behavior Analysis option requires 57 units, and the Marriage, Family, and Child Counseling option requires 73-86 units.

- General Option (minimum 54 units)

Required Field Study (8 or 12 units)
PSY 585 Directed Clinical Practice (4, 4, 4) or
PSY 595 Field Experience in Psychology (4, 4)
This requirement may be waived for students with adequate prior experience in an appropriate field as determined by the department. Any combination of field and teaching experience that meets Charter School of Education requirements for the credential program with specialization in school psychology also satisfies this requirement.

Electives in Psychology and Related Fields (26-36 units)
Select 2-5 units of PSY 597 and 598, in consultation with a departmental adviser, and an additional 21-34 units of adviser-approved courses to comprise the total number of units required for the degree.

Of the required 27 units of 500-level courses in psychology, no more than 13 units may be elected in combinations of PSY 590, 595, 597, 598, and 599.

Comprehensive Examination or Thesis (0, 4 units)
Students should expect to take the comprehensive examination (PSY 596) the quarter they complete all course work on their program and must comply with school and departmental requirements.

- Applied Behavior Analysis Option (57 units)
The major with this option trains students in the concepts and techniques of behavior analysis as applied to areas of counseling, behavioral medicine, and education. It also provides training in traditional areas of psychology and prepares students for employment at the master's degree level and for doctoral level training. This program is accredited by the Association for Behavior Analysis.

Required courses (57 units)
METHODOLOGY (4 units)
PSY 417 Single Case Research Design (4)
CONCEPTUAL ANALYSIS (4 units)
PSY 428 Introduction to Analysis of Behavior (4)
EXPERIMENTAL ANALYSIS OF BEHAVIOR (8 units)
PSY 421 Psychology of Behavior (4)
PSY 500 Seminar: Learning and Behavior (4)
APPLIED BEHAVIOR ANALYSIS (23 units)
COUN 406 Behavioral Counseling and Self-Management (4)
COUN 501 Behavior Analysis in School, Home, and Agency Settings (4)
COUN 502 Advanced Behavioral Contingency Management in Schools (4)
COUN 504 Advanced Topical Study in Application of Behavior Analysis in Education (4)
COUN 505 Practicum: Staff Development and Consultation (3)
PSY 528 Seminar in Behavior Therapy (4)

ELECTIVE (4 units)
Select one from following:
PSY 501 Seminar: Sensation and Perception (4)
PSY 502 Seminar: Motivation and Emotion (4)
PSY 503 Seminar: Complex Learning Processes (4)
PSY 506 Seminar: Physiological Psychology (4)
PSY 508 Seminar: Comparative Psychology (4)
PSY 510 Seminar: Abnormal Psychology (4)
PSY 511 Seminar: Experimental Child Psychology (4 each)
PSY 512 Behavior Disorders in Children (4)

*FIELD WORK (6 units)
PSY 595 Field Experience in Psychology (6) or
COUN 5868 Supervised Field Experience in Pupil Personnel Services: School Counseling (6)
COUN 588 Supervised Practice in Rehabilitation Counseling (6)

* interview required before admission to field work courses

GRADUATE RESEARCH AND THESIS (8 units)
PSY 597 Graduate Research (2)
PSY 599 Thesis (6)

- Marriage, Family, and Child Counseling Option (73-86 units)
The major with this option is designed to fulfill recently-enacted state regulations for licensure in Marriage, Family, and Child Counseling as outlined in the Business and Professions Code Section 4980.37. The program further prepares students with the skills necessary for employment in mental health and related fields that utilize psychological and counseling services.

Required Courses (73-86 units)
HUMAN BIOLOGICAL, PSYCHOLOGICAL, AND SOCIAL DEVELOPMENT (4 or 8 units)
PSY 412AB Psychology of Human Development: Childhood and Adolescence (4, 4) or
PSY 462 Psychology of Human Development: Maturity and Aging (4) or
COUN 405AB Theoretical and Developmental Aspects of Behavior (4, 4)

HUMAN SEXUALITY (4 units)
PSY 542 Human Sexuality: Dysfunction and Treatment (4) of
COUN 552 Counseling and Human Sexuality (4)

PSYCHOPATHOLOGY (8 units)
PSY 510 Seminar: Abnormal Psychology (4) plus
Graduate Courses

Classified graduate standing is required for admission.

500 Seminar: Learning and Behavior (4)
Prerequisite: PSY 421. Examination of critical areas of the experimental literature in learning and behavior with a stress on issues related to the experimental analysis of behavior.

501 Seminar: Sensation and Perception (4)
Prerequisite: PSY 425. Critical review of current literature; theories, methods, and problems concerning sensation and perception.

502 Seminar: Motivation and Emotion (4)
Prerequisite: PSY 423. Critical review of current literature and methods in the study of motivation and emotion.

503 Seminar: Complex Learning Processes (4)
Prerequisites: PSY 424, 500. Critical examination of experimental data and theory in learning, memory, and cognition.

504 Advanced Experimental Methods (4)
Prerequisite: Instructor consent. Nonstatistical issues in design of experimental psychological research. Topics include design logic, literature sources, apparatus, subjects. Emphasis on preparation of an experimental design in an area of student's interest.

506 Seminar: Physiological Psychology (4)
Prerequisite: PSY 401. Critical discussions, including physiological correlates and mechanisms of motivation and emotion, learning and memory, human psychopathology.

508 Seminar: Comparative Psychology (4)
Prerequisites: PSY 401, 408. Examination in depth of contemporary research dealing with behavior of organisms at different phyyletic levels. May be repeated once for credit as subject matter changes.

510 Seminar: Abnormal Psychology (4)
Prerequisite: PSY 410AB. Intensive analysis of major types of abnormal behavior, their development and prevention. Emphasis on relationship of abnormal behavior to theories of personality and research findings.

511 Seminar: Experimental Child Psychology (4 each)
Prerequisites: PSY 304AB, 412AB or comparable undergraduate work in research methods and human development, and instructor consent. Issues in developmental psychology. Topics announced in Schedule of Classes, selected from following. May be repeated to maximum of 8 units with different suffixes.

511R Research Methods in Child Psychology
511T Theories of Developmental Psychology

512 Behavior Disorders in Children (4)
Prerequisites: PSY 410AB, 412AB. Application of principles of psychology to behavior disorders in children. Designed primarily for clinicians, social workers, school psychologists, and parent educators.

515 Advanced Statistical Methods in Psychology (4)
Prerequisite: PSY 414. Topics include fixed, mixed, and random models of analysis of variance, interaction, analysis of covariance, and miscellaneous nonparametric statistics.

Courses in Psychology (PSY)

400-level Courses

All 400-level courses may be applied toward master's degree requirements, subject to limits established by the department and approval of the graduate adviser.
522 Seminar: Social Psychology (4)
Prerequisite: PSY 422. Theory, methodology, and applied problems dealing with the phenomena of social behavior. Individual projects required.

528 Seminar in Behavior Therapy (4)
Prerequisites: PSY 421 or 428; PSY 417 recommended. Basic principles of behavior and their application to behavior therapy. Common procedures of behavior therapy, including desensitization and flooding. Applied behavior analysis, token economies and behavioral contracts.

531AB Individual Testing and Case Study Techniques (4, 4)
(also listed as COUN 531AB)
Prerequisites: PSY 430 or COUN 428 and one of the following sequences: PSY 410AB and 438; 410AB and 431; 418AB and 431; or 410A and COUN 405A, 501 and 529. Intensive practice in administration and interpretation of better known testing devices for mental ability, perceptual and motor functioning, and personality dynamics, with attention to integration of results in case studies. Lecture 3 hours, laboratory 3 hours.

534 Methods of Personality Assessment (4)
(also listed as COUN 534)
Prerequisite: PSY 531AB. Study and evaluation of current personality tests, objective and projective. Administration, scoring, interpretation, and reporting of results; findings of empirical research. Lecture 3 hours, laboratory 3 hours.

536 Seminar: Counseling (4)
(general and special sections)
Prerequisites: PSY 410AB, 418AB, or 436AB and instructor consent. Intensive discussion of typical counseling situations coordinated with readings in area; evaluation of selected counseling theories. Offered in general and special sections, e.g., child, family, group. May be repeated in different sections, with maximum of 8 units applied to master's degree.

537 Introduction to Rorschach Technique (4)
Prerequisites: Minimum of 12 units of 500-level PSY courses, including 534; instructor consent. Appraisal of personality by means of the Rorschach technique; administration, scoring, and basic interpretation. Lecture 3 hours, laboratory 3 hours.

541 Seminar: Group Processes (4)
Psychological nature of social groups with emphasis on processes in small groups. Research design and experimental methods of studies in social interaction of small groups; analysis of research findings.

542 Human Sexuality: Dysfunction and Treatment (4)
Prerequisite: Eight units of course work in theory and techniques of counseling. Theoretical perspectives on treatment of sexual dysfunction; diagnosis, treatment, research findings, ethical considerations.

546 Seminar: Human Resource Development (3)
Prerequisite: PSY 446. Analysis of results of recent behavioral research applied to employment; psychological aspects of work in an industrial setting stressed.

547 Seminar: Psychological Factors in Man-Machine Systems (4)
Individual research projects in application of behavioral properties of man to man-machine systems. Ways of structuring machines to enhance system performance: research methods in human factors engineering; current problem areas.

552 Seminar: Psychological Foundations of Organizational Behavior (3)
Investigation and analysis of psychological foundations of organizational behavior. Particular attention given to relationship of psychological principles to organizational structure and functions in industry.

555 Introduction to Graduate Study in Psychology (6)
Prerequisites: PSY 304AB, 308. Critical evaluation of core areas in psychology including: learning, perception, personality, physiological, social, and developmental psychology. Extensive use of bibliographic resources and oral and written presentations.

585 Directed Clinical Practice (4)
Prerequisites: PSY 438; 436B or 531B; or 405 and 445; advancement to candidacy; departmental approval. Lecture, discussion, and supervised experience in providing psychological services in campus or community settings. May be repeated to maximum of 12 units. Graded CR/NC.

588 Critical Problems in Psychology (4)
Prerequisite: Instructor consent. Critical problems in psychology as a science or as a profession. Topic varies each quarter. May be repeated for credit.

590 Practicum in Counseling (1-9)
Prerequisites: PSY 438; 536 (may be taken concurrently); advancement to candidacy; departmental approval. Lecture, discussion, and supervised experience in counseling. May be repeated to maximum of 12 units. Graded CR/NC.

595 Field Experience in Psychology (1-9)
Prerequisites: Advancement to candidacy; instructor consent; application to department in quarter prior to enrollment. Independent supervised field experience in psychology. May be repeated to maximum of 12 units. Graded CR/NC.

597 Graduate Research (1-6)
Prerequisites: Advancement to candidacy; instructor consent to act as sponsor; departmental approval of project prior to registration. Independent research under guidance of the faculty. May be repeated for credit. Graded CR/NC.

598 Graduate Directed Study (1-4)
Prerequisites: Advancement to candidacy; instructor consent to act as sponsor. Independent study of advanced topics in the field; regular conferences with sponsor. May be repeated for credit. Graded CR/NC.

599 Thesis (1-9)
Prerequisites: Advancement to candidacy, instructor consent to act as sponsor, departmental approval of topic prior to registration. Independent research resulting in a thesis. May be repeated to maximum of 9 units. Graded CR/NC.
SOCIOLGY

School of Natural and Social Sciences

DEPARTMENT OFFICE
King Hall C3093
Phone: (213) 343-2200
FAX: (213) 343-5155

The Master of Arts degree in Sociology provides advanced study in sociological theory and methods of research with a variety of subject matter emphases that students plan with a graduate adviser. The program prepares students for doctoral studies, teaching at the secondary or community college level, or working in a professional capacity in governmental or private agencies or organizations. Two options are offered. Option A requires a thesis, and Option B requires a comprehensive examination.

Master of Arts Degree

Admission to the Program
Prerequisite to admission are 36 undergraduate units in sociology. These must include SOC 201, 210AB, 390, 412, 414, and other courses as necessary. Satisfactory equivalents will be determined by a graduate adviser in sociology.

Requirements for the Degree (45 units)
A total of 45 units is required, with at least 23 in 500-level courses.

Required Courses (12-20 units)
SOC 410 Advanced Statistics (4)
SOC 490 Advanced Research Methods (4) or SOC 491 Qualitative Research Methods in Sociology (4)
SOC 512 Seminar: History of Sociological Theory (4)
SOC 514 Seminar: Contemporary Sociological Theory (4)
SOC 590 Seminar: Sociological Research (4)

Electives (19-33 units)
These must include 8 units of 500-level SOC seminars for students who elect Option A and 11 units for Students who elect Option B.

Comprehensive Examination or Thesis (0, 6 units)
Students elect Option A or Option B.

Option A: Thesis
SOC 599 Thesis (6)
Oral defense of the thesis is required.

Option B: Comprehensive Examination
SOC 596 Comprehensive Examination (0)
The comprehensive examination (SOC 596) is a written examination in three fields of concentration: theory, methods, and one other field selected by the candidate and approved by the adviser. Students should expect to take the comprehensive examination the quarter they complete all course work on their program and must comply with school and department requirements. Students are allowed a maximum of two attempts to complete the comprehensive examination successfully.

Courses in Sociology (SOC)

400-level Courses

All 400-level courses may be applied toward master’s degree requirements subject to limits established by the department and approval of the graduate adviser.

Graduate Courses

Classified graduate standing is required for admission.

512 Seminar: History of Sociological Theory (4)
Historical dimensions, European and American, of development of systematic sociological theory and method; continuity and critique of major contributions to theories of society and the social processes.

514 Seminar: Contemporary Sociological Theory (4)
Exploration and critique of problems, methods, and theories characteristic of contemporary sociological inquiry; their relationship and contribution to advancement of sociological theory and application to selected social problems.

521 Seminar: Sociology of Knowledge (4)
Relationships of scientific, artistic, legal, and intellectual activities to social structure, institutions, and historical change.

522 Seminar: Social Psychology (4)
Analysis and critique of current approaches and investigations of the social processes that bind individuals and groups.

526 Seminar: Sociology of Deviant Behavior (4)
Prerequisites: SOC 426, instructor consent. Analysis of major theoretical approaches and empirical studies in deviance; selected topics and current issues in study of social deviance.

530 Seminar: Urban Social Systems (4)
(Also listed as GEOG 530)
Prerequisite: Instructor consent. Growth and nature of urban social systems in selected cities and metropolitan areas, theories of urban structure and problems, improving quality of urban life, comparisons of cities in various countries.

534 Seminar: Population (4)
Prerequisite: SOC 434. Problems of population growth; social and psychological factors in population dynamics; population planning and policy.

540 Seminar: Marriage and the Family (4)
Advanced study of sociopsychodynamics of marriage and the family; emphasis on recent research on family change, parent-child relationships, and family instability; successful family life.

544 Seminar: Social Organization and Institutions (4)
Advanced consideration of selected macrosocial structures and their related processes and functions: total societies, institutional subsystems, complex organizations, ethnic subcultures, professions; emphasis varies.
560 Seminar: Racial and Ethnic Minorities (4)
Prerequisite: SOC 460 recommended. Examination in depth of critical problems and trends affecting American minority groups; emphasis on analysis of change in strategies, tactics, ideologies, theories, and consequences of minority group relations.

580 Seminar: Criminology (4)
Prerequisite: SOC 480. Advanced study of criminal behavior, social deviance, and social structure: comparative studies of contemporary criminality, criminal justice, and criminal codes; legal, medical, and psychiatric interpretation of criminal behavior.

584 Seminar: Corrections (4)
Advanced study of sociological aspects of treatment of offender from arrest to release process; discussion of cross-cultural practices and current theories.

590 Seminar: Sociological Research (4)
Prerequisite: SOC 490 or SOC 491; recommended corequisite: SOC 597. Advanced study in behavioral research methodology; qualitative methods; survey design; experimental design, analysis; problems of interpretation, scaling techniques, models, simulation, computer data analysis, supervised application of methods.

591 Seminar: Computer Applications of Multivariate Techniques in Sociology (4)
Prerequisite: SOC 410. Multivariate statistical techniques in sociology and their computer applications; multivariate table analysis, multiple regression, path analysis, analysis of variance, discriminant analysis, factor analysis, and other selected topics of multivariate analysis.

595 Critical Issues and Problems in Sociology (4)
Prerequisite: Instructor consent. Critical areas of social inquiry and special problems of sociology as a social science and as a profession. Content varies; see Schedule of Classes for specific topic. May be repeated once for credit.

597 Graduate Research (13)
Prerequisite: Consent of faculty sponsor. Proposed study must be approved prior to registration. Directed empirical research on a problem in sociology from conception through design; data gathering, analysis, and final written report. May be repeated for credit. Graded CR/NC.

598 Graduate Directed Study (1-4)
Prerequisite: Consent of faculty sponsor. Proposed study must be approved prior to registration. Directed reading and critical analysis of a problem in sociology; written reports and conferences. May be repeated for credit.

599 Thesis (1-3)
Prerequisites: Advancement to candidacy, instructor consent to act as sponsor, department approval of topic prior to registration. Independent research resulting in a thesis. Must be repeated to maximum of 6 units, Graded CR/NC.
FACULTY

FULL-TIME FACULTY, 1997-1999

Listings corrected to March 26, 1997. Year in parentheses indicates year of appointment as a full-time faculty member.

Russell J. Abbott (1967) .................. Professor of Computer Science
B.A., 1962, Columbia University; M.A., 1963, Harvard University; Ph.D., 1973, University of Southern California

Adnan M. Abdeen (1966) ................. Professor of Accounting

Kodzo O. Abledu (1965) ................. Professor of Electrical Engineering
B.Sc., 1976, University of Science and Technology, Ghana; M.Sc., 1979, University of British Columbia; Ph.D., 1963, Iowa State University; Registered Professional Electrical Engineer, 1992, California

Raquel Ackerman (1967) ................. Associate Professor of Anthropology
B.A., 1976, Barnard College, Columbia University; Ph.D., 1968, Kings' College, University of Cambridge, U.K.

Laura Chey Acuña (1996) .................. Associate Professor of Broadcasting
B.A., 1976, California State College, Long Beach; M.F.A., 1966, University of California, Los Angeles

T. Jean Adenika-Monow (1992) .......... Professor of Education
B.A., 1966, San Francisco State University; M.S., 1966, Ph.D., 1972, Florida State University

Abdallah M. A. Aish (1966) ............ Professor of Management
B.B.A., 1954, Ein-Shams University, Egypt; M.B.A., 1961, Columbia University; Ph.D., 1969, University of California, Los Angeles

Vladimir N. Akis (1962) ................. Associate Professor of Mathematics and Computer Science
B.A., 1976, California State University, Sacramento; M.A., 1977, University of California, Berkeley; Ph.D., 1962, University of California, Davis

Mohammad Ala (1965) .................. Professor of Management

Kathryn L. Alesandrini (1964) .......... Professor of Education

Rudi A. Al-Jishi (1966) .................. Professor of Physics
B.S., 1975, American University of Beirut, Lebanon; Ph.D., 1982, Massachusetts Institute of Technology

Janicemarie Allard (1970) ............... Professor of Sociology

Wayne Paul Alley (1969) ................ Professor of Biology
B.A., 1961, University of California, Berkeley; M.S., 1964, San Diego State College; Ph.D., 1966, University of Michigan

John M. Allswang (1966) ............... Professor of History
A.B., 1958, University of Illinois; M.A., 1960, University of Iowa; Ph.D., 1967, University of Pittsburgh

Burton L. Alperson (1974) ............. Professor of Psychology

Joanne Altschuler (1995) .............. Assistant Professor of Social Work
A.B., 1971, Indiana University; M.A., 1975, Hebrew Union College; M.A., 1975, Ph.D., 1994, University of Southern California

J. Theodore Anagnostou (1963) ....... Professor of Political Science
B.A., 1965, Lehigh University; M.A., 1969, American University; M.A., 1975, Ph.D., 1977, University of Rochester

E. Frederick Anderson (1991) ........ Professor of Social Work
B.A., 1965, California State University, Los Angeles; M.S.W., 1967, San Diego State University; Ph.D., 1976, University of Southern California; L.C.S.W., 1969, M.F.C.C., 1969, California

Kenneth L. Anderson (1970) ........ Associate Professor of Microbiology
B.S., 1963, Iowa State University; M.S., 1965, University of Iowa; Ph.D., 1966, University of Utah

Gregory D. Andranovich (1993) ........ Assistant Professor of Political Science
B.A., 1976, Clinch Valley College; M.A., 1980, George Mason University; Ph.D., 1964, University of California, Riverside

Gretchen Angelo (1995) ............... Assistant Professor of French and Spanish

Konrad A. Aniol (1964) ............... Chair and Professor of Physics
B.S., 1970, University of Illinois; M.S., 1973, McMaster University, Canada; Ph.D., 1977, Australian National University

Rene Aravena (1994) ............... Assistant Professor of Music
B.A., 1962, Whitman College; M.M., 1965, University of Nevada, Las Vegas

Ralph Anoyo (1976) .................. Professor of Education
B.A., 1970, California State College, Los Angeles; M.S., 1972, Ph.D., 1976, University of Southern California

Mohammad Auwal (1994) ............. Assistant Professor of Speech Communication
B.A., 1961, Jahangirnagar University, Bangladesh; M.A., 1991, Ph.D., 1994, Ohio University, Athens

Mohammad B. Ayati (1962) ........ Professor of Information Systems
B.S., 1966, University of Tehran, Iran; M.S., 1975, Ph.D., 1960, University of California, Los Angeles

Kevin Baaske (1966) .................. Associate Professor of Speech Communication
B.A., 1976, M.A., 1976, University of Wisconsin-Milwaukee; Ph.D., 1989, University of Southern California

George O. Bachmann (1976) .......... Associate Director, Admissions and University Outreach
B.A., 1965, M.A., 1971, California State College at Los Angeles

William G. Baker (1972) ............ Professor of Management

Mark Balaguer (1992) .............. Assistant Professor of Philosophy
B.A., B.S., 1966, University of Colorado; Ph.D., 1992, City University of New York

Marlohn Balas (1965) ............... Professor of Nursing
B.S., 1960, Columbia Union College; M.S., 1965, Loma Linda University; R.N., 1961, California

Francisco E. Balderama (1964) ........ Professor of Chicano Studies and History
B.A., 1970, Loyola University of Los Angeles; M.A., 1972, Ph.D., 1976, University of California, Los Angeles
Frank R. Balle (1962)  Professor of Civil Engineering  B.S.C.E., 1957, M.S.C.E., 1958, University of Michigan; Registered Professional Civil Engineer, 1965, California

Deborah R. Baskin (1995)  Chair and Professor of Criminal Justice  B.A., 1975, State University of New York-Buffalo; M.S., 1976, Northeastern University; Ph.D., 1984, University of Pennsylvania

Abdallah J. Beddawi (1963)  Professor of French  B.A., 1954, Syrian University, Syria; M.A., 1957, University of California, Berkeley; Docteur d'Université, 1966, University of Paris, France

Bernard B. Berk (1973)  Associate Professor of Sociology  B.A., 1956, University of California, Los Angeles; M.A., 1957, Ph.D., 1961, University of Michigan

Blair Berkley (1995)  Associate Professor of Management  B.S., 1979, Ohio State University; M.B.A., 1980, M.A., 1985, University of Arizona; Ph.D., 1988, University of Southern California

Oscar O. Bemal (1994)  Assistant Professor of Physics  B.S., 1986, Universidad Nacional de Colombia Bogota; M.S., 1989, California State University, Los Angeles; Ph.D., 1994, University of California, Riverside

Sherwood Best (1993)  Assistant Professor of Education  B.A., 1973, Claremont Colleges; M.A., 1980, California State University, Los Angeles; Ph.D., 1995, University of California, Riverside

Shirley Jean Better (1969)  Professor of Social Work  B.A., 1956, University of Illinois; M.S.W., 1958, University of Michigan; D.S.W., 1987, University of California, Los Angeles

Anjan K. Bhaumik (1966)  Professor of Civil Engineering  B.E., 1961, Calcutta University, India; M.S., 1963, Ph.D., 1966, University of Minnesota

Jens D. Biermeier (1985)  Professor of Marketing  B.S., 1974, Fachhochschule of Cologne, Germany; M.B.A., 1977, Ph.D., 1982, University of Essen, Germany

Beverly R. Bigler (1973)  Professor of Nursing  B.S., 1965, California State College, Los Angeles; M.S., 1973, University of California, San Francisco; Ed.D., 1988, Nova University; R.N., 1960, California; National Pediatric Nurse Practitioner Certification, 1979

Kim M. Bishop (1993)  Assistant Professor of Geological Sciences  B.S., 1979, University of California, Los Angeles; M.S. 1985, California State University, Northridge; Ph.D., 1994, University of Southern California

John M. Blackburn (1981)  Associate Professor of Business Law and Real Estate  B.A., 1953, East Texas State Teachers College; J.D., 1976, Southeastern University School of Law; Admitted to the Bar, 1977, California

Irene I. Blea (1993)  Chair and Professor of Chicano Studies  B.A., University of Southern Colorado; Ph.D., 1980, University of Colorado

Cristina Bodinger-deUriarte (1994)  Associate Professor of Sociology  B.A., 1978, Yale University; Ph.D., 1989, Harvard University

Christopher Boons (1996)  Assistant Professor of Geography and Urban Analysis  B.A., 1987, Queen's University (Canada); M.A., 1989, Ph.D., 1994, University of Toronto

Maria Kathleen Boss (1966)  Professor of Finance and Law  B.A., 1965, University of California, Davis; J.D., 1974, University of California Hastings College of Law; Admitted to the Bar, 1974, California

James D. Boulgarides (1977)  Professor of Marketing  B.S., 1951, Columbia University; B.S., 1953, Cooper Union; M.E.A., 1966, University of Utah; D.B.A., 1973, University of Southern California

Roger B. Bowers (1972)  Professor of Biology  B.S., 1966, Creighton University; M.S., 1968, Ph.D., 1971, University of Nebraska
Scott Bowman (1997) ......................... Assistant Professor of Political Science
B.A., 1971, University of California, Berkeley; M.A., 1974, Ph.D., 1989, University of California, Los Angeles

Barbara Ann Boyer (1989) ....................... Professor of Art
B.S., 1958, State University of New York, College at Buffalo; M.A., 1968, California State College at San Jose; Ph.D., 1980, University of Oregon

Joseph Bragin (1970) ......................... Associate Dean, School of Natural and Social Sciences, and Professor of Chemistry
B.S., 1959, Brooklyn College; Ph.D., 1967, University of Wisconsin-Madison

Roger D. Brandt (1962) ......................... Professor of Electrical Engineering
B.S.E.E., 1956, M.S.E.E., 1959, University of North Dakota; Registered Professional Electrical Engineer, 1964, California

Donald W. Bray (1961) ......................... Professor of Political Science
B.A., 1950, Pomona College; M.A., 1957, University of California, Berkeley; Ph.D., 1961, Stanford University

Dwan M. Bridges (1992) ......................... Assistant Professor of Physical Education
B.S., 1975, M.M., 1976, Louisiana State University; M.S., 1984, Loyola University, Louisiana; Ph.D., 1992, Ohio State University

Peter A. Brier (1971) ......................... Professor of English
B.A., 1956, Yale University; M.A., 1958, Harvard University; Ph.D., 1971, Occidental College/Claremont Graduate School

William J. Britton (1979) ..................... Counselor, Educational Opportunity Program
B.A., 1967, California State College, Los Angeles; M.A., 1974, California State University, Los Angeles

Martin G. Brodwin (1988) ..................... Associate Professor of Education
B.A., 1966, University of California, Los Angeles; M.S., 1969, California State College, Los Angeles; Ph.D., 1973, Michigan State University

Costello L. Brown (1969) ..................... Associate Dean of Graduate Studies and Research and Professor of Chemistry

Elizabeth R. Bryant (1990) .................. Associate Professor of Art

Marilyn Buccellati (1973) ..................... Professor of Art
B.A., 1961, College of St. Elizabeth; M.A., 1967, Ph.D., 1974, University of Chicago

David A. Buck (1976) ......................... Professor of Music

Stanley M. Burstein (1968) ................... Chair and Professor of History

Mary E. Bush (1993) ......................... Associate Professor of English

John Butler (1988) ......................... Associate Professor of Art

Herminia G. Cadenas (1990) .................. Associate Professor of Education

H. David Caffey (1984) ....................... Chair and Professor of Music
B.M., 1972, M.M., 1974, University of Texas

Naomi Joy Caiden (1993) ..................... Professor of Political Science
B.S., 1959, University of London; M.A., 1966, Australian National University (Canberra); Ph.D., 1978, University of Southern California

Michael A. Calabrese (1994) .................. Assistant Professor of English

Laura Calderon (1993) ....................... Assistant Professor of Nutritional Science
B.A., 1972, M.A., 1982, California State University, Los Angeles; Ph.D., 1992, Loma Linda University

Evelyn Ruiz Calvillo (1990) .................. Professor of Nursing
B.S., 1983, University of Texas at Galveston; M.S., 1986, Loma Linda University; D.N.Sc., 1991, University of California, Los Angeles; R.N., Texas, 1964, California, 1984

Bruce L. Campbell (1977) ..................... Associate Professor of Child and Family Studies

Randy V. Campbell (1991) ..................... Professor of Education

Giorgio Canarella (1973) ..................... Professor of Economics and Statistics
Laurea in Economia, 1966, University of Milan, Italy; Ph.D., 1973, University of Virginia

Roberto Cantú (1976) ......................... Professor of Chicano Studies and English

Sandra E. Card (1989) ......................... Associate Librarian, Systems

Desdemona Cardoza (1988) ................... Vice President for Information Resources Management and Associate Professor of Psychology
B.A., 1975, University of California, Berkeley; M.A., 1979, Ph.D., 1982, University of California, Riverside

Robert H. Carr (1964) ......................... Professor of Physics
B.A., 1957, Cornell University; Ph.D., 1963, Iowa State University

Samantha Canington (1986) .................. Associate Professor of Economics and Statistics
B.A., 1974, National University of Iran; M.A., 1981, Ph.D., 1985, University of California, Santa Barbara

E. Dale Carter, Jr. (1966) ..................... Professor of Spanish

Michael J. Carter (1990) ..................... Associate Professor of Education
B.A., 1979, University of California, Los Angeles; M.A., 1982, California State University, Northridge, M.F.C.C., 1984, California, Ph.D., 1993, University of California, Los Angeles

Barbara S. Case (1973) ......................... Librarian, Reference

Susan B. Cash (1991) ......................... Associate Professor of Art
B.A., 1980, California State University, Fullerton; M.F.A., 1982, University of California, Irvine

Marshall L. Cates (1971) ..................... Professor of Mathematics

Paul L. Chabot (1970) ......................... Professor of Mathematics
B.S., 1965, Boston College; Ph.D., 1969, University of Notre Dame

Derek K. Chang (1983) ......................... Professor of Mathematics
M.S., 1978, Ph.D., 1983, University of California, Riverside

Jack S. K. Chang (1985) ...................... Professor of Finance
B. Eng., 1972, National Taiwan University, Taiwan; M. Eng., 1975, University of Toronto; M.B.A., 1979, Ph.D., 1983, University of Houston

Lena Chao (1993) ....................... Assistant Professor of Speech Communication

Hema Chari (1992) ....................... Assistant Professor of English

Choi Chattejee (1994) ...................... Assistant Professor of History
May E. Chin (1975). Associate Professor of Communication Disorders
B.S., 1954, Ohio State University; M.A., 1966, California State College, Long Beach; Ph.D., 1971, Northwestern University

Philip C. Chinn (1988). Chair, Division of Special Education, and Professor of Education

Mikyung Mika Cho (1991). Assistant Professor of Art
M.A., 1988, Ph.D., 1992, Illinois State University

Joseph A. Chrzanowski (1969). Chair, Department of Modern Languages and Literatures, and Professor of Spanish

Doris Christopher (1990). Professor of Information System

Barbara J. Clark (1988). Professor of Education

John L. Cleman (1971). Professor of English
Ph.D., 1973, University of Wisconsin

Nancy Cobb (1965). Professor of Psychology
B.A., 1961, College of William and Mary; M.A., 1963, Ph.D., 1965, University of Massachusetts

Bernard Codner (1955). Professor of Marketing
B.S., 1949, City College of New York; M.S., 1950, Columbia University

Harold L. Cohen (1969). Professor of Physics
B.A., 1959, M.S., 1962, Ph.D., 1968, Rutgers University

B.A., 1961, University of California, Los Angeles; M.S.W., 1966, University of California, Berkeley; Ph.D., 1974, Case Western Reserve University

William A. Cohen (1979). Professor of Marketing
B.S., 1959, United States Military Academy; M.B.A., 1967, University of Chicago;

Charles C. Coleman (1968). Professor of Physics
B.A., 1959, M.A., 1961, Ph.D., 1968, University of California, Los Angeles

Joanne A. Collins (1982). Professor of Accounting

Kathleen M. Costantini (1967). Associate Professor of Education
B.A., 1963, M.S., 1967, University of Southern California

Webster E. Cotton (1966). Professor of Education
A.B., 1950, University of Massachusetts; M.A., 1959, Ed.D., 1963, University of California, Los Angeles

Alan N. Crawford (1969). Professor of Education

Frances A. Crawford (1979). Director, Testing Office

Daniel Crecelius (1964). Professor of History

Theodore J. Crovello (1987). Dean of Graduate Studies and Research and Professor of Biology
B.S., 1962, State University of New York and Syracuse University; Ph.D.,
1966, University of California, Berkeley

Cheryl Cruz (1992). Associate Professor of Accounting
B.S., 1969, University of Massachusetts; M.B.A., 1975, Northeastern University; J.D., 1978, University of California, Los Angeles; M.B.T., 1988, University of Southern California; C.P.A., California; Member, State Bar of California

Leonardo Cuellar (1988). Head Coach, Men’s and Women’s Soccer
M.A., 1976, Universidad Nacional Autónoma de Mexico

Ivan N. Cury (1990). Associate Professor of Broadcasting

Fred Daneshgaran (1987). Associate Professor of Electrical Engineering
B.S., 1984, M.S., 1985, California State University, Los Angeles; Ph.D.,
1992, University of California, Los Angeles

Abbas Daneshvari (1982). Professor of Art
B.S., 1969, California State College, Hayward; M.A., 1971, University of Massachusetts; Ph.D., 1977, University of California, Los Angeles

William D. Darrough (1973). Professor of Sociology
B.A., 1965, Whittier College; M.S.W., 1967, University of California,
Berkeley; Ph.D., 1975, University of British Columbia

William G. Davidson (1993). Assistant Professor of Art
B.A., 1976, San Diego State University; M.A., 1990, Northern Arizona University

Douglas A. Davis (1995). University Librarian
B.S., 1966, California State University, Northridge; M.S., 1969, Simmons College

Rebecca L. Davis (1990). Assistant Professor of Art
B.S., 1977, University of Delaware; Ph.D., 1984, University of Maryland

Terry E. Davis (1968). Professor of Geology
B.A., 1959, University of California, Santa Barbara; M.S., 1963, University of Nevada; Ph.D., 1969, University of California, Santa Barbara

Ralph W. Dawson (1968). Counselor
B.A., 1968, California State College, Los Angeles; M.P.A., 1974, University of California, Los Angeles

Evelyn T. Deaumlin (1992). Associate Dean for Academic Programs,
Chatter School of Education, and Professor of Education
B.A., 1956, University of Nevada, Reno; M.A., 1962, University of California, Berkeley; Ph.D., 1974, University of Nevada, Reno

Cherie De Jong (1989). Associate Professor of Education
B.S., 1971, California State College at San Diego; M.A., 1979, Ph.D., 1989, University of California, Santa Barbara

Roger Delgado (1979). Professor of Social Work
B.S., 1967, Brigham Young University; M.S.W., 1970, University of Texas;
Ph.D., 1984, University of Southern California

Michael A. DeMiranda (1993). Assistant Professor of Technology
B.A., 1980, M.A., 1988, California State University, Long Beach; Ph.D.,
1996, University of California, Riverside
Robert A. Desharnais (1988). Associate Professor of Biology
B.A., 1976, University of Massachusetts at Boston; M.S., 1979, Ph.D., 1982, University of Rhode Island

Timothy Diamond (1988). Associate Professor of Sociology

Felipe Diaz (1988). Associate Professor of Spanish
B.A., 1968, University of Kansas; M.A., 1973, Ph.D., 1978, University of Texas at Austin

Mary L. Diaz (1977). Counselor
B.A., 1971, San Fernando Valley State College; M.S.W., 1973, San Diego State University; Ph.D., 1994, Claremont Graduate School

Jim D. Donohoo (1981). Professor of Accounting
B.S., 1962, California State College, Fresno; M.S., 1970, San Fernando Valley State College; J.D., 1982, Loyola Marymount University

Jamie Dote-Kwan (1993). Associate Professor of Education
B.A., 1976, M.A., 1979, California State University, Los Angeles; Ph.D., 1991, University of California, Los Angeles/California State University, Los Angeles

Daniel Douke (1982). Professor of Art

Timothy M. Downs (1988). Acting Assistant Vice President for Academic Affairs and Associate Professor of Speech Communication
B.A., 1983, California State University, Sacramento; M.A., 1984, West Virginia University; Ph.D., 1988, University of Oklahoma

Domnita Dumitrescu (1987). Professor of Modern Languages/Literatures
Diploma, University of Bucharest, Rumania; M.A., 1987, Ph.D., 1990, University of Southern California

Carol M. Dunn (1981). Director of Athletics

Pamela Dunne (1974). Professor of Theatre Arts
B.A., 1967, University of California, Los Angeles; M.A., 1970, University of Washington; Ph.D., 1974, Florida State University

John Eichinger (1992). Associate Professor of Education
B.S., 1974, M.S., 1980, California State Polytechnic University, Pomona; Ph.D., 1990, Claremont Graduate School

Marilyn R. Elkins (1991). Associate Professor of English
B.A., 1964, Tennessee Technological University; M.A.T., 1968, University of Tennessee at Chattanooga; M.A., 1970, Vanderbilt University; Ph.D., 1991, University of North Carolina at Chapel Hill

Lu Elrod (1978). Professor of Music
B.M., 1960, Georgia State University; M.M.E., 1970, Ed.D., 1971, University of Georgia

George N. Engler (1975). Professor of Finance
B.S., 1965, University of Southern California; M.B.A., 1966, Ph.D., 1969, University of California, Los Angeles

Martin B. Epstein (1970). Professor of Physics
B.S., 1963, Columbia University; Ph.D., 1967, University of Maryland

Stephanie Evans (1987). Professor of Education

Neda S. Fabris (1979). Professor of Mechanical Engineering
Diploma Engineering, 1965, University of Sarajevo, Yugoslavia; M.S., 1972, Ph.D., 1976, Illinois Institute of Technology

Linda LaPlante Fahey (1982). Professor of Nursing
B.S.N., 1974, Duke University; M.S.N., 1975, Emory University

Mary A. Falvey (1980). Professor of Education
B.A., 1972, California State University, Sacramento; M.A., 1977, San Francisco State University; Ph.D., 1980, University of Wisconsin-Madison

Hsing Fang (1987). Professor of Finance
B.A., 1974, National Taiwan University; M.A., 1977, National Chengchi University; Ph.D., 1986, Arizona State University

Marlene Farrell (1963). Professor of Nursing
B.A., 1956, Mount Saint Mary’s College; M.S., 1958, University of California, Los Angeles; R.N., 1956, P.H.N., 1960, California

Rod A. Faurot (1959). Professor of Physical Education
B.A., 1958, M.A., 1959, University of Washington

Jennifer Faust (1993). Assistant Professor of Philosophy
B.S., 1986, Spring Hill College; M.A., 1988, Ph.D., 1995, University of Illinois, Chicago

Diane Fazzi (1992). Assistant Professor of Education
B.S., 1983, Kutztown University of Pennsylvania; M.Ed., 1984, University of Arkansas; Ph.D., 1993, California State University, Los Angeles/University of California, Los Angeles

Stephen F. Felszeghy (1979). Professor of Mechanical Engineering
B.S., 1961, M.S., 1963, University of California, Los Angeles; Ph.D., 1974, University of California, Berkeley

Eleanor Ferguson-Marshalleck (1991). Professor of Nursing

Robert R. Fiedler (1961). Professor of Art
B.S., 1952, Wisconsin State College; M.S., 1958, M.F.A., 1959, University of Wisconsin

Eugene R. Fingerhut (1962). Professor of History

B.A., 1986, University of Texas, San Antonio; M.A., 1989, California State University, Los Angeles; Ph.D., 1992, University of Houston

Stuart P. Flischoff (1972). Professor of Psychology

Janet C. Fisher-Hoult (1986). Director, Center for Effective Teaching and Learning, and Professor of Education
B.A., 1958, University of Washington; M.A., 1972, University of California, Los Angeles; Ed.D., 1980, University of Southern California

David Fitzpatrick (1967). Professor of Psychology
B.A., 1962, University of California, Riverside; M.A., 1965, Ph.D., 1968, Claremont Graduate School

Richard W. Fleming (1972). Associate Professor of Microbiology

Edward C. Forde (1971). Professor of Art
B.A., 1968, M.F.A., 1971, University of California, Santa Barbara

Daniel Frankl (1991). Assistant Professor of Physical Education

Grant A. Fraser (1982). Professor of Mathematics and Computer Science

Anthony Fratiello (1963). Professor of Chemistry
B.S., 1957, Providence College; Ph.D., 1962, Brown University

Glenn Freed (1990). Professor of Accounting
B.S., 1982, University of Florida; Ph.D., 1994, University of Southern California; C.P.A., 1983, Florida

Siegrun Fox Freyss (1996). Assistant Professor of Political Science
B.A., 1962; M.A., 1970, Technical University, Munich, Germany; Ph.D., 1978, Claremont Graduate School, California

Marilyn Friedman (1967). Professor of Nursing
B.S., 1959, University of California, Los Angeles; M.S., 1964, University of Minnesota; Ph.D., 1985, University of Southern California; R.N., 1959, California

Norman L. Friedman (1968). Professor of Sociology
B.S., 1957, M.A., 1958, Ph.D., 1965, University of Missouri
John Funakura (1988) .................. Associate Professor of Art  
B.A., 1956, Tokyo Metropolitan University, Japan; M.F.A., 1988, California State University, Los Angeles

Bernardo Gallegos (1987) ............ Associate Professor of Education  
B.A., 1974, University of Wisconsin-Lacrosse; M.A., 1980, Ph.D., 1988, University of New Mexico

José L. Galván (1990) ............... Associate Professor of Education  
B.S., 1970, M.A., 1972, Ph.D., 1980, University of Texas

John A. Gamon (1991) .............. Associate Professor of Biology/Microbiology  
B.S., Yale University; M.S., Ph.D., University of California, Davis

Perry S. Ganas (1970) .............. Professor of Physics  
B.S., 1960, University of Queensland, Australia; Ph.D., 1968, University of Sydney, Australia

Nandakumar Ganesan (1985) ....... Professor of Information Systems  

Gumersindo Garcia, Jr. (1976) ....... Physician, Student Health Center  
M.D., 1947, University of the Philippines

Margaret Garcia (1993) ............. Assistant Professor of Education  
B.A., 1986, University of California, Los Angeles; M.A., 1990, University of California, Berkeley; Ph.D., 1996, University of California, Los Angeles

Raymond E. Garcia (1982) ......... Professor of Chemistry/Biochemistry  
B.S., 1966, California Polytechnic State College, San Luis Obispo; B.A., 1970, Ph.D., 1976, University of California, Riverside

Ann Garry (1969) .................. Chair and Professor of Philosophy  
B.A., 1965, Monmouth College; M.A., 1966, University of Chicago; Ph.D., 1970, University of Maryland

Neil H. Garston (1975) ............ Chair and Professor of Economics and Statistics  

Jeanine S. Gaucher-Morales (1965) .... Professor of French and Spanish  
B.A., 1960, University of Nebraska; M.A., 1962, Ph.D., 1965, University of Southern California

Irene M. Girton (1989) .............. Associate Professor of Music  
B.Mus., 1976, Oberlin College; M.Phil., 1979, Ph.D., 1981, Yale University

Christine C. Givner (1993) ......... Associate Professor of Education  

Thell E. Glascock (1971) .......... Professor of Criminal Justice  
B.S., 1970, California State College, Los Angeles; M.P.A., 1971, University of Southern California

David J. Godoy (1979) ............ Assistant Vice President for Student Affairs-Educational Equity Administration  
B.A., 1972, California State University, Los Angeles; M.A., 1987, National University

Philip K. Goff (1993) ............. Assistant Professor of History  
B. A., 1986, Nyack College; M.A., 1988, University of Kansas; Ph.D., 1993, University of North Carolina

Philip I. Gold (1967) .............. Professor of Mechanical Engineering  
B.S., 1958, M.S., 1959, Ph.D., 1965, University of California, Los Angeles

Herbert Goldberg (1965) .......... Professor of Psychology  
A.B., 1958, City College of New York; Ph.D., 1963, Adelphi University; Licensed Psychologist, 1968, California

Harold Goldwhite (1962) .......... Professor of Chemistry  
B.A., 1953, Ph.D., 1956, Cambridge University, England

Frank A. Gomez (1993) .......... Assistant Professor of Chemistry  
B.A., 1986, California State University, Los Angeles; Ph.D., 1991, University of California, Los Angeles

Ricardo J. Gomez (1983) .......... Professor of Philosophy  

Alfonso Gonzalez (1975) .......... Professor of Spanish  

Alfredo G. Gonzalez (1977) ....... Dean of Undergraduate Studies  
and Professor of Social Work  
B.S., 1971, California State Polytechnic College, Pomona; M.S.W., 1973, D.S.W., 1981, University of California, Berkeley

José Cruz González (1990) .... Associate Professor of Theatre Ark  

Steven L. Gordon (1977) ......... Professor of Sociology  
B.A., 1967, M.A., 1972, Ph.D., 1979, University of California, Los Angeles

Harold J. Gottlieb (1972) ......... Professor of Psychology  

Gregory S. Graham (1968) ......... Professor of Technology  
B.S., 1963, Oregon State University; M.A., 1964, San Jose State College; Ed.D., 1971, University of California, Los Angeles

Shirley B. Gray (1994) .......... Assistant Professor of Mathematics  
B.A., 1957, Western Kentucky University; M.A., 1966, Columbia University; Ph.D., 1991, University of Southern California

David T. Gregorich (1968) ......... Professor of Physics  
A.B., 1962, University of California, Los Angeles; M.S., 1964, California State College, Los Angeles; Ph.D., 1968, University of California, Riverside

Estelle H. Gregory (1972) ......... Professor of Psychology  
B.A., 1966, Ph.D., 1969, University of California, Berkeley

Scott D. Grover (1983) .......... Chair, Department of Chemistry and Biochemistry, and Professor of Biochemistry  
B.A., 1972, University of California, Santa Barbara; Ph.D., 1980, University of California, Los Angeles

Carlos G. Gutierrez (1976) ......... Professor of Chemistry  
B.S., 1971, University of California, Los Angeles; Ph.D., 1975, University of California, Davis

Diane Haager (1992) .......... Assistant Professor of Education  
B.S.Ed., 1976, Miami University; M.M., 1986, University of Miami; Ph.D., 1992, University of Wisconsin

Anne L. Hafner (1993) .......... Associate Professor of Education  
B.A., 1974, University of California, Santa Cruz; M.A., 1983, University of Southern California; Ph.D., 1990, University of California, Los Angeles

Rosemary L. Hake (1980) ......... Professor of English  

Judith Hamera (1987) .......... Chair, Department of Communication Studies, and Professor of Speech Communication  

Judd Hammad (1970) .......... Professor of Economics and Statistics  

Sin Fong Han (1971) .......... Professor of Geography  
Diploma, 1963, Chung Chi College, Chinese University of Hong Kong, Hong Kong; M.A., 1966, McGill University, Canada; Ph.D., 1971, University of Michigan

Clifford D. Harper (1982) ....... Executive Director, Luckman Fine Arts Complex, and Professor of Theatre Arts  
B.A., 1962, University of Illinois; M.A., 1969, Ph.D., 1972, St. Louis University
Margaret J. Hartman (1970) . . . . . . . . . . . . . Provost and Vice President for Academic Affairs and Professor of Biology

Hassan Hashemian (1980) . . . . . . . . . . . . . Professor of Civil Engineering
B.S., 1972, M.S., 1974, University of Wisconsin; Ph.D., 1980, University of California, Berkeley; Registered Professional Civil Engineer, 1982, Wisconsin

Rick Stephan Hayes (1990) . . . . . . . . . . . . . Professor of Accounting

Peter D. Hechler (1973) . . . . . . . . . . . . . Professor of Management

James G. Heideman (1994) . . . . . . . . . . . . . Associate Professor of Technology
B.A., 1978, M.A., 1984, California State University, Long Beach; Ph.D., 1991, Wayne State University, Detroit

J. Dennis Heim (1966) . . . . . . . . . . . . . Professor of Education
B.S., 1962, California State Polytechnic College, Pomona; M.A., 1966, California State College, Los Angeles; Ed.D., 1970, University of Southern California

Michael J. Henderson (1994) . . . . . . . . . . . . . Assistant Professor of Art
B.F.A., M.F.A., 1972, Otis Art Institute

W. Keith Henning (1966) . . . . . . . . . . . . . Professor of Speech Communication
B.A., 1962, Doane College; M.A., 1965, University of Arizona; Ph.D., 1973, University of Southern California; M.A., 1985, California State University, Northridge; Licensed Marriage, Family, and Child Counselor, 1985, California

James Henrickson (1966) . . . . . . . . . . . . . Professor of Biology
B.S., 1962, Wisconsin State University; M.A., 1964, Ph.D., 1968, Claremont Graduate School

Heather J. Henter (1994) . . . . . . . . . . . . . Assistant Professor of Biology
B.A., 1983, Evergreen State College; Ph.D., 1992, Cornell University

John O. Herbold II (1984) . . . . . . . . . . . . . Head Coach, Baseball
B.A., 1951, M.A., 1952, Stanford University

Fernando A. Hernandez (1972) . . . . . . . . . . . . . Professor of Education
B.A., 1969, California State College, Long Beach; M.A., 1971, Occidental College; Ph.D., 1977, United States International University

Grace Shizuko Herrera (1990) . . . . . . . . . . . . . Associate Professor of Theatre Arts
B.A., 1979, M.A., 1991, California State University, Los Angeles

Daniel A. Herwitz (1985) . . . . . . . . . . . . . Professor of Philosophy
B.A., 1977, Brandeis University; Ph.D., 1984, University of Chicago

E. Anne Hess (1988) . . . . . . . . . . . . . Librarian, Reference
B.A., 1962, Texas Lutheran College; M.L.S., 1965, University of Texas at Austin

Silvia P. Heubach (1994) . . . . . . . . . . . . . Assistant Professor of Mathematics
B.A., 1983, University of ULM, Germany; Ph.D., 1992, University of Southern California

Udo Heyn (1969) . . . . . . . . . . . . . Professor of History

Barry Hibbs (1997) . . . . . . . . . . . . . Assistant Professor of Geological Sciences
B.S., 1985, Arizona State University; M.S., 1989, University of Nebraska-Lincoln; Ph.D., 1993, University of Texas at Austin

Raymond E. Hills (1965) . . . . . . . . . . . . . Chair, Division of Administration and Counseling, and Professor of Education

Michael J. Hoffman (1981) . . . . . . . . . . . . . Chair, Department of Mathematics and Computer Science, and Professor of Mathematics
B.S., 1970, Massachusetts Institute of Technology; M.A., 1973, Ph.D., 1979, University of California, Berkeley

George K. Hong (1990) . . . . . . . . . . . . . Professor of Education

Lawrence K. Hong (1970) . . . . . . . . . . . . . Professor of Sociology

Noriko S. Horgan (1991) . . . . . . . . . . . . . Professor of Education

Lih-Min Hsia (1983) . . . . . . . . . . . . . Professor of Mechanical Engineering
B.S., 1966, National Taiwan University; M.S., 1973, M.Eng., 1974, Cornell University; Ph.D., 1979, University of California, Davis; Registered Professional Mechanical Engineer, 1982, California

Edward W. T. Hsieh (1989) . . . . . . . . . . . . . Associate Professor of Economics and Statistics
B.A., 1978, National Taiwan University; Ph.D., 1988, University of Houston

Ron E. Hull (1964) . . . . . . . . . . . . . Assistant Professor of Physical Education
B.A., 1963, University of California, Los Angeles

Nancy A. Hunt (1981) . . . . . . . . . . . . . Associate Professor of Education
B.A., 1970, Canisius College; M.A., 1971, Teachers’ College, Columbia University; Ph.D., 1982, University of Southern California

Virginia H. Hunter (1982) . . . . . . . . . . . . . Associate Dean of Undergraduate Studies and Professor of Nursing
B.S., 1971, California State College, Los Angeles; M.N., 1973, Ph.D., 1982, University of California, Los Angeles

Richard W. Hurst (1978) . . . . . . . . . . . . . Professor of Geology
B.S., 1970, State University of New York at Stony Brook; Ph.D., 1975, University of California, Los Angeles

Masakazu Iino (1996) . . . . . . . . . . . . . Assistant Professor of Japanese
B.A., 1985, Waseda University; M.S., 1991, Ph.D., 1996, University of Pennsylvania

Melve E. Irvin (1995) . . . . . . . . . . . . . Chair and Professor of Physical Education
B.A., 1963, University of Northern Colorado; M.S., 1968, Pennsylvania State University; Ph.D., 1976, University of Utah

Durward P. Jackson (1981) . . . . . . . . . . . . . Professor of Information Systems
B.S., 1984, University of Arizona; M.E.A., 1989, University of Utah; M.B.A., 1978, Golden Gate University; Ph.D., 1983, Claremont Graduate School

George H. Jacobson (1984) . . . . . . . . . . . . . Professor of Information Systems

Colleen B. Jamison (1965) . . . . . . . . . . . . . Professor of Education

Carol S. Jeffers (1993) . . . . . . . . . . . . . Associate Professor of Art

Margaret Jefferson (1977) . . . . . . . . . . . . . Professor of Biology
B.S., 1969, University of Dubuque; M.A., 1971, University of Colorado; Ph.D., 1977, University of Arizona

Raymond I. Jeng (1968) . . . . . . . . . . . . . Professor of Civil Engineering
B.S., 1962, National Taiwan University, Taiwan; M.S., 1965, Ph.D., 1968, Colorado State University; Registered Professional Civil Engineer, 1973, California

George Jensen (1962) . . . . . . . . . . . . . Associate Professor of Economics and Statistics
B.S., 1958, Utah State University; Ph.D., 1968, University of Washington

Nandlal Jhunjhunwala (1967) . . . . . . . . . . . . . Associate Professor of Mathematics
B.S., 1958, Calcutta University, India; M.S., 1963, University of Bombay, India; Ph.D., 1966, Northwestern University

Jo Ann Johnson (1968) . . . . . . . . . . . . . Acting Dean, School of Health and Human Services, and Professor of Nursing

Julia Johnson (1995) . . . . . . . . . . . . . Assistant Professor of Speech Communication
B.A., 1990, California State University, Long Beach; M.A., 1992, California State University, Northridge; Ph.D., 1997, University of Massachusetts, Amherst
Karen M. Johnson (1965). Associate Dean, School of Health and Human Services, and Professor of Physical Education  
B.A., 1960, College of Idaho; M.A., 1965, California State College, Los Angeles; Ph.D., 1974, University of Southern California

Ruth S. Johnson (1990). Professor of Education  
B.S., 1961, Springfield College; M.A., 1969, William Patterson University; Ed.D., 1985, Rutgers University

Sharon Kay Johnson (1989). Professor of Education  
B.S., 1974, University of California, Los Angeles; M.S., 1976, California State University, Fullerton; Ed.D., 1988, Virginia Technical Institute and State College

Steven S. Jones (1983). Professor of English  
B.A., 1971, Haverford College; M.A., 1974, Ph.D., 1979, University of California, Davis

Gary V. Jorden (1976). Professor of Accounting  
B.S., 1972, M.B.A., 1975, California State University, Los Angeles; C.P.A., 1974, California State University

Anupama Joshi (1996). Assistant Professor of Child and Family Studies  
B.S., 1987, College of Home Science, India; M.S., 1989, M.P.H., 1990, Maharaja Sayajirao University, India; Ph.D., 1997, Purdue University

Marguerite Joyce (1989). Professor of Information Systems  
B.S., 1973, Missouri Western State College; M.Ed., 1975, Bowling Green State University; Ed.D., 1978, University of Nebraska

James P. Kallisky (1995). Assistant Professor of Physical Education  
M.A., 1991, California State University, Chico

Terry R. Kandal (1968). Professor of Sociology  

Richard H. Kao (1983). Professor of Marketing  
B.C., 1964, National Chengchi University, Taiwan; M.B.A., 1971, Michigan State University; Ph.D., 1978, University of Michigan

Kamran Karimlou (1984). Professor of Electrical Engineering  
B.S., 1977, University of Sussex, England; M.S., 1978, University of North Wales; Ph.D., 1983, University of Southern California

Tina Karwsky (1969). Head Coach, Men's and Women's Tennis  

Illias G. Kastanas (1981). Associate Professor of Mathematics and Computer Science  
M.S., 1976, Ph.D., 1981, California Institute of Technology

B.E.E., 1958, City College of New York; Ph.D., 1967, University of California, Los Angeles

Candace Kaye (1996). Assistant Professor of Education  
B.S., 1959, Texas Tech; M.A., 1978, University of Texas; Ph.D., 1991, Claremont/San Diego State University

Dorothy L. Keane (1973). Professor of Education  

Valerie C. Kehm (1979). Associate Professor of Family Studies and Consumer Sciences  
B.S., 1967, M.S., 1971, University of Nebraska; Ph.D., 1977, Pennsylvania State University

Barbara Keller (1990). Assistant Professor of Finance and Law  
B.A., 1969, Northwestern University; J.D., 1977, Loyola University of Chicago; admitted to the bar, California, 1978

Michael P. Kelley (1972). Professor of Speech Communication  
B.A., 1965, University of Notre Dame; M.A., 1969, Ph.D., 1976, University of Pittsburgh

Delos H. Kelly (1976). Professor of Sociology  

John M. Kennedy (1996). Assistant Professor of Music  
B.M., 1984, Wallace College; M.M., 1988, University of Michigan

Irving Kett (1971). Professor of Civil Engineering  
B.C.E., 1944, City College of New York; M.C.E., 1949, Polytechnic Institute of Brooklyn; M.B.A., 1954, D. Eng. Sc., 1966, New York University; Registered Professional Engineer, 1949, New York; Licensed Land Surveyor, 1956, New York; Registered Professional Civil Engineer, 1972, California

Richard T. Keys (1959). Professor of Chemistry  
B.A., 1953, Harvard University; Ph.D., 1958, Iowa State College

Rauf-Ur R. Khan (1988). Professor of Management  

Nazareth Khodiguian (1990). Associate Professor of Physical Education  
Diploma, 1973, Armenian State Institute of Physical Education; Ph.D., 1986, University of Southern California

George B. Killinger (1982). Associate Professor of Electrical Engineering  
B.S.E.E., 1955, M.S.E.E., 1958, Ph.D., 1968, University of Pittsburgh

Lori Yoonkung Kim (1992). Assistant Professor of Education  
B.S., 1979, University of California, Los Angeles; M.S., 1987, Ph.D., 1992, University of Southern California

Neung-Jip Kim (1988). Associate Professor of Accounting  

Sun K. Kim (1964). Professor of Economics and Statistics  
B. Comm., 1956, Seoul National University; A.M., 1959, University of Missouri; Ph.D., 1966, University of Southern California

Taewon Kim (1987). Professor of Finance and Real Estate  
B.A. 1974, Yonsei University; M.A., 1982, Ph.D., 1986, University of Georgia

Young C. Kim (1965). Chair and Professor of Civil Engineering  
B.S.C.E., 1958, University of Southern California; M.S.C.E., 1959, California Institute of Technology; Ph.D., 1964, University of Southern California

Christina H. Kimm (1993). Associate Professor of Education  
B.A., 1979, M.A., 1982, Dankook University, Seoul, Korea; Ph.D., 1991, University of Minnesota

John A. Kirchner (1979). Professor of Geography  
B.A., 1966, San Jose State College; M.A., 1970, Ph.D., 1979, University of Chicago

M. Diane Klein (1982). Professor of Education  
B.A., 1967, Central Michigan University; M.A., 1969, Western Michigan University; Ph.D., 1980, Michigan State University

Norman Klein (1971). Chair and Professor of Anthropology  
B.A., 1965, California State College, Los Angeles; M.A., 1966, University of California, Los Angeles; Ph.D., 1975, University of Oregon

Nadine S. Koch (1987). Associate Professor of Political Science  

Eric Kohatsu (1993). Assistant Professor of Psychology  

Grigori Kolesnik (1984). Professor of Mathematics  
M.S., 1965, Moscow State University, Russia; Ph.D., 1972, Kiev State University, U.S.S.R.

Linda I. Kostalik (1986). Professor of Theatre Arts/Dance  

Ellen King Kravitz (1967). Professor of Music  
B.A., 1964, Georgian Court College; M.M., 1966, Ph.D., 1970, University of Southern California

Ita Kreft (1991). Professor of Education  
Bachelor and master degree equivalents, University of Leiden; Ph.D., 1987, University of Amsterdam, Netherlands
Beverly Krilowicz (1990). Associate Professor of Biology
B.S., 1977, California State College at Fullerton; Ph.D., 1984, University of California, Riverside

J. Gregory Kunke (1993). Associate Professor of Accounting
B.S., 1973, Ohio State University; M.B.A., 1975, Ph.D., 1980, University of California, Berkeley

Antony John Kunnan (1992). Assistant Professor of Education

JoAn D. Kunselman (1990). Professor of Music
A.B., 1968, Vassar College; M.L.S., 1974, Louisiana State University; M.M., 1974, University of Maryland; Ph.D., 1976, Louisiana State University

Nancy E. Kupka (1982). Associate Professor of Dance
B.A., 1975, California State University, Los Angeles; M.A., 1979, University of California, Los Angeles

KwoK Keung (Kern) Kwong (1986). Professor of Management
B.S., 1980, Chinese University of Hong Kong; M.B.A., 1985, Ph.D., 1986, Georgia State University

Jean P. LaCour (1977). Associate Professor of Psychology

Stephen E. G. LaDochy (1987). Associate Professor of Geography
B.A., 1967, University of California, Los Angeles; M.S., 1969, Colorado State University; Ph.D., 1985, University of Minnesota

Kon Sun Lai (1987). Professor of Economics and Statistics
B.S.S., 1980, University of Hong Kong; M.S., 1981, London School of Economics; Ph.D., 1987, University of Pennsylvania

Raymond B. Landis (1985). Dean, School of Engineering and Technology, and Professor of Mechanical Engineering
B.S., 1962, M.S., 1963, Massachusetts Institute of Technology; Ph.D., 1971, University of California, Los Angeles

Philip S. LaPolt (1996). Assistant Professor of Biology
B.S., 1982, Ph.D., 1988, University of California, Los Angeles

Theresa Larkin (1990). Associate Professor of Theatre Arts

Tom E. Larson (1987). Associate Professor of Economics and Statistics
B.A., 1979, University of California, Santa Cruz; Ph.D., 1986, University of California, Berkeley

Christine Pollack Latham (1979). Professor of Nursing
B.S., 1974, University of Wisconsin; M.S., 1979, California State University, Long Beach; D.N.Sc., 1990, University of San Diego

Chor Tin Lau (1985). Professor of Accounting
B. Com., 1966, Sir George Williams University, Canada; M.B.A., 1968, McMaster University, Canada; Ph.D., 1976, University of Oregon

Richard Tinwah Lau (1989). Associate Professor of Accounting
B.S., 1984, University of Southwestern Louisiana; M.S., 1986, Ph.D., 1989, Louisiana State University

William Lawler (1996). Head Coach, Volleyball
B.A., San Diego State University, 1989

Rita Ledesma (1995). Assistant Professor of Social Work
B.A., 1979; M.S.W., 1981, University of California, Los Angeles

Dong Woo Lee (1995). Associate Professor of Accounting
G.B.A., 1974, Seoul National University; M.B.A., 1987, Yonsei University; Ph.D., 1995, University of Michigan

Hae Kyung Lee (1993). Assistant Professor of Dance
B.A., 1976, Ewha University, Seoul, Korea; M.A., 1982, University of California, Los Angeles
Barry Munik (1991) . . . . . . Chancellor, The California State University, and Professor of English

Marcia Murota (1992) . . . . . . Head Coach, Women's Basketball
B.A., 1980, M.A., 1988, California State University, Los Angeles

Dennis M. Murphy (1975) . . . . . . Professor of Accounting

Robert R. Nakamura (1991) . . . . . . Associate Professor of Biology
B.S., 1976, Stanford University; M.Phil., 1979, Ph.D., 1988, Yale University

Edward Negrete, Jr. (1985) . . . . . . Associate Professor of Education
B.A., 1967, Idaho State University; M.A., 1976, Pepperdine University; Ed.D., 1982, University of California, Los Angeles

Louis R. Negrete (1972) . . . . . . Professor of Chicano Studies

Chorswang Ngin (1993) . . . . . . Assistant Professor of Anthropology
B.A., 1972, Wellesley College; M.A., 1975, Ph.D., 1985, University of California, Davis

Scott L. Nickolaisen (1994). . . . . . Assistant Professor of Chemistry
B.S., 1985, M.S., 1986, Utah State University; Ph.D., 1991, University of Southern California

Gordon L. Nipp (1971) . . . . . . Professor of Mathematics
B.A., 1963, Wartburg College; M.A., 1965, University of Wisconsin; Ph.D., 1972, University of Southern California

Gary A. Novak (1970) . . . . . . Professor of Geology
B.S., 1965, University of Dayton; M.S., 1967, Pennsylvania State University; Ph.D., 1970, Virginia Polytechnic Institute and State University

Jonathan Nwomonoh (1970) . . . . . . Associate Professor of Pan-African Studies
B.A., 1968, California State College, Los Angeles; M.P.A., 1970, M.S., 1973, University of Southern California; Ph.D., 1975, United States International University; Ph.D., 1979, Claremont Graduate School

Freda V. O'Bannon-Lemmi (1968) . . . . . . Professor of Nursing
B.S., 1965, M.S., 1966, University of California, Los Angeles; R.N., 1962, California

Eduardo M. Ochoa (1964) . . . . . . Acting Dean, School of Business and Economics, and Professor of Economics and Statistics

Enrique C. Ochoa (1996) . . . . . . Assistant Professor of History

Moonsong David Oh (1980) . . . . . . Professor of Marketing

Lisa O'Connor (1995) . . . . . . Associate Professor of Communication Disorders
B.A., 1973, M.A., 1975, California State University, Los Angeles

Linda S. O'Hirok (1991) . . . . . . Assistant Professor of Geography
B.A., 1979, M.A., 1985, University of California, Los Angeles; Ph.D., 1995, Arizona State University

David Olsen (1993) . . . . . . Assistant Professor of Speech Communication
B.A., 1984, Cedarville College, Ohio; M.A., 1987, University of Virginia; Charlottesville; Ph.D., 1993, Northwestern University

Jon L. Olson (1970) . . . . . . Professor of Anthropology
B.S., 1962, Case Institute of Technology; Ph.D., 1972, Michigan State University

Thomas P. Onak (1959) . . . . . . Professor of Chemistry
A.B., 1954, San Diego State College; Ph.D., 1958, University of California, Berkeley

Alda Takla O'Reilly (1970) . . . . . . Chair and Professor of Pan-African Studies
B.A., 1952, Cairo University, Egypt; M.A., 1955, University of California, Los Angeles; Doctorat d'Université, 1969; University of Paris, France

Elliott Oring (1971) . . . . . . Professor of Anthropology
B.A., 1966, Queens College; M.A., 1968, Ph.D., 1974, Indiana University

John Orta (1990) . . . . . . Professor of Health/Nutritional Sciences

Elaine Osio (1970) . . . . . . Professor of English

Joseph C. Otto (1986) . . . . . . Professor of Information Systems
B.S., 1978, Iowa State University; M.S., 1982, Eastern Illinois University; Ed.D., 1987, Memphis State University

Raj S. Pamula (1987) . . . . . . Associate Professor of Computer Science
B.Tech., 1980, Jawaharlal Nehru Technological University, India; M.Tech., 1982, Indian Institute of Technology, India; Ph.D., 1987, Southern Illinois University

Judith L. Papenhausen (1972) . . . . Chair and Professor of Nursing
B.A., 1971, California State College, Los Angeles; M.S., 1972, California State University, Los Angeles; Ph.D., 1995, University of Texas at Austin

Leslie Jane Park (1969) . . . . . . Associate Professor of Accounting
B.S., 1960, University of Texas; M.S., 1977, University of Houston; Ph.D., 1965, University of Illinois

Parviz Partow-Navid (1983) . . . . Professor of Information Systems

Behzad Parviz (1986) . . . . . . Associate Professor of Computer Science
B.S., 1974, College of Accounting, Tehran, Iran; M.S., 1976, Marywood College; M.S., 1979, Ph.D., 1986, State University of New York at Binghamton

Donald R. Paulson (1970) . . . . . Professor of Chemistry
B.A., 1965, Monmouth College; Ph.D., 1968, Indiana University

David Pearson (1984) . . . . . . Professor of Biology
B.S., 1966, Muhlenberg College; Ph.D., 1971, Temple University

Betsy Peitz (1977) . . . . . . Professor of Biology
B.A., 1970, Carlow College; Ph.D., 1975, Case Western Reserve University

David R. Perrott (1968) . . . . . . Professor of Psychology
B.A., 1964, Ohio University; M.A., 1966, Ph.D., 1968, Kent State University

Miles Peterson (1987) . . . . . . Associate Professor of Communication Disorders

Thomas H. Peterson (1970) . . . . . Professor of English
B.A., 1960, University of Wisconsin; M.A., 1965, Ph.D., 1971, University of California, Los Angeles

Jean S. Phinney (1977) . . . . . . Professor of Psychology

Ronald L. Pierce (1972) . . . . . . Associate Professor of Accounting

Stanley H. Pine (1964) . . . . . . Professor of Chemistry
B.S., 1957, M.S., 1962, Ph.D., 1963, University of California, Los Angeles

Eleni N. Pitsiou-Darrough (1973) . . . . Professor of Sociology
B.A., 1969, Stetson University; M.S., 1970, Ph.D., 1973, Iowa State University

Stephen K. Pollard (1962) . . . . . Professor of Economics and Statistics
Joseph B. Prabhu (1978) ....................... Professor of Philosophy

Jagdish Prasad (1969) ......................... Professor of Mathematics
B.S., 1960, M.S., 1962, University of Lucknow, India; M.S., 1964, University of Windsor, Canada; Ph.D., 1968, University of Alberta

Nikolai Pulchritudloff (1972) ............. Associate Professor of Economics and Statistics
B.A., 1964, Sacramento State College; M.S., 1965, Ph.D., 1971, University of California, Davis

J. Alex Pulido (1989) ......................... Professor of Education
B.A., 1961, California State College at San Jose; M.A., 1971, Texas Tech University; Ph.D., 1981, University of California, Santa Barbara

Rupa P. Pumsinghe (1968) ................. Professor of Civil Engineering
B.S., 1978, University of Sri Lanka; M.S., 1981, Portland State University; Ph.D., 1985, Case Western Reserve University; Registered Professional Civil Engineer, 1994, California

Fred Pyrczak, Jr. (1970) ................. Professor of Education
B.S., 1966, West Chester State College; Ph.D., 1972, University of Pennsylvania

Hong-lie Qiu (1996) ......................... Assistant Professor of Geography
B.S., 1982, Fujian Teacher's University; Ph.D., 1994, Louisiana State University

Ruben D. Quintero (1988) ................. Associate Professor of English

Carolyn R. Radakovich (1970) .......... Professor of Art

Raj S. Ramchandani (1976) ............... Professor of Electrical Engineering
B.Sc., 1964, Birca Institute of Technology, India; M.S., 1966, Pennsylvania State University; Ph.D., 1975, Ohio State University; Registered Professional Electrical Engineer, 1964, Ohio

John J. Ramirez (1989) ................. Associate Professor of Broadcasting

Pedro C. Ramirez (1991) ................. Assistant Professor of Geology
B.A., 1977, Ph.D., 1990, University of California, Santa Cruz

D. Lynn Rans (1984) ....................... Professor of Accounting

Marshall E. Reddick (1970) .............. Professor of Marketing

John D. Rees (1968) ......................... Professor of Geography

James A. Regalado (1987) ............... Executive Director, Edmund G. "Pat" Brown Institute of Public Affairs, and Professor of Political Science
B.A., 1971, M.A., 1973, California State University, Los Angeles; Ph.D., 1980, University of California, Riverside

Pamela C. Regan (1996) ..................... Assistant Professor of Psychology
B.A., 1988, Williams College, Williamstown; M.A., Ph.D., 1994, University of Minnesota, Minneapolis, MN

Suzanne E. Regan (1979) ................. Professor of Broadcasting
B.A., 1971, Simmons College; M.A., 1974, University of California, Los Angeles; Ph.D., 1981, University of Massachusetts

Edward H. Rezai (1983) .................... Professor of Physics
B.S., 1972, Worcester Polytechnic Institute; Ph.D., 1979, Stanford University

Siyon Y. Rhee (1993) ....................... Assistant Professor of Social Work
B.A., 1974, Seoul National University; M.S.W., 1981, D.S.W., 1988, University of California, Los Angeles

Richard D. Roberto (1966) ............... Professor of Mechanical Engineering
B.S., 1961, Los Angeles State College; M.S., 1966, University of California, Los Angeles; Registered Professional Mechanical Engineer, 1977, California

Carlos D. Robles (1979) .................... Professor of Biology
B.A., 1972, University of California, Santa Barbara; Ph.D., 1979, University of California, Berkeley

Martin S. Roden (1968) .................. Professor of Electrical Engineering
B.S.E.E., 1963, M.S.E.E., 1964, Polytechnic Institute of Brooklyn; Ph.D., 1982, Kent State University

José P. Rodriguez (1992) ................. Associate Professor of Physics/Astronomy
B.S., 1982, Massachusetts Institute of Technology; Ph.D., 1987, University of Illinois at Urbana-Champaign

Michael W. Roffe (1973) ............... Chair and Professor of Psychology

Gloria J. Romero (1989) ................. Associate Professor of Psychology

M. Richard Roseman (1970) ............. Professor of Economics and Statistics
B.S., 1953, University of Wisconsin; M.A., 1958, Ph.D., 1969, Harvard University

Howard Rosen (1970) .................. Professor of Biology
B.S., 1961, M.A., 1965, Ph.D., 1968, University of California, Los Angeles

Paul Rosenthal (1988) ................. Chair and Professor of Information Systems

James M. Rosser (1979) ................. President of the University and Professor of Management

Alice M. Roy (1984) .................. Professor of English

Richard A. Rundall (1976) ............... Professor of Education
B.A., 1962, University of Kentucky; M.A., 1965, Eastern Kentucky University; Ph.D., 1970, University of Southern California

Helen A. Ryaciota-Boussalis (1985) ........ Professor of Electrical Engineering
B.S., 1974, New York Institute of Technology; M.S., 1976, Ph.D., 1980, New Mexico State University

Kenneth Ryan (1988) .................. Interim Assistant University Librarian and Librarian, Reference

Harold Sackman (1980) ................. Professor of Information Systems
B.A., 1948, City College of New York; M.A., 1949, Columbia University; Ph.D., 1953, Fordham University

David Sandoval (1979) ............... Director, Educational Opportunity Program
B.A., 1975, M.A., 1987, California State University, Los Angeles

Rolando A. Santos (1965) ............... Professor of Education

Sunil K. Sapra (1991) .................. Professor of Economics and Statistics
M.A., Delhi School of Economics, India; M.Phil., Ph.D., Columbia University

Patricia Savich (1979) ................. Professor of Communication Disorders
B.S., 1967, Northern Illinois University; M.A., 1971, University of Illinois; Ph.D., 1981, University of Colorado

Deborah Schaeffer (1988) ............... Librarian, Access Services
B.A., 1977, California State College, Long Beach; M.L.S., 1979, University of California, Los Angeles
Angeles

Alfred Schifini (1991) .......................... Professor of Education
B.A., 1973, University of San Diego; M.A., 1975, M.A., 1981, California State University, Los Angeles; Ph.D., 1984, University of California, Los Angeles

William B. Schneider (1977) .......................... Associate Professor of Accounting

Paul E. Schnitzius (1974) .......................... Professor of Finance

Janet A. Seaman (1972) .......................... Professor of Physical Education
B.S.E., 1964, University of Omaha; M.A., 1967, University of California, Santa Barbara; P.E.D., 1972, Indiana University; M.S., 1988, California State University, Los Angeles

Virgil A. Seaman (1987) .......................... Professor of Technology
B.S., 1979, Lake Superior State College; M.A., 1983, Ph.D., 1987, Indiana State University

Carl M. Selkin (1970). .......................... Dean, School of Arts and Letters, and Professor of English

Penelope Semrau (1988) .......................... Professor of Education
B.S.E., 1972, Teachers in Wisconsin-Whitewater; M.A., 1980, Illinois State University; Ph.D., 1987, Ohio State University

Ray O. Shackleford (1995) .......................... Associate Professor of Technology
B.A., 1972, M.A., 1974, California State University, Los Angeles

William E. Shafer (1993) .......................... Associate Professor of Accounting
B.S., 1983, M.S., 1984, Sam Houston University; Ph.D., 1994, University of Houston

Behjat A. Sharif (1991) .......................... Assistant Professor of Health Science
B.A., Teachers' Training University, Iran; M.S., Southern Illinois University at Carbondale; Ph.D., Texas Women's University; Certified Mediator

Sandra B. Sharp (1986) .......................... Assistant Professor of Biology
B.A., 1967, University of California, Berkeley; Ph.D., 1981, University of California, Los Angeles

Peter H. Sigal (1997). .......................... Assistant Professor of History

Michael J. Siler (1993). .......................... Assistant Professor of Political Science
B.S., 1977, University of California, Los Angeles; M.P.A., 1979, University of Washington; Ph.D., 1992, University of Southern California

Barbara Peterson Sinclair (1961) .......................... Professor of Nursing
B.S., 1957, University of Maryland; M.N., 1958, Emory University; R.N., 1961, California; ANA/NACOG National Certification, 1978

Constantina Skanavis (1988) .......................... Associate Professor of Health Science
B.S., 1980, California State College, Long Beach; M.S., 1982, California State University, Long Beach; Ph.D., 1988, University of California, Los Angeles

Simeon P. Slovacek (1981). .......................... Chair, Division of Educational Foundations and Interdisciplinary Studies, and Professor of Education
B.A., 1971, Syracuse University; M.S., 1974, Ph.D., 1976, Cornell University

Ludwig Slusky (1985). .......................... Professor of Information Systems

Benjamin W. Smith (1963) .......................... Professor of Political Science
A.B., 1959, University of Redlands; Ph.D., 1969, University of Texas

Jon Snodgrass (1972) .......................... Professor of Sociology
B.A., 1965, M.A., 1967, University of Maryland; Ph.D., 1972, University of Pennsylvania; Ph.D., 1983, Reiss-Davis Child Study Center

Marguerite Ann Snow (1986) .......................... Associate Professor of Education
B.A., 1977, M.A., 1979, Ph.D., 1985, University of California, Los Angeles

Sidney Socolof (1960) .......................... Professor of Electrical Engineering
B.S.E.E., 1958, University of Florida; M.S.E.E., 1959, University of Michigan; Ph.D., 1968, University of California, Los Angeles

Joseph E. Soldate (1966) .......................... Chair and Professor of Art
A.B., 1961, Long Beach State College; M.F.A., 1963, Claremont Graduate School

David L. Soltz (1995). .......................... Dean, School of Natural and Social Sciences, and Professor of Biology
A.B., 1968, University of California, Berkeley; Ph.D., 1974, University of California, Los Angeles

Ira Sommers (1996) .......................... Associate Professor of Criminal Justice
B.A., 1974, State University of New York; M.S.; 1976, Boston University; D.S.W., 1983, University of Pennsylvania

B. Lael Sorensen (1993) .......................... Assistant Professor of History

Marcel Soriano (1990) .......................... Professor of Education
B.A., 1968, M.A., 1972, University of California, Riverside; Ph.D., 1984, United States International University

Ralph S. Spanwick (1970). .......................... Chair and Professor of Accounting

Carole Srole (1984) .......................... Associate Professor of History

Timothy Steele (1987) .......................... Professor of English

Alan P. Stein (1977). .......................... Librarian, Reference

John F. Steiner (1973). .......................... Professor of Management

William L. Sterts (1965) .......................... Counselor

Shirley M. Stretch (1987) .......................... Chair and Professor of Marketing
B.S., 1971, University of Nebraska-Lincoln; M.S., 1972, Kansas State University; M.B.A., 1977, Ph.D., 1982, Ohio State University

Robert J. Stull (1969) .......................... Chair and Professor of Geology
B.S., 1965, Lamar State College of Technology; M.S., 1967, Ph.D., 1969, University of Washington

Kaveri Subrahmanyan (1996) .......................... Assistant Professor of Child/Family Studies

Pudukkottai K. Subramanian (1965). .......................... Professor of Mathematics and Computer Science
B.S., 1957, Delhi University, India; M.S., 1965, Miami University of Ohio; Ph.D., 1971, University of Wisconsin-Madison; Ph.D., 1985, University of Wisconsin-Madison

James T. Sullivan (1969) .......................... Professor of English
A.B., 1961, Tufts University; M.A., 1964, Ph.D., 1974, Brandeis University

Douglas Sun (1992) .......................... Assistant Professor of English
B.A., 1985, Yale University; M.A., 1987, Ph.D., 1992, University of Chicago

Michael A. Sutliff (1996) .......................... Assistant Professor of Physical Education
B.S., 1986, Biola University; M.S., 1990, National University; Doctor of Arts, 1992, Middle Tennessee State University

John J. Swain (1964) .......................... Professor of Music
Laura L. Sweetman (1992)  Assistant Professor of Chemistry  B.S., 1983, University of California, Riverside; M.S., 1986, California State University, Fullerton; Ph.D., 1989, University of California, Los Angeles  

Narendra B. Taly (1977)  Professor of Civil Engineering  B.Sc., 1959, Banaras Hindu University, India; M.S., 1971, Bucknell University; Ph.D., 1976, West Virginia University; Registered Professional Civil Engineer, 1976, West Virginia; Registered Professional Civil Engineer, 1977, California  

Chick F. Tam (1982)  Professor of Nutritional Science  B.S., 1967, Chinese University of Hong Kong; M.S., 1971, DR.P.H., 1974, University of California, Los Angeles  

Le D. Tang (1986)  Professor of Technology  B.Ed., 1972, National Taiwan Normal University; M.A., 1979, East Tennessee State University; Ph.D., 1981, Ohio State University  

Jerry D. Tate (1965)  Associate Professor of Psychology  A.B., 1958, Southwestern at Memphis; M.A., 1960, Emory University; Ph.D., 1965, Ohio State University  

Wayne R. Tikkanen (1986)  Professor of Chemistry/Biochemistry  B.S., 1976, University of Rhode Island; M.A., 1980, Ph.D., 1982, University of California, Santa Barbara  

Linda M. Tunstall (1992)  Assistant Professor of Chemistry  B.S., 1983, California State University, Los Angeles; Ph.D., 1990, University of California, Los Angeles  

Ashish K. Vaidya (1994)  Associate Professor of Economics and Statistics  B.A., St. Xavier’s College, India; M.A., University of Bombay, India; M.A., Ph.D., University of California, Davis  

Tomás J. Vásquez (1976)  Acting Director, Office for Students with Disabilities  B.A., 1972, California State University, Los Angeles  

Robert L. Vellanoweth (1994)  Assistant Professor of Biochemistry  B.S., 1982, California State University, Los Angeles; Ph.D., 1988, University of California, Berkeley  

Kayley Vemalallis (1993)  Assistant Professor of Philosophy  A.B., 1982, Stanford University; Ph.D., 1993, University of California, Berkeley  

George R. Vick (1967)  Professor of Philosophy  B.A., 1953, Yale University; Ph.D., 1968, University of Southern California; Certificat D’Etudes en Philosophie, 1956, Ecole de Theologie, France  

Hildebrand Villarreal (1976)  Professor of Spanish  B.A., 1964, M.A., 1969, University of New Mexico; Ph.D., 1976, University of California, Los Angeles  

Kenneth A. Wagner (1969)  Professor of Political Science  B.S., 1959, M.Ed., 1964, South Dakota State University; Ph.D., 1970, University of Iowa  

Michael Louis Wapner (1968)  Associate Professor of Psychology  B.A., 1957, Reed College; M.A., 1961, Los Angeles State College; Ph.D., 1966, University of California, Los Angeles  

Hugh E. Warren (1976)  Acting Associate Dean, School of Business and Economics, and Professor of Accounting  B.S., 1963, Stanford University; M.A., 1975, University of Arizona; Ph.D., 1966, University of Michigan  

Nancy Warter-Perez (1994)  Assistant Professor of Electrical Engineering  B.S., 1985, Cornell University; M.S., 1989, Ph.D., 1993, University of Illinois, Urbana  

Judith M. Washburn (1974)  Chair, Division of Curriculum and Instruction, and Professor of Education  B.S., 1969, University of Wisconsin; M.A., 1971, Ph.D., 1974, Ohio State University

Marie-Antoinette U. Zrimc (1964-1992) ................. Professor of French
The individual California State Colleges were brought together as a system by the Donahoe Higher Education Act of 1960. In 1972 the system became The California State University and Colleges (CSUC) and in 1982 the system became The California State University (CSU).

The oldest campus—San Jose State University—was founded as a normal school in 1857 and became the first institution of public higher education in California. California State University, Monterey Bay became the CSU's 21st campus in September, 1994. The California Maritime Academy in Vallejo, founded in 1929, joined the CSU as its 22nd campus in July, 1995. The CSU's 23rd campus—California State University, Channel Islands—is in the planning stage to serve students in the Ventura County region.

Responsibility for The California State University is vested in the Board of Trustees, consisting of ex-officio members, alumni and faculty representatives, and members appointed by the Governor. The Trustees appoint the Chancellor, who is the chief executive officer of the system, and the Presidents, who are the chief executive officers of the respective campuses.

The Trustees, the Chancellor, and the Presidents develop system-wide policy, with actual implementation at the campus level taking place through broadly based consultative procedures. The Academic Senate of The California State University, made up of elected representatives of the faculty from each campus, recommends academic policy to the Board of Trustees through the Chancellor.

Academic excellence has been achieved by The California State University through a distinguished faculty, whose primary responsibility is superior teaching. Although each campus in the system has its own unique geographic and curricular character, all campuses, as multipurpose institutions, offer undergraduate and graduate instruction for professional and occupational goals as well as broad liberal education. All of the campuses require, for graduation with the baccalaureate, a basic program of general education requirements regardless of the type of bachelor's degree or major field selected by the student.

The CSU offers more than 1,500 bachelor's and master's degree programs in some 200 subject areas. Many of these programs are offered so that students can complete all upper division and graduate requirements by part-time late afternoon and evening study, or by distance learning from home or work via computer or television. In addition, a variety of teaching and school service credential programs are available. A limited number of doctoral degrees are offered jointly with the University of California and with private institutions in California.

In Fall 1996, the system enrolled approximately 336,000 students, taught by more than 17,000 faculty. Last year the system awarded more than 50 percent of the bachelor's degrees and 30 percent of the master's degrees granted in California. More than 1.2 million persons have been graduated from the 22 campuses since 1960.

ELIGIBILITY INDEX

The following table is used in determining the eligibility of graduates of California high schools or California legal residents for admission as a freshman at a California State University campus. For an explanation of how the eligibility index works, see Eligibility Index in the Admission chapter. Applicants whose grade point average is 3.0 or higher (3.6 for nonresidents) are eligible for admission and exempted from the test requirement, but are urged to take the SAT or ACT because all campuses use the test results for advising and placement purposes. Applicants whose grade point average is lower than 2.0 are not eligible.

The minimum eligibility index for California residents and California high school graduates is 2900 using the SAT and 694 using the ACT score. If you neither graduated from a California high school nor are a legal resident of California for tuition purposes, you need a minimum index of 3502 (SAT) or 842 (ACT). The method used to compute the index is explained below:

- SAT: Multiply the grade point average by 800, add it to the total SAT score.
- ACT: Multiply the grade point average by 200 and add it to 10 times the composite ACT score.

Graduates of secondary schools in foreign countries must be judged to have academic preparation and abilities equivalent to applicants eligible under this section.
APPENDIX B

DETERMINATION OF RESIDENCE FOR NONRESIDENT TUITION PURPOSES

The campus Admissions Office determines the residence status of all new and returning students for nonresident tuition purposes. Responses on the application for admission and, if necessary, other evidence furnished by the student are used in making this determination. A student who fails to submit adequate information to establish a right to classification as a California resident will be classified as a nonresident.

The following statement of the rules regarding residence determination for nonresident tuition purposes is not a complete discussion of the law, but a summary of the principal rules and their exceptions. The law governing residence determination for tuition purposes by The California State University is found in California Education Code Sections 68000-68090, 68121, 68123, 68124, and 89705-89707.5, and in Title 5 of the California Code of Regulations, Sections 41900-41912. A copy of the statutes and regulations is available for inspection at the campus Admissions Office.

Legal residence may be established by an adult who is physically present in the state and who, at the same time, intends to make California his or her permanent home. Steps must be taken at least one year prior to the residency determination date to show an intent to make California the residence with concurrent relinquishment of the prior legal residence. The steps necessary to show California residence intent will vary from case to case. Included among the steps may be registering to vote and voting in elections in California; filing resident California state income tax forms on total income; ownership of residential property or continuous occupancy or renting of an apartment on a lease basis where one’s permanent belongings are kept; maintaining active resident memberships in California professional or social organizations; maintaining California vehicle plates and operator’s license; maintaining active savings and checking accounts in California banks; maintaining permanent military address and home of record in California if one is in the military service, etc.

The student who is within the state for educational purposes only does not gain the status of resident regardless of the length of the student’s stay in California.

In general, an unmarried minor (a person under 18 years of age) derives legal residence from the parent with whom the minor maintains or last maintained his or her place of abode. The residence of an unmarried minor who has a parent living cannot be changed by the minor’s own act, by the appointment of a legal guardian or by the relinquishment of a parent’s right of control.

A married person may establish his or her residence independent of his or her spouse.

An alien may establish his or her residence, unless precluded by the Immigration and Nationality Act from establishing domicile in the United States. An unmarried minor alien derives his or her residence from the parent with whom the minor maintains or last maintained his or her place of abode.

Nonresident students seeking reclassification are required by law to complete a supplemental questionnaire about financial independence.

The general rule is that a student must have been a California resident for at least one year immediately preceding the residence determination date in order to qualify as a “resident student” for tuition purposes. A residence determination date is set for each academic term and is the date from which residence is determined for that term. The residence determination dates are:

**Quarter Term Campuses**

- **Fall Quarter** . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . September 20
- **Winter Quarter** . . . . . . . . . . . . . . . . . . . . . . . . . . . . . January 5
- **Spring Quarter** . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . April 1
- **Summer Quarter** . . . . . . . . . . . . . . . . . . . . . . . . . . . . July 1

**Semester Term Campuses**

- **Fall Semester** . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . September 20
- **Winter Semester (Stanislaus only)** . . . . . . . . . . . . . . . January 5
- **Spring Semester** . . . . . . . . . . . . . . . . . . . . . . . . . . . . . January 25

Questions regarding residence determination dates should be directed to the campus Admissions Office which can give you the residence determination date for the quarter for which you are registering.

There are several exceptions from nonresident tuition, including:

1. Persons below the age of 19 whose parents were residents of California but who left the state while the student, who remained, was still a minor. When the minor reaches age 18, the exception continues for one year to enable the student to qualify as a resident student.

2. Minors who have been present in California with the intent of acquiring residence for more than a year before the residence determination date, and entirely self-supporting for that period of time.

3. Persons below the age of 19 who have lived with and been under the continuous direct care and control of an adult, not a parent, for the two years immediately preceding the residence determination date. Such adult must have been a California resident for the most recent year.

4. Dependent children and spouses of persons in active military service stationed in California on the residence determination date. This exception applies only for the minimum time required for the student to obtain California residence and maintain that residence for a year. The exception, once attained, is not affected by retirement or transfer of the military person outside the state.

5. Military personnel in active service stationed in California on the residence determination date for purposes other than education at state-supported institutions of higher education. This exception continues until the military personnel has resided in the state the minimum time necessary to become a resident.

6. Effective January 1, 1996, military personnel in active service in California for more than one year immediately prior to being discharged from the military. Eligibility for this exception runs from the date the student is discharged from the military until the student has resided in the state the minimum time necessary to become a resident.

7. Dependent children of a parent who has been California resident for the most recent year. This exception continues until the student has resided in the state the minimum time necessary to
become a resident, so long as the student has maintained continuous attendance at an institution.

8. Graduates of any school located in California that is operated by the United States Bureau of Indian Affairs, including, but not limited to, the Sherman Indian High School. The exception continues so long as continuous attendance is maintained by the student at an institution.

9. Certain credentialed, full-time employees of California school districts.

10. Full-time California State University employees and their children and spouses; state employees assigned to work outside the state and their children and spouses. This exception applies only for the minimum time required for the student to obtain California residence and maintain that residence for a year.

11. Certain exchange students.

12. Children of deceased public law enforcement or fire suppression employees, who were California residents, and who were killed in the course of law enforcement or fire suppression duties.

Any student, following a final decision on campus on his or her residence classification, only may make written appeal to:

The California State University
Office of General Counsel
400 Golden Shore
Long Beach, CA 90802-4275

within 120 calendar days of notification of the final decision on camps of the classification. The Office of General Counsel may make a decision on the issue, or it may send the matter back to the campus for further review.

Students classified incorrectly as residents or incorrectly granted an exception from nonresident tuition are subject to reclassification as nonresidents and payment of nonresident tuition in arrears. If incorrect classification results from false or concealed facts, the student is subject to discipline pursuant to Section 41301 of Title 5 of the California Code of Regulations. Resident students who become nonresidents, and nonresident students qualifying for exceptions whose basis for so qualifying changes, must immediately notify the Admissions Office. Applications for a change in classification with respect to a previous quarter are not accepted.

The student is cautioned that this summation of rules regarding residence determination is by no means a complete explanation of their meaning. The student should also note that changes may have been made in the rate of nonresident tuition, in the statutes, and in the regulations between the time this catalog is published and the relevant residence determination date.
APPENDIX C

AVERAGE ANNUAL COSTS AND SOURCES OF FUNDS PER FULL-TIME EQUIVALENT STUDENT

The 23 campuses and the Chancellor’s Office of The California State University are financed primarily through funding provided by the taxpayers of California. The total state appropriation to the CSU for 1996-97, (including capital outlay funding in the amount of $150,000,000) is $1,936,061,000. However, the total cost of education for CSU is $2,522,307,000, which must provide support for a projected 255,501 full-time equivalent students (FTES). The number of full-time equivalent students is determined by dividing the total academic student load by 15 units per term (the figure used here to define a full-time student’s academic load).

The total cost of education in the CSU is defined as the expenditures for current operations, including payments made to the students in the form of financial aid, and all fully reimbursed programs contained in State appropriations, but excluding capital outlay appropriations. The average cost of education is determined by dividing the total cost by the total FTEs. The average cost is further differentiated into three categories: State Support (the State appropriation, excluding capital outlay), Student Fee Support, and Support from Other Sources (including federal funds).

Thus, excluding costs that relate to capital outlay, the average cost of education per FTE student is $9,872. Of this amount, the average student fee support per FTE is $2,094. The State University Fee, application fee, and nonresident tuition are included in the average cost paid by the students; individual students may pay less or more than $2,094, depending on whether they are part-time, full-time, resident, or nonresident students.

*Includes $10,121,000 to fund retirement rate increases during 1996/97; does include $1,761,000 reappropriated for lease bond payments.
APPENDIX D

STUDENT DISCIPLINE

Inappropriate conduct by students or by applicants for admission is subject to discipline as provided in Sections 41301 through 41304 of Title 5, California Code of Regulations. These sections are as follows:

41301. Expulsion, Suspension, and Probation of Students. Following procedures consonant with due process established pursuant to Section 41304, any student of a campus may be expelled, suspended, placed on probation, or given a lesser sanction for one or more of the following causes which must be campus related:

(a) Cheating or plagiarism in connection with an academic program at a campus.
(b) Forgery, alteration, or misuse of campus documents, records, of identification or knowingly furnishing false information to a campus.
(c) Misrepresentation of oneself or of an organization to be an agent of a campus.
(d) Obstruction or disruption, on or off campus property, of the campus educational process, administrative process, or other campus function.
(e) Physical abuse on or off campus property of the person or property of any member of the campus community or of members of his or her family or the threat of such physical abuse.
(f) Theft of, or nonaccidental damage to, campus property, or property in the possession of, or owned by, a member of the campus community.
(g) Unauthorized entry into, unauthorized use of, or misuse of campus property.
(h) On campus property, the sale or knowing possession of dangerous drugs, restricted dangerous drugs, or narcotics as those terms are used in California statutes, except when lawfully prescribed pursuant to medical or dental care, or when lawfully permitted for the purpose of research, instruction, or analysis.
(i) Knowing possession or use of explosives, dangerous chemicals, or deadly weapons on campus property or at a campus function without prior authorization of the campus president.
(j) Engaging in lewd, indecent, or obscene behavior on campus property or at a campus function.
(k) Abusive behavior directed toward, or hazing of, a member of the campus community.
(l) Violation of any order of a campus president, notice of which had been given prior to such violation and during the academic term in which the violation occurs, either by publication in the campus newspaper, or by posting on an official bulletin board designated for this purpose and which order is not inconsistent with any of the other provisions of this section.
(m) Soliciting or assisting another to do any act that would subject a student to expulsion, suspension, or probation pursuant to this section.
(n) For purposes of this article, the following terms are defined:

(1) The term “member of the campus community” is defined as meaning California State University trustees, academic, non-academic and administrative personnel, students, and other persons while such other persons are on campus property or at a campus function.

(2) The term “campus property” includes:

(a) real or personal property in the possession of, or under the control of, the Board of Trustees of The California State University, and
(b) all campus feeding, retail, or residence facilities whether operated by a campus or by a campus auxiliary organization.

(3) The term “deadly weapons” includes any instrument or weapon of the kind commonly known as a blackjack, slingshot, billy, sand club, sandbag, metal knuckles, any dirt, dagger, switchblade knife, pistol, revolver, or any other firearm, any knife having a blade longer than five inches, any razor with an unguarded blade, and any metal pipe or bar used or intended to be used as a club.

(4) The term “behavior” includes conduct and expression.

(5) The term “hazing” means any method of initiation into a student organization or any pastime or amusement engaged in with regard to such an organization that causes, or is likely to cause, bodily danger, or physical or emotional harm, to any member of the campus community; but the term “hazing” does not include customary athletic events or other similar contests or competitions.

(o) This section is not adopted pursuant to Education Code Section 89031.

(p) Notwithstanding any amendment or repeal pursuant to the resolution by which any provision of this article is amended, all acts and omissions occurring prior to that effective date shall be subject to the provisions of this article as in effect immediately prior to such effective date.

41302. Disposition of Fees: Campus Emergency; Interim Suspension. The president of the campus may place on probation, suspend, or expel a student for one or more of the causes enumerated in Section 41301. No fees or tuition paid by or for such student for the semester, quarter, or summer session in which he or she is suspended or expelled shall be refunded. If the student is readmitted before the close of the semester, quarter, or summer session in which he or she is suspended, no additional tuition or fees shall be required of the student on account of the suspension.

During periods of campus emergency, as determined by the president of the individual campus, the president may, after consultation with the chancellor, place into immediate effect any emergency regulations, procedures, and other measures deemed necessary or appropriate to meet the emergency, safeguard persons and property, and maintain educational activities.

The president may impose immediately an interim suspension in all cases in which there is reasonable cause to believe that such an immediate suspension is required in order to protect lives or property and to ensure the maintenance of order. A student so placed on interim suspension shall be given prompt notice of charges and the opportunity for a hearing within 10 days of the imposition of interim suspension. During the period of interim
APPENDIX E

PRIVACY RIGHTS OF STUDENTS IN EDUCATION RECORDS

The federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g) and regulations adopted thereunder (34 C.F.R. 99) and California Education Code, Section 67100 et seq., set out requirements designed to protect the privacy of students concerning their records maintained by the campus. Specifically, the statute and regulations govern access to records maintained by the campus and the release of such records. In brief, the law provides that the campus must provide students access to official records directly related to the student and an opportunity for a hearing to challenge such records on the grounds that they are inaccurate, misleading, or otherwise inappropriate. The right to a hearing under the law does not include any right to challenge the appropriateness of a grade as determined by the instructor. The law generally requires that written consent of the student be received before releasing personally identifiable data about the student from records to other than a specified list of exceptions.

Cal State L.A. has adopted a set of policies and procedures concerning implementation of the statutes and the regulations on the campus. Copies of these policies and procedures may be obtained at the Office of the Vice President for Student Affairs, Student Affairs 108. Among the types of information included in the campus statement of policies and procedures are: (1) the types of student records and the information contained therein; (2) the official responsible for the maintenance of each type of record; (3) the location of access lists that indicate persons requesting or receiving information from the record; (4) policies for reviewing and expunging records; (5) the access rights of students; (6) the procedures for challenging the content of student records; (7) the cost that will be charged for reproducing copies of records; and (8) the right of the student to file a complaint with the Department of Education. An office and review board have been established by the Department of Education to investigate and adjudicate violations and complaints. The office designated for this purpose is: The Family Educational Rights and Privacy Act Office (FERPA), U.S. Department of Education, 330 “C” Street, Room 4511, Washington, D.C. 20202.

Cal State L.A. is authorized under the act to release “directory information” about students. “Directory information” includes the students name, address, telephone listing, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended by the student. The above designated information is subject to release by the campus at any time unless the campus has received prior written objection from the student specifying information that the student requests not be released. Such written objections should be sent to the Office of the Vice President for Student Affairs.

Cal State L.A. is authorized to provide access to student records to campus officials and employees who have legitimate educational interests in such access. These persons are those who have responsibilities in connection with the campus’ academic, administrative, or service functions and who have reason for using student records connected with their campus or other related academic responsibilities. Disclosure may also be made to other persons or organizations under certain conditions (e.g., as part of accreditation or program evaluation; in response to a court order or subpoena; in connection with financial aid; to other institutions to which the student is transferring).
APPENDIX F

INSTITUTIONAL AND FINANCIAL ASSISTANCE INFORMATION

The following information about student financial assistance may be obtained from the Center for Student Financial Aid, located in Student Affairs 124, phone (213) 343-1784:

1. Student financial assistance programs available to students who enroll at Cal State L.A.
2. The methods by which such assistance is distributed among recipients who enroll at Cal State L.A.
3. The means, including forms, by which application for student financial assistance is made and requirements for preparing such application accurately;
4. The rights and responsibilities of students receiving financial assistance; and
5. The standards the student must maintain to be considered to be making satisfactory progress for the purpose of establishing and maintaining eligibility for financial assistance.

The following information about the cost of attending Cal State L.A. is available from the Center for Student Financial Aid, located in Student Affairs 124, phone (213) 343-1784.

1. Fees and tuition (when applicable);
2. Estimated costs of books and supplies;
3. Estimates of typical student room and board costs and typical commuting costs; and
4. Any additional costs of the program in which the student is enrolled or expresses a specific interest.

Information about the refund policy of Cal State L.A. for the return of unearned tuition and fees or other refundable portions of costs is available from the Disbursement Office, located in Administration 128, phone (213) 343-3630.

APPENDIX G

PROCEDURE FOR THE ESTABLISHMENT OR ABOLISHMENT OF A STUDENT BODY FEE

The law governing The California State University provides that a student body fee may be established by student referendum with the approval of two thirds of those students voting. The student body fee was established at Cal State L.A. by student referendum in June, 1947. The same fee can be abolished by a similar two thirds approval of students voting on a referendum called for by a petition signed by 10% of the regularly enrolled students (Education Code, Section 89300). The level of the fee is set by the chancellor. An increase in the student body fee may be approved by the President only following a referendum on the fee increase approved by a majority of students voting. Student body fees support a variety of cultural and recreational programs, child care centers, and special student support programs.
Public transportation to and from Cal State L.A. is excellent. In addition to being easily accessible by freeway, the campus also is served by more than 20 bus lines from all parts of the greater Los Angeles area and portions of the Riverside and San Bernardino counties. Most bus lines come directly onto the campus: a few run along surface streets north and south of the campus. Detailed information about all bus lines that serve the campus appears each quarter in the Schedule of Classes and is available at the Student Union’s Information and Ticket Service Counter. The Metrolink rail system operates a station at Cal State L.A.

Cal State L.A. participates in efforts to improve the air quality in the South Coast Air Basin by encouraging employees and students to use alternative modes of transportation such as joining a carpool, public transit, walking or riding a bicycle. Students and employees may visit the Commuter Services Office located in Building C for more information or call (213) 343-KARS.
