Course Description: A survey of important drugs and environmental toxicants; absorption, distribution, metabolism, and excretion of drugs and toxic compounds; mechanisms of toxic action; human and ecological risk assessment. Lecture 2 hours, Laboratory 3 hours.

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): BIOL 3400 or CHEM 2300, CHEM 2211, CHEM 3200  
Needs Permission to Enroll: No  
Special Fee Applied: No

• BIOL 4330 - Integrative Human Physiology

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: This course takes a systems approach to examine the function of the major organ systems in the human body. This course will investigate these systems at the cellular level and progress to the whole organism level.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): BIOL 3600  
Pre/Co-requisite(s): BIOL 3900  
Needs Permission to Enroll: No  
Special Fee Applied: No

• BIOL 4340 - Fundamentals Research in Human Physiology

(2)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 2  
Max times this course can be taken for credit: 1

Course Description: Students will examine the function of human organ systems by exposing students to fundamental research in human physiology, with an emphasis on how the body changes due to diseases.

Hours per Week: 6 laboratory hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): None  
Pre/Co-requisite(s): BIOL 4330  
Needs Permission to Enroll: No  
Special Fee Applied: No

• BIOL 4350 - Neurobiology: Neuroanatomy
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Gross and Microscopic structure of the mammalian nervous system, organizational aspects, classical lesions and deficits. Lecture 3 hours.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): BIOL 3400 or CHEM 2300
Needs Permission to Enroll: No
Special Fee Applied: No

• BIOL 4360 - Neurobiology: Cellular and Molecular Physiology of the Nervous System

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: A study of molecules and their roles in the basic cellular physiology of the vertebrate nervous system. Lecture 3 hours.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): BIOL 3400 or CHEM 4310
Needs Permission to Enroll: No
Special Fee Applied: No

• BIOL 4370 - Cell Signaling

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: A topical course on cellular phenomena such as information flow, bioenergetics, control mechanisms, motility phenomena, and molecular behavior of reactive surfaces. Lecture 2 hours, laboratory 3 hours.
Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): BIOL 3400 or CHEM 4310
Needs Permission to Enroll: No
Special Fee Applied: No
BIOL 4390 - Endocrinology

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Anatomy, physiology, biochemistry, and molecular biology of the endocrine system. Includes in depth consideration of the mechanisms regulating hormone production, synthesis, and action. Lecture 3 hours.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): BIOL 3400 or CHEM 4310  
Needs Permission to Enroll: No  
Special Fee Applied: No

BIOL 4400 - Plant Systematics

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Principles of phylogenetic analysis and classification; land plant evolutionary diversity; identification and relationships of major angiosperm families. Lecture 1 hours, laboratory 6 hours; weekend field trips may be required.

Hours per Week: 1 lecture hour(s). 6 laboratory hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): BIOL 1200 graded C or better  
Needs Permission to Enroll: No  
Special Fee Applied: No

BIOL 4440 - Drug Discovery and Development (also listed as CHEM 4840)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: An overview of the process of drug discovery and development, with an emphasis on academic and industrial research methodology. Lecture 2 hours, Laboratory 3 hours.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): CHEM 3200, (BIOL 3400 or CHEM 4300 or CHEM 4310)
• **BIOL 4450 - Bioscience Companies: From Concept to Market**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** Describes moving an idea through basic and applied research into pharmaceutical, biologics, and medical device industries. Emphasizes interdependence of the sciences, engineering, business and management, intellectual property, and regulatory affairs. Lecture 3 hours.

  **Hours Per Week:** 3 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** Completion of first full year of coursework in a major in one of the following colleges: College of Natural and Social Sciences; College of Engineering, Computer Science and Technology; College of Business and Economics; College of Health and Human Services.

  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

• **BIOL 4460 - Biotechnology Applications of Cell and Molecular Biology**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** This laboratory course provides extensive hands-on exercises in molecular biology, protein biochemistry, cell culture, bioinformatics, laboratory robotics and chemical genomics in a team-based environment, with emphasis on communication and cooperation.

  **Hours Per Week:** 9 laboratory hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** (BIOL 4170, BIOL 4160, BIOL 3400, CHEM 4300, CHEM 4310) or MICR 3500, or instructor’s consent

  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

• **BIOL 4490 - Neurobiology: Development**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** Current concepts of and experimental approaches to the development of the nervous system; as well as the maintenance and remodeling of neuronal connections. Lecture 3 hours.
**BIOL 4500 - Botanical Medicine**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Historical and modern use of plant-derived medicines in culturally and ecologically diverse medical systems; taxonomy and biochemical properties of plants used to treat disorders of major human physiological systems. Lecture 3 hours.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): BIOL 3400 or CHEM 4310
Needs Permission to Enroll: No
Special Fee Applied: No

---

**BIOL 4510 - Ornithology**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Taxonomy, distribution, physiology, life history, ecology, and behavior of birds. Lecture 2 hours, laboratory and/or field work 3 hours.

Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): BIOL 1200 graded C or better
Needs Permission to Enroll: No
Special Fee Applied: No

---

**BIOL 4530 - Ichthyology**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
BIOL 4540 - Special Lecture Topics in Biology

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 11
Total # of units allowed for credit: 12
Max times this course can be taken for credit: 12

Course Description: Topics of current interest in biology as announced in Schedule of Classes. May be repeated to maximum of 12 units.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Upper division standing, others as needed for specific topic.
Needs Permission to Enroll: No
Special Fee Applied: No

BIOL 4541 - Special Activity Topics in Biology

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 11
Total # of units allowed for credit: 12
Max times this course can be taken for credit: 12

Course Description: Topics of current interest in biology as announced in Schedule of Classes. May be repeated to maximum of 12 units.
Hours per Week: 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Upper division standing, others as needed for specific topic.
Needs Permission to Enroll: No
Special Fee Applied: No

BIOL 4550 - Mammalogy

(3)

This course is repeatable: No
BIOL 4560 - Comparative Vertebrate Anatomy

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Comparative Vertebrate Anatomy explores vertebrate diversity through the lens of structure-function relationships. We will trace vertebrate evolution by examining morphological, functional, and ecological attributes of living and extinct groups. 3 hours of lecture and 3 hours of lab per week.

Hours per Week: 3 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): BIOL 3600
Needs Permission to Enroll: No
Special Fee Applied: No

---

BIOL 4570 - Marine Invertebrate Zoology

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Taxonomy, phylogeny, and natural history of major marine invertebrates taxa; laboratory work emphasizes species from local fauna and those of economic importance. Lecture 3 hours, laboratory 6 hours.

Hours per Week: 3 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): BIOL 1200 graded C or better
Needs Permission to Enroll: No
Special Fee Applied: No
BIOL 4620 - Plant Ecology

(4)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Plants and plant communities in relation to physical and biotic environments, ecophysiology, demography, species interactions, community structure, and ecosystem function. Lecture 2 hours, laboratory and/or field work 6 hours.

Hours per Week: 2 lecture hour(s). 6 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): (BIOL 3200, BIOL 3600) or instructor consent
Needs Permission to Enroll: No
Special Fee Applied: No

BIOL 4700 - Conservation Biology

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Biological diversity of animals and plants; genetics and ecology of small populations; protection and management of threatened species and communities. Lecture 2 hours, laboratory and/or field work 3 hours.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): BIOL 3800
Needs Permission to Enroll: No
Special Fee Applied: No

BIOL 4720 - Marine Ecology

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Population and community ecology of major habitats in marine environment; lecture emphasizes contemporary theories in marine ecology; laboratory offers practical field experience. Lecture 2 hours, laboratory and/or field work 3 hours.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): BIOL 3800
Needs Permission to Enroll: No
Special Fee Applied: No
• **BIOL 4740 - Ecosystems of California**

   (4)

   This course is repeatable: No  
   Max # of units may be repeated: 0  
   Total # of units allowed for credit: 4  
   Max times this course can be taken for credit: 1

   **Course Description**: A lecture and field-based assessment of each major ecosystem found within California - from oceans to mountaintops - covering the distribution, structure, function, ecology, conservation, and management of California’s ecosystems. 3 hours of lecture and 3 hours of lab per week.

   **Hours per Week**: 3 lecture hour(s). 3 laboratory hour(s).

   **Grading**: ABCDF
   **Mode of Delivery**: Face to Face
   **Campus**: Main Campus

   **Prerequisite(s)**: Pre-requisites: BIOL 3800, BIOL 3801
   **Needs Permission to Enroll**: No
   **Special Fee Applied**: Yes

• **BIOL 4800 - Modeling Biological Systems (also listed as MATH 4800)**

   (3)

   This course is repeatable: No  
   Max # of units may be repeated: 0  
   Total # of units allowed for credit: 3  
   Max times this course can be taken for credit: 1

   **Course Description**: Modeling techniques applied to biological systems. Topics include nonlinear dynamics, stochastic models, compartmental and spatial models, parameter estimation, methods of model evaluation, modeling complexities. Lecture 2 hours, laboratory 3 hours.

   **Hours per Week**: 2 lecture hour(s). 3 laboratory hour(s).

   **Grading**: ABCDF
   **Mode of Delivery**: Face to Face
   **Campus**: Main Campus

   **Prerequisite(s)**: Graded C or better in either MATH 2045 or in (MATH 2150 and MATH 2550).
   **Needs Permission to Enroll**: No
   **Special Fee Applied**: No

• **BIOL 4810 - Animal Cell Culture Theory and Technique**

   (3)

   This course is repeatable: No  
   Max # of units may be repeated: 0  
   Total # of units allowed for credit: 3  
   Max times this course can be taken for credit: 1

   **Course Description**: Topics include extra-cellular matrix, signaling, stem cell biology, genome engineering, gene therapy, differentiation, primary cells and immortalized cells as applied to cells cultured in vitro. Basic techniques including counting, passage, storage and medium preparation. Laboratory 9 hours.

   **Hours per Week**: 9 laboratory hour(s).
BIOL 4990 - Undergraduate Directed Study

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Project must be approved before registration. Student must have ability to assume responsibility for independent research and analysis. Regular discussion of progress with sponsor before presentation of final written report. May be repeated for credit.

Hours per Week: 0 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Consent of full-time faculty member in consultation with department chair, grade point average of 2.5 or higher.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

Biological Sciences (Graduate)

All 4000-level courses may be applied toward master’s degree requirements except BIOL 4990, subject to limits established by the department and approval of the graduate adviser.

Biological Sciences (Graduate)

BIOL 5000 - Graduate Orientation

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Requirements and expectations of the M.S. degree program in Biology, introduction to good practices of laboratory science and research, future career paths. Must be taken during the first semester of the degree program.

Hours per Week: 1 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

BIOL 5100 - Seminar: Biology
BIOL 5170 - Seminar: Gene Manipulation

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Critical evaluation and communication of recent literature in molecular biology. May be repeated to maximum of 6 units.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): BIOL 4170 and instructor consent
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

BIOL 5180 - Biotechnology Skills Laboratory

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: A project team based course that covers various stages of a generic drug discovery process, including project design, management, and reporting.

Hours per Week: 9 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): MICR 3500 or CHEM 4310 or CHEM 4320 (for Biology, Microbiology, Chemistry or Biochemistry majors) or instructor consent for students of other majors of good academic standing
Needs Permission to Enroll: No
Special Fee Applied: No
• BIOL 5190 - Genetic Engineering Laboratory

(5)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 5
Max times this course can be taken for credit: 1

Course Description: Introduction to basic techniques. Lecture 2 hours, laboratory 18 hours.

Hours per Week: 2 lecture hour(s). 9 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): BIOL 4170, (BIOL 3400 or BIOL 3401 or BIOL 3100 or MiCR 3100), (CHEM 4310 or CHEM 4320)
Needs Permission to Enroll: No
Special Fee Applied: No

• BIOL 5200 - Seminar: Professional Writing in the Life Sciences

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Scientific method, preparation of a prospectus, writing scientific manuscripts, grantsmanship, peer review, and presentation techniques. Seminar 1 hour, laboratory 3 hours.

Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• BIOL 5400 - Seminar: Data Analysis for the Biological Sciences

(3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Advanced study of selected topics in methods of data analysis. May be repeated once for a maximum of 6 units.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Consent of instructor.
Needs Permission to Enroll: Yes, Instructor Consent

**Course Description:**
- **BIOL 5410 - Seminar: Hot Topics:** Advanced study of the latest ground braking discoveries in the broader field of biological science. May be repeated once for a maximum of 6 units.
- **Hours per Week:** 3 lecture hour(s).
- **Grading:** ABCDF
- **Mode of Delivery:** Face to Face
- **Campus:** Main Campus
- **Prerequisite(s):** None
- **Needs Permission to Enroll:** No
- **Special Fee Applied:** No

**Course Description:**
- **BIOL 5420 - Seminar: Organismal Biology:** Advanced study of selected topics in the fields of organismal biology and physiology. May be repeated once for a maximum of 6 units.
- **Hours per Week:** 3 lecture hour(s).

- **BIOL 5440 - Seminar: Microbiology - Immunology**
  
  (3)

  This course is repeatable: Yes
  Max # of units may be repeated: 3
  Total # of units allowed for credit: 6
  Max times this course can be taken for credit: 2

  Course Description: Advanced study of selected topics in the fields of microbiology and immunology. May be repeated once for a maximum of 6 units.
  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **BIOL 5450 - Seminar: Genetics Evolution**
  
  (3)

  This course is repeatable: Yes
  Max # of units may be repeated: 3
  Total # of units allowed for credit: 6
  Max times this course can be taken for credit: 2

  Course Description: Advanced study of selected topics in the fields of genetics and evolution. May be repeated once for a maximum of 6 units.
  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **BIOL 5460 - Seminar: Cell, Molecular, and Developmental Biology**
  
  (3)

  This course is repeatable: Yes
  Max # of units may be repeated: 3
  Total # of units allowed for credit: 6
  Max times this course can be taken for credit: 2

  Course Description: Advanced study of selected topics in the fields of cell, molecular, and developmental biology. May be repeated once for a maximum of 6 units.
  Hours per Week: 3 lecture hour(s).
• BIOL 5500A - Advanced Studies in Molecular Diagnostics A

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 1

Course Description: Theoretical and technical fundamentals of nucleic acid biochemistry, cell biology, human genetics, and molecular biology as they apply to human disease and diagnostics. Genetic differences between normal and disease states.

Hours per Week: 6 lecture hour(s).

• BIOL 5500B - Advanced Studies in Molecular Diagnostics B

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 1

Course Description: Genetic differences between normal and disease states, molecular aspects of cancer progression, genetic basis of tissue type, theory and analysis of nucleic acid-based diagnostic and infectious disease tests. Quality assurance.

Hours per Week: 6 lecture hour(s).

• BIOL 5940 - Project and Research Skill Development

This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 6

**Course Description**: Laboratory research to develop foundational skills in research and laboratory techniques prior to advancement to candidacy. May be repeated up to 3 units.

**Hours per Week**: N/A lecture hour(s).

**Grading**: CR/NC

**Campus**: Main Campus

**Prerequisite(s)**: Consent of instructor to act as sponsor and approval of graduate program by department.

**Needs Permission to Enroll**: Yes, Department Consent

**Special Fee Applied**: No

---

**BIOL 5950 - Biotechnology Internship**

(1-3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

**Course Description**: One term of internship in off-campus biotechnology companies as a pathway to biotechnology industry employment.

**Hours per Week**: N/A lecture hour(s).

**Grading**: CR/NC

**Mode of Delivery**: Face to Face

**Campus**: Main Campus

**Prerequisite(s)**: Instructor consent, admission to the Certificate Program in Biotechnology.

**Needs Permission to Enroll**: Yes, Instructor Consent

**Special Fee Applied**: No

---

**BIOL 5960 - Graduate Studies**

(0)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 0
Max times this course can be taken for credit: 1

**Course Description**: See the Comprehensive Examination under the University Requirements for Master’s Degree in this eCatalog.

**Hours per Week**: 0 lecture hour(s).

**Grading**: CR/NC

**Mode of Delivery**: Face to Face

**Campus**: Main Campus

**Prerequisite(s)**: Advancement to Candidacy

**Needs Permission to Enroll**: No

**Special Fee Applied**: No
All 4000-level courses may be applied toward master’s degree requirements, subject to limits established by the department and approval of the graduate adviser.

Classified graduate standing is required for enrollment in 5000-level courses; exception applies to students who are enrolled in a postbaccalaureate certificate or credential program.

**Notes:**

- All 4000-level courses may be applied toward master’s degree requirements, subject to limits established by the department and approval of the graduate adviser.
- Classified graduate standing is required for enrollment in 5000-level courses; exception applies to students who are enrolled in a postbaccalaureate certificate or credential program.

**BIOL 5970 - Graduate Research**

(1-2)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 4

**Course Description:** Conducting research towards master’s degree. Must be repeated until 4 units have been completed, after which no additional units may be taken.

**Hours per Week:** N/A lecture hour(s).

**Grading:** CR/NC
**Mode of Delivery:** Face to Face
**Campus:** Main Campus

**Prerequisite(s):** BIOL 5200 and approval of program committee
**Needs Permission to Enroll:** No
**Special Fee Applied:** No
BIOL 5980 - Graduate Directed Study

(1-3)
This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 6

Course Description: Directed study of advanced topics in the biological sciences and introduction to laboratory or field research techniques. Assigned readings, conferences, lectures, seminars, and research. May be repeated up to 6 units. Units may not be used toward an MS degree in Biology.
Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Consent of instructor to act as sponsor and approval of graduate program by department.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

BIOL 5990 - Thesis

(1-3)
This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 6

Course Description: Independent research culminating in a written thesis, seminar presentation, and oral defense. Must be repeated until 6 units have been completed, after which no additional units may be taken.
Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy, BIOL 5200 and instructor consent to act as sponsor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

Chemistry (Undergraduate)

CHEM 1000 - Molecules Matter

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: An introductory course emphasizing the importance of chemistry to everyday life including the environment, energy, food and materials.
Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).
CHEM 1010 - Fundamentals of Chemistry

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Introductory course in fundamental laws and theories of general chemistry with chemistry and biochemistry applications to health sciences. Lecture 3 hours, laboratory 3 hours. No credit toward Chemistry, Engineering or Physics major.

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE B4, or on Math Placement Category I or II (math supported instruction is not required).

CHEM 1020 - Fundamentals of Organic Chemistry

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Organic chemistry for nutritional science majors and related fields. Fundamental principles and reactions of organic chemistry with an emphasis on processes related to nutritional science. Lecture 3 hours, laboratory 3 hours. No credit toward Chemistry, Engineering or Physics major.

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graded C- or better in (CHEM 1010 or CHEM 1100)
CHEM 1040 - General Chemistry for Engineers
(4)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1
Course Description: Fundamental theory and applications of chemical principles. Atomic structure, chemical bonding, chemical reactions, reaction stoichiometry, thermochemistry, equilibrium, electrochemistry, classes and nomenclature of chemical compounds.
Hours per Week: 3 lecture hour(s), 3 laboratory hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): Engineering major; completion of GE B4 or on Math Placement Category I or II (math supported instruction is not required).
Needs Permission to Enroll: No
Special Fee Applied: No
GE B1* - * restricted to specific major

CHEM 1050 - Introductory Chemistry
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: The course presents fundamentals of chemistry and quantitative thinking. Topics include the molecular nature of matter, scientific method, measurement, stoichiometry and gas laws. Lecture 2 hours, Activity 2 hours.
Hours per Week: 2 lecture hour(s), 2 activity hour(s).
Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

CHEM 1100 - General Chemistry I
(5)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 5
Max times this course can be taken for credit: 1
Course Description: Physical concepts, stoichiometry, structure of atom, periodic table, chemical bonding, structure of molecules, states of matter, acids and bases. Lecture 3 hours, laboratory 6 hours.
Hours per Week: 3 lecture hour(s), 6 laboratory hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
**Prerequisite(s):** Completion of GE B4, or on Math Placement Category I or II (math supported instruction is not required). Department consent required for Engineering majors.

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

**GE B1** - restricted to specific major

---

**Articulation C-ID:** CHEM 110

This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding "C-ID Course" designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

---

**CHEM 1110 - General Chemistry II**

(5)

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 5

Max times this course can be taken for credit: 1

**Course Description:** Equilibrium, oxidation-reduction, electrochemistry, thermodynamics, and its applications in chemistry, chemical kinetics, and special topics in general chemistry. Lecture 3 hours, 6 laboratory hours.

**Hours per Week:** 3 lecture hour(s). 6 laboratory hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** CHEM 1100 with a minimum grade of C-.

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**Articulation C-ID:** CHEM 120 S

To receive full transfer credit, students must take both CHEM 1100 and CHEM 1110. This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding "C-ID Course" designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

---

**CHEM 1800 - Selected Topics in Chemistry**

(1-3)

This course is repeatable: Yes

Max # of units may be repeated: 2

Total # of units allowed for credit: 3

Max times this course can be taken for credit: 3

**Course Description:** Topics of current interest as announced in Schedule of Classes. No credit toward Chemistry or Biochemistry major.

**Hours per Week:** 1 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** None

**Needs Permission to Enroll:** No

**Special Fee Applied:** Yes

---
• CHEM 1801 - Selected Topics in Chemistry
  (1-3)
  This course is repeatable: Yes
  Max # of units may be repeated: 2
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 3
  Course Description: Topics of current interest as announced in Schedule of Classes. No credit toward Chemistry or Biochemistry major.
  Hours per Week: 3 laboratory hour(s).
  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus
  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: Yes

• CHEM 1810 - Honors Proseminar
  (1)
  This course is repeatable: Yes
  Max # of units may be repeated: 3
  Total # of units allowed for credit: 4
  Max times this course can be taken for credit: 4
  Course Description: Study of recent developments in chemistry and biochemistry. May be repeated to maximum of 6 units; only 1 unit may apply on major requirements.
  Hours per Week: 1 lecture hour(s).
  Grading: CR/NC
  Mode of Delivery: Face to Face
  Campus: Main Campus
  Prerequisite(s): Acceptance into department honors program.
  Needs Permission to Enroll: Yes, Department Consent
  Special Fee Applied: No

• CHEM 2200 - Organic Chemistry I
  (4)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 4
  Max times this course can be taken for credit: 1
  Course Description: The first semester of a yearlong course focusing on properties and reactions of organic compounds, including biomolecules; emphasis on fundamental principles and reaction mechanisms. Lecture 3 hours, Recitation 1 hour.
  Hours per Week: 3 lecture hour(s), 1 recitation hour(s).
  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus
  Prerequisite(s): Graded C- or better in (CHEM 1110 or one year of General Chemistry)
  Needs Permission to Enroll: No
  Special Fee Applied: No
**CHEM 2201 - Organic Chemistry Laboratory I**

(1)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 1  
Max times this course can be taken for credit: 1

**Course Description:** Fundamentals of organic laboratory analysis, with emphasis on spectroscopic methods. Laboratory 3 hours.

**Hours per Week:** 3 laboratory hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** Graded C- or better in CHEM 1110 Pre/Co-requisite(s): CHEM 2200  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** Yes

---

**CHEM 2211 - Organic Chemistry Laboratory II**

(1)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 1  
Max times this course can be taken for credit: 1

**Course Description:** Fundamental laboratory techniques of organic chemistry and organic synthesis. Laboratory 3 hours.

**Hours per Week:** 3 laboratory hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** Graded C- or better in both (CHEM 2200, CHEM 2201) Pre/Co-requisite(s): CHEM 3200  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** Yes

---

**CHEM 2300 - Introduction to Biomolecules**

(2)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 2  
Max times this course can be taken for credit: 1

**Course Description:** Introduction to the chemistry of biological molecules; building blocks to macromolecules and supramolecular structures;
protein function in metabolism, membrane transport, cell structure; nucleic acid structure and function; strategies of metabolism.

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** BIOL 1100, CHEM 1110 or CHEM 1020 or equivalent

**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

---

**CHEM 2800 - Special Topics in Chemistry**

(1-3)

This course is repeatable: Yes  
Max # of units may be repeated: 4  
Total # of units allowed for credit: 5  
Max times this course can be taken for credit: 5

**Course Description:** Current topics of interest in chemistry and related disciplines, as announced in Schedule of Classes. May be repeated to maximum of 6 units.

**Hours per Week:** 1 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** As needed for specific topic.

**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

---

**CHEM 2801 - Special Topics in Chemistry**

(1)

This course is repeatable: Yes  
Max # of units may be repeated: 4  
Total # of units allowed for credit: 5  
Max times this course can be taken for credit: 5

**Course Description:** Current topics of interest in chemistry and related disciplines, as announced in Schedule of Classes. May be repeated to maximum of 6 units.

**Hours per Week:** 3 laboratory hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** As needed for specific topic.

**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

---

**CHEM 3000 - Nutritional Aspects of Biochemistry**

(4)

This course is repeatable: No  
Max # of units may be repeated: 0
CHEM 3100 - Writing for Chemists

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Extensive practice in writing abstracts, summaries, reports, resumes, and reviews; presentation of oral reports and posters; literature searching; and ethics in scientific research. Lecture 2 hours, laboratory 3 hours. Grade of C or better in this course satisfies the Graduation Writing Assessment Requirement.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graded C- or better in CHEM 2200 or consent of instructor
Needs Permission to Enroll: No
Special Fee Applied: No

CHEM 3200 - Organic Chemistry II

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: The second semester of a yearlong course focusing on properties and reactions of organic compounds, including biomolecules; emphasis on fundamental principles and reaction mechanisms. Lecture 3 hours, Recitation 1 hour.

Hours per Week: 3 lecture hour(s). 1 recitation hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graded C- or better in CHEM 2200
Needs Permission to Enroll: No
Special Fee Applied: No
• CHEM 3500 - Quantitative Analysis

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 4  
Max times this course can be taken for credit: 1

Course Description: Principles and techniques of analytical chemistry, including stoichiometry, equilibrium (pH and redox), electrochemistry, spectroscopy, and separations. Lecture 2 hours, laboratory 6 hours.

Hours per Week: 2 lecture hour(s). 6 laboratory hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): Graded C- or better in CHEM 1110

Needs Permission to Enroll: No

Special Fee Applied: Yes

• CHEM 3600 - Inorganic Chemistry

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 4  
Max times this course can be taken for credit: 1

Course Description: Selected topics in inorganic chemistry, including the elements, atomic structure, bonding, ionic solids, solutions, nonmetals, physical inorganic chemistry, coordination chemistry, and inorganic polymers.

Hours per Week: 4 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): CHEM 1110, MATH 2120

Needs Permission to Enroll: No

Special Fee Applied: No

• CHEM 3800 - Ancient and Modern Science (also listed as HIST 3800, PHIL 3800 )

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: A systematic analysis of ancient scientific thought and its relationship to modern science.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.

Needs Permission to Enroll: No

Special Fee Applied: No
CHEM 3810 - Honors Studies in Chemistry

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Independent research in chemistry or biochemistry. Regular consultation with research adviser; attendance at the departmental seminar series; and written thesis required. Students must submit a thesis and present an oral defense to receive a passing grade. May not be repeated.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Acceptance into the Chemistry and Biochemistry Honors Program. CHEM 2200 Pre/Co-requisite(s): CHEM 4990
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

CHEM 3820 - Special Topics in Chemistry

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Current topics of special interest in chemistry and related disciplines as announced in Schedule of Classes. May be repeated for credit as subject matter changes.

Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): As needed for specific topic.
Needs Permission to Enroll: No
Special Fee Applied: No

CHEM 3821 - Special Topics in Chemistry Laboratory

(1)

This course is repeatable: Yes
Max # of units may be repeated: 1
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 2

Course Description: Current topics of special interest in chemistry and related disciplines as announced in Schedule of Classes. May be repeated for credit as subject matter changes.

Hours per Week: 3 laboratory hour(s).

Grading: ABCDF
CHEM 4142 - Chemistry and Physics of Materials (also listed as PHYS 4142)  
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to the chemistry and physics underlying bulk materials and thin films. Topics include chemical bonding, crystal chemistry, crystal structure, electronic band structure, and magnetism, with applications to semiconductors and metals.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2150 or Graduate Standing
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

CHEM 4200 - Advanced Organic Chemistry I  
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Theoretical aspects of organic chemistry emphasizing reaction mechanisms.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHEM 3200
Needs Permission to Enroll: No
Special Fee Applied: No

CHEM 4210 - Polymer Chemistry  
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Preparation, mechanisms, and properties of synthetic macromolecules; step and chain polymerization, copolymerization, kinetics, morphology and physical characterization of polymers.
**CHEM 4300 - Introduction to Biochemistry**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to principles of biochemistry.

Hours per Week: 3 lecture hour(s).

**CHEM 4310 - Biochemistry I**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Enzyme kinetics and mechanisms of enzyme action; structure, function, and chemistry of carbohydrates, proteins, lipids and nucleic acids in animals, plants and microorganisms; the metabolism of carbohydrates.

Hours per Week: 3 lecture hour(s).

**CHEM 4311 - Biochemistry Laboratory I**

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1
**CHEM 4320 - Biochemistry II**  
(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Metabolism of lipids and proteins; photosynthetic metabolism and assimilation of inorganic nutrients; enzymology and mechanism of DNA replication and repair; transcriptional machinery; RNA processing; protein synthesis and processing.  
**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus  

Prerequisite(s): CHEM 4310  
Needs Permission to Enroll: No  
Special Fee Applied: No

---

**CHEM 4321 - Biochemistry Laboratory II**  
(2)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 2  
Max times this course can be taken for credit: 1

**Course Description:** Laboratory experiments designed to illustrate chemical behavior of substances of biochemical importance. Laboratory 6 hours.  
**Hours per Week:** 6 laboratory hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus  

Prerequisite(s): CHEM 4311, pre/co-requisite CHEM 4320  
Needs Permission to Enroll: No  
Special Fee Applied: Yes

---

**CHEM 4400 - Fundamentals of Physical Chemistry**  
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Survey of physical chemistry including thermodynamics, kinetics, quantum chemistry, and spectroscopy. No credit toward B.S. degree in Chemistry or Biochemistry; no credit if taken after successful completion of CHEM 4420.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHEM 3500, MATH 2120, (PHYS 1200 or PHYS 2200)
Needs Permission to Enroll: No
Special Fee Applied: No

CHEM 4410 - Physical Chemistry: Quantum Mechanics and Kinetics

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Fundamentals of quantum chemistry; applications to chemical bonding, spectroscopy, and the solid state; molecular transport phenomena; chemical kinetics; reaction dynamic theories.

Hours per Week: 4 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): (CHEM 1110 or one year of General Chemistry), MATH 2150, PHYS 2200
Needs Permission to Enroll: No
Special Fee Applied: No

CHEM 4420 - Physical Chemistry: Thermodynamics

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Thermodynamics of chemical systems including the 1st, 2nd, and 3rd Laws; multi-components systems; chemical equilibrium; real ionic solutions; electrochemistry.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): (CHEM 1110 or one year of General Chemistry), MATH 2120, PHYS 2200
Needs Permission to Enroll: No
Special Fee Applied: No
• CHEM 4430 - Physical Chemistry: Quantum Chemical Methods

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Theory and application of quantum chemical computational methods for determination of properties of chemical systems.
Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHEM 4410
Needs Permission to Enroll: No
Special Fee Applied: No

• CHEM 4431 - Physical Chemistry Laboratory

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Experimental measurements, data analysis, and calculations of the quantum mechanical, spectroscopic, kinetic, and thermodynamic properties of chemical systems. Laboratory 6 hours.
Hours per Week: 6 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHEM 3100, CHEM 4410 Pre/Co-requisite(s): CHEM 4420
Needs Permission to Enroll: No
Special Fee Applied: No

• CHEM 4450 - Introduction to Atmospheric Chemistry

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Investigation of current topics in atmospheric chemistry using the fundamental principles of physical and analytical chemistry.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHEM 3500, MATH 2110, (PHYS 1200 or PHYS 2100)
Needs Permission to Enroll: No
CHEM 4460 - Drug Delivery

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course provides a physicochemical foundation to understand how drug distributions and effectiveness in the body can be influenced by the way the agent is modified and delivered.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHEM 4410 or CHEM 4420 or equivalent
Needs Permission to Enroll: No
Special Fee Applied: No

CHEM 4510 - Advanced Analytical Chemistry: Optical Spectroscopy

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Ultraviolet, visible, and infrared spectroscopies applied to analytical determinations. Includes theory, instrumentation, and application for UV/vis absorption and emission spectroscopy, FTIR spectroscopy, and atomic absorption and flame emission spectrosopies. Lecture 1 hour. Laboratory 3 hours.

Hours per Week: 1 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHEM 3500, CHEM 4410
Needs Permission to Enroll: No
Special Fee Applied: No

CHEM 4520 - Advanced Analytical Chemistry: Analytical Separations and Mass Spectrometry

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Theory, instrumentation, and applications of mass spectrometric detection techniques and separation analysis including gas chromatography, liquid chromatography, and electrophoresis. Lecture 1 hour. Laboratory 3 hours.

Hours per Week: 1 lecture hour(s). 3 laboratory hour(s).
CHEM 4530 - Advanced Analytical Chemistry: Electrochemistry and Surface Techniques

(2)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Theory, instrumentation, and applications of electrochemistry including potentiometry, voltammetry, and coulometry. Introduction to surface characterization using spectroscopy and scanning microscopy techniques. Lecture 1 hour. Laboratory 3 hours.

Hours per Week: 1 lecture hour(s). 3 laboratory hour(s).

CHEM 4800 - Special Topics in Advanced Chemistry Lecture

(1-3)
This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Current topics of special interest in advanced chemistry and related disciplines, as announced in Schedule of Classes. May be repeated to maximum of 6 units.

Hours per Week: 1 lecture hour(s).

CHEM 4801 - Special Topics in Advanced Chemistry Laboratory

(1)
This course is repeatable: Yes
Max # of units may be repeated: 4
Total # of units allowed for credit: 5
Max times this course can be taken for credit: 5
Course Description: Current topics of special interest in advanced chemistry and related disciplines, as announced in Schedule of Classes. May be repeated to maximum of 6 units.

Hours per Week: 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): As needed for specific topic.
Needs Permission to Enroll: No
Special Fee Applied: No

- **CHEM 4810 - Advanced Synthetic Methods**

  (2)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 2
  Max times this course can be taken for credit: 1

  Course Description: Application of advanced synthetic methods to the synthesis of selected organic, organometallic, and inorganic molecules. Laboratory 6 hours.

  Hours per Week: 6 laboratory hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): [CHEM 3200], [CHEM 2211], [CHEM 3600]
  Needs Permission to Enroll: No
  Special Fee Applied: Yes

- **CHEM 4820 - Biomedical Seminars and Presentations**

  (1)

  This course is repeatable: Yes
  Max # of units may be repeated: 7
  Total # of units allowed for credit: 8
  Max times this course can be taken for credit: 8

  Course Description: Development of skills as critical listeners and presenters of biomedical science seminars and poster presentations.

  Hours per Week: 2 activity hour(s).

  Grading: CR/NC
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **CHEM 4830 - History of Chemistry**

  (3)

  This course is repeatable: No
**CHEM 4840 - Drug Discovery and Development (also listed as BIOL 4440)**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: An overview of the process of drug discovery and development, with an emphasis on academic and industrial research methodology. Lecture 2 hours, Laboratory 3 hours.

Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHEM 3200, BIOL 3400 or CHEM 4300 or CHEM 4310
Needs Permission to Enroll: No
Special Fee Applied: No

---

**CHEM 4850 - Bioinorganic and Bioorganic Chemistry**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Chemical approaches to the study of biological processes with an emphasis on the tools and methods of inorganic and organic chemistry.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHEM 4300 or CHEM 4310
Needs Permission to Enroll: No
Special Fee Applied: No
• CHEM 4860 - Bioinformatics (also listed as BINF 4000)  
(3)
This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Theory and application of software programs that analyze genes and proteins; creation of programs designed to search databases and align sequences.  
Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): (BIOL 1100 or CHEM 4300) and (upper-division standing); or graduate level standing  
Needs Permission to Enroll: No  
Special Fee Applied: No

• CHEM 4890 - Molecular Science Capstone  
(3)
This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Students will integrate and critically reflect upon concepts and approaches from two or more disciplines within chemistry used to address a societal concern in a culminating research paper. Satisfies GE UD B for Chemistry and Biochemistry majors.  
Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): CHEM 3100, completion of GE 4 basic subjects, a course each from lower division Blocks B, C and D  
Needs Permission to Enroll: No  
Special Fee Applied: No

GE UD B* (wi) - * restricted to specific major

• CHEM 4980 - Cooperative Education  
(1)
This course is repeatable: Yes  
Max # of units may be repeated: 3  
Total # of units allowed for credit: 4  
Max times this course can be taken for credit: 4

Course Description: Cooperative Education  
Hours per Week: N/A lecture hour(s).

Grading: CR/NC  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): See UNIV 4980  
Needs Permission to Enroll: No  
Special Fee Applied: No
CHEM 4990 - Undergraduate Directed Study

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 6

Course Description: Independent research project selected in conference with sponsor before registration; progress meetings held regularly. May be repeated to maximum of 6 units.
Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): 2.5 grade point average in chemistry courses or one advanced laboratory course, consent of an instructor to act as sponsor, ability to assume responsibility for independent work and to prepare written and oral reports.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

Chemistry (Graduate)

CHEM 5000 - Interdisciplinary Discoveries in Chemistry and Biochemistry

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Advanced study of interdisciplinary discoveries in the broader field of chemical and biochemical sciences.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

CHEM 5100 - Introduction to Research

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: An introduction to graduate research, including chemical literature, research ethics, and career paths. Students will develop their master’s research prospectus report and presentation.
Hours per Week: 3 lecture hour(s).
CHEM 5110 - Graduate Seminar: Chemistry I
(1)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1
Course Description: Identification and presentation of an emerging topic in the molecular sciences. Oral communication, peer-review, and techniques for conducting critical reviews of the molecular science literature will be discussed.
Hours per Week: 1 lecture hour(s), 2 activity hour(s).

CHEM 5120 - Graduate Seminar: Chemistry II
(1)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1
Course Description: Attendance at regular departmental seminar program; participation in seminar training program with course instructor, presentation of a satisfactory departmental seminar.
Hours per Week: 2 activity hour(s).

CHEM 5200 - Synthetic Organic Chemistry: Analysis, Design, and Methodology
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Analysis of target molecules, rational design of strategies, and methodologies for the preparation of organic molecules. Emphasis on analysis of target molecules from the recent organic chemistry literature.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHEM 3200
Needs Permission to Enroll: No
Special Fee Applied: No

CHEM 5210 - Organic Structure Determination

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course covers modern and advanced methods of elucidation of the structures of organic molecules, including NMR, MS, IR, and UV.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHEM 3200, CHEM 2211 or equivalent
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

CHEM 5300 - Advanced Biochemistry

This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 2

Course Description: Recent concepts of enzyme systems, biological oxidation, intermediate metabolism, biosynthesis of macromolecules, biochemical genetics, metabolic regulation, and related phenomena. May be repeated as subject matter changes to maximum of 12 units.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHEM 4320, CHEM 4321
Needs Permission to Enroll: No
Special Fee Applied: No

CHEM 5320 - Protein Structure

(3)
CHEM 5330 - Transcriptional Control of Gene Expression

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Graduate student standing. Analysis of structural classes of proteins and factors that determine native structure, stability and biological function. Tools for analysis, comparison and prediction of protein structure. Recent advances in research literature.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHEM 4320, (CHEM 4321 or equivalent)
Needs Permission to Enroll: No
Special Fee Applied: No

CHEM 5340 - Signal Transduction

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Graduate student standing. Review of molecular signal transduction and the importance of post-translational modifications as a mechanism to transmit information to the cell.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHEM 4320, (CHEM 4321 or equivalent)
Needs Permission to Enroll: No
Special Fee Applied: No
* CHEM 5350 - RNA Structure and Function

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: This course will explore the multifarious biochemical roles of RNA through primary literature. The 3D structure of RNA and the identity of nucleotide modifications will be examined.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): CHEM 4320, CHEM 4321 or equivalent, graduate standing  
Needs Permission to Enroll: No  
Special Fee Applied: No

* CHEM 5360 - Posttranslational Modifications of Proteins

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Graduate student standing. An introduction to the diversity and importance of post-translational modifications (PTMs) of protein as they relate to development, health, and disease. Recent advances in research literature.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): Graduate student standing  
Needs Permission to Enroll: No  
Special Fee Applied: No

* CHEM 5400 - Quantum Chemistry

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Quantum chemistry, including discussion of molecular orbital and valence bond theories and their applications to chemistry.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): CHEM 4410, CHEM 4420
• CHEM 5410 - Nuclear Magnetic Resonance Spectroscopy

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course introduces advanced NMR (Nuclear Magnetic Resonance) principles and experimental techniques to graduate students in the fields of chemistry and biochemistry.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHEM 4410 or equivalent
Needs Permission to Enroll: No
Special Fee Applied: No

• CHEM 5510 - Thermodynamics and Kinetics of Materials

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: The first component, thermodynamics, includes laws of thermodynamics, solution theory and equilibrium diagrams. The second component, kinetics, includes diffusion, phase transformations, and the development of microstructure.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHEM 4412 or CHEM 4420 or MSE 4142 or PHYS 4142 or Graduate Standing.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

• CHEM 5600 - Advanced Inorganic Chemistry

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Selected topics on structure and mechanism in inorganic chemistry; discussion of modern theories applied to inorganic chemistry.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
CHEM 5800 - Special Topics in Graduate Chemistry

(3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Specialized topics in chemistry given at an advanced level. May be repeated once for credit.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

CHEM 5910 - Advanced Laboratory

(1)

This course is repeatable: Yes
Max # of units may be repeated: 1
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 2

Course Description: Introduction to advanced laboratory techniques involving individual student projects. May be repeated two times to maximum of 2 units; maximum of 2 units may be applied to M.S. degree. Combined units of CHEM 5910, 5970 and 5990 may not exceed 10.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHEM 2211, (CHEM 4431 or CHEM 4321)
Needs Permission to Enroll: No
Special Fee Applied: No

CHEM 5960 - Comprehensive Examination

(0)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 0
Max times this course can be taken for credit: 1

Course Description: See the Comprehensive Examination under the University Requirements for Master’s Degree in this eCatalog.

Hours per Week: 0 lecture hour(s).
CHEM 5970 - Graduate Research
(1-3)
This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

Course Description: Research leading toward M.S. degree. Graduate students must earn a minimum of 5 and a maximum of 8 units. Combined units of CHEM 5910, CHEM 5970, and CHEM 5990 may not exceed 10.

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

CHEM 5980 - Graduate Directed Study
(1-3)
This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 4

Course Description: Independent study of advanced topics in the field, regular conferences with a sponsor. Student’s progress determined by oral and/or written reports. May be repeated for credit; combined units of CHEM 5970 and CHEM 5980 may not exceed 13. Combined units of CHEM 5900, CHEM 5970, CHEM 5980, and CHEM 5990 may not exceed 15.

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

CHEM 5990 - Thesis
(1-3)
This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

**Course Description:** Independent research resulting in thesis and oral defense thereof. May be repeated to maximum of 3 units. Combined units of CHEM 5910, CHEM 5970 and CHEM 5990 may not exceed 10.

**Hours per Week:** N/A lecture hour(s).

**Grading:** CR/NC  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** Advancement to Candidacy. Instructor consent to act as sponsor, departmental approval of topic prior to registration.

**Needs Permission to Enroll:** Yes, Instructor Consent  
**Special Fee Applied:** No

---

**Chicana(o) and Latina(o) Studies (Undergraduate)**

- **CLS 1200 - Introduction to Chicanx/Latinx History In the U.S.**
  
  (3)

  **This course is repeatable:** No  
  **Max # of units may be repeated:** 0  
  **Total # of units allowed for credit:** 3  
  **Max times this course can be taken for credit:** 1

  **Course Description:** This course is designed to address the intersectionality of gender, race, sexuality, ability, immigration, and class in the US historical experience with special attention to the Chicanx and Latinx populace.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** None  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

  **GE AM-History (default) or GE F, (re)**

- **CLS 1300 - The Constitution, Law, & Chicanx/Latinx Communities**
  
  (3)

  **This course is repeatable:** No  
  **Max # of units may be repeated:** 0  
  **Total # of units allowed for credit:** 3  
  **Max times this course can be taken for credit:** 1

  **Course Description:** The course addresses the intersection of Chicanx/Latinx experiences with the US and California Constitutions, incorporating fundamental Supreme Court and Ninth Circuit Court of Appeals decisions with their impact on US society.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** None  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

  **GE AM-Government (default) or GE F, (re)**
• CLS 1500 - Ethnic Studies, Resistance & Solidarity
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 3
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Provides an introduction to ethnic studies by exploring historical and contemporary resistance, relationships, and solidarity work among major ethnic/racial groups.
  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face, Hybrid, Online
  Campus: Main Campus

  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: No

  GE F (default) or GE D, (re)

• CLS 1600 - Cultural and Artistic Expressions in the Americas
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Explores pre-Columbian and contemporary indigenous artistic representations and aesthetic principles that constitute a cultural legacy–expressed in modern literature, murals, and cinema–of present-day Chicanas/os-Latinas/os in the United States.
  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: No

  GE C1 (default) or GE F, (re)

• CLS 2010 - Mexican Literature Sin Fronteras
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Selected works of Mexican literature translated into English and literature produced by Mexican Americans and U.S. Latinx related to Mexican identity, and Mexican authors living outside of Mexico.
  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
CLS 2040 - Diverse Latin American Populations in Southern California
(3)

Course Description: The formation of and differences among the varied Latin American people in the Southern California region and their participation in contemporary society.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

CLS 2050 - Chicanx/Latinx in Film and Media
(3)

Course Description: This class is designed to address the substantial contribution to film and media by Chicanas/os and Latinas/os, and the changing nature of media in US society. Focus on Film, television, radio, and journalism.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

CLS 2060 - Chicanx/Latinx, Social Media & Digital Communities
(3)

Course Description: GE C2 (default) or GE F, (re)
Course Description: This course addresses the historical and current representation and participation of Latinas/os in the media, with a focus on social media and digital networks. Digital communication and the internet have transformed how culture is transmitted on multi-layered platforms of media technologies.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE C1 (default) or GE F, (re)

---

**CLS 2100 - Chicanx & Latinx Political and Social Movements**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: The course will address Chicanx and Latinx experiences, leadership, participation in historical and contemporary social movements in the U.S.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE D (default) or GE F, (re)

---

**CLS 2200 - Chicanas & Latinas in Contemporary US Society (also listed as WGSS 2200)**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Surveys the historical and contemporary experiences of Chicanas and Latinas in the U.S. with an emphasis on race, ethnicity, nationality, and how these intersect with gender, gender identities, sexualities, and class, in their lives as individuals and as members of communities. Also listed as WGSS 2200.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE F (default) or GE D, (re)
• CLS 2300 - Families and Kinships in the Americas

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course addresses how Latinx families are impacted by and respond to economic, political, and cultural realities by considering transnational families, families in transition, families in separation, chosen and birth families, queer families, and street families.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE F (default) or GE D, (re)

• CLS 3009 - Mexico City in Contemporary Mexican Cinema (also listed as ML 3009)

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This class analyzes how Mexican filmmakers have used Mexico City as a vehicle for exploring such issues as gender roles, social imaginaries, political and police corruption, and ethnic and social identities.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
Needs Permission to Enroll: No
Special Fee Applied: No

GE UD C (d)

• CLS 3100 - Introduction to Critical Education: Theory & Praxis

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examines educational theories in critical race studies, gender and sexuality studies, and ability studies with emphasis on the traditional and emerging analytical frameworks in theory and practice.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
**CLS 3120 - Chicanx/Latinx Parent, Community, & School Partnerships**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Examination of social, political, educational and cultural issues affecting parent/school relationships. Analysis of neighborhood resources, school climate and parent perspectives provide a critical understanding of ways teachers can be mediators/advocates.  
Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.  
Needs Permission to Enroll: No  
Special Fee Applied: No  
GE UD D (default) or GE F, (cl) (re)

---

**CLS 3130 - Diversity, Intersectionality, Major Racial/Ethnic Groups in U.S. Schooling, and Equality of Educational Opportunity and Social Justice (also listed as EDFN 3130)**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: An examination of diversity, the intersectionality of race, ethnicity, class, gender, and sexuality, with a focus on experiences of major racial/ethnic groups in relation to U.S. schools and educational equality.  
Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.  
Needs Permission to Enroll: No  
Special Fee Applied: No  
GE UD D (re)

---

**CLS 3200 - Pre-Columbian Narratives in Latin American Literature**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Critical readings of modern Latin American narrative fiction, poetry and drama, with interpretive emphasis on their allusions to Pre-Columbian narratives and philosophical thought.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.

Needs Permission to Enroll: No

Special Fee Applied: No

GE UD C (default) or GE F

-------------------

• CLS 3220 - Race, Gender, and Hybridity in the Americas

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 3

Max times this course can be taken for credit: 1

Course Description: This course explores the construction of race, gender, and hybridity in the Americas using numerous humanities approaches and civic engagement opportunities.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face, Hybrid, Online

Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.

Needs Permission to Enroll: No

Special Fee Applied: No

GE UD C (cl) (re)

-------------------

• CLS 3300 - Race, Class, & Gender

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 3

Max times this course can be taken for credit: 1

Course Description: Examination of social class, sex/gender, and race as bases of inequality and the processes by which inequalities are maintained or reproduced in the US. Some course sections may require service-learning.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face, Hybrid, Online

Campus: Main Campus

Prerequisite(s): Completion of GE Block A and one course from Block D.

Needs Permission to Enroll: No

Special Fee Applied: No

GE F (default) or GE UD D, (cl) (re)
• CLS 3320 - Global Migrants in Transnational Networks and Economies

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course addresses Latinx and Indigenous migration, transnationalism, solidarity networks and grassroots activations in the neoliberal era.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
Needs Permission to Enroll: No
Special Fee Applied: No

GE F (default) or GE UD D

• CLS 3400 - Chicanx/Latinx/Indigenous Refusal, Resistance, & Praxis

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

**Articulation C-ID: ECE 200**

This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

---

**CHDV 2250 - Ethnic Identity and Awareness in Children and Families**
CHDV 2300 - Program Design in Early Childhood

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to the historical and theoretical background, characteristics, and connection between philosophy and application of various early childhood program models and approaches.

Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): Graded C or better in CHDV 2100 or consent of the instructor
Needs Permission to Enroll: No
Special Fee Applied: No

CHDV 2310 - Administration of Preschool and Day Care Programs

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Organization and management of finances, staff, equipment, physical space, and programs. Fulfills partial requirements for the site supervisor child development permit for administrators of early childhood programs. Lecture 2 hours, activity 2 hours.

Hours per Week: 2 lecture hour(s), 2 activity hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): Graded C or better in CHDV 2000 or permission of instructor
Needs Permission to Enroll: No
• CHDV 2500 - Child, Family, and Community

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examination of the impacts of environmental settings, significant relationships, and societal issues on the development of children.
Hours per Week: 2 lecture hour(s), 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graded C or better in CHDV 1400 or consent of the instructor
Needs Permission to Enroll: No
Special Fee Applied: No

Articulation C-ID: CDEV 110
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding "C-ID Course" designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

• CHDV 3000 - Child Development Research Methods and Critical Analysis

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduces research principles and applications relevant to the field of child development; content includes an introduction to the scientific method, research design, and measurement reliability and validity; students learn to carefully analyze and question research claims and findings in the fields of child development and family studies using a critical lens.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): Satisfactory completion of Block A2 and A3; Pre/Co-requisite(s): CHDV 2000 with a grade of C or better
Needs Permission to Enroll: No
Special Fee Applied: No

• CHDV 3210 - Urban Families and Resilience

(3)

This course is repeatable: No
Max # of units may be repeated: 3
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
**Course Description:** Examining the role of diversity in dynamic interactions between culturally diverse families and other institutions in urban environments. Processes of resolving tensions between urban demands and family resilience.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face, Hybrid, Online

**Campus:** Main Campus

**Prerequisite(s):** Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**CHDV 3400 - Middle Childhood and Adolescence**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Theoretical and empirical bases for understanding children from 6 to 18 years. Some sections (identified in the class schedule) are service learning and require that time be spent each week in a community agency. Some sections may be offered in online or hybrid format.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face, Hybrid, Online

**Campus:** Main Campus

**Prerequisite(s):** Graded C or better in [CHDV 2000](#) or consent of the instructor

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

This is a service learning course.

---

**CHDV 3410 - Development in Adulthood and Aging**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Study of adult development from emerging adulthood through the end of life in dynamic and diverse contexts; examination of interaction among biological, social/cultural, and psychological domains from a developmental perspective. Some sections may be offered as online or hybrid courses.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face, Hybrid, Online

**Campus:** Main Campus

**Prerequisite(s):** [CHDV 1400](#) with a grade of C or better

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**CHDV 3420 - Development of Sexuality across the Lifespan**
CHDV 3430 - Human Sexuality Across the Lifespan

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Developmental understanding of human sexuality across the lifespan, examining social, cognitive, emotional, and physical dimensions of sexuality. Emphasizes multiple external influences and diversity in the concept of sexuality.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
Needs Permission to Enroll: No
Special Fee Applied: No

CHDV 3430 - Child and Adolescent Cognition

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Cognitive development from birth to adolescence in various contexts. Survey of major theories and research on cognitive development. (e.g. perception, memory, language, literacy, conceptual organization, logical reasoning, problem-solving, and social cognition).

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus
Prerequisite(s): Completion of CHDV 2000 with a grade of C or better, or by consent of the instructor.
Needs Permission to Enroll: No
Special Fee Applied: No

CHDV 3440 - Family Resource and Case Management

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Values and processes associated with management of family resources, the influence of life events on family resources, and methods for assisting families in accessing needed resources.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus
Prerequisite(s): None
Needs Permission to Enroll: No
• CHDV 3470 - Culture and Wellness across the Lifespan

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: The intersections of culture, health and wellness across the lifespan are examined. The multiple contexts and cultural factors influencing definitions of health and healing are explored. Culturally informed strategies for promoting wellness are investigated.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
Needs Permission to Enroll: No
Special Fee Applied: No

GE UD D (d)

• CHDV 3480 - Fatherhood and the Child Development Cycle

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examines historical, social, political, and cultural roles of fathers in child development across contemporary family structures, key theories of parent-child development, parenting, father involvement, and current social policies and programs.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graded C or better in CHDV 2000
Needs Permission to Enroll: No
Special Fee Applied: No

• CHDV 3500 - Social and Emotional Development

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 0

Course Description: Study of social and emotional development from birth through adolescence; the self; emotion regulation and expression; peer, parent-child, sibling, early romantic relationships; interpersonal skills; moral development; risk and resilience.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
CHDV 3720 - American Indian Families (also listed as CLS 3720)

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examines historical, social, political and cultural contexts influencing development of American Indian and Alaska Native children, families and communities, the role of the cultural inheritance material in managing psychosocial stress and in strengthening communities.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graded C or better in CHDV 3430, completion of GE Block A2 and A3
Needs Permission to Enroll: No
Special Fee Applied: No

GE UD D (cl) (re)

CHDV 3730 - Asian Americans, Families, and Community (also listed as AAAS 3730)

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: An overview of Asian and Asian American individual development in the context of family and community.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D
Needs Permission to Enroll: No
Special Fee Applied: No

GE UD D (cl) (re)

CHDV 3750 - Health Disparities in Urban Communities (also listed as CLS 3750, PH 3750)

(3)

This course is repeatable: No
**CHDV 3780 - Graduate School and Professional Development Training**

(3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: This course will focus on the exploration and preparation of skills needed to effectively apply, transition, and succeed in graduate school and professional careers in the field of Child and Family Studies. This course is meant promote professional preparation by applying concepts in this field, advancing communication skills, gaining exposure to professionals in the field, and building professional writing capacity. By the end of this course, students will learn effective ways to navigate various requirements in the graduate school and workforce application process such as personal statements, cover letters, resumes, funding strategies, etc. May be repeated twice for credit.

Hours per Week: 3 lecture hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE blocks A2 and A3, and CHDV 2000

Needs Permission to Enroll: No
Special Fee Applied: No

**CHDV 4120 - Issues in Child Abuse, Interpersonal Violence**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Overview of the legal, policy, health, social, psychological, educational and cultural issues associated with child abuse, family and interpersonal violence, including reporting responsibilities, assessment, intervention, current research and community resources.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Needs Permission to Enroll: No
Special Fee Applied: No
- **CHDV 4240 - Effects of Family Transitions on Children**
  
  (3)
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** Overview of family transitions (divorce, military deployment, immigration, relationship dissolution, or incarceration) that disrupt relationships and impact children across the lifecycle. Course examines loss, parental conflict, family relationships, attachment, support networks and family adjustments.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** (CHDV 1200 or SOC 1200) and CHDV 1400
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

- **CHDV 4260 - The Hospitalized Child**
  
  (5)
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 5  
  Max times this course can be taken for credit: 1

  **Course Description:** Psychosocial care of children/families in health care settings. Effects of medical environments on children/families with emphasis on strategies that enhance family coping.

  **Hours per Week:** 2 lecture hour(s), 9 activity hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** Graded C or better in CHDV 2000 or consent of the instructor  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

- **CHDV 4270 - Disability Across the Lifespan**
  
  (3)
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** Introduction to disability studies from an interdisciplinary perspective. Social, cultural and political contexts of disability with a family and development lifespan focus. Some sections of this course may be taught hybrid or online.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face, Hybrid, Online  
  **Campus:** Main Campus
• CHDV 4290 - Family Interactions and Communication

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Interactions and communication within families from a cultural and developmental framework. Influence of communication on family dynamics, relationships, and functioning across the family life course. Some sections may be taught hybrid or online.  
Hours per Week: 3 lecture hour(s).  

Grading: ABCDF  
Mode of Delivery: Face to Face, Hybrid, Online  
Campus: Main Campus  

• CHDV 4300 - Parent-Child Development Over the Family Life Cycle

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 0  

Course Description: Examines the interplay of personal and family developmental cycles and the developmental tasks of parents and children, key theories of parent-child development, and current social policies and programs serving parents.  
Hours per Week: 3 lecture hour(s).  

Grading: ABCDF  
Mode of Delivery: Face to Face, Hybrid, Online  
Campus: Main Campus  

Prerequisite(s): Graded C or better in CHDV 2000  
Needs Permission to Enroll: No  
Special Fee Applied: No

• CHDV 4360 - Family Stress and Resilience: Cultural Considerations

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Overview of family experiences in managing situational and environmental stress, with a focus on how family resiliency, cultural considerations and family risk and protective factors influence adaptation to stressful events. Some sections of this course may be
taught hybrid or online.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• CHDV 4440 - Family Life Education Methods and Professional Ethics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Principles, methods and professional ethics associated with family life education (planning, implementation, evaluation). Theoretical foundations of parent education programs, survey of parent education programs, dynamics of parent education groups. Some sections of this course may be taught hybrid or online.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): CHDV 2000
Needs Permission to Enroll: No
Special Fee Applied: No

• CHDV 4460 - Therapeutic Play and Play Therapy

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Overview of therapeutic play techniques for children and families in health care settings. Use of play therapy techniques as a method for communicating with children in agency- and school-based settings.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• CHDV 4540L - Special Topics in Child Development

This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

Course Description: Current topics of special interest to CHDV students as announced in The Schedule of Classes. May be repeated for 8 units of credit as subject matter changes.

Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Varies with topic.
Needs Permission to Enroll: No
Special Fee Applied: No

CHDV 4700 - The Family and the Law

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: General foundation in areas of family law, including child welfare, immigration, early care and education, civil litigation, and the impact of legal systems on children and families.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

CHDV 4800 - Loss and Grief Experiences in Families

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Overview of loss experiences that elicit grief and bereavement processes in families. Normative child/family development, attachment, loss and resiliency theories provide the foundation for exploration of issues.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No
• CHDV 4920 - Language Development (also listed as COMD 4560)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Language acquisition in typically developing children from infancy through late childhood, with a focus on the development of phonology (sounds), lexicon (words), syntax and morphology (sentences), and communicative competence (language use). Some sections of this course may be offered as hybrid or online.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): Graded C or better in CHDV 2000 or consent of the instructor
Needs Permission to Enroll: No
Special Fee Applied: No

• CHDV 4930 - Second Language Acquisition in Childhood

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Theory and empirical research on second language acquisition in children from birth to 5 years; simultaneous and sequential bilingualism; psychological, sociocultural, and linguistic factors related to second language development. May be offered as an online or hybrid course.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): Graded C or better in CHDV 4920 or consent of instructor, prerequisite waived for non-majors
Needs Permission to Enroll: No
Special Fee Applied: No

• CHDV 4950 - Directed Field Experience

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Supervised experience in preschool settings or early childhood program. May be repeated to 6 units.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Departmental approval
Needs Permission to Enroll: Yes, Department Consent
• **CHDV 4960 - Senior Seminar**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** An intensive seminar experience that examines major issues, themes, theories and research findings in child development. Principles and techniques of writing a critical literature review in Child Development. Restricted to Child Development majors or graduate students working on prerequisite requirements. Grade of C or better in this course satisfies the Graduation Writing Assessment Requirement.  
**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face, Hybrid, Online  
**Campus:** Main Campus

**Prerequisite(s):** GE Block A2 and A3, Completion of 90 units, graded C or better in (CHDV 3430 and CHDV 3500 and (CHDV 4920 or COMD 4560))  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

• **CHDV 4990 - Undergraduate Directed Study**

(1-3)

This course is repeatable: Yes  
Max # of units may be repeated: 7  
Total # of units allowed for credit: 8  
Max times this course can be taken for credit: 8

**Course Description:** Project selected in conference with sponsor before registration; progress meetings held regularly. May be repeated for 12 units of credit.  
**Hours per Week:** N/A lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** Instructor consent to act as sponsor.  
**Needs Permission to Enroll:** Yes, Instructor Consent  
**Special Fee Applied:** No
Max times this course can be taken for credit: 1

Course Description: The foundation of graduate study of the developing person. Theories of development in the major age periods; issues and methods in current research.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): None

Needs Permission to Enroll: No

Special Fee Applied: No

CHDV 5060 - Seminar in Social Development and Resiliency

(3)

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 3

Max times this course can be taken for credit: 1

Course Description: Study of social and emotional development including concepts of risk, protection, resilience and competence. Applications for interventions.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): None

Needs Permission to Enroll: No

Special Fee Applied: No

CHDV 5080 - Research Methods

(3)

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 3

Max times this course can be taken for credit: 1

Course Description: Methods of studying children and families, basic research designs, core issues in studying development, ethical issues and emerging methodologies.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): CHDV 5000 and (HHS 4000 or EDFN 3520)

Needs Permission to Enroll: No

Special Fee Applied: No

CHDV 5081 - Analytical Methods
• CHDV 5090 - Cognition and Language Development

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Survey of cognitive and language development: emphasizes origins of knowledge; development of sensory, motor, perceptual, attention processes; development of language(s) during early years; development of higher order cognition across late adolescence.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHDV 4920, CHDV 5000
Needs Permission to Enroll: No
Special Fee Applied: No

• CHDV 5100 - Special Topics in Child Development

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: In-depth study of selected topics related to current issues and research in child development.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHDV 5000
Needs Permission to Enroll: No
Special Fee Applied: No
• **CHDV 5950 - Graduate Field Work**

(1-3)

This course is repeatable: Yes  
Max # of units may be repeated: 3  
Total # of units allowed for credit: 4  
Max times this course can be taken for credit: 4

**Course Description:** Supervised individual field experience in child development settings; assignments on individual basis. May be repeated to maximum of 4 units.

**Hours per Week:** N/A lecture hour(s).

**Grading:** CR/NC  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** Completion of core courses and instructor consent to act as supervisor.

**Needs Permission to Enroll:** Yes, Instructor Consent  
**Special Fee Applied:** No

• **CHDV 5960 - Comprehensive Examination**

(0)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 0  
Max times this course can be taken for credit: 1

**Course Description:** See the Comprehensive Examination under the University Requirements for Master's Degree in this eCatalog.

**Hours per Week:** 0 lecture hour(s).

**Grading:** CR/NC  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** Advancement to Candidacy  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

• **CHDV 5980 - Graduate Directed Study**

(1-3)

This course is repeatable: Yes  
Max # of units may be repeated: 4  
Total # of units allowed for credit: 5  
Max times this course can be taken for credit: 5

**Course Description:** Independent directed study of advanced topics in the field of child development; regular conferences with instructor. May be repeated to maximum of 5 units.

**Hours per Week:** N/A lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** None
CHDV 5990 - Thesis
(1-5)
This course is repeatable: Yes
Max # of units may be repeated: 4
Total # of units allowed for credit: 5
Max times this course can be taken for credit: 5

Course Description: Independent research resulting in thesis. Must be repeated to maximum of 5 units.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy.
Needs Permission to Enroll: No
Special Fee Applied: No

---

CHDV 5995 - Project
(1-5)
This course is repeatable: Yes
Max # of units may be repeated: 4
Total # of units allowed for credit: 5
Max times this course can be taken for credit: 5

Course Description: Independent research resulting in a project. Must be repeated to a maximum of 5 units.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No

CHIN 1001 - Elementary Mandarin I
(4)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Methodical presentation of the fundamental structure of the language through hearing, speaking, reading, and writing Mandarin. Introduction to the customs, culture, and institutions of the Chinese people.

Hours per Week: 4 lecture hour(s).
CHIN 1002 - Elementary Mandarin II

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Methodical presentation of the fundamental structure of the language through hearing, speaking, reading, and writing Mandarin. Introduction to the customs, culture, and institutions of the Chinese people.

Hours per Week: 4 lecture hour(s).

CHIN 2001 - Intermediate Mandarin

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Methodical development of intermediate communicative skills in Mandarin; grammar review; vocabulary building; study of the customs, culture, and institutions of the Chinese people.

Hours per Week: 4 lecture hour(s).

CHIN 2002 - Intermediate Mandarin 2

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1
**CHIN 3001 - Advanced Chinese I**

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Must be taken in sequence. Practice in oral and written Mandarin. Emphasis on fluency, correct expression in writing, and vocabulary expansion through reading contemporary literature.  
Hours per Week: 3 lecture hour(s).  
Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus  
Prerequisite(s): CHIN 2002 or demonstrated equivalent language competency, ML 1010  
Needs Permission to Enroll: No  
Special Fee Applied: No  

**CHIN 3050 - Introduction To Chinese Linguistics**

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Basic concepts of linguistics as applied to Chinese language. Includes Chinese phonetics, phonology, morphology, syntax, semantics, and pragmatics.  
Hours per Week: 3 lecture hour(s).  
Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus  
Prerequisite(s): CHIN 3001  
Needs Permission to Enroll: No  
Special Fee Applied: No
• CHIN 3095 - Chinese In Community Service

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 4

Course Description: Participation in work of a community agency or program utilizing communication skills in Chinese. May be repeated once to a maximum of 4 units.
Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHIN 3001, approval of department faculty adviser in consultation with the Department Chair, acceptance by community agency.
Needs Permission to Enroll: No
Special Fee Applied: No

• CHIN 3100 - Chinese Civilization

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Major cultural and social trends of China from beginning to present.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHIN 2002
Needs Permission to Enroll: No
Special Fee Applied: No

• CHIN 3150 - Language In Chinese Society

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Study of how Chinese language functions in contemporary society. Politemess, genderlects, slang, taboos, loan words, personal naming, and cross-dialectal influence and misunderstanding.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHIN 2002
• CHIN 3220 - Newspaper Chinese

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Extensive reading in leading Chinese newspapers and magazines from People’s Republic of China, Republic of China (Taiwan), Hong Kong, etc. Emphasis on abbreviated phrases used in contemporary newspapers and magazines.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHIN 3001

Needs Permission to Enroll: No
Special Fee Applied: No
Chinese (Undergraduate)

- **CHIN 3250 - Teaching Chinese as a Second Language**

  
  (3)

  **This course is repeatable:** No  
  **Max # of units may be repeated:** 0  
  **Total # of units allowed for credit:** 3  
  **Max times this course can be taken for credit:** 1

  **Course Description:** This course introduces key issues that center around teaching and learning Chinese as a foreign language, including theories of first language (L1) and second language (L2) acquisition, language pedagogy, and curriculum design. It aims to train students to work as instructors of Chinese as a foreign/second language.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** CHIN 3050 or instructor's consent  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No
1. **CHIN 3800 - Business Chinese**

   (3)

   This course is repeatable: No  
   Max # of units may be repeated: 0  
   Total # of units allowed for credit: 3  
   Max times this course can be taken for credit: 1  

   **Course Description:** Intensive study of Mandarin Chinese used in business; theory and practice of fundamentals of commercial correspondence and negotiations in Chinese.  
   **Hours per Week:** 3 lecture hour(s).  

   **Grading:** ABCDF  
   **Mode of Delivery:** Face to Face  
   **Campus:** Main Campus  

   **Prerequisite(s):** CHIN 2002  
   **Needs Permission to Enroll:** No  
   **Special Fee Applied:** No

2. **CHIN 4010 - Introduction To Wenyan: Classical Chinese Language**

   (3)

   This course is repeatable: No  
   Max # of units may be repeated: 0  
   Total # of units allowed for credit: 3  
   Max times this course can be taken for credit: 1  

   **Course Description:** An introduction to classical Chinese language through selections from great classics such as Dao De Jing, Zhuang Zi, Lunyu, and Shiji.  
   **Hours per Week:** 3 lecture hour(s).  

   **Grading:** ABCDF  
   **Mode of Delivery:** Face to Face  
   **Campus:** Main Campus  

   **Prerequisite(s):** CHIN 3001  
   **Needs Permission to Enroll:** No  
   **Special Fee Applied:** No

3. **CHIN 4030 - Contrastive Analysis Of Chinese And English Structures**

   (3)

   This course is repeatable: No  
   Max # of units may be repeated: 0  
   Total # of units allowed for credit: 3  
   Max times this course can be taken for credit: 1  

   **Course Description:** Contrastive analysis of structures of Chinese and English describing similarities and differences of each, emphasis on studying structures that cause interference in language learning.  
   **Hours per Week:** 3 lecture hour(s).  

   **Grading:** ABCDF  
   **Mode of Delivery:** Face to Face  
   **Campus:** Main Campus  

   **Prerequisite(s):** CHIN 3001, ENGL 4101  
   **Needs Permission to Enroll:** No
• CHIN 4080 - Chinese Literature 1

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Chinese literature from the beginnings to the 13th century.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHIN 3001
Needs Permission to Enroll: No
Special Fee Applied: No

• CHIN 4100 - Chinese Literature 2

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Chinese literature from the 13th century to the present.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHIN 3001
Needs Permission to Enroll: No
Special Fee Applied: No

• CHIN 4260 - Chinese Film

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Study of the history of Chinese film, cinematic theories, and the style and art of major directors. Analysis of film adaptation of literary texts. Conducted in English.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
• CHIN 4280 - Chinese Women’s Literature

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Study of works by Chinese women writers from the classical period to the present.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHIN 3001
Needs Permission to Enroll: No
Special Fee Applied: No

• CHIN 4510 - Proseminar: Chinese Linguistics

(3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: In-depth study of selected topics in Chinese linguistics. May be repeated to a maximum of 8 units as subject matter changes.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHIN 3001, CHIN 3050, ENGL 4101
Needs Permission to Enroll: No
Special Fee Applied: No

• CHIN 4520 - Proseminar: Yuan Ming Drama

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: In-depth study of the Golden Age of Chinese Drama during the Yuan and the Ming Dynasties; political, cultural, and aesthetic values; and their influence on subsequent literary history and world culture.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
CHIN 4540 - Special Topics In Chinese
(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 4
Total # of units allowed for credit: 5
Max times this course can be taken for credit: 5

Course Description: Current topics of special interest to students in Chinese as announced in Schedule of Classes. May be repeated for credit to maximum of 5 units.
Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

CHIN 4541 - Special Topics In Chinese
(1-4)

This course is repeatable: Yes
Max # of units may be repeated: 4
Total # of units allowed for credit: 5
Max times this course can be taken for credit: 5

Course Description: Current topics of special interest to students in Chinese as announced in Schedule of Classes. May be repeated for credit to maximum of 5 units.
Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

CHIN 4600 - Proseminar: Masters Of Chinese Culture And Thought
(3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2
**Course Description:** Study of major figures in Chinese intellectual history. May be repeated to a maximum of 6 units as subject matter changes.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** CHIN 3001

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**CHIN 4990 - Undergraduate Directed Study**

(1-3)

**This course is repeatable:** Yes

**Max # of units may be repeated:** 5

**Total # of units allowed for credit:** 6

**Max times this course can be taken for credit:** 6

**Course Description:** Project selected in conference with instructor before registration; progress meetings held regularly and culminating in written reports. May be repeated to a maximum of 6 units for credit.

**Hours per Week:** N/A lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** Instructor consent.

**Needs Permission to Enroll:** Yes, Instructor Consent

**Special Fee Applied:** No

---

Civil Engineering (Undergraduate)

**CE 1540 - Special Topic in Civil Engineering**

(1-3)

**This course is repeatable:** Yes

**Max # of units may be repeated:** 7

**Total # of units allowed for credit:** 8

**Max times this course can be taken for credit:** 8

**Course Description:** Current topics of special interest to students in engineering, as announced in the Schedule of Classes. May be repeated to a maximum of 8 units for credit.

**Hours per Week:** 1 lecture hour(s).

**Grading:** CR/NC

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** Instructor consent and as needed for specific topic.

**Needs Permission to Enroll:** Yes, Instructor Consent

**Special Fee Applied:** No

---

**CE 1950 - Introduction to Civil Engineering Design**
CE 2010 - Statics (also listed as ME 2010)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Fundamental principles of statics, resolution and composition of forces, algebraic and graphic solutions, friction, center of gravity, moment of inertia.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2120, PHYS 2100 both graded C or better
Needs Permission to Enroll: No
Special Fee Applied: No

Articulation C-ID: ENGR 130
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding "C-ID Course" designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

CE 2020 - Plane Surveying

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Principles and practices of measurement of distances, directions, and elevations; care and use of level, transit, plane table; mapping practice, and symbols.
Hours per Week: 6 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): MATH 1040 or (MATH 1081 and MATH 1083) or (MATH 1082 and MATH 1083) or MATH 2110

Needs Permission to Enroll: No
Special Fee Applied: No

Articulation C-ID: ENGR 180
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

CE 2050 - Strength of Materials I (also listed as ME 2050)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Stresses and strains under axial, shearing, and torsional forces; flexural stresses and deflections of simple beams; columns; and combined stresses.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CE 2010 or ME 2010, graded C or better
Needs Permission to Enroll: No
Special Fee Applied: No

Articulation C-ID: ENGR 240
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

CE 2120 - Matrix Algebra and Statistics for Engineers

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to calculations using vectors; matrix operation; solution of linear simultaneous equations; coordinate transformation; probability distributions and densities; concepts in statistics; application to engineering problems.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2120 graded C or better
Needs Permission to Enroll: No
Special Fee Applied: No

Articulation C-ID: ENGR 240
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

CE 2200 - Coastal Zone Environment

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to calculations using vectors; matrix operation; solution of linear simultaneous equations; coordinate transformation; probability distributions and densities; concepts in statistics; application to engineering problems.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2120 graded C or better
Needs Permission to Enroll: No
Special Fee Applied: No

Articulation C-ID: ENGR 240
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Introduction to the engineering properties and processes of the oceans and their coasts. Explanation of the purpose and design of structures built within the coastal zone and the management of the coastal environment. Human interactions with the ocean such as assessing needs and selection of coastal structures to assist with the management of the coast: Beach access laws fishing and waste disposal. A Field trip to observe coastal processes and coastal structures that permit habitation of the coastal zone and an experiment that utilizes the fluid laboratory to measure and predict impacts of the coastal structures. Not intended for Engineering majors.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE B1

- CE 2800 - Numerical Methods for Engineers I (also listed as ME 2800)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: This course focuses on equipping students with the basic computing skills students will need throughout their engineering disciplines. The emphasis is on translating open-ended problems into algorithm development and implementation to solve basic numerical problems. Topics include introduction to basic engineering problems and their conceptualization through mathematical models, and introduction to algorithm development and implementation into a computer program. Laboratory 3 hours.

Hours per Week: 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CE 2120 or MATH 2550
Needs Permission to Enroll: No
Special Fee Applied: No

Articulation C-ID: ENGR 220
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

- CE 2840 - Environmental Engineering I

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: This course provides an overview of natural environmental systems and processes with special emphasis placed on the interactions among environmental systems (e.g., air, water, and soil) and between humans and technology and the environment. Topics include occurrence and movement of surface water and groundwater, water and sewage treatment, air pollution, climate change, modeling, hazardous and solid waste management, green engineering, and nutrient and contaminant cycling. Laboratory 3 hours.

- **CE 3000 - Economics for Engineers (also listed as EE 3000, ME 3000)**

  (3)

  This course is repeatable: No
  
  Max # of units may be repeated: 0
  
  Total # of units allowed for credit: 3
  
  Max times this course can be taken for credit: 1

  Course Description: Basic economic concepts and principles, costs and benefits analysis, alternative designs, economic viability of engineering solutions in broader context.

  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  
  Mode of Delivery: Face to Face
  
  Campus: Main Campus

  Prerequisite(s): Junior or Senior standing in Engineering
  
  Needs Permission to Enroll: No
  
  Special Fee Applied: No

  GE D* - restricted to specific major

- **CE 3030 - Fluid Mechanics I (also listed as ME 3030)**

  (3)

  This course is repeatable: No
  
  Max # of units may be repeated: 0
  
  Total # of units allowed for credit: 3
  
  Max times this course can be taken for credit: 1

  Course Description: Fundamental principles and methods of fluid mechanics; thermodynamics of fluid flow; Newtonian fluids; equations of fluid flow; laminar and turbulent flow; applications. Lecture 3 hours.

  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  
  Mode of Delivery: Face to Face
  
  Campus: Main Campus

  Prerequisite(s): PHYS 2100, (CE 2010 or ME 2010) both graded C or better
  
  Needs Permission to Enroll: No
  
  Special Fee Applied: No

- **CE 3060 - Communication for Civil Engineers**

  (2)

  This course is repeatable: No
  
  Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Exposure to key communication skills encountered in civil engineering practice. Integration of oral and written communication skills centered around a civil engineering design project. Individual and team assignments. Lecture 1 hour, laboratory 3 hours, WI. Must attain a C or better to meet the University's GWAR.

Hours per Week: 1 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D, ENGL 2030
Needs Permission to Enroll: No
Special Fee Applied: No

GE UD C* (ci) (wi) GWAR -^ restricted to specific major

CE 3120 - Strength of Materials Laboratory I (also listed as ME 3120)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Tests of engineering materials in tension, compression, bending, and torsion; verification by experiment; basic theories learned in strength of materials. Laboratory 3 hours.

Hours per Week: 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CE 2050 or ME 2050
Needs Permission to Enroll: No
Special Fee Applied: No

CE 3140 - Hydraulics Laboratory I

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Experiments on fluid properties, fluid statics, conservation of mass, energy, and momentum, pressure flow, open channel hydraulics, and fluid resistance. Laboratory 3 hours.

Hours per Week: 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): (CE 3030 or ME 3030), PHYS 2200
Needs Permission to Enroll: No
Special Fee Applied: No

.
CE 3200 - Dynamics for Civil Engineers

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Plane kinematics and kinetics of particles and rigid bodies; Newton's second law, work-energy and impulse-momentum methods; mass flow; structural vibrations. Lecture 2 hours

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): (CE 2010 or ME 2010) graded C or better, MATH 2150, PHYS 2200

Needs Permission to Enroll: No
Special Fee Applied: No

CE 3520 - Technological Aspects of Urban Environment

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Current engineering practice in dealing with urban problems such as financial, transportation, pollution, communications, public utilities, land use planning and public health. Not acceptable for engineering technical elective credit.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.

Needs Permission to Enroll: No
Special Fee Applied: No

GE UD B

CE 3580 - Environment, Earth Systems and Technology

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Consider the role of technology in the changing relationships between human societies and their environment; studies the impact of the agricultural, industrial and information revolutions on natural systems and sustainability.

Hours per Week: 3 lecture hour(s).
CE 3600 - Structural Mechanics I

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis of determinate structures: beams, frames, and cables. Introduction to influence lines and analysis of indeterminate structures.

Hours per Week: 3 lecture hour(s).

CE 3610 - Introduction to Structural Design

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Loads on buildings and load distribution in framed structures, codes and specifications, design of simple beams, columns and tension members made from steel and concrete.

Hours per Week: 3 lecture hour(s).

CE 3650 - Fundamentals of Construction Management

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Introduction to the principles of project management in the context of the construction industry.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Junior standing in engineering
Needs Permission to Enroll: No
Special Fee Applied: No

CE 3660 - Geotechnical Engineering I

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Physical and mechanical properties of soils, classifications, permeability, seepage, compaction, effective stress, stress distribution, consolidation, settlement, Mohr’s Circles, shear strength, and testing methods.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): (CE 2050 or ME 2050) graded C or better Pre/Co-requisite(s): CE 3030 or ME 3030
Needs Permission to Enroll: No
Special Fee Applied: No

CE 3680 - Geotechnical Engineering Laboratory

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Determination of index and strength properties of soils. Tests include: sieve and hydrometer analysis, permeability, compaction, sand cone, unconfined compression, consolidation, and direct shear. Laboratory 3 hours.
Hours per Week: 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CE 3660, CE 3120
Needs Permission to Enroll: No
Special Fee Applied: No

CE 3700 - Transportation Engineering

(3)

This course is repeatable: No
CE 3720 - Asphaltic Materials Laboratory

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Laboratory tests on asphalt cement and aggregates; design of asphaltic mixtures; proportioning of asphalt cement and aggregates; preparation of test specimens. Laboratory 3 hours.

Hours per Week: 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CE 3120 or ME 3120
Needs Permission to Enroll: No
Special Fee Applied: No

CE 3740 - Civil Engineering Materials

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to structure, properties, and testing of civil engineering materials such as steel, cement, concrete, asphalt, aggregates, soil, wood and polymers. Lecture 2 hours; laboratory 3 hours.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHEM 1040, (CE 3120 or ME 3120), CE 3610, CE 3660
Needs Permission to Enroll: No
Special Fee Applied: No

GE UD B* - restricted to specific major
CE 3800 - Numerical Methods for Engineers II (also listed as ME 3800)

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Applied numerical methods for engineers with computer applications. Laboratory 6 hours.

Hours per Week: 6 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): (CE 2800 or ME 2800) graded C or better, MATH 2150
Needs Permission to Enroll: No
Special Fee Applied: No

CE 3810 - Computer Aided Design Laboratory

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Use of computer-aided visualization, comprehension and graphical representation in planning and design of civil engineering projects.

Hours per Week: 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): (CE 3030 or ME 3030), CE 3610, CE 3700
Needs Permission to Enroll: No
Special Fee Applied: No

CE 3820 - Computer Aided Structural Analysis, Design and Experimentation Laboratory

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Computer aided structural analysis and design using structural simulation software as encountered in practice. Computer aided structural experimentation and comparison of experimental results with structural analysis software. Laboratory 3 hours.

Hours per Week: 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): (CE 3120 or ME 3120), CE 3610
Needs Permission to Enroll: No
Special Fee Applied: No
• **CE 3840 - Environmental Engineering II**

(2)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 2  
Max times this course can be taken for credit: 1

**Course Description:** This course is the second in the required core Environmental Engineering series. Discussion on natural environmental systems will continue, with special emphasis on the role and sustainability of engineered systems (i.e. water/wastewater treatment plants, landfills, remediation technologies, etc.). Greater focus on the fundamentals of the fate and transport of contaminants and nutrients in air, surface waters, groundwater, and soils.  
**Hours per Week:** 1 lecture hour(s), 3 laboratory hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** CE 2840  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

GE B3* - restricted to specific major

• **CE 3860 - Water Resources Engineering**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Water supply, hydraulic machinery, open channel flow, introduction to surface and groundwater hydrology.  
**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** CE 3030 or ME 3030  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

• **CE 3980 - Cooperative Education**

(1)

This course is repeatable: Yes  
Max # of units may be repeated: 7  
Total # of units allowed for credit: 8  
Max times this course can be taken for credit: 8

**Course Description:** Integration of civil engineering work experience with the academic program, individually planned through a coordinator. Minimum of 6 hours per week required for each unit.  
**Hours per Week:** N/A lecture hour(s).

**Grading:** CR/NC  
**Mode of Delivery:** Face to Face
- **CE 4020 - Strength of Materials II**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** Stress-strain relationship in three dimensions, energy principles; theories of failure, curved beams, thick wall cylinders, shear center, unsymmetrical bending, and torsion in noncircular sections.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  Prerequisite(s): (CE 2050 or ME 2050), MATH 2150

  Needs Permission to Enroll: No  
  Special Fee Applied: No

- **CE 4140 - Hydraulics Laboratory II**

  (1)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 1  
  Max times this course can be taken for credit: 1

  **Course Description:** Experiments on pressure flow, free surface flow, pumps, turbines, and unsteady flow. Laboratory 3 hours.

  **Hours per Week:** 3 laboratory hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  Prerequisite(s): CE 3140, Pre/Co-requisite(s): CE 3860

  Needs Permission to Enroll: No  
  Special Fee Applied: No

- **CE 4540 - Special Topics in Civil Engineering**

  (1-3)

  This course is repeatable: Yes  
  Max # of units may be repeated: 3  
  Total # of units allowed for credit: 4  
  Max times this course can be taken for credit: 4

  **Course Description:** Group study of selected topics not currently offered as technical electives; study groups may be organized in advanced civil engineering subjects upon approval of instructor.

  **Hours per Week:** 1 lecture hour(s).
CE 4540L - Special Topics in Civil Engineering
(1)
This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 4

Course Description: Group study of selected topics not currently offered as technical electives; study groups may be organized in advanced civil engineering subjects upon approval of instructor. Tests include physical tests of cement, aggregates and other agents, mix design; workability and strength tests. Concrete canoe design and construction.
Hours per Week: 3 laboratory hour(s).

CE 4560 - Construction Project Planning, Scheduling, and Control
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Studying the concepts and principles used in planning, scheduling and controlling construction projects, and using computer-based project planning and scheduling software to create, control, and improve project schedule.
Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

CE 4570 - Construction Cost Estimation & Financial Management
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

**Course Description:** Design of the construction process; Quantity surveying and cost estimation; cash flow analysis and financial management; value engineering; Design of needed temporary structures; Application of software to manage the cost aspect of construction projects.
**Hours per Week:** 2 lecture hour(s), 3 laboratory hour(s).

**Grading:** ABCDF
**Mode of Delivery:** Face to Face
**Campus:** Main Campus

**Prerequisite(s):** CE 3650  
**Recommended:** CE 3000 or ME 3000
**Needs Permission to Enroll:** No
**Special Fee Applied:** No

---

### CE 4600 - Structural Mechanics II

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Analysis of indeterminate structures; moment distribution, slope deflection, and approximation methods; three dimensional frames and long span structures.
**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF
**Mode of Delivery:** Face to Face
**Campus:** Main Campus

**Prerequisite(s):** CE 3600
**Needs Permission to Enroll:** No
**Special Fee Applied:** No

---

### CE 4610 - Design of Steel Structures

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Design of steel structures; lateral buckling of beams and frames, built-up beams, girders and trusses; moment connections, torsion and unsymmetrical bending; diaphragms and lateral force designs.
**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF
**Mode of Delivery:** Face to Face
**Campus:** Main Campus

**Prerequisite(s):** CE 3600, CE 3610
**Needs Permission to Enroll:** No
**Special Fee Applied:** No
CE 4620 - Reinforced Concrete Design I

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Strength design of reinforced concrete structures, beams, slabs, frames, columns, footings, and retaining walls.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CE 3600, CE 3610
Needs Permission to Enroll: No
Special Fee Applied: No

CE 4630 - Timber and Masonry Design

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Wood properties and design of wood structural elements, plywood and glulam products; reinforced masonry (brick and concrete) units, material properties, design of reinforced masonry structural elements.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CE 3600, CE 3610
Needs Permission to Enroll: No
Special Fee Applied: No

CE 4650 - Seismic Design

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Earthquake and ground motion characteristics, structural response to support motions, lateral force resisting systems, determination of seismic forces, design of buildings for lateral loads.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CE 3610
Needs Permission to Enroll: No
Special Fee Applied: No
CE 4670 - Geotechnical Engineering Design I

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Site investigation and subsurface exploration, geotechnical design of shallow and deep foundations, earth retaining structures, and slope stability.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CE 3660
Needs Permission to Enroll: No
Special Fee Applied: No

---

CE 4710 - Highway Engineering

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to principles of highway design including route location, geometric of horizontal and vertical curves, earthwork computations, drainage designs, computer applications.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CE 3700, CE 2020
Needs Permission to Enroll: No
Special Fee Applied: No

---

CE 4720 - Highway and Airport Pavement Design

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Theory and principles of pavement design for highways and airports; effects of soil characteristics and physical properties of basic materials.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): CE 3680, CE 3700
Needs Permission to Enroll: No
Special Fee Applied: No

• CE 4730 - Pavement Design Laboratory
  (1)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 1
  Max times this course can be taken for credit: 1
  
  Course Description: Basic tests performed in evaluation of treated and untreated bases, subbases, and subgrades necessary for pavement thickness design. Laboratory 3 hours.
  Hours per Week: 3 laboratory hour(s).
  
  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus
  
  Prerequisite(s): CE 3120 or ME 3120
  Needs Permission to Enroll: No
  Special Fee Applied: No

• CE 4740 - Traffic Engineering
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  
  Course Description: Elements of traffic engineering; vehicle, driver, and road characteristics; capacity and flow determination; signalized intersections; parking and accident studies; street, freeway, and mass transit operations.
  Hours per Week: 3 lecture hour(s).
  
  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus
  
  Prerequisite(s): CE 3700
  Needs Permission to Enroll: No
  Special Fee Applied: No

• CE 4750 - Advanced Geomatics
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  
  Course Description: Advanced geomatics, including triangulation, global positioning system (GPS), design and field layout of a spiraled horizontal curve including a vertical curve, and earthwork determination. Lecture 1 hours, laboratory 6 hours.
  Hours per Week: 1 lecture hour(s). 6 laboratory hour(s).
• CE 4790 - Groundwater Contamination and Remediation
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  Course Description: Study of the fate of contaminants in the subsurface environment. Focus is on the transport of chemicals through porous media including possible transformations (chemical, physical, and biological). Lecture 3 hours Laboratory 3 hours.
  Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

• CE 4800 - Environmental Modeling
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  Course Description: This course introduces basic tools and processes used to model complex environmental systems. The emphasis is on physical, chemical, and biological processes used in the development of environmental models. Topics include the development of mass-balance-based numerical models, capturing, storing, analyzing, and displaying geographically referenced data, application of environmental models to evaluate pollutant fate and transport in air and water, and model evaluation.
  Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

• CE 4830 - Hydrology I
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Precipitation, evaporation, infiltration, transpiration, and runoff; methods of predicting discharge from precipitation, flood routing, and measurement of hydrologic processes.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CE 3030 or ME 3030
Needs Permission to Enroll: No
Special Fee Applied: No

CE 4840 - Environmental Engineering Design

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course focuses on the analysis and design of environmental systems including water and wastewater treatment plants, treatment lagoons, air pollution prevention equipment, industrial waste treatment facilities, groundwater remediation, and other pertinent engineered systems. Lecture 3 hours, Laboratory 3 hours.
Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CE 3840
Needs Permission to Enroll: No
Special Fee Applied: No

CE 4870 - Hydraulics I

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Application of fluid mechanics to hydraulic engineering. Principles of open channel flow, channel design, hydraulic modeling, and introduction to unsteady flow. (Lecture 2 hours, laboratory 3 hours).
Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CE 3030 or ME 3030
Needs Permission to Enroll: No
Special Fee Applied: No
CE 4960 - Civil Engineering Design Project I

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Design of a civil engineering project requiring integration of acquired knowledge. Alternative analysis that incorporates both technical and non-technical constraints. Understand engineering solutions and professions in a broader context. Individual and group work required. A preliminary report and oral presentation required. Lab 6 hours. CE 4960 and CE 4970 must be taken in consecutive semesters to meet UD (wi) and (cl) requirements.

Hours per Week: 6 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ENGR 3010, CE 3610, CE 3660, CE 3700, CE 3800, CE 3840, CE 3860, (CE 3000 or ME 3000 or EE 3000)
Needs Permission to Enroll: No
Special Fee Applied: No

(cl) (wi) GWAR

---

CE 4970 - Civil Engineering Design Project II

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Continuation of design project initiated in CE 4960. Complete analysis and design of system including application of constraints. Preparation of final design report, including: memoranda, computations, drawings, cost estimates, etc. Individual and group work required. Develop a broader understanding of engineering solutions as well as professional ethics. Final written and oral report is required.

Lecture 1 hour, Laboratory 3 hours. CE 4960 and CE 4970 must be taken in consecutive semesters.

Hours per Week: 1 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CE 4960
Needs Permission to Enroll: No
Special Fee Applied: No

GE UD D* (cl) (wi) * restricted to specific major

---

CE 4990 - Undergraduate Directed Study

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

Course Description: Project selected in conference with the sponsor before registration; progress meetings held regularly, and a final report submitted. May be repeated up to 8 units for credit.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Civil Engineering (Graduate)

- **CE 5500 - Civil Engineering Graduate Seminar**  
  (1)  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 1  
  Max times this course can be taken for credit: 1  
  
  **Course Description:** Presentation and discussion of selected topics relating to civil engineering practice and research presented by invited speakers.  
  **Hours per Week:** 0 lecture hour(s).  
  **Grading:** CR/NC  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus  
  
  Needs Permission to Enroll: No, Department Consent  
  Special Fee Applied: No

- **CE 5540 - Advanced Topics in Civil Engineering**  
  (1-3)  
  This course is repeatable: Yes  
  Max # of units may be repeated: 4  
  Total # of units allowed for credit: 5  
  Max times this course can be taken for credit: 5  
  
  **Course Description:** Advanced topics in Civil Engineering. May be repeated to a maximum of 5 units as subject matter changes.  
  **Hours per Week:** 1 lecture hour(s).  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus  
  
  Prerequisite(s): Departmental approval  
  Needs Permission to Enroll: Yes, Department Consent  
  Special Fee Applied: No

- **CE 5550 - Reinforced Concrete Design with FRP Reinforcement**  
  (3)  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1
Course Description: Lectures will address the design of new, and rehabilitation and strengthening of existing reinforced concrete structures. The design, and design review will be conducted during the laboratory section of the course. Lecture 3 hours, Laboratory 3 hours.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CE 4620
Needs Permission to Enroll: No
Special Fee Applied: No

CE 5560 - Construction Legal Aspects and Risk Management

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: An overview of how the legal system affects the design and construction process, focusing on contract types, contractual relationships in different delivery systems, and risk assessment, management, and mitigation processes.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

CE 5570 - BIM and Advanced Technologies in Construction

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Overview of advanced technologies in construction with a focus on Building Information Modeling (BIM) in the building design and construction processes, using modern software. 2 hours lecture and 3 hours lab per week.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None.

Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

CE 5600 - Structural Mechanics III
CE 5610 - Advanced Steel Design

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Emphasis on LRFD method, Unsymmetrical bending and torsion of beams, composite beams, nonprismatic beams, plate girders, beam-columns, frames and connections.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

CE 5620 - Reinforced Concrete Design II

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

CE 5640 - Finite Element Method in Structural Analysis
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Finite element method for structures: truss, frame, 2D plane, and shell elements; isoparametric formulation; static and dynamic analysis.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

CE 5650 - Dynamics of Structures

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Free vibrations, forced vibrations and transient response of structures and structural components having one and many degrees of freedom; damping and inelastic action, earthquakes and nuclear blasts; dynamic resistance of structures; limit design; design for dynamic loads.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

CE 5660 - Geotechnical Engineering II

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Advanced in-situ and laboratory test methods, shear strength of cohesionless and cohesive soils, slope stability and remediation methods.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No
• CE 5670 - Geotechnical Engineering Design II

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Subsurface exploration methods, advanced topics in shallow and deep foundations, dynamic analysis of piles, group capacity and lateral pile loading, NDT of pile foundations, earth retaining structures and tiebacks.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

• CE 5690 - Earth Structures

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Factors influencing design, explorations for foundations and construction processes, compactions, stability analysis, seepage control, earth dams.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CE 4670
Needs Permission to Enroll: No
Special Fee Applied: No

• CE 5700 - Geotechnical Earthquake Engineering

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Basic seismology, seismic ground motions, deterministic and probabilistic seismic hazard analysis, dynamic soil properties, site response analysis, liquefaction and lateral spread, seismic slope stability, seismic design of earth retaining structures.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No
CE 5710 - Highway Design

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Practical application of American Association of State Highway and Transportation Officials (AASHTO) policy on design controls; capacity analysis for uninterrupted flow, weaving section and ramps; functional design procedures in development of an interchange.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

CE 5720 - Plates and Shells

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Equations of bending of thin elastic plates, energy method; approximate and numerical methods; theory of shells with application to tanks, roofs, and pressure vessels.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CE 4020, CE 4600
Needs Permission to Enroll: No
Special Fee Applied: No

CE 5740 - Traffic Flow Analysis

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Measurements and analysis of traffic flow characteristics: speed, density, flow, headway; statistical data analysis, time-space diagrams, traffic flow models, queuing theory, shock wave analysis, traffic models applications.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

- **CE 5750 - Urban Transportation Planning**
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** Travel forecasting, data requirements, collection methods, trip generation and distribution models; modal split analysis, trip assignment, plan alternatives, and evaluation methodology.
  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face
  **Campus:** Main Campus

  Needs Permission to Enroll: Yes, Department Consent
  Special Fee Applied: No

- **CE 5770 - Bridge Engineering**
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** Design of steel, concrete, and timber bridges, piers, and abutments; American Association of State Highway and Transportation Officials (AASHTO) specifications; criteria for earthquake resistant design of bridges; geometry, safety economics, and aesthetics.
  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face
  **Campus:** Main Campus

  Needs Permission to Enroll: Yes, Department Consent
  Special Fee Applied: No

- **CE 5790 - Environmental Mass Transfer**
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** Study the fate of contaminants in the environment. Emphasis on the fundamentals of mass transfer including: sorption/desorption, contaminant retardation, vaporization and dissolution of Nonaqueous Phase Liquids (NAPL), and other phenomena.
  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face
CE 5800 - Advanced Environmental Modeling
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Numerical methods are used in this course to solve complex environmental transport equations. The emphasis is on finite difference and finite element methods. Topics include derivation of mass-balance-based transport equations, algorithm development for models that range from simple steady-state homogeneous isotropic condition to complex transient heterogeneous anisotropic condition, and implementation into a computer program. Lecture 3 hours, Laboratory 3 hours.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

CE 5810 - Modeling Techniques in Hydraulic Engineering
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Dimensional analysis: similarity law and hydraulic, coastal, and estuarine models; mathematical models.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CE 3030 or ME 3030
Needs Permission to Enroll: No
Special Fee Applied: No

CE 5820 - Statistical Hydrology
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

CE 5830 - Hydrology II

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: In-depth study of surface water hydrology, including discussion and interrelationship of major topics such as rainfall and evaporation, soils and infiltration properties, groundwater flow, runoff and snowmelt processes. Includes rainfall-runoff modeling, flood routing, and policy issues involved in water resource engineering and management.

CE 5850 - Environmental Transport

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Transport in water and air emphasizing exchanges across boundaries such as sediment-water and air-water; particles, droplets, and bubbles; effect of reactions on transport; linkages between physical, chemical, and biological processes.

CE 5860 - Open Channel Hydraulics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Gradually varied flow; rapidly varied flow; design of channels and transition structures; unsteady flow; Computer Modeling.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

CE 5870 - Hydraulics II

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Unsteady flow in pipes, wave motion, sediment transportation, and coastal engineering.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

CE 5880 - Hydraulic Structures

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Hydraulic structures for impounding, conveying, and controlling water; dam engineering; energy dissipation design on spillways and outlets; river engineering; numerical modeling of sediment transport and open channel flow.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CE 3870 or CE 3860
Needs Permission to Enroll: No
Special Fee Applied: No

CE 5890 - Coastal Engineering

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
CE 5960 - Comprehensive Examination

This course is repeatable: Yes
Max # of units may be repeated: 0
Total # of units allowed for credit: 0
Max times this course can be taken for credit: 2

Course Description: Students should take this 4-hour comprehensive examination during the semester in which they complete all coursework on their program, and must comply with college and department requirements. The exam may be attempted a maximum of two times.
Hours per Week: 0 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No
Course Descriptions

Notes:

- All 4000-level courses may be applied toward master’s degree requirements, subject to limits established by the department and approval of the graduate adviser.
- Classified graduate standing is required for enrollment in 5000-level courses; exception applies to students who are enrolled in a postbaccalaureate certificate or credential program.

Civil Engineering (Graduate)

* CE 5970 - Graduate Research
  
  (1-3)

  This course is repeatable: Yes
  Max # of units may be repeated: 2
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 3

  Course Description: Independent research under guidance of the faculty. May be repeated for credit to maximum of 3 units.
  Hours per Week: N/A lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): Advancement to Candidacy, instructor consent to act as sponsor, departmental approval of topic prior to registration. This course is restricted to those students choosing the Thesis Option.
  Needs Permission to Enroll: Yes, Instructor Consent
  Special Fee Applied: Yes
CE 5980 - Graduate Directed Study

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 4
Total # of units allowed for credit: 5
Max times this course can be taken for credit: 5

Course Description: Independent, directed study of advanced topics in the field, regular conferences with the sponsor. May be repeated up to 5 units for credit.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent to act as sponsor, departmental approval required. This course is restricted to the students choosing the Comprehensive Exam Option.

Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

CE 5990 - Thesis

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Independent research resulting in a thesis. Must be repeated to maximum of 3 units.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy. Instructor consent to act as a sponsor, college approval of the topic prior to registration.

Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

COMM 1100 - Oral Communication

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to effective oral communication through study and experience in analysis, synthesis, and presentation of informative and persuasive discourse in a public speaking forum.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus, DTLA Campus
COMM 1200 - Argumentation

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Principles of argumentation: methods of logical analysis to test reasoning and evidence. Practical application through adaptation of rhetorical speech and writing to audiences and situations.
Hours per Week: 3 lecture hour(s).

COMM 1510 - Speech Proficiency Assessment for Teachers

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Review of theory and practice of public speaking for classroom teachers. Workshop and assessment of speaking skills. Open only to students currently or previously enrolled in EDCI 300.
Hours per Week: 0.5 lecture hour(s). 1 activity hour(s).

COMM 1800 - Introduction to Human Communication
COMM 2100 - Communication Strategies in Conflict Management

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Overview of human communication across contexts. Introduction to Communication as a discipline; survey of areas and methods comprising the field. 
Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face, Hybrid, Online  
Campus: Main Campus, DTLA Campus

Needs Permission to Enroll: No  
Special Fee Applied: No

COMM 2200 - Argumentation and Reasoned Advocacy

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Principles of reasoned advocacy: practical application of argumentation through creation and adaptation of reasoned appeals to audience situations. 
Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Needs Permission to Enroll: No  
Special Fee Applied: No
COMM 2300 - Interpersonal Communication

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Introductory study of interpersonal communication; verbal and nonverbal communication in face-to-face interaction; how individuals assume roles as message senders, receivers; interpersonal perception and adaptation; barriers to interpersonal communication.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): None

Needs Permission to Enroll: No

Special Fee Applied: No

Articulation C-ID: COMM 130

This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

COMM 2400 - Problem Solving through Group Discussion

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Principles of decision-making and interaction in group communication situations, development of discussion, participation, and leadership skills for business, school, and community.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): None

Needs Permission to Enroll: No

Special Fee Applied: No

Articulation C-ID: COMM 140

This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

COMM 2500 - Communication, Identity and Culture

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course examines the interplay of influences between culture and communication on individual and group identity. This course focuses on developing intercultural communication skills and knowledge of identity.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE C2 (d)

• COMM 2600 - Forensics

This course is repeatable: Yes
Max # of units may be repeated: 9
Total # of units allowed for credit: 12
Max times this course can be taken for credit: 4

Course Description: Introductory tutorial in intercollegiate forensic activities. May be repeated to a maximum of 12 units. Only 6 units of COMM 2600 and COMM 3600 may be used in the Communication major.

Hours per Week: 9 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• COMM 2700 - Introduction to Oral Interpretation

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Study of communicative dimensions of literature through analysis and performance.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• COMM 2890 - Introduction to Intercultural Communication
This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Course examines theories of intercultural communication, investigates intercultural communication conflict, studies cultural diversity of communication, and seeks to develop an ethical approach to intercultural communication.  

Hours per Week: 3 lecture hour(s).  
Grading: ABCDF  
Mode of Delivery: Face to Face, Hybrid, Online  
Campus: Main Campus, DTLA Campus

Prerequisite(s): None  
Needs Permission to Enroll: No  
Special Fee Applied: No

COMM 2900 - Mediated Communication

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Introduction to mediated communication technologies, including internet, databases, and emerging technologies. Emphasis on critical, analytical assessment of technologies' effects on intercultural, public and interpersonal communication.  

Hours per Week: 3 lecture hour(s).  
Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): None  
Needs Permission to Enroll: No  
Special Fee Applied: No

COMM 3000 - Applied Writing in Communication

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Writing practicum in historical, critical, and empirical approaches to communication studies; emphasis in language usage in description, exposition, narration, persuasion, and research writing; techniques include observation, editing, and criticism. Grade of C or better in this course satisfies the Graduation Writing Assessment Requirement.  

Hours per Week: 3 lecture hour(s).  
Grading: ABCDF  
Mode of Delivery: Face to Face, Hybrid, Online  
Campus: Main Campus, DTLA Campus

Prerequisite(s): GE Block A2 and A3; for Communication Studies students only.  
Needs Permission to Enroll: No  
Special Fee Applied: No
• COMM 3100 - Theories of Communication: Social Sciences

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examination of theoretical perspectives, principles of theory building, and new developments in communication research, through a social scientific lens.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus, DTLA Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• COMM 3200 - Theories of Communication: Humanities

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Theories of communication from the ancient to contemporary era. Study of the nature, function and scope of rhetoric emphasized.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus, DTLA Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• COMM 3300 - Methods of Communication: Social Sciences

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to social science research methods used in the Communication discipline, including both quantitative and qualitative/interpretative approaches.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
COMM 3400 - Methods of Communication: Humanities

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Nature and function of humanities research methods; survey of approaches, theories, and systems of analysis from classical to contemporary. Practice in critical appraisal of various types of communication.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus, DTLA Campus

Prerequisite(s): COMM 3000
Needs Permission to Enroll: No
Special Fee Applied: No

COMM 3420 - Rights and Justice (also listed as POLS 3420)

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Freedom of communication, political rights, diversity and justice: The evolution of these rights in the United States; analysis of contemporary problems, global implications, and potential solutions in our multicultural world. Some sections of the course will be taught online.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Online
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
Needs Permission to Enroll: No
Special Fee Applied: No

GE UD C (d)

COMM 3500 - Interviewing

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Dyadic communication in formal and informal settings. Understanding of informative, persuasive, medical, journalistic, legal, and employment interviews.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

COMM 3600 - Advanced Forensics

(3)

This course is repeatable: Yes
Max # of units may be repeated: 6
Total # of units allowed for credit: 9
Max times this course can be taken for credit: 3

Course Description: Faculty supervised tutorial preparing for University-sponsored speech activities, including speech and debate tournaments. May be repeated maximum three times. Only 6 units of COMM 2600 and COMM 3600 may be used in the Communication major.

Hours per Week: 9 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): COMM 2600
Needs Permission to Enroll: No
Special Fee Applied: No

COMM 3670 - Performance Studies

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Performance as a paradigm for understanding text and behavior. Analysis and performance of literature, cultural performance, and performance art included with emphasis on in-class performance and fieldwork.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

COMM 3720 - Media, Communication and the Environment
COMM 3835 - Sex and Gender in Language and Literature (also listed as ENGL 3835)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis of concepts of sex, gender as experienced in language and literature. Comparative language behavior of women and men as revealed in research on communication and in representative literary works, both classical and modern.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
Needs Permission to Enroll: No
Special Fee Applied: No

GE UD C (d)
.

COMM 3840 - Globalization, Culture and Communication

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Critical examination of globalization and its multiple sociocultural dynamics and communication challenges for global citizens. Emphasis on globalizing institutions, transborder flows, international communication, social change, and cultural identities.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus, DTLA Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
Needs Permission to Enroll: No
• **COMM 3850 - Communication of Raced, Classed, and Gendered Identities**

(3)

**This course is repeatable:** No  
**Max # of units may be repeated:** 0  
**Total # of units allowed for credit:** 3  
**Max times this course can be taken for credit:** 1

**Course Description:** Exploration of the creation, maintenance, and communication of intersecting identities, including race, social class, gender, and sexuality. This course examines how dominant discourses impact identity in local and global contexts.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.

**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

**GE UD D (cl) (d) .**

• **COMM 3855 - Media Literacy in the 21st Century**

(3)

**This course is repeatable:** No  
**Max # of units may be repeated:** 0  
**Total # of units allowed for credit:** 3  
**Max times this course can be taken for credit:** 1

**Course Description:** History, analysis, and evaluation of technique, content, and effect of media messages. Social scientific perspectives addressing how audiences learn to comprehend media content including efforts to promote media literacy.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.

**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

**GE UD C (d) .**

• **COMM 3890 - Intercultural Communication in Civic Contexts**

(3)

**This course is repeatable:** No  
**Max # of units may be repeated:** 0  
**Total # of units allowed for credit:** 3  
**Max times this course can be taken for credit:** 1

**Course Description:** Inquiry into processes, and problems of intercultural communication in multicultural, multiethnic local/global civic contexts. Focus on how gender, race, ethnicity, and socioeconomic status intersect and impact intercultural interaction.

**Hours per Week:** 3 lecture hour(s).
COMM 3980 - Cooperative Education in Communication Studies
(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 6

Course Description: Integration of work experience with the academic program, individually planned through a coordinator. Minimum of 6 hours per week required for each unit. May be repeated to a maximum of 6 units; combined units of this course and UNIV 3990 may not exceed 12.

Hours per Week: N/A lecture hour(s).

COMM 4100 - Classical Approaches to Organizational Communication
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course will explore classical organizational communication history, theories, practices, and processes. The course also examines major challenges and conflicts in the development of the contemporary workplace. May include service learning option.

Hours per Week: 3 lecture hour(s).

COMM 4110 - Critical Approaches to Organizational Communication
(3)

This course is repeatable: No
Max # of units may be repeated: 0
**COMM 4120 - Business and Professional Communications**

(3)

- **Course Description**: This course is designed to help students understand and apply theories of communication in business contexts and situations. Topics include: dyadic, group, organizational, public, and mediated communication interactions, interviews, and presentations.
- **Hours per Week**: 3 lecture hour(s).
- **Grading**: ABCDF
- **Mode of Delivery**: Face to Face, Hybrid
- **Campus**: Main Campus, DTLA Campus
- **Prerequisite(s)**: None
- **Needs Permission to Enroll**: No
- **Special Fee Applied**: No

**COMM 4140 - Communication and Leadership**

(3)

- **Course Description**: Review theories of communication leadership. Emphasis on the study of communication skills central to performing successfully as a leader in a variety of organizational contexts.
- **Hours per Week**: 3 lecture hour(s).
- **Grading**: ABCDF
- **Mode of Delivery**: Face to Face, Hybrid, Online
- **Campus**: Main Campus, DTLA Campus

Special Fee Applied: No

• COMS 5760 - Seminar: Argumentation, Discussion, and Debate

(3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Analysis of significant literature, major trends, and theories of argumentation, discussion, and debate; intensive study of relationship of those areas to each other. May be repeated once for credit with adviser approval.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
• COMS 5800 - Theories of Communication: Humanities
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  
  Course Description: Survey of humanities-based theories in Communication Studies. Analysis and application of humanities theory in social, political, and cultural contexts. Focus on historical developments and contemporary trends.

  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF

  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: No

• COMS 5810 - Visual Rhetoric
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  
  Course Description: Investigation of image-based modes of rhetorical communication. Theories of visual rhetoric; analysis of issues and implications of images and their interpretations in social, cultural, historical, and political contexts.

  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF

  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: No

• COMS 5820 - Rhetoric, Citizenship, and Social Change
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  
  Course Description: Examination of rhetorical processes and practices influencing political discourse, civic engagement, and social
activism. Emphasis on the function of rhetoric in shaping public attitudes about citizenship, justice, and democratic participation.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

Communication Studies (Graduate)

- COMS 5910 - Instructional Communication

  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Theories of instructional communication with an emphasis on instructional communication theories and applying principles of instructional communication in higher education settings.
  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face, Hybrid, Online
  Campus: Main Campus

  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: No
• COMS 5960 - Comprehensive Examination

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 0
Max times this course can be taken for credit: 1

Course Description: See the Comprehensive Examination under the University Requirements for Master's Degree in this eCatalog.

Hours per Week: 0 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy
Needs Permission to Enroll: No
Special Fee Applied: No

• COMS 5980 - Graduate Directed Study

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 16
Max times this course can be taken for credit: 3

Course Description: Independent study of advanced topics in the field; regular conferences with sponsor. May be repeated for credit.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent to act as sponsor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

• COMS 5990 - Thesis

This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 6

Course Description: Independent research resulting in a thesis. May be repeated to a total of 6 units.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy. Instructor consent and successful prospectus defense.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No
• COMD 1500 - Introduction to American Sign Language

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to the American Sign Language organized gesture system including the deaf culture, visual signs, development of basic conversational skills, grammatical structure and principles underlying ASL. GE C2

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE C2

• COMD 1700 - Introduction to Communication Disorders

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to causes, characteristics, and remediation of common communication disorders in children and adults. Designed for majors in related fields and as a beginning course for Communicative Disorders majors. Some sections of this course may be taught hybrid or online.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• COMD 2500 - American Sign Language II

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Continued study of Fundamentals of American Sign Language including comprehension skills, grammatical structures, practice in expressive aspects of the language, and exposure to Deaf culture.

Hours per Week: 3 lecture hour(s).
COMD 3090 - Human Violence and Individual Change (also listed as PSY 3090) (3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examination of theories, research, and practices for accomplishing individual change; application of models of change to alter violent or counterproductive behaviors and attitudes; improving human interaction, and reducing violence/abuse. Some sections of this class may include a service learning component where students volunteer in a community program addressing violence for 2 hours per week.

Hours per Week: 3 lecture hour(s).

COMD 3190 - Communicating with Abused Children and Violent Families (3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Maltreatment and children’s communication development/dysfunction relative to social-emotional and cognitive development; communication demands in judicial, legal, and intervention processes; principles for interacting with and interviewing maltreated children. Some sections of this course may include a service learning component where students volunteer in a community program addressing communication about violence and abuse for 2 hours per week. Some sections may be offered online or hybrid.

Hours per Week: 3 lecture hour(s).

COMD 3500 - American Sign Language III
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Continued study of fundamentals of American Sign Language including comprehension skills, grammatical structures, practice in expressive aspects of the language, and exposure to Deaf culture.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): COMD 2500
Needs Permission to Enroll: No
Special Fee Applied: No

COMD 3540 - Employment Practices in Health-Related Professions

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course examines the range of employment and graduate school options available to students with an undergraduate degree in Communication Disorders. Interdisciplinary work with special populations in the allied health field will be covered, as well as practical strategies for career planning. Some sections of this course may be taught hybrid or online.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

COMD 3900 - Communication Disorders in Aging

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Study of speech, language, swallowing, hearing, and balance processes and disorders among older adults. Survey of communication and communication breakdown, remediation, and strategies for the communication needs of older adults. Some sections of this course may be taught hybrid or online.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
Needs Permission to Enroll: No
COMD 3980 - Cooperative Education

(1-4)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 4

Course Description: Courses appropriate to the work experience; approval by major department Cooperative Education Coordinator.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

COMD 4000 - Hearing Science

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Anatomy and physiology, and pathology of the hearing mechanism, including acoustical characteristics of sound, sound transmission and sound sources. Psycho acoustics of human hearing. Some sections of this course may be taught hybrid or online.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

COMD 4020 - Audiology and Audiometry

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to hearing disorders, the basic diagnostic audiological battery of tests, including pure-tone and speech audiometry, and identification audiometry. Some sections of this course may be taught hybrid or online.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
COMD 4200 - Rehabilitative Audiology

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Issues concerning adults and children with hearing impairment: including speechreading, hearing-aid use, counseling for adults, assessment and remediation of speech and language skills, auditory training and educational placement for children. Some sections of this course may be taught hybrid or online.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus
Prerequisite(s): COMD 4000
Needs Permission to Enroll: No
Special Fee Applied: No

COMD 4220 - Advanced Audiology

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Advanced audiological testing, including speech, bone conduction, physiologic measures and techniques for pediatric testing; basic understanding of hearing aid selection, programming, and troubleshooting hearing instruments and assistive devices. Some sections of this course may be taught hybrid or online.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus
Prerequisite(s): COMD 4200
Needs Permission to Enroll: No
Special Fee Applied: No

COMD 4500 - American Sign Language IV

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
**Course Description:** Continued study of American Sign Language with emphasis on expressive/conversational skills along with continued focus on grammatical and cultural features.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** COMD 3500

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

- **COMD 4510 - Psychosocial Considerations in Communication Disorders**

  (3)

  **This course is repeatable:** No

  **Max # of units may be repeated:** 0

  **Total # of units allowed for credit:** 3

  **Max times this course can be taken for credit:** 1

  **Course Description:** Study of the impact of communication disorders on clients and families; focus on how communication disorders affect child-parent and spouse-spouse relationships and the necessity and methodology of using significant others as caregivers/helpers in the learning recovery process. Some sections of this course may be taught hybrid or online.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF

  **Mode of Delivery:** Face to Face, Hybrid, Online

  **Campus:** Main Campus

  **Prerequisite(s):** Completion of 15 units of coursework in communication disorder.

  **Needs Permission to Enroll:** Yes, Department Consent

  **Special Fee Applied:** No

---

- **COMD 4520 - Professional Issues and Writing in Communication Disorders**

  (3)

  **This course is repeatable:** No

  **Max # of units may be repeated:** 0

  **Total # of units allowed for credit:** 3

  **Max times this course can be taken for credit:** 1

  **Course Description:** Professional and ethical-legal issues, practice considerations across varied work settings, and observation of service delivery will provide the basis for writing experiences for the student in Communication Disorders. Some sections of this course may be taught hybrid or online.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF

  **Mode of Delivery:** Face to Face, Hybrid, Online

  **Campus:** Main Campus

  **Prerequisite(s):** Completion of GE A2 and A3, 15 units of COMD coursework

  **Needs Permission to Enroll:** No

  **Special Fee Applied:** No

  *(wi) GWAR*

---

- **COMD 4540 - Selected Topics in Communication Disorders**
This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

Course Description: Current issues and interests of students in communication disorders and related disciplines as announced in Schedule of Classes. May be repeated to a maximum of 8 units of credit as subject matter changes.
Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): Varies with topic.
Needs Permission to Enroll: No
Special Fee Applied: No

COMD 4560 - Language Development (also listed as CHDV 4920)

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Language acquisition in typically developing children from infancy through late childhood, with a focus on the development of phonology (sounds), lexicon (words), syntax and morphology (sentences) and communicative competence (language use). Some sections of this course may be taught hybrid or online.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus
Prerequisite(s): Consent of instructor or completion of CHDV 2000 with a grade of C or better
Needs Permission to Enroll: No
Special Fee Applied: No

COMD 4575 - Victimology in Child Abuse and Family Violence

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course examines victimization's relationship to crime, with emphasis on child abuse and family violence. It will explore issues in the victim's rights movement and types of victimization. Special attention will be given to interventions and preventing secondary trauma. Some sections of this course may be taught hybrid or online.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus
Prerequisite(s): None
Needs Permission to Enroll: No
• COMD 4600 - Introduction to Language Science
  
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: The language system: structure, processing, and neurological basis. Focus on language sampling and clinical analysis of language. Some sections of this course may be taught hybrid or online.
  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face, Hybrid, Online
  Campus: Main Campus

  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: No

• COMD 4610 - Descriptive Phonetics
  
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Phonetic-phonemic analysis of language; study of acoustic and physiological bases of speech. Development of phonetic transcription skills with concentration on broad transcription and an introduction to narrow transcription.
  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: No

• COMD 4620 - Anatomy and Physiology of the Speech Mechanism
  
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Anatomy and physiology of body structures employed in speech production with emphasis on respiration, phonation, resonance and articulation. Some sections of this course may be taught hybrid or online.
  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face, Hybrid, Online
• **COMD 4630 - Neuroscience of Communication**

(3)

- **This course is repeatable:** No
- **Max # of units may be repeated:** 0
- **Total # of units allowed for credit:** 3
- **Max times this course can be taken for credit:** 1

**Course Description:** Neuroanatomy and the neurophysiological processes involved in speech and language production. Some sections of this course may be taught hybrid or online.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face, Hybrid, Online

**Campus:** Main Campus

**Prerequisite(s):** None

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

• **COMD 4710 - Primary and Secondary Language Disorders in Children and Adolescents**

(3)

- **This course is repeatable:** No
- **Max # of units may be repeated:** 0
- **Total # of units allowed for credit:** 3
- **Max times this course can be taken for credit:** 1

**Course Description:** Etiology and differential characteristics of language disorders in children and adolescents; broad overview of principles underlying assessment and treatment of individuals with language disorders. Some sections of this course may be taught hybrid or online.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face, Hybrid, Online

**Campus:** Main Campus

**Prerequisite(s):** COMD 4560, COMD 4600

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

• **COMD 4720 - Fluency and Speech Sound Disorders**

(3)

- **This course is repeatable:** No
- **Max # of units may be repeated:** 0
- **Total # of units allowed for credit:** 3
- **Max times this course can be taken for credit:** 1

**Course Description:** Phenomenology etiology, and introduction to assessment of fluency and speech sound disorders. Some sections of this course may be taught hybrid or online.
• **COMD 4730 - Communication Disorders in Voice, Cleft Palate, and Cerebral Palsy**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** Phenomenology, etiology, and introduction to assessment of voice disorders, cleft palate, and cerebral palsy. Some sections of this course may be taught hybrid or online.  
  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face, Hybrid, Online  
  **Campus:** Main Campus

  **Prerequisite(s):** COMD 4610

  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

• **COMD 4740 - Acquired Speech, Language, Cognitive, and Swallowing Disorders**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** Introduction to acquired speech, language, cognitive, and swallowing disorders. Phenomenology, pathophysiology/etiology, and introduction to assessment and treatment will be covered. Some sections of this course may be taught hybrid or online.  
  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face, Hybrid, Online  
  **Campus:** Main Campus

  **Prerequisite(s):** COMD 4620, COMD 4630

  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

• **COMD 4750 - Cultural/Linguistic Diversity in Communication Disorders**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

**Course Description:** Theoretical considerations and application of current research in cultural/linguistic diversity and communication disorders. Some sections of this course may be taught hybrid or online.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face, Hybrid, Online

**Campus:** Main Campus

**Prerequisite(s):** COMD 1700, COMD 4560, COMD 4600

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**COMD 4800 - Research Methods in Communication Disorders**

(3)

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 3

Max times this course can be taken for credit: 1

**Course Description:** Methods of scientific inquiry in communication disorders including an overview of statistical procedures, basic research design, evaluating clinical data, and critiquing published clinical research. Some sections of this course may be taught hybrid or online.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face, Hybrid, Online

**Campus:** Main Campus

**Prerequisite(s):** (MATH 1090 or ECON 1090), (COMD 4710 or COMD 4720 or COMD 4730 or COMD 4740)

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**COMD 4900 - Clinical Assistant Practicum In Communication Disorders**

(1)

This course is repeatable: Yes

Max # of units may be repeated: 1

Total # of units allowed for credit: 2

Max times this course can be taken for credit: 2

**Course Description:** Opportunity to become a clinical assistant to a graduate clinician providing treatment to a child or an adult with a communication disorder. May be repeated twice for credit.

**Hours per Week:** N/A lecture hour(s).

**Grading:** CR/NC

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** At least 15 semester units of COMD coursework, consent of instructor.

**Needs Permission to Enroll:** Yes, Instructor Consent

**Special Fee Applied:** No

---

**COMD 4950 - Audiology Assistant Pedagogy**
COMD 4955 - Audiology Assistant Practicum

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: For students interested in receiving Audiology Assistant/Aide (AA) registration. Practices/procedures relevant to provision of services consistent with scope of practice as an AA. Laws/ethics governing the use of AA's in California. Some sections of this course may be taught hybrid or online.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): COMD 4200 and acceptance into Audiology Assistant Certificate Program
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

COMD 4960 - Speech-Language Pathology Assistant (SLPA) Pedagogy

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: For students interested in receiving SLPA license. Practices/procedures relevant to provision of services consistent with scope of practice as an SLPA. Laws/ethics governing the use of SLPA's in California. Some sections of this course may be taught hybrid or online.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): Thirty units of COMD coursework, no grade less than C in any COMD course.
COMD 4965 - Speech-Language Pathology Assistant (SLPA) Practicum
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: For students interested in receiving a license to work as an SLPA. Experience as an SLPA in clinical/public school setting under the direction of credentialed or licensed speech-language pathologist. Eighty (80) hours of practicum required for State license.
Hours per Week: N/A lecture hour(s).
Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Grade of B or better in COMD 4960, no grade less than C in any COMD course. For students interested in receiving a license to work as an SLPA.
Needs Permission to Enroll: No
Special Fee Applied: No

COMD 4990 - Undergraduate Directed Study
(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 4

Course Description: Project selected in conference with sponsor before registration; progress meetings held regularly and final report submitted. May be repeated for credit up to a maximum of 4 units.
Hours per Week: N/A lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Consent of an instructor to act as sponsor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

Communication Disorders (Graduate)

COMD 5500 - Fluency Disorders
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Theory, research, and methodology in assessment and treatment of various fluency disorders including stuttering in
children and adults.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graduate standing or permission of instructor
Needs Permission to Enroll: No
Special Fee Applied: No

COMD 5510 - Language Disorders in Children

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Theory, research, and methodology in assessment of and intervention in various kinds of language disorders in children. Some sections of this course may be taught hybrid or online.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): Graduate standing or permission of instructor
Needs Permission to Enroll: No
Special Fee Applied: No

COMD 5520 - Voice Disorders

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Theory, research, methodology in diagnosis and treatment of various kinds of functional and organic voice disorders.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graduate standing or permission of instructor
Needs Permission to Enroll: No
Special Fee Applied: No

COMD 5530 - Speech Sound Disorders

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Theory, research, and methodology in assessing and intervening in various kinds of speech sound disorders.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graduate standing or permission of instructor
Needs Permission to Enroll: No
Special Fee Applied: No

COMD 5540 - Neurolinguistic Disorders in Adults
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Etiology, phenomenology, diagnosis, and treatment of neurologically caused language disorders in adults, focusing on aphasia, right hemisphere disorders, traumatic brain injury, and dementia. Some sections of this course may be taught hybrid or online.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): Graduate standing or permission of instructor
Needs Permission to Enroll: No
Special Fee Applied: No

COMD 5550 - Motor Speech Disorders
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Etiology, phenomenology, diagnosis, and treatment of neurologically caused motor speech disorders, focusing on dysarthria and apraxia. Some sections of this course may be taught hybrid or online.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): Graduate standing or permission of instructor
Needs Permission to Enroll: No
Special Fee Applied: No

COMD 5560 - Bilingual Speech-Language Pathology
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

**Course Description:** Culture and language diversity in individuals with and without communication disorders. Least-biased and evidence-based assessments and interventions. Some sections of this course may be taught hybrid or online.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face, Hybrid, Online

**Campus:** Main Campus

**Prerequisite(s):** Graduate standing or permission of instructor

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**COMD 5570 - Dysphagia**

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

**Course Description:** Evaluation and treatment of swallowing disorders, including those associated with neurological and oncological problems in children and adults. Some sections of this course may be taught hybrid or online.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face, Hybrid, Online

**Campus:** Main Campus

**Prerequisite(s):** Graduate standing or permission of instructor

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**COMD 5580 - Colloquium in Evidence-Based Practice**

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

**Course Description:** Review of current evidence-based findings related to the provision of diagnostic and/or therapeutic services to individuals with communication disorders.

**Hours per Week:** 1 lecture hour(s).

**Grading:** CR/NC

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** Graduate standing or permission of instructor

**Needs Permission to Enroll:** No

**Special Fee Applied:** No
• COMD 5581 - Colloquium in Audiology

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Review of current procedures related to the provision of diagnostic and therapeutic services to individuals with hearing loss.

Hours per Week: 1 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graduate standing or permission of instructor
Needs Permission to Enroll: No
Special Fee Applied: No

• COMD 5582 - Colloquium in Educational Speech-Language Pathology and Audiology

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Review of the role of the speech-language pathologist and audiologist in the school setting, special education laws, instructional strategies, and appropriate procedures for effective service delivery.

Hours per Week: 1 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graduate standing or permission of instructor
Needs Permission to Enroll: No
Special Fee Applied: No

• COMD 5583 - Colloquium in Professional Issues

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Review of issues in speech-language pathology clinical management and private practice including ethics, service delivery, business plans, personal considerations, physical facilities, human resources, supervision, marketing, billing, contracts, and financial management.

Hours per Week: 1 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus
• **COMD 5630 - Professional and Business Issues in Speech-Language Pathology**

(2)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 2  
Max times this course can be taken for credit: 1

Course Description: This course will review the basic aspects of augmentative communication, including aided and unaided symbols, strategies, and techniques. Overview of assessment and intervention principles and procedures will be presented. Some sections of this course may be taught hybrid or online.  
Hours per Week: 2 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face, Hybrid, Online  
Campus: Main Campus

Prerequisite(s): Graduate standing or permission of instructor  
Needs Permission to Enroll: No  
Special Fee Applied: No

• **COMD 5660 - Alternative Communication Modalities**

(2)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 2  
Max times this course can be taken for credit: 1

Course Description: This course introduces students to medical settings as a prospective work environment. Topics include roles of the SLP in the medical center, record keeping, infection control, outcome measures, and terminology. Some sections of this course may be taught hybrid or online.  
Hours per Week: 2 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face, Hybrid, Online  
Campus: Main Campus

Prerequisite(s): Graduate standing or permission of instructor  
Needs Permission to Enroll: No  
Special Fee Applied: No

• **COMD 5750 - Educational Speech-Language Pathology and Audiology**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Study of the science of human behavior and how it relates to the therapy process for persons with communication
COMD 5760 - Diagnostic Considerations in Communication Disorders

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Diagnostic theory, principles, and procedures in communication disorders with an emphasis on statistical underpinnings of test design, norms, misuse of tests, test reliability, test validity, standardized test administration, and test score interpretation. Some sections of this course may be taught hybrid or online.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): Graduate standing or permission of instructor
Needs Permission to Enroll: No
Special Fee Applied: No

COMD 5770 - Evaluation Practicum in Speech-Language Pathology

(1)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Supervised clinical experience in evaluation of individuals with communication disorders. Must be taken two times and may be repeated a third time for credit.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graduate standing or permission of instructor
Needs Permission to Enroll: No
Special Fee Applied: No

COMD 5780 - Clinical Practicum in Speech-Language Pathology I

(2)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 2

Course Description: Supervised clinical experience with children and adults with speech and/or language impairments. May be repeated once for credit.
Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Satisfaction of department standards
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

COMD 5785 - Clinical Practicum Lab

This course is repeatable: Yes
Max # of units may be repeated: 4
Total # of units allowed for credit: 5
Max times this course can be taken for credit: 5

Course Description: Exploration of issues and current practices pertinent to clinical practicum in speech-language pathology; provides guidance and support for students during clinical practicum assignments. Must be taken four times and may be taken a fifth time for credit.
Hours per Week: 1 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None Corequisite(s): COMD 5780, COMD 5790, COMD 5800, COMD 5810
Needs Permission to Enroll: No
Special Fee Applied: No

COMD 5790 - Clinical Practicum in Speech-Language Pathology II

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 2

Course Description: Supervised clinical experience with children and adults with speech and/or language impairments. May be repeated once for credit.
Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): COMD 5780, satisfaction of department standards.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No
• COMD 5800 - Clinical Practicum in Speech-Language Pathology III

(2)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 2

Course Description: Supervised clinical experience with children and adults with speech and/or language impairments. May be repeated once for credit.
Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): COMD 5790, satisfaction of department standards.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

• COMD 5810 - Clinical Practicum in Speech-Language Pathology IV

(2)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 2

Course Description: Supervised clinical experience with children and adults with speech and/or language impairments. May be repeated once for credit.
Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): COMD 5800, satisfaction of department standards.
Needs Permission to Enroll: No
Special Fee Applied: No

• COMD 5820 - Clinical Externship In Speech-Language Pathology

(3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Medical-center based externship consisting of assessment and intervention of individuals having impairments in speech, language, hearing, swallowing, and cognition due to various neurological etiologies. May be repeated for credit up to a maximum of 6 units.
Hours per Week: 9 laboratory hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): COMD 5810 graded B or better, satisfaction of department standards
Needs Permission to Enroll: Yes, Department Consent
- **COMD 5830 - Directed Teaching In Communication Disorders**

(3)

This course is repeatable: Yes  
Max # of units may be repeated: 3  
Total # of units allowed for credit: 6  
Max times this course can be taken for credit: 2  

Course Description: Supervised practicum in evaluation and treatment of speech, language, and hearing disorders in public school settings.  
Hours per Week: N/A lecture hour(s).  
Grading: CR/NC  
Mode of Delivery: Face to Face  
Campus: Main Campus  
Prerequisite(s): COMD 5810 graded B or better, admission to the credential program, satisfaction of department standards  
Needs Permission to Enroll: Yes, Department Consent  
Special Fee Applied: No  

- **COMD 5835 - Directed Teaching Lab**

(1)

This course is repeatable: Yes  
Max # of units may be repeated: 1  
Total # of units allowed for credit: 2  
Max times this course can be taken for credit: 2  

Course Description: Exploration of issues, research trends, and current practices pertinent to student teaching; provides guidance and support for students during student teaching assignment. May be repeated once for credit.  
Hours per Week: 1 lecture hour(s).  
Grading: CR/NC  
Mode of Delivery: Face to Face  
Campus: Main Campus  
Prerequisite(s): None  
Corequisite(s): COMD 5830  
Needs Permission to Enroll: No  
Special Fee Applied: No  

- **COMD 5960 - Comprehensive Examination**

(0)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 0  
Max times this course can be taken for credit: 1  

Course Description: See the Comprehensive Examination under the [University Requirements for Master's Degree](#) in this eCatalog.  
Hours per Week: 0 lecture hour(s).  
Grading: CR/NC  
Mode of Delivery: Face to Face  
Campus: Main Campus
• **COMD 5980 - Graduate Directed Study**

(1-3)

This course is repeatable: Yes  
Max # of units may be repeated: 3  
Total # of units allowed for credit: 4  
Max times this course can be taken for credit: 4

Course Description: Independent study of advanced topics in field; regular conferences with sponsor. May be repeated for credit.  
Hours per Week: N/A lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): Instructor consent to act as sponsor  
Needs Permission to Enroll: Yes, Instructor Consent  
Special Fee Applied: No

• **COMD 5990 - Thesis**

(1-3)

This course is repeatable: Yes  
Max # of units may be repeated: 3  
Total # of units allowed for credit: 4  
Max times this course can be taken for credit: 4

Course Description: Independent research resulting in a thesis; oral defense of thesis required. May be repeated to maximum of 4 units.  
Hours per Week: N/A lecture hour(s).

Grading: CR/NC  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy. Instructor consent to act as sponsor, departmental approval of topic before registration.  
Needs Permission to Enroll: Yes, Instructor Consent  
Special Fee Applied: No

---

**Computer Integrated Design (Undergraduate)**

• **TECH 1100 - Introduction to Design Application and 3D Modeling**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Application of theory and fundamentals of design: basic understanding in drafting techniques, engineering design, freehand sketching, use of latest Computer Aided Design (CAD) software.
Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

TECH 3130 - Product Design and Development
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Indepth examination of the process of designing products for manufacture. Analysis and application of the methods, models organizations, standards and practices used in industry.
Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

TECH 3150 - Project Design and Document Control
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Concepts, applications and procedures necessary to control, protect and access graphical data used in the management of design and manufacturing documentation.
Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): TECH 3130
Needs Permission to Enroll: No
Special Fee Applied: No

Computer Science (Undergraduate)

CS 1010 - Introduction to Higher Education for Computer Science Majors
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Skills required for the computing profession; critical thinking and lifelong learning; computer ethics; hands-on projects to explore the computing disciplines; academic success strategies; university structure, resources, policies, procedures; community engagement.
Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE E (cl) (IHE)

---

* CS 1090 - BASIC Programming

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Introduction to computer programming using BASIC language. Applications will assume a minimal mathematics background. Does not fulfill mathematics major requirement. Lecture 1 hour, laboratory 3 hours.
Hours per Week: 1 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): One year of high school algebra.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

---

* CS 1200 - Living in a Technology-Based World (also listed as CIS 1200)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Lecture: Living and working with technology and its ethical and societal implications. Understanding technology through knowledge of computing hardware, systems software, applications software, telecommunications, web pages, and APP development. Laboratory: Creating personal computing and smart-phone multi-media software.
Hours per Week: 1.5 lecture hour(s). 3 recitation hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No
CS 1220 - Introduction to Website Development

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Development of client-side web pages using hypertext markup language (html), Cascading Style Sheets (CSS), Javascript, and computer graphics and animation software.

Hours per Week: 3 lecture hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Computer literacy.
Needs Permission to Enroll: No
Special Fee Applied: No

CS 1222 - Introduction to Relational Databases

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: An introduction to relational databases and the SQL; database design using Entity-Relationship, relational, and object-oriented data modeling; database implementation; use of SQL, including selection, join, subquery, aggregation, and transaction. Lecture 2 hours, laboratory 3 hours.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CS 1010, Computer literacy
Needs Permission to Enroll: No
Special Fee Applied: No

CS 1550 - Fundamentals for Computer Graphics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to essential mathematics and implementations for Computer Graphics; mathematics relevant to computer graphics, computer animation, and computer games including: vectors, matrices, transformations, coordinates, projections, interpolations, curves and patches.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face  
Campus: Main Campus  

Prerequisite(s): GE Block B4  
Needs Permission to Enroll: No  
Special Fee Applied: No  

- **CS 2010 - Computer Programming Fundamentals**  
(3)  
This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Basic high level language programming concepts; procedural programming (methods, parameters, return values); basic control structures (sequence, if/else, for loop, while loop); arrays; introduction to defining objects.  
Hours per Week: 3 lecture hour(s).  

Grading: ABC-/NC (Undergraduate Only)  
Mode of Delivery: Face to Face  
Campus: Main Campus  

Prerequisite(s): MATH 1040 or consent of the instructor  
Needs Permission to Enroll: No  
Special Fee Applied: No  

Articulation C-ID: COMP 112  
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.  

- **CS 2011 - Introduction to Programming I**  
(4)  
This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 4  
Max times this course can be taken for credit: 1  

Course Description: Introduction to algorithms; designing, coding, debugging, and documenting programs; implementation of algorithms as structured programs in a high level language; laboratory activities on problem analysis and software development.  
Hours per Week: 3 lecture hour(s). 2 activity hour(s).  

Grading: ABC-/NC (Undergraduate Only)  
Mode of Delivery: Face to Face  
Campus: Main Campus  

Prerequisite(s): CS 1010 and MATH 1040; or consent of the instructor  
Needs Permission to Enroll: No  
Special Fee Applied: No  

Articulation C-ID: COMP 122  
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

**Course Description:** An introduction to discrete mathematics with applications to Computer Science; logic and set theory; counting techniques; relations; induction and recursion; graphs and trees; probability theory; statistics; data analytics.
Articulation C-ID: COMP 152
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

CS 2445 - Introduction to Computer Systems
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to computer organization and architecture. Topics include data representation, digital logic, computer organization and components such as central processing unit and memory, instruction set architectures, and parallel organization.

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CS 2011
Needs Permission to Enroll: No
Special Fee Applied: No

Articulation C-ID: COMP 142
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

CS 2470 - Fundamentals of Network Systems and Cybersecurity
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Study of network communication systems and cybersecurity, including computer network communications, Internet architecture, Ethernet, and wireless communications; Cybersecurity fundamentals such as data security, web security, system security and network security.

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CS 2010 or CS 2011
Needs Permission to Enroll: No
Special Fee Applied: No
• CS 2540 - Special Topics in Computer Science

This course is repeatable: Yes
Max # of units may be repeated: 8
Total # of units allowed for credit: 9
Max times this course can be taken for credit: 9

Course Description: Current topics of special interest to students in Computer Science, as announced in Schedule of Classes. May be repeated to a maximum of 9 units for credit.
Hours per Week: 1 lecture hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent and as needed for specific topic.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

• CS 2550 - Introduction to Computer Graphics tools

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to the state of the art computer graphic design software tools used for a variety of applications for graphic communication including web designs and visual effects.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CS 1550
Needs Permission to Enroll: No
Special Fee Applied: No

• CS 3034 - Widely-used Programming Languages

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to the most widely used contemporary programming languages such as C++, JavaScript, and Python.
Lecture 2 hours, laboratory 3 hours.
Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): CS 2013, CS 2148
Needs Permission to Enroll: No
Special Fee Applied: No

- **CS 3035 - Programming Paradigms**
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  Course Description: Capabilities and styles of various programming languages; functional programming; concurrent/reactive programming; constraint (logic) programming; rule-based programming; aspect-oriented programming; domain-specific languages.
  Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).
  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): CS 2013 with a grade C or better
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **CS 3112 - Analysis of Algorithms**
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  Course Description: Methods for the design and analysis of correct and efficient computer algorithms; applications to classical problems of searching, sorting, graph optimization and combinatorial optimization.
  Hours per Week: 3 lecture hour(s), 3 laboratory hour(s).
  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): CS 2013 and CS 2148, all graded C or better
  Needs Permission to Enroll: No
  Special Fee Applied: No
  GE UD B* - restricted to specific major

- **CS 3186 - Introduction to Automata Theory**
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  Course Description: Formal approach to automata theory; finite state machines, regular expressions, regular languages, context free languages and Turing machines. Develops mathematical foundation for computer science.
**CS 3220 - Web and Internet Programming**

(4)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 4  
Max times this course can be taken for credit: 1

Course Description: Development of database-driven, multi-tiered, interactive web applications. HTML and CSS; processing HTTP requests and generating HTTP responses; session tracking; database access; web application architectures; server-side and client-side scripting languages.

Hours per Week: 3 lecture hour(s). 2 activity hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus  
Prerequisite(s): CS 1222 and CS 2013, all with a grade C or better  
Needs Permission to Enroll: No  
Special Fee Applied: No

**CS 3337 - Software Engineering**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Methodologies and tools for requirements analysis and design of large complex software system; process models, project planning, tracking, documentation, communication, and quality assurance; group laboratory project; oral and written presentations.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus  
Prerequisite(s): CS 2013 with a grade C or better Corequisite(s): ENGL 2030  
Needs Permission to Enroll: No  
Special Fee Applied: No

**CS 3550 - Game Development for Graphic Communications**

(3)

This course is repeatable: No
CS 3555 - Mobile Development for Graphic Communications
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Development of mobile applications on a selected platform such as iOS, Android, or Windows; creating basic and simple applications to demonstrate a majority features of the selected OS.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CS 1550
Needs Permission to Enroll: No
Special Fee Applied: No

CS 3660 - Complex Social and Economic Systems
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Computational approaches to modeling, simulation, and analysis of complex social and economic systems: statistics (frequentist and Bayesian); game theory, agent-based and stocks and flows modeling; networks; data science.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CS 2013, CS 2148
Needs Permission to Enroll: No
Special Fee Applied: No
CS 3801 - Societal and Ethical Issues in Computing

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Ethical theories (Western, Eastern, Feminist); societal implications of artificial intelligence, data science, social networks, and 3D printing; intellectual property, professional ethical standards, and the relationship between ethics and economics.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): CS 2013 with a grade C or better, or Consent of the instructor
Needs Permission to Enroll: No
Special Fee Applied: No

GE C2* - restricted to specific major

CS 3890 - Cooperative Education

This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

Course Description: Integration of work experience with the academic program, individually planned through a coordinator. Minimum of 10 hours per week required for each unit. May be repeated to a maximum of 8 units.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): Courses appropriate to the work experience: approval by major department Computer Science coordinator
Needs Permission to Enroll: No
Special Fee Applied: No

CS 4075 - Concurrent and Distributed Programming

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Parallel programming techniques; abstract models of hardware and operating systems to support parallel programs; multiple models of concurrency; their advantages and disadvantages.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): CS 3112, CS 3035
Needs Permission to Enroll: No
CS 4112 - Competitive Programming

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Review of programming and algorithms in preparation for the ACM International Collegiate Programming Contest.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CS 3112
Needs Permission to Enroll: No
Special Fee Applied: No

CS 4188 - Compilers

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Compiler construction; syntax directed compiler study; organization of a compiler and overall design: parsing, semantic analysis, code generation and optimization.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CS 3035, CS 3112, CS 3186
Needs Permission to Enroll: No
Special Fee Applied: No

CS 4220 - Current Trends in Web Design and Development

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Current trends in client-side and server-side web design and development.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): CS 3112, CS 3220
Needs Permission to Enroll: No
Special Fee Applied: No
Computer Science (Undergraduate)

- **CS 4222 - Principles of Data Base Systems**
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** Database system architecture; disk and file management; buffer management; record file structures; database catalog; concurrency control; failure recovery; query processing; indexes; query optimization.
  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face
  **Campus:** Main Campus

  **Prerequisite(s):** CS 1222, CS 3112
  **Needs Permission to Enroll:** No
  **Special Fee Applied:** No
• **CS 4440 - Introduction to Operating Systems**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

**Course Description:** Resource, memory and process management; concurrent processing; distributed systems; emphasis on some of the simple algorithms used to solve common problems encountered such as deadlocks, queue service, shared/distributed memory access.  
**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

Prerequisite(s): CS 2013 and CS 2445 and CS 2470, all graded C or better  
Needs Permission to Enroll: No  
Special Fee Applied: No

• **CS 4470 - Computer Networking Protocols**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

**Course Description:** Study of computer network layered architecture and protocols. Topics to be covered include: OPNET, network architecture, data link layer, addressing, LAN, network layer, transport layer and network applications.  
**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

Prerequisite(s): CS 2013 and CS 2470  
Needs Permission to Enroll: No  
Special Fee Applied: No

• **CS 4471 - Computer Networks Configuration and Management**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

**Course Description:** Network topology, architecture, and related software. Topics covered include designing a LAN and an internetwork, developing access lists, configuring routing protocols, customize switch configurations and manage device configurations.  
**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

Prerequisite(s): CS 2013 and CS 2470  
Needs Permission to Enroll: No  
Special Fee Applied: No
• CS 4540 - Topics in Advanced Computer Science

(1-3)
This course is repeatable: Yes
Max # of units may be repeated: 12
Total # of units allowed for credit: 13
Max times this course can be taken for credit: 13

Course Description: Current topics of special interest to students in computer science, as announced in Schedule of Classes. May be repeated to a maximum of 20 units of credit as topic changes.
Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): As needed for specific topic
Needs Permission to Enroll: No
Special Fee Applied: No

• CS 4550 - Computer Graphics

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Programming in object oriented graphics environment implementing primitive operations in two and three dimensions; image modeling using affine transformations; polygonal meshes and other topics. Lecture 2 hours, laboratory 3 hours.
Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CS 3112, MATH 2550
Needs Permission to Enroll: No
Special Fee Applied: No

• CS 4551 - Multimedia Software Systems

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to multimedia information and processing; topics: basic signal processing, color, space, formations of image, video, and audio data; current standards and the state-of-the-art techniques for multimedia systems.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
- CS 4555 - Introduction to 3D Computer Game Programming
  (3)
  
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: 3D game genre and styles; 3D game engines and their components; scripts; GUI; models; textures; sound and music; hands-on experience and rapid development.
  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): CS 3112
  Needs Permission to Enroll: No
  Special Fee Applied: No

- CS 4556 - Multiplayer Online Game Design and Development
  (3)
  
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: MMORP games from design through development and launch; real-time 3D graphics programming; network programming for multiplayer architecture; other issues related to game development and publishing.
  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): CS 3112, CS 3220
  Needs Permission to Enroll: No
  Special Fee Applied: No

- CS 4635 - Modeling and Simulation
  (3)
  
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: An examination of the four primary approaches to modeling and simulation; discrete event simulation; agent-based modeling; stock and flows modeling; actor-based modeling.
  Hours per Week: 3 lecture hour(s).
**CS 4660 - Artificial Intelligence**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Knowledge representation; problem solving strategies and search algorithms; applications from such areas as theorem proving, expert systems, natural language processing, robotics, and pattern recognition.

Hours per Week: 3 lecture hour(s).

**CS 4661 - Introduction to Data Science**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Algorithms, tools, and techniques for extracting knowledge or insight from large-scale data, and use it for future purposes such as prediction, classification, and visualization.

Hours per Week: 3 lecture hour(s).

**CS 4662 - Advanced Machine Learning and Deep Learning**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Advanced algorithms, tools, techniques for supervised/unsupervised machine learning and deep learning and its applications in Classification, Regression, Clustering, Prediction, Detection, Dimensionality Reduction. Includes Artificial Neural Networks, and Deep Learning methods.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus
Prerequisite(s): CS 4661
Needs Permission to Enroll: No
Special Fee Applied: No

CS 4663 - Deep Learning
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course covers algorithms, tools, and techniques for Deep Learning including Artificial Neural Networks, Deep Neural Networks, Deep Belief Networks, Convolutional Neural Networks, Auto Encoder, Recurrent Neural Networks, etc.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): CS 4661
Needs Permission to Enroll: No
Special Fee Applied: No

CS 4780 - Cryptography and Information Security
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Principles and practice of cryptography and information security; basic concepts of cryptology, classical ciphers, modern symmetric ciphers, Advanced Encryption Standard, public key cryptography, data integrity and digital signature schemes.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): CS 3112
Needs Permission to Enroll: No
Special Fee Applied: No

CS 4961 - Software Design Laboratory I
CS 4962 - Software Design Laboratory II

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Software design and implementation. Develop a software system for a community organization or a corporate partner; code and test system; Broader understanding of software engineering as well as professional ethics; project report and presentation. Laboratory 6 hours.

Hours per Week: 9 laboratory hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CS 4961
Needs Permission to Enroll: No
Special Fee Applied: No

GE UD D* (cl) (wi) GWAR - * restricted to specific major

CS 4963 - Computer Science Recapitulation

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: A recapitulation of the primary concepts of Computer Science; theory, programming, algorithms and systems; preparation for the Major Field Test.

Hours per Week: 9 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): MATH 2550, PHYS 2200  Corequisite(s): CS 4962

Needs Permission to Enroll: No
Special Fee Applied: No

- **CS 4990 - Undergraduate Directed Study**
  
  (1-3)

  This course is repeatable: Yes
  Max # of units may be repeated: 11
  Total # of units allowed for credit: 12
  Max times this course can be taken for credit: 12

  **Course Description:** Project selected in conference with sponsor before registration; progress meetings held regularly, and a final report submitted. May be repeated for credit to a maximum of 12 units.
  Hours per Week: N/A lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): Consent of an instructor to act as sponsor.
  Needs Permission to Enroll: Yes, Instructor Consent
  Special Fee Applied: No

---

Computer Science (Graduate)

- **CS 5030 - Systems Analysis and Logical Design II**
  
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** Packaged and custom systems development life cycles. Feasibility and requirements determination. Process, data and object modeling, design, and implementation. Change management.
  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): CIS 5010 or equivalent
  Needs Permission to Enroll: No
  Special Fee Applied: No

---

- **CS 5035 - Topics in Functional Programming**
  
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
Course Description: Evaluating expressions vs. executing statements; functions as first class objects; higher-order functions; currying; partial evaluation; closures; mutable and immutable variables; comprehensions; referential transparency; lazy evaluation.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

---

CS 5112 - Design and Analysis of Algorithms

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 0

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

---

CS 5186 - Theory of Computing

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Mathematical models of computation. Recursive function theory and primitive recursion. Computability and logic. Church’s Thesis, Wegner’s interaction machines, and quantum computation.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CS 3186
Needs Permission to Enroll: No
Special Fee Applied: No

---

CS 5188 - Languages and Translators

(3)
CS 5220 - Advanced Topics in Web Programming

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 0

Course Description: Technologies, architectures, methodologies, design patterns, and frameworks that help create scalable, robust, and maintainable web applications and web services.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

CS 5337 - Advanced Software Engineering

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 0

Course Description: Software development methodologies; managing software development projects; formal methods for modeling and specification; various designs such as architectural, user-interface, pattern-based, web-app, and mobile-app designs; software testing; other advanced topics.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No
CS 5390 - Advanced Software Architecture

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Design and development of large-scale software systems; integration of legacy systems; multiple architectural views, representation and documentation; software architecture styles; software architecture design; software quality attributes; software architecture evaluation.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Classified admission to MSCS program or permission from instructor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

CS 5440 - Advanced Topics in Operating Systems

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Asynchronous concurrent processes; mutual exclusion and deadlocks; virtual storage organization and management; multiprocessing; auxiliary storage management; distributed operating systems; performance measurement; operating systems security.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CS 4440, classified admission to MSCS program or permission from instructor.
Needs Permission to Enroll: No
Special Fee Applied: No

CS 5470 - Advanced Computer Networks

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: A foundational and current view of communication networks; Topics include core protocols for QoS, multicast, wireless network, routing algorithms in wireless ad-hoc networks and network security.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
CS 5540 - Graduate Topics in Computer Science

(3)
This course is repeatable: Yes
Max # of units may be repeated: 6
Total # of units allowed for credit: 9
Max times this course can be taken for credit: 3

Course Description: Current topics of special interest to graduate students in computer science, as announced in Schedule of Classes. May be repeated to maximum of 9 units on different topics.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): As needed for specific topic.
Needs Permission to Enroll: No
Special Fee Applied: No

CS 5550 - Advanced Computer Graphics

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Advance topics in computer graphics. Surfaces, curves, and textures; illumination, shading, shadows and transparency effects; ray tracing and other rendering techniques; color models; animation.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CS 4550, classified admission to MSCS program or permission from instructor.
Needs Permission to Enroll: No
Special Fee Applied: No

CS 5660 - Advanced Topics in Artificial Intelligence

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examination of a sub field within artificial intelligence such as natural language processing, expert systems, robotics, data mining, computer vision, speech recognition, intelligent agents or others.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus  

Prerequisite(s): CS 4660  
Needs Permission to Enroll: No  
Special Fee Applied: No  

CS 5661 - Topics in Data Science  

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: An examination of the primary data science algorithms and tools that implement them.  
Hours per Week: 3 lecture hour(s).  
Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus  

Prerequisite(s): CS 4661, classified admission to MSCS program or permission from instructor.  
Needs Permission to Enroll: No  
Special Fee Applied: No  

CS 5780 - Advanced Information Security  

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Advanced topics in information security. Topics covered include: IPv6 security; virtual private network; Secure Electronic Transaction (SET); public key infrastructure; Secure Election Protocols (SEP) and advanced digital signatures.  
Hours per Week: 3 lecture hour(s).  
Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus  

Prerequisite(s): CS 4780, classified admission to MSCS program or permission from instructor.  
Needs Permission to Enroll: No  
Special Fee Applied: No  

CS 5781 - Computer and Network Security  

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Techniques for defending computers and networks; Topics in Computer and Network security; Denial-Of- Service
Attacks; packet analyzers; host-based intrusion detection and honeypots.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** CS 4470 or CS 4471, classified admission to MSCS program or permission from instructor.

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

- **CS 5875 - Human Issues in Computing**

  (3)

  **This course is repeatable:** No
  
  **Max # of units may be repeated:** 0
  
  **Total # of units allowed for credit:** 3
  
  **Max times this course can be taken for credit:** 1

  **Course Description:** Methods and techniques for maximizing the usability of computer systems and practices. User-centered design, designing for diverse users, physiological, psychological, and sociological issues. Human factors in software development.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF

  **Mode of Delivery:** Face to Face

  **Campus:** Main Campus

  **Prerequisite(s):** CS 3112

  **Needs Permission to Enroll:** No

  **Special Fee Applied:** No

---

- **CS 5960 - Comprehensive Examination**

  (0)

  **This course is repeatable:** No
  
  **Max # of units may be repeated:** 0
  
  **Total # of units allowed for credit:** 0
  
  **Max times this course can be taken for credit:** 1

  **Course Description:** Examination of student's ability to demonstrate mastery of the subject matter. Students should take the comprehensive exam during the semester in which they complete all course work or shortly thereafter.

  **Hours per Week:** 0 lecture hour(s).

  **Grading:** CR/NC

  **Mode of Delivery:** Face to Face

  **Campus:** Main Campus

  **Prerequisite(s):** Advancement to Candidacy

  **Needs Permission to Enroll:** No

  **Special Fee Applied:** No

---

- **CS 5980 - Graduate Directed Study**

  (1-3)

  **This course is repeatable:** Yes

  **Max # of units may be repeated:** 8
CS 5990 - Thesis

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Research project conducted in an area of advanced topics in computer science under direct supervision of an instructor.
Hours per Week: N/A lecture hour(s).
Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): Advancement to Candidacy.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

CS 5995 - Project

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Continuation of research project conducted in CS 5990. Each student shall orally present his/hers research result in a public forum.
Hours per Week: N/A lecture hour(s).
Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): CS 5990. Instructor consent to act as sponsor, completion of all other requirements for an MS degree in Computer Science.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No
- **COUN 2000 - Introduction to Rehabilitation Services**
  
  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** Introduction to the profession of vocational and personal rehabilitation; characteristics of the rehabilitation process; exploration of work settings and unique techniques, including motivational interviewing.  
  **Hours per Week:** 3 lecture hour(s).  

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** None  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

- **COUN 2010 - Foundations of Lifespan Human Development**
  
  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** Theories of human development, including stages of personality, cognitive, career, and social development across the lifespan.  
  **Hours per Week:** 3 lecture hour(s).  

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** None  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

- **COUN 2020 - Integration of Adults with Disabilities in the U.S. Society**
  
  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** An overview of socioeconomic context of disability with emphases on trends and issues related to integration of adults with disabilities into the U.S. mainstream society, facts and myths of the American Dreams for the population and their families.  
  **Hours per Week:** 3 lecture hour(s).  

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus
Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE D (d)

- **COUN 2250 - Diversity and Awareness of Self and Others for Helping Professionals**
  
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** Examination of relations and inter-relations between self and others. Introduction to various aspects of human identity related to multiculturalism stemming from exploration of self and others, the complexity of cultural diversity in multi-layered and interactional dynamics.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face
  **Campus:** Main Campus

  **Prerequisite(s):** Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
  **Needs Permission to Enroll:** No
  **Special Fee Applied:** No

  GE D (d)

- **COUN 2500 - Introduction to Individual and Group Counseling**
  
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** Theory and practice of group counseling: processes, leadership, and membership skills; group counseling skills appropriate for school, college, and agency settings; counseling group processes and task group processes.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face
  **Campus:** Main Campus

  **Prerequisite(s):** None
  **Needs Permission to Enroll:** No
  **Special Fee Applied:** No

- **COUN 3010 - Writing for Rehabilitation Services**
  
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
Course Description: Reading, writing, and reasoning skills for communicating information in the context of rehabilitation services. Intensive practice in writing in the field.

Grade of C or better in this course satisfies the Graduation Writing Assessment Requirement.

Hours per Week: 3 lecture hour(s).

Grading: ABC-/INC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Upper division or graduate standing, and satisfactory completion of blocks A2 and A3.
Needs Permission to Enroll: No
Special Fee Applied: No

(wi) GWAR

COUN 3201 - Introduction to Applied Behavior Analysis

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to the application of principles of behavior with specific emphasis on the terminology associated with various behavior analytic learning paradigms.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): COUN 2000, COUN 2010, COUN 2020
Needs Permission to Enroll: No
Special Fee Applied: No

COUN 3202 - Behaviorism

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to the theoretical and philosophical foundations of applied behavior analysis. Emphasis on aspects of theory and philosophy that pertain to the application of behavior analysis to everyday social issues.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): COUN 2000, COUN 2010, COUN 2020
Needs Permission to Enroll: No
Special Fee Applied: No

COUN 3203 - Introduction to Ethics and Professional Issues in Applied Behavior Analysis
COUN 3300 - Mind Matters: The Science of Well-being

This course covers the scientific foundations of personal and systemic wellness practices with an emphasis on the application of evidence-based practices that promote well-being.

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE Block A, Block B4, one additional course from Block B, and one course each from Blocks C and D.
Needs Permission to Enroll: No
Special Fee Applied: No

GE UD B

COUN 4000 - Case Management in Rehabilitation Services

An overview of a rehabilitation professional’s critical role in case management. Case management components include ethics, communication, assessment and service plan development, service coordination, reporting and documentation, and caseload management.

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus, DTLA Campus

Prerequisite(s): Completion of all lower division requirements
Needs Permission to Enroll: No
Special Fee Applied: No
• COUN 4010 - Boots to Books

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Exploration of veterans' issues related to transitioning from military to civilian life, including development of skills for psychosocial adjustment, career development, and college survival. Designed for returned military personnel.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

• COUN 4030 - Child Maltreatment and Domestic Violence (also listed as PSY 4030)

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to child maltreatment and family violence; developmental considerations, victimization, assessment, preventions, interventions, safety plans, legal and ethical issues, roles of helping professionals, research findings and community resources.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): PSY 1500
Needs Permission to Enroll: No
Special Fee Applied: No

• COUN 4096 - Initial Practicum in Applied Behavior Analysis

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Implementation of behavior analysis services for an average of 24 hours per week under the supervision of a university faculty member and onsite BCBA supervisor.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): Completed application, consent of practicum supervisor and faculty advisor
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

• COUN 4097 - Advanced Practicum in Applied Behavior Analysis
  (4)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 4
  Max times this course can be taken for credit: 1

  Course Description: Implementation of behavior analysis services for an average of 24 hours per week under the supervision of a university faculty member and onsite BCBA supervisor.
  Hours per Week: N/A lecture hour(s).

  Grading: CR/NC
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): Completed application, consent of practicum supervisor and faculty advisor.
  Needs Permission to Enroll: Yes, Instructor Consent
  Special Fee Applied: No

• COUN 4110 - Introduction to Mental Health for Counselors
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Overview of mental health conditions including social, psychological, and biological formulations in etiology and treatment of psychiatric diagnoses of children and adults.
  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: No

• COUN 4204 - Introduction to Behavioral Assessment and Intervention
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Application of behavior analytic principles. Emphasis on procedures involved in assessment and intervention for skill acquisition and behavior reduction with a variety of populations.
  Hours per Week: 3 lecture hour(s).
COUN 4205 - Foundations of the Experimental Analysis of Behavior

(3)

Course Description: Introduction to the experimental literature on basic behavioral processes that inform application.

Hours per Week: 3 lecture hour(s).

COUN 4206 - Behavior Analytic Research Methods

(3)

Course Description: Introduction to behavioral measurement and analysis. Emphasis is on common measurement procedures, development of valid and reliable measures, use of visual inspection and single-case research design to analyze behavioral change.

Hours per Week: 3 lecture hour(s).

COUN 4330 - Trauma & Crisis Counseling

(3)
Course Description: Introduction to theories and practices of trauma counseling, crisis counseling, and mental health including issues related to assessment, diagnosis, and treatment of clients impacted by crises, trauma, and disasters.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• COUN 4420 - Disability and Function

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Selected facets of medical, developmental, and administrative factors in the rehabilitation process, including medical terminology, specialties in medical practice, and implications for rehabilitation counseling.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• COUN 4470 - Return to Work

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: An overview of integrated disability management, including key roles and responsibilities of stakeholders, federal, state and company programs, employment practices, prevention and wellness programs, and administrative case management practices.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): COUN 2000
Needs Permission to Enroll: No
Special Fee Applied: No

• COUN 4480 - Career Assessment and Development

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Assessment processes involved in career counseling, vocational counseling theories, career development, analysis of occupational information, employment seeking skills and resources, and the assessment of skills and interests.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

COUN 4490 - Job Development and Placement

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Methods for identifying, evaluating, and enhancing employment opportunities for people with disabilities; job analysis, employer development, reasonable accommodation, job seeking skills, resources, placement planning, ethics and professional practices.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): COUN 2000, COUN 4480
Needs Permission to Enroll: No
Special Fee Applied: No

COUN 4500 - Counseling Theories

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Theories of counseling appropriate for individual and group work; functions of theory in research and practice including substance abuse counseling; background for subsequent training in group counseling methods and individual counseling.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): All GE requirements
Needs Permission to Enroll: No
Special Fee Applied: No
• COUN 4600 - Laws Relating to the Child and Family

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Legal and ethical guidelines for counselors, therapists, and child development practitioners; laws related to the family including marriage, divorce, and assessment and reporting of child abuse.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• COUN 4650 - Addiction Counseling

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Counseling theories of behavioral addictions, chemical dependency, and co-occurring disorders. Study of identification and treatment approaches, intervention modalities, behaviors and consequences, roles of persons and systems for counseling students.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• COUN 4840 - Conferences with Parents/Primary Caregivers

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Research-based processes that facilitate student academic, emotional and social growth through parental involvement, including family and study rituals, motivation, self-esteem, assisting with homework, monitoring student progress and school-home community partnerships.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): None
Needs Permission to Enroll: No
- COUN 4870 - Psychosocial Aspects and Collectivism in Asian and Asian American Societies

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: An examination of Asian and Asian American experiences, confronting issues of immigration, racialization, exclusion, social and political activism, assimilation, disabilities, and transnationalism; addresses individualism and collectivism in the 21st century.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

- COUN 4900 - Problems in Guidance

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Investigation of unique problems in guidance as announced in Schedule of Classes. May be repeated for credit as subject matter changes.

Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

- COUN 4940 - Supervised Fieldwork & Seminar in Rehabilitation Services

(4)

This course is repeatable: Yes
Max # of units may be repeated: 4
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 2

Course Description: Supervised professional development experience in the rehabilitation field. Weekly seminars to enhance and integrate learned techniques and skills. This course must be repeated to a total of 8 units.

Hours per Week: 4 lecture hour(s).
**Grading:** CR/NC  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus, DTLA Campus  

**Prerequisite(s):** Completion of all of these courses: COUN 2000, COUN 2010, COUN 2020, COUN 2250, COUN 2500, COUN 3200, COUN 4480, (EDFN 1090 or EDFN 1092), PSY 1500, SOC 2010, consent of instructor  
**Needs Permission to Enroll:** Yes, Instructor Consent  
**Special Fee Applied:** No

- **COUN 4940A - Senior Capstone Seminar in Rehabilitation Services**
  
  (1)  
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 1  
  Max times this course can be taken for credit: 1  
  
  **Course Description:** Students will use informal and formal writing to critically reflect upon, synthesize, and apply the concepts learned in rehabilitation services, engage in discussions and presentations, and complete student-designed capstone projects.  
  **Hours per Week:** 1 lecture hour(s).  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus, DTLA Campus  
  **Prerequisite(s):** GWAR requirement, instructor consent, to be taken during the last semester of the program  
  **Needs Permission to Enroll:** Yes, Instructor Consent  
  **Special Fee Applied:** No

- **COUN 4942 - Practice Seminar in Applied Behavior Analysis I**
  
  (4)  
  
  This course is repeatable: Yes  
  Max # of units may be repeated: 4  
  Total # of units allowed for credit: 8  
  Max times this course can be taken for credit: 2  
  
  **Course Description:** Knowledge and experience in behavior-change procedures, opportunities to demonstrate basic competence in implementing behavior change programs, collecting and analyzing data, and related practice issues. This course maybe repeated to a total of 8 units.  
  **Hours per Week:** 4 lecture hour(s).  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face, Hybrid, Online  
  **Campus:** Main Campus  
  **Prerequisite(s):** COUN 2250, COUN 2500, COUN 3200, COUN 3202  
  **Corequisite(s):** COUN 3203, COUN 4204  
  **Needs Permission to Enroll:** Yes, Instructor Consent  
  **Special Fee Applied:** No

- **COUN 4943 - Practice Seminar in Applied Behavior Analysis II**
  
  (4)  
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Knowledge and experience in behavior-change procedures and intervention packages, opportunities to demonstrate competence in implementing behavior change programs, collecting and analyzing data, and related practice issues. This course maybe repeated to a total of 8 units.
Hours per Week: 4 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): COUN 2250, COUN 2500, COUN 3201, COUN 3202, COUN 4942
Corequisite(s): COUN 3203, COUN 4204
Needs Permission to Enroll: No
Special Fee Applied: No

COUN 4990 - Undergraduate Directed Study
(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Project selected in conference with sponsor before registration; progress meetings held regularly; final report submitted. May be repeated for credit.
Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent to act as sponsor and consent of division chair.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

Counseling (Graduate)

COUN 5000 - Lifespan Human Development for Counselors
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Advanced theories of human development, including stages of personality, cognitive, career and social development across the lifespan.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No
• COUN 5001 - Ethical, Legal, and Professional Issues in Counseling

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Ethical, legal, and professional issues related to counseling professions including considerations for providing services to special populations.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• COUN 5002 - Assessment in Counseling

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Knowledge and skills required for identifying problems, evaluation and/or diagnosis, and planning interventions in counseling. Includes a wide variety of counseling assessment methods and communication of results to various constituents.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• COUN 5003 - Research in Counseling

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Principles, procedures, and ethical considerations underlying collection, analysis, and interpretation of research data in counseling. Research methodology, psychometric concepts, and development of program evaluation in the counseling field.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
COUN 5005 - Individual Counseling Strategies  

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 4  
Max times this course can be taken for credit: 1  

Course Description: Introduction to the various theories of counseling. Practical experience with techniques in individual counseling skills that apply to specific settings and are derived from specific theories of counseling. Designated sections may be offered to students in the Doctor of Audiology program.  
Hours per Week: 4 lecture hour(s).  

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus  
Prerequisite(s): Admission to M.S. in Counseling program or admission to AuD program.  
Needs Permission to Enroll: No  
Special Fee Applied: No

COUN 5010 - Experimental Foundations of Applied Behavior Analysis  

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Overview of major areas of research within the experimental analysis of behavior. Emphasis on the relationship between the experimental analysis of behavior and applied behavior analysis.  
Hours per Week: 3 lecture hour(s).  

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus  
Prerequisite(s): None  
Needs Permission to Enroll: No  
Special Fee Applied: No

COUN 5012 - Legal and Ethical Issues in Applied Behavior Analysis  

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Legal and ethical issues pertinent to provide services to special populations and the practice of behavior analysis in human services settings.  
Hours per Week: 3 lecture hour(s).
• COUN 5014 - Conceptual Analysis of Behavior

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course provides students with an overview of the theoretical and conceptual foundations of behavior analysis with emphasis placed on Skinner’s Radical Behaviorism.

Hours per Week: 3 lecture hour(s).

• COUN 5016 - Applied Behavior Analysis

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: The introduction of applied behavior analysis; applications of behavioral procedures to understand the functions of behavior to implement effective interventions to promote lasting change.

Hours per Week: 3 lecture hour(s).

• COUN 5018 - Behavioral Assessment and Interventions

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Behavioral assessment and intervention model for determining function and treating severe behavior problems; emphasis is on indirect, descriptive, and functional analyses as well as antecedent manipulations, extinction, and differential reinforcement.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): COUN 5016
Needs Permission to Enroll: No
Special Fee Applied: No

COUN 5020 - Behavioral Consultation

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Behavioral research, ethics, and recent developments in behavioral consultation procedures used in school, home and community settings.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): COUN 5016 or instructor consent
Needs Permission to Enroll: No
Special Fee Applied: No

COUN 5022 - Analysis and Applications of Verbal Behavior

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Overview of behavior analytic approaches to verbal behavior. Emphasis on both theory and application.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): COUN 5016, COUN 5018
Needs Permission to Enroll: No
Special Fee Applied: No

COUN 5024 - School Wide Applied Behavior Analysis

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: The student will acquire basic knowledge of school wide application of applied behavior analysis including School Wide Positive Behavior Supports, prevention models, and systems analysis.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): COUN 5020
Needs Permission to Enroll: No
Special Fee Applied: No

- COUN 5031 - Fieldwork Experience in Applied Behavior Analysis I
  (6)
  This course is repeatable: Yes
  Max # of units may be repeated: 6
  Total # of units allowed for credit: 12
  Max times this course can be taken for credit: 2

  Course Description: Supervised professional experience in the application of behavior analysis. Application must be filed with division by seventh week of preceding semester. Requires 250 hours of practice.
  Hours per Week: N/A lecture hour(s).

  Grading: CR/NC
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): COUN 5010, COUN 5012, COUN 5014
  Needs Permission to Enroll: No
  Special Fee Applied: No

- COUN 5033 - Fieldwork Experience in Applied Behavior Analysis II
  (6)
  This course is repeatable: Yes
  Max # of units may be repeated: 6
  Total # of units allowed for credit: 12
  Max times this course can be taken for credit: 2

  Course Description: Intense supervised professional experience in the application of behavior analysis. Application must be filed with division by seventh week of preceding semester. Requires 250 hours of practice supervised by a BCBA.
  Hours per Week: N/A lecture hour(s).

  Grading: CR/NC
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: No

- COUN 5035 - Fieldwork Experience in Applied Behavior Analysis III
This course is repeatable: Yes
Max # of units may be repeated: 6
Total # of units allowed for credit: 12
Max times this course can be taken for credit: 2

Hours per Week: N/A lecture hour(s).

Grading: CR/NC

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): COUN 5016, COUN 5020, and COUN 5018

Needs Permission to Enroll: No

Special Fee Applied: No

---

COUN 5100 - Counseling Students in Higher Education

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Characteristics and problems of American college students; impact of college life on individual, psychosocial aspects of student culture and college environment as well as cultural differences.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): None

Needs Permission to Enroll: No

Special Fee Applied: No

---

COUN 5103 - Multicultural Counseling

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Effect of social environment and cultural group membership on behaviors related to counseling; relationship of social and cultural background to counseling practices; implications of cultural diversity.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): COUN 5005

Needs Permission to Enroll: No

Special Fee Applied: No
• **COUN 5111 - Diagnosis and Treatment in Counseling**

  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** A review of differential diagnosis of psychiatric disorders from a biopsychosocial perspective. Survey of evidence-based psychotherapeutic treatments for psychiatric disorders.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face
  **Campus:** Main Campus

  **Prerequisite(s):** None
  **Needs Permission to Enroll:** No
  **Special Fee Applied:** No

• **COUN 5112 - Psychopharmacology for Clinical Counselors**

  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** A survey of evidence-based contemporary pharmacotherapy for psychiatric disorders.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face
  **Campus:** Main Campus

  **Prerequisite(s):** None

  **Special Fee Applied:** No
• COUN 5161 - Seminar: Higher Education Counseling

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examination and investigation of critical issues in higher education counseling. Seminar reports required.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy in Higher Education Counseling option; consent of instructor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

• COUN 5187 - Supervised Practicum in Rehabilitation Counseling

(6)
This course is repeatable: Yes
Max # of units may be repeated: 6
Total # of units allowed for credit: 12
Max times this course can be taken for credit: 2

Course Description: Application of counseling theory and the development of counseling skills under supervision. Course requires 100 hours of practice, 40 of which must be in direct service with actual clients that contributes to the development of counseling skills.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): COUN 5005, consent of instructor, application filed by division deadline.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

• COUN 5188 - Supervised Internship in Rehabilitation Counseling

(6)
This course is repeatable: Yes
Max # of units may be repeated: 6
Total # of units allowed for credit: 12
Max times this course can be taken for credit: 2

Course Description: Supervised professional experience.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): COUN 5005, COUN 5187, consent of instructor, application filed by the division deadline.
needs permission to enroll: yes, instructor consent
special fee applied: no

coun 5189 - fieldwork in rehabilitation transition settings
(2)
this course is repeatable: yes
max # of units may be repeated: 2
total # of units allowed for credit: 4
max times this course can be taken for credit: 2

course description: supervised professional experience in a transition/school to work setting. may be repeated to a maximum of 4 units.
hours per week: n/a lecture hour(s).
grading: cr/nc
mode of delivery: face to face

  Needs Permission to Enroll: No
  Special Fee Applied: No

- **COUN 5230 - Family Counseling Laboratory Fieldwork**
  (2)

  This course is repeatable: Yes
  Max # of units may be repeated: 10
  Total # of units allowed for credit: 12
  Max times this course can be taken for credit: 4

  **Course Description:** Supervised counseling of couples and families utilizing strategies and techniques of systems theory; practical experience designed to enhance students' skills as family counselors. Lecture 1 hour, laboratory 3 hours.
  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face
  **Campus:** Main Campus

  Prerequisite(s): COUN 5024
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **COUN 5252 - Counseling and Human Sexuality**
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** Latest developments in theory and research in area of human sexuality as these pertain to role of counselor.
  **Hours per Week:** 3 lecture hour(s).
COUN 5257 - Career Education and Guidance in Schools

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Career education and guidance covering elementary through high school years. Use of activities, theory, and information in the construction of career education programs.
Hours per Week: 3 lecture hour(s).

COUN 5281 - Seminar: Leadership in Pupil Personnel Services

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Organization, administration, and evaluation of comprehensive, competency-based pupil personnel programs in Public K-12 schools or Community Colleges. Program development and implementation; collaboration with school administration, other helping professionals and community; child welfare and attendance procedures and laws related to minors.
Hours per Week: 3 lecture hour(s).

COUN 5286 - Supervised Field Experience in School Counseling

(3)

This course is repeatable: Yes
Max # of units may be repeated: 9
Total # of units allowed for credit: 12
COUN 5289 - Site Practicum in Marriage, Family, and Child Counseling

(3)

This course is repeatable: Yes
Max # of units may be repeated: 9
Total # of units allowed for credit: 12
Max times this course can be taken for credit: 4

Course Description: Supervised counseling involving work with individuals, children, couples, and families.
Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission by application filed with division by fifth week of preceding semester
Needs Permission to Enroll: No
Special Fee Applied: No

COUN 5290 - Advanced Practicum in Marriage and Family Therapy

(6)

This course is repeatable: Yes
Max # of units may be repeated: 18
Total # of units allowed for credit: 24
Max times this course can be taken for credit: 4

Course Description: Supervised field experience in marriage and family therapy involving work with individuals, children, families, groups, and couples.
Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): Admission by application filed with division and approved by advisor
Needs Permission to Enroll: No
Special Fee Applied: No

COUN 5307 - Individual Clinical Counseling
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Supervised individual personal counseling offered to clients in a school/community setting. Students implement theory, develop case management strategies, and develop their own counseling behavior.

Hours per Week: 1 lecture hour(s), 6 laboratory hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): COUN 5010, COUN 5005, admission to school psychology or school counseling program or consent of instructor/adviser, evidence of current student liability insurance

Needs Permission to Enroll: No
Special Fee Applied: No

---

COUN 5310 - Assessment and Case Study Techniques
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Administration and interpretation of varied methods of psychological and educational assessment including cognition, perceptual and motor functioning, and social and emotional functioning, with attention to integration of results in case studies.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EDFN 3520 Recommended: COUN 5311

Needs Permission to Enroll: No
Special Fee Applied: No

---

COUN 5311 - Assessment and Case Study Techniques Lab
(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Administration and interpretation of varied methods of psychological and educational assessment including cognition, perceptual and motor functioning, and social and emotional functioning, with attention to integration of results in case studies. (Lab 3 hours).

Hours per Week: 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EDFN 3520 Recommended: COUN 5310

Needs Permission to Enroll: No
Special Fee Applied: No
COUN 5320 - Assessment of Disabilities and Evidence-Based Interventions

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Methods for identifying low and high incidence disabilities among school-aged children and adolescents. Current issues related to identifying disabilities and planning for evidence-based interventions across the curriculum.

Hours per Week: 3 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): COUN 5310
Needs Permission to Enroll: No
Special Fee Applied: No

COUN 5330 - Trauma and Crisis Counseling

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Theory, intervention strategies, and treatment models to support and counsel individuals and families in crisis. Crisis management to help communities and schools develop effective, responsive crisis management programs and trauma treatment services.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

COUN 5340 - Assessment of Social, Emotional and Behavioral Disorders

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Study and evaluation of current social, emotional, and behavioral disorders, and instruments appropriate for use in assessment and intervention planning, with an emphasis on Emotional Disturbance disability criteria.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
COUN 5360 - Practicum: School-Based Consultation
(3)

This course is repeatable: Yes  
Max # of units may be repeated: 3  
Total # of units allowed for credit: 6  
Max times this course can be taken for credit: 2

Course Description: Conceptual basis for school-based consultation including knowledge about preventive approaches applicable for use in school settings to promote development and prevent school failure. Students will initiate and carry out a consultation role with assigned teachers, administrators, and/or parents. Lecture 3 hours.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): COUN 5016, COUN 5005
Needs Permission to Enroll: No
Special Fee Applied: No

COUN 5370 - Practicum: School Psychology
(3)

This course is repeatable: Yes  
Max # of units may be repeated: 9  
Total # of units allowed for credit: 12  
Max times this course can be taken for credit: 4

Course Description: Supervised school-based activities providing direct and indirect pupil services. Meets California Commission on Teacher Credentialing standards for School Psychology. May be repeated for up to 12 units.
Hours per Week: 3 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): Admission to the School Psychology Program; Certificate of Clearance; Approved School Site; Consent of instructor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

COUN 5380 - Supervised Field Experience in School Psychology
(9)

This course is repeatable: Yes  
Max # of units may be repeated: 27  
Total # of units allowed for credit: 36  
Max times this course can be taken for credit: 4

Course Description: Supervised field experience in school psychology involving work with pupils, school personnel, parents, and community agencies. May be repeated to maximum of 16 units. One unit of credit equals seventy-five (75) hours of supervised field experience.
Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission by application filed with division by tenth week of preceding term and approved by adviser and division chair/associate chair.

Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

**COUN 5385 - Seminar: School Psychology**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: History and foundations of school psychology. Legal, ethical and professional issues and standards. Roles and functions of the school psychologist.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

**COUN 5650 - Substance Use and Co-Occurring Disorders Counseling**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Advanced review of substance related disorders and evidence-based treatment with an emphasis on motivational interviewing for counselors.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

**COUN 5900 - Special Topics in Counselor Education**

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 6
Total # of units allowed for credit: 7
Max times this course can be taken for credit: 7

**Course Description:** Intensive study of designated problems in counselor education. May be repeated for credit as subject matter changes.

**Hours per Week:** 1 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** None

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

**COUN 5910 - Research Methods in Single Subject Design**

(3)

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 3

Max times this course can be taken for credit: 1

**Course Description:** Knowledge and practical application in analyzing and conducting research utilizing single subject design methodology with emphasis on visual inspection techniques. Application of methodology to field-based, student developed research.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face, Hybrid, Online

**Campus:** Main Campus

**Prerequisite(s):** Admission to masters program or Certificate in Applied Behavior Analysis program.

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**COUN 5960 - Comprehensive Examination**

(0)

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 0

Max times this course can be taken for credit: 1

**Course Description:** See the Comprehensive Examination under the University Requirements for Master’s Degree in this eCatalog.

**Hours per Week:** 0 lecture hour(s).

**Grading:** CR/NC

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** Advancement to Candidacy

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**COUN 5970 - Graduate Research**

(1-3)
COUN 5980 - Graduate Directed Study

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

Course Description: Independent directed study of advanced topics in field; regular conferences with sponsor. May be repeated for credit.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): GPA of 3.0 (B) or better in all graduate work in education, consent of division chair, instructor to act as sponsor.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

COUN 5990A - Thesis Planning

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Prior to completion, students will have completed draft of thesis or project proposal, selected a thesis committee, and submitted draft of thesis or project proposal to thesis committee.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy.
Needs Permission to Enroll: No
Special Fee Applied: No

COUN 5990B - Thesis
This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 2

Course Description: Prior to completion, student will have submitted final draft of thesis or project proposal to thesis committee.
Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy.
Needs Permission to Enroll: No
Special Fee Applied: No

COUN 5995A - Project Planning

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Prior to completion, students will have completed draft of project proposal, selected a project committee, and submitted draft of project proposal to committee.
Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

COUN 5995B - Project

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 2

Course Description: Independent research resulting in a project. May be repeated once for credit. Required advisor approval.
Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No
Counseling (Doctoral)

- **COUN 6010 - Research Methods in Single Subject Design**
  
  (3)
  
  **This course is repeatable: No**  
  **Max # of units may be repeated: 0**  
  **Total # of units allowed for credit: 3**  
  **Max times this course can be taken for credit: 1**

  **Course Description:** Knowledge and practical application in analyzing and conducting research utilizing single subject design methodology with emphasis on causal inference. Application of methodology to field-based, student developed research.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** Admission to doctoral program.  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

Criminal Justice (Undergraduate)

- **CRIM 1010 - Introduction to Administration of Justice**
  
  (3)
  
  **This course is repeatable: No**  
  **Max # of units may be repeated: 0**  
  **Total # of units allowed for credit: 3**  
  **Max times this course can be taken for credit: 1**

  **Course Description:** History and philosophy of law enforcement and administration of justice in America; examination of various agencies, systems, and subsystems; role expectations and their interrelationships; theories of crime, punishment, and rehabilitation; ethics, education, and training for professionalism in the system. May be offered as an online or hybrid course.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face, Hybrid, Online  
  **Campus:** Main Campus

  **Prerequisite(s):** None  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

Articulation C-ID: AJ 110

This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

- **CRIM 1260 - Concepts of Criminal Law**
  
  (3)
  
  **This course is repeatable: No**  
  **Max # of units may be repeated: 0**  
  **Total # of units allowed for credit: 3**
Max times this course can be taken for credit: 1

Course Description: General provisions of criminal law; history and development; elements of a crime, parties to a crime; defenses to criminal culpability; elements of specific crimes; crimes against person, property, public place, and safety. May be offered as an online or hybrid course.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

Articulation C-ID: AJ 120
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

CRIM 2010 - Correctional Systems

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Objectives of correctional administration; laws, records, public relations, personnel, and relationships to programs, including custodial and noncustodial interrelationships and divisions; physical plant and security, employment, and care and treatment program. May be offered as an online or hybrid course.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): CRIM 1010
Needs Permission to Enroll: No
Special Fee Applied: No

Articulation C-ID: AJ 200
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

CRIM 2020 - Police and Society

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Historical and modern policing approaches; effect of organizational structure and administrative procedure on the police function; assessment of decision-making processes, police-community relations, and misconduct. May be offered as an online or hybrid course.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): CRIM 1010

Needs Permission to Enroll: No
Special Fee Applied: No

- **CRIM 2030 - Judicial Organization**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** History, concepts and services related to judicial organization, management and administration; prosecutorial and court functions. May be offered as an online or hybrid course.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF

  **Mode of Delivery:** Face to Face, Hybrid, Online

  **Campus:** Main Campus

  Prerequisite(s): CRIM 1010

  Needs Permission to Enroll: No

  Special Fee Applied: No

- **CRIM 2080 - Introduction to Forensic Science for Criminal Justice Majors**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** History, concepts, and services of the forensic sciences to the criminal justice system, including criminalistics, forensic pathology, forensic dentistry, forensic anthropology, and forensic psychiatry. May be offered as an online or hybrid course.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF

  **Mode of Delivery:** Face to Face, Hybrid, Online

  **Campus:** Main Campus

  Prerequisite(s): CRIM 1010

  Needs Permission to Enroll: No

  Special Fee Applied: No

- **Articulation C-ID:** AJ 150

  This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

- **CRIM 2100 - Multiculturalism and the Criminal Justice System**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0
**Total # of units allowed for credit:** 3  
**Max times this course can be taken for credit:** 1

**Course Description:** Historical and current relevance of race, class, gender, and sexuality to: (1) individuals and communities; (2) the experiences of offenders, victims, and criminal justice personnel; and (3) policy development, power dynamics, and the administration of criminal justice. May be offered as an online or hybrid course.  
**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face, Hybrid, Online  
**Campus:** Main Campus

**Prerequisite(s):** CRIM 1010  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

---

### CRIM 3010 - Introduction to the Discipline of Criminal Justice

(3)

**This course is repeatable:** No  
**Max # of units may be repeated:** 0  
**Total # of units allowed for credit:** 3  
**Max times this course can be taken for credit:** 1

**Course Description:** This course orients students to the academic, practitioner, and public policy components of criminal justice as a discipline and career and culminates in a written project emphasizing professional development and information literacy. May be offered online or hybrid.  
**Hours per Week:** 3 lecture hour(s).

**Grading:** ABC-/NC (Undergraduate Only)  
**Mode of Delivery:** Face to Face, Hybrid, Online  
**Campus:** Main Campus

**Prerequisite(s):** CRIM 1010 and CRIM 1260, enrollment is restricted to Criminal Justice majors  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

---

### CRIM 3030 - Theories and Perspectives in Criminal Justice

(3)

**This course is repeatable:** No  
**Max # of units may be repeated:** 3  
**Total # of units allowed for credit:** 3  
**Max times this course can be taken for credit:** 1

**Course Description:** Overview of theories and perspectives on the causes of criminal behavior; issues related to the theoretical explanation of criminal behavior. May be offered as an online or hybrid course.  
**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face, Hybrid, Online  
**Campus:** Main Campus

**Prerequisite(s):** CRIM 3010 or Criminal Justice Minor; enrollment is restricted to Criminal Justice Majors and Minors  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No
• **CRIM 3070 - Forensic Mental Health**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Nature, prevalence, and impact of mental health disorder among offenders; interrelationships of substance abuse, violence, crime and mental disorder; interventions for mental health disorders within the justice systems. May be offered as an online or hybrid course.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face, Hybrid, Online  
Campus: Main Campus  

Prerequisite(s): CRIM 3010  
Needs Permission to Enroll: No  
Special Fee Applied: No

---

• **CRIM 3080 - The Global War on Terror**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: This course examines historical trajectories, political responses, and cultural representations of the Global War on Terror. Since September 11, 2001, U.S. foreign policy has been centered on the identification and elimination of terrorist activity, at the cost of approximately $1 trillion and hundreds of thousands of civilian lives in Southwest Asia/North African (SWANA) nations. In this course, students will analyze media accounts, public policies, and the histories of “terrorism” to examine how covert and overt wars have been normalized in American politics and culture.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face, Hybrid, Online  
Campus: Main Campus  

Prerequisite(s): CRIM 3010  
Needs Permission to Enroll: No  
Special Fee Applied: No

---

• **CRIM 3090 - Juvenile Justice**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: This course provides a historical and contemporary overview of juvenile delinquency, prevention of delinquency, the juvenile justice process, and the effectiveness of juvenile justice interventions. May be offered as an online or hybrid course.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
• CRIM 3100 - Ethics and Professional Responsibility
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  
  Course Description: Nature and scope of misconduct, special risks and responsibilities, legal and institutional controls, concepts of professionalism, codes of ethics, conflict of interest, and problems in exercise of discretion. May be offered as an online or hybrid course.
  Hours per Week: 3 lecture hour(s).

• CRIM 3300 - Criminal Justice Research
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  
  Course Description: Underlying research concepts, methodologies and techniques appropriate for application in criminal justice environments, including the scientific method, basic research designs and data collection techniques. Special consideration of constraints on research within criminal justice settings. May be offered as an online or hybrid course.
  Hours per Week: 3 lecture hour(s).

• CRIM 4010 - Gangs
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
**Course Description:** This course provides an overview of gangs, outlines perspectives on gangs, describes risk factors of gang membership, details consequences of gang participation, and reviews gang intervention, prevention and suppression strategies. May be offered as an online or hybrid course.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face, Hybrid, Online

**Campus:** Main Campus

**Prerequisite(s):** CRIM 3010

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**CRIM 4020 - Substance Use and Crime**

(3)

**This course is repeatable:** No

**Max # of units may be repeated:** 0

**Total # of units allowed for credit:** 3

**Max times this course can be taken for credit:** 1

**Course Description:** An overview of alcohol and a variety of illicit substances in their relation to the criminal justice system. Substance-related offences, substance-offenders, and substance-control strategies within the criminal justice system. May be offered as an online or hybrid course.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face, Hybrid, Online

**Campus:** Main Campus

**Prerequisite(s):** CRIM 3010

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**CRIM 4030 - Violence**

(3)

**This course is repeatable:** No

**Max # of units may be repeated:** 0

**Total # of units allowed for credit:** 3

**Max times this course can be taken for credit:** 1

**Course Description:** Prevalence, frequency and context of bullying, common & aggravated assault, robbery, & homicide; perspectives and risk factors for violence; offender-victim relationships; interventions targeting violence; firearm interventions. May be offered as an online or hybrid course.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face, Hybrid, Online

**Campus:** Main Campus

**Prerequisite(s):** CRIM 3010

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**CRIM 4110 - Interpretation of Evidence in the Courtroom**
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Issues affecting the prosecution, plaintiff and defense in determining the outcome of a trial; the role of expert witnesses in presenting the principles of logic and probability. May be offered as an online or hybrid course.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): CRIM 2080, CRIM 3010
Needs Permission to Enroll: No
Special Fee Applied: No

CRIM 4120 - Crime Scene Management

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Protection and proper documentation of the crime scene contrasted with the role of the media and other significant factors that often cause conflict. May be offered as an online or hybrid course.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): CRIM 2080, CRIM 3010
Needs Permission to Enroll: No
Special Fee Applied: No

CRIM 4140 - Forensic Biology

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Fundamentals of forensic biology: crime scene investigation and the documentation, collection, and preservation of biological evidence; case management; identification and individualization of biological samples; interpretation of evidence and courtroom issues.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CRLT 4090, (BIOL 3400 or equivalent), (BIOL 4150 or BIOL 3000 or equivalent statistics course for science majors)
Needs Permission to Enroll: No
Special Fee Applied: No
• CRIM 4150 - Forensic Chemistry

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Qualitative and quantitative methods in the forensic analysis of controlled substances, including wet chemistry and instrumental methods; chemical analysis of physical evidence, including fire scene debris, explosive material and gunshot residue analysis. (Lecture 1 hours, laboratory 2 hours)
Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): CRIT 4090, CHEM 3500, CHEM 2200, CHEM 2201. (CHEM 2211 or equivalent)
Needs Permission to Enroll: No
Special Fee Applied: No

• CRIM 4280 - California Criminal Justice Policy

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examination of California criminal justice policy and its social, cultural, and political impact on the administration of justice. Course is limited to Criminal Justice Majors only.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus
Prerequisite(s): CRIM 3010
Needs Permission to Enroll: No
Special Fee Applied: No

• CRIM 4450 - Legal Issues for Police Officers

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Focuses on the legal basis for most police actions, its fluidity, and how it has changed recently. Case law will also be reviewed. May be offered as an online or hybrid course.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): CRIM 3010
Needs Permission to Enroll: No
Special Fee Applied: No

- **CRIM 4460 - Community Policing and Problem Solving**

  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** Contemporary police problems and new strategies and practices for addressing crime and neighborhood disorder. Emphasis on the history, definition, evaluation, and models of community policing. May be offered as an online or hybrid course.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face, Hybrid, Online
  **Campus:** Main Campus

  Prerequisite(s): CRIM 3010
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **CRIM 4480 - Police and the Media**

  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** Nature of police-media relations; role of public information officers and police use of media; nature and impact of historical and modern constructions of police in news and popular media. May be offered as an online or hybrid course.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face, Hybrid, Online
  **Campus:** Main Campus

  Prerequisite(s): CRIM 3010
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **CRIM 4540 - Special Topics in Criminal Justice**

  (3)

  This course is repeatable: Yes
  Max # of units may be repeated: 12
  Total # of units allowed for credit: 15
  Max times this course can be taken for credit: 5

  **Course Description:** Current topics of special interest in Criminal Justice as announced in Schedule of Classes. May be repeated to maximum of 15 units of credit as topic changes. May be offered as an online or hybrid course.
CRIM 4600 - Hate Crimes
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Nature of hate crimes, including the causes and consequences; effects of hate and prejudice in society; hate crime offenders and victims; responses of communities and criminal justice system.

CRIM 4610 - Offender Reentry
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Issues and Challenges of offenders returning to society after incarceration. Emphasis on individual and structural solutions and assessment of current approaches towards reentry.

CRIM 4620 - From the Crime Scene to the Courtroom
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course provides an overview of the roles and responsibilities of key personnel during the investigative, analysis, and adjudicative stages of a criminal investigation. Specifically, the focus will be on the probative value of physical evidence during an investigation. The course will be presented in an integrated fashion through the context of a minimum of three adjudicated Los Angeles County criminal cases.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): CRIM 3010
Needs Permission to Enroll: No
Special Fee Applied: No

- CRIM 4700 - Women and Crime

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examines women as offenders, victims, and employees in the criminal justice system through the prism of race, class, and gender. May be offered as an online or hybrid course.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): CRIM 3010
Needs Permission to Enroll: No
Special Fee Applied: No

- CRIM 4830 - Statistics in Criminal Justice

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to data analysis in criminal justice. Focus is on conducting descriptive and inferential statistical analyses and interpreting research findings. Manual and computer-based analyses will be conducted. May be offered as an online or hybrid course.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): CRIM 3010 and CRIM 3300
Needs Permission to Enroll: No
Special Fee Applied: No
• CRIM 4910 - Special Problems in Criminal Justice

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course provides students the opportunity to apply academic knowledge to their criminal justice professional environment. May be offered as an online or hybrid course.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): CRIM 3010
Needs Permission to Enroll: No
Special Fee Applied: No

• CRIM 4920 - Applied Criminal Justice Practice and Policy

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Application of criminal justice knowledge to examine a criminal justice problem and propose policy, practice and/or programmatic recommendations.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): CRIM 3010, CRIM 3030, CRIM 3300
Needs Permission to Enroll: No
Special Fee Applied: No

• CRIM 4930 - Civic Engagement in Criminal Justice

(3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: This course provides students with the opportunity to apply the knowledge gained in the classroom in a criminal justice-related field placement. This course may only be repeated twice for a total of 6 units. May be offered as an online or hybrid course.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): CRIM 3010
Needs Permission to Enroll: No
CRIM 4940 - Criminal Justice Leadership

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course focuses on the individual, interpersonal, and structural factors that impact criminal justice leadership and administration. May be offered as an online or hybrid course.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): CRIM 3010

CRIM 4950 - Professional Training Portfolio

(3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: This course analyzes and evaluates students' criminal justice professional development from a social science framework. May be offered online or hybrid.

Hours per Week: 3 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): CRIM 3010, completed 30 resident units

CRIM 4960 - Firearms and Toolmark Examination

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Role of firearms examiner in forensic science, including procedures for identifying firearms, toolmarks, and ammunition. Topics include muzzle-to-target distance determination, gunshot residue analysis, firearms nomenclature, comparative microscopy, serial number restoration. (Lecture 4 hours)

Hours per Week: 3 lecture hour(s).

Grading: ABC-/NC (Undergraduate Only)
CRIM 4990 - Undergraduate Directed Study

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 6

Course Description: Project selected in conference with sponsor before registration; progress meetings held regularly. May be repeated to maximum of 6 units.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CRIM 3010, 2.5 grade point average, ability to assume responsibility for independent work and to prepare written and oral reports

Needs Permission to Enroll: No
Special Fee Applied: No

Criminal Justice (Graduate)

CRIM 5010 - Seminar: Administration of Justice

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Advanced studies of interrelating component parts of criminal justice system, with particular emphasis on managerial aspects of agencies involved. Maybe offered as an online or hybrid course.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None

Needs Permission to Enroll: No
Special Fee Applied: No

CRIM 5110 - Principles of Research

(3)

This course is repeatable: No
CRIM 5120 - Quantitative Applications

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Statistical methods as applied to problems in crime and criminal justice; data description, data analysis, hypothesis testing, and inference using packaged statistical programs. Maybe offered as a hybrid or online course.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): CRIM 5110, (CRIM 4830 or an upper division undergraduate statistics course)
Needs Permission to Enroll: No
Special Fee Applied: No

CRIM 5200 - Multiculturalism in Criminal Justice

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course utilizes an intersectional framework to examine the historical and current relevance of race, class, gender, and sexuality to: (1) individuals and communities; (2) the experiences of offenders, victims, and criminal justice personnel; and (3) policy development, power dynamics, and the administration of criminal justice. Maybe offered as an online or hybrid course.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): CRIM 5010
Needs Permission to Enroll: No
Special Fee Applied: No

• CRIM 3300

Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Methodology, research strategy, question development, and research ethics. Detailed review of methods appropriate for criminal justice. Maybe offered as an online or hybrid course.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): CRIM 3300
Needs Permission to Enroll: No
Special Fee Applied: No
- **CRIM 5300 - Theories and Perspectives in Criminal Justice**
  
  (3)
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  
  
  **Course Description:** Functions of theory building and testing as fundamental parts of scientific method in criminal justice; examination and evaluation of criminological theories. Maybe offered as an online or hybrid course.  
  **Hours per Week:** 3 lecture hour(s).  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face, Hybrid, Online  
  **Campus:** Main Campus  
  
  **Prerequisite(s):** Admission to the graduate program.  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

- **CRIM 5380 - Seminar: Criminal Justice Problems**
  
  (3)
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  
  
  **Course Description:** Advanced investigation and reports on selected critical problems in criminal justice; emphasis on scientific method and acquaintance with reliable methods of research. Maybe offered as an online or hybrid course.  
  **Hours per Week:** 3 lecture hour(s).  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face, Hybrid, Online  
  **Campus:** Main Campus  
  
  **Prerequisite(s):** None  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

- **CRIM 5900 - Planning and Program Development**
  
  (3)
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  
  
  **Course Description:** Review of different planning and evaluation models used in applied research to build programming targeted at specific criminal justice issues and to evaluate their effectiveness. Maybe offered as an online or hybrid course.  
  **Hours per Week:** 3 lecture hour(s).  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face, Hybrid, Online  
  **Campus:** Main Campus  
  
  **Prerequisite(s):** CRIM 5010, CRIM 5110, CRIM 5120, CRIM 5300  
  **Needs Permission to Enroll:** No
• CRIM 5960 - Comprehensive Exam

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 0
Max times this course can be taken for credit: 1

Course Description: See the Comprehensive Examination under the University Requirements for Master's Degree in this eCatalog.

Hours per Week: 0 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy
Needs Permission to Enroll: No
Special Fee Applied: No

• CRIM 5980 - Graduate Directed Study

This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 6

Course Description: Independent study of advanced topics covering the criminal justice system; regular conferences with sponsor. May be repeated to maximum of 9 units; maximum of 12 units in combination of CRIM 4990 and 5980 may be applied toward degree.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent to act as sponsor
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

• CRIM 5995A - Criminal Justice Capstone

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course requires students to apply concepts from CRIM 5900 in a real-world setting in order to produce a capstone project. Maybe offered as an online or hybrid course.

Hours per Week: 3 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus
Criminalistics (Undergraduate)

- **CRLT 4090 - Applications of Forensic Science**
  
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description**: Discussion of techniques and concepts in the forensic sciences: the application of scientific methods and techniques to justice systems. Overview of forensic pattern analysis. Quality assurance/control and certification/accreditation guidelines.

  **Hours per Week**: 3 lecture hour(s).

  **Grading**: ABCDF
  **Mode of Delivery**: Face to Face
  **Campus**: Main Campus

  **Prerequisite(s)**: BIOI 1100, BIOI 1200, CHEM 1100, (CHEM 1110 or equivalent)

  **Needs Permission to Enroll**: No
  **Special Fee Applied**: No

Criminalistics (Graduate)

- **CRLT 5100 - Graduate Seminar: Ethical, Managerial and Contemporary Issues in Forensic Science**
  
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 4
  Max times this course can be taken for credit: 1

  **Course Description**: Examines parameters that affect the quality of scientific results entering the criminal justice system. Discusses validity and reliability and includes presentations by experts on forensic science-related publications and original research.

  **Hours per Week**: 3 lecture hour(s).

  **Grading**: ABCDF
  **Mode of Delivery**: Face to Face
  **Campus**: Main Campus

  **Prerequisite(s)**: None
  **Needs Permission to Enroll**: No
  **Special Fee Applied**: No

- **CRLT 5150 - Research Methods and Statistical Analysis in Forensic Science**
  
  (3)
Course Description: Research addressing scientific problems in forensic science, including experimental design, hypotheses, variables. Statistics applied to forensic science data: genetic typing, population genetics, transfer evidence, likelihood ratio, relatedness testing, population databases.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): BIOL 3000 or equivalent
Needs Permission to Enroll: No
Special Fee Applied: No

CRLT 5500 - Crime Scene Reconstruction
(4)

Course Description: Fundamentals of crime scene processing, reconstruction, and report writing. Instruction in pattern analysis typically found at crime scenes, such as blood spatter interpretation, glass fracture and firearms-related reconstructions. Seminar: 2 hours, Laboratory: 6 hours.

Hours per Week: 6 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

CRLT 5520 - Trace Evidence Analysis
(4)

Course Description: Microscopic and chemical methods of analysis of forensic trace evidence; focus includes forensic examination of hair, fibers, paint, glass, soil and crystalline materials. Seminar: 2 hours, laboratory: 6 hours.

Hours per Week: 2 lecture hour(s). 6 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No
• CRLT 5530 - Forensic Serology and DNA Analysis

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Forensic serology and current methods of forensic analysis. Emphasis on molecular techniques with introduction to population statistics. Seminar: 2 hours, Laboratory: 6 hours.

Hours per Week: 2 lecture hour(s). 6 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

• CRLT 5570 - Forensic Pathology

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Correlation of findings of forensic pathologist and criminalist; identification of human remains; traumatic injuries, evaluation of wounds, time of death, post mortem lividity, algor mortis; recognition of poison deaths.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

• CRLT 5590 - Forensic Microscopy

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Fundamentals of forensic microscopy; emphasis on light microscopy, including polarized light, dark and bright field, fluorescence, and phase contrast illumination; scanning and transmission electron microscopy techniques. Seminar: 2 hours, laboratory: 6 hours.

Hours per Week: 2 lecture hour(s). 6 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
CRLT 5600 - Forensic Toxicology and Controlled Substances Analysis

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: identification of drugs and poisons by physical, chemical and instrumental methods; metabolism, organ distribution. Methods of extraction, analysis of toxicity in human tissues; qualitative and quantitative analysis; pharmacodynamics and pharmacokinetics. Seminar 2 hours, Laboratory 6 hours.
Hours per Week: 2 lecture hour(s). 6 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

CRLT 5620 - Courtroom and Legal Issues in Criminalistics

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Legal issues of concern to the forensic scientist: search and seizure, chain of custody, expert testimony and courtroom scientific admissibility of analytical results. Discussion of ethical dilemmas of concern to forensic scientists.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

CRLT 5630 - Forensic Analysis of Firearms, Toolmarks, and Serial Number Restoration

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Muzzle-to-target distance determination, gunshot residue analysis, comparative microscopy, serial number resotration, history of firearm and ammunition development, clasification of firearms and ammunition components, quality assurance, and uncertainty of
CRLT 5640 - Questioned Document and Handwriting Examination

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Scientific methods of identification and examination of questioned documents and handwriting; detection of forgery, falsification, and counterfeiting; restoration of erasures/obiterations; recognition and selection of standards; examination of computerized documents.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor Consent.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

CRLT 5950 - Directed Field Work

(3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Supervised individual field experience in an applied area of forensic science.
Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): School approval, agency acceptance.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No
Notes:

- All 4000-level courses may be applied toward master's degree requirements, subject to limits established by the department and approval of the graduate adviser.
- Classified graduate standing is required for enrollment in 5000-level courses; exception applies to students who are enrolled in a postbaccalaureate certificate or credential program.

Criminalistics (Graduate)

- CRLT 5995 - Project for Culminating Experience

  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Project for Culminating Experience
  Hours per Week: 9 laboratory hour(s).

  Grading: CR/NC
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): Consent of an approved research committee to act as sponsor, completion of appropriate forms, approval of school.
  Needs Permission to Enroll: Yes, Instructor Consent
  Special Fee Applied: No
• CDIV 4810 - Understanding Cultural Diversity Within Human Services
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Preparation for culturally competent practice within a wide variety of human services settings in diverse communities; a cultural lens and reflective stance promote exploration of attitudes, values, beliefs and worldview.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• CDIV 4950 - Practicum: Serving Diverse Communities
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Hands-on experience in a multicultural human service agency; service-learning focus that provides opportunities to reflect on practicum experiences in order to enhance understandings of theory.

Hours per Week: 2 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CDIV 4810, completion of at least (6) additional semester units of course work that count toward the CDIV certificate.
Needs Permission to Enroll: No
Special Fee Applied: No

• EDCI 1001 - Supplemental Instruction and Pedagogical Workshop
(1)

This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 6

Course Description: Exploration of learning principles for successful university study in small workgroups to master course content and develop transferable study skills (reasoning, communication, self-assessment). May be repeated to a maximum of 6 units for credit.

Hours per Week: 3 activity hour(s).

Grading: CR/NC
EDCI 2020 - Visual and Performing Arts in the Inclusive Elementary Classroom

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course is based on the visual and performing arts instruction for teachers in inclusive elementary school settings, through the exploration/investigation of dance, music, theatre, and visual arts education.

Hours per Week: 3 lecture hour(s).

EDCI 3700 - The equitable advancement of scientific principles in education and community through stem education

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: The advancement of scientific principles in education and community through STEM Education in the 19th, 20th and 21st centuries. The power of STEM Education to support equity, diversity and inclusive teaching and learning. Equity and access to STEM professional fields. Application of scientific principle and analysis of empirical data in shaping a broad understanding of the natural world. The interconnectedness and impact of Science, Technology, Engineering and Mathematics in educational, societal, environmental and technological contexts.

Hours per Week: 3 lecture hour(s).

EDCI 4000 - Transformative Teaching in Diverse Urban Classrooms

This course is repeatable: No
EDCI 4009 - Pedagogical Introduction to Transformative Educational Leadership (3)

- Max # of units may be repeated: 0
- Total # of units allowed for credit: 3
- Max times this course can be taken for credit: 1

Course Description: Practical, dispositional introduction for developing personal visions as Transformative Educational Leaders. Introduction to laws, and analysis, application and evaluation of strategies to prepare teacher candidates to teach in urban schools.

Hours per Week: 3 lecture hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Open to all upper-division students admitted to the university; or teacher candidates who are admitted to the Charter College of Education. Requires verification of completion of 45 hours of early field experiences in a K-12 public school classroom.
Needs Permission to Enroll: No
Special Fee Applied: No

EDCI 4010 - English Language Development (3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to language acquisition, and related cultural aspects of learning in urban classrooms; analysis, application, evaluation of strategies for teaching language arts for first and second language development, ELD strategies. Includes laboratory experiences in a field setting.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

EDCI 4011 - Cognitive, Linguistic and Literacy Development of Diverse Learners (3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Theory and pedagogy of language and literacy development. Impact of second language acquisition, disabilities, and culture on linguistic and literacy development of diverse learners. Informal assessment of language skills.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to ULRN Accelerated Dual Credential Option
Needs Permission to Enroll: No
Special Fee Applied: No
• EDCI 4111 - Curriculum and Teaching of Integrated Literacy and Communication

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis, application, and evaluation of strategies for teaching and learning of integrated literacy and communication in a diverse linguistic, socioeconomic, and cultural milieu.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to ULRN Accelerated Dual Credential Option
Needs Permission to Enroll: No
Special Fee Applied: No

• EDCI 4112 - Curriculum and Teaching of STEM Education

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis, application and evaluation of strategies for transformative teaching of STEM education in a diverse linguistic, socioeconomic, and cultural milieu.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to ULRN Accelerated Dual Credential Option
Needs Permission to Enroll: No
Special Fee Applied: No

• EDCI 4113 - Curriculum and Teaching of Social Studies, Civic Learning and Humanities

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis, application and evaluation of strategies for transformative teaching of Social Studies, Civic Learning and Humanities education in a diverse linguistic, socioeconomic, and cultural milieu.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to ULRN Accelerated Dual Credential Option
- **EDCI 4150 - Teaching For Thinking**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  

  **Course Description:** Perspectives and practices to integrate problem-solving, critical thinking, and the development of reflection and self-regulation into all content area course instruction.  
  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** None  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

- **EDCI 4270 - Current Topics in Multicultural Children’s Literature**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  

  **Course Description:** An introduction to the use of multicultural children’s literature in the classroom. Survey, analysis and current trends and topics in relation to the use of multicultural children’s literature.  
  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABC-/NC (Undergraduate Only)  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** None  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

- **EDCI 4292 - 21st Century Assessment Strategies and Processes**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  

  **Course Description:** Develop, adapt, and manage student-centered assessment strategies based on the needs of diverse students in urban contexts that meet the needs of 21st century classrooms.  
  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF
• **EDCI 4310 - Advanced Teaching and Learning of Mathematics in Schools**

   (3)

   This course is repeatable: No  
   Max # of units may be repeated: 0  
   Total # of units allowed for credit: 3  
   Max times this course can be taken for credit: 1  

   **Course Description:** Advanced analysis, application, and evaluation of strategies for teaching and learning of mathematics in various socioeconomic and cultural milieu.  
   **Hours per Week:** 3 lecture hour(s).  
   **Grading:** ABCDF  
   **Mode of Delivery:** Face to Face  
   **Campus:** Main Campus

• **EDCI 4330 - Special Topics in Mathematics for Teachers**

   (3)

   This course is repeatable: No  
   Max # of units may be repeated: 0  
   Total # of units allowed for credit: 3  
   Max times this course can be taken for credit: 1  

   **Course Description:** Instructional laboratory for teachers; current strategies, materials, and terminology for teaching specific domains from Mathematics Framework for California public schools.  
   **Hours per Week:** 3 lecture hour(s).  
   **Grading:** ABCDF  
   **Mode of Delivery:** Face to Face  
   **Campus:** Main Campus

• **EDCI 4350 - Using Digital Tools in Teaching Problem Solving and Modeling in Mathematics**

   (3)

   This course is repeatable: No  
   Max # of units may be repeated: 0  
   Total # of units allowed for credit: 3  
   Max times this course can be taken for credit: 1
Course Description: Instructional laboratory on how digital tools can be utilized in teaching mathematics, with a special emphasis on problem solving and modeling.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): Consent of instructor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

EDCI 4510 - Teaching Science in Elementary School
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Intensive study in teaching science in elementary school; exploration, analysis, interpretation, and implementation of modern teaching trends, issues, and materials, with urban emphasis.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): Teaching experience
Needs Permission to Enroll: No
Special Fee Applied: No

EDCI 4550 - Introduction to the edTPA Portfolio Preparation for Pre-Service Teachers
(3)
This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2
Course Description: This course gives an overview and introduction of the EdTPA for pre-service teachers. Students will develop a 'practice edTPA Portfolio' and be given opportunities to troubleshoot, receive peer feedback, together with instructor's comments in preparation for their 'Formal edTPA Portfolio' which will be completed during student teaching.
Hours per Week: 3 lecture hour(s).
Grading: CR/NC
Mode of Delivery: Hybrid
Campus: Main Campus
Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

EDCI 4560 - Advanced edTPA Portfolio Preparation for Pre-Service Teachers
(3)
This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: This course reviews the requirements of the EdTPA for pre-service teachers. Students will develop and complete a formal EdTPA Portfolio, to be completed during their Directed Teaching assignment. They will choose a unit of study, create 3-5 lesson plans with corresponding assessments, deliver and video record the instruction, and then respond to Tasks 1-3 (Single Subject) or Tasks 1-4 (Multiple Subject). Together with the instructor’s support in preparation for submitting the completed portfolio during their final week of student teaching, the teacher candidates will be given opportunities in class to troubleshoot and receive peer feedback prior to submitting their formal EdTPA Portfolio.

Hours per Week: 3 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Hybrid
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

EDCI 4570 - CSET Preparation: Subtest I Multiple Subject-RLA and Social Science

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: This course reviews the requirements of the Multiple Subject CSET Subtest I for pre-service teachers. Students will develop and complete practice exams for the CSET Subtest I. Together with the instructor’s support in preparation for taking the exam, the teacher candidates will be given opportunities in class to troubleshoot and receive instructor and peer feedback prior to their exam date.

Hours per Week: 3 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

EDCI 4580 - CSET Preparation: Subtest II Multiple Subject-Science and Math

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: This course reviews the requirements of the Multiple Subject CSET Subtest II for pre-service teachers. Students will develop and complete practice exams for the CSET Subtest II. Together with the instructor’s support in preparation for taking the exam, the teacher candidates will be given opportunities in class to troubleshoot and receive instructor and peer feedback prior to their exam date.

Hours per Week: 3 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus
**EDCI 4590 - CSET Preparation: Subtest III Multiple Subject-PE, VPA, Hum Devel**  
(3)

This course is repeatable: Yes  
Max # of units may be repeated: 3  
Total # of units allowed for credit: 6  
Max times this course can be taken for credit: 2

**Course Description:** This course reviews the requirements of the Multiple Subject CSET Subtest III for pre-service teachers. Students will develop and complete practice exams for the CSET Subtest III. Together with the instructor’s support in preparation for taking the exam, the teacher candidates will be given opportunities in class to troubleshoot and receive instructor and peer feedback prior to their exam date.  
**Hours per Week:** 3 lecture hour(s).

**Grading:** CR/NC  
**Mode of Delivery:** Face to Face, Hybrid, Online  
**Campus:** Main Campus

**Prerequisite(s):** None  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

---

**EDCI 4730 - Storytelling for Teachers**  
(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Developing skills of storytelling methods in social and cultural settings such as classrooms. Using and Applying strategies of storytelling through concurrent field site experiences in the community. Lecture 2 hours, activity 1 hour.  
**Hours per Week:** 2 lecture hour(s).

**Grading:** ABC-/NC (Undergraduate Only)  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** None  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

---

**EDCI 4800 - Teaching Problem Solving with LOGO**  
(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Theory and methods for teaching the programming language LOGO, with emphasis on problem-solving. (Hands-on computer laboratory.)  
**Hours per Week:** 3 lecture hour(s).
**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** None  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

- **EDCI 4881 - Support Supervision in Field Experiences**  
  (2)  
  
  **This course is repeatable:** Yes  
  **Max # of units may be repeated:** 6  
  **Total # of units allowed for credit:** 8  
  **Max times this course can be taken for credit:** 4

  **Course Description:** This course is restricted to students in the Cal State LA University Multiple and Single Subject Teaching Credential Internship Programs. It provides supervision and support in instruction to interns in their classrooms. (May be repeated to a maximum of 8 units for credit).  
  **Hours per Week:** 2 lecture hour(s).

  **Grading:** CR/NC  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** None  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

  **This course is repeatable:** No  
  **Max # of units may be repeated:** 0  
  **Total # of units allowed for credit:** 3  
  **Max times this course can be taken for credit:** 1

  **Course Description:** This course is restricted to students in the CSULA University Multiple and Single Subject Teaching Credential Internship Programs. It provides supervision and support in instruction to interns in their classrooms.  
  **Hours per Week:** N/A lecture hour(s).

  **Grading:** CR/NC  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** None  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

- **EDCI 4883 - Support Supervision in Field Experiences**  
  (3)  
  
  **This course is repeatable:** No  
  **Max # of units may be repeated:** 0  
  **Total # of units allowed for credit:** 3
Curriculum and Instruction (Graduate)

- **EDCI 5020 - Introduction to Science and Mathematics Content Methods**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** Introduction to pedagogical and curricular strategies for teaching science and mathematics. Emphasis on differentiating instruction for students with special needs. Verification of early field requirement.  
  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** Completion of all requirements for formal admission to the Los Angeles Urban Teacher Residency credential program  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

- **EDCI 5030 - Introduction to Schooling in Urban Communities**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** Introduction to the history of schooling in urban communities with an emphasis on understanding schooling in local contexts.  
  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** Completion of all requirements for formal admission to the Los Angeles Urban Teacher Residency credential program  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No
EDCI 5040 - Theory, Trends, and Practice in School Reform

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examination of school reform with emphasis on theory, practice and the changing role of teachers.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of all requirements for formal admission to the Los Angeles Urban Teacher Residency Credential program, completion of the Pre-Residency Block and Residency Blocks I and II of the program
Needs Permission to Enroll: No
Special Fee Applied: No

EDCI 5096 - Development of Induction Plan (also listed as EDSP 5096)

(3)

This course is repeatable: Yes
Max # of units may be repeated: 6
Total # of units allowed for credit: 9
Max times this course can be taken for credit: 3

Course Description: This course will be taken in Semester 1, 2 and 3 of the two-year Clear Credential Program. Faculty, mentor, and candidate engage in the development of the individual learning plan. Development of induction plan including identification of a mentor, creation of an individual learning plan (ILP), and analysis of teaching practice to help candidates develop enduring professional skills. The course is taken in each of 3 semesters and leads students through the induction process as they complete their self-identified ILP. May be repeated to a maximum of 9 units.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): A valid California Multiple Subject, Single Subject or Education Specialist Preliminary Credential.
Needs Permission to Enroll: No
Special Fee Applied: No

EDCI 5097 - Assessment of Induction (also listed as EDSP 5097)

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course should be taken in the fourth semester of the Clear Credential Program. Final assessment of the individualized learning plan to be completed by the candidate, Faculty, and Mentor. The Induction Program is designed for the support and professional development of the beginning educator.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): A valid California Multiple Subject, Single Subject or Education Specialist Preliminary Credential.
Needs Permission to Enroll: No
Special Fee Applied: No

- **EDCI 5110 - Advanced Classroom Assessment in the Urban School**
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: An advanced treatment of the field of classroom assessment emphasizing authentic methodologies focusing on urban classroom settings in context of differentiated instruction, pedagogy and foundations of education.
  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): Completion of Residency Block III of the Los Angeles Urban Teacher Residency Credential program.
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **EDCI 5130 - Reading as a Cognitive Process**
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Advanced study of current issues and programs in reading instruction; application of recent research findings to reading curriculum.
  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): (EDEL 4150, EDEL 4160) or (EDSE 4501, EDSE 4502) or equivalent or teaching credential
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **EDCI 5200 - Advanced Methods for Teaching Secondary Content**
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Advanced analysis and evaluation of instructional strategies, objectives, current methods and curriculum in urban secondary teaching emphasizing current research and materials, assessment, parental and community resources, and digital technologies.
EDCI 5201 - Methods for Teaching Mathematics
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Instructional strategies, objectives, current methods and curriculum in the teaching of mathematics in the urban setting. Includes current research, instructional materials, community resources, and instructional technologies for teaching mathematics.
Hours per Week: 3 lecture hour(s).

EDCI 5210 - Research in Teaching Reading, Writing, and Related Language Arts
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Analysis of the Prek-14 reading, writing and related language arts instruction research knowledge base for the enhancement of reading, writing, and related language arts programs
Hours per Week: 3 lecture hour(s).

EDCI 5220 - Literacy Assessment and Instruction
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

**Course Description:** Investigates formal, informal and curriculum-embedded assessments across literacy skill components; instruction in reading, writing and language arts classroom instruction; skills for screening, diagnosis, and intervention of struggling readers and writers.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** (EDEL 4150, EDEL 4160) or (EDSE 4501, EDSE 4502) or equivalent or EDUR status or teaching credential.

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**EDCI 5230 - Advanced Writing Assessment and Instruction in Schools**

(3)

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 3

Max times this course can be taken for credit: 1

**Course Description:** Analysis of writing development and instruction in PreK - Community College and the use of authentic evaluation procedures. Requires advanced action research project.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** (EDEL 4150, EDEL 4160) or (EDSE 4501, EDSE 4502) or equivalent or EDUR status or teaching credential.

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**EDCI 5240 - Advanced Literacy Assessment and Instruction**

(3)

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 3

Max times this course can be taken for credit: 1

**Course Description:** Advanced diagnosis of struggling readers/writers: advanced study of reading, writing and language arts instruction; diagnosis and instruction of all students, most at-risk of reading/writing failure.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** EDCI 5220

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**EDCI 5250 - Integrated Mathematics and Science Methodological Content Literacy**
EDCI 5270 - Issues and Trends in the Use of Children’s Literature and Digital Technologies

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Explore issues and trends in teaching digital/media technologies using children’s literature for literature-based instruction.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

EDCI 5310 - Seminar: Research in Teaching Mathematics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis of research on instruction and learning; application of implications of research to the solution of classroom problems. An action research project, including an extensive review of the literature, is required.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Consent of Instructor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No
• **EDCI 5330 - Children’s and Adolescents’ Reading Materials in Spanish and Other Languages**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Spanish and multilingual reading materials suitable for development or enrichment of reading/language arts skills at Pre K-12 level in urban classrooms. Fieldwork required.  
Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): Proficiency in Spanish or another language at 300B proficiency level or equivalent.  
Needs Permission to Enroll: No  
Special Fee Applied: No

• **EDCI 5350 - Teaching for Cross-Cultural and Global Awareness**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Instructional strategies, materials, resources for examining cross-cultural and global education issues in the classroom.  
Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): None  
Needs Permission to Enroll: No  
Special Fee Applied: No

• **EDCI 5351 - Seminar: Assessment Strategies in Mathematics**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Analysis of and practice in the use of assessment models that focus on mathematical thinking.  
Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus
EDCI 5370 - Teacher Leadership in the Urban School: Issues, Trends, and New Directions
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course prepares teachers to examine and execute leadership roles in educational institutions. It includes instructional leadership, implementing Action Research in leadership and school change, and National Board Certification.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

EDCI 5400 - Reading and Writing Clinical Practicum
(3)
This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 3

Course Description: Supervised experience in small-group reading and writing remediation with PreK-community college students, ELLs, covering all ranges of skills/abilities.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EDCI 5220, or instructor consent
Needs Permission to Enroll: No
Special Fee Applied: No

EDCI 5410 - Field Work in Reading, Writing and Related Language Arts
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Supervised field experience in organization, administration, and supervision of district/school level reading, writing and related language arts programs. This course requires service learning.

Hours per Week: N/A lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EDCI 5400 and instructor consent
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

This is a service learning course.

**EDCI 5420 - Interdisciplinary Creative and Reflective Methods for Teaching and Learning**

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to theories, practices and models of creative and reflective methods such as educational drama, story and oral history as essential to transformative and constructivist pedagogy in educational settings. Lecture 2 hours, activity 1 hour.

Hours per Week: 2 lecture hour(s), 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

---

**EDCI 5490 - Developing English Reading/Language Arts Skills in Bilingual/Cross-Cultural Individuals**

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis of research, curriculum design and selection of materials and strategies for the development of English reading/language arts skills for the culturally/linguistically diverse PreK-14 student.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

---

**EDCI 5501 - Advanced Fieldwork in Curriculum and Instruction in the Classroom**

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: This is an advanced fieldwork course in curriculum and instruction. It is designed to support and assess beginning teachers’ skills and knowledge necessary to be effective practitioners and to become knowledgeable about California teaching standards and frameworks. Course includes field experiences in the classroom.
Hours Per Week: 1 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Level I credential, enrollment in an induction or a Master of Arts degree in Education program.
Needs Permission to Enroll: No
Special Fee Applied: No

---

EDCI 5502 - Advanced Fieldwork in Curriculum and Instruction in the Classroom

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: This is an advanced fieldwork course in curriculum and instruction. It is designed to support and assess beginning teachers’ skills and knowledge necessary to be effective practitioners and to become knowledgeable about California teaching standards and frameworks. Course includes field experiences in the classroom.
Hours Per Week: 1 lecture hour(s).

Grading: CR/NC

EDCI 5510 - Reflection, Synthesis, Assessment: Induction Portfolio

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: This is a capstone course designed for teachers pursuing a Level II Multiple Subject or Single Subject credential. Teachers demonstrate evidence of knowledge and skills of advanced coursework and teaching experience reflective of present competence and assessment of professional and academic growth achieved during the program.
Hours Per Week: 1 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Level I teaching credential and teaching experience. Corequisite(s): EDCI 5960
Needs Permission to Enroll: No
Special Fee Applied: No

---
• EDCI 5540 - Research and Methods for Teaching in Bilingual/Cross-Cultural Classrooms

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Exploration and application of research-based pedagogy in programs for English learners in bilingual/cross-cultural and dual language classrooms. Includes focus on SDAIE and assessment. Fieldwork required.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graduate Status, Teaching Credential, TESL 5600 or consent of instructor
Needs Permission to Enroll: No
Special Fee Applied: No

• EDCI 5560 - Inquiry into Methods of Teaching Academic Literacy in the Target Language

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Curriculum, research and pedagogy in literacy in the target language grades K-12, for speakers of that language or for speakers English in bilingual programs. Instruction partly in the target language. Fieldwork is required.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Target language fluency at the 3000 level and graduate status or consent of instructor.
Needs Permission to Enroll: No
Special Fee Applied: No

• EDCI 5570 - Research and Pedagogy for the Bilingual Learner: Exploring Cultural Impact

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Traditions, roles, status, communication patterns of culture as experienced in specified country(ies) and the U.S. Cross-/inter-/intra-cultural relationships/interactions and cultural contributions in California and the U.S. [i.e. Chicano/Latino; Chinese/Chinese American]. Fieldwork is required. Course conducted bilingually in target language and English.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): Teaching credential, graduate status or consent of instructor.
Needs Permission to Enroll: No
Special Fee Applied: No

- EDCI 5580 - Reflection, Synthesis, and Assessment: Bilingual Authorization Portfolio
  (1)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 1
  Max times this course can be taken for credit: 1
  Course Description: This is a capstone course designed for candidates pursuing Bilingual Authorization Certificate. Candidates demonstrate evidence of knowledge and skills of advanced coursework and bilingual teaching experience reflective of professional and academic growth achieved during the program. Fieldwork required.
  Hours per Week: 1 lecture hour(s).
  Grading: CR/NC
  Mode of Delivery: Face to Face
  Campus: Main Campus
  Prerequisite(s): Admission restricted to Bilingual Authorization Certificate Candidates. Teaching credential and teaching experience.
  Needs Permission to Enroll: No
  Special Fee Applied: No

- EDCI 5600 - Principles and Practices of Curriculum in Urban Schools
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  Course Description: Curricular trends in historical perspective; sociological change, research in child growth and development, basic philosophies. Objectives, practices, materials, evaluation in curriculum development process including school reform and transformation.
  Hours per Week: 3 lecture hour(s).
  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus
  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: No

- EDCI 5700 - Introduction to Action Research for Classroom Teachers
  (1)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 1
  Max times this course can be taken for credit: 1
  Course Description: Course explores the role of teacher research in urban classrooms. Focus is on the development of topics and research questions.
  Hours per Week: 1 lecture hour(s).
Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): Completion of all requirements for formal admission to the MA in Education.  
Needs Permission to Enroll: No  
Special Fee Applied: No

- EDCI 5710 - Research Seminar I

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Practicum with faculty where students construct a research project guided by faculty and peers. Preparation includes elements of proposing and conducting research, faculty and student examination of research process.  
Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): Completion of all requirements for formal admission to the MA in Education: Option in Secondary Teaching Program; student must be advanced to candidacy.  
Needs Permission to Enroll: No  
Special Fee Applied: No

- EDCI 5711 - Research Seminar II

Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission into the Ed.D. program in Educational Leadership.
Needs Permission to Enroll: No
Special Fee Applied: No

EDCI 6750 - Advanced Pedagogical Strategies for Achieving Equity
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Cultural competence necessary to promote instructional, policies and practices that value difference and ensure equity in effective organizations; advanced instructional strategies that stimulate cognitive and academic development of diverse students.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to doctoral program.
Needs Permission to Enroll: No
Special Fee Applied: No
EDCI 6770 - Leadership in Curriculum and Assessment for Linguistically and Culturally Diverse Urban Students

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Theories/practices of curriculum and assessment; curriculum contexts, change, continuity, articulation, and censorship; cutting edge content trends; resource optimization for transforming curriculum; constructing evidence-based decision-making cultures that improve student outcomes.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission into Doctoral Program.
Needs Permission to Enroll: No
Special Fee Applied: No

Dance (Undergraduate)

DANC 1000 - Beginning Ballet

This course is repeatable: Yes
Max # of units may be repeated: 6
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 3

Course Description: Students develop technical skills at the beginning ballet level and increase technical proficiency in ballet vocabulary and knowledge of historical developments. May repeat to 6 units.
Hours per Week: 4 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

DANC 1200 - Beginning Jazz Dance

This course is repeatable: Yes
Max # of units may be repeated: 6
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 3

Course Description: Activities designed to develop beginning skills in jazz dance accompanied by background information relevant to the dance form. May be repeated to maximum of 6 units.
DANC 1400 - Contemporary Dance

(2)

This course is repeatable: Yes
Max # of units may be repeated: 6
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 3

Course Description: Introduction to contemporary dance with a focus on alignment, flexibility, strength, the fundamentals of dance vocabulary and the connection between movement, thought and emotion. May be repeated up to 6 units.

Hours per Week: 4 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

DANC 1570 - Cross-Cultural Themes in Dance

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analyzing developments in dance and cultivating imagination and sensitivity to cross-cultural themes in human behavior. Understanding ongoing cultural dance traditions. Lecture 2 hours; activity 2 hour.

Hours per Week: 2 lecture hour(s), 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

DANC 1600 - Beginning Tap Dance

(1)

This course is repeatable: Yes
Max # of units may be repeated: 3
DANC 2000 - Intermediate Ballet

(2)

This course is repeatable: Yes
Max # of units may be repeated: 6
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Students develop skills at the intermediate level of ballet, learning vocabulary, relevant theoretical considerations, and the historical foundations of ballet aesthetics. May be repeated to maximum of 6 units.

Hours per Week: 4 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): DANC 1000 or instructor consent
Needs Permission to Enroll: No
Special Fee Applied: No

DANC 2200 - Intermediate Jazz Dance

(2)

This course is repeatable: Yes
Max # of units may be repeated: 6
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 3

Course Description: Activities designed to develop intermediate skills in jazz dance accompanied by background information relevant to the dance form. May be repeated to maximum of 6 units.

Hours per Week: 4 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): DANC 1200 or instructor consent
Needs Permission to Enroll: No
Special Fee Applied: No

DANC 2400 - Intermediate Contemporary Dance
This course is repeatable: Yes  
Max # of units may be repeated: 6  
Total # of units allowed for credit: 6  
Max times this course can be taken for credit: 2

Course Description: Continuation of development of technique focusing on alignment, flexibility, strength and introduction to more advanced movement vocabulary, including release technique and improvisation. May repeat to maximum of 6 units.

Hours per Week: 4 activity hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): DANC 1400 or instructor consent.

Needs Permission to Enroll: No  
Special Fee Applied: No

Special Fee Applied: No

• **DANC 2560 - Salsa and Contemporary Latin American Dance Practices**

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Introduction to dance practices of Contemporary Latin America including Salsa, Rueda Casino, Chachacha, Cumbia, and Merengue. Includes basic movement skills and understanding of improvisational and choreographic processes used.

Hours per Week: 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• **DANC 2700 - Choreography I**

(2)

This course is repeatable: Yes
Max # of units may be repeated: 4
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 3

Course Description: Improvisational techniques utilizing dance movements to develop individual/group sensitivities, concentration and discoveries to begin the forming process used in creating dances. May be repeated to maximum of 6 units.

Hours per Week: 6 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
• **DANC 3000 - Advanced Ballet**

(1)

This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

Course Description: Continued development of technical skills, choreographic combinations, knowledge of history and styles: Italian, Russian, French, English, Danish, American. May repeat to maximum of 12 units.

Hours per Week: 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): DANC 2000 or instructor consent.
Needs Permission to Enroll: No
Special Fee Applied: No

• **DANC 3200 - Advanced Jazz Dance**

(1)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 4

Course Description: Expanded development of skills, knowledge, analysis ability, and study of application of elements of jazz dance in solo and group work. May be repeated to maximum of 6 units.

Hours per Week: 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): DANC 2200 or instructor consent.
Needs Permission to Enroll: No
Special Fee Applied: No

• **DANC 3400 - Advanced Contemporary Dance**

(3)

This course is repeatable: Yes
Max # of units may be repeated: 6
Total # of units allowed for credit: 9
Max times this course can be taken for credit: 3

Course Description: Building on the vocabularies and technique introduced in Beginning Contemporary Dance, this course introduces new shapes and movement vocabularies essential to the contemporary dancer in the professional field. May be repeated to maximum of 9 units.

Hours per Week: 6 activity hour(s).
• DANC 3500 - Contemporary African Dance

(3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Designed for students with some prior dance experience, this class advances student knowledge of African technique and performance through an examination of contemporary and cultural Africanist traditions. May be repeated to a maximum of 6 units.

Hours per Week: 6 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Dance (Undergraduate)

- **DANC 4000 - Creative Dance in the Elementary Classroom**

  (2)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 2
  Max times this course can be taken for credit: 1

  **Course Description:** Exploration/integration of artistic perception, creative expression, historical/cultural contexts, aesthetic valuing as components of teaching/learning through dance. Meets 4 hours weekly.
  **Hours per Week:** 1 lecture hour(s), 2 activity hour(s).

  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face
  **Campus:** Main Campus

  **Prerequisite(s):** None
  **Needs Permission to Enroll:** Yes, Instructor Consent
  **Special Fee Applied:** No
DANC 4010 - Dance Techniques and Creativity in Elementary Education

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Ballet basics, modern dance technique, improvisation and creative problem solving for the elementary educator. Viewing and critical analysis of dance.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): DANC 4000

Needs Permission to Enroll: No
Special Fee Applied: No

DANC 4100 - Performance Participation

This course is repeatable: Yes
Max # of units may be repeated: 11
Total # of units allowed for credit: 12
Max times this course can be taken for credit: 12

Course Description: Detailed work as a performer on a major dance production with rehearsal and performance requirements. Enrollment required for performance participation. Meets more than 6 hours each week. May be repeated to maximum of 12 units.

Hours per Week: per unit, minimum of 3 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Consent of instructor.

Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

DANC 4200 - Dance History - Antiquity Through Nineteenth Century

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Surveys dance as embodied histories and aesthetics, examining dance practices up to the nineteenth century, and observing major developments in Western, Asian, African, and North American theatrical and ritual traditions.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): TA 3900

Needs Permission to Enroll: No
Special Fee Applied: No
• **DANC 4210 - Embodied Histories: Dance in the Twentieth and Twenty-First Century**

  (3)

  **This course is repeatable:** No  
  **Max # of units may be repeated:** 0  
  **Total # of units allowed for credit:** 3  
  **Max times this course can be taken for credit:** 1

  **Course Description:** Surveys contemporary dance history, examining major artistic movements, theories of the body, as well as feminist and global influences in the development of contemporary dance and ballet. The class approaches and analyzes the emergence of modernist dance aesthetics in the context of the suffragette movement, cultural appropriation, orientalism, modernism, postmodernism, post-colonialism and other movements.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** None  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

• **DANC 4300 - Choreographic Accompaniment**

  (3)

  **This course is repeatable:** No  
  **Max # of units may be repeated:** 0  
  **Total # of units allowed for credit:** 3  
  **Max times this course can be taken for credit:** 1

  **Course Description:** Elements of musical composition are studied as related to dance form, rhythm, mood and texture. Analysis provides the choreographer or dancer with necessary tools and techniques to choose choreographic accompaniment.

  **Hours per Week:** 1 lecture hour(s). 4 activity hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** Upper division standing or graduate student.  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

• **DANC 4350 - Dance, Movement and Identity**

  (3)

  **This course is repeatable:** No  
  **Max # of units may be repeated:** 0  
  **Total # of units allowed for credit:** 3  
  **Max times this course can be taken for credit:** 1

  **Course Description:** The class offers emerging dance artists and interdisciplinary students a site for rigorous investigation in dance making, performance, and physical practices. Students engage in a series of choreography projects and learn to understand as an activist intervention. Critical dance theories are explored as students learn to design and direct unique choreographic projects and research. Lecture 1 hour, Activity 4 hours.

  **Hours per Week:** 1 lecture hour(s). 4 activity hour(s).
- DANC 4400 - Theory and Analysis of Dance
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Students respond to, analyze, articulate, and make judgments about dance, as well as develop skills in theory and analysis as it relates to their performing careers, teaching, and related fields.

  Hours per Week: 2 lecture hour(s), 2 activity hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: No

- DANC 4540L - Special Topics in Dance
  (1-3)
  This course is repeatable: Yes
  Max # of units may be repeated: 7
  Total # of units allowed for credit: 8
  Max times this course can be taken for credit: 8

  Course Description: Current topics of special interest in dance, as announced in Schedule of Classes. May be repeated to a maximum of 12 units as subject matter changes.

  Hours per Week: 1 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: No

- DANC 4540P - Special Topics in Dance
  (1-3)
  This course is repeatable: Yes
  Max # of units may be repeated: 7
  Total # of units allowed for credit: 8
  Max times this course can be taken for credit: 8
Course Description: Current topics of special interest in dance, as announced in Schedule of Classes. May be repeated to a maximum of 12 units as subject matter changes.

Hours per Week: 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Dance is observed as a means of understanding cultural differences and historically specific dance contexts. By learning dance as a symbolic interaction, students see culturally unique ways of expressing core values. The class focuses on exploring approaches toward World Dance instruction, and engages in the analysis and performance of a variety of world traditions from Africa, North America, the Middle East, South Asia, Asia, Polynesia, and South America. Learners engage with topics while learning dance movement, watching videos, and doing readings.

Hours per Week: 1 lecture hour(s). 4 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

---

DANC 4780 - Choreography for Camera
(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Investigation and application of choreographic principles appropriate to television and/or cinema. Lecture 2 hours, laboratory 2 hours.

Hours per Week: 1 lecture hour(s). 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): DANC 3700
Needs Permission to Enroll: No
Special Fee Applied: No

Early Start Courses

ESC 0210 - Early Start Composition
(1)

This course is repeatable: No
Max # of units may be repeated: 1
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: This course is an introduction to academic reading, writing, and research processes, with an emphasis on written reflective analysis and active learning, through which students will gain greater comprehension of their literacy practices. This course meets the CSU Chancellor’s Office Executive Order 1110, which mandates that freshmen in need of additional academic development in written communication begin their coursework before matriculation through a college-level, credit-bearing course is the Early Start program.

Hours per Week: 2 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face, Online
Prerequisite(s): Placement into Category IV through multiple measures assessment.
Needs Permission to Enroll: No
Special Fee Applied: No

- ESC 0310 - Early Start Composition: Introduction to College Writing

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course provides an introduction to strategies for planning, composing, and revising college writing, emphasizing rhetorical awareness and effective use of authorities, examples, arguments, and facts.
Hours per Week: 3 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face, Online
Campus: Main Campus

Prerequisite(s): This class is only for Early Start Program incoming Freshmen, EPT scored below 147.
Needs Permission to Enroll: No
Special Fee Applied: No

- ESM 0082 - Early Start PreCalculus: Functions Activity

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Review, via participation, of prerequisite skills needed. Learning strategies.
Hours per Week: 4 activity hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face, Online
Campus: Main Campus

Prerequisite(s): ESM 1082
Needs Permission to Enroll: No
Special Fee Applied: No

- ESM 0090 - Early Start Quantitative Reasoning with Statistics Activity

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Review, via active participation, of prerequisite skills needed. Learning strategies and vocabulary skills.
Hours per Week: 4 activity hour(s).
ESM 1005 - Early Start Quantitative Reasoning in Today’s World
(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Approaches to Problem Solving in Mathematics, Logic, Propositions and Truth Values, Sets and Venn Diagrams, Understanding and Critical Analysis of Quantitative Information in Everyday Life.
Hours per Week: 1 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

ESM 1082 - Early Start PreCalculus: Functions
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Functions, exponential and logarithmic functions; polynomials and rational functions; systems of linear equations and matrices; sequences and series including arithmetic and geometric series.
Hours per Week: 3 lecture hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE B4

ESM 1090 - Early Start Quantitative Reasoning with Statistics
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Principles of quantitative reasoning, data presentation, descriptive statistics, correlation, probability, distributions of random variables, sampling distributions, interval estimation, and statistical inference, with multi-disciplinary applications.

Hours per Week: 3 lecture hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face, Online
Campus: Main Campus

Prerequisite(s): None
Corequisite(s): ESM 0082
Needs Permission to Enroll: No
Special Fee Applied: No

GE B4

Economics and Statistics (Undergraduate)
Upper division status is prerequisite to enrollment in 3000- and 4000- level ECON courses.

- **ECON 1090 - Quantitative Reasoning with Statistics (also listed as MATH 1090)**
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Principles of quantitative reasoning, data presentation, descriptive statistics, correlation, probability, distributions of random variables, sampling distributions, interval estimation, and statistical inference, with multi-disciplinary applications.

  Hours per Week: 3 lecture hour(s).

  Grading: ABC-/NC (Undergraduate Only)
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): None
  Corequisite(s): MATH 1091 if math support instruction is required (on Math Placement Category III or IV).
  Needs Permission to Enroll: No
  Special Fee Applied: No

  GE B4

Articulation C-ID: MATH 110
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

- **ECON 1500 - Economics for the Citizen**
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Analysis of contemporary American economic problems. Topics may include inflation, unemployment, discrimination, costs and benefits of control of crime, and pollution.

  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus
Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE D

- ECON 2010 - Principles of Economics I: Microeconomics

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Basic concepts and tools of economic analysis; prices and outputs, marketing structures, wages and profits; international trade and effects of tariffs.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE D* - * restricted to specific major

- ECON 2020 - Principles of Economics II: Macroeconomics

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Concepts and tools of aggregate economic analysis; inflation, unemployment, balance of payments, national income; determinants of the level of economic activity; money and banking; the role of government.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ECON 2010
Needs Permission to Enroll: No
Special Fee Applied: No

GE D* - * restricted to specific major

- ECON 2090 - Applied Business and Economic Statistics I

(3)

This course is repeatable: No
**ECON 3030 - Money, Banking, and the Economy**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

**Course Description:** Nature and flow of money and credit; influence on prices, production, and employment; the Federal Reserve and banking systems; national income, and international monetary relations. Some sections may be technologically mediated.  
**Hours per Week:** 3 lecture hour(s).  
**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus  

**Prerequisite(s):** ECON 2020  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No  

**GE B4** - * restricted to specific major

---

**ECON 3060 - Statistics for Business Analysis and Decision Making**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

**Course Description:** Data collection methods; descriptive statistics; sampling analysis; hypothesis testing; multiple regression; qualitative data analysis; seasonality, trend and time-series forecasting; moving average and exponential smoothing. Use of Excel is required.  
**Hours per Week:** 3 lecture hour(s).  
**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus, DTLA Campus  

**Prerequisite(s):** Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No  

**GE UD B** - * restricted to specific major

---
- **ECON 3090 - Applied Business and Economic Statistics II**
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  
  
  **Course Description:** Data analysis using spreadsheet software: sampling, testing and statistical inference; study of relationships between variables within business contexts; regression, correlation and time-series analyses with business applications including forecasting. Some sections may be technologically mediated.  
  **Hours per Week:** 3 lecture hour(s).  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus  
  
  **Prerequisite(s):** ECON 2090 or ECON 1090/MATH 1090  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No  
  
- **ECON 3340 - Environmental Issues and Policy**
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  
  
  **Course Description:** Evaluate the social cost of environmental damage; examine social equity concerns arising from environmental degradation; evaluate the equity and efficiency of various public policies designed to address environmental damage.  
  **Hours per Week:** 3 lecture hour(s).  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus  
  
  **Prerequisite(s):** Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No  
  
  **GE UD D**
  
- **ECON 3500 - Economics of Poverty and Inequality in the U.S.**
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  
  
  **Course Description:** Concept and measurement of poverty; analysis of both economic causes and effects of poverty; policy implications and remedies.  
  **Hours per Week:** 3 lecture hour(s).  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus
ECON 3600 - Developing Countries and the New Global Economy

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Overview of economic factors that influence the development and participation of today's developing countries in the global economy; problems with economic transition, environment, technology, and impact of global financial, trade, and investment systems.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

ECON 3650 - Economics of the Latino Community

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analyze socioeconomic characteristics of the US Latino community. Recognize how factors such as ethnicity, race and institutions contribute to the community’s development. Topics include: poverty, inequality, healthcare, immigration, and education.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

ECON 4010 - Mathematical Economics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Mathematical treatment of economic problems with emphasis on optimization models, using calculus and matrix
algebra.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** MATH 2110

**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

---

**ECON 4030 - Macroeconomics**

(3)

**This course is repeatable:** No  
**Max # of units may be repeated:** 0  
**Total # of units allowed for credit:** 3  
**Max times this course can be taken for credit:** 1

**Course Description:** Macroeconomic theory; determination of national income, theories of aggregate consumption, investment, unemployment, the price level; national income and product accounts; theory of growth.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** ECON 2020

**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

---

**ECON 4100 - Microeconomics**

(3)

**This course is repeatable:** No  
**Max # of units may be repeated:** 0  
**Total # of units allowed for credit:** 3  
**Max times this course can be taken for credit:** 1

**Course Description:** Advanced microeconomic theory; economic analysis and evaluation of market system of resource allocation and income distribution.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** ECON 4010

**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

---

**ECON 4110 - Market Structure and Strategic Firm Behavior**

(3)

**This course is repeatable:** No  
**Max # of units may be repeated:** 0
**ECON 4140 - Econometrics I**

(3)

**This course is repeatable:** No  
**Max # of units may be repeated:** 0  
**Total # of units allowed for credit:** 3  
**Max times this course can be taken for credit:** 1

**Course Description:** Use of statistics to measure economic relationships, test economic theories, and prepare forecasts; emphasis on advanced regression techniques and data analysis; use of computer software.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** ECON 2010  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

---

**ECON 4150 - Applied Economic and Business Forecasting**

(3)

**This course is repeatable:** No  
**Max # of units may be repeated:** 0  
**Total # of units allowed for credit:** 3  
**Max times this course can be taken for credit:** 1

**Course Description:** Hands-on training for forecasting economic/business trends with major proprietary computer software used by professionals; main concepts and modeling techniques in forecasting; diagnostic checking; model selection; forecast evaluation and reporting.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** ECON 3060 or ECON 3090  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No
ECON 4260 - International Political Economy (also listed as POLS 4260)

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Interaction of politics and economics in the international arena.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): A three unit course in each of the disciplines: Economics and Political Science.
Needs Permission to Enroll: No
Special Fee Applied: No

ECON 4300 - Labor Economics

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Use of labor resources in economic system; employment, wage rates, development of unions and collective bargaining; labor legislation.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ECON 2020
Needs Permission to Enroll: No
Special Fee Applied: No

ECON 4330 - Economics of the Public Sector

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Role of government in the economy; discussions of issues in social security, social welfare, public education, budget deficit and debt, government taxation, and fiscal policy.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ECON 2010, ECON 2020
Needs Permission to Enroll: No
Special Fee Applied: No
- **ECON 4340 - Environmental Economics**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description**: Economic principles that apply to environmental issues; measuring economic cost of environmental damage; evaluation of public policies designed to address environmental problems resulting from market activities. 
  **Hours per Week**: 3 lecture hour(s).

  Grading: ABCDF  
  Mode of Delivery: Face to Face  
  Campus: Main Campus

  **Prerequisite(s)**: ECON 1500 or ECON 2010  
  Needs Permission to Enroll: No  
  Special Fee Applied: No

- **ECON 4350 - Market Indicators and Federal Reserve Policy**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description**: Analysis of Federal Reserve policy on interest rates; evaluation of market reports of economic indicators; effects on financial markets; leading/coincident/lagging indicators; business cycles and financial cycles. 
  **Hours per Week**: 3 lecture hour(s).

  Grading: ABCDF  
  Mode of Delivery: Face to Face  
  Campus: Main Campus

  **Prerequisite(s)**: ECON 3030  
  Needs Permission to Enroll: No  
  Special Fee Applied: No

- **ECON 4400 - Urban and Regional Economics**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description**: Role of economic analysis in dealing with urban and regional problems; growth, land use, housing, transportation, and income distribution; emphasis on role of economic models in policy making. 
  **Hours per Week**: 3 lecture hour(s).

  Grading: ABCDF  
  Mode of Delivery: Face to Face  
  Campus: Main Campus
- **ECON 4540 - Special Topics in Economics and Statistics**

  (1-3)

  This course is repeatable: Yes
  Max # of units may be repeated: 9
  Total # of units allowed for credit: 10
  Max times this course can be taken for credit: 10

  **Course Description:** In-depth presentation and analysis of topics significant to contemporary business world; lectures, discussions, speakers, and research projects. May be repeated for 16 units as subject matter changes.
  **Hours per Week:** 1 lecture hour(s).

  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face
  **Campus:** Main Campus

  **Prerequisite(s):** Varies with topic; see Schedule of Classes for specific prerequisite.
  **Needs Permission to Enroll:** No
  **Special Fee Applied:** No

- **ECON 4600 - Economics of Developing Countries**

  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** Contemporary economic issues in developing countries; theories of development; problems with population growth, investment, technology, and entrepreneurship; role of trade and international finance; foreign aid and external debt; government policy.
  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face
  **Campus:** Main Campus

  **Prerequisite(s):** ECON 1500 or ECON 2020
  **Needs Permission to Enroll:** No
  **Special Fee Applied:** No

- **ECON 4610 - Economics of International Trade**

  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** Economic analysis of how and why commodities are traded among nations; tariffs and quotas; common market and other international institutions.
  **Hours per Week:** 3 lecture hour(s).
- **ECON 4620 - International Monetary Economics**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Economic analysis of international currency and bond market dynamics. Implications of fiscal, monetary and exchange rate policies for financial markets. Trade and capital flows. Study of currency and financial crises.

**Hours per Week:** 3 lecture hour(s).

- **ECON 4650 - Current Issues in Latin American Economies**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Analysis of factors determining the performance of Latin American economies, including external debt, trade, economic integration, labor market and institutions. Economic issues facing the U.S. Latino community are also discussed.

**Hours per Week:** 3 lecture hour(s).

- **ECON 4720 - Labor Relations and Collective Bargaining**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1
Course Description: Relations between employers and employees as the latter are represented by organized labor; collective bargaining as it relates to recognition, wages, hours, working conditions, grievance procedure, seniority, and health and safety.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ECON 2020 Corequisite(s): ECON 4300
Needs Permission to Enroll: No
Special Fee Applied: No

ECON 4800 - Economics of Health Care
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to the economics of health care; covers basic economic concepts important to the study of the health care sector; compares health care in the US to other countries.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ECON 2010
Needs Permission to Enroll: No
Special Fee Applied: No

ECON 4900 - Issues in the Economics of Globalization
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Contemporary issues in globalization and international monetary cooperation, including international capital flows, central banking in emerging market economies, international debt, global and regional economic integration and international economic policy coordination.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ECON 2010, ECON 2020
Needs Permission to Enroll: No
Special Fee Applied: No

ECON 4910 - Data Analysis, Reporting and Presentation
(3)
This course is repeatable: No
Max # of units may be repeated: 3
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Use of a major statistical software package for data analysis; introduction to widely used economic databases; data presentation; research report writing and oral presentation.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Senior level standing, and completion of at least one of the following courses: ECON 3060 or ECON 3090 or ECON 4140
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

ECON 4990 - Undergraduate Directed Study

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 12
Total # of units allowed for credit: 13
Max times this course can be taken for credit: 13

Course Description: Project to be selected in conference with sponsor before registration; progress meetings held regularly. May be repeated for 20 units of credit.
Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Economics major, senior standing, and consent of an instructor to act as sponsor; ability to assume responsibility for independent work and to prepare oral and written reports.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

Economics and Statistics (Graduate)

ECON 5000 - Fundamentals of Business Economics

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Business Economics: markets, demand, consumer behavior, nature of firms, measuring economic activity, inflation unemployment, money and banking, and the role of the government. Some sections may be technologically mediated.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
ECON 5010 - Quantitative Methods for Business Decision-Making

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Statistics and quantitative methods including descriptive statistics, statistical inference, hypothesis testing, correlation and regression, time series forecasting, inventory models, simulation, queuing, and decision under uncertainty. Some sections may be technologically mediated.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ECON 4100
Needs Permission to Enroll: No
Special Fee Applied: No

ECON 5100 - Seminar: Applied Microeconomic Analysis

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Modern microeconomic theory and applications: empirical modeling of demand, cost, and production; practical illustrations of such applied topics as pricing practices of firms and public policy issues.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ECON 4100
Needs Permission to Enroll: No
Special Fee Applied: No

ECON 5140 - Seminar: Econometric Analysis

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Employing the multiple linear regression model and its extensions to analyze economic systems and test economic theories.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ECON 4140
Needs Permission to Enroll: No
Special Fee Applied: No

- **ECON 5150 - Seminar: Applied Econometrics**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  

  Course Description: Employing the multiple linear regression model and its extensions to analyze economic systems and test economic theories.
  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face  
  Campus: Main Campus

  Prerequisite(s): ECON 4140
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **ECON 5200 - Seminar: Macroeconomics and Monetary Policy**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  

  Course Description: Major macroeconomic issues and policy debates; consumption and investment behavior; government debt; wage/price rigidities; inflation, unemployment and stabilization policies; implementation of monetary policy.
  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face  
  Campus: Main Campus

  Prerequisite(s): ECON 4030
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **ECON 5210 - Seminar: International Macroeconomics and Currency Crises**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  

  Course Description: Theories of aggregate consumption, investment, unemployment, the price level; Aggregate Demand and Aggregate
Supply; Monetary and Fiscal Policies; theories of growth.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus, DTLA Campus

Prerequisite(s): ECON 4030
Needs Permission to Enroll: No
Special Fee Applied: No

- ECON 5330 - Seminar: Public Sector Economics
  (3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis of government spending and taxation policies at the graduate level; examination of public policy in various contexts including education, health and social welfare
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ECON 4100, ECON 4140
Needs Permission to Enroll: No
Special Fee Applied: No

- ECON 5450 - Seminar: Urban and Environmental Economics
  (3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis of urban and environmental policy at the graduate level; emphasis on the intersection between urban areas and environmental issues.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ECON 4100, ECON 4140
Needs Permission to Enroll: No
Special Fee Applied: No

- ECON 5600 - Seminar: Current Issues in Economic Development
  (3)

This course is repeatable: No
Max # of units may be repeated: 0
ECON 5610 - Seminar: International Economics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis of current international issues concerning cross-border trade and capital flows; methods of trade policy analysis; implications of regional and global economic integration.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ECON 4100 or ECON 4030
Needs Permission to Enroll: No
Special Fee Applied: No

ECON 5800 - Seminar: Health Economics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Microeconomic and statistical applications for research in health economics; coverage of public goods, pricing and competition, and government intervention in the health care sector; regression techniques to analyze healthcare data.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ECON 3090 or ECON 3060 or BUS 5000
Needs Permission to Enroll: No
Special Fee Applied: No

ECON 5820 - Seminar: Predictive Analytics Modeling in Business and Economics
This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Modeling tools and methods for predictive analytics for decision-making in business and economics. Some sections may be technologically mediated.  
Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face, Hybrid, Online  
Campus: Main Campus

Prerequisite(s): ECON 4140 or ECON 5150  
Needs Permission to Enroll: No  
Special Fee Applied: No

---

ECON 5910 - Research in Economics

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Review of social science research methodology; use of major statistical software package; methods of locating and constructing data sets; exercise in writing and presenting empirical research.  
Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): Completion of the core of the Economics graduate program.  
Needs Permission to Enroll: No  
Special Fee Applied: No

---

ECON 5960 - Comprehensive Exam

This course is repeatable: Yes  
Max # of units may be repeated: 11  
Total # of units allowed for credit: 12  
Max times this course can be taken for credit: 12

Course Description: See the Comprehensive Examination under the University Requirements for Master's Degree in this eCatalog.  
Hours per Week: 0 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy  
Needs Permission to Enroll: No  
Special Fee Applied: No
• ECON 5980 - Graduate Directed Study

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 19
Total # of units allowed for credit: 20
Max times this course can be taken for credit: 20

Course Description: Investigation of an approved project leading to an oral and/or written report; project selected in conference with seminar professor before registration, and arrangements made for regular meetings during semester. May be repeated for credit.
Hours per Week: N/A lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Project selected in conference with seminar professor before registration.
Needs Permission to Enroll: No
Special Fee Applied: No

• ECON 5990A - Thesis

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Work on thesis under direct supervision of thesis committee.
Hours per Week: N/A lecture hour(s).
Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy. Completion of required core courses, written approval of graduate adviser.
Needs Permission to Enroll: No
Special Fee Applied: No

• ECON 5990B - Thesis

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Completion of thesis under direct supervision of thesis committee.
Hours per Week: N/A lecture hour(s).
Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy, ECON 5990A, written approval of thesis committee chair.
Needs Permission to Enroll: No
Special Fee Applied: No
Education (Undergraduate)

- **CCOE 1010 - Introduction to Higher Education in the Charter College of Education**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** Development of critical thinking, decision-making, contemporary issue analysis, information literacy and writing skills addressing the personal, academic and social challenges facing modern students, educators and public service providers.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** None  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

  GE E (cl) (IHE)

- **EDUC 4000 - Improving Academic Literacy**

  (3)

  This course is repeatable: Yes  
  Max # of units may be repeated: 3  
  Total # of units allowed for credit: 6  
  Max times this course can be taken for credit: 2

  **Course Description:** Developing academic literacy with emphasis on the writing, vocabulary, and critical thinking skills requisite to success in graduate study across a variety of disciplines. May be repeated up to a maximum of 6 units.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** Admission to a credential, post-baccalaureate certificate, MA/MS, or other graduate program.  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

  GWAR

Educational Administration (Graduate)

- **EDAD 5001 - Introduction to Educational Administration**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course examines professional changes in the transition to leadership roles and investigates and integrates the Educational Administration performance standards required by the CCTC candidate assessment portfolios.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None Corequisite(s): EDAD 5101
Needs Permission to Enroll: No
Special Fee Applied: No

EDAD 5061 - Educational Leadership

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course prepares the candidate to understand the role of instructional leaders in a shared vision of learning, personal ethics, and leadership capacity.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None Corequisite(s): EDAD 5101
Needs Permission to Enroll: No
Special Fee Applied: No

EDAD 5062 - Research and Data Assessment

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course prepares the candidate to understand the role of instructional leaders as critical consumers of research and data assessment to improve student achievement utilizing appropriate data and technological applications.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None Corequisite(s): EDAD 5102
Needs Permission to Enroll: No
Special Fee Applied: No

EDAD 5063 - Pluralism, Collaboration, and Social Justice
Course Description: This course prepares the candidate to understand the role of instructional leaders in the political, social, and cultural context of the school, collaboratively working with diverse families in a pluralistic community-setting.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): None

Corequisite(s): EDAD 5153

Needs Permission to Enroll: No

Special Fee Applied: No

EDAD 5064 - School Law

(3)

Course Description: This course prepares the candidate to understand the roles of instructional leaders and school law in meeting the needs of diverse population, including individuals with disabilities.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): None

Corequisite(s): EDAD 5164

Needs Permission to Enroll: No

Special Fee Applied: No

EDAD 5065 - Instructional Leadership

(3)

Course Description: This course prepares the candidate to understand the role of instructional leaders in curriculum and instructional programs that promote success for all students from diverse backgrounds.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): None

Corequisite(s): EDAD 5165

Needs Permission to Enroll: No

Special Fee Applied: No
EDAD 5066 - School Management

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course prepares the candidate to understand the role of instructional leaders in the management of the school, including human resources administration.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None Corequisite(s): EDAD 5166
Needs Permission to Enroll: No
Special Fee Applied: No

EDAD 5067 - School Finance

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course prepares the candidate to understand the role of instructional leaders in the fiscal and economic context of the school, ensuring equitable distribution of resources and support for all students.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None Corequisite(s): EDAD 5167
Needs Permission to Enroll: No
Special Fee Applied: No

EDAD 5101 - Laboratory for Educational Administration Digital Portfolios

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Students develop and implement technology skills and knowledge needed to create Educational Leadership digital portfolios for culminating assessment in student performance and competence as required by the CCTC. A minimum of twenty hours of laboratory is required.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
**EDAD 5161 - Fieldwork in Educational Leadership**

(1)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 1  
Max times this course can be taken for credit: 1

**Course Description:** Students develop and implement enriched fieldwork experiences that are designed to facilitate the application of theoretical concepts of EDAD 5061, in practical settings. A minimum of 20 hours of fieldwork experience under a qualified supervisor is required.

Hours per Week: N/A lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

Prerequisite(s): None  
Corequisite(s): EDAD 5001

Needs Permission to Enroll: No

Course Description: A hands-on approach to relevant organizational theories for creating change to meet the needs of socio-culturally
EDAD 5550 - Introduction to CalAPA Preparation for Pre-Service Administrators

This course is repeatable: Yes
Max # of units may be repeated: 6
Total # of units allowed for credit: 9
Max times this course can be taken for credit: 3

Course Description: This course provides an overview and introduction of the CalAPA for pre-service administrators. Students will analyze data to inform school improvement and promote equity, facilitate communities of practice, support teacher growth through coaching, be given opportunities to troubleshoot, and receive peer feedback, in preparation for the CalAPA Leadership Cycle assessments. Course may be repeated up to 3 times for credit.

Hours per Week: 3 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Hybrid
Campus: Main Campus

Prerequisite(s): EDAD 5001
Needs Permission to Enroll: No
Special Fee Applied: No

EDAD 5700 - Coaching for the Administrative Services Clear Induction Program

This course is repeatable: Yes
Max # of units may be repeated: 9
Total # of units allowed for credit: 12
Max times this course can be taken for credit: 4

Course Description: This course is designed for new administrators who are enrolled in the Administrative Services Clear Induction Credential Program. The research-based coaching model focuses on self-assessment within the school context and leadership development. Each candidate receives individualized, job-embedded coaching for a minimum of 20 hours per semester. The course may be repeated up to four times for credit.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to the Administrative Services Clear Induction Credential Program
Needs Permission to Enroll: No
Special Fee Applied: No
Notes:

- All 4000-level courses may be applied toward master's degree requirements, subject to limits established by the department and approval of the graduate adviser.
- Classified graduate standing is required for enrollment in 5000-level courses; exception applies to students who are enrolled in a postbaccalaureate certificate or credential program.

Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1
Course Description: Prior to completion, student will have completed draft of thesis or project proposal, selected a thesis committee, and submitted draft of thesis or project proposal to thesis committee.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): Advancement to Candidacy, written approval of thesis chair.

Needs Permission to Enroll: No

Special Fee Applied: No

EDAD 5990B - Thesis

(2)

This course is repeatable: Yes

Max # of units may be repeated: 2

Total # of units allowed for credit: 4

Max times this course can be taken for credit: 2

Course Description: Completion of the project or substantial progress toward completion under the direct supervision of the project committee. Repeatable up to 4 units.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): Advancement to Candidacy, EDAD 5990A, and written approval of thesis/project chair.

Needs Permission to Enroll: Yes, Department Consent

Special Fee Applied: No

EDAD 5995A - Project Planning

(2)

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 2

Max times this course can be taken for credit: 1

Course Description: Prior to completion, students will have completed draft of project proposal, selected a project committee, and submitted draft of project proposal to committee.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): None

Needs Permission to Enroll: No

Special Fee Applied: No

(2)
Educational Administration (Doctoral)

- **EDAD 6010 - Organizational Theory and Leadership for Change**
  
  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  

  **Course Description:** Historical and structural analysis of educational, organizations; urban learning systems as they relate to organizational theory, change leadership, and school reform.  
  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** Admission to doctoral program.

- **EDAD 6030 - Seminar: Philosophy and Ethics of Educational Leadership**
  
  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  

  **Course Description:** Philosophy, ethics, and moral values of educational leadership for school administrators. Theory and philosophy of educational change. Research about ethical and moral leadership schools.  
  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** None  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No
- **EDAD 6050 - Advocacy, Community Engagement and Governance: The Social and Political Contexts of Education**
  
  (3)
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  
  
  **Course Description:** Examines research on the role of social movements, civic activism and community-based organizing in building advocacy and leadership for school reform analysis of interagency and intergovernmental politics and practices.  
  **Hours per Week:** 3 lecture hour(s).  
  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus  
  
  **Prerequisite(s):** Admission to doctoral program.  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No  
  
- **EDAD 6080 - Legislative Action and Educational Policy**
  
  (3)
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  
  
  **Course Description:** Examination of legal processes governing educational policy, including significant laws, legal principles, recent litigation, controlling relationships of schools to student and teacher rights and duties, administrative behavior, etc. Focuses on connections between legislative/judicial action and social, political and economic forces affecting education.  
  **Hours per Week:** 3 lecture hour(s).  
  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus  
  
  **Prerequisite(s):** Admission to the Ed.D program.  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No  
  
- **EDAD 6260 - Designing and Writing the Doctoral Dissertation Proposal**
  
  (3)
  
  This course is repeatable: Yes  
  Max # of units may be repeated: 3  
  Total # of units allowed for credit: 6  
  Max times this course can be taken for credit: 2  
  
  **Course Description:** Incorporates a writing workshop approach to help students develop effective academic writing strategies, describe the design of the dissertation, prepare a timeline, and write required chapters of a dissertation proposal. May be repeated once for credit.  
  **Hours per Week:** 3 lecture hour(s).  
  
  **Grading:** CR/NC  
  **Mode of Delivery:** Face to Face
EDAD 6701 - Governance and Administration of Colleges and Universities  
(3)  
This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  
Course Description: History, research, policies, perspectives and leadership practices that shape governance structures in colleges and universities, with emphasis on the function of governing units and associated administrative roles and responsibilities.  
Hours per Week: 3 lecture hour(s).  
Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus  
Prerequisite(s): Admission into Doctoral Program  
Needs Permission to Enroll: No  
Special Fee Applied: No  

EDAD 6704 - Law and Policy for Postsecondary Leadership  
(3)  
This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  
Course Description: Overview of national, state, and regional laws and policies impacting postsecondary leadership. Introduces theoretical and conceptual approaches for evaluating current policy issues and challenges facing U.S. Higher Education.  
Hours per Week: 3 lecture hour(s).  
Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus  
Prerequisite(s): Admission into the EdD program in Educational Leadership  
Needs Permission to Enroll: No  
Special Fee Applied: No  

EDAD 6705 - Transformational Leadership in Community Colleges  
(3)  
This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  
Course Description: Introduction to the foundational literature on the historical, social, and political contexts of the community college.
Examines the missions, institutional structures and stakeholders, and contemporary demographics and outcomes in community colleges.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** Admission into the EdD program in Educational Leadership or consent of instructor and program director

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**EDAD 6920 - Doctoral Seminar: Special Topics in Educational Leadership for Pre K-16 Education**

(3)

This course is repeatable: Yes

Max # of units may be repeated: 3

Total # of units allowed for credit: 6

Max times this course can be taken for credit: 2

**Course Description:** Contemporary issues in Pre K-16 education: Interdisciplinary perspectives on California’s education system; current and future challenges for Pre K-16 alignment; equitable distribution of resources; new strategies for organizational change and transformation. May be repeated to a maximum of 6 units.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** Admission to doctoral program.

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**EDAD 6950 - Guided Study for the Dissertation**

(3)

This course is repeatable: Yes

Max # of units may be repeated: 6

Total # of units allowed for credit: 9

Max times this course can be taken for credit: 3

**Course Description:** Faculty coaching and structured activities to support completion of dissertation proposal and advancement to candidacy; conducting pilot studies, students refine literature review, research questions, design, and methods of data collection. May be repeated up to 3 times.

**Hours per Week:** 3 lecture hour(s).

**Grading:** CR/NC

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** Admission into Doctoral Program

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

Educational Foundations (Undergraduate)
EDFN 1090 - Introduction to Statistics and Data Interpretation

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Introduction to statistics and data analysis and interpretation using quantitative reasoning and mathematical concepts, including descriptive and inferential statistics and analysis methods for understanding basic research data, with real-life applications in the contexts of education and human services.

Hours per Week: 3 lecture hour(s), 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE B4

Articulation C-ID: MATH 110
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

EDFN 1092 - Introduction to Statistics and Data Interpretation

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to statistics and data analysis and interpretation using quantitative reasoning and mathematical concepts, including descriptive and inferential statistics and analysis methods for understanding basic research data, with real-life applications in the contexts of education and human services.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Math Placement Category I or II (math supported instruction is not required)
Needs Permission to Enroll: No
Special Fee Applied: No

**EDFN 5520 - Seminar in Policy and Politics in Education**

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course explores traditional and alternative approaches to the study of policy for urban educational contexts covering key concepts such as power relationships in policy environments, policy-making processes, policy texts, and implementation practices.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

EDFN 5930 - Survey Research: Introduction to Survey Research and Design
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Topics include survey methods, survey construction, design and sampling, data collection and analysis, and report writing.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

EDFN 5940 - Selected Studies in Educational Foundations
(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 998
Total # of units allowed for credit: 999
Max times this course can be taken for credit: 99

Course Description: Specialized study of topics relevant to the field of Educational Foundations. May be repeated for credit as topics change.
Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No
• EDFN 5950 - Field Experience in Evaluation (Practicum)

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Supervised field experience in evaluation provides students with practical experience through completion of a direct interaction with professional staff responsible for evaluation of program(s) and/or assessment of students in the local area.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): EDFN 4250, EDFN 5000
Needs Permission to Enroll: No
Special Fee Applied: No

• EDFN 5960 - Comprehensive Exam

(0)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 0
Max times this course can be taken for credit: 1

Course Description: Students should expect to take the Comprehensive Examination during the last semester of the program. See the Comprehensive Examination under the University Requirements for Master's Degree in this eCatalog.

Hours per Week: 0 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy. Completion of all coursework on the program, comply with the college and division requirements.
Needs Permission to Enroll: No
Special Fee Applied: No

• EDFN 5970 - Graduate Research

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 98
Total # of units allowed for credit: 99
Max times this course can be taken for credit: 99

Course Description: Independent research under guidance of faculty. May be repeated for credit.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EDFN 5000, instructor consent to act as sponsor, division approval of project prior to registration
• EDFN 5980 - Graduate Directed Study
  (1-3)
  This course is repeatable: Yes
  Max # of units may be repeated: 2
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 3

  Course Description: Independent directed study of advanced topics in field; regular conferences with sponsor. May be repeated for credit.
  Hours per Week: N/A lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): GPA of 3.0 (B) or better in all graduate work in education, consent of division chair, instructor to act as sponsor.
  Needs Permission to Enroll: Yes, Instructor Consent
  Special Fee Applied: No

• EDFN 5990A - Thesis Planning
  (2)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 2
  Max times this course can be taken for credit: 1

  Course Description: Prior to completion, student will have completed draft of thesis proposal, selected a thesis committee, and submitted draft of thesis proposal to thesis committee.
  Hours per Week: N/A lecture hour(s).

  Grading: CR/NC
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): Advancement to Candidacy, written approval of thesis chair.
  Needs Permission to Enroll: Yes, Department Consent
  Special Fee Applied: No

• EDFN 5990B - Thesis
  (2)
  This course is repeatable: Yes
  Max # of units may be repeated: 2
  Total # of units allowed for credit: 4
  Max times this course can be taken for credit: 2

  Course Description: Completion of thesis or project or substantial progress toward completion under the direct supervision of the thesis or project committee. Repeatable for up to 4 units.
  Hours per Week: N/A lecture hour(s).

  Grading: CR/NC
  Mode of Delivery: Face to Face
EDFN 5995A - Project Planning

(2)

This course is repeatable: No
Max # of units may be repeated: 2
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Prior to completion, student will have completed draft of project proposal, selected a project committee, and submitted draft of project proposal to project committee.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EDFN 4520, EDFN 5000, Advancement to Candidacy, written approval of project chair.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

EDFN 5995B - Project

(2)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 2

Course Description: Completion of the project or substantial progress toward completion under the direct supervision of the project committee. Repeatable up to 4 units.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EDFN 5995A and written approval of project chair.
Needs Permission to Enroll: No
Special Fee Applied: No

EDFN 6060 - Introduction to Critical Discourse Analysis of Educational Policy

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to the epistemological roots of Critical Discourse Analysis and methodological applications for educational policy studies. Applied research practice for advanced doctoral students.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus

Prerequisite(s): Admission to Ed.D. program
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

EDFN 6020 - Research Methodologies for Urban Educational Leadership
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Research methods applicable to equity and inclusion issues impacting urban education. Topics include qualitative, quantitative, mixed methods research designs, measurement, evaluating quality in educational research, elements of a research proposal.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to doctoral program.
Needs Permission to Enroll: No
Special Fee Applied: No

EDFN 6030 - Introduction to Doctoral Research
(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Orientation for the Ed.D. program in Educational Leadership; expectations, commitments and the practice of inquiry in doctoral cultures; accessing technology and library resources, working with research faculty and community partners.
Hours per Week: 6 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to doctoral program.
Needs Permission to Enroll: No
Special Fee Applied: No

EDFN 6051 - Laboratories of Practice: Research Lab
(2)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Faculty-supervised research practicum; research activities leading up to and through students' dissertation research; faculty and student peers explore and examine research design, fieldwork/data collection techniques, data analysis procedures, and emerging findings. Must be repeated for credit until completion of the dissertation.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to doctoral program and EDFN 6030
Needs Permission to Enroll: No
Special Fee Applied: No

EDFN 6052 - Laboratories of Practice: Community Research Lab

(2)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 2

Course Description: Faculty-supervised field practicum with community partners on the issues and research needs of local educational organizations; exploring communities as research settings; applying community experiences to planning dissertation research. Must be repeated for credit two times.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to doctoral program and EDFN 6051
Needs Permission to Enroll: No
Special Fee Applied: No

EDFN 6140 - Evaluation Methods for Urban Educational Leadership

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: A comprehensive survey of program evaluation principles, methodologies, designs, effective use of evaluation data for decision making, and state and federal evaluation requirements for educational leaders.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to doctoral program.
Needs Permission to Enroll: No
Special Fee Applied: No
EDFN 6410 - Using Quantitative Methods to Analyze Inequitable Schooling Outcomes and to Target Improvement

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Statistical analysis for education using national datasets of schooling outcomes; contingency tables/Chi Square analysis, T-test, analysis of variance, correlation and regression, and design applications including higher order factorials, repeated measures.

Hours per Week: 4 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to doctoral program.
Needs Permission to Enroll: No
Special Fee Applied: No

EDFN 6411 - Using Qualitative Research to Explore Teaching and Learning for Diverse Urban Settings

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Traditions and methods of qualitative research; knowledge and skills to understand, design and conduct qualitative research; using qualitative data and analyses to identify and understand educational issues and problems.

Hours per Week: 4 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to doctoral program.
Needs Permission to Enroll: No
Special Fee Applied: No

EDFN 6412 - Practitioner Research Embedded in School Communities

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Students engage in field-based studies relevant to school communities that may be qualitative, quantitative, or mixed method and that foster organizational learning and problem solving through systematic inquiry and reflection.

Hours per Week: 4 lecture hour(s).
EDFN 6420 - Statistical Analysis for Doctoral Students

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Overview of descriptive and inferential statistics (parametric and non-parametric) for understanding and conducting research. Emphasis on equipping future educational leaders with tools and conceptual understanding to make informed, data-driven decisions.

Hours per Week: 2 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to doctoral program.
Needs Permission to Enroll: No
Special Fee Applied: No

EDFN 6430 - Survey Research for Doctoral Students

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Designing and conducting survey research and evaluation for dissertation studies. Topics covered: survey methods, survey construction, design and sampling, data collection and analysis, and writing findings for the dissertation.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to doctoral program, or consent of instructor and program director.
Needs Permission to Enroll: No
Special Fee Applied: No

EDFN 6500 - Research Seminar: Special Topics on Research Methods for Education

(2)

This course is repeatable: Yes
Max # of units may be repeated: 6
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 4
Course Description: Research-oriented coverage of a single topic not contained in a regular course. May be repeated to a maximum of 8 semester units.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to doctoral program or permission of instructor and Ed.D. Program Director.
Needs Permission to Enroll: No
Special Fee Applied: No

EDFN 6510 - Research Seminar: Special Topics in Educational Disciplines

(2)

This course is repeatable: Yes
Max # of units may be repeated: 6
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 4

Course Description: Courses cover specific topics, current issues, and innovations related to an educational discipline that are not otherwise presented in a regular course. May be repeated to a maximum of 8 semester units.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to doctoral program or permission of instructor and Ed.D. Program Director.
Needs Permission to Enroll: No
Special Fee Applied: No

EDFN 6520 - Academic Writing and Publication for Doctoral Students

(2)

This course is repeatable: Yes
Max # of units may be repeated: 4
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 3

Course Description: Examination of discourse conventions for academic genres, audiences, and purposes. Practice in strategies for writing and revising for varying professional purposes and audiences. Developing academic conference and publication proposals or manuscripts. May be repeated to a maximum of 6 units.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to doctoral program.
Needs Permission to Enroll: No
Special Fee Applied: No

EDFN 6702 - Leadership for Student Development and Academic Success in Colleges and Universities
EDFN 6980 - Graduate Directed Study

This course is repeatable: Yes
Max # of units may be repeated: 8
Total # of units allowed for credit: 9
Max times this course can be taken for credit: 9

Course Description: Independent directed study of advanced topics in field; regular meetings with faculty sponsor. Can be taken for 1-3 semester units. May be repeated for up to 6 semester units of credit.

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Consent of an instructor to act as sponsor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

EDFN 6990 - Doctoral Dissertation

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Continuous enrollment required while student is working on dissertation. May be repeated for credit.

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy for Ed.D. degree.
Needs Permission to Enroll: No
Special Fee Applied: No
### EDEL 4020 - Introduction to Instructional Design, Assessment and Classroom Management Methods

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

**Course Description:** Exploration of the fundamental principles of instructional design, strategies for addressing learner needs, assessment methodology, and classroom management strategies. 10 hours of classroom observations related to course content are required.  
**Hours per Week:** 3 lecture hour(s).  
**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus  

**Prerequisite(s):** Completion of all requirements for admission without conditions to the multiple subject credential program.  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

### EDEL 4120 - Emergent Literacy

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

**Course Description:** Basic concepts of emergent literacy, strategies for teaching beginning reading/writing, phonemic awareness, phonics and other word-attack skills, assessment, linguistic diversity, children’s literature, and related legislative actions and initiatives.  
**Hours per Week:** 3 lecture hour(s).  
**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus  

**Prerequisite(s):** None  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

### EDEL 4150 - Curriculum and Teaching of Reading and Language Arts

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

**Course Description:** Analysis, application, and evaluation of strategies for teaching reading and language arts in various milieu, emphasizing comprehension, decoding skills and strategies. Includes laboratory experiences in a field setting.  
**Hours per Week:** 3 lecture hour(s).  
**Grading:** ABCDF
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus  

**Prerequisite(s):** Admission to the Charter College of Education Credential Programs.  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No  

---  

- **EDEL 4150C - Proseminar: Curriculum and Teaching of Reading/Language Arts - Chinese**  
  
  (3)  
  
  **This course is repeatable:** No  
  **Max # of units may be repeated:** 0  
  **Total # of units allowed for credit:** 3  
  **Max times this course can be taken for credit:** 1  
  
  **Course Description:** Analysis, application, and evaluation of strategies for teaching reading in various milieu, emphasizing comprehension, phonics and other decoding skills and strategies. Includes observation and participation in a field setting. This course is offered in English/Chinese combination. Bilingual authorization standards are also emphasized.  
  **Hours per Week:** 3 lecture hour(s).  
  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus  

- **Prerequisite(s):** Completion of all Professional Education courses of Multiple Subject Credential program  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No  

---  

- **EDEL 4150K - Proseminar: Curriculum and Teaching of Reading/Language Arts - Korean**  
  
  (3)  
  
  **This course is repeatable:** No  
  **Max # of units may be repeated:** 0  
  **Total # of units allowed for credit:** 3  
  **Max times this course can be taken for credit:** 1  
  
  **Course Description:** Analysis, application, and evaluation of strategies for teaching reading in various milieu, emphasizing comprehension, phonics and other decoding skills and strategies. Includes observation and participation in a field setting. This course is offered in English/Korean combination. Bilingual authorization standards are also emphasized.  
  **Hours per Week:** 3 lecture hour(s).  
  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus  

- **Prerequisite(s):** Completion of all Professional Education courses of Multiple Subject Credential program  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No  

---  

- **EDEL 4150S - Proseminar: Curriculum and Teaching of Reading/Language Arts - Spanish**  
  
  (3)  
  
  **This course is repeatable:** No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis, application, and evaluation of strategies for teaching reading in various milieu, emphasizing comprehension, phonics and other decoding skills and strategies. Includes observation and participation in a field setting. This course is offered in English/Spanish combination. Bilingual authorization standards are also emphasized.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of all Professional Education courses of Multiple Subject Credential program
Needs Permission to Enroll: No
Special Fee Applied: No

- EDEL 4151 - Curriculum and Teaching of Reading and Language Arts Fieldwork

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Supervised application of theory to practice, engaging in systematic analysis of personal teaching performances to develop pedagogical expertise in reading/language arts, understandings of learners and their communities, and professional dispositions. Course instructor will meet with students at school sites.

Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EDEL 4150
Needs Permission to Enroll: No
Special Fee Applied: No

- EDEL 4160 - Curriculum and Teaching of Writing/Language Arts

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis, application, and evaluation of teaching writing and related language arts in various milieu, emphasizing skills and strategies addressing spelling, grammar, handwriting, children’s literature, oral language, and listening.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to the multiple subject credential program.
Needs Permission to Enroll: No
Special Fee Applied: No
- **EDEL 4160C - Proseminar: Curriculum and Teaching of Writing/Language Arts - Chinese**

  (3)

  This course is repeatable: No

Assessment point for progress on professional portfolio. Includes observation and participation in a field setting. This course is offered in English/Spanish combination. Bilingual authorization standards are also emphasized.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face
Campus: Main Campus

Prerequisite(s): Completion of all Professional Education courses of Multiple Subject Credential program
Needs Permission to Enroll: No
Special Fee Applied: No

EDEL 4200 - RICA Test Preparation Review
(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: A review of content and strategies needed to pass California’s Reading Instruction Competence Assessment (RICA) for Multiple Subject and Special Education credential students who are required to take the RICA.
Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

EDEL 4210 - Teaching Language Arts in Elementary School
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Intensive study in teaching language arts in elementary school. Exploration, analysis, interpretation, and implementation of modern teaching trends and issues, with urban emphasis.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

EDEL 4320 - Teaching STEM for Early Childhood
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Professional course presenting methods and materials for teaching STEM to children, prekindergarten through grade three.
**EDEL 4455 - Fieldwork in Residency: Multiple Subjects**

(3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

**Course Description:** On site laboratory experience consisting of demonstration of instructional competencies specified for the Multiple Subjects Teaching Credential under supervision and guidance of university supervisor with cooperation of supervising classroom teacher(s). May be repeated for credit with Division approval. Required for fall or spring semester.

**Hours per Week:** N/A lecture hour(s).

**Grading:** CR/NC

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** Formal admission into the ULRN Accelerated Dual Credential option; permission from the department.

**Needs Permission to Enroll:** Yes, Department Consent

**Special Fee Applied:** No

---

**EDEL 4610 - Curriculum Procedures and Assessment in Early Childhood Education**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

**Course Description:** Designing learning experiences to address developmental characteristics of preschool/kindergarten children in diverse urban settings. Administration, analysis, and interpretation of formal and informal assessments. Observation/participation in early education classrooms required.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** None

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**EDEL 4620 - The Role of Play in Learning**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Dynamics of the role of group and individual play in children’s learning. Emphasis on understanding human development, behavior, and adult facilitation of learning. Observation in early education settings required.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): California Commission on Teacher Credentialing Certificate of Clearance or California Child Development permit.
Needs Permission to Enroll: No
Special Fee Applied: No
Course Descriptions

Notes:
- All 4000-level courses may be applied toward master's degree requirements, subject to limits established by the department and approval of the graduate adviser.
- Classified graduate standing is required for enrollment in 5000-level courses; exception applies to students who are enrolled in a postbaccalaureate certificate or credential program.

Elementary Education (Undergraduate)

- EDEL 4650 - Directed Teaching: Preschool
  (8)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 8
  Max times this course can be taken for credit: 1

  Course Description: Directed teaching for credential at preschool level. Credits of this course do not satisfy master degree requirement.
  Hours per Week: N/A lecture hour(s).

  Grading: CR/NC
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: No
EDEL 4670 - School/Family/Community Partnerships in Urban Learning

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examination of family, community, societal, cultural, and ideological influences on children's learning and schooling. Emphasis on strategies to integrate urban family members, as well as community resources, into the teaching-learning process. Field-based experiences required.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

EDEL 4880 - Directed Teaching: Multiple Subject

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 7
Max times this course can be taken for credit: 1

Course Description: On-site laboratory experience consisting of teaching multiple subjects under direction of University supervisor with cooperation of supervising classroom teacher(s). May be repeated for credit with division approval.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of all professional education courses, EDFN 4400, EDSP 4000. Corequisite(s): EDEL 4881
Needs Permission to Enroll: No
Special Fee Applied: No

EDEL 4881 - Reflection, Synthesis and Assessment of Directed Teaching

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Seminar to accompany directed teaching to provide candidates opportunities for self- and peer- reflection, professional growth, and summative program portfolio assessment.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): EDFN 4400, EDSP 4000, and completion of all courses in Blocks I - III Corequisite(s): EDEL 4880
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

- **EDEL 4890 - Demonstration of Instructional Competencies**
  (7)
  
  This course is repeatable: Yes  
  Max # of units may be repeated: 7  
  Total # of units allowed for credit: 14  
  Max times this course can be taken for credit: 2
  
  **Course Description:** Demonstration of competencies related to instructional skills specified for components leading to completion of approved preliminary multiple subject credential program requirements. Restricted to field-based candidates currently employed as full-time teachers. May be repeated for credit with division approval.
  
  **Hours per Week:** N/A lecture hour(s).
  
  Grading: CR/NC  
  Mode of Delivery: Face to Face  
  Campus: Main Campus

- **EDEL 4900 - Problems in Elementary Education**
  (1-3)
  
  This course is repeatable: Yes  
  Max # of units may be repeated: 11  
  Total # of units allowed for credit: 12  
  Max times this course can be taken for credit: 6
  
  **Course Description:** Investigation of unique problems in elementary education. Specific topic announced in Schedule of Classes. May be repeated for credit as subject matter changes.
  
  **Hours per Week:** 1 lecture hour(s).
  
  Grading: ABCDF  
  Mode of Delivery: Face to Face  
  Campus: Main Campus

- **EDEL 4990 - Undergraduate Directed Study**
  (1-3)
  
  This course is repeatable: Yes  
  Max # of units may be repeated: 7  
  Total # of units allowed for credit: 8  
  Max times this course can be taken for credit: 8
  
  **Course Description:** Project selected in conference with sponsor before registration; progress meetings held regularly and final report submitted. May be repeated for credit.
  
  **Hours per Week:** N/A lecture hour(s).
  
  Grading: ABCDF
Elementary Education (Graduate)

- **EDEL 5250 - Reading, Writing and Related Language Arts Across the Curriculum**
  
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** Investigation of Prekindergarten - Middle School comprehensive reading, writing, and related language arts instruction, research base, and applications. Literature-based action research project across the curriculum.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face
  **Campus:** Main Campus

- **EDEL 5510 - Seminar: Research in Teaching Elementary School Subjects: Science**
  
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** Analysis of research on instruction and learning; application of implications of research to the solution of classroom problems. An action research project, including an extensive review of the literature, is required.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face
  **Campus:** Main Campus

- **EDEL 5600 - Leadership, Advocacy, and Management of Early Childhood Programs**
  
  (3)

  This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Leadership, advocacy and management of early childhood programs explores historical issues involving legislation, policy in early childhood education, leadership, goals, budget, advocacy, accountability, differentiated staffing, management, proposal writing, and articulation.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Enrollment in Early Childhood/Primary Education M.A. option, or consent of instructor
Needs Permission to Enroll: No
Special Fee Applied: No

EDEL 5630 - Current Trends and Issues on Research in Early Childhood Education
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Explores and examines current research, literature, and issues in the field of early childhood education research. Reviews issues and trends in early childhood research from multiple perspectives, situating the field of early education within the broader perspectives of the social sciences and educational research.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

EDEL 5631 - Preschool-Kindergarten: Language, Literacy Acquisition and Authentic Assessment
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Instructional strategies bridging preschool and kindergarten in diverse urban settings; including theoretical frameworks, first and second language and literacy acquisition, and authentic assessment practices.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No
- **EDEL 5640 - Seminar: Advanced Methodologies in Early Childhood Education**
  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  

  **Course Description:** Intensive research-based study of early childhood education methodologies offered through course sections in assessment, interdisciplinary curriculum approaches, play, school-family partnerships. May be repeated for up to 8 credits.  
  **Hours per Week:** 3 lecture hour(s).  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus  
  **Prerequisite(s):** Consent of instructor.  
  **Needs Permission to Enroll:** Yes, Instructor Consent  
  **Special Fee Applied:** No

- **EDEL 5660 - Anti-Bias Education in Early Childhood**
  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  

  **Course Description:** Cultural Diversity, Anti-Bias and Multicultural perspectives for Early Childhood instructional settings. Focus on Anti-Bias curriculum development and fostering cross cultural perspectives in the 0 to 8 years age.  
  **Hours per Week:** 3 lecture hour(s).  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face, Hybrid  
  **Campus:** Main Campus  
  **Prerequisite(s):** None  
  **Needs Permission to Enroll:** Yes, Department Consent  
  **Special Fee Applied:** No

- **EDEL 5890 - Seminar: Elementary Education**
  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  

  **Course Description:** Identification and analysis of problems and trends in urban elementary education.  
  **Hours per Week:** 3 lecture hour(s).  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus  
  **Prerequisite(s):** Completion of or concurrent enrollment in last 10 units for M.A. degree in Education: Elementary Teaching option.
- **EDEL 5940 - Special Topics in Elementary Education**

  (1-3)

  This course is repeatable: Yes
  Max # of units may be repeated: 7
  Total # of units allowed for credit: 8
  Max times this course can be taken for credit: 8

  Course Description: Intensive study of designated problems in elementary education. May be repeated for credit as subject matter changes.

  Hours per Week: 1 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **EDEL 5950 - Advanced Field Work**

  (4)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 4
  Max times this course can be taken for credit: 1

  Course Description: Specialist instructional credential program. Specialized fieldwork assigned on individual basis. Scheduled fieldwork; tutorial session required.

  Hours per Week: N/A lecture hour(s).

  Grading: CR/NC
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **EDEL 5970 - Graduate Research**

  (1-3)

  This course is repeatable: Yes
  Max # of units may be repeated: 2
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 3

  Course Description: Independent research under guidance of faculty. May be repeated for credit.

  Hours per Week: N/A lecture hour(s).

  Grading: CR/NC
  Mode of Delivery: Face to Face
  Campus: Main Campus
• EDEL 5980 - Graduate Directed Study

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

Course Description: Independent directed study of advanced topics in field; regular conferences with sponsor. May be repeated to a maximum of 12 units for credit.
Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

Electrical and Computer Engineering (Undergraduate)

• EE 1540 - Special Topics in Electrical Engineering

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Current topics of special interest to students in Electrical and Computer Engineering, as announced in schedule of classes. May be repeated for credit.
Hours per Week: 1 lecture hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent and as needed for specific topic.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

• EE 2040 - Circuit Analysis I

(3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2
**Course Description:** Electric circuit DC analysis and design; introduction to operational amplifier; energy storage elements; ac analysis and design; ac power analysis; introduction to three phase circuits. Course can be repeated a maximum of two times.

**Grading:** ABC-/NC (Undergraduate Only)

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** MATH 2120, PHYS 2200

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**Articulation C-ID:** ENGR 260

The University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

---

**EE 2049 - Electrical Measurements and Circuits Laboratory**

(1)

**This course is repeatable:** No

**Max # of units may be repeated:** 0

**Total # of units allowed for credit:** 1

**Max times this course can be taken for credit:** 1

**Course Description:** Characteristics and limitations of electrical instrumentation and experimental verification of the laws of electric circuits.

**Hours per Week:** 3 laboratory hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** EE 2040

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**Articulation C-ID:** ENGR 260 L

---

**EE 2440 - Digital Engineering**

(3)

**This course is repeatable:** Yes

**Max # of units may be repeated:** 3

**Total # of units allowed for credit:** 6

**Max times this course can be taken for credit:** 2

**Course Description:** Binary systems; boolean functions and their simplification; combinational and sequential logic; digital system design and implementation using FPGA. Lecture 2 units, Lab 1 unit. Course can be repeated a maximum of two times.

**Hours per Week:** 2 lecture hour(s), 3 laboratory hour(s).

**Grading:** ABC-/NC (Undergraduate Only)

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** None

**Needs Permission to Enroll:** No

**Special Fee Applied:** No
**EE 2449 - Digital Logic Laboratory**

(1)

This course is repeatable: Yes  
Max # of units may be repeated: 1  
Total # of units allowed for credit: 2  
Max times this course can be taken for credit: 2

Course Description: Laboratory experiments in logic design of digital systems. Course can be repeated a maximum of two times.  
Hours per Week: 3 laboratory hour(s).

Grading: ABC-/NC (Undergraduate Only)  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): EE 2440  
Needs Permission to Enroll: No  
Special Fee Applied: No

---

**EE 2450 - Embedded System Programming I**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 6  
Max times this course can be taken for credit: 0

Course Description: Embedded system programming with the Python programming language; software design and testing; introduction to data structures and algorithms; introduction to microcontrollers and input/output interfacing.  
Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABC-/NC (Undergraduate Only)  
Mode of Delivery: Face to Face  
Campus: Main Campus

Pre/Co-requisite(s): ENGR 1500  
Needs Permission to Enroll: No  
Special Fee Applied: No

---

**Articulation C-ID: ENGR 120**

This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation DOES NOT apply from the four-year institution to the community college or between the four-year institutions.

---

**EE 2540 - Special Topics in Electrical Engineering**

(1-3)

This course is repeatable: Yes  
Max # of units may be repeated: 5  
Total # of units allowed for credit: 6  
Max times this course can be taken for credit: 6

Course Description: Current topics of special interest to students in Electrical and Computer Engineering, as announced in schedule of classes. May be repeated for credit.  
Hours per Week: 1 lecture hour(s).
EE 2801 - Introduction to Biomedical Engineering

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 0

Course Description: Introduction to the field of biomedical engineering; exposure to applications in biomedical engineering and the various subfields of biomedical engineering, including biomechanics, rehabilitation engineering, biomedical devices, biosignal processing, and biomedical software engineering; responsible conduct in biomedical research; entrepreneurship in biomedical engineering.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent and as needed for specific topic.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

EE 3000 - Economics for Engineers (also listed as CE 3000, ME 3000)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Basic economic concepts and principles, costs and benefits analysis, alternative designs, economic viability of engineering solutions in broader context.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Junior or Senior Standing in Engineering
Needs Permission to Enroll: No
Special Fee Applied: No

GE D*-.* restricted to specific major

EE 3001 - Numerical Analysis and Modeling Using MATLAB

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 0
Course Description: Introduction to the MATLAB environment, basic programming in MATLAB, numerical computations using MATLAB, introduction to MATLAB Simulink.

Hours per Week: 3 laboratory hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): EE 2450

Needs Permission to Enroll: No

Special Fee Applied: No

EE 3020 - Signals and Systems

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 3

Max times this course can be taken for credit: 1

Course Description: Signal analysis; linear systems analysis by convolution; Laplace transform; Fourier series; and Fourier transform; introduction to state space and discrete systems.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): EE 2040, MATH 2150

Needs Permission to Enroll: No

Special Fee Applied: No

EE 3030 - Circuit Analysis II

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 3

Max times this course can be taken for credit: 1

Course Description: Advanced techniques in circuit analysis including transformation methods with applications to a broad range of circuit problems in Electrical Engineering; introduction to two-port network modeling; 1st order and nth order switching circuits.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): EE 3020

Needs Permission to Enroll: No

Special Fee Applied: No

EE 3040 - Probability, Random Variable, and Random Processes
**Course Description:** Concept of probability; random variables; probability distribution and density functions; multiple random variables; introduction to random processes and noise.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** MATH 2130

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**EE 3050 - Electric and Magnetic Fields**

(3)

**This course is repeatable:** No

**Max # of units may be repeated:** 0

**Total # of units allowed for credit:** 3

**Max times this course can be taken for credit:** 1

**Course Description:** Vector Calculus; electrostatic fields; electric fields in material space; magnetostatics; electromagnetic fields; general Maxwell’s equations; introduction to transmission lines.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** EE 2040

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

GE UD B*- restricted to specific major

---

**EE 3200 - Analog Communication Systems**

(3)

**This course is repeatable:** No

**Max # of units may be repeated:** 0

**Total # of units allowed for credit:** 3

**Max times this course can be taken for credit:** 1

**Course Description:** Modulation theorem; carrier communications systems; types of modulation; communication circuits; transmitters and receivers; superheterodyne radio receivers; stereo systems; noise analysis; pulse modulation.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** EE 3020

**Needs Permission to Enroll:** No

**Special Fee Applied:** No
• EE 3209 - Communications Laboratory

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Laboratory investigations of characteristics of communication systems and components.

Hours per Week: 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 3200
Needs Permission to Enroll: No
Special Fee Applied: No

• EE 3300 - Electric Machines

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Electromechanical principles and applications to electric machines and transformers; theory and design of AC and DC machines.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 2040
Needs Permission to Enroll: No
Special Fee Applied: No

• EE 3309 - Electromagnetic Energy Conversion Laboratory

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Laboratory investigations of electromechanical machines; transformers.

Hours per Week: 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 2049, EE 3300
Needs Permission to Enroll: No
Special Fee Applied: No
EE 3310 - Energy and Technology

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course focuses on the benefits and problems associated with energy dependence and generation. It will also study the effect of power generation on the environment with an emphasis on global warming and climate change.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C, and D.
Needs Permission to Enroll: No
Special Fee Applied: No

GE UD B (cl) (wi)

EE 3445 - Computer Organization

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to computer systems including implementation alternatives for major processor sub-systems. Discussion includes data representation, central processing units, instruction formats, addressing modes, memory hierarchy, parallel processors, and RISC machines.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CS 2013 or permission of the instructor
Needs Permission to Enroll: No
Special Fee Applied: No

EE 3450 - Embedded System Programming II

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 0

Course Description: Advanced embedded system programming in the C/C++ programming language family; bus structures; memory system design; general purpose input/output; interrupts and timers; analog-digital and digital-analog conversion. Embedded system applications in electrical and computer engineering.

Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).
EE 3540 - Special Topics in Electrical Engineering

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Current topics of special interest to students in Electrical and Computer Engineering, as announced in schedule of classes. May be repeated for credit.
Hours per Week: 1 lecture hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent and as needed for specific topic.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

EE 3600 - Control Systems I

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Mathematical modeling of control systems; block diagram representation and simplification of control systems; transient and steady-state analysis and design of feedback control systems by classical methods.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 3020
Needs Permission to Enroll: No
Special Fee Applied: No

EE 3700 - Electronics I

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Introduction to small signal analog electronics; general properties and characteristics of the semiconductor devices; p-n junction diodes; bipolar junction transistors; field effect transistors.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 2040
Needs Permission to Enroll: No
Special Fee Applied: No

EE 3709 - Electronics Laboratory
(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Laboratory study of electronic single- and multi-stage amplifier circuits using BJT, FET, and CMOS transistors; study of characteristics and applications of operational amplifiers; simulation of circuits for verification in PSpICE.

Hours per Week: 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 3710
Needs Permission to Enroll: No
Special Fee Applied: No

EE 3710 - Electronics II
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Design and analysis of multi-transistor circuits and multi-stage amplifiers; large signal transfer characteristics; small signal analysis and frequency response.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 3700
Needs Permission to Enroll: No
Special Fee Applied: No

EE 3720 - Digital Electronics
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Overview of digital logic families; design and characteristics of digital electronic circuits, such as CMOS digital logic gates and memory circuits; analysis of noise margin, rise- and fall-times, propagation delays, fan out, fan in, and power dissipation.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 2440, EE 3700
Needs Permission to Enroll: No
Special Fee Applied: No

EE 3810 - Sensors, Data Acquisition, and Instrumentation with Applications in Biomedical Engineering

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Commonly used sensor technologies and measurements in engineering systems, hardware interfaces, data collection; practical applications of sensors and instrumentation in biomedical engineering.

Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 2049
Needs Permission to Enroll: No
Special Fee Applied: No

GE B3* - * restricted to specific major

EE 4009 - Professional Engineering Practice

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Integration of Electrical Engineering work experience with academic program individually planned through industry mentors under unpaid internship. Minimum of 10 hours per week required. Letter of completion by industry mentor and submission of title page with abstract are required.

Hours per Week: 1 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Permission is granted by department under the following conditions: acceptance by the corresponding worksite; junior, senior, or graduate standing; A minimum GPA of 2.5 for undergraduates and 3.0 for graduates.

Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No
- **EE 4130 - Systems Engineering**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** System definitions and concepts; systems age; systems engineering process; conceptual, preliminary, and detail system design; system test and evaluation; systems engineering planning, organization, and management.  
  **Hours per Week:** 3 lecture hour(s).

- **EE 4200 - Digital Communication Systems**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** Sampling theorem and aliasing error; random process and white noise; source encoders and decoders; Pulse Code Modulation; matched filter; timing considerations; baseband systems; ASK, FSK, PSK; error analysis; design considerations.  
  **Hours per Week:** 3 lecture hour(s).

- **EE 4210 - Coding for Communications**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** Channel coding principles and practice; linear block and convolutional coding and decoding; iterative decoding.  
  **Hours per Week:** 3 lecture hour(s).
EE 4220 - Digital Signal Processing
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Sampling, A/D conversion; discrete linear system theory; Z-transform; digital filters, recursive and nonrecursive designs; quantization effects; fast Fourier transform; windowing.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 3200
Needs Permission to Enroll: No
Special Fee Applied: No

EE 4229 - Digital Signal Processing Laboratory
(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Graphical computing and data acquisition technique via LabVIEW to solve Electrical Engineering problems.
Hours per Week: 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 3020, EE 4220
Needs Permission to Enroll: No
Special Fee Applied: No

EE 4230 - Antennas
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Dipole, loop, aperture, and other antennas; array theory, antenna patterns, and pattern multiplication; radiation resistance, directivity, and gain; antenna synthesis and design.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
- **EE 4240 - Fiber Optics**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  

  **Course Description**: Generation, transmission, and modulation of light beams, propagation of optical beams in homogeneous and inhomogeneous media; integrated optics; optical sources and detectors.  
  **Hours per Week**: 3 lecture hour(s).

- **EE 4250 - Digital Image Processing**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  

  **Course Description**: Digital image fundamentals, point operations, morphological image processing, image transforms, noise reduction and image restoration, and image segmentation and feature extraction.  
  **Hours per Week**: 3 lecture hour(s).

- **EE 4260 - Introduction to Fourier Analysis and Applications**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  

  **Course Description**: Foundations of Fourier analysis. Fourier series and integrals and their applications.
EE 4261 - Basic Principles of Radar

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Fabrication and testing of radar systems and their application.

EE 4262 - Radar Measurement, Modeling and Target Tracking

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Foundations of modeling and target tracking in radar applications. Parameter estimation and Kalman filtering with application to target tracking. System architecture for single and multiple target tracking.

EE 4300 - Introduction to Power Systems Engineering

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to power system modeling (generators and transformers); per unit systems; modeling of transmission lines.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 3300
Needs Permission to Enroll: No
Special Fee Applied: No

EE 4310 - Power Systems Analysis

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Load-flow studies, load-flow control, symmetrical components, short circuits on machines and systems, system protection, elements of system stability, economic operation.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 4300
Needs Permission to Enroll: No
Special Fee Applied: No

EE 4320 - Electric Power Distribution

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Planning, designing and analyzing electric power distribution systems. Distribution circuits, and equipment. Underground and overhead power distribution, protection of distribution circuits, equipment and loads. Power quality. Distribution economics.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 4300
Needs Permission to Enroll: No
Special Fee Applied: No
• EE 4330 - Power Electronics

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Electrical and thermal characteristics of power thyristors, BJTs and FETs, diodes, triacs, diacs, and UJTs; applications in energy conversion and control switching power supplies, converters, and inverters.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 3700
Needs Permission to Enroll: No
Special Fee Applied: No

• EE 4340 - Electromagnetic Energy Conversion

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis of realistic machine performance; steady state and dynamic response of d-c, synchronous and induction machines; fractional horsepower a-c motors.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 3300
Needs Permission to Enroll: No
Special Fee Applied: No

• EE 4400 - Data Communications and Networking

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Data network principles, architectures, and protocols; flow control, error control, media access control, routing and addressing; TCP/IP protocol suite.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 3200
Needs Permission to Enroll: No
Special Fee Applied: No
• EE 4420 - Multimedia Networking

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Principles, protocols and systems of multimedia networking, video/audio compression standards (MPEG-x, H.264/265), real-time transport protocol, QoS in video streaming, multimedia over Internet, design of real-time transmission systems.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 4400, knowledge of MATLAB
Needs Permission to Enroll: No
Special Fee Applied: No

• EE 4440 - Computer Organization

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: MIPS instruction set architecture; implementing C programs in MIPS assembly; RISC datapath design; finite-state machine control; performance and power trade-offs; design and simulation using Verilog Hardware Description Language.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 3450
Needs Permission to Enroll: No
Special Fee Applied: No

• EE 4450 - Embedded Architectures

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Introduction to embedded systems, hardware/software co-design, modeling of embedded architectures, and design of embedded applications.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): EE 3450
Needs Permission to Enroll: No
Special Fee Applied: No

- **EE 4480 - Advanced Digital Design**
  
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** Design of digital systems using modern programmable devices (PLDs and FPGAs); contemporary design tools and Verilog hardware description language; behavioral and structural modeling, simulation, design for synthesis, and hardware verification. Lecture 2 hours, laboratory 3 hours.

  **Hours per Week:** 2 lecture hour(s). 3 laboratory hour(s).

  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face
  **Campus:** Main Campus

  Prerequisite(s): None Pre/Co-requisite(s): EE 4440
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **EE 4540 - Special Topics in Electrical Engineering**

  (1-3)

  This course is repeatable: Yes
  Max # of units may be repeated: 98
  Total # of units allowed for credit: 99
  Max times this course can be taken for credit: 99

  **Course Description:** Study of selected topics not currently offered as technical electives. May be repeated for credit.

  **Hours per Week:** 1 lecture hour(s).

  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face
  **Campus:** Main Campus

  Prerequisite(s): Senior or graduate standing in Electrical Engineering; approval of instructor in charge and from the department.
  Needs Permission to Enroll: Yes, Department Consent
  Special Fee Applied: No

- **EE 4600 - Applied Control System Design and Simulation**

  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** Control systems analysis and design by frequency-response methods; lag, lead, modified PID compensators; system simulation using MATLAB, Simulink, or Python; application of control theory to robotics and industrial systems.

  **Hours per Week:** 2 lecture hour(s). 3 laboratory hour(s).
EE 4610 - Digital Control Systems

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Discrete systems; Z-transform; digital controllers; signal flow graph representation and simplification; stability analysis; design of discrete systems; sample and hold; state diagrams; state space representation of discrete systems.

Hours per Week: 3 lecture hour(s).

EE 4620 - Modern Control Systems

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Fundamentals of matrix algebra; eigenvalues and eigenvectors; state variables; state space representation of systems; solution of state equations; square matrices and Cayley-Hamilton theorem; analysis of continuous systems.

Hours per Week: 3 lecture hour(s).

EE 4630 - Machine Learning Principles and Application

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Course Description: Review of linear algebra and probability theory, statistical inference, feature extraction, clustering, classification, independent component analysis, time series modeling, regression analysis, curve fitting, model extraction, neural networks, fuzzy logic.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 3020 and EE 3040 or admission to EE MS program
Needs Permission to Enroll: No
Special Fee Applied: No

EE 4689 - Control Systems Laboratory

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Analysis and design of fundamental control systems by model and full-scale construction in laboratory, and by employing root-locus, frequency response, analog simulation, and other standard techniques. Laboratory 3 hours.

Hours per Week: 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 3600
Needs Permission to Enroll: No
Special Fee Applied: No

EE 4710 - Analog Integrated Circuits

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: An introduction to the IC fabrication process.; analysis, design, and characteristics of operational amplifiers and the differential input stage, gain stage, and output stage as well as biasing circuits.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 3710
Needs Permission to Enroll: No
Special Fee Applied: No

EE 4720 - CMOS VLSI Design
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: CMOS VLSI process technology, VLSI design flow from schematic capture to fabrication and testing, design and simulation using CAD tools.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 3720
Needs Permission to Enroll: No
Special Fee Applied: No

EE 4730 - Optoelectronics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Characteristics and applications of optoelectronic devices and systems including photodiodes and phototransistors, image sensors, light-emitting diodes and laser diodes, and fiber optic system components.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 3700
Needs Permission to Enroll: No
Special Fee Applied: No

EE 4810 - Biomedical Devices

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to engineering of biomedical devices; use of electronic circuit design in medical instrumentation with a focus on implantable devices; electronic device design of neural prostheses and signal conditioning circuitry.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 2040 or admission to EE MS program
Needs Permission to Enroll: No
Special Fee Applied: No
EE 4820 - Biomedical Signal Processing

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Signal processing techniques to analyze bioelectrical signals for biomedical applications, such as diagnostics of neurological disorders and development of neurostimulation therapies.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 3020
Needs Permission to Enroll: No
Special Fee Applied: No

EE 4961 - Senior Design I

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Study of engineering design processes; selection of a design project focusing on typical problems encountered in engineering practice; develop a detailed design plan; understand engineering solutions and profession in broader context.

Grade of C or better in this course satisfies the Graduation Writing Assessment Requirement.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE Blocks A1 and A2, ENGR 3010, EE/ME/CE 3000, EE 3020, EE 3450 Pre/Co-requisite(s): EE 3810
Needs Permission to Enroll: No
Special Fee Applied: No

GE UD C*(cl) (wi) GWAR * restricted to specific major

EE 4962 - Senior Design II

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Implement the project design developed in EE 4961, complete the entire design process, present the design in both written and oral formats. Develop a broader understanding of engineering solutions as well as professional ethics. Grade of C or better in this course satisfies the Graduation Writing Assessment Requirement.

Hours per Week: 9 laboratory hour(s).
EE 4990 - Undergraduate Directed Study

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Project selected in conference with the sponsor before registration; progress meeting held regularly, and a final report submitted. May be repeated for credit.
Hours per Week: N/A lecture hour(s).

EE 5020 - Electrical and Computer Engineering Computation

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Numerical methods, statistical modeling and simulation, and data analysis for electrical and computer engineers.
Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

EE 5130 - System Analysis and Design

(3)

This course is repeatable: No
Max # of units may be repeated: 0
EE 5140 - Systems Risk Analysis
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Elements and types of engineering risk; probabilistic risk assessment; risk scenarios; failure trees; event trees; uncertainty analysis; risk identification and ranking; decision making using risk information.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): EE 4130
Needs Permission to Enroll: No
Special Fee Applied: No

EE 5150 - Systems Performance Analysis
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Engineering reliability evaluation and analysis; mechanical and human reliability; engineering maintainability and maintenance; design considerations for system reliability and maintainability; maintenance life cycle costing.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): EE 4130
Needs Permission to Enroll: No
Special Fee Applied: No

EE 5160 - Systems Architecture
EE 5200 - Advanced Digital Communications I

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to stochastic processes, spectral analysis of signals, narrowband processes, elements of detection and estimation theory.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): EE 4130
Needs Permission to Enroll: No
Special Fee Applied: No

EE 5210 - Advanced Digital Communications II

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Classification of detection problems; receiver front-end architectures; coherent, incoherent and differential detection; symbol and bit error rate evaluation and bounding techniques; power spectral density; transmission through linear filtering channels and Inter-Symbol-Interference.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): EE 5200
Needs Permission to Enroll: No
Special Fee Applied: No
• EE 5220 - Principles of Signal Compression
(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Elements of information theory; quantization of continuous sources; lossless and universal compression techniques; lossy compression toolbox; application examples and standards; video compression standards. 

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus  

Prerequisite(s): Admission to EE MS program and EE 4200  
Needs Permission to Enroll: No  
Special Fee Applied: No

• EE 5230 - Wireless Communications
(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Analysis and design of wireless communication systems at the link level, multiple access techniques, MIMO and Multiuser detection techniques, wireless networking, and introduction to wireless protocols and standards. 

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus  

Prerequisite(s): EE 5200, EE 5210  
Needs Permission to Enroll: No  
Special Fee Applied: No

• EE 5240 - Computer Aided Design of Communication Systems
(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Theory and practice of digital Montecarlo time-domain simulation of digital transmission systems including linear and nonlinear system modeling, performance evaluation, and computer efficient simulation techniques. Applications to radio relay links, satellite and wireless communications. 

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face
EE 5250 - Optical Communications

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis and design of optical communication systems, terrestrial fiber optic systems and free space laser communication systems. Optical sources, detectors, and optical system components. Acquisition, tracking and pointing. Optical networks.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

EE 5320 - Vehicle Electrification

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Features of components in the powertrain of an electrified vehicle; fundamental of conventional vehicles; powertrain hybridization; modeling and simulation of electrified vehicles; energy flow analysis in electrified vehicles.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

EE 5330 - Computer Method in Power Systems

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Algorithms for formulation of network matrices; short-circuit studies on computers; iterative solutions of algebraic and differential equations; digital computer techniques for load flow.
• EE 5340 - Power System Stability

(3)

This course is repeatable: No
Max # of units may be repeated: 3
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Steady state and transient stability of electric power systems; Stability criterion; modeling of power system for dynamic studies; digital computer techniques applied to power system stability.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to EE, M.S. program, EE 4310
Needs Permission to Enroll: No
Special Fee Applied: No

• EE 5350 - Power Systems Protection

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Philosophy, purpose and goals of power system protective relaying; electromechanical and digital relays; instrument transformers; directional, overcurrent, distance and differential protection; protective relay schemes.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 4310
Needs Permission to Enroll: No
Special Fee Applied: No

• EE 5360 - Renewable Energies in Power Systems

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Features of renewable energy sources, issues of power systems with high penetration of renewables, power balance/frequency control, modeling and simulation of wind and photovoltaic units, Storage systems.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 4310
Needs Permission to Enroll: No
Special Fee Applied: No

EE 5370 - Faulted Power Systems

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis of symmetrical and unsymmetrical faults in electric power systems; computation of fault currents; applications.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 4310
Needs Permission to Enroll: No
Special Fee Applied: No
Notes:

- All 4000-level courses may be applied toward master's degree requirements, subject to limits established by the department and approval of the graduate adviser.
- Classified graduate standing is required for enrollment in 5000-level courses; exception applies to students who are enrolled in a postbaccalaureate certificate or credential program.

Electrical and Computer Engineering (Graduate)

- EE 5400 - Advanced Computer Networks

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Advanced topics in computer networks, including VLAN and data center networking, unicast and multicast routing, traffic engineering, mobility management and mobile IP, content distribution and open-architecture network design.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 4400
Needs Permission to Enroll: No
Special Fee Applied: No
EE 5410 - Mobile Ad Hoc Networks

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Principles, practices, and research topics on Ad Hoc Networks and Security. MAC layer design (IEEE802.11, MACAW), routing (DSR, AODV, LAR), cryptography, authentication, access control and security protocols (WEP, WPA).

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 4400
Needs Permission to Enroll: No
Special Fee Applied: No

EE 5440 - Computer System Architecture

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Current Technologies in computer architecture including instruction set architectures, memory system, parallel architectures, and super-computing.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 4440
Needs Permission to Enroll: No
Special Fee Applied: No

EE 5450 - Advanced Topics in Embedded Systems

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 0

Course Description: Advancements in embedded system design methodology, high-performance embedded platforms and computing, real-time operating systems, and sensor data processing within embedded systems applications.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to EEMS program
Needs Permission to Enroll: No
Special Fee Applied: No
EE 5480 - Advanced Topics in Computer Architecture

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Study of emerging research areas in computer systems including: energy optimizations, power management, memory architectures and optimizations, heterogeneous computing, re-configurable architectures, graphics engines, accelerators, and big data scale computing.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 5440
Needs Permission to Enroll: No
Special Fee Applied: No

EE 5540 - Special Topics in Electrical Engineering

This course is repeatable: Yes
Max # of units may be repeated: 6
Total # of units allowed for credit: 9
Max times this course can be taken for credit: 3

Course Description: Study of selected graduate level topics not currently offered in the graduate program. The topics of the course and its content shall be established by the instructor offering the course. Permission needed by department. May be repeated for credit.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graduate standing in Electrical Engineering.
Needs Permission to Enroll: No
Special Fee Applied: No

EE 5600 - Linear Systems Analysis

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Vector spaces; Lyapanov stability analysis for linear systems; controllability; observability; stabilizability; detectability; Kalman canonical forms; relation between state space and transfer function; system irreducibility; state and output feedback system design; separation principle; design of decoupled systems.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
EE 5610 - Stochastic Systems and Estimation

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Stochastic processes; power spectrum analysis; response of linear systems to stochastic inputs; Markov chains; estimation theory and Kalman filtering; linear optimal filters; Riccati equations; applications to control and communications.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

EE 5630 - Optimal Control Theory

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Optimal control problem; performance measures; principle of optimality; dynamic programming; Hamilton-Jacobi-Bellman equation; variational approach; constrained extrema; Pontryagin principle; singularity cases; minimum time and control effort problems.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

EE 5640 - Nonlinear Control Systems

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Introduction to nonlinear systems; nonlinear system behavior; phase plane analysis; Lyapunov stability theory; Barbalat’s Lemma; nonlinear control-system design; feedback linearization; adaptive control; sliding mode control; robust control.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EE 4620 or EE 5600
Needs Permission to Enroll: No
Special Fee Applied: No

EE 5830 - Neural Networks, Learning, and Computation

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Computational modeling based on neural signals and systems. Includes models commonly used in machine learning, such as artificial neural networks, Bayesian classifiers, and regression models, and their applications to biomedical problems. Covers the basic principles applied in machine learning methods and implementation using modern programming tools such as Python and TensorFlow.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to EE, M.S. program.
Needs Permission to Enroll: No
Special Fee Applied: No

EE 5940 - Graduate Design and Research Methodology

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: General research methodology and system design principles and process. Development of system design specs; system requirement development; preliminary design and simulation; system design iteration and optimization; Requirement flow down; Subsystem design and simulation; Requirement vs. design trade off.

Hours per Week: 9 laboratory hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graduate standing in Electrical Engineering.
Needs Permission to Enroll: No
Special Fee Applied: No

EE 5960 - Comprehensive Examination
Course Description: Students who select the comprehensive examination should expect to take it the semester they complete all course work on their program and must comply with college and department requirements.

Hours per Week: 0 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy. Permission needed by department.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

EE 5970 - Graduate Research
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Independent research under the guidance of the faculty. Instructor consent to act as sponsor, departmental approval of project prior to registration.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Permission needed by department.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

EE 5980 - Graduate Directed Study
(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 4
Total # of units allowed for credit: 5
Max times this course can be taken for credit: 5

Course Description: Independent, directed study of advanced topics in the field, regular conferences with the sponsor. May be repeated for credit.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Permission needed by department. Instructor consent to act as sponsor.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No
- **EE 5990 - Thesis**

  (3)
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  
  
  Course Description: Independent research in a thesis.  
  Hours per Week: N/A lecture hour(s).  
  
  Grading: CR/NC  
  Mode of Delivery: Face to Face  
  Campus: Main Campus  
  
  Prerequisite(s): Advancement to Candidacy. Instructor consent to act as sponsor, college approval of the topic prior to registration.  
  Needs Permission to Enroll: Yes, Department Consent  
  Special Fee Applied: No  

---

Electronics and Internetworking (Undergraduate)

- **TECH 1200 - Practical Electronics**

  (3)
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  
  
  Course Description: DC circuits; hands-on experiences in using VOM and DVM for basic electrical measurement and troubleshooting. Lecture 1 1/2 hours, laboratory 4 1/2 hours. Hands-on applications of electronics with emphasis on how different electronic components and circuits work; project construction to stimulate students understanding of electronics.  
  Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).  
  
  Grading: ABCDF  
  Mode of Delivery: Face to Face  
  Campus: Main Campus  
  
  Prerequisite(s): None  
  Needs Permission to Enroll: No  
  Special Fee Applied: No  

---

- **TECH 4210 - Internetworking Technology**

  (3)
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  
  
  Course Description: LAN, WAN to Internet, TCP/IP, LAN devices, network access and cabling, Ethernet, network, transport and application layers, IP addressing, subnetting, and routing.  
  Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).  
  
  Grading: ABCDF
- **TECH 4220 - Router Configurations**

(3)

*This course is repeatable: No*

Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

**Course Description:** The course covers the WANS, Cisco Router and its configuration, Cisco Internetworking Operating System (IOS), distance vector routing protocols like RIP and IGRP, intermediate TCP/IP, ACLS, and basic router troubleshooting.

**Hours per Week:** 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): TECH 4210
Needs Permission to Enroll: No
Special Fee Applied: No

- **TECH 4230 - Intermediate Routing and LAN Switching**

(3)

*This course is repeatable: No*

Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

**Course Description:** The topics of classless IP addressing techniques: VLSM and CIDR, single area OSPF and EIGRP routing, LAN switching and design, switch configuration, Spanning Tree Protocol, VLANs, and VLAN trunking protocol.

**Hours per Week:** 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): TECH 4210
Needs Permission to Enroll: No
Special Fee Applied: No

- **TECH 4240 - Wide Area Networks**

(3)

*This course is repeatable: No*

Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Addresses Scaling with NAT and DHCP, WAN physical and data link protocols, WAN connections, LAN/WAN case study, PPP, ISDN, DDR, Frame Relay, network management, and CCNA certification preparation.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): TECH 4210

Needs Permission to Enroll: No

Special Fee Applied: No

- TECH 4720 - Photovoltaic Applications

(3)

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 3

Max times this course can be taken for credit: 1

Course Description: Solar photovoltaic principles, wafer and module production, systems and applications. Component and system performance, site assessment, grid and stand-alone system design. Associated electrical and control technologies.

Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): TECH 3700 or consent of instructor.

Needs Permission to Enroll: No

Special Fee Applied: No

- TECH 4740 - Fuel Cell Applications and Hydrogen Infrastructure

(3)

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 3

Max times this course can be taken for credit: 1

Course Description: Electro-physical processes in fuel cells, performance, components, various types of fuel cells, fuel cell vehicles, distributed power generation. Hydrogen economy, properties, production, storage, infrastructure, safety.

Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): TECH 3700 or consent of instructor.

Needs Permission to Enroll: No

Special Fee Applied: No

- ENGR 1010 - Introduction to Mechanics
ENGR 1050 - Science, Technology, Engineering and Math Workshop

This course introduces students to physical processes that are the foundation to engineering problems and their solutions, and the math used to describe them. It prepares students for General Physics I and core Engineering and Computers Science courses.

Hours per Week: 3 lecture hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Corequisite(s): MATH 2110

Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

ENGR 1060 - STEM Supplemental Instruction Lab

This course focuses on historically difficult gateway courses. It provides collaborative peer-learning experiences that improve understanding of subject content, foster critical thinking, and strengthen study and life-long learning skills.

Hours per Week: 2 activity hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No
ENGR 1500 - Introduction to Engineering and Technology  
(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: The course explores the engineering and technology profession. Introduction to design through hands-on projects affecting a local or regional issue. Academic success strategies. University structure, policies, procedures, and resources available.  
Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): None  
Needs Permission to Enroll: No  
Special Fee Applied: No

GE E (cl) (IHE)

ENGR 1540 - Special Topics in Engineering  
(1-4)

This course is repeatable: Yes  
Max # of units may be repeated: 7  
Total # of units allowed for credit: 8  
Max times this course can be taken for credit: 8

Course Description: Current topics of special interest to students in engineering, as announced in Schedule of Classes.  
Hours per Week: 0 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): Instructor consent and as needed for specific topic.  
Needs Permission to Enroll: Yes, Instructor Consent  
Special Fee Applied: No

ENGR 3010 - Ethics and Professionalism in Engineering  
(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Ethical issues in engineering profession; impact of engineering profession on society; professional registration and liability; ethical standards and legal responsibilities; leadership and project management; public policy; principles of sustainability in design and engineering practice.  
Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus
ENGR 3830 - Ancient and Modern Technology

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Systematic analysis of ancient technology and technological thought and its relationship to modern science and technological thought
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE Block A and one course form Block B.
Needs Permission to Enroll: No
Special Fee Applied: No

ENGR 4540 - Special Topics in Engineering

(1-4)

This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

Course Description: Group study of selected topics not currently offered as technical electives; study groups may be organized in advanced engineering subjects upon approval of instructor.
Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Senior standing in engineering; approval of instructor in charge.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

ENGR 4970 - Seminar in Interdisciplinary STEM Research

(1)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: This course is designed for students, faculty, and others - including industry professionals - to present and discuss state-of-the-art research findings, in STEM fields, in a seminar format.
Hours per Week: 1 lecture hour(s).
**ENGR 4971 - Engineering Senior Project**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Study of engineering design processes, including case studies to discuss the impact of design constraints.  
Hours per Week: 1 lecture hour(s), 6 laboratory hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): Senior or graduate standing.  
Needs Permission to Enroll: No  
Special Fee Applied: No

---

**ENGR 4972 - Engineering Senior Project**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Study of engineering design processes, including the selection and completion of a faculty-supervised project focusing on typical problems encountered in engineering practice and resulting in a formal report and oral presentation.  
Hours per Week: 1 lecture hour(s), 6 laboratory hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): Consent of instructor.  
Needs Permission to Enroll: Yes, Instructor Consent  
Special Fee Applied: No

---

**ENGR 4990 - Undergraduate Directed Study**

(1-3)

This course is repeatable: Yes  
Max # of units may be repeated: 2  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 3
Engineering (Graduate)

- **ENGR 5970 - Graduate Research**
  (1-4)
  
  This course is repeatable: Yes  
  Max # of units may be repeated: 4  
  Total # of units allowed for credit: 5  
  Max times this course can be taken for credit: 5

  
  Course Description: Independent research under guidance of the faculty.  
  Hours per Week: N/A lecture hour(s).  

  
  Grading: CR/NC  
  Mode of Delivery: Face to Face  
  Campus: Main Campus  

  
  Prerequisite(s): Instructor consent to act as sponsor, departmental approval of project prior to registration.  
  Needs Permission to Enroll: Yes, Instructor Consent  
  Special Fee Applied: No

- **ENGR 5980 - Graduate Directed Study**
  (1-3)
  
  This course is repeatable: Yes  
  Max # of units may be repeated: 7  
  Total # of units allowed for credit: 8  
  Max times this course can be taken for credit: 8

  
  Course Description: Independent, directed study of advanced topics in the field, regular conferences with the sponsor.  
  Hours per Week: N/A lecture hour(s).  

  
  Grading: ABCDF  
  Mode of Delivery: Face to Face  
  Campus: Main Campus  

  
  Prerequisite(s): Instructor consent to act as sponsor.  
  Needs Permission to Enroll: Yes, Instructor Consent  
  Special Fee Applied: No

- **ENGR 5990 - Thesis**
  (1-6)
**ENGR 5995 - Project**

This course is repeatable: Yes  
Max # of units may be repeated: 5  
Total # of units allowed for credit: 6  
Max times this course can be taken for credit: 6

Course Description: Independent project resulting in a culminating experience. Must be repeated to maximum of 3 units.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy. Instructor consent to act as a sponsor, college approval of the topic prior to registration.  
Needs Permission to Enroll: Yes, Instructor Consent  
Special Fee Applied: No

---

**ETEC 1000 - Introduction to Automotive Systems**

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Introduction to major automotive systems, components operation and maintenance in modern vehicle. Vehicle coverage is expanded to include electric, gas, hybrid and fuel cell alternatives for greener transportation.

Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): None  
Needs Permission to Enroll: No  
Special Fee Applied: No
ETEC 1020 - Industrial Safety

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Industrial safety related to industry and school shops; history, accident facts, liability, psychology, worker performance, sources of information, and industrial methods of operation.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

ETEC 1100 - Introduction to Engineering Design

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: The application of theory and fundamentals of engineering design that focuses on creativity, teamwork, communication, leadership, and work across engineering disciplines. Students will learn basic understanding in drafting techniques, engineering design, freehand sketching, and the use of the latest CAD design software.
Hours per Week: 2 lecture hour(s), 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus
Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

ETEC 1200 - Practical Electronics

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Hands-on applications of electronics with emphasis on how different electronic components and circuits work; project construction to stimulate students understanding of electronics.
Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
ETEC 1600 - Introduction to Metalworking

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Basic metal properties, metalworking processes, casting, welding, and hand and machine tool applications.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

ETEC 2070 - Engineering Technology Materials

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Understanding structure, physical and mechanical properties, and applications of metals, polymers, ceramics, wood, and composites used in the Engineering Technology industry. Methods of preparation, evaluation, and testing such materials.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

ETEC 3130 - Product Design and Development

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: In depth examination of the process of designing products for manufacture. Analysis and application of the methods, models, organizations, standards and practices used in industry.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
ETEC 3150 - Project Management and Document Control

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Concepts, applications and procedures necessary to control, protect and access graphical data used in the management of design and manufacturing documentation.

Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): ETEC 1100
Needs Permission to Enroll: No
Special Fee Applied: No

ETEC 3600 - Lean Manufacturing

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: History of manufacturing. Principles, design, and analysis of lean manufacturing systems. Small lot production, setup-time reduction, continuous improvement. Principles and control of push and pull manufacturing systems.

Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): PHYS 1560 and PHYS 1570 and MATH 2110, all three with a minimum grade C-; and ETEC 1600
Needs Permission to Enroll: No
Special Fee Applied: No

ETEC 3700 - Sustainable Energy and Transportation

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
ETEC 3820 - Metrology and Statistical Process Control

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description:
Adapting industrial operations to metric system; standards and application; development of instructional materials; and review of Statistical Process Control (SPC).

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ETEC 1600 and MATH 2110
Needs Permission to Enroll: No
Special Fee Applied: No

ETEC 4210 - Internetworking Technology

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Internetworking technologies behind a network economy; Topics include LAN/WAN to the internet, TCP/IP and OSI models, LAN devices, network access, and cabling, MAC/IP/Port addressing, IP routing/addressing/subnetting, configuring and testing a network, and Internet of Things.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ETEC 1200
Needs Permission to Enroll: No
Special Fee Applied: No

ETEC 4600 - Advanced Manufacturing Processes
ETEC 4620 - Digital Manufacturing

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Development of basic skills needed to perform simulation construction in the virtual manufacturing environment with CNC, CAM, machining and robotics simulation.

Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ETEC 1100 and ETEC 3600
Needs Permission to Enroll: No
Special Fee Applied: No

ETEC 4660 - Additive Manufacturing

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: An overview of commercially available Additive Manufacturing technologies, also known as Rapid Prototyping or 3D Printing. Emphasis will be on operational procedure, post-processes, and applications.

Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ETEC 1100; Corequisite(s): ETEC 3600
Needs Permission to Enroll: No
Special Fee Applied: No
• ETEC 4670 - Emerging Manufacturing Technologies

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Various content of manufacturing topics and processes, such as Non-traditional Manufacturing, Additive Manufacturing, Electrical Discharge Machining, Computer-Aided Manufacturing, Automatic Data Collection and Identification, 3D Scanning, Waterjet Cutting, and other related technologies.
Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ETEC1600; Corequisite(s): ETEC 3600
Needs Permission to Enroll: No
Special Fee Applied: No

• ETEC 4700 - Zero-Emissions Vehicles Technology

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Technology and application of electric and hybrid vehicles: propulsion, power plant design, electric motor and combustion engine principles, energy storage, fuel cells, and solar powered vehicles.
Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ETEC 3700 or with consent of instructor.
Needs Permission to Enroll: No
Special Fee Applied: No

• ETEC 4710 - Engine Design and Performance

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Theory of engine design and operation; requirements of modern gasoline power plants and performance factors analyzed under varying operating conditions; emphasis on dynamometer testing, engine disassembly, and assembly.
Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
ETEC 4720 - Photovoltaic Applications

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Solar photovoltaic principles, wafer and module production, systems and applications. Component and system performance, site assessment, grid and stand-alone inverters, system design concepts. Associated electrical and control technologies.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

ETEC 4740 - Fuel Cell Applications and Hydrogen Infrastructure

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Electro-physical processes in fuel cells, performance, components, various types of fuel cells, fuel cell vehicles, distributed power generation. Hydrogen economy, properties, production, storage, infrastructure, safety.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

ETEC 4760 - Measurement, Instrumentation and Control

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Theory and application of electronic and computer sensor operation, data collection and processing for controls for in power, sustainable energy and transportation systems. Includes circuits, sensors, signal conditioning, microprocessors, logic, programming, data acquisition and system development.
ETEC 4780 - Emerging Sustainable Technologies

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Special topics relating to emerging sustainable power, energy, and transportation technologies. Includes research methodologies, proposal preparation, and investigation in individual, team, and class explorations.

Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus

Prerequisite(s): ETEC 3700 or with consent of instructor.
Needs Permission to Enroll: No
Special Fee Applied: No

ETEC 4880 - Fluid Power

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Application of principles of industrial hydraulic and pneumatic circuits; emphases on basic laws and operation of pressure, directional control valves, and actuators as they apply to manual and automated circuits.

Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): PHYS 1560 and PHYS 1570 and MATH 2110, all with a minimum grade of C-.
Needs Permission to Enroll: No
Special Fee Applied: No

ETEC 4890 - Industrial Training Methods

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
**ETEC 4950 - Engineering Technology Senior Project I**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Study of engineering technology design processes; selection of a design project focusing on typical problems encountered in engineering practice; develop a detailed design plan; understand engineering technology solutions and profession in broader context.  
Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus  

Prerequisite(s): ETEC 3600, ETEC 3700  
Needs Permission to Enroll: Yes, Instructor Consent  
Special Fee Applied: No

---

**ETEC 4951 - Engineering Technology Senior Project II**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Implement the project design developed in ETEC 4950, complete the entire design/fabrication process, present the result in both written and oral formats. Develop a broader understanding of engineering solutions as well as professional ethics.  
Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus  

Prerequisite(s): ETEC 4950 graded C or better.  
Needs Permission to Enroll: Yes, Instructor Consent  
Special Fee Applied: No

---
English (Undergraduate)

Eligibility for courses that satisfy the General Education written communication requirement (ENGL 1005A, ENGL 1005B, and ENGL 1010) will be determined by the results of the English Placement Test (EPT), which students must take before they may register for any of these courses.

- **ENGL 1000 - Supplemental Writing Practice**
  
  This course is repeatable: Yes  
  Max # of units may be repeated: 3  
  Total # of units allowed for credit: 4  
  Max times this course can be taken for credit: 4

  **Course Description:** Supplemental practice in revising and editing essays. Regular meetings with Writing Center tutor. May be repeated to maximum of 4 units.  
  **Hours per Week:** 2 activity hour(s).

  **Grading:** CR/NC  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** None  
  **Corequisite(s):** ENGL 1005B or ENGL 1010 or other designated course.  
  **Needs Permission to Enroll:** Yes, Instructor Consent  
  **Special Fee Applied:** No

- **ENGL 1004 - Introduction to College Writing**
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 4  
  Max times this course can be taken for credit: 1

  **Course Description:** Frequent essays based on reading and responding to expository prose; instruction in expository writing conventions and critical reading strategies. Not open to students with credit for this course, an equivalent, or a higher level English composition course. Students with two NC grades may not enroll again.  
  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABC-/NC (Undergraduate Only)  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** English Placement Test (EPT) and completion of directed self-placement.  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

- **ENGL 1005A - College Writing I**
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** First course in two term sequence, focused on reading and writing to develop and communicate ideas. Instruction in strategies for planning, composing, and revising college writing that incorporates authorities, examples, arguments, and facts to write developed, supported texts.  
  **Hours per Week:** 3 lecture hour(s).
ENGL 1005B - College Writing II

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Second course in two-term sequence, focused on reading and writing to develop and communicate ideas. Instruction in strategies for planning, composing, and revising college writing that incorporates authorities, examples, arguments, and facts to write developed, supported texts.

Hours per Week: 3 lecture hour(s).

ENGL 1010 - Accelerated College Writing

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Reading and writing to develop and communicate ideas. Instruction in strategies for planning, composing, and revising college writing that incorporates authorities, examples, arguments, and facts to write developed, supported texts.

Hours per Week: 3 lecture hour(s).
**ENGL 1050 - Argumentative Writing and Critical Thinking**

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Instruction in argumentation and critical writing, critical thinking, analytical evaluation of texts, research strategies, information literacy, and proper documentation.  
Hours per Week: 3 lecture hour(s).  

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus  

Prerequisite(s): ENGL 1005B or ENGL 1010 or equivalent  
Needs Permission to Enroll: No  
Special Fee Applied: No  

GE A3  

Articulation C-ID: ENGL 105 (ENGL 115)  
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding "C-ID Course" designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation DOES NOT apply from the four-year institution to the community college or between the four-year institutions.

**ENGL 1665 - Introduction to Science Fiction (also listed as LBS 1665)**

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Historical survey of key themes, texts, figures, and movements in English-language science fiction.  
Hours per Week: 3 lecture hour(s).  

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus  

Prerequisite(s): None  
Needs Permission to Enroll: No  
Special Fee Applied: No  

GE C2 (wi)  

**ENGL 2010 - Intermediate College Writing (3)**

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Building upon the rhetorical skills developed in ENGL 1005AB or ENGL 1010, students will develop analytical, interpretive, and information literacy skills necessary for writing a well-supported, researched, academic argument. Continued instruction in strategies for generating, revising, editing, and proofreading writing.  
Hours per Week: 3 lecture hour(s).
ENGL 2030 - Introduction to Technical Writing

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to the methods of and practice in critiquing, organizing, developing, and expressing technical information and ideas to a variety of audiences; emphasis on understanding the rhetorical situation and developing a clear style.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ENGL 1005B, ENGL 1010 or equivalent
Needs Permission to Enroll: No
Special Fee Applied: No

ENGL 2070 - Beginning Creative Writing

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: A beginning creative writing course that introduces students to techniques of imaginative writing in fiction, poetry, and drama in a constructive, writing-intensive, workshop setting that includes analysis of published literary works.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE C1 (wi)

Articulation C-ID: ENGL 200 (ENGL-CW 100)
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

ENGL 2090 - Introduction to Playwriting (also listed as TA 2760)

(3)
ENGL 2100 - Language and Society (also listed as ANTH 2300)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: An introduction to linguistics as a social science. Exploration of the relationship of language to a variety of social issues including race, class, and gender.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE C1

ENGL 2260 - A Journey Through World Cinema (also listed as TVF 2260)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Critical survey of world cinema as art and cultural artifact. Provides critical methodology and practical tools for analyzing and interpreting international film movements, genres and themes.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No
ENGL 2310 - Gods, Monsters, and Heroes in World Mythology

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis and interpretation of dominant myths in representative works of world fiction, drama, and poetry; critical compositions.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE C2

---

ENGL 2600 - Literary Los Angeles

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to the literatures of Los Angeles, stressing the diversity of the city's creative traditions and the effects of place on the area’s literary production.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE C2 (d)(wi)

---

ENGL 2665 - Race and Ethnicity in Science Fiction (also listed as LBS 2665)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Science fiction literature produced by Asian American, African American, Euro- American, Latina/o, and Native American authors.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
ENGL 2700 - Why Literature Matters

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Why does literature matter? Cultivation of lifelong reading interests and strategies through critical engagement with literature from multiple cultures, periods, and genres (fiction, poetry, drama, nonfiction). Writing intensive.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

Articulation C-ID: ENGL 120 (ENGL-LIT 100)

The University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding "C-ID Course" designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

ENGL 2710 - Contemporary World Literature

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to contemporary world literatures in English or in English translation. Through selected readings from diverse world authors, students will become familiar with different literary traditions and cultural and historical experiences.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

ENGL 2730 - Fictions of Gender and Sexuality

(3)
This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Examination of literary and cultural representations of gender and sexuality with special attention to intersections with race, class, and transnational contexts.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** None  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

**GE C2**

--

- **ENGL 2760 - Pulp Fictions and Popular Literatures**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** Study of popular literature written in established genres such as crime, fantasy, horror, romance, science fiction, and western.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** None  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

  **GE C2**

  --

- **ENGL 2800 - Shakespeare and Popular Culture**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** Shakespeare's plays and their afterlives as expressed in theater, film, literature, music, dance, the visual and material arts. Individual and collaborative critical analysis, scene work, and creative adaptations.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face, Hybrid, Online  
  **Campus:** Main Campus

  **Prerequisite(s):** None  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No
ENGL 3000 - English Tutorial: Reading and Writing in the Major

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Small cohorts receive intensive English studies training in close critical reading, use of disciplinary terminology and modes of inquiry, and analytical writing. Emphasis on depth, not breadth. Writing intensive.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): GE Block A
Needs Permission to Enroll: No
Special Fee Applied: No

ENGL 3010 - Advanced College Writing

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Instruction for students in all disciplines in methods of and practice in college writing; emphasis on critical reading and writing and advanced rhetorical issues including invention strategies, arrangement, selecting and analyzing evidence, and developing an appropriate style. Grade of C or better in this course satisfies the Graduation Writing Assessment Requirement.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE Block A.
Needs Permission to Enroll: No
Special Fee Applied: No

ENGL 3030 - Professional and Technical Writing

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Methods of and practice in writing professional documents, reports, proposals, and other workplace writing; emphasis on understanding the rhetorical situation and developing a clear style.

Hours per Week: 3 lecture hour(s).
**ENGL 3050 - Issues in Writing Pedagogy**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Review of research in written expression and writing pedagogy, examination of theories of composition and discourse, and practice in applying and evaluating these theories; includes component on teaching grammar.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Pre/Co-requisite(s): ENGL 3000; field experience; Corequisite(s): 1 unit of ENGL 3980 required for students seeking certification of subject area competency through the Single Subject Teaching option.

Needs Permission to Enroll: No  
Special Fee Applied: No

---

**ENGL 3060 - Discourse Analysis for Language Studies**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Study of various forms of public discourse using linguistic, social, and rhetorical approaches. Context and genre-specific textual analysis examines the ways rhetors employ language to give voice to the subjects of texts. Writing intensive.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): Completion of GE Block A.

Needs Permission to Enroll: No  
Special Fee Applied: No

(wi)

---

**ENGL 3100 - Readings on the English Language**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3
ENGL 3000 - Introduction to the Analytic Study of the English Language

Max times this course can be taken for credit: 1

Course Description: Introduction to the analytic study of the English language through history and structure of spoken and written varieties of English, including background on the literary history of English and the history of English lexicography and grammatology; investigations of stylistic and rhetorical features of major authors as a means of determining authorship. May include a civic learning option.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ENGL 3000
Needs Permission to Enroll: No
Special Fee Applied: No

This is a service learning course.

ENGL 3200 - Readings in Theory

This course is repeatable: No
Max # of units may be repeated: 0

Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

---

• ENGL 3920 - Statement and Literary Magazine Editing
This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 4

Course Description: Techniques of editing and producing literary magazines. May be repeated to maximum of 6 units.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Consent of faculty member advising the course.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

ENGL 3930 - Introduction to Archival Research

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 2

Course Description: A class in which students learn about and engage in effective archival research in the English discipline.

Hours per Week: 2 lecture hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

This is a service learning course.

ENGL 3940 - Introduction to Grant Writing as Community Engagement

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: A class on learning how to identify community needs and appropriate grant partners as well as effective grant writing.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus, DTLA Campus

Prerequisite(s): Satisfactory completion of GE A3, and an additional writing intensive (wi) course.
Needs Permission to Enroll: No
Special Fee Applied: No
ENGL 3950 - English Major Mentorship and Professionalization

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Mentorship and professionalization in the English discipline.
Hours per Week: 1 lecture hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus

Pre/Co-requisite(s): ENGL 3000
Needs Permission to Enroll: No
Special Fee Applied: No

ENGL 3960 - Introduction to Narrative Practices of Healing

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: An introduction to the theories, methods, and practice of narrative therapy.
Hours per Week: 2 lecture hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus, DTLA Campus

Prerequisite(s): Satisfactory completion of GE A3.
Needs Permission to Enroll: No
Special Fee Applied: No

ENGL 3970 - Internship Supervision

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Supervision for English majors engaged in an internship. Students must have an internship placement before enrolling in the course.
Hours per Week: N/A lecture hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

This is a service learning course.
• ENGL 3980 - Cooperative Education

(1-6)

This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 6

Course Description: Integration of work experience with the academic program, individually planned through a coordinator. Minimum of 6 hours per week required for each unit. May be repeated to a maximum of 6 units; combined units of this course and UNIV 3990 may not exceed 6.

Hours per Week: N/A lecture hour(s).
Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): Courses appropriate to the work experience; approval by major department Cooperative Education coordinator.
Needs Permission to Enroll: No
Special Fee Applied: No

• ENGL 4011 - Practicum in Tutoring English

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Discussion of composition theory, linguistic theory, and connections between reading and writing. Practice in effective tutoring methods in various educational situations. Lecture 2 hours, lab 4 hours.

Hours per Week: 1 lecture hour(s). 1 laboratory hour(s).
Grading: CR/NC

Campus: Main Campus
Prerequisite(s): ENGL 3100 or instructor consent.
Needs Permission to Enroll: No
Special Fee Applied: No

ENGL 4130 - Language and Culture (also listed as ANTH 4700)

(3)
ENGL 4170 - Modern English Grammar
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Formal and functional analysis of English morphology and syntax including discussion of lexical categories, phrase structure rules, movement, and typological classification. Analysis of common problems relating to orthography, style, and usage.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ENGL 3100, ENGL 4101 or instructor consent.
Needs Permission to Enroll: No
Special Fee Applied: No

ENGL 4180 - Issues in English Language Teaching
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Linguistic topics of import to future teachers such as basic pedagogical grammar, academic literacy, the acquisition of literacy, first and second language acquisition, and bilingualism.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ENGL 3000, ENGL 3100 or instructor consent
Needs Permission to Enroll: No
Special Fee Applied: No
• ENGL 4200 - Topics in Theory

(3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Variable content course in which each offering studies in-depth a selected topic in literary or cultural theory. May be repeated for credit as content changes (up to 6 units).

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ENGL 3000, ENGL 3200
Needs Permission to Enroll: No
Special Fee Applied: No

• ENGL 4205 - Signs, Texts, Meaning: An Introduction to Semiotics

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to semiotics, including germinal formulations in the field and its application in the domains of philosophy, literary criticism, linguistics, and cultural analysis.

Hours per Week: 3 lecture hour(s).

English (Graduate)
Classified graduate standing is required for enrollment in 5000-level courses.

- ENGL 5700 - Seminar: World Literature

(3)

This course is repeatable: Yes
Max # of units may be repeated: 9
Total # of units allowed for credit: 12
Max times this course can be taken for credit: 4

Course Description: Study of one or more major writers or of selected significant works in world literature, as announced in Schedule of Classes. May be repeated as subject matter changes.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ENGL 5001 or ENGL 5002
Needs Permission to Enroll: No
Special Fee Applied: No
ENGL 5910 - Advanced Engaged English Studies
(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 4
Total # of units allowed for credit: 5
Max times this course can be taken for credit: 5

Course Description: A variable topics class in which students engage in meaningful community engagement projects, leveraging graduate-level English disciplinary knowledges to work with communities inside and outside the university, and to support the generation of community ideas and expression.
Hours per Week: 0 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus, DTLA Campus

Prerequisite(s): None
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

---

ENGL 5960 - Comprehensive Examination
(0)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 0
Max times this course can be taken for credit: 1

Course Description: See the Comprehensive Examination under the University Requirements for Master's Degree in this eCatalog.
Hours per Week: 0 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy
Needs Permission to Enroll: No
Special Fee Applied: No

---

ENGL 5980 - Graduate Directed Study
(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Independent study of advanced topics in field; regular conferences with sponsor. May be repeated to maximum of 5 units with maximum of 4 units allowed in any semester.
Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ENGL 5001 or ENGL 5002, instructor consent to act as sponsor, approval of principal graduate adviser.
ENGL 5990 - Thesis

(1-6)

This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 6

Course Description: Independent study resulting in a critical essay. Oral examination about master's essay required. Must be repeated to total of 5 units.
Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy, formal approval by department.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

ENGL 5995 - Project

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 6

Course Description: A project is fulfilled by the completion of an original pedagogical portfolio. Students choosing this option must possess a Single Subject Credential in English or have completed at least one course that focuses on pedagogy in English studies (ENGL 5040 or a similar course approved by the graduate adviser).
Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

Environmental Science (Graduate)

ENVS 5950 - Directed Field Work

(1-5)

This course is repeatable: Yes
Max # of units may be repeated: 4
Total # of units allowed for credit: 5
Max times this course can be taken for credit: 5

Course Description: Supervised individual field experience in an applied area of environmental science. May be repeated up to 5 units.
ENVS 5970 - Graduate Research
(1-4)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 4

Course Description: Independent research towards a master's degree under guidance of faculty. May be repeated to a maximum of 4 units.
Hours per Week: N/A lecture hour(s).
Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): Instructor consent to act as sponsor and approval of project by student's graduate advisory committee.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

ENVS 5980 - Graduate Directed Study
(1)

This course is repeatable: Yes
Max # of units may be repeated: 1
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 2

Course Description: May be repeated twice for credit but only 2 units count towards a M.S. degree in Environmental Science.
Hours per Week: N/A lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): Instructor consent to act as sponsor and program approval. Independent, directed study of advanced topics in the field; regular conferences with the sponsor; prospectus development.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

ENVS 5990 - Thesis
(1-5)

This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

Course Description: Independent research resulting in thesis or sponsored internship resulting in project. May be repeated to a maximum of 5 units.
Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy. Instructor consent to act as sponsor, program approval of topic prior to registration.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

ENVS 5995 - Project

(1-5)

This course is repeatable: Yes
Max # of units may be repeated: 4
Total # of units allowed for credit: 5
Max times this course can be taken for credit: 5

Course Description: Sponsored internship resulting in independent project.
Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy. Instructor consent to act as sponsor, program approval of topic prior to registration.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

Ethnic Studies (Undergraduate)

ES 1010 - Introduction to Higher Education and Ethnic Studies

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduces critical thinking, information literacy, university resources, civic learning and academic planning for student success in a multiethnic and transnational environment through the disciplinary lenses of Asian and Asian American Studies, Chicana/o-Latina/o Studies, and Pan African Studies.
Hours per Week: 3 lecture hour(s).

Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No
Finance and Law (Undergraduate)

Upper division standing is prerequisite to enrollment in 3000- and 4000-level FIN courses.

- **FIN 2050 - Legal and Regulatory Environment of Business I**
  
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Introduction to legal and regulatory environment of business emphasizing the American legal system, dispute resolution, contracts, sales, torts, white-collar crimes, and related legal/ethical issues. Instruction in legal research.

  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF

  Mode of Delivery: Face to Face

  Campus: Main Campus

  Prerequisite(s): Sophomore standing

  Needs Permission to Enroll: No

  Special Fee Applied: No

- **FIN 3030 - Business Finance**
  
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: PV theory and valuation of cash-flows; cost of capital and Beta; basic capital budgeting; financial ratios and use in equity valuation. Introduction to financial Instruments. Course has multinational applications.

  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF

  Mode of Delivery: Face to Face, Hybrid, Online

  Campus: Main Campus, DTLA Campus

  Prerequisite(s): ACCT 2100

  Needs Permission to Enroll: No

  Special Fee Applied: No

- **FIN 3050 - Legal and Regulatory Environment of Business II**
  
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
Course Description: Legal and regulatory issues facing business owners, managers, and accountants, including forms of business organization, securities regulation, employment law, agency, secured transactions, bankruptcy, and commercial paper.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): FIN 2050
Needs Permission to Enroll: No
Special Fee Applied: No

FIN 3250 - Essential Skills for Finance Professionals

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Using Excel for financial analyses including financial statements, financial ratios, determining operating and financial leverage, forecasting, and investment decisions; retrieving financial data online; Excel finance related built-in functions.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): GE Block B4, FIN 3030
Needs Permission to Enroll: No
Special Fee Applied: No

FIN 3310 - Financial Institutions and Markets

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Financial market structure, institutions, and role in financial system. Foreign financial systems. Deregulation/reregulation and crises. Financial instruments, interest rates. Risk management; hedging tools including swaps and other derivatives.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ECON 2020, FIN 3030
Needs Permission to Enroll: No
Special Fee Applied: No

FIN 3320 - Investments

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Financial market structure, institutions, and role in financial system. Foreign financial systems. Deregulation/reregulation and crises. Financial instruments, interest rates. Risk management; hedging tools including swaps and other derivatives.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Techniques and procedures used to finance real estate property, including sources of funds, lending policies, and instruments used, domestic and internationally. Market and economic considerations, international issues discussed.  
**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face, Hybrid, Online  
**Campus:** Main Campus

**Prerequisite(s):** [FIN 5338]  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

---

**FIN 5454 - Special Topics Real Estate**

(3)  
This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** This is a graduate seminal course that will be used to investigate contemporary, special topics in real estate.  
**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face, Hybrid, Online  
**Campus:** Main Campus

**Prerequisite(s):** None  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

---

**FIN 5493 - Real Estate Investment**
FIN 5338 - Principles of Investing in Real Estate

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Principles of investing in real estate, advanced valuation techniques, economic strategies for maximizing the after-tax returns in different types of real estate products. Capital Budgeting Analysis. International investment discussed.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face, Hybrid, Online  
Campus: Main Campus

Prerequisite(s): FIN 5338  
Needs Permission to Enroll: No  
Special Fee Applied: No

FIN 5980 - Graduate Directed Study

This course is repeatable: Yes  
Max # of units may be repeated: 27  
Total # of units allowed for credit: 30  
Max times this course can be taken for credit: 30

Course Description: Investigation of an approved project leading to written report; project selected in conference with seminar professor, and arrangements made for regular meetings during semester. May be repeated for credit.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): None  
Needs Permission to Enroll: No  
Special Fee Applied: No

Fire Protection Administration (Undergraduate)

FPAT 3570 - Wildland Fire: Science and Strategy

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: This course examines fundamental science behind wildland fires, including fire dynamic, associated indicators, and fire protection methodologies. The emerging concerns about fire damage in WUI and protection measures are discussed.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face, Hybrid, Online  
Campus: Main Campus

Prerequisite(s): Junior or senior standing in FPAT program, or with instructor’s consent.
- TECH 3500 - Fire Protection and the Community

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Relationship of fire service and fire protection needs to critical urban issues, affirmative action, public education, communication with minority groups, interdepartmental and intradepartmental relations.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

- TECH 3510 - Fire Defense Planning

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Community defense needs, facilities, master plan development, federal assistance. Application of ISO grading schedule and guide for determining fire flow requirements, impact on fire insurance.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

- TECH 3520 - Building Construction aspects of fire protection

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Building construction, including fire resistive materials, protective systems; testing methods of fire assemblies, heat and smoke detection devices, high-rise structures; plan checking.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
TECH 3530 - Fire Disaster Planning
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Fire disaster protection organization; disaster laws; establishment of central communication and field control centers; support groups; manpower, and equipment. NIMS

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

TECH 3540 - Human Behavior and Fire Protection
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Interaction between fire, building, and occupants; human behavior factors affecting response to fire situations; decision-making; movement-modeling; egress design; evacuation strategies; fire safety strategies for senior and disabled/impaired citizens.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

TECH 3550 - Fire Protection Laws
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Study of Fire Laws.
• TECH 3560 - Emergency Management and Terrorism

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Focuses on terrorism, emergency management response and mitigation of such events. Review of incident contingency planning and how to apply emergency management principles to terrorism.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• TECH 3570 - Fire Leadership and Ethics

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Course examines organizational and leadership tools for fire service administrators, including community approaches, core skills, ethical behavioral, planning and implementation, and community risk management.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Lower division fire courses needed.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

• TECH 3580 - Advanced Hazardous Materials

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course provides advanced fire chemistry relating to the categories of hazardous materials including problems of recognition, reactivity, and health encountered by firefighters.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Lower division fire courses needed.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

• TECH 3590 - Fire Cause Investigation

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examines investigative, legal, and managerial approaches to arson cases, including principles of incendiary fire analysis, detection, environmental and psychological factors of arson, including legal considerations and trial preparation.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• TECH 4510 - Fire Laws and Building Codes: Interpretation and Enforcement

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Interpretation of the building, fire prevention, and State Fire Marshal Codes; review of building plans, enforcement procedures and techniques; case studies and problems in code enforcement.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

• TECH 4520 - Fire Prevention Administration
TECH 4510 - Organization of Fire Prevention Bureau

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Organization of Fire Prevention Bureau; laws and regulations, building and fire code administration; coordination with governmental and other organizations; functions of Fire Prevention Bureau; planning and training.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): TECH 4510
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

---

TECH 4530 - Advanced Equipment and Systems

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Theories, principles, and types of fire protection systems, review of fire protection systems plans checking process.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

---

TECH 4550 - Fire Protection of Structural Members and Building Components and Materials

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course studies building materials under tension, compression and shear during fire exposures, and HVAC systems and their design and fire protection issues with smoke, fire movement.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Lower division fire courses needed.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No
• TECH 4560 - Fire Finance

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Course provides skills, knowledge required to manage and administer fiscal activities for the fire service. The major budgeting methods, control mechanisms, forecasting and analysis processes are included.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Lower division fire courses needed.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

• TECH 4570 - Advanced Fire Leadership and Ethics

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course examines organizational and leadership tools for fire service administrators, including community approaches to administration, core skills, planning and implementation, leading change and ethical leadership. Meets UD (wi) requirement.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Lower division fire courses needed.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

(wi)

• TECH 4580 - Fire Research Methods for Emergency Managers

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Course examines tools and techniques of rational decision making in fire departments, including databases, statistics, probability, decision analysis, resource allocation, cost-benefit analysis, and linear programming.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
• **TECH 4590 - Fire Administration Capstone Course**

(3)

**Prerequisite(s):** Lower division fire courses needed.

**Needs Permission to Enroll:** Yes, Department Consent

**Special Fee Applied:** No

**Course Description:** Upon completion of this course, students will be able to examine similarities and differences, integrate and synthesize ideas, conceptualize the fire protection program of study more broadly than normally possible in more narrowly focused classes. A senior thesis or project is required.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** Lower division fire courses needed, and senior standing.

**Needs Permission to Enroll:** Yes, Department Consent

**Special Fee Applied:** No

---

**Food Science and Technology (Undergraduate)**

• **FST 3200 - Food Chemistry**

(3)

**This course is repeatable:** No

**Max # of units may be repeated:** 0

**Total # of units allowed for credit:** 3

**Max times this course can be taken for credit:** 1

**Course Description:** Explores the structure and functional properties of food components and their chemical changes during food processing and utilization.

**Hours per Week:** 2 lecture hour(s), 3 laboratory hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** NTRS 3100, CHEM 1010, CHEM 1020

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

• **FST 3230 - Food Analysis**

(3)

**This course is repeatable:** No

**Max # of units may be repeated:** 0

**Total # of units allowed for credit:** 3
Max times this course can be taken for credit: 1

**Course Description:** Explores composition and analysis of food components. Principles that help understand basic laboratory techniques on the function and interactions of chemical components in food and an introduction to instrumental analysis. Lecture 2 hours, laboratory 4 hours.

**Hours per Week:** 1 lecture hour(s). 6 laboratory hour(s).

**Grading:** ABCDF
**Mode of Delivery:** Face to Face
**Campus:** Main Campus

**Prerequisite(s):** FST 3200
**Needs Permission to Enroll:** No
**Special Fee Applied:** No

---

**FST 3250 - Food Microbiology**

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

**Course Description:** Microbial ecology of foods, important food borne pathogens and principles of use of microorganisms in fermentation.

**Hours per Week:** 2 lecture hour(s). 6 laboratory hour(s).

**Grading:** ABCDF
**Mode of Delivery:** Face to Face
**Campus:** Main Campus

**Prerequisite(s):** MICR 1010
**Needs Permission to Enroll:** No
**Special Fee Applied:** No

---

**FST 3270 - Principles of Food Engineering**

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

**Course Description:** Principles of food engineering encompassing math concepts for food engineering, heat transfer, refrigeration, psychrometrics, mass transfer and units and dimensions, thermodynamics, material and energy balance, and fluid flow.

**Hours per Week:** 3 lecture hour(s). 2 activity hour(s).

**Grading:** ABCDF
**Mode of Delivery:** Face to Face
**Campus:** Main Campus

**Prerequisite(s):** PHYS 1560, PHYS 1570, MATH 2110
**Needs Permission to Enroll:** No
**Special Fee Applied:** No

---

**FST 3320 - Food Law**
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: An introduction to federal and state regulations that assure safety of food products in the market.
Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): [NTRS 2100 or NTRS 3100], [MICR 1010]
Needs Permission to Enroll: No
Special Fee Applied: No

FST 4210 - Sensory Evaluation of Food Products

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: The senses and their implications in sensory evaluation of food products. Techniques used to conduct sensory evaluation of food products.
Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): [PSY 1500]
Needs Permission to Enroll: No
Special Fee Applied: No

FST 4250 - Food Preservation Technologies

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Industrial perspective of food preservation technologies, good manufacturing practices and standard operating procedures applied to canning, pasteurization, aseptic processing, smoking, irradiation, refrigeration, freezing, dehydration and concentration.
Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): [FST 3200], [FST 3250], [FST 3270]
Needs Permission to Enroll: No
Special Fee Applied: No

.
**FST 4290 - Food Packaging**

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: The basic principles of packing applied to foods. It covers the basic properties and applications of metal, glass, paper, and plastic food packaging.  
Hours per Week: 2 lecture hour(s), 2 activity hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): FST 3270  
Needs Permission to Enroll: No  
Special Fee Applied: No

---

**FST 4310 - Quality Assurance of Food Products**

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Quality assurance of food production dealing with management issues and statistical quality control.  
Hours per Week: 2 lecture hour(s), 2 activity hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): NTRS 2100, CHEM 3000  
Needs Permission to Enroll: No  
Special Fee Applied: No

---

**FST 4380 - Food-Borne Illnesses: Etiology, Prevention and Co**

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 2  
Max times this course can be taken for credit: 1

Course Description: Food-borne diseases and their causes, control and prevention.  
Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): MICR 1010, MICR 2010, MICR 2020  
Needs Permission to Enroll: No  
Special Fee Applied: No
FST 4440 - Food Safety Programs
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to food safety issues in the food industry. Overviews of food safety programs focused on HACCP and ServSafe. It includes good manufacturing practices and pre-requisite programs in the food industry and food service facilities.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): NTRS 2100, MICR 1010
Needs Permission to Enroll: No
Special Fee Applied: No

----

FST 4460 - Food Product Development
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course introduced the principles of new product development and review special market segments such as nutraceuticals, functional foods, biotechnological products and ethnic foods.

Hours per Week: 2 lecture hour(s). 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): (NTRS 2100 or NTRS 3100), MICR 1010
Needs Permission to Enroll: No
Special Fee Applied: No

----

FST 4540 - Special Topics in Food Science
(1-3)
This course is repeatable: Yes
Max # of units may be repeated: 9
Total # of units allowed for credit: 10
Max times this course can be taken for credit: 10

Course Description: Define a problem; identify potential causes and possible solutions based on independent research in food science and technology. May be repeated to a maximum of 16 units as subject matter changes.

Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
• **FST 4600 - Animal Food Products Technology**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Understanding of production and processing of foods derived from animals (meat, milk and egg).  
**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** NTRS 2100  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

• **FST 4750 - Food Safety: Current Challenges and Trends**

(2)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 2  
Max times this course can be taken for credit: 1

**Course Description:** Specific challenges of food safety in the changing food industry. Includes biosafety issues faced by globalization of food supplies, the laws and regulations governing food safety and public perception of food safety.  
**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** NTRS 2100, MICR 1010, FST 4440  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

• **FST 4790 - Professional Interactions and Writing Skills**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Written and oral communication skills for the Food Science majors with an emphasis on technical and scientific writing to enable them to be effective in industry and government work settings.  
Grade of C or better in this course satisfies the Graduation Writing Assessment Requirement.  
**Hours per Week:** 2 lecture hour(s), 2 activity hour(s).
**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** NTRS 2100, GE Blocks A2 and A3  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No  

**(wi) GWAR**

---

**French (Undergraduate)**

- **FREN 1001 - Elementary French I**
  
  (4)

  **This course is repeatable:** No  
  **Max # of units may be repeated:** 0  
  **Total # of units allowed for credit:** 4  
  **Max times this course can be taken for credit:** 1

  **Course Description:** Must be taken in sequence. Methodical presentation of the fundamental structures of French through hearing, speaking, reading, and writing French. Introduction to the diversity of the Francophone world and to cultural aspects of various Francophone societies.  
  **Hours per Week:** 4 lecture hour(s).

- **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

- **Prerequisite(s):** Course limited to students who have never studied French before; except as permitted by departmental “Limitation on Language Credit” policy in this catalog.  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

  **GE C2**

---

- **FREN 1002 - Elementary French II**
  
  (4)

  **This course is repeatable:** No  
  **Max # of units may be repeated:** 0  
  **Total # of units allowed for credit:** 4  
  **Max times this course can be taken for credit:** 1

  **Course Description:** Methodical presentation of the fundamental structures of French through hearing, speaking, reading, and writing. Expansion of cultural knowledge about specific Francophone countries and the Francophone world as a whole.  
  **Hours per Week:** 4 lecture hour(s).

- **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

- **Prerequisite(s):** FREN 1001 or equivalent, see departmental “Limitation on Language Credit” policy in this catalog.  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

  **GE C2**
FREN 2001 - Intermediate French I
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Expansion of cultural knowledge of the Francophone world and development of intermediate communicative skills in French: oral proficiency, listening comprehension, grammar review, vocabulary building, and reading and writing skills. See departmental "Limitation on Language Credit" policy in this catalog.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): FREN 1002 or demonstrated equivalent language competency; Recommended: FREN 2055 or FREN 2056
Needs Permission to Enroll: No
Special Fee Applied: No
GE C2

FREN 2002 - Intermediate French II
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Continued expansion of cultural knowledge of the Francophone world and development of intermediate communicative skills in French: oral proficiency, listening comprehension, grammar review, vocabulary building, and reading and writing skills.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): FREN 2001, see departmental "Limitation on Language Credit" policy in this catalog. Recommended: Suggested corequisite: FREN 2055 or FREN 2056
Needs Permission to Enroll: No
Special Fee Applied: No

FREN 2055 - French Conversation
(1)
This course is repeatable: Yes
Max # of units may be repeated: 1
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 2
Course Description: Development of French listening skills and conversational abilities on the ACTL intermediate level through focused discussion of cultural and political topics, films, literary readings, and other materials assigned for pre-class preparation.
FREN 2055 and FREN 2056 may be repeated to a maximum of a combined 4 units. Some sections may be offered online.
Hours per Week: 1 lecture hour(s).
Grading: CR/NC
**FREN 2056 - Intensive French Conversation**

(2)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 2  
Max times this course can be taken for credit: 1

Course Description: Development of French listening skills and conversational abilities on the ACTL intermediate level through focused discussion of cultural and political topics, films, literary readings, and other materials assigned for FREN 2055 and FREN 2056 may be repeated to a maximum of a combined 4 units. Some sections may include a service learning option.  
Hours per Week: 2 lecture hour(s).

Grading: CR/NC  
Mode of Delivery: Face to Face  
Campus: Main Campus

**FREN 3001 - Advanced Grammar and Composition**

(3)

This course is repeatable: Yes  
Max # of units may be repeated: 3  
Total # of units allowed for credit: 6  
Max times this course can be taken for credit: 2

Course Description: Review of French grammatical structures; scaffolded use of these structures in writing a variety of text types such as journals, descriptions, short fiction, summaries, letters, opinion pieces, literary and cultural analysis, and/or research papers. Some sections of course may be taught in a hybrid format.  
Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face, Hybrid  
Campus: Main Campus

**FREN 3002 - Introduction to Literary Analysis**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

**Course Description:** Development of reading strategies for French literary works; introduction to literary genres; principles of literary analysis as applied to texts by French and Francophone writers; development of writing skills.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

Prerequisite(s): FREN 2002 or demonstrated equivalent language competency; Pre/Co-requisite(s): ML 1010

Needs Permission to Enroll: No

Special Fee Applied: No

---

**FREN 3010 - Contemporary Spoken French**

(3)

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 3

Max times this course can be taken for credit: 1

**Course Description:** Development of oral skills in all registers; analysis of spoken French and its differences with standard French; study of current French usage through contemporary texts and media.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

Prerequisite(s): FREN 2002

Needs Permission to Enroll: No

Special Fee Applied: No

---

**FREN 3050 - French Phonetics**

(3)

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 3

Max times this course can be taken for credit: 1

**Course Description:** Analysis and practice of French sounds and speech patterns including assimilation, liaison, rhythm, accent, and intonation. Introduction to variants of French pronunciation throughout the world, with a focus on standard French.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face, Hybrid, Online

**Campus:** Main Campus

Prerequisite(s): FREN 2002

Needs Permission to Enroll: No

Special Fee Applied: No

---

**FREN 3100 - Introduction to French Culture**
FREN 3001 - Introduction to French Institutions and Society

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Introduction to French institutions and society through focused study of a particular period. Important historical figures and events; intellectual, social, artistic, and political developments; influence on western world.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Needs Permission to Enroll: No

Special Fee Applied: No

---

FREN 3719 - The French Film

This course is repeatable: Yes  
Max # of units may be repeated: 3  
Total # of units allowed for credit: 6  
Max times this course can be taken for credit: 2

Course Description: Study of French film through various artistic movements from its origins to the present day. Films are situated within their historical, cultural, and cinematic contexts; aspects of narrative and film form will also be analyzed. Taught in English.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.

Needs Permission to Enroll: No

Special Fee Applied: No

---

FREN 3729 - Islam in the Francophone World

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Examination of the cultural dynamics of Islam in the Francophone world, particularly the Muslim experience in France and relationships between France, the Maghreb and West African countries. Taught in English.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.

Needs Permission to Enroll: No

Special Fee Applied: No
FREN 3739 - Images of Women in French Literature and Society
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examination of various images of women – stereotypical, idealized, and iconoclastic – in French literature, art, and society from the Middle Ages to the twenty-first century. Taught in English.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.

Needs Permission to Enroll: No
Special Fee Applied: No

GE UD C (wi)

FREN 3800 - Commercial French
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Intensive study of French used in business; theory and practice of fundamentals of commercial correspondence in French; translation of business English into business French.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): FREN 3002

Needs Permission to Enroll: No
Special Fee Applied: No
Notes:

- All 4000-level courses may be applied toward master's degree requirements, subject to limits established by the department and approval of the graduate adviser.
- Classified graduate standing is required for enrollment in 5000-level courses; exception applies to students who are enrolled in a postbaccalaureate certificate or credential program.

French (Undergraduate)

- **FREN 4030 - Topics in French Applied Linguistics**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  Course Description: Topics in French linguistics: Historical linguistics; modern French morphology, syntax, and sociolinguistics; second language acquisition; contrastive analysis of French and English grammatical structures, in preparation for teaching. NIS account required.  
  Hours per Week: 3 lecture hour(s).
FREN 4050 - Translation

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Techniques of translation processes in rendering into French and English materials ranging from official documents to technical essays and literary texts.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): FREN 3002
Needs Permission to Enroll: No
Special Fee Applied: No

FREN 4100 - Literature and Society in Medieval and Renaissance France

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Origins of French language, literature, and society, and developments through the Middle Ages and Renaissance. Important historical figures and events; social and political conditions; influence on western world. Study of major authors and texts; analysis of genre and style.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): FREN 3002
Needs Permission to Enroll: No
Special Fee Applied: No

FREN 4105 - Literature and Society in 17th- and 18th-century France

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: French literature and society in the Grand Siècle and the Age of Enlightenment prior to the French Revolution. Important historical figures and events; intellectual, social, and political developments; influence on western world. Study of major authors and texts; analysis of genre and style.

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** FREN 3002

• **FREN 4115 - French Literature and Society in the 20th and 21st centuries**

(3)

**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

Course Description: French literature and society in the 20th and 21st centuries. Portrait of Contemporary France. Intellectual, social, artistic, and political developments; role in global society. Study of major authors and texts; analysis of genre and style. Complemented by FREN 4130.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** FREN 3002

• **FREN 4120 - Survey of French Poetry from the Medieval Lyric to the Symbolists**

(3)

**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

Course Description: Study of French lyric poetry focusing on formal analysis (meter, rhyme, formes fixes, figures of speech, imagery) and chronological development from the troubadours to Mallarmé. Techniques of explication de texte.

**Hours per Week:** 3 lecture hour(s).
FREN 4130 - Panorama de la Francophonie

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Survey of Francophone literature and culture, including French-language literature of Canada, Belgium, the Antilles, the Maghreb, and Central Africa.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): FREN 3002
Needs Permission to Enroll: No
Special Fee Applied: No

FREN 4318 - Francophone Caribbean Literature and Culture

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Study of Creole and French-language literature of the Caribbean (Haiti, Guadeloupe, Martinique) as well as the cultural issues surrounding it. Course may be taught in English or French, check GET.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): None if taught in English, FREN 3002 if taught in French.
Needs Permission to Enroll: No
Special Fee Applied: No

FREN 4328 - Quebecois Literature and Culture

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Study of the culture of Quebec, particularly the formation and maintenance of Quebecois identity and the inherent Franco-Anglophone tensions linked to its history and geography. Course may be taught in English or French, check GET.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None if taught in English, FREN 3002 if taught in French.
Needs Permission to Enroll: No
Special Fee Applied: No

FREN 4338 - Francophone African Literature

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Francophone literary works from the Maghreb and/or West and Central Africa. Analysis of literary and cultural aspects of these works. Course may be taught in English or French, check GET.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None if taught in English, FREN 3002 if taught in French.
Needs Permission to Enroll: No
Special Fee Applied: No

FREN 4500 - Selected Topics in French Literary Prose

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Selected masters of French literary prose and their influence on world letters and ideas. Focus on cultural significance and literary theory. May be repeated for credit as subject matter changes.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): FREN 4100 or FREN 4110
Needs Permission to Enroll: No
Special Fee Applied: No

FREN 4510 - Selected Topics in French Dramatic Literature

(3)
This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Selected masters of French dramatic literature and their influence on world letters and ideas. Focus on cultural significance and aesthetic theory. May be repeated to a maximum of 8 units for credit as subject matter changes.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): FREN 4100 or FREN 4110
Needs Permission to Enroll: No
Special Fee Applied: No

FREN 4540 - Special Topics in French
(1-4)

This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

Course Description: Current topics of special interest in French as announced in Schedule of Classes. May be repeated to a maximum of 8 units for credit.
Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): As needed for specific topic.
Needs Permission to Enroll: No
Special Fee Applied: No

FREN 4560 - Senior Seminar in French
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: In-depth study of the literary production of a single author, period, or theme. Development of analytical and writing skills as applied to literary study. Writing intensive.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): FREN 4100 or FREN 4110
Needs Permission to Enroll: No
Special Fee Applied: No

(wi)
FREN 4990 - Undergraduate Directed Study

This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

Course Description: Project selected in conference with instructor before registration; progress meetings held regularly and culminating in written reports. May be repeated to a maximum of 8 units for credit.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): As required for particular topic.
Needs Permission to Enroll: No
Special Fee Applied: No

Geography (Undergraduate)

GEOG 1550 - Cultural Geography

This course is repeatable: No
Max # of units may be repeated: 3
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: A Geographic perspective on the spatial variation of culture. Focuses on similarities and differences of various cultures with respect to racial, ethnic, religious, linguistic, demographic, and organizational characteristics.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE D (d)

Articulation C-ID: GEOG 120
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

GEOG 1600 - Physical Geography

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to the principles and processes affecting the natural environment and dynamical interactions of the
physical world and its inhabitants. Emphasizes the spatial relationships among atmosphere, hydrosphere, soils, and vegetation. 2 hrs lecture, 3 hrs lab per week.

**Hours per Week:** 2 lecture hour(s). 3 laboratory hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** None  
**Corequisite(s):** Must be enrolled in a lab section as well as lecture.  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

**GE B1**

---

**Articulation C-ID: GEOG 110**  
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

---

**GEOG 1700 - Meteorology**

(3)

**This course is repeatable:** No  
**Max # of units may be repeated:** 0  
**Total # of units allowed for credit:** 3  
**Max times this course can be taken for credit:** 1

**Course Description:** Course surveys the major atmospheric processes, with emphasis on weather phenomena, severe storms, droughts and flood-producing events. Use of weather charts and satellite imagery in forecasting examined. Lecture 2 hours, lab 3 hours. Some sections of the lecture may be taught online.  
**Hours per Week:** 2 lecture hour(s). 3 laboratory hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** None  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

**GE B1**

---

**Articulation C-ID: GEOG 130**

**GEOG 2600 - Geographic Information Literacy (also listed as LIBR 2600)**

(3)

**This course is repeatable:** No  
**Max # of units may be repeated:** 0  
**Total # of units allowed for credit:** 3  
**Max times this course can be taken for credit:** 1

**Course Description:** Intermediate information literacy class that examines sources and types of information related to climate, geography, oceans and the environment. Primary emphasis placed upon reading, interpreting and analyzing maps and environmental data.  
**Hours per Week:** 3 lecture hour(s).

**Grading:** ABC-/NC (Undergraduate Only)  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus
GEOG 2680 - Introduction to Geospatial Sciences
(4)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: An introduction to geospatial technologies used in acquisition, representation, analysis, and dissemination of geographic and geologic data.

Hours per Week: 3 lecture hour(s). 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

GEOG 2820 - Spatial Measurement and Elementary Statistics
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

GEOG 3090 - Urban Environmental Pollution
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Investigates the major sources and effects of land, water and air pollution in cities of developed and developing countries. Best management practices and control methods will also be discussed. This course includes civic learning activities.
• **GEOG 3100 - Urban Climatology**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: The course investigates urbanization effects on the immediate atmospheric environment. Students evaluate these effects through direct measurement and data analyses. Topics include architecture, urban planning and pollution. The course includes civic/service learning activities.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
Needs Permission to Enroll: No
Special Fee Applied: No

GE UD B (cl)

• **GEOG 3120 - Global Climate Change (also listed as GEOL 3120)**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Investigates the causes and impacts of global climate change, as well as mitigation schemes. Students explore current climate change and its impact on the poor, and they gather evidence from the past and formulate scenarios of the future. This course includes civic/community learning.

Hours per Week: 2 lecture hour(s), 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
Needs Permission to Enroll: No
Special Fee Applied: No

GE UD B (cl)

• **GEOG 3130 - Climate Change and Migration (also listed as LAS 3130)**
GEOG 3330 - Environment and Development in the Third World (also listed as GEOL 3330)

Course Description: The physical environments of the Third World and associated problems of development.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.

Needs Permission to Enroll: No

Special Fee Applied: No

GE UD B (cl)

GEOG 3690 - Fundamentals of Geographic Information Systems

Course Description: This course introduces students to the elements and capabilities of a functioning GIS for solving spatial problems.

Hours per Week: 2 lecture hour(s). 2 activity hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus, DTLA Campus

Prerequisite(s): None

Needs Permission to Enroll: No

Special Fee Applied: No
- **GEOG 3700 - World Regional Geography**
  
  (3)
  
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  
  **Course Description:** Major physical regions of world are examined with a focus on the variation of social, political, historical and physical issues across space.
  
  Hours per Week: 3 lecture hour(s).
  
  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus
  
  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **GEOG 3760 - Urban Spatial Process and Patterns**
  
  (3)
  
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  
  **Course Description:** An in-depth, critical examination of the spatial processes of urbanization and the characteristics and morphology of cities.
  
  Hours per Week: 3 lecture hour(s).
  
  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus
  
  Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **GEOG 4020 - Geomorphology**
  
  (3)
  
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  
  **Course Description:** Identification and interpretation of landforms. Local field trip.
  
  Hours per Week: 3 lecture hour(s).
  
  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus
• GEOG 4030 - Environment and Food Customs

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course will examine the geographical distribution of various food cultures as well as the connections between those food cultures and the physical environment in which they have developed.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• GEOG 4070 - Biogeography

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Distributions and dynamics of individual plant and animal taxa and the communities and ecosystems in which they occur, in relation to natural and anthropogenic processes at different scales.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): GEOG 1600, completion of GE Block B.
Needs Permission to Enroll: No
Special Fee Applied: No

• GEOG 4100 - Applied Climatology

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Atmospheric behavior and its connections to our day-to-day weather phenomena. Emphasis is on effects of climate on physical, biological, cultural environments; and climatic change and variability.

Hours per Week: 3 lecture hour(s).
**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** Completion of GE 4 basic subjects and a course from Blocks B1 or B3  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

---

**GEOG 4150 - Perspectives on Environment**

(3)

**This course is repeatable:** No  
**Max # of units may be repeated:** 0  
**Total # of units allowed for credit:** 3  
**Max times this course can be taken for credit:** 1

**Course Description:** Environmental interactions in subsistence and urban-industrial societies; impact of human activities on environment: modification of vegetation, hydrology, and landforms, accelerated soil erosion, climatic change; environmental perception; awareness of and adjustment to natural hazards.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** Completion of GE 4 basic subjects and a course from Blocks B1 or B3  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

---

**GEOG 4310 - California**

(3)

**This course is repeatable:** No  
**Max # of units may be repeated:** 0  
**Total # of units allowed for credit:** 3  
**Max times this course can be taken for credit:** 1

**Course Description:** Examination of Human and Physical spatial processes in California that shape past, present and future landscapes of the state. Climate, landforms, vegetation, settlement, economics, water are discussed. Optional field trip.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** None  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

---

**GEOG 4420 - Population Geography**

(3)

**This course is repeatable:** No  
**Max # of units may be repeated:** 0  
**Total # of units allowed for credit:** 3
Max times this course can be taken for credit: 1

**Course Description:** Spatial analysis of demographic variables with emphasis on environment, social, and economic factors influencing population distribution and mobility; population growth in relation to resource utilization.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** GEOG 1550

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**GEOG 4460 - U.S. Ethnic Communities**

(3)

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 3

Max times this course can be taken for credit: 1

**Course Description:** Spatial structure and organization of selected ethnic communities in the U.S. and their interrelationships with American composite cultural environment.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** None

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**GEOG 4510 - Historical Geography of North America**

(3)

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 3

Max times this course can be taken for credit: 1

**Course Description:** Development of North America from earliest European contact through the present, emphasizing spatial process and patterns.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** None

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**GEOG 4540 - Special Topics in Geography**
**GEOG 4570 - Transportation Geography**

(3)

- This course is repeatable: Yes
- Max # of units may be repeated: 3
- Total # of units allowed for credit: 6
- Max times this course can be taken for credit: 2

**Course Description:** Current topics of special interest in geography, as announced in Schedule of Classes. May be repeated to a maximum of 6 units.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF
**Mode of Delivery:** Face to Face
**Campus:** Main Campus

**Prerequisite(s):** Upper Division standing; permission of the instructor.

**Needs Permission to Enroll:** Yes, Instructor Consent
**Special Fee Applied:** No

---

**GEOG 4580 - Urban Transportation**

(3)

- This course is repeatable: No
- Max # of units may be repeated: 0
- Total # of units allowed for credit: 3
- Max times this course can be taken for credit: 1

**Course Description:** Modes of movement of people, products, and ideas; their impacts on spatial patterns and landscapes. Field Trips Required.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF
**Mode of Delivery:** Face to Face
**Campus:** Main Campus

**Prerequisite(s):** GEOG 1550

**Needs Permission to Enroll:** No
**Special Fee Applied:** No

---

**GEOG 4570 - Transportation Geography**

(3)

- This course is repeatable: No
- Max # of units may be repeated: 0
- Total # of units allowed for credit: 3
- Max times this course can be taken for credit: 1

**Course Description:** Modes of movement of people, products, and ideas; their impacts on spatial patterns and landscapes. Field Trips Required.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF
**Mode of Delivery:** Face to Face
**Campus:** Main Campus

**Prerequisite(s):** GEOG 1550

**Needs Permission to Enroll:** No
**Special Fee Applied:** No

---

**GEOG 4580 - Urban Transportation**

(3)

- This course is repeatable: No
- Max # of units may be repeated: 0
- Total # of units allowed for credit: 3
- Max times this course can be taken for credit: 1

**Course Description:** This course will focus on critical issues in urban transportation, including land use and transportation interaction, urban form and commuting patterns, transit planning, and sustainable urban transportation.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF
**Mode of Delivery:** Face to Face
**Campus:** Main Campus

**Prerequisite(s):** GEOG 2820 or a course in statistics

**Needs Permission to Enroll:** No
**Special Fee Applied:** No
• GEOG 4620 - Geographic Information Systems (GIS) Applications (also listed as POLS 4640)

(3)
This course is repeatable: Yes
Max # of units may be repeated: 9
Total # of units allowed for credit: 12
Max times this course can be taken for credit: 12

Course Description: This course focuses on the application of GIS to real-world case studies. Emphasis will be placed on spatial analysis and modeling and on displaying results using different map products.
Hours per Week: 2 lecture hour(s), 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): GEOG 3690 or equivalent
Needs Permission to Enroll: No
Special Fee Applied: No

• GEOG 4660 - Remote Sensing

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis of natural and cultural features of earth’s environment using photographic, infrared, satellite and microwave imagery. Lecture 3 hours, laboratory 2 hours.
Hours per Week: 2 lecture hour(s), 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): GEOG 2680, GEOG 3690
Needs Permission to Enroll: No
Special Fee Applied: No

• GEOG 4680 - Digital Cartography

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course provides hands-on training in GIS data creation, map design, and web map authoring.
Hours per Week: 2 lecture hour(s), 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
- **GEOG 4690 - Spatial Analysis and GIS Modeling**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Analytical and modeling functions of geographic information systems, including buffer zone and overlay analysis, network analysis, terrain and hydrological modeling, and cost surface analysis. Lecture 3 hours, laboratory 2 hours.

Hours per Week: 2 lecture hour(s), 2 activity hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

- **GEOG 4700 - GIS Programming and Customization**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: This course teaches how to create Python scripts to automate tasks related to data management, feature editing, geoprocessing and analysis, and map production using ArcGIS.

Hours per Week: 2 lecture hour(s), 2 activity hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

- **GEOG 4710 - GIS Database Management**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: This course addresses advanced spatial data management such as spatial data structure in a relational database, data consistency, importing data from multiple sources, data versioning and replication, big data, publishing data to the web, and geodatabase maintenance.
**GEOG 4760 - Urban Geography**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: In-depth spatial analysis of urban systems and internal structure of cities, and analytical investigation of functions and forms of representative urban areas.  

Hours per Week: 3 lecture hour(s).  

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus  

Prerequisite(s): None  
Needs Permission to Enroll: No  
Special Fee Applied: No  

**GEOG 4820 - Multivariate Statistics in Geospatial Sciences**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Nonparametric statistics, parametric statistical inference: two-sample tests, analysis of variance (ANOVA), multiple regression, principal components and factor analysis, and discriminant analysis. Emphasis on using spatial data. Lecture 2 hours, laboratory 2 hours.  

Hours per Week: 2 lecture hour(s). 2 activity hour(s).  

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus  

Prerequisite(s): GEOG 2820  
Needs Permission to Enroll: No  
Special Fee Applied: No  

**GEOG 4880 - Geography and Geopolitics in East Asia and Southeast Asia (also listed as AAAS 4880)**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Physical, economical, and political geography of Asian countries with an emphasis on changing geopolitics and regional stability. The course includes either a field trip to Asia or a local internship.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

---

GEOG 4890 - Remote Sensing Applications in Hydrology (also listed as GEOL 4890)
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Includes the application of remote sensing in precipitation, soil moisture, water quality, surface water, and hydrologic modeling. A technical computing language MATLAB is used for data analysis and visualization.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): (MATH 2120 or GEOG 2680 or instructor's consent)
Needs Permission to Enroll: No
Special Fee Applied: No

---

GEOG 4900 - Research Design
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course investigates the myriad of forms of research design appropriate for geographic research, culminating in a research proposal (thesis prospectus). Course topics will include the nature of geographic research; principles of research design; reviewing academic literature; data acquisition; techniques of analysis; legal and ethical issues of research.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): GEOG 2820 or instructor permission
Needs Permission to Enroll: No
Special Fee Applied: No

---
**GEOG 4950 - Senior Thesis**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Advanced principles of geographic writing and research. A culmination experience of senior thesis is required. Grade of C or better in this course satisfies the Graduation Writing Assessment Requirement.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** GEOG 4900, senior standing  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No  

(wi) GWAR

---

**GEOG 4990 - Undergraduate Directed Study**

(1-6)

This course is repeatable: Yes  
Max # of units may be repeated: 5  
Total # of units allowed for credit: 6  
Max times this course can be taken for credit: 6

**Course Description:** Project selected in conference with sponsor before registration; progress meetings held regularly. May be repeated to a maximum of 6 units for credit.

**Hours per Week:** N/A lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** Instructor consent to act as sponsor; ability to do independent works and prepare written and oral reports.  
**Needs Permission to Enroll:** Yes, Instructor Consent  
**Special Fee Applied:** No

---

**GEOG 5100 - Seminar: Physical Geography**

(3)

This course is repeatable: Yes  
Max # of units may be repeated: 12  
Total # of units allowed for credit: 15  
Max times this course can be taken for credit: 5

**Course Description:** Seminar on geography of the natural environment. Subjects offered include air pollution, biogeography, climatology/meteorology, environmental studies, geomorphology, and research advancements in physical geography. May be repeated as subject matter changes.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF
• GEOG 5200 - Seminar: Regional Geography

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Geography of selected regions of the world. Regions offered include California, Canada, Central America, China, Europe, Los Angeles, Middle East, South America, South Asia, and Southeast Asia. May be repeated as subject matter changes.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

• GEOG 5210 - Advanced Watershed Modeling

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course covers the advanced hydrologic modeling, surface water processes, impact assessment of land cover change, introduction to HEC software tools and GIS-based hydrologic modeling.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): GEOG 2680 or GEOG 3690 or instructor permission.
Needs Permission to Enroll: No
Special Fee Applied: No

• GEOG 5220 - Hydrologic Remote Sensing

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: This course focuses on the advanced principles of remote sensing and application in water resources using MATLAB and GIS software tools.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): GEOG 2680 or instructor permission
Needs Permission to Enroll: No
Special Fee Applied: No

- GEOG 5300 - Seminar: Urban Social Systems (also listed as SOC 5300)

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Growth and nature of urban social systems in selected cities and metropolitan areas; theories of urban structure and problems; improving quality of urban life; comparisons of cities in various countries.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

- GEOG 5400 - Seminar: Human Geography

(3)

This course is repeatable: Yes
Max # of units may be repeated: 12
Total # of units allowed for credit: 15
Max times this course can be taken for credit: 5

Course Description: Seminar on geography of human activities. Subjects offered include cultural, economic, historical, medical, population, resource, settlement, transportation, and urban geography, as well as ethnic studies, regional analysis, and migration studies. May be repeated as subject matter changes.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

- GEOG 5600 - Seminar: Methods and Techniques in Geography

(3)
GEOG 5940 - Seminar: Geographic Methods

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Seminar on geographic methods and techniques. Subjects offered include geographic information systems/science (GIS), remote sensing, mathematical modeling, qualitative research methods, locational analysis, and spatial statistics. May be repeated as subject matter changes.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

GEOG 5940 - Seminar: Geographic Thought

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: History, objectives, and methodological and philosophical approaches of geography.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

GEOG 5960 - Comprehensive Examination

(0)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 0
Max times this course can be taken for credit: 1

Course Description: See the Comprehensive Examination under the University Requirements for Master's Degree in this eCatalog.
Hours per Week: 0 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy
Needs Permission to Enroll: No
Special Fee Applied: No
• GEOG 5980 - Graduate Directed Study

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

Course Description: Project selected in conference with sponsor. May be repeated to a maximum of 12 units for credit.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent to act as sponsor
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

• GEOG 5990 - Thesis

(1-4)

This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 6

Course Description: May be repeated to maximum of 9 units.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy, approval of department, completion of course work in master’s program, completion of foreign language or upper division statistical or computer skill requirement.
Needs Permission to Enroll: No
Special Fee Applied: No

Geological Sciences (Undergraduate)

• GEOL 1500 - Earth Revealed

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introductory Geology: Earth material, plate tectonics, origin and nature of earthquakes, volcanoes, the seafloor, mountains, natural resources and climate change. Lecture 2 hours, laboratory 2.5 hours, one day field trip.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE B1

Articulation C-ID: GEOL 101
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding "C-ID Course" designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

• GEOL 1550 - Oceanography

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to the origin of ocean basins, seafloor features, ocean sediments, ocean circulation, seawater properties, wave properties, coastal processes, and environmental issues tied to pollution, population growth and climate change. Laboratory: one-day ocean cruise and one-day coastal trip. Lecture 2 hours, laboratory 2.5 hour. Portions of the class may be taught online.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE B1

• GEOL 1580 - Natural Disasters

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Causes, characteristics, mitigation and case histories of natural disasters affecting civilization. Topics include earthquakes, volcanic eruptions, landslides, storms and floods, tsunami, asteroid impacts, forest fires, climate changes, and mass extinctions. Lecture 2 hours: laboratory 3 hours.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE B1

Articulation C-ID: GEOL 130
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding "C-ID Course" designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.
- **GEOL 1600 - Geology Field Experience**
  (1)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 1
  Max times this course can be taken for credit: 1

  **Course Description:** Job and research opportunities will also be presented. Lecture 1 hour, laboratory 3 hours.
  **Hours per Week:** 0.5 lecture hour(s). 1.5 laboratory hour(s).
  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face
  **Campus:** Main Campus
  **Prerequisite(s):** GEOL 1500
  **Needs Permission to Enroll:** No
  **Special Fee Applied:** No

- **GEOL 2200 - Environmental Geoscience**
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** Current environmental issues concerning natural resources, water and soil use, energy resources, alternative energy, air and water pollution. Environmental laws, reclamation, and the human impact on global climate change. Lecture 4 hours.
  **Hours per Week:** 3 lecture hour(s).
  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face
  **Campus:** Main Campus
  **Prerequisite(s):** None
  **Needs Permission to Enroll:** No
  **Special Fee Applied:** No

- **GEOL 2520 - Historical Geology**
  (4)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 4
  Max times this course can be taken for credit: 1

  **Course Description:** Study of Earth's history through fossils and rocks. Evolution of plants and animals, rocks, principles of geologic time, plate tectonics and mountain building, principles of stratigraphy and biostratigraphy are reviewed. Lecture 3 hours, laboratory 1 hour. Field trips are required.
  **Hours per Week:** 3 lecture hour(s). 3 laboratory hour(s).
  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face
  **Campus:** Main Campus
  **Prerequisite(s):** GEOL 1500, (GEOL 1550 or GEOL 1580)
GEOL 3010 - Mineralogy and Petrology

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Crystal formation and bonding, mineral formulas, crystal symmetry, physical properties and identification, association of minerals with igneous, sedimentary and metamorphic environments, rock classification, use of the petrographic microscope and basic optical mineralogy skills. Lecture 2 units, lab 1 unit, activity 1 unit.
Hours per Week: 2 lecture hour(s). 3 laboratory hour(s). 2 activity hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): GEOL 1500
Needs Permission to Enroll: No
Special Fee Applied: No

GEOL 3120 - Global Climate Change (also listed as GEOG 3120)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Investigates the causes and impacts of global climate change, as well as mitigation schemes. Students explore current climate change and its impact on the poor, and they gather evidence from the past and formulate scenarios of the future. This course includes civic/community learning.

Hours per Week: 2 lecture hour(s). 2 activity hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
Needs Permission to Enroll: No
Special Fee Applied: No

GEOL 3210 - Geology of Southern California
GEOL 3330 - Environment and Development in the Third World (also listed as GEOG 3330)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: The Physical Environments of the Third World and Associated Problems of Development.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
Needs Permission to Enroll: No
Special Fee Applied: No

GEOL 3570 - Urban Geology

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Geologic conditions and processes (earthquakes, volcanoes, floods, landslides, coastal processes, etc.) as they affect urbanized areas around the world. Urban governmental planning and regulation for mitigation of geologic problems.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
Needs Permission to Enroll: No
Special Fee Applied: No

GE UD B (cl)
**GEOL 3600 - Geological Mapping**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Topographic map reading, Brunton compass use, construction of cross sections, stratigraphic columns and geologic maps. Emphasis on field note taking. Lecture 1 hour, laboratory and field trips 5 hours.

Hours per Week: 1 lecture hour(s), 3 laboratory hour(s), 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): GEOL 3010, GEOL 2520
Needs Permission to Enroll: No
Special Fee Applied: No

**GEOL 3700 - Geochemistry**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Application of chemical and mathematical principles to studies of earth systems including major and trace element distribution in rocks; isotopic tracers; radiometric dating; aqueous, organic, and environmental chemistry. Lecture 3 hours, laboratory 3 hours.

Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): GEOL 3010
Needs Permission to Enroll: No
Special Fee Applied: No

**GEOL 3720 - Computers in Geology**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Commonly used software and computing techniques will be covered. Software include ArcGis, GeoOrient, MS office and Adobe Illustrator. Techniques included drafting maps, technical writing, statistical analyses, and creating effective presentations. Lecture 2 hour, laboratory 3 hours.

Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
**GEOL 3980 - Geology Cooperative Education**

(1-3)

This course is repeatable: Yes  
Max # of units may be repeated: 7  
Total # of units allowed for credit: 8

Course Description: Integration of work experience with the academic program, individually planned through a coordinator. Minimum of 6 hours per week required for each unit. May be repeated to a maximum of 8 units; combined units of this course and **UNIV 3990** may not exceed 12. For more information see Cooperative Education.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC  
Mode of Delivery: Face to Face  
Campus: Main Campus

**GEOL 4000 - Optical Mineralogy**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3

Course Description: Optical properties of crystals in polarized light and determination of minerals in thin sections with the petrographic microscope. Lecture 2 hours, laboratory 6 hours.

Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

**GEOL 4010 - Igneous and Metamorphic Petrology**

(4)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 4

Course Description: Origin, occurrence, and characterization of igneous and metamorphic rocks; their mineralogy, petrology, geochemistry, and plate tectonic setting. Lecture 2 hours, lab 1 hour, activity 1 hour.
GEOL 4020 - Sedimentary Petrology

(4)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Analysis of sediments and sedimentary rocks involving their description and classification and origin. Principles of sedimentation. Lecture 2 hours, laboratory 3 hours, activity 2 hours.

Hours per Week: 2 lecture hour(s), 3 laboratory hour(s), 2 activity hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): GEOL 3010, GEOL 3600, GEOL 4000
Needs Permission to Enroll: No
Special Fee Applied: No

GEOL 4100 - Structural Geology

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Theory of rock deformation, structural features of sedimentary, igneous, and metamorphic rocks; deformation of the Earth’s crust, applied practices in laboratory methods dealing with geologic problems in three dimensions. Lecture 2 hours, laboratory 3 hours.

Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): GEOL 4100, MATH 2110, PHYS 1100
Needs Permission to Enroll: No
Special Fee Applied: No

GEOL 4110 - Geotectonic Development of California

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Tectonic development of California in chronological order from Proterozoic to modern time. Topics include Proterozoic rifting, Antler, Sonoman, Nevadan, Sevier, and Laramide Orogenies, and tectonic origin of present day features.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): GEOL 4100, GEOL 4300
Needs Permission to Enroll: No
Special Fee Applied: No

GEOL 4220 - Environmental Geochemistry
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course covers geochemical and environmental processes/tools and technical writing. Topics include basic principles and applications of geochemistry to solve environmental problems including surface and groundwater studies. Lecture 2 hours, laboratory 3 hours. Grade of C or better in this course satisfies the Graduation Writing Assessment Requirement.
Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): CHEM 1100
Needs Permission to Enroll: No
Special Fee Applied: No

GEOL 4222 - Forensic and Isotope Geochemistry
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Use of geochemical tracers to investigate environmental problems; identifying sources of pollution; fate and transport of inorganic and organic contaminants via statistical and isotopic tracers; age-dating environmental releases. Lecture 2 hours, lab 3 hours.
Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): GEOL 4220
Needs Permission to Enroll: No
Special Fee Applied: No
• GEOL 4260 - Astrogeology

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Terrestrial planets; meteorites, the moon, asteroids, comets; remote sensing of the Giant Planets; origin of the solar system.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• GEOL 4300 - Stratigraphy and Sedimentology

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Examination of modern depositional environments, reconstruction of ancient depositional environments through application of structural, petrologic, stratigraphic, and paleontologic principles; report writing and field note taking; analysis of stratigraphic sections. Lecture 3 hours, laboratory 3 hours.
Hours per Week: 3 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): GEOL 4020
Needs Permission to Enroll: No
Special Fee Applied: No

• GEOL 4330 - Quaternary Geology

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: History of the Earth during and since Ice Ages; causes, mechanisms, and global, physical and biological effects of glaciation.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): GEOL 2520
• GEOL 4340 - Volcanology

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Tectonic setting; petrogenesis; interpretation of volcanic rocks.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): GEOL 3600, GEOL 3700
Needs Permission to Enroll: No
Special Fee Applied: No

• GEOL 4350 - Coastal Processes and Environments

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Interpretation and identification of the origin of coastal features and environments through analysis of fluvial, wave, tidal, sea level, tectonic, and urbanization processes. Lecture 3 hours and field activities 3 hours.
Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): GEOL 2520 or consent of instructor.
Needs Permission to Enroll: No
Special Fee Applied: No

• GEOL 4590 - Geologic Maps and Reports

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Format and construction of geologic maps and cross sections; format and style of geologic reports including text, figures, and references.
Grade of C or better in this course satisfies the Graduation Writing Assessment Requirement.
Hours per Week: 3 lecture hour(s).
GEOL 4600A - Summer Field Geology

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): None  
Pre/Co-requisite(s): GEOL 2520, GEOL 3010

Needs Permission to Enroll: No  
Special Fee Applied: No

Course Description: First seven weeks of semester: Three weeks in an off-campus field camp, investigating and mapping an area of sedimentary, metamorphic, and/or igneous rocks and geologic structure.

Hours per Week: 1 lecture hour(s). 3 laboratory hour(s).

GEOL 4600B - Report for Field Geology

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 2  
Max times this course can be taken for credit: 1

Course Description: Preparation of geologic map, cross sections and report about entire area covered by class in GEOL 4600A.

Hours per Week: 1 lecture hour(s).

GEOL 4810 - Engineering Geology

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 0
**Course Description:** Analysis of geologic factors affecting engineering projects; includes mechanical properties of rocks and soils, landslides, slope stability, subsidence, groundwater, erosion and silting, and earthquake effects.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** GEOL 4600A and GEOL 4600B; **Corequisite(s):** GEOL 4820

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**GEOL 4820 - Engineering Geology Laboratory**

*(1)*

- This course is repeatable: No
- Max # of units may be repeated: 0
- Total # of units allowed for credit: 1
- Max times this course can be taken for credit: 1

**Course Description:** Methods of laboratory soil testing used in engineering geology, including compaction, grain size, shear strength, expansion, and Atterberg Limits tests. Laboratory 3 hours.

**Hours per Week:** 3 laboratory hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** None

**Pre/Co-requisite(s):** GEOL 4810

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**GEOL 4830 - Photogeology**

*(3)*

- This course is repeatable: No
- Max # of units may be repeated: 0
- Total # of units allowed for credit: 3
- Max times this course can be taken for credit: 1

**Course Description:** Use of aerial photographs to interpret geological structures and lithologies shown on topographic maps; analysis of photos for engineering projects. Lecture 3 hours, laboratory 3 hours.

**Hours per Week:** 2 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** GEOL 3600

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**GEOL 4840 - Hydrogeology**

*(3)*
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Occurrence, movement, quality of surface water and groundwater emphasizing geologic factors, coverage of California Groundwater Basins, and impacts of Urbanization on Groundwater. Lecture 2 hours, laboratory 3 hours.

Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No
Course Descriptions

Notes:

- All 4000-level courses may be applied toward master's degree requirements, subject to limits established by the department and approval of the graduate adviser.
- Classified graduate standing is required for enrollment in 5000-level courses; exception applies to students who are enrolled in a postbaccalaureate certificate or credential program.

Geological Sciences (Undergraduate)

- GEOL 4850 - Groundwater Management and Models

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Mathematical models as tools of groundwater management; case histories of various levels of groundwater management; laboratory includes verification and prediction using finite difference models on computer systems. Lecture 3 hours, laboratory 3 hours including one field trip.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No
• GEOL 4870 - Watershed Analysis

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Includes basic surface hydrology, surface-groundwater interactions, hyporheic zone processes, wetlands for water treatment, agricultural and urban runoff, stream restoration, basic microbiology in watersheds, and contemporary problems in California Watersheds. Lecture 2 hours, laboratory 3 hours.

Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): GEOL 4840 or instructor's consent.
Needs Permission to Enroll: No
Special Fee Applied: No

• GEOL 4880 - Hydrologic Modeling (3)

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Focus on the basic principles of hydrologic modeling. Includes watershed delineation, event infiltration, unit hydrographs, and hydrologic routing using USACE software HEC-HMS along with its ArcGIS interface.

Hours per Week: 2 lecture hour(s), 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2120 or GEOG 2680 or GEOG 3690 or instructor's consent.
Needs Permission to Enroll: No
Special Fee Applied: No

• GEOL 4890 - Remote Sensing Applications in Hydrology (also listed as GEOG 4890)

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Includes the application of remote sensing in precipitation, soil moisture, water quality, surface water, and hydrologic modeling. A technical computing language MATLAB is used for data analysis and visualization.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2120 or GEOG 2680 or instructor's consent.
• GEOL 4900 - Special Topics in Geology

(1-4)

This course is repeatable: Yes
Max # of units may be repeated: 9
Total # of units allowed for credit: 10
Max times this course can be taken for credit: 10

Course Description: Current topics of special interest in advanced geology and related fields as announced in Schedule of Classes. May be repeated to a maximum of 16 units as subject matter changes.

Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• GEOL 4910 - Special Laboratory Topics in Geology

(1-2)

This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

Course Description: Laboratory activities for current topics of special interest in geology as announced in Schedule of Classes. May be repeated to a maximum of 12 units as subject matter changes.

Hours per Week: 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• GEOL 4990 - Undergraduate Directed Study

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Project selected in conference with sponsor before registration; progress meetings held regularly. May be repeated to a maximum of 3 units.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Consent of an instructor to act as sponsor, ability to assume responsibility for independent work and to prepare written and oral reports.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

Geological Sciences (Graduate)

All 4000-level courses may be applied towards master’s degree requirements except GEOL 4000, GEOL 4010, GEOL 4020, GEOL 4100, GEOL 4300, GEOL 4600A, GEOL 4600B, and GEOL 4990.

- GEOL 5200 - Environmental Isotope Geochemistry
  (3)
  
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: This course will introduce students to isotope geochemical processes and tools and its use in environmental geochemistry. Applications include contaminant hydrogeology, water resources and climate change.
  Hours per Week: 3 lecture hour(s).
  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: No

- GEOL 5210 - Advanced Watershed Modeling (also listed as GEOG 5210)
  (3)
  
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: This course covers the advanced hydrologic modeling, surface water processes, impact assessment of land cover change, introduction to HEC software tools and GIS-based hydrologic modeling.
  Hours per Week: 3 lecture hour(s).
  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): GEOG 2680 or GEOG 3690 or instructor permission
  Needs Permission to Enroll: No
  Special Fee Applied: No

- GEOL 5220 - Hydrologic Remote Sensing (also listed as GEOG 5220)
  (3)
GEOL 5250 - Sedimentary Processes, Environments, and Structures

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Identification and analysis of sedimentary structures and hydrodynamically generated bedforms to determine sedimentary processes and environments of deposition.
Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): GEOL 4020, GEOL 4300
Needs Permission to Enroll: No
Special Fee Applied: No

GEOL 5280 - Advanced Topics in Igneous and Metamorphic Petrology

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Focus on the advanced principles of igneous petrogenesis and behavior of trace elements during mantle melting and rock forming processes.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): GEOL 4010 or instructor's consent
Needs Permission to Enroll: No
Special Fee Applied: No
• GEOL 5300 - Seminar: Structural Geology and Tectonics

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Critical review of selected topics concerning analysis, interpretation, and origin of geologic structures, mechanics of rock deformation and of large scale crustal deformation.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): GEOL 4100 or upper division structural geology course
Needs Permission to Enroll: No
Special Fee Applied: No

• GEOL 5310 - Tectonic Problems of Southern California

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Current topics in the geotectonic evolution of southern California.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): GEOL 4100 or upper division structural geology course
Needs Permission to Enroll: No
Special Fee Applied: No

• GEOL 5340 - Advanced Field Geology

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Advanced mapping course using traditional and digital mapping methods. Use regional and local sedimentary, igneous and metamorphic textural features to map outcrops and make interpretations about geology and tectonic setting.
Hours per Week: 2 lecture hour(s), 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): GEOL 2680, GEOL 3600, (GEOL 4600A or equivalent)
Needs Permission to Enroll: No
**GEOL 5410 - Seminar: Advanced Topics in Isotope Geochemistry**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Focus on the advanced principles of using isotopes to address questions of provenance and in igneous and metamorphic petrology.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): GEOL 3010, (GEOL 4900 or instructor's consent)
Needs Permission to Enroll: No
Special Fee Applied: No

---

**GEOL 5600 - Hydrogeology**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Advanced study of groundwater topics including aquifer testing, regional groundwater flow, water chemistry mass transport, and groundwater models. Lecture 2.0 hours, laboratory 3.0 hours.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): GEOL 4840
Needs Permission to Enroll: No
Special Fee Applied: No

---

**GEOL 5610 - Vadose Zone Hydrogeology**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Study of water movement and solute transport in the vadose (unsaturated) zone; including soil physics; infiltration theory; solute movement, noninteracting and interacting solutes; physical measurements; and field instrumentation. Lecture 3.5 hours, laboratory 3.0 hours.

Hours per Week: 2 lecture hour(s), 2 activity hour(s).

Grading: ABCDF
GEOL 5620 - Contaminant Hydrogeology

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Mass transport of contaminants in groundwater, principles of groundwater hydrology applied to organic and inorganic chemical migration, monitoring groundwater contamination, geochemical tracers of groundwater contamination, groundwater remediation.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

GEOL 5630 - Water Quality Seminar

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Contemporary issues in water quality, including contaminant transport, pollutants in surface and ground water, natural attenuation, engineered bioremediation, monitoring wells, soil sampling procedures, and vadose zone monitoring. Seminar 4.5 hours.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

GEOL 5700 - Special Topics

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 23
Total # of units allowed for credit: 24
Max times this course can be taken for credit: 12

Course Description: Discussion of selected topics in geology. May include up to 2 units of laboratory. May be repeated for credit as subject
GEOL 5810 - Seminar: Engineering Geology
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Advanced study relating geologic factors to engineering projects, with emphasis on slope stability, subsidence, engineering seismology, and construction problems related to engineering geology.

Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

GEOL 5840 - Paleoseismology
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Recognition of paleoseismic events in the geologic record, Quaternary slip-rates and coseismic deformation, modeling fault-scarp degradation, behavior of seismogenic faults, and seismic-hazard analysis.

Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): GEOL 4810 or senior engineering geology course.
Needs Permission to Enroll: No
Special Fee Applied: No

GEOL 5850 - Landslides, Avalanches, and Debris Flows
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Recognition, mechanics, and analysis of mass wasting features including landslides, rock avalanches, debris flows, rock falls, and lateral flows. Field mapping and computer stability analysis activities. Lecture 3.5 hours, laboratory 3.0 hours.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): GEOL 4810
Needs Permission to Enroll: No
Special Fee Applied: No

GEOL 5960 - Comprehensive Examination
(0)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 0
Max times this course can be taken for credit: 1

Course Description: See the Comprehensive Examination under the University Requirements for Master's Degree in this eCatalog.

Hours per Week: 0 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy
Needs Permission to Enroll: No
Special Fee Applied: No

GEOL 5970 - Graduate Research
(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Independent research under guidance of faculty.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GEOL 5980 - Graduate Directed Study
(1-3)
This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 4

Course Description: Directed research on subjects selected in consultation with faculty. May be repeated to maximum of 6 units.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GEOL 5990 - Thesis
(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Presentation of independent research work in a written thesis, which is defended orally.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy. Instructor consent to act as sponsor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

Graphics Communication (Undergraduate)

TECH 1300 - Introduction to Graphic Communications
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: General technology course emphasizing the importance of graphic communications in our culture. History, theory, and laboratory application of varied graphic communications processes. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

Hours per Week: 1.5 lecture hour(s). 4.5 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No
**TECH 2310 - Imposition and Electronic Image Assembly**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Applications of principles of imposition with emphasis on electronic image assembly techniques. This course requires service learning. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

**Hours per Week:** 2 lecture hour(s), 3 laboratory hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** TECH 1300 or consent of instructor.  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

This is a service learning course.

---

**TECH 2330 - Presswork Procedures**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Principles and procedures and practices of graphic reproduction utilizing ink and press technology with emphasis on the photo offset lithographic process. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

**Hours per Week:** 2 lecture hour(s), 3 laboratory hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** TECH 1300 or consent of instructor.  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

---

**TECH 2340 - Lithographic and Digital Reproduction Processes**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Lithographic theory and its reproduction, image conversion, preparation of image carriers, image transfer, quality control, chemistry of lithography, printing inks and paper. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

**Hours per Week:** 1.5 lecture hour(s), 4.5 laboratory hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** TECH 1300 or consent of instructor based upon previous experience.
• **TECH 3300 - Graphic Communications Processes and Materials**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Examination, application, and control of processes used in the graphic communications industry including prepress, press, postpress operations, major printing processes, digital imaging, and new media production. Nature and control of materials used in graphic communications reproduction processes with emphasis on image on substrate relationships. Lecture 1 1/2 hours, laboratory 4 1/2 hours  
Hours per Week: 1.5 lecture hour(s). 4.5 laboratory hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): Junior standing in Graphic Communications, Industrial Technology, or consent of instructor based upon previous experience.

Needs Permission to Enroll: No  
Special Fee Applied: No

• **TECH 3320 - Typography**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Intensive study and application of typographic principles with emphasis on their use in a production printing environment. Lecture 1 1/2 hours, laboratory 4 1/2 hours.  
Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): TECH 3300 or consent of instructor.

Needs Permission to Enroll: No  
Special Fee Applied: No

• **TECH 3330 - Presswork Procedures**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Letterpress principles and procedures on platen and cylinder presses, make-ready, inks, automatic feeders. Lecture 1 1/2 hours, laboratory 4 1/2 hours.
TECH 4300 - Computer Aided Graphic Communications Management

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Concept, theory, and procedures of applications of computers to the solution of printing job planning, job tracking, data collection, purchase orders, inventory, production scheduling, system utilities, digital file preparation, and file maintenance with emphasis on problems found in the current graphic communications industry. This course requires service learning and cooperative learning. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): TECH 1300 or Consent of Instruction.
Needs Permission to Enroll: No
Special Fee Applied: No

This is a service learning course.

TECH 4320 - Typographical Layout And Design

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Principles of design applied to graphic communication; selection of type, printing substrates and processes for reproduction; use of layouts and dummies to solve problems of graphic communications production. This course requires service learning. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): TECH 3300 or consent of instructor.
Needs Permission to Enroll: No
Special Fee Applied: No

This is a service learning course.

TECH 4330 - Printing Estimating

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Principles of design applied to graphic communication; selection of type, printing substrates and processes for reproduction; use of layouts and dummies to solve problems of graphic communications production. This course requires service learning. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): TECH 3300 or consent of instructor.
Needs Permission to Enroll: No
Special Fee Applied: No

This is a service learning course.
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Elements of estimating all classes of printing and photo offset lithography including prepress operations, presswork, bindery, paper, and cost-finding problems.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): TECH 3300 or Consent of Instructor.
Needs Permission to Enroll: No
Special Fee Applied: No

- **TECH 4331 - Computer Aided Printing Estimating and Job Costing**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Applications of computers to the solution of estimating problems discussed in TECH 433A with emphasis on problems found in the contemporary printing industry. Theory and application of principles for determining actual costs of specific operation to verify validity of estimates. Lecture 1 1/2 hours, Laboratory 4 1/2 hours.
Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): TECH 4330 or consent of instructor.
Needs Permission to Enroll: No
Special Fee Applied: No

- **TECH 4340 - Graphic Communications Production Management I**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Organization and management of the graphic communications production, planning procedures and application of industrial management strategies.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): TECH 3300
Needs Permission to Enroll: No
Special Fee Applied: No
• TECH 4350 - Color Theory, Reproduction, and Management

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Color theory and its application to solving problems in the printing industry; emphasis on examination and evaluation of processes, proofing, reproduction, management, and quality control. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): TECH 3300
Needs Permission to Enroll: No
Special Fee Applied: No

• TECH 4360 - Electronic Publishing Technology and Management

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Theory and application of publishing systems; emphasis on information integration, system configuration, management, and producing digital output. This course requires Service Learning and Cooperative Learning. Lecture 11/2 hours, Laboratory 4 1/2 hours.

Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): TECH 3300 or consent of instructor.
Needs Permission to Enroll: No
Special Fee Applied: No

This is a service learning course.

• TECH 4370 - Alternative Media Production

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Theory of media development processes; emphasis on multimedia production and management. Lecture 1 1/2 hours, Laboratory 4 1/2 hours.

Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
TECH 4380 - Image Capture, Processing, and Management
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Theory and procedures of digital image capture, processing and management; emphasis on total capture technology, image integration and producing open image files. Lecture 1 1/2 hours, laboratory 4 1/2 hours.

Hours per Week: 1.5 lecture hour(s). 4.5 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): TECH 3300 or consent of instructor.
Needs Permission to Enroll: No
Special Fee Applied: No

TECH 4390 - Digital Workflow Management
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Concept, theory, and procedures of digital workflow planning and management; emphasis on open digital file formats and pre-flighting. Lecture 1 1/2 hours, Laboratory 4 1/2 hours.

Hours per Week: 1.5 lecture hour(s). 4.5 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): TECH 3300 or consent of instructor.
Needs Permission to Enroll: No
Special Fee Applied: No

HHS 1010 - Introduction of Higher Education in Health and Human Services: Living an Examined Life
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Orientation to thinking strategies applicable to lifelong learning and problem solving in academic, social, and personal life. Introduces critical thinking, information literacy, university resources, civic learning and academic planning for student success.

Hours per Week: 3 lecture hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE E (cl) (IHE)

- HHS 1540 - Special Topics in Health and Human Services
  (1-3)
  This course is repeatable: Yes
  Max # of units may be repeated: 8
  Total # of units allowed for credit: 9
  Max times this course can be taken for credit: 9

  Course Description: Current topics of special interest to students in health and human services. May be repeated to a maximum of 9 units as subject matter changes.
  Hours per Week: 1 lecture hour(s).

  Grading: ABC-/NC (Undergraduate Only)
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): Instructor consent and as needed for specific topic.
  Needs Permission to Enroll: Yes, Instructor Consent
  Special Fee Applied: No

- HHS 3100 - Historical and Social Context of Disability
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Exploring the scope of disability from historical and social contexts to establish a framework from which to understand perspectives of disabling conditions and delivery systems of support services.
  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): PSY 1600, SOC 2010
  Needs Permission to Enroll: No
  Special Fee Applied: No

- HHS 3110 - Internship in Developmental Disabilities
  (3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Supervised experience utilizing professional preparation in a field setting. If students receive a “NC” they may repeat the entire course only once.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of the Required Core and Foundations of Program Delivery, Management and Advocacy courses for the Minor in Developmental Disabilities, HHS 3100 or consent of instructor, submission of Certificate of Clearance to course instructor, agency/organization acceptance, submission of paid Student Liability verification to course instructor, current TB Test verification (if required by placement site).

Needs Permission to Enroll: No
Special Fee Applied: No

HHS 3120 - Senior Project Capstone

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Synthesizing issues and trends in services for those with neurodevelopmental and related disabilities; application of knowledge gained throughout the minor degree program in the form of a capstone project.

Hours per Week: 2 lecture hour(s). 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of the Required Core and Foundations of Program Delivery, Management and Advocacy courses for the Minor in Developmental Disabilities, HHS 3110 or consent of instructor, submission of Certificate of Clearance to course instructor, submission of paid Student Liability verification to course instructor, current TB Test verification (if required).

Needs Permission to Enroll: No
Special Fee Applied: No

HHS 3950 - Community Service in Health and Human Services

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 6

Course Description: Participation in school, clinic, civic or other community service work in health and human services. May be repeated to maximum of eight units.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Approval of a faculty sponsor and acceptance by an appropriate agency.
HHS 4000 - Statistics in Health and Human Services

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Basic statistical concepts, as applied to research in Health and Human Services; practical application of statistics using computer based data analysis.  
Hours per Week: 3 lecture hour(s).  
Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus  
Prerequisite(s): Upper division standing, (MATH 1100) or (ECON 1090 or MATH 1090 or MATH 2110)  
Needs Permission to Enroll: No  
Special Fee Applied: No

HHS 4540 - Special Topics in Health & Human Services

This course is repeatable: Yes  
Max # of units may be repeated: 8  
Total # of units allowed for credit: 9  
Max times this course can be taken for credit: 9  

Course Description: Current topics of special interest to students in health and human services, as announced in Schedule of Classes. May be repeated as subject matter changes.  
Hours per Week: 1 per unit lecture hour(s).  
Grading: ABCDF  
Mode of Delivery: Face to Face, Hybrid  
Campus: Main Campus, DTLA Campus  
Prerequisite(s): Varies with topic Pre/Co-requisite(s): Varies with topic Corequisite(s): Varies with topic Recommended: Varies with topic  
Needs Permission to Enroll: No  
Special Fee Applied: No

HHS 4950 - Field Work in Health and Human Services

This course is repeatable: Yes  
Max # of units may be repeated: 7  
Total # of units allowed for credit: 8  
Max times this course can be taken for credit: 8  

Course Description: Work with community service organizations; placement arranged by appropriate certificate program coordinator. May be repeated to maximum of 8 units.  
Hours per Week: N/A lecture hour(s).  
Grading: CR/NC
Health and Human Services (Graduate)

- **HHS 5950 - Field Practicum in Health and Human Services**

  (3)

  **This course is repeatable:** No  
  **Max # of units may be repeated:** 0  
  **Total # of units allowed for credit:** 3  
  **Max times this course can be taken for credit:** 1

  **Course Description:** Supervised field experience in health and human service agencies. May be repeated for a maximum of 8 units.

  **Hours per Week:** N/A lecture hour(s).

  **Grading:** CR/NC

  **Mode of Delivery:** Face to Face

  **Campus:** Main Campus

  **Prerequisite(s):** None

  **Needs Permission to Enroll:** No

  **Special Fee Applied:** No

History (Undergraduate)

- **HIST 1010 - World History to 1500 CE**

  (3)

  **This course is repeatable:** No  
  **Max # of units may be repeated:** 0  
  **Total # of units allowed for credit:** 3  
  **Max times this course can be taken for credit:** 1

  **Course Description:** The history of human societies and their interactions in the pre-modern world.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF

  **Mode of Delivery:** Face to Face

  **Campus:** Main Campus

  **Prerequisite(s):** None

  **Needs Permission to Enroll:** No

  **Special Fee Applied:** No

  **GE D (d)**

Articulation C-ID: HIST 170

This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.
• **HIST 1020 - World History Since 1500 CE**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: The history of human societies and their interactions in the modern world.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): None

Needs Permission to Enroll: No

Special Fee Applied: No

GE D (d)

Articulation C-ID: HIST 180

This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding "C-ID Course" designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

• **HIST 1500 - Asian-American History (also listed as AAAS 1500)**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This is an introductory course on Asian American history. Class topics focus on the challenges, triumphs, and negotiations Asian Americans experienced from a historical perspective.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face, Hybrid, Online

Campus: Main Campus

Prerequisite(s): None

Needs Permission to Enroll: No

Special Fee Applied: No

GE AM-History (re)

• **HIST 1600 - History of Asia (also listed as AAAS 1600)**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: History of Asia with an emphasis on major themes and methodologies in the field.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
• HIST 2010 - Early American History

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 0

Course Description: Social, economic, cultural, and political development of the United States and its diverse peoples, from indigenous communities before 1492 through the Civil War and Reconstruction.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE AM-History (d)

Articulation C-ID: HIST 130
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

• HIST 2020 - Recent United States History

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 0

Course Description: Political, economic, social, and cultural development of the United States and its diverse peoples since 1877.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE AM-History (d)

Articulation C-ID: HIST 140
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

HIST 3075 - Introduction to Archives Principles and Practice
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: A course in which students learn about and engage in the fundamental principles and practice of archives and special collections.
Hours per Week: 3 lecture hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

HIST 3080 - Historiography
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: History of historical thought from ancient to contemporary historians. Special emphasis on modern historiography. Practical experience writing historiographical essays.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): 12 units of history course work; satisfactory completion of the Graduation Writing Assessment Requirement (GWAR).
Needs Permission to Enroll: No
Special Fee Applied: No

HIST 3085 - Early Field Experience in History-Social Science Education
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Early field experiences in History-Social Science education in 7th-12th grade schools. Activities conducted in the course correlate with content from the California Subject Matter Standards in History-Social Science.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF

   Campus: Main Campus

   Prerequisite(s): HIST 5000 or equivalent.
   Needs Permission to Enroll: No
   Special Fee Applied: No

• HIST 5960 - Comprehensive Examination  
   (0)
   This course is repeatable: No
   Max # of units may be repeated: 0
   Total # of units allowed for credit: 0
   Max times this course can be taken for credit: 1

   Course Description: See the Comprehensive Examination under the University Requirements for Master’s Degree in this eCatalog.
   Hours per Week: 0 lecture hour(s).

   Grading: CR/NC
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** Advancement to Candidacy  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

### HIST 5980 - Graduate Directed Study

(1-3)

This course is repeatable: Yes  
Max # of units may be repeated: 5  
Total # of units allowed for credit: 6  
Max times this course can be taken for credit: 6

**Course Description:** Independent study of advanced topics in field; regular conferences with sponsor. May be repeated for credit to a maximum of 6 units.  
**Hours per Week:** N/A lecture hour(s).  
**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** HIST 5000 and instructor consent to act as sponsor.  
**Needs Permission to Enroll:** Yes, Instructor Consent  
**Special Fee Applied:** No

### HIST 5990 - Thesis

(1-3)

This course is repeatable: Yes  
Max # of units may be repeated: 5  
Total # of units allowed for credit: 6  
Max times this course can be taken for credit: 6

**Course Description:** Independent research resulting in a thesis. Must be repeated to total of 4 units.  
**Hours per Week:** N/A lecture hour(s).  
**Grading:** CR/NC  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** Advancement to Candidacy, HIST 5000, HIST 5940, and instructor consent to act as thesis director, and departmental approval of topic prior to registration.  
**Needs Permission to Enroll:** Yes, Instructor Consent  
**Special Fee Applied:** No

**Honors College Courses (Undergraduate)**

### HNRS 1000 - EEP Student Success Workshops

(1)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Topics relevant to the transition from middle school or early high school into a college environment will be covered, including strategies for self-care, establishing boundaries and maintaining healthy relationships, and developing college-appropriate study skills.

Hours per Week: 1 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

HNRS 1010 - Introduction to Academic Inquiry in the Honors College

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Explores ways of knowing across the disciplines; introduces students to Honors College learning goals; examines strategies for undergraduate success, including civic learning and problem solving.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE E (cl) (IHE)

HNRS 1100 - Reading Los Angeles: Communication in the City of Angels

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Explores oral communication through analysis, synthesis, and presentation of discourse in a public forum, focusing on oral communication about and in the global metropolis.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE A1
HNRS 2210 - Reading Los Angeles: Engaging Cultural Expressions in a Global City

This course is repeatable: No
Max # of units may be repeated: 3
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Explores cultural expression and creativity in globalized urban contexts. Interdisciplinary exploration of artistic and creative expression (literature, art, theater, dance, film, music, and other cultural forms) in Los Angeles.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE C2

---

HNRS 2310 - Reading Los Angeles: Community and Structure in the Metropolis

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Strategies for understanding the social, political, economic, and cultural structures and processes that shape the modern metropolis.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

---

HNRS 2900 - Honors Declaration

This course is repeatable: No
Max # of units may be repeated: 1
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Students will define their academic, career, and personal leadership goals, and examine different opportunities for improving their undergraduate and post-graduate success as Honors College students.

Hours per Week: 1 lecture hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Sophomore standing in the Honors College; minimum 3.3 GPA
• HNRS 3200 - Humanities Approaches to Race, Ethnicity, and “Wicked” Problems

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Interdisciplinary approaches to studying race, ethnicity, and a complex “wicked problem”—such as gentrification, human rights, or the HIV/AIDS pandemic—from the perspective of the arts and humanities.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D; Pre/Co-requisite(s): HNRS 2900

Needs Permission to Enroll: No  
Special Fee Applied: No

GE UD C (re) (wi)

• HNRS 3250 - Human Rights and Literature

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Examination of how literature contributes to the conceptualization of human rights; discussing the ethics of storytelling in relation to global human rights issues, analyzing formal and cultural distinctions across a variety of genres.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): None  
Needs Permission to Enroll: No  
Special Fee Applied: No

• HNRS 3300 - Addressing “Wicked” Problems through the Social Sciences: A Case Study in Diverse Communities

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: This course provides an interdisciplinary approach to a complex “wicked problem”—such as food justice and social and
economic inequality in diverse ethnic communities-from the social sciences perspective.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D; Pre/Co-requisite(s): HNRS 2900

Needs Permission to Enroll: No
Special Fee Applied: No

GE UD D (cl) (d)

- HNRS 3350 - Global Citizenship: Voices and Contexts

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis of globalization’s historical roots and political, economic, and cultural consequences, comparing novelistic, personal, and social-scientific perspectives; highlights dislocations, conflicts, opportunities, and transformations resulting from global migrations.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Upper division Honors College standing.
Needs Permission to Enroll: No
Special Fee Applied: No

- HNRS 3400 - Addressing “Wicked” Problems: A Natural Sciences Case Study

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course is an in-depth study on a significant environmental and biological problem that has complex interactions with and profound impacts on our ecosystem and human society.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D. Pre/Co-requisite(s): HNRS 2900

Needs Permission to Enroll: No
Special Fee Applied: No

GE UD B (cl)
• HNRS 3900 - Honors Declaration for Juniors

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 0
Max times this course can be taken for credit: 1

Course Description: Students entering Honors College as juniors will define their academic, career, and personal leadership goals, and examine different opportunities for improving their undergraduate and post-graduate success as Honors College students.

Hours per Week: 1 lecture hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Junior standing in the Honors College; minimum 3.3 GPA.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

• HNRS 4970 - Honors College Senior Forum

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Interdisciplinary undergraduate research course devoted to completion and presentation of senior projects and theses, for students who completed a prospectus using an Honors Contract.

Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Senior standing in the Honors College; submission of an Honors thesis prospectus; minimum 3.3 GPA.
Needs Permission to Enroll: No
Special Fee Applied: No

• HNRS 4990 - Honors College Undergraduate Directed Study

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Course allowing completion of an undergraduate research, scholarly, creative, or community engagement project or activity with faculty mentorship.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Consent of Honors College faculty mentor and Director/Associate Director; minimum 3.3 GPA.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No
Hospitality (Undergraduate)

- **HOSP 3100 - Emerging Trends in the Hospitality Industry**
  
  (3)
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  
  
  **Course Description:** Explores relevant industries and careers within the Hospitality field along with examining aspects of wellness and cultural competence that comprise quality customer service.  
  **Hours per Week:** 3 lecture hour(s).  
  
  **Grading:** ABCDF  
  **Mode of Delivery:** Hybrid  
  **Campus:** DTLA Campus  
  
  **Prerequisite(s):** None  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No  

- **HOSP 3102 - Restaurant Food, Beverage, and Labor**
  
  (3)
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  
  
  **Course Description:** Analysis of food, beverage, and labor cost control procedures used to effectively manage costs that underlie food service operations.  
  **Hours per Week:** 3 lecture hour(s).  
  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face, Hybrid  
  **Campus:** DTLA Campus  
  
  **Prerequisite(s):** ACCT 2100  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No  

- **HOSP 3104 - Hospitality Internship**
  
  (1-4)
  
  This course is repeatable: Yes  
  Max # of units may be repeated: 3  
  Total # of units allowed for credit: 4  
  Max times this course can be taken for credit: 4  
  
  **Course Description:** Work and study in an approved position to gain business/industry experience within a Hospitality sector. Generally entails recurring, supervised work periods, each one building and expanding on the previous one.  
  **Hours per Week:** N/A activity hour(s).
- **HOSP 3106 - Travel, Tourism, and Leisure Services**

  
  (3)
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  
  
  **Course Description:** Equips aspiring supervisors and planners with cutting-edge knowledge and a wellness perspective conducive to fostering resilience and innovation in the global tourism economy.  
  
  **Hours per Week:** 3 lecture hour(s).

- **HOSP 3108 - Lodging Systems**

  
  (3)
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  
  
  **Course Description:** Emphasizes the rooms divisions, and addresses how it relates to food and beverage, sales and marketing, facilities, and security divisions.  
  
  **Hours per Week:** 3 lecture hour(s).

- **HOSP 4100 - Meeting and Event Planning Services**

  
  (2)
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 2  
  Max times this course can be taken for credit: 1
Course Description: Knowledge and skills necessary to design, plan, and execute a variety of events within the social and corporate realm.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Hybrid
Campus: DTLA Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

- HOSP 4102 - Hospitality Service Environment

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Provides a thorough overview of ethics and corporate social responsibility in the hospitality and events industry.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Hybrid
Campus: DTLA Campus

Prerequisite(s): FIN 2050 or C-ID HOSP 150
Needs Permission to Enroll: No
Special Fee Applied: No

- HOSP 4104 - Hospitality Capstone

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Case study based capstone for Hospitality majors involving the integration and application of interdisciplinary supervisory concepts, theories, and practices instrumental to supervisory success within the hospitality and tourism industry.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Hybrid
Campus: DTLA Campus

Prerequisite(s): MGMT 3070, HOSP 3102
Needs Permission to Enroll: No
Special Fee Applied: No

Information Systems (Undergraduate)

Upper division standing is prerequisite to enrollment in 3000- and 4000-level CIS courses.

- CIS 1200 - Information and Technology Literacy (also listed as CS 1200)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Development of Information and technology competency through knowledge of computer hardware, systems software, telecommunication networks, application software, web page creation, and ethical and societal implications. Personal computer software suite activities.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

Articulation C-ID: BUS 140, ITIS 120
To receive full transfer credit, students must take both CHEM 2200 and CHEM 2201. This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

CIS 2830 - Introduction to Application Programming

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to structured and object-oriented programming including variables, declarations, statements, expressions, classes, methods, decisions structures, loops, and arrays.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CIS 1200
Needs Permission to Enroll: No
Special Fee Applied: No

CIS 3010 - Management Information Systems

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Organizational context of computer-based information systems; common application systems; information architecture; user role in systems development; social and ethical implications.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
CIS 3050 - Database Design and Development
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Role of databases in information systems; data modeling using entity-relationship analysis; relational databases concepts, design, development and management; normalization; SQL; implementation of databases applications.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): Knowledge of Microsoft Windows and programming language, and upper-division standing.
Needs Permission to Enroll: No
Special Fee Applied: No

CIS 3060 - Systems Analysis and Design
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Life cycle and methodologies; requirements determination, logical design, physical design, test and implementation planning, and performance evaluation; communication and interpersonal skills; analysis methods and tools; impact of emerging technologies.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): CIS 3050, and upper-division standing.
Needs Permission to Enroll: No
Special Fee Applied: No

CIS 3090 - Cybersecurity Awareness
(1)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1
Course Description: Introductory awareness course is for anyone interested in Cybersecurity with focus on basic security concepts, applications, and hands-on tools for security of computers and information systems.
Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): CIS 1200 or equivalent or permission of instructor, and upper-division standing.
Needs Permission to Enroll: No
Special Fee Applied: No

• CIS 3200 - Data Processing and Analytics

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Intensive and hands-on instruction in using software applications including spreadsheet, database management, application integration, data mining, data visualization and e-collaboration in the cloud environment.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CIS 1200 or equivalent, and upper-division standing.
Needs Permission to Enroll: No
Special Fee Applied: No

• CIS 3610 - Web Design and Development

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CIS 1200 or equivalent, and upper-division standing.
Needs Permission to Enroll: No
Special Fee Applied: No
Notes:

- All 4000-level courses may be applied toward master's degree requirements, subject to limits established by the department and approval of the graduate adviser.
- Classified graduate standing is required for enrollment in 5000-level courses; exception applies to students who are enrolled in a postbaccalaureate certificate or credential program.

Course Description:
This course will cover concepts of mobile web development, the creation of mobile websites and application of mobile frameworks.

Hours per Week:
3 lecture hour(s).

Grading:
ABCDF

Mode of Delivery:
Face to Face, Hybrid, Online

Campus:
Main Campus

Prerequisite(s):
Upper-division standing.

Needs Permission to Enroll:
No

Special Fee Applied:
No

CIS 3620 - Mobile Web Development
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course will cover concepts of mobile web development, the creation of mobile websites and application of mobile frameworks.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face, Hybrid, Online

Campus: Main Campus

Prerequisite(s): Upper-division standing.

Needs Permission to Enroll: No

Special Fee Applied: No
- **CIS 3830 - Multimedia and Game Application Programming**

  (3)  
  
  **This course is repeatable:** No  
  **Max # of units may be repeated:** 0  
  **Total # of units allowed for credit:** 3  
  **Max times this course can be taken for credit:** 1  
  
  **Course Description:** Introduction to the development of gaming applications in multimedia environments using software developmental tools. Hands-on projects reflect the real-world entertainment industry.  
  **Hours per Week:** 3 lecture hour(s).  
  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus  
  
  **Prerequisite(s):** [CIS 1200](#) or equivalent, and upper-division standing.  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No  

- **CIS 3850 - Systems and Network Administration**

  (3)  
  
  **This course is repeatable:** No  
  **Max # of units may be repeated:** 0  
  **Total # of units allowed for credit:** 3  
  **Max times this course can be taken for credit:** 1  
  
  **Course Description:** Systems architecture and networking fundamentals; design, implementation and operation of a networked server center; user support and resource management; internetworking and interfacing with the Internet. Hands-on installation of a popular server-level operating system.  
  **Hours per Week:** 3 lecture hour(s).  
  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus  
  
  **Prerequisite(s):** Upper-division standing.  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No  

- **CIS 3980 - Undergraduate Directed Study**

  (1-3)  
  
  **This course is repeatable:** Yes  
  **Max # of units may be repeated:** 7  
  **Total # of units allowed for credit:** 8  
  **Max times this course can be taken for credit:** 8  
  
  **Course Description:** Total CIS 3980 and 4980 units for the Computer Information Systems major may not exceed 6 and require adviser approval.  
  **Hours per Week:** N/A lecture hour(s).  
  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus
• CIS 4040 - Data Privacy

(1-3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course covers the principles and foundations of data protection; organizational policies regarding data privacy; law of computer technology and software privacy.
Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

• CIS 4100 - Hardware and Software Architecture

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis of contemporary information technology architectures and environments, including: multi-tiered client/server architectures; enterprise, workgroup, and personal systems hardware and operating systems; and systems and program planning and development tools.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

• CIS 4110 - Intro Health Informatics

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: This course will cover concepts of healthcare informatics, requirements for health information systems and challenges and issues in healthcare informatics.
Hours per Week: 1 lecture hour(s).
• CIS 4150 - Foundations of Business Intelligence

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course provides to students an overview of business intelligence; text and web mining; case studies in business intelligence and hands-on experience using BI-tools.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): Upper-division standing.
Needs Permission to Enroll: No
Special Fee Applied: No

• CIS 4200 - Business Intelligence and Data Warehouse

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Technical coverage on multidimensional data models and business intelligence; transforming enterprise data and social media data into useful enterprise information using BI tools; hands-on experience building enterprise data warehouses

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CIS 3010, and upper-division standing.
Needs Permission to Enroll: No
Special Fee Applied: No

• CIS 4210 - Healthcare Data Analytics

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: This course addresses challenges in dealing with healthcare data; data-driven decisions for healthcare and provides hands-on experience to apply BI skills for healthcare data analysis.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face, Hybrid, Online

Campus: Main Campus

Prerequisite(s): Upper-division standing.

Needs Permission to Enroll: No

Special Fee Applied: No

---

**CIS 4220 - Routing Configuration and Router Administration**

(3)

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 3

Max times this course can be taken for credit: 1

Course Description: Introduction to WANs, Cisco router and its configuration, Cisco internetworking operating system (IOS), static and dynamic routing protocols, intermediate TCP/IP, ACLs, and basic router troubleshooting. Hands-on projects help students to establish the direct experience on router configurations. Preparation for CCNA Routing and Switching certification & CompTIA Network+ certification.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): [CIS 4840](#) or equivalent, and upper-division standing.

Needs Permission to Enroll: No

Special Fee Applied: No

---

**CIS 4230 - Intermediate Routing and LAN Switching**

(3)

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 3

Max times this course can be taken for credit: 1

Course Description: Introduction to LANs, cabling, classless IP addressing techniques: CIDR, subnetting, LAN switching and design, switch configuration, Spanning Tree protocol, VLANs, VLAN trunking protocol, analyzing computer networks, and troubleshooting. Hands-on projects help students to establish the direct experience on switching configurations. Preparation for CCNA Routing and Switching certification & CompTIA Network+ certification.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): [CIS 4840](#) or equivalent, and upper-division standing.

Needs Permission to Enroll: No

Special Fee Applied: No

---
• **CIS 4240 - Wide Area Networks**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Introduction to WANs, WAN physical and data link protocols, WAN connections, Internet access with dial-up/DSL/Cable TV modems, Remote access servers, PPP, ISDN, T-carrier, SONET, Frame Relay, ATM, Carrier Ethernet, VPNs, WAN routing, LAN/WAN design & Integration, Internet data traffic analysis, Internet application services, and network management. Preparation for CCNA & CompTIA Network+ certifications.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** [CIS 4840](#) or equivalent, and upper-division standing.  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

• **CIS 4250 - Business Intelligence Applications**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** This course provides application of business intelligence and BI tools in a business environment where students work from initial requirements to final implementation.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face, Hybrid, Online  
**Campus:** Main Campus

**Prerequisite(s):** Upper-division standing.  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

• **CIS 4370 - Security Risk Management and Internal Controls (also listed as ACCT 4370)**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Introduction to information security risk management including internal controls, operations security, risk assessment, incident management, business continuity and disaster recovery planning, legal issues and ethics, information security program development.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus, DTLA Campus
Prerequisite(s): **CIS 3010** and upper-division standing.

Needs Permission to Enroll: No

Special Fee Applied: No

---

- **CIS 4380 - Computer Forensics and Investigations (also listed as ACCT 4380)**

  (3)

  This course is repeatable: No

  Max # of units may be repeated: 0

  Total # of units allowed for credit: 3

  Max times this course can be taken for credit: 1

  **Course Description**: Introduction to selected techniques and tools for computer forensics and investigations. Topics include coverage of the latest technology. Hands-on activities allow students to practice skills as they are learned.

  **Hours per Week**: 3 lecture hour(s).

  **Grading**: ABCDF

  **Mode of Delivery**: Face to Face

  **Campus**: Main Campus

  Prerequisite(s): **CIS 3010** and upper-division standing.

  Needs Permission to Enroll: No

  Special Fee Applied: No

  ---

- **CIS 4450 - Network Application Development**

  (3)

  This course is repeatable: No

  Max # of units may be repeated: 0

  Total # of units allowed for credit: 3

  Max times this course can be taken for credit: 1

  **Course Description**: Design and implementation of multiuser business applications emphasizing client/server technology.

  **Hours per Week**: 3 lecture hour(s).

  **Grading**: ABCDF

  **Mode of Delivery**: Face to Face

  **Campus**: Main Campus

  Prerequisite(s): **CIS 3050** and upper-division standing.

  Needs Permission to Enroll: No

  Special Fee Applied: No

  ---

- **CIS 4510 - Fundamentals of ERP Technology**

  (3)

  This course is repeatable: No

  Max # of units may be repeated: 0

  Total # of units allowed for credit: 3

  Max times this course can be taken for credit: 1

  **Course Description**: Enterprise Resource Planning (ERP) database analysis; ERP fundamentals and functionality; ERP systems applications architecture contexts; business processes integration and data reuse hands-on projects using ERP software.

  **Hours per Week**: 3 lecture hour(s).

  **Grading**: ABCDF
CIS 4520 - Contemporary ERP Technology

(1)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Students will learn about the contemporary ERP technology with hands-on experience using SAP ERP university alliances curriculum materials.

Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Hybrid, Online
Campus: Main Campus

Prerequisite(s): Upper-division standing.
Needs Permission to Enroll: No
Special Fee Applied: No

CIS 4540 - Special Topics in Computer Information Systems

(3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: In-depth presentation and analysis of topics significant to contemporary business world; lectures, discussions, speakers, and research projects. May be repeated for credit to maximum of 6 units.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Varies with topic, see Schedule of Classes for specific prerequisite, upper-division standing.
Needs Permission to Enroll: No
Special Fee Applied: No

CIS 4550 - Visual Basic .NET Database Application

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to Database and Web connection using Object-oriented programming, Visual Basic .NET, including
classes, objects, variables, web application, data access and storage, Database connection, and ASP.NET. CAN CSCI 8

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CIS 2830 and upper-division standing.
Needs Permission to Enroll: No
Special Fee Applied: No

CIS 4560 - Introduction to Big Data
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Practical knowledge of Big Data. How to process and store Big Data using MapReduce and NoSQL DB. Includes hands-on examples.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CIS 2830 and upper-division standing.
Needs Permission to Enroll: No
Special Fee Applied: No

CIS 4570 - Advanced Java Programming
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to application programming with Java. Advanced object-oriented programming for business applications in Java, including applications vs applets, classes, objects, methods, inheritance, interfaces, arrays, multimedia, exceptions, threads, GUIs, and databases.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CIS 2830 and upper-division standing.
Needs Permission to Enroll: No
Special Fee Applied: No

CIS 4580 - E-business Application Development with Oracle
(3)
This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

**Course Description:** Introduction to technical architecture and technology solutions required to implement e-business applications in the real world. Includes fundamentals of database application development, connectivity, embedded SQL, and server-side technology. 

**Hours per Week:** 3 lecture hour(s).  

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus  

**Prerequisite(s):** CIS 3050, CIS 2830 and upper-division standing.  

**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

---

**CIS 4590 - Advanced Information Systems Development**  
(3)  

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

**Course Description:** Design and implementation of an information system; development in an object-based programming and relational database enterprise environment; group project. 

**Hours per Week:** 3 lecture hour(s).  

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus  

**Prerequisite(s):** CIS 3010 and upper-division standing.  

**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

---

**CIS 4610 - PHP Web Development in Business**  
(3)  

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

**Course Description:** This course will provide students an opportunity to learn how to build up a small social networking sites using WAMP/LAMP. 

**Hours per Week:** 3 lecture hour(s).  

**Grading:** ABCDF  
**Mode of Delivery:** Hybrid  
**Campus:** Main Campus  

**Prerequisite(s):** Upper-division standing.  

**Needs Permission to Enroll:** No  
**Special Fee Applied:** No
• CIS 4720 - Wireless Communications and Networks

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Provides an introduction to wireless communication systems, including WPANs, WLANs, WMANs, WWANs, WSNs, and wireless local loop. Wireless architecture and technologies, QoS, security, multimedia, and business applications will be discussed.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CIS 1200 or equivalent, and upper-division standing.
Needs Permission to Enroll: No
Special Fee Applied: No

• CIS 4730 - Network Security Essentials and Practice

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to practical computer and network security. Hands-on projects help students to establish the direct experience of using a large array of software programs on information security.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CIS 1200 or equivalent, and upper-division standing.
Needs Permission to Enroll: No
Special Fee Applied: No

• CIS 4760 - Project Planning with Microsoft Project

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: The course covers the four phases in the life cycle of a typical project development: initiating, planning, executing, and closing. Discusses principles associated with effective project management and how to apply these principles in a business environment. Students will become familiar with commonly available computer software tools, and apply the material to a real-world project. This is a project-based course, and has a significant hands-on component.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): CIS 1200 or equivalent, and upper-division standing.
Needs Permission to Enroll: No
Special Fee Applied: No

- CIS 4810 - Healthcare Application Systems
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  
  Course Description: Technical coverage of healthcare application systems including healthcare system workflow, infrastructure, evaluation, clinical and patient data structures, Healthcare Level 7 protocol and hands-on experience with healthcare applications.
  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): CIS 3010 and upper-division standing.
  Needs Permission to Enroll: No
  Special Fee Applied: No

- CIS 4840 - Communications Systems
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  
  Course Description: Data communications and local area network topics including communications theory, communication hardware and software, TCP/IP, Internet infrastructure and standards, LANs, WANs, cloud computing and Internet security.
  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): CIS 1200 or equivalent, and upper-division standing.
  Needs Permission to Enroll: No
  Special Fee Applied: No

- CIS 4850 - Computer Networks
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  
  Course Description: Networking fundamentals, design and implementation of LANs, server installations and management, user and resource management, internetworking; virtualizations; cloud computing.
  Hours per Week: 3 lecture hour(s).
CIS 4860 - Managing Information Systems Projects

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Effective behavioral and technical methods used in managing information systems development over the project life cycle.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CIS 4840 and upper-division standing.
Needs Permission to Enroll: No
Special Fee Applied: No

CIS 4870 - Decision Support Systems

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Use of technologies such as data mining, data warehousing, neural networks, artificial intelligence, knowledge management and business intelligence to support business decision making.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CIS 3060 and upper-division standing.
Needs Permission to Enroll: No
Special Fee Applied: No

CIS 4880 - Information Security

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
**Course Description:** Broad coverage of common body of knowledge for information security: access control; application security; business continuity; cryptography; legal investigations; network and internet security; operations security; physical security; risk management; security architecture.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus, DTLA Campus

**Prerequisite(s):** [CIS 3010](#) or equivalent or permission of instructor, and upper-division standing.

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

- **CIS 4900 - Capstone: Information Systems**

  (3)

  **This course is repeatable:** No
  **Max # of units may be repeated:** 0
  **Total # of units allowed for credit:** 3
  **Max times this course can be taken for credit:** 1

  **Course Description:** Integration of information systems and technology core courses; provides exposure to roles of information systems and technology professionals in industry.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF

  **Mode of Delivery:** Face to Face

  **Campus:** Main Campus

  **Prerequisite(s):** Senior standing.

  **Needs Permission to Enroll:** No

  **Special Fee Applied:** No

---

- **CIS 4980 - Cooperative Education in Information Systems**

  (1-3)

  **This course is repeatable:** Yes
  **Max # of units may be repeated:** 2
  **Total # of units allowed for credit:** 3
  **Max times this course can be taken for credit:** 3

  **Course Description:** Cooperative Education in Information Systems

  **Hours per Week:** N/A lecture hour(s).

  **Grading:** CR/NC

  **Mode of Delivery:** Face to Face

  **Campus:** Main Campus

  **Prerequisite(s):** Senior standing.

  **Needs Permission to Enroll:** No

  **Special Fee Applied:** No

---

**Information Systems (Graduate)**

*Classified graduate standing and approval by the College of Business and Economics Advisement Center are required for enrollment in 5000-level courses.*
CIS 5000 - Foundation of Information Systems

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Hardware, systems software, applications software, and telecommunication components and architecture of operational and management oriented information systems. Cases in managing the acquisition and use of custom developed and packaged systems.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

CIS 5010 - Application Programming

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Application development for business using structured and object oriented programming; planning, designing, coding, debugging, and documenting programs.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CIS 1200 or equivalent
Needs Permission to Enroll: No
Special Fee Applied: No

CIS 5020 - Systems Analysis and Logical Design I

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to data structures and to structured, relational, and object database management systems. Designing and programming personal and production oriented data base system.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
CIS 5030 - Systems Analysis and Logical Design II

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Packaged and custom systems development life cycles. Feasibility and requirements determination. Process, data and object modeling, design, and implementation. Change management.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CIS 5010 or equivalent
Needs Permission to Enroll: No
Special Fee Applied: No

CIS 5040 - Information Systems

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Overview of computer, communication and software systems. Cases in: business applications of information technology, managing the acquisition and use of application systems, and working with the information systems organization.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus, DTLA Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

CIS 5100 - IS/IT Architectures

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis of contemporary information technology architectures and environments, including: multi-tiered client/server architectures; enterprise, workgroup, and personal systems hardware and operating systems; and business systems planning and development tools.

Hours per Week: 3 lecture hour(s).
- **CIS 5200 - Systems Analysis and Design**
  (3)
  
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  
  **Course Description:** Life cycle of systems development; UML modeling techniques; data modeling; process modeling; enterprise system integration, configuration, installation and maintenance; a case-based approach with hands-on experience in designing information systems.

  **Hours per Week:** 3 lecture hour(s).

  - **Grading:** ABCDF
  - **Mode of Delivery:** Face to Face
  - **Campus:** Main Campus
  - **Prerequisite(s):** None
  - **Needs Permission to Enroll:** No
  - **Special Fee Applied:** No

- **CIS 5210 - Healthcare Data Analytics**
  (3)
  
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  
  **Course Description:** Students learn about Healthcare Data Analytics; analytic challenges on dealing with healthcare data; data-driven decisions for healthcare; hands-on experience to apply BI skills for healthcare data.

  **Hours per Week:** 3 lecture hour(s).

  - **Grading:** ABCDF
  - **Mode of Delivery:** Face to Face, Hybrid, Online
  - **Campus:** Main Campus
  - **Prerequisite(s):** None
  - **Needs Permission to Enroll:** No
  - **Special Fee Applied:** No

- **CIS 5250 - Visual Analytics**
  (3)
  
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
Course Description: Students learn about Visual Analytics; performing data analysis using BI visualization tools; applying principles of data visualization; best practices of data presentation and storytelling; dashboard creation techniques; hands-on experience building dashboards in BI.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

---

CIS 5270 - Business Intelligence

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Use of technologies such as data mining, data warehousing, neural networks, artificial intelligence, knowledge management, and business intelligence to support business decision making.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

---

CIS 5280 - Current Problems in Computer Information Systems

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Latest research projects in computer information systems; application of research techniques and results to specific problems. May be repeated once as subject matter changes.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CIS 5040
Needs Permission to Enroll: No
Special Fee Applied: No

---

CIS 5300 - Enterprise Processes Integrations
CIS 5310 - Advance Topics in ES

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Students will learn to integrate technology and business processes that connect organizational structure, master data, transactional data, and business processes. Students learn the concepts via hands on exercises using SAP tools.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

CIS 5320 - Data Integration and Analysis in ERP Systems

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Students learn about data modeling, integration, visualization, information view and report development using enterprise system simulation games in ERPsim and real-time data analytical tools in ERP cloud computing environment.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Hybrid
Campus: Main Campus, DTLA Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No
- CIS 5430 - Databases and Data Warehousing

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Enterprise Database concepts; comparison of relational and object-relational data modeling using UML; principles of data warehousing and data mining; database and data warehouse administration and development tools; case study projects.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

- CIS 5560 - Introduction to Big Data Science

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: This is to learn practical knowledge of Big Data and Data Science and to study how to process, store, and analyze Big Data generated from social media, web logs, financial data, marketing data etc for business intelligence using MapReduce and NoSQL DB with the examples in the labs.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CIS 2830 or equivalent
Needs Permission to Enroll: No
Special Fee Applied: No

- CIS 5600 - Computer Networks

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Network theory; advanced network technology and concepts; trends in network hardware, software and architectures; configuration and management of servers; server virtualization; cloud computing.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
**CIS 5610 - Design of an E-Commerce Site**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Analysis, development, and design of a web-based e-commerce site model for an actual business. Team projects incorporate web design, electronic transfer processing, and site development/maintenance.  
Hours per Week: 3 lecture hour(s).  

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): Basic knowledge of HTML or XML  
Needs Permission to Enroll: No  
Special Fee Applied: No

---

**CIS 5620 - Authoring Web Sites**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Hands-on course in designing and developing World Wide Web sites using HTML, CSS, JavaScript, and other technologies, with emphasis on usability.  
Hours per Week: 3 lecture hour(s).  

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): Knowledge of programming language  
Needs Permission to Enroll: No  
Special Fee Applied: No

---

**CIS 5630 - Mobile Applications**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Hands-on course in designing and developing applications suitable for mobile devices, with emphasis on utility and usability.  
Hours per Week: 3 lecture hour(s).
**CIS 5710 - Multimedia Communication Applications**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Concepts and techniques involved in multimedia network communication applications: digital audio/video representation and data compression, multimedia streaming, real-time interactive audio/video, high-speed multimedia networks, multimedia databases and mobile applications programming.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): Knowledge of programming language

Needs Permission to Enroll: No  
Special Fee Applied: No

---

**CIS 5720 - Wireless Networks for Information Systems**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Concepts and techniques involved in wireless communication networks for information systems: WPANs, WLANs, WMANs, and WWANs. Wireless networking system architectures, protocols, IEEE standards, transmission methods, QoS, security, multimedia applications in business, and mobile computing for business.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): CIS 5040 or equivalent

Needs Permission to Enroll: No  
Special Fee Applied: No

---

**CIS 5730 - Computer and Network Security**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0

---
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Concepts and techniques involved in computer network and Internet security: encryption techniques, key management, authentication, Internet security protocols, attacks and defenses on computer systems, wireless network security. Hands-on projects will be part of instruction.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): CIS 5040 or equivalent
Needs Permission to Enroll: No
Special Fee Applied: No

• CIS 5810 - Health Care Information Systems

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Overview of computer, communication and software systems. Cases in health care information technology applications. Development, acquisition and use of custom and packaged application systems. Working with the Information Systems Organization.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• CIS 5830 - Information Systems Consulting

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Approaches and tools for consulting to the modern information-age organization; presentation of the results of actual information systems consulting projects; student case study presentations.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No
CIS 5840 - Controlling and Auditing Computer Systems

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Controlling online interactive computer/data communication systems as a challenge to management and internal and external auditors.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

CIS 5850 - Communication and Information Services

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Computer communication technologies and trends; communication theory, hardware, software, architectures, services and security.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

CIS 5860 - Information Systems Project and Change Management

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: The organizational, behavioral and life-cycle aspects of the project planning, staffing, control, and implementation elements of technology-based systems.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus, DTLA Campus

Prerequisite(s): None
Needs Permission to Enroll: No
CIS 5880 - Seminar: Information Security
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Broad coverage of Common Body of Knowledge (CBK) for Certified Information Systems Security Professionals (CISSP) with focus on management and conceptual issues of security of information systems and business environments.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CIS 5040 or equivalent or permission of instructor
Needs Permission to Enroll: No
Special Fee Applied: No

CIS 5900 - IS/IT Policy and Strategy
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Discussion of the strategic perspective for aligning organizational strategy, core competencies, and information systems and technology; partnership roles of the CEO and CIO.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CIS 5040
Needs Permission to Enroll: No
Special Fee Applied: No

CIS 5910 - Introduction to Big Data Analysis and Development
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Designed for executives to learn the basics of Big Data and Hadoop data intensive computing using cases. Some sections may be technologically mediated.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
CIS 5980 - Graduate Directed Study

(1)

This course is repeatable: Yes
Max # of units may be repeated: 98
Total # of units allowed for credit: 99
Max times this course can be taken for credit: 99

Course Description: Investigation of an approved project leading to written report; project selected in conference with seminar professor, and arrangements made for regular meetings during semester. May be repeated for credit.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Instructional Technology (Undergraduate)

EDIT 3000 - Peace and Conflict Resolution Through the Lens of Educational Technology

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Creating local and global social change via community engagement and using current technology tools, theories and models for conflict prevention, peace-building, peace-keeping, and non-violence.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

EDIT 4100 - Educational Technology for Urban Educators

(3)

This course is repeatable: No
Max # of units may be repeated: 0
EDIT 4150 - Instructional Technology for Rehabilitation Counseling Education

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: An introductory course to assistive and instructional technologies and their application in the rehabilitation field. A variety of technology tools, management systems, and instructional modes will be discussed and examined.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

EDIT 4300 - Information Technologies in the Classroom

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Using computers and electronic media to assess, analyze data, communicate, collaborate, and solve problems in education; evaluation of electronic media; designing lessons, curricula, and creating learning environments using electronic media.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No
EDIT 4350 - Computer Systems in Education

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Computing systems and their uses in education including computer hardware, operating systems local area networks, peripherals, and telecommunications equipment. Lecture 3 hours, laboratory 2 hours.

Hours per Week: 2 lecture hour(s), 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EDIT 4300 or permission of instructor
Needs Permission to Enroll: No
Special Fee Applied: No

EDIT 4510 - Introduction to Educational Technology

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to the Educational Technology and Leadership program, careers in the field, learning theories, survey of instructional design models, and introduction to portfolios, and applications of instructional technology tools.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): EDIT 4300
Needs Permission to Enroll: No
Special Fee Applied: No

EDIT 4520 - Introduction to Instructional Design and Technology

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to the E-Learning and New Media Design program, history, careers, theories and instructional design and Human Performance technology models, an introduction to current multimedia software applications.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EDIT 4300
Needs Permission to Enroll: No
• **EDIT 4840 - Instructional Technology Authoring Tools**

(3)

- This course is repeatable: No
- Max # of units may be repeated: 0
- Total # of units allowed for credit: 3
- Max times this course can be taken for credit: 1

**Course Description:** Survey of instructional technology authoring tools and their uses in developing educational software. Hands-on experience with various authoring tools.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face, Hybrid, Online

**Campus:** Main Campus

**Prerequisite(s):** EDIT 4300 or approval of instructor

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

• **EDIT 4850 - E-Learning and New Media Authoring Tools**

(3)

- This course is repeatable: No
- Max # of units may be repeated: 0
- Total # of units allowed for credit: 3
- Max times this course can be taken for credit: 1

**Course Description:** Introduction to and practical experience with E-Learning and New Media tools and their uses in developing educational and training applications.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** EDIT 4300 or approval of instructor

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

• **EDIT 4900 - Special Topics in Instructional Technology**

(1-3)

- This course is repeatable: Yes
- Max # of units may be repeated: 5
- Total # of units allowed for credit: 6
- Max times this course can be taken for credit: 6

**Course Description:** Investigation of unique problems and new developments in instructional technology. Specific subjects announced in Schedule of Classes.

**Hours per Week:** 1 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face
Instructional Technology (Graduate)

All 4000-level courses may be applied toward master's degree requirements, subject to limits established by the department and approval of the graduate adviser. Classified graduate standing is required for enrollment in 5000-level courses; exemption applies to students who are enrolled in a postbaccalaureate credential program.

- **EDIT 5010 - Instructional Design Theories and Applications**
  
  (3)
  
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Issues, trends, theories, and research related to the integration of technology into education with a primary focus on the design and evaluation of digital age learning environments.

  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF

  Mode of Delivery: Face to Face, Hybrid, Online

  Campus: Main Campus

  Prerequisite(s): EDIT 4510, EDFN 5000

  Needs Permission to Enroll: No

  Special Fee Applied: No

- **EDIT 5020 - Instructional Design**

  (3)

  This course is repeatable: No

  Max # of units may be repeated: 0

  Total # of units allowed for credit: 3

  Max times this course can be taken for credit: 1

  Course Description: Fundamentals of instructional design, principles of learning theory, instructional design models, strategies, and process, including analysis, design, development, implementation, and evaluation of technology-based instructional and training materials.

  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF

  Mode of Delivery: Face to Face

  Campus: Main Campus

  Prerequisite(s): EDIT 4300, EDIT 4520

  Needs Permission to Enroll: No

  Special Fee Applied: No

- **EDIT 5030 - Introduction to Online Teaching and Learning**

  (3)
Course Description: This course will introduce students to concepts and issues around E-Learning and Online learning emerging pedagogy, applications and how they can be integrated into today’s K-12 classrooms and training environments.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Online
Campus: Main Campus

Prerequisite(s): EDIT 4300, or permission of instructor.
Needs Permission to Enroll: No
Special Fee Applied: No

EDIT 5040 - Instructional Design for Online Teaching and Learning

(3)

Course Description: This course provides students with the knowledge and skills for designing engaging online learning experiences using a grounded approach based on a range of theoretical perspectives and instructional design models.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Online
Campus: Main Campus

Prerequisite(s): EDIT 5030
Needs Permission to Enroll: No
Special Fee Applied: No

EDIT 5050 - Authoring Tools for Online Delivery and Universal Design for Learning

(3)

Course Description: Students will study trends/issues of online content development and delivery methods, develop content using authoring tools and applications, examine interface design standards, management systems, and Universal Design for Learning.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Online
Campus: Main Campus

Prerequisite(s): EDIT 5040
Needs Permission to Enroll: No
Special Fee Applied: No
• EDIT 5060 - Learning Communities and Pedagogies in Online Teaching Learning

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course will provide students with knowledge, skills, and strategies in pedagogical, social, cognitive, managerial, and technical aspects of online teaching, moderation, facilitation, collaboration, and community building.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Online
Campus: Main Campus

Prerequisite(s): EDIT 5050
Needs Permission to Enroll: No
Special Fee Applied: No

• EDIT 5100 - Using Educational and Assistive Technology

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Provides students with the ability to analyze technology and its appropriate use for facilitating the teaching and learning process for accessibility. Course examines issues and methods used in assistive technology.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• EDIT 5400 - Graphic Design for Learning and Performance

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Theories and principles of visual design, effectiveness, appeal and efficiency of instructional graphics and web design in educational and performance setting, learning theories, cultural influences, and technology tools that influence design process.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EDIT 4300, EDIT 4520
Needs Permission to Enroll: No
EDIT 5540 - Video Technology in Education

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Educational value and utilization of video technology in instructional settings; review and application of research; exploration of future uses of the medium.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): EDIT 4510
Needs Permission to Enroll: No
Special Fee Applied: No

EDIT 5560 - Technology Leadership and Innovative Learning Systems in Schools

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Planning and developing technology resources for schools and school districts, staff development, and funding technology in schools. Computing systems in education including computer hardware, operating systems, troubleshooting, and networks.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): EDIT 4510, EDIT 5010
Needs Permission to Enroll: No
Special Fee Applied: No

EDIT 5570 - Multimedia Design and Development

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis, design, and production of multimedia for training and education. Current research for the design, development, and implementation of applications including tutorial, drill and practice, simulation, gaming, and testing.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): EDIT 4300, EDIT 4520, EDIT 4850
Needs Permission to Enroll: No
Special Fee Applied: No

EDIT 5600 - Educational Web Design and Development
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Theory and practice in design and production of instructional graphics and web design. Using the Internet to find, research, and develop responsive web designs in education.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): EDIT 4300 or its equivalent or permission of instructor.
Needs Permission to Enroll: No
Special Fee Applied: No

EDIT 5620 - Current Technologies
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Emerging technologies and their impacts on teaching, learning, research, and creative applications in education will be explored, with a primary focus on experience design and new pedagogical possibilities.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

EDIT 5630 - Introduction to Human Performance Technology (HPT)
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduce instructional designers, training-development, & human resource professionals to HPT. HPT is the process of analysis, design, development, implementation, & evaluation of interventions to most cost effectively influence human performance.
EDIT 5650 - Introduction to Computer Programming and Data Structure for Educators

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to computer programming, data structures and applying computational thinking in K-16 and training environments. Hands-on activities focus on design, development, and evaluation of computer programming and data structures in education.

EDIT 5800 - Applied Experiences in Educational Technology

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examination of theory and practice in educational technology field settings. Supervised field-based project, product development, evaluation, or empirical investigation practicum with educational technology specialists.

EDIT 5810 - Applied Experiences in E-Learning and New Media Design

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Option in E-Learning and New Media Design. Examination of the role and responsibilities of working as an e-learning and media specialist in field settings. Supervised product development, evaluation, empirical investigation, training, or externship.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy in MA in Education
Needs Permission to Enroll: No
Special Fee Applied: No

EDIT 5900 - Educational Technology Portfolio Project

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course provides students with a "capstone" experience integrating their abilities and knowledge in Educational Technology through development of an electronic portfolio useful to reviewers in the profession and potential employers.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy and completion of 80% coursework in Master's Degree: option in the Educational Technology Leadership Program.
Needs Permission to Enroll: No
Special Fee Applied: No

EDIT 5910 - E-Learning & New Media Portfolio Project

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course provides students with a culminating experience integrating their abilities, theories and knowledge in New Media, Design and E-Learning through the development of a portfolio.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy and completion of 80% coursework in Master's Degree: option in the New Media Design and E-Learning.
Needs Permission to Enroll: No
Special Fee Applied: No
EDIT 5940 - Selected Studies in Instructional Technology

This course is repeatable: Yes
Max # of units may be repeated: 98
Total # of units allowed for credit: 99
Max times this course can be taken for credit: 99

Course Description: Advanced specialized topics involving instructional technology.
Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Consent of instructor and appropriate prerequisite.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

---

Instructional Technology (Doctoral)

EDIT 6000 - Educational Technology Leadership

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examines history of technology in educational contexts; analyzes the complex interrelationships between educational technology theory, research, and policy; explores ways leadership can address innovation and the challenge of equal access.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission into doctoral program or consent of instructor.
Needs Permission to Enroll: No
Special Fee Applied: No
Course Descriptions

Notes:

- All 4000-level courses may be applied toward master's degree requirements, subject to limits established by the department and approval of the graduate adviser.
- Classified graduate standing is required for enrollment in 5000-level courses; exception applies to students who are enrolled in a postbaccalaureate certificate or credential program.

Instructional Technology (Doctoral)

EDIT 6010 - Contemporary Issues in Emerging Technologies: Blended Learning Systems

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Examination of contemporary issues and practices in blended learning systems for K-20 education. Topics include definitions, current models, research, best practices, global perspectives, case studies, emerging technologies, and future trends.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission into Doctoral Program or consent of instructor and program director.
Needs Permission to Enroll: No
Special Fee Applied: No
EDIT 6020 - Human Performance Technology and Social Change

Course Description: Students will learn the theories and models of HPT and apply them to analyze, design, develop, implement, and evaluate interventions using technology tools to improve human performance and promote social change.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission into Doctoral Program or consent of instructor and program director.

Needs Permission to Enroll: No
Special Fee Applied: No

Intercollegiate Athletics (Undergraduate)

ATHL 3410 - Series: Individual Or Dual Sports

Course Description: Only NCAA-eligible student athletes may enroll and participate in these courses. Advanced practice in performance techniques in preparation for intercollegiate competition.

Hours per Week: 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Consent of coach.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

ATHL 3410C - Cross Country (Men’s)(Women’s)

Course Description: Only NCAA-eligible student athletes may enroll and participate in these courses. Advanced practice in performance techniques in preparation for intercollegiate competition.

Hours per Week: 3 lecture hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus
**ATHL 3410F - Track And Field (Men’s) (Women’s)**

(1)

- This course is repeatable: Yes
- Max # of units may be repeated: 4
- Total # of units allowed for credit: 5
- Max times this course can be taken for credit: 5

**Course Description:** Only NCAA-eligible student athletes may enroll and participate in these courses. Advanced practice in performance techniques in preparation for intercollegiate competition.

**Hours per Week:** at least 3 activity hour(s).

**Grading:** ABC-/NC (Undergraduate Only)

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** Consent of coach.

**Needs Permission to Enroll:** Yes, Instructor Consent

**Special Fee Applied:** No

---

**ATHL 3410G - Golf (Women’s)**

(1)

- This course is repeatable: Yes
- Max # of units may be repeated: 4
- Total # of units allowed for credit: 5
- Max times this course can be taken for credit: 5

**Course Description:** Only NCAA-eligible student athletes may enroll and participate in this course. Advanced practice in performance techniques in preparation for intercollegiate competition. A maximum of 5 units of intercollegiate athletics courses may be applied toward a baccalaureate.

**Hours per Week:** at least 3 activity hour(s).

**Grading:** ABC-/NC (Undergraduate Only)

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** Consent of coach.

**Needs Permission to Enroll:** Yes, Instructor Consent

**Special Fee Applied:** No

---

**ATHL 3410T - Tennis (Women’s)**

(1)

- This course is repeatable: Yes
- Max # of units may be repeated: 4
- Total # of units allowed for credit: 5
- Max times this course can be taken for credit: 5

**Course Description:** Only NCAA-eligible student athletes may enroll and participate in these courses. Advanced practice in performance techniques in preparation for intercollegiate competition.
ATHL 3420 - Series: Individual Or Dual Sports

(1)

This course is repeatable: Yes
Max # of units may be repeated: 9
Total # of units allowed for credit: 10
Max times this course can be taken for credit: 10

Course Description: Only NCAA-eligible student athletes may enroll and participate in these courses. Advanced practice in performance techniques in preparation for intercollegiate competition.

Hours per Week: at least 3 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Consent of coach.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

ATHL 3420B - Baseball (Men's)

(1)

This course is repeatable: Yes
Max # of units may be repeated: 4
Total # of units allowed for credit: 5
Max times this course can be taken for credit: 5

Course Description: Only NCAA-eligible student athletes may enroll and participate in these courses. Advanced practice in performance techniques in preparation for intercollegiate competition.

Hours per Week: at least 3 activity hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Consent of coach.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

ATHL 3420K - Basketball (Men's) (Women's)

(1)

This course is repeatable: Yes
Max # of units may be repeated: 4
Total # of units allowed for credit: 5
Max times this course can be taken for credit: 5

Course Description: Only NCAA-eligible student athletes may enroll and participate in these courses. Advanced practice in performance techniques in preparation for intercollegiate competition.
Hours per Week: at least 3 activity hour(s).

Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

**Course Description:** Development of a beginning understanding of Tai Chi Chuan that involves movement’s forms, and positions that involve deep tranquil breathing creating a sense of centered wellbeing to help reduce stress, increase balance, and relax the body and mind. May be repeated to a maximum of 8 units. (Activity 2 hours)

**Hours per Week:** 2 activity hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** None

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

• **KIN 1070 - Tennis - Beginning**

(1)

This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

**Course Description:** Introduction and exploration of tennis including skills, strategies, rules, and analysis of techniques. May be repeated to a maximum of 8 units. (Activity 2 hours)

**Hours per Week:** 2 activity hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** None

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

• **KIN 1073 - Volleyball - Beginning**

(1)

This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

**Course Description:** Exploration and introduction of volleyball including skills, strategies, rules, and analysis of techniques. May be repeated to a maximum of 8 units. (Activity 2 hours)

**Hours per Week:** 2 activity hour(s).
KIN 1076 - Weight Training - Beginning
(1)
This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

Course Description: Introduction and exploration of the fundamental skills of weight training. Skill progression, conditioning, individual fitness development, and safety are emphasized. May be repeated to a maximum of 8 units. (Activity 2 hours)

Hours per Week: 2 activity hour(s).

KIN 1079 - Yoga - Beginning
(1)
This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

Course Description: Introduction and exploration of the practice of yoga including body positions, balance, and breathing. May be repeated to a maximum of 8 units. (Activity 2 hours)

Hours per Week: 2 activity hour(s).

KIN 1100 - Intramural Sports
(1)
This course is repeatable: Yes
Max # of units may be repeated: 15
Total # of units allowed for credit: 16
Max times this course can be taken for credit: 16
**Course Description:** Participation in university intramural sports. Elective credit only; may be repeated to maximum of 16 units. Activity 2 hours minimum.

**Hours per Week:** 2 activity hour(s).

**Grading:** CR/NC

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** None

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**KIN 1200 - Intramural Esports**

(1)

**This course is repeatable:** Yes

**Max # of units may be repeated:** 14

**Total # of units allowed for credit:** 15

**Max times this course can be taken for credit:** 15

**Course Description:** Participation in university intramural electronic sports games which may include FIFA, NBA2K, Call of Duty, Super Smash Bros Ultimate and others. Requires appropriate game consoles. Elective credit only; may be repeated to maximum of 16 units. Activity 2 hours minimum.

**Hours per Week:** 2 activity hour(s).

**Grading:** CR/NC

**Mode of Delivery:** Online

**Campus:** Main Campus

**Prerequisite(s):** None

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**KIN 1500 - Higher Wellness**

(3)

**This course is repeatable:** No

**Max # of units may be repeated:** 0

**Total # of units allowed for credit:** 3

**Max times this course can be taken for credit:** 1

**Course Description:** Immersion into self, campus and community to optimize personal wellness and pathway graduation; IHE course satisfies the Life Long Learning requirement; requires off-campus service within youth physical activity programming.

**Hours per Week:** 2 lecture hour(s), 2 activity hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** None

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

**GE E (cl) (IHE)**

---

**KIN 1540 - Special Activities in Physical Education**
This course is repeatable: Yes
Max # of units may be repeated: 23
Total # of units allowed for credit: 24
Max times this course can be taken for credit: 24

Course Description: Varied experiences reflecting current interests of students in physical education and related experimental areas, as announced in Schedule of Classes. May be repeated as subject matter changes. Activity 2 hours.

Hours per Week: 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

KIN 1550 - Individual Therapeutic Exercise

This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 6

Course Description: Individual programs of exercise for students who have a need for special exercise. Suitable for students with physical limitations or recuperation from accident or illness. May be repeated for credit as many times as indicated by the University physician or personal physician.

Hours per Week: 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Assignment by the University physician or personal physician.
Needs Permission to Enroll: No
Special Fee Applied: No

KIN 1600 - Student Success Through Physical Activity

This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

Course Description: Through creative physical activities, focuses on development of and reflection on critical skills for academic success that enhance the completion of academic goals. Includes networking with relevant faculty, regular meetings with peer mentors, and collaboration with peers in a cohort-based sports tournament.

Hours per Week: 2 activity hour(s).

Grading: ABC-NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Pre/Co-requisite(s): KIN 1500 or HHS 1010
Needs Permission to Enroll: No
- **KIN 2010 - Basketball - Intermediate**

  (1)

  This course is repeatable: Yes  
  Max # of units may be repeated: 7  
  Total # of units allowed for credit: 8  
  Max times this course can be taken for credit: 8

  **Course Description:** Exploration and development of intermediate basketball techniques. Skills, strategies, rules, and analysis of techniques are emphasized. May be repeated to a maximum of 8 units. (Activity 2 hours)

  **Hours per Week:** 2 activity hour(s).

  **Grading:** ABCDF

  **Mode of Delivery:** Face to Face

  **Campus:** Main Campus

  **Prerequisite(s):** None

  **Needs Permission to Enroll:** No

  **Special Fee Applied:** No

- **KIN 2013 - Swimming - Intermediate**

  (1)

  This course is repeatable: Yes  
  Max # of units may be repeated: 7  
  Total # of units allowed for credit: 8  
  Max times this course can be taken for credit: 8

  **Course Description:** Exploration and development of intermediate swimming techniques. Skills, conditioning, individual fitness, and safety are emphasized. May be repeated to a maximum of 8 units. (Activity 2 hours)

  **Hours per Week:** 2 activity hour(s).

  **Grading:** ABCDF

  **Mode of Delivery:** Face to Face

  **Campus:** Main Campus

  **Prerequisite(s):** None

  **Needs Permission to Enroll:** No

  **Special Fee Applied:** No

- **KIN 2016 - Tennis - Intermediate**

  (1)

  This course is repeatable: Yes  
  Max # of units may be repeated: 7  
  Total # of units allowed for credit: 8  
  Max times this course can be taken for credit: 8

  **Course Description:** Exploration and development of intermediate tennis techniques. Skills, strategies, rules, and analysis of techniques are emphasized. May be repeated to a maximum of 8 units. (Activity 2 hours)

  **Hours per Week:** 2 activity hour(s).

  **Grading:** ABCDF

  **Mode of Delivery:** Face to Face
• KIN 2019 - Yoga - Intermediate

(1)

This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

Course Description: Further development of a deeper and expanded study of the practice of yoga. New positions of balance and pranayama (the art of yogic breathing) are introduced. May be repeated to a maximum of 8 units. (Activity 2 hours)

Hours per Week: 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

• KIN 2040 - Diet and Exercise for Weight Management

(1)

This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

Course Description: Evaluation of personal diet and exercise patterns. Development, implementation, and evaluation of an individualized diet and exercise plan for weight management. Brief examination of diet and exercise regimens for purposes of weight management; importance of combining a healthy diet and appropriate exercise in daily activities. May be repeated to a maximum of 8 units. (Activity 2 hours)

Hours per Week: 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

• KIN 2150 - Anatomical Kinesiology

(5)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 5
Max times this course can be taken for credit: 1
Course Description: Musculoskeletal, neuromuscular, pulmonary and cardiovascular systems for human movement and exercise. Lecture 3 hours, laboratory 6 hours.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

KIN 2250 - Principles of Physical Fitness

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Designing and conducting cardiovascular, resistance, and flexibility training programs for lifelong health and fitness.

Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Hybrid
Campus: Main Campus

Pre/Co-requisite(s): KIN 2150 or BIOL 2020 or BIOL 2040
Needs Permission to Enroll: No
Special Fee Applied: No

KIN 2500 - Introduction to Kinesiology

(2)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 2

Course Description: Introduction to the discipline of kinesiology; examination of the study of physical activity from the perspectives of experience, research, and professional practice. May be repeated to a maximum of 4 semester units.

Hours per Week: 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

Articulation C-ID: KIN 100
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding "C-ID Course" designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.
KIN 2540 - Selected Topics in Physical Education

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 20
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Current activities, new and varied, of interest to general student body, as announced in Schedule of Classes. May be repeated for credit as subject matter changes.
Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

KIN 2541 - Selected Topics in Physical Education

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Current activities, new and varied, of interest to general student body, as announced in Schedule of Classes. May be repeated for credit as subject matter changes.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

KIN 2600 - Computer Applications in Kinesiology and Statistics

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Application of personal computers in Kinesiology and physical education. Emphasis on delivery of discipline related content through available computing technology. Develop familiarity with current discipline specific software. Includes module on research techniques, data analysis, basic statistical theory, and statistical analysis using a personal computer. Lecture 2 hours, laboratory 3 hours.

Hours per Week: 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
KIN 3000 - Physiological Bases of Nutrition, Physical Fitness, and Health

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course provides information that is based on the scientific principles of nutrition, exercise, weight control, and health leading to the development of individualized exercise and nutritional strategies for achieving lifelong wellness.

Hours per Week: 1 lecture hour(s), 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
Needs Permission to Enroll: No
Special Fee Applied: No

KIN 3010 - Swimming - Advanced

(1)

This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Exploration and development of advanced swimming techniques. Skills, conditioning, individual fitness, and safety are emphasized. May be repeated to a maximum of 8 units. (Activity 2 hours)

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

KIN 3050 - Theory and Analysis of Aquatics

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Theory and analysis of performance techniques, historical knowledge, safety procedures, and conditioning. Enables students to become certified in Water Safety Instruction through the American Red Cross. Lecture 2 hours, demonstration-laboratory 2 hours.

Hours per Week: 3 lecture hour(s), 2 activity hour(s).

Grading: ABCDF
• **KIN 3100 - Written Communication for Kinesiology**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

**Course Description:** Written communication skills for the Kinesiology major with emphasis on techniques of writing formal reports, public relations information, and essays.
Grade of C or better in this course satisfies the Graduation Writing Assessment Requirement.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

• **KIN 3180 - Assessment of Student Learning in Physical Education**

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

**Course Description:** Theoretical understanding of evaluating and investigating physical education teaching effectiveness; current educational evaluation trends; emphasis on current technologies of assessment for physical instruction for students with and without disabilities. Lecture 3 hours, Activity 2 hours.

**Hours per Week:** 3 lecture hour(s), 2 activity hour(s).

**Grading:** ABCDF

• **KIN 3190 - Instructional Strategies in Inclusive Physical Education**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
KIN 3200 - Professional Invasion and Net Activities for Inclusive PE

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Professional introduction to basketball, volleyball, team handball, flag football, soccer, softball; teaching methods for K-12 physical education developing and refining basic skills, rules, safety and equipment for students with and without disabilities. Lecture 1 hour, Activity 4 hours.

Hours per Week: 1 lecture hour(s). 4 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): KIN 3190
Needs Permission to Enroll: No
Special Fee Applied: No

KIN 3210 - Professional Racquet and Target Activities for Inclusive PE

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Professional introduction to badminton, racquetball, tennis, archery, golf and track and field; teaching methods for K-12 physical education developing and refining basic skills, rules, safety and equipment for students with and without disabilities. Lecture 1 hour, Activity 4 hours.

Hours per Week: 1 lecture hour(s). 6 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No
- **KIN 3220 - Professional Aesthetic, Cooperative and Adventure Activities for Inclusive PE**

  (4)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 4
  Max times this course can be taken for credit: 1

  **Course Description:** Professional introduction to combatives, dance, rhythmic gymnastics, outdoor, aquatics, contemporary games for students with and without disabilities. Teaching methods for K-12 physical education; developing and refining basic skills; rules, safety and equipment. Lecture 2 hours, Activity 4 hours.

  Hours per Week: 2 lecture hour(s). 4 activity hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): [KIN 3190](#)

  Needs Permission to Enroll: No
  Special Fee Applied: No

- **KIN 3400 - Applied Biomechanics**

  (4)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 4
  Max times this course can be taken for credit: 1

  **Course Description:** Analysis of anatomical and mechanical bases for efficiency of human movement. Lecture 3 hours, laboratory 3 hours.

  Hours per Week: 3 lecture hour(s). 3 laboratory hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): (MATH 1040 or MATH 1081), (KIN 2600 or BIOL 3000), (PHYS 1560 or PHYS 1100), ([Biol 2030 and BIOL 2040) or (BIOL 2020) or [KIN 2150](#) Pre/Co-requisite(s): [KIN 3100](#)

  Needs Permission to Enroll: No
  Special Fee Applied: No

- **KIN 3450 - Physiological Effects of Exercise During Aging**

  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** Age-related physiological changes with mature adults, and the impact of physical activity on physical capacity. Some sections of this course will include service learning as an option.

  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
KIN 3600 - Physiology of Exercise and Physical Activity

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Analysis of physiological bases of effect of movement and stress on human organism; factors affecting conditioning. Lecture 3 hours, laboratory 3 hours.

Hours per Week: 3 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): (MATH 1081 or MATH 1082), (KIN 2600 or BIOL 3000), (BIOL 2030 and BIOL 2040) or (BIOL 2010 and BIOL 2020) or KIN 2150
Pre/Co-requisite(s): KIN 3100

Needs Permission to Enroll: No
Special Fee Applied: No

KIN 3650 - Motor Learning and Development

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Theory and research on how movements develop over the lifespan and how they change as a result of practice and learning.

Hours per Week: 3 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): (MATH 1081 or MATH 1082), KIN 2600
Pre/Co-requisite(s): KIN 3100

Needs Permission to Enroll: No
Special Fee Applied: No

KIN 3700 - Psychomotor Development

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis of the development of human motor skills from infancy to older adulthood.

Hours per Week: 3 lecture hour(s).
KIN 3750 - Socio-Historical Analyses of Human Movement
(4)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: This course provides historical and sociocultural perspectives of sport and physical activity. This course will include discussions of relevant philosophies during historical periods illuminating the importance of human movement to societal development. Students will also examine the societal role of sport and how sport (re)produces, and challenges, inequities in society. Emphasis is placed on developing a multi-disciplinary understanding through an active-learning pedagogy approach.
Hours per Week: 4 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus
Prerequisite(s): BIOL 2010, BIOL 2020, PSY 1500, SOC 2010
Pre/Co-requisite(s): KIN 3100
Needs Permission to Enroll: No
Special Fee Applied: No

KIN 3820 - Principles of Sport and Exercise Psychology
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course examines psychological theories and research related to sport and physical activity behavior. Select topics include motivation, anxiety, group dynamics, and physical activity adherence. Students will learn how to integrate sport and exercise psychology knowledge into their personal and professional lives.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus
Prerequisite(s): PSY 1500; Pre/Co-requisite(s): KIN 3100 or KIN 4210
Needs Permission to Enroll: No
Special Fee Applied: No

KIN 4000 - Elementary School Physical Education
(4)
This course is repeatable: No
Max # of units may be repeated: 0
KIN 4010 - Creating Developmentally-Appropriate Games/Activities

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Knowledge of rules, space and equipment modifications to games/activities common to K-12 physical education to accommodate skill diversity and foster student learning. Creating original games/activities. Lecture 2 hours, Activity 1 hour.

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): KIN 3180, KIN 3190
Needs Permission to Enroll: No
Special Fee Applied: No

KIN 4015 - Elementary and Secondary Inclusive School Physical Education

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Current elementary and secondary curricular and instructional practices for inclusion; models of elementary and secondary physical education programs; design of effective and inclusive elementary and secondary instruction; delivery of instruction to elementary and/or secondary students with and without disabilities. Lecture 3 hours; activity 2 hours.

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): KIN 3180, KIN 3190 and any two of the following courses KIN 3200, KIN 3210, KIN 3220
Needs Permission to Enroll: No
Special Fee Applied: No
• KIN 4050 - Secondary School Physical Education

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Current secondary school curricular and instructional practices, models of secondary school physical education programs; design of effective secondary instruction; delivery of instruction to secondary students. Lecture 3 hours. Activity 1 hour.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): KIN 3180, KIN 3190, two of (KIN 3200, KIN 3210, KIN 3220), consent of instructor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

• KIN 4100 - Neurophysiological Basis of Movement

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examination of central and peripheral nervous system anatomy and physiology that underlie the production of human movement.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): (BIOL 2030 and BIOL 2040) or (BIOL 2010 and BIOL 2020) or KIN 2250
Needs Permission to Enroll: No
Special Fee Applied: No

• KIN 4200 - Development of Physical Activity

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Movement experiences related to children’s health and learning; health promotion and disease prevention through exercise; fundamental movements; models of elementary physical education programs; teaching strategies; curriculum design and lesson planning. Lecture 1 hour, activity 2 hours.
Hours per Week: 1 lecture hour(s), 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
KIN 4210 - Youth Development of Physical Activity
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Knowledge and skills of physical activity programming to assist underserved youth in the community.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No
(wi)

KIN 4220 - Community Service Learning and Physical Activity Programs
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Classroom and field-based experiences for students interested in using physical activity programs to assist in community development. This course requires service learning.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): KIN 4210
Needs Permission to Enroll: No
Special Fee Applied: No

This is a service learning course.

KIN 4230 - Biopsychosocial Model: A Case-Based Application in Sports and Performance
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Course reviews the implications of injury and trauma on the physical and mental aspects of a person's health from a case-based inter-professional approach to understand the impact and need of a biopsychosocial model. Service learning required.

Hours per Week: 3 lecture hour(s).
KIN 4250 - Dimensions of Kinesiology for Individuals with Disabilities

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Submission of a Certificate of Clearance to School of Kinesiology and Nutritional Science for students completing the Physical Education Single Subject Teaching options and, Community Leadership option. Conditions requiring special physical education including: learning disabilities, retardation, neurological and orthopedic conditions. Lecture 3 hours, practical teaching in programs for exceptional students 2 hours.

Hours per Week: 2 lecture hour(s). 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): PSY 1500, KIN 3100, KIN 3820
Needs Permission to Enroll: No
Special Fee Applied: No

KIN 4280 - Psychomotor Assessment for Individuals with and without Disabilities

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Theoretical understanding of evaluating and investigating physical education teaching effectiveness; current educational evaluation trends; emphasis on current technologies of assessment for physical education instruction for individuals with and without disabilities. Including study of prevalent disabilities, with implications for evaluation and diagnosis of motor problems utilizing assessment tools to develop specially designed instructional programs Practical experience with assessment required. Lecture 1 hour; laboratory 3 hours.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): KIN 2500 Pre/Co-requisite(s): KIN 3100
Needs Permission to Enroll: No
Special Fee Applied: No

KIN 4300 - Care and Prevention of Athletic Injuries

This is a service learning course.
KIN 4210 - Athletic Injury Recognition, Evaluation, and Care

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Introduction to techniques for use in recognizing, evaluating, and caring for athletic injuries. Provides knowledge and skill in the care and prevention of athletic and physical activity related injuries. Lecture 3 hours, Activity 3 hours.

Hours per Week: 3 lecture hour(s). 3 activity hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): (BIOL 2030 and BIOL 2040) or (KIN 2150 and KIN 2250)
Needs Permission to Enroll: No
Special Fee Applied: No

KIN 4310 - Low-incidence and Other Health Impaired Disabilities: Physical Activity Programming and Instruction

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Etiology, movement characteristics, learning problems of individuals with low-incidence and other health impaired disabilities in physical activity, including severe/profound intellectual disabilities , visual and hearing impairments, multiple disabilities, autism traumatic brain injury and current health impairments.

Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): KIN 4250 Corequisite(s): KIN 4810
Needs Permission to Enroll: No
Special Fee Applied: No

KIN 4330 - High-Incidence Disabilities: Physical Activity Programming and Instruction

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Challenges of pupils with high-incidence and physical disabilities in physical activity context; implications for physical education program development, technology, and transition activities.

Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): KIN 4250 Corequisite(s): KIN 4810
Needs Permission to Enroll: No
• KIN 4340 - Organizational Strategies for Adapted Physical Education

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Techniques for program, curriculum development in adapted physical education; effect of current legislation on roles and responsibilities of adapted physical educators; design and development of curricular materials for urban and rural environments.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• KIN 4360 - Principles of Mobility Training

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Theory and application of mobility training techniques (i.e. range of motion, flexibility, manual resistance exercises, posture, balance and gait training). Service learning is required. Lecture 3 hours; Laboratory 3 hours.

Hours per Week: 3 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): (BIOL 2030 and BIOL 2040) or (BIOL 2010 and BIOL 2020) or KIN 2250
Needs Permission to Enroll: No
Special Fee Applied: No

• KIN 4365 - Neurorehabilitation

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Theory and application of rehabilitative intervention aimed at improving functional recovery after disease or injury affecting the nervous system. Curriculum will review theoretical approaches drawn from current and classic research, strategies for implementing interventions, and application of measurements to determine effectiveness. Service learning is required. Lecture 3 hours; Laboratory 3 hours.

Hours per Week: 3 lecture hour(s). 3 laboratory hour(s).
KIN 4370 - Disease and Plasticity in Neuromuscular Systems

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to neuromuscular diseases and exercise-induced plasticity in neuromuscular systems.
Hours per Week: 3 lecture hour(s).

KIN 4380 - Principles of Exercise for Older Adults

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Analyses, development, and implementation of exercise programs for older adults.
Hours per Week: 3 lecture hour(s), 3 laboratory hour(s).

KIN 4390 - Rehabilitation Exercise Machines

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Practical understanding of the function, design and selection of exercise machines. Understanding and addressing the special needs of users with a disability. May be repeated for a maximum of 9 units. Service learning is required.
KIN 4400 - Advanced Movement Analysis in Sport, Performance and Injury

(4)

This course is repeatable: No  
Max # of units may be repeated: 4  
Total # of units allowed for credit: 4  
Max times this course can be taken for credit: 1  

Course Description: The functional application of biomechanical and kinesiology principles in the analysis of common movement patterns in sports and performance with a focus on injury prevention. Combined theory-application of injury advanced movement analysis of special populations (athletes, performing artists, chronic pain, military). Lecture 2 hours; Laboratory 6 hours.

Hours per Week: 2 lecture hour(s). 6 laboratory hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus  

Prerequisite(s): KIN 3400  
Needs Permission to Enroll: No  
Special Fee Applied: No

KIN 4420 - Practicum in Rehabilitation and Therapeutic Exercise

(2)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 2  
Max times this course can be taken for credit: 1  

Course Description: Application of therapeutic exercise to physically impaired and/or older adults. Laboratory 6 hours.

Hours per Week: 6 activity hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus  

Prerequisite(s): KIN 4360, (KIN 4380 or KIN 4320)  
Needs Permission to Enroll: No  
Special Fee Applied: No

KIN 4425 - Group Exercise Interventions for Wheelchair Users

(2)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

**Course Description:** Principles and application of group exercise programs for individuals with physical impairments that limit mobility. Laboratory 6 hours.

**Hours per Week:** 6 activity hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** Upper division standing.

• **KIN 4430 - Practicum in Performance Medicine**

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

**Course Description:** Practicum provides opportunities for students to apply accrued knowledge as part of a multidisciplinary team serving collegiate athletes/performers. Students will observe physical rehabilitation sessions, participate in planning, supervising and implementing corrective exercises and injury prevention programs. Students will interact with other performance medicine team members such as strength and conditioning coaches, athletic trainers, dietitians, sport psychologists and medical doctors.

**Hours per Week:** 6 fieldwork / practicum hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** KIN 4400

• **KIN 4500 - Exercise Interventions in Aging: Physiological Systems**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

**Course Description:** Effects of exercise on decline in physical and mental functioning of older adults. Topics include changes in metabolic, cardiovascular, pulmonary, neuromuscular, skeletal, integumentary systems as a result of exercise.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** (BIOL 2030 and BIOL 2040) or (BIOL 2010 and BIOL 2020) or KIN 2250

-
• KIN 4540 - Special Topics in Physical Education
  
  (1-3)

  This course is repeatable: Yes
  Max # of units may be repeated: 23
  Total # of units allowed for credit: 24
  Max times this course can be taken for credit: 24

  Course Description: Current issues and interests of students in physical education and related experimental areas, as announced in Schedule of Classes. May be repeated as subject matter changes. Lecture and activity.
  Hours per Week: 1 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): Varies with topic.
  Needs Permission to Enroll: No
  Special Fee Applied: No

• KIN 4541 - Special Topics in Physical Education

  (1-3)

  This course is repeatable: Yes
  Max # of units may be repeated: 23
  Total # of units allowed for credit: 24
  Max times this course can be taken for credit: 24

  Course Description: Current issues and interests of students in physical education and related experimental areas, as announced in Schedule of Classes. May be repeated as subject matter changes. Lecture and activity.
  Hours per Week: 2 activity hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): Varies with topic.
  Needs Permission to Enroll: No
  Special Fee Applied: No

• KIN 4550 - Principles of Clinical Exercise Testing

  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Diagnostic and prognostic aspects of clinical exercise testing, which provide information that could not be provided by testing patients at rest. Special consideration of exercise electrocardiography. Lecture 3 hours; Laboratory 3 hours.
  Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): KIN 4600
KIN 4560 - Sport and Exercise Ergogenic Aids

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examination of scholarly literature concerning principles of program development and analysis; consideration of internal and external influences on program design; comparative analyses of contemporary school-based program models. May be offered as an online or hybrid course.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

KIN 4580 - Environmental Exercise Physiology

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course explores the responses and adaptations of the human organism to exercise in various environments and studies the interaction between the multiple physiological systems during acute and chronic exposure and exercise. Lecture 2 hours; lab 3 hours

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

KIN 4600 - Principles of Physical Fitness Assessment

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Physical fitness and performance assessment techniques employed within the laboratory environment: electrocardiography, electromyography, closed and open circuit indirect calorimetry, stress testing, hydrodensitometry, respirometry and cardiocirculatory. Lecture 4 hours; Laboratory 3 hours.
KIN 4610 - Advanced Exercise Physiology

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Advanced topics in exercise physiology, including exercise responses in the neuroendocrine, cardiopulmonary, immune, and skeletal systems. Topics will also include system-level integration during exercise, and exercise in stressful environments.

Lecture 4 hours.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): KIN 3600
Needs Permission to Enroll: No
Special Fee Applied: No

KIN 4650 - Principles of Exercise Prescription

(5)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 5
Max times this course can be taken for credit: 1

Course Description: Development and implementation of exercise prescription for aerobic exercise, strength training, and flexibility in apparently healthy and diseased populations. Diagnostic and prognostic aspects of clinical exercise testing; special consideration of exercise electrocardiography in various clinical populations. Lecture is 4 hours, Laboratory is 3 hours.

Hours per Week: 4 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): KIN 4600
Needs Permission to Enroll: No
Special Fee Applied: No

KIN 4800 - Educational Field Experiences in Adapted Physical Education

(1)

This course is repeatable: Yes
Max # of units may be repeated: 1
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 2

Course Description: Educational practices in teaching adapted physical education; processes and application of methods, materials, and individualized instructional units in meeting the needs of individuals with disabilities. Course may be repeated for a maximum of 2 units.
Laboratory hours: 30.
Hours per Week: 3 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Submission of a Certificate of Clearance to School of Kinesiology and Nutritional Science; permission of instructor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

KIN 4810 - Clinical Field Experiences in Adapted Physical Education
(1)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Clinical practice in teaching adapted physical education; processes and application of methods, materials, and individualized instructional units in meeting the needs of individuals with disabilities. Course may be repeated for a maximum of 3 units.
Laboratory hours: 30-90.
Hours per Week: 3 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Submission of a Certificate of Clearance to School of Kinesiology and Nutritional Science; Corequisite(s): KIN 4310, KIN 4330
Needs Permission to Enroll: No
Special Fee Applied: No

KIN 4850 - Field Experience in Exercise and Human Performance
(2)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 2

Course Description: Directed practicum in career-related role in community settings. Regular conferences with supervisor. Minimum of 45 hours and required weekly seminar attendance. Requirements must be completed in one semester. May be repeated to a maximum of 4 units. Graded CR/NC.
Hours per Week: 1 lecture hour(s). N/A fieldwork / practicum hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Upper division standing.
Needs Permission to Enroll: No
Special Fee Applied: No
• KIN 4960 - Capstone Seminar in Exercise and Human Performance

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Integration of concepts of other courses in both the exercise and human performance option and the core; preparation for certifications in exercise science provided by various professional organizations.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): KIN 3400, KIN 4650
Needs Permission to Enroll: No
Special Fee Applied: No

• KIN 4970 - Projects

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 23
Total # of units allowed for credit: 24
Max times this course can be taken for credit: 24

Course Description: Projects

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• KIN 4980 - Cooperative Education - Advanced

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 4

Course Description: Participation in work experience integrated with academic program; assignments arranged individually in advance through coordinator. Minimum of 10 hours per week required for each unit. Students in departments with graduate Cooperative Education programs may apply maximum of 4 units toward graduate degree program.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus
**KIN 4990 - Undergraduate Directed Study**

(1-3)

This course is repeatable: Yes  
Max # of units may be repeated: 23  
Total # of units allowed for credit: 24  
Max times this course can be taken for credit: 24

**Course Description:** Project selected in conference with sponsor before registration; progress meetings held regularly, and final report submitted. May be repeated for credit.

**Hours per Week:** N/A lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** Consent of an instructor to act as sponsor.

**Needs Permission to Enroll:** Yes, Instructor Consent  
**Special Fee Applied:** No

---

**Kinesiology (Graduate)**

**KIN 5030 - Applied Statistics in Kinesiology**

(4)

This course is repeatable: No  
Max # of units may be repeated: 4  
Total # of units allowed for credit: 4  
Max times this course can be taken for credit: 1

**Course Description:** Analysis of variables related to kinesiology, application of statistical procedures in basic research design.

**Hours per Week:** 4 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus, DTLA Campus

**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

---

**KIN 5040 - Research Design in Kinesiology**

(4)

This course is repeatable: No  
Max # of units may be repeated: 4  
Total # of units allowed for credit: 4  
Max times this course can be taken for credit: 1

**Course Description:** Analysis, evaluation, and interpretation of research studies and investigations in kinesiology.
KIN 5070 - Cultural Analyses of Sport in the United States

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Examination of research focused on cultural analyses of sport as a sociocultural system with an emphasis on diverse populations. Focuses on theoretical and conceptual issues in the sociology of sport.

Hours per Week: 4 lecture hour(s).

KIN 5200 - Graduate Seminar in Kinesiology

(1)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Analysis of current movement-based research literature including neural, muscular, and cardiovascular respiratory aspects, rehabilitation and exercise. May be repeated up to a maximum of 3 units.

Hours per Week: 1 lecture hour(s).

KIN 5300 - Understanding and Practicing Professional Competencies

(3)

This course is repeatable: No
Max # of units may be repeated: 3
Using seminar/lecture and case study/job shadowing/lab teaching to integrate theory in practicing effective, culturally competent college and community-based kinesiology instruction and athlete-focused service delivery. Lecture 1 hours; Activity 2 hours.

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus, DTLA Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

**KIN 5360 - Seminar: Issues in Adapted Physical Education**

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Individual survey and analysis of current issues in administration, supervision, instruction, curriculum, and assessment in adapted physical education.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

**KIN 5440 - Advanced Instructional and Assessment Strategies in Physical Education**

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Survey of effective physical education instructional delivery and student learning assessment strategies/methods; knowledge of research results related to teaching and teacher effectiveness; current trends in effective teaching and assessment. May be offered as an online or hybrid course.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No
• **KIN 5460 - Analysis of Physical Education Programming**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Examination of scholarly literature concerning principles of program development and analysis; consideration of internal and external influences on program design; comparative analyses of contemporary school-based program models.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** Consent of instructor.  
**Needs Permission to Enroll:** Yes, Instructor Consent  
**Special Fee Applied:** No

• **KIN 5480 - Physical Activity Program Leadership**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Analysis of research concerning skills to lead, manage, and assess physical activity programs: advocacy; staff management, development and supervision; public relations and marketing; fundraising; assessing program needs. Service learning required. May be offered as an online or hybrid course.

**Hours per Week:** 2 lecture hour(s); 2 activity hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face, Hybrid, Online  
**Campus:** Main Campus

**Prerequisite(s):** Consent of instructor.  
**Needs Permission to Enroll:** Yes, Instructor Consent  
**Special Fee Applied:** No  
This is a service learning course.

• **KIN 5500 - Introduction to Sports Agency - Becoming a Sports Agent**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Fundamental sports agency concepts and principles, such as industry history and regulations, athlete recruitment, and sports contract negotiation.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** None  
**Needs Permission to Enroll:** No
- KIN 5501 - Sports Agency Practice

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Managing athletes at different career stages, including handling decisions with profound financial, public image, and career implications.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

- KIN 5502 - Analytics and Sports Program Leadership

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Aspects of analytics-based leadership/governance in sport program management such as planning, organizing, and evaluating programs and legal/ethical decision-making.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

- KIN 5503 - Analytics and Sports Program Marketing

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Aspects of analytics-based sports program marketing, such as advertising, promotions, and sponsorship.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
• **KIN 5504 - Analytics and Sports Program Operations**

(2)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 2  
Max times this course can be taken for credit: 1  

**Course Description:** Applying run-of-show principles to analytics-based aspects of event operations and communication, such as ticketing, concessions, crowd management, press releases and media guides.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

• **KIN 5505 - Sport and Athlete Management Internship**

(2)

This course is repeatable: Yes  
Max # of units may be repeated: 4  
Total # of units allowed for credit: 6  
Max times this course can be taken for credit: 2  

**Course Description:** Practicum emphasizing a sector aligned to career aspirations, eg, college sports, sports marketing, sports project management, sports finance, athlete services, sports data management. May be repeated to a maximum of 6 units.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

• **KIN 5550 - Community Development and Physical Activity Programming**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

**Course Description:** Examination and analysis of research on community development utilizing an asset-based model; application of knowledge to promote physical activity programs that support building and strengthening communities.

**Hours per Week:** 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Consent of instructor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

KIN 5600 - Cardiorespiratory Aspects of Human Performance

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: In-depth analysis of research concerning the functions cardiovascular and pulmonary systems during rest, physical performance and recovery and their adaptation to exercise training. (Seminar 2 hours; lab 3 hours)

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Consent of instructor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

KIN 5610 - Neuromuscular Aspects of Human Performance

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis of research concerning neuromuscular factors involved in human movement. Special emphasis upon the nervous and muscular systems related to the expression and enhancement of muscular strength, endurance and power. Lecture 3 hours, laboratory 3 hours.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Consent of instructor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No
Notes:

- All 4000-level courses may be applied toward master's degree requirements, subject to limits established by the department and approval of the graduate adviser.
- Classified graduate standing is required for enrollment in 5000-level courses; exception applies to students who are enrolled in a postbaccalaureate certificate or credential program.

Kinesiology (Graduate)

- KIN 5615 - Pulmonary Aspects of Human Performance

  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Functional responses and adaptations of pulmonary system to exercise and their interaction with various environmental conditions. (Seminar 2 hours; lab 3 hours)
  Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): Consent of Instructor.
  Needs Permission to Enroll: Yes, Instructor Consent
  Special Fee Applied: No
• KIN 5620 - Exercise Interventions in Cardiac Rehabilitation

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis of research concerning development and administration of cardiac rehabilitation programs with a special emphasis on exercise testing, prescription, and training of cardiac patients in outpatient phases.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Consent of instructor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

• KIN 5630 - Exercise Interventions in Neuromuscular Rehabilitation

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examination and analysis of state-of-the-art rehabilitation practices, research knowledge, and theories for regaining movement after neuromuscular injuries.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Consent of instructor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

• KIN 5640 - Exercise Interventions for Special Populations

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examination of research concerning physiological responses and adaptations to exercise of special populations. Includes exercise testing and prescription. Emphasis on exercise limitations and responses which differ from normal populations.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Consent of instructor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No
• KIN 5650 - Endocrine Aspects of Human Performance

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: In-depth analysis of the normal and abnormal functions of the endocrine system during rest, physical performance, and recovery, and the system's adaptation to exercise training.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): BIOL 2010, BIOL 2020 and consent of instructor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

• KIN 5800 - Exercise Psychology

(4)
This course is repeatable: No
Max # of units may be repeated: 4
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Psychological issues associated with exercise and physical activity. Analysis and critique of research and theory relevant to exercise adherence, motivation, self-efficacy, and attributional style. Practical applications of theoretical concepts.
Hours per Week: 4 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus, DTLA Campus

Prerequisite(s): Consent of instructor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

• KIN 5960 - Comprehensive Exam

(0)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 0
Max times this course can be taken for credit: 1

Course Description: See the Comprehensive Examination under the University Requirements for Master's Degree in this eCatalog.
Hours per Week: 0 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face

Special Fee Applied: No

LBS 4610 - Public Humanities and Community Learning

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Engaged arts/humanities: civic and/or service learning projects. Models for, and practical application of, cultural and social theory in collaboration with community-based arts/humanities artists and organizations.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus, DTLA Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

LBS 4665 - Science Fiction Across Media (also listed as TVF 4665)

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examination of the origins and development of the science fiction genre across media such as print, film, radio, comics, television, and video games.

Hours per Week: 3 lecture hour(s).
LBS 4890 - Senior Project

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Advanced principles and techniques of interdisciplinary research, including research design and methodology; supervised senior project.

Hours per Week: 3 lecture hour(s).

LBS 4900 - Proseminar in Liberal Studies

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Advanced interdisciplinary study of structure and practice of knowledge at key institutional sites such as the family, school, media, and arts; and government. Requires concurrent enrollment in LBS 4890

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus, DTLA Campus

Prerequisite(s): LBS 3010, LBS 3020, LBS 3600, LBS 4900
Corequisite(s): LBS 4900
Needs Permission to Enroll: No
Special Fee Applied: No
All 4000-level courses may be applied toward master's degree requirements, subject to limits established by the department and approval of the graduate adviser.

Classified graduate standing is required for enrollment in 5000-level courses; exception applies to students who are enrolled in a postbaccalaureate certificate or credential program.

LBS 4990 - Undergraduate Directed Study

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Projects must be approved before registration, progress meetings held regularly, and final report submitted. May be repeated for credit.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent to act as sponsor, approval of coordinator, 2.50 GPA or better.

Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No
• LIBR 1010 - Introduction to Higher Education

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examines thinking strategies and information based problem solving in academic and professional settings. Introduces critical thinking, civic learning, information literacy, university resources, and academic planning for student success.

Hours per Week: 3 lecture hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE E (cl) (IHE)

• LIBR 1500 - Introduction to Information Literacy and Research Skills

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Develops effective and efficient skills for identifying, retrieving, and critically evaluating electronic, print, and Internet sources. Assists students in preparing information literate papers and presentations.

Hours per Week: 1 lecture hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• LIBR 2300 - Intermediate Information Literacy and Research Skills for Lifelong Professional Success

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Explores how information is produced and used in professional settings. Designed to teach students research and critical thinking skills required to access, evaluate, synthesize and understand information for professional success and development.

Hours per Week: 3 lecture hour(s).

Grading: ABC-/NC (Undergraduate Only)

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examines how information and knowledge are produced and organized. Designed to give students the technological and critical thinking skills needed to find, evaluate, synthesize and manage information.

Hours per Week: 3 lecture hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

LIBR 2600 - Geographic Information Literacy (also listed as GEOG 2600)

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Intermediate information literacy class that examines sources and types of information related to climate, geography, oceans and the environment. Primary emphasis placed upon reading, interpreting and analyzing maps and environmental data.

Hours per Week: 3 lecture hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

LIBR 3075 - Introduction to Archives Principles and Practice

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: A course in which students learn about and engage in the fundamental principles and practice of archives and special collections.

Hours per Week: 0 lecture hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

LIBR 3300 - Advanced Information Literacy for Decision Making in the Professional World

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Advanced information literacy course that considers the role of information in a professional context. Using company, industry, legal and demographic information, research, analysis and decision-making in professional environments will be simulated and explored.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Examination of human resource management activities in an international environment Emphasis on challenges and issues related to managing human resource activities in global businesses, and adapting to local cultures.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): MGMT 4400
Needs Permission to Enroll: No
Special Fee Applied: No

MGMT 4408 - Managing Human Resource Information Systems
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Management principles related to understanding the human resource manager’s role in planning, designing, and implementing human resource information systems to enhance human resource activities including staffing, selection, and training.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): MGMT 4400
Needs Permission to Enroll: No
Special Fee Applied: No

MGMT 4409 - Career Development
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Career management theories, strategies and skills including career exploration, appraisal, self-assessment, professional development, and skill building essentials in interviewing, networking, socialization, and mentoring for self and others.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

MGMT 4500 - Case Studies in Operations Management
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Case studies are used to illustrate product and process design, technology management, facilities design, location and layout, capacity and inventory management, and quality improvement in manufacturing and service firms.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus, DTLA Campus

Prerequisite(s): MGMT 3060
Needs Permission to Enroll: No
Special Fee Applied: No

MGMT 4501 - Process Design and Improvement
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Design, analysis, and improvement of manufacturing and service processes using such tools as computer simulation, waiting-line theory, statistical process control, and value-stream mapping.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MGMT 3060 or equivalent.
Needs Permission to Enroll: No
Special Fee Applied: No
• MGMT 4502 - Production and Inventory Management

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Design of information and decision systems for allocating resources and scheduling activities; development of conceptual structures guiding integrated production and inventory systems in manufacturing environments; introduction of computerized MRP systems.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MGMT 3060
Needs Permission to Enroll: No
Special Fee Applied: No

• MGMT 4503 - Total Quality Management

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Control of quality of products and services by statistical methods; control charts for variables, fraction defective, defects per unit; Acceptance sampling; internationalization of quality and management strategies for quality.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MGMT 3060
Needs Permission to Enroll: No
Special Fee Applied: No

• MGMT 4504 - Supply Chain Management

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Principles, methods, and practices for managing effective supply chain in global business, including strategies for customer service, quality, logistics, inventory management, and integrated supply chain management.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): MGMT 3060
• MGMT 4505 - Project Management  
(3)  
This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Project management theories for planning and controlling resources to accomplish complex projects; case analyses from business and nonprofit organizations; exercises with selected project management software.  
Hours per Week: 3 lecture hour(s).  

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): None  
Needs Permission to Enroll: No  
Special Fee Applied: No

• MGMT 4506 - Service Management  
(3)  
This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Design and management issues in high-contact services: process design, capacity and quality management, and human relations; lectures and readings cover theoretical material, and case studies provide applications.  
Hours per Week: 3 lecture hour(s).  

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): MGMT 3060, MGMT 3070  
Needs Permission to Enroll: No  
Special Fee Applied: No

• MGMT 4507 - Operations Research  
(3)  
This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Describe, analyze, and solve large-scale decision problems, such as resources allocation, transportation network, design, and supply chain optimization, by using linear and non-linear programming methods.  
Hours per Week: 3 lecture hour(s).  

Grading: ABCDF
MGMT 4980 - Cooperative Education

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Participation in work experience integrated with academic program experience integrated with academic program; assignments arranged individually in advanced through coordinator.
Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of senior level courses appropriate to experience; Cooperative Education coordinator.
Needs Permission to Enroll: No
Special Fee Applied: No

Management (Graduate)

Classified graduate standing and approval by the College of Business and Economics Graduate Programs Office are required for enrollment in 5000-level courses.

MGMT 5100 - Management

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Planning, organizing, leading and coordinating for achieving organizational goals.; managing operations and organizational behavior; techniques for improving decisions, communications and quality; business responsibilities; ethics. Some sections may be technologically mediated.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

MGMT 5101 - Management and Organizational Behavior
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Functions of managers and theories of management and organizational behavior, including principles of business strategy; organization design; change; motivation; interpersonal skills; and ethical and international perspectives.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus, DTLA Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

- MGMT 5102 - Sustainability, CSR, and Business Ethics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis of organizations’ policies and practices using frameworks of sustainability and corporate social responsibility. Analysis of dilemmas presented to business executives and professionals using theories of ethics / business ethics.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus, DTLA Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

- MGMT 5103 - Seminar: Strategic Planning

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Development of comprehensive business strategy and long-range plans with consideration for the social, economic, political, and technological environments; current strategic principles and practices; analysis of planning processes and systems.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No
MGMT 5105 - Seminar: Leadership

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Seminar and workshop covering theories of leadership and hands-on practice of leadership skills. Topics include leading high performance work teams, influencing and persuading others, motivating oneself and others, and delegating.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus, DTLA Campus
Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

MGMT 5106 - Employee Motivation and Work Behavior

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: The process of managing employee motivation in work organizations. Participants will analyze and apply classic and modern motivational theories and tools from Management and related disciplines.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

MGMT 5107 - Power and Politics in Organizations

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis of power and politics in organizations, its sources, determinants, and strategies. Discussion of the impact of power and politics on organizational decisions and their implementation. Cases and readings.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus, DTLA Campus
• MGMT 5108 - Seminar: International Management

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Explores the stage on which international management is conducted, including political, economic, legal and socio-cultural systems as a backdrop. Examines how firms develop and execute their international strategies, how they interact effectively, and how they build an outstanding international workforce.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): BUS 5000 or MGMT 5101
Needs Permission to Enroll: No
Special Fee Applied: No

• MGMT 5110 - Applied Research Methods in Management

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Overview of research methods applicable to management and health care management; research designs for qualitative and quantitative studies; reporting applied research to help managers make decisions. Some sections of the course may be technologically mediated.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• MGMT 5111 - Managerial Skills

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Development of managerial skills in negotiation, persuasion, conflict resolution, performance feedback, public speaking / presentation, time and procrastination management, and team creativity and effectiveness through practical experiences as well as
understanding of applicable management theory.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

- MGMT 5154 - Special Topics in Management
  (1-3)
  This course is repeatable: Yes
  Max # of units may be repeated: 2
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 3

  Course Description: Current topics of special interest in management, as announced in Schedule of Classes.
  Hours per Week: 0 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus, DTLA Campus

  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: No

- MGMT 5200 - Entrepreneurship
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Assessment of business opportunities and competitive environments. Issues in designing a new business venture, writing a business plan, and launching the business.
  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus, DTLA Campus

  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: No

- MGMT 5201 - Cases in Entrepreneurship
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis and discussion of successful and failed attempts to launch new ventures; application of theories and principles of business management to new ventures.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

MGMT 5202 - New Venture Strategy and Competitive Dynamics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course focuses on strategic challenges confronting new ventures. The course provides students with concepts, theories and methods to identify, analyze and define critical issues facing new ventures and to develop solutions.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): BUS 5000, Foundations in Business Administration or MGMT 5101, Management and Organizational Behavior.
Needs Permission to Enroll: No
Special Fee Applied: No

MGMT 5203 - Social Entrepreneurship

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Creating, designing and planning sustainable new ventures that address social and environmental problems and create value.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

MGMT 5204 - New Venture Consulting
MGMT 5300 - Managing Healthcare Organizations

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Overview of management consulting methods for new ventures, including applied projects in which students analyze new ventures and entrepreneurial opportunities, and present recommendations to founders / managers of entrepreneurial organizations.  
Hours per Week: 0 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): None  
Needs Permission to Enroll: No  
Special Fee Applied: No

MGMT 5305 - Managing the Managed Health Care Organization

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Concepts and management challenges of managed health care organizations such as health maintenance organizations (HMOs), preferred provider organizations (PPOs), commercial health insurance companies; provider organizations; integrated delivery systems (IDSs). Some sections of the course may be technologically mediated.  
Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): None  
Needs Permission to Enroll: No  
Special Fee Applied: No
- **MGMT 5310 - Decision Making in Healthcare Management**
  
  (3)  
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  
  
  **Course Description:** Concepts, methods, tools, and advanced reasoning techniques for using the best available information to make decisions across the functions of healthcare management.  
  
  **Hours per Week:** 0 lecture hour(s).  
  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus  
  
  **Prerequisite(s):** None  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No  
  
- **MGMT 5315 - Comparative Healthcare Systems**
  
  (3)  
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  
  
  **Course Description:** A critical examination of history and current trends in organizing healthcare systems across differences (e.g., time, culture, income, geography, governmental support, organization design). Managerial implications are drawn from the in-depth comparative analysis of the U.S. healthcare system.  
  
  **Hours per Week:** 0 lecture hour(s).  
  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus  
  
  **Prerequisite(s):** None  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No  
  
- **MGMT 5320 - Healthcare Leadership and Talent Management**
  
  (3)  
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  
  
  **Course Description:** Leadership concepts and skills for managing people and change in healthcare. Strategic human resource planning, staffing, training and development, compensation, labor relations, and other aspects of healthcare talent management.  
  
  **Hours per Week:** 0 lecture hour(s).  
  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face
• MGMT 5330 - Healthcare Law, Compliance, and Ethics  
  
(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Regulation of healthcare facilities, professionals, consumers, and systems; ethical and socially responsible behavior
and corporate compliance programs in healthcare organizations; management competencies required to meet the demands of healthcare
reform.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face  
Campus: Main Campus

• MGMT 5335 - Financial Management of Healthcare Organizations

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Financial management in healthcare, with emphasis on operational performance, current issues, and tools needed to
manage a healthcare organization (e.g., budgeting; financial statement analysis; managerial decision-making).

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face  
Campus: Main Campus

• MGMT 5340 - Management and Governance of Healthcare Information

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Methods and policies in organizational management and corporate governance of healthcare information, including
collaboration on business requirements, project management, privacy culture, and managerial accountabilities for healthcare records and decisions.

**Hours per Week:** 0 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** None

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

- **MGMT 5345 - Cases in Healthcare Management**

  (3)

  **This course is repeatable:** No
  **Max # of units may be repeated:** 0
  **Total # of units allowed for credit:** 3
  **Max times this course can be taken for credit:** 1

  **Course Description:** Healthcare cases in strategic operational improvements involving regulation, competition, organizational integration, and management of costs, quality, projects, change, and ethical dilemmas.
  **Hours per Week:** 0 lecture hour(s).

  **Grading:** ABCDF

  **Mode of Delivery:** Face to Face

  **Campus:** Main Campus

  **Prerequisite(s):** MGMT 5330, MGMT 5335

  **Needs Permission to Enroll:** No

  **Special Fee Applied:** No

---

- **MGMT 5400 - Seminar Human Resource Management**

  (3)

  **This course is repeatable:** No
  **Max # of units may be repeated:** 0
  **Total # of units allowed for credit:** 3
  **Max times this course can be taken for credit:** 1

  **Course Description:** Selected problem areas focusing on policies, techniques, and legal and social restrictions in areas of recruitment, selection, training, compensation, and occupational health and safety.
  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF

  **Mode of Delivery:** Face to Face

  **Campus:** Main Campus, DTLA Campus

  **Prerequisite(s):** None

  **Needs Permission to Enroll:** No

  **Special Fee Applied:** No

---

- **MGMT 5401 - Human Resource Analytics**

  (3)

  **This course is repeatable:** No
Course Description: Application of data analytic processes to the human resource practices to assess, plan and to ensure compliance.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face, Hybrid, Online

Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

MGMT 5501 - Project Management

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Discusses concepts and processes that supports the planning, scheduling, organizing and controlling, activities required for completion of a project/program. Emphasis is placed on the development of project management skills.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

MGMT 5502 - Project Management for Biotechnology Professionals

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course focuses on the project management issues in the biotechnology and pharmaceutical industries, and uses project management cases and teaching materials from these industries.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

MGMT 5503 - Optimization and Simulation Models
MGMT 5504 - Procurement and Sourcing Management

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Understand the impact of sourcing and supply management on the success and profitability of firms in today's business environment by using both qualitative and quantitative models and methods.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

MGMT 5505 - Supply Chain Network Design

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Understand fundamentals of supply chain network design and solve large-scale supply chain network problems by using optimization methods and predictive analytics.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No
• MGMT 5506 - Case Studies in Operations and Supply Chain Management

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This is a case-study course focusing on the design, optimization, and improvement of global supply chains. Specific topics covered in the cases include procurement strategies, vendor management, purchasing, logistics, production planning and control, lean manufacturing, and distribution.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• MGMT 5600 - Seminar in Sports Management

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Foundational concepts and theories of sports management, including organizational strategy, resource organization, leadership and organizational culture, and performance management applied through case analyses and current readings.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• MGMT 5940 - Advanced Field Study

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Applied research to address a problem or issue in an organization, culminating in a research report and formal presentation of results.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
- **MGMT 5970 - Management Case Research**
  
  (3)
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1
  
  **Course Description:** Applied primary and secondary research on organizations presented with the managerial challenges, resulting in a publishable quality case study.  
  Hours per Week: 0 lecture hour(s).  
  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus, DTLA Campus

- **MGMT 5970A - Entrepreneurship Applied Research**
  
  (3)
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1
  
  **Course Description:** Primary and secondary research on new ventures and their founding entrepreneurs; analysis of the entrepreneurial process and issues with start-up and managing growth.  
  Hours per Week: 0 lecture hour(s).  
  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face

  (1-3)
  
  This course is repeatable: Yes  
  Max # of units may be repeated: 5  
  Total # of units allowed for credit: 6
  
  Max times this course can be taken for credit: 6
  
  **Course Description:** Investigation of an approved project leading to a written report; arrangements made for regular meetings during semester.  
  Hours per Week: N/A lecture hour(s).
MGMT 5995 - Healthcare Strategy, Innovation, and Change Projects

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 1

Course Description: Culminating project and cases in strategic approaches for healthcare management, change, and innovation. Internal and external strategies and application of skills for improvement in healthcare organizations and surrounding communities. Writing, presentation, and submission of a final project report.

Hours per Week: 0 lecture hour(s).

TECH 1600 - Introduction to Metalworking

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Basic metal properties, metalworking processes, casting, welding, and hand and machine tool applications.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

TECH 3600 - Lean Manufacturing

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: History of manufacturing. Principles, design, and analysis of lean manufacturing systems. Small lot production, setup-time reduction, continuous improvement. Principles and control of push and pull manufacturing systems. Lecture 2 hour, laboratory 3 hours.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

TECH 4160 - ISO 9000 and the Auditing

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: A study of ISO 9000 series of quality system standards with emphasis on manufacturing and service industry. It addresses the standards interpretation, documentation, and creation of internal and external audits. Lecture 2 hours, laboratory 3 hours.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Senior Standing or Permission of the Instructor.
Needs Permission to Enroll: No
Special Fee Applied: No

TECH 4600 - Advanced Manufacturing Processes

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Materials and processes used in manufacturing. Processes to organize industrial activity as well as the hard processes used to shape and form materials.

Hours per Week: 1 lecture hour(s). 6 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No
• TECH 4620 - Digital Manufacturing

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Development of basic skills needed to perform simulation construction in the virtual manufacturing environment with CNC, CAM, machining and robotics simulation.
Hours per Week: 1 lecture hour(s). 6 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• TECH 4660 - Additive Manufacturing

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: An overview of commercially available Additive Manufacturing technologies, also known as Rapid Prototyping or 3D Printing. Emphasis will be on operational procedure, post-processes, and applications. Lecture 2 hours, laboratory 3 hours.
Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): TECH 1100 or Equivalent.
Needs Permission to Enroll: No
Special Fee Applied: No
Manufacturing Process and Automation (Undergraduate)

- **TECH 4670 - Emerging Manufacturing Technologies**

  (3)

  **This course is repeatable**: No

  **Max # of units may be repeated**: 0

  **Total # of units allowed for credit**: 3

  **Max times this course can be taken for credit**: 1

  **Course Description**: Variable content of manufacturing topics and processes, such as Additive Manufacturing, Electrical Discharge Machining, Computer-Aided Manufacturing, Automatic Data Collection and Identification, 3D Scanning, Waterjet Cutting, and other related technologies. Lecture 2 hours, laboratory 3 hours.

  **Hours per Week**: 2 lecture hour(s). 3 laboratory hour(s).

  **Grading**: ABCDF

  **Mode of Delivery**: Face to Face

  **Campus**: Main Campus

  **Prerequisite(s)**: TECH 3600

  **Needs Permission to Enroll**: No

  **Special Fee Applied**: No
- **TECH 4951 - Industrial Technology Senior Project II**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** Study of Industrial Technology design processes. It includes selection and completion of a faculty-supervised project focusing on typical problems encountered in Industrial Technology practice, and resulting in a formal report and oral presentation. Lecture 1 \( \frac{1}{2} \) hours, laboratory 4 \( \frac{1}{2} \) hours.

  **Hours per Week:** 1.5 lecture hour(s), 4.5 laboratory hour(s).

  **Grading:** ABCDF

  **Mode of Delivery:** Face to Face

  **Campus:** Main Campus

  **Prerequisite(s):** TECH 4950

  **Needs Permission to Enroll:** No

  **Special Fee Applied:** No

---

**Marketing (Undergraduate)**

- **MKT 3100 - Principles of Marketing**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** Introduction to an organization's marketing environment, consumer behavior, market research and strategies for product planning, pricing, distribution, and promotion of goods and services. Some sections may be technologically mediated.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF

  **Mode of Delivery:** Face to Face, Hybrid, Online

  **Campus:** Main Campus, DTLA Campus

  **Prerequisite(s):** None

  **Needs Permission to Enroll:** No

  **Special Fee Applied:** No

---

- **MKT 3200 - High Performance Professional Skills**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** Build professional skills through performance context, conceptual understanding, self assessment, analysis, application negotiation, public speaking, creativity, critical thinking, career and team building projects. Some Sections may be Technologically Mediated.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF
MKT 3210 - Personal Selling

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Explores the sales cycle from prospect to close as well as its role in the marketing process overall. Examines the roles of persuasion, consultation, negotiation and trust in selling.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): MKT 3100
Needs Permission to Enroll: No
Special Fee Applied: No

MKT 3300 - Services Marketing

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to the marketing of services locally and globally; unique challenges of designing, delivering, promoting, and pricing intangible processes; service environment design; service customer relationships; service quality and recovery. Some sections may be technologically mediated.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Needs Permission to Enroll: No
Special Fee Applied: No

MKT 3400 - Consumer Behavior

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to the acquisition, consumption, and disposal of products and services; individual, household, and organization consumer decision-making processes; influence of groups, subcultures, culture, and global consumer culture. Some sections may be technologically mediated.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): MKT 3100 or consent of instructor.
Needs Permission to Enroll: No
Special Fee Applied: No

MKT 3500 - Global Business

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to globalization theories; globalization and its impact upon business practices; country and cultural diversity in business practices; scope of global business strategies, decision-making, and practices. Some sections may be technologically mediated.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): MKT 3100
Needs Permission to Enroll: No
Special Fee Applied: No
• MKT 3600 - Principles of Retailing

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Overview of retail principles and concepts related to planning and developing retail formats that highlight the evolving dynamic, global retail environment where consumer behavior, demands, and value drive retail strategy. Some sections may be technologically mediated.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No

- **MKT 4980 - Cooperative Education**
  
  (1-3)

  This course is repeatable: Yes
  Max # of units may be repeated: 2
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 3

  Course Description: Participation in work experience integrated with academic program experience integrated with academic program; assignments arranged individually in advanced through coordinator.
  Hours per Week: N/A lecture hour(s).

  Grading: CR/NC
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): Completion of senior level courses appropriate to experience
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **Marketing (Graduate)**

  Classified graduate standing and approval by the College of Business and Economics Advisement Center are required for enrollment in 5000-level courses.

  - **MKT 5000 - Marketing Principles and Concepts**
    
    (3)

    This course is repeatable: No
    Max # of units may be repeated: 0
    Total # of units allowed for credit: 3
    Max times this course can be taken for credit: 1

    Course Description: Covers researching, planning, developing, and controlling marketing principles and concepts to formulate marketing plans/strategies relative to environmental factors, consumer behavior and organizational behavior in a dynamic global environment. Some sections may be technologically mediated.
    Hours per Week: 3 lecture hour(s).

    Grading: ABCDF
    Mode of Delivery: Face to Face
    Campus: Main Campus

    Prerequisite(s): None
    Needs Permission to Enroll: No
    Special Fee Applied: No

**MKT 5320 - Seminar: Sustainability Marketing**

(3)

- This course is repeatable: No
- Max # of units may be repeated: 0
- Total # of units allowed for credit: 3
- Max times this course can be taken for credit: 1

**Course Description:** Critical analysis of sustainability in a marketing context; local and global impact of current marketing practices upon the environment; re-framing of marketing strategies and practices for environmental and social sustainability. Some sections may be technologically mediated.

- Hours per Week: 0 lecture hour(s).

**Grading:** ABCDF

- Mode of Delivery: Face to Face
- Campus: Main Campus

**Prerequisite(s):** BUS 5023 or consent of instructor.

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**MKT 5330 - Global Entertainment Marketing**

(3)

- This course is repeatable: No
- Max # of units may be repeated: 0
- Total # of units allowed for credit: 3
- Max times this course can be taken for credit: 1

**Course Description:** Examination of marketing concepts and trends into the entertainment environment to understand how U.S. entertainment businesses are operated. Emphasis on challenges and issues related to entertainment marketing. Provides understanding of entertainment industry along with excellent grounding for entertainment industry careers. Topics include history, economics of entertainment industry and core marketing strategy utilized in entertainment business.

- Hours per Week: 3 lecture hour(s).

**Grading:** ABCDF

- Mode of Delivery: Face to Face, Hybrid
- Campus: Main Campus, DTLA Campus

**Prerequisite(s):** BUS 5023 or consent of instructor.

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**MKT 5400 - Seminar: Consumer Behavior**

(3)

- This course is repeatable: No
- Max # of units may be repeated: 0
- Total # of units allowed for credit: 3
- Max times this course can be taken for credit: 1

**Course Description:** Critical analysis of local and global consumption processes including the acquisition, consumption, and disposal of products and services; consumer decision-making processes; influence of groups, subcultures, culture, and global consumer culture. Some
sections may be technologically mediated.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): BUS 5023 or consent of instructor.
Needs Permission to Enroll: No
Special Fee Applied: No

MKT 5410 - Seminar: Integrated Marketing Communications

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examines the development of integrated marketing communications to ensure consistency of messages and media usage to maximize the impact on consumers and other targeted audiences. Some Sections may be Technologically Mediated.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

MKT 5420 - Brand Strategy Seminar

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Develop conceptual, analytical, and decision-making skills related to national and global brand tactical and strategic planning; solving marketing branding problems and cases. Some Sections may be Technologically Mediated.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): BUS 5023
Needs Permission to Enroll: No
Special Fee Applied: No

MKT 5454 - Special Topics in Marketing

(3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

**Course Description**: Current marketing topics of special interest enabling in-depth presentations and analysis of significant contemporary national and global marketing trends. May be repeated once as subject matter changes.
**Hours per Week**: 0 lecture hour(s).

**Grading**: ABCDF
**Mode of Delivery**: Face to Face
**Campus**: Main Campus

**Prerequisite(s)**: BUS 5023
**Needs Permission to Enroll**: No
**Special Fee Applied**: No

---

**MKT 5460 - Seminar: Quantitative Marketing Research**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

**Course Description**: Critical investigation of quantitative marketing research methodology focusing on developing, collecting, analyzing, and reporting marketing decision based data derived from survey data analyzed with electronic research software such as SPSS. Some sections may be technologically mediated.
**Hours per Week**: 0 lecture hour(s).

**Grading**: ABCDF
**Mode of Delivery**: Face to Face
**Campus**: Main Campus

**Prerequisite(s)**: BUS 5023 or consent of instructor.
**Needs Permission to Enroll**: No
**Special Fee Applied**: No

---

**MKT 5461 - Seminar: Qualitative Marketing Research**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

**Course Description**: Critical analysis of qualitative marketing research in a local and global context; in-depth application of qualitative research approaches including observational methods used in ethnography and netnography. Some sections may be technologically mediated.
**Hours per Week**: 0 lecture hour(s).

**Grading**: ABCDF
**Mode of Delivery**: Face to Face
**Campus**: Main Campus

**Prerequisite(s)**: BUS 5023 or consent of instructor.
**Needs Permission to Enroll**: No
**Special Fee Applied**: No
MKT 5500 - Seminar: International Marketing

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Critical evaluation and analysis of the culture and economy of global markets; in-depth analysis and critique of marketing research, decision-making, and strategy in a global context. Some sections may be technologically mediated.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus, DTLA Campus

Prerequisite(s): BUS 5023
Needs Permission to Enroll: No
Special Fee Applied: No

MKT 5600 - Seminar: Retailing and Merchandising Strategy

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examines the dynamic evolution and growth of the retail industry via retail merchandising and strategy principles and philosophy embracing multi-channel, differential formation, and customer value creation via various retail formats.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

MKT 5610 - Seminar: Digital Marketing Strategy

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Investigates digital marketing role in marketing strategy to insure marketing philosophy, principles and imperatives are present across dynamic, multi-channels to address customer value and a digital differential advantage.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): BUS 5023 or consent of instructor.
Needs Permission to Enroll: No
MKT 5700 - Seminar: Marketing Analytics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Investigates and analyzes Big Data electronic databases via electronic software to create marketing information to enable informed marketing tactical and strategic plans.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): BUS 5023
Needs Permission to Enroll: No
Special Fee Applied: No

MKT 5800 - Seminar: Social Media & Marketing Integration

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Considers the role of social media in developing market planning and strategy. Examines managerial level issues and decisions related to effective tactical and strategic uses of social media for marketing.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

MKT 5810 - Seminar: Social Media & Web Analytics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course covers basic and advanced analytical tools, concepts, and techniques for understanding, visualizing, analyzing, and reporting social media and web data. This course develops necessary quantitative skills to help students solve complex problems in social media and web domain.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
• **MKT 5940 - Community Based Social Marketing Management**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Explores building, developing, and managing community based social marketing tactical / strategic programs. Explores business, non-profit and government utilizing marketing management processes to engage and shape community behaviors for collective good.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face, Hybrid, Online  
**Campus:** Main Campus

**Prerequisite(s):** None  
Needs Permission to Enroll: No  
Special Fee Applied: No

• **MKT 5980 - Graduate Directed Study**

(3)

This course is repeatable: Yes  
Max # of units may be repeated: 27  
Total # of units allowed for credit: 30  
Max times this course can be taken for credit: 10

**Course Description:** Investigation of an approved project leading to a written report; project selected in conference with supervising professor, and arrangements made for regular meetings during semester. May be repeated for credit.

**Hours per Week:** N/A lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** None  
Needs Permission to Enroll: No  
Special Fee Applied: No

**Materials Science and Engineering (Undergraduate)**

• **MSE 4141 - Engineering of Materials (also listed as ME 4141)**

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Analysis of behavior of materials by emphasizing structure/property/performance interrelationships. This course provides fundamental knowledge about type of materials, their properties and characteristics and presents ways of modify the material microstructure and properties.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2150 or Graduate Standing
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

MSE 4142 - Chemistry and Physics of Materials (also listed as CHEM 4142, PHYS 4142)

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to the chemistry and physics underlying bulk materials and thin films. Topics include chemical bonding, crystal chemistry, crystal structure, electronic band structure, and magnetism with applications to semiconductors and metals.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2150 or Graduate Standing
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

Materials Science and Engineering (Graduate)

MSE 5140 - Mechanical Behavior of Materials

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Mechanical behavior of materials, from the atomistic and molecular mechanisms to the continuum description of properties. This course covers elastic and plastic deformation, mechanical testing, failure analysis, fracture, fatigue and creep.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MSE 4141 or Admission to the Mechanical Engineering MS Program
- **MSE 5330 - Electronic and Magnetic Properties of Materials (also listed as PHYS 5330)**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** Study of electronic, optical and magnetic properties of materials and their applications. Topics in solid-state physics such as electronic band theory, phonons, transport processes, and collective particle phenomena.  
  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** MSE 4142 or PHYS 5101

- **MSE 5350 - Materials Characterization**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** Principals of materials characterization including the theory and operating principals of x-ray diffraction and scattering, optical microscopy, scanning and transmission electron microscopy, atomic force microscopy, and spectroscopic methods.  
  **Hours per Week:** 0 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** None

- **MSE 5510 - Thermodynamics and Kinetics of Materials**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** The first component, thermodynamics, includes laws of thermodynamics, solution theory and equilibrium diagrams. The second component, kinetics, includes diffusion, phase transformations, and the development of microstructure.  
  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF
MSE 5540 - Special Topics in Materials Science and Engineering

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 11
Total # of units allowed for credit: 12
Max times this course can be taken for credit: 4

Course Description: Current topics of interest to graduate students in Materials Science and Engineering, as announced in the Schedule of Classes.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face
Campus: Main Campus

MSE 5960 - Comprehensive Examination

(0)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 0
Max times this course can be taken for credit: 1

Course Description: Students who select the comprehensive examination should expect to take it the semester they complete all course work on their MSE program and must comply with college and department requirements. See the Comprehensive Examination under the University Requirements for Master's Degree in this eCatalog.

Hours per Week: 0 lecture hour(s).

Grading: CR/NC

Mode of Delivery: Face to Face
Campus: Main Campus

MSE 5970 - Graduate Research

(1-3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Independent research under guidance of the faculty. Students who choose to do a thesis should take this course prior to registering for thesis.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): Instructor consent to act as sponsor, and program approval prior to registration.

Needs Permission to Enroll: Yes, Department Consent

Special Fee Applied: No

• MSE 5980 - Graduate Directed Study

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Directed study of advanced topics in Materials Science and Engineering.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): Instructor consent to act as a sponsor, program approval of the topic prior to registration.

Needs Permission to Enroll: Yes, Department Consent

Special Fee Applied: No

• MSE 5990 - Thesis

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Independent research resulting in a thesis.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): Advancement to Candidacy. Instructor consent to act as a sponsor, program approval of the topic prior to registration.

Needs Permission to Enroll: Yes, Department Consent

Special Fee Applied: No

Mathematics (Undergraduate)

• MATH 1000 - Quantitative Reasoning In Today's World, with Lab (also listed as MATH 1002)
**MATH 1001 - Quantitative Reasoning in Today's World Workshop**

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 1  
Max times this course can be taken for credit: 1

**Course Description:** Mathematics skills development needed for success in MATH 1000 course content. Mathematics background, examination of learning principles, and effective mathematics study skills for becoming independent and self-motivated learners. Recommended for all students but mandatory if supported instruction is required and for those repeating MATH 1000.

**Hours per Week:** 2 activity hour(s).

**Grading:** CR/NC  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus  

**Prerequisite(s):** None  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

**GE B4**

---

**MATH 1002 - Quantitative Reasoning in Today's World (also listed as MATH 1000)**

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Units and unit conversion, proportional reasoning, descriptive statistics, basic probability and financial mathematics.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABC-/NC (Undergraduate Only)  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus  

**Prerequisite(s):** Math Placement Category I or II (math supported instruction is not required).  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No
MATH 1040 - Precalculus: Functions and Trigonometry
(6)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 1
Course Description: Functions, exponential and logarithmic functions; polynomials and rational functions; systems of linear equations and matrices; sequences and series; trigonometric functions, identities, and equations; solution of triangles; inverse trigonometric functions; complex numbers, DeMoivre’s Theorem; parametric equations; polar coordinates; conic sections.
Hours per Week: 5 lecture hour(s). 2 activity hour(s).
Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): Math Placement Category I or II (supported instruction is not required).
Needs Permission to Enroll: No
Special Fee Applied: No
GE B4

Articulation C-ID: MATH 155
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

MATH 1081 - PreCalculus: Functions
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Functions, exponential and logarithmic functions; polynomials and rational functions; systems of linear equations and matrices; sequences and series including arithmetic and geometric series.
Hours per Week: 3 lecture hour(s).
Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): Math Placement Category I or II (Math supported instruction is not required).
Needs Permission to Enroll: No
Special Fee Applied: No
GE B4

Articulation C-ID: MATH 151
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

MATH 1082 - PreCalculus: Functions, with Lab
(4)
MATH 1083 - Precalculus: Trigonometry

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Trigonometric functions, identities, and equations; solution of triangles; inverse trigonometric functions; complex numbers, DeMoivre's Theorem; parametric equations; polar coordinates; conic sections.

Hours per Week: 3 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Grade of C or better in any of ESM 1082, MATH 1081 or MATH 1082
Needs Permission to Enroll: No
Special Fee Applied: No

GE B4

MATH 1085 - Discrete Mathematical Models

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Sinusoidal, exponential and logarithmic functions in a biological context. Formulation and analysis of basic discrete models in biology. Matrix operations, Eigenvalues and Eigenvectors of matrices and their applications in biology.

Intended for life sciences majors. Graded ABCDF.

Hours per Week: 3 lecture hour(s). 3 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graded C or better in any of MATH 1081, MATH 1082, or ESM 1082. Rudimentary knowledge of Microsoft Excel.
• MATH 1090 - Quantitative Reasoning with Statistics, with Lab (also listed as ECON 1090)

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Principles of quantitative reasoning, data presentation, descriptive statistics, correlation, probability, distributions of random variables, sampling distributions, interval estimation, and statistical inference, with multidisciplinary applications. This course includes a supported instruction component as required for Math Placement Category III or IV.

Hours per Week: 3 lecture hour(s). 2 activity hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE B4

This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding "C-ID Course" designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

• MATH 1092 - Quantitative Reasoning with Statistics

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Principles of quantitative reasoning, data presentation, descriptive statistics, correlation, probability, distributions of random variables, sampling distributions, interval estimation, and statistical inference, with multidisciplinary applications.

Hours per Week: 3 lecture hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Math Placement Category I or II (math supported instruction is not required).
Needs Permission to Enroll: No
Special Fee Applied: No

GE B4

This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding "C-ID Course" designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

• MATH 1100 - Foundations of the Real Number System for Elementary and Middle
School Teachers

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Integers and elementary number theory, rational numbers, decimals and percent, ratio and proportion, alternate bases, and word problems. Restricted to students in multiple subjects credential programs.

Hours per Week: 3 lecture hour(s), 2 activity hour(s).

Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Corequisite(s): MATH 1101 if math support instruction is required (i.e. on Math Placement Category III or IV).
Needs Permission to Enroll: No
Special Fee Applied: No

Articulation C-ID: MATH 120
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding "C-ID Course" designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

MATH 1101 - Foundations of the Real Number System Workshop

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Mathematics skills development needed for success in MATH 1000 course content. Mathematics background, examination of learning principles, and effective mathematics study skills for becoming independent and self-motivated learners. Recommended for all students but mandatory if supported instruction is required for those repeating MATH 1000

Hours per Week: 2 activity hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Corequisite(s): MATH 1100
Needs Permission to Enroll: No
Special Fee Applied: No

MATH 1150 - Elements of Algebra and Statistics for Elementary and Middle School Teachers

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Functions, relations, sequences, discrete structures, probability, data analysis, and descriptive statistics. Restricted to students in multiple subjects credential and education specialist credential programs.

Hours per Week: 3 lecture hour(s).
Grading: ABC-/NC (Undergraduate Only)
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 1100
Needs Permission to Enroll: No
Special Fee Applied: No

GE B4* - restricted to specific major

MATH 1540 - Selected Topics in Mathematics
(1-3)
This course is repeatable: Yes
Max # of units may be repeated: 8
Total # of units allowed for credit: 9
Max times this course can be taken for credit: 9

Course Description: Current topics of interest to students in Mathematics as announced in the Schedule of Classes.
Hours per Week: 1 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): As needed for specific topic.
Needs Permission to Enroll: No
Special Fee Applied: No

MATH 2040 - Applied Calculus I
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Limits, continuity, derivatives, extrema, long-term behavior of systems, approximation, L'Hopital's rule, stability of equilibria, with a focus on applications in biology. Intended for life science majors.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 1085 or MATH 1083 or MATH 1040 with a grade of C or better, or satisfactory score on placement examination within the past year. Students with a grade of less than B- in one of ESM 1082, MATH 1040, MATH 1081, MATH 1082, MATH 1083, or MATH 1085 must enroll concurrently in MATH 2041. Basic facility with Excel is expected.
Needs Permission to Enroll: No
Special Fee Applied: No

GE B4* - restricted to specific major

MATH 2041 - Applied Calculus I: Workshop
(1)
This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Activity for MATH 2040 with focus on problem solving and applications. Recommended for all students, but mandatory for those with grade below B- in any prerequisite for MATH 2040 or those repeating MATH 2040. Hours per Week: 2 activity hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None Corequisite(s): MATH 2040
Needs Permission to Enroll: No
Special Fee Applied: No

MATH 2045 - Calculus for the Life Sciences

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 5
Max times this course can be taken for credit: 1

Course Description: Limits, techniques for finding derivatives, extrema, integration methods, definite and indefinite integrals, numerical, graphical and exact methods for solving basic differential equations, with a focus on applications in biology.

Hours per Week: 4 lecture hour(s). 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 1085 or MATH 1083 or MATH 1040 with a minimum grade of C or better, or satisfactory score on placement examination. Basic facility with Excel is expected. Intended for life science majors.
Needs Permission to Enroll: No
Special Fee Applied: No
GE B4* - restricted to specific major

MATH 2050 - Applied Calculus II

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Integration methods, definite and indefinite integrals, numerical, graphical and exact methods for solving basic differential equations, analysis of stability of equilibria of systems, with a focus on applications in biology. Intended for life science majors.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2040 with a grade of C or better. Corequisite(s): MATH 2051 if MATH 2040 is graded below B-.
Needs Permission to Enroll: No
Special Fee Applied: No
MATH 2051 - Applied Calculus II: Workshop

(1)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Activity for MATH 2050 with focus on problem solving and applications. Recommended for all students enrolled in MATH 2050, but mandatory for those with grade below B- in MATH 2040 or those repeating MATH 2050.

Hours per Week: 2 activity hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Corequisite(s): MATH 2050
Needs Permission to Enroll: No
Special Fee Applied: No

MATH 2110 - Calculus I

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Functions, graphs, limits, continuity, derivatives, applications of the derivative, anti-differentiation, definite integral, Fundamental Theorem of Calculus, integration by substitution, applications of the integral.

Hours per Week: 4 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graded C or better in either MATH 1040 or (MATH 1081 and MATH 1083) or (MATH 1082 and MATH 1083) or (ESM 1082 and MATH 1083); or scored satisfactorily on a math placement examination. Corequisite(s): MATH 2111 if any of the listed prerequisites is graded less than B-.

Needs Permission to Enroll: No
Special Fee Applied: No

GE B4* - restricted to specific major

Articulation C-ID: MATH 210, MATH 211, MATH 900 S
To receive full transfer credit, students must take both MATH 2110 and MATH 2120. This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding "C-ID Course" designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

MATH 2111 - Calculus I Workshop

(1)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3
Course Description: Activity for MATH 2110 students with an emphasis on problem solving.

Hours per Week: 2 activity hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Corequisite(s): MATH 2110

Needs Permission to Enroll: No
Special Fee Applied: No

MATH 2120 - Calculus II

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Integration of transcendental functions, methods of integration, limits of sequences and series, power series, Taylor series, three dimensional analytic geometry.

Hours per Week: 4 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graded C or higher in MATH 2110
Corequisite(s): MATH 2121 if MATH 2110 is graded less than B-.

Needs Permission to Enroll: No
Special Fee Applied: No

GE B4

Articulation C-ID: MATH 220, MATH 221, MATH 900 S
To receive full transfer credit, students must take both MATH 2110 and MATH 2120. This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding "C-ID Course" designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

MATH 2121 - Calculus II Workshop

(1)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: A group activity class to work on MATH 2120 assignments.

Hours per Week: 2 activity hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Corequisite(s): MATH 2120

Needs Permission to Enroll: No
Special Fee Applied: No
• MATH 2130 - Calculus III

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Partial differentiation, multiple integration, vector calculus, line integrals.

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2120 with a minimum C grade; students with a grade of less than B- in MATH 2120 must enroll concurrently in MATH 2131
Needs Permission to Enroll: No
Special Fee Applied: No

Articulation C-ID: MATH 230
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding "C-ID Course" designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

• MATH 2131 - Calculus III Workshop

(1)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: A group activity class to work on MATH 2130 assignments.

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None Corequisite(s): MATH 2130
Needs Permission to Enroll: No
Special Fee Applied: No

• MATH 2150 - Differential Equations

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Ordinary differential equations with concentration on methods of finding solutions; applications in science and engineering.

Grading: ABCDF
Mode of Delivery: Face to Face
Articulation C-ID: MATH 240, MATH 910 S
To receive full transfer credit, students must take both MATH 2150 and MATH 2550. This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding "C-ID Course" designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

• MATH 2170 - Introduction to Computer Algebra Systems

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to computer algebra systems such as Mathematica, Matlab or Maple; overview of built-in functions; 2-D and 3-D graphs; basic programming structures; flow control; development and implementation of algorithms.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2110 graded C or better.
Needs Permission to Enroll: No
Special Fee Applied: No

• MATH 2250 - Explorations in Geometry for Elementary and Middle School Teachers

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Topics include properties of two and three dimensional figures, measurement, constructions, structure, spatial relationships, transformations, and graph theory presented through multiple teaching modes. No credit for mathematics majors.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): A college level mathematics course graded C or better.
Needs Permission to Enroll: No
Special Fee Applied: No
Notes:

- All 4000-level courses may be applied toward master's degree requirements, subject to limits established by the department and approval of the graduate adviser.
- Classified graduate standing is required for enrollment in 5000-level courses; exception applies to students who are enrolled in a postbaccalaureate certificate or credential program.

Mathematics (Undergraduate)

- MATH 2450 - Foundations of Mathematics I: Discrete Mathematics

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Preliminary introduction to the basic mathematical notation, vocabulary, and reasoning used in advanced mathematics courses. Logic; elementary set theory; proof techniques; recursion; induction; equivalence relations; counting techniques; graphs and trees.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): MATH 2110  
Needs Permission to Enroll: No  
Special Fee Applied: No

Articulation C-ID: COMP 152, MATH 160
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding "C-ID Course" designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

- **MATH 2540 - Selected Topics in Mathematics**
  
  (1-4)

  This course is repeatable: Yes
  Max # of units may be repeated: 5
  Total # of units allowed for credit: 6
  Max times this course can be taken for credit: 6

  **Course Description:** Current topics of interest to students in mathematics, as announced in Schedule of Classes.

  **Hours per Week:** 1 lecture hour(s).

  **Grading:** CR/NC
  **Mode of Delivery:** Face to Face
  **Campus:** Main Campus

  **Prerequisite(s):** As needed for specific topic.
  **Needs Permission to Enroll:** No
  **Special Fee Applied:** No

- **MATH 2550 - Introduction to Linear Algebra**
  
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** Vector spaces, linear transformations, linear equations, matrices, determinants, eigenvectors and eigenvalues, canonical forms.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face
  **Campus:** Main Campus

  **Prerequisite(s):** MATH 2120
  **Needs Permission to Enroll:** No
  **Special Fee Applied:** No

Articulation C-ID: MATH 250, MATH 910 S
To receive full transfer credit, students must take both MATH 2150 and MATH 2550. This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding "C-ID Course" designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

- **MATH 2600 - Analytic Geometry**
  
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** Geometric transformations of the plane, rigid motions, similarities, inversion; Geometric measurements and coordinate geometry; using coordinates to prove geometric theorems and applications of geometric concepts to model real life situations; Vector
geometry; Visualization and development of geometric intuition using dynamic geometry software.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2550
Needs Permission to Enroll: No
Special Fee Applied: No

- **MATH 2740 - Introduction to Statistics**

  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Graphical display of data, measures of variation, correlation, least-squares regression, design of samples and experiments, basic rules of probability, normal distribution, central limit theorem, sampling distributions, confidence intervals, hypothesis tests.

  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): ESM 1082, MATH 1040, MATH 1081 or MATH 1082
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **MATH 3200 - Selected Topics in History of Mathematics**

  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Traces development of fundamental concepts and techniques in fields of algebra, geometry, trigonometry, and calculus.

  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): None Pre/Co-requisite(s): MATH 2120
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **MATH 3450 - Foundations of Mathematics II: Math Reasoning**

  (4)

  This course is repeatable: No
MATH 3450 - Mathematics for Teachers [4]

Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Set families; equivalence relations; modular arithmetic; functions; combinatorial reasoning; cardinality; linearly and partially ordered sets; abstract binary operations; standard number systems as groups, rings, or fields; and limits of sequences. Introduction to the mathematics major, with embedded mentoring. 3 units lecture, 1 unit recitation.

Hours per Week: 3 lecture hour(s). 1 recitation hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2450
Needs Permission to Enroll: No
Special Fee Applied: No

MATH 3540 - Selected Topics in Mathematics [1-4]

This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 1

Course Description: Current topics of interest to students in mathematics as announced in the Schedule of Classes.

Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): As needed for specific topic.
Needs Permission to Enroll: No
Special Fee Applied: No

MATH 3960 - Field Experience II: Application and Evaluation of Classroom Strategies [2]

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Developing personal vision as an effective mathematics teacher in a diverse classroom; discussion of students’ misperceptions and learning difficulties; evaluation of effective teaching strategies and practicing communication of mathematics. Service learning required.

Hours per Week: 0 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 3950. Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
Needs Permission to Enroll: No
Special Fee Applied: No

GE UD B* (ci) (wi) ^ restricted to specific major
This is a service learning course.
• MATH 4010 - Ordinary Differential Equations

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Ordinary differential equations with concentration on properties of solutions. Introduction to dynamical systems and bifurcation theory.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graded C or better in MATH 2130, MATH 2150, MATH 2550, MATH 3450
Needs Permission to Enroll: No
Special Fee Applied: No

• MATH 4021 - Advanced Mathematics I for Engineers and Physicists

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Vector analysis to include line and surface integrals, orthogonal curvilinear coordinates, complex variables to include contour integration and conformal mapping, Laplace transformation.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2150 or MATH 4010
Needs Permission to Enroll: No
Special Fee Applied: No

• MATH 4030 - Partial Differential Equations

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Orthogonal sets of functions; Fourier series and integrals, with applications to the equations of mathematical physics; first order equations, Cauchy’s method of characteristics.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2150 or MATH 4010
• MATH 4100 - Vector Analysis

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Vector algebra and calculus, vector fields, gradient, divergence, curl, divergence theorem, Stokes’ theorem, applications to geometry and mathematical physics.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2130 and MATH 2550

• MATH 4200 - Mathematical Logic

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: The statement calculus, the predicate calculus, mathematical structures, and the deduction of valid consequences; the completeness theorem.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 3450 graded C or better.

• MATH 4300 - Modern Geometry

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 0

Course Description: Topics selected from advanced Euclidean geometry, non-Euclidean geometry, projective geometry.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
MATH 4460 - Theory of Numbers

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Divisibility, Euclidean algorithm, prime numbers, fundamental theorem of arithmetic, distribution of primes, congruences, Fermat-Euler and Wilson theorems, residues and quadratic reciprocity law. Bernoulli numbers, quadratic forms, Diophantine equations.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

MATH 4540 - Selected Topics in Advanced Mathematics

This course is repeatable: Yes
Max # of units may be repeated: 15
Total # of units allowed for credit: 16
Max times this course can be taken for credit: 16

Course Description: Current topics of interest to students in mathematics, as announced in Schedule of Classes.

Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

MATH 4550 - Modern Algebra I

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Groups and rings, including normal subgroups, quotient groups, ideals, quotient rings, group and ring homomorphisms and isomorphisms.
**MATH 4560 - Modern Algebra II**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Additional topics in groups and rings, field extensions, modules.

**MATH 4570 - Linear Algebra**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Vector spaces linear transformations, eigenvalues and eigenvectors, canonical forms, scalar product spaces.

**MATH 4650 - Analysis I**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1
Course Description: Real number system; topology of Euclidean space including compactness and completeness; sequences and series, including limit inferior and limit superior; continuity.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2130, MATH 3450 with minimum C grade.
Needs Permission to Enroll: No
Special Fee Applied: No

MATH 4660 - Analysis II

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Differentiation and integration of functions of a real variable; sequences of functions.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 4650
Needs Permission to Enroll: No
Special Fee Applied: No

MATH 4670 - Multivariate Analysis

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Functions of several variables; partial derivatives; generalized chain rule; inverse and implicit function theorems; line and surface integrals.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2550, MATH 4650
Needs Permission to Enroll: No
Special Fee Applied: No

MATH 4680 - Introduction to Complex Analysis

(3)

This course is repeatable: No
Max # of units may be repeated: 0
MATH 4690 - Introduction to Topology

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to point set topology, including continuity, product spaces, compactness, Tychonoff theorem, connectedness, metric spaces, and Urysohn lemma.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 4650
Needs Permission to Enroll: No
Special Fee Applied: No

MATH 4700 - Numerical Analysis I

(3)

This course is repeatable: No
Max # of units may be repeated: 3
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Errors in floating point representation, nonlinear equations, systems of linear equations, polynomial interpolation, numerical integration and differentiation.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2120 and (MATH 2170 or CS 2010 or equivalent programming experience) and MATH 2550
Needs Permission to Enroll: No
Special Fee Applied: No

MATH 4710 - Numerical Analysis II
MATH 4720 - Linear Optimization

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Geometric solutions, simplex method, the transportation problem, elementary game theory.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2550
Needs Permission to Enroll: No
Special Fee Applied: No

MATH 4740 - Theory of Probability

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: General probability spaces, discrete and continuous random variables, conditional probability, joint distributions, random sampling, law of large numbers, normal, gamma, Poisson and binomial distributions.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2130, Highly recommended MATH 2450
Needs Permission to Enroll: No
Special Fee Applied: No
• MATH 4750 - Introduction to Mathematical Statistics

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Estimation and tests of hypotheses, decision theory and Bayes solutions.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 4740
Needs Permission to Enroll: No
Special Fee Applied: No

• MATH 4800 - Topics in Mathematical Modeling (also listed as BIOL 4800)

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Basic types of models; multi-variable models, linear and non-linear; parameter estimation; qualitative and quantitative stability analysis; types of equilibria, linearization; model simulation; Monte Carlo Method. Applications from various fields.

Hours per Week: 2 lecture hour(s). 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graded C or better in either MATH 2045 or in both MATH 2150 and MATH 2550, MATH 2170 or equivalent programming experience.

Needs Permission to Enroll: No
Special Fee Applied: No

• MATH 4840 - Graph Theory

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to graph theory and its applications: graphs, trees, and directed graphs; isomorphism; connectivity; network flows; Hamiltonian graphs; planar graphs; coloring problems; matchings; Ramsey theory.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2450 and MATH 3450 with minimum C grade.
• MATH 4900 - Senior Seminar in Mathematics

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Capstone course in mathematics including written and oral exposition. Expository writing on mathematical topics selected by the instructor, including a technical report. Writing-intensive.
Hours per Week: 4 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2450, MATH 4650. (MATH 4550 or MATH 4570)
Needs Permission to Enroll: No
Special Fee Applied: No

(wi) GWAR

• MATH 4901 - Capstone Course for Teachers of Mathematics

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Oral and written expositions including technical reports connecting advanced mathematics and high school mathematics, math education articles analyses, field-work analysis, pedagogical content knowledge analysis and a final report. Writing intensive.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 3960, MATH 4300, MATH 4650
Needs Permission to Enroll: No
Special Fee Applied: No

(wi) GWAR

• MATH 4950 - Introduction to College Instruction

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Teaching strategies and learning styles in lower division mathematics courses. Course organization; syllabus and exam preparation; instructional techniques; dealing with special problems; University policies and procedures. Graded CR/NC.
Mathematics (Graduate)

All 4000-level courses may be applied toward master’s degree requirements except MATH 4550, MATH 4650, MATH 4900, and MATH 4950.

- **MATH 4990 - Undergraduate Directed Study**
  (1-3)
  This course is repeatable: Yes
  Max # of units may be repeated: 15
  Total # of units allowed for credit: 16
  Max times this course can be taken for credit: 16
  
  **Course Description:** Project selected in conference with sponsor before registration; progress meetings held regularly, and a final report submitted.
  **Hours per Week:** N/A lecture hour(s).

  - **Grading:** ABCDF
  - **Mode of Delivery:** Face to Face
  - **Campus:** Main Campus
  - **Prerequisite(s):** Consent of an instructor to act as a sponsor.
  - **Needs Permission to Enroll:** Yes, Instructor Consent
  - **Special Fee Applied:** No

- **MATH 3950 - Field Experience I: Intro. To Classroom Strategies**
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 0
  
  **Course Description:** Introduction to effective teaching techniques, common core standards, California frameworks and education laws; analysis of strategies to prepare mathematics teaching candidates for urban schools. Service learning required. Graded CR/NC. Field Experience I.
  **Hours per Week:** 0 lecture hour(s).

  - **Grading:** CR/NC
  - **Mode of Delivery:** Face to Face
  - **Campus:** Main Campus
  - **Prerequisite(s):** MATH 2130
  - **Needs Permission to Enroll:** No
  - **Special Fee Applied:** No

  (cl) (wi)
  This is a service learning course.
• MATH 5021 - Applied Linear Analysis I

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Function spaces, convergence, inner product, bounded linear operators, integral operators and integral equations, adjoint operators, expansion in eigenfunctions, resolvent, kernel.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2150 or MATH 4010, MATH 2550, and MATH 4650. Recommended: MATH 4570 and MATH 4660.
Needs Permission to Enroll: No
Special Fee Applied: No

• MATH 5022 - Applied Linear Analysis II

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Unbounded operators, differential operators of second order, Sturm-Liouville operators, eigenvalues and eigenfunctions, Green’s Functions, and additional topics.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 5021
Needs Permission to Enroll: No
Special Fee Applied: No

• MATH 5100 - Teaching Mathematics at the College Level

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: A survey of mathematics learning theories, pedagogical strategies, mathematical task analysis framework, technology in the mathematics classroom, and the literature on students’ understanding of selected topics in precalculus, calculus, and statistics. Issues of accessibility, placement, admission, curriculum, transfer, advisement and equity at community colleges and universities.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 4650 Recommended: MATH 4950
• MATH 5210 - Mathematical Modeling

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Modeling techniques with difference and differential equations and stochastic models, with applications in fields such as biology, physics, and engineering.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2170 (or equivalent programming experience), MATH 2150 or MATH 4010, MATH 2550, MATH 4740, Recommended: MATH 4030

• MATH 5220 - Optimization

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Selected topics from unconstrained, constrained, least squares, and parametric optimization.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2170 (or equivalent programming experience), MATH 2550, MATH 4650

• MATH 5401 - Theory of Groups

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Group theory: abelian groups, finite groups, symmetric groups, matrix groups, isometry groups, group actions, homomorphisms, subgroups, quotient groups, group representations.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
MATH 5402 - Theory of Rings and Fields

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Theory of rings and fields. Integral domains, principal ideal domains, irreducibility, polynomial rings, field extensions, finite fields, Galois theory.

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 4550, MATH 4570
Needs Permission to Enroll: No
Special Fee Applied: No

MATH 5500 - Advanced Topics in Algebra and Number Theory

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Advanced topics selected from group theory, ring theory, linear algebra, combinatorial group theory, simple groups of Lie type, representation theory, and number theory, with approval of graduate advisor.

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Approval of instructor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

MATH 5510 - Advanced Topics in Analysis

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Advanced topics selected from real analysis, complex analysis, functional analysis, Fourier analysis, and applied
MATH 5520 - Advanced Topics in Topology and Geometry

(3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Advanced topics selected from knot theory, algebraic topology, differential topology, combinatorial topology, algebraic geometry, and differential geometry. With approval of graduate advisor.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Approval of instructor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

MATH 5530 - Advanced Topics in Applied Mathematics

(3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Advanced topics selected from various fields in applied mathematics, such as mathematical biology, mathematical modeling, applied probability, dynamical systems, and numerical analysis. With approval of graduate advisor.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Approval of instructor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

MATH 5540 - Advanced Topics in Combinatorics and Graph Theory

(3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Advanced topics selected from combinatorics, graph theory and its applications, combinatorial optimization, and game theory with approval of graduate advisor.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Approval of instructor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

- **MATH 5680 - Advanced Complex Analysis**
  
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Laurent series, singularities, residue problems, contour integration, conformal mappings, and additional topics.
  Hours per Week: 0 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): MATH 4680
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **MATH 5690 - Topology**
  
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 3

  Course Description: Basic concepts of point set topology: mappings, compactness, connectedness, separation properties, and metrization.
  Hours per Week: 0 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): MATH 4650 Recommended: MATH 4690
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **MATH 5700 - Numerical Linear Algebra**
  
  (3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Numerical solutions of linear systems of equations, and eigenvalue problems, direct solutions, interactive solutions, with additional topics in linear algebra as time permits.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 4570
Recommended: MATH 2170 (or equivalent programming experience), MATH 4700
Needs Permission to Enroll: No
Special Fee Applied: No

MATH 5710 - Numerical Solutions of Partial Differential Equations

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Numerical solutions of partial differential equations; finite-difference approximations, consistency, convergence, stability.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2170 (or equivalent programming experience), MATH 4700
Needs Permission to Enroll: No
Special Fee Applied: No

MATH 5740 - Applied Probability Theory

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 4740
Recommended: MATH 2170
Needs Permission to Enroll: No
Special Fee Applied: No
- **MATH 5800 - Real Analysis**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** Theory of Lebesgue measure on the real line; theory of the Lebesgue integral and related convergence theorems.

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** MATH 4660  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

- **MATH 5960 - Comprehensive Examination**

  (0)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 0  
  Max times this course can be taken for credit: 1

  **Course Description:** See the Comprehensive Examination under the [University Requirements for Master's Degree](#) in this eCatalog.

  **Grading:** CR/NC  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** Advancement to Candidacy  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

- **MATH 5980 - Graduate Directed Study**

  (1-4)

  This course is repeatable: Yes  
  Max # of units may be repeated: 7  
  Total # of units allowed for credit: 8  
  Max times this course can be taken for credit: 8

  **Course Description:** Independent study of advanced topics in mathematics; regular conferences with instructor.

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** Instructor consent.

  **Needs Permission to Enroll:** Yes, Instructor Consent  
  **Special Fee Applied:** No
• MATH 5990 - Thesis

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 4

Course Description: Independent research resulting in a thesis.
Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy. Instructor consent to act as sponsor, departmental approval of topic prior to registration.
Pre/Co-requisite(s): MSE 5970
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

Mechanical Engineering (Undergraduate)

• ME 1010 - Mechanical Energy Production, Transmission, and Utilization

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Engineering principles for non-engineering majors. Introduction to how Mechanical Engineers use natural sources of energy to produce, transmit, and utilize work and power. Both alternative and traditional sources of energy will be discussed. No credit towards B.S. degree in Mechanical Engineering.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 1081
Needs Permission to Enroll: No
Special Fee Applied: No

• ME 1140 - Machine Shop

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Introduction to machine shop procedures, safety practices, hand tools, band saw, drill press, milling, turning, welding.
Hours per Week: 3 laboratory hour(s).

Grading: CR/NC
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus  

**Prerequisite(s):** None  
**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

- **ME 1540 - Special Topics in Mechanical Engineering**
  (1-4)
  - **This course is repeatable:** Yes  
  - **Max # of units may be repeated:** 3  
  - **Total # of units allowed for credit:** 4  
  - **Max times this course can be taken for credit:** 4

  **Course Description:** Current topics of special interest to students in mechanical engineering, as announced in Schedule of Classes.  
  **Hours per Week:** N/A lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** Instructor consent and as needed for specific topic.  
  **Needs Permission to Enroll:** Yes, Instructor Consent  
  **Special Fee Applied:** No

- **ME 2010 - Statics (also listed as CE 2010)**
  (3)
  - **This course is repeatable:** No  
  - **Max # of units may be repeated:** 0  
  - **Total # of units allowed for credit:** 3  
  - **Max times this course can be taken for credit:** 1

  **Course Description:** Fundamental principles of statics, resolution and composition of forces, algebraic and graphic solutions, friction, center of gravity, moment of inertia.  
  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** MATH 2120, PHYS 2100, both with a grade of C or better  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

  **Articulation C-ID: ENGR 130**
  
  This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

- **ME 2030 - Introduction to Mechanical Design**
  (3)
  - **This course is repeatable:** No  
  - **Max # of units may be repeated:** 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Fundamentals of engineering design, use of computer-aided design (CAD) software, 2D drafting and 3D solid modeling, selected design projects, and operation of hand and machine tools. Lecture 2 hours. Laboratory 3 hours.
Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ENGR 1500 and PHYS 2100, both graded C or better
Needs Permission to Enroll: No
Special Fee Applied: No

ME 2040 - Circuit Analysis for Mechanical Engineers

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis of resistive circuits (nodal analysis, loop analysis, superposition, and power source conversion); operational amplifier; energy storage elements; first order and second order transient circuits.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2120, PHYS 2200 both with a grade of C or better
Needs Permission to Enroll: No
Special Fee Applied: No

ME 2050 - Strength of Materials I (also listed as CE 2050)

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Stresses and strains under axial, shearing, and torsional forces; flexural stresses and deflections of simple beams; columns; and combined stresses.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CE 2010 or ME 2010 with a grade of C or better
Needs Permission to Enroll: No
Special Fee Applied: No

Articulation C-ID: ENGR 240
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding "C-ID Course" designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-
- **ME 2070 - Materials Science and Engineering**

  (3)

  | This course is repeatable: No |
  | Max # of units may be repeated: 0 |
  | Total # of units allowed for credit: 3 |
  | Max times this course can be taken for credit: 1 |

  **Course Description:** Understanding structure and fundamental atomic and molecular mechanisms of engineering materials, atom and electron movement, physical and mechanical properties; overview of engineering materials, semiconductors, metals, ceramics, polymers, and composites.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF

  **Mode of Delivery:** Face to Face

  **Campus:** Main Campus

  **Prerequisite(s):** CHEM 1040, MATH 2110, both with a grade of C or better

  **Needs Permission to Enroll:** No

  **Special Fee Applied:** No

  **Articulation C-ID:** ENGR 140

  This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

- **ME 2140 - Review of Solid Mechanics**

  (3)

  | This course is repeatable: No |
  | Max # of units may be repeated: 0 |
  | Total # of units allowed for credit: 3 |
  | Max times this course can be taken for credit: 1 |

  **Course Description:** Free body diagrams, static analysis, determinate and indeterminate structures, internal and external forces, Hooke’s Law, shear and moment diagrams/equations, axial/bending/shear/tearing/bearing stresses, Mohr’s Circle, centeroids, moments of inertia, singularity functions.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** CR/NC

  **Mode of Delivery:** Face to Face

  **Campus:** Main Campus

  **Prerequisite(s):** CE 2050 or ME 2050

  **Needs Permission to Enroll:** No

  **Special Fee Applied:** No

- **ME 2540 - Special Topics Course for Sophomores in Mechanical Engineering**

  (1-3)

  | This course is repeatable: Yes |
  | Max # of units may be repeated: 2 |
  | Total # of units allowed for credit: 3 |
  | Max times this course can be taken for credit: 3 |

  **Course Description:** Group Study of selected topics not currently offered as technical electives. Study groups may be organized in
ME 2800 - Numerical Methods for Engineers I (also listed as CE 2800)

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: This course focuses on equipping students with the basic computing skills students will need throughout their engineering disciplines. Introduction to basic engineering problems, algorithm development, and implementation into a computer program.

Hours per Week: 3 laboratory hour(s).

ME 2801 - Introduction to Biomedical Engineering

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 0

Course Description: Introduction to the field of biomedical engineering; exposure to applications in biomedical engineering and the various subfields of biomedical engineering, including biomechanics, rehabilitation engineering, biomedical devices, biosignal processing, and biomedical software engineering; responsible conduct in biomedical research; entrepreneurship in biomedical engineering.

Hours per Week: 3 lecture hour(s).
- ME 3000 - Economics for Engineers (also listed as CE 3000, EE 3000)

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Basic economic concepts and principles, costs and benefits analysis, alternative designs, economic viability of engineering solutions in broader context.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE D* - * restricted to specific major

- ME 3030 - Fluid Mechanics I (also listed as CE 3030)

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Fundamental principles and methods of fluid mechanics; thermodynamics of fluid flow; Newtonian fluids; equations of fluid flow; laminar and turbulent flow; applications.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): PHYS 2100, (CE 2010 or ME 2010), both graded C or better.
Needs Permission to Enroll: No
Special Fee Applied: No

- ME 3039 - Fluid Mechanics Laboratory

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Experiments on fluid properties, fluid statics, conservation of mass, energy, and momentum, and fluid resistance.
Laboratory 3 hours.

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None Pre/Co-requisite(s): CE 3030 or ME 3030
Needs Permission to Enroll: No
• ME 3040 - Experimental Methods for Engineers

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to experimental methods, sensors and data acquisition with emphasis on mechanical applications in biomedical engineering. Statistical methods for the analysis of experimental data. Survey of transducers and measurement methods for a broad range of phenomena relevant to biomechanical engineering applications. Oral and written communication of experimental results and analyses. (Lecture 2 hours. Laboratory 3 hours).

Hours per Week: 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): (ME 2040 or EE 2040), MATH 2120 both with a grade of C or better
Needs Permission to Enroll: No
Special Fee Applied: No

GE B3* - restricted to specific major

• ME 3100 - Mechanical Engineering Writing Laboratory

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Technical and laboratory report writing, oral and written communication, introduction to information technology. Technical report writing. Laboratory 3 hours.

Hours per Week: 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): UNIV 4010, ENGR 1500
Needs Permission to Enroll: No
Special Fee Applied: No

• ME 3120 - Strength of Materials Laboratory I (also listed as CE 3120)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Tests of engineering materials in tension, compression, bending, and torsion; verification by experiment of basic theories learned in strength of materials. Laboratory 3 hours.

Hours per Week: 3 laboratory hour(s).
• ME 3140 - Machine Design Laboratory
  
  (1)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 1
  Max times this course can be taken for credit: 1

  Course Description: Experiments on the aspects of machine design: statistical nature, theories of failure and design for strength and design of machine elements. Lab 3 hours.
  Hours per Week: 3 laboratory hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): CE 2050 or ME 2050 with a grade of C or better.
  Needs Permission to Enroll: No
  Special Fee Applied: No

  

• ME 3200 - Dynamics
  
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Kinematics and kinetics of rigid bodies; work, kinetic energy, impulse, momentum in two and three dimensions; applications to space mechanics.
  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): CE 2010 or ME 2010 with a grade of C or better.
  Needs Permission to Enroll: No
  Special Fee Applied: No

  

• ME 3210 - Kinematics of Mechanisms
  
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
Course Description: Transmission of motion; theory of mechanisms; linkages; gears; cams; belts and chains.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CE 3200 or ME 3200 with a grade of C or better
Needs Permission to Enroll: No
Special Fee Applied: No

ME 3230 - Machine Design I

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Application of principles of mechanics, properties of materials, and fabrication processes to design of simple machines and structural elements, failure analyses techniques and predictions, and component life and reliability estimations all for static and dynamic loading conditions.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ME 2030, (CE 2050 or ME 2050), ME 2070, MATH 2130, all graded C or better
Needs Permission to Enroll: No
Special Fee Applied: No

ME 3260 - Thermodynamics

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 0

Course Description: Concepts of equilibrium and temperature; first and second laws of thermodynamics. Properties of pure substances; ideal gases; application of thermodynamic principles to closed and open systems.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2120 and PHYS 2100, both with a grade of C or better
Needs Permission to Enroll: No
Special Fee Applied: No

ME 3270 - Manufacturing Processes

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Manufacturing properties of metals, alloys, and nonmetallic materials; solidification processes; material forming; material removal; joining processes; unconventional processing; numerical control; and automated processes.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ME 2030, ME 2070, ME 2050, all graded C or better.
Needs Permission to Enroll: No
Special Fee Applied: No

---

ME 3540 - Special Topics Course for Juniors in Mechanical Engineering

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Group Study of selected topics not currently offered as technical electives. Study groups may be organized in mechanical engineering subjects upon approval of instructor.
Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Junior standing; approval of instructor in charge
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

---

ME 3800 - Numerical Methods for Engineers II (also listed as CE 3800)

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Applied Numerical Methods for Engineers with computer applications. Laboratory 6 hours.
Hours per Week: 6 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2150, (CE 2800 or ME 2800), all with a grade of C or better
Needs Permission to Enroll: No
Special Fee Applied: No
• ME 3980 - Cooperative Education

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Integration of mechanical engineering work experience with the academic program, individually planned through a coordinator. Minimum of 6 hours per week required for each unit.
Hours per Week: N/A lecture hour(s).
Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): Approval of student adviser and department chair.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

• ME 4020 - Strength of Materials II

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Basic concepts; unsymmetrical beam bending, shear flow, energy methods; the finite element method; theories of failure; introduction to theory of elasticity, plane elastostatic problems; torsion of prismatic cylinders.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): ME 3030, MATH 2150, both graded C or better.
Needs Permission to Enroll: No
Special Fee Applied: No

• ME 4030 - Aerodynamics

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Air-foil characteristics; transonic, supersonic, and viscous effects on lift and drag; power considerations, airplane performances, introduction to airplane and missile stability and control.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): MATH 2130, (CE 3030 or ME 3030), both with a grade of C or better
Needs Permission to Enroll: No
Special Fee Applied: No
- **ME 4040 - Propulsion Systems**

  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Introduction to the fluid-thermodynamics of various types of aero-propulsion systems. Principles, design and applications of propellers, reciprocating engines, turbojet, turboprop and turbofan engines, rocket engines and electric propulsion systems.

  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): ME 3030, ME 3260, both graded C or better.
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **ME 4061 - Heat Transfer I**

  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Fundamental principles of heat transfer; conduction, convection, and radiation; applications.

  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): MATH 2150, (CE 3030 or ME 3030), ME 3260, all with a grade of C or better
  Needs Permission to Enroll: No
  Special Fee Applied: No

  GE UD B* - restricted to specific major

- **ME 4062 - Heat Transfer II**

  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Numerical methods in conduction; theory and applications of convection; thermal radiation, condensing and boiling heat transfer; mass transfer special topics.

  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus
Prerequisite(s): ME 4061 graded C or better.
Needs Permission to Enroll: No
Special Fee Applied: No

- ME 4069 - Thermal Systems Laboratory
  
  (1)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 1
  Max times this course can be taken for credit: 1

  Course Description: Experiments in heat transfer and thermodynamics; thermophysical properties of fluids; analysis, operation, and performance testing of thermal energy conversion systems. Laboratory 3 hours.

  Hours per Week: 3 laboratory hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): ME 4061 graded C or better.
  Needs Permission to Enroll: No
  Special Fee Applied: No

- ME 4070 - Heating, Ventilation, and Air Conditioning Systems
  
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Psychrometry, heat loads, air conditioning and heating equipment, and air distribution. Design in engineering practice; system simulation and optimization; economic, environmental, other constraints; practical aspects of equipment selection; thermal design literature.

  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): ME 3030, ME 3260, ME 4061, all graded C or better.
  Needs Permission to Enroll: No
  Special Fee Applied: No

- ME 4090 - Mechanical Engineering Analysis
  
  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Setup of vibration, heat transfer, fluid flow, and other mechanical engineering systems as ordinary and partial differential equations; analogies between various physical systems. Classical, transform, numerical, and computer-aided methods of solution.
• ME 4110 - Vibrational Analysis

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis of free and forced vibrations with and without damping, systems with several degrees of freedom, vibration isolation, mechanical transients, torsional vibrations, natural frequency computation techniques, finite element analysis software.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2150, (CE 3200 or ME 3200), both with a grade of C or better
Needs Permission to Enroll: No
Special Fee Applied: No

• ME 4120 - Control of Mechanical Systems

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Mathematical models of dynamic systems, fundamentals of feedback control, basic control actions and devices, applications to mechanical systems.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ME 4110, PHYS 2200, both graded C or better
Needs Permission to Enroll: No
Special Fee Applied: No

• ME 4130 - Fluid Mechanics Laboratory

(1)

This course is repeatable: No
Max # of units may be repeated: 0
**Course Description**: Experiments on subsonic and supersonic flow, free surface flow, pumps, turbines, fans, and unsteady flow.

**Hours per Week**: 3 laboratory hour(s).

**Grading**: ABCDF

**Mode of Delivery**: Face to Face

**Campus**: Main Campus

**Prerequisite(s)**: ME 3039 graded C or better.

**Needs Permission to Enroll**: No

**Special Fee Applied**: No

---

**ME 4140 - Machine Design II**

(3)

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 3

Max times this course can be taken for credit: 1

**Course Description**: Design of unit assemblies and machines; materials, safety, lubrication, and construction.

**Hours per Week**: 3 lecture hour(s).

**Grading**: ABCDF

**Mode of Delivery**: Face to Face

**Campus**: Main Campus

**Prerequisite(s)**: ME 3230 graded C or better.

**Needs Permission to Enroll**: No

**Special Fee Applied**: No

---

**ME 4141 - Engineering of Materials**

(3)

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 3

Max times this course can be taken for credit: 0

**Course Description**: Analysis of behavior of materials by emphasizing structure/property/performance interrelationships. This course provides fundamental knowledge about type of materials, their properties and characteristics and presents ways of modify the material microstructure and properties.

**Hours per Week**: 3 lecture hour(s).

**Grading**: ABCDF

**Mode of Delivery**: Face to Face

**Campus**: Main Campus

**Prerequisite(s)**: Prereq: MATH 2150 or Graduate Standing

**Needs Permission to Enroll**: Yes, Department Consent

**Special Fee Applied**: No

---

**ME 4180 - Energy Systems and Sustainability**
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Existing and future energy-conversion systems with an emphasis on sustainability. Thermodynamics and transport processes applied to energy-conversion systems. Political, economic, and ethical complications associated with energy technologies. Systems using fossil fuels, nuclear, and renewable sources are discussed.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHEM 1040, ME 3260, both with a grade of C or better
Needs Permission to Enroll: No
Special Fee Applied: No

• ME 4210 - Dynamics of Mechanisms

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Application of principles of statics, kinematics, and dynamics to analysis and design of mechanisms with rotating or reciprocating masses.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ME 3210 graded C or better, Pre/Co-requisite(s): CE 3800 or ME 3800
Needs Permission to Enroll: No
Special Fee Applied: No
Course Descriptions

Notes:

- All 4000-level courses may be applied toward master's degree requirements, subject to limits established by the department and approval of the graduate adviser.
- Classified graduate standing is required for enrollment in 5000-level courses; exception applies to students who are enrolled in a postbaccalaureate certificate or credential program.

Mechanical Engineering (Undergraduate)

- **ME 4220 - Optimization of Mechanical Engineering Systems**

  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Design considerations of mechanical engineering systems; optimization techniques; application of existing computer programs and analytical methods to optimization of mechanical engineering systems.

  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): MATH 2150, ME 4061, PHYS 2200, all with a grade of C or better.
  Needs Permission to Enroll: No
  Special Fee Applied: No
• ME 4230 - Finite Element Analysis

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Derivation of element stiffness matrices for spring, bar, beam, and constant-strain triangle elements, from energy principles. Application to trusses and frames. Steady-state heat transfer. Use of finite element method software.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2550, ME 2800, MATH 2150, all with a grade of C or better; pre/co-requisite: ME 3230, ME 4061
Needs Permission to Enroll: No
Special Fee Applied: No

• ME 4300 - Properties and Selection of Engineering Materials

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Production, strengthening, alloying and thermal treatment of metals. Types, properties of polymers, ceramics and composites. Semiconductor materials and devices. Material selection and protection against deterioration.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ME 2070, ME 3270, both graded C or better.
Needs Permission to Enroll: No
Special Fee Applied: No

• ME 4310 - Material Laboratory

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Preparation of metallic samples and study of their internal structure by microscopic techniques. Mechanical testing of non-metallic materials: plastics, ceramics and composites.

Hours per Week: 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ME 2070 graded C or better.
Needs Permission to Enroll: No
Special Fee Applied: No
ME 4500 - Biomechanics

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Application of mechanical principles on living things, statics and dynamics of human activities, study of biomechanical mechanisms and structures, and mechanics of materials and tissues.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ME 2050, ME 3200, both graded C or better.
Needs Permission to Enroll: No
Special Fee Applied: No

ME 4510 - Biomaterials

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Materials for biomedical applications, their chemical structures, physical and mechanical properties and processing, bio-reaction with biomaterials, bio-integration, implantation, inflammation, immune response, thrombosis, and calcification.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHEM 1040, ME 2070, ME 2050, all with a grade of C or better
Needs Permission to Enroll: No
Special Fee Applied: No

ME 4540 - Special Topics in Mechanical Engineering

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Group study of selected topics not currently offered as technical electives; study groups may be organized in advanced mechanical engineering subjects upon approval of instructor.
ME 4590 - Rehabilitation Design and Internship

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to Rehabilitation & Biomedical Engineering utilizing cutting-edge analysis and measurement tools to apply students' skills to maximize independence and enhance activities of people with disabilities. This course requires Service-Learning.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ME 3200 graded C or better; Corequisite(s): ME 3210 or ME 4210
Needs Permission to Enroll: No
Special Fee Applied: No

ME 4810 - Introduction to Robotics

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to robotic systems; robotic manipulators; spatial description; homogeneous transformations; manipulator kinematics; inverse manipulator kinematics; motion trajectories; static forces.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ME 2040, ME 3200, both graded C or better
Needs Permission to Enroll: No
Special Fee Applied: No

ME 4971 - Mechanical Engineering Senior Project I

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Study of engineering design processes; selection of a design project focusing on typical problems encountered in engineering practice; develop a detailed design plan; understand engineering solutions and profession in broader context. Lecture 2 hours. Laboratory 3 hours.

Grade of C or better in this course satisfies the Graduation Writing Assessment Requirement.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D, ME 3000, ENGR 3010, ME 3210, ME 3230, all graded C or better; Pre/Co-requisite(s): ME 3040, ME 3270, ME 3800, ME 4061

Needs Permission to Enroll: No
Special Fee Applied: No

GE UD C* (cl) (wi) GWAR - restricted to specific major

ME 4972 - Mechanical Engineering Senior Project II

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Implement the project design developed in ME 4971, complete the entire design process, present the design in both written and oral formats. Develop a broader understanding of engineering solutions as well as professional ethics.

Grade of C or better in this course satisfies the Graduation Writing Assessment Requirement.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ME 4971 graded C or better.
Needs Permission to Enroll: No
Special Fee Applied: No

GE UD D* (cl) (wi) - restricted to specific major

ME 4990 - Undergraduate Directed Study

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Project selected in conference with the sponsor before registration; progress meetings held regularly, and a final report submitted.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): Consent of an instructor to act as sponsor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

Mechanical Engineering (Graduate)

All 4000-level courses may be applied toward master's degree requirements, subject to limits established by the department and approval of the graduate adviser. Classified graduate standing is required for enrollment in 5000-level courses.

- ME 5050 - Conduction Heat Transfer
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 0

  Course Description: Analysis of heat transfer by conduction. Review of classical methods, mathematical modeling, and theoretical and numerical analyses of problems in heat conduction occurring in different media without and with phase change.

  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): None
  Needs Permission to Enroll: Yes, Department Consent
  Special Fee Applied: No

- ME 5060 - Convection Heat Transfer
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 0

  Course Description: Analysis of heat transfer by convection. Review of classical methods for mathematical modeling, theoretical and numerical analyses of problems in laminar and turbulent regimes of both forced and natural thermal convection phenomena.

  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Needs Permission to Enroll: Yes, Department Consent
  Special Fee Applied: No

- ME 5110 - Advanced Vibrational Analysis
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 0
Course Description: Analysis of multidegree of freedom systems, continuous systems, random vibrations, finite element software. Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

- ME 5130 - Advanced Structure of Materials

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Advanced topics related to crystalline structure of materials and defects, crystallography, symmetry, and theories related to experimental techniques including XRD and EDS.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ME 4300 or PHYS 4330
Needs Permission to Enroll: No
Special Fee Applied: No

- ME 5140 - Mechanical Behavior of Materials

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 0

Course Description: Mechanical behavior of materials, from the atomistic and molecular mechanisms to the continuum description of properties. This course covers elastic and plastic deformation, mechanical testing, failure analysis, fracture, fatigue and creep.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MSE 4141 or ME 4141 or Mechanical Engineering Graduate Standing
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

- ME 5200 - Advanced Dynamics of Rigid Bodies

(3)

This course is repeatable: No
Max # of units may be repeated: 0
ME 5210 - Dynamic Systems Analysis

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 0

Course Description: Dynamic behavior of physical systems; input-output and state space representation of linear continuous-time and discrete-time systems; controllability, observability, and stability of linear systems; examples of mechanical, thermal, fluid, and electrical systems.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

ME 5220 - Optimal Control of Mechanical Systems

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 0

Course Description: State space representation of continuous-time and discrete-time dynamic systems, problem statement of optimal control and performance index, maximum principle, design of linear optimal control systems, mechanical system examples.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

ME 5250 - Computational Fluid Dynamics
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 0

Course Description: Finite difference method, finite volume method, iterative algorithms, boundary condition modeling, and turbulence models. Computational fluid dynamics software is used to simulate and analyze complex engineering flows.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

---

ME 5300 - Advanced Manufacturing Processes

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 0

Course Description: Novel manufacturing processes, including various additive manufacturing and 3D printing technologies, near net shape processing, heat treatment and surface engineering.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

---

ME 5540 - Special Graduate Topics in Mechanical Engineering

This course is repeatable: Yes
Max # of units may be repeated: 8
Total # of units allowed for credit: 9
Max times this course can be taken for credit: 9

Course Description: Current topics of interest to graduate students in Mechanical Engineering, as announced in Schedule of Classes.

Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): As needed for specific topic.
Needs Permission to Enroll: No
Special Fee Applied: No

---
ME 5800 - Advanced Numerical Methods

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examination of the mathematical foundations of well-established numerical algorithms and exploration of their use through practical examples drawn from a range of mechanical engineering applications including transport phenomena, structural systems, and dynamic systems.

Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Pre/Co-requisite(s): ME 4090
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

ME 5810 - Continuum Mechanics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course will establish links between constitutive equations in mechanical engineering (conservation of mass, momentum, Newton’s law, and the first and second laws of thermodynamics) and their application to the study of motion, energy, strain and stress fields of complex 3D continuum.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

ME 5830 - Advanced Technical Communication

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 0
Max times this course can be taken for credit: 1

Course Description: Methods of and practice in reading and writing technical scientific research papers and proposals. Methods of and practice in effective oral communication to both technical and general audiences.

Hours per Week: 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
• ME 5840 - Advanced Experimental Methods

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Advanced topics in design and analysis of engineering experiments. Measurement systems, analysis of electrical signals, design and selection of sensors; statistical methods including analysis of variance, factorial designs, fractional factorial designs, and regression analysis.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

• ME 5890 - Advanced Mechanical Engineering Analysis

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Modeling and analysis of mechanical engineering systems using vector calculus, complex variables, and partial differential equations.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ME 4090 or equivalent
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

• ME 5960 - Comprehensive Examination

(0)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 0
Max times this course can be taken for credit: 1

Course Description: Students should take this examination the semester they complete all coursework on their program and must comply with college and department requirements.

Hours per Week: 0 lecture hour(s).
ME 5970 - Graduate Research

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy. Permission needed by department.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

Course Description: Independent research under guidance of the faculty.
Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent to act as sponsor, and departmental approval of project prior to registration.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

ME 5980 - Graduate Directed Study

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent to act as sponsor, departmental approval.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

Course Description: Independent, directed study of advanced topics in the field, regular conferences with the sponsor.
Hours per Week: N/A lecture hour(s).

ME 5990 - Thesis

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): 
Needs Permission to Enroll: 
Special Fee Applied: No

Course Description: Independent research resulting in thesis and oral defense thereof.
Hours per Week: N/A lecture hour(s).
Microbiology (Undergraduate)

- **MICR 1010 - Introduction to Microbiology**
  
  *(3)*

  **This course is repeatable:** No  
  **Max # of units may be repeated:** 0  
  **Total # of units allowed for credit:** 3  
  **Max times this course can be taken for credit:** 1

  **Course Description:** Introductory course in microbiology designed for non-majors; content addresses the impact of microorganism on the human experience and the biosphere; laboratory application of selected procedures. No credit if taken after any other college microbiology course. Lecture 2 hours, laboratory 3 hours. 100% online availability for some lecture sections.  
  **Hours per Week:** 2 lecture hour(s), 3 laboratory hour(s).

- **MICR 2010 - Microbiology for Health Related Sciences**
  
  *(3)*

  **This course is repeatable:** No  
  **Max # of units may be repeated:** 0  
  **Total # of units allowed for credit:** 3  
  **Max times this course can be taken for credit:** 1

  **Course Description:** Basic function and structure of microorganisms, host-pathogen relationships, infectious diseases, immunology and serology, epidemiology, antimicrobial agents, and biotechnology. Lecture 3 hours.  
  **Hours per Week:** 3 lecture hour(s).

- **MICR 2020 - Microbiology Laboratory for Health Related Sciences**

  *(3)*

  **This course is repeatable:** No  
  **Max # of units may be repeated:** 0  
  **Total # of units allowed for credit:** 3  
  **Max times this course can be taken for credit:** 1

  **Course Description:** Basic function and structure of microorganisms, host-pathogen relationships, infectious diseases, immunology and serology, epidemiology, antimicrobial agents, and biotechnology. Lecture 3 hours. 100% online availability for some lecture sections.  
  **Hours per Week:** 3 lecture hour(s).
MICR 3100 - General Microbiology (also listed as BIOL 3100)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Fundamental biological principles of microbes. Introduction to structure, function, growth, nutrition, genetics, microbial metabolism and diversity, and environmental, industrial, and medical aspects of microbiology. Lecture 3 hours: laboratory 3 hours.

Hours per Week: 3 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): BIOL 1200, CHEM 1110
Needs Permission to Enroll: No
Special Fee Applied: No

MICR 3300 - Microbial Genetics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Principles of microbial genetics with emphasis on genetic exchange, genetic manipulation, and applications with environmentally, industrially, and medically significant organisms. Lecture 2 hours and laboratory 3 hours.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Grade of C or higher in (BIOL 3100 or MICR 3100) or instructor consent.
Needs Permission to Enroll: No
Special Fee Applied: No
• **MICR 3500 - Bacterial Physiology**

  (3)  

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  

  **Course Description:** Bacterial physiology with emphasis on biochemical events related to cellular differentiation and basic bacterial biochemical pathways. Lecture 2 hours, laboratory 3 hours.  
  **Hours per Week:** 2 lecture hour(s). 3 laboratory hour(s).  

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus  

  **Prerequisite(s):** MICR 3300, CHEM 3200  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

• **MICR 3700 - Medical Microbiology**

  (4)  

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 4  
  Max times this course can be taken for credit: 1  

  **Course Description:** Host-pathogen interactions; microbiology and pathophysiology of infectious diseases with an emphasis on bacterial infections; diagnostic procedures for identification of major human pathogens including microscopy, isolation, culture, and biochemical assays. Lecture 3 hours, laboratory 3 hours.  
  **Hours per Week:** 3 lecture hour(s). 3 laboratory hour(s).  

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus  

  **Prerequisite(s):** Grade of C or higher in (BIOL 3100 or MICR 3100) or instructor consent.  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

• **MICR 3900 - Applied and Environmental Microbiology**

  (3)  

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  

  **Course Description:** Interactions of microorganisms with their environment and the application of microorganisms in food and biotech industries, agriculture, and bioremediation. Emphasis on microbial diversity, distribution and microbial function within ecosystems. Lecture 2 hours, laboratory 3 hours including a required field trip.  
  **Hours per Week:** 2 lecture hour(s). 3 laboratory hour(s).  

  **Grading:** ABCDF
MICR 3960 - Honors Thesis in Microbiology

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Independent research in microbiology culminating in a written thesis, seminar presentation, and oral defense. Must be repeated until 4 units have been completed, after which no additional units may be taken.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

MICR 3980 - Cooperative Education

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Courses appropriate to the work experience related to microbiology

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

MICR 4100 - General Virology

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Basic principles of virology; emphasizes properties, classification, multiplication, genetics, and viral-host interactions including the pathophysiology of viral infections. Lecture 3 hours.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): BIOL 3400, (BIOL 3100 or MICR 3100 or MICR 3300)
Needs Permission to Enroll: No
Special Fee Applied: No

- 

MICR 4200 - Emerging and Re-Emerging Infectious Diseases
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Microbiology and pathogenesis of infectious diseases in today's news, forces driving their appearance, and tools for their recognition, identification and control. Emphasis on primary literature and group discussions. Lecture 3 hours.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): (BIOL 1200 or MICR 2010), (MICR 2020 or BIOL 3100 or MICR 3100) or instructor consent.
Needs Permission to Enroll: No
Special Fee Applied: No

- 

MICR 4300 - Hematology
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Normal hematopoiesis and hemostasis and how defects in the normal processes affect the blood, anemias, leukemias, coagulation, and other hematologic or nonhematologic disorders. Lecture 2 hours, laboratory 3 hours.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): (MICR 3100 or BIOL 3100 or CHEM 2300) Corequisite(s): (CHEM 4300 or CHEM 4310)
Needs Permission to Enroll: No
Special Fee Applied: No

- 

MICR 4400 - Mycology
(3)

This course is repeatable: No
Max # of units may be repeated: 0
MICR 4540 - Special Topics in Microbiology

This course is repeatable: Yes
Max # of units may be repeated: 6
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 6

Course Description: Topics of current interest in microbiology, as announced in Schedule of Classes. MICR 4540 and MICR 4541 may be repeated to a maximum of 6 units total.

Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Upper division standing, others as needed for specific topics.
Needs Permission to Enroll: No
Special Fee Applied: No

MICR 4541 - Activities in Special Topics in Microbiology

This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 6

Course Description: Activities related to topics of current interest in microbiology, as announced in Schedule of Classes. MICR 4540 and MICR 4541 may be repeated to a maximum of 6 units total.

Hours per Week: 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Upper division standing, others as needed or specific topics.  Corequisite(s): MICR 4540
Needs Permission to Enroll: No
Special Fee Applied: No
MICR 4600 - Theoretical and Applied Immunology

This course is repeatable: No
Max # of units may be repeated: 4
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Concepts of innate and adaptive immune responses, failures of the immune system, and clinical applications of immunology in diagnosis, prophylaxis, and therapy. Emphasis on current methodology and scientific data dissemination. Lecture 3 hours, laboratory 3 hours.

Hours per Week: 3 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ([MICR 3100 or (BIOL 3401 and BIOL 3900)] and [CHEM 2200 and CHEM 2201]) or CHEM 4310, each with a grade of C or better.

Needs Permission to Enroll: No
Special Fee Applied: No

MICR 4990 - Undergraduate Directed Study

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 4

Course Description: Project selected in conference with faculty sponsor before registration, progress meetings held regularly, and a final report submitted. May be repeated for credit.

Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Consent of full-time faculty member in consultation with department chair; grade point average of 2.5 or higher.

Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

MICR 5100 - Advanced Studies - Hematology

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Students will be introduced to phlebotomy, and engage in advanced study of normal and abnormal hematologic conditions, normal hemostasis, and disorders of hemostasis.

Hours per Week: 4 lecture hour(s).

Grading: ABCDF
MICR 5200 - Advanced Studies - Transfusion
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Students will be engaged in advanced study in transfusion services, molecular diagnostics, and management issues in the clinical laboratory.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Concurrent enrollment in the Post-Baccalaureate California State University Los Angeles Clinical Laboratory Scientist Training Program.
Needs Permission to Enroll: No
Special Fee Applied: No

MICR 5300 - Advanced Studies - Clinical Chemistry
(6)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 1

Course Description: Students will be engaged in advanced study of physiologic and biochemical processes present in normal and disease states.
Hours per Week: 6 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Concurrent enrollment in the Post-Baccalaureate California State University Los Angeles Clinical Laboratory Scientist Training Program.
Needs Permission to Enroll: No
Special Fee Applied: No

MICR 5400 - Advanced Studies - Medical Microbiology
(6)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 1

Course Description: Students will be engaged in the advanced study of viruses, bacteria, fungi, and parasites of medical importance.
Hours per Week: 6 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Concurrent enrollment in the Post-Baccalaureate California State University Los Angeles Clinical Laboratory Scientist Training Program.
Needs Permission to Enroll: No
Special Fee Applied: No

Modern Languages (Undergraduate)

- **ML 1010 - Introduction to Higher Education for MLL Majors**
  (3)
  
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  
  Course Description: Orientation to skills, resources, and strategies leading to academic, professional, and cultural success in the field of Modern Languages and Literatures and beyond. Must be taken before beginning courses in the program.
  Hours per Week: 3 lecture hour(s).
  
  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus
  
  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: No
  
  GE E (cl) (IHE)

- **ML 1054 - Special Topics in MLL 1: Less Commonly Taught Languages**
  (4)
  
  This course is repeatable: Yes
  Max # of units may be repeated: 20
  Total # of units allowed for credit: 24
  Max times this course can be taken for credit: 6
  
  Course Description: Introduction to the study of a language other than English. Language will vary. May be repeated as language changes.
  Hours per Week: 4 lecture hour(s).
  
  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus
  
  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: No

GE C2
ML 1154 - Special Topics in MLL 2: Less Commonly Taught Languages

This course is repeatable: Yes
Max # of units may be repeated: 20
Total # of units allowed for credit: 24
Max times this course can be taken for credit: 6

Course Description: Further study of a language other than English. Language will vary. May be repeated as language changes.
Hours per Week: 4 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): ML 1054 in the same language.
Needs Permission to Enroll: No
Special Fee Applied: No

GE C2

ML 1540 - Special Topics in (a) Modern Language

This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 6

Course Description: Topics of special interest to students of modern language, as announced in Schedule of Classes.
Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

ML 1800 - Chinese Written Symbols in Asian and Asian American Communities

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Development of Chinese characters, similarity and dissimilarity in their usage among Asian countries, and their impact on Asian’s and Asian American’s cultural identities.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
• **ML 3000 - Language Diversity in the U.S.**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Study of the nature and socio-cultural impact of language diversity in the U.S.  
Hours per Week: 3 lecture hour(s).  

Grading: ABCDF  
Mode of Delivery: Face to Face, Online  
Campus: Main Campus

**Prerequisite(s):** Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.  
Needs Permission to Enroll: No  
Special Fee Applied: No

GE UD D (cl) (d)

• **ML 3003 - Contemporary Spain: Culture and Society**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Synthesis of the cultural characteristics of contemporary Spain in the 20th and 21st centuries. Overview of the people, events, cultural and political issues that have shaped the country since the beginning of the 20th century to present, including conceptions of gender, ethnicity, and race. No knowledge of Spanish required. Class taught in English.  
Hours per Week: 3 lecture hour(s).  

Grading: ABCDF  
Mode of Delivery: Online  
Campus: Main Campus

**Prerequisite(s):** Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.  
Needs Permission to Enroll: No  
Special Fee Applied: No

GE UD D (d)

• **ML 3009 - Mexico City in Contemporary Mexican Cinema (also listed as CLS 3009)**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** This class analyzes how Mexican filmmakers have used Mexico City as a vehicle for exploring such issues as gender roles, social imaginaries, political and police corruption, and ethnic and social identities.  
Hours per Week: 3 lecture hour(s).
• **ML 3123 - World Popular Fiction**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Study of works mystery, detective fiction, horror, science fiction, adventure, and fantasy from around the world.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
Needs Permission to Enroll: No
Special Fee Applied: No

GE UD C (d)

• **ML 3222 - Evolution of Language**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: A survey of the main theories in the origin and evolution of human language faculty and languages. Relevant findings from linguistics, paleontology, evolutionary theories, complexity theory and anthropology are discussed.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
Needs Permission to Enroll: No
Special Fee Applied: No

• **ML 3300 - Cross-Cultural Issues in International Film**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Study of cross-cultural issues in international film from various countries. The class will focus on making connections between movies and the historical and societal concerns of their corresponding world regions.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
Needs Permission to Enroll: No
Special Fee Applied: No

GM UD C

ML 3540 - Special Topics in (a) Modern Language
(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 6

Course Description: Topics of special interest to students in modern languages as announced in Schedule of Classes.
Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): As needed for specific topic.
Needs Permission to Enroll: No
Special Fee Applied: No

ML 3541 - Special Topics in (a) Modern Language
(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 4

Course Description: Topics of special interest to students in modern languages as announced in Schedule of Classes.
Hours per Week: 3 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): As needed for specific topic. Topics of special interest to students in modern languages as announced in Schedule of Classes.
Needs Permission to Enroll: No
Special Fee Applied: No

ML 3820 - Maturity and Aging in World Literatures and Film
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Critical examination and comparison of the themes of maturity, aging and human development in world literatures and film.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
Needs Permission to Enroll: No
Special Fee Applied: No

GE UD C (d)

• ML 3990 - Directed Reading

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 6

Course Description: Readings in a modern language about topics of interest to student under direction of faculty member; regular oral and/or written reports in the language.
Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Consent of adviser.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

• ML 4000 - Senior Thesis in Modern Languages and Literatures

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Research, writing, revising, and presentation of senior/capstone paper in major. Grade of C or better in this course satisfies the Graduation Writing Assessment Requirement.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No
ML 4100 - Chicana and Mexican Women Writers (also listed as WGSS 4100)  

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Class discussions and instruction in English. Comparative study of contemporary Mexican and Chicana female writers with a focus on gender and sexuality issues, and their particular historical and cultural context.  
Hours per Week: 3 lecture hour(s).  
Grading: ABC-/NC (Undergraduate Only)

Needs Permission to Enroll: No
Special Fee Applied: No

MUS 1031 - Class Piano Instruction I
(1)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1
Course Description: Level 1 class instruction in piano, including scales, chords, sight reading, harmonization, improvisation, transposition, and repertoire.
Hours per Week: 2 activity hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): Ability to read music.
Needs Permission to Enroll: No
Special Fee Applied: No
• MUS 1032 - Class Piano Instruction II

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Level 2 class instruction in piano, including scales, chords, sight reading, harmonization, improvisation, transposition, and repertoire.
Hours per Week: 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 1031 or equivalent.
Needs Permission to Enroll: No
Special Fee Applied: No

• MUS 1151 - Strings

(1)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 4

Course Description: Instruction in technique, repertoire, literature, and pedagogy for students of violin, viola, cello, bass, acoustic guitar, electric guitar, electric bass, and harp.
Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Students admitted by audition only.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

• MUS 1152 - Strings

(2)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 2

Course Description: Students admitted by audition only. Instruction in technique, repertoire, literature, and pedagogy for students of violin, viola, cello, bass, acoustic guitar, electric guitar, electric bass, and harp.
Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
• MUS 1161 - Woodwinds

(1)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 4

Course Description: Instruction in technique, repertoire, literature, and pedagogy for students of flute, oboe, bassoon, clarinet, and saxophone.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Students admitted by audition only.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

  **Course Description:** Private instruction in the ever-evolving use of today’s music technology.  
  **Hours per Week:** N/A lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus
• MUS 2192 - Applied Music Commercial Music

(2)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 2

Course Description: Private instruction in the ever-evolving use of today's music technology.

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 1191 or jury examination.
Needs Permission to Enroll: No
Special Fee Applied: No

• MUS 2300 - Elementary Voice Instruction

(2)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 2

Course Description: Primarily for students not majoring in music. Technique of voice production, study of song interpretation, emphasis upon recreational singing, some attention to elementary musicianship and remedial problems.

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• MUS 2341 - Diction for Singers I: Italian, English, Spanish

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Introduction to International Phonetics Alphabet: its symbols, sounds, and its application to Italian, English and Spanish language through lectures, listening, speaking, translating and transcribing song texts.

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
MUS 2342 - Diction for Singers II: German and French
(2)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Thorough study of phonemes of German and French language via phoneticization (I.P.A.), vocalization, and interpretive expression of text. Application to song and operatic repertoire with open-class recital at conclusion of semester. Lecture 1 hour, Activity 2 hours.
Hours per Week: 1 lecture hour(s).

MUS 2351 - Voice

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 4

Course Description: Instruction in technique, repertoire, literature, and pedagogy for students of voice.
Hours per Week: N/A lecture hour(s).

MUS 2352 - Voice
(2)
This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 2
Course Description: Instruction in technique, repertoire, literature, and pedagogy for students of voice.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): For students in BM degree program, MUS 1352 or jury examination.
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 2451 - Piano
(1)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 4

Course Description: Instruction in technique, repertoire, literature, and pedagogy for students of piano.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 1451 or jury examination.
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 2452 - Piano
(2)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 2

Course Description: Instruction in technique, repertoire, literature, and pedagogy for students of piano.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): For students in BM degree program, MUS 1452 or jury examination.
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 2630 - Introduction to Composition
(2)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 2

Course Description: Rudimentary skill in music composition including short works for instrumental duo and accompanied voice. Introduction to recent compositional practices.
Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 1012, MUS 1022 or instructor approval.
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 2701 - History of Western Classical Music (Medieval to Baroque)
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Survey of musical style in classical music from ancient Greece to the end of the Baroque. Emphasis on understanding the function of music within its culture.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None Corequisite(s): MUS 3400 or MUS 4870
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 3121 - String Methods

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Development of performance proficiencies on violin, viola, cello, and double bass. Emphasis on instrument pedagogy.
Hours per Week: 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
• MUS 3122 - Woodwind Methods

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Development of performance proficiencies on flute, oboe, clarinet, saxophone, and bassoon. Emphasis on instrument pedagogy. Activity 2 hours.
Hours per Week: 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

• MUS 3123 - Brass Methods

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Development of performance proficiencies on all brass instruments. Emphasis on instrument pedagogy.
Hours per Week: 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 1011, MUS 1012, MUS 1021, MUS 1022

• MUS 3124 - Percussion Methods

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Development of performance proficiencies on all major concert percussion instruments. Drum set and world percussion will be introduced. Emphasis on instrument pedagogy.
Hours per Week: 2 activity hour(s).

Grading: ABCDF
• MUS 3125 - Guitar Methods

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Development of performance proficiencies on classical guitar. Emphasis on instrument pedagogy.

Hours per Week: 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

• MUS 3151 - Strings

(1)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 4

Course Description: Instruction in technique, repertoire, literature, and pedagogy for students of violin, viola, cello, bass, acoustic guitar, electric guitar, electric bass, and harp.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 2151 or jury examination.
Needs Permission to Enroll: No
Special Fee Applied: No

• MUS 3152 - Strings

(2)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 2

Course Description: Instruction in technique, repertoire, literature, and pedagogy for students of violin, viola, cello, bass, acoustic guitar, electric guitar, electric bass, and harp.
Hours per Week: N/A lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): For students in BM degree program, MUS 2152 or jury examination.
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 3161 - Woodwinds

(1)
This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 4

Course Description: Instruction in technique, repertoire, literature, and pedagogy for students of flute oboe, bassoon, clarinet, and saxophone.
Hours per Week: N/A lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 2161 or jury examination.
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 3162 - Woodwinds

(2)
This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 2

Course Description: Instruction in technique, repertoire, literature, and pedagogy for students of flute, oboe, bassoon, clarinet, and saxophone. Maybe repeated up to 4 units.
Hours per Week: N/A lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): For students in BM degree program, MUS 2162 or jury examination.
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 3171 - Brass

(1)
This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 4

Course Description: Instruction in technique, repertoire, literature, and pedagogy for students of trumpet, French horn, trombone, baritone, and tuba.
Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 2171 or jury examination.
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 3172 - Brass

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 2

Course Description: Instruction in technique, repertoire, literature, and pedagogy for students of trumpet, French horn, trombone, baritone, and tuba.
Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): For students in BM degree program. MUS 2172 or jury examination.
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 3181 - Percussion

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 4

Course Description: Instruction in technique, repertoire, literature, and pedagogy for students of snare drum, mallet instruments, multiple percussion, timpani, and Latin percussion.
Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 2181 or jury examination.
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 3182 - Percussion
MUS 3191 - Applied Music - Commercial Music

This course is repeatable: Yes  
Max # of units may be repeated: 1  
Total # of units allowed for credit: 2  
Max times this course can be taken for credit: 2

Course Description: Private instruction in the ever-evolving use of today's music technology.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Students admitted by audition only.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

MUS 3192 - Applied Music - Commercial Music

This course is repeatable: Yes  
Max # of units may be repeated: 2  
Total # of units allowed for credit: 4  
Max times this course can be taken for credit: 2

Course Description: Students admitted by audition only. Private instruction in the use of today’s music technology.

Hours per Week: N/A lecture hour(s).

Needs Permission to Enroll: No
Special Fee Applied: No

MUS 3681 - Jazz Improvisation I

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Basic improvisation technique, including scales, chords, simple harmonic progressions, and standard blues literature characteristic of jazz idiom. Lecture 1 hour, Activity 2 hours.

Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
MUS 3682 - Jazz Improvisation II

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Continuation of development of improvisational techniques with emphasis on standard jazz literature. Lecture 1 hour, Activity 2 hours.
Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 3681
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 3800 - Beginning Conducting

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Discussion of the conductor's role and responsibilities; Basic study of baton techniques, audiation, score study, expressive gestures and performance practice utilizing suitable choral and instrumental literature. Lecture 1 hour, Activity 2 hours.
Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 2012, MUS 2022
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 3840 - Introduction to Music Composition for Media

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Introduction to the techniques of contemporary commercial songwriting and composing music for film, television, and gaming.
Hours per Week: 2 lecture hour(s).
• **MUS 3860 - Introduction to Recording**

(2)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 2  
Max times this course can be taken for credit: 1

Course Description: Introduction to the fundamentals of recording, including: the physics of sound, transducers, gain structure, routing and processing, effects, and the basics of mixing. History of recording technology. Lecture 1 hour, Activity 2 hours.

Hours per Week: 1 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus  
Prerequisite(s): MUS 2021, MUS 3660  
Needs Permission to Enroll: No

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
Needs Permission to Enroll: No
Special Fee Applied: No

• MUS 4030 - Musicians' Health

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Maintenance of hearing, vocal, and musculoskeletal health and injury prevention within the context of practicing, performance, teaching and listening to music.
Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• MUS 4050 - Approaches to Piano Teaching

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Practical procedures for teaching piano from preschool child to adult level. Methods and materials for group and individual teaching.
Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 2032 or MUS 2033
Needs Permission to Enroll: No
• MUS 4071 - Instrumental Techniques

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Comparison of ideas and practices relevant to the teaching of instrumental music at the secondary school levels. Observation and participation in laboratory provided. Service Learning Component required.

Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Departmental approval.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

• MUS 4072 - Marching Band Techniques

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Comparison of ideas and practices relevant to the teaching of Marching Band at the high school level. Observation and participation in laboratory provided.

Hours per Week: 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• MUS 4073 - Mariachi Techniques

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Ideas and practices relevant to the teaching of a Mariachi Ensemble. Includes instrument knowledge, social, historical and cultural contexts of ensembles, and performance practice.

Hours per Week: 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
MUS 4080 - Choral Techniques

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Choral Techniques is a course designed to help preparing the music education student to become an effective and successful choral music educator. This course focuses on classroom and rehearsal management, program building, planning and curriculum development, effective rehearsal techniques and strategies, choral arrangement, and repertoire selection.

Hours per Week: 1 lecture hour(s).

Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Consent of major professor. Senior level standing in applied music study. Corequisite(s): One of the following: MUS 4151, MUS 4161, MUS 4171, MUS 4351, MUS 4451.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

• MUS 4449 - Commercial Music Ensemble

This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

Course Description: Rehearsal and performance of commercial songs and material.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

• MUS 4451 - Piano

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 4

Course Description: Instruction in technique, repertoire, literature, and pedagogy for students of piano.
Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Campus: Main Campus

Prerequisite(s): MUS 3451 or jury examination.
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 4452 - Piano

(2)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 2

Course Description: Instruction in technique, repertoire, literature, and pedagogy for students of piano.
Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): BM degree program student, MUS 3452 or jury examination.
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 4470 - Accompanying

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Training in performance styles and genres of different periods and combinations of performers and in the specific tasks of accompanying. Guided rehearsals and performances with emphasis on proper style, technique, and interpretation.
Hours per Week: 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

MUS 4480 - Live Concert Recording

(2)

This course is repeatable: No
Max # of units may be repeated: 0
**MUS 4520 - History of Jazz**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Nature and processes of jazz with concentration on its historical background and development in the U.S., and its resultant impact on culture and music worldwide.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

---

**MUS 4540L - Special Topics in Music**

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 8
Total # of units allowed for credit: 9
Max times this course can be taken for credit: 9

Course Description: Selected topics reflecting specific issues, problems, and interests in music, as announced in Schedule of Classes.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Upper division standing, specific prerequisites subject to course content.
Needs Permission to Enroll: No
Special Fee Applied: No

---

**MUS 4540P - Special Topics in Music**

(1-3)
MUS 4580 - Music of Latin America

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Development of understanding of and appreciation for music of Latin America; examination of representative works from folk and art music of the twenty republics.

Hours per Week: 3 lecture hour(s).

MUS 4600 - Composition

This course is repeatable: Yes
Max # of units may be repeated: 9
Total # of units allowed for credit: 12
Max times this course can be taken for credit: 4

Course Description: Writing for small instrumental and/or vocal ensembles. At least 9 units must be completed in advance of the senior recital.

Hours per Week: 3 lecture hour(s).
MUS 4601 - Applied Composition

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 2

Course Description: Individual instruction in composition for upper division music composition majors.
Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): At least two semesters of MUS 4600, permission of instructor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

MUS 4602 - World Music Applications

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 2

Course Description: Specific methods of improvisation and composition from world styles including Arabic, Flamenco, Indian, Japanese, Chinese, and Indonesian music. May be repeated to a maximum of 4 units.
Hours per Week: 4 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 1500, consent of instructor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

MUS 4620 - Advanced Orchestration and Arranging

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Study of advanced techniques of writing for instruments in combination as found in the scores of 20th Century orchestral masters, including Debussy, Ravel, Stravinsky, Bartok, Boulez and Williams.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 3620
Needs Permission to Enroll: No
Special Fee Applied: No
MUS 4630 - Counterpoint

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Structural and procedural analysis of species and tonal counterpoint, and writing short contrapuntal composition projects.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 2012 or Instructor approval.
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 4640 - Musical Form

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis of the organizational structures in music.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 2012, MUS 2022 (or instructor approval)
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

MUS 4650 - Contemporary Techniques

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Study of advanced analytical and compositional techniques of music written from 1900 to present. Meets 3 times a week.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 2012, MUS 2022
MUS 4661 - Jazz Arranging: Beginning

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Basic arranging techniques. Emphasis on arranging for small jazz ensembles with practical writing experience. Will cover voicings, scoring practices, calligraphy and contemporary trends within the medium.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 3682
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 4662 - Jazz Arranging: Advanced

(2)

This course is repeatable: Yes
Max # of units may be repeated: 6
Total # of units allowed for credit: 9
Max times this course can be taken for credit: 3

Course Description: Advanced arranging techniques for jazz and studio orchestras, including use of extended forms, woodwind doubles and unusual meter.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 4661
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 4670 - Music Composition for Media

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Techniques used in composing music for media; practical writing experience. All aspects of the film & television scoring process will be covered.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
- **MUS 4680 - Jazz Pedagogy**
  (2)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 2
  Max times this course can be taken for credit: 1
  
  Course Description: Techniques and materials for teaching jazz improvisation, jazz arranging, jazz history, and jazz ensemble.
  Hours per Week: 2 lecture hour(s).

- **MUS 4700 - History and Literature of Opera**
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  
  Course Description: History and literature of opera from Baroque to present, with focus on opera as a reflection of the fundamental values of the society in which it has flourished. Discussion and analysis of representative opera texts, scores, recordings, videos, and live performance.
  Hours per Week: 3 lecture hour(s).

- **MUS 4711 - Choral Literature I**
  (2)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 2
  Max times this course can be taken for credit: 1
Course Description: Study of Choral literature and development of large vocal forms to 1750; discussion and analysis of representative works including masses, cantatas, and oratorios.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 3800, MUS 4800
Needs Permission to Enroll: No
Special Fee Applied: No

---

MUS 4712 - Choral Literature II

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Study of Choral literature and development of large vocal forms after 1750; discussion and analysis of representative works including masses, cantatas, and oratorios.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 2701, MUS 2702
Needs Permission to Enroll: No
Special Fee Applied: No

---

MUS 4720 - History and Literature of Vocal Solo Music

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Development of solo song from Baroque to present; discussion and analysis of representative art songs and vocal chamber music.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 2701, MUS 2702
Needs Permission to Enroll: No
Special Fee Applied: No

---

MUS 4730 - History and Literature of Symphonic Music

(3)

This course is repeatable: No
MUS 4740 - History and Literature of Chamber Music

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Development of instrumental chamber music from Renaissance to present; discussion and analysis of representative works.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 2701, MUS 2702
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 4750 - History and Literature of Keyboard Music

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Development of keyboard music from Renaissance to present; discussion and analysis of representative keyboard scores.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 2701, MUS 2702, or graduate standing.
Needs Permission to Enroll: No
Special Fee Applied: No
MUS 4770 - History and Literature of Wind Band in U.S.  
(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: History and literature of the wind band in the United States; emphasis on the twentieth century. Analysis of both musical contributions and historical context. Includes both Written and Oral examination.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): Departmental approval.  
Needs Permission to Enroll: Yes, Department Consent  
Special Fee Applied: No

MUS 4790 - Music Theory Review  
(2)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 2  
Max times this course can be taken for credit: 1

Course Description: Review of diatonic and chromatic harmony and voice leading, analysis of music in a variety of genres and styles. Meets face to face or via online delivery.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face, Online  
Campus: Main Campus

Prerequisite(s): Upper division standing; placement based on results of the Music Theory Placement Exam, or instructor approval  
Needs Permission to Enroll: Yes, Instructor Consent  
Special Fee Applied: No

MUS 4800 - Choral Conducting  
(2)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 2  
Max times this course can be taken for credit: 1

Course Description: Study of conducting technique based on score study, audiation, gestural function, and performance practice. Students will have significant podium time to explore these principles in both the contexts of choral rehearsal and performance.

Hours per Week: 1 lecture hour(s), 2 activity hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): MUS 3800  
Needs Permission to Enroll: No  
Special Fee Applied: No
- MUS 4810 - Instrumental Conducting

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Experience offered in transposition, score reading, baton technique, and interpretation of instrumental literature; recognition of effective rehearsal procedure.
Hours per Week: 1 lecture hour(s), 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 3800
Recommended: MUS 3120
Needs Permission to Enroll: No
Special Fee Applied: No

- MUS 4840 - Commercial Songwriting

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Techniques of songwriting. Melodic, harmonic writing with lyrics in the context of contemporary commercial music.
Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 2021, MUS 3620, (MUS 3660 or equivalent)
Needs Permission to Enroll: No
Special Fee Applied: No

- MUS 4859 - Chamber Music

(1)

This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

Course Description: Study and performance of selected works from the duo, trio, quartet, or larger chamber ensemble literature.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
• MUS 4860 - Recording Techniques

(2)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 2

Course Description: Advanced instruction in microphone technique, gain structure, imaging, editing, and effects.
Hours per Week: 4 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 3860 or equivalent experience.
Needs Permission to Enroll: No
Special Fee Applied: No

• MUS 4870 - Senior Project

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Project in lieu of a recital for students enrolled in the Bachelor of Arts, General Option. The project is selected in consultation with the major adviser.
Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None Pre/Co-requisite(s): MUS 1012, MUS 2702
Needs Permission to Enroll: No
Special Fee Applied: No

• MUS 4880 - Music Technology II

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Continuing course in computer usage, computer sequencing and notation. Focus on Finale notation and Logic Pro DAW software.
Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
MUS 4881 - Music Technology III
(2)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1
Course Description: Music composition and arranging utilizing MOTU’s Digital Performer and AVID’s Pro Tools.
Hours per Week: 2 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): MUS 4880, permission of instructor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

MUS 4885 - Music Synthestration and Synthesis
(2)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1
Course Description: Studies the use of software synthesizers and samplers to create finished scores; both alone and in conjunction with acoustic instruments.
Hours per Week: 2 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): MUS 4881, permission of instructor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

MUS 4886 - Studio Practicum
(2)
This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 2
Course Description: A real-world studio environment where students from the disciplines of songwriting, performance, arranging, production and engineering work together to produce professional-level content.
MUS 4890 - Instructional Technology for the Music Educator
(2)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1
Course Description: Computer applications for musicians, familiarity with available software, integrating computer technology into the music classroom and the development of a teaching module. Lecture and activity each meets an hour per week.

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 4940 - Kodaly Methodology Level I
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Philosophy and pedagogy of Zoltan Kodaly applied to American music education. Level I presents pedagogy for preschool through grade 2. Additional 15 contact hours required for national certification. Lecture and activity each meets 2 hours per week.

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): MUS 4010
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 4950 - Orff-Schulwerk Certification Level I
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Basic Orff pedagogy for working with pentatonics on do and la, beginning movement experiences and introduction to the soprano recorder. Follows AOSA guidelines for Level I certification. Lecture and activity each meets 2 hours per week.

Hours per Week: 2 lecture hour(s), 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 4010
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 4990 - Undergraduate Directed Study

This course is repeatable: Yes
Max # of units may be repeated: 8
Total # of units allowed for credit: 9
Max times this course can be taken for credit: 9

Course Description: Project selected in conference with sponsor before registration; progress meetings held regularly, and a final report submitted.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Consent of an instructor to act as sponsor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

Music (Graduate)

MUS 5000 - Research Techniques in Music

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Basic bibliography, survey of literature, methods of research in music and music education, and practice in organizing and reporting data, both oral and written.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graduate standing
Needs Permission to Enroll: No
Special Fee Applied: No
MUS 5020 - Seminar: Music Education

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Evaluation of research and various philosophies, methods, and trends in music education.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Baccalaureate with major in music education, at least one year of teaching experience.
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 5070 - Seminar: Vocal Techniques

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Seminar and critique on psychophysiological approach to vocal techniques. Designed for experienced teachers, soloists, and choir directors. Individual research and class demonstration.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Recommended MUS 3301, MUS 3302
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 5088 - Graduate Performance as Service in the Real World

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis of music from the Classical era to the present. Advanced analytical techniques applied to study of musical styles as related to period, genre, geographic region, and individual composers.

MUS 5303 - Popular Music Style Analysis

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: This class studies advanced analytical techniques and applies them to popular music styles as related to period, genre, and individual composers and performers.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

MUS 5351 - Applied Music: Voice
(1)
This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 6

Course Description: Private instruction at the graduate level in technique, repertoire, literature, and pedagogy.
Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Jury examination or audition.
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 5352 - Applied Music: Voice
(2)
This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 2

Course Description: Jury examination or audition. Private instruction at the graduate level in technique, repertoire, literature, and pedagogy.
Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): For students in MM degree programs.
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 5360 - Graduate Diction for Singers
(2)
This course is repeatable: No
MUS 5370 - Song Repertoire and Interpretation

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Survey of song literature with particular attention to the national styles of solo song with piano accompaniment from 1800 to the present. Emphasis on student performances of representative selections. Lecture 1 hour, activity 2 hours.

Hours per Week: 1 lecture hour(s), 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 5450 - The Business of Music

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: A comprehensive examination of current music business practice, including contracts, licensing, publishing, copyrights, social media, and rights organizations.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graduate standing.
Needs Permission to Enroll: No
Special Fee Applied: No
MUS 5460 - Seminar: Commercial Music
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Practical, theoretical, and philosophical approaches for achieving success as a professional musician/composer in the commercial music industry; emphasis on discourse with industry professionals in Los Angeles.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 5450 or instructor's consent.
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 5471 - Advanced Composition and Arranging for Contemporary Media I
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Composition and arranging in the context of modern record production. Form, harmony, elements of detail, application of color; writing for voice, guitar, bass, drums, percussion, keyboards, and orchestral instruments.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graduate standing.
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 5472 - Advanced Orchestration and Arranging for Contemporary Media II
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Composition, arranging and orchestration in the context of modern film and TV scoring.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graduate standing. (MUS 5471 or instructor's consent.)
Needs Permission to Enroll: No
Special Fee Applied: No
MUS 5480 - Advanced Orchestration and Arranging for Afro-Latin Ensembles
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Study of advanced arranging and orchestral techniques used in Afro-Latin music ensembles. Idiomatic writing for Afro-Latin percussion instruments.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 3620 or equivalent.
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 5491 - Applied Music: Keyboard Instruments
(1)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 4

Course Description: Private instruction at the graduate level in technique, repertoire, literature, and pedagogy.
Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Jury examination or audition.
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 5492 - Applied Music: Keyboard Instruments
(2)

This course is repeatable: Yes
Max # of units may be repeated: 6
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 4

Course Description: Jury examination or audition. Private instruction at the graduate level in technique, repertoire, literature, and pedagogy.
Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): For students in MM degree programs.
Needs Permission to Enroll: No
• MUS 5510 - Music Practicum

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Integrated theoretical and practical approaches to rehearsal and performance issues in graduate instrumental or vocal music.

Hours per Week: 2 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graduate standing in music or instructor approval.
Needs Permission to Enroll: No
Special Fee Applied: No

• MUS 5520 - Music Internship

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 11
Total # of units allowed for credit: 12
Max times this course can be taken for credit: 4

Course Description: Graduate internships in professional music environments, including: commercial music; music: production; music management; music education; or collaborative music-making (on or off campus).

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graduate standing, instructor approval.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

• MUS 5570 - Seminar: Afro-Latin Music

(3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Study of practical, theoretical and philosophical topics concerning Afro-Latin music; emphasis on discourse with professional musicians in Los Angeles.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
MUS 5580 - Histories and Literature of Afro-Latin Music

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Study of representative composers and music from the various Afro-Latin cultures. The course includes stylistic, formal, and thematic score analysis of representative works from the music literature.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

MUS 5590 - The Roots of American Rock and Pop Music

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This class traces the musical legacy of rock and popular music and covers the development of this music in the United States from the mid-1800s to the present.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

MUS 5600 - Advanced Composition

This course is repeatable: Yes
Max # of units may be repeated: 4
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 3

Course Description: Advanced compositional techniques for small or large ensembles.
MUS 5610 - Applied Commercial Composition
(2)
This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 4

Course Description: Applied music for Commercial Music majors with graduate standing. Advanced private instruction in the areas of scoring, songwriting, arranging and/or record production.

MUS 5680 - Seminar: Performance
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Student performance with critiques highlighting stylistic, aesthetic, and practical components that influence musical performance; artist performances (taped or live) and critiques; preparation of graduate recital.

MUS 5690 - Seminar: Advanced Composition
(3)
This course is repeatable: Yes
Max # of units may be repeated: 1
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

**Course Description:** Philosophies and aesthetic theories involved in contemporary music; compositional problems and projects of an advanced nature intended to synthesize previous creative skills and techniques.

**Hours per Week:** 0 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** MUS 5000, MUS 5600

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**MUS 5720 - Music of Baroque Period**

(3)

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 3

Max times this course can be taken for credit: 1

**Course Description:** History and analysis of music of the Baroque period in the context of Baroque ideals and aesthetics

**Hours per Week:** 0 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** MUS 5000, graduate standing.

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**MUS 5730 - Music of Classic Period**

(3)

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 3

Max times this course can be taken for credit: 1

**Course Description:** History and analysis of music of the Classical period in the context of Enlightenment beliefs and aesthetics.

**Hours per Week:** 0 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** MUS 5000, graduate standing.

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**MUS 5740 - Music of Romantic Period**

(3)

This course is repeatable: No
MUS 5750 - 20th and 21st Century Music

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Characteristics of early 20th century music from 1900 to 1970; analysis of representative works; music in relation to early 20th century arts and society.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 5000, graduate standing.
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 5830 - Seminar: Conducting

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Conducting topics; study of literature, analytical procedures, and rehearsal techniques applicable to choral and instrumental conducting.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 4800 or MUS 4810
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 5860 - Kodaly Methodology Level II
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Philosophy and pedagogy of Zoltan Kodaly applied to American music education. Level II presents pedagogy for grades 3-5. Additional fifteen contact hours required for national certification. Lecture and activity each meets 2 hours per week.

Hours per Week: 2 lecture hour(s). 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 4940
Needs Permission to Enroll: No
Special Fee Applied: No

MUS 5870 - Orff-Schulwerk Certification Level II

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Basic Orff pedagogy for working with modal music, folk dance in 5 and 7 meters and introduction to the alto recorder. Follows AOSA guidelines for Level II certification. Lecture and activity each meets 2 hours per week.

Hours per Week: 2 lecture hour(s). 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 4950
Needs Permission to Enroll: No
Special Fee Applied: No
### Course Descriptions

**Notes:**

- All 4000-level courses may be applied toward master's degree requirements, subject to limits established by the department and approval of the graduate adviser.
- Classified graduate standing is required for enrollment in 5000-level courses; exception applies to students who are enrolled in a postbaccalaureate certificate or credential program.

**Music (Graduate)**

- **MUS 5880 - Kodaly Methodology Level III**

  *(3)*

  **This course is repeatable:** No  
  **Max # of units may be repeated:** 0  
  **Total # of units allowed for credit:** 3  
  **Max times this course can be taken for credit:** 1

  **Course Description:** Philosophy and pedagogy of Zoltan Kodaly applied to American music education. Level III presents pedagogy for middle school and high school instruction. Additional fifteen contact hours required for national certification. Lecture and activity each meets 2 hours per week.  
  **Hours per Week:** 2 lecture hour(s). 2 activity hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** MUS 5860  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No
• MUS 5890 - Orff-Schulwerk Certification Level III

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Orff pedagogy for major-minor, the addition of tenor and bass recorders and a teaching practicum of original music and movement. Follows AOSA guidelines for Level III certification. Lecture and activity each meets 2 hours per week.

Hours per Week: 2 lecture hour(s), 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 5870
Needs Permission to Enroll: No
Special Fee Applied: No

• MUS 5920 - Advanced Film Scoring, Songwriting and Music Production

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Intensive scoring, songwriting, and music production techniques for students with previous experience and enhanced sound and production skills.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MUS 4670, MUS 4840, MUS 4881
Needs Permission to Enroll: No
Special Fee Applied: No

• MUS 5960 - Comprehensive Examination

(0)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 0
Max times this course can be taken for credit: 1

Course Description: See the Comprehensive Examination under the University Requirements for Master's Degree in this eCatalog.

Hours per Week: 0 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Advancement to Candidacy
Needs Permission to Enroll: No
Special Fee Applied: No
- **MUS 5980 - Graduate Directed Study**

  (1-3)

  This course is repeatable: Yes  
  Max # of units may be repeated: 8  
  Total # of units allowed for credit: 9  
  Max times this course can be taken for credit: 9  

  **Course Description:** Independent study of advanced topics in field; regular conferences with sponsor.  
  **Hours per Week:** N/A lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus  

  **Prerequisite(s):** Instructor consent to act as sponsor.  
  **Needs Permission to Enroll:** Yes, Instructor Consent  
  **Special Fee Applied:** No

- **MUS 5990 - Thesis or Project**

  (1-3)

  This course is repeatable: Yes  
  Max # of units may be repeated: 2  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 3  

  **Course Description:** Independent research resulting in a thesis or project. Must be repeated up to 3 units.  
  **Hours per Week:** N/A lecture hour(s).

  **Grading:** CR/NC  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus  

  **Prerequisite(s):** Advancement to Candidacy. Instructor consent to act as sponsor, departmental approval of topic prior to registration.  
  **Needs Permission to Enroll:** Yes, Instructor Consent  
  **Special Fee Applied:** No

- **MUS 5995 - Project**

  (1-3)

  This course is repeatable: Yes  
  Max # of units may be repeated: 2  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 3  

  **Course Description:** Independent research or creative activity resulting in a project. Must be repeated up to 3 units.  
  **Hours per Week:** N/A lecture hour(s).

  **Grading:** CR/NC  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus  

  **Prerequisite(s):** Instructor consent to act as sponsor, departmental approval of topic prior to registration.  
  **Needs Permission to Enroll:** Yes, Instructor Consent  
  **Special Fee Applied:** No
Natural and Social Sciences (Undergraduate)

- NSS 1001 - Introduction to Higher Education
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  
  Course Description: Introduces critical thinking, information literacy, university resources, civic engagement, and academic planning for student success.
  Hours per Week: 3 lecture hour(s).
  
  Grading: ABC-/NC (Undergraduate Only)
  Mode of Delivery: Face to Face
  Campus: Main Campus

- NSS 1100 - Astrobiology- Physical and Chemical Requirements of Extraterrestrial Life, Astrobiology
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  
  Course Description: The search for life in the universe. Conditions for life, life at the extremes, habitable zones, life in our Solar System and beyond, interstellar travel. Lecture 2 hours, laboratory 3 hours.
  Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).
  
  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

- NSS 1200 - Water and Life in the Los Angeles Basin
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
Course Description: Introductory geology and biology, the interaction of biological and ecological systems with the earth and the water cycle; social dimensions of water use in the LA Basin. Lecture 2 hours, laboratory 2 hours; two one-day field trips.

Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE B3

- **NSS 1300 - Bioclimatology**
  
  (3)
  
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: This course introduces scientific evidence and theory for global climate change and its impacts on terrestrial biological systems. Lecture, 2 hrs per week; Laboratory, 3 hrs per week.

  Hours per Week: 2 lecture hour(s), 3 laboratory hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: No

  GE B3

- **NSS 3010 - Transition to Cal State L.A. for Natural and Social Science Majors**
  
  (1)
  
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 1
  Max times this course can be taken for credit: 1

  Course Description: Exploration of skills and resources that will help the transfer student attain degree objectives. This course fulfills the University requirement for an introduction to higher education course for transfer students. NiS account required.

  Hours per Week: 1 lecture hour(s).

  Grading: ABC-/NC (Undergraduate Only)
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): None
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **NSS 3540 - Special Topics**
This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 4

**Course Description:** Topics of special interest to wide university audience as announced in Schedule of Classes. May be repeated for credit as topic changes.

**Hours per Week:** 1 lecture hour(s).

**Grading:** ABCDF
**Mode of Delivery:** Face to Face
**Campus:** Main Campus

**Prerequisite(s):** Varies with topic. 
**Needs Permission to Enroll:** No
**Special Fee Applied:** No

**NSS 4540 - Special Topics in Natural and Social Sciences**

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

**Course Description:** Current topics of special interest to students in Natural and Social Sciences, as announced in the Schedule of Classes. May be repeated to a maximum of 8 units for credit

**Hours per Week:** 1 lecture hour(s).

**Grading:** ABCDF
**Mode of Delivery:** Face to Face
**Campus:** Main Campus

**Prerequisite(s):** As needed for specific topic. 
**Needs Permission to Enroll:** No
**Special Fee Applied:** No

---

**Natural Science (Undergraduate)**

**NATS 1010 - Physical Science**

(3)

This course is repeatable: No
Max # of units may be repeated: 3
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

**Course Description:** Basic concepts in physics and chemistry such as motion, energy, electricity, and the properties and transformations of matter. Open to all non-science majors. Recommended for Elementary Subject Matter majors. Lecture 2 hours, laboratory 3 hours.

**Hours per Week:** 2 lecture hour(s). 3 laboratory hour(s).

**Grading:** ABCDF
**Mode of Delivery:** Face to Face, Hybrid
**Campus:** Main Campus

**Prerequisite(s):** None
NATS 1020 - Earth and Space Science
(3)

This course is repeatable: No
Max # of units may be repeated: 3
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Basic concepts in geology and astronomy such as earthquakes, volcanoes, geologic time, climate change, stars, comets, planets and galaxies. Open to all non-science majors. Recommended for Elementary Subject Matter majors. Lecture 3 hours, laboratory 3 hours.

Hours per Week: 3 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

NATS 3980 - Field Observations in Science Education
(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Early field experiences of science education in 9th-12th grade schools, activities conducted in the course correlate with content/concepts from the California standards for professional teacher preparation programs.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

NATS 4000 - Crosscutting Concepts in Natural Science
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Description: Basic concepts in physics and chemistry such as motion, energy, electricity, and the properties and transformations of matter. Open to all non-science majors. Recommended for Elementary Subject Matter majors. Lecture 3 hours.
**NATS 4100 - The Nature of Science**

3 units

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: The integration of the philosophy, history and sociology of science along with elements of the psychology of scientific observations in order to provide an accurate description of how science functions.

Hours per Week: 3 lecture hour(s).

**NATS 4200 - Cultures of Science (also listed as LBS 4200)**

3 units

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Interdisciplinary study of scientific cultures, epistemologies, and ideologies; examination of how science is represented in texts from literature, film, and TV.

Hours per Week: 3 lecture hour(s).

**NATS 4540 - Current Topics in Natural Science**

3 units

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Current topics of special interest in science and technology and their significance in current societal issues. Content varies; see Schedule of Classes for specific topic. May be repeated once for credit. Lecture 3 hours.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

- NATS 4950 - Natural Science Field Studies

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Interdisciplinary application of the concepts of science for field and laboratory studies of the physical and biological environments. Lecture 1 hours, Laboratory 6 hours.

Hours per Week: 1 lecture hour(s). 6 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of Natural Science core requirements and adviser approval.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

(wi) GWAR

- NATS 4960 - Natural Science Field Studies and Pedagogy

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Description: Design, propose, and conduct an interdisciplinary science field/laboratory project and present project findings in written and oral formats. Create a related secondary instructional unit and peer-teach selected lessons. Strategies, objectives, and methods in the teaching of science in the urban setting. Lecture 1 hour, Laboratory 6 hours.

Hours per Week: 1 lecture hour(s). 6 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of the Natural Science core requirements, and approval of the Natural Science adviser.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

(wi)
• **NURS 1100 - Fundamentals of Nursing**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 0

**Course Description:** Introduction to professional nursing and the nursing process with a focus on therapeutic communication and the older adult. Emphasis on diverse patients experiencing fluid/electrolyte, and endocrine dysfunction.  
**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face, Hybrid  
**Campus:** Main Campus

**Prerequisite(s):** Admission to the Basic Pre-Licensure nursing program. Co- Requisites: NURS 1150, NURS 2720, NURS 2730

**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

---

• **NURS 1150 - Fundamentals of Nursing Clinical Laboratory**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** 65 hours of simulated/practical laboratory and 70 hours of clinical experience caring for adults and older adults with electrolyte and endocrine disorders applying nursing fundamental theoretical concepts of professional nursing practice and therapeutic communication.  
**Hours per Week:** 9 laboratory hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** None  
**Corequisite(s):** NURS 1100

**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

• **NURS 2160 - Nursing Care of Women, Child-bearing Families and Infants**

(2)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 2  
Max times this course can be taken for credit: 0

**Course Description:** Assessment and clinical management of women, childbearing families and infants.  
**Hours per Week:** 2 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face, Hybrid  
**Campus:** Main Campus
NURS 2170 - Nursing Care of Women, Child-bearing Families and Infants Lab

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Nursing care of women, childbearing families, and infants based on analysis of self-care requirements.
Hours per Week: 6 laboratory hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

NURS 2200 - Nursing Care of Children

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 0

Course Description: Nursing care of children emphasizing health promotion and common health disturbances.
Hours per Week: 2 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus

NURS 2210 - Nursing Care of Children Clinical Laboratory

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Clinical experience with children and their families in various settings emphasizing health promotion and common health deviations.
Hours per Week: 6 laboratory hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): NURS 2300, NURS 2310, SOC 2010  Corequisite(s): NURS 2200
Needs Permission to Enroll: No
Special Fee Applied: No

- **NURS 2300 - Medical Surgical Nursing I**
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 0
  
  **Course Description:** Nursing assessment and management of adults and older adults experiencing oto-opthalmic, cardiac, respiratory, integumentary, musculoskeletal, peripheral vascular, hematologic and gastrointestinal dysfunction. Includes perioperative care.
  **Hours per Week:** 3 lecture hour(s).
  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face, Hybrid
  **Campus:** Main Campus

  Prerequisite(s): NURS 1100, NURS 1050, NURS 2720, Co-requisite: NURS 2500, NURS 3600
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **NURS 2310 - Medical Surgical Nursing Clinical Laboratory I**
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  
  **Course Description:** Simulated/practical clinical experience for the acute care of adults/older adults with cardiovascular, respiratory, hematologic, perioperative, sensory, musculoskeletal, and gastrointestinal disorders including the administration of medications and intravenous therapies.
  **Hours per Week:** 9 laboratory hour(s).
  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face
  **Campus:** Main Campus

  Prerequisite(s): None  Corequisite(s): NURS 2300
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **NURS 2500 - Introduction to Pathophysiology for Nursing Practice**
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 0
Course Description: Basic concepts of pathophysiologic alterations throughout the lifespan including cellular function and growth; integrative body functions. Beginning understanding of the pathophysiological rationale for nursing interventions.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus

Prerequisite(s): Admission to the Nursing Program.
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 2540 - Selected Topics in Nursing

(1-4)
This course is repeatable: Yes
Max # of units may be repeated: 17
Total # of units allowed for credit: 18
Max times this course can be taken for credit: 18

Course Description: Current topics of special interest to nursing students, as announced in Schedule of Classes. May be repeated for credit.

Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): As needed for specific topic.
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 2545 - Selected Topics in Nursing

(1-4)
This course is repeatable: Yes
Max # of units may be repeated: 17
Total # of units allowed for credit: 18
Max times this course can be taken for credit: 18

Course Description: Current topics of special interest to nursing students, as announced in Schedule of Classes. May be repeated for credit.

Hours per Week: 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): As needed for specific topic.
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 2720 - Introduction to Health Assessment and Promotion Across the Life Span

(2)
This course is repeatable: No
Max # of units may be repeated: 2
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Required of Generic students only. Introduction to health assessment including: Vital sign assessment, history taking, physical assessment and examination and diagnostic testing, health promotion and patient education.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus

Prerequisite(s): Admission to the Nursing program. Co-requisites: NURS 1100, NURS 1150, NURS 2730
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 2730 - Introduction to Health Assessment and Promotion Across The Life Span Laboratory

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Required of Generic students only. Clinical demonstration and practice of vital sign assessment, history taking, physical assessment techniques and examination, diagnostic testing, health promotion, and patient education.

Hours per Week: 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None Corequisite(s): NURS 2720
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 3070 - Physiology and Psychology of Violence and Aggression (also listed as PSY 3070)

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Biological and psycho-behavioral approaches to violent individuals; analysis of and research support for understanding the role diversity plays in intercultural and intergroup violence drawn from natural, medical and behavioral sciences.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
Needs Permission to Enroll: No
Special Fee Applied: No

GE UD B (d)
• **NURS 3080 - Psychophysiology of Substance Abuse and Violence**

   (3)

   **This course is repeatable:** No  
   **Max # of units may be repeated:** 0  
   **Total # of units allowed for credit:** 3  
   **Max times this course can be taken for credit:** 1

   **Course Description:** Physiological effects of abused substances; examination of connection between substance abuse and violent behavior.  
   **Hours per Week:** 3 lecture hour(s).

   **Grading:** ABCDF  
   **Mode of Delivery:** Face to Face  
   **Campus:** Main Campus

   **Prerequisite(s):** Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.  
   **Needs Permission to Enroll:** No  
   **Special Fee Applied:** No

• **NURS 3100 - Medical Surgical Nursing II**

   (3)

   **This course is repeatable:** No  
   **Max # of units may be repeated:** 0  
   **Total # of units allowed for credit:** 3  
   **Max times this course can be taken for credit:** 0

   **Course Description:** Principles of advanced nursing care of high acuity hospitalized adults and older adults experiencing acute cardiac, pulmonary, neurological, renal, integumentary/immune and/or multisystem failure and dysfunction.  
   **Hours per Week:** 3 lecture hour(s).

   **Grading:** ABCDF  
   **Mode of Delivery:** Face to Face, Hybrid  
   **Campus:** Main Campus

   **Prerequisite(s):** NURS 1100, NURS 1150, NURS 2300, NURS 2310. Co-requisites: NURS 3110  
   **Needs Permission to Enroll:** No  
   **Special Fee Applied:** No

• **NURS 3110 - Medical Surgical Nursing Clinical Laboratory II**

   (3)

   **This course is repeatable:** No  
   **Max # of units may be repeated:** 0  
   **Total # of units allowed for credit:** 3  
   **Max times this course can be taken for credit:** 1

   **Course Description:** Application of advanced theoretical and nursing care necessary for adults and older adults with complicated, acute and chronic neurological, integumentary, renal, neoplastic/immune, and/or multisystem failure and/or dysfunction.  
   **Hours per Week:** 9 laboratory hour(s).

   **Grading:** ABCDF  
   **Mode of Delivery:** Face to Face  
   **Campus:** Main Campus
**NURS 3180 - Nursing Care of Psychiatric Patients**

(2)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 2  
Max times this course can be taken for credit: 0

**Course Description:** Introduction to nursing practice in a variety of psychiatric care settings caring for patients with problems in social and psychological functioning.  
**Hours per Week:** 2 lecture hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face, Hybrid  
**Campus:** Main Campus

**Prerequisite(s):** NURS 2300, NURS 2310. Co-requisite: NURS 3190

**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

---

**NURS 3190 - Psychiatric Clinical Nursing Lab**

(2)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 2  
Max times this course can be taken for credit: 1

**Course Description:** Clinical experience in a variety of settings implementing the nursing process in the area of adult patient/clients demonstrating deficits in social and psychological functioning.  
**Hours per Week:** 6 laboratory hour(s).

**Grading:** ABCDF  
**Mode of Delivery:** Face to Face  
**Campus:** Main Campus

**Prerequisite(s):** NURS 2300, NURS 2310. Co-requisite: NURS 3180

**Needs Permission to Enroll:** No  
**Special Fee Applied:** No

---

**NURS 3200 - Fundamentals of Nursing**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

**Course Description:** Introduction to professional and clinical issues in nursing. Theoretical and conceptual approaches to nursing, the nursing process, basic nursing skills, communication, legal/ethical issues, culture and client education concepts.  
**Hours per Week:** 3 lecture hour(s).
NURS 3210 - Practicum: Fundamentals of Nursing

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Structured, clinical activities and experience focused on application of professional and care giver role including clinical skills, medication administration, and use of nursing process.

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): Admission to ABSN program. Corequisite(s): NURS 3210
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 3220 - Nursing Care of Adults and Older Adults

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Nursing process in the care of adults and older adults experiencing health deviations in various body systems and across diverse health care settings.

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): NURS 3200, NURS 3210
Corequisite(s): NURS 3230
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 3230 - Practicum: Nursing Care of Adults and Older Adults

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1
Course Description: Clinical practice in the care of adults and older adults experiencing health deviations across diverse health settings including application managed care and case management strategies.

Hours per Week: 12 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None  Corequisite(s): NURS 3220
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 3240 - Nursing Care of Women, Childbearing Families and Infants
(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Introduction to family nursing; assessment and nursing care of women, childbearing families and infants.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to ABSN program. Corequisite(s): NURS 3250
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 3250 - Practicum: Nursing Care of Women, Childbearing Families, and Infants
(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Clinical practice in the care of women and their families during the childbearing cycle.

Hours per Week: 6 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None  Corequisite(s): NURS 3240
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 3260 - Nursing Care of Children
(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Nursing care of children emphasizing health promotion and common health deviations.
Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to ABSN program. Corequisite(s): NURS 3270
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 3270 - Practicum: Nursing Care of Children

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Patient care experiences with children encountering common health deviations in various settings.
Hours per Week: 6 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None Corequisite(s): NURS 3260
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 3280 - Pathophysiology

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: The pathogenesis of clinical findings in health deviations, emphasis on pathophysiologic basis for nursing diagnosis and interventions during deviations from normal body system functioning.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to ABSN program.
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 3300 - Human Reproductive Health

(3)

This course is repeatable: No
**Course Description:** Physical health needs and issues, emphasizing the reproductive systems for women and men across the age span; overview of physiology, pathophysiology, diagnostic technologies, and therapeutic management of common health problems.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** Completion of GE Block A and one course from Block B.

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**NURS 3460 - Family Nursing**

(2)

**This course is repeatable:** No

**Max # of units may be repeated:** 0

**Total # of units allowed for credit:** 2

**Max times this course can be taken for credit:** 1

**Course Description:** Theoretical foundations of family nursing and its application to the nursing process with families.

**Hours per Week:** 2 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** Admission to RN-BSN program.

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**NURS 3480 - Development for Professional Practice**

(3)

**This course is repeatable:** No

**Max # of units may be repeated:** 0

**Total # of units allowed for credit:** 3

**Max times this course can be taken for credit:** 1

**Course Description:** Socialization and development into professional nursing roles including the nurse as professional, advocate, provider, and coordinator of care. Focus on nursing process and selected issues in professional practice.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** Admission to RN-BSN program. **Corequisite(s):** NURS 3490

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**NURS 3490 - Development for Professional Practice Laboratory**
NURS 3500 - Pathophysiology For Nursing Practice

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 0

Course Description: Course builds upon the student’s prior foundation of concepts of disease process throughout the lifespan including cellular function and integrative body functions. Focus on the pathophysiologic rationale for nursing interventions.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus

Prerequisite(s): Admission to RN-BSN Program.
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 3540 - Selected Topics in Nursing

(1-4)

This course is repeatable: Yes
Max # of units may be repeated: 11
Total # of units allowed for credit: 12
Max times this course can be taken for credit: 12

Course Description: Current topics of special interest to nursing students, as announced in Schedule of Classes. May be repeated for credit.

Hours per Week: 1 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): As needed for specific topic.
Needs Permission to Enroll: No
Special Fee Applied: No
• **NURS 3545 - Selected Topics in Nursing**
  
  (1-4)

  This course is repeatable: Yes  
  Max # of units may be repeated: 11  
  Total # of units allowed for credit: 12  
  Max times this course can be taken for credit: 12  

  **Course Description:** Current topics of special interest to nursing students, as announced in Schedule of Classes. May be repeated for credit.

  **Hours per Week:** 3 laboratory hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** As needed for specific topic.

  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

• **NURS 3550 - Violence and Maltreatment in Family and Intimate Relationships (also listed as SW 3550)**
  
  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1  

  **Course Description:** Major theories used to explain family violence; emphasis on preventing abuse and intervening with victims across the age span; social policy and legal issues.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face, Hybrid, Online  
  **Campus:** Main Campus

  **Prerequisite(s):** Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.

  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

  **GE UD D**

• **NURS 3600 - Pharmacology**
  
  (2)

  This course is repeatable: No  
  Max # of units may be repeated: 2  
  Total # of units allowed for credit: 2  
  Max times this course can be taken for credit: 1  

  **Course Description:** Basic principles and contemporary issues in pharmacology for nurses; major drug classifications, mechanism of drug action and nursing implications throughout the nursing process.

  **Hours per Week:** 0 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face, Hybrid
Campus: Main Campus

Prerequisite(s): Admission to the Nursing Program.
Needs Permission to Enroll: No
Special Fee Applied: No

- NURS 3620 - Health Assessment and Health Promotion Across the Life Span

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Health Assessment including history taking and physical examination; principles of health promotion across the life span.
Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to the Entry Level Master's or Entry Level Bachelor's Program in Nursing. Corequisite(s): NURS 3210
Needs Permission to Enroll: No
Special Fee Applied: No

- NURS 3720 - Health Assessment and Promotion Across the Life Span

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Health assessment including history taking, physical examination and diagnostic testing; principles of health promotion across the life span and concepts of patient education.
Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus, DTLA Campus

Prerequisite(s): RN-BSN transfer students only. Corequisite(s): NURS 3480
Needs Permission to Enroll: No
Special Fee Applied: No

- NURS 3730 - Health Assessment and Promotion Across the Life Span Laboratory

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Health assessment including history taking, physical examination and diagnostic testing, health promotion and patient
NURS 3740 - Health Assessment and Promotion Across the Life Span

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Health assessment for the RN to BSN. This course builds upon knowledge and experience of the registered nurse. Content includes history taking, physical examination, diagnostic testing, principles of health promotion across the life span, and concepts of patient education.

Hours per Week: 1 lecture hour(s). 3 laboratory hour(s).

NURS 3820 - Palliative Care

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examination of the role in providing palliative care to individuals of diverse populations and settings. Symptom management, physical and psycho-social care, client-family communication, and cultural/religious perspectives during life-threatening illnesses are explored.

Hours per Week: 3 lecture hour(s).

NURS 3850 - Spiritual Assessment and Care of the Older Adult (also listed as RELS 3850)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Exploration of the older adult's spiritual needs during illness and disability and how spiritual care may be closely integrated with that of body and mind.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
Needs Permission to Enroll: No
Special Fee Applied: No

GE UD C (d)

NURS 3900 - Nursing Informatics and Information Literacy and Competency

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 0

Course Description: Introduction to nursing information literacy and information science, and information systems. Research skills to strengthen evidence-based practice for consumer-centered computer-supported care. Innovation in nursing care delivery systems.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 3980 - Cooperative Education

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 4

Course Description: Courses appropriate to the work experience. See UNIV 3980.
Hours per Week: N/A lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): approval by major department Cooperative Education coordinator.
Needs Permission to Enroll: No
Special Fee Applied: No
• NURS 4021 - Fundamentals of Electrocardiography

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Fundamentals of vector analysis of the 12 lead electrocardiogram and basic arrhythmia detection.
Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• NURS 4022 - Advanced Electrocardiography

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Advanced electrocardiography including detailed evaluation of 12 lead electrocardiogram in determining axis changes, conduction defect, cardiovascular hypertrophies, location of myocardial infraction, differentiation of complicated arrhythmias, and selected electrolyte and drug effects.
Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): NURS 4021
Needs Permission to Enroll: No
Special Fee Applied: No

• NURS 4120 - Introduction to Basic and Advanced EKG Interpretation

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Principles of ECG/ 12 lead interpretation. Review of cardiac anatomy/physiology/ electrophysiology, dysrhythmia recognition/management. Emphasis on high risk situations: hemodynamic instability, lethal dysrhythmias, electrolytes, current medications/ effects/ electrical treatments.
Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): Admission to the nursing program, NURS 1100, NURS 1150
Needs Permission to Enroll: No
Special Fee Applied: No

- **NURS 4230 - Nursing in School Health Programs Clinical Laboratory**
  (5)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 5
  Max times this course can be taken for credit: 1
  Course Description: Clinical school nursing experience with multicultural and ethnic students in elementary, secondary, and special education settings under direction of credentialed school nurse preceptor.
  Hours per Week: N/A lecture hour(s).
  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus
  Prerequisite(s): None
  Pre/Co-requisite(s): NURS 5260, NURS 5300
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **NURS 4240 - Introduction to Nursing Research**
  (2)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 2
  Max times this course can be taken for credit: 1
  Course Description: Introduction to the nursing research process with application of the process to clinical practice. Reading, critiquing and utilization of nursing research.
  Hours per Week: 2 lecture hour(s).
  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus
  Prerequisite(s): Admission to ABSN program.
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **NURS 4340 - Care Management in Nursing and Healthcare Systems**
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
  Course Description: Introduction to organizational theory, socioeconomic political trends and healthcare delivery systems. Emphasis on competent nursing practice involving the comprehensive care coordination of vulnerable populations.
  Hours per Week: 3 lecture hour(s).
- **NURS 4400 - Psychiatric and Mental Health Nursing**

  (2)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 2  
  Max times this course can be taken for credit: 1  

  Course Description: Nursing process in the care of clients with deviations in social and psychological functioning.  
  Hours per Week: 2 lecture hour(s).

- **NURS 4410 - Practicum: Psychiatric and Mental Health Nursing**

  (2)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 2  
  Max times this course can be taken for credit: 1  

  Course Description: Clinical experience in a variety of settings implementing the nursing process with clients demonstrating deviations in social and psychological functioning.  
  Hours per Week: 6 laboratory hour(s).

- **NURS 4420 - Community/Public Health Nursing**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1
Course Description: Synthesis of nursing theories and public health science applied to assessing and promoting the health of at risk populations: communities, families and aggregates.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Admission to ABSN program. Corequisite(s): NURS 4430
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 4430 - Practicum: Community Health Nursing
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Nursing in the community: experiences in home health, family focused care, and population based nursing in the community.
Hours per Week: 9 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None Corequisite(s): NURS 4420
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 4440 - Advanced Nursing Concepts and Leadership
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Advanced clinical nursing: principles of nursing leadership; care of hospitalized adults experiencing complex, acute and chronic multidimensional health problems including neurological, renal, integumentary, neoplastic, and immune diseases, or multi-system failure.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): NURS 3220, NURS 3230 Corequisite(s): NURS 4450
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 4450 - Practicum: Advanced Nursing Concepts and Leadership
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Practicum in nursing leadership and care of patients with acute and chronic complex medical surgical conditions; basic skills for critical care nursing and end-of-life care.
Hours per Week: 9 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None Corequisite(s): NURS 4440
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 4540 - Selected Topics in Nursing
(1-4)
This course is repeatable: Yes
Max # of units may be repeated: 11
Total # of units allowed for credit: 12
Max times this course can be taken for credit: 12

Course Description: Current topics of special interest to nursing students announced in Schedule of Classes. May be repeated for credit.
Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): As needed for specific topic.
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 4550 - Selected Topics in Nursing
(1-4)
This course is repeatable: Yes
Max # of units may be repeated: 11
Total # of units allowed for credit: 12
Max times this course can be taken for credit: 12

Course Description: Current topics of special interest to nursing students announced in Schedule of Classes. May be repeated for credit.
Hours per Week: 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): As needed for specific topic.
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 4600 - Nursing Leadership and Care Management
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 0

**Course Description:** Introduction to organizational theory, socio-economic and political trends, and healthcare delivery systems for the nurse leader. Emphasis on competent nursing practice in leading, managing, and coordinating the care of populations in various settings.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face, Hybrid

**Campus:** Main Campus

**Prerequisite(s):** NURS 3100, NURS 3110, Co-requisite: NURS 4610

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**NURS 4610 - Nursing Leadership and Care Management Clinical Laboratory**

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

**Course Description:** Clinical nursing laboratory for application of nursing leadership and care management principles in healthcare settings (135 clinical hours).

**Hours per Week:** N/A lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** NURS 3100, NURS 3110  Corequisite(s): NURS 4600

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**NURS 4620 - Health Assessment I - School Aged Children**

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

**Course Description:** This health assessment course focuses on the professional knowledge and competency required to conduct an appropriate health history and physical assessment of school aged children to the scope and standards of a licensed registered nurse. Emphasis includes screening, prevention, intervention, the collection, analysis, nursing diagnosis, and application of health/physical assessment data on school aged children and school aged children with acute conditions within the school environment, as related to the role of the school registered nurse.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face, Hybrid

**Campus:** Main Campus

**Pre/Co-requisite(s):** NURS 4630
NURS 4630 - Health Assessment II - School Aged Children

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: This health assessment course focuses on the professional knowledge and competency required to conduct an appropriate health history and physical assessment of school aged children to the scope and standards of a licensed registered nurse. Emphasis includes the collection, analysis, nursing diagnosis, and application of health/physical assessment data on school aged children with chronic conditions and considered medically fragile within the school environment, as related to the role of the school registered nurse.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus

Pre/Co-requisite(s): NURS 4620
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 4680 - Legal Aspects of Health Care Provision in California

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Exploration of legal aspects of health care provision: intentional torts, negligence and malpractice, practice acts, ethical-legal conflicts, and litigation procedure.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Professional experience or upper division standing in a health related program.
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 4690 - Gerontology and the Law

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: An overview of the legal issues affecting the elderly, including employment and mandatory retirement, discrimination, Medicare and healthcare, elder abuse and neglect, guardianship and powers of attorney, and end of life ethical dilemmas. Some sections of this course may be offered as hybrid or online.
NURS 4700 - Community/Public Health Nursing

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 0

Course Description: Synthesis of nursing theories and public health science applied to assessing and promoting the health of communities and aggregates at risk in the population, including the risks to communities from bio-terrorism.

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus
Prerequisite(s): Completion of 3000-level nursing courses or approval of instructor.
Co-requisite: NURS 4710
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 4710 - Community/Public Health Nursing Lab

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Application of the nursing process, levels of prevention and public health theories and strategies in vulnerable clients, families, and aggregates.

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): Completion of 3000-level nursing courses or approval of instructor. Corequisite(s): NURS 4700 and access to an insured automobile.
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 4720 - School Nurse Specialist I

(2)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: This school nursing course is developed to introduce the student nurse to the professional scope and standards of the school nurse role, its roles and responsibilities as they pertain to the school and community environment. It also introduces concepts of the school nurse as educator and collaborator with colleagues, students, their families, and the community as it relates to the health and well-being of school aged children.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus

Pre/Co-requisite(s): NURS 4620 and NURS 4730
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 4730 - School Nurse Field Experience I

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: This course is designed to provide the student Registered Nurse with the field experience to develop skills, competency, expertise, and confidence to provide quality healthcare and health program in a school setting. The student will also learn to further develop the skills necessary to Planning, coordinating, and providing health care in school/community settings. Assessing and managing children's health care needs.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus

Pre/Co-requisite(s): NURS 4620 and NURS 4720
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 4750 - Exploring Interprofessional Practices in Healthcare

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Explores practices from various professions (e.g. medicine, nursing, social work, nutrition etc.) and how these interact in healthcare settings which enhance patient and population outcomes. Develop skills and knowledge to enter healthcare environments.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
• NURS 4820 - School Nurse Specialist II

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: This school nursing course is developed to prepare the student nurse to apply the standards of school nursing practice to the coordination and delivery of health care for school aged children within the school and community environment. Students will also develop professional leadership skills to successfully manage school nursing practice, advance school nursing knowledge through professional development, interdisciplinary collaboration, innovation, and education.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus

Prerequisite(s): NURS 4620 and NURS 4720 and NURS 4730  Corequisite(s): NURS 4630 and NURS 4830

Needs Permission to Enroll: No
Special Fee Applied: No

• NURS 4830 - School Nurse Field Experience II

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: This course is designed to provide the student Registered Nurse with the field experience to develop skills, competency, expertise, and confidence to provide quality healthcare and health program in a school setting. The student will learn to further develop the skills necessary to planning, coordinating, and providing health care in school/community settings with an emphasis on management, education, social determinants of health, vulnerable student populations, and the medically fragile.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus

Prerequisite(s): NURS 4620 and NURS 4720 and NURS 4730  Corequisite(s): NURS 4630 and NURS 4820

Needs Permission to Enroll: No
Special Fee Applied: No

• NURS 4860 - Transition to Nursing Professional Practice

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 0

Course Description: Capstone course that integrates clinical decision making, critical thinking skills and theoretical knowledge for the professional transition into nursing practice. Focuses on integration, reflection and preparation for the professional role.
Hours per Week: 1 lecture hour(s).
Grading: CR/NC
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus

Prerequisite(s): Completion of 3000 level nursing courses. Co-requisite: NURS 4870
Needs Permission to Enroll: No
Special Fee Applied: No

-  

- **NURS 4870 - Transition to Nursing Professional Practice Laboratory**

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Clinical decision making and the integration of advanced medical-surgical nursing skills with selected patients in acute care settings is the focus of this capstone preceptor practicum.

Hours per Week: N/A lecture hour(s).
Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of lower division nursing courses; completion of medication administration exam with a minimum score of 90%.
Corequisite(s): NURS 4860
Needs Permission to Enroll: No
Special Fee Applied: No

-  

- **NURS 4900 - Introduction to Nursing Research**

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 0

Course Description: Nursing research process and concepts applicable to clinical practice; reading, analyzing and critiquing research; development of skills in writing professional nursing papers according to the conventions of the genre. Some sections may use technologically mediated instruction.
Grade of C or better in this course satisfies the Graduation Writing Assessment Requirement.

Hours per Week: 0 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus

Prerequisite(s): HHS 4000
Needs Permission to Enroll: No
Special Fee Applied: No

(wi) GWAR

- **NURS 4920 - Introduction to Nursing Research and Informatics**
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

**Course Description:** Nursing research and informatics processes and concepts applicable to clinical practice; reading, analyzing and critiquing research; development of skills in writing professional nursing papers according to the conventions of the genre. Some sections may use technologically mediated instruction. This is a writing intensive (wi) course. Grade of C or better in this course satisfies the Graduation Writing Assessment Requirement.

Hours per Week: 3 lecture hour(s).

**Grading:** ABCDF
**Mode of Delivery:** Face to Face, Hybrid
**Campus:** Main Campus

Pre/Co-requisite(s): HHS 4000
Needs Permission to Enroll: No
Special Fee Applied: No

- **NURS 4980 - Advanced Cooperative Education**

  (1-3)

  This course is repeatable: Yes
  Max # of units may be repeated: 3
  Total # of units allowed for credit: 4
  Max times this course can be taken for credit: 4

  **Course Description:** Advanced Cooperative Education
  Hours per Week: N/A lecture hour(s).

  **Grading:** CR/NC
  **Mode of Delivery:** Face to Face
  **Campus:** Main Campus

  Prerequisite(s): See UNIV 4980
  Needs Permission to Enroll: No
  Special Fee Applied: No
Nursing (Undergraduate)

- **NURS 4980E - ELMN Cooperative Education**

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Transition to Practice for ELMN (Entry Level Masters in Nursing), program participation in work experience integrated with academic program; facilitates transition to practice as a graduate nurse; minimum of 10 hours per week required for each unit. Student may apply for maximum of 3 units toward graduate degree program.

Hours per Week: 0 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Successful completion of prior ABSN pre-licensure coursework except for last semester of program.
Needs Permission to Enroll: No
Special Fee Applied: No
NURS 4990 - Undergraduate Directed Study

(1-4)

This course is repeatable: Yes
Max # of units may be repeated: 11
Total # of units allowed for credit: 12
Max times this course can be taken for credit: 12

Course Description: Project selected with sponsor before registration; progress meetings held regularly. May be repeated to 20 units.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Instructor consent to act as sponsor; ability to assume responsibility for independent work and to prepare written and oral reports.

Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

Nursing (Graduate)

NURS 5020 - Role, Health Care & Policy

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Evaluating the Advanced Practice Nurse role and the influence on policy and health care delivery. Some sections of this course may be taught as a hybrid course.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus, DTLA Campus

Prerequisite(s): Admission to the MSN Program.
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 5131 - Adult-Gerontology I Practicum

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Students working with preceptors in primary care sites gain experience in assessment, diagnosis, management, education, health promotion and disease prevention for adult and geriatric clients with acute health problems. A total of 15 Seminar hours and 180 clinical hours will be required.

Hours per Week: N/A lecture hour(s).

Grading: ABCDF
NURS 5132 - Adult-Gerontology II Practicum
(4)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1
Course Description: Students work with preceptors in primary care sites to gain experience in assessment, diagnosis, management, education, health promotion and disease prevention for adult and geriatric clients with chronic health problems. A total of 15 Seminar hours and 225 clinical hours will be required.
Hours per Week: N/A lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus, DTLA Campus

Needs Permission to Enroll: No
• NURS 5251 - Capstone Synthesis for the Adult-Gerontology Acute Care Nurse Practitioner

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: This course provides learning activities that support synthesis and application of graduate theory and evidenced-based practice knowledge gained in required courses. May be offered as an online or hybrid course.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None Corequisite(s): NURS 5163, NURS 5164, NURS 5171
Needs Permission to Enroll: No
Special Fee Applied: No

• NURS 5252 - Capstone for the Primary Care NP

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: This course provides learning activities that support synthesis, application and increased exploration of selected concepts and evidenced-based content in preparation for transition to advanced practice. May be offered as hybrid or online.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus, DTLA Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• NURS 5260 - Advanced Nursing Management in Public Schools

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: A theory-based course focusing on the roles and scope of practice of the school nurse as a manager and advocate within the organization and management of school health services. Special emphasis will be on the California Department of Education’s curriculum requirements for Drug and Alcohol Education in the K-12 educational setting.
Hours per Week: 4 lecture hour(s).
NURS 5280 - Advanced Pharmacology
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Pharmacokinetic principles and pharmacotherapeutic agents for promotion, prevention, diagnosis and treatment of common client conditions encountered in primary care and acute health care settings.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus, DTLA Campus
Prerequisite(s): Admission to the MSN program; Corequisite(s): Advance Practice Core
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 5290 - Advanced Pediatrics Clinical Practicum
(2)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1
Course Description: A preceptored clinical practicum designed to enhance the application of theory and acquisition of clinical skills in pediatric primary care settings.
Hours per Week: N/A lecture hour(s).
Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): Completion of all pediatric theory and practicum courses.
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 5300 - Advanced Nursing Assessment in Public Schools
(4)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: This course focuses on the assessment and management of physical, psychosocial, environmental, and educational requisites, processes, and selected needs of the student.
Hours per Week: 4 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None Pre/Co-requisite(s): NURS 5260
Needs Permission to Enroll: No
Special Fee Applied: No

- NURS 5421 - Psychiatric Nursing Diagnosis and Treatment across the Lifespan
  (3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course provides the FPMHNP student with a thorough understanding of the diagnosis, management, and treatment of a client with a psychiatric disorder with a focus on individual treatment. This course may be offered on-line or in hybrid format.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus, DTLA Campus

Prerequisite(s): Restricted to students admitted to the MSN program, Family Psychiatric/Mental Health Nurse Practitioner (FPMHNP) Option. Corequisite(s): NURS 5430
Needs Permission to Enroll: No
Special Fee Applied: No

- NURS 5422 - Group, Family, Community, and Agency Interventions in Psychiatric Nursing
  (3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3

  Max times this course can be taken for credit: 6

  Course Description: Current lecture topics of special interest to NURS graduate students as announced in The Schedule of Classes. May
NURS 5541 - Special Topics in Nursing Practicum
(1-12)

This course is repeatable: Yes
Max # of units may be repeated: 11
Total # of units allowed for credit: 12
Max times this course can be taken for credit: 12

Course Description: Current practicum topics of special interest to NURS graduate students as announced in The Schedule of Classes. May be repeated for 12 units of credit as subject matter changes.

Hours per Week: N/A lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): Varies with topic.
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 5601 - Development of Educational Programs I
(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: One year of clinical experience as RN. Development of nursing educational programs in collegiate, staff development and client settings; roles of nurse educator including instruction and evaluation roles.

Hours per Week: 0 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): First year courses, 3rd semester (?)
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 5602 - Development of Educational Programs II
(2)

This course is repeatable: No
Max # of units may be repeated: 0
NURS 5603 - Educational Theories in Nursing

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: This 2 unit course allows for exploration and application of educational theories in relation to motivational, emotional, and unconscious variables that influence adults to learn. Emphasis will be on application of theories to nursing students and various patient populations.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus

Pre/Co-requisite(s): NURS 5601 and NURS 5602 and EDIT 4300
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 5640 - Advanced Concepts in Health Care Leadership and Management

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: An overview of theories and concepts necessary for effective health care supervision and management with emphasis on patient/client safety within and outside of the hospital. All sections use technologically mediated instruction.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MGMT 5100, MGMT 5335
Needs Permission to Enroll: No
Special Fee Applied: No
• NURS 5641 - Advanced Concepts in Healthcare Leadership and Management II

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Principles of human resource management, economics, quality outcome measurement, management and patient safety are applied to case-based analysis at the unit-level of hospital and health care organizations. All sections use technologically-mediated instruction.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): NURS 5640
Needs Permission to Enroll: No
Special Fee Applied: No

• NURS 5660 - Advanced Pathophysiology

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Physical disease processes within human body; body’s adaptive physiologic mechanisms resulting from pathophysiologic alterations; rationale for clinical intervention. Some sections may use technologically mediated instruction.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus, DTLA Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• NURS 5720 - Advanced Assessment and Diagnostic Reasoning

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Advanced health assessment and health promotion using holistic and contextual perspectives to analyze the physical, psychosocial, developmental, and environmental needs of patients across the lifespan. May be offered as Online or Hybrid Course.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus, DTLA Campus

Prerequisite(s): Admission to the MSN Program and classification in an option. Corequisite(s): NURS 5730
Needs Permission to Enroll: No
NURS 5730 - Advanced Assessment Practicum

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 0

Course Description: Advanced Assessment Clinical application of advanced comprehensive health assessment, diagnostic reasoning, and health promotion knowledge and skills to culturally diverse patients.

Hours Per Week: N/A lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus, DTLA Campus

Prerequisite(s): Admission to the MSN Program and classification in an option. Co-requisite: NURS 5720

Needs Permission to Enroll: No
Special Fee Applied: No

NURS 5780 - Global Health Perspectives

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Global nurse practitioner practice, meeting health care needs unique to developing, underserved nations and international travelers. Includes assessment, diagnosis, and management of tropical disease and health promotion/disease prevention.

Hours Per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus, DTLA Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

NURS 5800 - Nursing Informatics

(2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: This course focuses on use of information management technology, combined with nursing science to manage and process nursing data and knowledge to enhance the delivery of quality nursing care to clients. Some sections may be offered as a hybrid course.

Hours Per Week: 2 lecture hour(s).

Grading: ABCDF
**NURS 5900 - Theory, Research & Practice**

(4)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 4  
Max times this course can be taken for credit: 1

**Course Description:** Nursing theory, research utilization and research methods are used in the synthesis, analysis, evaluation and development of evidence-based practice and dissemination. Some sections of this course may be taught as a hybrid or online.

**Hours per Week:** 4 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face, Hybrid, Online

**Campus:** Main Campus, DTLA Campus

**Prerequisite(s):** Admission to MSN program.

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

**NURS 5960 - Comprehensive Examination**

(0)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 0  
Max times this course can be taken for credit: 1
Course Description: See the Comprehensive Examination under the University Requirements for Master's Degree in this eCatalog.

Hours per Week: 0 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus, DTLA Campus

Prerequisite(s): Advancement to Candidacy. Completion of all required nursing course work.
Needs Permission to Enroll: No
Special Fee Applied: No

*NURS 5970 - Graduate Research
(1)

This course is repeatable: Yes
Max # of units may be repeated: 4
Total # of units allowed for credit: 5
Max times this course can be taken for credit: 5

Course Description: Independent research under the guidance of faculty sponsor. This course is the initial course for NURS 5990 (thesis) or NURS 5995 (project). May be repeated for credit.

Hours per Week: N/A fieldwork / practicum hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): 3.5 GPA, completed NURS 5900 with an A grade, and a committee of a minimum of two faculty members sought out by the student. The paper to start the thesis/project must be submitted before the final year of study.
Needs Permission to Enroll: No
Special Fee Applied: No

*NURS 5980 - Graduate Directed Study
(1-2)

This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

Course Description: Directed study of advanced topics in field; regularly scheduled conferences with sponsor. May be repeated to maximum of 8 units.

Hours per Week: N/A fieldwork / practicum hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

*NURS 5990 - Thesis
(1-2)

This course is repeatable: No
Max # of units may be repeated: 4
Total # of units allowed for credit: 5
Max times this course can be taken for credit: 5

Course Description: Directed study of advanced topics in field; regularly scheduled conferences with sponsor. May be repeated to maximum of 8 units.

Hours per Week: N/A fieldwork / practicum hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1
Course Description: Introduction to the structure, function, food sources, and digestion of carbohydrates, fats, and proteins, and the organization and regulation of major metabolic pathways. Lecture 3 hours.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): BIOL 2010, BIOL 2020, CHEM 1010 and CHEM 1020.

Needs Permission to Enroll: No
Special Fee Applied: No

NTRS 3220 - Introduction to Nutrition Research

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to research design and methodology with focus on evidence-based practice within the field of nutritional science.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): MATH 1090 Pre/Co-requisite(s): NTRS 3170

Needs Permission to Enroll: No
Special Fee Applied: No

NTRS 3510 - Adult Nutrition

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Nutritional needs and common diseases afflicting adults; promotion of adult health by nutritional intervention.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.

Needs Permission to Enroll: No
Special Fee Applied: No

GE UD B

NTRS 3570 - The Changing Food Supply: Impact on Health

(3)
This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Changing food consumption patterns since our ancient ancestors, and the subsequent impact on health. Agricultural systems and food availability, and their impact on today's established cultural food habits will be explored. Some sections of this course may be taught online.  
Hours per Week: 3 lecture hour(s).  

Grading: ABCDF  
Mode of Delivery: Face to Face, Online  
Campus: Main Campus  

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.  
Needs Permission to Enroll: No  
Special Fee Applied: No  

GE UD B (d)  

NTRS 4100 - Experimental Foods  
(3)  

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Application of scientific principles to experimental methods in food preparation and recipe analysis. Lecture 2 hours, laboratory 6 hours.  
Hours per Week: 1 lecture hour(s). 6 laboratory hour(s).  

Grading: ABCDF  
Mode of Delivery: Face to Face, Hybrid, Online  
Campus: Main Campus  

Prerequisite(s): NTRS 2100, CHEM 1020  
Needs Permission to Enroll: No  
Special Fee Applied: No  

NTRS 4110 - Evaluation of Current Nutrition Concepts  
(3)  

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Interpretation of nutrition research findings and consideration of possible applications for individuals and population groups. Lecture 3 hours. Some sections of this course may be taught hybrid or online.  
Hours per Week: 3 lecture hour(s).  

Grading: ABCDF  
Mode of Delivery: Face to Face, Hybrid, Online  
Campus: Main Campus  

Prerequisite(s): NTRS 3170  
Needs Permission to Enroll: No  
Special Fee Applied: No
• NTRS 4120 - Nutrition Through the Lifespan

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examination of nutritional concerns, requirements, and metabolism from pregnancy through older adulthood, including how culture, environment, psychosocial, and economic factors influence each life cycle stage.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): NTRS 3170

Needs Permission to Enroll: No
Special Fee Applied: No

• NTRS 4130 - Maternal and Child Nutrition

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Nutritional needs of pregnant and lactating women and of children from conception through adolescence; focus on nutrition-related health conditions.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Needs Permission to Enroll: No
Special Fee Applied: No

• NTRS 4140 - Institutional Food Service

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: The foundations, fundamentals, and operational functions of the foodservice industry, including food safety, facility sanitation and safety, menu writing, purchasing and quantity food preparation and service.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus
• NTRS 4150 - Medical Nutrition Therapy

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Nutritional intervention in disease processes; special emphasis on interrelationships between pathophysiology of disease processes and dietary modifications. Lecture 2 hours, activity 3 hours.

Hours per Week: 2 lecture hour(s). 3 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): NTRS 3170
Pre/Co-requisite(s): NTRS 4170
Needs Permission to Enroll: No
Special Fee Applied: No

• NTRS 4155 - Medical Nutrition Therapy II

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Advanced nutritional intervention in disease processes; special emphasis on interrelationships between pathophysiology of disease processes and dietary modifications. Lecture 2 hours, activity 3 hours.

Hours per Week: 2 lecture hour(s). 3 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): NTRS 4150, NTRS 4170
Needs Permission to Enroll: No
Special Fee Applied: No

• NTRS 4160 - Child Nutrition

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Nutritional needs of pregnant and lactating women and of children from conception through adolescence; strategies for nutrition education in early childhood.

Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHDV 2200
Needs Permission to Enroll: No
Special Fee Applied: No

• NTRS 4170 - Advanced Nutrition I
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: The scientific basis of metabolic factors involved in nutritional status and meeting the nutritional needs of humans. Lecture 3 hours.
  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face, Hybrid, Online
  Campus: Main Campus

  Prerequisite(s): NTRS 3170, MICR 1010
  Needs Permission to Enroll: No
  Special Fee Applied: No

• NTRS 4175 - Advanced Nutrition II
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: The scientific basis of the metabolic factors involved in vitamin, mineral, and fluid homeostasis in human nutrition. Lecture 3 hours.
  Hours per Week: 3 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face, Hybrid, Online
  Campus: Main Campus

  Prerequisite(s): NTRS 4170
  Needs Permission to Enroll: No
  Special Fee Applied: No

• NTRS 4176 - Nutritional Assessment Laboratory
  (1)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 1
  Max times this course can be taken for credit: 1
**Course Description:** Laboratory experience in medical nutritional assessment using anthropometric, biochemical, clinical tests and dietary evaluation. Laboratory 3 hours.

**Hours per Week:** 3 laboratory hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face, Hybrid, Online

**Campus:** Main Campus

**Prerequisite(s):** None

**Pre/Co-requisite(s):** NTRS 4150

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

**NTRS 4180 - Community Nutrition**

(3)

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 3

Max times this course can be taken for credit: 1

**Course Description:** Community nutrition problems, agencies, and programs. Service learning course. A total of 40 hours of service learning required. Lecture 2 hours, activity 3 hours.

**Hours per Week:** 2 lecture hour(s), 3 activity hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face, Hybrid, Online

**Campus:** Main Campus

**Prerequisite(s):** NTRS 3170

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

This is a service learning course.

**NTRS 4185 - Preparation for Dietetics Internship I**

(1)

This course is repeatable: No

Max # of units may be repeated: 0

Total # of units allowed for credit: 1

Max times this course can be taken for credit: 1

**Course Description:** This course will prepare dietetic students for applying to dietetic internships, graduate school, and/or careers in the nutrition field. Lecture 1 hour.

**Hours per Week:** 0 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face, Hybrid, Online

**Campus:** Main Campus

**Prerequisite(s):** None

**Pre/Co-requisite(s):** NTRS 4150

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

**NTRS 4190 - Supervised Practice in Dietetics I**

(8)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 1

Course Description: A series of intensive learning experiences in food service administration, public health facilities, nutritional intervention in hospitals and long term care facilities. Supervised experience 24 hours weekly with a concurrent professional weekly CDP Dietetics Seminar. Lecture 2 hours; supervision 24 hours.
Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Coordinated Dietetic Students (CDP), NTRS 4155, NTRS 4340, NTRS 4790 Corequisite(s): NTRS 4250
Needs Permission to Enroll: No
Special Fee Applied: No

NTRS 4195 - Preparation for Dietetics Internship II
(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: This course will prepare dietetic students for applying to dietetic internships, graduate school, and/or careers in the nutrition field. Lecture 1 hour.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): NTRS 4185
Needs Permission to Enroll: No
Special Fee Applied: No

NTRS 4200 - Community Gardening and Food Sovereignty
(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Responsible and sustainable horticultural practices in community landscapes. Understanding the role of culture and socioeconomic status in food justice.
Hours per Week: 1 lecture hour(s), 6 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Needs Permission to Enroll: No
Special Fee Applied: No

This is a service learning course.
• NTRS 4220 - Supervised Practice in Dietetics II

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 1

Course Description: A series of intensive learning experiences in food service administration, public health facilities, nutritional intervention in hospitals and long term care facilities. Supervised experience 24 hours weekly with a concurrent professional weekly CDP Dietetics Seminar. Lecture 2 hours; supervision 24 hours.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Coordinated Dietetic Students (CDP), NTRS 4155, NTRS 4190, NTRS 4340, NTRS 4790
Corequisite(s): NTRS 4250
Needs Permission to Enroll: No
Special Fee Applied: No

• NTRS 4250 - Seminar: Dietetics

This course is repeatable: Yes
Max # of units may be repeated: 4
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 3

Course Description: Selected professional topics in food service administration and nutritional care.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): NTRS 4150, NTRS 4155, NTRS 4340, NTRS 4790
Corequisite(s): NTRS 4190, NTRS 4220
Needs Permission to Enroll: No
Special Fee Applied: No

• NTRS 4300 - Sports Nutrition

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Advanced topics in nutrition as related to athletic performance; current research on energy nutrient requirements and caloric distribution, fluid needs, ergogenic aids, supplementation, pre/post event meals, and biochemical pathways.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): BIOL 2010, BIOL 2020, or equivalent.
Needs Permission to Enroll: No
• NTRS 4340 - Foodservice Management

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course is an overview of the management practices utilized to direct, operate and control foodservice and clinical operations including human, financial and facility management.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): NTRS 4140
Needs Permission to Enroll: No
Special Fee Applied: No

• NTRS 4500 - An Introduction to Business Skills for Nutrition Entrepreneurs

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Provides an integrative description of the legal and logistical considerations needed to create a virtual or traditional private practice.

Hours per Week: 2 lecture hour(s). 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): NTRS 3170
Needs Permission to Enroll: No
Special Fee Applied: No

• NTRS 4501 - Special Topics in Nutrition Entrepreneurship

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Nutrition Entrepreneurs from different fields will present on what it takes to be a nutrition entrepreneur.

Hours per Week: 2 lecture hour(s). 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus
- **NTRS 4502 - Communications Skills for the Nutrition Entrepreneur**

  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** Specialized communication skills for the successful entrepreneur; including developing competencies in motivational interviewing, blogging, creating podcasts, and media relations specific to the nutrition employment spectrum.

  **Hours per Week:** 2 lecture hour(s), 2 activity hour(s).

  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face
  **Campus:** Main Campus

- **NTRS 4510 - Nutrition and Aging**

  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** Relationship of nutrition to aging and diseases common among elderly; nutritional needs and problems of elderly.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face
  **Campus:** Main Campus

- **NTRS 4540 - Selected Topics in Nutritional Science**

  (1-4)

  This course is repeatable: Yes
  Max # of units may be repeated: 15
  Total # of units allowed for credit: 16
  Max times this course can be taken for credit: 16

  **Course Description:** Current topics of special interest in Nutritional Science as announced in Schedule of Classes. May be repeated for 16 units of credit as subject matter changes.

  **Hours per Week:** 1 lecture hour(s).
NTRS 4541 - Selected Topics in Nutritional Science
(1-4)
This course is repeatable: Yes
Max # of units may be repeated: 15
Total # of units allowed for credit: 16
Max times this course can be taken for credit: 16
Course Description: Current topics of special interest in Nutritional Science as announced in Schedule of Classes. May be repeated for 16 units of credit as subject matter changes.
Hours per Week: 2 laboratory hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

NTRS 4620 - Functional/ Holistic Nutrition
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Nutritional implication of alternative dietary behavior in health promotion and disease prevention; incorporation of functional foods, dietary supplements and medicinal herbs into nutrition as complementary care.
Hours per Week: 3 lecture hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): NTRS 2500 or NTRS 3170
Needs Permission to Enroll: No
Special Fee Applied: No

NTRS 4630 - Functional Foods for Health
(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
**Course Description:** Use of foods and biological active ingredients for treatment and prevention of diseases; non-nutritive and biochemical constituents of foods to protect human health.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face, Hybrid, Online

**Campus:** Main Campus

**Prerequisite(s):** NTRS 2500 or NTRS 3170

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**NTRS 4650 - Medicinal Herbs and Nutrition**

(3)

**This course is repeatable:** No

**Max # of units may be repeated:** 0

**Total # of units allowed for credit:** 3

**Max times this course can be taken for credit:** 1

**Course Description:** Nutritional implication of medicinal herbs in health promotion and disease prevention; incorporation of medicinal herbs as complementary treatment option in dietetics.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face, Hybrid, Online

**Campus:** Main Campus

**Prerequisite(s):** NTRS 2500 or NTRS 3170

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**NTRS 4670 - Functional Food Design for Health**

(3)

**This course is repeatable:** No

**Max # of units may be repeated:** 0

**Total # of units allowed for credit:** 3

**Max times this course can be taken for credit:** 1

**Course Description:** Physiological and food industry perspectives of functional food and health promoting food recipes; biochemical, technological and marketing aspects of functional foods in health promotion and disease prevention.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face, Hybrid, Online

**Campus:** Main Campus

**Prerequisite(s):** NTRS 2500 or NTRS 3170

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**NTRS 4790 - Professional Interactions and Writing Skills**

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Role of the dietitian/nutritionist as an educator on the health care team, with emphasis on the development of written and oral communication skills. Lecture 3 hours.

Grade of C or better in this course satisfies the Graduation Writing Assessment Requirement.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): NTRS 3170, NTRS 3150, PSY 1500, COMM 1100, GE Blocks A2 and A3
Needs Permission to Enroll: No
Special Fee Applied: No

(wi) GWAR

---

NTRS 4910 - Advanced Community Nutrition: Program Planning and Evaluation

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course builds on concepts learned in NTRS 418, Community Nutrition. The focus of this course is program planning, intervention and evaluation of community nutrition programs, especially amongst underserved neighborhoods. Seminar 2 hours, activity 4 hours.

Hours per Week: 2 lecture hour(s). 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): NTRS 4130, NTRS 4180
Needs Permission to Enroll: No
Special Fee Applied: No

---

NTRS 4930 - Grant Writing in Community Nutrition

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Roles of the community and clinical nutritionists/dietitian in grant writing. Working with local community agencies to write and submit grants in the field is required. Lecture 2 hours, activity 4 hours.

Hours per Week: 2 lecture hour(s). 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): NTRS 4130, NTRS 4180, NTRS 4790
Needs Permission to Enroll: No
• NTRS 4960 - Nutrition Practicum

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Application of nutrition counseling and education to special populations. Some sections of this course may be taught hybrid or online. Lecture 1 unit, laboratory 5 hours.

Hours per Week: 1 lecture hour(s), 6 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): NTRS 3150, NTRS 3170, and consent of instructor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

Nutritional Science (Graduate)

All 4000-level courses may be applied toward master’s degree requirements except NTRS 4790; subject to limits established by the School and approval of the graduate adviser. Classified graduate standing is required for enrollment in 5000-level courses.

• NTRS 5030 - Biostatistics and Qualitative Research in Nutritional Science

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Introduction to quantitative statistics including univariate descriptive and inferential statistics, and qualitative research methods; practical applications in nutritional science using Excel and SPSS for data management and analysis. Some sections of this course may be taught hybrid or online. 3 units lecture, 1 unit activity.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• NTRS 5110 - Research Concepts and Methodology in Nutritional Science

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
Course Description: Examination of research methodology within conceptual framework of nutritional science; utilization of the tools of research; review and critique of research reports; development of a research proposal and pilot project.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• NTRS 5130 - Advanced Problems and Topics in Nutritional Science

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Contemporary problems and topics in nutritional science. Some sections of this course may be taught hybrid or online.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• NTRS 5190 - Seminar: Special Topics in Food and Nutritional Science

(3)
This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Selected topics in nutrition, food, and dietetics. (May be repeated as subject matter changes to maximum of 6 units.)
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No
Notes:

- All 4000-level courses may be applied toward master's degree requirements, subject to limits established by the department and approval of the graduate adviser.
- Classified graduate standing is required for enrollment in 5000-level courses; exception applies to students who are enrolled in a postbaccalaureate certificate or credential program.

Nutritional Science (Graduate)

All 4000-level courses may be applied toward master's degree requirements except NTRS 4790; subject to limits established by the School and approval of the graduate adviser. Classified graduate standing is required for enrollment in 5000-level courses.

- **NTRS 5210 - Advanced Topics in Eating Behaviors**

  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** An examination of current research trends and health problems associated with eating behaviors such as dieting, disordered eating, compulsive overeating, restrictive eating and unusual diet practices.

  **Hours per Week:** 0 lecture hour(s).

  **Grading:** ABCDF
  **Mode of Delivery:** Face to Face, Hybrid, Online
  **Campus:** Main Campus

  **Prerequisite(s):** None
  **Needs Permission to Enroll:** No
  **Special Fee Applied:** No
• NTRS 5230 - Advanced Topics in Dietetic Management

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Topics in foodservice and dietetic management will be examined, including trends, regulatory agencies, legislation, current research and controversies.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• NTRS 5250 - Advanced Topics in Food Science and Technology

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Current developments in food chemistry, food engineering and physical properties, food microbiology and safety, and sensory and nutritive qualities of foods.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): NTRS 4100
Needs Permission to Enroll: No
Special Fee Applied: No

• NTRS 5260 - Food Environment and Nutrition

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course will describe the local food environments in the United States and tools for measuring them. The focus is on disparities between local food environments and the impact on residents’ diets and health.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online

  **Campus:** Main Campus

  **Prerequisite(s):** None  
  **Needs Permission to Enroll:** No  
  **Special Fee Applied:** No

- **NTRS 5950 - Fieldwork in Nutritional Science**

  (1-3)

  This course is repeatable: Yes  
  Max # of units may be repeated: 5  
  Total # of units allowed for credit: 6  
  Max times this course can be taken for credit: 3  

  **Course Description:** Supervised experience at supervisory level. Four hours per week required for each unit. May be repeated to a maximum of 6 units. Combined units of NTRS 4950, NTRS 5950, NTRS 5970, NTRS 5980, and NTRS 5990 may not exceed 15 units.  
  **Hours per Week:** N/A lecture hour(s).
• NTRS 5960 - Comprehensive Examination

(0)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 0
Max times this course can be taken for credit: 1

Course Description: See the Comprehensive Examination under the University Requirements for Master's Degree in this eCatalog.
Hours per Week: 0 lecture hour(s).

• NTRS 5970 - Graduate Research

(1-4)

This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 6

Course Description: The course will prepare the student for a master’s project or thesis and covers how to develop a proposal, conduct field research, and compose, write and submit a thesis. Some sections of this course may be taught hybrid or online.
Hours per Week: 0 lecture hour(s).

• NTRS 5980 - Graduate Directed Study

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 6

Course Description: Independent directed study of advanced topics. May be repeated to maximum of 6 units: combined NTRS 5970 and
NTRS 5980 units may not exceed 8 units; combined NTRS 5950, NTRS 5970, NTRS 5980, and NTRS 5990 may not exceed 10 units.

**Hours per Week:** N/A lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** NTRS 5970, instructor consent to act as sponsor; School approval of topic prior to registration.

**Needs Permission to Enroll:** Yes, Instructor Consent

**Special Fee Applied:** No

---

**NTRS 5990 - Thesis**

(1-4)

- This course is repeatable: Yes
- Max # of units may be repeated: 3
- Total # of units allowed for credit: 4
- Max times this course can be taken for credit: 4

**Course Description:** Independent research resulting in a thesis, oral thesis defense required. May be repeated to a maximum of 4 units; combined NTRS 5990, NTRS 5970, NTRS 5980, NTRS 5990 units may not exceed 10.

**Hours per Week:** N/A lecture hour(s).

**Grading:** CR/NC

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** NTRS 5110 or KIN 5040, NTRS 5130, Advancement to Candidacy, minimum 3.0 GPA, instructor consent to act as sponsor, School approval of topic before registration.

**Needs Permission to Enroll:** Yes, Instructor Consent

**Special Fee Applied:** No

---

Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Analysis of induction and probability in everyday affairs and in science, systematic development of inductive logic, elements of the probability calculus and applications, philosophical issues in inductive logic.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): One PHIL course.  
Needs Permission to Enroll: No  
Special Fee Applied: No

**PHIL 4050 - Symbolic Logic**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Logic and language, nature of argument, meaning and truth, propositional calculus, and predicate calculus.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): PHIL 2500  
Needs Permission to Enroll: No  
Special Fee Applied: No

**PHIL 4060 - Advanced Logic**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Selected topics in logic; e.g., identity, definite descriptions, foundations of mathematics, metalogic, philosophical logic,
as announced in Schedule of Classes. May be repeated as content changes.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** One PHIL course.

**Needs Permission to Enroll:** No

**Special Fee Applied:** No
Notes:

- All 4000-level courses may be applied toward master's degree requirements, subject to limits established by the department and approval of the graduate adviser.
- Classified graduate standing is required for enrollment in 5000-level courses; exception applies to students who are enrolled in a postbaccalaureate certificate or credential program.

### Philosophy (Undergraduate)

- **PHIL 4100 - Social and Political Philosophy**

  (3)

  This course is repeatable: No

Campus: Main Campus

Prerequisite(s): One PHIL course.  
Needs Permission to Enroll: No  
Special Fee Applied: No

• PHIL 4200 - Ethics II  
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1
  
  Course Description: Contemporary meta-ethical theories, analyses of concept of good, analyses of concept of obligation, validation of moral statements, ethical relativism, praise and blame, moral responsibility.  
  Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): One PHIL course.  
Needs Permission to Enroll: No  
Special Fee Applied: No
PHIL 4270 - Environmental Ethics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Philosophical examination of concepts, values and moral principles regarding the natural environment and its relationship to human life. Topics may include biodiversity, animal rights, population, world hunger, pollution, sustainable communities.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): One PHIL course.
Needs Permission to Enroll: No
Special Fee Applied: No

PHIL 4280 - Ethics and Genetics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Ethical implications of “mapping” the human genome. Topics include: genetic testing, privacy and informed consent; behavioral genetics; genetic enhancement and eugenics; genetic discrimination; impact on minorities and indigenous peoples.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): One PHIL course.
Needs Permission to Enroll: No
Special Fee Applied: No

PHIL 4290 - Bioethics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Philosophical consideration of moral issues concerning health and health care, such as decisions about death, reproductive choices, medical experimentation, and justice in allocating health resources.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
PHIL 4330 - Latin American Philosophy

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Philosophical thought in Latin America with emphasis on contemporary philosophers, especially those of Mexico and Argentina.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): One PHIL course.
Needs Permission to Enroll: No
Special Fee Applied: No

PHIL 4360 - South Asian Philosophy

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Exploration of the 4,000-year Indian/South-Asian philosophical traditions, encompassing the early classics, orthodox and unorthodox systems of Indian Philosophy, and modern developments.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): One PHIL course.
Needs Permission to Enroll: No
Special Fee Applied: No

PHIL 4370 - East Asian Philosophy

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Exploration of the philosophical traditions of China, Japan and Korea and the development of those traditions, encompassing Confucianism, Taoism and Buddhism along with their rivals and offshoots.

Hours per Week: 3 lecture hour(s).
PHIL 4450 - Existentialism

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Major works of existential philosophy; relation of existentialism to contemporary value problems; 19th century background and contemporary varieties of existential thought, both religious and nonreligious.

Hours per Week: 3 lecture hour(s).

PHIL 4460 - Phenomenology

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Descriptive and constitutive methodologies of phenomenology; application of phenomenological method to problems in ontology, aesthetics, language, psychology, and social theory.

Hours per Week: 3 lecture hour(s).

PHIL 4470 - Hermeneutics and Critical Theory

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
PHIL 4480 - Postmodernism

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Treatment of the major themes in postmoderism; the departure from modernism and structuralism, deconstruction, the critique of foundationalism in epistemology, ethics and politics; language and construction of meaning.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF

Campus: Main Campus

Prerequisite(s): One PHIL course, preferably in history of modern philosophy.
Needs Permission to Enroll: No
Special Fee Applied: No

PHIL 4490 - Phenomenology and Existentialism

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: This course covers central tradition in 20th century Continental philosophy. Topics may include nature of consciousness, meaning of human existence, prospect of one’s own mortality, consequences of atheism, decentered subjectivity and post-humanity, or alienation.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): One 3 unit philosophy course or instructor permission.
Needs Permission to Enroll: No
Special Fee Applied: No

PHIL 4510 - Aristotle
(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Exposition and analysis of principal works of Aristotle.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): PHIL 3110
Needs Permission to Enroll: No
Special Fee Applied: No

PHIL 4515 - Ancient Thought: Topics in Philosophy, Science, Mathematics, Politics, Aesthetics

(3)

This course is repeatable: Yes  
Max # of units may be repeated: 6  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 3

Course Description: This course covers a topic in Ancient Thought. Topics may include an author or school (e.g., Plato or Aristotle or the Stoics), a period (e.g., pre-Socratic thought), a theme (e.g., proof or conceptions of a good life, mathematics in the time of Plato), a work or several works (e.g., Plato's Republic), or comparisons (e.g., Chinese and Greek virtue ethics or Babylonian and Greek conceptions of mathematics). May be repeated to a maximum of 9 units as subject matter changes.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): One 3 unit philosophy course or instructor permission.
Needs Permission to Enroll: No
Special Fee Applied: No

PHIL 4520 - Medieval Philosophy

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Principal themes in neo-Platonic and/or neo-Aristotelian philosophy, with concentration on teachings of particular figures, e.g., Plotinus, Augustine, Pseudo-Dionysius, Anselm, Bonaventure, Aquinas, Duns Scotus, Ockham.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
• PHIL 4540 - Islamic Philosophy

(3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Central philosophical issues in the Classical era of Islamic thought, 9th to 12th century, such as God’s essence and attributes, causality, cosmology and the eternity of the world, and knowledge. May be repeated to a maximum of 8 units as topics vary.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): One PHIL course.
Needs Permission to Enroll: No
Special Fee Applied: No

• PHIL 4580 - Major Figures in Modern Philosophy

(3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Selected philosophers in the modern era: e.g., Descartes, Hobbes, Spinoza, Locke, Berkeley, Hume, Rousseau and Kant. Specific topic listed in Schedule of Classes. May be repeated to a maximum of 6 units as content changes.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• PHIL 4590 - 19th Century Philosophy

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Selected philosophical themes from Kant to late 19th century; contributions of selected philosophers, e.g.: Kant, Hegel, Marx, Nietzsche, Kierkegaard, Comte and Mill.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): One PHIL course, PHIL 3130 recommended.
Needs Permission to Enroll: No
Special Fee Applied: No

• PHIL 4600 - Metaphysics

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Investigation of fundamental nature of reality and of persons. Topics include some of the following: free will, personal identity, the mind/ body problem, universals and particulars, abstract objects, space/time and causality.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): One PHIL course.
Needs Permission to Enroll: No
Special Fee Applied: No

• PHIL 4700 - Theory of Knowledge

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Investigation of fundamental nature of human knowledge and related concepts, including belief, truth, and justification; additional topics may include: realism and relativism, skepticism, critiques of traditional theory of knowledge.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): PHIL 2500
Needs Permission to Enroll: No
Special Fee Applied: No

• PHIL 4710 - Philosophy of Mind

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Philosophical analysis of concepts of mind, mental phenomena, actions, emotions, and will; philosophical theories of mind.
PHIL 4750 - Aesthetics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Main problems and principal theories of art creation, appreciation and criticism; aesthetic experience and the work of art; principles of aesthetic evaluation and their effect on morality, government, society, science and philosophy.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): One PHIL course.
Needs Permission to Enroll: No
Special Fee Applied: No

PHIL 4800 - Philosophy of Language

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Semantic, syntactic, and pragmatic dimensions of language; theories of signs and meaning; cognitive, emotive, and other features of language; ordinary language and formal language as analytical tools; philosophical importance of language.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): PHIL 2500
Needs Permission to Enroll: No
Special Fee Applied: No

PHIL 4850 - Philosophy of Science

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Philosophical issues in the physical, life, and social sciences. Problems selected for study may include: concept formation, hypotheses and models, meaning and verification, prediction and explanation, causality and natural law.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): PHIL 2500 or upper division standing.
Needs Permission to Enroll: No
Special Fee Applied: No

• PHIL 4900 - Philosophy of Law

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Philosophical investigation of fundamental presuppositions of legal theory, analysis of basic legal concepts.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): One PHIL course.
Needs Permission to Enroll: No
Special Fee Applied: No

• PHIL 4950 - Proseminar: Selected Works in Philosophy

This course is repeatable: Yes
Max # of units may be repeated: 6
Total # of units allowed for credit: 9
Max times this course can be taken for credit: 3

Course Description: Close study of major philosophical writings, stressing meaning, methods of inquiry, and grounds upon which argued. Content varies. May be repeated to a maximum of 12 units for credit as subject matter changes.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Varies with topic
Needs Permission to Enroll: No
Special Fee Applied: No

• PHIL 4960 - Senior Seminar

(3)

(To be continued...)

PHIL 4900 - Philosophy of Law

PHIL 4950 - Proseminar: Selected Works in Philosophy

PHIL 4960 - Senior Seminar
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Reflection on the nature, purposes, methods and styles of Philosophy. Students’ self-assessment of their own philosophical development.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): PHIL 3000, senior standing in Philosophy major.
Needs Permission to Enroll: No
Special Fee Applied: No

PHIL 4990 - Undergraduate Directed Study
(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 7
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 8

Course Description: Project selected in conference with sponsor before registration; progress meetings held regularly. May be repeated to a maximum of 6 units for credit.
Hours per Week: N/A fieldwork / practicum hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Consent of an instructor to act as sponsor.
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

Philosophy (Graduate)

All 4000-level courses may be applied toward master’s degree requirements, subject to limits established by the department and approval of the graduate adviser. Classified graduate standing is required for enrollment in 5000-level courses.

PHIL 5001 - Journal Editing and Production
(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 2
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 3

Course Description: Overview of the techniques for producing a philosophical essay; peer review and copy editing techniques. Class will assist in producing a volume of the student philosophical journal. May be repeated for credit. Permit required.
Hours per Week: N/A fieldwork / practicum hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
• PHIL 5002 - Graduate Philosophical Writing and Journal Production

(3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Advanced writing techniques, focusing on the production, evaluation and revision of philosophical essays; peer review and copy editing techniques. Class will produce a volume of the student philosophical journal. May be repeated for credit. Permit required.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Graduate standing and invitation by the philosophy department.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

• PHIL 5100 - Seminar: History of Philosophy

(3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Advanced study of selected figures and problems in history of philosophy. May be repeated to a maximum of 6 units as subject matter changes.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

• PHIL 5110 - Seminar: History of Ancient Philosophy

(3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Advanced study of selected figures and problems in the history of ancient philosophy. May be repeated to a maximum of 6 units as subject matter changes.

Hours per Week: 0 lecture hour(s).
PHIL 5130 - Seminar: History of Modern Philosophy

This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 8
Max times this course can be taken for credit: 2

Course Description: Advanced study of selected figures and problems in history of modern philosophy. May be repeated to a maximum of 6 units as subject matter changes.

Hours per Week: 0 lecture hour(s).

PHIL 5150 - Seminar: 18th and 19th Century Philosophy

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Advanced study of selected figures and problems in the history of 18th and 19th Century Philosophy. May be repeated to a maximum of 8 units as subject matter changes.

Hours per Week: 0 lecture hour(s).

PHIL 5210 - Seminar: Logic

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2
Course Description: Advanced study of selected problems in deductive or inductive logic. May be repeated to a maximum of 8 units as subject matter changes.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

PHIL 5230 - Seminar: Philosophy of Language

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Advanced study of selected problems in philosophy of language. May be repeated to a maximum of 8 units as subject matter changes.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF

PHIL 5980 - Graduate Directed Study

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 6

Course Description: Independent study of advanced topics in field; regular conferences with sponsor. May be repeated to a maximum of 6 units for credit.
Hours per Week: N/A fieldwork / practicum hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
PHIL 5990 - Thesis

(1-3)

This course is repeatable: Yes
Max # of units may be repeated: 5
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: Independent research resulting in a thesis. May be repeated to maximum of 6 units. Not open to students with prior enrollment in PHIL 5960 comprehensive examinations.

Hours per Week: N/A fieldwork / practicum hour(s).

Grading: CR/NC

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): Advancement to Candidacy, GPA 3.50 or better in first 24 units of MA program, formal approval by department.

Needs Permission to Enroll: Yes, Department Consent

Special Fee Applied: No

---

Physics (Undergraduate)

PHYS 1100 - Physics for the Life Sciences I

(4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 0

Course Description: Fundamental treatment of physics without the use of calculus. Topics include the mechanics of particles and rigid bodies, gravity, simple harmonic motion, waves, sound, fluids, thermal physics, and kinetic theory. Lecture 3 hours, laboratory 3 hours.

Hours per Week: 3 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF

Mode of Delivery: Face to Face

Campus: Main Campus

Prerequisite(s): MATH 1083 or MATH 1085 or MATH 1040

Needs Permission to Enroll: No

Special Fee Applied: No

GE B1* - restricted to specific major

Articulation C-ID: PHYS 100 S or PHYS 105

This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

PHYS 1200 - Physics for the Life Sciences II

(4)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 0

Course Description: Fundamental treatment of physics without the use of calculus. Topics include electricity and magnetism, light and optics, relativity, quanta, atoms, nuclei, and fundamental particles. Lecture 3 hours, laboratory 3 hours.
Hours per Week: 3 lecture hour(s), 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): PHYS 1100
Needs Permission to Enroll: No
Special Fee Applied: No

GE B1* - * restricted to specific major

Articulation C-ID: PHYS 100 S or PHYS 110
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding "C-ID Course" designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

- **PHYS 1560 - Physics for the Twenty-first Century**
  (2)
  
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 2
  Max times this course can be taken for credit: 1
  
  Course Description: Current topics in physics that will play a significant role in social and economic issues of the 21st century. Fundamental physics concepts necessary to understand these topics. Together with **PHYS 1570**, satisfies GE B1.
  Hours per Week: 2 lecture hour(s).
  
  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus
  
  Prerequisite(s): None Corequisite(s): **PHYS 1570**
  Needs Permission to Enroll: No
  Special Fee Applied: No

- **GE B1-Lecture**

- **PHYS 1570 - Physics for the Twenty-first Century Laboratory**
  (1)
  
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 1
  Max times this course can be taken for credit: 1
  
  Course Description: Laboratory experiments designed to complement **PHYS 1560** lecture material and promote utilization of the techniques of scientific inquiry. Students will write reports. Together with PHYS 1560, satisfies GE Block B1.
  Hours per Week: 3 laboratory hour(s).
  
  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus
• PHYS 1980 - General Physics Laboratory

(1)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Provides registration mechanism for transfer students who require lower division laboratory to complete requirements for lower division physics course.
Hours per Week: 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Chair and Advisor Approval Only.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

• PHYS 2100 - General Physics I: Mechanics

(5)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 5
Max times this course can be taken for credit: 1

Course Description: Motion in one, two and three dimensions, Newton's laws of motion, circular motion, work and energy, energy transfer, linear and angular momentum and their conservation, universal gravitation, and periodic motion, Lecture 3 hours, lab 3 hours, tutorial workshop 2 hours.
Hours per Week: 3 lecture hour(s). 3 laboratory hour(s). 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2110 with a grade of C or better.
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

GE B1* - * restricted to specific major

Articulation C-ID: PHYS 205
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

• PHYS 2200 - General Physics II: Electromagnetism and Circuits

(5)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 5
Max times this course can be taken for credit: 1

Course Description: Elementary field theory, basic electricity and magnetism, electromagnetic induction, DC, RC, and RLC circuits, Maxwell's equations, and propagation of light. Lecture 3 hours, lab 3 hours, tutorial workshop 2 hours.

Hours per Week: 3 lecture hour(s). 3 laboratory hour(s). 2 activity hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): PHYS 2100 with a grade of C or better.

Needs Permission to Enroll: No
Special Fee Applied: No

GE B1* - restricted to specific major

Articulation C-ID: PHYS 210
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding "C-ID Course" designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

• PHYS 2510 - Physics Topics in Civil Engineering
  (2)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Topics in physics for civil engineering majors, using calculus. Mechanics of rigid bodies; fluid mechanics; mechanical vibrations and sound; thermal physics. Lecture 2 hours.

Hours per Week: 2 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): PHYS 2100, Pre/Co-requisite(s): MATH 2120

Needs Permission to Enroll: No
Special Fee Applied: No

• PHYS 3120 - Basic Electronics
  (4)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: AC and DC circuits, solid-state circuits and devices, feedback, operational amplifiers, transistor logic gates, Boolean algebra, truth tables, combinational and sequential logic circuits, state machines, ADC, DAC, noise in measurements. Lecture 2 hours, laboratory 6 hours.

Hours per Week: 2 lecture hour(s), 6 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): PHYS 2200
• PHYS 3200 - Physics Computing
  (3)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  Course Description: Introduction to the use of computers in physics. The use of numerical recipes and symbolic manipulation programs for the solution of scientific problems. Lecture 2 hours, laboratory 3 hours.
  Hours per Week: 1 lecture hour(s), 3 laboratory hour(s).
  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): PHYS 1100 or PHYS 2100, MATH 2040 or MATH 2110
  Needs Permission to Enroll: No
  Special Fee Applied: No

• PHYS 3300 - Oscillations, Waves, and Special Relativity
  (4)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 4
  Max times this course can be taken for credit: 1

  Course Description: Mechanical vibrations including simple harmonic motion, forced and damped oscillators, coupled oscillations, and normal modes; wave phenomena including reflection, refraction, diffraction, and interference; optics; and special relativity. Lecture 3 hours, lab 3 hours.
  Hours per Week: 3 lecture hour(s), 3 laboratory hour(s).
  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): MATH 2120, PHYS 2200, both with a grade of C or better.
  Needs Permission to Enroll: No
  Special Fee Applied: No

• PHYS 3400 - Modern Physics and Thermodynamics
  (4)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 4
  Max times this course can be taken for credit: 1

  Course Description: An introduction to modern physics and thermodynamics including: particle and wave properties of light and matter; the Schrödinger equation; models of atomic and molecular structure; the laws of thermodynamics; statistical physics. Lecture 3 hours, lab 3 hours.
  Hours per Week: 3 lecture hour(s), 3 laboratory hour(s).
PHYS 3700 - Energy and the Environment

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduces the science and engineering aspects of the Earth’s natural sources of energy (e.g. the Sun, Wind, and Fossil Fuels), and the current technologies used for generating energy. The impact of energy generation and energy use on the environment will be covered. The course emphasizes how CO2 emissions from the use of fossil fuels for energy, have caused uncontrollable global warming, and how this warming, drives climate change. The renewable energy sources and renewable energy technology that are required to mitigate global warming, will be covered extensively.

Hours per Week: 3 lecture hour(s).

PHYS 3960 - Honors Studies in Physics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 2
Max times this course can be taken for credit: 1

Course Description: Study leading to colloquium presentation required for conferral of Bachelor of Science degree with Departmental Honors in Physics.

Hours per Week: N/A fieldwork / practicum hour(s).

PHYS 4101 - Mathematical Methods of Physics

(3)
PHYS 4102 - Mathematical Methods of Physics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Vector calculus, integration, series, complex variables, special functions, boundary value problems, calculus of variations. Emphasis on mathematical solution of problems in physics.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): PHYS 2200, MATH 2120
Needs Permission to Enroll: No
Special Fee Applied: No

PHYS 4120 - Laboratory Applications of Minicomputers and Microcomputers

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: The use of minicomputers and microcomputers in physics laboratories and research. Fundamentals of data acquisition, interfacing, and data display. Lecture 2 hours, laboratory 6 hours.
Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): PHYS 3120
Needs Permission to Enroll: No
Special Fee Applied: No
• PHYS 4142 - Chemistry and Physics of Materials (also listed as CHEM 4142)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Introduction to the chemistry and physics underlying bulk materials and thin films. Topics include chemical bonding, crystal chemistry, crystal structure, electronic band structure, and magnetism with applications to semiconductors and metals.

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Prereq: MATH 2150 or Graduate Standing
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No

• PHYS 4200 - Introduction to Computational Physics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Use of computers to create numerical laboratories of physical systems by Monte Carlo simulation, by molecular-dynamics simulation, by exact and approximate solutions of quantum dynamics, and by analysis of data bases. Lecture 2 hrs, laboratory 3 hrs.

Hours per Week: 2 lecture hour(s). 3 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): PHYS 3200 or CS 2010 or approval of instructor.
Needs Permission to Enroll: No
Special Fee Applied: No

• PHYS 4251 - Classical Mechanics I

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Application of mathematics to solutions of problems in classical physics with emphasis on Newtonian, Lagrangian, and Hamiltonian mechanics, field theory, and relativity.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2150, PHYS 3300
• PHYS 4252 - Classical Mechanics II

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Application of mathematics to solutions of problems in classical physics with emphasis on Newtonian, Lagrangian, and Hamiltonian mechanics, field theory, and relativity.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): PHYS 4251
Needs Permission to Enroll: No
Special Fee Applied: No

• PHYS 4261 - Electricity and Magnetism I

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Theoretical electricity and magnetism; properties of electric and magnetic fields, electromagnetic waves; emphasis on mathematical solution of problems.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): MATH 2130, PHYS 3300
Needs Permission to Enroll: No
Special Fee Applied: No

• PHYS 4262 - Electricity and Magnetism II

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Theoretical electricity and magnetism; properties of electric and magnetic fields, electromagnetic waves; emphasis on mathematical solution of problems.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
- **PHYS 4270 - Thermal and Statistical Physics**

  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** Introduction to thermodynamics and statistical physics; emphasis on mathematical solution of problems.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF

- **PHYS 4280 - Advanced Statistical Physics**

  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** Introduction to a variety of advanced topics in statistical mechanics, including transport phenomena and fluctuations; emphasis on mathematical solution of problems.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF

- **PHYS 4310 - Modern Optics**

  (3)

  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 3
  Max times this course can be taken for credit: 1

  **Course Description:** Introduction to modern optics; geometric optics by matrix methods, partial polarization, coherence, diffraction, quantum
optics, and developments in laser technology.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** PHYS 3400

**Recommended:** MATH 2150

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**PHYS 4321 - Introductory Quantum Mechanics I**

(3)

**This course is repeatable:** No

**Max # of units may be repeated:** 0

**Total # of units allowed for credit:** 3

**Max times this course can be taken for credit:** 1

**Course Description:** Fundamentals of wave mechanics, wave packets, and the uncertainty principle. Schrödinger's equation, operators and eigenfunctions, one-dimensional problems. Central potential, the hydrogen atom, angular momentum and spin. Identical particles and Pauli Exclusion Principle.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** MATH 2150, PHYS 3400

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**PHYS 4322 - Introductory Quantum Mechanics II**

(3)

**This course is repeatable:** No

**Max # of units may be repeated:** 0

**Total # of units allowed for credit:** 3

**Max times this course can be taken for credit:** 1

**Course Description:** Time-independent perturbation theory, time-dependent perturbation theory, emission and absorption of radiation, and scattering.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** PHYS 4321

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**PHYS 4330 - Solid State Physics I**

(3)
PHYS 3400 - Solid State Physics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Crystal structure, thermal and electrical behavior of insulators, metals, and semiconductors; band theory.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): PHYS 3400, MATH 2150 recommended.
Needs Permission to Enroll: No
Special Fee Applied: No

PHYS 4340 - Solid State Physics II

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Fermi surface, transport theory, superconductivity, magnetic resonance, optical properties, superfluidity, ion implantation.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): PHYS 4330
Needs Permission to Enroll: No
Special Fee Applied: No

PHYS 4430 - Biophysics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Physical aspects of the living state. Theory of physical methods used in the measurement of biological processes. Lecture 3 hours.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): CHEM 1040 or CHEM 1100, MATH 2050 or MATH 2120, PHYS 1200 or PHYS 2200
Needs Permission to Enroll: Yes, Department Consent
Special Fee Applied: No
• PHYS 4440 - Nuclear Physics

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Nuclear phenomenology; alpha, beta, and gamma decays; nuclear reactions, nuclear energy, radiation detectors; radioactivity.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): PHYS 3400; Recommended MATH 2150
Needs Permission to Enroll: No
Special Fee Applied: No

• PHYS 4700 - Advanced Physics Laboratory and Applications

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Instrumentation, techniques, and analytical evaluation involved in current experimental practice; basic experiments in vacuum techniques, and in classical, solid-state, and nuclear physics and materials science. Lecture 1 hour, laboratory 6 hours.

Hours per Week: 1 lecture hour(s), 6 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): PHYS 3400
Needs Permission to Enroll: No
Special Fee Applied: No

• PHYS 4710 - Applied Physics and Instrumentation Laboratory

(3)

This course is repeatable: Yes
Max # of units may be repeated: 3
Total # of units allowed for credit: 6
Max times this course can be taken for credit: 2

Course Description: This course covers advanced instrumentation, experimental techniques, and analytical evaluation used in current experimental practice and contains experiments in a variety of fields, including optics, solid-state physics, and materials science. May be repeated to a maximum of 6 units. Lecture 1 hour, laboratory 6 hours.

Hours per Week: 1 lecture hour(s), 6 laboratory hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): PHYS 4700 or permission of instructor.
- **PHYS 4880 - Modern Topics in General Relativity**
  
  (2)

  Needs Permission to Enroll: No  
  Special Fee Applied: No  
  
  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 2  
  Max times this course can be taken for credit: 1  

  **Course Description:** Introduction to basic ideas of general relativity: physics of spacetime, relativistic stars, gravitational collapse and black holes, gravitational waves, testing of general relativity.  
  **Hours per Week:** 2 lecture hour(s).  

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus  

  **Prerequisite(s):** [PHYS 4251](#), [PHYS 4252](#)  
  Needs Permission to Enroll: No  
  Special Fee Applied: No  

- **PHYS 4910 - Topics in Contemporary Experimental Physics**
  
  (1-3)

  Needs Permission to Enroll: No  
  Special Fee Applied: No  
  
  This course is repeatable: Yes  
  Max # of units may be repeated: 19  
  Total # of units allowed for credit: 20  
  Max times this course can be taken for credit: 20  

  **Course Description:** Each section of course is a lecture series designed to present current developments in research; laboratory program may be included. Specific topics listed in Schedule of Classes and in department. May be repeated for credit.  
  **Hours per Week:** 1 lecture hour(s).  

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus  

  **Prerequisite(s):** Upper division or graduate standing in Physics; others as listed in department announcement.  
  Needs Permission to Enroll: No  
  Special Fee Applied: No  

- **PHYS 4920 - Topics in Contemporary Theoretical Physics**
  
  (1-3)

  Needs Permission to Enroll: No  
  Special Fee Applied: No  
  
  This course is repeatable: Yes  
  Max # of units may be repeated: 19  
  Total # of units allowed for credit: 20  
  Max times this course can be taken for credit: 20  

  **Course Description:** Each section of course is a lecture series designed to present current developments in theory; Specific topics listed in Schedule of Classes and in department. May be repeated for credit.  
  **Hours per Week:** 1 lecture hour(s).  

  **Grading:** ABCDF
Mode of Delivery: Face to Face  
Campus: Main Campus  

Prerequisite(s): Upper division or graduate standing in Physics; others as listed in department announcement.  
Needs Permission to Enroll: No  
Special Fee Applied: No  

- **PHYS 4970 - Undergraduate Research**  
  (1-3)  
  This course is repeatable: Yes  
  Max # of units may be repeated: 15  
  Total # of units allowed for credit: 16  
  Max times this course can be taken for credit: 16  

  **Course Description:** Laboratory work organized on a project basis open to a limited number of qualified physics majors each year. Emphasis on developing experimental ability and initiative of the student. May be repeated for credit.  
  **Hours per Week:** N/A fieldwork / practicum hour(s).  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus  
  
  Prerequisite(s): Faculty Consent.  
  Needs Permission to Enroll: Yes, Instructor Consent  
  Special Fee Applied: No  

- **PHYS 4990 - Undergraduate Directed Study**  
  (1-3)  
  This course is repeatable: Yes  
  Max # of units may be repeated: 15  
  Total # of units allowed for credit: 16  
  Max times this course can be taken for credit: 16  

  **Course Description:** Includes regular conferences with sponsor and preparation of a report. May be repeated for credit.  
  **Hours per Week:** N/A fieldwork / practicum hour(s).  
  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus  
  
  Prerequisite(s): Faculty Consent.  
  Needs Permission to Enroll: Yes, Instructor Consent  
  Special Fee Applied: No  

---  

Physics (Graduate)  

*All 4000-level courses may be applied toward master's degree requirements except the following, subject to limits established by the department and approval of the graduate adviser: PHYS 4100, PHYS 4101, PHYS 4250, PHYS 4251, PHYS 4260, PHYS 4261, PHYS 4270, PHYS 4320, PHYS 4321, PHYS 4700, PHYS 4970, PHYS 4990.*  

*Classified graduate standing is required for admission.*  

- **PH 5950 - Field Experience**
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 0

Course Description: Students will complete a project in a public health setting incorporating concepts and skills learned in prior courses in the MPH program.
Hours per Week: 0 lecture hour(s).

Grading: CR/NC
Mode of Delivery: Face to Face
Campus: Main Campus, DTLA Campus

Prerequisite(s): None
Needs Permission to Enroll: Yes, Instructor Consent
Special Fee Applied: No

* PHYS 5101 - Mathematical Methods of Physics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Intended for beginning graduate students. Problem-solving using techniques current in theoretical physics. Series, integration, complex variables, integral transforms, matrices, eigenvalues, special functions, integral equations, numerical methods, probability and tensors.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): PHYS 4251, PHYS 4261
Needs Permission to Enroll: No
Special Fee Applied: No

* PHYS 5102 - Mathematical Methods of Physics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Intended for beginning graduate students. Problem-solving using techniques current in theoretical physics. Series, integration, complex variables, integral transforms, matrices, eigenvalues, special functions, integral equations, numerical methods, probability and tensors.
Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): PHYS 5101 recommended.
Needs Permission to Enroll: No
• **PHYS 5121 - Modern Physics**

(3)  
This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Hydrogen atom, atomic spectroscopy, electron shell structure, molecular binding, quantum statistics, and theory of solids.  
Hours per Week: 0 lecture hour(s).  
Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus  
Prerequisite(s): PHYS 4251, PHYS 4261  
Needs Permission to Enroll: No  
Special Fee Applied: No

• **PHYS 5122 - Modern Physics**

(3)  
This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: X-rays, properties of nuclei, radioactivity, nuclear forces, elementary particles, cosmic rays, nuclear astrophysics.  
Hours per Week: 0 lecture hour(s).  
Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus  
Prerequisite(s): PHYS 5121 recommended. Recommended: PHYS 5121  
Needs Permission to Enroll: No  
Special Fee Applied: No

• **PHYS 5301 - Theoretical Mechanics**

(3)  
This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1  

Course Description: Hamilton’s principle, Lagrangian formulation of mechanics, conservation and symmetry, general two body problem, rigid body motion and Euler’s equations, small oscillations, special theory of relativity.  
Hours per Week: 3 lecture hour(s).  
Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus
• PHYS 5302 - Electrodynamics

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 0

Course Description: Electrostatics, boundary value problems, dielectrics, magnetostatics, Maxwell’s equations and electromagnetic waves.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): PHYS 5301 recommended.
Needs Permission to Enroll: No
Special Fee Applied: No

• PHYS 5310 - Topics in Electrodynamics

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Continuation and expansion of topics covered in PHYS 5302. Emphasis on special topics and applications such as waveguides, scattering, diffraction, plasma physics, radiation damping, and self fields of a particle.

Hours per Week: 0 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): PHYS 5302
Needs Permission to Enroll: No
Special Fee Applied: No

• PHYS 5321 - Quantum Mechanics

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Formal structure of quantum mechanics, hermitian operators, Schrödinger theory and applications to soluble systems, angular momentum, and rotation matrices, spin, symmetry and conservation laws.

Hours per Week: 3 lecture hour(s).
PHYS 5322 - Quantum Mechanics

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Scattering theory and phase-shift analysis, matrix mechanics, spin, permutation symmetry and identical particles, and approximation methods, and Dirac equation.

Hours per Week: 3 lecture hour(s).

PHYS 5330 - Electronic and Magnetic Properties of Materials

(3)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 0

Course Description: Study of electronic, optical and magnetic properties of materials and their applications. Topics in solid-state physics such as electronic band theory, phonons, transport processes, and collective particle phenomena.

Hours per Week: 0 lecture hour(s).
Course Descriptions

Notes:

- All 4000-level courses may be applied toward master’s degree requirements, subject to limits established by the department and approval of the graduate adviser.
- Classified graduate standing is required for employment in 5000-level courses; exception applies to students who are enrolled in a postbaccalaureate certificate or credential program.

**Physics (Graduate)**

All 4000-level courses may be applied toward master’s degree requirements except the following, subject to limits established by the department and approval of the graduate adviser: PHYS 4100, PHYS 4101, PHYS 4250, PHYS 4251, PHYS 4260, PHYS 4261, PHYS 4270, PHYS 4320, PHYS 4321, PHYS 4700, PHYS 4970, PHYS 4990.

Classified graduate standing is required for admission.

- **PHYS 5420 - Physics Research Conference**
  
  (1)

  **Course Description:** Weekly meetings of faculty and students for report and discussion of recent developments in physics. Includes presentations by faculty, advanced students, or invited speakers. May be repeated to maximum of 2 units.

  **Hours per Week:** 0 lecture hour(s).

  **Grading:** CR/NC

  **Mode of Delivery:** Face to Face

  **Campus:** Main Campus

  **Prerequisite(s):** None

  **Needs Permission to Enroll:** No
**PHYS 5440 - Theoretical Nuclear Physics**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Selected topics from theory of nuclear models, nuclear reactions, and symmetry properties of elementary particles.  
Hours per Week: 0 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): PHYS 5101, PHYS 5321  
Needs Permission to Enroll: No  
Special Fee Applied: No

**PHYS 5731 - Theory of Nuclear Magnetic Resonance and its Applications to Materials Physics**

(3)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 3  
Max times this course can be taken for credit: 1

Course Description: Introduction to the physical principles of NMR spectroscopy, broadband NMR spectroscopy methods and instrumentation, and applications of NMR techniques to the study of materials. Lecture 3 hours.  
Hours per Week: 3 lecture hour(s).

Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus

Prerequisite(s): None  
Pre/Co-requisite(s): PHYS 5101, PHYS 5330  
Recommended: PHYS 5732  
Needs Permission to Enroll: No  
Special Fee Applied: No

**PHYS 5732 - Practical Implementation of Nuclear Magnetic Resonance and Applications to Materials Physics**

(1)

This course is repeatable: No  
Max # of units may be repeated: 0  
Total # of units allowed for credit: 1  
Max times this course can be taken for credit: 1

Course Description: Practical training in broadband NMR spectroscopy methods and instrumentation; specific implementation of NMR techniques to the study of materials. Lab 3 hours.  
Hours per Week: 3 laboratory hour(s).
Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None Pre/Co-requisite(s): PHYS 5101, PHYS 5330, and PHYS 5731
Needs Permission to Enroll: No
Special Fee Applied: No

- PHYS 5920 - Seminar: Contemporary Physics
  (1-3)
  This course is repeatable: Yes
  Max # of units may be repeated: 9
  Total # of units allowed for credit: 10
  Max times this course can be taken for credit: 10

  Course Description: Current topics in theoretical and/or experimental physics. May be repeated to maximum of 16 units as subject matter changes.
  Hours per Week: 0 lecture hour(s).

  Grading: ABCDF
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): Departmental approval.
  Needs Permission to Enroll: Yes, Department Consent
  Special Fee Applied: No

- PHYS 5960 - Comprehensive Examination
  (0)
  This course is repeatable: No
  Max # of units may be repeated: 0
  Total # of units allowed for credit: 0
  Max times this course can be taken for credit: 1

  Course Description: All Course Option candidates must pass an examination administered by the department. This examination may be supplemented by an oral examination at the discretion of the examining committee. See the Comprehensive Examination under the University Requirements for Master's Degree in this eCatalog.
  Hours per Week: 0 lecture hour(s).

  Grading: CR/NC
  Mode of Delivery: Face to Face
  Campus: Main Campus

  Prerequisite(s): Comply with College and Department Requirements.
  Needs Permission to Enroll: Yes, Department Consent
  Special Fee Applied: No

- PHYS 5970 - Graduate Research
  (1-3)
  This course is repeatable: Yes
  Max # of units may be repeated: 3
  Total # of units allowed for credit: 4
  Max times this course can be taken for credit: 4
**PHYS 5980 - Graduate Directed Study**  
(1-3)  
This course is repeatable: Yes  
Max # of units may be repeated: 5  
Total # of units allowed for credit: 6  
Max times this course can be taken for credit: 6  

Course Description: Independent study of advanced topics in the field; regular conferences with the sponsor. May be repeated for credit.  
Hours per Week: N/A fieldwork / practicum hour(s).  
Grading: ABCDF  
Mode of Delivery: Face to Face  
Campus: Main Campus  
Prerequisite(s): Faculty Consent; Department Approval.  
Needs Permission to Enroll: Yes, Department Consent  
Special Fee Applied: No

**PHYS 5990 - Thesis**  
(1-3)  
This course is repeatable: Yes  
Max # of units may be repeated: 5  
Total # of units allowed for credit: 6  
Max times this course can be taken for credit: 6  

Course Description: Independent research resulting in a thesis. May be repeated to a maximum of 6 units.  
Hours per Week: N/A fieldwork / practicum hour(s).  
Grading: CR/NC  
Mode of Delivery: Face to Face  
Campus: Main Campus  
Prerequisite(s): Advancement to Candidacy, Faculty Consent, Departmental Approval of topic prior to enrollment in course.  
Needs Permission to Enroll: Yes, Instructor Consent  
Special Fee Applied: No

---

**Political Science (Undergraduate)**

POLS 1500 is prerequisite to all upper division POLS courses except POLS 3100, POLS 3220, POLS 3300, POLS 3420, POLS 3510, POLS 3580, POLS 3600 and POLS 4260.

*The department recommends completion of the 3000 level required courses before enrolling in 4000 level courses.*
POLS 1000 - Power, Politics and Engagement in US Government

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 0

Course Description: American political system with an emphasis on role and function of government in social context of a democratic political system. Satisfies U.S. Constitution and California state and local government requirements. Not open to students who have completed an introductory college course in U.S. government. Some sections of this course will be offered in fully online (100%), and hybrid (50% face-to-face / 50% online) formats.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid, Online
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE AM-Government

Articulation C-ID: POLS 110
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

POLS 1555 - Critical Analysis of Political Communication

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Critical analysis of ideological messages, political biases, and manipulative devices in all forms of communication; from newspaper reporting to scholarly texts, from films to television news to social media.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE A2.
Needs Permission to Enroll: No
Special Fee Applied: No

GE A3

POLS 2000 - California State and Local Government

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 1
Max times this course can be taken for credit: 1

Course Description: Functions and structure of California state and local government units, current aspects of governmental process and
problems in state. Satisfies California state and local government requirement.

Hours per Week: 1 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE AM-Government

- POLS 2500 - World Politics in Films and Media

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examine major issues among states using film and other forms of media to learn theories, policies, and events. Some sections may be offered in a hybrid (50% face-to-face, 50% online) format.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus
Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

GE D

Articulation C-ID: POLS 140
This University course articulates with any California Community College (CCC) course that is approved by the C-ID program and given the corresponding “C-ID Course” designation listed here. The articulation is one-way articulation, meaning the approved community college course will articulate for the indicated course credit at the four-year university. Articulation does NOT apply from the four-year institution to the community college or between the four-year institutions.

- POLS 2810 - Quantitative Research Design in Political Science

This course is repeatable: No
Max # of units may be repeated: 4
Total # of units allowed for credit: 4
Max times this course can be taken for credit: 1

Course Description: Emphasis on practical applications of statistics skills and quantitative research design in political science. Topics include descriptive and inferential statistics, distributions on a single variable, associations between two variables, tests of hypotheses, multivariate analysis, and individual research projects.

Hours per Week: 4 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
Prerequisite(s): POLS 1000
Needs Permission to Enroll: No
Special Fee Applied: No
POLS 3100 - Gender, Politics, and Government

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: The influence of gender and sexual orientation on political behavior, on elective and appointive government institutions, and on public policies; historical reasons for gender-related differences, political movements to overcome discrimination, and analysis of emerging trends. 3 hours.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
Needs Permission to Enroll: No
Special Fee Applied: No

GE UD D (d)

POLS 3290 - Class, Civil Rights, and Gender in Late Modern Political Thought

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examination of the intersection of race, class, and gender in nineteenth and early twentieth century political thought. Lecture 3 hours.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
Needs Permission to Enroll: No
Special Fee Applied: No

GE UD D (d) (wi)

POLS 3300 - Politics of Aging

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Effects of older Americans on the political system. Political and policy analysis of retirement, and old age programs;
political challenges of intergenerational equity; identification of emerging trends.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

**GE UD D (d)**

---

**POLS 3420 - Rights and Justice (also listed as COMM 3420)**

(3)

**This course is repeatable:** No

**Max # of units may be repeated:** 0

**Total # of units allowed for credit:** 3

**Max times this course can be taken for credit:** 1

**Course Description:** This course analyzes the evolution of the freedom of speech and equal protection in the United States, with particular emphasis on issues of race and ethnicity. Some sections of the course will be taught online. Some sections of this course will be offered ONLINE.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face, Online

**Campus:** Main Campus

**Prerequisite(s):** Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

**GE UD C (d)**

---

**POLS 3450 - The Politics of Science**

(3)

**This course is repeatable:** No

**Max # of units may be repeated:** 0

**Total # of units allowed for credit:** 3

**Max times this course can be taken for credit:** 1

**Course Description:** Examines the intersection of politics and science, including the allocation of resources, funding, and the ethical issues that arise as science is used to support, critique, and defend public policy.

**Hours per Week:** 3 lecture hour(s).

**Grading:** ABCDF

**Mode of Delivery:** Face to Face

**Campus:** Main Campus

**Prerequisite(s):** POLS 1000

**Needs Permission to Enroll:** No

**Special Fee Applied:** No

---

**POLS 3500 - State Politics and Policy**
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Using civic learning to understand politics and policy at the state and local levels, relations among the national, state, and local governments. Emphasis on California problems and politics and its impact on diverse communities. Meets the graduation requirement for California government.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
Needs Permission to Enroll: No
Special Fee Applied: No

GE UD D

- POLS 3580 - Environmental Policy and Management

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Evaluate the social cost of environmental damage from multiple perspectives and government efforts to ameliorate those costs; equity, efficiency, and effectiveness of various public policies designed to address environmental damage. Some sections may be offered in a hybrid (50% face-to-face, 50% online) format.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face, Hybrid
Campus: Main Campus

Prerequisite(s): Completion of GE 4 basic subjects and a course each from lower division Blocks B, C and D.
Needs Permission to Enroll: No
Special Fee Applied: No

GE UD D

- POLS 3600 - Dynamics of Change in the Developing World (also listed as LAS 3600, PAS 3600)

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: How the colonized and post-colonial world developed and how it is changing in relation to the rest of the world.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus
POLS 3710 - Foundations of American Politics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Analysis of the structure, functions and relationships among American national institutions, including executive, legislative and judicial branches, media, political parties, citizens and groups.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): POLS 1000
Needs Permission to Enroll: No
Special Fee Applied: No

POLS 3720 - Foundations of Political Theory

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Examination of key concepts and foundational questions central to understanding eastern and western political thought. Course typically covers authors ranging from Confucius and Plato to Martin Luther King and Malcolm X.

Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): POLS 1000
Needs Permission to Enroll: No
Special Fee Applied: No

POLS 3730 - Foundations of Comparative Politics

This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Upper division core requirement. Study of the comparative method and of major research traditions and topics in comparative politics. Some sections may be offered in a hybrid (50% face-to-face, 50% online) format.

Hours per Week: 3 lecture hour(s).
• **POLS 3740 - Foundations of Global Politics**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1

  **Course Description:** Upper division core requirement. Global politics examines the far-reaching political implications of globalization on nation-states, international regimes and organizations, global security, and non-state actors.

  **Hours per Week:** 3 lecture hour(s).

  **Grading:** ABCDF  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

  **Prerequisite(s):** POLS 1000

• **POLS 3950 - Community Service in Political Science**

  (1-3)

  This course is repeatable: Yes  
  Max # of units may be repeated: 5  
  Total # of units allowed for credit: 6  
  Max times this course can be taken for credit: 6

  **Course Description:** Participation in work of community agency or activity utilizing professional or vocational skills in service to community. Credit not applicable toward political science major. May be repeated to maximum of 9 units.

  **Hours per Week:** N/A fieldwork / practicum hour(s).

  **Grading:** CR/NC  
  **Mode of Delivery:** Face to Face  
  **Campus:** Main Campus

• **POLS 4000 - Power and Policy in Washington: Congress and the President**

  (3)

  This course is repeatable: No  
  Max # of units may be repeated: 0  
  Total # of units allowed for credit: 3  
  Max times this course can be taken for credit: 1
Course Description: Structure, functioning, and interaction between Congress and the presidency.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): POLS 1000, all POLS 3000 level core courses
Needs Permission to Enroll: No
Special Fee Applied: No

POLS 4030 - State and Local Government

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1

Course Description: Nature of state politics, analysis of legislative, judicial, and administrative organization and process; local government in metropolitan areas; all with reference to California.
Hours per Week: 3 lecture hour(s).

Grading: ABCDF
Mode of Delivery: Face to Face
Campus: Main Campus

Prerequisite(s): None
Needs Permission to Enroll: No
Special Fee Applied: No

POLS 4040 - Urban Government and Politics

(3)
This course is repeatable: No
Max # of units may be repeated: 0
Total # of units allowed for credit: 3
Max times this course can be taken for credit: 1
